

# GEOGRAPHY, MA/LIBRARY AND INFORMATION SCIENCE, MLIS

In collaboration with several other academic units at UW-Milwaukee, SOIS offers students the opportunity to obtain two Master's degrees concurrently—one in Library and Information Science (MLIS) and one in a subject area.

## Degree Requirements

- The number of degree credits needed for each of the coordinated programs is usually 12 fewer than the sum of the two programs if they were not taken simultaneously. *All degree requirements of each component must be satisfied.*
- The MLIS portion of the coordinated degrees can be completed online.
- Prerequisite to the award of either degree in this program is the simultaneous award of its counterpart degree.

## MLIS Component

The Master of Library and Information Science (MLIS) component of each of the coordinated programs includes 30 credits of SOIS courses. These include the MLIS core courses (12 credits). The remaining 18 MLIS credits are selected from the School's offerings in accordance with the student's goals in the coordinated degree program.

## MLIS/MA Geography

The MLIS/MA Geography Coordinated Degree Program prepares students for positions as map librarians. Graduates of the program are qualified to assume positions as curators and staff in map collections of universities, governmental agencies, and industry.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

## Credits and Courses

The MA in Geography normally has a minimum requirement of 30 credits from regular geography courses (which includes 4 capstone/thesis credits). For the coordinated MA Geography/MLIS degree program, however, students can substitute 6 credits in information studies courses for 6 credits of geography. This program, therefore, requires a total of 54 credits. Students must complete the 30 credits required for the MLIS component and the 24 credits in Geography courses specified below.

Code	Title	Credits
GEOG 726	Geographic Information Science	4
GEOG 747	Spatial Analysis	4
GEOG 810	Introduction to Techniques of Research and Presentation	3
GEOG 870	Contemporary Geographic Approaches: (subtitle)	3

Select a GEOG 900-level course	3	
Select any GEOG graduate course	3	
GEOG 889 or GEOG 999	Internship in Geography Independent Work	4
<b>Total Credits</b>	<b>24</b>	

The Geography Department offers opportunities for fieldwork that may count toward these requirements. In addition to off-campus fieldwork, the American Geographical Society Collection at the UWM Golda Meir Library provides many unique opportunities for map librarianship fieldwork and is an appropriate site for an internship.

Graduates of the program are qualified to assume positions as curators and staff members in map collections of universities, governmental agencies, and industry. In cases where map collections are not of sufficient size to warrant separation as distinct collections, knowledge of how to store, classify, and retrieve maps will be a valuable set of skills that enhance the qualifications of the information professional.

## Basic Required MLIS Courses

Code	Title	Credits
<b>Core Courses</b>		<b>12</b>
INFOST 501	Foundations of Library and Information Science	
INFOST 511	Organization of Information	
INFOST 571	Information Access and Retrieval	
INFOST 799	Research Methods in Information Studies	
<b>Other MLIS courses</b>		<b>18</b>
<b>Total Credits</b>		<b>30</b>

## Important

You must refer to the catalog pages of both individual master's programs to ensure that you meet all requirements for both degrees.

## Geography MA/MS Learning Outcomes

Students graduating from the Geography MA or MS program will be able to:

- Summarize, synthesize and evaluate pertinent literature to develop an understanding of theory, knowledge or practice in geography to facilitate independent research.
- Conduct guided research or scholarly work that addresses a problem or topic to the field of geography.
- Articulate ideas effectively, both orally and in writing, to professionals and the general public through conference presentations and thesis composition.
- Cultivate ethical and professional conduct within the field of geography.

## Library and Information Science MLIS Learning Outcomes

Students graduating from the master's program in Library and Information Science (MLIS) will be able to:

- Critically assess the philosophy, principles, culture, ethics or values of library and information science.

2. Demonstrate the knowledge and skills to develop and evaluate library and information services and systems.
3. Outline how library and information services may serve the needs of a diverse global society.
4. Apply knowledge of research methods in library and information science to investigate an issue of relevance to the field.
