**INTERPRETING, GRADUATE CERTIFICATE**

The demand for interpreting services in the U.S. far exceeds the supply of qualified interpreters, and the federal government estimates that job opportunities for interpreters will increase significantly faster than the average rate of job growth through 2030. The Graduate Certificate in Interpreting offers online professional training to students in any of the offered language pair. The program is designed for those who have earned an undergraduate degree, have either significant industry experience or post-graduate degrees, and are interested in language-services careers focused on interpreting.

The Graduate Certificate program is recognized by the American Translators Association as an approved Translation & Interpreting Studies program. Alumni go on to work as freelance or in-house interpreters in a broad range of areas, including legal, medical, and community interpreting.

Additional Requirements

Transfer Credit
Up to 12 credits of graduate certificate coursework in Interpreting may be transferred into an MA degree (Translation or Interpreting concentration) in the TIS Program.

Required courses completed as part of a student’s undergraduate degree will not count toward the graduate certificate. In such cases, students consult with the certificate coordinator to select appropriate elective courses (in lieu of one or more required courses) to complete the 21 credits required to earn the graduate certificate.

Grade Point Average Requirement
Students must earn at least an average GPA of 3.0 in courses completed at the graduate level as well as a 3.0 GPA on all credits completed for the certificate. In addition, students must earn a B or better in all courses completed for the certificate.

Capstone Requirement
All certificate students will be required to pass a one-hour interpreting examination.

Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   • Degree programs must approve the courses from certificates that can double count toward the degree.
   • All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in PhD programs must still complete the minimum residency requirements)
   • Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit
Certificate program time limits shall be established as follows:

• 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
• 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.
