

ATHLETIC TRAINING, MS

Athletic trainers are health care professionals who provide physically active people services such as injury/illness prevention, emergency care, clinical diagnosis, therapeutic intervention, and rehabilitation of injuries and medical conditions. Athletic trainers care for people across the lifespan and activity levels, including youth to professional athletes, performing artists, military or civil service personnel, and workers in physically demanding jobs. To become an athletic trainer you must complete a graduate degree in Athletic Training in a program accredited by the Commission on Accreditation of Athletic Training Education (<https://caate.net/>) (CAATE). The UWM Master of Science in Athletic Training (MSAT) (<https://uwm.edu/rehabilitation-sciences-technology/academics/ms-athletic-training/>) is such a program. Upon completion of the degree you must pass the national Board of Certification exam (<https://www.bocac.org/>), and then you can start working as an athletic trainer.

Admission Requirements

Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

The program seeks to admit highly qualified students until the class has been filled (approximately 12 students per year). The early decision deadline is November 1. After that date a rolling admission process is used until the class is filled. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements to be considered for admission to the program:

1. Completion of a Bachelor's degree from an accredited institution with an overall cumulative grade point average (GPA) of a 3.0 (on a 4.0 scale) at the time application submission and graduation. Official transcripts must be submitted. Undergraduate degree must be completed by the time the applicant plans to begin in the MSAT program.
2. Completion of the following 10 foundation courses. A prerequisite GPA of 3.0 (on a 4.0 scale) is recommended:
 - a. Human anatomy with lab
 - b. Human physiology with lab
 - c. Introduction to biology
 - d. Introduction to psychology
 - e. Statistics
 - f. Chemistry with lab
 - g. Physics with lab
 - h. Exercise physiology
 - i. Biomechanics
 - j. Introduction to nutrition

3. Completion of 20 hours of observation of athletic training practice with a certified athletic trainer within 12 months of application submission.
4. Two letters of recommendation: one from an academic reference, one from an athletic trainer with whom the applicant completed observation hours.
5. GRE scores are optional if the cumulative GPA is >3.0. The Graduate School requires GRE scores when the cumulative GPA is below 3.0.

Prospective Students

Prospective applicants who have questions about pursuing athletic training are encouraged to contact the program via email at msat-info@uwm.edu. Students can also contact the Pre-Athletic Training advisor in the College of Health Professions and Sciences Office of Student Affairs. Prospective applicants are encouraged to carefully review the entirety of this website prior to scheduling an advising appointment.

Need to complete prerequisite courses?

Prospective applicants who have already completed a bachelor's degree and are interested in taking courses at UWM to satisfy MSAT program prerequisites should contact the Pre-Athletic Training advisor J (<https://uwm.edu/healthsciences/directory/rufer-torry/>)ohn Huegel at 414-251-6867 or jhuegel@uwm.edu.

You will also need to apply for admission to UWM (<http://graduateschool-apply.uwm.edu/>). On the application, applicants should identify their reason for applying as "Undergraduate courses as a visitor/guest student" and their "applying as" status as "Undergraduate non-degree student with a bachelor's degree." Applicants should apply as a second-degree student only if they plan to complete a second bachelor's degree. Questions regarding financial aid for non-degree students should be directed to Gayla Jenkins (jenkinsg@uwm.edu) in the UWM Department of Financial Aid.

Curriculum Overview

The MS Athletic Training provides students with a structured, tracked curriculum that contains coursework as well as community-engaged opportunities for clinical education, research, and professional development. Philosophies of evidence-based practice, integrated person-centered care, cultural competence, and clinical problem solving will be incorporated into all courses within the curriculum. There are several courses that are taught interprofessionally, where students from multiple healthcare professions learn about, from and with each other. The curriculum meets all of the competencies and requirements set forth by the Commission on the Accreditation of Athletic Training Education. At the completion of the program, students will be eligible to sit for the national certification exam, administered by the Board of Certification, and enter the healthcare workforce.

Clinical Education

Clinical education experiences provide the student with the opportunity to practice and refine their clinical and decision-making skills in the context of direct patient care under the supervision of a licensed athletic trainer or physician. Students commit an average of 12 hours per week to clinical education. Students will begin the clinical education placements during their first semester and will continue these for each semester of the program. The final two semesters will include a capstone clinical education placement. Clinical placements are guided by concurrent coursework, type of practice setting (i.e., collegiate, high school, clinical, professional sports, industrial), injury risk level, and sociodemographic factors (i.e., gender, age, urban/suburban/rural). All clinical education

experiences will be strategically mapped to ensure that each student is exposed to as many of the above factors as possible.

Credits and Courses

This is a 71-credit, two-year program conducted on a 12-month calendar. Students will matriculate at the start of the Summer term, and take courses for the following Fall, Spring, Summer, Fall, and Spring. Graduation will occur at the end of the Spring term.

Code	Title	Credits
Athletic Training Requirements		
ATRIN 701	Introduction to Clinical Education and Professional Development	1
ATRIN 702	Ethics in Healthcare	1
ATRIN 703	Foundations of Interprofessional Practice	1
ATRIN 704	Professionalism and Leadership in Healthcare	1
ATRIN 705	Foundations of Clinical Research	3
ATRIN 708	Clinical Gait Analysis	2
ATRIN 710	Prevention & Care of Emergent Medical Conditions in Athletic Training	4
ATRIN 723	Physiological Regulation in Exertion & Disease	3
ATRIN 725	Gross Anatomical Kinesiology	4
ATRIN 726	Pathoetiology of Musculoskeletal Injury	1
ATRIN 744	Healthcare Systems and Administration	3
ATRIN 747	Clinical Exam and Diagnosis of the Lower Extremity in Athletic Training	3
ATRIN 748	Clinical Exam and Diagnosis of the Head and Spine in Athletic Training	3
ATRIN 749	Clinical Exam and Diagnosis of Upper Extremity in Athletic Training	3
ATRIN 753	Medical Physiology II	3
ATRIN 754	Clinical Exam and Diagnosis of Medical Conditions in Athletic Training	1
ATRIN 757	Foundations of Therapeutic Interventions in Athletic Training	3
ATRIN 758	Physical Agents	2
ATRIN 759	Therapeutic Interventions for the Upper Extremity	2
ATRIN 785	Clinical Education in Athletic Training: I	1
ATRIN 786	Clinical Education in Athletic Training: II	2
ATRIN 787	Clinical Education in Athletic Training: III	2
ATRIN 788	Clinical Education in Athletic Training: IV	3
ATRIN 800	Athletic Training Board of Certification Exam Preparation	1
<i>Select the following for 4-8 credits per semester to equal 12 credits:</i>		
ATRIN 883	Capstone Clinical Education in Athletic Training	12
Kinesiology Requirements		
KIN 550	Psychological Aspects of Human Movement	3

KIN 551	Psychology of Injury: Prevention, Rehabilitation & Return to Participation	3
Total Credits		71

Additional Requirements

Major Professor as Advisor

The Graduate School requires that each student have a major professor to advise, supervise, and approve the program of study. Students are assigned a faculty advisor upon acceptance to the program.

Time Limit

The student must complete all degree requirements within seven years of initial enrollment.

Accelerated Program Option

This program is offered as part of an accelerated graduate program. For more information, see Accelerated Graduate Degrees (<https://catalog.uwm.edu/opportunities-resources/accelerated-graduate-degrees/>).
