EDUCATIONAL PSYCHOLOGY, PhD: SCHOOL PSYCHOLOGY

The doctoral specialization in School Psychology adheres to a scientist-practitioner model of training and is designed to fully integrate psychological theory with rigorous research and professional practice skills. The program is committed to training multi-culturally competent school psychologists. The PhD program is accredited by the American Psychological Association and approved by the National Association of School Psychologists.

The School Psychology program has five major goals. It aims to prepare school psychologists to:

- Design and implement evidence-based therapeutic interventions that meet the mental health and educational needs of children, adolescents and families
- Engage in problem-solving consultation within and across schools and community settings with families and professionals to enhance the competencies and resilience of youth and to promote healthy home, school and community environments
- Conduct comprehensive assessments that are directly linked to interventions aimed at improving understanding and outcomes of youth, families and schools
- Provide service delivery and to conduct research that reflects APA and NASP ethical and professional standards
- Conduct, interpret, critique and disseminate high quality scientist-practitioner research that advances the field of school psychology

Educational Psychology PhD

The goal of the Doctor of Philosophy in Educational Psychology is to prepare psychologists, researchers and educational professionals to effectively work on the unique challenges of promoting education, learning, and mental health in urban environments. The four areas of emphasis in the doctoral program are:

- Counseling Psychology
- Cognitive and Developmental Sciences
- Educational Statistics and Measurement
- School Psychology

See the Educational Psychology Website (https://uwm.edu/education/academics/educational-psychology-department/) for more information on these areas.

The Counseling Psychology and School Psychology specializations at the master’s and doctoral level are accredited by the American Psychological Association (APA).

Admission Requirements

Application Deadlines
Application deadlines vary by program, please review the application deadline chart (http://uwm.edu/graduateschool/program-deadlines/) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (https://uwm.edu/onestop/dates-and-deadlines/).

Admission
To be considered for admission to the program applicants must complete the Graduate School online application, and satisfy all UWM Graduate School admission requirements in addition to the following program requirements:

- Undergraduate GPA of at least 3.0.
- A letter outlining the applicant’s academic and professional background, declaration of School Psychology as the Area of Concentration, as well as specific research interests and goals for the PhD program.
- Three letters of recommendation from individuals familiar with the applicant’s intellectual achievement and potential.
- Resume or curriculum vita.

In addition to the requirements listed below, please refer to the program handbook.

## Additional Requirements

### Advising and the Major Professor

Upon admission to the doctoral program in Educational Psychology, students are assigned a temporary advisor in their area of emphasis (e.g., Counseling Psychology, Cognitive and Developmental Sciences, Educational Statistics and Measurement, or School Psychology). This person is available to discuss initial course selection and provide general advice about the program. After beginning the program and before filing a Student Academic Plan, students should seek a Major Professor. The permanent Major Professor may—but does not have to be—the same person who is the temporary advisor. Students must select an advisor in their area of emphasis. Selection of a Major Professor is by mutual consent between the student and the faculty member. Students should notify the Training Director within their emphasis when the Major Professor has been selected.

### Residence

The student must meet minimum Graduate School residence requirements (http://uwm.edu/graduateschool/doctoral-requirements/#residence) of one continuous academic year of full-time graduate studies at UWM. This can be satisfied by completing at least 8 graduate credits in each of two consecutive semesters, or 6 or more graduate credits in each of three consecutive semesters.

### Practicum

Students are required to complete practicum requirements to become licensed.

### Internship

Following Practicum, students are required to complete a year-long internship in order to be licensed.

### Publishable Paper

Students are required to work with faculty to have a "publishable" paper within 30 credits after admission to the program. It may be a collaborative effort, such as publishing a chapter or article with a faculty advisor or other faculty collaborator.

### Minor

A minor is an option. Students interested in a minor should contact their Major Professor.

### Master's Degree

Students may apply to receive the master’s degree upon completion of 30 credits.

### Doctoral Preliminary Examination

The Doctoral Preliminary Examination is taken at the end of a student’s coursework. A description of the Preliminary Examination is provided in the doctoral handbook corresponding to the student’s specialization area within Educational Psychology.

The Preliminary Examination consists of a written component and, in some specializations, an oral component. The purpose of the Preliminary Examination is to ensure that students have a solid foundation in their area of specialization and are prepared to conduct research at the doctoral level.
Examination is to determine whether the student demonstrates understanding of coursework and related bodies of knowledge and is qualified to proceed with dissertation planning. A minimum of three faculty members in the specialization area shall participate on a student’s Preliminary Examination.

**Proposal Hearing**
A doctoral student qualifies as a “doctoral candidate” upon completion of the doctoral Student Academic Plan, successful completion of the Doctoral Preliminary Examination for the PhD degree, and successfully passing a dissertation proposal hearing. The hearing is open and the date, time and location must be announced by the Major Professor. Each member of the committee must sign the doctoral dissertation proposal hearing form, and indicate approval or disapproval. A simple majority of all committee members is required. No absentee ballots are acceptable.

**Dissertation Defense**
The candidate must write a dissertation that demonstrates the ability to pursue independent research. The candidate must pass an oral exam in defense of the dissertation.

**Exit Requirements**
Contingent upon satisfactory completion of program requirements, passage of the preliminary qualifying examination, and successful oral defense of the dissertation, the Chair of the Department of Educational Psychology will give final approval of the PhD in Educational Psychology.

**Time Limit**
It is expected that most students will complete all degree requirements within six years of initial enrollment in the doctoral program. All requirements MUST be completed within ten years from the date of initial enrollment.
