

PRE-PROFESSIONAL PROGRAMS

According to U.S. News & World Report, 14 of the top 20 best jobs in the new decade are in health care professions. The College of Health Sciences (CHS) offers the largest number of health-related degree programs in Wisconsin, training our graduates to succeed in exciting high demand careers. Many health-related careers require advanced education beyond a bachelor's degree. While most graduate programs do not require students to have a specific undergraduate degree to apply, the CHS offers several high caliber pre-professional degree programs preparing students to be very competitive for graduate school applications. These quality undergraduate degree programs have been developed alongside the professional degree programs to provide a strong foundation to best prepare students for graduate school education. The pre-professional programs and program directors within CHS are:
