

# ENTERPRISE RESOURCE PLANNING, GRADUATE CERTIFICATE

## Unlock Your Future with the Online Graduate Certificate in Enterprise Resource Planning (ERP)

Are you a graduate student eager to dive into the world of Enterprise Resource Planning (ERP)? Our Online Graduate Certificate in ERP offers a focused sequence of graduate-level courses designed to equip you with the skills to master these critical information systems. ERP systems seamlessly integrate a company's operations, from purchasing and production to sales, service, accounting, supply chain, finance, asset management, and customer/supplier relationships.

The growing use of ERP systems in organizations is driving the need for IT professionals with ERP competencies. Our program leverages the significant SAP expertise of faculty at the Lubar College, which is home to one of only five SAP University Competence Centers in the world.

SAP is a cornerstone for modern businesses, providing a unified platform that enhances efficiency, productivity, and decision-making across all departments. This makes SAP skills invaluable for all business majors, whether you're focusing on finance, marketing, supply chain management, or any other business discipline.

This five-course sequence includes a simulation game and instruction in the use of business intelligence tools. The certificate can be completed in less than one year and can be pursued as a standalone certificate or in combination with a master's degree program.

No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

### Grade Point Average Requirement

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

### Articulation with Degree Programs

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
  - Degree programs must approve the courses from certificates that can double count toward the degree.
  - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in PhD programs must still complete the minimum residency requirements)
  - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

## **Time Limit**

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.
