The Computer Engineering major is offered through the Electrical Engineering and Computer Science departments at UWM. Computer engineering pertains to the design, implementation and maintenance of hardware and software components of computers and computer-controlled equipment.

Our program provides students with a broad and strong technical background in the field. It also helps students develop a solid grounding in computing, mathematics and engineering. Students will learn to apply these theoretical principles to design hardware, software, networks, and computerized equipment for diverse application domains.

**Accreditation**

The Computer Engineering program is accredited by the Engineering Accreditation Commission of ABET: https://www.abet.org (https://nam02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.abet.org%2F&data=02%7C0%7C1%7Cebilicki%40uwm.edu%7C0bca7ac3fcb64ef68eb66d7603cf21%7C0%7C637689370313934444%40data=mZMNZVPDTMADBhNIs0%2Fz8V8KR7ONcAyAdV22g4Oj9M9w%3D&reserved=0).

**New Freshmen**

Admission to the College of Engineering and Applied Science is based on an overall assessment of both academic and non-academic qualifications. The primary review factors for admission are the strength and quality of the high school curriculum, high school class percentile, grade point average, and the result of the ACT or SAT. Well-prepared freshman applicants will have four years of mathematics (including one-and-a-half years of algebra, one year of geometry, and one-half year of trigonometry) and four years of natural science (including biology, chemistry, and physics). The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Freshmen applicants will be considered for admission directly to the major or to intended status (Engineering-Intended or Computer Science-Intended). Admission directly to the major is selective.

**Transfer Students**

Transfer student admission is based on an overall assessment of both academic and non-academic qualifications. For transfer applicants, the primary factors considered for admission are the grade point average on transferable courses and the level of curriculum completion. The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Transfer students will be considered for admission directly to the major or to intended status (Engineering-Intended or Computer Science-Intended). Students admitted to Engineering-Intended or Computer Science-Intended may apply for major status with their academic advisor at the time they believe they meet the requirements. The program may impose major status as a prerequisite for courses numbered 200 or above.

1. Complete first semester calculus with a C or better grade.
2. Complete GER Oral and Written Communication Part A.
3. Engineering majors must complete Chem 100 with a C or better grade (or satisfactory score on the placement test). Computer Science majors must complete CompSci 251 with a C or better grade.
4. Obtain a minimum grade point as set by the major department. A 3.00 GPA guarantees admission to any CEAS major.
5. Courses required by the major may be repeated only once. No more than two courses may be repeated.

Questions on admission to CEAS or choosing a major should be directed to the Office of Student Services, (414) 229-4667.

**Computer Engineering Curriculum**

The minimum number of credits required to complete the Bachelor of Science in Computer Engineering is 120.

### Code | Title | Credits
--- | --- | ---
**Engineering Core - 10 Credits**
COMPSCI 250 | Introductory Computer Programming | 3
EAS 200 | Professional Seminar | 1
ELECENG 301 | Electrical Circuits I | 3
IND ENG 367 | Introductory Statistics for Physical Sciences and Engineering Students | 3
**Major Requirements - 51 Credits**
COMPSCI 251 | Intermediate Computer Programming | 3
COMPSCI 317 | Discrete Information Structures | 3
COMPSCI 337 | System Programming | 3
COMPSCI 351 | Data Structures and Algorithms | 3
COMPSCI 361 | Introduction to Software Engineering | 3
COMPSCI 395 | Social, Professional, and Ethical Issues | 3
COMPSCI 458 | Computer Architecture | 3
COMPSCI 520 | Computer Networks | 3
COMPSCI 535 | Algorithm Design and Analysis | 3
COMPSCI 537 | Introduction to Operating Systems | 3
ELECENG 305 | Electrical Circuits II | 4
ELECENG 310 | Signals and Systems | 3
ELECENG 330 | Electronics I | 4
ELECENG 354 | Digital Logic | 3
ELECENG 367 | Introduction to Microprocessors | 4
ELECENG 457 | Digital Logic Laboratory | 3
**Mathematics Requirement - 16 Credits**
MATH 231 | Calculus and Analytic Geometry I | 4
MATH 232 | Calculus and Analytic Geometry II | 4
MATH 233 | Calculus and Analytic Geometry III | 4
ELECENG 234 | Analytical Methods in Engineering | 4
**Chemistry or Biology Requirement - 4-5 Credits**
Select one of the following: 4-5
CHEM 105 | General Chemistry for Engineering | 
CHEM 102 | General Chemistry | 
BIO SCI 150 | Foundations of Biological Sciences I | 
BIO SCI 202 | Anatomy and Physiology I | 
**Physics Requirement - 8 Credits**
**Technical Electives - 16 Credits**

Students wishing to major in more than one field can do so in two ways:

**Dual Majors**

Then begin.

A student who does not maintain continuous registration during the academic year and is re-admitted to the College must meet the program requirements, and the special needs of engineering and computer science students. These advisors provide services such as freshman orientation,
course selection, program planning, and credit transfer evaluation. Students are assigned to a permanent professional advisor as soon as they are accepted into the College, and are urged to confer with their advisor at least once each semester. Students also are assigned to a faculty advisor who provides technical expertise specific to the student’s area of study.

We understand that it can be a delicate balance managing school, work, family, and active social lives. The College of Engineering and Applied Science advisors are here to help you achieve that balance.

You will be assigned a professional academic advisor upon being admitted to the College of Engineering & Applied Science. Your advisor will work with you throughout your undergraduate experience, providing guidance on:

- course registration,
- graduation planning,
- career preparation,
- and serving as a liaison to the many other resources available on our campus.

Advisors are also a great source of information on student organizations, tutoring and scholarship opportunities.

In addition to professional academic advisors, you will also have access to faculty advisors. These advisors can provide insights into the technical aspects of the engineering and computer science curricula while mentoring you as you define your professional goals.

Honors in the College of Engineering and Applied Science

Dean’s Honor List

GPA of 3.500 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (http://catalog.uwm.edu/opportunities-resources/honors-college/) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Joint Programs with Other Campuses

Pre-engineering

Qualified students may enroll in coordinated pre-engineering programs at UW-Green Bay, UW-Parkside, and UW-Waukesha for two years of pre-engineering coursework. These coordinated programs ensure equivalent coursework, appropriate advising, and early access to the Cooperative Education Program at UWM.

Dual Degree Programs

Qualified students may enroll in coordinated dual degree programs at Alverno College, Carroll University, UW-Eau Claire, UW-Green Bay, UW-La Crosse, UW-Oshkosh, UW-Stevens Point, UW-Whitewater and Wisconsin Lutheran College. Students in these programs will earn a bachelor’s degree at both universities in five years. Students transfer to UWM after three years at the partner university. For more information, contact the Office of Student Services at (414) 229-4667.

Joint Programs with Wisconsin Technical Colleges

Gateway Technical College

An agreement with GTC allows those students having associate degrees in the Electrical Engineering - Technology the opportunity to be given credit for courses required in the UWM bachelor of science in engineering program. For more information, contact the Office of Student Services at (414) 229-4667.

Milwaukee Area Technical College

An agreement with MATC allows joint admission and enrollment at MATC and CEAS. Qualified students may take English, mathematics, chemistry, and general education courses at MATC. The program ensures equivalent coursework and appropriate advising. Students complete a bachelor of science degree in engineering or computer science at UWM.

Waukesha County Technical College

An agreement with WCTC allows those students having associate degrees in the Industrial Occupations Division at WCTC the opportunity to be given credit for courses required in the UWM bachelor of science in engineering or bachelor of science in computer science program. For more information, contact the Office of Student Services at (414) 229-4667.
