FOOD & BEVERAGE STUDIES

Food Studies is for any student working in or studying a topic that has a relationship to food - agriculture, food distribution, social work, maternal and infant health, economic and political stability, peacebuilding, transportation, conservation, global health, and many more. UWM's program does not focus on food preparation or culinary arts but provides value for individuals in food service who want to understand the impact of food and nutrition in our society and in places around the globe.

Students take courses in nutrition and health sciences to explore the effects of food on our physical and mental well-being as well as liberal arts coursework in history, anthropology, and foreign cultures to develop a deeper understanding of the culture, identity, costs, distribution, infrastructure, scarcity, and politics surrounding food.

Programs
• Food Studies, Undergraduate Certificate (College of Letters and Science, Department of Food & Beverage Studies) (http://catalog.uwm.edu/letters-science/food-beverage-studies/food-studies-undergraduate-certificate)
