MANAGEMENT, MS: ACCOUNTING

The MS in Management - Accounting (MS-A) concentration prepares students for entry into the accounting profession as a Certified Public Accountant (CPA). Employers seek mature students with diverse prior undergraduate education backgrounds and work experiences. The program efficiently covers basic accounting principles and adds graduate level coursework in accounting for governmental and not-for-profit organizations, advanced accounting theory, decision-focused management accounting, and tax compliance and planning.

The program prepares students for success on the CPA exam. Graduates boast a pass rate substantially above national averages. Because the program is separately accredited in accounting by the AACSB (one of three such schools in Wisconsin), graduates automatically meets the requirements to take the CPA Exam and to be licensed as a CPA in Wisconsin.

Potential students typically take foundation courses prior to entering the program. Success in the foundation courses assures success in the program. The graduate program can be completed on a full-time basis in two semesters and a summer. Part-time students can complete the program in two years. A faculty member custom designs a program for each student. In most cases, a full-time internship is included for full-time students. The internship normally lead to full-time employment upon graduation.

A large portion of MS-A students intern and upon graduation take full-time positions in CPA firms ranging from "The Big 4" international firms to local practices. Other students choose industry positions which include Wisconsin's largest corporations and financial institutions.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/Registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus the following program requirements to be considered for admission:

- A bachelor’s degree from an accredited college or university.
- Submission of score on the Graduate Management Admission Test (GMAT) (http://uwm.edu/graduateschool/admission/#gmat).
- Review by the Master of Science Program Committee to assess academic achievement and ability to do intensive graduate-level work.

Applicants admitted to the MS program may be required to complete management foundation courses. Individual areas of concentration require different foundation courses. (See Lubars School of Business MBA/M.S. brochure and the Lubars School of Business Website (http://www4.uwm.edu/business) for details.) Foundation courses will be waived if students have completed equivalent coursework. Credits earned in these courses do not count toward the degree.

Students select the area of concentration most suited to their educational goals. The areas of concentration in the program are:

- Accounting (first professional degree—open only for students with non-accounting majors at baccalaureate level);
- Professional Accounting (program open to students who have completed an undergraduate degree in accounting);
- Finance Analysis;
- Marketing;
- Taxation.

If a student is waived out of a required course, an approved elective course must be substituted in its place and approved by Graduate Program Services (Lubar N251).

The major professor, in consultation with the student, reviews the student’s academic background and career goals and designs an appropriate program of study consistent with degree requirements. In developing a program of study for a student who has no undergraduate background in business administration, care is taken to ensure a basic exposure to different aspects of the management field as well as an in-depth preparation in the chosen field of specialization.

Credits and Courses

The minimum degree requirement for the Master of Science in Management degree concentrations varies from 30-33 graduate credits.

In the 30-credit concentrations, at least 18 credits must be taken in the Accounting program. Students select one 30-credit concentration from the following topics:

- Accounting
- Environmental Accounting
- Management Accounting
- Taxation

In the 33-credit concentrations, at least 18 credits must be taken in the Accounting program. Students select two 30-credit concentrations from the following topics:

- Accounting
- Environmental Accounting
- Management Accounting
- Taxation

In the 30-credit concentrations, at least 18 credits must be taken in the Accounting program. Students select one 30-credit concentration from the following topics:

- Accounting
- Environmental Accounting
- Management Accounting
- Taxation

In the 33-credit concentrations, at least 18 credits must be taken in the Accounting program. Students select two 30-credit concentrations from the following topics:

- Accounting
- Environmental Accounting
- Management Accounting
- Taxation

Electives provide distinction to each individual program. Through proper selection and packaging, each student can design a program to meet individual educational objectives while maintaining a high degree of academic strength. These courses may be selected from the many available in the Lubars School of Business, or from among those offered in graduate programs of other UWM departments.

Program Requirements

Students in the MS program have the option of doing a management research project. This option gives students the opportunity to apply methodological techniques and area studies. The urban location and
strong ties with the business sector provide opportunities for student projects.

**Major Professor as Advisor**
Students in the MS program must choose a major professor during the first ten weeks of their first semester of graduate enrollment to advise and supervise their studies. A listing of faculty by area of interest is sent to each M.S. student to aid in their selection of a major professor. This list is also available in the Graduate Programs Services office, Lubar N251.

**The Management Research Project/Thesis**
The Management Research Project/Thesis is a variable 2-6 credit management research project.

**Comprehensive Examination**
Students must pass a final oral examination if they choose a 4-6-credit management research project or thesis.

**Time Limit**
The student must complete all degree requirements within five years of initial enrollment. In areas of concentration in which the total number of degree credits required exceeds 30, the student must complete all degree requirements within seven years of initial enrollment.
