

TRANSLATION, GRADUATE CERTIFICATE

The Graduate Certificate in Translation offers online-only professional training to students in French, German, Spanish, Arabic, Russian, and often other languages, who wish to pursue careers in the language-services industry broadly speaking, or in other fields requiring advanced professional use of a language other than English.

Being bilingual is not enough to be a successful translator. Professional translators must be experts in both source and target cultures, skilled readers of the source language and superb writers of the target language. In addition, they need expertise in an area of specialization and a solid grasp of the language-services industry.

Our Translation & Interpreting Studies programs are housed in an accredited, Tier 1 Research institution and offer professional translator and interpreter training in a dynamic environment. Students collaborate with faculty and classmates from around the world to develop the skills they need to succeed in a thriving international market. Learn how to translate and/or interpret, and how to be a language professional through using leading industry computer-assisted translation tools and completing internships that often lead to employment. Our program can prepare you to:

- be an in-house translator
- be a freelancer
- be a translation company owner
- specialize in your area of interest
- pursue doctoral studies
- develop your professional skills without pursuing a degree

Certificate Requirements**Transfer Credit**

Grade Point Average Requirement

Students must earn at least an average GPA of 3.0 in courses completed at the graduate level as well as a 3.0 GPA on all credits completed for the certificate. In addition, students must earn a B or better in all courses completed for the certificate.

Capstone requirement

All certificate students will be required to pass a one-hour translation examination.

Articulation with Degree Programs

- Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
 - Degree programs must approve the courses from certificates that can double count toward the degree.
 - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in PhD programs must still complete the minimum residency requirements)
 - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
- Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
- A course may count toward no more than one certificate and one degree.
- Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.
