MA Portfolio Project

At the master's level, the MA Portfolio Project (MAPP) is designed to allow students to synthesize their accomplishments during the MA program and identify their strengths and needs as they pursue objectives beyond graduate school. In conjunction with the completion of 30-credit hours (per Department of Communication MA guidelines), students who successfully complete a MAPP will meet the requirements for the MA in Communication.

The MA Portfolio Project will provide students with an opportunity to:

- Compile documentation of academic accomplishments during the pursuit of an MA
- Synthesize the primary contributions of MA coursework

- Critically reflect upon accomplishments in written work.
- Reflect upon the accomplishment of their initial goals and objectives for the MA, and articulate future career goals and objectives that will utilize the skills/knowledge gained.
- Establish a connection with a field expert (e.g., an individual who works in the student's desired employment sector or a member of a community group with whom the student hopes to work) and gain additional information about activities the student may wish to pursue after graduation.
- Reflect upon one's understanding of future pursuits and draw connections between the MA experience and the nature of this type of work/service.

Program Requirements

Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. The major professor should be designated no later than the end of the student's first year of enrollment. The incoming student is assigned the Graduate Coordinator or other program faculty member as an initial advisor until a major professor is selected.

Thesis Option

A thesis involves applied or basic research and is a proven method for developing specialized knowledge and skills that can enhance an individual's expertise within a substantive area of study. A thesis is recommended for students who intend to continue study toward the PhD degree or plan research-related employment. If the thesis option is elected, the student must initiate and write an original research project under the guidance of his/her major professor; the student also must pass an oral defense of the finished project conducted by his/her thesis committee.

Time Limit

The student must complete all degree requirements within five years of initial enrollment.
