COMMUNICATION SCIENCES AND DISORDERS

The Department of Communication Sciences and Disorders offers a Bachelor of Science degree, which provides the pre-professional foundation for graduate study. The student who plans to become a professional speech-language pathologist or audiologist will receive preparation in human communication sciences and disorders as well as a broad educational experience in the liberal arts and sciences.

A career as a speech-language pathologist requires a master's degree. The Department offers a graduate program that is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association (ASHA) in Speech-Language Pathology. The Wisconsin Department of Public Instruction also has approved the undergraduate/graduate program in Communication Sciences and Disorders. A career as an audiologist requires a doctoral degree (AuD or Doctor of Audiology). In Wisconsin, an AuD consortial program is offered by UW-Madison and UW-Stevens Point.

Undergraduate Academic Advising

Advising for all undergraduate students is provided by the Office of Student Affairs, Northwest Quadrant Building B, Room 6451, and students are strongly encouraged to confer with that advisor at least once each semester. Students are also encouraged to meet with a Department of Communication Sciences and Disorders faculty member to discuss the requirements and challenges of a career as a speech-language pathologist or audiologist. Seniors should meet with their advisor to review their final year of study and discuss opportunities for graduate study.
