

ARCHITECTURAL STUDIES, BS

The Bachelor of Science, Architectural Studies (BSAS) is a four-year undergraduate pre-professional program that prepares students for graduate studies in architecture and related design and construction fields. The primary goal of the BSAS program is to introduce students to architecture as both a technical and cultural practice. Students accrue skills in architectural thinking, design, visualization, fabrication, prototyping and simulation. The program lays a foundation of unique problem-solving skills empowering students to change the world.

The four-year BSAS program is comprised of a three-year core, followed by one year of specialized and individualized study. Over the course of their studies, BSAS students enroll in a variety of design studios, lectures and seminars to accrue skills in architectural making, thinking, design, visualization, digital fabrication, prototyping, and simulation. In addition to learning essential analytical and creative-problem solving skills through design, students are required to complete courses in architectural systems (structures, construction and environmental/building technology), behavioral, social and cultural factors in design, and the role of criticism in contemporary architecture and urbanism. In their fourth year, students select from a wide range of architectural electives and advanced studios, allowing them the opportunity to craft a curriculum based on their areas of interest.

Graduates of the BSAS program can continue their studies at the UW-Milwaukee School of Architecture and Urban Planning by applying to the Master of Architecture (M.Arch) (<https://catalog.uwm.edu/architecture-urban-planning/architecture/architecture-march/>), Master of Science in Architecture (M.S.) (<https://catalog.uwm.edu/architecture-urban-planning/architecture/architecture-ms/>), or Master of Urban Planning (MUP) (<https://catalog.uwm.edu/architecture-urban-planning/urban-planning/urban-planning-mup/>) program.

Admission Standards

New Freshmen

New freshman admission to the School of Architecture and Urban Planning is based on an overall assessment of both academic and non-academic qualifications. The primary review factors for admission are the strength and quality of the high school curriculum, high school class percentile, grade point average, and the ACT or SAT. For preferential consideration, applications (including ACT or SAT scores) must be completed no later than March 1 (for summer/fall term) or December 1 (for spring term). Applications not complete by the priority date or not meeting these admission criteria will be considered on a space-available basis.

See general freshman admission requirements (<https://catalog.uwm.edu/admission-costs/undergraduate-admission/#freshmantext>) of the University for additional information.

Academically qualified international student applicants must have a TOEFL score of at least 79 (iBT) or IELTS score of 6.0, or may be admitted following successful completion of the Intensive English Program at UWM, as demonstrated by an appropriate TOEFL score.

Transfer Students

Transfer students are admitted on a selective basis. Preference is given to students whose applications are completed, including all required supporting documents, no later than April 1 (for the following summer/fall term) or November 1 (for the following spring term) and who have

completed (or will have completed by the anticipated enrollment date) at least 24 degree credits with a cumulative grade point average of at least 2.5 (on a 4.0 scale). In addition, transfer applicants must meet the same high school English and mathematics course requirements as new freshman applicants. International transfer student applicants also must meet the minimum TOEFL requirement.

Students enrolled in other UWM schools or colleges who wish to enter the architecture program will also be considered for admission on the basis of the criteria listed above. Interested students should schedule an appointment with Tammy Taylor, Undergraduate Advisor, (414) 229-4015.

Second Degree Students

Second-degree candidates enrolled in architecture courses are classified as seniors in architecture. They are not subject to the University's General Education Requirements; however, they must complete (or have completed) the Mathematics and Physics Competency Requirements. Admission to the School as a second-degree candidate requires a cumulative grade point average of at least 2.75 (on a 4.0 scale) on the previous undergraduate record. Applications must be completed no later than March 1 (for the summer/fall term) or October 1 (for the spring term). For information on second-degree requirements, students should schedule an appointment with Tammy Taylor, Undergraduate Advisor, (414) 229-4015.

Level 1 (Pre-Architecture)

Students applying to the University of Wisconsin-Milwaukee and declaring a primary interest in architectural studies on their application forms will be designated as Architectural Studies Level 1 (Pre-Architecture) students. They will be advised by the School's undergraduate advisor in the Student Advising Office. The policies and procedures of the School of Architecture and Urban Planning apply to admitted students, even though they may be enrolled in courses in another school or college at UWM.

Pre-Architecture students are not automatically accepted into the Level 2 program.

Level 2 (Architectural Studies)

Entrance into Level 2 requires the following standards: completion of a minimum of 30 credits (sophomore standing); a cumulative GPA of at least 2.75 in both the overall college record and required Level 1 architecture courses (ARCH 100, ARCH 102, ARCH 103, and ARCH 104, or their equivalent). Because enrollment is contingent upon available staffing and facilities, satisfaction of the minimum requirements does not guarantee admission to Level 2. The academic quality of the student's Level 1 studies are carefully reviewed by the School's BSAS Committee. Admission to the University does not guarantee acceptance by the Department of Architecture.

Enrollment priority is given to students with the highest cumulative GPAs for admission into ARCH 310, the first introductory core studio in Level 2.

Transfer students applying to Level 2 must demonstrate that they have taken the equivalent of the Level 1 program of study (ARCH 100, ARCH 102, ARCH 103, and ARCH 104).

Advanced students transferring from another architectural or related program (design, engineering, landscape architecture) may petition the BSAS Committee for advanced standing. Students must show that prior coursework parallels coursework in the Level 2 program. A minimum of

two semesters of work, consisting of at least 24 credits in total, must be completed in residency for the bachelor's degree.

BSAS Requirements

The minimum credits needed to graduate from this program is 120. Completion of this degree does not guarantee admission to graduate programs in architecture at UWM.

For the BSAS degree, at least the last 24 credits must be earned in residency at UWM. The minimum cumulative GPA required for all UWM credits and for all architecture credits attempted is 2.5.

Code	Title	Credits
<i>Level 1 Architecture Courses (first year)</i> ¹		
ARCH 100	Architectural Making I ²	3
ARCH 102	Architectural Thinking I	3
ARCH 103	Architectural Making II	3
ARCH 104	Architectural Thinking II	3
<i>Competency Requirements</i>		
English:		3-6
Oral and Written Communication Competency - Part A: Complete ENGLISH 102 with a grade of C or higher or place beyond ENGLISH 102 on the English Placement Exam (EPT) or other appropriate test, as determined by the English Department		
Oral and Written Communication Competency - Part B: Complete at least one OWC - B course ³		
Mathematics:		3-6
Quantitative Literacy Competency - Part A: Placement code of a 40 on the Math Placement Test or other appropriate test, as determined by the Mathematical Sciences Department		
Quantitative Literacy Competency - Part B: Complete at least one QL-B course ³		
Physics:		
Select a college-level physics course from the following (or higher):		2-4
PHYSICS 100	Quantitative Preparation for Physics	
PHYSICS 107	Physics in Everyday Life	
PHYSICS 120	General Physics I (Non-Calculus Treatment)	
Foreign Language		0-8
Satisfied by one of the following:		
Complete two years of a single foreign language in high school		
Complete two semesters of a single foreign language in college		
Demonstrate ability by examination		
<i>Directed Electives</i> ^{4,5}		
Arts ²		3
Humanities		6
Social Sciences		6
Natural Sciences, to include a lab		6
<i>Level 2 Introductory Core Studios (second year)</i>		
ARCH 310	Fundamentals of Architectural Design I	6
ARCH 320	Fundamentals of Architectural Design II	6
<i>Level 2 Core Studios (third year)</i>		
ARCH 410	Architectural Design I	6

ARCH 420	Architectural Design II	6
<i>Level 2 Core Lectures</i>		
ARCH 282	Visualization 1	3
ARCH 283	Visualization 2	3
ARCH 301	Architecture Systems 1	3
ARCH 302	Architecture and Human Behavior	3
ARCH 303	Architecture Systems 2	3
ARCH 304	Contemporary Criticism and Urbanism	3
<i>Level 2 Electives</i>		
Select 24 Arch elective credits at the 300 level or above ⁶		24
Select 9 elective credits at the 300 level or above		9
Select additional elective credits from any area and any level as needed ⁷		2
Total Credits		120-134

- ¹ In addition, the Department occasionally offers a special topics course (ARCH 190) for experimental coursework.
- ² ARCH 100 will count towards the student's GER Art's distribution requirements.
- ³ See Schedule of Classes (<http://www4.uwm.edu/schedule/>) for this listing.
- ⁴ One course must satisfy the GER Cultural Diversity Requirement. A list of courses is provided in the online Schedule of Classes each semester under "General Education Requirements". One course must satisfy the Service Learning Requirement. A list of courses is provided in the online Schedule of Classes each semester.
- ⁵ The Department requires courses outside the department to give students a foundation in the arts, humanities, social sciences, and natural sciences. These courses satisfy the distribution area of the UWM General Education Requirements (GER).
- ⁶ This coursework must be completed in the Department of Architecture. Twelve credits within this requirement must be ARCH 650.
- ⁷ Additional elective credits required depends on prior coursework. Consult your advisor.

Plan of Study

The study of architecture at UWM consists of three levels that lead to the accredited professional degree of Master of Architecture. Students can enter the program at various levels depending on their background. Students with previous non-professional baccalaureate degrees should visit the Master of Architecture (M.Arch) (<https://catalog.uwm.edu/arts-architecture/architecture-urban-planning/architecture/architecture-march/>), Master of Science in Architecture (M.S.) (<https://catalog.uwm.edu/arts-architecture/architecture-urban-planning/architecture/architecture-ms/>), or Master of Urban Planning (MUP) (<https://catalog.uwm.edu/arts-architecture/architecture-urban-planning/urban-planning-mup/>) program pages for additional information.

All undergraduate students are required to meet the UWM General Education Requirements.

Level 1 (Pre-Architecture)

Freshman year should be taken at UWM. If taken at another institution whose credits are accepted for transfer by UWM, the student is expected to achieve equivalent background and skills. Significant differences in courses will require that additional coursework be completed prior to Level 2 admission.

Level 2 (Architectural Studies)

Sophomore, junior, and senior years, taken in the Department of Architecture. This period provides a general introduction to the problems and techniques of architectural design. Students who are accepted into Level 2 and complete the program receive the Bachelor of Science in Architectural Studies. This is not an accredited professional degree. It can provide, however, a foundation for employment as a non-professional in architecture or in fields related to architecture, construction, design, and planning, or for graduate study in architecture or in other disciplines concerned with the physical environment.

Year 1			
Semester 1			Credits
ARCH 100	Architectural Making I		3
ARCH 102	Architectural Thinking I		3
ARCH 110	New Student Orientation		1

Total Credits		122-123

¹ Elective studios are a form of creative project-based research.

² Elective seminars and workshops are 3-credit classes investigating architectural issues through critical reading, thorough research, student discussions, and scholarly production.

Honors and High Honors in the Major

Honors in the Major are granted to students who have earned a GPA of 3.500 or above for courses in the major and 3.250 GPA on the last 60 credits taken in residence at UWM (Level 2).

High Honors in the Major are granted to students who have earned a GPA of 3.750 or above for courses in the major and 3.500 GPA on the last 60 credits taken in residence at UWM (Level 2).

Dean's Honors are granted to graduating seniors with the two highest cum GPAs (Level 2).

College of the Arts and Architecture Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (<https://catalog.uwm.edu/honors-college/>) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Opportunities

The Department of Architecture provides the following opportunities for students and faculty to develop coursework with a special focus.

The **Independent Studies** course (ARCH 392) rewards students with credits for worthwhile activities originated by the students, such as special reading or research programs, community service, or independent design projects. To be eligible, students in the Department of Architecture

must have completed one semester of work and must have a cumulative GPA of at least 3.0 in their work in the Department. Students in other UWM departments must have the permission of their own departments and the Department of Architecture.

The **Directed Research** course (ARCH 391) offers an opportunity for students to participate in current research projects of architecture faculty. Eligibility and approval for registration are at the discretion of the faculty members in charge of the projects.

The **Special Topics** course (ARCH 390) permits individual faculty members to develop special subjects on a one-semester basis. Special Topics courses are announced at registration for the following semester.

The Department has developed a semester-long Study Abroad Program that allows students to combine foreign travel and study under the tutelage of one or more departmental faculty member(s). The location of the program may vary from year to year. Admission to the program is selective, based on the student's previous academic performance.
