

BIOMEDICAL SCIENCES, BS: CYTOTECHNOLOGY

Students in the Biomedical Sciences major are awarded a Bachelor of Science degree upon completion of all requirements. Students choose from one of the following seven areas or submajors:

- Medical Laboratory Science
- Biomedical Science
- Cytotechnology
- Radiologic Technology
- Diagnostic Medical Sonography
- Diagnostic Imaging (degree completion program)
- Health Science (degree completion program)
- Public Health Microbiology

All students, with the exception of students in the Diagnostic Imaging or Health Sciences degree completion program, will be required to comply with a background check, drug screen, and maintain health insurance during the professional training experience.

Cytotechnology

Cytotechnologists examine human cells under the microscope, looking for early signs of cancer or other diseases. When abnormal cells are detected, the cytotechnologist works with a pathologist to arrive at a final diagnosis. The Cytotechnology program is accredited by the Commission on Accreditation of Allied Health Programs (CAAHEP), www.caahep.org (<http://www.naacls.org>), located at 1361 Park St., Clearwater, FL 33756. Students successfully completing this program are eligible to sit for a national certification exam.

Requirements

Code	Title	Credits
	Biomedical Sciences Requirements (p. 1)	62
	Pre-Clinical Requirements (p. 2)	31
	Cytotechnology Submajor Requirements (p. 2)	31
	Total Credits	124

Biomedical Sciences Requirements

Students in the Biomedical Sciences major are awarded a Bachelor of Science degree upon completion of all requirements. All students, with the exception of students in the Diagnostic Imaging or Health Sciences degree completion program, will be required to comply with a background check and maintain health insurance during the professional training experience.

The process of application to the professional training occurs at the end of the first semester of the junior year.

Entry into professional training or internship is competitive and dependent upon:

1. Completion of UWM's General Education Requirements (GER) (<http://catalog.uwm.edu/policies/undergraduate-policies/#generaleducationtext>);
2. A cumulative UWM minimum grade point average of 2.5;

3. A cumulative minimum grade point average of 2.5 in specific, required science courses;
4. Completion of:
 - a. all required courses and electives (87 credits) through the second semester of junior year for students pursuing or Biomedical Sciences, Cytotechnology, or Medical Laboratory Science;
 - b. all required courses and electives (114 credits) through the first semester of senior year for students pursuing Public Health Microbiology; and
5. A grade of C or better in all junior-level courses.

Students who meet these minimum requirements for entry into professional training will be evaluated on the basis of their science GPA for placement at one of the training sites.

To remain eligible to continue in the professional training, students must earn a grade of C or better in all senior-level courses.

Degree Requirements

BMS 535	Medical Microbiology Laboratory	2
BMS 536	Applied Clinical Microbiology	2
BMS 537	Medical Parasitology and Mycology	2
BMS 560	Molecular and Genetic Diagnostics	2
BMS 561	Molecular Diagnostics Laboratory	1
CHEM 102	General Chemistry ¹	5

CHEM 104	General Chemistry and Qualitative Analysis ¹	5	BMS 580	Aspiration Cytology	4
CHEM 341	Introductory Survey of Organic Chemistry ¹	3	BMS 581	Special Procedures in Cytology	1
CHEM 342	Introductory Organic Chemistry Laboratory ¹	2	BMS 582	Cytology of the Breast	1
CHEM 501	Introduction to Biochemistry ¹	3	BMS 583	Cytology Preparation Techniques	1
HS 224	Computational Tools for Healthcare Professionals	3	BMS 586	Cytology Lab Operations and Quality Control	1
KIN 270	Statistics in the Health Professions: Theory and Practice	3	BMS 587	Research Methods in Cytology	1
			BMS 588	Diagnostic Microscopy in Cytology	5

Students apply to be admitted to the State Hygiene Lab in Madison, WI for their clinical rotations.

¹ Course counts towards a student's science GPA.

Pre-Clinical Requirements

The junior year for students pursuing the Biomedical Science, Cytotechnology, or Medical Laboratory Science submajor consists primarily of pre-clinical courses, and the senior year is a 12-month professional training experience.

Medical Laboratory Science and Cytotechnology students must be prepared for full-time study (40 hours per week) that could also require additional study time at night and on weekends.

Code	Title	Credits
BMS 101	Introduction to Clinical Laboratory Sciences ²	2
BMS 205	Introduction to Diagnostic Medicine ²	3
BMS 420	Clinical Hematology	3
BMS 421	Introduction To Hematology Laboratory	1
BMS 431	Clinical Chemistry	3
BMS 432	Clinical Chemistry Laboratory Theory & Operations	1
BMS 521	Applied Clinical Hematology	2
BMS 522	Hemostasis	1
BMS 534	Medical Microbiology	3
BMS 535	Medical Microbiology Laboratory	2
BMS 536	Applied Clinical Microbiology	2
BMS 537	Medical Parasitology and Mycology	2
BMS 541	Urinalysis	1
BMS 542	Applied Clinical Chemistry	2

BMS 581	Special Procedures in Cytology	1
BMS 582	Cytology of the Breast	1
BMS 586	Cytology Lab Operations and Quality Control	1
Credits		12
Total Credits		24

Honors in the Major

Honors in the major are granted to students who earn a GPA of 3.500 or above on a minimum of 30 completed credits at UWM following advancement to a Health Sciences major.

Honors in the College of Health Sciences

Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (<http://catalog.uwm.edu/opportunities-resources/honors-college>) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15%

of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.
