### Mathematics Advising

Students considering a major in the Department of Mathematical Sciences need to come to the department to declare their major and be assigned a faculty advisor. All courses selected for the major must be approved by the advisor, and students should check regularly with their advisors to plan their courses of study in a coherent and timely fashion.

### Letters & Science Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

### Honors in the Major

Students in Mathematics who meet all of the following criteria can be awarded honors in the major upon graduation:

1. A 3.000 cumulative GPA in all UWM graded credits;
2. A 3.500 GPA over all UWM courses counting toward the Mathematics major;
3. A 3.500 GPA over all upper-division UWM courses counting toward the Mathematics major; and
4. At least one of the following:
   - Successful completion of at least two semesters of research and/or internship experiences. These may include one or more of the Capstone Experience (MATH 599), a directed independent study for credit (MATH 699), an internship for credit (MATH 489), and undergraduate research for compensation.
   - Successful completion of at least 6 credits in Mathematical Sciences (curricular areas Math or MthStat) courses numbered 600 or above.
   - A score of at least the 50th percentile on the Math Subject GRE.

Students who believe they may qualify for honors in Mathematics should apply to the Mathematical Sciences Department during their last semester of study.

Honors in the College of Letters and Science

Dean's Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Comencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Contact Information
Current Students contact the Department directly, math-staff@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu
http://uwm.edu/math/undergraduate/

Mathematics, BS

Mathematics is the international language of science and technology. Much of the subject matter in engineering and the natural sciences, as well as some social sciences such as economics, is presented in mathematical terms. Mathematical and statistical techniques are vital in fields that usually are not considered mathematical, such as biology, psychology, and political science.

Some students come to mathematical sciences with the intention of teaching in high school or college or pursuing research in mathematics. Some are attracted to mathematics for its own sake, for the beauty, discipline, logic, and problem-solving challenges. Other students pursue mathematics in order to achieve deeper understanding in their own areas of study.

Many students assume that most math majors become teachers. While many do, there are many other opportunities for math majors. The United States National Security Agency is the largest employer of math majors in the country. Math majors will also be found at NASA, in engineering firms; at insurance and risk management firms; in robotics and computer science companies; at large and small corporations working in market research, data management and web management; at social media start ups and established firms like YouTube; and any place that needs to make decisions based on numerical facts.

At UWM, the Math major has been designed to be flexible so that students could complete their major requirements via courses that match their interests and goals. Many students should find it relatively easy to complete double majors in mathematics and another subject.

Most mathematics courses belong in one of the following four groups: applied mathematics, computational mathematics, pure mathematics, and statistics.

- Applied Mathematics is a discipline using mathematical analysis to solve problems coming from outside the field of mathematics.
- Computational mathematics is closely related to applied mathematics. It emphasizes techniques of scientific computing and other computational analysis.
- Pure mathematics emphasizes the theory and structure underlying all areas of mathematics.
- Statistics is a field of mathematics that provides strategies and tools for using data to gain insight into real-world and experimental problems.

Students of the sciences, engineering, computer science, economics, and business often complete a significant number of mathematical sciences credits. These students are encouraged to take a mathematics major or minor, which adds an official recognition of important analytical skills valued by employers and graduate schools.

Students interested in teaching mathematics at the K-12 level should examine the School of Education (p. 426) programs.

Some students with an interest in computer science, choose to enroll in the Applied Math and Computer Science (p. 1609) program. This program is ideal for the student who might have considered double majoring in both math and computer science; it combines applied math courses with computer science classes for you into one program.

Requirements

Course of Study – Bachelor of Science Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated upper-level Natural Science. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-
wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

**University General Education Requirements (GER)**

</tbody>
</table>

**College of Letters & Science Requirements**

**I. English Writing Requirement**

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond English 102 on the English Placement Test (EPT).

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 211</td>
<td>Survey in Calculus and Analytic Geometry</td>
<td>4</td>
</tr>
<tr>
<td>MATH 221</td>
<td>Honors Calculus I</td>
<td>5</td>
</tr>
<tr>
<td>MATH 231</td>
<td>Calculus and Analytic Geometry I</td>
<td>4</td>
</tr>
</tbody>
</table>

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 212, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>
<td></td>
</tr>
<tr>
<td>ANTHRO 568</td>
<td>Introduction to Anthropological Statistics</td>
<td></td>
</tr>
<tr>
<td>ATM SCI 500</td>
<td>Statistical Methods in Atmospheric Sciences</td>
<td></td>
</tr>
<tr>
<td>BIO SCI 465</td>
<td>Biostatistics</td>
<td></td>
</tr>
<tr>
<td>ECON 210</td>
<td>Economic Statistics</td>
<td></td>
</tr>
<tr>
<td>GEOG 247</td>
<td>Quantitative Analysis in Geography</td>
<td></td>
</tr>
<tr>
<td>HIST 595</td>
<td>The Quantitative Analysis of Historical Data</td>
<td></td>
</tr>
<tr>
<td>MTHSTAT 215</td>
<td>Elementary Statistical Analysis</td>
<td></td>
</tr>
<tr>
<td>PHILOS 211</td>
<td>Elementary Logic</td>
<td></td>
</tr>
<tr>
<td>POL SCI 390</td>
<td>Political Data Analysis</td>
<td></td>
</tr>
<tr>
<td>POL SCI 392</td>
<td>Survey Research</td>
<td></td>
</tr>
<tr>
<td>PSYCH 210</td>
<td>Psychological Statistics</td>
<td></td>
</tr>
<tr>
<td>SOCIOL 261</td>
<td>Introduction to Statistical Thinking in Sociology</td>
<td></td>
</tr>
</tbody>
</table>

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

**III. Foreign Language Requirement**

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.
IV. International Requirement
See Approved Courses for the L&S International Requirement (p. 1169) for course options.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Completed in one of the following ways:  
1. Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.
2. Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.
3. Complete 9 credits in combination of the two options above.

V. Breadth Requirement
Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+ or CD) designation, L&S students must complete the Breadth requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Arts**
Select 3 credits

**Humanities**
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *

**Social Sciences**
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area.

**Natural Sciences**
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including laboratory or field courses from three different curricular areas. *

**Cultural Diversity**
Complete 3 credits in a course with Cultural Diversity (CD) designation. **

* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

VI. The Major
The College requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Mathematics Major Requirements
Preparatory Curriculum
Students in all majors in the Department of Mathematical Sciences must complete MATH 231 (or MATH 213), MATH 232, and MATH 233 (or equivalent), MATH 221 and MATH 222 are equivalent to MATH 231, MATH 232, and MATH 233. Students majoring in mathematics must have a GPA of at least 2.500 in these courses.

All majors must take either MATH 234 or MATH 240, as well as a course in computer programming in a modern, high-level language (e.g., COMPSCI 151, COMPSCI 250, or COMPSCI 251). The department also recommends strongly one year of calculus-based physics.

Capstone Experience
Students in all majors and major options in the Department of Mathematical Sciences must complete a "Capstone Experience." The aim of the department's capstone experience is to encourage independent learning. Students complete a research paper in the context of this course, which satisfies the L&S research requirement. Mathematics majors may choose either MATH 599 or MATH 575. Students must obtain consent of a professor to enroll in MATH 599.

Requirements
The following courses are required for the Mathematics major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Select 24 credits in upper-division math courses (those numbered 300 and above, and in curricular areas MATH or MTHSTAT). Required among these 24 upper-division math credits are at least six credits in math courses numbered 500 and above, excluding MATH 591, MATH 599, MATH 699 or MTHSTAT 591.

Total Credits 27

Additional Requirements
- Note that MATH 381 and MTHSTAT 465 and MTHSTAT 467 are not open for credit in the Mathematics major.
- Students must complete at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM.
- The College requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including transfer work.

Recommendations
Mathematics courses fall naturally into the following groups (see below for individual courses):

1. Applied Mathematics
2. Computational Mathematics
3. Probability and Statistics
4. Pure Mathematics

For students planning to pursue graduate studies in mathematics, we recommend students take at least 36 cr upper division mathematics courses, with as many courses as possible from Pure Mathematics,
Group 1. Many PhD programs require reading knowledge of French, German, or Russian.

For students planning to pursue graduate studies in statistics or economics, we recommend MATH 521, MATH 522, and as many as possible of MTHSTAT 361, MTHSTAT 362, and MTHSTAT 562-MTHSTAT 568.

For students seeking employment in statistics after the bachelor's degree, we recommend MTHSTAT 361, MTHSTAT 362, and as many as possible of MTHSTAT 562-MTHSTAT 568, as well as courses in computer programming (COMPSCI 250, COMPSCI 251, etc.).

For students seeking general non-academic employment after the bachelor's degree, we recommend courses from the Probability and Statistics group (including MTHSTAT 362), the Applied Mathematics group (including both modeling and differential equations), the Computational Mathematics group, Linear Algebra (MATH 535), and courses in computer programming (COMPSCI 240, COMPSCI 250, COMPSCI 251, etc.).

For students intending to become high school mathematics teachers, we recommend courses in algebra (MATH 431, MATH 531), geometry (MATH 451, MATH 453), linear algebra (MATH 535), numerical methods (MATH 413), advanced calculus (MATH 521, MATH 522), the math education capstone (MATH 575), and probability and statistics (MTHSTAT 361 & MTHSTAT 362).

For students pursuing a major in mathematics as a liberal art, for general logical and critical thinking skills, we recommend the Pure Mathematics courses.

### Mathematics Advising

Students considering a major in the Department of Mathematical Sciences need to come to the department to declare their major and be assigned a faculty advisor. All courses selected for the major must be approved by the advisor, and students should check regularly with their advisors to plan their courses of study in a coherent and timely fashion.

### Letters & Science Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus' general education requirements and the College's degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment.
GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Contact Information**
Current Students contact the Department directly, math-staff@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at
(414) 229-7711 or let-sci@uwm.edu
http://uwm.edu/math/undergraduate/

**Mathematics, Minor**
Mathematics is the international language of science and technology. Much of the subject matter in engineering and the natural sciences, as well as some social sciences such as economics, is presented in mathematical terms. Mathematical and statistical techniques are vital in fields that usually are not considered mathematical, such as biology, psychology, and political science.

Some students come to mathematical sciences with the intention of teaching in high school or college or pursuing research in mathematics. Some are attracted to mathematics for its own sake, for the beauty, discipline, logic, and problem-solving challenges. Other students pursue mathematics in order to achieve deeper understanding in their own areas of study.

Many students assume that most math majors become teachers. While many do, there are many other opportunities for math majors. The United States National Security Agency is the largest employer of math majors in the country. Math majors will also be found at NASA; in engineering firms; at insurance and risk management firms; in robotics and computer science companies; at large and small corporations working in market research, data management and web management; at social media start ups and established firms like YouTube; and any place that needs to make decisions based on numerical facts.

Most mathematics courses belong in one of the following four groups: applied mathematics, computational mathematics, pure mathematics, and statistics.

- Applied Mathematics is a discipline using mathematical analysis to solve problems coming from outside the field of mathematics.
- Computational mathematics is closely related to applied mathematics. It emphasizes techniques of scientific computing and other computational analysis.
- Pure mathematics emphasizes the theory and structure underlying all areas of mathematics.
- Statistics is a field of mathematics that provides strategies and tools for using data to gain insight into real-world and experimental problems.

Students of the sciences, engineering, computer science, economics, and business often complete a significant number of mathematical sciences credits. These students are encouraged to take a mathematics major or
The students enrolled in this program will be able to earn Master's degrees from both institutions upon completion of the common course requirements.

The program is designed in such a way that students typically will be able to complete all the course requirements within a two-year time period (one year at each institution). Within this program students can choose courses that will allow them to concentrate in the areas of Statistics, Numerical Analysis or General Mathematics. Complete information on the admission policy and graduation requirements, including sample schedules, is available at the Department of Mathematical Sciences web page http://uwm.edu/math/graduate/.

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/Registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these departmental requirements to be considered for admission to the program:

1. Completion of three semesters of undergraduate calculus.
2. At least 18 credits of acceptable undergraduate preparation beyond calculus.

Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses.

The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

Major Professor as Advisor
The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. The entering graduate student is assigned a temporary advisor by the Associate Chair for Graduate Programs.

Credits and Courses
Minimum degree requirement is 30 or 36 credits, depending upon which option the student chooses:

30-credit option:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

Objective of Mathematics MS: Actuarial Science (Option D)

The program provides a mathematically rigorous education in actuarial science, prepares students for actuarial professional exams, and develops their economics and business reasoning skills. Students obtain thorough knowledge in the fundamentals of actuarial science such as applied probability models, applied statistics, credibility, financial economics, life contingencies, loss models, and risk theory. Emphasis is placed on developing skills that are highly valued by employers and thus are essential for a successful career as actuary. This program is intended for students who will seek employment as an actuary upon completion of the degree. Those interested in entering the department’s Ph.D. program should consider a different Master’s option.

Overview of Mathematical Sciences

Department MS programs

The Department of Mathematical Sciences offers graduate programs of study in mathematics with specializations in the fields of algebra, analysis, topology, applied mathematics, probability and statistics, actuarial science, industrial mathematics, and atmospheric science.

The programs of study at the master’s level are designed to suit both the student intending to continue toward a Ph.D. as well as the student who wishes to begin a professional career upon completion of the master’s program.

The students enrolled in this program will be able to earn Master's degrees from both institutions upon completion of the common course requirements.

For students who will seek employment as an actuary upon completion of the degree. Those interested in entering the department’s Ph.D. program should consider a different Master’s option.

Admission

Students with undergraduate degrees in mathematics, statistics, actuarial science, economics or a related area are eligible for admission. Applicants should have a strong mathematical background that includes three semesters of calculus, linear algebra, probability, and mathematical statistics. Students lacking this background may be admitted provided that the deficiencies amount to no more than two courses. Although not required, having one actuarial professional exam passed would be an asset.

Major Professor as Advisor

The student must have a major professor, selected from the members of the Actuarial Science Committee, to advise and supervise the student's
studies. The entering student is assigned an advisor by the chair of the committee. Before the start of studies, each student in the program must develop a plan of study in consultation with the Committee.

**Actuarial Science Concentration**

**Credits and Courses**

The minimum degree requirement is 30 credits. In order to graduate, the following requirements must be completed:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTHSTAT 596</td>
<td>Actuarial Statistics I: Fitting of Loss Models</td>
<td>18</td>
</tr>
<tr>

</tr>
<tr>
<td>BUSMGMT 705</td>
<td>Corporate Finance (VEE-Corporate Finance)</td>
<td>3</td>
</tr>
</tbody>
</table>

Select 18 credits from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTHSTAT 563</td>
<td>Regression Analysis (VEE-Applied Statistics)</td>
<td>3</td>
</tr>
<tr>
<td>MTHSTAT 564</td>
<td>Time Series Analysis (VEE-Applied Statistics)</td>
<td>3</td>
</tr>
<tr>
<td>ECON 701</td>
<td>Economic Theory: Microeconomics (VEE-Economics)</td>
<td>4</td>
</tr>
<tr>
<td>ECON 702</td>
<td>Economic Theory: Macroeconomics (VEE-Economics)</td>
<td>4</td>
</tr>
</tbody>
</table>

Courses taken at other universities may be used to meet the VEE requirement of the SOA/CAS.

**Time Limit**

Full-time students are expected to complete the program in two years. Students must complete all degree requirements within five years of initial enrollment.

**Mathematics, MS: Foundations of Advanced Studies**

**Objective of Mathematics MS: Foundations of Advanced Studies (Option E)**

This option is designed to prepare students for advanced-level graduate programs. It is structured so that students with basic preparation from their undergraduate institutions can complete the option in no more than two years. Some students with a higher level of preparation may transfer up to 12 graduate credits from the courses they completed previously; such students may advance more quickly through the program and complete the degree in only one year.

**Overview of Mathematical Sciences Department MS programs**

The Department of Mathematical Sciences offers graduate programs of study in mathematics with specializations in the fields of algebra, analysis, topology, applied mathematics, probability and statistics, actuarial science, industrial mathematics, and atmospheric science.

The programs of study at the master’s level are designed to suit both the student intending to continue toward a Ph.D. as well as the student who wishes to begin a professional career upon completion of the master’s program.

The student may prepare for a career in teaching at the secondary or college level and for a career in research in the academic, industrial, government, or business communities.

Five options for the master’s degree are offered: the standard mathematics option (A), the industrial mathematics option (B), the
Statistics option (C), the actuarial science option (D), and the foundations of advanced studies option (E). Students who plan to continue for a Ph.D. degree with a focus on mathematics/statistics should elect an option from options A, B, C, and E, or the dual master's degree option. The department also offers a master's degree in atmospheric science.

**Dual Master’s Degree Option**

In addition to multiple options available for MS in mathematics, the Department of Mathematical Sciences at UWM and the Department of Technomathematics of Fachhochschule Aachen (FHA), Germany have recently created a Dual Master’s Degree Program in Mathematics. The students enrolled in this program will be able to earn Master’s degrees from both institutions upon completion of the common core requirements.

The program is designed in such a way that students typically will be able to complete all the course requirements within a two-year time period (one year at each institution). Within this program students can choose courses that will allow them to concentrate in the areas of Statistics, Numerical Analysis or General Mathematics. Complete information on the admission policy and graduation requirements, including sample schedules, is available at the Department of Mathematical Sciences web page [http://uwm.edu/math/graduate/](http://uwm.edu/math/graduate/).

**Admission**

An applicant must meet Graduate School requirements plus these departmental requirements to be considered for admission to the program:

1. Completion of three semesters of undergraduate calculus.
2. At least 18 credits of acceptable undergraduate preparation beyond calculus, including at least 3 credits of Linear Algebra (MATH 535 or equivalent) and at least 3 credits of Advanced Calculus (MATH 521 or equivalent).

Applicants who intend to be admitted with specific program-defined course deficiencies should consider the Standard Math Option instead.

**Major Professor as Advisor**

The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. The Associate Chair for Graduate Programs assigns a temporary advisor for the entering graduate student.

**Credits and Courses**

Minimum degree requirement is 30 credits from mathematics/statistics courses, including

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 621</td>
<td>Introduction to Analysis I and Analysis II</td>
<td>6</td>
</tr>
<tr>
<td>MATH 622</td>

<td>Introductory Topology I and Introductory Topology II</td>
<td>6</td>
</tr>
<tr>
<td>MATH 752</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Examination**

The student must pass a written comprehensive examination.

**Time Limit**

The student must complete all degree requirements within 5 years of initial enrollment. Normally, the student can complete all degree requirements within 2 years of initial enrollment. Students who have prior graduate coursework may be able to complete the degree requirements in 1 year.

**Financial Support**

The Department of Mathematical Sciences does not offer financial support to students enrolled in this program.

**Mathematics, MS: Industrial Mathematics**

**Objective of Mathematics MS: Industrial Mathematics (Option B)**

The objective of the master's program in industrial mathematics is to enable students to acquire the fundamentals of applied mathematics in areas of classical and numerical analysis, differential equations and dynamical systems, and probability and statistics. At the same time, the connection of these fields to modeling of physical, biological, and engineering phenomena will be stressed by requiring credits outside of the Department of Mathematical Sciences. Students are to obtain practical experience in mathematical modeling and analysis during an internship or industrial project that will culminate in a thesis.

**Overview of Mathematical Sciences Department MS programs**

The Department of Mathematical Sciences offers graduate programs of study in mathematics with specializations in the fields of algebra, analysis, topology, applied mathematics, probability and statistics, actuarial science, industrial mathematics, and atmospheric science.

The programs of study at the master's level are designed to suit both the student intending to continue toward a Ph.D. as well as the student who
wishes to begin a professional career upon completion of the master’s program.

The student may prepare for a career in teaching at the secondary or college level and for a career in research in the academic, industrial, government, or business communities.

Five options for the master's degree are offered: the standard mathematics option (A), the industrial mathematics option (B), the statistics option (C), the actuarial science option (D), and the foundations of advanced studies option (E). Students who plan to continue for a Ph.D. degree with a focus on mathematics/statistics should elect an option from options A, B, C, and E, or the dual master's degree option. The department also offers a master's degree in atmospheric science.

**Dual Master's Degree Option**

In addition to multiple options available for MS in mathematics, the Department of Mathematical Sciences at UWM and the Department of Technomathematics of Fachhochschule Aachen (FHA), Germany have recently created a Dual Master's Degree Program in Mathematics. The students enrolled in this program will be able to earn Master's degrees from both institutions upon completion of the common course requirements.

The program is designed in such a way that students typically will be able to complete all the course requirements within a two-year time period (one year at each institution). Within this program students can choose courses that will allow them to concentrate in the areas of Statistics, Numerical Analysis or General Mathematics. Complete information on the admission policy and graduation requirements, including sample schedules, is available at the Department of Mathematical Sciences web page http://uwm.edu/math/graduate/.

**Admission**

An applicant must meet the Graduate School requirements as well as the following departmental requirements to be considered for admission to the program:

1. A bachelor’s degree in an area of mathematical science (applied or pure mathematics, actuarial science, statistics, etc.), computer science, economics or finance, physics, engineering, or a related field.
2. Completion of at least three semesters of undergraduate calculus plus at least 6 credits of acceptable mathematics courses requiring calculus.

Students satisfying only the minimum mathematics requirements will be expected to take courses that do not count toward the degree.

**Major Professor as Advisor**

The student must have a major professor to advise and supervise the student's studies. The entering graduate student is assigned an advisor by the chair of the Industrial Mathematics Committee. Depending on the thesis topic, the student may later change advisors.

**General Requirements**

A student must have completed, either prior to entering the program or by the time of graduation, courses in advanced calculus, numerical analysis, and ordinary differential equations. In addition, students must complete courses involving Fourier series, linear algebra, linear programming, mathematical modeling, partial differential equations, probability, and calculus-based statistics.

**Credits and Courses**

At least 36 graduate credits in G or U/G courses at UWM are required.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 701</td>
<td>Industrial Mathematics I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 715</td>
<td>Numerical Analysis</td>

</tr>
<tr>
<td></td>
<td>Coherent set of approved courses (300-level or above) in application area outside the department *</td>
<td>6</td>
</tr>
<tr>
<td></td>
<td>Max 6 credits in any combination of independent study or seminar or thesis (MATH 790, MATH 791, MATH 792, MATH 799, or MATH 990)</td>
<td>6</td>
</tr>
<tr>
<td></td>
<td>Total Credits</td>
<td>36</td>
</tr>
</tbody>
</table>

* Application areas: Physics, Engineering, Business. Students already proficient in an application area are expected to substitute mathematics courses.

Courses are subject to the following regulations:

- Maximum 12 credits below the 500 level from within the Department of Mathematical Sciences;
- Advisor’s prior written approval for every course.

Student also must have demonstrated knowledge of an advanced scientific programming language approved by the Industrial Mathematics Committee.

**Thesis**

A thesis in which the student solves a mathematical problem with an industrial source is required. The student must work with the advisor/major professor from the start of the thesis through its completion, receiving his/her approval. The student must pass an oral defense before three faculty members.

**Time Limit**

Full-time students, without deficiencies, could be expected to complete the program in two years. All degree requirements must be completed within seven years of initial enrollment.

**Special Recommendation**

It is recommended that, by the time of graduation, students master the material presented in the following courses, either prior to enrolling or through coursework:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 313</td>
<td>Linear Programming and Optimization</td>
<td>3</td>
</tr>
<tr>
<td>MATH 315</td>
<td>Mathematical Programming and Optimization</td>
<td>3</td>
</tr>
<tr>
<td>MTHSTAT 564</td>
<td>Time Series Analysis</td>
<td>3</td>
</tr>
<tr>
<td>MATH 571</td>
<td>Introduction to Probability Models</td>
<td>3</td>
</tr>
<tr>
<td>MATH 601</td>
<td>Advanced Engineering Mathematics I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 602</td>
<td>Advanced Engineering Mathematics II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 701</td>
<td>Industrial Mathematics I</td>
<td>3</td>
</tr>
</tbody>
</table>
Students must work closely with their advisors to ensure satisfaction of the General, Coursework, and Thesis requirements for timely graduation.

### Mathematics, MS: Statistics

#### Mathematics MS: Statistics (Option C)

Currently enrolled students have the option of following the old or new requirements. Students entering in Fall 2014 or later must complete the new requirements.

#### Overview of Mathematical Sciences Department MS programs

The Department of Mathematical Sciences offers graduate programs of study in mathematics with specializations in the fields of algebra, analysis, topology, applied mathematics, probability and statistics, actuarial science, industrial mathematics, and atmospheric science.

The programs of study at the master’s level are designed to suit both the student intending to continue toward a Ph.D. as well as the student who wishes to begin a professional career upon completion of the master’s program.

The student may prepare for a career in teaching at the secondary or college level and for a career in research in the academic, industrial, government, or business communities.

Five options for the master’s degree are offered: the standard mathematics option (A), the industrial mathematics option (B), the statistics option (C), the actuarial science option (D), and the foundations of advanced studies option (E). Students who plan to continue for a Ph.D. degree with a focus on mathematics/statistics should elect an option from options A, B, C, and E, or the dual master’s degree option. The department also offers a master’s degree in atmospheric science.
Dual Master’s Degree Option

In addition to multiple options available for MS in mathematics, the Department of Mathematical Sciences at UWM and the Department of Technomathematics of Fachhochschule Aachen (FHA), Germany have recently created a Dual Master’s Degree Program in Mathematics. The students enrolled in this program will be able to earn Master's degrees from both institutions upon completion of the common course requirements.

The program is designed in such a way that students typically will be able to complete all the course requirements within a two-year time period (one year at each institution). Within this program students can choose courses that will allow them to concentrate in the areas of Statistics, Numerical Analysis or General Mathematics. Complete information on the admission policy and graduation requirements, including sample schedules, is available at the Department of Mathematical Sciences web page http://uwm.edu/math/graduate/.

Admission

An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus the following departmental requirements to be considered for admission to the program: completion of three semesters of undergraduate calculus at least 18 credits of acceptable undergraduate preparation beyond calculus; these credits should include courses in probability and statistics equivalent to the sequence MTHSTAT 361/MTHSTAT 362, and courses on advanced calculus equivalent to the sequence MATH 521/MATH 522.

Applicants with deficiencies in probability and statistics may be admitted to the program but will be required to complete the sequence MTHSTAT 361/MTHSTAT 362. Applicants with calculus deficiencies may also be admitted to the program but will be required to complete the sequence MATH 521/MATH 522. Students are expected to make up deficiencies within four enrolled semesters; no course credits earned in making up deficiencies may count toward the degree credit requirement.

Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. Each entering graduate student is assigned a temporary advisor by the Department Graduate Program Coordinator.

Credits and Courses

The minimum requirement is 30 graduate credits. Students must complete the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTHSTAT 563</td>
<td>Regression Analysis</td>
<td>3</td>
</tr>
<tr>
<td>MTHSTAT 564</td>
<td>Time Series Analysis</td>
<td>3</td>
</tr>
<tr>
<td>MTHSTAT 761</td>
<td>Mathematical Statistics I</td>
<td>6</td>
</tr>
<tr>
<td>&amp; MTHSTAT 762</td>
<td>and Mathematical Statistics II</td>
<td></td>
</tr>
</tbody>
</table>

Select at least one other 560-level MthStat course, such as the following:

- MTHSTAT 562 Design of Experiments
- MTHSTAT 565 Nonparametric Statistics
- MTHSTAT 568 Multivariate Statistical Analysis

Total Credits 24-27

Students who already have taken some of these courses as undergraduates, or equivalent courses at another institution, should choose alternatives from the following list, subject to the advisor's approval:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTHSTAT courses numbered 700 or above</td>
<td></td>
<td></td>
</tr>
<tr>
<td>MATH 413</td>
<td>Introduction to Numerical Analysis</td>
<td>3</td>
</tr>
<tr>
<td>MATH 415</td>
<td>Introduction to Scientific Computing</td>
<td>3</td>
</tr>
<tr>
<td>MATH 417</td>
<td>Computational Linear Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 711</td>
<td>Theory of Functions of a Real Variable I</td>
<td>6</td>
</tr>
<tr>
<td>&amp; MATH 712</td>
<td>and Theory of Functions of a Real Variable II</td>
<td></td>
</tr>
<tr>
<td>MATH 713</td>
<td>Theory of Functions of a Complex Variable I</td>
<td>3</td>

</tr>
<tr>
<td>MATH 721</td>
<td>Abstract Measure and Integration</td>
<td>3</td>
</tr>
<tr>
<td>MATH 768</td>
<td>Applied Stochastic Processes</td>
<td>3</td>
</tr>
<tr>
<td>MATH 771</td>
<td>Theory of Probability</td>
<td>3</td>
</tr>
<tr>
<td>MTHSTAT 596</td>
<td>Actuarial Statistics I: Fitting of Loss Models</td>
<td></td>
</tr>
<tr>
<td>&amp; MTHSTAT 597</td>
<td>and Actuarial Statistics II: Credibility, Risk Measures and Related Topics</td>
<td></td>
</tr>
</tbody>
</table>

Thesis Option

Students have the option of writing a thesis, subject to the advisor's approval. Students who write a thesis are exempt from the Master's Proficiency Exam, and they earn 3 credits toward the degree by enrolling in MATH 790. Students who choose the thesis option must pass an oral defense of the thesis.

Master’s Proficiency Exam

Students who do not complete the thesis option are required to pass a written comprehensive examination that tests basic knowledge of statistical theory and either mathematical analysis or algebra.

Time Limit

Students must complete all degree requirements with 5 years of initial enrollment.
Mathematics, PhD

The Department of Mathematical Sciences offers graduate programs of study in mathematics with specializations in the fields of algebra, analysis, topology, applied mathematics, probability and statistics, actuarial science, and industrial mathematics. The Department also offers both MS and PhD degrees in atmospheric science.

A student may prepare for a career in teaching at the secondary or college level, and for a career in research in the academic, industrial, government, or business communities.

The programs of study at the master’s level are designed to suit both the student intending to continue toward a Ph.D., as well as the student who wishes to begin a professional career upon completion of the master’s program.

The Department has a vibrant PhD program. Mathematics research specialties available to students include:

- Actuarial Science (http://uwm.edu/math/research/actuarial-science)
- Algebra (http://uwm.edu/math/research/algebra)
- Analysis (http://uwm.edu/math/research/analysis)
- Applied Mathematics (http://uwm.edu/math/research/applied-mathematics)
- Differential Equations (http://uwm.edu/math/research/differential-equations)
- Numerical Analysis (http://uwm.edu/math/research/numerical-analysis)
- Probability (http://uwm.edu/math/research/probability)
- Statistics (http://uwm.edu/math/research/statistics)
- Topology (http://uwm.edu/math/research/topology)

For more details on the Department's research groups and the research interests of its faculty members click here (http://uwm.edu/math/research).

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus departmental requirements as given for admission to the master’s program. A master’s degree is not a prerequisite for admission to this Ph.D. program.

Reapplication
A student who receives the master’s degree must formally reapply for admission to the Graduate School before continuing studies toward the Ph.D.

Major Professor as Advisor
The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. The entering graduate student is assigned a temporary advisor by the Department Graduate Program Coordinator.

Credits and Courses
Minimum degree requirement is 54 graduate credits beyond the bachelor’s degree, at least 27 of which must be earned in residence at UWM. The student, in consultation with the major professor, must select both a primary and a secondary area of specialization. The primary area may be chosen from one of the following seven fields:

### Transcript Designated Concentrations

</table>
The secondary area may be chosen from another of these fields or may be chosen from another appropriate department. Minimum course requirements for all work in both areas of specialization require approximately two full years of study.

**Foreign Language**

Each student must pass a written examination in one foreign language; the examination is administered by the Department's Language Committee. Acceptable languages are French, German, and Russian; exceptions may be permitted upon written request of advisor.

**Computer Proficiency**

The student shall pass an examination on a higher programming language and/or other appropriate advanced computer skills; the examinations administered by the Department's Computer Committee. The Computer Committee may accept advanced computer science coursework in lieu of the examination.

**Residence**

The student must meet minimum Graduate School residence requirements.

**Doctoral Preliminary Examination**

When the student is sufficiently prepared — normally when the student has earned 24 credits in specified areas above the 700 level — a doctoral preliminary examination to determine the student's knowledge and achievement is taken. For students in mathematics, the exam evaluates the student's general knowledge of mathematics, as well as the student's knowledge of the major area of concentration. Students must pass this examination to continue in the program. With permission of the examination committee, the student may repeat this examination once. If the student does not have a master's degree in mathematics before this examination, the committee will determine whether the student's performance is sufficient to qualify for the master's degree.

**Doctoral Dissertation Proposal Hearing**

After passing the language requirements and the doctoral preliminary examination, the student participates in a doctoral dissertation proposal hearing. At this hearing, the student is examined on the student's chosen area of research and a dissertation topic is approved.

**Dissertation**

The primary requirement for the Ph.D. in mathematics is the candidate's completion, under the supervision of the Department advisor, of an original and significant mathematical investigation presented in the form of a dissertation. The investigation is to be in the field of algebra, analysis, applied mathematics, probability and statistics, topology. A dissertation for the industrial mathematics field must involve an industrial problem requiring a mathematical solution.

**Dissertation Defense**

The candidate must, as the final step toward the degree, present a colloquium based on the dissertation and must pass an oral examination in defense of the dissertation. If the candidate does not successfully defend a thesis within five years of admission to candidacy, the candidate may be required to take another doctoral preliminary examination and be readmitted to candidacy.

**Time Limit**

All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.

**Minor Area for Other Ph.D. Majors**

A doctoral student planning a physical science major other than mathematics may fulfill requirements for mathematics as the minor area of concentration by completing 12 credits of approved mathematics courses with a grade of B or better, at least 6 credits of which must be in courses 700 or above.

A doctoral student planning a non-physical science major may fulfill requirements for mathematics as the minor area of concentration by completing 12 credits with a grade of B or better in approved mathematics courses 300 or above.

For additional information on the Ph.D., see the Graduate School Doctoral Requirements (http://uwm.edu/graduateschool/doctoral-requirements) page.
**MIDDLE EASTERN AND NORTH AFRICAN STUDIES, UNDERGRADUATE CERTIFICATE**

The Undergraduate Certificate in Middle Eastern and North African Studies (MENA) provides students with a thorough understanding of the languages, cultures, history, and societies of the region.

The Middle East has long played a critical role in global economics and politics. Often portrayed by the media as a place of endless conflict, the Middle East is incredibly complex and made up of numerous nations, each with its own political, religious, geographic, and economic structure and traditions. Student in the MENA certificate program explore this complex region by studying the area's literature, languages, history, politics, religion, and art.

The certificate may be of particular interest to students who plan to enter government service or global business, and complements a number of different majors including history, religious studies, political science, economics, business, geography, foreign languages, and anthropology. The program requires one year of either Arabic or Hebrew language courses.

Many students participate in a study abroad (http://uwm.edu/cie/study-abroad) experience to build on their classroom learning.

Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

**Eligibility**

The Undergraduate Certificate in Middle Eastern and North African Studies is open to all students seeking a bachelor's degree from UWM, to students who previously received a bachelor's degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. To be admitted to the University as a non-degree student, individuals must meet regular University admission requirements. Students currently involved in baccalaureate studies who have a bachelor's degree and non-degree students receive the certificate upon completion of the program requirements. All students are required to complete an exit survey before the certificate is awarded.

**Requirements**

The program requires one year of Arabic or Hebrew language courses and a historical survey course. Upper-level courses offer students the opportunity to explore Middle Eastern literature, history, politics, religion, and art in greater depth. Courses totaling 23 credits must be completed with a GPA of 2.750 or better. At least one half of the work for the certificate must be taken at UWM. The Committee for Middle Eastern and North African Studies administers the program and advises students.

In addition to taking courses related to the Middle East and North Africa, students have opportunities to meet and study with Middle Eastern scholars who regularly visit UWM through a number of institutional partnerships with Middle Eastern universities. Students also may take advantage of study abroad programs that offer credit for academic work in the Middle East and North Africa.

Following are the detailed requirements for the certificate. For the specific content and prerequisites of each course, click on the subject code and course number below.

**Middle Eastern Language Sequence**

Building peace in our community, nation, and world will depend on our ability to work well together to solve problems and pursue opportunities. Our Undergraduate Certificate aims to help students build the foundation in these essential skills and is open to students majoring in any field who wish to explore the meaning of peace, including human welfare and quality of life, as well as the resolutions of different types of political, economic, or social conflicts.

Programs

- Peace Studies and Conflict Resolution, Undergraduate Certificate (p. 1638)

Peace Studies Courses

PEACEST 201 Introduction to Conflict Resolution and Peace
3 cr. Undergraduate.
Violent and peaceful strategies of conflict resolution; viability of various plans for permanent world peace.
Prerequisites: none.
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PEACEST 219 Topics in Power and Conflict
3 cr. Undergraduate.
Examination of topics concerned with power, conflict, and non-violent methods of conflict resolution.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

PEACEST 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Last Taught: Spring 2014, Fall 2013, Fall 2009.
Current Offerings: http://uwm.edu/schedule

PEACEST 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

PEACEST 489 Internship in Peace Studies, Upper Division
1-6 cr. Undergraduate.
Application of advanced principles of social sciences in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; 300-level or above course in social sciences; 2.25 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hrs in internship. Retakable to 6 cr max.
Last Taught: Spring 2017, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

PEACEST 497 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

PEACEST 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

PEACEST 699 Advanced Independent Study
1-6 cr. Undergraduate.
Advanced level independent work under the supervision of a peace studies faculty or academic staff member.
Prerequisites: jr st; 2.5 GPA; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: Retakeable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

The Peace Studies and Conflict Resolution, Undergraduate Certificate is premised on the notion that helping people work together to creatively manage conflict will result in more peaceful and just societies, locally and internationally.

Building peace in our community, nation, and world will depend on our ability to work well together to solve problems and pursue opportunities. The Certificate aims to help students build the foundation in these essential skills, and is open to students majoring in any field who wish to explore the meaning of peace, including human welfare and quality of life, as well as the resolutions of different types of political, economic, or social conflicts.

The certificate can enhance the resume of students going into social work, education, public administration, law, healthcare, international affairs, human resources and global business. The program is
interdisciplinary combining coursework from history, political science, communication, economics, anthropology, and sociology.

Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

Eligibility

The Peace Studies and Conflict Resolution Undergraduate Certificate is open to all students seeking a bachelor's degree from UWM, to students who previously have received a bachelor's degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. To be admitted to the University as non-degree students, individuals must meet regular University admission requirements. The program leading to the certificate is open to students majoring in any field.

Requirements

A student must complete 18 credits in the program; nine of these must be in advanced courses (300 level and above). All students are required to complete an exit survey before the certificate is awarded. A 2.500 GPA must be achieved in courses prescribed for the certificate. At least one-half of the work for the certificate must be completed at UWM.

Students interested in the Peace Studies and Conflict Resolution Undergraduate Certificate should consult with the coordinator or the advisor to plan a program.

There are three components to the program:

Required Fieldwork

Select one of the following: ¹

- Internship
- Study Abroad
- Independent Study

Electives

Select 9 credits

Total Credits 18

¹ The purpose of this requirement is to enable the student to engage in peace studies through "practical" experience or research. The student should be engaged in the "practice of peace" through community service, conflict identification and education, environmental awareness, governmental politics, or social change. The area of study must be approved by the coordinator of the peace studies certificate and must meet the requirements of the department through which it is being completed. The fieldwork requirement may be fulfilled in one of three ways: an internship, study abroad, or independent study.

Electives

Students are encouraged to construct an area of concentration from their elective credits. Suggested areas of concentration may be geographic and/or thematic, such as:

- World regions and countries
- World religions and practices
- Conflict resolution skills
- International relations
- Sustainable development
- Peace studies/education
- Environmental studies
- Social change/social justice
- Economic development

The following list contains of approved elective courses. For the specific content and prerequisites of each course, click on the subject code and course number. Additional courses may be approved with the consent of the Peace Studies and Conflict Resolution Program coordinator.

PHILOSOPHY

A problem may be called "philosophical" when it has depth and universality, far-reaching theoretical ramifications, human importance, and no easy solution. Philosophical problems constitute the subject matter of philosophy.

Academic courses in philosophy have the value of introducing the crucial problems in a systematic way, exposing students to fruitful methods for attacking them, to models of solid, hard-hitting argumentation, and to a literature ranging from Plato's Dialogues to current professional journals. The relevance of philosophy is nowhere better exhibited than in the distinctions ignored, the arguments overlooked, and the errors repeated by persons unfamiliar with that literature.

Programs

• Ethics, Values, and Society (CEVS), Undergraduate Certificate (p. 1649)
• Philosophy, BA (p. 1651)
• Philosophy, MA (p. 1654)
• Philosophy, Minor (p. 1656)

Philosophy Courses

PHILOS 101 Introduction to Philosophy:
3 cr. Undergraduate.
Introduction to the philosophical thinking through examination of such topics as Plato's and Aristotle's contribution to Western civilization; free will and moral responsibility; God, morality, and knowledge.
Prerequisites: none.
Course Rules: May not be retaken for add'l cr; may be repeated for higher grade.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

PHILOS 111 Introduction to Logic - Critical Reasoning
3 cr. Undergraduate.
Students learn a broad variety of fundamental logical methods - techniques used to identify, analyze, model, evaluate, and criticize different types of real-world reasoning.
Prerequisites: ACT math subscore of 18 or higher, or Math Placement Level 10, which is earned by any of the following: (a) Level 10 on Math Placement Test; (b) grade of C or better in Math 090; or (c) grade of D in Math 094.
Course Rules: Jointly offered w/ Math 111; they count as repeats of one another.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

PHILOS 192 First-Year Seminar:
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: HU
Last Taught: Spring 2018, Fall 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

PHILOS 199 Independent Study
1-3 cr. Undergraduate.
For further information, consult dept chair.
Prerequisites: 2.5 gpa; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

PHILOS 204 Introduction to Asian Religions
3 cr. Undergraduate.
Philosophy of Asian religions; emphasis on the Indian experience of Hinduism and Buddhism, and the Chinese experience of Buddhism, Confucianism, and Taoism.
Prerequisites: none.
General Education Requirements: HU
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PHILOS 207 Religion and Science
3 cr. Undergraduate.
The alleged conflict between science and religion: case histories, analysis of the issues, implications for the concepts of religious beliefs and scientific knowledge.
Prerequisites: none.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

PHILOS 211 Elementary Logic
3 cr. Undergraduate.
Introduction to traditional and modern logic; the concepts of argument, validity, proof, fallacy, persuasion, and reasoning; the development of certain practical skills.
Prerequisites: none.
General Education Requirements: HU, QLB
Current Offerings: http://uwm.edu/schedule

PHILOS 212 Modern Deductive Logic
3 cr. Undergraduate.
A second course in symbolic logic that develops the skills in symbolic translation and proof construction acquired in Philos 211, investigates more abstractly the properties of formal systems of proof.
Prerequisites: grade C or better in Philos 211(P).
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule
PHILOS 213 Introduction to the Philosophy of Science
3 cr. Undergraduate.
Course for beginning students dealing with such problems as induction vs deduction; hypotheses and theories and their relation to observation; explanation and prediction.
Prerequisites: none.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

PHILOS 215 Belief, Knowledge, and Truth: An Introduction to the Theory of Knowledge
3 cr. Undergraduate.
Grounds of rational belief and knowledge and methods used for obtaining them, with particular emphasis on problems of evidence and truth.
Prerequisites: none.
General Education Requirements: HU
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHILOS 217 Introduction to Metaphysics
3 cr. Undergraduate.
Introduction to the major problems of metaphysics, such as the mind-body problem, the free will-determinism issue, and the nature of causality.
Prerequisites: none.
General Education Requirements: HU
Last Taught: Spring 2017, Fall 2014, Spring 2014, Fall 2012.
Current Offerings: http://uwm.edu/schedule

PHILOS 221 Topics in Philosophy:
3 cr. Undergraduate.
A course for beginning students dealing with such philosophical problems as freedom of will, skepticism, or a historical figure or movement.
Prerequisites: none.
Course Rules: May be retaken w/chg in topic to 6 cr max.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

PHILOS 235 Philosophical Aspects of Feminism
3 cr. Undergraduate.
A course for beginning students dealing with selected philosophical issues underlying feminist ideas and problems.
Prerequisites: none.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

PHILOS 237 Technology, Values, and Society
3 cr. Undergraduate.
Discussion of controversies over whether modern technology is a progressive or regressive force in human life; impact of technology on individual and institutional values.
Prerequisites: none.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

PHILOS 241 Introductory Ethics
3 cr. Undergraduate.
Development of moral ideas. Criticism of ethical theories and of social institutions such as state, property, and family.
Prerequisites: none.
General Education Requirements: HU
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PHILOS 242 Introduction to Social and Political Philosophy
3 cr. Undergraduate.
Opposing philosophical views about man and his political and social life.
Prerequisites: none.
General Education Requirements: HU
Last Taught: Fall 2015, Spring 2014, Fall 2011, Spring 2009.
Current Offerings: http://uwm.edu/schedule

PHILOS 244 Ethical Issues in Health Care:
3 cr. Undergraduate.
Study of ethical issues facing patients, providers, and public policy planners: e.g., ethical response to terminal illness, equity in health care delivery.
Prerequisites: none.
Course Rules: May be retaken w/chg in topic to 6 cr max.
General Education Requirements: HU
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PHILOS 245 Critical Thinking and the Law:
3 cr. Undergraduate.
Development of critical and analytical skills using legal reasoning as a model and law texts as sources.
Prerequisites: none.
Course Rules: May be retaken w/chg in topic to 6 cr max.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

PHILOS 250 God, Faith and Reason
3 cr. Undergraduate.
Major questions: What is God? Can God’s existence (or non-existence) be proved? How? What is religious faith? Is faith rational? Is faith ethical or wise?
Prerequisites: none.
General Education Requirements: HU
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule
PHILOS 253 Philosophy of the Arts
3 cr. Undergraduate.
The creation, appreciation, and criticism of works of art. Sources and use of standards.
Prerequisites: none.
General Education Requirements: HU
Last Taught: Summer 2014, Fall 2012, Fall 2011, Spring 2010.
Current Offerings: http://uwm.edu/schedule

PHILOS 271 Philosophical Traditions:
3 cr. Undergraduate.
Survey of one significant philosophical tradition.
Prerequisites: none.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

PHILOS 272 Philosophical Classics:
1 cr. Undergraduate.
Intensive study of one short work of special importance in the philosophic literature.
Prerequisites: none.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

PHILOS 289 Internship in Philosophy, Lower Division
1-6 cr. Undergraduate.
Application of basic principles of philosophy in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: intro course in philos; 2.25 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hours in internship. May be retaken to 6 cr max.
Last Taught: Fall 2017, Spring 2017, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHILOS 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined, and/or in specially prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2017, Spring 2017, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHILOS 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

PHILOS 303 Mind and Knowledge
3 cr. Undergraduate/Graduate.
Studies the natures of action, belief and knowledge and the constraint that knowledge imposes on responsible action and belief, both in individuals and across society.
Prerequisites: jr st; Philos 101(P) or 215(P).
Current Offerings: http://uwm.edu/schedule

PHILOS 317 Metaphysics
3 cr. Undergraduate/Graduate.
Study of perennial philosophical issues about the nature of the world and our relation to it; realism, idealism, causality, the mind-body problem, time, truth.
Prerequisites: jr st & 3 cr in philos.
Last Taught: Fall 2017, Fall 2016, Spring 2016, Spring 2015.
Current Offerings: http://uwm.edu/schedule

PHILOS 324 Philosophy of Science
3 cr. Undergraduate/Graduate.
Study of traditional and recent views about the nature, aim and ways of evaluating scientific theories, with reference to both the natural and social sciences.
Prerequisites: jr st & 3 cr in philos.
Last Taught: Spring 2018, Fall 2014, Spring 2014, Fall 2012.
Current Offerings: http://uwm.edu/schedule

PHILOS 332 Philosophical Problems:
3 cr. Undergraduate.
Specific philosophical topic or issue, such as contemporary aesthetics, personal identity, the mind-body problem, the nature of beauty, equality, the just-war doctrine.
Prerequisites: jr st; 3 cr in philos.
Course Rules: Not open for cr to students w/cr in Philos 381 w/similar subtitle. May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

PHILOS 335 Philosophy of Biology
3 cr. Undergraduate/Graduate.
Philosophical study of topics in the biological sciences, such as evolutionary explanations, genetic determinism, the definition of life, what constitutes a biological individual.
Prerequisites: jr st; 3 cr in philos.
Current Offerings: http://uwm.edu/schedule

PHILOS 337 Environmental Ethics
3 cr. Undergraduate/Graduate.
Theories of environmental ethics, practical application. Responsibilities to nature/future generations; moral value/status of environment and organisms; philosophical issues concerning environmental studies and ecology.
Prerequisites: jr st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHILOS 341 Modern Ethical Theories
3 cr. Undergraduate.
Ethical theories and problems as discussed in the late nineteenth, twentieth, and twenty first-centuries.
Prerequisites: jr st; 3 cr in philos; satisfaction of OWC-A.
General Education Requirements: OWC-B
Current Offerings: http://uwm.edu/schedule
PHILOS 349 Great Moral Philosophers
3 cr. Undergraduate/Graduate.
Major themes of moral philosophy from Plato and Aristotle to Bentham and Mill, with critical study of the outstanding works.
Prerequisites: jr st & 3 cr in philos.
Last Taught: Fall 2012, Fall 2010, Fall 2009, Fall 2008.
Current Offerings: http://uwm.edu/schedule

PHILOS 350 Introduction to the Comparative Study of Religion
3 cr. Undergraduate/Graduate.
Analysis of the nature of religion, of various comparative typological classifications and methodological approaches; basic problems in understanding the varieties of religious experience and expression.
Prerequisites: jr st, Philos 204(P), Philos/Hist/Hebr St 275(P) or Anthro 203(P).
Current Offerings: http://uwm.edu/schedule

PHILOS 351 Philosophy of Mind
3 cr. Undergraduate/Graduate.
Critical study of the nature of mind and its relation to body and matter, with emphasis on recent advances in philosophy and psychology.
Prerequisites: jr st & 3 cr in philos.
Last Taught: Fall 2015, Fall 2012, Spring 2012, Spring 2011.
Current Offerings: http://uwm.edu/schedule

PHILOS 355 Political Philosophy
3 cr. Undergraduate/Graduate.
Philosophical doctrines involved in justification of political decisions; analysis of fundamental concepts such as the common good, authority, justice, natural law, and natural rights.
Prerequisites: jr st, Philos 242(P) or a course in ethics.
Last Taught: Spring 2018, Fall 2016, Spring 2016, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHILOS 358 Action, Will, and Freedom
3 cr. Undergraduate/Graduate.
The nature of the will, agency, intentional action, and the problem of free will and determinism.
Prerequisites: jr st, 3 cr philos; or grad st.
Current Offerings: http://uwm.edu/schedule

PHILOS 360 Philosophy of Perception
3 cr. Undergraduate/Graduate.
Major issues in the philosophy of perception: the nature of sensation, perception and inference, the relationship of perception and belief.
Prerequisites: jr st, 3 cr in Philos.
Current Offerings: http://uwm.edu/schedule

PHILOS 381 Honors Seminar:
3 cr. Undergraduate.
Intensive study of selected philosophers, movements, or philosophical problems.
Prerequisites: soph st; Honors 200(P); cons Honors College dir.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

PHILOS 384 The Philosophy of Law
3 cr. Undergraduate/Graduate.
The idea of law and its relationship to morality. Issues of legal obligation, rights, responsibility, and punishment.
Prerequisites: jr st; 3 cr philos or previous course in political theory or law studies recom.
Course Rules: Philos 384 & Pol Sci 384 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Fall 2016, Spring 2016, Spring 2014.
Current Offerings: http://uwm.edu/schedule

PHILOS 430 Great Thinkers of the Ancient Period
3 cr. Undergraduate/Graduate.
An examination of, and engagement with, the thought of some of the major philosophers of the ancient period, including the Pre-Socratics, Plato, and Aristotle.
Prerequisites: jr st & 3 cr in philos.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHILOS 431 History of Medieval Philosophy
3 cr. Undergraduate/Graduate.
Critical and historical examination of writings of medieval philosophers such as Augustine, Anselm, Aquinas, Duns Scotus, Ockham, Al Farabi, Maimonides.
Prerequisites: jr st & 3 cr in philos.
Current Offerings: http://uwm.edu/schedule

PHILOS 432 Great Thinkers of the Modern Period
3 cr. Undergraduate/Graduate.
An examination of the thought of representative philosophers of the 17th and 18th centuries.
Prerequisites: jr st & 3 cr in philos.
Current Offerings: http://uwm.edu/schedule

PHILOS 433 Nineteenth-Century Philosophers
3 cr. Undergraduate/Graduate.
Analysis of existentialist thinkers such as Kierkegaard, Nietzsche, and others. The conflict of idealistic, materialistic, and irrationalist philosophies of the nineteenth century and their influence on its social, literary, and religious movements.
Prerequisites: jr st & 3 cr in philos.
Last Taught: Fall 2012, Fall 2010, Spring 2009, Fall 1995.
Current Offerings: http://uwm.edu/schedule

PHILOS 434 Survey of Contemporary Philosophy
3 cr. Undergraduate/Graduate.
Comparison of problems and solutions dealt with by currently active movements and philosophers, including Carnap, Croce, Dewey, Heidegger, Husserl, Moore, Russell, Sartre, and Wittgenstein.
Prerequisites: jr st & 3 cr in philos.
Current Offerings: http://uwm.edu/schedule

PHILOS 435 Existentialism
3 cr. Undergraduate/Graduate.
Analysis of existentialist thinkers such as Kierkegaard, Nietzsche, Heidegger, Sartre, and Merleau-Ponty.
Prerequisites: jr st & 3 cr in philos.
Current Offerings: http://uwm.edu/schedule

http://uwm.edu/schedule
PHILOS 437 Phenomenology
3 cr. Undergraduate/Graduate.
Husserl's phenomenological method and its impact on recent continental
philosophy, e.g. Heidegger, Sartre, Merleau-Ponty.
Prerequisites: jr st & 3 cr in philos.
Current Offerings: http://uwm.edu/schedule

PHILOS 461 Islamic Philosophy and Mysticism
3 cr. Undergraduate/Graduate.
Problems central to Islamic theology, philosophy, and mysticism, and
their relations to the teachings of Islam.
Prerequisites: jr st & 3 cr in philos.
Current Offerings: http://uwm.edu/schedule

PHILOS 474 Contemporary Religious Thought:
3 cr. Undergraduate/Graduate.
Analysis of two or more contemporary religious thinkers (e.g., Buber,
Heschel, Tillich, Barth, Bulmann, death-of-God theologians, Moltmann,
Pannenberg, Rahner, Chardin). Difficulties and objections are discussed.
Prerequisites: jr st, 3 cr in philos.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

PHILOS 475 Special Topics in Indian Religious Thought:
3 cr. Undergraduate/Graduate.
Intensive study in such topics as perception, skepticism, induction,
epistemology and philosophy of science.
Prerequisites: jr st, either Philos 212(P) or 6 cr math at the 300-level or
above; or grad st.
Course Rules: May be retaken w/chg in topic & cons advisor & instr to 6
cr max.
Current Offerings: http://uwm.edu/schedule

PHILOS 481 Social and Political Philosophy
3 cr. Undergraduate/Graduate.
Recent developments in the philosophy of social and political
philosophy, e.g. political philosophy, social theory, legal theory.
Prerequisites: jr st & 3 cr in philos.
Last Taught: Fall 2015, Fall 2013, Fall 2011, Fall 2009.
Current Offerings: http://uwm.edu/schedule

PHILOS 489 Internship in Philosophy, Upper Division
1-6 cr. Undergraduate.
Application of advanced principles of philosophy in a business,
organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; 300-level or above course in philos; 2.25 gpa; cons
supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hours in
internship. May be retaken to 6 cr max.
Last Taught: Spring 2010, Fall 1998.
Current Offerings: http://uwm.edu/schedule

PHILOS 497 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM sponsored program before course
work level, content and credits are determined and/or in specially
prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

PHILOS 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Requires only dept & assoc dean approval. In exceptional circumstances,
can be offered in one add'l sem.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

PHILOS 511 Symbolic Logic
3 cr. Undergraduate/Graduate.
First-order predicate calculus; formal properties of theoretical systems;
chief results of modern mathematical logic; advanced topics such as
completeness and computability.
Prerequisites: jr st, either Philos 212(P) or 6 cr math at the 300-level or
above; or grad st.
Course Rules: Jointly-offered w/& counts as repeat of CompSci/Math
511.
Last Taught: Fall 2015, Fall 2013, Fall 2011, Fall 2009.
Current Offerings: http://uwm.edu/schedule

PHILOS 516 Language and Meaning
3 cr. Undergraduate/Graduate.
Philosophical issues of the semantics, syntax and pragmatics of
language; relations between philosophy of language and metaphysics,
epistemology and philosophy of science.
Prerequisites: jr st, either Philos 101(P) or 432(P).
Last Taught: Fall 2015, Fall 2012, Spring 2012, Fall 2008.
Current Offerings: http://uwm.edu/schedule

PHILOS 517 Special Problems in the Philosophy of Language and
Linguistics:
3 cr. Undergraduate/Graduate.
In depth study of one or more topics concerning the nature of language;
its acquisition, use and formal structures.
Prerequisites: jr st; 6 cr math at the 300-level or above.
Course Rules: May be retaken w/chg in topic & cons advisor & instr to 6
cr max.
Current Offerings: http://uwm.edu/schedule

PHILOS 518 Philosophy of History
3 cr. Undergraduate/Graduate.
The nature of historical knowledge and belief in terms of the justification
of historical narration, explanation and prediction.
Prerequisites: jr st & 3 cr in philos.
Current Offerings: http://uwm.edu/schedule

PHILOS 519 Special Problems in Metaphysics and Epistemology:
3 cr. Undergraduate/Graduate.
Intensive study in such topics as perception, skepticism, induction,
mathematical knowledge, universals, causality, substance, determinism,
possibility.
Prerequisites: jr st & 3 cr in philos.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule
PHILOS 520 Philosophy of the Natural Sciences
3 cr. Undergraduate/Graduate.
The nature and function of science; the logic of scientific method; clarification of such concepts as cause, law, theory, probability, determinism, and teleology.
Prerequisites: jr st & 3 cr in philos.
Current Offerings: http://uwm.edu/schedule

PHILOS 521 Philosophy of the Social Sciences
3 cr. Undergraduate/Graduate.
The nature and scope of the social sciences; explanatory, interpretive, and normative concerns in theory construction, their interconnection, and their methodological implications.
Prerequisites: jr st & 3 cr in philos.
Current Offerings: http://uwm.edu/schedule

PHILOS 522 Special Topics in the Philosophy of Science
3 cr. Undergraduate/Graduate.
Consideration of one or more of the following: logic of theory construction, theoretical entities, measurement, nature of laws, conventionalism, operationalism, and induction.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2014, Fall 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule

PHILOS 535 Philosophical Topics in Feminist Theory
3 cr. Undergraduate/Graduate.
Study of selected feminist theorists with an emphasis on past or contemporary thinkers. Attention will be paid to the philosophical importance of the problems raised.
Prerequisites: jr st, a course in philos or women's stds.
Course Rules: May be retaken w/chg in topic to 6 cr max. Philos 535 & Wmns 535 are jointly offered; with same topic, they count as repeats of one another.
Last Taught: Fall 2017, Fall 2016, Fall 2014, Spring 2010.
Current Offerings: http://uwm.edu/schedule

PHILOS 542 Punishment and Responsibility
3 cr. Undergraduate/Graduate.
Views on the moral permissibility of punishment and other forms of penalization; the foundations of a general theory of moral responsibility.
Prerequisites: jr st & 3 cr in philos. Philos 241(R) or social science background recom.
Current Offerings: http://uwm.edu/schedule

PHILOS 551 Aristotle
3 cr. Undergraduate/Graduate.
Intensive study of one or more of Aristotle's major works or of themes and problems in Aristotle's thought. Particular attention to careful analysis of the texts.
Prerequisites: jr st; 3 cr philos; Philos 430(R).
Current Offerings: http://uwm.edu/schedule

PHILOS 554 Special Topics in the History of Modern Philosophy
3 cr. Undergraduate/Graduate.
Intensive study of a philosopher, movement, or historical problem in modern philosophy, e.g., Spinoza, British empiricists, Locke's influence upon the Enlightenment, overthrow of Hegelian idealism.
Prerequisites: jr st; 3 cr philos; Philos 432(R); or cons instr.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Last Taught: Fall 2017, Fall 2016, Spring 2016, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHILOS 555 Recent Philosophy
3 cr. Undergraduate/Graduate.
Intensive study of one or more philosophers or philosophical movements of the recent past.
Prerequisites: jr st; 3 cr philos.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

PHILOS 562 Special Topics in Ethics and Social and Political Philosophy
3 cr. Undergraduate/Graduate.
Intensive study of issues such as the concept of law, punishment, liberty, civil disobedience, the public good, and the applicability of scientific method to social issues.
Prerequisites: jr st & 3 cr in philos.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

PHILOS 5681 Seminar in Advanced Topics
3 cr. Undergraduate/Graduate.
Seminar on a philosopher, philosophical movement, issue, or problem for majors and graduate students. Research papers required. Additional prereqs announced in Schedule of Classes each time course is offered.
Prerequisites: sr st & 12 cr in philos at 300-level or above; or grad st.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

PHILOS 685 Senior Capstone Research Seminar
3 cr. Undergraduate.
Seminar study of a philosopher, philosophical movement, text, or topic for senior philosophy majors. Research paper and presentation required.
Prerequisites: sr st; declared Philos major; or cons instr.
Course Rules: Satisfies L&S research req. May be retaken w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

PHILOS 689 Independent Work
2-3 cr. Undergraduate.
See Advanced Independent Work, undergrad bulletin.
Prerequisites: jr st; 3.0 in major or 3.0 overall gpa, & writ cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken w/chg in topic to 9 cr max. Only 6 cr count toward Philos major. No more than 3 cr with any one instr except with writ cons dept.
Current Offerings: http://uwm.edu/schedule
PHILOS 712 Fundamentals of Formal Logic
3 cr. Graduate.
A study of basic aspects of contemporary formal logic.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

PHILOS 756 Seminar in Major Movements in Philosophical Thought:
3 cr. Graduate.
Intensive study of school or movement such as continental rationalism,
empiricism; existentialism, phenomenology, etc. Specific topic and any
additional prerequisites announced in schedule of classes each time
course is offered.
Prerequisites: grad st; cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

PHILOS 758 Seminar in Major Philosophers:
3 cr. Graduate.
Intensive study of the thought or system, or an important part of the
thought or system, of a major figure in philosophy. Specific topics and
any additional prerequisites announced in schedule of classes each time
course is offered.
Prerequisites: grad st; cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

PHILOS 790 Seminar in Epistemology:
2-3 cr. Graduate.
Specific topics and any additional prerequisites announced in schedule of
classes each time course is offered.
Prerequisites: grad st; & cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

PHILOS 911 Seminar in Logic:
2-3 cr. Graduate.
Specific topics and any additional prerequisites announced in Timetable
each time course is offered.
Prerequisites: grad st & cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2008.
Current Offerings: http://uwm.edu/schedule

PHILOS 920 Seminar in the Philosophy of Science:
2-3 cr. Graduate.
Specific topics and any additional prerequisites announced in Timetable
each time course is offered.
Prerequisites: grad st & cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

PHILOS 941 Seminar in Ethics and Social and Political Philosophy:
2-3 cr. Graduate.
Specific topics and any additional prerequisites announced in Timetable
each time course is offered.
Prerequisites: grad st & cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

PHILOS 960 Seminar in Metaphysics:
2-3 cr. Graduate.
Specific topics and any additional prerequisites announced in Timetable
each time course is offered.
Prerequisites: grad st & cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2017, Fall 2015, Fall 2014, Spring 2014.
Current Offerings: http://uwm.edu/schedule

PHILOS 990 Thesis
3 cr. Graduate.
Prerequisites: grad st in option B or in Language & Linguis concentration;
cons major prof & committee.
Course Rules: Retakable only once in option B. Not retakable by students
in Language & Linguis concentration.
Current Offerings: http://uwm.edu/schedule

PHILOS 999 Advanced Independent Study
1-3 cr. Graduate.
Prerequisites: grad st & cons dept chair.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

Ethics, Values, and Society (CEVS), Undergraduate Certificate

The Undergraduate Certificate in Ethics, Values, and Society (CEVS) is an academic program for undergraduates to explore questions about ethics, politics, and social justice across topics and subject areas. We believe that ethics and values are an integral part of every major and discipline. In particular, the Certificate enables students to combine more practical and applied inquiries into ethical and social/political issues (perhaps pursued in the student’s major) with grounding in the theoretical foundations of such inquiries.

The grounding in the main theories of ethics and political philosophy provided in the Foundational Philosophy Courses in the Certificate will add depth and richness to the student’s studies in other, more applied and content-specific classes.

Certificate courses are organized around five themes with which most of the courses can be associated. Students are encouraged (not required) to select their Certificate courses with a thematic focus in mind:

1. **Institutions:** This theme concerns questions of ethics and justice in political, economic, legal, educational, and other institutions. Issues regarding international justice and human rights are also covered by this theme.

2. **Culture and Identity:** This theme explores and critiques conceptions of ethics and justice in relation to issues of culture and identity, including issues concerning class, race, gender, and sexual orientation.

3. **Environment:** This theme covers the just distribution and use of environmental resources, as well as the ethical treatment of non-human animals.

4. **Health:** This theme covers the just distribution and use of health resources, problems in bioethics, and related issues.

5. **Information Ethics:** This theme examines ethical issues regarding media and the use of information technology.

**Eligibility**

The Undergraduate Certificate in Ethics, Values, and Society is meant to enhance a bachelor’s degree. The certificate is available to all students seeking a bachelor’s degree from UWM and to students who previously have received a bachelor’s degree from UWM or any other accredited college or university. Students currently involved in baccalaureate studies who successfully complete the requirements of the program will be awarded the certificate at the time of graduation. Students who already have a bachelor’s degree will receive the certificate upon completion of the program requirements.
Requirements

To obtain the certificate, the student must complete, with a minimum grade point average of 2.500, at least 18 credits (at least 6 courses) in approved CEVS courses, of which at least 12 credits must be in Letters and Science courses, with 6 of those at the 300 level or above. At least 12 credits must be earned in residence at UWM, and at least 9 of the credits taken in residence must be at the 300 level or above. No more than 12 credits from any one department may count toward the certificate. Courses for the certificate may not be taken on a credit/no credit bases. The following are required:

Philosophy, BA

The study of Philosophy can be challenging because it asks students to critically examine very fundamental questions about what it means to be human - behavior, values, ethics, logic, aesthetics. Some describe it as “thinking in slow motion” because of the way it explores in depth the human experience.

Students choose philosophy because it instills a lifelong love and quest for knowledge, it imparts a disciplined and systematic way of thinking, and it enhances critical and analytical capacities. Most graduates of philosophy describe the great personal reward that comes from exploring the great thinkers of the past in the context of modern issues. But, they also passionately value the career skills that they developed - how to read and comprehend difficult text; how to understand different interpretations of information and assess opposing viewpoints; how to craft a clear and logical position on an issue in writing and orally; and how to make connections between smaller, seemingly disparate details and the big picture.

By mid-career, philosophy majors out earn business majors on average because their knowledge and skills make them excellent leaders in business, nonprofit, law, government work, education, and more.

The undergraduate program is relatively small, resulting in more one-on-one attention from faculty than might be found at another university.

Requirements

Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.
III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

</tr>
</tbody>
</table>

V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

<table>

<tr>
<td></td>
<td>Cultural Diversity</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Complete 3 credits in a course with Cultural Diversity (CD) designation.</td>
<td></td>
</tr>
</tbody>
</table>

* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

VI. The Major

The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses
from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 and above) courses in their major.

Research Requirement
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Philosophy Major Requirements
At UWM, incoming freshmen interested in studying philosophy are advised to begin with the general introductory course, PHILOS 101, though there are several courses, especially at the 200 level, that are open to students without a background in philosophy. The 300 level includes courses designed to provide more in-depth treatments of traditional philosophical areas. Courses at the 400 level are devoted to the history of philosophy. Courses at the 500 level deal with specific issues and problems.

The College of Letters & Science requires that students complete at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM. Students also must attain at least a 2.500 GPA on all major credits attempted at UWM. In addition, they must attain a 2.500 GPA on all major credits attempted, including any transfer work.

It is expected that the required courses in the history of philosophy (PHILOS 430 and PHILOS 432) will be taken as soon as the student decides to major in philosophy (normally during the junior year). Students must fulfill the capstone/research requirement in the senior year. It is recommended strongly that students become proficient in at least one related academic discipline. Each major will be asked to submit a paper for inclusion in a portfolio that is kept in the department. Typically, this will be a paper written for PHILOS 685. It should be stressed that this is not an additional requirement for graduation as a major. Rather, it is part of the department's ongoing effort to evaluate and improve our major program.

A minimum of 30 credits in philosophy is required.

Electives
Select 12 credits of philosophy electives \(^2\) 12

Capstone/Research Requirement
Select one of the following: 3

| PHILOS 681 | Seminar in Advanced Topics: (subtitle) |
| PHILOS 685 | Senior Capstone Research Seminar: (subtitle) |

Total Credits 33

1 PHILOS 212, or a more advanced course in logic may be substituted for PHILOS 211 with the permission of the department chair.
2 At least 15 of these 30 credits must be taken at the 300 level or above in residence at UWM.

Letters & Science Advising
The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Honors in the Major
Prior to the beginning of their senior year, philosophy majors who maintain a 3.000 GPA in all UWM courses attempted, a 3.500 GPA in courses in the major, and a 3.5 GPA in advanced courses in the major may apply to the undergraduate program coordinator for special honors work in philosophy. Upon successful completion of that work, the students are recommended by the department for graduation with honors in philosophy. The special work normally involves participation in PHILOS 681 or PHILOS 685, earning a grade of A- or above.
Honors in the College of Letters and Science

Dean's Honor List
GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Contact Information
Current Students contact the Department directly, gjaworsk@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu
http://uwm.edu/philosophy/undergraduate/

Philosophy, MA
The Department of Philosophy offers a program of graduate study leading to the degree of Master of Arts. The general purpose of this program is to provide students with the background and stimulus for critical and original philosophical thoughts. The program is designed to serve both those students who wish to pursue a Doctor of Philosophy degree in philosophy and those students who wish either to terminate their formal philosophical studies with the Master of Arts degree or to integrate a graduate level of study in philosophy with graduate studies in other academic areas.

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/Registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these departmental requirements to be considered for admission to the program:

- Undergraduate major in philosophy or other academic background judged suitable by the Department.

- Submission of scores on the General Test of the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre).

- Three letters of recommendation concerning academic qualifications.

- A sample of written work is recommended but not required.

- Language and Linguistics Concentration only: LINGUIS 464 or an equivalent.

Major Professor as Advisor
The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. At time of admission, the student's program will be supervised by the Graduate Advisor.

A student planning to work beyond the master's program should select, in consultation with the advisor, courses which will develop broad philosophical competence. A student intending to terminate studies with the master's degree may plan a more specialized program.

Advisory Committee
During the first year in attendance, the student chooses an advisor and an advisory committee of three faculty members. The student's advisor serves as chair of this committee. The choice of committee is made in consultation with the student's advisor, and submitted to the Department's Graduate Studies Committee for approval. No later than the second week of the student's second semester in the program, the advisory committee meets with the student to discuss the individual's background in philosophy and goals in this program. By the end of the student's second semester the committee has conferred with the student's instructors and meets with the student to discuss that individual's progress in the program. At that time the student, together with the committee, plans the balance of the student's work in the program and how all requirements can best be met. The committee continues to gather information on the student's class work from the instructors, and at least once each semester meets with the student to discuss the student's continuing progress, future plans in the program and the meeting of departmental requirements. The student may at any time petition the Graduate Studies Committee for a change in the composition of the advisory committee.

Credits and Courses

History Requirement
Students taking Option A or B will be required to demonstrate competence in history of philosophy by passing the following two courses with a grade of B or better.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHILOS 430</td>
<td>Great Thinkers of the Ancient Period</td>
<td>3</td>
</tr>
<tr>
<td>PHILOS 432</td>
<td>Great Thinkers of the Modern Period</td>
<td>3</td>
</tr>
</tbody>
</table>

The Graduate Studies Committee may certify competence if the student has as an undergraduate taken PHILOS 430 and PHILOS 432 at UWM within the past five years or has taken their equivalent as determined by the Committee. The determination may include an equivalency exam.

Students selecting the language and linguistics concentration need only meet the requirement for PHILOS 432.
Logic Requirement
The student is required to demonstrate competence in logic by passing with a grade of B or better.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHILOS 511</td>
<td>Symbolic Logic</td>
<td>3</td>
</tr>
<tr>
<td>PHILOS 712</td>
<td>Fundamentals of Formal Logic</td>
<td>3</td>
</tr>
</tbody>
</table>

The Graduate Committee may certify competence if within the last five years the student has taken PHILOS 511 or PHILOS 712 or has taken an equivalent course as determined by the Committee. The determination may include an equivalency exam.

Degree Alternatives
The Department of Philosophy offers three alternatives by which the Master of Arts degree in philosophy may be obtained: Option A, the non-thesis option; Option B, the thesis option; and a language and linguistics concentration with a thesis. There is no foreign language requirement for the completion of the Master of Arts degree in philosophy, though students are encouraged to develop proficiency in a foreign or classical language.

Option A: Non-Thesis Option (30 Credits Plus Exam)
Minimum degree requirement is 30 credits in coursework, 21 of which must normally be in philosophy, 9 of which may be in related fields. All 30 credits must be earned with grades of B or better; and at least 12 must be in graduate seminars.

<table>
<thead>
<tr>

<td>Related fields</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>30</td>
</tr>
</tbody>
</table>

1 The Philosophy Department Graduate Studies Committee may permit students to count PHILOS 681 or PHILOS 685 toward meeting this requirement, when the content and level of difficulty are equivalent to that of a graduate seminar.

A student proposing a program of study involving more than 9 credits of independent study, or fewer than 21 credits in philosophy courses, must gain specific approval of the student’s advisory committee.

Every student choosing the non-thesis option takes a written exam of no longer than four hours on a philosophical area chosen by the student in consultation with the advisory committee. At least one full semester before the student is to take this exam, a specific list of primary and secondary sources to be covered on the exam is drawn up by the committee together with the student. The committee provides the student with sample questions.

Thesis
Not required.

Time Limit
This program is designed to be completed in two years of full-time attendance. However, all degree requirements must be completed within five years of initial enrollment.

Option B: Thesis Option (30 Credits Plus Defense)
Minimum degree requirement is 30 credits in coursework, 21 of which must normally be in philosophy, 9 of which may be in related fields. All 30 credits must be earned with grades of B or better; and at least 12 must be in graduate seminars.

<table>
<thead>
<tr>

<td></td>
<td>30</td>
</tr>
</tbody>
</table>

1 The Philosophy Department Graduate Studies Committee may permit students to count PHILOS 681 or PHILOS 685 toward meeting this requirement, when the content and level of difficulty are equivalent to that of a graduate seminar.

The thesis is to be written on a philosophical subject chosen in consultation with the student’s advisory committee. The student and the committee are to meet sufficiently often so that the committee may adequately supervise the writing of the thesis. Upon completion of the thesis the student is required to defend the thesis orally.

Thesis
Required (as above).

Time Limit
This program is designed to be completed in two years of full-time attendance. However, all degree requirements must be completed within five years of initial enrollment.

Language and Linguistics Concentration with Thesis (30 credits Plus Defense)
Credits and Courses
Minimum degree requirement is 30 credits, including the writing of a thesis, plus its defense. All 30 credits must be earned with a grade of B or better. Of the 30 credits at least 18 credits must be in philosophy with the remainder in linguistics.

<table>
<thead>

</tbody>
</table>

1 May be waived if the student has taken these courses at UWM within the past five years or has taken their equivalent as determined by the Graduate Studies Committee.

2 The Philosophy Department Graduate Studies Committee may permit students to count PHILOS 681 or PHILOS 685 toward meeting this requirement, when the content and level of difficulty are equivalent to that of a graduate seminar.

A student proposing a program of study involving more than 9 credits of independent study must gain specific approval of the student’s advisory committee.
**Thesis**
The thesis is to be written on a language related subject chosen in consultation with the student’s advisory committee. The student and the committee are to meet sufficiently often so that the committee may adequately supervise the writing of the thesis. Upon completion of the thesis, the student is required to defend the thesis orally. PHILOS 990 may be taken only once.

**Time Limit**
This program is designed to be completed in two years of full-time attendance. However, all degree requirements must be completed within five years of initial enrollment.

**Philosophy, Minor**
The study of Philosophy can be challenging because it asks students to critically examine very fundamental questions about what it means to be human – behavior, values, ethics, logic, aesthetics. Some describe it as “thinking in slow motion” because of the way it explores in depth the human experience.

Students choose philosophy because it instills a lifelong love and quest for knowledge, it imparts a disciplined and systematic way of thinking, and it enhances critical and analytical capacities. Most graduates of philosophy describe the great personal reward that comes from exploring the great thinkers of the past in the context of modern issues. But, they also passionately value the career skills that they developed - how to read and comprehend difficult text, how to understand different interpretations of information and assess opposing viewpoints; how to craft a clear and logical position on an issue in writing and orally; and how to make connections between smaller, seemingly disparate details and the big picture.

The undergraduate program is relatively small, resulting in more one-on-one attention from faculty than might be found at another university.

**Requirements**
At UWM, incoming freshmen interested in studying philosophy are advised to begin with the general introductory course, PHILOS 101, though there are several courses, especially at the 200 level, that are open to students without a background in philosophy. The 300 level includes courses designed to provide more in-depth treatments of traditional philosophical areas. Courses at the 400 level are devoted to the history of philosophy. Courses at the 500 level deal with specific issues and problems.

The College of Letters & Science requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. Students must attain a 2.500 GPA on all minor credits attempted, including any transfer work.

Students wishing to minor in philosophy should consult with the undergraduate program coordinator in order to complete a declaration of minor form and be assigned a departmental advisor.

The minor requires 21 credits in philosophy. Twelve credits are required at the 300 level or above, 9 of which must be taken in residence at UWM.

PHYSICS

The principles of physics provide the underpinnings for many of the scientific and technological advances of the last several decades. Experimental research facilities are available in the areas of condensed matter, surface science, biophysics, and optics. Theoretical studies are conducted in relativity and cosmology, high energy physics, biophysics, medical imaging, and condensed matter physics. Observational studies focus on relativistic astrophysics, multi-messenger astronomy, and galaxy evolution. Joint study with other departments can also be arranged.

Programs

- Physics, BS (p. 1666)
- Physics, Minor (p. 1670)
- Physics, MS (p. 1671)
- Physics, PhD (p. 1672)

Astronomy Courses

ASTRON 103 Survey of Astronomy
3 cr. Undergraduate.
History of astronomy; planets; stellar evolution, nucleosynthesis; death of stars: white dwarfs, neutron stars, black holes; galaxies and quasars; expansion of the universe, dark matter; the big bang.
Prerequisites: math placement level 10.
General Education Requirements: NS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ASTRON 104 Astronomy Laboratory
1 cr. Undergraduate.
Observations of planets, stars, stellar clusters, and galaxies; related experiments. Correlated with Astron 103.
Prerequisites: Astron 103(C) or Astron 211(C).
General Education Requirements: NS+
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ASTRON 185 Astronomy for Pre-Education Majors
3 cr. Undergraduate.
Space: how we know and what we know; the solar system, stars, galaxies, and the universe. 2 hrs lec, lab.
Prerequisites: none.
General Education Requirements: NS+
Current Offerings: http://uwm.edu/schedule

ASTRON 194 First-Year Seminar:
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

ASTRON 199 Independent Study
1-3 cr. Undergraduate.
For further information, consult dept chair.
Prerequisites: 2.5 gpa; writ cons instr, dept chair & asst dean for SAS.
Course Rules: May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ASTRON 211 Principles of Astronomy
3 cr. Undergraduate.
Light and matter; planets; stellar evolution, nucleosynthesis; death of stars: white dwarfs, neutron stars, black holes; galaxies, quasars; expansion of universe, dark matter; big bang.
Prerequisites: Physics 120(P) or 209(P) or cons instr.
General Education Requirements: NS
Last Taught: Fall 2017, Fall 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

ASTRON 289 Internship in Astronomy, Lower Division
1-6 cr. Undergraduate.
Application of basic principles of astronomy in a research, business, organizational, educational, political, or other appropriate setting.
Prerequisites: intro course in astron; 2.25 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hours in internship. May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ASTRON 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l sem. May be retaken w/chg in topic.
Prerequisites: none; add’l prereqs may be assigned to specific topic.
Last Taught: Fall 2007.
Current Offerings: http://uwm.edu/schedule

ASTRON 400 Astrophysics I
3 cr. Undergraduate.
Introductory astrophysics for students with junior-/senior-level background in mathematics and physics. Light and matter; stars and the sun; extrasolar planets; compact objects.
Prerequisites: Astron 103(P) or 211(P) or cons instr; Physics 309(P); Physics 317(R) recom.
Last Taught: Fall 2016, Fall 2014, Fall 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule

ASTRON 401 Astrophysics II
3 cr. Undergraduate.
Continuation of Astron 400; for students with junior-/senior-level background in mathematics and physics. The Milky Way Galaxy; galactic evolution; structure of the Universe; cosmology.
Prerequisites: Astron 400(300)(P).
Current Offerings: http://uwm.edu/schedule
ASTRON 489 Internship in Astronomy, Upper Division
1-6 cr. Undergraduate.
Application of advanced principles of astronomy in a research, business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; 300-level or above course in astron; 2.25 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hours in internship. May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ASTRON 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Last Taught: Spring 2006.
Current Offerings: http://uwm.edu/schedule

Physics Courses

PHYSICS 100 Quantitative Preparation for Physics
2 cr. Undergraduate.
Introductory course in general physics designed for the student with little or no previous science training.
Prerequisites: Math Placement Level 10.
Course Rules: Fee for 3 cr assessed. Not open to students w/cr in Physics 110(ER), 120(ER), or 209(ER).
Last Taught: Spring 2015, Fall 2014, Spring 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

PHYSICS 107 Physics in Everyday Life
3 cr. Undergraduate.
Selected topics for citizens in a technological world. Emphasis on those aspects of science important to an understanding of our surroundings. For non-science majors.
Prerequisites: none.
Course Rules: May not be taken conc with or after having taken Physics 120(ER) or 209(ER).
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

PHYSICS 108 Laboratory for Physics in Everyday Life
1 cr. Undergraduate.
Experiments correlated with Physics 107.
Prerequisites: Physics 107(C).
General Education Requirements: NS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PHYSICS 110 Physics for the Health Professions
4 cr. Undergraduate.
An introductory course without laboratory for students in health-related pre-professional programs. Topics include mechanics, fluids, heat, sound, electricity, magnetism, electrical devices, optics, and radioactivity. 3 hrs lec, 1 hr dis.
Prerequisites: H.S. general science; Math Placement Level 20.
Course Rules: May not be taken conc with or after having taken Physics 120(ER) or 209(ER).
General Education Requirements: NS
Last Taught: Fall 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

PHYSICS 120 General Physics I (Non-Calculus Treatment)
4 cr. Undergraduate.
Mechanics, wave motion, heat, and sound. 3 hrs lec, 2 hrs dis.
Prerequisites: Math Placement Level 30 or grade of C or better in Physics 100(P); HS trig or Physics 100 strongly recom.
Course Rules: Any combination of Physics 120, 121, 209, 214, 219 carries max 5 cr toward graduation.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

PHYSICS 121 General Physics Laboratory I (Non-Calculus Treatment)
1 cr. Undergraduate.
Experiments correlated with lecture material of Physics 120.
Prerequisites: Physics 120(C).
Course Rules: Any combination of Physics 120, 121, 209, 214, 219 carries max 5 cr toward graduation.
General Education Requirements: NS+
Current Offerings: http://uwm.edu/schedule

PHYSICS 122 General Physics II (Non-Calculus Treatment)
4 cr. Undergraduate.
Electricity, optics, modern physics. 3 hrs lec, 2 hrs dis.
Prerequisites: Physics 120(NP).
Course Rules: Any combination of Physics 122, 123, 210, 215, 220 carries max 5 cr toward graduation.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

PHYSICS 123 General Physics Laboratory II (Non-Calculus Treatment)
1 cr. Undergraduate.
Experiments on topics related to the lecture material of Physics 122.
Prerequisites: Physics 122(C).
Course Rules: Any combination of Physics 122, 123, 210, 215, 220 carries max 5 cr toward graduation.
General Education Requirements: NS+
Current Offerings: http://uwm.edu/schedule
PHYSICS 185 Basic Physics for Teachers  
3 cr. Undergraduate.  
Simple machines; work, energy and power; heating and cooling; static electricity and elementary electrical circuits; waves. 2 hrs lec; 2 hrs lab/ dis.  
Prerequisites: Math 175(P) & cons instr.  
Course Rules: Not open for cr to students with cr in Physics courses numbered 110 or above.  
General Education Requirements: NS+  
Current Offerings: http://uwm.edu/schedule

PHYSICS 194 First-Year Seminar:  
3 cr. Undergraduate.  
The specific topics are announced in the Schedule of Classes each time the class is offered.  
Prerequisites: none.  
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).  
General Education Requirements: NS  
Last Taught: Fall 2017, Fall 2015, Fall 2014, Fall 2013.  
Current Offerings: http://uwm.edu/schedule

PHYSICS 199 Independent Study  
1-3 cr. Undergraduate.  
For further information, consult dept chair.  
Prerequisites: 2.5 gpa; writ cons instr, dept chair & asst dean for SAS.  
Course Rules: May be retaken to 6 cr max.  
Current Offerings: http://uwm.edu/schedule

PHYSICS 209 Physics I (Calculus Treatment)  
4 cr. Undergraduate.  
Selected topics in mechanics, wave motion, sound, and heat. 3 hrs lec, 2 hrs dis.  
Prerequisites: Math 227(C), 228(C), or 232(C).  
Course Rules: Any combination of Physics 120, 121, 209, 214, 219 carries max 5 cr toward graduation.  
General Education Requirements: NS  
Current Offerings: http://uwm.edu/schedule

PHYSICS 210 Physics II (Calculus Treatment)  
4 cr. Undergraduate.  
Continuation of Physics 209. Electromagnetic field theory and optics. 3 hrs lec, 2 hrs dis.  
Prerequisites: grade of C or better in Physics 209(NP); Math 229(C) or 233(C).  
Course Rules: Any combination of Physics 122, 123, 210, 215, 220 carries max 5 cr toward graduation.  
General Education Requirements: NS  
Current Offerings: http://uwm.edu/schedule

PHYSICS 214 Lab Physics I (Calculus Treatment)  
1 cr. Undergraduate.  
Experiments in mechanics, wave motion, heat, and thermodynamics. 3 hrs lab.  
Prerequisites: Physics 209(C).  
Course Rules: Any combination of Physics 120, 121, 209, 214, 219 carries 5 cr max toward graduation.  
General Education Requirements: NS+  
Current Offerings: http://uwm.edu/schedule

PHYSICS 215 Lab Physics II (Calculus Treatment)  
1 cr. Undergraduate.  
Experiments in electricity, magnetism, and optics. 3 hrs lec.  
Prerequisites: Physics 210(C).  
Course Rules: Any combination of Physics 122, 123, 210, 215, 220 carries 5 cr max toward graduation.  
General Education Requirements: NS+  
Current Offerings: http://uwm.edu/schedule

PHYSICS 219 Physics I: Calculus-Based, Studio Format  
5 cr. Undergraduate.  
Basic kinematics; Newton. Selected topics in mechanics, wave motion, sound, and heat. 8 hrs lec/lab.  
Prerequisites: Math 227(C), 228(C), or 232(C).  
Course Rules: Not open to students w/cr in Physics 209. Any combination of Physics 120, 121, 209, 214, 219 carries max 5 cr toward graduation.  
General Education Requirements: NS+  
Last Taught: Fall 2017, Fall 2016, Fall 2015.  
Current Offerings: http://uwm.edu/schedule

PHYSICS 220 Physics II: Calculus-Based, Studio Format  
5 cr. Undergraduate.  
Electromagnetic field theory and optics.  
Prerequisites: grade of C or better in Physics 219(NP); Math 229(C) or 233(C).  
Course Rules: Not open to students w/cr in Physics 210. Any combination of Physics 122, 123, 210, 215, 220 carries max 5 cr toward graduation.  
General Education Requirements: NS+  
Current Offerings: http://uwm.edu/schedule

PHYSICS 265 Physics and the Energy Problem  
3 cr. Undergraduate.  
Study of how the laws of physics (particularly 1st and 2nd Laws of Thermodynamics) limit society's options in dealing with scarcity of utilizable energy.  
Prerequisites: H.S. algebra; Physics 107(P), 110(P), 120(P), or 209(P).  
Current Offerings: http://uwm.edu/schedule

PHYSICS 270 Introduction to Computational Physics  
3 cr. Undergraduate.  
Use of computers to solve physics problems, including particle collisions, chaotic systems, planetary motion, and other topics related to relativity and quantum mechanics.  
Prerequisites: Physics 209(P); Math 233(C).  
Current Offerings: http://uwm.edu/schedule
PHYSICS 289 Internship in Physics, Lower Division
1-6 cr. Undergraduate.
Application of basic principles of physics in a research, business, organizational, educational, political, or other appropriate setting.
Prerequisites: intro course in physics; 2.25 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hours in internship. May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

PHYSICS 296 UROP Apprenticeship
1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with a supervising member of the faculty or staff.
Prerequisites: acceptance into UROP; prior or conc reg in UROP seminar.
Course Rules: One cr for 45 hrs research. May be retaken to 9 cr max in any combination of UROP apprenticeship courses.
Last Taught: Spring 2018, Spring 2017, Fall 2016, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHYSICS 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Spring 2015, Summer 2011, Spring 2010, Fall 2009.
Current Offerings: http://uwm.edu/schedule

PHYSICS 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

PHYSICS 305 Medical Physics
3 cr. Undergraduate.
Applications of physics to living systems & medical diagnostics. 3 hrs lec.
Prerequisites: grade of B+ or better in Physics 209(P). (Conc reg in Physics 210 strongly recom).
Course Rules: Primarily for premed students and others in the medical & biological sciences. Approved for Premed Stds Cert Prog.
Current Offerings: http://uwm.edu/schedule

PHYSICS 306 Introduction to Biophysics
3 cr. Undergraduate.
Physical foundations of cellular phenomena; physical laws of complex biological systems; imaging and instrumentation for biophysics. 3 hrs lec.
Prerequisites: Physics 122(P) or 210(P); Chemistry 104(P) or 105(P).
Course Rules: Approved for Premed Stds Cert Prog.
Last Taught: Fall 2017, Fall 2015, Fall 2010, Spring 2009.
Current Offerings: http://uwm.edu/schedule

PHYSICS 309 Physics III: Modern Physics
3 cr. Undergraduate.
Elementary quantum physics, atomic and molecular physics, solid state and nuclear physics.
Prerequisites: Physics 210(NP); Math 234(C).
Course Rules: Not open for cr to students who have had Physics 341.
General Education Requirements: QLB
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PHYSICS 317 Thermodynamics
3 cr. Undergraduate.
Classical thermodynamics, including entropy, the use of thermodynamic potentials, and applications to pressure-volume and other systems. Some basic statistical physics may be included.
Prerequisites: Physics 210(NP).
Last Taught: Fall 2017, Fall 2016, Spring 2016, Spring 2015.
Current Offerings: http://uwm.edu/schedule

PHYSICS 325 Optics
4 cr. Undergraduate.
Geometric and physical optics, image formation, interference, diffraction, polarization, optical instruments, resolving power, coherence, lasers, holography. Selected experiments in optics. Studio-format course.
Prerequisites: Math 234(P) & Physics 309(C) or cons instr.
Course Rules: Counts as repeat of Physics 325 & 2 cr of Physics 410.
Current Offerings: http://uwm.edu/schedule

PHYSICS 351 Basics of Condensed Matter Physics
3 cr. Undergraduate.
Basic principles of condensed-matter physics. Crystals and amorphous materials; bonding; magnetic, thermal, and transport properties; band theory.
Prerequisites: Physics 309(P) or Chem 311(P).
Course Rules: Counts as repeat of Physics 499 w/same topic.
Current Offerings: http://uwm.edu/schedule

PHYSICS 370 Analytical and Numerical Methods in Physics
3 cr. Undergraduate.
Solutions to various physics problems. Applications (both analytical and numerical) from mechanics, electrodynamics, quantum mechanics, astrophysics, condensed matter physics.
Prerequisites: Physics 210(NP); Math 234(C) or ElecEng 234(C); or cons instr.
Last Taught: Spring 2018, Spring 2017, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHYSICS 381 Honors Seminar:
3 cr. Undergraduate.
Selected topics concerning history and the nature of physics as an intellectual discipline.
Prerequisites: soph st; Honors 200(P); cons Honors College dir.
Course Rules: May be retaken w/chg in topic to 9 cr max. No cr toward major.
General Education Requirements: NS
Last Taught: Fall 2017, Fall 2016, Fall 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule
PHYSICS 391 Undergraduate Research Participation
1-6 cr. Undergraduate.
Independent research for undergraduates on faculty-supervised research projects.
Prerequisites: Physics 309(P); 3.25 GPA in physics courses; cons instr.
Course Rules: May be retaken w/chg in topic to 6 cr max; non-repeatable for change of grade.
Current Offerings: http://uwm.edu/schedule

PHYSICS 406 Introduction to Infrared Microspectroscopy
3 cr. Undergraduate.
Microscopy and spectroscopy methods for identification of chemical composition introducing interdisciplinary opportunities in fundamental and industrial applications.
Prerequisites: Bio Sci 150(P) & 152(P); or Physics 209(P) & 210(P); or Chem 102(P) & 104(P); or Chem 105(P).
Current Offerings: http://uwm.edu/schedule

PHYSICS 408 Experiments in Linear Electronics
3 cr. Undergraduate/Graduate.
Transistor and integrated circuit characteristics; electronic measurement and control.
Prerequisites: jr st, Physics 210(P).
Course Rules: No cr for students w/cr in ElecEng 330(R).
Current Offerings: http://uwm.edu/schedule

PHYSICS 409 Modern Physics Laboratory
3 cr. Undergraduate.
Selected experiments in modern physics using advanced lab instrumentation.
Prerequisites: jr st; Physics 210(P) or cons instr.
Last Taught: Spring 2018, Fall 2017, Fall 2016, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHYSICS 411 Mechanics
4 cr. Undergraduate/Graduate.
Kinematics, vector analysis, conservation laws, oscillations, variational methods, chaos, Lagrangian and Hamiltonian mechanics.
Prerequisites: jr st; Physics 210(NP).
Current Offerings: http://uwm.edu/schedule

PHYSICS 420 Electricity and Magnetism I
3 cr. Undergraduate/Graduate.
Conservation laws in electrodynamics, Maxwell's stress tensor, electromagnetic waves, absorption, dispersion, reflection and transmission of plane electromagnetic waves, wave guides, retarded potentials, radiation, electrodynamics and relativity.
Prerequisites: jr st, Physics 420(P); or grad st.
Course Rules: Counts as repeat of 2 cr of Physics 421.
Current Offerings: http://uwm.edu/schedule

PHYSICS 422 Electricity and Magnetism II
3 cr. Undergraduate/Graduate.
Continuation of Physics 421, emphasizing perturbation theory and applications to multi-electron systems, including atoms, molecules, and solids.
Prerequisites: jr st; Physics 309(NP); Math 321(C).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHYSICS 441 Introduction to Quantum Mechanics I
4 cr. Undergraduate/Graduate.
Historical background and experimental basis, De Broglie waves, correspondence principle, uncertainty principle, Schroedinger equation; hydrogen atom, electron spin, Pauli Principle, applications of wave mechanics.
Prerequisites: jr st; Physics 309(NP); Math 321(C).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHYSICS 442 Introduction to Quantum Mechanics II
3 cr. Undergraduate/Graduate.
Continuation of Physics 441, emphasizing perturbation theory and applications to multi-electron systems, including atoms, molecules, and solids.
Prerequisites: jr st; Physics 441(NP).
Current Offerings: http://uwm.edu/schedule

PHYSICS 489 Internship in Physics, Upper Division
1-6 cr. Undergraduate.
Application of advanced principles of physics in a research, business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; 300-level or above course in Physics; 2.25 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hrs in internship. May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

PHYSICS 497 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

PHYSICS 498 Undergraduate Physics Seminar
1 cr. Undergraduate.
Talks by faculty, visitors, and students on topics of current interest in physics, astronomy, and other science and engineering fields.
Prerequisites: sr st; Physics 411(C), 421(C), or 441(C).
Course Rules: Cr/no cr only.
Current Offerings: http://uwm.edu/schedule
PHYSICS 499 Ad Hoc:  1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Requires only dept & assoc dean approval. In exceptional circumstances, the course may be offered in one add'l sem.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

PHYSICS 501 Special Topics: Mathematical Models of Physical Problems I
3 cr. Undergraduate/Graduate.
Selected topics in mathematics for study of the techniques and procedures for stating physical problems in mathematical terms and the physical interpretation of mathematical solutions.
Prerequisites: jr st; Physics 210(P); Math 234(P).
Last Taught:  Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHYSICS 502 Special Topics: Mathematical Models of Physical Problems II
3 cr. Undergraduate/Graduate.
More selected topics in mathematical models.
Prerequisites: jr st, Physics 210(P); Math 234(P). Physics 501(R).
Current Offerings: http://uwm.edu/schedule

PHYSICS 515 Statistical Mechanics
3 cr. Undergraduate/Graduate.
Brief survey of thermodynamics; statistical mechanics; classical and quantum gases.
Prerequisites: jr st; Physics 317(P) & 441(P).
Last Taught:  Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHYSICS 517 Special Relativity
3 cr. Undergraduate/Graduate.
Relativistic kinematics, the Lorentz transformation, tensor calculus, applications to motion of particles, electromagnetism.
Prerequisites: jr st; Physics 441(R) & 421(R).
Last Taught:  Fall 2017, Fall 2014, Spring 2013, Fall 2010.
Current Offerings: http://uwm.edu/schedule

PHYSICS 531 Principles of Quantum Mechanics I
3 cr. Undergraduate/Graduate.
Vector and Hilbert spaces; Schroedinger equation in 1, 2, and 3 dimensions; systems of many particles; symmetries; angular momentum.
Prerequisites: jr st, Physics 441(P).
Last Taught:  Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHYSICS 532 Principles of Quantum Mechanics II
3 cr. Undergraduate/Graduate.
Continuation of 531. Spin; hydrogen atom; variational methods; WKB approximation; perturbation theory; scattering theory; Dirac equation.
Prerequisites: jr st, Physics 531(P).
Current Offerings: http://uwm.edu/schedule

PHYSICS 541 Elementary Particles
3 cr. Undergraduate/Graduate.
Accelerators and detectors; special unitary groups; quark model of hadrons; Feynman diagrams; electromagnetic, weak and strong interactions of quarks and leptons; Higgs boson.
Prerequisites: jr st; Physics 441(P).
Current Offerings: http://uwm.edu/schedule

PHYSICS 551 Introduction to Solid State Physics I
3 cr. Undergraduate/Graduate.
Crystal structure, reciprocal lattice; crystal binding; elastic waves; phonons, lattice vibrations; thermal properties of insulators; free electron Fermi gas. Band structure; semiconductor crystals; Fermi surface.
Prerequisites: jr st; Physics 441(P) or cons instr.
Last Taught:  Fall 2016, Fall 2014, Fall 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule

PHYSICS 575 Vacuum Science and Technology
3 cr. Undergraduate/Graduate.
Viscous and molecular flow, vacuum materials and seals, metal-to-ceramic seals, evaporation and vapor pressures, vacuum pumps, vacuum gauges, mass spectrographs, chemical reactions at surfaces, outgassing.
Prerequisites: jr st, Physics 441(P).
Current Offerings: http://uwm.edu/schedule

PHYSICS 606 Molecular, Cellular, and System Biophysics
3 cr. Undergraduate.
Prerequisites: jr st, Physics 210(P), & writ cons instr; or grad st.
Current Offerings: http://uwm.edu/schedule

PHYSICS 610 The Art and Science of Teaching Physics
1 cr. Undergraduate/Graduate.
Participants critique lectures, videotapes of experienced teachers, each other; address conceptual problems facing beginning students; gain familiarity with demonstrations, classroom technology; discuss their own classes.
Prerequisites: appt as undergrad TA or grad st.
Last Taught:  Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHYSICS 651 Introduction to Solid State Physics II
3 cr. Undergraduate/Graduate.
Transport, superconductivity, dielectric properties, ferroelectric crystals, magnetism, magnetic resonance, optical phenomena in insulators, nanostructures, non-crystalline solids, point defects, alloys, dislocations.
Prerequisites: jr st; Physics 551(P).
Current Offerings: http://uwm.edu/schedule

PHYSICS 670 Electron Microscopy Laboratory
3 cr. Undergraduate/Graduate.
Diffraction, imaging, and spectroscopy methods for study of morphology, crystallinity, and composition of solids in a transmission electron microscope.
Prerequisites: sr st; Physics 551(P) or cons instr.
Current Offerings: http://uwm.edu/schedule
PHYSICS 698 Research Experience for Teachers
1-6 cr. Undergraduate/Graduate.
Enrichment of students' physics background. Work with faculty mentor to develop an innovative teaching program for use in students' own classroom.
Prerequisites: sr st; current teaching contract.
Course Rules: Open only to practicing science teachers with demonstrable expertise in physics. May be retaken to 9 cr max.
Current Offerings: http://uwm.edu/schedule

PHYSICS 699 Advanced Independent Reading
1-3 cr. Undergraduate.
Independent reading or research under supervision of faculty member. Study proposal required. For further information, consult dept chair or undergrad advising coord.
Prerequisites: jr st; 2.5 GPA; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

PHYSICS 705 Molecular, Cellular, and System Biophysics
3 cr. Graduate.
Prerequisites: grad st
Last Taught: Fall 2017, Fall 2015, Fall 2012, Spring 2010.
Current Offerings: http://uwm.edu/schedule

PHYSICS 706 Biophotonics
3 cr. Graduate.
Biophotonics and bioimaging; overview of application of optics in biology and medicine based on the understanding of basic optics, spectroscopy, and imaging theory.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

PHYSICS 707 Structural Molecular Biophysics
3 cr. Graduate.
Methods in molecular biophysics.
Prerequisites: grad st; major in science-based discipline & Physics 210(P), or writ cons instr.
Current Offerings: http://uwm.edu/schedule

PHYSICS 711 Theoretical Physics-Dynamics
3 cr. Graduate.
Lagrange equations, canonical formulation, principle of least action, normal coordinates, rigid bodies, special relativity, mathematical methods.
Prerequisites: grad st; Math 321(C) or 322(C); or 701(C) or 702(C).
Current Offerings: http://uwm.edu/schedule

PHYSICS 716 Advanced Topics in Statistical Physics
3 cr. Graduate.
Systems of interacting particles; critical phenomena; transport theory; irreversible processes and fluctuations; model calculations for interacting systems of particles.
Prerequisites: grad st; Physics 515(P), 532(P).
Current Offerings: http://uwm.edu/schedule

PHYSICS 717 Gravitation
3 cr. Graduate.
Prerequisites: grad st; Physics 517(P).
Last Taught: Spring 2018, Fall 2015, Fall 2014, Fall 2012.
Current Offerings: http://uwm.edu/schedule

PHYSICS 718 White Dwarfs, Neutron Stars, and Black Holes
3 cr. Graduate.
Physics of compact objects; Newtonian and relativistic stellar structure and stability; pulsars, x-ray sources; accretion disks; gravitational collapse; stellar-size and supermassive black holes; quasars.
Prerequisites: grad st; Physics 717(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

PHYSICS 720 Electrodynamics I
3 cr. Graduate.
Maxwell's equations; Helmholtz theorem; scalar and vector potentials; boundary value problems; plane wave solutions.
Prerequisites: grad st; Physics 711(P).
Current Offerings: http://uwm.edu/schedule

PHYSICS 721 Electrodynamics II
3 cr. Graduate.
Wave guides, radiation by charges; radiation reaction; radiation scattering, damping and dispersion; covariant formulation of electrodynamics.
Prerequisites: grad st; Physics 720(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2014.
Current Offerings: http://uwm.edu/schedule

PHYSICS 731 Quantum Mechanics
3 cr. Graduate.
Mathematical formalism of quantum mechanics. Observables and transformation theory, scattering perturbation, other approximation methods.
Prerequisites: grad st; Physics 532(P) & 711(P).
Current Offerings: http://uwm.edu/schedule

PHYSICS 735 High Energy Physics
3 cr. Graduate.
Special relativity applied to high energy collisions, experimental techniques, ionization and radiation at high energy, weak interactions theory, H-meson and strange particle interactions, ultra-high energy phenomena.
Prerequisites: grad st & Physics 732(P).
Last Taught: Fall 2011.
Current Offerings: http://uwm.edu/schedule
PHYSICS 751 Solid State Theory I
3 cr. Graduate.
Phonons, plasmons, magnons, fermion fields and the hartree-fock approximation, and electron many-body techniques and the electron gas.
Prerequisites: grad st; Physics 531(P) & Physics 651(P).
Last Taught: Spring 2018, Fall 2015, Fall 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

PHYSICS 752 Solid State Theory II
3 cr. Graduate.
Dynamics of electrons in a magnetic field: energy bands, cyclotron resonance, impurity states, optical absorption and excitons in semiconductor crystals; electrodynamics of metals; green's functions.
Prerequisites: grad st & Physics 532(P) & 751(P).
Current Offerings: http://uwm.edu/schedule

PHYSICS 770 Electron Microscopy
3 cr. Graduate.
Prerequisites: grad st; Physics 551(P) or cons instr.
Last Taught: Fall 2011, Spring 2002.
Current Offerings: http://uwm.edu/schedule

PHYSICS 775 Surface Physics I
3 cr. Graduate.
Survey of experimental techniques in surface physics research.
Prerequisites: grad st; Physics 515(P) & 575(P).
Current Offerings: http://uwm.edu/schedule

PHYSICS 781 Medical Radiation Physics
3 cr. Graduate.
Physical principles of the generation, interaction, detection, and measurement of radiation in medical applications; basics of radiation protection.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

PHYSICS 782 Physics of Medical Imaging
3 cr. Graduate.
Basic theoretical knowledge of the physics of diagnostic radiology using x-rays, magnetic resonance, nuclear medicine, and ultrasounds.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

PHYSICS 784 Radiotherapy Physics
3 cr. Graduate.
Radiation physics for work as a hospital physicist, including accelerators for radiation therapy, quality characteristics of treatment beams, treatment planning, treatment techniques, quality assurance, oncology.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

PHYSICS 786 Medical Physics Practicum
3 cr. Graduate.
Training with clinical medical imaging and therapy equipment, and dosimetry instrumentation.
Prerequisites: grad st; Physics 781(P)
Current Offerings: http://uwm.edu/schedule

PHYSICS 787 Physics of Medical Imaging
3 cr. Graduate.
Basic theoretical knowledge of the physics of diagnostic radiology using x-rays, magnetic resonance, nuclear medicine, and ultrasounds.
Prerequisites: grad st; Physics 551(P) or cons instr.
Last Taught: Fall 2011, Spring 2002.
Current Offerings: http://uwm.edu/schedule

PHYSICS 7891 Special Topics in Theoretical Physics
2-3 cr. Graduate.
Discussion of recent research or advanced special topics.
Prerequisites: grad st & cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

PHYSICS 807 Group Theory and Its Applications to Physics
3 cr. Graduate.
Representations of discrete and continuous groups, including rotation groups, unitary groups and crystal point and space groups. Symmetries of elementary particles. Molecular obitals, energy bands.
Prerequisites: grad st; Physics 532(P).
Course Rules: Counts as repeat of Math 807.
Current Offerings: http://uwm.edu/schedule

PHYSICS 811 Nonlinear Dynamics and Chaos
3 cr. Graduate.
Iteration of maps, numerical integration, strange attractors in dissipative systems, fractal dimensions, multifractals, entropy. Chaos in hamiltonian systems, perturbation theory, kam theorem. Quantum chaos.
Prerequisites: grad st; Physics 711(P).
Current Offerings: http://uwm.edu/schedule

PHYSICS 817 Gravitation and Cosmology II
3 cr. Graduate.
Experimental tests in gravitation. Gravitational waves: generation, detection. Spinning black holes. Cosmology: idealised cosmologies; present state of the universe; nucleosynthesis; inflation; recent developments.
Prerequisites: grad st; Physics 717(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

PHYSICS 818 Advanced Topics in Gravitational Physics
3 cr. Graduate.
Prerequisites: grad st; Physics 717(P).
Current Offerings: http://uwm.edu/schedule

PHYSICS 831 Quantum Field Theory I
3 cr. Graduate.
Group theory, canonical and path integral quantization, feynman rules, quantum electrodynamics, renormalization, quantum chromodynamics, electroweak theory, spontaneous symmetry breaking.
Prerequisites: grad st; Physics 732(P).
Last Taught: Fall 2017, Fall 2013, Spring 2000, Fall 1994.
Current Offerings: http://uwm.edu/schedule

PHYSICS 852 Superconductivity
3 cr. Graduate.
Properties of type I and type II superconductors, bcs and ginzburg-landau theory, vortices, and flux dynamics.
Prerequisites: grad st; Physics 532(P) & 651(P).
Last Taught: Spring 2007.
Current Offerings: http://uwm.edu/schedule
PHYSICS 853 Superfluidity
3 cr. Graduate.
Prerequisites: grad st, Physics 551(P) & 651(P) or physics 515(P).
Current Offerings: http://uwm.edu/schedule

PHYSICS 854 Electron Phonon Interaction
3 cr. Graduate.
Wave propagation in metals. Interaction of electrons with the lattice in normal metals, superconductors, and magnetic materials.
Prerequisites: grad st, Physics 532(P) & 651(P).
Current Offerings: http://uwm.edu/schedule

PHYSICS 900 Colloquium
1 cr. Graduate.
Lectures by staff and visitors on research in various areas of physics.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2014, Spring 2013, Spring 2012.
Current Offerings: http://uwm.edu/schedule

PHYSICS 903 Seminar in Theoretical Physics:
1-3 cr. Graduate.
Discussion of special topics of interest to research students in theoretical physics. Retakable w/chg in topic to 9 cr max. Prereq: grad st & cons instr.
Prerequisites: 
Last Taught: Spring 2017, Fall 2016, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PHYSICS 904 Seminar in Surface Studies: 
1-3 cr. Graduate.
Special topics in the chemistry and physics of surface studies. Specific topics and any additional prerequisites announced in Timetable each time course is offered.
Prerequisites: grad st; cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

PHYSICS 906 Seminar in Biophysics:
1-3 cr. Graduate.
Special topics in experimental biophysics. Retakable with change in topic to 9 cr max.
Prerequisites: grad st; cons instr.
Last Taught: Spring 2017.
Current Offerings: http://uwm.edu/schedule

PHYSICS 990 Research 
1-9 cr. Graduate.
Prerequisites: grad st & cons instr.
Current Offerings: http://uwm.edu/schedule

PHYSICS 999 Independent Reading 
1-3 cr. Graduate.
For the benefit of graduate students unable to secure needed content in regular courses.
Prerequisites: grad st, cons instr.
Current Offerings: http://uwm.edu/schedule

University of Wisconsin-Milwaukee
Physics is the study of matter and energy and their interactions in nature and under man-made conditions. Everything is comprised of matter and energy so the principles of physics touch everything in the world around us and beyond the bounds of Earth into the Universe.

UWM students can shape their Physics major in one of two directions. The standard major provides a broad overview of all aspects of physics: mechanics, optics and lasers, thermodynamics, quantum physics, magnetism, electricity, and the math principles that underlie everything in physics. In the astronomy focused version of the major, students still master these basics plus they add in additional coursework in astrophysics and gravitation.

UWM’s program provides excellent preparation for graduate programs in physics, engineering, and math or can serve as a springboard to careers in areas of electronics and computers; space travel and space exploration; satellite technology; medical imaging and treatment; telecommunications; nuclear power; semi- and super-conductors; environmental consulting; climatology; green energy; and more.

The opportunity to participate in research as an undergraduate is a distinct advantage to being a Physics student at UWM. At most large, research universities, research opportunities for undergraduates are limited; there are fewer of them and they often are reserved for juniors or seniors. At UWM, you can get involved as early as freshman year. Students work directly with faculty and graduate students on their current research projects, and sometimes find themselves published in a peer-reviewed journal right alongside the faculty member. Participating in undergraduate research is an excellent way to enhance your resume for graduate school or employment.

Requirements

Course of Study – Bachelor of Science Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated upper-level Natural Science. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

University General Education Requirements (GER)

<td>6</td>
<td></td>
</tr>
</tbody>
</table>
Complete Foreign Language Requirement through:
- Two years (high school) of a single foreign language
- Two semesters (college) of a single foreign language
- Or equivalent

UWM Cultural Diversity Requirement
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement

College of Letters & Science Requirements
I. English Writing Requirement
Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond English 102 on the English Placement Test (EPT).

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning
To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 211</td>
<td>Survey in Calculus and Analytic Geometry</td>
<td>4</td>
</tr>
<tr>
<td>MATH 221</td>
<td>Honors Calculus I</td>
<td>5</td>
</tr>
<tr>
<td>MATH 231</td>
<td>Calculus and Analytic Geometry I</td>
<td>4</td>
</tr>
</tbody>
</table>

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 212, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>
<td></td>
</tr>
<tr>
<td>ANTHRO 568</td>
<td>Introduction to Anthropological Statistics</td>
<td></td>
</tr>
<tr>
<td>ATM SCI 500</td>
<td>Statistical Methods in Atmospheric Sciences</td>
<td></td>
</tr>
<tr>
<td>BIO SCI 465</td>
<td>Biostatistics</td>
<td></td>
</tr>
<tr>
<td>ECON 210</td>
<td>Economic Statistics</td>
<td></td>
</tr>
<tr>
<td>GEOG 247</td>
<td>Quantitative Analysis in Geography</td>
<td></td>
</tr>
<tr>
<td>HIST 595</td>
<td>The Quantitative Analysis of Historical Data</td>
<td></td>
</tr>
<tr>
<td>MTHSTAT 215</td>
<td>Elementary Statistical Analysis</td>
<td></td>
</tr>
<tr>
<td>PHILOS 211</td>
<td>Elementary Logic</td>
<td></td>
</tr>
<tr>
<td>POL SCI 390</td>
<td>Political Data Analysis</td>
<td></td>
</tr>
<tr>
<td>POL SCI 392</td>
<td>Survey Research</td>
<td></td>
</tr>
<tr>
<td>PSYCH 210</td>
<td>Psychological Statistics</td>
<td></td>
</tr>
<tr>
<td>SOCIOL 261</td>
<td>Introduction to Statistical Thinking in Sociology</td>
<td></td>
</tr>
</tbody>
</table>

Note: This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

III. Foreign Language Requirement
Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

IV. International Requirement
See Approved Courses for the L&S International Requirement (p. 1169) for course options.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ARTS 110</td>
<td>Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above</td>
<td></td>
</tr>
<tr>
<td>HUM 110</td>
<td>Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.</td>
<td></td>
</tr>
<tr>
<td>HUM 111</td>
<td>Complete 9 credits in combination of the two options above.</td>
<td></td>
</tr>
</tbody>
</table>

V. Breadth Requirement
Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ARTS</td>
<td>Select 3 credits</td>
<td>3</td>
</tr>
<tr>
<td>HUMS</td>
<td>Complete 12 credits of L&amp;S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *</td>
<td>12</td>
</tr>
<tr>
<td>SOSC</td>
<td>Complete 12 credits of L&amp;S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *</td>
<td>12</td>
</tr>
<tr>
<td>NATS</td>
<td>Complete 12 credits of L&amp;S Courses with Natural Sciences Breadth designation, including laboratory or field courses from three different curricular areas.</td>
<td>12</td>
</tr>
<tr>
<td>CD/CD</td>
<td>Complete 3 credits in a course with Cultural Diversity (CD) designation. **</td>
<td>3</td>
</tr>
</tbody>
</table>
* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

VI. The Major
The College requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement.
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Physics Major Requirements
Freshmen who enter with scores of 4 or 5 on the Physics Advanced Placement exam given by CEEB are given partial credit for the introductory courses.

Students who have a combined GPA of 2.500 or above in all mathematics and physics courses taken in the first two years will be approved for a major in physics. This requirement will be waived in those cases where students are able to show evidence of unusual circumstances.

The department offers two study options. The standard physics major is for students who seek a general physics degree. The physics major with astronomy emphasis is for students who wish to pursue their interest in astronomy. While the standard physics major generally is followed by students who plan to go on to graduate school, the major with astronomy emphasis also enables students to pursue graduate work in physics.

Both options require that students take at least 15 credits in advanced-level (numbered 300 and above) courses in residence at UWM. The College of Letters & Science requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work. All students in the College are required to complete a research experience in their majors. Physics majors meet this requirement by successfully completing an upper-level, 3-credit laboratory courses.

</tbody>
</table>

Total Credits 43

1 The research proposal must be approved by the undergraduate advisor and the Departmental Undergraduate Committee; it must demonstrate clear pedagogical value. Unfocused laboratory internships are not acceptable.

1 PHYSICS 219 and PHYSICS 220 are strongly recommended; however, PHYSICS 209/PHYSICS 214 and PHYSICS 210/PHYSICS 215 courses may be taken with the consent of the undergraduate advisor.

2 These courses are not offered every semester; check with the undergraduate advisor to plan for completing this requirement.

Study Options
Select one of the following: 3-5

Standard Physics Major

<table>

Total Credits 43-55

1 PHYSICS 219 and PHYSICS 220 are strongly recommended; however, PHYSICS 209/PHYSICS 214 and PHYSICS 210/PHYSICS 215 courses may be taken with the consent of the undergraduate advisor.

2 These courses are not offered every semester; check with the undergraduate advisor to plan for completing this requirement.
The research proposal must be approved by the undergraduate advisor and the Departmental Undergraduate Committee, and it must demonstrate pedagogical value. Unfocused laboratory internships are not acceptable.

Students who major in both physics and engineering are not required to take PHYSICS 442; however, it is recommended strongly that they do so.

Electives

No elective courses are required, but students are encouraged to select electives from Physics or Astronomy courses 300 level or above from the following list. Only the courses identified in the list below with the phrase "if not selected above" will be counted in the student's major GPA.

<table>

Recommended

Students are advised strongly to take the following courses as part of their electives:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 102</td>
<td>General Chemistry</td>
</tr>
<tr>
<td>CHEM 104</td>
<td>General Chemistry and Qualitative Analysis</td>
</tr>
<tr>
<td>COMMUN 103</td>
<td>Public Speaking</td>
</tr>
<tr>
<td>ENGLISH 206</td>
<td>Technical Writing</td>
</tr>
</tbody>
</table>

Total Credits 55

1 PHYSICS 219 and PHYSICS 220 are strongly recommended; however, PHYSICS 209/PHYSICS 214 and PHYSICS 210/PHYSICS 215 courses may be taken with the consent of the undergraduate advisor.

2 These courses are not offered every semester; check with the undergraduate advisor to plan for completing this requirement.

3 The research proposal must be approved by the undergraduate advisor and the Departmental Undergraduate Committee, and it must demonstrate pedagogical value. Unfocused laboratory internships are not acceptable.
Possible Course Substitutions for Students with Physics and Engineering Double Majors

Note: Students who major in both physics and engineering are not required to take PHYSICS 442; however, it is recommended strongly that they do so.

One of the following courses may be substituted for PHYSICS 270 or PHYSICS 370:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CIV ENG 280</td>
<td>Computer Based Engineering Analysis</td>
<td>3</td>
</tr>
<tr>
<td>COMPSCI 151</td>
<td>Introduction to Scientific Programming in Fortran</td>
<td>3</td>
</tr>
<tr>
<td>COMPSCI 250</td>
<td>Introductory Computer Programming</td>
<td>3</td>
</tr>
</tbody>
</table>

The following course may be substituted for PHYSICS 317:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MECHENG 301</td>
<td>Basic Engineering Thermodynamics</td>
<td>3</td>
</tr>
</tbody>
</table>

The combination of both of the following may substitute for PHYSICS 411:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CIV ENG 201</td>
<td>Statics</td>
<td>3</td>
</tr>
<tr>
<td>CIV ENG 202</td>
<td>Dynamics</td>
<td>3</td>
</tr>
</tbody>
</table>

Letters & Science Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus' general education requirements and the College's degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Honors in the College of Letters and Science

Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Contact Information

Current Students contact the Department directly, physics-ugadvisor@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu
https://uwm.edu/physics/undergraduate/

Physics, Minor

Physics is the study of matter and energy and their interactions in nature and under man-made conditions. Everything is comprised of matter and energy so the principles of physics touch everything in the world around us and beyond the bounds of Earth into the Universe.

The opportunity to participate in research as an undergraduate is a distinct advantage to being a Physics student at UWM. At most large, research universities, research opportunities for undergraduates are limited; there are fewer of them and they often are reserved for juniors or seniors. At UWM, you can get involved as early as freshman year. Students work directly with faculty and graduate students on their current research projects, and sometimes find themselves published in a peer-reviewed journal right alongside the faculty member. Participating in undergraduate research is an excellent way to enhance your resume for graduate school or employment.

Requirements

A minor in physics requires 18 credits of Physics courses, of which 9 credits must be in courses at the 300 level or above taken in residence
Students are required to consult with the undergraduate physics advisor (physics-ugadvisor@uwm.edu) when planning their minor programs of study.

Contact Information
Current Students contact the Department directly, physics-ugadvisor@uwm.edu

Physics, MS
The Physics Department exhibits exceptional strength in several areas. We invite applications from able students interested in experimental and theoretical surface physics and condensed matter physics; in structural biophysics and protein dynamics and function; in quantum field theory, cosmology, relativistic astrophysics, and gravitational-wave/multimessenger astronomy; in medical imaging. The primary goal of our graduate education is the training of creative research scientists.

Our research in gravitational physics is in several areas: In gravitational-wave astronomy, we play a leading role in LIGO, extracting signals of gravitational waves from the coalescence of binary neutron stars and black holes, as well as searching for electromagnetic counterparts. We play a leading role in the use of pulsars to measure gravity waves from supermassive black holes. In relativistic astrophysics we have established limits on the spin and mass of rotating neutron stars, and develop computational techniques to model merging stars. Astronomy efforts include studying early galaxy formation and evolution, and phenomenology of neutron stars and white dwarfs.

Experimental work in condensed matter and surface physics includes electron microscopy, electron and x-ray diffraction, atomic force microscopy, infrared spectroscopy, synchrotron radiation, molecular beam epitaxy, and atomic layer deposition. Experimental work is also being done in the areas of low-temperature physics, unconventional superconductivity (including high Tc), heavy fermions, topological insulators, materials synthesis and floating zone single crystal growth, oxides, magnetism, ultrasonomics, and neutron diffraction. These efforts are all aimed at creating and analyzing novel materials.

Theoretical work in condensed matter physics and surface physics includes research in quantum transport phenomena, superconductivity, magnetism, novel states of matter, and first-principles electronic structure calculations.

Experimental work in biophysics includes advanced optical and electrical methods for probing protein-protein interactions and protein complex structure and dynamics in vivo. Other efforts are in structural biophysics, static and time-resolved macromolecular crystallography, and XFEL-based femtosecond crystallography. Molecular biophysics studies include protein mechano-chemistry and single-molecule force spectroscopy.

Theoretical and computational work in biophysics includes advanced algorithms for signal extraction in the presence of extreme noise and timing uncertainty (XFEL and cryo-electron microscopy data) for protein crystallography, biostructure, dynamics, and function.

Experimental and theoretical efforts in medical imaging revolve around image reconstruction using Radon transformations, and novel imaging modalities such as thermo/opto-acoustic tomography.

Graduate Minor in Physics
A doctoral student in another department wishing to minor in Physics must choose a minor professor from among the Physics Graduate Faculty. The student and the minor professor plan a program of study consisting of 9 to 12 graduate credits in Physics and complete a Graduate Minor Program Plan for the Physics Department files.

Requirements
Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these departmental requirements to be considered for admission to the program:

1. Letters of Recommendation. Three letters of recommendation are required from persons familiar with the applicant’s academic work.
2. Graduate Record Examinations (http://uwm.edu/graduateschool/admission/#gre). Both the General Test and the Subject Test in Physics are strongly encouraged but are not required.
3. Undergraduate major in physics or related fields. Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses.

The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

Major Professor as Advisor
The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. The newly admitted student is assigned to a temporary advisor.

Students in the master’s program who are planning to terminate their physics studies with a master’s degree should plan and prepare a program of study with the Department Master’s Program Advisor.
Credits and Courses

Option 1: Thesis Option

Minimum degree requirement is 30 graduate credits, 18 of which must normally be in physics and 12 of which may be in related fields. Of the 18 credits earned in the Department, at least 6 must be in physics courses numbered above 700, with the remainder in courses at least above 500; research, seminar, and independent study credits do not satisfy the 700 requirement. Six credits are earned through the thesis.

<table>

</tr>
<tr>
<td>Physics or Related Fields</td>
<td></td>
<td>12</td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>30</td>
</tr>
</tbody>
</table>

**Thesis**
The student must write an acceptable thesis.

**Comprehensive Examination**
The student must pass a comprehensive oral examination, in part a defense of the thesis.

**Time Limit**
The student must complete all degree requirements within five years of initial enrollment.

Option 2: Non-Thesis Option

Minimum degree requirement is 30 graduate credits, 18 of which must normally be in physics and 12 of which may be in related fields. Of the 18 credits earned in the Department, at least 6 must be in physics courses numbered above 700, with the remainder in courses at least above 500; research, seminar, and independent study credits do not satisfy the 700 requirement.

<table>

</tr>
</tbody>
</table>

* Not including research, seminar, and independent study

**Thesis**
Not required.

**Comprehensive Examination**
The student must pass a comprehensive written or oral examination. The non-thesis master’s Oral Examination should evaluate the student’s achievements in graduate courses and fulfillmen of the goals of the student’s program of study. In particular, students should be familiar with the materials in the “core” courses:

**Time Limit**
The student must complete all degree requirements within five years of initial enrollment.

**Physics, PhD**
The Physics Department exhibits exceptional strength in several areas. We invite applications from able students interested in experimental and theoretical surface physics and condensed matter physics; in structural biophysics and protein dynamics and function; in quantum field theory, cosmology, relativistic astrophysics, and gravitational-wave/multimessenger astronomy; in medical imaging. The primary goal of our graduate education is the training of creative research scientists.

Our research in gravitational physics is in several areas: In gravitational-wave astronomy, we play a leading role in LIGO, extracting signals of gravitational-waves from the coalescence of binary neutron stars and black holes, as well as searching for electromagnetic counterparts. We play a leading role in the use of pulsars to measure gravitational waves from supermassive black holes. In relativistic astrophysics we have established limits on the spin and mass of rotating neutron stars, and develop computational techniques to model merging stars. Astronomy efforts include studying early galaxy formation and evolution, and phenomenology of neutron stars and white dwarfs.

Experimental work in condensed matter and surface physics includes electron microscopy, electron and x-ray diffraction, atomic force microscopy, infrared spectroscopy, synchrotron radiation, molecular beam epitaxy, and atomic layer deposition. Experimental work is also being done in the areas of low-temperature physics, unconventional superconductivity (including high Tc), heavy fermions, topological insulators, materials synthesis and floating zone single crystal growth, oxides, magnetism, ultrasonics, and neutron diffraction. These efforts are all aimed at creating and analyzing novel materials.

Theoretical work in condensed matter and surface physics includes research in quantum transport phenomena, superconductivity, magnetism, novel states of matter, and first-principles electronic structure calculations.

Experimental work in biophysics includes advanced optical and electrical methods for probing protein-protein interactions and protein complex structure and dynamics in vivo. Other efforts are in structural biophysics, static and time-resolved macromolecular crystallography, and XFEL-based femtosecond crystallography. Molecular biophysics studies include protein mechano-chemistry and single-molecule force spectroscopy.

Theoretical and computational work in biophysics includes advanced algorithms for signal extraction in the presence of extreme noise and timing uncertainty (XFEL and cryo-electron microscopy data) for protein crystallography, biostructure, dynamics, and function.

Experimental and theoretical efforts in medical imaging revolve around image reconstruction using Radon transformations, and novel imaging modalities such as thermo/opto-acoustic tomography.

**Graduate Minor in Physics**
A doctoral student in another department wishing to minor in Physics must choose a minor professor from among the Physics Graduate
Faculty. The student and the minor professor plan a program of study consisting of 9 to 12 graduate credits in Physics and complete a Graduate Minor Program Plan for the Physics Department files.

**Application Deadlines**
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**
Applicant must meet Graduate School requirements plus departmental requirements as given for admission to the master's program. A master's degree is not a prerequisite for this Ph.D. program.

**Reaplication**
A student who receives the master's degree must formally reapply for admission to the Graduate School before continuing studies toward the Ph.D.

**Credits and Courses**
Minimum degree requirement is 54 graduate credits beyond the bachelor’s degree, at least 27 of which must be earned in residence at UWM. The student plans an individual program of studies in consultation with the major professor.

<table>
<thead>
<tr>
<th>Code</th>

<tr>
<td>Total Credits</td>
<td></td>
<td>54</td>
</tr>
</tbody>
</table>

* Not including courses 711, 720, 721, or 990. Physics 651 is included.

A student may elect to complete one of the following minor programs: a minor of 9 to 12 credits in a single department; a minor of 12 credits in two or more departments. Traditional fields for the minor are mathematics, other natural sciences, computer sciences and engineering. In planning a minor in a single department, the student is advised by the minor professor; in planning a minor in two or more departments, the student is advised by the major professor. The program of study is to be chosen with the major professor and the departmental academic graduate committee.

**Residence**
The student must meet minimum Graduate School residence requirements.

**Written Qualifying Examination**
Prior to taking the oral doctoral preliminary examination, the student must pass a written qualifying examination. The exam is designed to test a student's physics problem solving capabilities assuming a knowledge of physics equivalent to an advanced undergraduate at a premier institution. The exam is given at the start of the Fall and Spring semesters. Students have a maximum of 3 attempts to pass the exam and must take the exam each time that it is offered until passing the exam or exhausting the 3 allowed attempts.

**Doctoral Preliminary Examination and Doctoral Proposal Hearing**
The student must prepare a written proposal and pass an oral examination to qualify for formal admission to candidacy for the degree. The oral examination primarily seeks to determine the student’s preparation for independent research and the suitability of the proposed dissertation program. The Examination must be taken within four years of enrollment into the physics doctoral program and must be passed within five years of enrollment into the program.

**Dissertation**
The candidate must present a dissertation reporting the results of an original and independent research investigation representing substantive creative contribution.

**Dissertation Defense**
The candidate must, as the final step toward the degree, pass an oral examination in defense of the dissertation.

**Time Limit**
All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.
POLITICAL SCIENCE

The Department of Political Science offers a comprehensive curriculum designed to provide a thorough understanding of politics while providing a foundation for careers in government, law, education, business, and other fields. In addition to courses on political ideas, behavior, and institutions at the local, state, national, and international levels, the department offers opportunities for students to participate in research projects, internship programs, scholarship competitions, study abroad, a political science honor society (http://uwm.edu/political-science/undergraduate/pi-sigma-alpha), and a program in law studies.

The curriculum is divided into four areas of study:

American Politics
American politics involves the study of U.S. political institutions at the national level (e.g., Congress, Presidency, Judiciary), state and local government and politics, political parties, interest groups, policy making, elections and voting behavior, public opinion, public law and the judicial process, constitutional interpretation, and the field of public administration.

Comparative Politics
Comparative politics studies political systems of nations outside the United States, including those in Western and Eastern Europe, Latin America, Asia, the Middle East, Africa, and Russia.

International Relations
International relations focuses on American foreign policy, international organizations (e.g., the United Nations), international economics, war and peace, and international law.

Political Theory
Political theorizing means questioning the assumptions underlying both politics and political science. Courses in political theory are designed to help students understand political experiences as they are interpreted by those who are engaged in politics and also by those who study it. Political theory therefore includes the history of political ideas, the writings of major theorists, and theories of history and the social sciences.

Programs
• Political Science, BA (p. 1686)
• Political Science, MA (p. 1690)
• Political Science, Minor (p. 1691)
• Political Science, PhD (p. 1692)

Political Science Courses

POL SCI 103 Introduction to Political Science
3 cr. Undergraduate.
An introduction to the systematic study of politics, including voting, parties, interest groups, executives, legislatures, courts, and political ideologies.
Prerequisites: none.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

POL SCI 104 Introduction to American Government and Politics
3 cr. Undergraduate.
How the American political system works, with emphasis on the Constitution, elections, political parties, interest groups, Congress, the presidency, the courts, and national policy making.
Prerequisites: none.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

POL SCI 105 State Politics
3 cr. Undergraduate.
Processes and functions of state governments and their relations with the national government and local governments; special emphasis on Wisconsin politics.
Prerequisites: none.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

POL SCI 106 Politics of the World's Nations
3 cr. Undergraduate.
Introduction to political issues facing the governments of industrialized and developing nations, democratic and authoritarian, considering the similarities and differences between these nations and America.
Prerequisites: none.
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

POL SCI 110 Sex and Power
3 cr. Undergraduate.
Study of gender, sex, and sexuality as determined by law, power, and politics.
Prerequisites: none.
Course Rules: Cultures and Communities Prog course; req’d service learning component.
General Education Requirements: CD
Last Taught: Fall 2016.
Current Offerings: http://uwm.edu/schedule

POL SCI 150 Multicultural America: Minority Voting Rights and Representation
3 cr. Undergraduate.
An introduction to minority voting rights, the Voting Rights Acts, and minority representation.
Prerequisites: none.
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2016, Fall 2015, Spring 2013.
Current Offerings: http://uwm.edu/schedule

POL SCI 175 Introduction to International Relations
3 cr. Undergraduate.
Introduction to international relations, including the major subfields. Essential characteristics of the international system and the foreign policy objectives of states are discussed to give the beginning student a clearer view of world politics.
Prerequisites: none.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule
POL SCI 193 First-Year Seminar
3 cr. Undergraduate.
The specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: SS
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

POL SCI 203 Introduction to Political Science Research
3 cr. Undergraduate.
An overview of quantitative political science research. The role of theory, research design, and measurement.
Prerequisites: one pol sci course.
Course Rules: Research methods course.
Last Taught: Fall 2017, Spring 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

POL SCI 210 American Public Policy
3 cr. Undergraduate.
Introduction to substantive policy issues and forces which influence their progress. Emphasis upon major values within political conflicts and the gap between policy goals and program implementation.
Prerequisites: none.
Course Rules: American politics course.
General Education Requirements: SS
Last Taught: Fall 2015, Spring 2015, Fall 2014, Summer 2000.
Current Offerings: http://uwm.edu/schedule

POL SCI 213 Urban Government and Politics
3 cr. Undergraduate.
The management, politics, and problems of city government.
Prerequisites: none.
Course Rules: American politics course.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

POL SCI 215 Ethnicity, Religion and Race in American Politics
3 cr. Undergraduate.
Nationality, racial and religion-based groups in American domestic and foreign policy-making; significance of cultural pluralism as a factor in the American political experience.
Prerequisites: none.
Course Rules: American politics course.
General Education Requirements: SS, CD
Last Taught: Summer 2017, Spring 2017, Summer 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

POL SCI 216 Environmental Politics
3 cr. Undergraduate.
Introductory course on the politics of environmental decisionmaking. Topics include the environmental movement, capitalism and the environment, climate change, and policymaking for environmental protection.
Prerequisites: none.
Course Rules: Counts as a repeat of Pol Sci 299 w/same topic.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

POL SCI 220 American Politics
3 cr. Undergraduate.
An overview of American politics. Focus on American politics as treated in the classic works of political thought.
Prerequisites: none.
Course Rules: Political theory course.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

POL SCI 234 Introduction to ULEAP
1-3 cr. Undergraduate.
Undergraduate Laboratory for Empirical Analysis of Politics (ULEAP). Hands-on research lab for recurring ULEAP projects. Students assist faculty with research projects, develop quantitative research skills.
Prerequisites: cons instr.
Course Rules: Requires 40 hrs of supervised research per cr. May be retaken to 9 cr max.
Last Taught: Spring 2012, Fall 2011, Spring 2011.
Current Offerings: http://uwm.edu/schedule

POL SCI 243 Public Administration
3 cr. Undergraduate.
The means used to implement political values with emphasis on problems of administration in modern government.
Prerequisites: none.
Course Rules: Pol Sci 243 & Pub Adm 243 are jointly offered; they count as repeats of one another.
General Education Requirements: SS
Last Taught: Fall 2014, Fall 2012, Fall 2011, Spring 2011.
Current Offerings: http://uwm.edu/schedule

POL SCI 250 Law and Society
3 cr. Undergraduate.
The law and the operation of the legal system as they relate to contemporary social issues.
Prerequisites: none.
Course Rules: American politics course.
Current Offerings: http://uwm.edu/schedule

POL SCI 255 Great Issues of Politics
3 cr. Undergraduate.
Major problems in political thought, such as war and peace, justice and power, liberty and authority, identity and alienation, and stability and change.
Prerequisites: none.
Course Rules: Political theory course.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

POL SCI 281 Classics of Political Theory
3 cr. Undergraduate.
Power, authority, liberty, justice, law, and other basic ideas of politics and government as treated in the classic works of political thought.
Prerequisites: soph st.
Course Rules: Political theory course.
Current Offerings: http://uwm.edu/schedule

POL SCI 284 Public Administration
3 cr. Undergraduate.
The means used to implement political values with emphasis on problems of administration in modern government.
Prerequisites: none.
Course Rules: Pol Sci 243 & Pub Adm 243 are jointly offered; they count as repeats of one another.
General Education Requirements: SS
Last Taught: Fall 2014, Fall 2012, Fall 2011, Spring 2011.
Current Offerings: http://uwm.edu/schedule

POL SCI 294 Undergraduate Research Participation
1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with a supervising member of the faculty or staff.
Prerequisites: acceptance into UROP; prior or conc reg in UROP seminar.
Course Rules: One credit for 45 hrs research. May be retaken to 9 cr max in any combination of UROP Apprenticeship courses. Not open to jrs & srs.
Last Taught: Spring 2007.
Current Offerings: http://uwm.edu/schedule

POL SCI 296 UROP Apprenticeship
1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with a supervising member of the faculty or staff.
Prerequisites: acceptance into UROP; prior or conc reg in UROP seminar.
Course Rules: One credit for 45 hrs research. May be retaken to 9 cr max in any combination of UROP Apprenticeship courses. Not open to jrs & srs.
Last Taught: Spring 2007.
Current Offerings: http://uwm.edu/schedule
POL SCI 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course
work level, content and credits are determined and/or in specially
prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken w/topic chg.
Current Offerings: http://uwm.edu/schedule

POL SCI 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Requires only dept & assoc dean approval. In exceptional circumstances,
can be offered in one add'l sem.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

POL SCI 300 Western European Politics
3 cr. Undergraduate.
Survey of government and politics in Western Europe; comparative
perspectives on states, citizens, and public policies; current challenges.
Prerequisites: jr st or Pol Sci 106.
Course Rules: Comparative politics course.
Last Taught: Spring 2017, Fall 2011, Fall 2010, Fall 2009.
Current Offerings: http://uwm.edu/schedule

POL SCI 301 British Politics
3 cr. Undergraduate/Graduate.
Political process in Great Britain in the context of contemporary national
setting; emphasis on party system and constitutional order.
Prerequisites: jr st.
Course Rules: Comparative politics course.
Last Taught: Fall 2013, Fall 2012, Spring 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

POL SCI 302 Politics of Eastern Europe
3 cr. Undergraduate/Graduate.
Evolution of modern nation-state systems in Eastern Europe; interactions
among nationalism, communism, and democracy in the countries of the
region since 1945.

3 cr. Undergraduate.
Analysis of recent relations of the major powers in East, Southeast, and South Asia, especially the problems of the smaller states and the role of the United States.
Prerequisites: jr st.
Course Rules: International politics course.
Last Taught: Fall 2017, Fall 2016, Spring 2015, Spring 2014.
Current Offerings: http://uwm.edu/schedule

POL SCI 346 U.S.-Latin American Relations
3 cr. Undergraduate.
Historic and contemporary inter-American relations, including issues such as U.S.-Cuban relations, drug trafficking, trade integration, international finance, and migration.
Prerequisites: jr st.
Course Rules: International politics course.
Last Taught: Fall 2014, Fall 2010, Fall 2009, Fall 2008.
Current Offerings: http://uwm.edu/schedule

POL SCI 355 The Politics of Economic Inequality
3 cr. Undergraduate.
The causes and political consequences of economic inequality.
Prerequisites: jr st or cons instr.
Last Taught: Spring 2016.
Current Offerings: http://uwm.edu/schedule

POL SCI 359 Problems of American Foreign Policy
3 cr. Undergraduate/Graduate.
Analysis of problems confronting the United States in principal regions of the world, emphasizing the content and instrumentalities of recent policy, and considering alternative solutions.
Prerequisites: jr st.
Course Rules: International politics course.
Current Offerings: http://uwm.edu/schedule

POL SCI 361 History of International Political Thought
3 cr. Undergraduate/Graduate.
History of international political thought. Statist and internationalist theories of sovereignty, war, intervention, and international law.
Prerequisites: jr st.
Course Rules: Political theory or international politics course.
Last Taught: Fall 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

POL SCI 365 Theories and Methods in International Politics
3 cr. Undergraduate/Graduate.
Empirical, theoretical, and quantitative analyses of international relations.
Prerequisites: jr st.
Course Rules: International politics course.
Last Taught: Spring 2018, Fall 2013, Spring 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

POL SCI 368 Gender and Politics in Developing Nations
3 cr. Undergraduate/Graduate.
Gender and politics in Latin America, East/South Asia, the Middle East, integrating works from political science, feminist theory, development studies, public health, women's studies.
Prerequisites: jr st.
Course Rules: Counts as a repeat of Pol Sci 333 w/same subtitle. Enrollment limited to 15 students. Comparative politics course.
Current Offerings: http://uwm.edu/schedule

POL SCI 370 International Conflict
3 cr. Undergraduate/Graduate.
Theoretical and quantitative studies of international conflict and war. Includes individual, national, and systemic approaches.
Prerequisites: jr st.
Course Rules: International politics course.
Last Taught: Fall 2017, Spring 2017, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

POL SCI 371 Nationalism and Ethnic Conflict
3 cr. Undergraduate.
Origins of nations. Nationalism and the decline of empires. Origins and strategies of ethnic wars. How ethnic wars end. International intervention. Case studies, such as Arab-Israeli and India-Pakistan conflicts. Comparative or international politics course. Prereq: jr st or one pol sci course.
Prerequisites:

General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

POL SCI 372 Poverty and Politics:
3 cr. Undergraduate.
Causes and political consequences of poverty and social inequality worldwide.
Prerequisites: jr st.
Course Rules: Counts as repeat of Pol Sci 499 w/same topic. May be retaken w/chg in topic to 6 cr max.
Last Taught: Fall 2016, Summer 2016, Summer 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

POL SCI 374 Health, Wealth, and Democracy
3 cr. Undergraduate.
The relationship between the democracies and wealth, and health care outcomes.
Prerequisites: The relationship between the democracies and wealth, and health care outcomes.
Current Offerings: http://uwm.edu/schedule

POL SCI 377 Elections in the Modern World
3 cr. Undergraduate.
Role of elections in contemporary political regimes; representation, accountability, electoral institutions, elections in new democracies, and electoral authoritarian regimes.
Prerequisites: jr st.
Last Taught: Fall 2017, Fall 2015.
Current Offerings: http://uwm.edu/schedule
POL SCI 379 Morality, Conflict and War
3 cr. Undergraduate.
Examines the conditions that make for war and peace in world politics, and considers relevant moral and ethical arguments about war.
Prerequisites: jr st
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

POL SCI 380 Honors Seminar:
3 cr. Undergraduate.
Selective topics in the study of politics.
Prerequisites: soph st; Honors 200(P); cons Honors College dir.
Course Rules: May be retaken w/chg in topic to 9 cr max. Political theory course.

General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

POL SCI 381 The Development of Western Political Thought
3 cr. Undergraduate/Graduate.
Political theory from the Greek era to the present.
Prerequisites: jr st; grade of C or better in English 102(P) or score level 4 on EPT.
Course Rules: Political theory course.

Current Offerings: http://uwm.edu/schedule

POL SCI 382 Modern Political Thought
3 cr. Undergraduate/Graduate.
Liberal democracy, traditional conservatism, fascism, communism and socialism, with emphasis on the development and problems of democracy.
Prerequisites: jr st.

Course Rules: Political theory course.

Last Taught: Fall 2017, Spring 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

3 cr. Undergraduate/Graduate.
The idea of law and its relationship to morality. Issues of legal obligation, rights, responsibility, and punishment.
Prerequisites: jr st, 3 cr in philos or previous course in political theory or law studies recom.

Course Rules: Philos 384 & Pol Sci 384 are jointly offered; they count as repeats of one another. Political theory course.

Last Taught: Fall 2017, Fall 2016, Spring 2016, Spring 2014.
Current Offerings: http://uwm.edu/schedule

POL SCI 385 American Political Thought
3 cr. Undergraduate/Graduate.
Survey of main currents of American political thought from colonial times to the present.
Prerequisites: jr st.

Course Rules: Political theory course.

Last Taught: Spring 2018, Fall 2017, Fall 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

POL SCI 386 Contemporary Political Theory
3 cr. Undergraduate/Graduate.
Survey of current work in different branches of political theory, including formal, analytical, and critical theory.
Prerequisites: jr st.

Course Rules: Political theory course.

Current Offerings: http://uwm.edu/schedule

POL SCI 387 Topics in American Politics:
3 cr. Undergraduate/Graduate.
Intensive study in selected aspects of American politics.
Prerequisites: jr st.

Course Rules: May be retaken w/chg in topic to 6 cr max. American politics course.

Last Taught: Spring 2013, Fall 2011, Summer 2011, Spring 2011.
Current Offerings: http://uwm.edu/schedule

POL SCI 388 Latino Politics
3 cr. Undergraduate.
Contemporary Latino politics in the U.S.; demographic analysis; interplay between political incorporation and political institutional responses; Chicano movement, immigration policies, public opinion, voting behavior, representation.
Prerequisites: jr st.

Course Rules: Latino 388 & Pol Sci 388 are jointly offered; they count as repeats of one another.

General Education Requirements: SS, CD
Current Offerings: http://uwm.edu/schedule

POL SCI 389 Politics and Philosophy:
3 cr. Undergraduate/Graduate.
Ideas and methods in recent political theory, including the history of political thought, analytical political philosophy, and critical theory.
Prerequisites: jr st; one course in political theory.

Course Rules: Political theory course. May be retaken w/chg in topic to 6 cr max.

Current Offerings: http://uwm.edu/schedule

POL SCI 390 Political Data Analysis
3 cr. Undergraduate/Graduate.
Research design, measurement, and techniques of political data analysis.
Prerequisites: jr st; satisfaction of GER Quantitative Literacy Part A req.

Course Rules: Research methods course.

General Education Requirements: QLB
Current Offerings: http://uwm.edu/schedule

POL SCI 391 Current Crises and Events in International Relations
3 cr. Undergraduate.
Examines several current crises or challenging international events--defined as unstable, pressing international situations in which significant change appears imminent.
Prerequisites: jr st.

Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule
POL SCI 392 Survey Research
3 cr. Undergraduate/Graduate.
Theory and practice of survey techniques. Planning, design, sampling, types of data, questionnaire construction, interviewing, field operation, and coding examples in a variety of fields.
Prerequisites: jr st.
Course Rules: Research methods course.
Current Offerings: http://uwm.edu/schedule

POL SCI 398 Cyber-Politics:
3 cr. Undergraduate.
Study of politics using internet sources, especially the Worldwide Web.
Prerequisites: jr st; one social sci course.
Course Rules: May not be retaken for degree cr.
Current Offerings: http://uwm.edu/schedule

POL SCI 405 State Government:
3 cr. Undergraduate/Graduate.
Selected topics in state government and politics with special emphasis on Wisconsin.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to 6 cr max. American politics course.
Last Taught: Fall 2013, Spring 2013, Fall 2012, Fall 2002.
Current Offerings: http://uwm.edu/schedule

POL SCI 408 The American Presidency
3 cr. Undergraduate/Graduate.
Study of the office and powers of the president, with an analysis of his major roles as chief administrator, legislative leader, political leader, initiator of foreign policies, Commander-in-Chief and head of state.
Prerequisites: jr st.
Course Rules: American politics course.

Application of advanced principles in political science in a governmental or political setting.
Prerequisites: jr st; 3.0 GPA; cons supervising faculty member.
Course Rules: One cr earned for academic work related to each 40 hrs of internship work. May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

POL SCI 497 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/topic chg.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

POL SCI 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l sem.
Prerequisites: jr st; add’l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Last Taught: Spring 2013, Fall 2010, Spring 2010, Fall 2009.
Current Offerings: http://uwm.edu/schedule

POL SCI 500 Capstone Course in Political Science
3 cr. Undergraduate.
Readings and discussions about fundamental political science problems; directed research project tailored to each student’s special interests.
Prerequisites: sr st; declared pol sci major; Pol Sci 203(P), 390(P), or 392(P).
Last Taught: Spring 2016, Fall 2015, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule
POL SCI 678 Advanced Undergraduate Laboratory for the Empirical Analysis of Politics
1-3 cr. Undergraduate.
Advanced students enhance their research skills by assisting faculty members on political science research projects in collaboration with other students.
Prerequisites: jr st; cons instr.
Course Rules: Requires 40 hrs of supervised research per cr. May be retaken to 9 cr max.
Last Taught: Spring 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

POL SCI 699 Independent Reading
1-6 cr. Undergraduate.
Students with superior grade-point averages and special aptitudes may be given permission to earn up to 6 cr toward the major by writing a thesis or doing directed research or reading. See Advanced Independent Study for further information. Consult the Political Science Chair.
Prerequisites: jr st; 2.5 GPA; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

POL SCI 700 Scope and Methods of Political Science
3 cr. Graduate.
Critical examination of the normative and empirical methodologies of political science.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

POL SCI 701 Techniques of Political Science Research
3 cr. Graduate.
Introduction to basic techniques of collecting, coding, processing, analyzing, and presenting political data.
Prerequisites: grad st; one undergrad stats course or cons instr
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

POL SCI 702 Advanced Techniques of Political Science Research
3 cr. Graduate.
Advanced course in quantitative analysis stressing the application of econometric techniques to the study of politics.
Prerequisites: grad st; Pol Sci 701(P).
Current Offerings: http://uwm.edu/schedule

POL SCI 704 Seminar in Nonprofit Organizations
3 cr. Graduate.
Overview of structure, functions, and governance of nonprofit organizations. Comparison with government and for-profit organizations.
Prerequisites: grad st.
Course Rules: Nonprof 704, Pol Sci 704, Sociol 704, & Urb Std 704 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

POL SCI 705 Professionals and Volunteers in Nonprofit Organizations
3 cr. Graduate.
Seminar in techniques of management of professionals and volunteers in nonprofit organizations.
Prerequisites: grad st.
Course Rules: Nonprofit 705 & Pol Sci 705 are jointly offered; they count as repeats of one another.
Last Taught: Summer 2016, Summer 2013, Summer 2011, Summer 2010.
Current Offerings: http://uwm.edu/schedule

POL SCI 711 Current Topics in Political Science:
1-3 cr. Graduate.
This course will address a specific topic or methodological approach of general disciplinary importance.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic & cons advisor & instr to 6 cr max.
Last Taught: Fall 2017, Spring 2017, Spring 2015, Fall 2012.
Current Offerings: http://uwm.edu/schedule

POL SCI 715 Introduction to Comparative Politics I
3 cr. Graduate.
The second course in a graduate introduction to comparative politics. Foundation for students considering further work in comparative politics; emphasis on empirical research literature.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2015, Fall 2014, Fall 2012.
Current Offerings: http://uwm.edu/schedule

POL SCI 716 Intro to Comparatv Politics II
3 cr. Graduate.
The second course in a graduate introduction to comparative politics. Foundation for students considering further work in comparative politics; emphasis on empirical research literature.
Prerequisites: grad st; Pol Sci 715(P) or cons instr
Last Taught: Spring 2013, Fall 2010.
Current Offerings: http://uwm.edu/schedule

POL SCI 720 Theoretical and Methodological Issues of Comparative Politics
3 cr. Graduate.
Seminar on theory construction, research design, and the logic of comparative social inquiry.
Prerequisites: grad st.
Last Taught: Fall 2007, Fall 2003, Fall 2000, Fall 1998.
Current Offerings: http://uwm.edu/schedule

POL SCI 725 Judicial Politics and Behavior
3 cr. Graduate.
Readings in the field of judicial politics and behavior, with particular attention to decision making in collegial courts and to scientific methods of analysis.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2013, Spring 2009, Fall 2006.

POL SCI 727 Seminar in Constitutional Law
3 cr. Graduate.
Major trends in constitutional case law and in critical analysis of the role of the court in american democracy.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule
POL SCI 749 Seminar in American Political Institutions  
3 cr. Graduate.  
Overview of political institutions including executives, legislatures, bureaucracies, courts, interest groups and others and the role they play in the political and policy process.  
Prerequisites: grad st.  
Last Taught: Fall 2016, Spring 2015, Fall 2012, Spring 2011.  
Current Offerings: http://uwm.edu/schedule  

POL SCI 750 Seminar in the Study of American Political Behavior  
3 cr. Graduate.  
Readings and research on a broad range of topics related to political behavior. Concentration on the political science literature on mass political behavior with some attention to the behavior of political elites.  
Prerequisites: grad st.  
Current Offerings: http://uwm.edu/schedule  

POL SCI 751 Seminar in Public Policy Formation  
3 cr. Graduate.  
Nature and consequences of constraints upon policy-makers in public institutions.  
Prerequisites: grad st.  
Current Offerings: http://uwm.edu/schedule  

POL SCI 763 Scope and Dynamics of Public Administration  
3 cr. Graduate.  
The field of public administration, including organization theory, public management, the politics of administration, and the role of government in policy-making.  
Prerequisites: grad st.  
Course Rules: Pol Sci 763 & Pub Adm 763 are jointly offered; they count as repeats of one another.  
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.  
Current Offerings: http://uwm.edu/schedule  

POL SCI 769 Analyzing and Evaluating Public Policies and Programs  
3 cr. Graduate.  
Examination of methods, including cost-benefit analysis and decision analysis, that aid policy makers and administrators in understanding and assessing public and nonprofit sector policies and programs.  
Prerequisites: grad st.  
Course Rules: Pol Sci 769 & Pub Adm 769 are jointly offered; they count as repeats of one another.  
Current Offerings: http://uwm.edu/schedule  

POL SCI 791 Nonprofit Advocacy and Public Policy  
3 cr. Graduate.  
Prerequisites: grad st  
Course Rules: Nonprofit 791 & Pol Sci 791 are jointly offered; they count as repeats of one another.  
Current Offerings: http://uwm.edu/schedule  

POL SCI 793 Law of Nonprofit Organizations  
3 cr. Graduate.  
Legal concepts and issues relevant to the formations and operations of nonprofit organizations. Complying with applicable federal and state statutes and regulations.  
Prerequisites: grad st  
Course Rules: Nonprof 793 & Pol Sci 793 are jointly offered; they count as repeats of one another.  
Last Taught: Fall 2015, Fall 2014, Fall 2013, Fall 2012.  
Current Offerings: http://uwm.edu/schedule  

POL SCI 801 Proseminar in Political Theory  
3 cr. Graduate.  
Political theory for graduate students in any field, based on historical and contemporary texts that illustrate different understandings of politics and political theory.  
Prerequisites: grad st  
Last Taught: Fall 2013, Spring 2012.  
Current Offerings: http://uwm.edu/schedule  

POL SCI 814 Major Political Theorists:  
3 cr. Graduate.  
Consideration of selected political theorists, periods, or traditions. Attention given to issues of textural interpretation, historical context, and conceptual analysis.  
Prerequisites: grad st.  
Course Rules: Retakable w/chg in topic to 6 cr max.  
Current Offerings: http://uwm.edu/schedule  

POL SCI 815 Problems in Political Theory:  
3 cr. Graduate.  
Selected concepts and controversies in the historical and contemporary literature of political theory, such as authority, obligation, equality, justice and the explanation of human conduct.  
Prerequisites: grad st.  
Course Rules: Retakable w/chg in topic to 6 cr max.  
Current Offerings: http://uwm.edu/schedule  

POL SCI 816 Seminar in Positive Political Theory:  
3 cr. Graduate.  
Selected topics in rationality-based approaches to the study of politics.  
Prerequisites: grad st; Pol Sci 701(817)(P) & 875(P).  
Course Rules: Retakable w/chg in topic to 6 cr max.  
Last Taught: Fall 2011, Fall 2009, Fall 2007, Fall 2001.  
Current Offerings: http://uwm.edu/schedule  

POL SCI 817 Feminist Theory and Politics  
3 cr. Graduate.  
Examination and analysis of historical and theoretical aspects of feminist theory and politics including liberal, cultural, radical, postmodern, and queer political theory.  
Prerequisites: grad st.  
Current Offerings: http://uwm.edu/schedule
POL SCI 818 Theories of International Political Economy  
3 cr. Graduate. 
Analysis of major political theories of international economic relations. 
Examine international political economy issues in industrial developing, 
and communist countries. 
Prerequisites: grad st; intro courses in Econ & Intrel. 
Last Taught: Fall 2014, Fall 2011, Fall 2008, Fall 2003. 
Current Offerings: [link]

POL SCI 855 Comparative Urban Politics  
3 cr. Graduate. 
Examination of critical roles, structures, and processes of urban politics 
in different cultural settings. Selected to facilitate comparisons between 
the urban political process in developed and underdeveloped nations. 
Prerequisites: second semester grad student. 
Current Offerings: [link]

POL SCI 888 Candidate for Degree  
0 cr. Graduate. 
Available for graduate students who must meet minimum credit load 
requirements. 
Prerequisites: grad st. 
Course Rules: Fee assessed for 1 cr. 
Last Taught: Summer 2017, Fall 2012, Summer 2012, Summer 2011. 
Current Offerings: [link]

POL SCI 913 Seminar in Urban Political Process  
3 cr. Graduate. 
Analysis of the forces and processes that shape urban political life, 
with particular emphasis on patterns of government, political culture, 
power structures, and civic participation in urban and metropolitan 
communities. 
Prerequisites: grad st. 
Course Rules: Pol Sci 913 & Urb Std 913 are jointly-offered; they count as 
repeats of one another. 
Current Offerings: [link]

POL SCI 914 Seminar in Intergovernmental Relations  
3 cr. Graduate. 
Policy issues in intergovernmental relations and the complex 
governmental context in which Americans live and work. 
Prerequisites: grad st. 
Course Rules: Pol Sci 914 & Pub Adm 914 are jointly-offered; they count as 
repeats of one another. 
Last Taught: Spring 2016, Fall 2014, Fall 2013, Spring 2012. 
Current Offerings: [link]

POL SCI 925 Applied Bayesian Modeling for the Social Sciences  
3 cr. Graduate. 
Theoretical foundations of Bayesian in comparison to Frequentist 
inference as well as applications of MCMC simulation to GLMs, 
hierarchical, time-series and measurement models. 
Prerequisites: grad st; Pol Sci 701(817)(P). 
Last Taught: Fall 2015, Fall 2013, Fall 2011, Fall 2009. 
Current Offerings: [link]

POL SCI 929 Seminar in Voting Behavior  
3 cr. Graduate. 
Voter decision making within and between elections. 
Prerequisites: grad st. 
Current Offerings: [link]

POL SCI 935 Seminar in Advanced Political Science Methodology  
3 cr. Graduate. 
An advanced seminar in selected topics on political science 
methodology. 
Prerequisites: grad st; Pol Sci 701(817)(P). 
Current Offerings: [link]

POL SCI 950 Seminar in Comparative Politics: Western Nations  
3 cr. Graduate. 
Variable content course. 
Prerequisites: grad st. 
Course Rules: Retakable w/chg in topic to 6 cr max. 
Last Taught: Spring 2018, Spring 2016, Fall 2013, Fall 2011. 
Current Offerings: [link]

POL SCI 953 Seminar in American Foreign Policy  
3 cr. Graduate. 
Analysis-in-depth of selected issues in the formulation and execution of 
American foreign policy, emphasizing recent problems, changes in world 
conditions, and methods of studying American policy. 
Prerequisites: grad st. 
Last Taught: Spring 2016, Fall 2012, Fall 2010, Fall 2006. 
Current Offerings: [link]

POL SCI 956 Political Culture and Behavior: Industrial Nations  
3 cr. Graduate. 
Political culture and mass political behavior in industrialized societies, 
including theories of ideology, multiculturism, and political parties. A 
data-based paper is required. 
Prerequisites: grad st; Pol Sci 701(817)(P) or equiv prep in statistics. 
Current Offerings: [link]

POL SCI 960 International Conflict  
3 cr. Graduate. 
Examines positive theories and quantitative research pertaining to 
causes and resolution of international conflict. 
Prerequisites: grad st. 
Current Offerings: [link]
POL SCI 962 Ethnic Conflict
3 cr. Graduate.
Origins, strategies, duration, and termination of ethnic conflicts; international intervention.
Prerequisites: grad st
Last Taught: Spring 2017, Fall 2013, Spring 2010.
Current Offerings: http://uwm.edu/schedule

POL SCI 963 Seminar in Judicial Process and Behavior
3 cr. Graduate.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

POL SCI 964 Seminar in Constitutional Politics
3 cr. Graduate.
Various approaches to the study of constitutional politics, including law as ideology, noninterpretivism, originalism, and departmentalism.
Prerequisites: grad st; Pol Sci 727(P).
Current Offerings: http://uwm.edu/schedule

POL SCI 972 Interest Groups and Public Policy
3 cr. Graduate.
Research seminar in the formal and informal role of interest groups in policy development enactment, and administration access and tactics of political pressure, analysis of private and public power relationships.
Prerequisites: grad st.
Last Taught: Fall 2007, Fall 2005, Fall 2003, Spring 2002.
Current Offerings: http://uwm.edu/schedule

POL SCI 973 Political Parties
3 cr. Graduate.
Selection of problems and design of research on the organization and processes of political parties.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

POL SCI 974 Seminar in Politics and Public Policy
3 cr. Graduate.
Research in the formulation and execution of public policy in democratic society.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

POL SCI 975 Comparative Authoritarianism
3 cr. Graduate.
Domestic and international politics of authoritarian regimes; methods of rule, regime survival strategies, and political economy.
Prerequisites: grad st.
Last Taught: Fall 2016, Spring 2014.
Current Offerings: http://uwm.edu/schedule

POL SCI 976 Seminar in Comparative Public Policy:
3 cr. Graduate.
Major theories and methods in comparative public policy relevant to specific areas of the world. Area focus varies from semester to semester.
Prerequisites: grad st.
Course Rules: Retakable w/ chg in topic to 6 cr max.
Last Taught: Spring 2015, Spring 2013, Fall 2009.
Current Offerings: http://uwm.edu/schedule

POL SCI 990 Research and Thesis
1-3 cr. Graduate.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

POL SCI 999 Independent Work
1-3 cr. Graduate.
Individual work directed by a member of the graduate faculty.
Prerequisites: grad st & cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

Political Science, BA

Political science is the study of governments, political processes, public policies and political behavior by groups or individuals and is an ideal major for students with a passion for current events.

At UWM, students take coursework from four broad areas of political science in order to obtain a well-rounded education in the field: American politics, international relations, comparative politics, and political theory. Along with exploring these substantive areas, students strengthen their research, writing, and critical thinking skills. With this background, students leave UWM ready to enter graduate school or the world of work in government, international organizations, campaigns, business, consulting, nonprofits, and many other industries. This broad major is available entirely online, or students can mix-and-match and take a some online and some traditional classes.

Many students find that a degree in Political Science aligns well with their interest in law and their plans to attend law school after college. We offer a large number of courses in constitutional law and legal practice in society, and students can focus their electives around these as part of the Law Studies option within the Political Science major. Students planning for law school also often participate in our law sports programs such as intercollegiate moot court and intercollegiate mock trial.

Internships are encouraged for all majors, and opportunities can be found locally as well in Washington DC.

Since 1966, students from all UW System campuses and other universities have participated in the United Nations Summer Seminar (http://uwm.edu/political-science/undergraduate/u-n-summer-seminar). This five-week, six-credit program is partially held at United Nations Headquarters in Manhattan. The four weeks in New York include special access to U.N. facilities and intensive interaction with over 40 experts representing governments and international organizations.

### Requirements

#### Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

#### University General Education Requirements (GER)

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGLISH 102</td>
<td>College Writing and Research (or equivalent)</td>
<td></td>
</tr>
</tbody>
</table>

#### Oral and Written Communication

- **Part A**: ENGLISH 102 College Writing and Research (or equivalent)

#### Quantitative Literacy

- **Part A**: Select one of the following:
  - MATH 103 Contemporary Applications of Mathematics

---

### Faculty

- Thomas M. Holbrook, Distinguished Professor, PhD, University of Iowa
- Shale A. Horowitz, Professor, PhD, University of California-Los Angeles
- David Nachmias, Professor Emeritus, PhD, Northern Illinois University
- Terry Nardin, Professor Emeritus, PhD, University of South Carolina
- Erin Olsen (Kaheny), Associate Professor, PhD, University of Oregon
- Hong Min Park, Associate Professor, PhD, Washington University
- Sara Pashak (Benesh), Associate Professor, PhD, Michigan State University
- Stephen L. Percy, Professor Emeritus, PhD
- Donald Pienkos, Professor Emeritus, PhD
- Joel Rast, Associate Professor, PhD, University of Oregon
- Steven Redd, Associate Professor, PhD, Texas A&M University
- Ora John Reuter, Associate Professor, PhD, Emory University
- Paru Shah, Associate Professor, PhD, Rice University
- Mark Tessler, Professor Emeritus, PhD
- John Wanat, Professor Emeritus, PhD
- Meredith W. Watts, Professor Emeritus, PhD
- Ronald E. Weber, Professor Emeritus, PhD
MATH 105  Introduction to College Algebra
MATH 108  Algebraic Literacy II
Or equivalent course

Part B
Course designated as QL-B; may be completed through a major-specific course requirement

Arts
Select 3 credits

Humanities
Select 6 credits

Social Sciences
Select 6 credits

Natural Sciences
Select 6 credits (at least two courses including one lab)

UWM Foreign Language Requirement
Complete Foreign Language Requirement through:
  Two years (high school) of a single foreign language
  Two semesters (college) of a single foreign language
  Or equivalent

UWM Cultural Diversity Requirement
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement

College of Letters & Science Requirements

I. English Writing Requirement
Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning
To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 103</td>
<td>Contemporary Applications of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 105</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Complete one of the following:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>3 or more credits in any 200-level or above Math course</td>
<td></td>
</tr>
<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>
<td></td>
</tr>
<tr>
<td>ANTHRO 568</td>
<td>Introduction to Anthropological Statistics</td>
<td></td>
</tr>
<tr>
<td>ATM SCI 500</td>
<td>Statistical Methods in Atmospheric Sciences</td>
<td></td>
</tr>
<tr>
<td>BIO SCI 465</td>
<td>Biostatistics</td>
<td></td>
</tr>
<tr>
<td>ECON 210</td>
<td>Economic Statistics</td>
<td></td>
</tr>
<tr>
<td>GEOG 247</td>
<td>Quantitative Analysis in Geography</td>
<td></td>
</tr>
<tr>
<td>HIST 595</td>
<td>The Quantitative Analysis of Historical Data</td>
<td></td>
</tr>
<tr>
<td>MTHSTAT 215</td>
<td>Elementary Statistical Analysis</td>
<td></td>
</tr>
<tr>
<td>PHILOS 211</td>
<td>Elementary Logic</td>
<td></td>
</tr>
<tr>
<td>POL SCI 390</td>
<td>Political Data Analysis</td>
<td></td>
</tr>
<tr>
<td>POL SCI 392</td>
<td>Survey Research</td>
<td></td>
</tr>
<tr>
<td>PSYCH 210</td>
<td>Psychological Statistics</td>
<td></td>
</tr>
<tr>
<td>SOCIOL 261</td>
<td>Introduction to Statistical Thinking in Sociology</td>
<td></td>
</tr>
</tbody>
</table>

Note: This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

III. Foreign Language Requirement
Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Completed in one of the following:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)</td>
<td>0-18</td>
</tr>
<tr>
<td></td>
<td>Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)</td>
<td></td>
</tr>
</tbody>
</table>

IV. International Requirement
See Approved Courses for the L&S International Requirement (p. 1169) for course options.
VI. The Major
The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Political Science Major Requirements
Majors must attain a 2.500 GPA in all political science courses, including any transfer work, and a 2.500 GPA in political science courses taken at UWM. Majors are required to complete a minimum of 30 credits in political science, of which at least 15 must be in upper-division courses (numbered 300 or above) taken in residence at UWM. The following courses must be included among those taken for major credit.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL SCI 103</td>
<td>Introduction to Political Science</td>
<td>3</td>
</tr>
<tr>
<td>or POL SCI 104</td>
<td>Introduction to American Government and Politics</td>
<td></td>
</tr>
</tbody>
</table>

Methods Requirement

Electives

Select 9 credits 9

Total Credits 30

1 Satisfies the L&S requirement for a research experience in the major, should be taken in the last year of study.

Course of Study: Law Studies Option

Students may emphasize the study of law within the major by completing, in conjunction with or in addition to all of the requirements outlined above, the courses listed below as part of the 30 credits required for the major.

**Political Areas**
- The following meets the American politics requirement: POL SCI 250, POL SCI 411, POL SCI 412, POL SCI 419, POL SCI 452, or POL SCI 464
- The following qualifies as political theory: POL SCI 384/PHILOS 384
- The following is an international politics course: POL SCI 316

Honors in the College of Letters and Science

Dean's Honor List
GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

http://uwm.edu/political-science/undergraduate/

Political Science, MA

The Department of Political Science offers graduate programs of study in political science with concentrations in five fields: American politics; comparative politics; international relations; political theory; and public administration and public policy.

The master's program is designed to provide students with a basic grounding in the scope and methodology of the discipline, while at the same time allowing maximum flexibility in developing a program of study that will meet students' career objectives. It is recommended that students preparing themselves for PhD work emphasize empirical theory, quantitative skills and strategies and techniques of conducting research. Students may select coursework to help them prepare for such career fields as governmental service, public and private education, community service, and private industry. In developing an appropriate and coherent program of study, each graduate student works closely with the major professor and committee of advisors.

The Department accommodates the master's student who attends part time by scheduling sufficient graduate-level courses in the late afternoons and evenings to enable the student to earn a master's degree through part-time attendance.
In the PhD program the departmental emphasis is on conceptual and quantitative work. The Department requires that the student be broadly trained and accordingly encourages each student to take advantage of offerings in related disciplines to strengthen expertise in political change. The graduate of the program is qualified for a career in university teaching, in government service or in the private sector where the analytical skills and knowledge of the social scientist are required. Graduate degrees are conferred on the basis of a level of achievement which is acquired by independent reading and research as well as by taking courses. They are never conferred solely on the basis of prescribed courses and residency requirements.

**Application Deadlines**
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these departmental requirements to be considered for admission to the program:

1. Undergraduate major or substantial work in the field of political science.
2. Undergraduate grade point average of at least 3.0 (4.0 scale).
3. Three letters of recommendation from persons familiar with applicant’s scholastic ability and achievements.
4. Submission of Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre) scores. Applications will not be considered until scores are received.

**Major Professor as Advisor**
The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. The incoming student is advised by the chair of the departmental Graduate Committee; as the student develops specialized interests within the discipline, the student selects a major professor from within that area of specialization.

**Credits and Courses**
Minimum degree requirement is 30 graduate credits, all of which must be taken at the 700 level or above.

</table>

**Master’s Paper**
A formal thesis is not required. However, each student shall prepare and defend orally a paper that demonstrates conceptual ability and research competence in some recognized area (sub-field) of political science.

It is expected that the master’s paper will be prepared in a scholarly fashion, normally conforming to the format characteristic of journal articles published in the chosen area of study. A statement setting forth additional guidelines and criteria of evaluation will be made available.

For full-time students it is expected that the master’s paper will be defended prior to the completion of four semesters (two years) of graduate work. Consequently, the Department encourages students to choose paper topics for graduate seminars that may serve as the basis for the master’s paper. Postponement of the oral defense of the master’s paper beyond four semesters requires the approval of the Graduate Committee.

**Comprehensive Examination**
An oral defense of the master’s paper is required. Master’s papers will be defended before a three-person committee composed of one of the student’s advisors and two other faculty members selected by the chair of the Department in consultation with the student and the advisor.

The committee will be selected at least one full semester prior to anticipated submission of the master’s paper. The student must obtain committee approval of the research topic and methodology immediately following the selection of the committee.

A student must enroll for at least 3 credit hours of POL SCI 990 for final preparation of the paper.

**Time Limit**
The student must complete all degree requirements within five years of initial enrollment.

**Political Science, Minor**
Political science is the study of governments, political processes, public policies and political behavior by groups or individuals and is an ideal major for students with a passion for current events.

At UWM, students take coursework from four broad areas of political science in order to obtain a well-rounded education in the field: American politics, international relations, comparative politics, and political theory. Along with exploring these substantive areas, students strengthen their research, writing, and critical thinking skills. With this background, students leave UWM ready to enter graduate school or the world of work in government, international organizations, campaigns, business, consulting, nonprofits, and many other industries. This broad the minor is available entirely online, or students can mix-and-match and take a some online and some traditional classes.

Many students find that a degree in Political Science aligns well with their interest in law and their plans to attend law school after college. Students planning for law school also often participate in our law sports programs such as intercollegiate moot court and intercollegiate mock trial.

**Requirements**
Minors are required to complete a minimum of 18 credits in political science, of which at least 9 must be in upper-division courses (numbered 300 or above) taken at UWM. Minors must complete courses in at least two of the following four areas: American politics, comparative politics, international politics, and political theory. Students must attain a 2.500 GPA in all political science courses, including any transfer work, and a 2.500 GPA in all political science courses taken at UWM.
Contact Information
Current Students contact Associate Professor Ivan Ascher, ascher@uwm.edu

Political Science, PhD

The Department of Political Science offers graduate programs of study in political science with concentrations in five fields: American politics; comparative politics; international relations; political theory; and public administration and public policy.

The master's program is designed to provide students with a basic grounding in the scope and methodology of the discipline, while at the same time allowing maximum flexibility in developing a program of study that will meet students' career objectives. It is recommended that students preparing themselves for PhD work emphasize empirical theory, quantitative skills and strategies and techniques of conducting research. Students may select coursework to help them prepare for such career fields as governmental service, public and private education, community service, and private industry. In developing an appropriate and coherent program of study, each graduate student works closely with the major professor and committee of advisors.

The Department accommodates the master's student who attends part time by scheduling sufficient graduate-level courses in the late afternoons and evenings to enable the student to earn a master's degree through part-time attendance.

In the PhD program the departmental emphasis is on conceptual and quantitative work. The Department requires that the student be broadly trained and accordingly encourages each student to take advantage of offerings in related disciplines to strengthen expertise in political change. The graduate of the program is qualified for a career in university teaching, in government service or in the private sector where the analytical skills and knowledge of the social scientist are required. Graduate degrees are conferred on the basis of a level of achievement which is acquired by independent reading and research as well as by taking courses. They are never conferred solely on the basis of prescribed courses and residency requirements.

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these departmental requirements to be considered for admission to the program:

1. Master's degree in political science.
2. Evidence of a high standard of achievement in graduate work at the master's level.
3. Submission of Graduate Record Examination scores, except for applicants receiving a MA degree from UWM.

All applicants for admission to the PhD program will be evaluated on the basis of their prior academic record, scores on the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre), and three letters of recommendation.

Major Professor as Advisor
The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. The incoming student is advised by the chair of the departmental Graduate Committee; as that student develops specialized interests within the discipline, the student selects a major professor from within that area of specialization.

Areas of Concentration
In consultation with the major professor students plan a program of studies through which a high level of competence is gained in two substantive fields (hereafter referred to as “major” or “prelim” fields). The department offers five fields of study:

- American Politics
- Comparative Politics
- International Relations
- Political Theory
- Public Administration and Public Policy

Competence in these fields is demonstrated by a written and oral preliminary examination. In addition to the fields listed above, students may petition the graduate committee to be examined in an alternative field. This must be a coherent field that is not covered by one of the existing prelim areas.

Credits and Courses
Minimum degree requirement is 54 graduate credits beyond the bachelor's degree, 27 of which must be earned in residence at UWM at the doctoral level.

Distribution Requirement
To ensure broad exposure to the discipline, students must take a minimum of three courses outside of their prelim fields, at least two of which must be in a single field. Courses used to satisfy this requirement must be taken from the departmental offerings in the five substantive fields described above. Courses that bridge two or more fields of study cannot be used to satisfy this requirement if one of those fields falls within a student's prelim areas.

All courses taken to satisfy the distribution requirement must be political science courses numbered 700 or above.

Core Research Requirements
Attainment of the PhD denotes a high level of competence in research skills relevant to the discipline of political science. Thus, all students must complete the core departmental research seminars. Since skills learned in these courses are important elements in dealing successfully with subject matter presented in other seminars, students should enroll in these seminars immediately upon entering the graduate program.

<table>

<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL SCI 700</td>
<td>Scope and Methods of Political Science</td>
<td>12</td>
</tr>
</tbody>
</table>
Dissertation Defense
The candidate must, as a final step toward the degree, pass an oral examination in defense of the dissertation. The candidate who does not successfully defend a thesis within five years of admission to candidacy may be required to take another comprehensive preliminary examination and be readmitted to candidacy.

Time Limit
All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.

<table>

<td></td>
</tr>
</tbody>
</table>

Courses in two prelim fields 32
Distribution Requirement 9
Minimum three courses outside prelim fields (At least two in a single field)

Total Credits 54-56

1 Students using a course from outside the Department of Political Science to satisfy this requirement may enroll on a "Credit/No Credit" basis, where the grade of "Credit" demonstrates satisfactory completion of the requirement. Upon successful petition to the departmental Graduate Committee, a student may gain exemption from this requirement, based on coursework completed in the five years prior to entering the graduate program. Students who receive this exemption must still complete at least 27 credits in residence. Credits earned to meet the research requirement may count toward the 54 credits of work required for the PhD if they carry graduate credit and are taken for a grade.

In some cases, competence in foreign language skills is necessary for significant disciplinary research. Students may fulfill the research requirements beyond the above seminars through demonstration of a reading knowledge of one foreign language. Competence is established through examination, by an appropriate UWM language department. The student must perform at a level equivalent to six semesters of college-level work in the language.

Evaluation of Student Progress
The Department annually evaluates the progress of each student, in order to identify areas of strength and weakness as an aid to the student and the student's major professor in planning the program of study. This evaluation is also used to determine whether or not the student should be encouraged to pursue further graduate work.

Residence
The student must meet minimum Graduate School residence requirements.

Doctoral Preliminary Examination
The student must pass a doctoral written and oral preliminary examination covering both of his or her fields of study. The preliminary exam is taken during the semester following the completion of coursework.

Dissertation
The candidate, working under the supervision of the major professor and the candidate's dissertation committee, must write an acceptable dissertation. A dissertation prospectus must be written during the last semester of coursework and will be defended at the end of the following semester as part of the preliminary examination. Guidelines for preparation of the dissertation are available from the Graduate School.
PRE-PROFESSIONAL PROGRAMS

Pre-Professional Programs refers to any program that prepares students for professional graduate school such as a medical school, law school, or dental school.

Specialized advisors are available for each of the programs listed on the Programs tab (p. 1694) of this page. These advisors help students with course planning and other advice related to the elements needed to be a successful applicant to these competitive graduate programs. Depending on the graduate program, students will need to dedicate time and effort during college to obtain the necessary hands-on experience through volunteer work, internships, or part-time jobs. Early planning is essential for anyone who is considering a graduate professional school, and it is advised that students meet with the pre-professional advisor beginning in freshman year.

Programs

- Other Pre-Professional Health Study (p. 1694)
- Pre-Chiropractic (p. 1694)
- Pre-Dentistry (p. 1695)
- Pre-Forestry (Wildlife Management) (p. 1696)
- Pre-Law (p. 1696)
- Pre-Medicine (p. 1697)
- Pre-Optometry (p. 1698)
- Pre-Pharmacy (p. 1699)
- Pre-Physician Assistant (p. 1700)
- Pre-Podiatry (p. 1700)
- Pre-Veterinary Medicine (p. 1701)

Other Pre-Professional Health Study

Students interested in chiropractic medicine, optometry, physician assistant, and podiatry careers can fulfill the admission requirements of these professional programs in the College of Letters and Science. Information concerning these requirements and the admission tests for the professional schools is available in the Student Academic Services office. Call (414) 229-4654 to schedule an appointment with the appropriate advisor.

Pre-Chiropractic

The U.S. Bureau of Labor Statistics projects an above average increase in employment opportunities for chiropractors. As alternative medicine becomes more acceptable and the population ages, it is expected that the profession will grow by 28 percent from 2010 to 2020. Students can expect to spend three-and-a-half years in chiropractic school after the completion of four years of college.

Chiropractors diagnose and treat patients with health problems related to the body’s muscular, nervous, and skeletal system, particularly the spine. They view their patients as an integrated being and do not use drugs or surgery. The chiropractic theory states that there are many factors that affect our health, including heredity, type of exercise, environmental surroundings, dietary habits and rest.

Common tasks for a chiropractor include patient examination, analysis of posture and spine position, spinal and joint adjustments, application of heat and ice treatments, and patient lifestyle counseling. Some chiropractors use acupuncture, massage therapy, and ultrasound if they have received such training.

Please review the Pre-Chiropractic Fact Sheet (http://uwm.edu/letters-science/programs?discipline=Pre-Chiropractic) for information about suggested undergraduate courses to prepare for chiropractic school, career outlook for chiropractors, and options for your major. Pre-Chiropractic is not a major, and students must still choose a major. Since most of the pre-requisites necessary for application to Chiropractic school are in the sciences, many students choose a science major, though it is not required. Our specialized pre-chiropractic advisor works with students to ensure they understand all of the milestones that must be met in college in order to be a competitive applicant to Chiropractic school. A significant number of volunteer or work hours is often a requirement for application to Chiropractic school so it is important to work with this advisor beginning in freshman year in order to plan all needed activities into your college career.

UWM partners closely with three chiropractic colleges: Palmer College of Chiropractic in Davenport, Iowa; Cleveland Chiropractic College in Overland Park, Kansas; and Northwestern Health Sciences University in Bloomington, Minnesota. UWM students who meet certain academic standards may qualify for guaranteed admission at these institutions. Students are encouraged to work closely with the pre-chiropractic advisor in order to plan early for this transition and to understand the specific requirements of these schools. There are no chiropractic graduate programs in the State of Wisconsin.

A suggested timeline is also available from the advisor to help you plan preparatory activities throughout your four years in college.

Requirements

Entrance to a chiropractic program is very competitive. Although specific admission requirements may vary among programs, the following minimum standards generally apply:

- 90 completed undergraduate credits
- Overall GPA of 3.00 or higher
- 30+ credits at the 300+ level
- 24 credits in the natural sciences, half with lab work

Other common course requirements include (but are not limited to) the following: anatomy and physiology, cell biology, biochemistry, math statistics, nutrition, kinesiology, genetics, psychology, microbiology, immunology, and toxicology. Due to the variance in admission requirements, it is strongly recommended that students consult with the pre-chiropractic advisor every semester.

Recommended coursework includes:

<table>

CHEM 344 Organic Chemistry Laboratory
CHEM 345 Organic Chemistry

One year (two semesters) physics with lab: 10
Option 1:
PHYSICS 120 & PHYSICS 121 General Physics I (Non-Calculus Treatment) and General Physics Laboratory I (Non-Calculus Treatment)
PHYSICS 122 & PHYSICS 123 General Physics II (Non-Calculus Treatment) and General Physics Laboratory II (Non-Calculus Treatment)

Option 2:
PHYSICS 209 & PHYSICS 214 Physics I (Calculus Treatment) and Lab Physics I (Calculus Treatment)
PHYSICS 210 & PHYSICS 215 Physics II (Calculus Treatment) and Lab Physics II (Calculus Treatment)

Other common course requirements include (but are not limited to) the following: anatomy and physiology, cell biology, biochemistry, math statistics, nutrition, kinesiology, genetics, psychology, microbiology, immunology, and toxicology.

Due to the variance in admission requirements, it is strongly recommended that students consult with the pre-chiropractic advisor every semester.

**Contact Information**

Current Students contact the Pre-Chiropractic Advisor Dana Northrup,
northrup@uwm.edu

Prospective Students contact a Letters & Science Admissions Counselor at
(414) 229-7711 or let-sci@uwm.edu

**Pre-Dentistry**

The U.S. Bureau of Labor Statistics projects faster than average growth in dentistry, particularly as more links are identified between oral health and overall health. Students can expect to spend four years in dental school after the completion of four years of college.

If you are considering dental school, UWM will provide you with a solid foundation to help you reach your goal. There are 64 dental schools in the United States, only one of which is in Wisconsin at Marquette University. The application process is competitive so it is important that pre-dental students begin careful planning of their academic career during the freshman year. Requirements vary among dental schools, making early planning in consultation with a pre-dental advisor vital.

Dental schools require a minimum of 90 completed college credits. It is possible, though highly rare, to enter dental school without earning a bachelor’s degree. The vast majority of students complete their bachelor’s degree before proceeding to dental school.

It is recommended that students obtain some hand-on exposure to the dental profession prior to dental school, either through volunteer or internship opportunities, or paid work at a dental practice or community dental clinic.

Please review the Pre-Dental Fact Sheet (http://uwm.edu/letters-science/programs?discipline=Pre-Dental) for information about suggested undergraduate courses to prepare for dental school, options for your major, and the career outlook for dentists. Pre-Dental is not a major, and students must still choose a major. Since most of the prerequisites necessary for application to dental school are in the sciences, many students choose a science major, though it is not required. Our specialized pre-dental advisor works with students to ensure they understand all of the milestones that must be met in college in order to be a competitive applicant to dental school. A significant number of volunteer or work hours is often a requirement for application to dental school so it is important to work with this advisor beginning in freshman year in order to plan all needed activities into your college career.

A suggested timeline is also available from the advisor to help you plan preparatory activities throughout your four years in college.

**Requirements**

Most schools of dentistry require a minimum of three years of undergraduate work, however, it is becoming less common for students to leave college without finishing their bachelor’s degree.

The 90 credits required for admission to most schools of dentistry include the following courses:

- 1 year of English;
- 2-2.5 years of chemistry, including inorganic chemistry, organic chemistry, and biochemistry;
- 1 year of biology (more is advised); and
- 1 year of physics.

Most dental schools require mathematics at least through pre-calculus. All science courses must include laboratory work. In addition, students are advised to take elective credits to ensure a broad liberal arts education.

Students must achieve satisfactory scores on the Dental Admission Test (DAT) to be a competitive applicant for dental school. The Pre-Dental Advisor can provide information regarding the administration of this test.

**Pre-Forestry (Wildlife Management)**

The University of Wisconsin-Milwaukee does not offer a degree in forestry or wildlife management. However, the subjects listed below correspond closely to the requirements of the first two years of forestry and wildlife management curricula in institutions offering such degree programs.

**Requirements**

Students are advised to confer with the Pre-Forestry Advisor no later than the second semester of their freshman year about the specific requirements of the natural resources institution to which they plan to transfer. This should enable them to plan a course of study for the sophomore year at UWM that will satisfy these specific requirements.

Since many schools require attendance at a camp during the summer following the sophomore year, students are advised to consult at an early date with the institution to which they plan to transfer.

Completion of CHEM 100 and MATH 105 (or appropriate placement scores) is the prerequisite for beginning the chemistry courses required for the Pre-Forestry program.

**Recommended Curriculum for the Pre-Forestry Program**

**Pre-Law**

Pre-law studies and a law degree are flexible programs. While many individuals take a traditional path and become practicing attorneys, many others use their legal training to work in business or other professions. To become a licensed attorney, three years of law school is required beyond college leading to the Juris Doctor (JD) degree.

Preparation for law school is a continuous process. It involves planning an undergraduate program that develops the skills necessary for the successful study of law; learning about the law profession and career options; and participating in activities (extracurricular, volunteer, internships, related employment) that enhance and build on classroom learning.
Skills deemed most essential by law schools are written and verbal communication abilities, an organized and logical thought process, analytical reasoning, research, and strong habits of thoroughness, tenacity, and intellectual curiosity. There is no specific major or set of courses required of pre-law students. Students are advised to choose a major that features the qualities that law schools are seeking. Common majors for students interested in going on to law school are political science, philosophy, history, and English, but a student from any major can go on to law school.

Two factors play primary roles in determining admission to law schools:

- academic performance as measured by the grade point average, and
- score on the LSAT

The quality and rigor of the undergraduate program also will be considered. Minority group students are encouraged to see the pre-law advisor about making application to the Council on Legal Education Opportunity (CLEO) summer institutes.

Please review the Pre-Law Fact Sheet (http://uwm.edu/letters-science/programs?discipline=Pre-Law) for information about suggested experiential opportunities available to UWM students, career outlook for lawyers, and options for your major.

**Contact Information**

Current Students contact the Pre-Law Advisor Gwyn Wallander, gwyn@uwm.edu

Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

http://uwm.edu/letters-science/programs?discipline=Pre-Law

**Pre-Medicine**

The U.S. Bureau of Labor Statistics projects shortages across health care professions, including physicians. Some specialties, including primary care, will face severe shortages in the next five to twenty years.

To practice medicine, further education and training are required, ranging from 4 to 8 years of additional schooling and training after college.

If you are considering medical school after college, UWM will provide you with an excellent foundation to help you reach your goal. Admission to medical school is a highly competitive process, and students must demonstrate very strong academic performance as well as provide evidence that they have engaged in health-related work experiences to meet the rigorous admission standards of medical school. UWM graduates have consistently been admitted to medical schools at a rate equal to or greater than the national average; many UWM Pre-Medical students have gone on to attend top-ranked medical schools and have built promising careers in different medical specialties.

Medical schools do no require any specific major. What they do expect, however, is that students will have taken the necessary preparatory science classes to prepare for the demands of medical school. Because of the number of biology and chemistry classes that need to be taken, most students choose to major in biology, chemistry, or biochemistry, but this is not a requirement. As long as a student takes the required coursework, he/she can major in any subject area. The Pre-Medical Fact Sheet (http://uwm.edu/letters-science/programs?discipline=Pre-Med) outlines the courses that medical school expects students to take during college.

Many individuals feel a calling to the medical profession after they have graduated and been working in another profession. Individuals in this situation who did not major in a science field while in college or who have low grades in previous science education will maximize their opportunity to become an admissible medical school candidate by re-taking science courses or by returning to school for a full major in a related-science.

A significant number of volunteer or work hours is also often a requirement for application to medical school so it is important to work with the Pre-Medical advisor beginning in freshman year or upon entry to the certificate program in order to plan all needed activities into your college career.

**Requirements**

The application process for medical school is highly competitive. Students are advised to work closely with the pre-med advisor to ensure they are able to present the strongest possible application packet for medical school with exceptional grades, standardized test scores, and experiential learning.

Nearly all medical schools require that applicants take the Medical College Admission Test (MCAT). Pre-Medical students normally should arrange to take this test at the end of their junior year. The Pre-Medical advisor can provide information regarding the administration of this test.

Most medical schools consider the following as minimal preparation for admission:

- One year of English;
- mathematics at least through pre-calculus;
- Two to two-and-a-half years of chemistry, including inorganic chemistry, organic chemistry, and biochemistry;
- One year of biology (more is advised); and
- One year of physics.

For most medical schools, science courses must include laboratory work.

Effective 2015, the MCAT added a social/behavioral science component and additional chemistry. To be well prepared for the MCAT, students are advised to complete PSYCH 101, SOCIOL 101, and PH 101 (as well as other courses selected in consultation with the premed advisor) and CHEM 501. Other classes, such as Communication, are more frequently being strongly recommended or required by various medical schools.

Some medical schools specify additional courses as part of the minimal preparation for admission. Calculus frequently is required or recommended. Therefore, Pre-Medical students should ascertain the specific requirements of the schools to which they intend to apply and plan their undergraduate programs accordingly. A list of all medical college admission requirements is located in the College advising office.

Current Students contact the Pre-Med Advisor Patty Cobb, pacobb@uwm.edu  
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

Pre-Optometry

Employment of optometrists is expected to grow over the next decade as the population ages, but it is still a small and competitive profession. Optometry school requires four years of additional schooling after college.

Undergraduate preparation for the study of optometry requires a strong foundation in science and mathematics. UWM offers all of the prerequisites needed to apply to one of the 19 accredited optometry programs in the United States. There are no optometry programs in Wisconsin; the closest one is in Chicago. Although it is possible to enter an optometry program after completing the necessary science and math courses but before earning the bachelor's degree, it is a highly-rare situation. The majority of students accepted into optometry programs have completed their bachelor's degree.

Please review the Pre-Optometry Fact Sheet (http://uwm.edu/letters-science/programs?discipline=Pre-Optometry) for information about suggested undergraduate courses to prepare for optometry school, experiential opportunities available to UWM students, career outlook for optometrists, and options for your major. Pre-Optometry is not a major, and students must still choose a major. Since most of the prerequisites necessary for application to optometry school are in the sciences, many students choose a science major, though it is not required. Our specialized pre-optometry advisor works with students to ensure they understand all of the milestones that must be met in college in order to be a competitive applicant to optometry school. A significant number of volunteer or work hours is often a requirement for application to optometry school so it is important to work with this advisor beginning in freshman year in order to plan all needed activities into your college career.

Requirements

Entrance to an optometry program is very competitive. Applicants must take the Optometry Admission Test (OAT). The OAT is a standardized examination designed to measure general academic ability and comprehension of scientific information. At least one year of college education, which should include courses in biology, general chemistry, organic chemistry, and physics, is required prior to taking the OAT. Most students, however, elect to complete two or more years of college prior to taking the exam in order to be better prepared.

Due to the variance in admission requirements, it is recommended that students consult with the Pre-Optometry Advisor every semester.

Although specific admission requirements may vary among programs, recommended coursework includes:

We recommend students begin meeting with this advisor as soon as college in order to be a competitive applicant to pharmacy school. To ensure they understand all of the milestones that must be met in required. Our specialized Pre-Pharmacy advisor works with students the sciences, many students choose a science major, though it is not the prerequisites necessary for application to pharmacy school are in is not a major, and students must still choose a major. Since most of the career outlook for pharmacists, and options for your major. Pre-Pharmacy suggested undergraduate courses to prepare for pharmacy school, science/programs?discipline=Pre-Pharmacy)

Please review the Pre-Pharmacy Fact Sheet (http://uwm.edu/letters-science/programs?discipline=Pre-Optometry) for information about suggested undergraduate courses to prepare for pharmacy school, career outlook for pharmacists, and options for your major. Pre-Pharmacy is not a major, and students must still choose a major. Since most of the prerequisites necessary for application to pharmacy school are in the sciences, many students choose a science major, though it is not required. Our specialized Pre-Pharmacy advisor works with students to ensure they understand all of the milestones that must be met in college in order to be a competitive applicant to pharmacy school. We recommend students begin meeting with this advisor as soon as freshman year in order to plan all needed activities into your college career.

Requirements

Entrance to pharmacy school is very competitive and requires strong grades and satisfactory scores on the Pharmacy College Admission Test (PCAT). Due to the variance in admission requirements, it is very important that students consult with the pre-pharmacy advisor every semester.

Although specific admission requirements may vary among schools, below are some common course requirements among many pharmacy schools:

Pre-Pharmacy

Scientific advances, an aging population, and expansion of insurance coverage for more Americans all will contribute to growth in the pharmacy industry. Employment of pharmacists is expected to increase by 25 percent from 2010 to 2020, faster than the average for all occupations.

The Doctor of Pharmacy degree (PharmD) is the professional degree needed to enter the pharmaceutical field. Most PharmD programs take four years to complete after completion of the minimum prerequisites or an undergraduate degree. Entrance to pharmacy school is competitive and there are more applicants than there are open seats. Different schools also have different prerequisites; it is very important that students consult with the Pre-Pharmacy advisor every semester beginning freshman year in addition to communicating with pharmacy schools they plan to apply to.

UWM offers all of the prerequisite coursework necessary for students to apply to professional pharmacy schools and colleges throughout the country. Although it is theoretically possible to complete the pre-pharmacy requirements in two years and proceed directly to pharmacy school, the current national average for completion of the pre-pharmacy coursework is three years. In addition, given the highly competitive nature of gaining admission to pharmacy school, students may present a stronger application if they complete four years of college and earn a Bachelor’s degree before going to pharmacy school.

Please review the Pre-Pharmacy Fact Sheet (http://uwm.edu/letters-science/programs?discipline=Pre-Pharmacy) for information about suggested undergraduate courses to prepare for pharmacy school, career outlook for pharmacists, and options for your major. Pre-Pharmacy is not a major, and students must still choose a major. Since most of the prerequisites necessary for application to pharmacy school are in the sciences, many students choose a science major, though it is not required. Our specialized Pre-Pharmacy advisor works with students to ensure they understand all of the milestones that must be met in college in order to be a competitive applicant to pharmacy school.

We recommend students begin meeting with this advisor as soon as
Pre-Physician Assistant

Physician assistants work under the supervision of a physician or surgeon to provide direct patient care. They may perform exams, order diagnostic tests, prescribe medication, make diagnoses, provide treatments and assist with surgery. Like physicians, depending on the specialty, evening, weekend, and on-call hours may be a job expectation.

UWM offers all of the prerequisite coursework necessary for application to physician assistant (PA) programs throughout the country. Although it is theoretically possible to enter a PA program after completing the necessary science and math courses but before earning the bachelor’s degree, it is a highly-rare situation and becoming even less common as more PA programs now require a bachelor’s degree. The graduate level schooling to become a PA takes two to three years after completion of four years of college.

Please review the Pre-Physician Assistant Fact Sheet (http://uwm.edu/letters-science/programs?discipline=Pre-Physician+Assistant) for information about suggested undergraduate courses to prepare for PA school, experiential opportunities available to UWM students, the career outlook for PAs, and options for your major. Pre-PA is not a major at UWM, and students must still choose a major. Since most of the prerequisites necessary for application to physician assistant programs are in the sciences, many students choose a science major, though it is not required. Our specialized pre-PA advisor works with students to ensure they understand all of the milestones that must be met in college in order to be a competitive applicant to a physician assistant program.

Requirements

Requirements for admission to PA programs vary widely. However, many PA programs consider the following as minimal preparation for admission:

- One year of English;
- Mathematics through pre-calculus and statistics;
- Two to three years of chemistry, including general, organic chemistry, and biochemistry; and
- Several biology courses (see below).

Physics is rarely required.

Many PA schools specify additional courses as part of the minimal preparation for admission. Therefore, pre-PA students should ascertain the specific requirements of the schools to which they intend to apply and plan their undergraduate programs accordingly.

Courses That Typically Satisfy PA School Admission Requirements

http://uwm.edu/letters-science/programs?discipline=Pre-Physician+Assistant
of their practice. Most podiatrists are in general practice; some specialize in surgery, orthopedics, primary care or public health. Podiatry school takes approximately four years of additional study and training after four years of college. At the end, students earn the Doctor of Podiatric Medicine (DPM) degree.

There are only nine accredited schools of podiatry in the United States, and it is very competitive to get accepted for one of the very few open seats. Students should work with the Pre-Podiatry advisor starting in freshman year to ensure that they are completing the right milestones to make themselves an attractive applicant to podiatry school. It is important to understand which classes podiatry schools expect students to take during college and what types of work experience podiatry schools expect students to have before leaving college.

Read our Pre-Podiatry Fact Sheet ([link](http://uwm.edu/letters-science/programs?discipline=Pre-Podiatry)) to learn more about classes, extracurricular activities, and majors related to our Pre-Podiatry program. Pre-Podiatry is not a major, and students must still choose a major. Since most of the prerequisites necessary for application to podiatry school are in the sciences, many students choose a science major, though it is not required. Our Pre-Podiatry advisor works with students to ensure they understand all of the milestones that must be met at UWM in order to be a competitive applicant to podiatry school.

**Requirements**

UWM offers a special admission track to the Rosalind Franklin University of Medicine and Science Dr. William M. Scholl College of Podiatric Medicine ([link](https://www.rosalindfranklin.edu/academics/dr-william-m-scholl-college-of-podiatric-medicine)). Students who successfully complete admission requirements are offered early review and preferential admission to the Doctor of Podiatric Medicine (DPM) program. In some instances, students may enter the DPM program after only three years of undergraduate study and transfer their first year of the DPM program back to UWM to complete their Bachelor's degree. Students who elect to follow a more traditional four-year plan are still given preferential admissions status.

In addition to the suggested coursework below, it is recommended that students take a few additional upper-level social/behavioral science courses.

**Pre-Veterinary Medicine**

Employment of veterinarians is expected to grow 36 percent from 2010 to 2020, much faster than the average for all occupations, according to the U.S. Bureau of Labor Statistics. Job opportunities are particularly good in government, farm animal care, research, and in farm animal care. Veterinary education and training takes four to eight years after the completion of four years of college.

UWM offers all of the prerequisite coursework necessary for competitive application to schools of veterinary medicine. There are only 30 veterinary schools in the United States. The application process is extremely competitive so it is important that students interested in this career path begin careful planning of their academic career during the freshman year. Requirements vary significantly from one veterinary school to another, making early planning in consultation with a Pre-Veterinarian advisor all the more vital.

Please review the Pre-Veterinary Fact Sheet ([link](http://uwm.edu/letters-science/programs?discipline=Pre-Veterinary)) for information about suggested undergraduate courses to prepare for veterinary school, experiential opportunities available to UWM students, options for your major, and the career outlook for veterinarians. Pre-Veterinary Medicine is not a major at UWM, and students must still choose a major. Since most of the prerequisites necessary for application to veterinary school are in the sciences, many students choose a science major, though it is not required. Our Pre-Veterinary advisor works with students to ensure they understand all of the milestones that must be met in college in order to be a competitive applicant to medical school. A significant number of volunteer or work hours is often a requirement for application to veterinary school so it is important to work with this advisor beginning in freshman year in order to plan all needed activities into your college career.

**Requirements**

The vast majority of students admitted to American schools of veterinary medicine hold a bachelor's degree. An especially well-prepared student occasionally is admitted at the end of the junior year, but pre-veterinary students should plan to complete the full bachelor's degree.

All American schools of veterinary medicine require that applicants take the Graduate Record Examination (GRE). Pre-veterinary students normally should arrange to take this test at the end of their junior year. The Pre-
Veterinary advisor can provide information regarding the administration of this test.

Some schools of veterinary medicine specify additional courses as part of the minimal preparation for admission. Calculus frequently is required or recommended. Therefore, pre-veterinary students should ascertain the specific requirements of the schools to which they intend to apply and plan their undergraduate programs accordingly.

### Required Coursework for Admission to Schools of Veterinary Medicine

</table>

Select one of the following: 0-3

- ENGLISH 101 Introduction to College Writing
- ENGLISH 102 College Writing and Research
- Or appropriate score on placement exam $^3$

**Total Credits**: 44-47

1. Some veterinary schools will accept CHEM 341/CHEM 342 instead of CHEM 343/CHEM 344/CHEM 345.
2. Some veterinary schools may require a physics lab, e.g., PHYSICS 121 or PHYSICS 123.
3. Even if a student tests out of English, some veterinary schools require an additional writing course.

Although the courses listed above are mandatory for admission to almost all American schools of veterinary medicine, the rest of the program can be whatever the student wishes. Students are not required to major in biology in order to gain admission to vet school, although many choose to do so because the major aligns with their interests.

### Contact Information

Current Students should contact Pre-Veterinary Advisor Lori Fitzenberger, lorifitz@uwm.edu

Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu
PSYCHOLOGY

Psychology is the science of behavior. Courses in psychology provide an understanding of the social and biological bases of behavior, proficiency in scientific methods and statistics, knowledge of the factors influencing behavior, insight into the applicability of psychological principles to everyday problems, and familiarity with many core areas of knowledge, including conditioning and learning, personality, social behavior, psychopathology and therapy, human development, health, stress and coping, gender, race and ethnicity, sensation and perception, language, memory, and individual differences.

Programs

- Psychology, BA (p. 1711)
- Psychology, BS (p. 1715)
- Psychology, Minor (p. 1718)
- Psychology, MS (p. 1719)
- Psychology, PhD (p. 1720)

Courses

Psychology Courses

PSYCH 101 Introduction to Psychology
3 cr. Undergraduate.
The scientific study of behavior.
Prerequisites: none.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

PSYCH 193 First-Year Seminar
3 cr. Undergraduate.
The specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: SS
Last Taught: Fall 2017, Fall 2016, Fall 2008, Fall 2007.
Current Offerings: http://uwm.edu/schedule

PSYCH 199 Independent Study
1-3 cr. Undergraduate.
For further information, consult dept chair.
Prerequisites: 2.5 gpa; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

PSYCH 205 Personality
3 cr. Undergraduate.
Principles of personality; an overview of adaptive and maladaptive behavior patterns.
Prerequisites: Psych 101(P).
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

PSYCH 210 Psychological Statistics
4 cr. Undergraduate.
Use of statistical techniques in Psychology. Lec & Lab.
Prerequisites: Psych 101(P); satisfaction of GER Quant Lit Part A req.
General Education Requirements: QLB
Current Offerings: http://uwm.edu/schedule

PSYCH 214 Introduction to Conditioning and Learning
3 cr. Undergraduate.
Introduction to principles and procedures of conditioning and learning.
Prerequisites: Psych 101(P).
General Education Requirements: SS
Last Taught: Fall 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

PSYCH 230 Social Psychology: Psychological Perspectives
3 cr. Undergraduate.
Areas of social psychology such as aggression, attitudes, interpersonal attraction, and group processes examined from a psychological perspective.
Prerequisites: Psych 101(P).
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

PSYCH 254 Physiological Psychology
3 cr. Undergraduate.
The physiological bases of behavior.
Prerequisites: Psych 101(P).
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

PSYCH 260 Child Psychology
3 cr. Undergraduate.
The development of the child.
Prerequisites: Psych 101(P).
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

PSYCH 290 Undergraduate Research: Lower Division
1-3 cr. Undergraduate.
Independent research under the supervision of a faculty member.
Prerequisites: fr & soph st only; Psych 101(P) and sponsorship by a faculty member.
Course Rules: May be retaken for cr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 292 Psychology Field Placement-Lower Division
3 cr. Undergraduate.
Prerequisites: Psych 101(P); cons instr & placement supervisor.
Course Rules: May be retaken for cr.
Current Offerings: http://uwm.edu/schedule
PSYCH 296 UROP Apprenticeship
1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with a supervising member of the faculty or staff.
Prerequisites: acceptance to UROP; prior or conc reg in UROP seminar.
Course Rules: One credit for 45 hrs research. May be retaken to 9 cr max in any combination of UROP apprenticeship courses. Not open to jrs & srs.
Current Offerings: http://uwm.edu/schedule

PSYCH 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored programs before course work level, content and credits are determined and/or in specially prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2017, Summer 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

PSYCH 319 Gay and Lesbian Psychology
3 cr. Undergraduate.
Psychological theory and research on sexual orientation.
Prerequisites: jr st; Psych 101(P).
Course Rules: Foundations course.
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 320 Psychology of Women
3 cr. Undergraduate.
Psychological theory and research on how gender influences our thinking, feelings, and behavior.
Prerequisites: jr st; Psych 101(P).
Course Rules: Foundations course.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

PSYCH 325 Research Methods in Psychology
4 cr. Undergraduate.
Design and execution of psychological research. Collection, analysis, and reporting of data. Lec & Lab.
Prerequisites: 2.62 gpa in Psych 101(P) & 210(P); grade of C or better in English 102(P) or score at level 4 on EPT.
General Education Requirements: OWCB
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 326 Graduate Research Methods in Psychology
1 cr. Undergraduate.
Introduction to advanced research methods. Graduate level course.
Prerequisites: Psych 325(P).
Course Rules: Systems course. Requires only grad & assoc dean approval.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 328 Perception
3 cr. Undergraduate.
Foundations course. May be retaken w/chg in topic to 9 cr max.
Course Rules: Systems Course. Bio Sci/Psych 354 & 355 may be taken in either order. Bio Sci 354 & Psych 355 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

PSYCH 333 Mental Health
3 cr. Undergraduate.
Psychological theory and research on psychotic, neurotic, and other behavioral abnormalities.
Prerequisites: jr st; Psych 101(P).
Course Rules: Systems course.
Current Offerings: http://uwm.edu/schedule

PSYCH 338 Research Methods II
3 cr. Undergraduate.
Advanced methods designed to prepare students for independent research. Lec & Lab.
Prerequisites: Psych 335(P).
Course Rules: Systems course. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Current Offerings: http://uwm.edu/schedule

PSYCH 354 Introduction to Neuroscience I: From Neuron to Brain
3 cr. Undergraduate.
Basic principles of cellular, molecular, and developmental neuroscience; structure/function of neurons and glia; chemical and electrical signaling; brain development, and neurological diseases.
Prerequisites: C or better in BioSci 315(P) or Psych 254(P).
Course Rules: Systems course. Bio Sci/Psych 354 & 355 may be taken in either order. Bio Sci 354 & Psych 355 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

PSYCH 355 Introduction to Neuroscience II: From Brain to Behavior
3 cr. Undergraduate.
Basic principles of neural systems and behavior; analysis of systems for sensation and perception, learning and memory, language, emotion, and motion.
Prerequisites: Bio Sci 152(P) & 315(C), or Psych 254(P).
Course Rules: Systems Course. Bio Sci/Psych 354 & 355 may be taken in either order. Bio Sci 355 & Psych 355 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

PSYCH 380 Honors Seminar:
3 cr. Undergraduate.
Selected topics in psychology.
Prerequisites: soph st; Honors 200(P); cons Honors College dir; Psych 101(P).
Course Rules: Foundations course. May be retaken w/chg in topic to 9 cr max.
General Education Requirements: SS
Last Taught: Spring 2013, Fall 2011, Fall 2010, Fall 2004.
Current Offerings: http://uwm.edu/schedule

PSYCH 407 Personality Theory
3 cr. Undergraduate.
Theories of personality. 2 hrs lec, 1 hr dis
Prerequisites: Psych 205(P).
Course Rules: Systems course.
Current Offerings: http://uwm.edu/schedule

PSYCH 412 Abnormal Psychology
3 cr. Undergraduate.
Psychology of abnormal behavior; the nature and social-biological origins of psychotic, neurotic, and other behavioral abnormalities.
Prerequisites: Psych 101(P).
Course Rules: Foundations and Systems course.
Current Offerings: http://uwm.edu/schedule

PSYCH 433 Neuropsychology
3 cr. Undergraduate.
Introduction to the theory, research literature and assessment of the cognitive and emotional aspects of brain function. Systems course.
Prerequisites: Psych 254(P) or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
COURSE NAME | DESCRIPTION | CREDIT HOURS | LEVEL | PREREQUISITES | LAST TAUGHT | CURRENT OFFERINGS
--- | --- | --- | --- | --- | --- | ---
PSYCH 454 | Psychopharmacology and Addiction | 3 cr. | Undergraduate | | | Current Offerings: [link](http://uwm.edu/schedule)

Examination of mode of action, acute and chronic effects, and the neurobiological and psychological characteristics of psychoactive drugs with an emphasis on addiction.

**Prerequisites:** Psych 254(P) or cons instr.

**Course Rules:**
- Foundations course.

PSYCH 497 | Study Abroad | 1-12 cr. | Undergraduate/Graduate | | | Current Offerings: [link](http://uwm.edu/schedule)

Designed to enroll students in UWM sponsored programs before course work level, content and credits are determined and/or in specially prepared program course work.

**Prerequisites:** jr st; acceptance for Study Abroad Prog.

**Course Rules:** May be retaken w/chg in topic.

**Last Taught:** Spring 2017, Fall 2016, Summer 2015, Spring 2015.

PSYCH 499 | Ad Hoc | 1-6 cr. | Undergraduate | | | Current Offerings: [link](http://uwm.edu/schedule)

Course created expressly for offering in a specified enrollment period.

Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.

**Prerequisites:** jr st; add'l prereqs may be assigned to specific topic.

**Course Rules:** May be retaken w/chg in topic.

**Last Taught:** Spring 1989.

PSYCH 502 | Applied Behavior Analysis | 4 cr. | Undergraduate/Graduate | | | Current Offerings: [link](http://uwm.edu/schedule)

Learning and motivation of human behavior in applied settings. Lab work in community agencies using operant methods, behavior modification, programmed instruction, AV systems. Lec, Lab.

**Prerequisites:** jr st, Psych 325(P).

**Last Taught:** Spring 2018, Fall 2017, Summer 2017, Spring 2017.

PSYCH 503 | Perception | 3 cr. | Undergraduate/Graduate | | | Current Offerings: [link](http://uwm.edu/schedule)

The nature of perception and its relation to environmental and internal processes.

**Prerequisites:** jr st, 9 cr in psych.

**Course Rules:** Systems course.

**Last Taught:** Spring 2018, Fall 2017, Summer 2017, Spring 2017.

PSYCH 505 | Cognitive Processes | 4 cr. | Undergraduate/Graduate | | | Current Offerings: [link](http://uwm.edu/schedule)

Human information processing, emphasizing vision and language. Topics: pattern recognition; sensory-specific memory systems, short- and long-term; modern approaches to mental imagery and operations. Lec, lab.

**Prerequisites:** jr st, Psych 325(P).

**Last Taught:** Spring 2018, Spring 2017, Spring 2016, Spring 2015.

PSYCH 510 | Advanced Psychological Statistics | 3 cr. | Undergraduate/Graduate | | | Current Offerings: [link](http://uwm.edu/schedule)

Topics include probability and sampling theory, correlational methods, and nonparametric techniques. Foundations course.

**Prerequisites:** jr st & Psych 210(P); or grad st.

**Last Taught:** Fall 2017, Fall 2016, Fall 2015, Fall 2014.

PSYCH 514 | Conditioning and Learning | 4 cr. | Undergraduate/Graduate | | | Current Offerings: [link](http://uwm.edu/schedule)

Principles of conditioning and learning. Lec, lab.

**Prerequisites:** jr st; Psych 325(P).

**Course Rules:** Required special course fee assessed; announced in Schedule of Classes each semester.

**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.

PSYCH 540 | Clinical Psychology: Science and Practice | 3 cr. | Undergraduate | | | Current Offerings: [link](http://uwm.edu/schedule)

Key concepts, findings, and their applications in the field of research and practice of clinical science.

**Prerequisites:** jr st.

**Course Rules:** Foundations course.

**Last Taught:** Spring 2018, UWinterI 2018, Fall 2017, UWinterI 2016.

PSYCH 550 | History of Psychology | 3 cr. | Undergraduate/Graduate | | | Current Offerings: [link](http://uwm.edu/schedule)

The important philosophical and scientific antecedents of contemporary psychology.

**Prerequisites:** jr st; 9 cr in psych.

**Course Rules:** Systems course.

**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.

PSYCH 551 | Learning and Motivation Theories | 3 cr. | Undergraduate/Graduate | | | Current Offerings: [link](http://uwm.edu/schedule)

Contemporary psychological theories, with special emphasis on theories of learning.

**Prerequisites:** jr st; 9 cr in psych.

**Course Rules:** Systems course.

**Last Taught:** Spring 2015, Spring 2014, Spring 2013, Spring 2011.

PSYCH 555 | Health Psychology | 3 cr. | Undergraduate | | | Current Offerings: [link](http://uwm.edu/schedule)

Psychological contributions to physical health in areas such as changing health habits, stress and coping, pain, and chronic illness.

**Prerequisites:** Psych 254(P) or cons instr.

**Course Rules:** Systems course.

**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.

PSYCH 578 | Psychology of Race, Ethnicity, and Health | 3 cr. | Undergraduate/Graduate | | | Current Offerings: [link](http://uwm.edu/schedule)

Psychological theory and research on how health is related to race and ethnicity.

**Prerequisites:** jr st, Psych 101(P); or grad st.

**Course Rules:** Foundations course. No cr for students w/cr in Psych 611 w/similar topic.

**Last Taught:** Spring 2018, Spring 2017, Spring 2016, Spring 2015.
PSYCH 610 Experimental Design
3 cr. Undergraduate/Graduate.
Design and analysis of single and multi-factor experiments; tests for trends; multiple comparisons. Foundations course.
Prerequisites: jr st & Psych 210(P); or grad st.
Current Offerings: http://uwm.edu/schedule

PSYCH 611 Current Topics:
3 cr. Undergraduate/Graduate.
Specific topics and any additional prerequisites will be announced in the Schedule of Classes each time the course is offered.
Prerequisites: jr st.
Course Rules: Foundations course. May be retaken w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

PSYCH 620 Single-Subject Research Methods
3 cr. Undergraduate/Graduate.
A review of single-subject research methods.
Prerequisites: jr st & Psych 325(P), or grad st; or cons instr.
Course Rules: Foundations course.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

PSYCH 623 Perceptual Processes
4 cr. Undergraduate.
Experimental investigation of perception.
Prerequisites: jr st & Psych 325(P)
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

PSYCH 627 Cognitive Neuroscience
3 cr. Undergraduate.
How the brain enables the mind; broad introduction to cognitive neuroscience, with emphasis on a converging methods approach.
Prerequisites: jr st; Psych 210(P) & 254(P).
Course Rules: Systems course. Counts as repeat of Psych 611 w/same topic.
Last Taught: Spring 2018, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

PSYCH 645 Hormones and Behavior
3 cr. Undergraduate.
Effects of hormones on behavior and brain function in various species.
Prerequisites: jr st, Psych 254(R).
Course Rules: Counts as repeat of Psych 611 with same topic.
Last Taught: Spring 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 654 Advanced Physiological Psychology
4 cr. Undergraduate/Graduate.
Advanced topics in physiological psychology. Lec, lab.
Prerequisites: jr st; Psych 254(R) & 325(P).
Course Rules: Required special course fee assessed; announced in Schedule of Classes each sem.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 656 Psychophysiology
4 cr. Undergraduate.
Experimental investigation of physiological factors in human behavior.
Lec, lab.
Prerequisites: jr st, Psych 254(R) & 325(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 657 Neurobiology of Learning and Memory
3 cr. Undergraduate/Graduate.
Functional and structural alterations in nervous system underlying organism’s ability to learn/remember. Principles drawn from molecular and cellular neurobiology, neurophysiology, neuroanatomy, and behavioral neuroscience.
Prerequisites: jr st.
Course Rules: Systems course. Counts as repeat of Psych 611 w/same topic.
Last Taught: Spring 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 660 Experimental Child Psychology
4 cr. Undergraduate/Graduate.
Experimental investigation of child behavior and development. Lec, lab.
Prerequisites: jr st; Psych 260(R) & 325(P).
Current Offerings: http://uwm.edu/schedule

PSYCH 665 Experimental Social Psychology
4 cr. Undergraduate/Graduate.
Experimental investigation of social behavior. Lec, lab.
Prerequisites: jr st; Psych 230(R) & 325(P).
Last Taught: Spring 2018, Fall 2017, Fall 2016, Spring 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 677 Experimental Social Psychology
4 cr. Undergraduate/Graduate.
Experimental investigation of social behavior. Lec, lab.
Prerequisites: jr st; Psych 230(R) & 325(P).
Last Taught: Spring 2018, Fall 2017, Fall 2016, Spring 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 680 Psychology of Aging
3 cr. Undergraduate/Graduate.
Extension of principles of general psychology to the process of aging.
Prerequisites: jr st; Psych 325(P) or cons instr.
Course Rules: Systems course.
Current Offerings: http://uwm.edu/schedule

PSYCH 682 The Aging Brain
3 cr. Undergraduate.
Effects of aging process on brain function; resulting effects on psychological function.
Prerequisites: jr st; Psych 254(R).
Course Rules: Counts as repeat of Psych 611 with same topic.
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

PSYCH 690 Undergraduate Research: Upper Division
1-3 cr. Undergraduate.
Independent research under the supervision of a faculty member.
Prerequisites: jr st; sponsorship by a faculty member.
Course Rules: May be retaken for cr.
Current Offerings: http://uwm.edu/schedule
PSYCH 692 Field Placement in Psychology
3 cr. Undergraduate.
Prerequisites: jr st; cons instr & placement supervisor.
Course Rules: May be retaken for cr.
Current Offerings: http://uwm.edu/schedule

PSYCH 697 Field or Research Placement in Psychology for Seniors
3 cr. Undergraduate.
Prerequisites: sr st; cons instr & if appropriate, placement supervisor.
Course Rules: Fulfills Capstone req.
Current Offerings: http://uwm.edu/schedule

PSYCH 698 Senior Thesis
3 cr. Undergraduate.
Completion of thesis under the supervision of faculty.
Prerequisites: sr st; 3.5 gpa in all Psych course work or cons instr.
Course Rules: May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

PSYCH 699 Independent Study
1-3 cr. Undergraduate.
Advanced independent work under the supervision of a Psych faculty member. Students must submit study proposal to the prof with whom they wish to study. For additional information, consult supervising prof.
Prerequisites: jr st, 2.5 GPA; writ cons instr, dept chair & asst dean for SAS.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

PSYCH 702 Applied Behavior Analysis
3 cr. Graduate.
Use of learning principles and procedures to solve behavior problems. 3 hrs lec, 1 hr dis.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

PSYCH 705 Information Processing
3 cr. Graduate.
Introduction to cognitive psychology from an information processing perspective. Core course in cognition for the cognition/perception area.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

PSYCH 706 Psychology of Language
3 cr. Graduate.
An overview of the cognitive processes involved in language comprehension. An advanced course in cognition for the cognition/perception area.
Prerequisites: grad st; some background in linguistics or cognitive psychology. E.g. Psych 705(R).
Current Offerings: http://uwm.edu/schedule

PSYCH 710 Survey of Clinical Research Methods
3 cr. Graduate.
Various research methods in clinical psychology.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

PSYCH 711 Current Topics in Psychology
1-4 cr. Graduate.
Specific topics and any additional prerequisites will be announced in the schedule of classes each time the course is offered.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 712 Professional Ethics and Issues in Clinical Psychology
3 cr. Graduate.
Introduction to clinical practice and ethics.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

PSYCH 714 Conditioning and Learning
3 cr. Graduate.
Principles of classical conditioning and instrumental learning. 3 hr lec, 1 hr dis.
Prerequisites: grad st.
Last Taught: Spring 2018, Fall 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

PSYCH 724 Proseminar in Behavior Analysis
3 cr. Graduate.
A review of conceptual, methodological, and professional issues associated with the science and application of behavior analysis.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PSYCH 725 Ethical and Professional Conduct for Behavior Analysts
3 cr. Graduate.
Ethical and professional issues pertaining to behavior analysts working in clinical, educational, academic, and other settings.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

PSYCH 727 Cognitive Neuroscience
3 cr. Graduate.
How the brain enables the mind; broad introduction to cognitive neuroscience, with emphasis on a converging methods approach.
Prerequisites: grad st.
Course Rules: Counts as repeat of 711 w/same topic.
Last Taught: Spring 2018, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

PSYCH 730 Practicum in Behavior Analysis
3 cr. Graduate.
Hands-on experience providing behavior analysis services.
Prerequisites: grad st; cons instr & placement supervisor.
Course Rules: Retakable to 12 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
PSYCH 734 Introduction to Scientifically-Validated Treatments
1 cr. Graduate.
The use of psychological interventions for treating numerous psychological conditions.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

PSYCH 736 Functional Assessment and Intervention
3 cr. Graduate.
Methods for determining the variables of which behavior is a function and selecting function-based interventions.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

PSYCH 741 Foundations of Psychotherapy
3 cr. Graduate.
Introduction to psychotherapies: origins, orientations, procedures, and empirical support.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PSYCH 742 Empirically-Supported Interventions
3 cr. Graduate.
Research-supported therapy protocols for a variety of behavioral disorders; didactic instruction and role-play practice/feedback.
Prerequisites: grad st; some background in psychopathology & systems of psychotherapy recom.
Current Offerings: http://uwm.edu/schedule

PSYCH 745 Hormones and Behavior
3 cr. Graduate.
Effects of hormones on behavior and brain function in various species. Counts as repeat of Psych 711 with same topic.
Prerequisites: grad st.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

PSYCH 750 The History of Psychology
3 cr. Graduate.
Examination of the grounding of modern psychological theory and practice in the history of western culture. 3 hrs lec; 1 hr dis.
Prerequisites: grad st.
Course Rules: Not open to students with cr in Psych 550(ER).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 754 Proseminar in Biological Psychology
3 cr. Graduate.
Overview of current topics in neuroscience including neuropsychopharmacology, neuropsychology, psychophysiology, and behavioral medicine.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

PSYCH 756 Psychophysiology
3 cr. Graduate.
Experimental investigation of physiological factors in behavior. 2 hrs lec; 1 hr dis.
Prerequisites: grad st.
Course Rules: Not open to students with cr in Psych 656(ER).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 760 Experimental Child Psychology
3 cr. Graduate.
Investigation of experimental research relating to infant and child behavior. Lec, Lab, Dis.
Prerequisites: grad st.
Course Rules: No cr for students w/cr in Psych 660(ER).
Current Offerings: http://uwm.edu/schedule

PSYCH 762 Lifespan Developmental Psychology
3 cr. Graduate.
Survey of developmental theory from a life-span perspective, with an emphasis on historical roots of developmental psychology, contemporary integrated theoretical perspectives, and cross-cultural perspectives.
Prerequisites: grad st.
Last Taught: Spring 2013.
Current Offerings: http://uwm.edu/schedule

PSYCH 782 The Aging Brain
3 cr. Graduate.
Effects of aging process on brain function; resulting effects on psychological function. Counts as repeat of Psych 711 with same topic.
Prerequisites: grad st.
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

PSYCH 790 Masters Research
1-6 cr. Graduate.
Independent research with a faculty member to fulfill the master's thesis requirement for incoming students with a master's degree without a thesis.
Prerequisites: grad st; cons advisory committee.
Course Rules: Retakable.
Current Offerings: http://uwm.edu/schedule

PSYCH 791 Project in Psychology
3 cr. Graduate.
Independent research with a faculty member to fulfill the master's thesis requirement for incoming students with a master's degree without a thesis.
Prerequisites: grad st; cons advisory committee.
Current Offerings: http://uwm.edu/schedule

PSYCH 799 Advanced Independent Study
1-6 cr. Graduate.
Prerequisites: grad st & sponsorship by a faculty member.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule
PSYCH 802 First-Year Clinical Psychology Practicum
3 cr. Graduate.
Administration of psychological tests to clinic clients; interviewing, contact with referred sources, feedback of test results to clients, written reports and co-therapy with experienced therapist.
Prerequisites: grad st; clinical training prog; cons instr.
Course Rules: Retakable to 6 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 811 Community Placement in Clinical Psychology
3 cr. Graduate.
Specific agency and additional prerequisites announced in the schedule of classes each time the course is offered.
Prerequisites: grad st; cons instr & placement supervisor.
Course Rules: Retakable w/chg of placement to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 812 Field Placement in Psychology
3 cr. Graduate.
Prerequisites: grad st; cons instr & placement supervisor.
Course Rules: Retakable for cr.
Current Offerings: http://uwm.edu/schedule

PSYCH 815 Cases in Clinical Neuropsychology
1 cr. Graduate.
Didactic training in clinical neuropsychological evaluation, diagnosis, treatment, and consulting. Format includes lectures, journal reviews, and case conferences.
Prerequisites: Clinical psych doctoral student or cons instr.
Course Rules: Retakable to 1 cr max. Counts as repeat of Psych 711 w/ similar topic.
Current Offerings: http://uwm.edu/schedule

PSYCH 821 Practicum in Assessment I
3 cr. Graduate.
Practical experience utilizing techniques used in Assessment I (Psych 831).
Prerequisites: grad st; Psych 712(P), 801(P), 912(P); clinical training prog. Conc reg Psych 831(C) by clinical Psych students.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PSYCH 822 Practicum in Assessment II
1-3 cr. Graduate.
Practical experience utilizing techniques used in Assessment II (Psych 832).
Prerequisites: grad st; Psych 821(P); clinical training prog. Psych 832(C) by clinical psych students.
Current Offerings: http://uwm.edu/schedule

PSYCH 831 Assessment I
3 cr. Graduate.
Objective techniques used in the appraisal of personality and intellectual processes.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PSYCH 832 Assessment II
3 cr. Graduate.
Neuropsychological, child-focused, and projective techniques used in the appraisal of personality and intellectual processes.
Prerequisites: grad st; Psych 831(P).
Current Offerings: http://uwm.edu/schedule

PSYCH 833 Neuropsychology
3 cr. Graduate.
Anatomy, pathology, and neuropsychology of the higher brain functions in humans. Prereq: grad st.
Prerequisites:
Current Offerings: http://uwm.edu/schedule

PSYCH 834 Seminar in Advanced Assessment:
3 cr. Graduate.
Specific topics and any additional prerequisites will be announced in the Timetable each time the course is offered.
Prerequisites: grad st: Psych 831(P).
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

PSYCH 842 Practicum in Therapy
4 cr. Graduate.
Supervised practicum experience with therapeutic techniques used in clinical psychology.
Prerequisites: grad st; Psych 712(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 844 Practicum in Clinical Supervision
3 cr. Graduate.
Practicum to enhance theoretical and practical skills for supervising clinical work.
Prerequisites: grad st; completion of all required clinical Psych courses & practica.
Course Rules: Retakable to 12 cr max.
Last Taught: Spring 2016, Fall 2015, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PSYCH 845 Practicum in Empirically-Supported Interventions
1-3 cr. Graduate.
Application of techniques learned in Psych 742 (Empirically-Supported Interventions).
Prerequisites: grad st; Psych 742(C).
Course Rules: Retakable once to 3 cr max.
Current Offerings: http://uwm.edu/schedule

PSYCH 854 Behavioral Neuroscience
3 cr. Graduate.
Introduction to current research and theory regarding the neural basis of behavior.
Prerequisites: grad st.
Course Rules: Not open to students who have cr in Psych 654(ER).
Current Offerings: http://uwm.edu/schedule
PSYCH 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Current Offerings: http://uwm.edu/schedule

PSYCH 890 Graduate Research
1-6 cr. Graduate.
Prerequisites: grad st & sponsorship by a grad faculty member.
Course Rules: Retakable.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 911 Current Topics and Techniques in Clinical Psychology:
3 cr. Graduate.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max for masters students & 12 cr max for doctoral students.
Current Offerings: http://uwm.edu/schedule

PSYCH 912 Developmental Psychopathology
3 cr. Graduate.
Seminar on concepts and research in the scientific study of psychopathology across the lifespan
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PSYCH 914 Seminar in Stimulus Control
3 cr. Graduate.
Seminar on topics of traditional and contemporary theoretical interest in stimulus control.
Prerequisites: grad st; Psych 714(P) or equiv.
Current Offerings: http://uwm.edu/schedule

PSYCH 915 Seminar in Operant Behavior
3 cr. Graduate.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

PSYCH 919 Seminar in Classical Conditioning
3 cr. Graduate.
Seminar on topics of empirical and theoretical interest in classical conditioning.
Prerequisites: grad st; Psych 714(P) or equiv.
Current Offerings: http://uwm.edu/schedule

PSYCH 930 Seminar in Social Psychology
3 cr. Graduate.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PSYCH 932 Proseminar in Evaluation Research
3 cr. Graduate.
In-depth examination of experimental and quasi-experimental methodologies for assessing the impact of social innovations; factors impeding implementation of such methodologies; utilization of available findings.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

PSYCH 933 Seminar in Neuroscience
2 cr. Graduate.
Student oral and poster presentations in cellular, molecular, behavioral, and cognitive neuroscience. Students will also write evaluations and summaries of external presentations.
Prerequisites: grad st in Bio Sci, Psych, or Ed Psych or cons instr
Course Rules: Retakable to 8 cr max. Psych 933 & Bio Sci 933 are jointly offered; students may enroll under only one of the curricular areas in any single semester.
Last Taught: Spring 2018, Fall 2017, Fall 2016, Spring 2016.
Current Offerings: http://uwm.edu/schedule

PSYCH 954 Seminar in Physiological Psychology
3 cr. Graduate.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

PSYCH 955 Seminar in Social Psychology and Health
3 cr. Graduate.
Theoretical and empirical contributions of social psychology to health.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

PSYCH 961 Seminar in Child-Clinical Psychology
3 cr. Graduate.
Diagnosis, etiology, therapy, and research in child-clinical psychology are discussed and criticized.
Prerequisites: grad st.
Last Taught: Fall 2007, Fall 2006, Fall 2005, Fall 2001.
Current Offerings: http://uwm.edu/schedule

PSYCH 990 Doctoral Research
1-6 cr. Graduate.
Prerequisites: grad st & admis to candidacy for Ph.D. degree.
Course Rules: Retakable.
Current Offerings: http://uwm.edu/schedule

PSYCH 995 Clinical Psychology Internship
1-3 cr. Graduate.
Required internship for students in the clinical psychology PhD program.
Prerequisites: clinical psych doctoral student; dissertator status; proposal hearing passed; cons instr.
Course Rules: Retakable. Students who have passed dissertation defense enroll for 1 cr; all others enroll for 3 cr.
Current Offerings: http://uwm.edu/schedule

**Psychology, BA**

Psychology is a science that provides critical insights into human behavior. Psychologists investigate how behavior is modified in the face of psychiatric disorders or disease and how the brain gives rise to the rich tapestry of behaviors that govern our day-to-day experiences.

A psychology major gives you much career flexibility because of its emphasis on reasoning, problem solving, critical thinking,
communication, research and writing. In addition to becoming a counselor or therapist, many students go into human resources, sales, marketing, business management, law, medicine, social work, real estate, social services, and more – all fields that require comprehensive knowledge of human behavior.

Many students go on to graduate school to pursue specialized training. This may lead to a career as a counselor, therapist, or research scientist. In most states, a master’s degree is required to become a licensed practitioner. At UWM, our Psychology major can be tailored: the Bachelor of Arts route is ideal for students planning a career in human services while the Bachelor of Science route focuses on neuroscience and is well-suited for students looking to go into a graduate research program or medical school.

The version of the major that leads to a Bachelor of Arts can be completed entirely on-line if that is desired.

Psychology students at UWM have a distinct advantage – they can participate in research as undergraduates, sometimes even as soon as freshman year. In psychology labs, students work directly with faculty and graduate students on their current research projects, and sometimes contribute as co-authors to peer-reviewed presentations or publications. In addition, a number of psychology students complete Field Placements. The Field Placement is similar to an internship and permits students to step out of the traditional classroom setting and volunteer with a community organization that has a mission consistent with the psychology degree. In each case, our students acquire fundamental skills, have opportunities to explore and refine their interests, and establish meaningful connections that permit them to make informed decisions about their future pursuits.

**Psychology Major Requirements**

The Department of Psychology offers a major in psychology leading to either the Bachelor of Arts or Bachelor of Science degree. Except for an advanced natural science credit requirement for the BS, the psychology requirements for the BS and BA degrees are the same; however, students should check the general requirements for the degree (e.g., general education requirements) carefully as they differ for the BA and BS. Students opting for the BS will need to complete at least 30 credits in approved advanced L&S natural science courses, at least 15 of which must be completed in Psychology.

**Requirements**

**Course of Study – Bachelor of Arts Degree**

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

**University General Education Requirements (GER)**

</tbody>
</table>

**College of Letters & Science Requirements**

I. **English Writing Requirement**

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. **Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:
Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Complete one of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 103</td>
<td>Contemporary Applications of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 105</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

III. Foreign Language Requirement
Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

<table>
<thead>
<tr>

<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)

IV. International Requirement
See Approved Courses for the L&S International Requirement (p. 1169) for course options.

<table>
<thead>
<tr>
<th>Code</th>

</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

Students are advised to select a course that satisfies the Cultural Diversity (CD) designation.

Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

VI. The Major
The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses
from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Psychology Major Requirements
To be accepted as a major in psychology, students must have completed PSYCH 101 and 15 university credits. The College of Letters and Science requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work. The undergraduate major consists of 33 or 34 credits in psychology, at least 15 of them at the advanced level (300 or above) taken in residence at UWM, including the following core courses (17 cr):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 101</td>
<td>Introduction to Psychology</td>

Select one of the following:

Upper-Level Courses
Select one of the following:  16-17

Select one advanced laboratory course and four Systems and Foundations courses (16 credits)

Select two advanced laboratory courses and three Systems and Foundations courses (17 credits)

Total Credits  33-34

Research Experience
The College of Letters and Science requires that students complete a research experience in their major. The Department of Psychology has structured its advanced laboratory courses to satisfy that requirement. In these laboratory courses, students run multiple experiments, collect and analyze data quantitatively, and write up the results in a standard journal article format, integrating the results with a critical survey of relevant professional literature. The Systems and Foundations courses are non-laboratory, upper-level courses designed to provide in-depth knowledge on specific topics in psychology. Students are welcome to take additional Systems and Foundations courses as electives.

Cross-Listed Courses
The following courses offered by other academic units may be used to fulfill requirements of the undergraduate major in psychology:

<table>
<thead>
<tr>
<th>Code</th>

Letters & Science Advising
The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the “Declaration of Major” information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Honors in the Major
Psychology majors who meet the following criteria are awarded Honors in the Major:

1. A 3.000 cumulative GPA on all credits attempted;
2. A 3.500 GPA on all credits that count toward the major; and
3. A 3.500 GPA on all advanced credits that count toward the major.
Hons in the College of Letters and Science

Dean's Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Contact Information
Current Students contact Associate Professor Deborah Hannula, hannula@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu
http://uwm.edu/psychology/undergraduate/

Psychology, BS
Psychology is a science that provides critical insights into human behavior. Psychologists investigate how behavior is modified in the face of psychiatric disorders or disease and how the brain gives rise to the rich tapestry of behaviors that govern our day-to-day experiences.

A psychology major gives you much career flexibility because of its emphasis on reasoning, problem solving, critical thinking, communication, research and writing. In addition to becoming a counselor or therapist, many students go into human resources, sales, marketing, business management, law, medicine, social work, real estate, social services, and more – all fields that require comprehensive knowledge of human behavior.

Many students go on to graduate school to pursue specialized training. This may lead to a career as a counselor, therapist, or research scientist. In most states, a master’s degree is required to become a licensed practitioner. At UWM, our Psychology major can be tailored: the Bachelor of Arts route is ideal for students planning a career in human services while the Bachelor of Science route focuses on neuroscience and is well-suited for students looking to go into a graduate research program or medical school.

The version of the major that leads to a Bachelor of Arts can be completed entirely on-line if that is desired.

Psychology students at UWM have a distinct advantage – they can participate in research as undergraduates, sometimes even as soon as freshman year. In psychology labs, students work directly with faculty and graduate students on their current research projects, and sometimes contribute as co-authors to peer-reviewed presentations or publications. In addition, a number of psychology students complete Field Placements. The Field Placement is similar to an internship and permits students to step out of the traditional classroom setting and volunteer with a community organization that has a mission consistent with the psychology degree. In each case, our students acquire fundamental skills, have opportunities to explore and refine their interests, and establish meaningful connections that permit them to make informed decisions about their future pursuits.

Psychology Major Requirements
The Department of Psychology offers a major in psychology leading to either the Bachelor of Arts or Bachelor of Science degree. Except for an advanced natural science credit requirement for the BS, the psychology requirements for the BS and BA degrees are the same; however, students should check the general requirements for the degree (e.g., general education requirements) carefully as they differ for the BA and BS.

Students opting for the BS will need to complete at least 30 credits in approved advanced L&S natural science courses, at least 15 of which must be completed in Psychology.

Requirements
Course of Study – Bachelor of Science Degree
Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated upper-level Natural Science. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

University General Education Requirements (GER)

Course designated as QL-B; may be completed through a major-specific course requirement

**Arts**

Select 3 credits

**Humanities**

Select 6 credits

**Social Sciences**

Select 6 credits

**Natural Sciences**

Select 6 credits (At least two courses including one lab)

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

- Two years (high school) of a single foreign language
- Two semesters (college) of a single foreign language
  Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement

---

### College of Letters & Science Requirements

#### I. English Writing Requirement

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond English 102 on the English Placement Test (EPT).

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

#### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 211</td>
<td>Survey in Calculus and Analytic Geometry</td>
<td>4</td>
</tr>
<tr>
<td>MATH 221</td>
<td>Honors Calculus I</td>
<td>5</td>
</tr>
<tr>
<td>MATH 231</td>
<td>Calculus and Analytic Geometry I</td>
<td>4</td>
</tr>
</tbody>
</table>

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 212, or Letters and Science statistics courses:

#### Complete one of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 or more credits in any 200-level or above Math course</td>
<td></td>
<td></td>
</tr>
<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>
<td></td>
</tr>
<tr>
<td>ANTHRO 568</td>
<td>Introduction to Anthropological Statistics</td>
<td></td>
</tr>
<tr>
<td>ATM SCI 500</td>
<td>Statistical Methods in Atmospheric Sciences</td>
<td></td>
</tr>
<tr>
<td>BIO SCI 465</td>
<td>Biostatistics</td>
<td></td>
</tr>
<tr>
<td>ECON 210</td>
<td>Economic Statistics</td>
<td></td>
</tr>
<tr>
<td>GEOG 247</td>
<td>Quantitative Analysis in Geography</td>
<td></td>
</tr>
<tr>
<td>HIST 595</td>
<td>The Quantitative Analysis of Historical Data</td>
<td></td>
</tr>
<tr>
<td>MTHSTAT 215</td>
<td>Elementary Statistical Analysis</td>
<td></td>
</tr>
<tr>
<td>PHILOS 211</td>
<td>Elementary Logic</td>
<td></td>
</tr>
<tr>
<td>POL SCI 390</td>
<td>Political Data Analysis</td>
<td></td>
</tr>
<tr>
<td>POL SCI 392</td>
<td>Survey Research</td>
<td></td>
</tr>
<tr>
<td>PSYCH 210</td>
<td>Psychological Statistics</td>
<td></td>
</tr>
<tr>
<td>SOCIOL 261</td>
<td>Introduction to Statistical Thinking in Sociology</td>
<td></td>
</tr>
</tbody>
</table>

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

#### III. Foreign Language Requirement

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

#### IV. International Requirement

See Approved Courses for the L&S International Requirement (p. 1169) for course options.

#### Completed in one of the following ways:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 or more credits in any 200-level or above Math course</td>

</tr>
</tbody>
</table>

---

#### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+ designation, L&S students must complete the Breadth requirement.

1. Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above
2. Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.
3. Complete 9 credits in combination of the two options above.
Psychology Major Requirements
To be accepted as a major in psychology, students must have completed PSYCH 101 and 15 university credits. The College of Letters and Science requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work. The undergraduate major consists of 33 or 34 credits in psychology, at least 15 of them at the advanced level (300 or above) taken in residence at UWM, including the following core courses (17 cr):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 101</td>
<td>Introduction to Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 210</td>
<td>Psychological Statistics</td>
<td>4</td>
</tr>
<tr>
<td>PSYCH 254</td>
<td>Physiological Psychology</td>
<td>3</td>
</tr>
</tbody>
</table>

Research Experience
The College of Letters and Science requires that students complete a research experience in their major. The Department of Psychology has structured its advanced laboratory courses to satisfy that requirement. In these laboratory courses, students run multiple experiments, collect and analyze data quantitatively, and write up the results in a standard journal article format, integrating the results with a critical survey of relevant professional literature. The Systems and Foundations courses are non-laboratory, upper-level courses designed to provide in-depth knowledge on specific topics in psychology. Students are welcome to take additional Systems and Foundations courses as electives.

Cross-Listed Courses
The following courses offered by other academic units may be used to fulfill requirements of the undergraduate major in psychology:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIO SCI 455</td>
<td>Cellular, Molecular and Developmental Neurobiology</td>
<td>3</td>
</tr>
<tr>
<td>BUS ADM 442</td>
<td>Industrial Psychology</td>
<td>3</td>
</tr>
</tbody>
</table>

Letters & Science Advising
The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus' general education requirements and the College's degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless of their major in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.
Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

**Honors in the Major**

Psychology majors who meet the following criteria are awarded Honors in the Major:

1. A 3.000 cumulative GPA on all credits attempted;
2. A 3.500 GPA on all credits that count toward the major; and
3. A 3.500 GPA on all advanced credits that count toward the major.

**Honors in the College of Letters and Science**

**Dean’s Honor List**

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Contact Information**

Current Students contact Associate Professor Deborah Hannula, hannula@uwm.edu

Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

http://uwm.edu/psychology/undergraduate/

**Psychology, Minor**

Psychology is a science that provides critical insights into human behavior. Psychologists investigate how behavior is modified in the face of psychiatric disorders or disease and how the brain gives rise to the rich tapestry of behaviors that govern our day-to-day experiences.

The minor in Psychology can be completed entirely on-line if that is desired.

Psychology students at UWM have a distinct advantage – they can participate in research as undergraduates, sometimes even as soon as freshman year. In psychology labs, students work directly with faculty and graduate students on their current research projects, and sometimes contribute as co-authors to peer-reviewed presentations or publications.

**Requirements**

The College of Letters and Science requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work.

To be accepted as a minor in psychology, students must have completed PSYCH 101. The undergraduate minor consists of 18 credits in psychology, at least 9 of them at the advanced level (300 or above) taken in residence at UWM, including the following core courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 101</td>
<td>Introduction to Psychology</td>
<td>3</td>
</tr>
</tbody>
</table>

Select one of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 205</td>
<td>Personality</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 210</td>
<td>Psychological Statistics</td>
<td></td>
</tr>
<tr>
<td>PSYCH 214</td>
<td>Introduction to Conditioning and Learning</td>
<td></td>
</tr>
<tr>
<td>PSYCH 230</td>
<td>Social Psychology: Psychological Perspectives</td>
<td></td>
</tr>
<tr>
<td>PSYCH 254</td>
<td>Physiological Psychology</td>
<td></td>
</tr>
<tr>
<td>PSYCH 260</td>
<td>Child Psychology</td>
<td></td>
</tr>
</tbody>
</table>

Select any four additional psychology courses, at least three of which must be at the 300 level or above 12

**Total Credits** 18

Please note: If you are considering a potential major in Psychology, it is recommended highly that you take PSYCH 210 and PSYCH 325 as these are required for the major.
Contact Information
Current Students contact Associate Professor Deborah Hannula, hannula@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu
http://uwm.edu/psychology/undergraduate/

Psychology, MS
The Department of Psychology offers two graduate degrees: the PhD in Psychology and the MS in Psychology. Study is available in the following concentrations, which we refer to as programs.

PhD in Psychology (includes earning the MS)
- Clinical Psychology program (accredited by the American Psychological Association)
- Health Psychology program
- Neuroscience program

MS in Psychology
- Terminal Health Psychology program.

1 Please note that the Department of Biological Sciences and several other departments also offer opportunities for doctoral study in neuroscience.

All programs train students in the facts, methodologies, and theories of psychology, with special emphasis on developing research competence. The department has well-equipped laboratories and an on-campus training clinic. The city of Milwaukee provides additional opportunities for training at hospitals, social service agencies, and the Medical College of Wisconsin.

Note that all of the department’s doctoral programs are actually combined MS/PhD programs, although students who already have a master’s degree in psychology or neuroscience are also encouraged to apply. If admitted, they will not be required to earn the MS at UWM if their master’s degree included an empirically based thesis.

Transfer from a PhD program to any another PhD program in our department requires reapplication.

Although it is possible for the academic portion of the doctoral program to be completed in four years, most students require five or more years. Doctoral students are expected to be enrolled full time and to earn their PhDs within seven years of initial enrollment, exclusive of the one-year internship required in the clinical program.

Students seeking only master’s-level training may apply to the health psychology specialization. It is possible to complete requirements for the MS in two or three years of full-time study. Part-time study is allowable, as long as the MS is earned within seven years of enrolling.

Students may not earn more than two degrees from the Department of Psychology at UWM. Therefore, students who earned a bachelor’s degree in psychology from UWM are not eligible to apply for admission to the doctoral program unless they earned a master’s degree in psychology elsewhere.

The department refers students interested in Counseling Psychology or School Psychology to the Department of Educational Psychology.

Application
Application must be made to the Graduate School.

Applicants are admitted only at the beginning of each academic year. Applications must be submitted by December 1. Important: It is essential to consult the department’s website for important information, including the departmental admissions brochure: http://uwm.edu/psychology/graduate/application/

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School (http://uwm.edu/graduateschool/admission/) requirements plus the following departmental requirements to be considered for admission to the program:

1. Completion of an undergraduate major in psychology (or neuroscience).
2. Submission of scores on the General Test of the Graduate Record Examination (GRE) (http://uwm.edu/graduateschool/admission/#gre).
3. Receipt of positive recommendation by the Departmental Admissions Committee.

Admission is based on evaluation of an applicant’s entire record. In evaluating each application, the Admissions Committee examines such factors as GRE scores, grades, research record (e.g., research apprenticeships, publications, presentations, and senior or honors theses), and letters of recommendation.

Students without an undergraduate major in psychology (or neuroscience) may be considered for admission provided the following courses are completed: introductory statistics, a laboratory course in research methods of psychology, and an advanced laboratory course in psychology. Students with one of these courses are eligible to apply, but the two remaining courses would have to be completed within three semesters of enrollment. No course credits earned in making up deficiencies may be counted as program credits required for the degree. Students satisfying only this very minimal requirement should understand that additional work may be required to enroll in specific graduate-level courses.

As part of their doctoral requirements, PhD students must earn a master’s degree in psychology that includes a thesis derived from empirical research; they do this by fulfilling the requirements of the “General Psychology Track” for the MS degree while enrolled simultaneously in the PhD program. An exception is that students who already have earned a master’s degree based on an empirical thesis in psychology or neuroscience from another college or university are exempt from the requirement of earning the MS in our department.

Advising and the Major Professor
Graduate School and departmental regulations require students to have a major professor to direct their research activities. It is important
for students to start their research early in their graduate studies. Admittees are assigned to a major professor they have chosen during the admissions process.

Before the end of the second semester, the student must form an advisory committee of three departmental faculty members, including the student's major professor. Students are free to change their major professor at any time. The Department also provides a Graduate Program Coordinator, who advises about courses and program requirements and who approves programs of study. The Graduate Program Coordinator is also available to help students who wish to change their major professors to find new ones.

**Credits and Courses**

**General Psychology Track**

Students in the general psychology track must be simultaneously enrolled in the doctoral program. The minimum requirement for the MS is 30 graduate credits of psychology, 24 of which must be earned in formal coursework (excluding practica) and 6 of which must be earned through an acceptable thesis.

**Thesis**
The student, under the direction of an advisor, must develop an acceptable thesis based on empirical research. The student must pass an oral examination in defense of the thesis.

**Time Limit**
The student must complete all degree requirements within three years of initial enrollment.

**Specialization in Health Psychology**

Health psychology is concerned with the psychological variables that influence physical health and illness. The MS program in health psychology offers training in research and theories relevant to health promotion. The program of study consists of core health psychology coursework, research coursework, psychology breadth coursework, and an optional field placement. Current research topics include gender and health, cancer prevention and health education, reproductive health and STD prevention, patient advocacy and self-care behaviors, the effects of stress and mechanisms of coping with it, and child abuse prevention. Research is conducted in the laboratory as well as in clinical settings, and many members of the faculty have strong ties to the Milwaukee community.

**Course of Study**
The course of study consists of at least 36 credits, distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 955</td>

The MS specialty in health psychology emphasizes the application of psychological theories to health-related issues. Although students are exposed to theories and applications in coursework, the field placement option offers a further opportunity to learn by doing. Students are encouraged to take at least 3 credits of PSYCH 812 in their area of interest.

**Thesis or Project**
The student, under the direction of an advisor, has the option of developing either an acceptable thesis based on empirical research or an acceptable project (a review or theoretical paper). In either case, students must demonstrate their ability to formulate a research idea and pursue independent and original investigation. The student must pass an oral examination in defense of the thesis, but no oral examination is required for a project.

**Time Limit**
The student must complete all requirements within seven years of initial enrollment.

**Psychology, PhD**

The Department of Psychology offers two graduate degrees: the PhD in Psychology and the MS in Psychology. Study is available in the following concentrations, which we refer to as programs.

**PhD in Psychology (includes earning the MS)**

- Clinical Psychology program (accredited by the American Psychological Association)
- Health Psychology program
- Neuroscience program

**MS in Psychology**

- Terminal Health Psychology program.

1 Please note that the Department of Biological Sciences and several other departments also offer opportunities for doctoral study in neuroscience.

All programs train students in the facts, methodologies, and theories of psychology, with special emphasis on developing research competence. The department has well-equipped laboratories and an on-campus training clinic. The city of Milwaukee provides additional opportunities for
training at hospitals, social service agencies, and the Medical College of Wisconsin.

Note that all of the department's doctoral programs are actually combined MS/PhD programs, although students who already have a master's degree in psychology or neuroscience are also encouraged to apply. If admitted, they will not be required to earn the MS at UWM if their master's degree included an empirically based thesis.

Transfer from a PhD program to any another PhD program in our department requires reapplication.

Although it is possible for the academic portion of the doctoral program to be completed in four years, most students require five or more years. Doctoral students are expected to be enrolled full time and to earn their PhDs within seven years of initial enrollment, exclusive of the one-year internship required in the clinical program.

Students seeking only master's-level training may apply to the health psychology specialization. It is possible to complete requirements for the MS in two or three years of full-time study. Part-time study is allowable, as long as the MS is earned within seven years of enrolling.

Students may not earn more than two degrees from the Department of Psychology at UWM. Therefore, students who earned a bachelor's degree in psychology from UWM are not eligible to apply for admission to the doctoral program unless they earned a master's degree in psychology elsewhere.

The department refers students interested in Counseling Psychology or School Psychology to the Department of Educational Psychology.

### Application

Application must be made to the Graduate School.

Applicants are admitted only at the beginning of each academic year. Applications must be submitted by December 1. Important: It is essential to consult the department's website for important information, including the departmental admissions brochure: http://uwm.edu/psychology/graduate-application/

**Application Deadlines**

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

### Admission

An applicant must meet Graduate School requirements and the following departmental requirements to be considered for admission to the program:

1. Completion of an undergraduate major in psychology (or neuroscience).
2. Submission of scores on the General Test of the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre).
3. Receipt of a positive recommendation by the Departmental Admissions Committee.

Admission is based on evaluation of an applicant’s entire record. In evaluating each application, the Admissions Committee examines such factors as GRE (http://uwm.edu/graduateschool/admission/#gre) scores, grades, research record (e.g., research apprenticeships, publications, presentations, and senior or honors theses), and letters of recommendation.

Students without an undergraduate major in psychology (or neuroscience) may be considered for admission provided the following courses are completed: introductory statistics, a laboratory course in research methods of psychology, and an advanced laboratory course in psychology. Students with one of these courses are eligible to apply, but the two remaining courses would have to be completed within three semesters of enrollment. No course credits earned in making up deficiencies may be counted as program credits required for the degree. Students satisfying only this very minimal requirement should understand that additional work may be required to enroll in specific graduate-level courses.

As part of their doctoral requirements, PhD students must earn a master’s degree in psychology that includes a thesis derived from empirical research; they do this by fulfilling the requirements of the "General Psychology Track" for the M.S. degree while enrolled simultaneously in the PhD program. An exception is that students who already have earned a master’s degree based on an empirical thesis in psychology or neuroscience from another college or university are exempt from the requirement of earning the M.S. in our department.

### Advising and the Major Professor

Graduate School and departmental regulations require students to have a major professor to direct their research activities. Entering students are assigned to the major professor they have chosen during the admissions process. Students are free to change their major professor at any time. The Department provides a Graduate Program Coordinator, who advises about courses and program requirements and who approves programs of study. The Graduate Program Coordinator also is available to help any student who wishes to change his/her major professor.

### Credits and Courses

The minimum degree requirement is 54 graduate credits beyond the bachelor's degree, at least 27 of which must be earned in residence at UWM.

#### Departmental Doctoral Curriculum

Only courses numbered 700 or above and a few departmentally-designated undergraduate/graduate courses, including PSYCH 510 and PSYCH 610, may be counted in the doctoral curriculum, which is specified in the department's Doctoral Student Handbook (http://uwm.edu/psychology/graduate/doctoral-student-handbook).

#### Clinical Psychology Curriculum

The Clinical Psychology curriculum consists of a sequence of required clinical courses, including courses in professional ethics, issues, and research methods in clinical psychology; developmental psychopathology; foundations of psychotherapy; assessment (two semesters); and empirically-supported interventions. Other required courses include a two-course statistics sequence, history of psychology, multicultural issues in counseling or clinical psychology, and lifespan developmental psychology. Also, Clinical Psychology students must fulfill American Psychological Association (APA) requirements by completing one course from each of the following areas: biological bases of behavior, cognitive/affective bases of behavior, and social bases of behavior.

In addition to classroom courses, students also must complete a sequence of practicum and community placement courses for intensive
training in assessment, diagnosis, therapy, and professional practice and, later, a pre-doctoral, extramural, full-time (2,000 hours) internship. Students should consult the department’s Doctoral Student Handbook (http://uwm.edu/psychology/graduate/doctoral-student-handbook) for details.

Completion of a departmental minor is optional for clinical students (available areas: Cognition and Perception, Developmental Psychology, Health Psychology, Neuroscience, and Quantitative Methods).

The clinical program strongly adheres to the scientist-practitioner model of training. It is designed to train psychologists as generalists. However, our faculty members' interests cluster in three primary areas including neuroscience/neuropsychology, cognitive/behavioral and behavioral therapies, and pediatric/health psychology. As a result, students often leave the clinical program with a focus in one or more of these areas. The clinical program is accredited by the American Psychological Association (APA).

In addition, the clinical program is a member of the Academy of Psychological Clinical Science. Membership in the Academy is granted only after a thorough peer review process. Our membership in the Academy indicates our commitment to excellence in scientific training and to using clinical science as the foundation for designing, implementing, and evaluating assessment and intervention procedures.

---

1 Office of Program Consultation and Accreditation 750 First Street, NE Washington, DC 20002-4242. Phone: 202-336-5979

---

### Health Psychology Curriculum

The Health Psychology curriculum consists of a core course in health psychology, two other courses in health psychology chosen in consultation with the major professor, a two-course statistics sequence, completion of two departmental minor areas of study (available areas: Cognition and Perception, Developmental Psychology, Neuroscience, Psychopathology, and Quantitative Methods) and one breadth course chosen in consultation with the major professor. Students should consult the department's Doctoral Student Handbook (http://uwm.edu/psychology/graduate/doctoral-student-handbook) for details.

Health psychology, which is concerned with the psychological variables that influence physical health and illness, has become a dominant force in the health sciences. The program offers training in research and theories relevant to health promotion. Faculty members and students work together on projects focused on gender and health, cancer prevention and health education, reproductive health and STD prevention, patient advocacy and self-care behaviors, the effects of stress and mechanisms of coping with it, and child abuse prevention. Research is conducted in the laboratory as well as in clinical settings, and many members of the faculty have strong ties to the Milwaukee community.

---

### Neuroscience Curriculum

The Neuroscience curriculum includes four core courses (behavioral neuroscience, cellular and molecular neuroscience, cognitive neuroscience, and proseminar in biological psychology). Other required courses include a two-course statistics sequence, seminar in neuroscience (three semesters of official enrollment), and three electives, chosen in consultation with the major professor. Students should consult the department's Doctoral Student Handbook (http://uwm.edu/psychology/graduate/doctoral-student-handbook) for details.

Neuroscience is devoted to the study of the nervous system. The curriculum is designed to provide students with the intellectual and technical skills necessary for a productive career in academics or industry. Students are part of the greater Milwaukee Area Neuroscience group, which includes faculty members and students from various departments at UWM, the Medical College of Wisconsin, and Marquette University. Students learn a wide range of techniques working with laboratory animals and human subjects. These include experimental design, behavioral testing and analysis, neurophysiology, aseptic surgical techniques, quantitative protein and mRNA assays, immunohistochemistry, eyetracking, and functional magnetic resonance imaging (fMRI). Current research topics include cellular and molecular mechanisms of learning and memory; mapping brain areas involved in memory and emotion in humans and rodents using fMRI; effects of exercise on cerebral blood flow; mechanisms of recovery from brain damage; visual attention; effects of aging on learning and memory; and the role of calcium and calcium-binding proteins in ischemic cell death.

---

### Multicultural Requirement

Clinical students must complete a course in multicultural issues in clinical or counseling psychology.

### Developmental Psychology Requirement

Clinical students must complete a graduate-level lifespan developmental psychology course.

### Extradenpartmental Minors and Certificates (optional)

If they wish, and with the approval of their major professors, students may complete, in another department, a coherent program of at least 8 graduate credits (undergraduate/graduate courses taken for graduate credit apply). They may also, if they wish, complete one or more graduate certificate programs.
Residence
The student must meet minimum Graduate School residence requirements. Please note the requirement of earning at least 27 graduate credits at UWM. For more information on residence, see the Graduate School Doctoral Requirements (http://uwm.edu/graduateschool/doctoral-requirements) page.

Doctoral Preliminary Examination
Students must pass a doctoral preliminary examination to qualify for formal admission to candidacy for the degree. The preliminary examination can be taken only after the master’s degree has been earned and all relevant coursework has been completed satisfactorily. The format of the examination depends on the program. Specific guidelines for preliminary examinations can be found in the department’s Doctoral Student Handbook (http://uwm.edu/psychology/graduate/doctoral-student-handbook).

Clinical Internship Requirement
With the approval of the department’s Clinical Training Committee, clinical students are eligible to begin a required one-year, 2,000-hour internship after they have passed the preliminary examination and the doctoral dissertation proposal hearing.

Dissertation Defense
The candidate must write a dissertation that demonstrates the ability to formulate a research topic and pursue independent and original investigation. A doctoral dissertation committee must have at least five members, at least three of whom must be tenure-track or tenured faculty in the UWM Department of Psychology who hold Graduate Faculty status. A maximum of two committee members can be individuals who have doctoral degrees but who do not have Graduate Faculty status at UWM.

Final Oral Examination
The candidate must, as the final step toward the degree, pass an oral examination in defense of the dissertation.

Time Limit
The student must complete all degree requirements within seven years of initial enrollment (four years if entering with a master’s degree), excluding internship.

For additional information on the PhD, see the Graduate School Doctoral Requirements (http://uwm.edu/graduateschool/doctoral-requirements) page.
PUBLIC AND NON-PROFIT ADMINISTRATION

Douglas Ihrke, PhD, Professor, Chair and Director of Nonprofit Administration, Director of Public Administration
Alumni House 381, Phone: (414) 229-3167, Fax: (414) 229-2353

The public and nonprofit administration unit (PNA) houses several graduate programs, but also offers some courses at the undergraduate level. PNA oversees the following graduate programs:

- Master of Science in Nonprofit Management and Leadership
- Master of Public Administration
- Graduate Certificate in Nonprofit Management

PNA partners with the Department of Urban Planning to offer a coordinated Master of Public Administration/Master of Urban Planning program. Additionally, PNA partners with the Helen Bader School of Social Welfare to offer a joint Master of Science in Criminal Justice and Master of Public Administration.

Undergraduate courses in public administration will provide a background for students interested in pursuing graduate degrees in the field as well as for those who wish to enhance their studies in another program with an understanding of the administration of public and nonprofit programs.

- Nonprofit Management and Leadership, MS (College of Letters and Science, Department of Public and Nonprofit Administration) (p. 1728)
- Nonprofit Management, Graduate Certificate (College of Letters and Science, Department of Public and Nonprofit Administration) (p. 1729)
- Public Administration, MPA (College of Letters and Science, Department of Public and Nonprofit Administration) (p. 1730)
- Public Administration, MPA/Criminal Justice, MS (p. 1732)
- Public Administration, MPA/Urban Planning, MUP (p. 1733)

Nonprofit Administration Courses

NONPROF 704 Seminar in Nonprofit Organizations
3 cr. Graduate.
Overview of structure, functions, and governance of nonprofit organizations. Comparison with government and for-profit organizations. 
Prerequisites: grad st.
Course Rules: Nonprof 704, Pol Sci 704, Sociol 704, & Urb Std 704 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

NONPROF 705 Professionals and Volunteers in Nonprofit Organizations
3 cr. Graduate.
Seminar in techniques of management of professionals and volunteers in nonprofit organizations.
Prerequisites: grad st.
Course Rules: Nonprofit 705 & Pol Sci 705 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

NONPROF 725 Governance of Nonprofit Organizations
3 cr. Graduate.
Roles and responsibilities of governing boards and executive leaders. Critical review of alternative governance and executive leadership models. Counts as repeat of BusMgmt 725 and Pub Adm 958 w/same title.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

NONPROF 740 Executive Leadership of Nonprofit Organizations
3 cr. Graduate.
Nonprofit administration course designed to prepare students for a career in leadership and executive rules in nonprofit organizations. Counts as a repeat of Pub Adm 958 w/same topic.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

NONPROF 750 Social Entrepreneurship in the Nonprofit Sector
3 cr. Graduate.
In-depth exploration and examination of the concept of social entrepreneurship and how it is being understood, applied and practiced in the nonprofit sector.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

NONPROF 765 International Nongovernmental Organizations
3 cr. Graduate.
International nongovernmental organizations (INGOs) and the roles they play in relief and development work in developing countries.
Prerequisites: grad st.
Course Rules: Counts as a repeat of Pol Sci 958 & Pub Adm 958 w/same topic.
Last Taught: Fall 2016, Fall 2013.
Current Offerings: http://uwm.edu/schedule

NONPROF 770 Leveraging Technology in the Public and Nonprofit Sectors
3 cr. Graduate.
Application of information technology (IT) concepts and tools to challenges and opportunities in the public and nonprofit sectors. Counts as a repeat of Pub Adm 958 w/same topic.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

NONPROF 785 Managing Change in Public and Nonprofit Organizations
3 cr. Graduate.
Methods and techniques in the research and practice of organization development.
Prerequisites: grad st.
Course Rules: Counts as repeat of Pol Sci 958 & Pub Adm 958 w/same topic.
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule
NONPROF 789 Theory and Role of Nonprofit Organizations
3 cr. Graduate.
Graduate-level introduction to nonprofit administration, including an examination of the role of the nonprofit sector in contemporary society.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

NONPROF 791 Nonprofit Advocacy and Public Policy
3 cr. Graduate.
Prerequisites: grad st
Course Rules: Nonprofit 791 & Pol Sci 791 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

NONPROF 792 Decision-Making for Nonprofit and Public Organizations
3 cr. Graduate.
Research methods including research design, measurement, and analysis. Qualitative and quantitative decision-making methods. Understanding and using basic statistical concepts and techniques in decision making.
Prerequisites: grad st
Course Rules: Nonprof 792 & Pub Adm 792(Pol Sci 792) are jointly offered; they count as repeats of one another.
Last Taught: Fall 2016, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

NONPROF 793 Law of Nonprofit Organizations
3 cr. Graduate.
Legal concepts and issues relevant to the formations and operations of nonprofit organizations. Complying with applicable federal and state statutes and regulations.
Prerequisites: grad st
Course Rules: Nonprof 793 & Pol Sci 793 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

NONPROF 795 Introduction to Nonprofit Revenue Streams and Portfolios
3 cr. Graduate.
Trends and issues surrounding nonprofit finance in an attempt to sketch a portrait of nonprofit finance theory.
Prerequisites: grad st.
Course Rules: Counts as repeat of Pol Sci 958 & Pub Adm 958 w/Financing Nonprofits topic.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

NONPROF 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement. Fee for 1 cr assessed.
Prerequisites: grad st
Last Taught: Fall 2014.
Current Offerings: http://uwm.edu/schedule

NONPROF 921 Nonprofit Administrative Internship
1-3 cr. Graduate.
Combines supervised field placement in a nonprofit organization with class sessions and assignments designed to augment the work experience.
Prerequisites: grad st; cons instr
Current Offerings: http://uwm.edu/schedule

NONPROF 958 Seminar in Nonprofit Administration:
3 cr. Graduate.
Selected topics covering different aspects of nonprofit administration. Counts as repeat of Pub Adm 958 w/same topic. Retakable w/change in topic to 9 cr max.
Prerequisites: grad st.
Last Taught: Fall 2016.
Current Offerings: http://uwm.edu/schedule

NONPROF 999 Independent Study
1-3 cr. Graduate.
Independent study in a subject area of special need or interest after consultation with a faculty member.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

Public Administration Courses

PUB ADM 243 Public Administration
3 cr. Undergraduate.
The means used to implement political values with emphasis on problems of administration in modern government.
Prerequisites: none.
Course Rules: Pol Sci 243 & Pub Adm 243 are jointly offered; they count as repeats of one another.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

PUB ADM 400 Ethics and Responsibility in Public Administration
3 cr. Undergraduate/Graduate.
How public administrators make ethically-sound decisions; moral and value systems that shape public administration; temptations that can cause officials to stray from ethical standards.
Prerequisites: jr st.
Course Rules: Counts as repeat of Pol Sci 387 w/Administrative Ethics & Responsibility subtitle.
Last Taught: Fall 2014, Spring 2013, Spring 2012.
Current Offerings: http://uwm.edu/schedule

PUB ADM 452 Administrative Law
3 cr. Undergraduate/Graduate.
An examination of due process, privacy, and other constitutional and legal issues as they arise in the regulatory investigatory, and enforcement activities of administrative agencies.
Prerequisites: jr st.
Course Rules: American politics course. Pol Sci 452 & Pub Adm 452 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2017, Summer 2012.
Current Offerings: http://uwm.edu/schedule
PUB ADM 461 Organizational Theory and Practice
3 cr. Undergraduate/Graduate.
Analysis of the role of organizations in contemporary society, with particular emphasis on governmental organizations that have formal regulation of individual group behavior as their basic functions.
Prerequisites: jr st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PUB ADM 630 Budgeting and Finance in the Public Sector
3 cr. Undergraduate/Graduate.
Examination of the budgeting process in the public sector; development of skills in budgeting and financial management. Topics include capital budgeting, debt management, revenue forecasting, and auditing.
Prerequisites: Pub Adm 705 & UrbPlan 705 are jointly offered; they count as repeats of one another. Prerq: grad st.
Course Rules: Jointly-offered w/ & counts as repeat of UrbPlan 630.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PUB ADM 705 Government Public Relations and Advocacy
3 cr. Graduate.
External communications by public sector managers and planners for purposes of democratic accountability, fulfilling the mission of the agency, and communicating with elected officials.
Prerequisites: Pub Adm 705 & UrbPlan 705 are jointly offered; they count as repeats of one another. Prerq: grad st.
Last Taught: Spring 2012.
Current Offerings: http://uwm.edu/schedule

PUB ADM 730 Budgeting for Public Sector Professionals
3 cr. Graduate.
Budgeting skills for effective local and state government management; financial reporting, revenue collection and administration, pension funds, debt issuance, analytical techniques used in public budgeting.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

PUB ADM 750 Public Administration Risk and Analysis
3 cr. Graduate.
Efficiency analysis; return-on-investment analysis; shared services vs. privatization; total employee compensation as a management tool; risk mitigation; the government purchasing process.
Prerequisites: grad st
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2012.
Current Offerings: http://uwm.edu/schedule

PUB ADM 763 Scope and Dynamics of Public Administration
3 cr. Graduate.
The field of public administration, including organization theory, public management, the politics of administration, and the role of government in policy-making.
Prerequisites: grad st.
Course Rules: Pol Sci 763 & Pub Adm 763 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PUB ADM 769 Analyzing and Evaluating Public Policies and Programs
3 cr. Graduate.
Examination of methods, including cost-benefit analysis and decision analysis, that aid policy makers and administrators in understanding and assessing public and nonprofit sector policies and programs.
Prerequisites: grad st.
Course Rules: Pol Sci 769 & Pub Adm 769 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

PUB ADM 792 Decision-Making for Nonprofit and Public Organizations
3 cr. Graduate.
Research methods including research design, measurement, and analysis. Qualitative and quantitative decision-making methods. Understanding and using basic statistical concepts and techniques in decision making.
Prerequisites: grad st
Course Rules: Nonprof 792 & Pub Adm 792 (Pol Sci 792) are jointly offered; they count as repeats of one another.
Last Taught: Fall 2016, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

PUB ADM 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Last Taught: Fall 2016, Spring 2016, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PUB ADM 914 Seminar in Intergovernmental Relations
3 cr. Graduate.
Policy issues in intergovernmental relations and the complex governmental context in which Americans live and work.
Prerequisites: grad st.
Course Rules: Pol Sci 914 & Pub Adm 914 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2016, Fall 2014, Fall 2013, Spring 2012.
Current Offerings: http://uwm.edu/schedule

PUB ADM 921 Public Service Administrative Internship
3 cr. Graduate.
This course combines a supervised field placement in a governmental agency or non-profit organization with class sessions and assignments designed to augment the work experience.
Prerequisites: grad st; cons instr.
Last Taught: Spring 2018, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

PUB ADM 958 Seminar in Public Administration:
3 cr. Graduate.
Selected topics covering different aspects of public administration.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2016, UWinterIM 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule
PUB ADM 959 Capstone Seminar in Public Administration
3 cr. Graduate.
Seminar in public administration focusing on administrative ethics and applied research. Requires written and oral presentation of research project.
Prerequisites: grad st; completion of MPA core curriculum.
Current Offerings: http://uwm.edu/schedule

PUB ADM 965 Municipal Management
3 cr. Graduate.
The political, social, and economic contexts in which the urban manager functions, with an emphasis on managing municipal service delivery and resources.
Prerequisites: grad st.
Course Rules: Pub Adm 965(Pol Sci 965) & Urb Std 965 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

PUB ADM 999 Independent Study
1-3 cr. Graduate.
Independent study in a subject area of special need or interest after consultation with a faculty member.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

Nonprofit Management and Leadership, MS (College of Letters and Science, Department of Public and Nonprofit Administration)

Related Certificates

- Graduate Certificate in Nonprofit Management (p. 412)

Overview

The College of Letters and Science and the Sheldon B. Lubar School of Business offer and present jointly the Master of Science (MS) in Nonprofit Management and Leadership. The program is designed to provide students with the essential theoretical and practical knowledge and skills needed to be successful in managing and leading nonprofit sector organizations.

Application Deadlines

Applications are considered on a rolling admissions basis, although we suggest that a completed portfolio be submitted at least 6-8 weeks prior to the beginning of the starting semester.

Applicants should keep in mind that applications for various University fellowships are typically due in January. If you are planning to apply for Financial Aid (http://uwm.edu/onestop/contact/financial-aid), all application materials must be submitted by March 1 of each year.

Admission

To be admitted to the MS in Nonprofit Management and Leadership degree program, an applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission).

During the admissions process, students will be asked to show evidence of having satisfactorily completed undergraduate or higher level foundation coursework in the principles of accounting and economics. Those students who are unable to show such evidence may be admitted with these academic deficiencies but will then meet with their respective academic advisors to identify and obtain approval for what they must do to remove these deficiencies.

The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

Applicants must submit the following for review by the Graduate School and the Nonprofit Management Program Faculty Committee:

1. Official transcripts from all colleges or universities previously attended.
2. Three letters of recommendation from persons familiar with the applicant's academic ability and/or professional achievements.
3. Scores from either the Graduate Record Examination (GRE) (http://uwm.edu/graduateschool/admission/#gre) or the Graduate Management Admission Test (GMAT) (http://uwm.edu/graduateschool/admission/#gmat).
4. For those students whose native language is not English, minimum TOEFL score (Test of English as a Foreign Language) of 550 PBT or 79 iBT or minimum IELTS score (International English Language Testing System) of 6.5.
5. Each student’s academic preparation is evaluated at the time of application. A personal interview may be required.

Credits and Courses

The MS in Nonprofit Management and Leadership degree requires satisfactory completion of 39 credits of graduate-level coursework including 33 credit-hours of required or "constrained choice" courses and 6 credit-hours of elective courses as follows:

1 This course will serve as the integrative “capstone” requirement for the program and must be taken after completing all other required courses (or concurrently with the final required courses).

2 This is a pre-approved but not exhaustive list: Students may request alternative courses offered in other departments at UWM. Please send an email to Program Advisor with a course description and/or syllabus, and stated reasons why the course being proposed is an appropriate fit for the student’s academic and career goals.

Program Requirements

Major Professor as Advisor
The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. A student who is not assigned to an advisor at the time of admission should immediately contact the Program Director.

Thesis
Not Required

Comprehensive Examination
Not Required

Time Limit
The student must complete all degree requirements within seven years of initial enrollment.

Nonprofit Management, Graduate Certificate (College of Letters and Science, Department of Public and Nonprofit Administration)

The Graduate Certificate in Nonprofit Management is a collaborative effort between the Lubar School of Business, the College of Letters & Science, and other campus units that have research and/or teaching interests in nonprofit management and leadership, nonprofit organizations, the nonprofit sector, and philanthropy. The certificate responds to the growing need for trained professionals to assume management and leadership positions in non-governmental, nonprofit sector organizations.

The multi-disciplinary Graduate Certificate in Nonprofit Management is designed to provide students with the knowledge and skills needed to successfully pursue or advance careers within nonprofit sector organizations.

Students in degree programs across campus such as urban studies, public administration, business, social welfare, education or the arts, have combined the Graduate Certificate in Nonprofit Management with their degree to further enhance their academic preparation for their particular career goals.

Application Deadlines
Applications are considered on a rolling admissions basis, although we suggest that a completed portfolio be submitted at least 6-8 weeks prior to the beginning of the starting semester.

Applicants should keep in mind that applications for various University fellowships are typically due in January. If you are planning to apply for Financial Aid (http://uwm.edu/onestop/contact/financial-aid), all application materials must be submitted by March 1 of each year.

Admission
Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Application
- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Credits and Courses
Students wishing to earn a Graduate Certificate in Nonprofit Management must complete the required 15 graduate credit hours. No student may complete all 15 credits within a single school or college. The curriculum consists of the following five courses:

<table>

</table>

Total Credits 15
Transfer Credit
No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   • Degree programs must approve the courses from certificates that can double count toward the degree.
   • All credits taken in completion of certificate requirements may count toward a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   • Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit
Certificate program time limits shall be established as follows:
• 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
• 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

Public Administration, MPA
(College of Letters and Science, Department of Public and Nonprofit Administration)

The College of Letters and Science and the Lubar School of Business offer and present jointly the Master of Public Administration (MPA).

The program is designed to provide theoretical and practical preparation for careers in public and non-profit administration with three areas of concentration: municipal management, general public administration, and non-profit management.

Application Deadlines
Applications are considered on a rolling admissions basis, although we suggest that a completed portfolio be submitted at least 6-8 weeks prior to the beginning of the starting semester.

Applicants should keep in mind that applications for various University fellowships are typically due in January. If you are planning to apply for Financial Aid (http://uwm.edu/onestop/contact/financial-aid), all application materials must be submitted by March 1 of each year.

Admission
An applicant must meet Graduate School requirements and hold a bachelor's degree from an accredited college or university to be considered for admission.

There are no fixed prerequisites in terms of prior academic training; but background in public administration, American governmental institutions, economics, statistics, and computer applications in social science is beneficial. Each student's academic preparation is evaluated at the time of application. A personal interview may be required.

Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses.

The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

The MPA program requirements to be considered for admission are:
1. An undergraduate grade point average of at least 3.0 (4.0 scale).
2. Three letters of recommendation from persons familiar with applicant's academic ability and achievement.
3. Submission of scores on the Graduate Record Examination (GRE) (http://uwm.edu/graduateschool/admission/#gre) or the Graduate Management Admission Test (GMAT) (http://uwm.edu/graduateschool/admission/#gmat).

Candidates seeking admission to the MPA/MUP program must apply to and be admitted to both programs. The requirements for admission to the MUP program are detailed in the Urban Planning section of this Bulletin.

Credits and Courses
The Master of Public Administration degree requires satisfactory completion of 39-42 credits of prescribed graduate study and appropriate coursework.

Minimum Grade Requirements in the Core Courses
In order to demonstrate mastery of the critical Core Course material, MPA students must achieve a grade point average of 3.0 in the six Core Courses, and, regardless of average, students must earn a grade of B- or better in each Core Course. If a grade of C+ or lower is earned in any Core Course, that course must be repeated in an effort to earn the minimum grade of B-. If the student's grade point average in the six Core Courses is below 3.0, the student must repeat one or more Core Courses in which a grade of lower than B was earned in an effort to establish a grade point average of 3.0 in the Core. (For purposes of this requirement, the grade point average for the Core Courses will be calculated on the basis of only
the highest grade earned; that is, the grade earned in the first attempt at a
Core Course will not be averaged with the grade earned in the repeat.)

Core Requirements
Students entering the MPA program will be placed, at the discretion of the
MPA Director, in one of two tracks (A or B) within the core. The minimum
degree requirement is 39 credits for Track A students and 42 credits for
Track B students.

Capstone
PUB ADM 959 | Capstone Seminar in Public Administration ² | 3

Total Credits 39-42

¹ Waived for students with significant experience in the public or nonprofit sector; see Track A.
² Every student will be required to take the capstone seminar, PUB ADM 959. The course requirements will include the completion and written and oral presentation of a project on a topic selected with the assistance of the instructor. This course will also be devoted to coverage of special issues and problems of the public administration profession, including administrative ethics.

Track A
Students with significant public or nonprofit sector work experience may, at the discretion of the MPA Director, have the Government/Nonprofit Administrative Internship course (PUB ADM 921) waived. Students seeking placement in this track will need to meet with the MPA Director to discuss this possibility and will be required to provide documentation of current public or nonprofit sector work experience.

Track B
Students with no significant public or nonprofit sector work experience are required to enroll in and successfully complete PUB ADM 921. As part of the requirements for this course, Track B students are required to obtain, with the assistance of the MPA Director, one or more internships in either the public or nonprofit sector while enrolled in the MPA program.

Every student must select and complete the requirements for one of the following three concentrations:

**Municipal Management**

Program Requirements

Major Professor as Advisor
The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. A student who is not assigned to an advisor at the time of admission should immediately contact the Program Director.

Thesis
Not required.

Time Limit
The student must complete all degree requirements within seven years of initial enrollment. Students in the MPA/MUP program (see below) are allowed up to seven years to complete all requirements for both degrees.

Public Administration, MPA/Criminal Justice, MS
Both departments collaboratively offer a program designed to provide students with theoretical and practical exposure to evolving professional practice in the field of criminal justice.

Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Students are admitted to both graduate programs separately and admission requirements are consistent with those specified by the UWM Graduate School, the MS in Criminal Justice and the MPA program.

Credits and Courses
Students accepted into this MS/MPA program complete the following courses:

M.S. in Criminal Justice

Internship
PUB ADM 921 Public Service Administrative Internship

Total Credits 42

1 Every student will be required to take the capstone seminar, PUB ADM 959. The course requirements will include the completion and written and oral presentation of a project on a topic selected with the assistance of the instructor. This course will also be devoted to coverage of special issues and problems of the public administration profession, including administrative ethics.

2 An internship is mandatory for students with no public sector work experience.

Total Degree Credits for Master of Public Administration: 48-51 cr

The total credits for the coordinated program would typically be completed in both programs at the same time, rather than one program after the other. A student not completing the requirements for the coordinated degree program would need to complete all requirements for an individual program in order to receive a degree.

Program Requirements

Time Limit
Students in the coordinated MS/MPA degree program must complete all degree requirements within seven years of the first enrollment semester as a degree student.

Public Administration, MPA/Urban Planning, MUP

A coordinated degree program has been designed to allow students to obtain both the Master of Public Administration and the Master of Urban Planning degrees concurrently.

This program is intended to combine professional training in planning with applied administrative and managerial skills. The MPA/MUP requirements are described later in this section.

Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Credits and Courses
This program allows students to complete master’s degrees in Public Administration and in Urban Planning concurrently. The coordinated degree requires 42-45 credits of required courses and completion of a concentration in Public Administration (18 credits). However, because some courses completed for the core requirements of the MUP also may count toward the MPA concentration, students may complete the dual degree with a minimum of 54-57 credits. The total number of credits will depend on the student’s track and choice of concentration in public administration.

1 The internship requirement will be waived for students with significant public sector work experience.

Concentration Requirement (18 credits)
Completion of all the requirements for one of the concentrations in Public Administration. A maximum of six credits of MUP core courses may be used as electives in the MPA concentrations.

Program Requirements

Comprehensive Exam
Completion of the comprehensive exam in Urban Planning is required. (See Urban Planning)
QUANTITATIVE SOCIAL DATA ANALYSIS, UNDERGRADUATE CERTIFICATE

Aki Roberts, Associate Professor of Sociology, Co-Coordinator, aki@uwm.edu
Thomas Holbrook, Wilder Crane Professor of Government, Political Science, Co-Coordinator, holbroot@uwm.edu

The Certificate in Quantitative Social Data Analysis is structured to ensure that students are exposed to a breadth of data analysis topics, including research methods, Geographical Information System (GIS), multiple regression, and advanced electives on a variety of quantitative topics in various social science fields, as well as software packages that are in common use by potential employers. The program is interdisciplinary in that it draws on courses from 9 departments (Africology, Anthropology, Communications, Criminal Justice, Economics, Geography, Psychology, Political Science, and Sociology) in social science-related fields, but it is intended to complement students’ social science degree with additional concrete quantitative skills in social data analysis. Different majors have distinctive emphases in the topics that are most central to their practice of quantitative research, so that methods courses in different fields will significantly differ in their content. Therefore, the choice of courses embodied in the certificate program will allow students to focus their training in their own field, while still ensuring a strong base of general knowledge.

Eligibility
The certificate is open to current UWM undergraduates, UWM bachelor’s degree holders, or graduates of other accredited four-year colleges; to be admitted to the certificate program, students must have a current overall GPA of 3.0 at UWM or their bachelor’s degree institution. Students completing the certificate not in conjunction with a degree are not eligible for financial aid.

Requirements
To obtain the certificate, the student must obtain a grade of at least C in any course used to satisfy the certificate requirements, and a cumulative GPA of 3.0 over all courses used for the certificate. Twelve of the 15-18 required credits must be earned in residence at UWM. 9 of the credits must be on the 300-level or above. Courses for the certificate may not be taken on a credit/no credit basis.

Students currently enrolled at UWM who have fulfilled some of the program’s requirements prior to the program’s approval may have their credits applied retroactively to the certificate program.

Students are required to take one course each from 5 areas:

1. Introductory statistics (3-4 credits);
2. Research methods (3-4 credits);
3. GIS (3 credits);
4. Multiple regression (3 credits); and
5. Electives (3-4 credits).

1 Other courses not on this list but relevant to quantitative social data analysis may be accepted with the approval of the Certificate Program Coordinator. A student making such a request must submit syllabi from the courses involved to the coordinator.

Awarding the Certificate
Students currently involved in baccalaureate studies who successfully complete the requirements of the program will be awarded the certificate.
at the time of graduation. Students who already have a bachelor's degree will receive the certificate upon completion of the program requirements.
RELIGIOUS STUDIES

Meghan Murphy-Lee, PhD, Senior Lecturer, Director

The interdisciplinary major in religious studies draws on the resources of UWM faculty members with a teaching and research interest in religion. This program provides students with a broad humanistic background in religion and an opportunity to develop special concentrations in specific areas of interest. There is no sectarian program of instruction. Rather, faculty members bring to their teaching the special academic characteristics of their own scholarly disciplines, and majors in the program draw upon a wide sample of those academic traditions. Thus, such subjects as the history and philosophy of religion and religion in art and literature are included in this program. Students choose from courses that consider religion in a wide array of cultural and historical contexts around the globe, including Buddhist, Christian, Classical Greek and Roman, Hindu, Islamic, Jewish, African, and American Indian religions.

Religious studies serves students seeking a broadly humanistic program, those who are pursuing a wide range of pre-professional education programs, those anticipating teaching careers at the secondary or higher educational level, and those who will undertake further study for the religious ministry.

Programs
- Religious Studies, BA (p. 1738)
- Religious Studies, Minor (p. 1741)

Religious Studies Courses

RELIGST 101 Introduction to World Religions
3 cr. Undergraduate.
Basic concepts of world religions; broad overview of various religious traditions in ancient and modern configurations.
Prerequisites: none.
General Education Requirements: HU
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

RELIGST 106 Anishinaabe Ethnobotany: Plants in Anishinaabe Philosophy
3 cr. Undergraduate.
Anishinaabe philosophical and religious beliefs incorporating botanical knowledge.
Prerequisites: none.
Course Rules: AIS 106 & ReligSt 106 are jointly offered; they count as repeats of one another.
General Education Requirements: CD
Current Offerings: http://uwm.edu/schedule

RELIGST 192 First-Year Seminar:
3 cr. Undergraduate.
Specific humanities topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem Course (course numbers 192, 193, 194).
General Education Requirements: HU
Last Taught: Fall 2010.
Current Offerings: http://uwm.edu/schedule

RELIGST 193 First-Year Seminar:
3 cr. Undergraduate.
Specific social science topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem Course (course numbers 192, 193, 194).
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

RELIGST 199 Independent Study
1-3 cr. Undergraduate.
Independent work under supervision of faculty or academic staff member. For further information, consult dept chair.
Prerequisites: 2.5 GPA; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

RELIGST 225 Society and Religion in the Ancient Mediterranean and Near East
3 cr. Undergraduate.
Using historical evidence (written texts, material remains) to examine religion and social organization in ancient Mesopotamia, Egypt, Israel/Canaan, Minoan Crete, Mycenaean and archaic Greece.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

RELIGST 250 Selected Topics in Religious Studies:
3 cr. Undergraduate.
Focus on a particular religion or religious issue.
Prerequisites: Retakable w/chg in topic to 9 cr max.
General Education Requirements: OWCB
Current Offerings: http://uwm.edu/schedule

RELIGST 289 Internship in Religious Studies, Lower Division
1-6 cr. Undergraduate.
Application of basic principles of Religious Studies in business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; 2.50 gpa; cons supervising faculty member
Course Rules: One cr earned for academic work based on 40 hrs in internship. Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

RELIGST 296 UROP Apprenticeship
1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with a supervising member of the faculty or staff.
Prerequisites: acceptance to UROP; prior or conc reg in UROP seminar.
Course Rules: One credit for 45 hours research. Retakable to 9 cr max in any combination of UROP apprenticeship courses. Not open to jrs & srs.
Current Offerings: http://uwm.edu/schedule

RELIGST 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work levels, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: acceptance for Study Abroad Program
Course Rules: Retakable w/chg in topic.
Last Taught: Spring 2016, Fall 2012, Spring 2011.
Current Offerings: http://uwm.edu/schedule
RELIGST 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept and assoc dean approval. In exceptional circumstances, can be offered in one add'l semester.
Prerequisites: none. Additional prereqs may be assigned to specific topic.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

RELIGST 309 Early Christianity
3 cr. Undergraduate.
The early Christian period: what people believed and why; how Christianity was understood, practiced, and integrated into people's lives. Emergence from, contact with other religious cultures.
Prerequisites: jr st.
Course Rules: No cr for students w/cr in Hist 370 w/same topic.
Current Offerings: http://uwm.edu/schedule

RELIGST 350 Advanced Topics in Religious Studies:
3 cr. Undergraduate.
Advanced study of a particular religion or religious issue.
Prerequisites: jr st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

RELIGST 351 Anthropological Theories of Religion
3 cr. Undergraduate.
Anthropological theories of religion covering magic and witchcraft, moral order, sacred and profane, alienation, capitalism, neurosis, ritual, fetishism, fundamentalism, conversion, sacrifice, and healing.
Prerequisites: jr st.
Course Rules: Anthro 351 & ReligSt 351 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

RELIGST 361 Russian and Slavic Folklore
3 cr. Undergraduate.
Folk beliefs of the past thousand years, including medieval folk epics, fairy tales, and legends; impact of ancient pagan beliefs on contemporary Slavic cultures. Counts as repeat of Russian 391 w/same topic. ReligSt 361 & Russian 361 are jointly offered; they count as repeats of one another. Prereq; jr st.
Prerequisites: General Education Requirements: HU, OWCB
Current Offerings: http://uwm.edu/schedule

RELIGST 395 Seminar in the Study of Religion: Theories of Religion
3 cr. Undergraduate.
Critical inquiry into the questions of and about religion: what is religion, and how do we study it?
Prerequisites: jr st.
Last Taught: Fall 2015, Fall 2014, Fall 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

RELIGST 451 Religious Practices and Values in Local and Global Communities
3 cr. Undergraduate.
Religious practices and values of six major world religions are examined in order to promote understanding and cooperation within a diverse community.
Prerequisites: jr st.
Last Taught: Spring 2017.
Current Offerings: http://uwm.edu/schedule

RELIGST 489 Internship in Religious Studies, Upper Division
1-6 cr. Undergraduate.
Application of basic principles of Religious Studies in business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; 2.50 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hrs in internship. Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

RELIGST 497 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

RELIGST 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept and assoc dean approval. In exceptional circumstances, can be offered in one add'l semester.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

RELIGST 544 Religious Giving in Anthropological Perspective
3 cr. Undergraduate.
Application of basic principles of Religious Studies in business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Last Taught: Spring 2017.
Current Offerings: http://uwm.edu/schedule

RELIGST 545 Religious Giving in Anthropological Perspective
3 cr. Undergraduate.
Application of basic principles of Religious Studies in business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Last Taught: Spring 2017.
Current Offerings: http://uwm.edu/schedule

RELIGST 497 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

RELIGST 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept and assoc dean approval. In exceptional circumstances, can be offered in one add'l semester.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

RELIGST 699 Advanced Independent Study
1-3 cr. Undergraduate.
Advanced level independent work under the supervision of ReligSt faculty or academic staff member.
Prerequisites: jr st; 2.5 GPA; writ cons instr, dept chair, & asst dean for SAS
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule
Religious Studies, BA

Religious studies is an interdisciplinary major that draws on courses from multiple departments to give students a broad understanding of the historical, cultural and philosophical principles of the world's religions, including Buddhism, Christianity, Classical Greek and Roman religions, Hinduism, Islam, Judaism, African and Native-American religions. These diverse belief systems are studied not just for their influence over past generations but also to better understand their role in modern issues.

UWM students in Religious Studies take courses in history, anthropology, philosophy, political science, classics, art history, literature, and more. Many students also complement their major with studies in the foreign language since many religions have traditions and foundations in another language.

Students will also find a very active student organization - the Religious Studies Student Organization. The group brings in speakers and engages with the local community on scholarly topics of interest.

Double Major

It often is possible to complete a double major in Religious Studies and another subject. This is the case particularly when a student already has undertaken the major in the other field but has credits in religion courses as well. The student often can take courses that count for both Religious Studies and the other major. Interested students should consult with the Program Director.

Requirements

Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

University General Education Requirements (GER)

College of Letters & Science Requirements

I. English Writing Requirement

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

*Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.*

II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:
1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 103</td>
<td>Contemporary Applications of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 105</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>
<td></td>
</tr>
<tr>
<td>ANTHRO 568</td>
<td>Introduction to Anthropological Statistics</td>
<td></td>
</tr>
<tr>
<td>ATM SCI 500</td>
<td>Statistical Methods in Atmospheric Sciences</td>
<td></td>
</tr>
<tr>
<td>BIO SCI 465</td>
<td>Biostatistics</td>
<td></td>
</tr>
<tr>
<td>ECON 210</td>
<td>Economic Statistics</td>
<td></td>
</tr>
<tr>

</tr>
<tr>
<td>PHILOS 211</td>
<td>Elementary Logic</td>
<td></td>
</tr>
<tr>
<td>POL SCI 390</td>
<td>Political Data Analysis</td>
<td></td>
</tr>
<tr>
<td>POL SCI 392</td>
<td>Survey Research</td>
<td></td>
</tr>
<tr>
<td>PSYCH 210</td>
<td>Psychological Statistics</td>
<td></td>
</tr>
<tr>
<td>SOCIOL 261</td>
<td>Introduction to Statistical Thinking in Sociology</td>
<td></td>
</tr>
</tbody>
</table>

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

### IV. International Requirement

See Approved Courses for the L&S International Requirement (p. 1169) for course options.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Completed in one of the following ways: 1</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD+/+) designation, L&S students must complete the Breadth requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Completed in one of the following ways: 1</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above</td>
<td>9</td>
<td></td>
</tr>
<tr>
<td>Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Complete 9 credits in combination of the two options above.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### VI. Additional Requirements

Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

**Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

**Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.
VI. The Major
The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Religious Studies Major Requirements
The religious studies major requires completion of at least 33 credits, including at least 18 in upper-division courses (numbered 300 and above) of which at least 15 must be taken in residence at UWM. In satisfying these requirements, students must select courses from at least three different curricular areas. The College requires that students attain at least a 2.500 GPA on all major credits attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work. The required 33 credits must be distributed as follows:

<table>
<thead>
<tr>
<th>Core</th>
<th>Recommended</th>
</tr>
</thead>
<tbody>
<tr>
<td>RELIGST 101</td>
<td>Introduction to World Religions</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Required Methods</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td>HIST 594</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Required Capstone Experience 1</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select one of the following research options: 3</td>
</tr>
<tr>
<td>HIST 600</td>
</tr>
</tbody>
</table>

For students with additional major(s), upper-level research seminar in the additional major that focuses on a religion-related topic

A 3-credit independent study on a religion-related topic

Senior thesis in another program/department on a religion-related topic

Research paper focused on a religion-related topic as approved by the director

<table>
<thead>
<tr>
<th>Electives</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select 27 credits (see below) 27</td>
</tr>
<tr>
<td>Total Credits 33</td>
</tr>
</tbody>
</table>

1 In all cases, the religious studies director must approve the topic to satisfy the research requirement. Majors are required to file the appropriate research/capstone approval form prior to completion of their research/capstone course.

Electives
All majors are required to complete at least 27 additional credits beyond the core courses. Nine elective credits must be distributed among three different religious traditions. A religious tradition course must focus primarily (more than 50%) on one specific region. Twelve of these 27 credits must be numbered 300 or above. The list of approved electives is posted on the program’s website (http://uwm.edu/religiousstudies/undergraduate-programs/requirements).

Relevant language courses above the second semester will be counted as electives toward the Religious Studies major. Relevant languages depend on the student’s primary concentrations in religious studies but potentially include Arabic, Chinese, Japanese, Korean, Thai, Greek, Latin, Hebrew, German, Spanish, French, Italian, or other languages with approval of the director. Majors must file the appropriate forms with the director to receive approval for language courses.

Optional Concentration
Religious Studies majors have the option of focusing their programs of studies on one or more religious traditions. To discuss this option, please contact the Program Director.

Letters & Science Advising
The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the “Declaration of Major” information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.
Honors in the College of Letters and Science

Dean's Honor List
GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Contact Information
Current Students contact Senior Lecturer Meghan Murphy-lee, murphyle@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

Religious Studies, Minor

Religious studies is an interdisciplinary major or minor that draws on courses from multiple departments to give students a broad understanding of the historical, cultural and philosophical principles of the world's religions, including Buddhism, Christianity, Classical Greek and Roman religions, Hinduism, Islam, Judaism, African and Native-American religions. These diverse belief systems are studied not just for their influence over past generations but also to better understand their role in modern issues.

Religious Studies is not just for students planning to go on to become a priest, rabbi or minister. The program provides excellent preparation for all careers that require critical thinking, logic, analysis and writing skills. Because of the breadth of the subject matter, students graduate with a global perspective, an appreciation for different viewpoints and substantive knowledge about ethics and core belief systems of the past and present.

UWM students in Religious Studies take courses in history, anthropology, philosophy, political science, classics, art history, literature, and more. Many students also complement their major with studies in the foreign language since many religions have traditions and foundations in another language.

Students will also find a very active student organization - the Religious Studies Student Organization. The group brings in speakers and engages with the local community on scholarly topics of interest.

Requirements
The minor requires 18 credits in approved Religious Studies courses, including at least 9 upper-division (numbered 300 and above) credits taken in residence at UWM. Students must complete coursework from at least two different curricular areas. In addition, the minor must include courses dealing with two different religious traditions. (RELIGST 101 may not be used in fulfilling this requirement.) The College requires that students earn at least a 2.500 GPA on all UWM courses attempted for the minor. A 2.500 GPA also is required on all minor credits attempted, including any transfer work.

Contact Information
Current Students contact Senior Lecturer Meghan Murphy-lee, murphyle@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

SOCILOGY

Sociology is the study of patterns of social relations and how those patterns shape what people do and think. From community and conflict, family and inequality, social change and conformity, class and race, gender and work, few fields offer students such breadth in the study of the social world we all inhabit.

For undergraduates we offer an exciting array of classes, where students can study everything from human sexuality to the sociology of culture, from issues related to aging to pressing questions of inequality and poverty. Students have great opportunities to work closely with our faculty and teaching staff; our wide range of courses offers undergraduates both breadth and depth in their study of sociology.

For graduate students we offer an excellent Master's and PhD programs. Our MA program has long provided outstanding training as preparation for PhD programs or for work in non-profit organizations, businesses, and government agencies. Our PhD program offers advanced training, in general sociological theory and cutting edge methodologies for the analysis of social data, with particular emphasis on expertise in the analysis of social inequalities and social institutions.

Programs

- Sociology, BA (p. 1749)
- Sociology, MA (p. 1752)
- Sociology, Minor (p. 1754)
- Sociology, PhD (p. 1754)

Sociology Courses

SOCIOL 101 Introduction to Sociology
3 cr. Undergraduate.
Sociology as a special field of social science. The relationship of the work of the sociologist to contemporary society; an examination of the sociological perspective.
Prerequisites: none.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

SOCIOL 102 Solving Social Problems
3 cr. Undergraduate.
Examines problems relating to social inequality, troubled institutions, social control and social change. Explains how sociological theories can address these problems and improve communities.
Prerequisites: none.
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

SOCIOL 103 World Society
3 cr. Undergraduate.
Demographic and development trends related to political, economic, and eco-systems. Policy options and strategies regarding population growth, economic development, and selected institutional issues.
Prerequisites: none.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

SOCIOL 104 Introduction to Social Psychology
3 cr. Undergraduate.
An introduction to sociological social psychology, emphasizing such topics as the nature of self, identity, socialization, various aspects of social interaction, and dynamics of group behavior.
Prerequisites: none.
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

SOCIOL 150 Multicultural America
3 cr. Undergraduate.
Prerequisites: none.
Course Rules: Cultures and Communities Prog; req'd service learning component.
General Education Requirements: SS, CD
Last Taught: Summer 2016, Summer 2015, Summer 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

SOCIOL 193 First-Year Seminar
3 cr. Undergraduate.
The specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

SOCIOL 199 Independent Study
1-3 cr. Undergraduate.
For further information, consult dept chair.
Prerequisites: 2.5 gpa; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

SOCIOL 200 Contemporary American Society
3 cr. Undergraduate.
The patterns of social life in the United States; cultural orientations, social structures, and dynamics of social change.
Prerequisites: soph st or a Sociol 100-level course.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

SOCIOL 207 Work and Society
3 cr. Undergraduate.
The sociology of work; changes in the structure of work. Theory and research on work settings: occupations, professions, housework, work subterranean. The future of work.
Prerequisites: soph st or a Sociol 100-level course.
General Education Requirements: SS
Last Taught: Spring 2012, Fall 2011, Spring 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

</table>
**SOCIOL 290 International Migration:**
3 cr. Undergraduate.
Examines institutional, demographic, geo-political, and social psychological sources of human migration. Considers theories of and trends in migration with special focus on salient, current events.
**Prerequisites:** soph st or a Sociol 100-level course.
**Course Rules:** May not be retaken for cr.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 297 Study Abroad:**
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
**Prerequisites:** acceptance for Study Abroad Prog.
**Course Rules:** May be retaken w/chg in topic.
**Last Taught:** Fall 2017, Spring 2017, Fall 2016, Summer 2016.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 299 Ad Hoc:**
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
**Prerequisites:** none; add'l prereqs may be assigned to specific topic.
**Course Rules:** May be retaken w/chg in topic.
**Last Taught:** Fall 1995, Spring 1990, Fall 1989, Spring 1989.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 304 Political Sociology**
3 cr. Undergraduate.
Examination of structural and cultural factors as related to the nature of political systems; consideration of the organization and roles of political and para-political groups.
**Prerequisites:** jr st & any Sociol 100-level course.
**Last Taught:** Spring 2018, Spring 2017, Spring 2015, Fall 2005.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 305 Sociology of Sport**
3 cr. Undergraduate.
Social structure of sports in historic and contemporary contexts, with primary emphasis given to sports in the United States.
**Prerequisites:** jr st; any Sociol 100 or 200 level course.
**Last Taught:** Summer 2013, Summer 2012, Summer 2011, Summer 2010.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 307 Industrial Sociology**
3 cr. Undergraduate.
Industrial technological factors in community life; role of industrial workers, leaders, and organizations in the community; impact of industrialization on other institutions.
**Prerequisites:** jr st; a Sociol 100-level course.
**Last Taught:** Spring 2011, Fall 2010, Spring 2010, Fall 2009.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 308 Social Change in American Indian Societies**
3 cr. Undergraduate.
American Indian societal change studied from a combination of theoretical perspectives: examination of the variation in American Indian responses to Western political and economic impacts.
**Prerequisites:** jr st; any Sociol 100-level course or Sociol 224(P).
**Course Rules:** AIS 320 & Sociol 320 are jointly offered; they count as repeats of one another.
**General Education Requirements:** CD, SS
**Last Taught:** Fall 2011, Fall 2010, Fall 2009, Fall 2008.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 311 Contemporary Issues of the American Indian**
3 cr. Undergraduate.
Development of the institutional structure of American Indian affairs; current economic and social problems, contemporary manifestations of American Indian spirit, e.g. activism and cultural experiences.
**Prerequisites:** jr st; any Sociol 100-level course or Sociol 224(P).
**Course Rules:** AIS 321 & Sociol 321 are jointly offered; they count as repeats of one another.
**General Education Requirements:** CD, SS
**Last Taught:** Spring 2018, Spring 2011, Spring 2010, Spring 2009.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 312 Perspectives on Latino Communities**
3 cr. Undergraduate.
Sociological analysis of the experiences of Latinos. Examination of immigration and mode of incorporation from theoretical perspectives. Emphasis on Chicanos, Cubans, and Puerto Ricans.
**Prerequisites:** jr st & any Sociol 100-level course or cons instr.
**Course Rules:** Latino 323 & Sociol 323 are jointly offered; they count as repeats of one another.
**General Education Requirements:** SS, CD
**Last Taught:** Fall 2017, Spring 2016, Spring 2015, Spring 2014.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 313 Comparative Race Relations**
3 cr. Undergraduate.
Analysis of racial/ethnic relations in historical and cross-cultural perspective. Origin, persistence, adaptation, and change in patterns of race relations in various societies.
**Prerequisites:** jr st & Sociol 101(P) or 104(P).
**Last Taught:** Spring 2016, Fall 2015, Spring 2015, Fall 2014.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 320 Social Change**
3 cr. Undergraduate.
Study of change in society; integration and various theories of social change; examination of contemporary instances of social change.
**Prerequisites:** jr st & any Sociol 100-level course.
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 322 The Social Organization of Technology: A Comparative Perspective**
3 cr. Undergraduate.
Explores technological innovation, the diffusion of technology into practice, the relationship of technology to science, work and the control of work.
**Prerequisites:** jr st; a 100-level Sociol course.
**Last Taught:** Spring 2018, Fall 2017, Summer 2017, Fall 2016.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)
**SOCIOL 330 Economy and Society**  
3 cr. Undergraduate.  
The sociological perspective applied to economic phenomena, including production, distribution, consumption, exchanges of goods, a country’s economic development, and global market.  
**Prerequisites:** jr st & Sociol 100-level course.  
**Last Taught:** Summer 2017, Fall 2016, Summer 2016, Spring 2016.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 331 Sociology of Health Care**  
3 cr. Undergraduate.  
Cultural, social, and social-psychological factors in disease processes; distribution of disease; social definitions of illness; organization of health professions and health facilities.  
**Prerequisites:** jr st & Sociol 101(P) or 104(P).  
**Last Taught:** Fall 2017, Spring 2017, Fall 2016, Fall 2015.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 332 Small Groups**  
3 cr. Undergraduate.  
Defining structure and functions of the group. Developing understanding of group processes. Recognizing and defining leadership, cliques and factions.  
**Prerequisites:** jr st & any Sociol 100-level course.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 333 Social Class in Industrial Society**  
3 cr. Undergraduate.  
Comparative analysis of patterns of stratification in modern societies. Critical analysis of competing theories via examination of selected topics of theoretical significance.  
**Prerequisites:** jr st & any Sociol 100-level course.  
**Last Taught:** Fall 2016, Spring 2008, Fall 2006, Summer 2006.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 341 Sociology of Deviant Behavior**  
3 cr. Undergraduate.  
Analysis of the ways in which deviant behavior is socially constructed, individuals are labeled and stigmatized as deviants, and mechanisms of social control are activated or challenged.  
**Prerequisites:** jr st & any Sociol 100-level course.  
**Last Taught:** Spring 2018, Fall 2017, Summer 2017, Spring 2017.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 342 Sociology of Law**  
3 cr. Undergraduate.  
Examination of law as a social institution, the functions of law, evolution of legal systems, law and other social institutions, the legal profession.  
**Prerequisites:** jr st & Sociol 101(P) or 104(P).  
**Last Taught:** Spring 2018, Spring 2017, Fall 2016, Spring 2016.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 343 Collective Behavior**  
3 cr. Undergraduate.  
Dynamic aspects of social and institutional change. The breakdown and transformation of the social system through cultural drift, collectivities, and social movements. Recruitment, ideology, and leadership.  
**Prerequisites:** jr st & Sociol 101(P) or 104(P).  
**Last Taught:** Spring 2017, Fall 2016, Spring 2015, Fall 2014.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 344 Research Methods in Sociology**  
3 cr. Undergraduate.  
Scientific methods in the analysis of society, procedures in problem definition, hypotheses/construction, and collection, and evaluation of data.  
**Prerequisites:** jr st; 9 cr Sociol, Sociol 261(P) or approved stats course.  
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 345 History of Sociological Theory**  
3 cr. Undergraduate.  
Critical survey of ideas about society centered on thinkers up to the twentieth century.  
**Prerequisites:** jr st; 9 cr Sociol.  
**Last Taught:** Spring 2018, Fall 2017, Summer 2017, Spring 2017.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 346 Modern Sociological Theory**  
3 cr. Undergraduate.  
Major theoretical paradigms including functionalism, conflict and dialectical models, exchange theory, symbolic interactionism, and social phenomenology.  
**Prerequisites:** Sociol 375(P).  
**Last Taught:** Spring 2018, Fall 2017, Summer 2017, Spring 2017.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 347 Urbanism and Urbanization**  
3 cr. Undergraduate.  
Theoretical perspectives, substantive themes, and methodological approaches to the study of cities. Impact of historical development and changing spatial patterns on social behavior in metropolitan areas.  
**Prerequisites:** jr st & a Sociol 100-level course; or Urb Std 250(P).  
**Course Rules:** Sociol 377 & Urb Std 377 are jointly-offered; they count as repeats of one another.  
**Last Taught:** Spring 2018, Spring 2017, Spring 2016, Spring 2015.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 348 Honors Seminar**  
3 cr. Undergraduate.  
Selected topics in sociology  
**Prerequisites:** soph st; Honors 200(P); cons Honors College dir.  
**Course Rules:** May be retaken w/chg in topic to 9 cr max.  
**General Education Requirements:** SS  
**Last Taught:** Fall 2017, Fall 2010, Fall 2006, Spring 2004.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 350 Independent Study-Upper Division**  
1-3 cr. Undergraduate.  
Independent work in specific areas of sociology under supervision.  
**Prerequisites:** jr st; 2.5 gpa; writ cons instr, dept chair, & asst dean for SAS.  
**Course Rules:** May be retaken w/chg in topic to 6 cr max.  
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**SOCIOL 351 Sociology and Social Policy**  
3 cr. Undergraduate.  
Examination of the uses of sociological theory and research in the formulation, implementation, and evaluation of social policy.  
**Prerequisites:** jr st; any Sociol 100-level course.  
**Last Taught:** Spring 2013, Spring 2012.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)
SOCIOL 423 Latino Immigration and Incorporation:
3 cr. Undergraduate/Graduate.
Latino institutional, geo-political, demographic, comparative, and social
network theoretical perspectives on migration to and incorporation into
the United States.
Prerequisites: jr st; 3 cr in Sociol at 200-level or above or cons instr; addl
prereqs may be assigned for specific topics.
Course Rules: May be retaken w/chg in topic to 6 cr max. Latino 423 &
Sociol 423 are jointly offered; w/same topic, they count as repeats of one
another.
Current Offerings: http://uwm.edu/schedule

SOCIOL 440 Sociology of the Family
3 cr. Undergraduate/Graduate.
Family patterns and ideologies in relation to broader social structure and
culture, sources of variety and change in household, family, and kinship
organization.
Prerequisites: jr st; 6 cr in Sociol at 200-level or above.
Current Offerings: http://uwm.edu/schedule

SOCIOL 442 The Work-Family Intersection
3 cr. Undergraduate/Graduate.
Social forces shaping work and family patterns and ideologies;
implications of social change for employers, workers, and families; survey
of work-family policies.
Prerequisites: jr st; 6 cr 200-level or above Sociol.
Course Rules: No cr for students w/cr in Sociol 495 w/similar topic.
Last Taught: Fall 2016, Fall 2014, Spring 2012.
Current Offerings: http://uwm.edu/schedule

SOCIOL 443 Organizations, Occupations, and Professions
3 cr. Undergraduate/Graduate.
Development of occupations and professions in industrial societies.
Study of professional concepts, ethical codes, work norms, specialization,
recruitment, education, and work roles in an organizational context.
Prerequisites: jr st & Sociol 101(P) or 104(P); or grad st.
Current Offerings: http://uwm.edu/schedule

SOCIOL 444 Sociology of the Body
3 cr. Undergraduate/Graduate.
How the body is shaped by social forces. Relationship between the body,
identity, and culture, focusing on gender, race/ethnicity, and disability.
Prerequisites: jr st & any Sociol course; or grad st.
Last Taught: Fall 2017, Spring 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

SOCIOL 448 Sociology of Children and Adolescents
3 cr. Undergraduate/Graduate.
Theoretical perspectives and research methods addressing substantive
issues in children's and adolescents' lives, including peer cultures,
schooling, families, gender, race, class, health, and work.
Prerequisites: jr st & any Sociol course; or grad st.
Current Offerings: http://uwm.edu/schedule

SOCIOL 450 Environmental Sociology
3 cr. Undergraduate.
Sociological analysis of the interaction between humans, their artifacts,
and the natural environment.
Prerequisites: jr st & Sociol 101(P).
Last Taught: Fall 2016, Spring 2015, Spring 2014, Fall 2012.
Current Offerings: http://uwm.edu/schedule

SOCIOL 452 Social Networks in Global Commerce
3 cr. Undergraduate.
Social networks that connect business people and companies; how
networks mediate activities in a global economy; how networks are
shaped by national culture and institutions.
Prerequisites: jr st, Sociol 261(P) or approved stats course; or grad st.
Last Taught: Spring 2014.
Current Offerings: http://uwm.edu/schedule

SOCIOL 461 Social Data Analysis Using Regression
3 cr. Undergraduate/Graduate.
Advanced practical training in multivariate regression using real, large
datasets (surveys, census data, etc.); how multiple independent variables
influence a dependent variable. No cr for students w/cr in Sociol 499 with
similar topic.
Prerequisites: jr st, Sociol 261(P) or approved stats course; or grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

SOCIOL 472 Population and Society
3 cr. Undergraduate/Graduate.
Concepts and methodology of demographic analysis. Nature and
framework of population theories and research. Consideration of the
social and economic determinants and consequences of trends in
mortality, fertility, and migration.
Prerequisites: jr st; 9 cr in Sociol at 200-level or above.
Current Offerings: http://uwm.edu/schedule

SOCIOL 476 Sociology of International Public Health
3 cr. Undergraduate/Graduate.
Social, economic, and political factors that influence inequality in health
at the global level; interacting influence of micro and macro forces on
public health.
Prerequisites: jr st; 9 cr in Sociol at 200-level or above; or grad st.
Last Taught: Spring 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

SOCIOL 489 Internship in Sociology, Upper Division
3 cr. Undergraduate.
Application of advanced principles of sociology in a business,
organization, educational, political or other appropriate setting; includes
course work and 120 hrs field work.
Prerequisites: jr st; declared Sociol major or minor; Sociol 361(P); 2.75
GPA; cons supervising faculty member.
Current Offerings: http://uwm.edu/schedule
SOCIOL 493 Capstone Seminar in Sociology
3 cr. Undergraduate.
Summary and integration of ideas from diverse Sociology courses. For Sociol majors in their last year of study.
Prerequisites: sr st; declared Sociol major; grade of C or better in English 102(P) or score at level 4 on EPT.
Current Offerings: http://uwm.edu/schedule

SOCIOL 495 Seminar in Sociology:
3 cr. Undergraduate/Graduate.
Intensive study in a selected area of Sociology. Designed to encourage discussion, debate, and critical thinking.
Prerequisites: jr st; 6 cr 200-level or above Sociol or cons instr.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Last Taught: Fall 2012, Spring 2011, Spring 2010, Fall 2009.
Current Offerings: http://uwm.edu/schedule

SOCIOL 497 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2017, Summer 2017, Fall 2016, Spring 2016.
Current Offerings: http://uwm.edu/schedule

SOCIOL 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2013, Fall 2007, Fall 2004, UWinteriM 2003.
Current Offerings: http://uwm.edu/schedule

SOCIOL 610 Reproduction of Minority Communities
3 cr. Undergraduate/Graduate.
Analysis of the social, economic, and cultural forces behind the formation and reproduction of minority and disadvantaged communities in the United States.
Prerequisites: jr st; any Sociol 100-level course.
Course Rules: Jointly-offered w/ & counts as repeat of Ed Pol 610.
Current Offerings: http://uwm.edu/schedule

SOCIOL 697 Organizational Admin Capstone
3 cr. Undergraduate.
Internship, case analysis, or independent study that synthesizes course work in graded paper.
Prerequisites: sr st; declared org adm major; satisfaction of GER English Composition competency req; cons instr.
Course Rules: Commun 697, Econ 697, & Sociol 697 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

SOCIOL 701 Professional Seminar
1 cr. Graduate.
Fundamentals of academic and sociological reading, writing, and thinking. Orientation to graduate study, the sociological profession, and the tools of sociological research.
Prerequisites: grad st
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

SOCIOL 704 Seminar in Nonprofit Organizations
3 cr. Graduate.
Overview of structure, functions, and governance of nonprofit organizations. Comparison with government and for-profit organizations.
Prerequisites: grad st.
Course Rules: Nonprof 704, Pol Sci 704, Sociol 704, & Urb Std 704 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

SOCIOL 715 Systematic Sociological Theory
3 cr. Graduate.
A general examination of sociological theories, their construction, problems of conceptualization, and methodological requirements.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

SOCIOL 750 Research Methods in Sociology
3 cr. Graduate.
Application of scientific methods to the analysis of social phenomena, methodological orientations in sociology, types of research procedure, and nature of sociological variables.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

SOCIOL 752 Fundamentals of Survey Methodology
3 cr. Graduate.
Seminar in the principles of survey design that are the basis of standard practices in the field of sociology.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

SOCIOL 754 Questionnaire Design
3 cr. Graduate.
Seminar in the design, evaluation, pretesting, ordering, and formatting of questions and questionnaires.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

SOCIOL 760 Advanced Statistical Methods in Sociology
3 cr. Graduate.
Prerequisites: grad st; score of 85 on dept diagnostic examination.
Current Offerings: http://uwm.edu/schedule
SOICOL 790 Master's Level Thesis/Paper
1-6 cr. Graduate.
Research or thesis/paper work for students in the master's program in sociology.
Prerequisites: grad st; cons instr
Current Offerings: http://uwm.edu/schedule

SOICOL 794 Proseminar: The Teaching of Undergraduate Sociology
1 cr. Graduate.
Designed to prepare and support new teachers of undergraduate Sociology.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

SOICOL 799 Master's Level Reading and Research
1-3 cr. Graduate.
Independent study of a topic selected by a student after consultation with member of graduate faculty.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

SOICOL 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirements.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Current Offerings: http://uwm.edu/schedule

SOICOL 901 Seminar: Urban Social Structure
3 cr. Graduate.
Comprehensive analysis of the emergence and institutionalization of cultural and social patterns in urban settings; and future American urban social structures.
Prerequisites: grad st.
Course Rules: Sociol 901 & Urb Std 901 are jointly-offered & count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

SOICOL 910 The Sociology of Inequality
3 cr. Graduate.
Social, economic, cultural, and political forces behind the formation and reproduction of social inequalities in the United States.
Prerequisites: grad st.
Last Taught: Fall 2016, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

SOICOL 911 The Sociology of Institutions
3 cr. Graduate.
Social institutions as a foundational sociological concept. Theory and research on institutional emergence, persistence, and change.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

SOICOL 920 Seminar in Race and Ethnic Relations
3 cr. Graduate.
Patterns of racial and ethnic differentiation and how they originate and change over time.
Prerequisites: grad st.
Last Taught: Fall 2013, Fall 2010, Fall 2003, Fall 2000.
Current Offerings: http://uwm.edu/schedule

SOICOL 923 Seminar on the Sociology of Culture
3 cr. Graduate.
Selected themes in the sociology of culture, including symbols, language, forms of knowledge, power and practice, the arts, and media.
Prerequisites: grad st
Course Rules: No cr for students w/cr in Sociol 927 w/same title.
Current Offerings: http://uwm.edu/schedule

SOICOL 927 Seminar in Sociology of Contemporary Institutions:
3 cr. Graduate.
Analysis of major social institutions in modern societies in terms of status orders, division of labor, normative systems, processes of social change, and conflict. Specific topics and any additional prerequisites announced in Schedule of Classes each time course is offered.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic & cons adviser to 9 cr max.
Last Taught: Fall 2017, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

SOICOL 928 Seminar in Social Organization:
3 cr. Graduate.
Study of conceptual approaches used in analyzing social organization: social stratification, complex organization, urbanization, small groups in mass society. Specific topics and any additional prerequisites announced in schedule of classes each time course is offered.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic & cons advisor to 9 cr max.
Last Taught: Fall 2017, Spring 2016, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

SOICOL 940 Applied Gerontology Capstone I
2 cr. Graduate.
Professional socialization seminar emphasizing the interdisciplinary nature of gerontology and exposing students to professional and library resources for continuing professional development.
Prerequisites: grad st; Nurs 760(P) & Soc Wrk 851(P).
Course Rules: Sociol 940 and Soc Wrk 940 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2008, Fall 2007, Fall 2005.
Current Offerings: http://uwm.edu/schedule

SOICOL 941 Applied Gerontology Capstone II
2-3 cr. Graduate.
Teamwork applied research project conducted in collaboration with a community-based organization that serves the elderly; presentation of findings to a professional audience.
Prerequisites: grad st; Sociol or Soc Wrk 940(P).
Course Rules: Sociol 941 and Soc Wrk 941 are jointly offered; they count as repeats of one another. Students who intend to prepare a manuscript for publication enroll for 3 crs; all others enroll for 2 crs.
Current Offerings: http://uwm.edu/schedule
Sociology, BA

The field of Sociology aims to understand human actions - how they influence and shape society and how society collectively influences and shapes human behavior. Sociological theory can touch on almost every topic conceivable because everything involves people: personal relationships, workplace structure, the communities where we live, social movements, the global reach of media and business, and more.

Everyone is part of a society, be it your local community, your ethnic group, your religious organization, your State, a sports team, or many other types of groupings. The Sociology major at UWM offers students a chance to better understand the world at large, and more specifically the people within it. Students explore the causes and consequences of human behavior including topics such as crime, population shifts, housing patterns, racism, gender, the legal system, organized sports, political beliefs, family structure, workplace organization, urban gardening, and more.

UWM students in Sociology can customize their major. Beyond the core courses that all majors take, students have many electives to choose from, and they can take a broad array of courses or become more specialized by choosing electives focused around particular topics of interest. Our graduates are known for their strong knowledge of the field as well as exceptional technical skills that are highly desirable. Sociology is a social science and relies on data, statistics and research to form theories and draw conclusions. Students in UWM’s Sociology program learn how to process, analyze and synthesize large volumes of information in a logical and consistent manner using the latest software
tools, a skill that has gotten them noticed by employers from all types of businesses who rely on data to make business decisions.

Sociology is also one of our majors available entirely online for students that wish to earn their degree from a distance. All classes required for the major can be taken online, or students can mix-and-match and take a some online and some traditional classes.

Requirements
Course of Study — Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

Two semesters (college) of a single foreign language
Or equivalent

UWM Cultural Diversity Requirement
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement

College of Letters & Science Requirements

I. English Writing Requirement
Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning
To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>

</tbody>
</table>
requirement.

Diversity (CD/+) designation, L&S students must complete the Breadth (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity requirement.

3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD) designation; no more than 6 credits from a single curricular area.

** Natural Sciences
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area.

** Cultural Diversity
Complete 3 credits in a course with Cultural Diversity (CD) designation.

* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

III. Foreign Language Requirement
Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

<table>
<thead>
<tr>

Completed in one of the following ways: 1

Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above

Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.

Complete 9 credits in combination of the two options above.

V. Breadth Requirement
Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+ designation, L&S students must complete the Breadth requirement.

<table>

</tbody>
</table>

Arts
Select 3 credits

Humanities
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area.

Social Sciences

VI. The Major
The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Sociology Major Requirements
Students must complete at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM. The College requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work.

The major in sociology requires a minimum of 30 credits including the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Required

SOCIOL 261 Introduction to Statistical Thinking in Sociology 1

SOCIOL 361 Research Methods in Sociology (satisfies L&S research requirement)

SOCIOL 375 History of Sociological Theory

SOCIOL 376 Modern Sociological Theory

Additional Requirements
Select 18 additional credits

Total Credits

30
1 With the approval of the undergraduate advisor, students who have completed an elementary statistics course in another discipline may be exempted from the SOCIOL 261 requirement.

At least 15 credits must be in upper-division (300 level and above) sociology courses taken in residence at UWM.

Majors who began their undergraduate studies between 1998-99 and summer 2006 may need to complete different requirements. Please contact the Sociology Department for further information.

Students in the Schools of Education and Social Welfare should consult their programs regarding social science requirements.

Sociology courses often are cross-listed with several certificate programs and interdepartmental majors.

**Declare Your Sociology Major with a Faculty Advisor**

Students wishing to declare a Sociology major may do so in-person or on-line. For more information, please visit this page (http://uwm.edu/sociology/undergraduate/declare-major-minor).

**Letters & Science Advising**

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus' general education requirements and the College's degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science-advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmiwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a.uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

**Honors in the Major**

Sociology majors who have maintained at least a 3.00 GPA overall, a 3.50 GPA in all courses attempted for the major, and a 3.50 in all advanced-level (numbered 300 and above) courses attempted for the major are awarded the distinction "Honors in the Major" when they graduate. An "Honors in the Major" notation will appear on the student's transcript.

**Sociology Honor Society & Awards**

In addition, majors and minors who maintained at least a 3.00 GPA overall and a 3.30 GPA in courses taken for the major are invited to join Alpha Kappa Delta, the International Sociology Honor Society. Sociology faculty members annually select academically talented majors or minors for both the "Distinguished Scholar Award" as well as the "Joan W. Moore Service Scholar Award." Both awards are presented to an accomplished junior or senior in the major or minor each spring at the department's award ceremony.

**Honors in the College of Letters and Science**

**Dean’s Honor List**

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.50 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**

Earned on a minimum of 60 graded UWM credits:
- Cum Laude - 3.500 or above
- Magna Cum Laude - 3.650 or above
- Summa Cum Laude - 3.800 or above

**Contact Information**

Current Students contact the Department directly, sociology@uwm.edu

Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

https://uwm.edu/sociology/undergraduate/

**Sociology, MA**

The Master of Arts (MA) Degree Program in Sociology at the University of Wisconsin-Milwaukee offers a flexible and varied program of study to students who wish to specialize in one of the discipline's subfields. The program provides students with balanced and comprehensive training
in sociological theory, research methodology and social statistics, which will prepare students for a variety of careers as well as continued study leading to the PhD degree.

**Application Deadlines**

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**

New graduate students are admitted to the MA Program in Sociology only for the fall semester. Completed applications should be received by the department no later than January 10th of the year the applicant intends to start.

All applicants must meet the UWM Graduate School’s requirements for admission to the MA program in Sociology. In addition, applicants to the MA program must:

1. Provide three letters of recommendation from persons, preferably faculty, familiar with the applicant's scholastic achievement and potential.
2. Submit a sample of scholarly writing, a minimum of five pages in length.

**Financial Aid**

The major source of financial assistance for graduate students in sociology is employment as a teaching assistant. Assistantships are awarded every academic year on a competitive basis and may be renewed for an additional year; they include a stipend, full tuition remission and eligibility for low-cost health insurance. To apply for a teaching assistantship, students should complete a Teaching Assistantship Interest Form and submit it to the Director of Graduate Studies. The deadline for receipt of that form is January 10th.

Graduate students also are eligible for fellowships awarded by the Graduate School on a competitive basis. Additional information on the types and availability of fellowships may be obtained directly from the Graduate School.

**Advising Procedures**

Upon admission, the Director of Graduate Studies will serve as the student's advisor. An initial advisor will be assigned in the student's first semester in residence. The initial advisor assists students in planning their course programs, and in scheduling other degree requirements.

When the MA student begins to formulate a topic for a thesis, a master's paper, or MA examination, the student selects a member of the Sociology Graduate Faculty as her/his committee chair. This person then becomes the student's main curriculum advisor for the remainder of the time in the program.

**Credits and Courses**

The MA in Sociology requires a minimum of 30 graduate credits.

Select 17 elective credits in consultation with advisor 17

Total Credits 30

Up to five credits of SOCIOL 790, may be taken by students who elect the thesis/paper capstone option.

With permission of the student's advisor, up to six graduate credits may be taken outside the department in courses related to the individual's plan of study. No more than six credits of undergraduate/graduate courses (excluding those previously taken as an undergraduate), taken at the graduate level, may be applied toward meeting degree requirements. No more than six credits in SOCIOL 799 may count toward the degree.

**Good Standing**

To retain good standing in the Department of Sociology, an enrolled graduate student must maintain a minimum 3.0 cumulative GPA and demonstrate progress toward completion of the course and/or thesis requirements each semester.

**Thesis, Master's Paper, or the MA Examination Options**

The student must write and defend an acceptable thesis, a master’s paper, or write an examination in fulfillment of the requirements for the Master of Arts degree in Sociology.

**Thesis or Master's Paper**

The thesis or master’s paper is intended to be a relatively limited research exercise, focused on a manageable topic. It does not necessarily have to involve original research. It is completed through enrollment in SOCIOL 790. Acceptable thesis or master's paper options include, but are not limited to, collection of data for hypothesis testing or exploratory research, secondary analysis of available data, theoretical critique, conceptual analysis and library research on a clearly defined problem. In general, students are encouraged to utilize existing data rather than collect new data unless they are confident that they have adequate resources (including time) to collect data sufficient for their purposes.

By the end of the third semester, students should complete a proposal for the MA thesis or paper. The proposal will reflect the formulation of a research problem and the development of a plan for its empirical investigation. Once a proposal is successfully defended, it constitutes an agreement between the student and the MA committee.

Students must prepare the thesis or master's paper under the direction of their committee, receive approval that it meets professional standards, and defend it at an oral examination. The master's paper is normally the length of a journal article (about 30 pp.). Students who choose to write a thesis should consult the Graduate School Thesis and Dissertation Formatting (http://uwm.edu/graduateschool/thesis-dissertation-formatting) page. The thesis must be prepared according to these format requirements.
MA Examination

The Master of Arts examination option is based on a bibliography developed by the student in consultation with his/her committee. The bibliography will represent both classical statements and recent debates in at least one area of sociological specialization. Students are encouraged to develop the bibliography by the end of the third semester of residence.

The examination itself will be a set of three questions developed by the MA committee, from which the student must choose two. The student will have two weeks to write a take-home examination. The advisor and two other faculty members will grade the examination. Within two weeks of the completion of the written examination, there will be an oral examination on the same material.

Time Limit

The student must complete all degree requirements within five years of initial enrollment.

Sociology, Minor

The field of Sociology aims to understand human actions - how they influence and shape society and how society collectively influences and shapes human behavior. Sociological theory can touch on almost every topic conceivable because everything involves people: personal relationships, workplace structure, the communities where we live, social movements, the global reach of media and business, and more.

Everyone is part of a society, be it your local community, your ethnic group, your religious organization, your State, a sports team, or many other types of groupings. The Sociology minor at UWM offers students a chance to better understand the world at large, and more specifically the people within it. Students explore the causes and consequences of human behavior including topics such as crime, population shifts, housing patterns, racism, gender, the legal system, organized sports, political beliefs, family structure, workplace organization, urban gardening, and more.

UWM students in Sociology can customize their minor. Beyond the core courses that everyone takes, students have many electives to choose from, and they can take a broad array of courses or become more specialized by choosing electives focused around particular topics of interest. Sociology is a social science and relies on data, statistics and research to form theories and draw conclusions. Students in UWM’s Sociology program learn how to process, analyze and synthesize large volumes of information in a logical and consistent manner using the latest software tools, a skill that has gotten them noticed by employers from all types of businesses who rely on data to make business decisions.

The Sociology minor is available entirely online for students that wish to earn their degree from a distance. All classes required for the minor can be taken online, or students can mix-and-match and take a some online and some traditional classes.

Requirements

Students must complete at least 9 upper-division (numbered 300 and above) credits in the minor in residence at UWM. The College requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work.

The minor in sociology requires 18 credits distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOCIOL 261</td>
<td>Introduction to Statistical Thinking in Sociology</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 361</td>
<td>Research Methods in Sociology</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 375</td>
<td>History of Sociological Theory</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Select any two additional sociology courses at the 300 level or above (minimum 6 credits)</td>
<td>6</td>
</tr>
<tr>
<td>Electives</td>
<td>Select 3 credits of SOCIOL at any level</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Total Credits</td>
<td>18</td>
</tr>
</tbody>
</table>

1. With the approval of the undergraduate advisor, minors may substitute an elementary statistics course from another discipline for the SOCIOL 261 requirement.
2. Those who have completed a methods course in a related discipline may be exempted from the SOCIOL 361 requirement, with the approval of the undergraduate advisor. Students who receive exemption from SOCIOL 361 must take an additional upper-division Sociol course for the minor.

Declare Your Sociology Minor with a Faculty Advisor

http://uwm.edu/sociology/undergraduate/declare-major-minor/

Contact Information

Current Students contact the Department directly, sociology@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at
(414) 229-7711 or let-sci@uwm.edu
https://uwm.edu/sociology/undergraduate/

Sociology, PhD

The Doctor of Philosophy in Sociology provides study and training for entry into academic and professional careers that would require theory-driven basic or applied research on social issues and phenomena. The program develops student expertise in general sociological theory and advanced methodologies for the analysis of social data, with particular emphasis on expertise in the analysis of social inequalities and social institutions.

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

New graduate students are admitted to the PhD Program in Sociology only for the fall semester. Completed applications should be received by the department no later than January 10th of the year the applicant intends to start.
An applicant must meet the UWM Graduate School's requirements for admission to the PhD program in Sociology. In addition, applicants to the PhD program must:

1. Possess a master's degree in Sociology or be in the process of completing a master's degree at the time of application, with the expectation of completion of the degree prior to beginning the PhD program.
   a. Students without a master's degree in sociology are eligible for admission to the PhD program if:
      i. they have a bachelor's degree in sociology or a related field and they show exceptional preparation for graduate school or
      ii. they have a master's degree in a closely related field.
   b. In addition to the requirements for the PhD, all students must
      i. complete the required courses for the master's degree in sociology or comparable courses from other institutions and
      ii. earn or transfer 24 credits in graduate-level work in sociology or a closely related field. If fewer than 24 credits are ruled acceptable for the doctoral program, the student will have to make up those credits.
2. Submit a copy of the applicant's MA thesis or paper, or, if an applicant did not complete a thesis, a scholarly writing sample of original sociological research.
3. Provide three letters of recommendation from persons, preferably faculty, familiar with the applicant's scholastic achievement and potential.
4. Submit a cogent personal statement detailing the individual's reasons for pursuing doctoral study in Sociology.
5. Submit GRE (http://uwm.edu/graduateschool/admission/#gre) scores taken within the last five years.

**Financial Support**
The major source of financial assistance for graduate students in sociology is employment as a teaching assistant. Assistantships are granted every academic year on a competitive basis and may be renewed for an additional three years and include a stipend, full tuition remission and eligibility for low-cost health insurance. To apply for a teaching assistantship, students should complete a Teaching Assistantship Interest Form and submit it to the Director of Graduate Studies. The deadline for receipt of that form is January 10th.

Graduate students also are eligible for fellowships awarded by the Graduate School on a competitive basis. Additional information on the types and availability of fellowships may be obtained directly from the Graduate School.

**Reappplication/Readmission**
Students who receive the MA in Sociology from UWM must reapply to be considered for admission into the PhD program.

**Major Professor or Advisor**
Each new student will be assigned an initial advisor from among the department's faculty. By the second year in the program, students will be expected to select their own major advisor and, in consultation with this advisor, a committee for preliminary examinations and the dissertation. The major advisor for each student, assisted by the student's dissertation committee and the director of graduate studies, will take primary responsibility for guiding the student successfully through the program and into the labor market and career opportunities.

**Credits and Courses**
The program will require 36 graduate credits of coursework at the post-master's level. We expect entering students to have completed the following courses or their equivalents in the process of earning a master's degree:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOCIOL 715</td>
<td>Systematic Sociological Theory</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 750</td>
<td>Research Methods in Sociology</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 760</td>
<td>Advanced Statistical Methods in Sociology</td>
<td>3</td>
</tr>
</tbody>
</table>

Students who have not taken these courses prior to admission to the PhD program will be required to complete them in the first year of their pursuit of a doctoral degree. Credits earned in these courses will not count as part of the 36 credits required at the post-master's level.

At the PhD level, students must complete the following coursework:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOCIOL 910</td>
<td>The Sociology of Inequality</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 911</td>
<td>The Sociology of Institutions</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 982</td>
<td>Advanced Quantitative Analysis</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Select one additional elective course in social science methodology</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Social Inequalities</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>Social Institutions</td>
<td></td>
</tr>
<tr>
<td>Electives</td>
<td>Select at least 9 elective credits</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>Select up to 6 dissertation credits</td>
<td>6</td>
</tr>
<tr>
<td>Additional Requirement</td>
<td>Ph.D. students with Teaching Assistant positions must complete the following 1 credit course (which is offered each spring):</td>
<td>0-1</td>
</tr>
<tr>
<td></td>
<td>SOCIOL 794 Proseminar: The Teaching of Undergraduate Sociology</td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits**

|                | 36-37 |

Doctoral students may not accumulate more than 6 credits in U/G courses nor more than 6 credits of independent study without the approval of the Sociology Director of Graduate Studies. Of the 60 required credits, no more than 12 credits outside of Sociology may be counted toward the doctoral degree without the approval of the Sociology Director of Graduate Studies.

**Foreign Language or Specialized Skill**
This requirement may be satisfied by demonstrating one of the following:

- Proficiency in a foreign language useful in the student's career, indicated by the completion of two courses at the upper division level (numbered 300 and above or requiring junior standing) with at least a B average. Credits satisfying this requirement will not count toward the credits required for the PhD degree.
- Proficiency in mathematical, statistical, or computer skills. Completion of the required methods and statistics sequence
Preliminary Examination

All doctoral students are required to complete preliminary examinations in two specialty areas after completing 27 credits at the post-master’s level. The areas are selected by the doctoral candidate in consultation with the student’s advisor and other members of the graduate faculty. Examination areas are limited to those subfields or subdisciplines that are within the student’s area of specialization and widely recognized areas within sociology. The disciplinary subfields must be broader than, but related to, the focus of the student’s dissertation and must be approved by the Department’s Graduate Studies Committee. Examinations will consist of the student answering three or more questions from a list containing at least five, as determined by the student's committee. Candidates write their answers on one full day in September and March.

An empirical or substantive paper may be substituted for one preliminary examination. The empirical paper is read and evaluated by two members of the graduate faculty in sociology, in addition to the student’s major professor. The length and quality of the paper should be similar to that of a journal article. Students should use the format for the journal to which they would like to submit the paper. The paper also may be in the style of a full length Annual Review of Sociology piece or similar article.

Students who do not pass an examination on the first attempt will be provided feedback on their performance and be allowed to take the exam a second time but must do so within 9 months of the administration of the first exam. Students who do not complete the examination successfully upon the second attempt will not be allowed to continue in the program.

Dissertation

The dissertation is a major piece of original research representing a substantial contribution to sociological scholarship. In order to become eligible for dissertation status the student must complete a successful oral defense of a dissertation proposal before the student’s doctoral committee.

The dissertation itself, under the supervision of the major professor and in collaboration with a dissertation committee, must demonstrate the ability of the candidate to formulate a research topic and pursue an independent and original research representing a substantial contribution to sociological scholarship. The practices necessary for completion of the dissertation will conform to the guidelines established by the UWM Graduate School. The dissertation committee shall be composed of the major professor and three additional graduate faculty members (at least two of whom must be from the UWM Department of Sociology graduate faculty). The dissertation committee is responsible for assessing the dissertation project, which involves approving the dissertation proposal, reviewing working drafts of research in progress, and, finally, evaluating the candidate’s ability to defend decisions made during the course of research and the results of the research. After submission of a reading copy of the dissertation to the faculty dissertation committee, the candidate and the major professor will schedule a committee meeting for the purpose of undertaking an oral defense of the dissertation work by the candidate. At the conclusion of the candidate's oral remarks, the dissertation committee will vote on passing the candidate’s dissertation work. A majority of the committee must vote to approve the dissertation and recommend granting of the Doctor of Philosophy degree.

Time Limit

All components of the PhD program must be completed within 10 years of matriculation.
SPANISH AND PORTUGUESE

Through effective communicative instruction, we prepare students to read, speak, write, and understand Spanish and Portuguese. Our course offerings reflect and respond to the diversity of our students, who include: heritage speakers, non-traditional students, professionals in a variety of fields, as well as traditional students. We encourage students to participate in study abroad programs and second-language activities as a means of improving proficiency.

Faculty are actively engaged in advancing knowledge in their respective areas of expertise and striving to link, in the manner most beneficial for students, critical and scholarly work to classroom instruction and advising activities.

We assume a leadership role in disseminating Hispanic, U.S. Latino, and Luso-Brazilian culture, not only to the campus community but to the Milwaukee area and the state of Wisconsin as well.

Programs

• Business Spanish, Minor (p. 1766)
• Portuguese, Minor (p. 1766)
• Spanish for Health Professionals, Undergraduate Certificate (p. 1767)
• Spanish, BA (p. 1768)
• Spanish, MA (p. 1772)
• Spanish, Minor (p. 1773)

Portuguese Courses

PORTUGS 103 First-Semester Portuguese
4 cr. Undergraduate.
Beginner-level Portuguese; listening, speaking, reading, writing, and grammar.
Prerequisites: none.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PORTUGS 104 Second-Semester Portuguese
4 cr. Undergraduate.
Continuation of Portugs 103.
Prerequisites: Portugs 103(P) or equiv. Generates L&S credit for demonstrated equivalent preparation (4 retro cr).
Current Offerings: http://uwm.edu/schedule

PORTUGS 110 Accelerated Portuguese I
3 cr. Undergraduate.
Accelerated beginner-level course designed to enable students to develop comprehensive listening, speaking, reading, and writing skills in Portuguese.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

PORTUGS 192 First-Year Seminar:
3 cr. Undergraduate.
Specific topics announced in Schedule of Classes each time course is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
Last Taught: Fall 2005, Fall 2003, Fall 2002.
Current Offerings: http://uwm.edu/schedule

PORTUGS 197 Study Abroad:
1-12 cr. Undergraduate.
Designed to enable students studying language abroad to receive course credit at appropriate level.
Prerequisites: acceptance in Study Abroad Prog.
Course Rules: May be retaken w/change in topic.
Current Offerings: http://uwm.edu/schedule

PORTUGS 199 Independent Study
1-3 cr. Undergraduate.
For further information, consult department chair.
Prerequisites: 2.5 GPA, cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Last Taught: Summer 2011.
Current Offerings: http://uwm.edu/schedule

PORTUGS 203 Third-Semester Portuguese
3 cr. Undergraduate.
Prerequisites: Portugs 104(P) or equiv. Generates L&S credit for demonstrated equivalent preparation (8 retro cr).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PORTUGS 204 Fourth-Semester Portuguese
3 cr. Undergraduate.
Prerequisites: Portugs 203(P) or equiv. Generates L&S credit for demonstrated equivalent preparation (11 retro cr).
Current Offerings: http://uwm.edu/schedule

PORTUGS 215 Portuguese Weekend Immersion Experience:
1 cr. Undergraduate.
Immersion experience for students at the intermediate and advanced levels designed to expose them to the Portuguese language and culture.
Prerequisites: Portugs 104(P) or 110(P) or cons instr.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Last Taught: Fall 2014.
Current Offerings: http://uwm.edu/schedule

PORTUGS 225 Understanding Brazil:
3 cr. Undergraduate.
Topics in Brazilian culture and society.
Prerequisites: none.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule
PORTUGS 277 Portuguese Discussion Section:
1-2 cr. Undergraduate.
Discussion in Portuguese, designed to broaden perspectives, improve
language skills.
Prerequisites: Portug 204(P) or cons instr.
Course Rules: Offered in conjunction w/courses in other disciplines
(Anthro, Hist, Pol Sci, etc). May be retaken w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

PORTUGS 289 Internship in Portuguese, Lower Division
1-3 cr. Undergraduate.
Application of basic principles of Portuguese in a business,
organizational, educational, political, or other appropriate setting.
Prerequisites: intro course in Portug; 2.25 gpa; cons supervising faculty
member.
Course Rules: One cr earned for academic work based on 40 hours in
internship. May be retaken to 3 cr max.
Current Offerings: http://uwm.edu/schedule

PORTUGS 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course
work level, content, and credits are determined and/or in specially
prepared course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Spring 2017, Fall 2016, Spring 2016, Summer 2015.
Current Offerings: http://uwm.edu/schedule

PORTUGS 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Requires only dept & assoc dean approval. In exceptional circumstances,
can be offered in one add'l sem.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2013, Fall 2012, Spring 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule

PORTUGS 310 Advanced Composition and Conversation
3 cr. Undergraduate.
Designed to develop students’ oral and writing skills.
Prerequisites: Portug 204(P) or equiv. Generates L&S credit for
demonstrated equivalent preparation (14 retro cr).
Last Taught: Fall 2015, Fall 2013, Fall 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule

PORTUGS 313 Advanced Speaking and Listening
3 cr. Undergraduate.
Practice in speaking and listening for advanced students through
discussion of Luso-Brazilian audiovisual and/or multi-media cultural
tools; follow-up reading, writing, and grammar activities.
Prerequisites: Portug 204(P) or equiv.
Course Rules: Generates L&S credit for demonstrated equivalent
preparation (14 retro crs).
Last Taught: Fall 2014.
Current Offerings: http://uwm.edu/schedule

PORTUGS 360 Luso-Brazilian Culture:
3 cr. Undergraduate.
One or more aspects of contemporary culture in the Portuguese-speaking
world.
Prerequisites: jr st or cons instr.
Course Rules: In English. May be retaken w/chg in topic to 9 cr max.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

PORTUGS 380 Luso-Brazilian Literature in Translation:
3 cr. Undergraduate.
Selected works of Brazilian, Portuguese, and/or African Lusophone
literature from different periods and genres, and representing several
subjects.
Prerequisites: jr st or cons instr.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

PORTUGS 446 The Portuguese-Speaking World: Sociolinguistic
Perspectives
3 cr. Undergraduate/Graduate.
Examination of the history and development of Portuguese language and
sociolinguistics in Portugal, Brazil, and former Portuguese colonies in
Africa and Asia.
Prerequisites: jr st.
Course Rules: To count toward Portugs minor, coursework must be done
in Portugs.
Last Taught: Fall 2014, Spring 2006.
Current Offerings: http://uwm.edu/schedule

PORTUGS 457 Seminar in Luso-Brazilian Literature
3 cr. Undergraduate/Graduate.
Survey introduction to Brazilian, Portuguese, and/or African literature.
Prerequisites: jr st or cons. instr.
Course Rules: Taught in Portuguese with readings in Portuguese. To
count towards the Portuguese minor, course work must be written
in Portuguese. Graduate students may complete work in Spanish or
Portuguese.
Current Offerings: http://uwm.edu/schedule
PORTUGS 489 Internship in Portuguese, Upper Division
1-3 cr. Undergraduate.
Application of advanced principles of Portuguese in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; 300-level or above course in Portugs; 2.25 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hours in internship. May be retaken to 3 cr max.
Last Taught: Fall 2013.
Current Offerings: http://uwm.edu/schedule

PORTUGS 497 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Spring 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

PORTUGS 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

PORTUGS 597 Study Abroad:
1-6 cr. Undergraduate/Graduate.
Designed to enable students studying language abroad to receive course credit at appropriate level.
Prerequisites: jr st; acceptance in Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

SPANISH 103 First-Semester Spanish
4 cr. Undergraduate.
Introductory course for students who have had little or no previous work in Spanish.
Prerequisites: none.
Course Rules: Open only to students with 2 yrs H.S. Spanish or less or a score of 1 on Spanish placement exam.
Current Offerings: http://uwm.edu/schedule

SPANISH 104 Second-Semester Spanish
4 cr. Undergraduate.
Continuation of Spanish 103.
Prerequisites: grade of C- or better in Spanish 103(P) or level 2 score on Spanish placement exam.
Course Rules: Generates L&S credits for demonstrated equivalent preparation (4 retro crs).
Current Offerings: http://uwm.edu/schedule

SPANISH 123 Regional Languages of Spain, First Semester:
3-6 cr. Undergraduate.
Introductory course for students who have had no previous work in one of the official, regional languages of Spain.
Prerequisites: none.
Course Rules: May be retaken w/chg of language.
Current Offerings: http://uwm.edu/schedule

SPANISH 124 Regional Languages of Spain, Second Semester:
3-6 cr. Undergraduate.
Second-semester introductory course for students who have had no previous work in one of the official, regional languages of Spain.
Prerequisites: Spanish 123(P) in same language.
Course Rules: May be retaken w/chg of language.
Current Offerings: http://uwm.edu/schedule

SPANISH 192 First-Year Seminar:
3 cr. Undergraduate.
The specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem Course (course numbers 192, 193, 194).
Current Offerings: http://uwm.edu/schedule

SPANISH 197 Study Abroad:
1-12 cr. Undergraduate.
Designed to enable students studying language abroad to receive course credit at appropriate level.
Prerequisites: acceptance in Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Summer 2017.
Current Offerings: http://uwm.edu/schedule
SPANISH 203 Third-Semester Spanish  
3 cr. Undergraduate.  
Continuation of Spanish 104. Review of the main grammatical concepts. Readings in modern Spanish and Spanish-American literature. 
Prerequisites: grade of C- or better in Spanish 104(P) or level 3 score on Spanish placement exam. 
Course Rules: Generates L&S credits for demonstrated equivalent preparation (8 retro crs). 
Current Offerings: http://uwm.edu/schedule

SPANISH 204 Fourth-Semester Spanish  
3 cr. Undergraduate.  
Continuation of Spanish 203. Review of the main grammatical concepts. Readings in modern Spanish and Spanish-American literature. 
Prerequisites: grade of C- or better in Spanish 203(P) or level 4 score on Spanish placement exam. 
Course Rules: Generates L&S credits for demonstrated equivalent preparation (11 retro crs). 
Current Offerings: http://uwm.edu/schedule

SPANISH 225 Understanding the Hispanic World:  
3 cr. Undergraduate.  
Different manifestations of Hispanic culture across continents and centuries studied from many angles. 
Prerequisites: none. 
Course Rules: In English. May be retaken w/chg in topic to 9 cr max. 
General Education Requirements: HU 
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016. 
Current Offerings: http://uwm.edu/schedule

SPANISH 277 Spanish Discussion Section  
1-2 cr. Undergraduate.  
Discussion in Spanish, designed to broaden perspectives and improve language skills. 
Prerequisites: none. 
Course Rules: Offered in conjunction w/courses in other disciplines or in Spanish. May be retaken to 6 cr max. 
Last Taught: Spring 2016, Fall 2015. 
Current Offerings: http://uwm.edu/schedule

SPANISH 289 Internship in Spanish, Lower Division  
1-3 cr. Undergraduate.  
Application of basic principles of Spanish in a business, organizational, educational, political, or other appropriate setting. 
Prerequisites: intro course in Spanish; 2.25 gpa; cons supervising faculty member. 
Course Rules: One cr earned for academic work based on 40 hours in internship. May be retaken to 3 cr max. 
Current Offerings: http://uwm.edu/schedule

SPANISH 296 UROP Apprenticeship  
3 cr. Undergraduate.  
Undergraduate research participation in a project developed with a supervising member of the faculty or staff. 
Prerequisites: acceptance into UROP, prior or conc reg in UROP seminar. 
Course Rules: One credit for 45 hrs research. May be retaken to 9 cr max in any combination of UROP apprenticeship courses. Not open to jrs & srs. 
Current Offerings: http://uwm.edu/schedule

SPANISH 297 Study Abroad:  
1-12 cr. Undergraduate.  
Designed to enroll students in UWM sponsored program before coursework level, content and cr are determined and/or in specially prepared program coursework. 
Prerequisites: acceptance for Study Abroad Prog. 
Course Rules: May be retaken w/chg in topic. 
Last Taught: Fall 2017, Summer 2017, Spring 2017, Fall 2016. 
Current Offerings: http://uwm.edu/schedule

SPANISH 299 Ad Hoc:  
1-6 cr. Undergraduate.  
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l sem. May be retaken w/chg in topic.

Business Spanish, Minor

In addition to the major and minor in Spanish, students can also complete a minor in Business Spanish, with a focus on the business and legal terminology and concepts that are relevant within the United States and the 21 countries in which Spanish is the official language. The minor in Business Spanish requires the completion of 18 credits, including two required courses in Business and Legal Spanish. Students in the Lubar School of Business must complete the requirements in the Business Students Track, while all other students complete the Non-Business Students Track.

Requirements

The minor in Business Spanish requires the completion of 18 credits as indicated below. At least 9 of the 300-level or above credits must be taken in residence at UWM. The College requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.5 GPA on all minor credits attempted, including any transfer work. Students in the Lubar School of Business must complete the requirements in the Business Students Track. All other students complete the Non-Business Students Track. Students are responsible for completing any prerequisite courses as well.

1 An appropriate internship experience (for example, with a firm doing business in Latin America or Spain) may substitute for one of the required courses in the minor. Such substitutions must be approved by the Department of Spanish and Portuguese in consultation with the Lubar School of Business Administration, which will assist students in finding an internship.

2 Students who test beyond one/both of these courses and do not receive retroactive credits for one/both of these courses must substitute a course or courses from among SPANISH 333, SPANISH 341, SPANISH 348, SPANISH 350, or SPANISH 391.

Portuguese, Minor

UW-Milwaukee is the only other university in Wisconsin besides UW-Madison that offers Portuguese on a regular basis. We offer an undergraduate minor in Portuguese.

Students are strongly encouraged to utilize our Center for International Education to take advantage of study abroad (http://uwm.edu/cie/study-
abroad) experiences available in Brazil and Portugal for a semester or year.

Requirements

The undergraduate minor in Portuguese requires 18 credits of Portuguese taken in courses numbered PORTUGS 203 or above. Nine credits must be taken at the 300 level or above in residence at UWM. The College requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work.

Students with no previous Portuguese language experience should enroll in PORTUGS 103. After consultation with the Portuguese coordinator, a student may enroll in a course higher than PORTUGS 103, if appropriate. Students placed into a course beyond the PORTUGS 103 level who complete their first course with a grade of at least B may receive retroactive credits, to a maximum of 14 credits, for the courses leading to the one into which they are placed. Courses that generate Credits for Demonstrated Equivalent Preparation (retroactive credits) are the following:

<table>
<thead>
<tr>

Spanish for Health Professionals, Undergraduate Certificate

The Spanish for Health Professionals (SHP) Certificate Program is designed to provide students with the language skills and cultural knowledge needed to help Spanish-speakers successfully negotiate the health care system. Graduates of the program leave not only with proficiency in medical Spanish, but also with an understanding of the Hispanic culture and how that culture may affect healthcare practices and the delivery of health services.

This certificate will enhance the credentials of individuals seeking a career in direct patient care such as doctor, nurse, physician assistant, nurse practitioner, or physical therapist, or anyone who works with Spanish-speakers in a healthcare setting such as insurance providers or healthcare navigators.

Hispanic and Latino groups are the largest minority group in the United States, and Spanish-speakers constitute the fastest-growing segment of the U.S. population. In Milwaukee alone, Spanish-speakers make up 14 percent of the population. As these populations grow, so does the need for healthcare workers who can communicate with and advocate for Spanish-speaking patients.

Students in the program gain expertise in the language of health care, in Spanish, including colloquial Spanish; an understanding of cultural differences that impact the delivery of health care services to Hispanic populations; and knowledge of the health care concerns of many different groups of Spanish-speakers. There is a language-intensive track for students who need more education in that area or a health-focused track for individuals who may have some Spanish fluency but need more background in medicine and science.

Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

Eligibility

The Spanish for Health Professionals Certificate is open to all students seeking a bachelor’s degree from UWM, to students who previously received a bachelor’s degree from UWM or any other accredited college or university, and to individuals who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this topic. To be admitted as non-degree candidates, individuals must meet regular University admissions requirements. Students currently involved in baccalaureate studies who successfully complete the requirements of the program will be awarded the certificate at the time of graduation. Students who already have a bachelor’s degree and non-degree students will receive the certificate upon completion of the program requirements.

Requirements

There are two tracks in the Certificate, a language-intensive track for students in health professions areas who are interested in working with Hispanic populations and a health-focused track for students with some Spanish competency who desire familiarity with the health-related vocabulary in Spanish. To obtain the certificate, students must complete at least 18 credits in courses approved for the Spanish for Health Professionals certificate, with at least 12 credits taken in residence at UWM and a minimum of 9 of the residence credits taken in L&S courses at the advanced level (courses numbered 300 and above). A maximum of 6 credits in a combination of independent study, internship, and study abroad courses may count toward the certificate. Students must earn a 2.500 GPA in all certificate courses, including transfer work, and in the courses for the certificate taken at UWM. Courses for the certificate may not be taken on a credit/no credit basis. The certificate requirements are as follows:

Spanish for Health Professionals, Language-Intensive Track

The Language-Intensive Track requires completion of at least 18 credits as follows, and is not available to Spanish majors and minors; they must select the health-focused track:

<table>

Study abroad courses in Spanish-speaking countries may be accepted with the approval of the Certificate Program Committee. Other courses not on this list but relevant to Spanish for Health Professionals may be accepted with the approval of the Certificate Program Committee.

Credits earned at other institutions equivalent to courses in the certificate program may be accepted in partial fulfillment of the program requirements, subject to review by the Certificate Program Committee. Students currently enrolled at UWM who have fulfilled some of the program's requirements prior to the program's approval may have their credits applied retroactively to the certificate program.

Contact Information

Current Students contact Senior Lecturer Maria Sotomayor, mes4@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

http://uwm.edu/spanish-portuguese/undergraduate/spanish-program/

Spanish, BA

Spanish is spoken by 400 million people worldwide and is an official language in 21 countries and a number of international organizations. Spanish is among the three most spoken languages in the world and, by some estimates, has more native speakers than English. Fluency in Spanish opens countless career opportunities for students.

A Spanish major provides exceptional preparation for students interested in a career in business, international affairs, social services, government, health care, communication, translation, marketing, teaching or any profession that requires bilingual written or oral communication skills and cultural understanding. Whether you already have some Spanish communication skills or are starting at the beginning, you will develop both your language capabilities as well as your cultural competence as part of our major. Classes focus on not only language, but literature, linguistics, customs, values, and culture so that students leave UWM ready to speak, read, write and understand Spanish in business and social contexts. Students are strongly encouraged to utilize our Center for International Education to take advantage of study abroad experiences available in Argentina, Chile, Ecuador, Mexico, Peru and Spain. Some
students go short-term such as a week or two while others choose to stay abroad for a summer program, a semester or a year.

A Spanish minor and a Business Spanish minor are also available. The Spanish minor can be completed with most Spanish courses at the 300-level and above, while the curriculum for the Business Spanish minor is more structured, with required courses in Business and Legal Spanish. In addition, students who plan to pursue healthcare careers will find value in our Certificate in Spanish for Health Professionals (http://uwm.edu/letters-science/programs?discipline=Spanish+for +Health+Professionals). The certificate is similar to a minor in terms of the number of credits required and can enhance a student’s resume. This certificate can be structured with a health focus for students who already have a high level of proficiency in Spanish but want to expand their knowledge of different areas of healthcare, (more classes in health care delivery policy; pharmaceuticals, medicine, and drugs; and health communication) or with a language focus for students who already have a background in healthcare but want to develop their language proficiency in Spanish (more classes in advanced Spanish).

Requirements

Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

- Two semesters (high school) of a single foreign language
- Or equivalent

UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement

College of Letters & Science Requirements

I. English Writing Requirement

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part A listed above.

II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:
   - MATH 103: Contemporary Applications of Mathematics
   - MATH 105: Introduction to College Algebra
   - MATH 108: Algebraic Literacy II
   - MATH 175: Mathematical Explorations for Elementary Teachers I

   **Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>

<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>
<td></td>
</tr>
<tr>
<td>ANTHRO 568</td>
<td>Introduction to Anthropological Statistics</td>
<td></td>
</tr>
</tbody>
</table>
III. Foreign Language Requirement
Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

Complete 3 credits in a course with Cultural Diversity (CD) designation; no more than 6 credits from a single subject area.

Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single subject area.

Complete 12 credits of L&S Courses with Humanities Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single subject area.

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single subject area.

Complete 3 courses (min. 9 credits) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above

Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.

Complete 9 credits in combination of the two options above.

VI. The Major
The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Spanish Major Requirements
The major in Spanish requires 33 credits in Spanish courses at the 300 level and above, at least 15 of which must be taken in residence at UWM. The College requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work. Students must complete the following requirements:

SPANISH 380 and SPANISH 595 do not count toward the major.

All majors are required to take an exit examination, which is offered on campus near the end of each semester. It is recommended strongly that they take this exam during their last semester in the Spanish program.
Select a minimum of 9 additional credits at the 300 level or above (see below) 9

Total Credits 33

Students must complete a research experience within the context of one of the following courses at the 500 level. All 500-level courses include a research component that serves to develop students' ability to do independent research in a specific field of interest. Both the oral presentation and the written research paper will be evaluated and rated in the areas of language acquisition/usage as well as research ability/synthesis.

Electives

Students must take a minimum of 9 additional credits at the 300 level or above. All 9 credits can be taken from the following list of electives as well as from the 500-level courses listed under the research requirement:

Letters & Science Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus' general education requirements and the College's degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed
sample plans, as they are intended to be samples only and may not be right for your particular situation.

**Honors in the Major**

Spanish majors who meet the following requirements may apply to the undergraduate advisor to graduate with Honors in the Major:

1. Maintain at least a 3.500 GPA in all advanced credits that count toward the major;
2. Maintain at least a 3.000 GPA in all graded courses attempted at UWM; and
3. Take at least two 500-level Spanish courses.

**Honors in the College of Letters and Science**

**Dean’s Honor List**

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Contact Information**

Current Students contact Senior Lecturer Stellia Jordan, schessma@uwm.edu

Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

http://uwm.edu/spanish-portuguese/undergraduate/

**Spanish, MA**

The Department of Spanish and Portuguese offers a program of graduate study leading to a Master of Arts degree that focuses on the study of the Spanish cultures, language, linguistics, and literatures of the Hispanic world. Spanish MA graduates who subsequently wish to pursue the PhD are very advanced in the process of mastering the area in which they wish to specialize in their doctoral studies. Those who choose not to continue studying toward a PhD or a career in teaching will be able to pursue employment in other fields that require full proficiency in the Spanish language as well as mastery of Hispanic literature, culture, and linguistics.

The Department of Spanish and Portuguese has identified five learning outcomes for our MA majors in Spanish. These educational goals relate closely to the National Standards for Foreign Language Learning, as recommended by the American Council of Teachers of Foreign Languages.

Students will be able:

1. To communicate with an advanced or high-level of Spanish proficiency in all four skill areas including listening, reading, writing, and speaking.
2. To develop an advanced understanding and appreciation of Hispanic cultures and communities throughout the world, and analyze and draw cross-cultural differences which will be essential to future careers in a growing global environment.
3. To build a foundation of knowledge in the areas of Spanish and Spanish-American literature, culture, and linguistics, which will give students the breadth necessary for subsequent specialization in doctoral studies.
4. To develop and expand research and analytical skills within the area of Hispanic Studies, including literary analysis, cultural studies, and linguistic analysis.
5. To develop basic reading competencies in an additional romance language to prepare students for further research and provide broader career options.

The Department also participates, and works closely, with the Center for Latin American and Caribbean Studies.

**Requirements**

**Application Deadlines**

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**

An applicant must meet general admission requirements for the Graduate School, as established by the graduate faculty of the university, plus the following requirements to be considered for admission:

1. A bachelor’s degree with a major in Spanish, foreign languages with an emphasis in Spanish, comparative literature, Hispanic linguistics, or translation; or with a combination of courses that will, in the opinion of the Department, allow the student to participate fully in the program.
2. A 3.0 grade point average in the last 60 credits of undergraduate coursework.
3. A narrative statement of intent, written in both Spanish and in English.
5. An academic writing sample in Spanish.
6. Three letters of recommendation from former professors or advisors.

Applicants who do not have the requisite 3.0 grade point average in the last 60 credits of the undergraduate degree may be considered for admission on probation. Students will be removed from probation at the
end of their first semester of enrollment if they achieve at least a 3.0 grade point average.

**Major Professor as Advisor**

All students must have a major professor who serves as an advisor and supervises their course of study. The Director of the MA program acts as the initial advisor for all entering students. By the end of the second semester, students will be matched with an advisor based on their academic interest.

**Credits and Courses**

A content-based examination is mandatory for all incoming students. The results of this examination are used to develop the program of study. Students with insufficient preparation for graduate study in one or more areas may be admitted with specific, program-defined course deficiencies provided that the deficiencies amount to no more than two courses.

The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

A minimum of 30 graduate credits beyond the baccalaureate degree is required for the MA in Spanish. All students must demonstrate reading competency in a second Romance language. In order to do so, they may take the departmental graduate reading exam or complete two semesters of coursework at the 700 level or above. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

Specific course requirements and credit distribution are as follows:

</tbody>
</table>

Total Credits: 30

All teaching assistants are required to enroll in MALLT 700 or an equivalent course during their first year. This course counts toward the 6 credits of electives.

No 300-level courses will apply toward the degree, and a maximum of six (6) graduate credits in 400-level U/G courses may be used to fulfill degree requirements.

The MA degree in Spanish offers both non-thesis and thesis options.

**Non-Thesis Option**

Students pursuing the non-thesis option must complete a minimum of thirty (30) credits of acceptable graduate-level coursework (including the courses specifically required) and receive a passing grade on the final comprehensive examination.

**Thesis Option**

Students pursuing the thesis option must complete a minimum of twenty four (24) credits of acceptable graduate-level coursework, successfully defend a thesis for which a maximum of six (6) credits is granted, and receive a passing grade on the final comprehensive examination.

Students in the thesis option should choose an area of specialization for the thesis as early as possible. After a thesis topic is chosen, students, with the approval of the major professor, select two additional members of the graduate faculty in the area of concentration to serve as the thesis committee. A member of the graduate faculty specializing in the student’s area of concentration acts as the thesis director and chair of the committee. Students writing a linguistics-based thesis may use either the APA, LSA, or MLA style. All other theses must be written following the MLA style.

Upon the approval of the Departmental Graduate Studies Committee, a student may be allowed to write the Spanish MA thesis in Spanish; each request will be examined on an individual basis to ensure the highest quality of theses and the linguistic ability of each petitioner. Those approved to write the thesis in Spanish must also provide an abstract written in English.

**Comprehensive Final Examination**

Students enrolled in the thesis and non-thesis options take the same MA comprehensive examination. Students are urged to take the examination no later than the fourth semester of graduate study. The examination may be repeated once.

**Time Limit**

The student must complete all degree requirements within five years of initial enrollment.

**Spanish, Minor**

Spanish is spoken by 400 million people worldwide and is an official language in 21 countries and a number of international organizations. Spanish is among the three most spoken languages in the world and, by some estimates, has more native speakers than English. Fluency in Spanish opens countless career opportunities for students.

The Spanish minor provides exceptional preparation for students interested in a career in business, international affairs, social services, government, health care, communication, translation, marketing, teaching or any profession that requires bilingual written or oral communication skills and cultural understanding. Whether you already have some Spanish communication skills or are starting at the beginning, you will develop both your language capabilities as well as your cultural competence as part of our program. Classes focus on not only language, but literature, linguistics, customs, values, and culture so that students leave UWM ready to speak, read, write and understand Spanish in business and social contexts. Students are strongly encouraged to utilize our Center for International Education to take advantage of study abroad (https://uwm.edu/cie/study-abroad) experiences available in Argentina, Chile, Ecuador, Mexico, Peru and Spain. Some students go short-term such as a week or two while others choose to stay abroad for a summer program, a semester or a year.

The Spanish minor can be completed with most Spanish courses at the 300-level and above. Students who plan to pursue healthcare careers will find value in our Certificate in Spanish for Health Professionals.
(p. 1767). The certificate is similar to a minor in terms of the number of credits required and can enhance a student’s resume. This certificate can be structured with a health focus for students who already have a high level of proficiency in Spanish but want to expand their knowledge of different areas of healthcare, (more classes in health care delivery policy; pharmaceuticals, medicine, and drugs; and health communication) or with a language focus for students who already have a background in healthcare but want to develop their language proficiency in Spanish (more classes in advanced Spanish).

### Requirements

The minor in Spanish consists of 18 credits at the 300 level or above, at least 9 of these in residence at UWM. These credits may include a maximum of 3 credits selected from SPANISH 371, SPANISH 373, PORTUGS 360, or PORTUGS 380. With the exception of PORTUGS 380, no literature-in-translation courses may count toward the minor. SPANISH 380 and SPANISH 595 do not count toward the minor.

The College requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, a 2.500 GPA on all minor credits attempted, including any transfer work, is required.

### Contact Information

Current Students contact Senior Lecturer Stellia Jordan, schessma@uwm.edu

TRANSLATION AND INTERPRETING STUDIES

The Translation & Interpreting Studies programs are housed in an accredited, Tier 1 Research institution and offer professional translator and interpreter training in a dynamic environment. Students collaborate with faculty and classmates from around the world to develop the skills they need to succeed in a thriving international market. Learn how to translate and/or interpret, and how to be a language professional through using leading industry computer-assisted translation tools and completing internships that often lead to employment. Our program can prepare you to:

• be an in-house translator
• be a freelancer
• be a translation company owner
• specialize in your area of interest
• pursue doctoral studies
• develop your professional skills without pursuing a degree

• Interpreting, Graduate Certificate (p. 1775)
• Translation and Interpreting Studies, MA (p. 1776)

Interpreting, Graduate Certificate

The demand for interpreting services in the U.S. far exceeds the supply of qualified interpreters, and the federal government estimates that job opportunities for interpreters will increase significantly faster than the average rate of job growth through 2030. The Graduate Certificate in Interpreting offers online professional training to students in any of the offered language pair. The program is designed for those who have earned an undergraduate degree, have either significant industry experience or post-graduate degrees, and are interested in languageservices careers focused on interpreting.

The Graduate Certificate program is recognized by the American Translators Association as an approved Translation & Interpreting Studies program. Alumni go on to work as freelance or in-house interpreters in a broad range of areas, including legal, medical, and community interpreting.

For information, please go here: http://uwm.edu/translation-interpreting-studies/contact/request-for-information/

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Eligibility and Admission

Applicants to the Graduate Certificate program in Interpreting must hold a bachelor’s degree with an overall grade point average (GPA) of 2.75. If the GPA is less than 2.75, the applicant must provide substantial evidence of ability to succeed in graduate-level work.

A degree in the applicant’s foreign language or advanced study in that language is desirable but not required. To be eligible for admission, all applicants to the certificate program must pass a qualifying examination administered by the faculty of Translation & Interpreting Studies (TIS).

Application

• Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
• All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
• Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
• Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.
• Certificate applicants in Interpreting must pass a qualifying examination administered by TIS faculty (http://uwm.edu/translation-interpreting-studies/admissions/qualifying-exam).

Credits and Courses

Students must complete 21 credits of required courses. The following six courses (18 credits) must be completed at the graduate level:

<table>
<thead>

Articulation with Degree Programs

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   • Degree programs must approve the courses from certificates that can double count toward the degree.
   • All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   • Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.

3. A course may count toward no more than one certificate and one degree.

4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit

Certificate program time limits shall be established as follows:

• 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
• 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

Translation and Interpreting Studies, MA

UWM's Translation and Interpreting Studies program offers multiple degree options and tracks with concentrations in Research or Professional Translation, in five language pairs (Arabic, French, German, Russian, and Spanish to English) and/or in Interpreting. TIS offers through the MALLT program two coordinated degree programs: a MALLT (translation concentration)/MLIS degree with the School of Information Studies and a MALLT (translation concentration)/MBA with the Lubar School of Business. TIS also offers through the MALLT program coordinated 5-year bachelor’s/master’s programs (BA in French, German, Global Studies or LACUSL and MALLT—professional translation concentration—in relevant language pairs).

UWM graduates who earn the MA in Translation and Interpreting Studies in any of the above forms reflect sufficient preparation for gainful post-graduation employment or admission to a doctor of philosophy program at a peer or aspirational institutions, and they will:

1. Be knowledgeable about the linguistic, literary, and cultural productions of their source and target communities in the past and present; be able to situate them within a historical, cultural and discursive (interdisciplinary and/or cross-cultural) context; be familiar with several major tendencies in critical and theoretical analysis, and be able to apply them to the study of these texts.
2. Provide nuanced and sophisticated discussions (in writing and in conversation) of linguistic, literary, and cultural works in English, and when appropriate, in the target language of their field of study. This includes the ability to analyze and to incorporate critical/theoretical frameworks into their written and oral discussions of literary or cultural works.
3. Be able to perform professional skills tied to the translation and interpreting field (e.g., translate/interpret accurately in their area of specialization; create and maintain terminology database resources;
efficiently and accurately conduct research related to TandI; understand broad aspects of the TandI industry).

4. Conduct independent research in Translation and Interpreting Studies. This includes the ability to develop and delimit a research question, to conduct a systematic investigation of the question, and to present or evaluate research according to standard models of analysis and argumentation.

5. Be aware of career and post-graduate opportunities that their degree makes possible, which includes knowing how to search and apply for professional opportunities or advanced study related to the MA, and participating in professional activities such as colloquia, conferences, and meetings.

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/Registrar/contact-us) online.

Admission Requirements
Students seeking admission to the MA in Translation and Interpreting Studies degree program must meet all UW-Milwaukee Graduate School (http://uwm.edu/graduateschool/admission) admission requirements.

- GRE General Test scores are not required, but students must pass the program’s Qualifying Exam (offered free three times/year).
- Entering graduate students should have a general background in a world language offered in the program and strong writing skills in English. Given the intrinsic multidisciplinary nature of Translation and Interpreting Studies, no specific undergraduate coursework is required.
- Students who lack minimal background requirements may be admitted provided that the deficiencies amount to no more than two courses, and deficiencies must be made up within three enrolled semesters of graduate study.

Credits and Courses
Students enrolled in the MA in Translation and Interpreting Studies degree program must complete a total of 30 credits. Of these credits, 21 are required for the Translation concentration, and 24 are required for the Interpreting concentration. The remaining 9 for Translation concentrations or 6 for Interpreting concentrations must be earned in approved graduate elective courses.

Formal courses in Translation and Interpreting Studies that may be taken for graduate credit are listed below (list is not exhaustive). All courses are for three credits unless otherwise noted.

Program Requirements

Comprehensive Examinations
Candidates for graduation in all TIS tracks and concentrations must, under the direction of their major professor and the supervision of their exam committee comprised of relevant graduate faculty, complete and defend comprehensive examinations.

Thesis
Students completing the Research track must also complete and defend a thesis. An acceptable thesis is defined as one that represents an original contribution to the field of Translation and Interpreting Studies, of sufficient caliber for publication in a peer-reviewed journal.

Time Limit
Full-time students generally take two years to complete the program; part-time students within three to five years. The student must complete all degree requirements within five years of initial enrollment.
URBAN STUDIES

Joel Rast, Associate Professor of Political Science, Program Director
James Harris, Associate Director
Fax: (414) 229-5942

Urban Studies provides the opportunity for students to explore scholarship on cities, suburban communities, and metropolitan regions with an interdisciplinary lens.

Programs

- Urban Studies, BA (p. 1782)
- Urban Studies, MS (p. 1786)
- Urban Studies, MS/Library and Information Science, MLIS (p. 1787)
- Urban Studies, PhD (p. 1788)
- Urban Studies, Undergraduate Certificate (p. 1790)

Urban Studies Courses

URB STD 150 Multicultural America
3 cr. Undergraduate.
Cross-cultural study of U.S. ethnic and racial identities from an urban studies perspective, with attention to African-, Asian-, Hispanic-, and Native-American experiences.
Prerequisites: none.
Course Rules: Cultures and Communities Prog course; req’d service learning component.
General Education Requirements: SS, CD
Current Offerings: http://uwm.edu/schedule

URB STD 193 First-Year Seminar:
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

URB STD 250 Exploring the Urban Environment
3 cr. Undergraduate.
The nature of the city, the processes that effect change, and the future of the city.
Prerequisites: none.
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

URB STD 289 Internship in Urban Studies, Lower Division
1-6 cr. Undergraduate.
Application of basic principles of Urban Studies in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: intro course in Urb Std or related area; 2.25 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hours in internship. May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

URB STD 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially-prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: UWinteriM 2018, Fall 2017.
Current Offerings: http://uwm.edu/schedule

URB STD 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l sem.
Prerequisites: none; add’l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

URB STD 360 Perspectives on the Urban Scene:
3 cr. Undergraduate.
Topics related to the structure, growth, and change of the urban environment.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to 6 cr max.
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

URB STD 377 Urbanism and Urbanization
3 cr. Undergraduate.
Theoretical perspectives, substantive themes, and methodological approaches to the study of cities. Impact of historical development and changing spatial patterns on social behavior in metropolitan areas.
Prerequisites: jr st & a Sociol 100-level course; or Urb Std 250(P).
Course Rules: Sociol 377 & Urb Std 377 are jointly-offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

URB STD 381 Honors Seminar:
3 cr. Undergraduate.
Selected topics.
Prerequisites: soph st; Honors 200(P); cons Honors College dir.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

URB STD 450 Urban Growth and Development: A Global View
3 cr. Undergraduate/Graduate.
Urban growth and development from an international perspective.
Prerequisites: jr st or cons instr.
Current Offerings: http://uwm.edu/schedule
URB STD 489 Internship in Urban Studies, Upper Division  
1-6 cr. Undergraduate.  
Application of advanced principles of urban studies in a business,  
organizational, educational, political, or other appropriate setting.  
Prerequisites: jr st; 300-level or above course in Urb Std or related area;  
2.5 gpa; cons supervising faculty member.  
Course Rules: One cr earned for academic work based on 40 hours in  
internship. May be retaken to 6 cr max.  
Last Taught: Fall 2017, Summer 2017, Summer 2016, Fall 2015.  
Current Offerings: http://uwm.edu/schedule

URB STD 497 Study Abroad:  
1-12 cr. Undergraduate/Graduate.  
Designed to enroll students in UWM sponsored program before course  
work level, content, and credits are determined and/or in specially-  
prepared program course work.  
Prerequisites: jr st; acceptance for Study Abroad Prog, contact CIE  
Overseas Programs, PER 166, 229-5182.  
Last Taught: Spring 2018, UWinteriM 2018, UWinteriM 2017, UWinteriM  
2016.  
Current Offerings: http://uwm.edu/schedule

URB STD 499 Ad Hoc:  
1-6 cr. Undergraduate.  
Course created expressly for offering in a specified enrollment period.  
Requires only dept & assoc dean approval. In exceptional circumstances,  
can be offered in one add'l sem.  
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.  
Course Rules: May be retaken w/chg in topic.  
Current Offerings: http://uwm.edu/schedule

URB STD 600 Capstone Seminar in Urban Studies  
3 cr. Undergraduate.  
Seminar on concepts, methods, and approaches to field of Urban Studies;  
readings and discussions on urban scholarship; students produce  
research proposals tailored to their interests.  
Prerequisites: sr st; declared Urb Std major.  
Current Offerings: http://uwm.edu/schedule

URB STD 625 Law and Urban Poverty  
3 cr. Undergraduate/Graduate.  
Examination of the relationship between law and poverty, with emphasis  
upon federal legislative attempts in specific problem areas to alleviate the  
condition of poverty.  
Prerequisites: jr st; cons instr.  
Current Offerings: http://uwm.edu/schedule

URB STD 639 Health Care and Public Policy in the United States  
3 cr. Undergraduate/Graduate.  
Health care policies in the United States.  
Prerequisites: jr st or cons instr.  
Current Offerings: http://uwm.edu/schedule

URB STD 699 Independent Reading  
3 cr. Undergraduate.  
Advanced readings and study in Urban Studies.  
Prerequisites: jr st, 2.5 gpa; cons instr; dept chair, & asst dean for SAS.  
Course Rules: May be retaken w/chg in topic.  
Current Offerings: http://uwm.edu/schedule

URB STD 704 Seminar in Nonprofit Organizations  
3 cr. Graduate.  
Overview of structure, functions, and governance of nonprofit  
organizations. Comparison with government and for-profit organizations.  
Prerequisites: grad st.  
Course Rules: Nonprof 704, Pol Sci 704, Sociol 704, & Urb Std 704 are  
jointly offered; they count as repeats of one another.  
Current Offerings: http://uwm.edu/schedule

URB STD 726 Advanced Methods of Urban Community Development  
3 cr. Graduate.  
Evaluation of model cities, community health, community corporations,  
decentralized government. Practice issues: program design, federal  
policy, consulting, training, participation, decision making process,  
economic feasibility. Future models.  
Prerequisites: grad st & cons instr.  
Current Offerings: http://uwm.edu/schedule

URB STD 741 Introduction to Metropolitan Development  
3 cr. Graduate.  
Preview to metropolitan development from an analytical viewpoint.  
Emphasis on the quantitative tools and conceptual framework necessary  
to interpret phenomena in a metropolitan area.  
Prerequisites: grad st.  
Current Offerings: http://uwm.edu/schedule

URB STD 770 The Law and the American City  
3 cr. Graduate.  
Legal environment of american cities; powers of municipal corporations;  
relations of municipalities to state and federal governments as controlled  
by constitutions, statutes, and judicial decisions; special government  
units; local authorities and bill of rights limitations.  
Prerequisites: grad st.  
Current Offerings: http://uwm.edu/schedule

URB STD 840 Community Health Planning  
3 cr. Graduate.  
Examination of processes of planning for delivery of integrated systems  
of health services to the urban community. Social, economic, political and  
organization factors are discussed and interrelated.  
Prerequisites: grad st.  
Current Offerings: http://uwm.edu/schedule

URB STD 841 Health Policy in Urban Society  
3 cr. Graduate.  
Emerging health policy in modern society. Emphasis on the uncertainty of  
goals, contending interest, and the urban context.  
Prerequisites: grad st.  
Current Offerings: http://uwm.edu/schedule

URB STD 888 Candidate for Degree  
0 cr. Graduate.  
Available for master’s students who must meet minimum credit load  
requirement.  
Prerequisites: grad st.  
Course Rules: Fee for 1 cr assessed.  
Last Taught: Spring 2017, Fall 2016, Fall 2014, Summer 2013.  
Current Offerings: http://uwm.edu/schedule
URB STD 890 Urban Social Institutions Institute: 3 cr. Graduate.
Interdisciplinary study of selected urban and metropolitan problems. Focuses on the analysis of forces shaping the metropolitan milieu.
Prerequisites: grad st or cons UrbInst coord.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

URB STD 901 Seminar: Urban Social Structure 3 cr. Graduate.
Comprehensive analysis of the emergence and institutionalization of cultural and social patterns in urban settings; and future American urban social structures.
Prerequisites: grad st.
Course Rules: Sociol 901 & Urb Std 901 are jointly-offered & count as repeats of one another.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

URB STD 913 Seminar in Urban Political Process 3 cr. Graduate.
Analysis of the forces and processes that shape urban political life, with particular emphasis on patterns of government, political culture, power structures, and civic participation in urban and metropolitan communities.
Prerequisites: grad st.
Course Rules: Pol Sci 913 & Urb Std 913 are jointly offered; they count as repeats of one another.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

Methodological orientations and techniques in urban studies: philosophy of science, conceptualization measurements, research designs, data collection, data analysis.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

URB STD 927 Urban Internship 2-3 cr. Graduate.
Advanced application and analysis of theory and acquired skills in supervised agency assignment.
Prerequisites: grad st.
Course Rules: Retakable to 6 cr max.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

URB STD 939 Urban Lifestyle and Holistic Health Care 3 cr. Graduate.
Examines the implications of urban life style for health promotion and protection with special emphasis on developing appropriate health maintenance modalities.
Prerequisites: Urb Std 639(P) or 841(P).
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

URB STD 945 The Internal Structure of the City 3 cr. Graduate.
The interaction of forces responsible for the evolution of the city as a spatial form and the allocation of economic and social activity within the spatial configuration.
Prerequisites: grad st.
Course Rules: Geog 945 & Urb Std 945 are jointly-offered; they count as repeats of one another.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

URB STD 965 Municipal Management 3 cr. Graduate.
The political, social, and economic contexts in which the urban manager functions, with an emphasis on managing municipal service delivery and resources.
Prerequisites: grad st.
Course Rules: Pub Adm 965(Pol Sci 965) & Urb Std 965 are jointly offered; they count as repeats of one another.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

Historical analysis of the current problems of housing, race relations, the powers and functions of municipal government, law enforcement, and city planning in the United States.
Prerequisites: grad st.
Course Rules: Hist 971 & Urb Std 971 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

URB STD 979 Qualitative Research Methods 3 cr. Graduate.
Seminar on logic, design, and presentation of social science research. Inductive and qualitative methods, theory construction, and ethics and procedures of research in natural settings.
Prerequisites: grad st.
Course Rules: Sociol 979 & Urb Std 979 are jointly-offered; they count as repeats of one another.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

URB STD 980 Growth of Urban Society 3 cr. Graduate.
Seminar in historical, social, and ecological growth and development of urban agglomerations. Comparative framework will be used to examine the urban process.
Prerequisites: grad st.
Course Rules: Hist 980 & Urb Std 980 are jointly offered; they count as repeats of one another.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

URB STD 981 Argument in Urban Studies Scholarship 3 cr. Graduate.
Reading, recapitulating, critiquing, and writing urban-focused social science argument.
Prerequisites: grad st.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)
URB STD 982 Advanced Quantitative Analysis
3 cr. Graduate.
Evaluation of different methods of generating data and their applications to the analysis of public policies and programs.
Prerequisites: grad st; min. score of 85 on dept diagnostic exam.
Course Rules: Sociol 982 & Urb Std 982 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2016, Fall 2013, Fall 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

URB STD 983 Contemporary Urban Social Structure and Change
3 cr. Graduate.
Range of research issues conceptualized in terms of major categorical and more intentional social structures that bear on urban social actions.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

URB STD 984 Research Design for Urban Studies
3 cr. Graduate.
Structural research problem in which doctoral students can master research techniques needed in pursuing dissertation and later in career research.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2015, Spring 2014, Fall 2011.
Current Offerings: http://uwm.edu/schedule

URB STD 987 Urban Social Control
3 cr. Graduate.
Graduate seminar introducing concepts of social control, pervasiveness of social control, and how social control is maintained in urban environments.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

URB STD 988 Seminar in Urban Social Institutions:
3 cr. Graduate.
Historical and sociological forces shaping selected urban issues and social institutions.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

URB STD 990 Master's Research or Thesis
1-3 cr. Graduate.
Research or thesis work for students in the master's program in Urban Studies.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

URB STD 991 Doctoral Research or Dissertation
1-6 cr. Graduate.
Research or dissertation work for students in the doctoral program in Urban Studies.
Prerequisites: grad st.
Course Rules: Retakable.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

URB STD 998 Independent Study for Master's Students
1-3 cr. Graduate.
Independent study in a subject area of special need or interest after consultation with a faculty member.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2016, Spring 2016, Fall 2015, Summer 2015.
Current Offerings: http://uwm.edu/schedule

URB STD 999 Independent Study for Doctoral Students
1-3 cr. Graduate.
Independent study in a subject area of special need or interest after consultation with a faculty member.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

### Urban Studies, BA

The Urban Studies major draws from classes in sociology, geography, history, political science, economics, urban studies, and urban planning to explore issues related to cities, suburban communities and metropolitan regions such as transportation, education, housing, population shifts, crime, discrimination, and more.

The Department of Urban Studies develops students analytical and critical thinking abilities through an examination of the history and growth of urban centers and the challenges they face today and into the future. Our faculty includes international specialists, but much of our curriculum focuses on American cities, and Milwaukee in particular. Our home city is unique, vibrant, and a wonderful place for hands-on study and research.

Because of their interest in urban populations and problem-solving, many graduates work in the areas of community development, land-use planning, public works, community organization, housing policy development and implementation, public education administration, social services, construction management, public health, journalism and fund-
raising. Entry-level roles can include tasks ranging from research to planning to program implementation to customer support.

Students in Urban Studies take courses in a variety of disciplines with elective classes that reflect their specific interests and goals. Classes may come from the History Department, Sociology, Political Science, Economics, and more. An internship or study abroad experience is a popular option for students to gain real-world experience working in urban environments. We believe so strongly that experiential learning is an essential part of an urban studies education that we require a service learning experience for all of our majors. An undergraduate certificate in Urban Studies is also available for students seeking a program that is closer to a minor.

Requirements
Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

University General Education Requirements (GER)

| Part B  | Course designated as QL-B; may be completed through a major-specific course requirement |         |

**Arts**

Select 3 credits

**Humanities**

Select 6 credits

**Social Sciences**

Select 6 credits

**Natural Sciences**

Select 6 credits (at least two courses including one lab)

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

- Two years (high school) of a single foreign language
- Two semesters (college) of a single foreign language
- Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement

**College of Letters & Science Requirements**

I. **English Writing Requirement**

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. **Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>

</tr>
<tr>
<td>MATH 105</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Complete one of the following:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3 or more credits in any 200-level or above Math course</td>
<td></td>
<td></td>
</tr>
<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>
<td></td>
</tr>
<tr>

<td></td>
</tr>
<tr>
<td>BIO SCI 465</td>
<td>Biostatistics</td>
<td></td>
</tr>
<tr>
<td>ECON 210</td>
<td>Economic Statistics</td>
<td></td>
</tr>
<tr>
<td>GEOG 247</td>
<td>Quantitative Analysis in Geography</td>
<td></td>
</tr>
</tbody>
</table>
III. Foreign Language Requirement
Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

### Code | Title | Credits
--- | --- | ---
成功的完成第四个学期的大学课程或等同语言(包含美国手语) | | 0-18

Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language)

Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)

IV. International Requirement
See Approved Courses for the L&S International Requirement (p. 1169) for course options.

### Code | Title | Credits
--- | --- | ---
成功完成的第四个学期的大学课程或等同语言(包含美国手语) | | 9

Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above

Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.

Complete 9 credits in combination of the two options above.

V. Breadth Requirement
Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

### Code | Title | Credits
--- | --- | ---
Arts | Select 3 credits | 3

Humanities

Note: This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

VI. The Major
The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Urban Studies Major Requirements
Four required urban studies courses form the foundation of the major. URB STD 150, a core course in which students conduct service learning by working in an urban organization or agency; one of two urban studies survey courses; a theory course on urbanism and urbanization; and a capstone course (URB STD 600) taken in the senior year. Students also take a statistics course, which is a standard requirement for social science majors. In addition, students complete five elective courses selected from urban studies and approved courses in the affiliated areas. Student internships (URB STD 289 or URB STD 489) are encouraged strongly. Students also are encouraged to participate in and present at various urban studies-sponsored events, such as the annual Urban Studies Student Research Forum conference and the Henry W. Maier State of Milwaukee Summit, and to contribute to the ejournal (currently, each issue includes one paper from an undergraduate).

To declare a major in Urban Studies, students make an appointment with the Urban Studies Associate Director in order to complete the “declaration of major” form.
**Course of Study**

The Urban Studies major requires a minimum of 30-31 credits, including at least 18 credits in the College of Letters and Science with coursework from at least two L&S departments. No more than 9 credits in a single curricular area outside of urban studies may count toward the major. SOCIOL 377, which is jointly offered in the Urb Std curricular area, will count as an Urb Std course for this purpose. Students must complete at least 15 credits in upper-division (numbered 300 and above) L&S courses for the major in residence at UWM. In addition, students must attain a minimum GPA of 2.500 in all UWM credits attempted for the major. The College of Letters and Science also requires that students attain a minimum GPA of 2.500 in all UWM credits attempted for the major. All credits counted as Urb Std courses for this purpose. Students must complete at least 15 credits in urban studies approved by the program director. (No more than nine credits from the same department outside of urban studies may apply to the 30 credits approved by the program director. (No more than nine credits from the same department outside of urban studies may apply to the 30-credit minimum in the major.)

The following are required:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>URB STD 150</td>
<td>Multicultural America</td>
<td>3</td>
</tr>
<tr>
<td>URB STD 360</td>
<td>Perspectives on the Urban Scene: Exploring the Urban Environment</td>
<td>3</td>
</tr>
</tbody>
</table>

**Statistics**

Select one of the following:

- GEOG 247: Quantitative Analysis in Geography
- HIST 595: The Quantitative Analysis of Historical Data
- POL SCI 390: Political Data Analysis
- SOCIOL 261: Introduction to Statistical Thinking in Sociology

Or equivalent course approved by the program director

**Theory**

- SOCIOL/URB STD 377: Urbanism and Urbanization

**Capstone**

- URB STD 600: Capstone Seminar in Urban Studies (satisfies L&S research requirement)

**Electives**

Select 15 credits (see below)

**Total Credits:** 30-31

**Electives**

15 credits selected from the following courses or other appropriate courses approved by the program director. (No more than nine credits from the same department outside of urban studies may apply to the 30- or 31-credit minimum in the major.)

Letters & Science Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus' general education requirements and the College's degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Honors in the College of Letters and Science

Dean's Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Contact Information

Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

Urban Studies, MS

The Master of Science degree program in Urban Studies provides students with a broad understanding of urban society and trains them in research techniques appropriate to the study of metropolitan communities. The course of study stresses the understanding of social processes and the analysis of social and economic policies affecting cities.

The PhD degree program in Urban Studies is designed to prepare individuals to obtain employment in academic departments, as well as government institutions and social agencies, and to conduct sophisticated research in the field of urban studies. The course of study emphasizes history, research methodology, and social science theory.

Urban Studies Programs offers two interdisciplinary graduate programs of study that are housed in the College of Letters and Science and led by social science faculty members from the Departments of Africology, Architecture, Criminal Justice, Educational Policy and Community Studies, Geography, History, Political Science, Nonprofit and Public Administration, Public Health, Sociology, and Urban Planning.

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus the following requirement to be considered for admission:

- Undergraduate major in one of the social sciences or experience in relevant occupational roles such as planning, community organization or social work.
- Two letters of recommendation from persons familiar with the applicant's academic ability. Recommendation forms may be obtained online from the Urban Studies Programs website (http://www4.uwm.edu/letsci/urbanstudies/graduate/apply.cfm).
must pass an oral examination based on the paper or thesis. Students who will serve as the paper or thesis examination committee. The student whom cannot be from the same department and must be USP faculty) faculty advisor, must assemble a committee of three faculty (two of

A master's paper or thesis is required to receive the MS degree in Urban

Students in the MS/MLIS program follow all of the requirements and standards as described in this section of the Bulletin with the following joint exceptions: 21 of the 24 credits, including the optional 3 credits for a master's thesis, required for the Urban Studies portion of the joint degree are taken within USP. All courses in related areas and any exceptions to the 21 credit rule must be reviewed by the Coordinator of Urban Studies. All courses selected are expected to be consistent with the objectives of the Urban Studies program.

Urban Studies

The minimum degree requirement is 30 graduate credits. All Urban Studies students are required to take a core curriculum of 15 credits:

Paper or Thesis

A master's paper or thesis is required to receive the MS degree in Urban Studies. A master's paper may be developed from a seminar paper and should demonstrate conceptual ability and research competence in a sub-area of Urban Studies. It is expected that the master's paper will be prepared in a scholarly fashion conforming to the format characteristics of journal articles published in the chosen area of study.

Regardless of the option chosen, the student, in consultation with the faculty advisor, must assemble a committee of three faculty (two of whom cannot be from the same department and must be USP faculty) who will serve as the paper or thesis examination committee. The student must pass an oral examination based on the paper or thesis. Students may opt to enroll in URB STD 990 and earn up to 3 credits toward the MS degree for their paper/thesis research and writing.

Time Limit

The student must complete all degree requirements within five years of initial enrollment.

Urban Studies, MS/Library and Information Science, MLIS

In collaboration with several other academic units at UW-Milwaukee, SOIS offers students the opportunity to obtain two Master's degrees concurrently—one in Library and Information Science (MLIS) and one in a subject area.

Degree Requirements

- The number of degree credits needed for each of the coordinated programs is usually 12 fewer than the sum of the two programs if they were not taken simultaneously. **All degree requirements of each component must be satisfied.**
- The MLIS portion of the coordinated degrees can be completed online.
- Prerequisite to the award of either degree in this program is the simultaneous award of its counterpart degree.

MLIS Component

The Master of Library and Information Science (MLIS) component of each of the coordinated programs includes 30 credits of SOIS courses. These include the MLIS core courses (12 credits). The remaining 18 MLIS credits are selected from the School’s offerings in accordance with the student’s goals in the coordinated degree program.

MLIS/MS Urban Studies

A Master of Science in Urban Studies/Master of Library and Information Science program to prepare students for positions as urban information specialists, 54 credits.

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Credits and Courses

Minimum degree requirement is 33 credits beyond the master's degree; these credits include core courses, a methodological specialization, a topical specialization, and a dissertation. At least 27 credits must be earned in UWM courses while in the doctoral program. Credits for the methodological specialization and the topical specialization combined must total at least 15 credits, with 6 credits from one area and 9 from the other. Students will decide, in consultation with their advisor, whether to focus more on methods or on topics. In consultation with their major professor and the program director, students must develop a plan of study, which should be filed in the USP office by the end of the second semester of enrollment.

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/Registrar/contact-us) online.

Admission

An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/thesis-dissertation-formatting), hold a master's degree or the equivalent in a social science or a related field, and meet the criteria established by the Urban Studies Programs Faculty to be considered for admission:

1. Three letters of recommendation from persons familiar with the applicant's academic work. Recommendation forms may be obtained online from the link above.
2. A sample of the applicant's written work that demonstrates the applicant's ability to conduct independent social science research and/or the ability to critically analyze the work of others.
3. A letter of intent outlining the applicant's reasons for graduate study.
4. GRE scores.
5. A response to a question that elucidates the applicant's reasons for taking up the academic study of urban affairs and describes her/his intellectual ambitions in the field.
Methodological Specialization
Select 6-9 credits

Topical Specialization
Select 6-9 credits

Thesis
Select 6 credits in doctoral thesis or dissertation courses

Total Credits
30-37

1 Qualified students may be exempted from the quantitative competency/statistics course, but they must take an additional three credits of electives in methodological or topical tracks.

Methodological Specialization (6-9 credits)
Students must declare one specialization from the following list and take two to three courses, for a total of 6 to 9 credits. Credits taken in the methodological specialization and the topical specialization combined must total at least 15 credits.

A methodological specialization in GIS requires GEOG 547 to complete the statistical/quantitative core competency.

Geographical Information Systems (2 course minimum)
A methodological specialization in GIS requires GEOG 547/URB STD 982 and at least one additional statistical/quantitative course beyond the core competency. This course, selected in consultation with the student’s advisor, should support research objectives and dissertation goals. See the Graduate Program Director for a list of qualifying courses or online at: http://www4.uwm.edu/letsci/urbanstudies/graduate/phd/upload/CompletePHDStudentGuide.pdf.

A variety of specializations and qualifying courses are published annually on the Urban Studies website (http://uwm.edu/urban-studies/graduate). Students are required to take 6-9 credits at the 700 level or above in the specialization field, no more than 3 credits of which may be in independent study courses. With the approval of the major professor or program director, students may take up to 3 credits in U/G courses.

Thesis (6 credits)
A maximum of 6 credits in doctoral thesis or dissertation courses may be counted toward the 33 credits required for the degree.

Residence
The Ph.D. student may meet the residence requirement by completing 8 or more graduate credits in each of two consecutive semesters, exclusive of summer sessions, or by completing at least 6 graduate credits in each of three consecutive semesters, exclusive of summer sessions.

Doctoral Preliminary Examination
The student must pass a doctoral preliminary examination to qualify for formal admission to candidacy for the degree.

Dissertation
The candidate, working under the supervision of the major professor and the candidate’s dissertation committee, must write a dissertation which demonstrates ability to formulate a research topic and pursue original investigation.

Dissertation Defense
The candidate must, as a final step toward the degree, pass an oral examination in defense of the dissertation.

Time Limit
All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.
Urban Studies, Undergraduate Certificate

The Undergraduate Certificate in Urban Studies draws from classes in sociology, geography, history, political science, economics, urban studies, and urban planning to explore issues related to cities, suburban communities and metropolitan regions such as transportation, education, housing, population shifts, crime, discrimination, and more.

Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

Eligibility

The Urban Studies Undergraduate Certificate program is open to all students seeking a bachelor’s degree from UWM, to students who previously have received a bachelor’s degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. To be admitted to the University as non-degree students, individuals must meet regular University admission requirements. Students currently involved in baccalaureate studies who complete the requirements of the program successfully will be awarded the certificate at the time of graduation. Post-baccalaureate and non-degree students will receive the certificate upon successful completion of the program requirements.

Requirements

1. Completion of 18 credits in approved urban studies courses with a minimum GPA of 2.500.
2. Completion of URB STD 250 (Exploring the Urban Environment), URB STD 193 (First-Year Seminar), or URB STD 360 (Perspectives on the Urban Scene).
3. Of the 18 credits:
   a. 6 must be in the humanities;
   b. 6 in the social sciences; and
   c. 9 must be at the 300 level or above taken in residence at UWM. It is recommended that the student also complete one course in the natural sciences.
4. No more than 9 credits from any one department outside Urban Studies may count toward the certificate.
5. A maximum of 6 credits in independent study may be taken. In the senior year, a student may plan an independent study course to synthesize previous work in urban studies.
6. An internship in URB STD 289 or URB STD 489 is recommended highly.
7. While students may elect courses outside the College of Letters and Science to count toward the certificate, at least 12 credits must be completed in L&S courses, at least 6 of these at the 300 level or above.
8. Credits earned at other institutions in equivalent urban studies programs and accepted by UWM as transfer credits may count in partial fulfillment of the certificate requirements.

Urban Studies Approved Courses

The following courses in the College of Letters and Science are approved to count toward the Urban Studies Certificate. Each semester, the Advisory Committee will review and approve variable content course sections for the Certificate. Contact the Urban Studies Program for the most current list of approved courses.

WOMEN’S AND GENDER STUDIES

Women’s and Gender Studies is an academic discipline that critically evaluates gender from an interdisciplinary perspective and challenges many traditional assumptions and theories about women that have excluded them from positions of power. It examines the practice and expression of gender in different societies and at different historical moments; it explores the various origins and articulations of gender differentiation; it traces the influence of gender expectations on individuals and it studies the interactions of gender and other differences in social, political, and cultural contexts. The feminist pedagogy used in Women’s and Gender Studies courses empowers all students to become active learners and social change agents through discussion, written work, collaborative projects, and practical involvement beyond the classroom.

Women’s and Gender Studies prepares students for careers in non-profit organizations, business, the creative arts, education, government and public policy, journalism, law, medicine, publishing, science, the social sciences, social work, and many other fields.

Women’s and Gender Studies Courses

WGS 150 Multicultural America
3 cr. Undergraduate.
Cross-cultural and interdisciplinary study of U.S. ethnic and racial identities and experiences, with special attention paid to women's and gender issues.
Prerequisites: none.
Course Rules: Cultures and Communities Prog course; req'd service learning component.
General Education Requirements: HU, CD
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

WGS 192 First-Year Seminar:
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

WGS 199 Independent Study
1-3 cr. Undergraduate.
Independent work supervised by Women's Studies faculty or staff member. Written proposal required prior to registration. For additional information, consult Wmns Prog or asst dir.
Prerequisites: 2.5 GPA; writ cons instr, Women's & Gender Studies prog dir & asst dean for SAS.
Course Rules: May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

WGS 200 Introduction to Women's and Gender Studies: A Social Science Perspective
3 cr. Undergraduate.
An interdisciplinary course with focus on social science approaches to the situation of women.
Prerequisites: none.
Course Rules: May not be taken for cr if WGS(Wmns) 201 or L&S-Hum 201 is also taken.
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

WGS 201 Introduction to Women's and Gender Studies: A Humanities Perspective
3 cr. Undergraduate.
An interdisciplinary course with focus on humanities approaches to the situation of women.
Prerequisites: none.
Course Rules: May not be taken for cr if WGS(Wmns) 200 or L&S SS 200 is also taken.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

WGS 211 Foundations of Women's and Gender Studies Writing and Research
3 cr. Undergraduate.
Introductory exploration of the meaning and practice of feminist research, with an emphasis on critical reading, writing, and analytical skills.
Prerequisites: WGS(Wmns) 200(P) or 201(P).
Course Rules: Counts as repeat of Wgs (Wmns) 290 w/same topic.
Current Offerings: http://uwm.edu/schedule
WGS 290 Selected Topics in Women's and Gender Studies:
3 cr. Undergraduate.
Selected women's and gender studies issues and topics, limited to undergraduates.
Prerequisites: none.
Course Rules: Specific topics and add'l prereqs announced in Schedule of Classes each time course is offered. May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

WGS 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work levels, content, and credits are determined and/or in specially-prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

WGS 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Last Taught: Spring 2013.
Current Offerings: http://uwm.edu/schedule

WGS 300 Gender and Spirituality:
3 cr. Undergraduate.
Ways in which gender informs spiritual teachings and practices globally and historically; relationship between spiritual beliefs and the constructions of social, cultural, and political realities.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

WGS 301 Queer Theory
3 cr. Undergraduate.
Queer theory and its contributions to the study of gender and sexuality.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

WGS 302 Gendered Bodies:
3 cr. Undergraduate.
Feminist interdisciplinary approach to the human body; its life changes as socially constructed and conditioned by cultural ideas and practices of gender and other differences.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Last Taught: Spring 2018, Fall 2016, Spring 2015, Fall 2012.
Current Offerings: http://uwm.edu/schedule

WGS 303 Feminist Activism and Movements:
3 cr. Undergraduate.
Feminist activism and women's social and political movements in a global and historical context.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Last Taught: Fall 2013, Spring 2013, Spring 2009.
Current Offerings: http://uwm.edu/schedule

WGS 304 Feminist Activism and Movements: Global Perspectives:
3 cr. Undergraduate.
Feminist activism and global movements in a historical and cultural context.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Last Taught: Fall 2013, Spring 2013, Spring 2009.
Current Offerings: http://uwm.edu/schedule

WGS 307 Global Feminisms:
3 cr. Undergraduate.
Interdisciplinary study of women and gender in international perspective, including topics such as work, religion, ideology, and UN conferences.
Prerequisites: jr st & WGS(Wmns) 200(P) or 201(P); or grad st.
Last Taught: Fall 2017, Fall 2016, Spring 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

WGS 308 Global Feminisms: Women's Activism in International Perspective
3 cr. Undergraduate.
Feminist activism and global movements in a historical and cultural context.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Last Taught: Fall 2017, Spring 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

WGS 380 Honors Seminar in the Social Sciences:
3 cr. Undergraduate.
Selected topics in women's studies from a social science perspective.
Prerequisites: soph st; Honors 200(P); cons Honors College dir.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

WGS 381 Honors Seminar in the Humanities:
3 cr. Undergraduate.
Selected topics in women's studies from a humanities perspective.
Prerequisites: soph st; Honors 200(P); cons Honors College dir.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

WGS 400 Global Feminisms
3 cr. Undergraduate/Graduate.
Interdisciplinary study of women and gender in international perspective, including topics such as work, religion, ideology, and UN conferences.
Prerequisites: jr st & WGS(Wmns) 200(P) or 201(P); or grad st.
Last Taught: Fall 2017, Fall 2016, Spring 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

WGS 401 Global Feminisms
3 cr. Undergraduate/Graduate.
Interdisciplinary study of women and gender in international perspective, including topics such as work, religion, ideology, and UN conferences.
Prerequisites: jr st & WGS(Wmns) 200(P) or 201(P); or grad st.
Last Taught: Fall 2017, Fall 2016, Spring 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

WGS 402 Capstone Seminar in Women's and Gender Studies:
3 cr. Undergraduate.
Capstone course for women's and gender studies majors and certificate students, focusing on student research on various topics pertaining to women such as 'Gender and Power.'
Prerequisites: sr st; 6 cr in women's and gender studies, including WGS(Wmns) 200(P) or 201(P).
Course Rules: May not be retaken for cr.
Current Offerings: http://uwm.edu/schedule

WGS 410 Feminist Theory
3 cr. Undergraduate/Graduate.
Interdisciplinary survey of theories that shape and inform women's studies and feminist scholarship.
Prerequisites: jr st; WGS(Wmns) 200(P) or 201(P); or grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

WGS 411 Women's and Gender Studies Research Methods:
3 cr. Undergraduate/Graduate.
Interdisciplinary course with focus on women's and gender studies research methods, explored through selected topics such as 'Gendered Bodies.'
Prerequisites: jr st, WGS(Wmns) 200(P) or 201(P), & WGS(Wmns) 410(P) or equiv; or grad st.
Course Rules: May not be retaken for cr.
Current Offerings: http://uwm.edu/schedule
WGS 489 Internship in Women's and Gender Studies
1-3 cr. Undergraduate.
Application of advanced principles of Women's and Gender Studies in an appropriate organizational, educational, business, or political setting.
Prerequisites: jr st; WGS(Wmns) 200(P), 201(P), 500(P), or 501(P); 2.50 gpa & cons Women's and Gender Studies Prog dir.
Course Rules: One cr earned for academic work based on 40 hours in internship. May be retaken to 6 cr max.
Last Taught: Spring 2018, Fall 2017, Summer 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

WGS 497 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM sponsored program before course work levels, content, and credits are determined and/or in specially-prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2017, Spring 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

WGS 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

WGS 500 Advanced Social Science Seminar in Women's and Gender Studies:
3 cr. Graduate.
Theoretical foundations of feminist research and exploration of the tools, methodology and analytical skills employed in interdisciplinary women's and gender studies scholarship.
Prerequisites: jr st; 6 cr in women's and gender studies.
Course Rules: May be retaken w/chg in topic to 9 cr combined max for WGS(Wmns) 500 & 501.
Current Offerings: http://uwm.edu/schedule

WGS 501 Advanced Humanities Seminar in Women's and Gender Studies:
3 cr. Undergraduate/Graduate.
Theoretical foundations of feminist research and exploration of the tools, methodology, and analytical skills employed in interdisciplinary women's and gender studies scholarship.
Prerequisites: jr st; 6 cr in women's and gender studies.
Course Rules: May be retaken w/chg in topic to combined max of 9 cr for WGS(Wmns) 500 & 501.
Last Taught: Fall 2017, Spring 2015, Fall 2013, Spring 2012.
Current Offerings: http://uwm.edu/schedule

WGS 535 Philosophical Topics in Feminist Theory:
3 cr. Undergraduate/Graduate.
Study of selected feminist theorists with an emphasis on past or contemporary thinkers. Attention will be paid to the philosophical importance of the problems raised.
Prerequisites: jr st; a course in philos or women's and gender stds.
Course Rules: May be retaken w/chg in topic to a 6 cr max. Philos 535 & WGS(Wmns) 535 are jointly offered; with same topic, they count as repeats of one another.
Last Taught: Fall 2017, Fall 2016, Fall 2014.
Current Offerings: http://uwm.edu/schedule

WGS 599 Topics in Women's and Gender Studies:
1-3 cr. Undergraduate/Graduate.
Specific topics, cr, and add'l prereqs announced in Schedule of Classes each time course is offered.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

WGS 699 Independent Reading
1-3 cr. Undergraduate.
Advanced independent work under supervision of a Wmns Stds faculty or instructional academic staff member. Students must submit study proposal. For more information, consult Wmns Stds Prog asst dir.
Prerequisites: jr st; 2.5 GPA; writ cons instr, Womens & Gender Studies Prog dir & asst dean for SAS.
Course Rules: May be retaken for cr.
Last Taught: Spring 2018, Fall 2017, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

WGS 700 Feminist Issues and Scholarship
3 cr. Graduate.
Advanced introduction to feminist scholarship and research in multiple disciplines and introduction to the disciplinary history of Women's Studies.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

WGS 701 Advanced Global Feminisms
3 cr. Graduate.
Interdisciplinary graduate-level course focusing on women, men, and gender relationships in international perspective, including the social and cultural conditions within which they live.
Prerequisites: grad st
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

WGS 710 Advanced Feminist Theory
3 cr. Graduate.
Interdisciplinary graduate-level seminar on introductory themes, issues, and conflicts in feminist theory.
Prerequisites: grad st
Last Taught: Fall 2017, Fall 2016, Spring 2016, Spring 2015.
Current Offerings: http://uwm.edu/schedule
WGS 711 Advanced Women's and Gender Studies Research Methods
3 cr. Graduate.
Interdisciplinary graduate-level course with focus on Women's and Gender Studies research methods.
Prerequisites: grad st.
Course Rules: Not retakable.
Current Offerings: http://uwm.edu/schedule

WGS 799 Advanced Topics in Women's and Gender Studies:
1-3 cr. Graduate.
Advanced examination and analysis of selected Women's and Gender Studies issues and topics for graduate students.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

WGS 820 Women's and Gender Studies Graduate Practicum
3 cr. Graduate.
Internship, field experience, or related practical experience that provides students the opportunity to apply feminist theories and research methods in a practical context.
Prerequisites: grad st; WGS 710(P) & 711(P).
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

WGS 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirements.
Prerequisites: grad st.
Course Rules: Enroll for 1 cr; fee for 1 cr assessed. Student schedule will show 1N cr; this will be changed to 0 cr for grade report & permanent record.
Current Offerings: http://uwm.edu/schedule

WGS 990 Research and Thesis
1-3 cr. Graduate.
Reserved for research in connection with master's thesis.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

WGS 999 Advanced Independent Work
1-6 cr. Graduate.
Independent reading or project; topic selected in agreement with supervising professor.
Prerequisites: grad st; cons Wmns dir.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

Women's and Gender Studies, BA

Women's and Gender Studies is a discipline that critically examines gender and women's issues from an interdisciplinary perspective and challenges many traditional assumptions and theories. It examines the practice and expression of gender in different societies and at different historical moments.

Regardless of your gender, Women's and Gender Studies is crucial and relevant for anyone interested in working in criminal justice, social work, the non-profit sector, the arts, politics, business, and more. Students learn to look at the world and history through different perspectives and think about how gender and our perceptions of it impact culture, society, and daily interactions. It is a traditional liberal arts discipline where the knowledge and skills developed in the program can be applied to all types of career paths. Work experiences during college through internships, part-time jobs, and volunteer positions often shape career paths after graduation.

In 1974, the Office of Women's Studies opened its doors at UWM, becoming the first university in Wisconsin to establish a Women's Studies program. Today, undergraduate students at UWM can pursue a Women's and Gender Studies major or minor, and graduate students can choose from among three different Women's and Gender Studies MA options or a certificate to complement a different graduate degree program. Undergraduates benefit from the MA program's strength by working with and learning from graduate students and taking classes with the same exceptional faculty.

Students in Women's and Gender Studies master critical thinking, problem analysis, and communication through both classroom studies and service learning opportunities.
Students who are interested in the major should consult with Women’s and Gender Studies to make a formal declaration. For additional information, please contact Women’s and Gender Studies, located in CRT 535, by phone at (414) 229-5918, or on the web at http://uwm.edu/womens-gender-studies/.

Requirements
Course of Study – Bachelor of Arts Degree
Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

UWM Cultural Diversity Requirement
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement

College of Letters & Science Requirements
I. English Writing Requirement
Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning
To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>

<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

<td></td>
</tr>
</tbody>
</table>

VI. The Major
The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Women's and Gender Studies Major Requirements
The Women's and Gender Studies major requires 36 credits drawn from Women's and Gender Studies core and cross-listed classes. At least 15 credits in the major must be taken in upper-division (numbered 300 or above) courses in residence at UWM. Completion of WGS 411 and either WGS 500 or WGS 501 satisfies the L&S research requirement. Students must maintain a GPA of at least 2.500 in UWM major courses attempted. In addition, the College requires that students attain a 2.500 GPA in all major courses attempted, including any transfer work. Majors should consult regularly with their advisor in Women's and Gender Studies about their course of study.

The major requires completion of the following courses offered through Women's and Gender Studies:

<table>
<thead>
<tr>

</table>
Letters & Science Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus' general education requirements and the College's degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not, can receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Honors in the College of Letters and Science

Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Contact Information

Women's and Gender Studies, Graduate Certificate

The Graduate Certificate in Women’s and Gender Studies is designed for students enrolled in a graduate program in any field who wish to complement their advanced training and scholarly work with an additional specialization in Women’s and Gender Studies.

Research and study in Women's and Gender Studies helps students:

- identify and assess gender-based assumptions and biases and to recognize their social, cultural and individual consequences;
- analyze and integrate perspectives and bodies of knowledge across disciplines, and develop your critical thinking skills in ways that will complement and enhance your training in any other field;
- prepare for careers in non-profit organizations, businesses, the creative arts, education, government and public policy, journalism, law, social work, and more;
- become empowered to participate in public debate and act for social change.

To pursue this certificate, students must be enrolled in a graduate degree program or already hold a graduate degree. Acceptance to this graduate certificate also requires a minimum 2.75 GPA from the undergraduate degree.

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Eligibility and Admission

To pursue this certificate, students must be enrolled in a graduate degree program or already hold a graduate degree.

Application

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Certificate Requirements

Credits and Courses

The Graduate Certificate in Women’s and Gender Studies requires completion of 15 credits in approved courses with an overall GPA of 3.0. The following are required:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>WGS 401</td>
<td>Global Feminisms</td>
<td>3</td>
</tr>
<tr>
<td>WGS 700</td>
<td>Feminist Issues and Scholarship (G)</td>
<td>3</td>
</tr>
<tr>
<td>WGS 710</td>
<td>Advanced Feminist Theory (G)</td>
<td>3</td>
</tr>
</tbody>
</table>

| Electives | Select 6 credits from a combination of WGS and approved cross-listed Graduate (G) or Undergraduate/Graduate (U/G) courses in other programs and departments | 6       |

Total Credits 15

1 Students who have previously earned undergraduate credit in this course will substitute, with approval of the DGS, a graduate course with a focus on globalization and women.

No more than 6 credits in U/G courses can apply toward the certificate, and a maximum of three credits in independent study may count toward the 15 credits required for the certificate. Thesis and research credits may not be counted toward the Certificate.

Transfer Credit

No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   - Degree programs must approve the courses from certificates that can double count toward the degree.
   - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.

3. A course may count toward no more than one certificate and one degree.

4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

Women's and Gender Studies, MA

The MA in Women's and Gender Studies is designed for students who intend to pursue additional academic degrees and students who seek graduate credentials to further their career goals. The degree combines advanced Women's and Gender Studies courses in feminist theory, research methods, global feminisms, and selected topics with graduate-level courses in many disciplines. Over forty faculty members at UWM are Women's and Gender Studies affiliates and offer graduate courses that are cross-listed with Women's and Gender Studies.

Students completing an MA in Women's and Gender Studies will:
- Gain an understanding of Women's and Gender Studies as an interdisciplinary field of study and research.
- Demonstrate an advanced understanding of feminist theory and research methods.
- Develop critical thinking skills that will enable them to analyze competing perspectives and integrate various bodies of knowledge across academic boundaries, paying particular attention to gender-based assumptions and their consequences on individuals, social and cultural groups, and institutions.
- Demonstrate an awareness of women's diverse experiences based on factors such as age, race, sexuality, gender identity, class, religion, and ability status.
- Acquire the background necessary for entry into PhD programs in Women's and Gender Studies. The MA also prepares students for further graduate studies in many fields of the humanities, social sciences or professions, as well as career fields that require an advanced degree.

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
In addition to satisfying Graduate School requirements (http://uwm.edu/graduateschool/admission) for admission, applicants must provide these materials to be considered for admission:
- Three letters of recommendation from persons familiar with the applicant’s academic or professional work.
- A sample of the applicant’s written work that demonstrates the applicant’s critical thinking, research, and writing skills.
- A letter of intent explaining the applicant’s reasons for graduate study (the Graduate School Reasons Statement may be used).

GRE (http://uwm.edu/graduateschool/admission/#gre) scores are recommended, but not required. GRE (http://uwm.edu/graduateschool/admission/#gre) scores are required to apply for UWM fellowships or awards.

Applicants may be admitted with course deficiencies provided that the deficiencies amount to no more than two courses. Students are expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the program. No course credits earned in making up deficiencies may be counted toward the degree.

Financial Aid
Women’s and Gender Studies offers a graduate teaching assistantship. To apply, prospective students should include a statement describing previous teaching experience and/or reasons for teaching with application materials sent to Women’s and Gender Studies. Women’s and Gender Studies also has two need-based scholarships for which graduate students are eligible. Scholarship decisions are made each spring. Contact the program for applications.

The UWM Graduate School offers AOP (Advanced Opportunity Program) and Distinguished Graduate Student Fellowships (http://uwm.edu/graduateschool/types-of-funding/#fellowships).

Advising
Graduate advising is the responsibility of the Women’s and Gender Studies Director of Graduate Studies (DGS), who provides initial advising for students until they choose an advisor.

Credits and Courses
To earn an MA in Women’s and Gender Studies, students must complete 30 credits. Fifteen credits are in required Women’s and Gender Studies courses (15 with thesis option):

¹ Excluding WGS 497, WGS 599, WGS 700, WGS 990, and WGS 999.

No more than six credits may be in undergraduate/graduate (U/G) courses, and no more than six transfer credits may apply. Students may not count more than three credits of WGS 999 toward the degree.

Thesis, Paper or Project, or Examination
Students complete the degree with a written thesis, paper or project, or comprehensive examination. All options include an oral defense.

The thesis is an academic research paper that demonstrates the student's ability to carry out an independent investigation, to analyze data (qualitative and/or quantitative), and to present the results in a clear, systematic form. The thesis includes a review of relevant scholarship and makes a contribution to the field.

The master's paper is a more limited, shorter scholarly product that often takes the form of a scholarly essay of publishable quality. The master's paper demonstrates the student's ability to formulate an argument,
analyze data, present results in a clear, systematic form, and show familiarity with relevant scholarship.

The master's project may be a creative or artistic project that is research-based or a research-based practical project.

The examination is a comprehensive written examination that addresses central texts and issues in the field of Women's and Gender Studies.

**Time Limit**

Students must complete the MA within five years of enrollment, in compliance with Graduate School time-to-degree requirements.

**Women's and Gender Studies, MA/Library and Information Science, MLIS**

In collaboration with several other academic units at UW-Milwaukee, SOIS offers students the opportunity to obtain two Master's degrees concurrently—one in Library and Information Science (MLIS) and one in a subject area.

**Degree Requirements**

- The number of degree credits needed for each of the coordinated programs is usually 12 fewer than the sum of the two programs if they were not taken simultaneously. All degree requirements of each component must be satisfied.
- The MLIS portion of the coordinated degrees can be completed online.
- Prerequisite to the award of either degree in this program is the simultaneous award of its counterpart degree.

**MLIS Component**

The Master of Library and Information Science (MLIS) component of each of the coordinated programs includes 30 credits of SOIS courses. These include the MLIS core courses (12 credits). The remaining 18 MLIS credits are selected from the School's offerings in accordance with the student's goals in the coordinated degree program.

**MLIS/MA Women's and Gender Studies**

The coordinated program is designed to provide students with theoretical and practical exposure to evolving information retrieval and organization, and the field of feminist research and scholarship.

**Application Deadlines**

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**

Students are admitted to both graduate programs separately and admission requirements (http://uwm.edu/graduateschool/admission) are consistent with those specified by the UWM Graduate School, the MA in Women's and Gender Studies program in the College of Letter & Science, and the MLIS program (http://uwm.edu/graduateschool/library-information-science) of the School of Information Studies.

**Credit and Courses**

Students accepted into this MA/MLIS program complete the following courses:

### Women's and Gender Studies

<table>

<td>1-3</td>
</tr>
</tbody>
</table>

Total Credits: 34-36

1 Six credits taken in WGS also count as electives for a total of 24 crs electives.

Total MLIS Credits: 30 (min of 33 with SOIS thesis option)

**Total Credits for Coordinated Program: 54 (57 with thesis)**

The credits for the coordinated program would typically be completed in both programs at the same time, rather than one program after the other. A student not completing the requirements for the coordinated degree program would need to complete all requirements for an individual program in order to receive a degree.

**Important**

You must refer to the catalog pages of both individual master's programs to ensure that you meet all requirements for both degrees.
Time Limit
Students in the coordinated MA/MLIS degree program must complete all degree requirements within seven years of the first enrollment semester as a degree student.

Women's and Gender Studies, MA/Social Work, MSW

The College of Letters and Science and the Helen Bader School of Social Welfare collaboratively offer a program designed to provide students with theoretical and practical exposure to evolving professional practice and the field of feminist research and scholarship. Prerequisite to the award of either degree in this program is the simultaneous award of its counterpart degree.

Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Students are admitted to both graduate programs separately, and admission requirements (http://uwm.edu/graduateschool/admission) are consistent with those specified by the UWM Graduate School, the MA in Women’s and Gender Studies program in the College of Letter and Science, and the MSW in Social Work (http://uwm.edu/graduateschool/social-work) of the Helen Bader School of Social Welfare.

Credit and Courses

Students accepted into this MA/MSW program complete the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>WGS 700</td>
<td>Feminist Issues and Scholarship (G)</td>

</tr>
<tr>
<td>Select one G or U/G WGS course</td>
<td></td>
<td>3</td>
</tr>
</tbody>
</table>

Electives

Select 9 credits in WGS courses or cross-listed courses with Women’s and Gender Studies (excluding Soc Wrk)

Total Credits 24

Minimum Total Credits for Coordinated Program: 52 (for those admitted to the MSW Social Work Advanced Curriculum).

Program Requirements

Time Limit
Students in the coordinated MA/MSW degree program must complete all degree requirements within seven years of the first enrollment semester as a degree student.

Women's and Gender Studies, Minor

Women's and Gender Studies is a discipline that critically examines gender and women's issues from an interdisciplinary perspective and challenges many traditional assumptions and theories. It examines the
practice and expression of gender in different societies and at different historical moments.

Regardless of your gender, Women's and Gender Studies is crucial and relevant for anyone interested in working in criminal justice, social work, the non-profit sector, the arts, politics, business, and more. Students learn to look at the world and history through different perspectives and think about how gender and our perceptions of it impact culture, society, and daily interactions. It is a traditional liberal arts discipline where the knowledge and skills developed in the program can be applied to all types of career paths. Work experiences during college through internships, part-time jobs, and volunteer positions often shape career paths after graduation.

In 1974, the Office of Women's Studies opened its doors at UWM, becoming the first university in Wisconsin to establish a Women's Studies program. Today, undergraduate students at UWM can pursue a Women's and Gender Studies major or minor, and graduate students can choose from among three different Women's and Gender Studies MA options or a certificate to complement a different graduate degree program. Undergraduates benefit from the MA program's strength by working with and learning from graduate students and taking classes with the same exceptional faculty.

Students in Women's & Gender Studies master critical thinking, problem analysis, and communication through both classroom studies and service learning opportunities.

Students who are interested in the minor should consult with Women's and Gender Studies to make a formal declaration. For additional information, please contact Women's and Gender Studies, located in CRT 535, by phone at (414) 229-5918, or on the web at http://uwm.edu/womens-gender-studies/.

### Requirements

Students who minor in Women's and Gender Studies are required to take 18 credits drawn from Women's and Gender Studies and cross-listed courses, at least 9 credits of which must be completed in upper-division (numbered 300 or above) courses in residence at UWM. In addition, students must attain a 2.500 GPA in all minor courses attempted, including any transfer work. The following courses are required for the minor:

<table>

NURSING (COLLEGE OF)

The College of Nursing offers a Bachelor of Science degree (BS) in nursing, a Master of Nursing (MN) degree, and a Doctor of Nursing Practice (DNP) degree. These nursing programs are fully approved through the State of Wisconsin Board of Nursing and accredited by the Commission on Collegiate Nursing Education. The College also offers a Doctor of Philosophy degree (PhD) in nursing.

Vision
As an innovative, academic community, the University of Wisconsin-Milwaukee College of Nursing faculty, staff, students and alumni are renowned practitioners, scientists and leaders in creating bold and transformative solutions for advancing local, national and global health.

Mission
The University of Wisconsin-Milwaukee College of Nursing is a premier, urban, academic, collegial community that acts collaboratively with partners to:

- Prepare a diverse population of students to become science based, compassionate leaders through innovative, quality, educational programs for all settings and levels of practice.
- Conduct research and scholarship that advance science in nursing and health.
- Address health through evidence based practice and interprofessional collaboration; and
- Develop leaders who transform health care delivery and health policy.

Core Values
As a diverse Community of Scholars that values academic discourse and debate in a climate of civility, we live our core values and create opportunities to understand the perspectives of all others. We, the University of Wisconsin-Milwaukee College of Nursing community, demonstrate these core values in our learning, teaching, research, practice and service.

- Collaboration
- Creativity
- Integrity
- Human Dignity
- Diversity
- Accountability
- Social Justice
- Excellence

- Sustainable Peacebuilding, MSP (p. 1846)

Doctoral
- Nursing Practice, DNP (p. 1830)
- Nursing Practice, DNP/Business Administration, MBA (p. 1833)
- Nursing, PhD (p. 1842)

Certificates
- Clinical Nurse Specialist, Graduate Certificate (p. 1821)
- Family Nurse Practitioner, Graduate Certificate (p. 1823)
- Global Health, Undergraduate Certificate (College of Nursing) (p. 1824)
- Health Professional Education, Graduate Certificate (College of Nursing) (p. 1826)
- Interprofessional Graduate Certificate in Public and Population Health (College of Nursing) (p. 1828)
- Trauma Informed Care, Graduate Certificate (College of Nursing) (p. 1848)

Requirements for Employment, Licensing, or Professional Organizations
Students should be aware that some professions, occupations, and employers are subject to licensing and/or bonding requirements. When a course of study includes clinical or field training, practice teaching, internships, or the like, students will be subject to a check of criminal conviction records, prior to acceptance of a student by the placement site. Drug testing is also a requirement prior to starting clinical, as is verification of health and immunization status. Students are responsible for obtaining the information necessary for them to become knowledgeable about these requirements and plan their studies accordingly. Please contact the appropriate department or program office for further information.

UW System Collaborative Nursing Program Courses

UWS NSG 365 Current Topics of Nursing:
1-6 cr. Undergraduate.
Current thought, issues and research in nursing and implications for practice.
Prerequisites: jr st or cons instr.
Course Rules: May be retaken with change in topic to max of 12 cr.
Current Offerings: http://uwm.edu/schedule

UWS NSG 375 Genetics and Genomics for Health Professionals
3 cr. Undergraduate.
Relationships between science of genetics, study of genomes and application of these concepts by healthcare providers in the screening, assessment, diagnosis, treatment and evaluation of patients.
Prerequisites: Admis to RN to BSN prog.
Current Offerings: http://uwm.edu/schedule
UWS NSG 407 Foundations of Professional Nursing Practice
3 cr. Undergraduate.
Philosophical perspectives, theories, and standards are applied to the practice of professional nursing. Factors influencing nursing/health care delivery are analyzed. Professional communication skills are enhanced. Writing emphasis course.
Prerequisites: admits to BSN @ Home Prog or cons instr.
Course Rules: Counts as repeat of UWS NSG 341 & Nurs 407X.
Current Offerings: http://uwm.edu/schedule

UWS NSG 441 Chronic Care Management
3 cr. Undergraduate.
Exploration of interaction of biological, psychological, social, and environmental factors important to understanding management of chronic conditions at the individual, family, community, and societal levels.
Prerequisites: admits to BSN @ Home Prog or cons instr.
Course Rules: Counts as repeat of Nurs 441X.
Current Offerings: http://uwm.edu/schedule

UWS NSG 446 Research and Evidence-Based Practice
3 cr. Undergraduate.
Introduces the importance of research to improve clinical practice, strategies to evaluate the quality of research and evidence, and increase integration of research into practice.
Prerequisites: admits to BSN @ Home prog or cons instr, Math 105 (P).
Course Rules: Counts as repeat of UWS Nsg 434 & Nurs 446X.
General Education Requirements: QLB
Current Offerings: http://uwm.edu/schedule

UWS NSG 447 Leadership and Management
3 cr. Undergraduate.
Examines nursing leadership and management using relevant theories and concepts. Analyze decision-making in relation to communication, delegation, supervision and group process.
Prerequisites: admits to BSN @ Home Prog or cons instr.
Course Rules: Counts as repeat of UWS Nsg 444 & Nurs 454X.
Current Offerings: http://uwm.edu/schedule

UWS NSG 448 Mental Health Across the Care Continuum
3 cr. Undergraduate.
This course focuses on nursing care of individuals, groups, and families experiencing acute and chronic mental health conditions across the lifespan and the continuum of care.
Prerequisites: Prereq. admits to BSN @Home Prog or con instr.
Last Taught: Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

UWS NSG 453 Information Management and Healthcare Technology
3 cr. Undergraduate.
Utilize computer and information/decision science to support quality and safety in health care. Explore informatics issues and examine nursing’s role in healthcare technology.
Prerequisites: admits to BSN @ Home Prog or cons instr.
Course Rules: Counts as repeat of Nrs 453X.
Current Offerings: http://uwm.edu/schedule

UWS NSG 454 Community Health Nursing
3 cr. Undergraduate.
Nursing care of populations and communities to facilitate optimal health outcomes.
Prerequisites: admits to BSN @ Home Prog or cons instr.
Course Rules: Counts as repeat of UWS Nsg 444 & Nurs 454X.
Current Offerings: http://uwm.edu/schedule

Nursing Courses
NURS 101 Cultural Diversity in Health Care
3 cr. Undergraduate.
Enables student to conceptualize cultural diversity as a basic component of American society with implications for sensitivity and respect in health promotion and human relations.
Prerequisites: none.
General Education Requirements: SS, CD
Current Offerings: http://uwm.edu/schedule

NURS 102 Perspectives on Health Care Systems
2 cr. Undergraduate.
Provides students with an orientation to the complexity of health care, health care delivery systems, and the populations served.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

NURS 103 Freshman Seminar in Professional Nursing
1 cr. Undergraduate.
Designed to orient students to nursing through self-assessment, career exploration, problem solving, study skills, and goal setting.
Prerequisites: admits to Pre-Nursing prog.
Last Taught: Fall 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

NURS 110 Introduction to Global Health
3 cr. Undergraduate.
An overview of the broad field of global health, using the U.N. Sustainable Development Goals as a guiding framework.
Prerequisites: none.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

NURS 172 Health and Health Care Practices
2 cr. Undergraduate.
Focuses on health, health care practices, personnel, and services related to obtaining reliable information on health care needs and practices, and available community services.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

NURS 190 Special Studies in Nursing
1-5 cr. Undergraduate.
Independent study course. Students establish credits, objectives and learning experiences with approval of instructor.
Prerequisites: cons instr.
Course Rules: May be retaken to max of 5 cr.
Current Offerings: http://uwm.edu/schedule
NURS 203 Human Growth and Development Across the Life Span
4 cr. Undergraduate.
Introduction to physical, cognitive, and psychosocial growth of human organism from conception through older adulthood with application to health care.
Prerequisites: Psych 101(P).
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 204 Global Maternal and Child Health: From Evidence to Action
3 cr. Undergraduate.
Critical issues impacting the health of mothers, newborns and children, using a global perspective and a life course analytical approach.
Prerequisites: none.
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

NURS 205 Clinical Pharmacology
3 cr. Undergraduate.
The principles of pharmacology and administration; legislative controls; mechanisms of drug actions; contraindications; adverse and toxic effects and lifespan considerations.
Prerequisites: Nurs 320(C) or cons instr.
General Education Requirements: OWCB
Last Taught: Fall 2015, Spring 2015, Fall 2014, Spring 2014.
Current Offerings: http://uwm.edu/schedule

NURS 211 Health Assessment
3 cr. Undergraduate.
Concepts and skills to comprehensively assess the health status of individuals. History taking, physical examination techniques, developmental, and other assessments.
Prerequisites: Admis to major or cons instr.
Last Taught: Spring 2015, Fall 2014, Spring 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

NURS 251 Genetics and Genomics in Healthcare
2 cr. Undergraduate.
The relationship between the underlying science (genetics), the study of genomes (genomics) and the social, ethical and legal issues (genethics) in healthcare.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

NURS 262 Exploring Human Sexuality
3 cr. Undergraduate.
Historical and contemporary issues involving human sexuality as seen through the lenses of nursing, psychology, biology, and sociology.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

NURS 290 Special Studies in Nursing
1-5 cr. Undergraduate.
Independent study course. Students establish credits, objectives and learning experiences with approval of instructor.
Prerequisites: cons instr.
Course Rules: May be retaken to max of 5 cr.
Last Taught: Fall 2017, Fall 2016, Spring 2016, Spring 2015.
Current Offerings: http://uwm.edu/schedule

NURS 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM-sponsored program before course work level, content, and credits are determined and/or in especially prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken with change in topic.
Current Offerings: http://uwm.edu/schedule

NURS 299 Ad Hoc:
1-12 cr. Undergraduate.
Created expressly for offering in a specified enrollment period. Specific credits and additional prereqs, if any, will be specified in Schedule of Classes whenever course is offered.
Prerequisites: none.
Course Rules: May be retaken with change in topic.
Last Taught: Fall 2014, Spring 2014, Fall 2013, Spring 2013.
Current Offerings: http://uwm.edu/schedule

NURS 300 Introduction to Research Principles and Methods
2 cr. Undergraduate.
Introduction to the significance, principles, purpose, and methods of the research process in order to create good consumers of research literature.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

NURS 315 Nursing Science I: Concepts of Promoting and Maintaining Health
2 cr. Undergraduate.
Nursing science related to health promotion, disease prevention, and maintaining health; responses of individual and families in acute and community settings.
Prerequisites: admis to Nurs major.
Last Taught: Spring 2015, Fall 2014, Spring 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

NURS 320 Concepts of Illness I
3 cr. Undergraduate.
Mechanisms, manifestations, diagnosis, and treatment of disease states for selected body systems.
Prerequisites: Bio Sci 101(P) & 203(P), Chem 103(P); or cons instr.
Last Taught: Spring 2015, Fall 2014, Spring 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

NURS 321 Concepts of Illness II
3 cr. Undergraduate.
Mechanisms, manifestations, diagnosis and treatment of disease states for selected body systems. Continuation of Nurs 320.
Prerequisites: Nurs 320(P) or cons instr.
Last Taught: Fall 2015, Spring 2015, Fall 2014, Spring 2014.
Current Offerings: http://uwm.edu/schedule
NURS 326 Nursing Science II: Concepts of Aging and Long Term Health Care
3 cr. Undergraduate.
Identification and management of factors influencing and compromising health and functional ability of older adults and exploration of long-term health care in various settings.
Prerequisites: admis to Nurs major.
Last Taught: Spring 2015, Fall 2014, Spring 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

NURS 327 Nursing Science III: Health Concepts-Women & Children
4 cr. Undergraduate.
Nursing science related to the acute, chronic, and health promotion care of women and children and their families in acute and community care settings.
Prerequisites: Nurs 211(P), 320(P), 321(C); 331(P)
Last Taught: Fall 2015, Summer 2015, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

NURS 328 Nursing Science IV: Concepts of Health Care of the Adult
4 cr. Undergraduate.
Nursing science related to adults with acute and chronic health problems in both acute and community care settings. Individual and family responses.
Prerequisites: Nurs 321(C); 331(P).
Last Taught: Fall 2015, Spring 2015, Fall 2014, Spring 2014.
Current Offerings: http://uwm.edu/schedule

NURS 331 Foundations of Clinical Practice I
5 cr. Undergraduate.
Introductory course includes communication, philosophy, theory, and decision making content, and psychomotor skills to be used as a base for planning and providing nursing care.
Prerequisites: admis to Nurs major.
Last Taught: Spring 2015, Fall 2014, Spring 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

NURS 334 Foundations of Clinical Practice II
3 cr. Undergraduate.
Refine clinical decision making skills within the nursing process, professional communication, and psychomotor skills necessary for helping clients needing nursing care.
Prerequisites: Nurs 205(C), 321(C); 331(P).
Last Taught: Fall 2015, Spring 2015, Fall 2014, Spring 2014.
Current Offerings: http://uwm.edu/schedule

NURS 351 Professional Role 1: Foundations of Professional Practice
3 cr. Undergraduate.
Exploration of selected foundational concepts and principles essential to the professional nursing role.
Prerequisites: admis to nurs major.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 352 Health and Illness Concepts 1: Introduction
3 cr. Undergraduate.
Introduction of selected foundational health and illness concepts essential to nursing practice.
Prerequisites: admis to nurs major.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 353 Clinical Practicum 1: Foundations
3 cr. Undergraduate.
Clinical practicum which introduces the application of foundational knowledge, skills, and attitudes in the provision of nursing care.
Prerequisites: admis to nurs major.
Current Offerings: http://uwm.edu/schedule

NURS 355 Current Topics of Nursing:
1-3 cr. Undergraduate.
Current thought, issues, and research in nursing and implications for practice.
Prerequisites: jr st or cons instr.
Course Rules: May be retaken with topic change to a combined max of 12 cr for NURS 365.
Last Taught: Spring 2018, Fall 2015, Spring 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

NURS 365 Current Topics of Nursing:
1-3 cr. Undergraduate.
Current thought, issues, and research in nursing and implications for practice.
Prerequisites: jr st or cons instr.
Course Rules: May be retaken with topic change to a combined max of 12 cr for NURS 365.
Last Taught: Spring 2018, Fall 2015, Spring 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

NURS 373 Alternative and Complementary Therapies in Holistic Health Care - Theory
2 cr. Undergraduate.
Investigative theories underlying alternative and complementary therapies (CAT) commonly used in holistic Health Care.
Prerequisites: none.
Course Rules: Can be taken simultaneously with NURS 374.
Current Offerings: http://uwm.edu/schedule

NURS 374 Alternative and Complementary Therapies in Holistic Health Care - Field Work
1 cr. Undergraduate.
Experiential course with select alternative and complementary therapies (CAT) commonly used in holistic health care.
Prerequisites: none.
Course Rules: Can be taken simultaneously with NURS 373.
Current Offerings: http://uwm.edu/schedule

NURS 375 Genetics and Genomics for Health Professionals
3 cr. Undergraduate.
Emphasizes relationships between science of genetics, study of genomes and application of these concepts by healthcare providers in the screening, assessment, diagnosis, treatment and evaluation of patients.
Prerequisites: Admis to RN to BSN prog.
Current Offerings: http://uwm.edu/schedule

NURS 380 Honors Seminar:
3 cr. Undergraduate.
Selected topics in nursing and healthcare. May be retaken w/chg in topic to 9 cr max.
Prerequisites: soph st; Honors 200(P); cons Honors College dir.
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 390 Special Studies in Nursing
1-5 cr. Undergraduate.
Independent study course. Students establish credits, objectives and learning experiences with approval of instructor.
Prerequisites: cons instr.
Course Rules: May be retaken to max of 5 cr.
Last Taught: Spring 2018, Spring 2016, Fall 2015, Summer 2015.
Current Offerings: http://uwm.edu/schedule
NURS 398 Health Assessment and Promotion in Nursing Practice
3 cr. Undergraduate.
Application of nursing concepts and skills to promote health and comprehensively assess the health status of individuals using a nursing framework.
Prerequisites: admis to nurs major.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 399 Concepts of Pathophysiology and Pharmacotherapeutics 1
4 cr. Undergraduate.
Pathophysiology and pharmacology concepts for nursing across the lifespan.
Prerequisites: admis to nurs major.
General Education Requirements: QLB
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 400 Concepts of Pathophysiology and Pharmacotherapeutics: 2
4 cr. Undergraduate.
Pathophysiology and pharmacology concepts for nursing across the lifespan.
Prerequisites: Nurs 399(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 401 Global Patterns of Disease
3 cr. Undergraduate.
Global patterns of disease and epidemiological trends highlighting communicable, non-communicable diseases, injuries and outbreaks impacting the health of diverse populations.
Prerequisites: jr st; Nurs 110(P); or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 403 Practice, Research and Leadership Role Development
3 cr. Undergraduate.
Explore and evaluate role of the professional nurse as practitioner, researcher, manager and leader.
Prerequisites: Nurs 334(P), 442(C).
General Education Requirements: OWCB
Last Taught: Spring 2016, Fall 2015, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

NURS 415 Nursing Science V: Concepts of Community Health Care of Aggregates
3 cr. Undergraduate.
Nursing care of individuals, families and communities; aggregates and special populations in the community; roles of community health nurses.
Prerequisites: Nurs 334(P).
Last Taught: Spring 2016, Fall 2015, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

NURS 419 Concepts of Evidence-based Nursing Practice
3 cr. Undergraduate.
Introduction to an integration of concepts relevant to evidence-based nursing practice.
Prerequisites: Nurs 420(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 420 Professional Role 2: Provider of Care
3 cr. Undergraduate.
Examination of selected concepts and principles essential to the provision of patient care.
Prerequisites: Nurs 351(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 421 Health and Illness Concepts 2: Acute and Chronic Conditions
3 cr. Undergraduate.
Nursing care of individuals and families experiencing acute and chronic health conditions using a holistic approach.
Prerequisites: Nurs 352(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 422 Clinical Practicum 2: Acute & Chronic Conditions
3 cr. Undergraduate.
Clinical practicum focusing on providing nursing care for individuals and families with acute and chronic conditions.
Prerequisites: Nurs 353(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 430 Professional Role 3: Interprofessional Practice
3 cr. Undergraduate.
Analysis of factors contributing to collaboration within and among teams.
Prerequisites: Nurs 420(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 431 Health and Illness Concepts IV: Lifespan
3 cr. Undergraduate.
Integration of selected concepts in the care of individuals and families across the lifespan.
Prerequisites: Nurs 421(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 432 Health and Illness Concepts III: Population Health
3 cr. Undergraduate.
Promotion and improvement of the health of populations and communities.
Prerequisites: Nurs 431(C).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 433 Clinical Practicum 3: Population Health
3 cr. Undergraduate.
Clinical practicum focusing on applying concepts and providing population based nursing care to aggregates.
Prerequisites: Nurs 422(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 434 Nursing Informatics and Technology
3 cr. Undergraduate.
Basic concepts of informatics are introduced with focus on application to clinical practice to improve safety and quality of care.
Prerequisites: Nurs 419(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
NURS 440 Nursing Specialty
2 cr. Undergraduate.
Topics of current interest in nursing specialty areas.
Prerequisites: Nurs 442(P).
Course Rules: May be retaken w/chg in topic to 8 cr. max with cons instr.
Last Taught: Fall 2016, Spring 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

NURS 442 Nursing Practice I
8 cr. Undergraduate.
Clinical practice course for providing nursing care for adults and children experiencing acute and/or chronic health problems.
Prerequisites: Nurs 334(P) & 403(C); or cons instr.
Last Taught: Summer 2016, Spring 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

NURS 443 Nursing Practice II
8 cr. Undergraduate.
Clinical practice course for providing nursing care to individuals, families, groups, and communities.
Prerequisites: Nurs 442(P) or cons instr.
Last Taught: Fall 2016, Spring 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

NURS 444 Capstone Practicum for Registered Nurses
3 cr. Undergraduate.
Synthesis of knowledge from current and past learning experiences and application of clinical decision making to provide comprehensive nursing care to individuals, families, groups, and communities.
Prerequisites: Prior to Fall, 2014: UWS Nsg 317(P), 341(P), 434(P), 437(P), & 444(P). Fall, 2014 and beyond: UWS Nsg/Nurs/Flex 407(P), 441(P), 446(P), 447(P), 453(P) & 454(P), English 102 (P).
Course Rules: Counts as repeat of Nurs 445X.
General Education Requirements: OWCB
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 448 Mental Health Across the Care Continuum
3 cr. Undergraduate.
This course focuses on nursing care of individuals, groups, and families experiencing acute and chronic mental health conditions across the lifespan and the continuum of care.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

NURS 460 Legal Aspects of Nursing
2 cr. Undergraduate.
Current legal aspects and issues in nursing, including courts, licensure problems, legal status of nursing and health personnel, contracts, torts, negligence, crimes, and wills.
Prerequisites: jr st or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 475 Global Health: Ethics and Human Rights
3 cr. Undergraduate/Graduate.
Ethics and human rights issues related to disparities in financial, educational, technological, environmental, and political resources available to support healthy populations across the globe.
Prerequisites: jr st; Nurs 110(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 476 Professional Role 4: Leading in Complex Systems
3 cr. Undergraduate.
Synthesis of knowledge, skills, and attitudes for leading in complex healthcare environments.
Prerequisites: Nurs 430(P).
General Education Requirements: OWCB
Current Offerings: http://uwm.edu/schedule

NURS 477 Health and Illness Concepts 5: Complex
3 cr. Undergraduate.
Application of selected concepts to individuals/families with complex health and illness needs.
Prerequisites: Nurs 432(P).
Current Offerings: http://uwm.edu/schedule

NURS 478 Clinical Practicum 4: Clinical Intensive
3 cr. Undergraduate.
Practicum focusing on nursing care to individuals, groups, and families experiencing complex health care problems and life events throughout the lifespan.
Prerequisites: Nurs 433(P).
Current Offerings: http://uwm.edu/schedule

NURS 479 Clinical Practicum 5: Capstone
3 cr. Undergraduate.
Capstone clinical practicum focusing on care delivery, care coordination, leadership, and transition to practice.
Prerequisites: Nurs 478(P).
Current Offerings: http://uwm.edu/schedule

NURS 480 Transition to Professional Practice
3 cr. Undergraduate.
Exploration of the new graduate professional role to enable a smooth transition to the first registered nurse position. Course is delivered in hybrid format.
Prerequisites: Nurs 478(C) & 433(P).
Current Offerings: http://uwm.edu/schedule

NURS 490 Special Studies in Nursing
1-5 cr. Undergraduate.
Independent study course. Students establish credits, objectives and learning experiences with approval of instructor.
Prerequisites: cons instr.
Course Rules: May be retaken to max of 5 cr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 497 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM-sponsored program before course work levels, content, and credits are determined and/or in especially prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken with change in topic; max of 9 cr for grad students.
Current Offerings: http://uwm.edu/schedule
NURS 620 Global Food Security and Systems  
3 cr. Undergraduate/Graduate.  
An in-depth investigation of global food systems and their impact on food security and development.  
Prerequisites: jr st.  
Last Taught: Fall 2017, Fall 2015.  
Current Offerings: http://uwm.edu/schedule

NURS 653 Foundations in Pathophysiology for Nursing Practice  
4 cr. Graduate.  
Mechanisms, manifestations, diagnosis and treatment of disease states for selected body systems as a foundation for nursing management of selected conditions.  
Prerequisites: Admis to Master of Nursing prog.  
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.  
Current Offerings: http://uwm.edu/schedule

NURS 654 Health Assessment and Promotion  
3 cr. Graduate.  
Application of concepts and skills to comprehensively assess the health status of individuals using functional health patterns as a framework.  
Prerequisites: Admis to Masters in Nurs Prog or cons instr  
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.  
Current Offerings: http://uwm.edu/schedule

NURS 657 Pharmacotherapeutics for Nursing Practice  
3 cr. Graduate.  
Pharmacologic and pharmacotherapeutic concepts in the management of patients with complex conditions and illnesses across the continuum of care.  
Prerequisites: Admis to Masters in Nurs Prog or cons instr  
Current Offerings: http://uwm.edu/schedule

NURS 670 Nursing Care of Adults and Older Adults I  
3 cr. Graduate.  
Nursing science related to health promotion, prevention, and illness management for adults and older adults within families, communities, and populations.  
Prerequisites: Admis to Masters in Nurs Prog, NURS 653 (C), NURS 657 (C)  
Current Offerings: http://uwm.edu/schedule

NURS 671 Nursing Care of Adults and Older Adults II  
3 cr. Graduate.  
Nursing science related to health promotion, prevention, and illness management for adults and older adults within families, communities, and populations.  
Prerequisites: Admis to Masters in Nurs Prog, NURS 654 (P), NURS 670 (P)  
Current Offerings: http://uwm.edu/schedule

NURS 672 Nursing Care of Women and Infants  
2 cr. Graduate.  
Nursing science related to care of women, infants, and families in institutional and community care.  
Prerequisites: Admis to Masters in Nurs Prog  
Last Taught: Fall 2017, Fall 2016, Spring 2015, Spring 2014.  
Current Offerings: http://uwm.edu/schedule

NURS 673 Nursing Care of Children and Families  
2 cr. Graduate.  
Nursing science related to care of children and families in acute, institutional, and community care settings.  
Prerequisites: Admis to Masters in Nurs Prog  
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.  
Current Offerings: http://uwm.edu/schedule

NURS 674 Mental Health Nursing Care Across the Lifespan  
2 cr. Graduate.  
Nursing science, principles, and processes for the promotion of mental health and the prevention and management of mental illness across the lifespan.  
Prerequisites: Admis to Masters in Nurs Prog  
Current Offerings: http://uwm.edu/schedule

NURS 680 Nursing and Society  
4 cr. Graduate.  
Introduction to the nursing profession, its multifaceted role in society, and the abilities needed for professional nursing practice.  
Prerequisites: Admis to Masters in Nurs Prog  
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.  
Current Offerings: http://uwm.edu/schedule

NURS 681 Professional Role in Health Care Systems  
3 cr. Graduate.  
Exploration and analysis of entry level professional nursing roles in health care systems.  
Prerequisites: Admis to Masters in Nurs Prog; NURS 680(P)  
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.  
Current Offerings: http://uwm.edu/schedule

NURS 685 Clinical Reasoning  
5 cr. Graduate.  
Development and refinement of, and practice with, the clinical reasoning skills required for professional nursing practice.  
Prerequisites: NURS 653(P), 680(P), 657(C)  
Current Offerings: http://uwm.edu/schedule

NURS 686 Professional Nursing Practicum I  
3 cr. Graduate.  
Intensive practicum experience providing nursing care to individuals, families, and groups within diverse populations across the health care continuum.  
Prerequisites: Admis to Masters in Nurs Prog; NURS 685(P)  
Current Offerings: http://uwm.edu/schedule

NURS 688 Professional Nursing Practicum II  
4 cr. Graduate.  
Intensive practicum experience providing nursing care to individuals, families and groups within diverse populations across the health care continuum.  
Prerequisites: Admis to Masters in Nurs Prog, NURS 686 (P)  
Last Taught: Fall 2017, Fall 2016, Summer 2016, Fall 2015.  
Current Offerings: http://uwm.edu/schedule
NURS 705 Instructional Strategies for Patient Education
3 cr. Graduate.
Study of instructional strategies applicable in patient education; opportunity to select, develop and evaluate the effectiveness of particular strategies in individual and/or group situations.
Prerequisites: grad st or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 706 Clinical Outcomes Management and Information Systems
3 cr. Graduate.
Synthesis of advanced generalist nursing knowledge, processes and practices that influence point of care health outcomes related to health promotion, risk reduction, and illness management.
Prerequisites: Admis grad prog in nursing or cons instr.
Last Taught: Fall 2016, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

NURS 707 Advanced Pharmacology: Application to Advanced Nursing Practice
3 cr. Graduate.
Advanced knowledge related to use of pharmacotherapeutics in management of common health problems, nursing prescriptive authority, and development and use of clinical practice guidelines.
Prerequisites: grad st; admis to Nursing degree program; Nurs 753(P) or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

NURS 708 Global Maternal and Child Health: From Evidence to Action
3 cr. Graduate.
This course will focus on critical issues impacting the health of mothers, newborns, and children, using a global and a life course analytic approach.
Prerequisites: Grad st.
Current Offerings: http://uwm.edu/schedule

NURS 709 Leading and Managing in Systems of Care
3 cr. Graduate.
Evaluation of emerging nursing leadership and management concepts, theories, and research within diverse healthcare systems.
Prerequisites: grad st; admis to grad prog in nursing or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

NURS 711 Economics of Health Care and Health Care Systems
3 cr. Graduate.
Use of economic theory, models and principles to analyze decision-making by individuals, providers, third-party payers and governments in health and health care.
Prerequisites: Counts as repeat of NURS 779 with similar topic.
Current Offerings: http://uwm.edu/schedule

NURS 712 Health Promotion Perspectives
3 cr. Graduate.
Nursing and inter-professional health promotion concepts including planning, delivery and evaluation of health promotion strategies at the point of care in diverse settings.
Prerequisites: grad st; admis grad prog in nursing or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 717 Community Health Nursing
3 cr. Graduate.
Nursing science related to the care of populations with focus on disease prevention and health promotion. Roles of community health nurses are explored.
Prerequisites: Admis to Masters in Nurs Prog; Nurs 727 (C)
Current Offerings: http://uwm.edu/schedule

NURS 720 Biostatistics and Applications for Nursing Practice
3 cr. Graduate.
Introduction to biostatistics with special emphasis on the identification, description, application, and interpretation of clinical data about nursing phenomena and nursing practice.
Prerequisites: grad st; undergrad statistics course w/ grade of B or better w/in last 5 yrs or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 721 Pathophysiology and Pharmacology for the Advanced Generalist
3 cr. Graduate.
Integration of pathophysiologic and pharmacologic therapy interventions for selected health conditions.
Prerequisites: Admis grad prog in nursing or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 723 Evidence-Based Care Management
3 cr. Graduate.
Analysis of evidence-based interventions and design of a program to address a priority issue in population health and health care delivery.
Prerequisites: grad st; Nurs 725(P)
Current Offerings: http://uwm.edu/schedule

NURS 725 Evidence Based Practice in Healthcare I
3 cr. Graduate.
Introduction to evidence based practice and research methods. Emphasis is on retrieval of information, critique and application in diverse health care practice settings.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

NURS 727 Epidemiology
3 cr. Graduate.
Study of the distribution and determinants of health and disease in populations including related methods and application.
Prerequisites: grad st; admis to UWM graduate degree program or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 728 Epidemiological Principles for Population Health
3 cr. Graduate.
Study of the distribution and determinants of health and disease in populations, including related methods and application.
Prerequisites: Admission to Doctor of Nursing Practice Program.
Current Offerings: http://uwm.edu/schedule
NURS 729 Organizational Systems
3 cr. Graduate.
Study of systems of healthcare delivery emphasizing emerging healthcare models, financing and regulation of healthcare and the creation and evaluation of effective healthcare strategies.
Prerequisites: grad st; admis to grad degree program or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

NURS 731 Practicum and Seminar in Health Professional Education
3 cr. Graduate.
Observation, participation, and practice in teaching in a health professional educational program.
Prerequisites: grad st
Last Taught: Fall 2014, Fall 2013, Fall 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

NURS 734 Care Management Practicum
3 cr. Graduate.
Clinical practicum focused on providing evidence-based nursing care to a cohort of patients and families within a specific clinical setting.
Prerequisites: grad st; NURS 721 (C) (or NURS 707, 753), 723(C), 754(C)
Last Taught: Fall 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

NURS 735 Theory for Advanced Practice
3 cr. Graduate.
Study of knowledge base of nursing science. Concepts, frameworks and theories for nursing practice, for advanced roles with individuals, aggregates and systems.
Prerequisites: grad st; admis to Nursing degree program or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

NURS 737 Clinical Nurse Specialist: Practicum I
3 cr. Graduate.
Using a theoretical and research base, the student explores, discusses, and enacts the advanced clinical nursing practice role in a chosen area of practice.
Prerequisites: grad st; NURS 725(C), 754(C).
Current Offerings: http://uwm.edu/schedule

NURS 738 Clinical Nurse Specialist: Practicum II
3 cr. Graduate.
Continuation of practicum I: second semester advanced clinical nursing practice.
Prerequisites: grad st; NURS 707(C); NURS 737(P).
Last Taught: Fall 2012, Summer 2012, Fall 2011, Summer 2011.
Current Offerings: http://uwm.edu/schedule

NURS 739 Clinical Nurse Specialist: Practicum III
3 cr. Graduate.
Continuation of practicum II: third semester advanced clinical nursing practice.
Prerequisites: NURS 738(P).
Last Taught: Spring 2013, Fall 2012, Spring 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

NURS 741 Psychiatric Mental Health Theory I
3 cr. Graduate.
This course provides a foundation in psychopathology for clinical assessment and patient management across the lifespan.
Prerequisites: NURS 781(C); NURS 707(P); NURS 753(P); NURS 754(P); and NURS 753(P).
Current Offerings: http://uwm.edu/schedule

NURS 742 Psychiatric Mental Health Theory I
3 cr. Graduate.
Introduction to psychiatric history taking, assessment, diagnostic evaluation, treatment modalities, and determinants of mental health for patients and families across the life span.
Prerequisites: NURS 782(C); NURS 741(P) and NURS 781(P).
Current Offerings: http://uwm.edu/schedule

NURS 750 Outcomes and Quality Management
3 cr. Graduate.
Examination, development and utilization of frameworks and tools for implementation and evaluation of health care program outcomes and quality management for groups of patients.
Prerequisites: grad st
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule

NURS 751 Teaching in Practice Disciplines
3 cr. Graduate.
Issues, theories, and strategies used for teaching in disciplines that require clinical learning for the development of needed critical thinking and performance abilities.
Prerequisites: grad st; cons instr
Current Offerings: http://uwm.edu/schedule

NURS 752 Curriculum Development in Nursing Education
3 cr. Graduate.
Principles and techniques of nursing curriculum design, development, implementation and evaluation.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

NURS 753 Physiologic Basis of Advanced Nursing Practice
3 cr. Graduate.
Human physiologic responses to actual and potential health problems, methods of measurement, development and environmental influences, and implications for advance nursing practice.
Prerequisites: grad st ; admis to Nursing degree program or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 754 Comprehensive Assessment of Health: Implications for Clinical Decision-Making
3 cr. Graduate.
Comprehensive assessment of health in individuals and aggregates, including measurement of health status, appraisal of needs, analysis of environmental contexts, and development of diagnostic strategies.
Prerequisites: grad st; admis to Nursing degree program; NURS 753(P); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
NURS 757 Family Nurse Practitioner Practicum I
3 cr. Graduate.
First of a three-practicum sequence designed to provide practice experience caring for individuals, families, and populations in primary care settings.
Prerequisites: grad st; Nurs 707(P); Nurs 725(P); Nurs 727(P); Nurs 729(P); Nurs 735(P); Nurs 754(P).
Current Offerings: http://uwm.edu/schedule

NURS 758 Family Nurse Practitioner Practicum II
3 cr. Graduate.
Second of a three-practicum sequence focused on family nurse practitioner practice based on understanding the centrality of the patient-provider relationship.
Prerequisites: Nurs 757(P); 767(P); & 725(C).
Last Taught: Summer 2017, Summer 2016, Summer 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

NURS 759 Family Nurse Practitioner Practicum III
3 cr. Graduate.
This is the last of a three-sequence practicum. Emphasis is on health policy, ethical, and professional issues that influence clinical decision-making in primary care.
Prerequisites: grad st; Nurs 758(P); 768(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

NURS 760 Processes of Aging
3 cr. Graduate.
An overview of the processes of aging including biological, psychological, and sociological perspectives. Emphasis on theories of development, gerontological research findings, and health services applications.
Prerequisites: grad st or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

NURS 762 Family Theory and Intervention Strategies for Advanced Nursing Practice
3 cr. Graduate.
Cognitive, affective, and behavioral principles related to the functioning of the family and its members. Emphasis on therapeutic interventions used in advanced nursing practice.
Prerequisites: grad st or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 763 Issues in Women's Health and Development
3 cr. Graduate.
Current physical, mental health, and developmental issues affecting women. Examination of the role of gender in health care research and clinical practice.
Prerequisites: grad st or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 764 Changing Health Behaviors
3 cr. Graduate.
Enhancement of knowledge related to the process of behavioral change, models of change, factors that affect change behavior, and issues related to measuring change.
Prerequisites: grad st or cons instr.
Last Taught: Summer 2010, Fall 1991.
Current Offerings: http://uwm.edu/schedule

NURS 767 Family Nurse Practitioner Theory I
3 cr. Graduate.
Introductory course designed to prepare family nurse practitioners to deliver health care to individuals, families, and populations
Prerequisites: grad st; Nurs 707(P); Nurs 725(P); Nurs 727(P); Nurs 729(P); Nurs 735(P); Nurs 754(P)
Current Offerings: http://uwm.edu/schedule

NURS 768 Family Nurse Practitioner Theory II
3 cr. Graduate.
Second of a three-course sequence focused on the delivery of primary care services within a relationship-centered care framework.
Prerequisites: Nurs 757(P); 767(P); & 725(C).
Last Taught: Summer 2017, Summer 2016, Summer 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

NURS 769 Family Nurse Practitioner Theory III
3 cr. Graduate.
Last of a three-sequence course focused on health policy and professional issues that affect the delivery of primary care by family nurse practitioners.
Prerequisites: Nurs 758(P); 768(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

NURS 769 Family Nurse Practitioner Theory III
3 cr. Graduate.
Relevant topics grounded in research and theory that are related to professional development of nursing leadership and management roles in health care organizations.
Prerequisites: grad st or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 770 Nursing Administration
3 cr. Graduate.
Applying theory and research, the student will explore, discuss, and actively participate in an advanced administration practice role in a healthcare organization.
Prerequisites: grad st or cons instr.
Last Taught: Fall 2014, Spring 2014, Fall 2013, Spring 2013.
Current Offerings: http://uwm.edu/schedule

NURS 771 Nursing Administration Practicum
3 cr. Graduate.
Basic concepts of nursing informatics are examined with emphasis on application to clinical practice to improve the quality of care.
Prerequisites: grad st
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
NURS 774 Trauma Counseling I: Theory and Research
3 cr. Graduate.
Seminar examining impact of trauma experience on individuals, groups and communities following a catastrophic event. Explores traumatic events, mental injuries and impact on memory, learning, physical health and dysfunctional behavior.
Prerequisites: grad st
Course Rules: Couns 774, Nurs 774, OccThpy 774, and Soc Wrk 774 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 775 Trauma Counseling II: Diagnosis and Treatment
3 cr. Graduate.
Seminar on diagnosis and assessment instruments as well as intervention and therapeutic techniques used to address trauma issues in counseling acute and chronic traumatized clients.
Prerequisites: grad st; Couns 774, Nurs 774, OccThpy 774 or Soc Wrk 774(P), or cons instr
Course Rules: Couns 775, Nurs 775, OccThpy 775, and Soc Wrk 775 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

NURS 776 Clinical Informatics
3 cr. Graduate.
Examine the development, implementation and evaluation of clinical informatics solutions to facilitate the use of information and communication technologies within and across health care delivery systems.
Prerequisites: grad st
Course Rules: Online only.
Last Taught: Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

NURS 777 Special Topics Seminar
1-5 cr. Graduate.
Specific topic and any additional prerequisites announced in schedule of classes each time course is offered.
Prerequisites: grad st or cons instr.
Course Rules: May be repeated with change in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

NURS 780 Study Abroad
1-9 cr. Graduate.
Designed to enroll graduate students in UWM-sponsored program before content and credits are determined and/or in especially prepared program coursework.
Prerequisites: Acceptance for Study Abroad Program.
Course Rules: May be taken w/ chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

NURS 781 Psychiatric Mental Health NP Practicum I
3 cr. Graduate.
This is the first of a three-sequence practicum. Emphasis is on beginning clinical assessment, diagnostic evaluation, and beginning management of patients with psychiatric disorders.
Prerequisites: NURS 754 or its equivalent; NURS 753 or its equivalent; NURS 707 or its equivalent (Grad assessment; patho and pharm). Taken concurrently with NURS 741
Current Offerings: http://uwm.edu/schedule

NURS 782 Psychiatric Mental Health NP Practicum II
3 cr. Graduate.
This is the second of a three-sequence practicum. Emphasis is on advanced clinical assessment (including social/environmental determinants of health), diagnostic evaluation, and treatment planning.
Prerequisites: NURS 741 and NURS 781. Taken concurrently with NURS 742
Current Offerings: http://uwm.edu/schedule

NURS 783 Psychiatric Mental Health NP Practicum III
3 cr. Graduate.
This is the third of a three-sequence practicum. Emphasis is on developing progressive competence in diagnosis and treatment of patients and families with complex needs.
Prerequisites: NURS 742 and NURS 782. Taken concurrently with NURS 743.
Current Offerings: http://uwm.edu/schedule

NURS 784 Advanced Nursing Practice Interventions
3 cr. Graduate.
Advanced knowledge and skills for developing, implementing, and evaluating nursing interventions for common nursing phenomena with individuals and aggregates.
Prerequisites: grad st; NURS 725(P); admis to Nursing degree program or cons instr.
Last Taught: Spring 2012, Fall 2011, Spring 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

NURS 789 Master of Nursing Residency
1-3 cr. Graduate.
Intensive clinical immersion experience during which students implement the role of the masters-prepared nurse.
Prerequisites: grad st; completion of all required Master of Nursing course work; but NURS 803 can be seq or concurrent.
Current Offerings: http://uwm.edu/schedule

NURS 791 Clinical Informatics Practicum I
3 cr. Graduate.
First semester of a 3-semester practicum focused on the application of clinical informatics within healthcare settings to facilitate evidence-based nursing practice and improve outcomes.
Prerequisites: grad st
Course Rules: Clinical practicum hours for each student will take place at the assigned clinical site as negotiated with the clinical preceptor and faculty.
Current Offerings: http://uwm.edu/schedule
NURS 792 Clinical Informatics Practicum II
3 cr. Graduate.
Second semester of a 3-semester practicum focused on the application of clinical informatics within healthcare settings to facilitate evidence-based nursing practice and improve outcomes.
Prerequisites: grad st
Course Rules: Clinical practicum hours for each student will take place at the assigned clinical site as negotiated with the clinical preceptor and faculty.
Last Taught: Summer 2017, Summer 2016.
Current Offerings: http://uwm.edu/schedule

NURS 793 Clinical Informatics Practicum III
3 cr. Graduate.
Third semester of a 3-semester practicum focused on the application of clinical informatics within healthcare settings to facilitate evidence-based nursing practice and improve outcomes.
Prerequisites: grad st
Course Rules: Clinical practicum hours for each student will take place at the assigned clinical site as negotiated with the clinical preceptor and faculty.
Last Taught: Fall 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 797 Independent Study for Graduate Students
1-6 cr. Graduate.
Opportunity for students to pursue study in a subject area of special need or interest under guidance of graduate faculty.
Prerequisites: grad st or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 801 Foundations of Inquiry for Health Research
3 cr. Graduate.
Study of historical evolution of contemporary health science in terms of important philosophical and empirical antecedents.
Prerequisites: admis to doctoral prog in Nursing or cons instr.
Last Taught: Fall 2017, Summer 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

NURS 802 The Science of Nursing
3 cr. Graduate.
Study of nursing science through the exploration of the interrelationships among the theory, research, and practice of nursing.
Prerequisites: admis to doctoral prog in nursing or cons instr; Nurs 801(NP).
Current Offerings: http://uwm.edu/schedule

NURS 803 Health Policy
3 cr. Graduate.
Explores the roles and accountability of health care providers and scientists in responding to the health and social needs of the public and shaping of public policy.
Prerequisites: admis to doctoral prog or cons instr
Current Offerings: http://uwm.edu/schedule

NURS 804 Healthcare Organization and Systems Leadership for Advanced Practice
3 cr. Graduate.
This course focuses on synthesis of leadership concepts for advanced practice nurses in complex healthcare delivery systems.
Prerequisites: Admission to Doctor of Nursing Practice Program.
Current Offerings: http://uwm.edu/schedule

NURS 805 Translational and Implementation Science
3 cr. Graduate.
In depth exploration of approaches to use of translational and implementation science in the development of practice guidelines and protocols and evaluation of practice change.
Prerequisites: NURS 725.
Current Offerings: http://uwm.edu/schedule

NURS 808 Multivariate Statistics for Healthcare
3 cr. Graduate.
A study of commonly used multivariate statistical methods as well as their applications to practical data analysis with emphasis on nursing and health care research.
Prerequisites: Grad st or cons instr.
Last Taught: Fall 2017, Summer 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

NURS 809 Integrative Studies
3 cr. Graduate.
Synthesis of ideology and content in the student’s specialty area with regard to the research, theory development, and policy roles of the emerging nurse scholar.
Prerequisites: grad st or cons instr.
Last Taught: Summer 2017.
Current Offerings: http://uwm.edu/schedule

NURS 810 Leadership for Advanced Practice in Healthcare
3 cr. Graduate.
Synthesis of leadership concepts of advanced nursing practice. Interdisciplinary and ethical practice and leading multiple constituencies are emphasized from an evidence based perspective.
Prerequisites: grad st
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 811 Clinical Nurse Specialist Practicum I-Psychiatric/Mental Health
3 cr. Graduate.
First semester of a 3-semester practicum focused on advanced practice nursing in a Clinical Nurse Specialist role with the psychiatric/mental health population.
Prerequisites: grad st; Nurs 707(P), 725(P), 754(P)
Current Offerings: http://uwm.edu/schedule

NURS 812 Clinical Nurse Specialist Practicum II-Psychiatric/Mental Health
3 cr. Graduate.
Second semester of a 3-semester practicum focused on advanced practice nursing in a Clinical Nurse Specialist role with the psychiatric/mental health population.
Prerequisites: grad st; Nurs 811(P)
Current Offerings: http://uwm.edu/schedule
NURS 813 Clinical Nurse Specialist Practicum III-Psychiatric/Mental Health
3 cr. Graduate.
Third semester of a 3-semester practicum focused on advanced practice nursing in a Clinical Nurse Specialist role with the psychiatric/mental health population.
Prerequisites: grad st; Nurs 812(P)
Current Offerings: http://uwm.edu/schedule

NURS 814 Clinical Nurse Specialist Practicum I-Maternal/Infant
3 cr. Graduate.
First semester of a 3-semester practicum focused on advanced practice nursing in a Clinical Nurse Specialist role with the maternal/infant population.
Prerequisites: grad st; Nurs 707(P), 725(P), 754(P)
Last Taught: Spring 2017.
Current Offerings: http://uwm.edu/schedule

NURS 815 Clinical Nurse Specialist Practicum II-Maternal/Infant
3 cr. Graduate.
Second semester of a 3-semester practicum focused on advanced practice nursing in a Clinical Nurse Specialist role with the maternal/infant population.
Prerequisites: grad st; Nurs 814(P)
Last Taught: Summer 2017.
Current Offerings: http://uwm.edu/schedule

NURS 816 Clinical Nurse Specialist Practicum III-Maternal/Infant
3 cr. Graduate.
Third semester of a 3-semester practicum focused on advanced practice nursing in a Clinical Nurse Specialist role with the maternal/infant population.
Prerequisites: grad st; Nurs 815(P)
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

NURS 817 Clinical Nurse Specialist Practicum I-Pediatric
3 cr. Graduate.
First semester of a 3-semester practicum focused on advanced practice nursing in a Clinical Nurse Specialist role with the pediatric population.
Prerequisites: grad st; Nurs 707(P), 725(P), 754(P)
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

NURS 818 Clinical Nurse Specialist Practicum II-Pediatric
3 cr. Graduate.
Second semester of a 3-semester practicum focused on advanced practice nursing in a Clinical Nurse Specialist role with the pediatric population.
Prerequisites: grad st; Nurs 817(P)
Current Offerings: http://uwm.edu/schedule

NURS 819 Clinical Nurse Specialist Practicum III-Pediatric
3 cr. Graduate.
Third semester of a 3-semester practicum focused on advanced practice nursing in a Clinical Nurse Specialist role with the pediatric population.
Prerequisites: grad st; Nurs 818(P)
Current Offerings: http://uwm.edu/schedule

NURS 820 Analysis of Nursing Phenomena
3 cr. Graduate.
Exploration of selected phenomena relevant to nursing through the evaluation and synthesis of scientific knowledge.
Prerequisites: Admis to doctoral prog in Nursing; Nurs 802(P)
Last Taught: Spring 2018, Spring 2017, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

NURS 825 Evidence Based Practice in Healthcare II
3 cr. Graduate.
In depth exploration of approaches to development of practice guidelines and protocols and evaluation of practice change.
Prerequisites: grad st; Nurs 725(P); grad level course in biostatistics
Current Offerings: http://uwm.edu/schedule

NURS 826 Nurse Executive Practicum I
3 cr. Graduate.
First semester of a 3-semester practicum focused on the application of theory and research in nurse executive practice.
Prerequisites: Nurs 810(P).
Current Offerings: http://uwm.edu/schedule

NURS 827 Nurse Executive Practicum II
3 cr. Graduate.
Second semester of a 3-semester practicum focused on the application of theory and research in nurse executive practice.
Prerequisites: Nurs 826(P).
Last Taught: Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 828 Nurse Executive Practicum III
3 cr. Graduate.
Third semester of a 3-semester practicum focused on the application of theory and research in nurse executive practice.
Prerequisites: Nurs 827(P).
Last Taught: Spring 2017.
Current Offerings: http://uwm.edu/schedule

NURS 829 Advanced Community/Public Health Nursing Practicum I
3 cr. Graduate.
First semester of a three-semester practicum focused on the application of theory and research in advanced community/public nursing health practice.
Prerequisites: Nurs 835(P).
Current Offerings: http://uwm.edu/schedule

NURS 830 Advanced Community/Public Health Nursing Practicum II
3 cr. Graduate.
Second semester of a three-semester practicum focused on the application of theory and research in advanced community/public nursing health practice.
Prerequisites: Nurs 836(P), 829(P).
Last Taught: Summer 2017, Fall 2014.
Current Offerings: http://uwm.edu/schedule
NURS 831 Advanced Community/Public Health Nursing Practicum III
3 cr. Graduate.
Third semester of a three-semester practicum focused on the application of theory and research in advanced community/public nursing health practice.
Prerequisites: Nurs 830(P).
Last Taught: Fall 2017, Spring 2015.
Current Offerings: http://uwm.edu/schedule

NURS 832 Clinical Nurse Specialist Practicum I-Adult/Gerontology
3 cr. Graduate.
First semester of a 3-semester practicum focused on advanced practice nursing in a clinical nurse specialist role with the adult / geriatric population.
Prerequisites: grad s; NURS 707(P), 725(P), 754(P)
Current Offerings: http://uwm.edu/schedule

NURS 833 Clinical Nurse Specialist Practicum II-Adult/Gerontology
3 cr. Graduate.
Second semester of a 3-semester practicum focused on advanced practice nursing in a clinical nurse specialist role with the adult/geriatric population.
Prerequisites: grad st; Nurs 832(P)
Last Taught: Summer 2016.
Current Offerings: http://uwm.edu/schedule

NURS 834 Clinical Nurse Specialist Practicum III-Adult/Gerontology
3 cr. Graduate.
Third semester of a 3-semester practicum focused on advanced practice nursing in a clinical nurse specialist role with the adult/geriatric population.
Prerequisites: grad st; Nurs 833(P)
Last Taught: Fall 2016.
Current Offerings: http://uwm.edu/schedule

NURS 835 Theoretical Basis for Advanced Community / Public Health Nursing
3 cr. Graduate.
Theoretical knowledge, skills, and attitudes relevant to advanced community/public health practice, education, management and research.
Prerequisites: Admis to Nurs doctoral prog
Last Taught: Fall 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

NURS 836 Advanced Community Health Nursing- Assessment, Program Planning, Evaluation
3 cr. Graduate.
Knowledge, skills and attitudes required for community assessment, program planning and evaluation.
Prerequisites: grad st; Nurs 835(P) or cons instr
Last Taught: Spring 2016, Spring 2014.
Current Offerings: http://uwm.edu/schedule

NURS 879 Special Topics in Nursing Research:
1-3 cr. Graduate.
Intensive study of selected research methodologies used to investigate nursing phenomena; topics vary by sections.
Prerequisites: admis to doctoral prog in nursing or cons instr.
Course Rules: May be repeated with change of topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

NURS 881 Measurement for Health Research
3 cr. Graduate.
Study of theories of measurement and scaling, properties of research instruments, design and testing of instruments for health research.
Prerequisites: admis to doctoral prog in nursing or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 882 Qualitative Methods in Health Research
3 cr. Graduate.
Diverse qualitative design and analysis strategies used in the study of health phenomena. Emphasis will be to critique existing research and to plan future research.
Prerequisites: admis to doctoral prog in nursing or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 883 Quantitative Methods in Health Research
3 cr. Graduate.
Major quantitative designs and data management/analysis strategies used in clinical health research. Emphasis will be to critique existing research and to plan future research.
Prerequisites: admis to doctoral prog in Nursing or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 884 Computer Applications for Qualitative Analysis
1 cr. Graduate.
Types, uses, and implications of computer applications for qualitative data analysis; includes in-depth experience with a selected program.
Prerequisites: Nurs 882 (P), or Ad Ldsp 729 (P), or Urb Std 979 (P), or Educ 881 (P), or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 885 Advanced Quantitative Methods in Health Research
3 cr. Graduate.
In depth study of quantitative research methods with an emphasis on decision making for intervention studies and research with large data sets, advanced analytic strategies, communicating and interpreting results.
Prerequisites: grad st; Nurs 883(P), Nurs 881(P), Multivariate Statistics(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 886 Advanced Qualitative Methods in Health Research
3 cr. Graduate.
Enable student to acquire the advanced knowledge and skills needed to design and implement studies best suited to qualitative modes of investigation.
Prerequisites: grad st; Nurs 882(P) or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

NURS 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st; cons School of Nursing advisor.
Course Rules: Fee assessed for 1 cr.
Last Taught: Summer 2016, Fall 2010, Summer 2010, Summer 2009.
Current Offerings: http://uwm.edu/schedule
NURS 890 Issues in Scholarship
3 cr. Graduate.
Critical analysis of issues in scholarship and development of skills in literature review, scholarly discourse, and ethical conduct of research.
Prerequisites: grad st
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

NURS 897 Independent Study for Doctoral Students
1-6 cr. Graduate.
Opportunity for the student to pursue study in a subject area of special need or interest under the guidance of graduate faculty.
Prerequisites: doctoral student status; cons instr.
Current Offerings: http://uwm.edu/schedule

NURS 899 Practicum in Nursing Research
1-6 cr. Graduate.
Mastery of research skills and techniques through participation in faculty research.
Prerequisites: admis to doctoral prog in nursing or cons instr.
Course Rules: May be repeated to a total of 6 cr.
Current Offerings: http://uwm.edu/schedule

NURS 991 Research and Thesis
1-3 cr. Graduate.
Independent research and thesis writing under the supervision of member of graduate faculty.
Prerequisites: grad st; cons advisor UWM School of Nursing.
Course Rules: May be retaken to max of 3 cr.
Last Taught: Summer 2015, Spring 2015, Fall 2014, Summer 2014.
Current Offerings: http://uwm.edu/schedule

NURS 993 DNP Project I: Plan
2 cr. Graduate.
The focus of the course is identifying a mentor and beginning to analyze a complex problem or issue within a health care or community-based setting.
Prerequisites: DNP student; NURS 750, NURS 804 and NURS 805.
Current Offerings: http://uwm.edu/schedule

NURS 994 DNP Project II: Proposal
2 cr. Graduate.
The focus of the course is developing a detailed plan for a DNP project that addresses a complex problem or issue and demonstrates clinical scholarship.
Prerequisites: NURS 993.
Current Offerings: http://uwm.edu/schedule

NURS 995 DNP Project III: Leadership Practice Immersion
1-4 cr. Graduate.
The focus of the course is implementation and evaluation of a DNP project that demonstrates leadership and the foundation for future practice scholarship.
Prerequisites: grad st, admis to candidacy for the DNP, and NURS 994.
Current Offerings: http://uwm.edu/schedule

NURS 997 Doctoral Dissertation
3 cr. Graduate.
Prerequisites: grad st; admis to candidacy for the PhD; cons advisor.
Course Rules: May be repeated.
Current Offerings: http://uwm.edu/schedule

[www.uwm.edu/nursing](http://www.uwm.edu/nursing)
CLINICAL NURSE SPECIALIST, GRADUATE CERTIFICATE

The Clinical Nurse Specialist Postgraduate Certificate is designed to provide advanced practice preparation as a Clinical Nurse Specialist (CNS) to nurses who hold a Master's degree in Nursing and are prepared for other roles or population groups. The student will choose one of the following populations: adult/gerontology, pediatric, maternal/infant, or psychiatric/mental health. The program will be taught online with clinical preceptor placements as close as possible to a student's geographic location.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

Applicants must meet the following requirements to be eligible for admission to the program:

1. A minimum 3.0 (4.0 scale) cumulative grade point average (GPA) is required in previous undergraduate and graduate programs.
2. Prerequisites: Graduate courses (3 credits each) in physiology, physical assessment, and pharmacology are required with a grade of B or better. Physiology and physical assessment must be within the previous 5 years and pharmacology must be within 3 years. Note: Evidence of prescriptive authority granted through a state board of nursing will be accepted in place of graduate pharmacology.

Application

• Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
• All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
• Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
• Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Credits and Courses

The CNS Certificate consists of 18 credit hours of coursework. All courses are 3 credits each and are offered in a three-semester sequence so the program can be completed in 12 months. The three practicum courses vary by population focus and must be taken sequentially. The three theory courses vary by population focus and the plan for theory coursework must be approved by the CNS option coordinator. The three courses must be graduate level (700 or above) and provide content across the continuum from wellness through acute care for the selected population.

NURS 775  Trauma Counseling II: Diagnosis and Treatment
ED PSY 752  Developmental Psychopathology
SOC WRK 753  Adult Psychopathology

**Total Credits**  18

**Certificate Requirements**

**Transfer Credit**

No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

**Grade Point Average Requirement**

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

**Articulation with Degree Programs**

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:

   - Degree programs must approve the courses from certificates that can double count toward the degree.
   - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.

3. A course may count toward no more than one certificate and one degree.

4. Students may not earn a certificate subsequent to a concentration in the same area.

**Time Limit**

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

**Certification and Licensing**

On completion of the CNS Certificate program, graduates with a population focus on adult/gerontology or pediatrics will be eligible to take the national CNS certification exams in adult/gerontology or pediatrics offered by American Nurses Credentialing Center (ANCC, 2013) or by the American Association of Critical Care Nurses (AACN) Certification Corporation (AACN, 2014). Upon successful completion of the CNS certification exam, graduates may choose to apply for prescriptive privileges in the state of Wisconsin as an Advanced Practice Nurse Prescriber or APNP (Wisconsin DSPS, 2013). Currently, CNS certification exams are not available for the maternal/infant or psychiatric/mental health populations.
FAMILY NURSE PRACTITIONER, GRADUATE CERTIFICATE

The post master's family nurse practitioner certificate is designed for registered nurses that have already completed a master's degree in nursing and wish to pursue preparation as a family nurse practitioner.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Application
• Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
• All graduate certificate applicants—even those already enrolled in a UW graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
• Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
• Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Admission
The admission requirements of the post master’s family nurse practitioner program are consistent with those requirements specified by the Graduate School of the University of Wisconsin-Milwaukee. In addition, students must also meet the following requirements for the College of Nursing:

1. A master’s degree in Nursing from an accredited program.
2. Completion with a grade of B or better of a graduate-level course in physiology, pharmacology, comprehensive assessment, and epidemiology. Evidence of prescriptive authority in the state of Wisconsin will be accepted in place of graduate pharmacology.
3. Current registration as a professional nurse in the state of Wisconsin.
4. Three (3) letters of recommendation, two (2) of which are from persons most knowledgeable about the applicant’s recent academic and work experiences. Personal interviews with a faculty member may be requested.
5. Completion of an autobiographical sketch.

Credits and Courses
Designated coursework in the certificate program is completed under the direction of faculty experts and clinical preceptors. A three consecutive semester sequence of theory and practicum courses totaling 18 credits is required for completion of the post master's family nurse practitioner certificate program.

Minimum Grade Requirement
For continuation in the program, in addition to general Graduate School requirements students must achieve a minimum grade of B in all required FNP practicum courses and a minimum grade of B- in all other required courses.

Certificate Requirements

Transfer Credit
No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   • Degree programs must approve the courses from certificates that can double count toward the degree.
   • All credits taken in completion of certificate requirements may count towards a UW graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   • Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit
Certificate program time limits shall be established as follows:

• 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
• 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.
GLOBAL HEALTH, UNDERGRADUATE CERTIFICATE (COLLEGE OF NURSING)

Anne Dressel, Director, Center for Global Health Equity, Nursing, Certificate Coordinator
Deatra Holloway, Senior Advisor, Nursing, CUN 129

Global Health is an interdisciplinary undergraduate certificate administered by the Director of the Center for Global Health Equity and the Global Health Advisory Committee (GHAC).

The world is economically, politically, culturally, and technologically connected and interdependent with increasingly mobile populations seeking economic opportunity, security, and safety as a result of civil unrest, regional conflicts, diminished natural resources, poverty, and disease. Although some health problems and issues remain specific to levels and contexts of socio-cultural, economic, and political development within countries, many of the same problems, issues, and concerns transcend geographic boundaries, as should appropriate approaches and solutions. The concept of “global health” describes and addresses these realities. An undergraduate certificate in Global Health will provide students with academic inquiry into:

- the global burden of disease
- the social determinants of health in a global context
- the principles, language, and measurement tools used in global health
- ethics and global health
- the global cultural, religious, and historical contexts of health, disease, and health care

The Global Health Certificate will provide undergraduate students with an opportunity to focus on current global health issues and concerns, policies, processes, programs, and practices that contribute to and hinder global health improvement. A wide array of courses will help students better comprehend the interdisciplinary approach to understanding and addressing global health issues.

Eligibility
The Global Health Certificate is intended to enhance a bachelor’s degree. The certificate is available to all students seeking a bachelor’s degree from UWM, to students who previously have received a bachelor’s degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. Non-degree students must meet regular University admission requirements. Students currently involved in baccalaureate studies who successfully complete the requirements of the program will be awarded the certificate at the time of graduation. Students who already have a bachelor’s degree will receive the certificate upon completion of the program requirements.

Requirements
To obtain the certificate, the student must complete, with a minimum grade point average of 2.500, at least 21 credits in approved Global Health courses, of which 12 must be earned in residence at UWM. Of these 12 residence credits, 9 must be taken at the 300 level or above. A minimum of 6 credits must be taken in the College of Letters and Science. A minimum of 6 credits must be taken in the College of Nursing. No more than 9 credits from any one department may count toward the certificate. A maximum of 6 credits of independent study may count toward program requirements. Courses for the certificate may not be taken on a credit/no credit basis.

Independent study courses focusing on global health issues may be accepted with the approval of the Certificate Program Coordinator. Other courses not on this list but relevant to the study of global health may be accepted with the approval of the Certificate Program Coordinator.

Credits earned at other institutions equivalent to courses in the certificate program may be accepted in partial fulfillment of the program requirements, subject to review by the Certificate Program Coordinator. Students currently enrolled at UWM who have fulfilled some of the program’s requirements prior to the approval of this program may count those courses toward completion of the certificate requirements.

**Fieldwork**

Students are required to do an internship, self-designed research project, or study abroad (for a minimum of 3 credits at the 300-level or above) in the field of global health. The purpose of this requirement is to enable the student to engage in global health work through "practical" experience or research. The area of study must be approved by the coordinator of the Global Health Certificate and must meet the requirements of the department through which it is being completed.

The fieldwork requirement can be fulfilled in one of three ways:

- **Internship** – A number of global health internships are available through the International Studies Major (INTLST 450), as well as other departments and organizations.
- **Study Abroad** – UWM offers a number of Global Health study abroad programs, through several departments.
- **Independent Study** – The student may propose a global health research project to a professor in an area of interest. The independent study also must be discussed with and approved by the Global Health Certificate Coordinator.
HEALTH PROFESSIONAL EDUCATION, GRADUATE CERTIFICATE (COLLEGE OF NURSING)

The Health Professional Education certificate is designed to provide health professionals with additional preparation in educational principles and theory to support them in their roles as educators of students and staff in the health professions as well as in the role of patient educator. This program is open to students simultaneously enrolled in a graduate degree program, as well as to health professionals who have completed a baccalaureate, master’s, or doctoral degree. The certificate program is a collaborative program between the College of Health Sciences and Schools of Nursing and Education, and is coordinated through the College of Nursing.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Application
- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Admission
Applicants are admitted to the certificate program in one of three categories: post-baccalaureate, current student in a UWM graduate health profession program, or post-graduate student.

1. Post-baccalaureate students must have completed a bachelor’s degree in a health profession discipline with a grade point average of 2.75 or above (4.0 scale) and not be currently enrolled in a graduate degree program at UWM.
2. The admission requirements of the health professional educational certificate for students enrolled in good standing in a UWM graduate health profession program are consistent with those requirements specified by the program.
3. Post-graduate students must have completed a graduate degree in a health profession or related discipline with a grade point average of 3.0 or above (4.0 scale).

Credits and Courses

The completion of 15 credit hours (5 courses) is required for the certificate program.

</table>

A current listing of courses that meet these requirements can be obtained from the College of Health Sciences or the College of Nursing. Students will need to maintain a 3.0 GPA and meet all other requirements of the Graduate School for continuation in the program. The Practicum and Seminar in Health Professional Education is the last course taken in the certificate program.

Certificate Requirements

Transfer Credit
No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.
Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   • Degree programs must approve the courses from certificates that can double count toward the degree.
   • All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   • Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit
Certificate program time limits shall be established as follows:

• 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
• 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.
INTERPROFESSIONAL GRADUATE CERTIFICATE IN PUBLIC AND POPULATION HEALTH (COLLEGE OF NURSING)

The Interprofessional Graduate Certificate in Public and Population Health is designed for students and working professionals involved in program planning and implementation, evaluation, education policy, health policy, engineering administration, research, and other areas related to public and population health. It recognizes that an interdisciplinary, systems approach is essential for communities to solve complicated social and economic problems. No one perspective or set of strategies can address the many dimensions of current societal problems. Prevention and population health are important cornerstones of the solutions to these problems, requiring linkages and new models of interaction among primary care, hospitals, communities and public health.

The Interprofessional Graduate Certificate is a 16-credit program with courses in four core disciplines: epidemiology, health policy, social and behavioral health, and environmental health. The fifth course grounds students in public health principles and practice. The sixth course will provide students the opportunity to engage in interprofessional workshops and other learning forums to foster competencies in interprofessional values, communication and teamwork. Three of the courses, in health behavior, epidemiology and health policy, are offered online, which will provide added flexibility for students.

This program is open to post-baccalaureate students, to those currently enrolled in a UWM graduate degree program, as well as to health professionals who have completed a baccalaureate, master’s or doctoral degree. The certificate program is a collaborative program between the College of Health Sciences, College of Nursing, and the Zilber School of Public Health, and is coordinated through the Zilber School of Public Health Principles and Practice.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/Registrar/contact-us) online.

Application
- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.

- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Credits and Courses
The completion of 16 credit hours is required for the certificate program. All students are required to complete six courses (All are 3 credits unless noted):

NURSING PRACTICE, DNP

Doctor of Nursing Practice

There are two entry options for the Doctor of Nursing (DNP) Practice Program.

1. Program for individuals with a bachelor’s degree in nursing and a current Registered Nurse license.
2. Program for individuals with an advanced practice master’s degree in nursing and a current Registered Nurse license.

There are two entry options for the Doctor of Nursing (DNP) Practice Program.

1. Program for individuals with a bachelor’s degree in nursing and a current Registered Nurse license.
2. Program for individuals with a master’s degree in nursing and a current Registered Nurse license. Student’s can pursue:

- Post Advanced Practice Masters (for individuals with NP, CNS, Midwife, CNRA)
- Post Generalist Masters (for individuals with MN or equivalent).

Individual plan of study will be developed based on review of the previous masters program coursework and transcript.

- Post Masters Curriculum (for individuals with other Nursing Masters degrees, ie. Nursing Education or Nursing Leadership). Individual plan of study will be developed based on review of the previous masters program coursework and transcript.

Doctor of Nursing Practice

There are two entry options for the Doctor of Nursing (DNP) Practice Program.

1. Program for individuals with a bachelor’s degree in nursing and a current Registered Nurse license.
2. Program for individuals with an advanced practice master’s degree in nursing and a current Registered Nurse license.

Admission Requirements

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

The admission requirements of the DNP program in Nursing are consistent with those requirements specified by the Graduate School of the University of Wisconsin-Milwaukee. In addition, students must also meet the following requirements for the College of Nursing:

An applicant must meet Graduate School requirements plus the following College of Nursing requirements to be considered for admission to the doctoral program in Nursing:

1. A bachelor’s degree in Nursing from a professionally accredited program, with a minimum undergraduate grade point average of at least 2.75 (4.0 scale) for the post baccalaureate DNP option.
2. A master’s degree in Nursing with an advanced practice focus from a professionally accredited program, with a minimum grade point average of 3.2 (4.0 scale) for the post master’s DNP option.
3. Completion with a grade of B or higher of an upper-level undergraduate course in statistics.
4. Current registration as a professional nurse.
5. Completion of the Graduate Record Examination (GRE) (http://uwm.edu/graduateschool/admission/#gre) if the previous GPA is less than 3.2, as calculated by the UWM Graduate School.
6. Three (3) letters of recommendation for graduate study in nursing, two (2) of which are from persons most knowledgeable about the applicant’s recent academic and work experiences.
7. Completion of an autobiographical sketch.
8. Personal interview with a faculty member may be requested.

These data are used by the Admissions Subcommittee as indicators of academic potential.

The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

Reapplication

A student who receives a master’s degree from the University of Wisconsin-Milwaukee must formally reapply for admission to the Graduate School before continuing studies toward the DNP.

Faculty Advisor

The student must have a Faculty Advisor to advise and supervise the student’s studies as specified in Graduate School regulations. The student is assigned to a Faculty Advisor at the time of admission.

The DNP program is offered to provide the highest academic preparation in clinical nursing. This is accomplished through core courses required of all students (30 credits) and completion of requirements for one of four clinical tracks. The following tracks are available:

Advanced Practice Nursing

- Family Nurse Practitioner
- Clinical Nurse Specialist (CNS) with options for focus in
  - Adult-Gerontology
  - Maternal-Infant
  - Pediatrics
- Community Nursing Public Health
- Nursing Systems with options for a focus in Nurse Executive or Nursing Informatics

Students in each of these areas will complete 21 credits in specialty theory and electives, 9 credits of specialty practicum and a 4 credit residency.

Credits and Courses

Minimum degree requirements are 65 graduate credits beyond the bachelor’s degree.

### Program Requirements

#### Residency
Both the post baccalaureate and post master’s curriculum include a 4-credit residency experience that will include the required DNP project. This residency experience will include 460 additional clinical hours in the student’s specialty focus area and will include an emphasis on the evidence-based practice, leadership and system competencies of the DNP prepared graduate.

#### Time Limit
Students in the post baccalaureate DNP program must complete all degree requirements within seven years of the first enrollment semester as a degree student. Students in the post master’s DNP program must complete all degree requirements within five years of the first enrollment semester as a degree student.

#### Minimum Grade Requirement
For continuation in the program, in addition to general Graduate School requirements (http://uwm.edu/graduateschool/academic-policies-procedures), students must achieve a minimum grade of B- in all required nursing courses. However, an overall G.P.A. of 3.00 is still required for the degree.

#### Residence
The student must meet minimum Graduate School residence requirements.

#### Doctoral Preliminary Examination
The student must pass a doctoral preliminary examination to qualify for formal admission to candidacy for degree. The doctoral examination comprises a written portfolio and an oral component, taken in that
sequence, with each component requiring a passing grade for successful completion. The examination is an integrative experience that is designed to validate the student's mastery of the content of the DNP curriculum and must be completed prior to beginning the residency experience.

**DNP Project**

The candidate will complete a final comprehensive clinical project as part of the residency experience which demonstrates the ability to implement the principles of evidence-based practice and translation under the direction of the faculty advisor.

The candidate must, as the final step toward the degree, pass an oral examination in defense of the clinical project. A candidate who does not pass this examination may apply for reexamination within one year from the initial examination date. This reexamination may occur only one time. A candidate who does not pass this examination within program time limits may be required to undergo another comprehensive preliminary examination and be readmitted to the program and/or candidacy.
NURSING PRACTICE, DNP/ BUSINESS ADMINISTRATION, MBA

The Lubar School of Business and the University of Wisconsin-Milwaukee College of Nursing collaboratively offer a program designed to provide a combined nursing and business curriculum to strengthen the graduate’s performance as a leader and manager in nursing and health care administration.

Requirements

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

Students are admitted to both the University of Wisconsin-Milwaukee graduate programs in nursing and business administration. The admission requirements are consistent with those specified by the UWM Graduate School, College of Nursing and Lubar School of Business. Applicants may choose to complete either the GMAT (http://uwm.edu/graduateschool/admission/#gmat) or GRE (http://uwm.edu/graduateschool/admission/#gre) and must have a BS in Nursing degree and at least two years practice in a health care setting. Three letters of reference are required including one from a former faculty and one from a health care employer.

Credits and Courses

MBA foundation coursework provides the basis for the theory and practice of business. The MBA Program requires Bus Adm 701, Business Mathematics (2 cr), and Bus Adm 703, Financial Accounting (3 cr). Bus Adm 701 is waived for individuals who have completed an appropriate academic course in their background, or have earned an appropriate Quantitative sub-score on the GMAT (http://uwm.edu/graduateschool/admission/#gmat) or GRE (http://uwm.edu/graduateschool/admission/#gre) and must have a BS in Nursing degree and at least two years practice in a health care setting. Three letters of reference are required including one from a former faculty and one from a health care employer.

For the coordinated degree program, students will complete 83 degree credit hours. Students accepted into the MBA/DNP program complete the following courses (each is 3 credits, unless otherwise indicated):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</tr>
</tbody>
</table>

Total Credits 83

1 Integrating course for the coordinated degree program.

Program Requirements

A student not completing the requirements for the coordinated degree program would need to complete all requirements of an individual program—MBA or DNP—in order to receive a degree. Students must fulfill
the MBA Program Boot Camp and Executive Development activities to meet all graduation requirements.

**DNP Clinical Project**
The candidate will complete a final comprehensive DNP project as part of the residency experience which demonstrates the ability to implement the principles of evidence-based practice and translation under the direction of the faculty advisor.

The candidate must, as the final step toward the degree, pass an oral examination in defense of the clinical project. A candidate who does not pass this examination may apply for reexamination within one year from the initial examination date. This reexamination may occur only one time. A candidate who does not pass this examination within program time limits may be required to undergo another comprehensive preliminary examination and be readmitted to the program and/or candidacy.

**Time Limit**
Students in the coordinated MBA/DNP degree program must complete all degree requirements within seven years of the first enrollment semester as a degree student.
NURSING, BS

The Bachelor of Science in Nursing (BS in Nursing) program at UW-Milwaukee will prepare graduates to be science-based, compassionate nurse leaders through innovative and quality educational programs for all specialties and settings of practice.

As the largest College of Nursing in the state, UW-Milwaukee partners with over 160 clinical agencies to prepare students for beginning positions of responsibility and leadership in providing professional care for clients and their families in a variety of healthcare settings. Classroom and clinical experiences provide students with the knowledge and skills needed to begin a nursing career after graduation including: critical-thinking, clinical leadership, advocacy, and application of the nursing process to deliver care.

The BS in Nursing program is offered on the Milwaukee campus and through a Consortial Program at the UW-Parkside and UW-Washington County campuses.

University of Wisconsin-Milwaukee College of Nursing is accredited through the Council of Baccalaureate and Higher Degree Programs of the Commission on Collegiate Nursing Education (CCNE) and the State of Wisconsin Board of Nursing.

Pre-Professional Program

New Freshmen

Students intending to pursue study in professional nursing are advised to complete the following units (one unit equals one year) in high school:

- 1/2 unit of speech (if available)
- 4 units of a foreign language
- 3 units of college preparatory mathematics at or above algebra level (required by UWM)
- 1/2 unit of computer science
- 1 unit of biology
- 1 unit of chemistry
- 1 unit of history
- 3 units of social studies
- 4 units of English (required by UWM)

In addition to completing high school courses, applicants seeking admission to the pre-nursing program must have a composite ACT score of at least 19 (SAT equivalent of 910).

Transfer Students

Students intending to transfer into the pre-nursing curriculum must meet the following criteria:

1. Completion of a minimum of 15 credits;
2. Cumulative GPA of 2.5 on all completed coursework; and
3. Completion of one transferable science class with a grade of B or better.

(The required pre-nursing science courses include: BIO SCI 101, BIO SCI 202, BIO SCI 203, CHEM 101, CHEM 103, NURS 251 and BMS 332.)

The policies and procedures of the College apply to all students even though the student may be enrolled in courses in another college or school within the University.

The general regulations governing UWM presented in this catalog apply to all pre-nursing students. The pre-nursing classification does not automatically guarantee acceptance into the nursing major.

Non-Nurse College Graduates

After prerequisites are met, non-nurse college graduates may be admitted into the professional nursing major or the master’s (MN) program. Individuals’ records, including consideration of related work experiences, are assessed to assign transfer credit for previous college-level coursework and to offer opportunities for credit by examination.

Professional Program

Students who seek to enter the major and meet eligibility criteria (see below) are required to file an application with the Student Affairs Office, College of Nursing. (This form is in addition to the application form required for admission to the University.) The College of Nursing Undergraduate Program Committee reviews the applications and makes recommendations for admission. Admission to the nursing major is highly competitive. The average GPA of students accepted to the nursing major can be significantly higher than the minimum required GPA of 2.75, and a science minimum GPA of 2.5, needed for application to the major.

Application Deadlines

Students who seek to enter the nursing major in September must submit applications by the preceding January 15; for January entrance the deadline is the preceding August 15.

Eligibility Criteria

Students are required to meet the following criteria to be reviewed for selection into the nursing major:

<table>

Additional Professional Admission Requirements

Demonstration of competency in Math and English.
Completion of the Transfer Reference Form must be submitted by the Dean of Nursing if an applicant has been enrolled in clinical nursing courses at another college/university. The form and/or attached letter should reflect a positive recommendation for the student's progression into the nursing major.

An interview with the student making application may be requested at the discretion of the Undergraduate Program Committee.

Demonstration of satisfactory health as evidenced by physical examination and fulfillment of the health and immunization requirements by the appropriate deadline. The College of Nursing reserves the right to require a student to seek advice of healthcare professionals where it is believed that a condition of health would impede his or her progress or jeopardize the health of others. The College of Nursing does not discriminate based on a disability and provides reasonable accommodation to qualified students on an individual basis.

Knowledge of a computer word processing application.

Criminal background check

1 Courses may be repeated only once. No more than three (3) required courses may be repeated. All credit for required courses must have been earned in the 10 years preceding progression into the nursing major. Grades of less than 2.0 (C) must be replaced by grades greater than 2.0 (C) no later than August 31 for fall applicants and December 30 for spring applicants.
2 Achieve a minimum grade point average of 2.75 on a 4.0 scale and 2.5 in the required science courses. This GPA is computed on the courses listed above.
3 Achieve a minimum grade of 2.0 (C) in each required nursing and non-nursing courses.
4 All coursework must be completed with acceptable grades before beginning the nursing major.
5 Enrollment in freshman-level courses is based on placement test scores. Depending on the outcome of the placement tests, one or more preparatory courses may be required before enrollment in higher-level courses is permitted. Credits earned in preparatory courses do not apply to the 124 credits required for graduation.

BS in Nursing Curriculum

Students must earn a minimum of 124 semester credits to complete requirements for the undergraduate degree. A cumulative GPA of 2.0 for all credits earned at UWM is required for graduation. Thirty semester credits must be completed on the Milwaukee campus; at least 20 of these credits must be earned in nursing. The required courses are listed below.

Total Credits 124
Health

Good physical and mental health are essential for study and practice in professional nursing. The faculty of the College of Nursing reserves the responsibility for retaining only those students who demonstrate qualities of physical and mental health generally considered to be imperative for professional nursing practice.

Health and accident insurance is not provided for students by the University of Wisconsin-Milwaukee, or by any clinical agency where students may be assigned for clinical experience. Nursing students are expected to provide for their own personal health and accident insurance coverage.

A physical examination and specified immunizations are required of all students prior to enrollment in nursing practice courses. Expenses of this examination are the student’s responsibility. Evidence of a physical examination – to be completed by a nurse practitioner, physician, or a physician assistant of the student’s choice – must be submitted to the UWM College of Nursing Student Affairs Office on a date specified by the College of Nursing. The examination must be completed within 90 days before the date on which the student begins clinical nursing coursework. Students who do not meet these requirements may not continue in a clinical nursing practicum course.

Students are required to pass a 10-panel urine drug screen prior to participating in a clinical nursing practicum course. The purposes of the drug screen are to comply with expectations of area healthcare agencies, to provide optimal healthcare, and to support professional nursing’s zero tolerance position related to the unlawful use of substances. Students must abide by the drug screen policies of each healthcare agency to which they are assigned for clinical practicums. Students are also required to complete a CPR certification program through American Heart Association at a health care provider level.

Illness or Prolonged Absence

Students are expected to be present at all scheduled classes and clinical laboratory experiences. Since space in nursing courses is assigned during the first week of the semester, students are expected to be present for all instructional periods during that week as well. Frequent or prolonged absences from scheduled classes and/or clinical experiences may necessitate that the student drop a nursing course. Any planned interruption in coursework should be discussed with the student’s advisor at the earliest possible date.

Safe Professional Practice in Clinical Settings

Students are expected to demonstrate patterns of professional behaviors that follow the legal and ethical codes of nursing; promote the actual or potential well-being of clients, healthcare workers, and self in the biological, psychological, sociological, and cultural realms; demonstrate accountability in preparation, documentation, communication, and continuity of care; and show respect for the human rights of individuals. A student whose pattern of behavior is found to be unsafe may be terminated from a clinical practicum for reason of unsafe practice at any time during the semester. If the behavior is identified before the drop date, the student will be directed to drop. If the drop date has passed, the student will receive a grade of F for the course. In order to continue in the nursing program, a student who is terminated from a clinical practicum must appeal to the Undergraduate Program Committee for re-admission to the nursing program.

Required Grade Point Average

Every nursing student is required to maintain a minimum of a C average (cumulative GPA of 2.0 on a 4.0 scale) on all work attempted in each semester or summer session. Failure to meet this minimum GPA will automatically result in a status of academic probation.

In addition to maintaining a cumulative GPA of 2.0, a student must earn at least a C (2.0) in each required nursing course. In a practicum nursing course, a student must earn at least a C in both the clinical and theoretical components in order to receive a C as the final course grade.) Any student who earns a grade below C (2.0) in a required nursing course is automatically dropped from the nursing major. Such a student must appeal to the Undergraduate Program Committee for readmission and permission to repeat the course in which a minimum grade of C was not earned.

In a nursing course with limited enrollment or a waiting list, qualified students who have not taken the course previously will have enrollment priority. Progression to the next level of courses is not permitted until all courses of the previous level have been successfully completed.

Dropping Courses

Students should refer to a current class schedule for information concerning existing University of Wisconsin-Milwaukee drop policy guidelines and any exceptions for individual courses.

Following admission to the nursing major, a student who wishes to drop from a required or elective clinical nursing course or to withdraw must discuss the matter with the instructor, course coordinator or department chair, and the Associate Dean for Academic Affairs. In addition, the student may wish to discuss the matter with an academic advisor in the Student Affairs Office. Written approval to drop must be secured from the instructor and the Associate Dean irrespective of the week of the semester. Any such interruption in the sequence of courses following acceptance into the major requires re-admission to the clinical major. Information about applying for re-admission is available in the College of Nursing’s Student Affairs Office.

Grievance Procedure

The College of Nursing has a formal written grievance procedure, available in the College of Nursing’s Student Affairs Office. A grievance is defined as any situation affecting the status of a student in which the student believes his/her rights have been compromised or denied because of an erroneous or arbitrary interpretation or application of rules. Student grievances are reviewed by the College of Nursing’s Undergraduate Program Committee, which recommends the disposition of the grievance to the Associate Dean for Academic Affairs. In addition, this Committee reviews and acts upon all cases of academic misconduct as described in Chapter UWS 17, UWM Student Disciplinary Procedures.

Student Responsibilities in the Major

Students are expected to provide their own transportation, uniforms, books, supplies, equipment, and other learning resources, such as clients for practice experience, as deemed necessary to meet course objectives.
Travel
Students in nursing are responsible for arranging transportation to and from all agencies or clients’ homes used to provide clinical experience for the program. They are also responsible for any related liability. Students are expected to carry insurance on their vehicles.

Uniforms
Information about the uniform, a one-time investment, is sent to each student with the official letter of acceptance into the major. Students purchase their uniforms after acceptance.

Professional Credentials
Wisconsin state law requires nurses to be licensed to practice nursing within the state. Licensure is obtained by endorsement or by passing an examination. Students graduating from the College of Nursing are eligible to write the examination if they:

1. are at least 18 years of age;
2. are graduates of a high school or its equivalent;
3. are able to speak, read, and write English; and
4. pay the fee for licensure.

Applicants for registration/licensure in the State of Wisconsin will be asked to state if they have ever been convicted of a criminal offense, excluding minor traffic violations. When individuals have such a conviction, an explanation is requested. An investigation may follow depending upon the circumstances and all the facts related to the situation. Some organizations may require background reviews prior to acceptance of a student by the placement site.

Individual course plans may vary. Consult your academic advisor to confirm a plan of study.

Competencies/Program Outcomes
The graduate of the UWM College of Nursing is prepared to practice as a beginning generalist in a variety of settings. In addition, the graduate will possess knowledge and skills that qualify her or him to pursue life-long learning and advanced study. The UWM College of Nursing undergraduate and graduate programs are directed toward enhancing the health of those who live and work in urban communities.

Patient-centered Care
The graduate will provide holistic care that recognizes patients’ (individuals, families, groups, and communities) preferences, values, and needs and respects patients or their designees as full partners in providing compassionate, coordinated, age and culturally appropriate, safe and effective care.

Professionalism
The graduate will demonstrate accountability for the delivery of standard based nursing care that is consistent with moral, altruistic, legal, ethical, regulatory, and humanistic principles.
Leadership
The graduate will influence the behavior of individuals or groups of individuals within the environment in a way that will facilitate the establishment and acquisition/achievement of shared goals.

Systems-based Practice
The graduate will demonstrate an awareness of and responsiveness to the larger context of the health care system, and will demonstrate the ability to effectively call on microsystem resources to provide care that is of optimal quality and value (Adapted from ACGME, n.d.).

Informatics and Technology
The graduate will use information and technology to communicate, manage knowledge, mitigate error, and support decision making (QSEN, 2007).

Communication
The graduate will interact effectively with patients, families, and colleagues, fostering mutual respect and shared decision making, to enhance patient satisfaction and health outcomes.

Teamwork and Collaboration
The graduate will function within nursing and interdisciplinary teams, fostering open communication, mutual respect, shared decision making, team learning, and development (Adapted from QSEN, 2007).

Safety
The graduate will minimize risk of harm to patients and providers through both system effectiveness and individual performance (QSEN, 2007).

Quality Improvement
The graduate uses data to monitor the outcomes of care processes, and uses improvement methods to design and test changes to continuously improve the quality and safety of health care systems (QSEN, 2007).

Evidence-based Practice
The graduate will identify, evaluate, and use the best current evidence coupled with clinical expertise and consideration of patients’ preferences, experience and values to make practice decisions (Adapted from QSEN, 2007).

Honors in the College of Nursing

Dean’s Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.
There are two entry options for the Master of Nursing Program.

1. Traditional program for individuals with a bachelor’s degree in nursing and a current Registered Nurse license.
2. Direct Entry program for individuals with a degree in a field other than nursing and are not licensed as a Registered Nurse. This option includes an additional 16 month curriculum at the beginning of the program that leads to eligibility to sit for the NCLEX-RN examination.

**Doctor of Nursing Practice**

There are two entry options for the Doctor of Nursing (DNP) Practice Program.

1. Program for individuals with a bachelor’s degree in nursing and a current Registered Nurse license.
2. Program for individuals with an advanced practice master’s degree in nursing and a current Registered Nurse license.

**Admission Requirements**

**Application Deadlines**

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**

Admission to the traditional program is the fall and spring of each year. Admission to the direct entry program is fall only. The admission requirements of the Advanced Generalist master’s program in Nursing are consistent with those requirements specified by the Graduate School of the University of Wisconsin-Milwaukee. In addition, students must also meet the following requirements for the College of Nursing:

**Traditional Option**

1. A bachelor’s degree in Nursing from a professionally accredited program, with a minimum undergraduate grade point average of at least 2.75 (4.0 scale).
2. Completion with a grade of B or higher of an upper-level undergraduate course in statistics within the five years immediately preceding admission.
3. Current registration as a professional nurse in the State of Wisconsin.
4. Completion of the Graduate Record Examination (GRE) (http://uwm.edu/graduateschool/admission/#gre) within the last five years. The GRE requirement is waived for applicants whose prior education includes completion of a master’s degree or a cumulative undergraduate GPA of 3.2 or higher as calculated by the UWM Graduate School.
5. Three (3) letters of recommendation for graduate study in nursing, two (2) of which are from persons most knowledgeable about the applicant’s recent academic and work experiences. Personal interview with a faculty member may be requested.
6. Completion of an autobiographical sketch.

**Direct Entry Option**

1. A bachelor’s degree, with a minimum undergraduate grade point average of at least 3.00 (4.0 scale). Applicants with an undergraduate grade point average below a 3.00 but above a 2.75 may be considered for admission if, by the application deadline, the student either:
   a. Has an advanced degree with a grade point average above 3.00, or
   b. Has completed a minimum of 24 credits post-baccalaureate with a grade point average above 3.00. At least one required science course must be included in the post-baccalaureate work.
2. Completion, with a grade of B or higher, and within the five years immediately preceding admission, of college coursework in the following areas:
   - upper-level undergraduate course in statistics
   - anatomy and physiology
   - growth and development
   - microbiology
   - biochemistry
   - nutrition
3. Completion of the Graduate Record Examination (GRE) (http://uwm.edu/graduateschool/admission/#gre) within the last five years. The GRE requirement is waived for applicants whose prior education includes completion of a master’s degree or a cumulative undergraduate GPA of 3.2 or higher as calculated by the UWM Graduate School.
4. Three (3) letters of recommendation for graduate study in nursing, two (2) of which are from persons most knowledgeable about the applicant’s recent academic and work experience. A personal interview with a faculty member may be requested.
5. Completion of an autobiographical sketch.

These data are used by the Admissions Subcommittee as indicators of academic potential.

**Faculty Advisor**

The student is assigned to a faculty advisor at the time of admission to advise and supervise the student’s studies as specified in Graduate School regulations.

**Credits and Courses**

**Direct Entry Curriculum**

Students admitted to the Direct Entry Option complete a 16-month, full-time pre-licensure curriculum prior to beginning the advanced practice nursing master’s program. Successful completion of all courses in the pre-licensure curriculum with a grade of B- or better is required prior to beginning the advanced practice nursing curriculum. Attainment of a Registered Nurse license is required prior to beginning the summer of the second year of the program.

1 Connotes clinical course or clinical component

**RN to MN Option**

The RN to MN track is designed for RN students who are interested in completing both a BS and a MN degree. Students in this option complete 9 credits of graduate core courses while enrolled in the BS in Nursing program designed for Registered Nurses. In the last semester of the BS program, they apply for admission to the graduate program. In addition to the admission requirements described above, students will be required to have completed the 9 credits of graduate core courses with a grade of B- or better. Upon admission they complete the remaining 24 required credits in the post-licensure MN curriculum.

**Program Requirements**

**Minimum Grade Requirement**

For continuance in the program, in addition to general Graduate School requirements students must achieve a minimum grade of B- in all required Master of Nursing practicum courses and a minimum grade of B- in all other required courses and a cumulative GPA of 3.00.

**Master’s Clinical Project**

The student will complete a final comprehensive clinical project.

**Time Limit**

Students in the Master of Nursing program must complete all degree requirements within seven years of the first enrollment semester as a degree student.
NURSING, PHD

Doctor of Nursing Practice
There are two entry options for the Doctor of Nursing (DNP) Practice Program.

1. Program for individuals with a bachelor’s degree in nursing and a current Registered Nurse license.
2. Program for individuals with an advanced practice master’s degree in nursing and a current Registered Nurse license.

The PhD program in Nursing at the University of Wisconsin-Milwaukee prepares nurses as scholars to conduct independent and collaborative research, to develop and test theory relevant to nursing, and to improve the quality of care by expanding the body of nursing knowledge. Scholars will be prepared to serve the urban community and improve the general accessibility and acceptability of health care.

Specialization is achieved through an approved program of study and includes program elements of coursework, dissertation, and direction of faculty advisors. This specialization is focused on a particular area of nursing practice and the social context within which it occurs.

Requirements

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus the following College of Nursing requirements to be considered for admission to the doctoral program in Nursing:

1. A bachelor’s or master’s degree with a major in nursing from a professionally accredited college of nursing.
2. A cumulative grade point average of 3.2 on a 4.0 scale for all previous coursework.
3. Submission of scores on the General Test portion of the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre); test taken within last five years.
4. Completion of a graduate-level statistics course with a grade of B or better within the last 5 years.
5. Current registration in nursing in one of the jurisdictions of the United States or in another country.
6. A written statement prepared by the applicant describing previous professional experience, personal career goals, research interests motivation for doctoral study, and educational objectives to be accomplished in the program.
7. Recommendations from at least three persons who have known the applicant in a professional capacity.
8. Two examples of original work that demonstrate the applicant’s academic potential.
9. An interview may be required of applicants to the doctoral program. Telephone or Skype interview may be used when travel is prohibitive.

Reapplication
A student who receives the master’s degree must formally reapply for admission to the Graduate School before continuing studies toward the Ph.D.

Credits and Courses
Minimum degree requirements are 61 graduate credits beyond the bachelor’s degree, at least 31 of which must be earned in residence at the University of Wisconsin-Milwaukee. The College of Nursing requires a minimum of 49 graduate credits beyond the master’s degree in nursing or master’s graduate core courses.

Total Credits: 61

Specialization is achieved through an approved program of study and includes program elements of minor field coursework, supervised research experiences, dissertation, and the direction of faculty advisors. The student specializes in a particular area of nursing practice and the social context within which it occurs. The plan for this is developed in consultation with the major professor. Minimum requirements for all formal coursework other than dissertation research can be expected to take at least two academic years of study.

Students admitted without a master’s degree in nursing must complete 12 credits of master’s program graduate core courses before beginning doctoral level nursing courses. The graduate core courses that must be completed are:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>NURS 725</td>
<td>Evidence Based Practice in Healthcare I</td>
<td>3</td>
</tr>
<tr>
<td>NURS 727</td>
<td>Epidemiology</td>
<td>3</td>
</tr>
</tbody>
</table>
Post baccalaureate students admitted to the doctoral program will not be granted a master's degree in nursing unless all requirements for the master's degree in nursing are met.

**Program Requirements**

**Major Professor as Advisor**
The student is expected to affirm their Major Professor by the end of her/his second semester of full-time study or the equivalent in earned credits. The date for submission will be published for each semester by the PhD Program Director. The Major Professor will be the student’s research advisor, and will serve as chairperson of his/her Comprehensive Preliminary Examination Committee and the Dissertation Committee. The PhD student must select a Major Professor who is a member of the graduate faculty of the College of Nursing and who has agreed to serve.

**Minimum Grade Requirement**
For continuation in the program, in addition to general Graduate School requirements (http://uwm.edu/graduateschool/academic-policies-procedures), students must achieve a minimum grade of B- in all required courses.

**Minor Field**
The student must complete a minor of 8 to 12 credits, 6 or more of these credits to be earned from courses in departments outside the College of Nursing. Such courses are selected for their relevance to the student’s area of specialization, and are to be taken in the substantive content of the selected minor field.

**Language Requirement**
Foreign language competency may be required at the option of the student’s major professor.

**Residence**
The student must meet minimum Graduate School residence requirements.

**Doctoral Preliminary Examination**
The student must pass a doctoral preliminary examination to qualify for formal admission to candidacy for degree. The doctoral examination comprises a written and an oral component, taken in that sequence, with each component requiring a passing grade for successful completion. The examination is an integrative experience that is designed to validate the student’s mastery of the content of the doctoral program curriculum and readiness to conduct independent research within the student’s area of specialization as identified in the formal plan of study.

**Dissertation**
The candidate must write a dissertation, which demonstrates ability to formulate a research topic and pursue independent and original investigation under the direction of the major professor.

**Dissertation Defense**
The candidate must, as the final step toward the degree, pass an oral examination in defense of the dissertation. A candidate who does not pass this examination may apply for reexamination within one year from the initial examination date. This reexamination may occur only one time. A candidate who does not pass this examination within program time limits may be required to undergo another comprehensive preliminary examination and readmitted to the program and/or candidacy.

**Time Limit**
The student must complete all requirements for the degree within seven years from the date of initial enrollment in the program. The student must complete all requirements for the degree within four years from the time of attainment of dissertator status.

For additional information on the Ph.D., see the Graduate School Doctoral Requirements (http://uwm.edu/graduateschool/doctoral-requirements) page.
Flexible, affordable options have been arranged for Registered Nurses to facilitate BSN completion. These include face-to-face courses offered in partnership with area hospitals and technical colleges, the collaborative University of Wisconsin System BSN@Home online option, and the UW Flexible Option allowing for the demonstration of competency through assessment. Registered Nurses who wish to earn a baccalaureate degree can progress on a full- or part-time basis, at a speed compatible with their other personal and professional commitments.

Nurses who graduated from Wisconsin Technical Colleges after Dec. 31, 1989, can transfer credits from these programs through formal VTAE articulation agreements.

Admission

Admission requirements for all RN-BSN completion programs include a past Associate's Degree or Diploma in nursing and a past cumulative GPA of 2.5 or higher as well as a Wisconsin or Illinois registered nursing license. Registered Nurses follow admission procedures for transfer students, with deadlines well in advance of the beginning of each semester. The UW Flexible Option has unique admission requirements and admits students every month. For additional information about the UW Flexible Option, students can call 1-877-895-3276. To ensure success in enrollment and advising, individuals interested in BSN completion, online or face-to-face, should consult with an advisor in the Student Affairs Office, (414) 229-5047. The advisor will provide information on all degree completion options and route the student through the appropriate admission procedures.

RN to BS Curriculum

Registered Nurse students must earn a minimum of 124 semester credits to complete requirements for the undergraduate degree. A cumulative GPA of 2.0 for all credits earned at UWM is required for graduation. Thirty semester credits must be completed on the UWM campus; at least 20 of these credits must be earned in nursing.

Nursing Electives 9

Previous Nursing

30 Nursing credits are awarded for previous nursing experience upon admission.

Total Credits 124

1 Demonstration of mathematics and English proficiency by Registered Nurse students is a requirement for enrollment in Capstone Practicum for Registered Nurses (NURS 445). Refer to the UWM Timetable (http://www4.uwm.edu/schedule) for definition of competencies.

2 Registered Nurse students are permitted to enroll in courses out of the usual sequence in the undergraduate curriculum with the exception of Capstone Practicum for Registered Nurses (NURS 445). This is the final course and all other required courses are prerequisite to this course.

Competencies/Program Outcomes

The graduate of the UWM College of Nursing is prepared to practice as a beginning generalist in a variety of settings. In addition, the graduate will possess knowledge and skills that qualify her or him to pursue life-long learning and advanced study. The UWM College of Nursing undergraduate and graduate programs are directed toward enhancing the health of those who live and work in urban communities.

Patient-centered Care

The graduate will provide holistic care that recognizes patients’ (individuals, families, groups, and communities) preferences, values, and needs and respects patients or their designees as full partners in providing compassionate, coordinated, age and culturally appropriate, safe and effective care.

Professionalism

The graduate will demonstrate accountability for the delivery of standard based nursing care that is consistent with moral, altruistic, legal, ethical, regulatory, and humanistic principles.

Leadership
The graduate will influence the behavior of individuals or groups of individuals within the environment in a way that will facilitate the establishment and acquisition/achievement of shared goals.

**Systems-based Practice**
The graduate will demonstrate an awareness of and responsiveness to the larger context of the health care system, and will demonstrate the ability to effectively call on microsystem resources to provide care that is of optimal quality and value (Adapted from ACGME, n.d.).

**Informatics and Technology**
The graduate will use information and technology to communicate, manage knowledge, mitigate error, and support decision making (QSEN, 2007).

**Communication**
The graduate will interact effectively with patients, families, and colleagues, fostering mutual respect and shared decision making, to enhance patient satisfaction and health outcomes.

**Teamwork and Collaboration**
The graduate will function within nursing and interdisciplinary teams, fostering open communication, mutual respect, shared decision making, team learning, and development (Adapted from QSEN, 2007).

**Safety**
The graduate will minimize risk of harm to patients and providers through both system effectiveness and individual performance (QSEN, 2007).

**Quality Improvement**
The graduate uses data to monitor the outcomes of care processes, and uses improvement methods to design and test changes to continuously improve the quality and safety of health care systems (QSEN, 2007).

**Evidence-based Practice**
The graduate will identify, evaluate, and use the best current evidence coupled with clinical expertise and consideration of patients' preferences, experience and values to make practice decisions (Adapted from QSEN, 2007).

**Honors in the College of Nursing**

**Dean's Honor List**
GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.
SUSTAINABLE PEACEBUILDING, MSP

The College of Nursing offers an interdisciplinary professional graduate degree program leading to a Master of Sustainable Peacebuilding (MSP). The MSP is designed to prepare students for careers in peacebuilding—e.g. international development, conflict resolution, resource stewardship. The MSP curriculum is designed to develop student expertise in systems thinking, social-ecological interactions, and the application of such concepts to peacebuilding and development fields. In addition to fulfilling all Graduate School master’s degree requirements (http://uwm.edu/graduateschool/masters-requirements), MSP students are required to take 44 credits over the course of six semesters—two full calendar years. Only full-time students will be accepted to the program.

Students completing the MSP will:

- Classify the various components of complex social-ecological systems and identify appropriate intervention strategies.
- Recognize patterns of human-environment interaction, including drivers of change resulting in conflict, development, and peacebuilding.
- Acquire critical knowledge across at least four distinct disciplines relevant to development and peacebuilding and relate and translate knowledge among the disciplines.
- Facilitate effective group problem-solving processes, which includes communicating confidently and effectively to diverse audiences.
- Assess systemic outcomes of peacebuilding programs and policies and recommend adaptive modifications for improvement.

Admission Requirements

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

The Master of Sustainable Peacebuilding admits students to begin in fall semester only. Applicants must satisfy Graduate School requirements (http://uwm.edu/graduateschool/admission) for admission as well as provide the following materials:

1. Two letters of recommendation from persons familiar with the applicant’s academic or professional work, preferably one academic and one professional recommendation.
2. A writing sample that demonstrates the applicant’s critical thinking, research, and writing skills as well as the applicant’s ability to think across disciplines.
3. A current resume that clearly articulates the applicant’s professional, international, and intercultural experiences as well as language exposure and proficiencies.

Please check the MSP Website (http://www4.uwm.edu/letsci/msp) for up-to-date information on eligibility, application requirements, and deadlines.

Advising

As specified in the regulations of the Graduate School, a major professor will be assigned to every person enrolled in the program to advise and supervise his or her work. Those admitted to the program will consult with the MSP coordinator for assistance in identifying an appropriate major advisor. The responsibility of this advisor will be to assist in selecting a cohesive sequence of courses and developing a rationale for that sequence. The major professor and MSP Coordinator must approve the Plan of Study. Students may request a specific faculty advisor who aligns with their research and professional interests, if desired; however, fulfillment of such requests are not guaranteed.

Credits and Courses

44 credits are required for the MSP degree, distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MSP 760</td>
<td>The Politics and Policy of Sustainability</td>
<td>3</td>
</tr>
<tr>
<td>MSP 761</td>
<td>Complex Human-Environmental Interactions</td>
<td>3</td>
</tr>
<tr>
<td>MSP 770</td>
<td>Preparing for Sustainable Peacebuilding and Social Change</td>
<td>3</td>
</tr>
<tr>
<td>MSP 771</td>
<td>Holistic Peacebuilding Practice</td>
<td>3</td>
</tr>
<tr>
<td>MSP 780</td>
<td>Transdisciplinary Research Methods and Information Literacy</td>
<td>2</td>
</tr>
<tr>
<td>MSP 781</td>
<td>Innovation, Evaluation, and Adaptive Management</td>
<td>2</td>
</tr>
<tr>
<td>MSP 790</td>
<td>Workshop on Negotiation and Group Problem Solving Skills</td>
<td>2</td>
</tr>
<tr>
<td>MSP 791</td>
<td>Leadership and Program Management for Sustainable Peacebuilding</td>
<td>2</td>
</tr>
</tbody>
</table>

Electives

Select 12 credits in consultation with advisor(s); each course should fit into one of the following content areas:

- Public and Environmental Health
- Ecosystem Services and Resource Stewardship
- Political Economy
- Human Security and Development
- Language and Culture
- Religion and Belief Systems
- Governance and Policy

Independent Study

Students may register for the following with approval from the supervising faculty member and the student’s faculty advisor:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MSP 799</td>
<td>Independent Study</td>
<td>12</td>
</tr>
</tbody>
</table>

Fieldwork

Select one of the following for two (six-week) fieldwork experiences (6 credits each):

- MSP 797 | Study Abroad                             | 1       |
- MSP 798 | Internship in Sustainable Peacebuilding  | 1       |

Total Credits 44
Students will complete two (six-week) fieldwork experiences (6 credits each), locally in Milwaukee, elsewhere in the U.S., or abroad. The program is designed so that students will complete fieldwork during the summer semester between Year 1 and Year 2, and again during the summer semester after Year 2. Students will engage in work that focuses on a pertinent issue in the broader context of peacebuilding, e.g. food security, water conflict, public health, etc. Students will select from current MSP projects, or develop their own projects.

**Program Requirements**

**Master’s Paper**
All students must prepare and orally defend a final master’s paper following the second summer internship. The master’s paper—an “Integrative Synthesis”—will reflect upon a student’s breadth of experiences during the MSP program, and clearly demonstrate a student’s ability to formulate an argument, analyze data, systematically present results, and show familiarity with relevant scholarship. The paper will be a critical discussion of core MSP concepts as they relate to peacebuilding, based upon a student’s coursework and, primarily, internship experiences. Each student, throughout the course of study, will keep a portfolio containing items such as coursework, internship evaluations, and additional elements to help guide the Integrative Synthesis. To ensure students are progressing such that they will be successful in their final papers and presentations, the faculty advisor and MSP program coordinator will assess with each student his/her portfolio periodically during the course of study to address deficiencies and advise the student regarding appropriate adjustments.

**Transfer Credits**
Individuals with prior graduate coursework may receive permission to count up to 9 credits of that work toward the Master of Sustainable Peacebuilding if the Advisory Committee accepts the courses as relevant to the program of study and if the courses meet Graduate School requirements for transfer. Sustainable Peacebuilding core breadth courses, seminars, and the summer field internships must be taken at UWM.

**Time Limit**
All degree requirements must be completed within five years of initial enrollment.
TRAUMA INFORMED CARE, GRADUATE CERTIFICATE (COLLEGE OF NURSING)

The Certificate in Trauma-Informed Care will expose graduate students in several helping professions to the theory and practice of trauma-related service delivery. This is a multidisciplinary program that integrates knowledge from the social, behavioral, and health sciences. The primary goal of the program is to train graduate students from the helping professions in specialized knowledge and skills related to psychological trauma.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Application
- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Pantera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Pantera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Admission
Students in good standing currently in a graduate program or those who have already completed a graduate degree are eligible for the certificate.

Credits and Courses
All students participating in the certificate program will complete 15 academic credits related to trauma theory and practice.

Total Credits 18-21

Students also have an opportunity to complete anywhere from 3 to 6 additional qualifying program credits through participation in in trauma-informed practice field settings, contingent on the respective department’s field credit policy. Four departments are participating in this interdisciplinary certificate program—Social Work, Educational Psychology, Nursing, and Occupational Therapy—and accordingly, the program curriculum will consist of courses offered via multiple campus departments.

Program Requirements

Transfer Credit
No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   • Degree programs must approve the courses from certificates that can double count toward the degree.
   • All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   • Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.

3. A course may count toward no more than one certificate and one degree.

4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit
Certificate program time limits shall be established as follows:

• 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
• 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.
Prepare for a career in public health by focusing your studies in Biostatistics, Community and Behavioral Health Promotion, Environmental Health Sciences, Epidemiology, or Public Health Policy and Administration through graduate work at the Zilber School of Public Health. The Bureau of Labor Statistics reports that hospitals, government agencies and research organizations need more public health professionals.

About Public Health
Public health is concerned with protecting the health and well-being of entire communities and populations. It is the science and art of preventing disease, prolonging life, and promoting health and well-being through the organized efforts of society. Whereas medicine mostly treats people once they become sick, those of us working in public health try to prevent people from getting sick or injured in the first place.

Public health asks:
• What makes some people healthy and others less healthy?
• How can we create a society in which everyone has a chance to thrive?

From conducting scientific research to advocating for policies and educating about health, public health professionals work to ensure conditions in which all people can be healthy. These include the conditions in which people are born, grow, work, live, and age, and the wider set of forces and systems that shape these conditions of daily life. Thus, public health covers a wide range of factors that affect population health and well-being, such as economic and social policies, poverty, environmental hazards, access to quality healthcare, health-promoting behaviors, and genes.

The Joseph J. Zilber School of Public Health embraces its mission to advance population health, health equity, and social and environmental justice among diverse communities in Milwaukee, the state of Wisconsin, and beyond through education, research, community engagement, and advocacy for health-promoting policies and strategies. We educate current and future public health professionals in the science, practice, critical thinking, and leadership skills necessary to promote population health and reduce health inequities.

Degree Programs
The Zilber School of Public Health offers graduate degree programs and select undergraduate courses in-person and online. An undergraduate BS degree in Public Health is under development and will begin as early as fall 2018. Current undergraduate public health courses cover a range of topics, helpful to prepare for many careers. Start with an introductory course—PH 101 (p. 1865) and/or PH 142 (p. 1866)—and if they spark your interest, enroll in a specialized, more advanced class. These cover topics as diverse as climate change and human health (PH 303), adolescent health (PH 306), and how factors like race and racism impact population health (PH 319). PH 101 and PH 306 meet the Social Sciences (SS) GER, and PH 303 meets the Natural Sciences (NS) GER.

Our graduate degree programs include four doctoral programs—Biostatistics, Community and Behavioral Health Promotion, Environmental Health Sciences, and Epidemiology—and the Master of Public Health (http://uwm.edu/publichealth) (MPH) degree with five tracks:
• Biostatistics, Community and Behavioral Health Promotion, Environmental Health Sciences, Epidemiology, and Public Health Policy and Administration (http://uwm.edu/publichealth/mph-public-health-policy-administration).

Graduates from across UWM may have an interest in one of these exciting programs of study. Interested undergraduates should contact applyph@uwm.edu to learn more.

Programs
• Environmental Health Sciences, PhD (p. 1860)
• Epidemiology, PhD (p. 1862)
• Interprofessional Graduate Certificate in Public and Population Health (Zilber School of Public Health) (p. 1864)
• Public Health, MPH (p. 1887)
• Public Health, MPH: Biostatistics (p. 1866)
• Public Health, MPH: Community and Behavioral Health Promotion (p. 1869)
• Public Health, MPH: Environmental Health Sciences (p. 1872)
• Public Health, MPH: Epidemiology (p. 1875)
• Public Health, MPH: Public Health Policy and Administration (p. 1878)
• Public Health, PhD (p. 1889)
• Public Health, PhD: Biostatistics (p. 1881)
• Public Health, PhD: Community and Behavioral Health Promotion (p. 1884)

PH 101 Introduction to Public Health
3 cr. Undergraduate.
Introduction to history, science and philosophy of Public Health including scientific research, policy development and health education.
Prerequisites: none.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

PH 142 Exploring Global Environmental Health
3 cr. Undergraduate.
Introduction to the sciences underpinning the study and response to infectious, chemical, and physical environmental threats to human health within a global public health framework.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

PH 201 Public Health from Cells to Society I
3 cr. Undergraduate.
Introduces public health as a holistic interdisciplinary field spanning cell to society. Emphasizes active learning about current public health problems from multilevel and lifecourse perspectives.
Prerequisites: Prerequisites: PH 101(P) or PH 142(P), BioSci 102(C).
Current Offerings: http://uwm.edu/schedule
PH 202 Public Health from Cells to Society II
3 cr. Undergraduate.
Introduces multilevel societal drivers of health inequities over the lifespan. Actively explores how social inequality gets under the skin to influence current public health problems.
Prerequisites: PH 201(P); Kin 270(R) or MthStat 215(R).
Current Offerings: http://uwm.edu/schedule

PH 206 Child and Adolescent Health
3 cr. Undergraduate.
Review evidence-based child and adolescent health promotion in school, community, and clinical settings; Adolescent risk behaviors of special interest.
Prerequisites: none.
Last Taught: Spring 2012.
Current Offerings: http://uwm.edu/schedule

PH 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

PH 302 Health and Disease: Concepts and Contexts
3 cr. Undergraduate.
Concepts of health and disease across social, historical, political, and cultural contexts, with particular attention to the workings of race, gender, and sexuality.
Prerequisites: jr st & satisfaction of OWC-B.
Current Offerings: http://uwm.edu/schedule

PH 303 Climate Change, the Environment and Human Health
3 cr. Undergraduate.
Acquire knowledge about and be able to identify ways in which climate change adversely affects human health globally, nationally and locally.
Prerequisites: soph st; or cons instr.
General Education Requirements: NS
Last Taught: Fall 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

PH 306 Adolescent Health & Development
3 cr. Undergraduate.
A public health perspective on adolescent development and health/mental health promotion Readings, assignments and activities focus on drug use, sexuality, obesity, trauma, depression and violence.
Prerequisites: Psych 101(P) or PH 101(P) or cons instr.
General Education Requirements: SS
Last Taught: Spring 2016.
Current Offerings: http://uwm.edu/schedule

PH 319 Introduction to Health Disparities
3 cr. Undergraduate.
An introduction to health inequalities as they pertain to racial and ethnic populations in the U.S. and an overview of key determinants of population health.
Prerequisites: none.
Last Taught: Spring 2012.
Current Offerings: http://uwm.edu/schedule

PH 327 Foundations for Action in Public Health
3 cr. Undergraduate.
History, perspectives, and theoretical foundations of taking action and making change in public health and related disciplines.
Prerequisites: sophomore standing; PH 101(P); satisfaction of GER OWC Part A.
Current Offerings: http://uwm.edu/schedule

PH 345 Green fish, green worms & more: animal models and their applications
3 cr. Undergraduate.
An introduction to the field of applied public health biology where animal models are being utilized to determine how environmental contaminants influence human health.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

PH 346 Environmental Health and Disease
3 cr. Undergraduate.
Investigates how the environment and/or environmental factors impact human health and population health with an emphasis on the developmental origins of disease.
Prerequisites: Bio Sci 102(P) & PH 142(P).
Current Offerings: http://uwm.edu/schedule

PH 355 Public Health Research Methods I
3 cr. Undergraduate.
Introduction to public health qualitative and quantitative research methods and considerations for conducting ethical public health research.
Prerequisites: KIN 270(P) or MthStat 215(P); HCA 307(P).
Current Offerings: http://uwm.edu/schedule

PH 375 Topics in Public Health for Undergrads:
3 cr. Undergraduate.
Topics of current interest in Public Health for undergrads.
Prerequisites: none.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

PH 408 Comparative Health Systems: A Social Determinants Approach
3 cr. Undergraduate.
Building on a conceptual foundation and diverse examples, introduces the US and international healthcare systems, and their role in improving population health and health equity.
Prerequisites: jr st & POL SCI 103(P), 104(P), 175(P), or 210(P).
Current Offerings: http://uwm.edu/schedule

PH 410 True Lies: Consuming and Communicating Quantitative Information
3 cr. Undergraduate.
Develops quantitative critical thinking skills, from elementary statistics to causal inference and data visualization. Examines how data are used in health-related sciences and mass-media reports.
Prerequisites: Kin 270(P) or MthStat 215(P).
Current Offerings: http://uwm.edu/schedule
PH 427 Strategies for Action in Public Health
3 cr. Undergraduate.
In-depth study of assessment and planning methods, theory application, and interdisciplinary community-engaged approaches and strategies for taking action to promote population health and health equity.
Prerequisites: PH 327(P) & satisfaction of OWC-B.
Current Offerings: http://uwm.edu/schedule

PH 428 Program Implementation & Evaluation for a Healthy Society
3 cr. Undergraduate.
Introduces concepts and methods for developing strategies of implementation and evaluation of health programs. Fundamental knowledge and skills for implementing and evaluating health promotion programs.
Prerequisites: PH 427(P).
Current Offerings: http://uwm.edu/schedule

PH 455 Public Health Research Methods II
3 cr. Undergraduate.
Application of qualitative and quantitative methods, interpretation of findings, and communication of results in public health research.
Prerequisites: PH 355(P).
Current Offerings: http://uwm.edu/schedule

PH 467 History of Scientific Reasoning in Global Public Health and Epidemiology
3 cr. Undergraduate.
Introduction to the historical development of public health and epidemiology, and how historical and social contexts shape scientific theories of disease distribution and determinants.
Prerequisites: HCA 307(P).
Current Offerings: http://uwm.edu/schedule

PH 478 Public Health Research Using Social Media
3 cr. Undergraduate.
Hands-on research and discussion seminar in which students examine a selected issue tied to social media and public health.
Prerequisites: PH 455(P).
Current Offerings: http://uwm.edu/schedule

PH 699 Independent Study
1-3 cr. Undergraduate.
Independent study on a topic not available as a regular course.
Prerequisites: cons instr.
Last Taught: Spring 2016, Spring 2015, Fall 2012.
Current Offerings: http://uwm.edu/schedule

PH 700 Structures of Inequality and Population Health
3 cr. Graduate.
Foundations of public health, critical social theory, and social justice praxis, which provide essential interdisciplinary tools for analyzing sociostructural processes and advancing social and health equity.
Prerequisites: grad st
Last Taught: Fall 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

PH 701 Public Health Principles and Practice
3 cr. Graduate.
Examination of fundamental principles designed to improve the health of the public, public health theories, domains, and practices.
Prerequisites: PH 327(P) & satisfaction of OWC-B.
Last Taught: Fall 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

PH 702 Introduction to Biostatistics
3 cr. Graduate.
Development and application of statistical reasoning and methods in addressing, analyzing, and solving problems in public health. Includes lab section with introduction to SAS, including macros and core statistical analysis functions.
Prerequisites: grad st; Math 116 with B or better, or equivalent, or cons instr
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PH 703 Environmental Health Sciences
3 cr. Graduate.
Survey of effects environment has on humans, and effects humans have on environment, emphasis on toxicology and infectious disease.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

PH 704 Principles and Methods of Epidemiology
3 cr. Graduate.
Quantitative study of patterns and determinants of health in human populations applying biomedical and social epidemiology perspectives. Problem-based lab includes surveillance, measurement, study design, and causal inference applications.
Prerequisites: grad st; PH 702(C) or cons instr
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PH 705 Principles of Public Health Policy and Administration
3 cr. Graduate.
The role of policy in influencing population health, policies that promote public health, the policymaking process, and the planning and administration of health systems.
Prerequisites: grad st; PH 704(R)
Current Offerings: http://uwm.edu/schedule

PH 706 Perspectives on Community & Behavioral Health
3 cr. Graduate.
Philosophical underpinnings, conceptual frameworks, and strategies for the application of behavioral and social science concepts to the goals of public health. Prereq: grad st
Prerequisites: cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PH 707 Introduction to Statistical Computing
1 cr. Graduate.
Introduction to statistical methods as implemented in SAS, including macros and core statistical analysis functions.
Prerequisites: grad st; PH 702(C) or cons instr
Last Taught: Spring 2015, Fall 2013, Fall 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule
PH 708 Health Systems and Population Health  
3 cr. Graduate.  
Using fundamental concepts of health systems design, international comparisons, and case studies, this course demonstrates strategies through which health systems could improve health and reduce inequities by addressing social vulnerabilities.  
Prerequisites: grad st  
Last Taught: Spring 2018.  
Current Offerings: http://uwm.edu/schedule

PH 709 Public Health Informatics  
3 cr. Graduate.  
Overview of the rapidly emerging and evolving field of public health informatics - active learning and exposure to new and relevant public health informatics methods, applications, and tools.  
Prerequisites: grad st  
Last Taught: Spring 2016.  
Current Offerings: http://uwm.edu/schedule

PH 711 Intermediate Biostatistics  
3 cr. Graduate.  
Introduction to modern multivariable statistical analysis, based on generalized linear models. Topics include linear regression, logistic regression, one-way and two-way ANOVA, longitudinal analysis, missing data, and mixed models.  
Prerequisites: grad st; PH 702(P) or cons instr  
Current Offerings: http://uwm.edu/schedule

PH 712 Probability and Statistical Inference  
3 cr. Graduate.  
Introductory graduate-level course that provides students with a mathematical treatment and understanding of key concepts in probability and distribution theory and statistical inference, and their applications in public health.  
Prerequisites: grad st; Math 231 (P) & 232 (P) or equivalent, or cons instr  
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.  
Current Offerings: http://uwm.edu/schedule

PH 713 Analyzing Observational and Experimental Data  
3 cr. Graduate.  
Analyze data from both experiments and observational studies within a causal inference framework as it applies to public health. Covers randomization, confounding, blocking, ANOVA, counterfactuals, selection bias, and measurement error.  
Prerequisites: grad st; PH 704(C), PH 711 (C) or PH 759 (C) or cons instr  
Current Offerings: http://uwm.edu/schedule

PH 714 Statistical Genetics and Genetic Epidemiology  
3 cr. Graduate.  
Introduction to statistical methods for the analysis of family and population based genetic data, including methods can be used in linkage analysis, family-based and population-based association studies.  
Prerequisites: grad st; PH 702(P) and PH 711(P) or cons instr  
Last Taught: Fall 2015.  
Current Offerings: http://uwm.edu/schedule

PH 715 Applied Categorical Data  
3 cr. Graduate.  
Data analysis techniques for various kinds of categorical data for public health related examples using SAS.  
Prerequisites: grad st; PH 711(P) and PH 712(P) or cons instr  
Last Taught: Fall 2017, Fall 2015.  
Current Offerings: http://uwm.edu/schedule

PH 716 Applied Survival Analysis  
3 cr. Graduate.  
This course covers basic concepts and techniques in the statistical analysis of survival data.  
Prerequisites: Grad St; PH711(P) (or PH759(P)) and PH712(P); or consent of instructor.  
Last Taught: Spring 2018.  
Current Offerings: http://uwm.edu/schedule

PH 717 Applied Longitudinal Data Analysis  
3 cr. Graduate.  
This course will cover data analysis techniques for longitudinal data with focus on application in public health with related examples using SAS.  
Prerequisites: PH 711 and PH 712; cons instr.  
Last Taught: Fall 2016, Spring 2016.  
Current Offerings: http://uwm.edu/schedule

PH 718 Data Management and Visualization in R  
3 cr. Graduate.  
This course covers basic concepts and techniques for statistical programming with the R computing language.  
Prerequisites: PH711; cons instr.  
Current Offerings: http://uwm.edu/schedule

PH 719 Social Justice in Public Health  
3 cr. Graduate.  
This course is designed to introduce you to the major social variables (e.g., socioeconomic status, race, poverty, social support, neighborhood environment) that affect public health.  
Prerequisites: grad st  
Current Offerings: http://uwm.edu/schedule

PH 720 Special Topics in Biostatistics:  
1-3 cr. Graduate.  
Survey of an area in Biostatistics. Specific credits and add'l prereqs announced in Schedule of Classes each time course is offered.  
Prerequisites: grad st  
Course Rules: Retakable w/chg in topic to 9 cr max.  
Last Taught: Fall 2017, Fall 2016, Fall 2015.  
Current Offerings: http://uwm.edu/schedule

PH 721 Introduction to Translational Bioinformatics  
3 cr. Graduate.  
Review bioinformatics knowledge and analytical skills, high-throughput technologies that produce various omic data, along with the methodologies to analyze and interpret different layers of information.  
Prerequisites: grad st; PH 711(P) or cons instr  
Current Offerings: http://uwm.edu/schedule
PH 723 Design, Conduct and Analysis of Clinical Trials
3 cr. Graduate.
Introduction to the design, conduct and analysis of phase I-IV clinical trials, with an emphasis on phase III trials and ethical issues in clinical research.
Prerequisites: grad st; PH 711 (P), or cons instr
Current Offerings: http://uwm.edu/schedule

PH 725 Theories and Models of Health Behavior
3 cr. Graduate.
Examine theories of health behavior targeted to each level of the social ecological model, including historical and public health context. Assess utility of these theories in various domains.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

PH 726 Community Health Assessment
3 cr. Graduate.
Introduction to the concepts and techniques of community health assessment, conducting and critically analyzing community assessments.
Prerequisites: grad st; PH 701(P) or cons instr
Current Offerings: http://uwm.edu/schedule

PH 727 Program Planning & Implementation in Public Health
3 cr. Graduate.
Systematic approach to planning and implementing public health programs, examining program monitoring, methods of impact assessment, and measuring efficiency.
Prerequisites: grad st
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PH 728 Program Evaluation in Public Health
3 cr. Graduate.
Students design and present research and evaluation plans, receive guidance on developing conceptual frameworks and hypotheses, collecting and analyzing data, and developing program evaluation plans.
Prerequisites: grad st; PH 702(P) or cons inst
Current Offerings: http://uwm.edu/schedule

PH 729 Survey Research Methods in Public Health
3 cr. Graduate.
The application of survey methods with emphases on sampling, survey design and planning, and data collection procedures.
Prerequisites: grad st; PH 702(P) or cons inst
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PH 732 Youth Mental Health Practice for Non Mental Health Professionals
3 cr. Graduate.
Examination of mental health principles and practices from a public health professional’s perspective, including ethical guidelines, necessary interpersonal skills, and mental health screenings and referrals to services.
Prerequisites: grad st
Last Taught: Summer 2012.
Current Offerings: http://uwm.edu/schedule

PH 740 Special Topics in Public Health:
3 cr. Graduate.
Topics of current interest in public health.
Prerequisites: grad st.
Course Rules: May be repeated w/ chg in topic to 9 cr max.
Last Taught: Fall 2016, Spring 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

PH 741 Environmental Public Health Microbiology
3 cr. Graduate.
Environmental health microbiology is the study of microbial processes in water, land, and food that affect human health.
Prerequisites: grad st; completed minimum of one undergraduate microbiology course.
Last Taught: Fall 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PH 743 Environmental Risk Assessment
3 cr. Graduate.
Risk assessment practices from an environmental health perspective, complexities and challenges of regulation, management, and mitigation of risks for both human and ecosystem health.
Prerequisites: grad st; PH 702(P) & PH 703 (P) or cons instr
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PH 744 Environmental Toxicology
3 cr. Graduate.
This course will cover the occurrence, fate and transport, and toxic action of natural and synthetic chemicals encountered in the air, water, and soil.
Prerequisites: grad st; CHEM 100 (or equivalent) with B or better, and BIO SCI 150 (or equivalent) with B or better, or cons instr
Current Offerings: http://uwm.edu/schedule

PH 745 Developmental Toxicology
3 cr. Graduate.
An introduction to the field of developmental toxicology and how environmental contaminants influence vertebrate development, including humans.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PH 750 Seminar in Environmental Health Sciences
1-3 cr. Graduate.
Survey of an area in environmental health. Specific credits and add'l prereqs announced in Schedule of Classes each time course offered. Retakable w/chg in topic to 9 cr max.
Prerequisites: May be repeated w/ chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

PH 752 Public Health and Mental Health
3 cr. Graduate.
Understanding mental health and mental illness from a public health perspective; designed for an interdisciplinary audience of students, researchers and practitioners.
Prerequisites: grad st.
Last Taught: Fall 2017, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule
PH 758 Social Epidemiology
3 cr. Graduate.
Foundations of social epidemiology, including key concepts, theoretical frameworks, and methods for studying social and structural determinants of population health and health inequity.
Prerequisites: grad st; PH 700(P), PH 702(P), and PH 704(P); or cons instr
Last Taught: Fall 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

PH 759 Intro to Regression for Understanding the SDOH
3 cr. Graduate.
Using STATA on real data to build regression models, perform diagnostics, and interpret results. Utilize social theory to put results into context.
Prerequisites: grad st; PH 700(P), PH 702(P), PH 704(P), or cons instr.
Current Offerings: http://uwm.edu/schedule

PH 761 Epidemiology Field Methods
3 cr. Graduate.
Prepares students to conduct epidemiologic field studies. Introduction of reviewing literature, designing questionnaires, developing surveillance systems, conducting emergency outbreak investigations, applying for IRB approval, and public relations.
Prerequisites: grad st; PH 700(P), 702(P), and PH 704 (P) or cons instr
Current Offerings: http://uwm.edu/schedule

PH 762 Environmental Epidemiology
3 cr. Graduate.
Expands upon basic epidemiological principles to tackle current problems in studies of health impacts of contaminants in air, water, food supply, consumer products, and indoor spaces, emphasizing a cross-disciplinary approach.
Prerequisites: grad st; PH 703(C) and PH 704(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

PH 763 Epidemiology for Equity
3 cr. Graduate.
Students will integrate epidemiology methods with the principles, methods, and skills of participatory action research aimed at structural change to promote social and/or environmental justice and health equity.
Prerequisites: grad st; PH 700(P), 702(P), PH 704(P), and PH 790 (C); or consent of instructor
Current Offerings: http://uwm.edu/schedule

PH 768 Cancer Epidemiology
3 cr. Graduate.
The course will provide an introduction to cancer epidemiology and prevention evaluating methods to study cancer etiology and survival with a particular focus on understanding cancer disparities.
Prerequisites: grad st; PH 702(P) and PH 704(P); or cons instr grad st; PH 702(P) and PH 704(P); or cons instr.
Last Taught: Fall 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PH 769 Critical Perspectives on Nutritional Epidemiology and the Food System
3 cr. Graduate.
This course offers a synthesis of nutritional epidemiological methods and food systems perspectives to build students critical understanding of diets, nutrition, and their public health implications.
Prerequisites: grad st; PH702(P), PH704(P), and PH705(P); or consent of instructor
Current Offerings: http://uwm.edu/schedule

PH 771 Violence and Health
3 cr. Graduate.
This course examines relationships between violence and health from an interdisciplinary perspective in order to develop analytical, practical, and self-reflexive skills for intervening in violence and promoting health equity.
Prerequisites: grad st
Last Taught: Spring 2017.
Current Offerings: http://uwm.edu/schedule

PH 774 Violence and Health
2 cr. Graduate.
Molecular and cellular means by which microorganisms facilitate infection, withstand or evade immune response, induce damage to host, and ensure transmission to human populations.
Prerequisites: grad st; Ic & la course in medical microbiology
Course Rules: C L Sci 775 & PH 775 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2016, Spring 2014.
Current Offerings: http://uwm.edu/schedule

PH 775 Mechanisms of Infectious Disease
3 cr. Graduate.
Explores the molecular and cellular mechanisms by which microorganisms facilitate infection, evade immune response, induce damage to host, and ensure transmission to human populations.
Prerequisites: grad st; PH 700(P), 702(P), and PH 704 (P) or cons instr
Last Taught: Spring 2016, Spring 2015.
Current Offerings: http://uwm.edu/schedule

PH 776 Qualitative Approaches in Public Health Policy and Administration
3 cr. Graduate.
Introduces students to foundational approaches to qualitative research for use in public health policy & administration. It provides opportunities to practice foundational data collection, research analysis, reflexivity, & research design skills.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

PH 777 Quantitative Research Methods for PH Policy & Administration
3 cr. Graduate.
Introduces quantitative methods commonly used in public health policy and administration decision-making, skills to analyze quantitative research and to apply knowledge generated from research to the public health policy and administration context.
Prerequisites: grad st; PH 702(P) or cons instr
Current Offerings: http://uwm.edu/schedule

PH 779 Public Health Policymaking and Policy Analysis
3 cr. Graduate.
Introduces students to key frameworks for public health policymaking and policy analysis. Students apply concepts to a real world public health problem of their choice.
Prerequisites: grad st; PH705(P) or MSP760(P) or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule
PH 780 Seminar in Public Health Policy and Administration
1-3 cr. Graduate.
Survey of an area in Public Health Policy and Administration. Specific credits and add'l prereqs announced in Schedule of Classes each time course offered.
Prerequisites: grad st
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

PH 781 Public Health Administration
3 cr. Graduate.
This course introduces basic concepts, best-practice leadership, and management principles with the emphasis on organizational behavior in public health settings.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

PH 784 Social and Economic Policy as Health Policy
3 cr. Graduate.
This course examines how social and economic policies, including education, income re-distribution, and housing shape population health. A broad overview of the social determinants of health is introduced/reviewed and current knowledge of the impact.
Prerequisites: grad st; a course covering multiple regression, including PH 711(P), PH 759(P), or cons inst.
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

PH 785 Principles of Public Health Economics
3 cr. Graduate.
The course introduces the application of microeconomic theories and models to explain major topics and trends in public health and health care settings.
Prerequisites: grad st. or cons instr
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

PH 790 Field Experience in Public Health
1-6 cr. Graduate.
Apply skills learned in the classroom to real world public health problems in a mentored field placement, engaging both faculty and site preceptors.
Prerequisites: grad st; PH 701(P), PH 702(P), PH 703(P), PH 704(P), PH 705(P), PH 706(P), and PH 707(P) or cons inst
Current Offerings: http://uwm.edu/schedule

PH 800 Capstone in Public Health
2 cr. Graduate.
Application of acquired public health knowledge, experience and competencies in developing a public health project that demonstrates readiness for professional practice. Satisfactory/Unsatisfactory only.
Prerequisites: grad st; PH 790(P) or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

PH 801 Seminar in Public Health Research
3 cr. Graduate.
Immersion in interdisciplinary collaborative approaches to public health research.
Prerequisites: grad st; 1 course in stats/biostats and 1 course in research methods; or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

PH 804 Advanced Epidemiology
3 cr. Graduate.
Advanced training in epidemiological concepts, principles and methods in the context of population health and health equity.
Prerequisites: grad st; PH758, PH823, or cons instr
Last Taught: Spring 2017.
Current Offerings: http://uwm.edu/schedule

PH 808 Writing a Federal Grant in the Public Health Sciences
3 cr. Graduate.
This course is designed to provide students a hands-on experience with all aspects of preparation of a hypothesis driven grant application to a federal agency such as the NIH or NSF.
Prerequisites: grad st. admis to a PhD program.
Current Offerings: http://uwm.edu/schedule

PH 811 Causal Inference
3 cr. Graduate.
This course will cover a variety of approaches to define and estimate causal effects, as well as the sensitivity analysis for both clinical trial and observational studies.
Prerequisites: grad st; Mthstat 762(C) or PH 911 (C) or cons instr
Current Offerings: http://uwm.edu/schedule

PH 812 Statistical Learning & Data Mining
3 cr. Graduate.
Analysis of data using modern data mining technique.
Prerequisites: Grad st; MathStat 761 and PH 718; or consent of instructor
Current Offerings: http://uwm.edu/schedule

PH 813 Practice of Biostatistical Consulting
3 cr. Graduate.
This course teaches the elements of statistical consulting, appropriate statistical analysis approaches, and how to interpret findings and effectively communicate with clients.
Prerequisites: grad st; PH 711, PH 713, & PH 718; or cons instr.
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

PH 818 Statistical Computing
3 cr. Graduate.
This course will cover the theory and application of common algorithms used in statistical computing.
Prerequisites: grad st; PH 711(P), MthStat 762(P), and PH 718(P) or cons inst.
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule
PH 819 Social and Environmental Justice in Public Health  
3 cr. Graduate.  
Social and environmental justice perspective on public health problems and concerns.  
Prerequisites: grad st  
Course Rules: Jointly offered w/ & counts as a repeat of Soc Wrk 819.  
Last Taught: Spring 2014, Spring 2013, Fall 2010, Fall 2009.  
Current Offerings: http://uwm.edu/schedule

PH 820 Maternal and Child Health Foundations, Policy and Practice  
3 cr. Graduate.  
The foundations of MCH, historical context, financing, challenges, and opportunities in advancing MCH at state, national and international level including the integration of men.  
Prerequisites: grad st; PH 702(P), 704(P) or cons instr  
Last Taught: Fall 2017, Fall 2015, Fall 2014, Fall 2013.  
Current Offerings: http://uwm.edu/schedule

PH 823 Applied Analysis of Binary Outcomes in Public Health Research  
3 cr. Graduate.  
Apply principles of epidemiology, statistics, and study design in analyzing a public health dataset of choice, covering confounding, modification, bias, missing data, and interpretation in light of limitations.  
Prerequisites: PH702 (P), PH 704(P), and doctoral standing; or consent of instructor.  
Last Taught: Fall 2017.  
Current Offerings: http://uwm.edu/schedule

PH 825 Social and Behavioral Science in Public Health  
3 cr. Graduate.  
Overview of the contribution and use of social and behavioral sciences approaches in public health research, policy, planning/evaluation, practice, and interventions.  
Prerequisites: grad st  
Last Taught: Fall 2013, Fall 2012.  
Current Offerings: http://uwm.edu/schedule

PH 826 Principles of Community Intervention Research  
3 cr. Graduate.  
Seminar covering classics in community-based public health research and the development of conceptual and methodological skills in community engagement.  
Prerequisites: grad st.  
Course Rules: Counts a repeat of PH 740 with similar topic.  
Last Taught: Fall 2017, Fall 2015.  
Current Offerings: http://uwm.edu/schedule

PH 827 Research Design in Community and Behavioral Health Promotion  
3 cr. Graduate.  
Examination of experimental, quasi-experimental, and nonexperimental study designs, focus groups, and coding with qualitative software.  
Prerequisites: grad st; admis to doctoral prog. PH 801(P) & 702(P) or cons instr.  
Current Offerings: http://uwm.edu/schedule

PH 831 Community Engagement and Participatory Research Approaches in Public Health  
3 cr. Graduate.  
Effective approaches to engaging communities in health interventions and addressing health disparities.  
Prerequisites: grad st.  
Current Offerings: http://uwm.edu/schedule

PH 859 Racial/Ethnic Health Disparities in the United States  
3 cr. Graduate.  
The course will analyze studies of racial/ethnic health disparities, with a focus to include multi-level and temporal perspectives to better understand the social context in which the determinants of racial/ethnic health are embedded.  
Prerequisites: grad st; a course covering multiple regression, including PH 711(P), PH 759(P), or cons inst.  
Course Rules: Counts as repeat of PH 740 w/similar topic.  
Current Offerings: http://uwm.edu/schedule

PH 864 Research Ethics in Epidemiology and Public Health  
3 cr. Graduate.  
Training in research ethics and ethical analysis in the context of public health and epidemiology research. Covers all topics outlined in the NIHs Responsible Conduct of Research Training.  
Prerequisites: grad st; PH801, PH704, or cons instr  
Current Offerings: http://uwm.edu/schedule

PH 865 Critical Methodologies for Health Equity Research  
3 cr. Graduate.  
Analyzes interdisciplinary critical methodologies for researching health inequities across diverse axes of power and considers how to integrate these methodologies into epidemiologic and public health research to advance health equity.  
Prerequisites: grad st; PH 700(P), and PH 758(P) or PH 859(P), or cons instr  
Current Offerings: http://uwm.edu/schedule

PH 866 Epidemiologic Links Between Infectious and Chronic Disease  
3 cr. Graduate.  
Discussion of social patterning of infection, epidemiologic and physiologic links between infections and chronic disease, and methodological considerations in the evaluation of such associations.  
Prerequisites: grad st; PH702(P), PH704(P), and PH759(P) or PH711(P); or consent of instructor  
Last Taught: Spring 2018.  
Current Offerings: http://uwm.edu/schedule

PH 870 Epidemiology in Health Policy and Advocacy  
3 cr. Graduate.  
Using epidemiologic evidence to inform public health policy, through engagement with the policy process, communication with policymakers, and evidence-based appraisal of policy alternatives and advocacy for sound policy.  
Prerequisites: grad st; PH 779(P), PH804; or cons instr  
Current Offerings: http://uwm.edu/schedule
PH 904 Survey of Analytic Methods for Epidemiology
3 cr. Graduate.
Survey of advanced analytic approaches to the conduct of epidemiologic
research in the pursuit of causal inference.
Prerequisites: grad st, PH 804 or permission of instructor.
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

PH 911 Generalized Linear Models
3 cr. Graduate.
This course will cover theory of advanced biostatistics models with
focus on generalized linear models and will also cover generalized
estimating equation, generalized linear mixed models. We will emphasize
implementation in R.
Prerequisites: grad st; PH 711(P), MthStat 762(P), and PH 718(P) or cons
instr.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

PH 919 Core Seminar in Community and Behavioral Health Promotion
1-3 cr. Graduate.
These seminars are intended as professional development to prepare
students for successful careers in the area of Community and Health
Behavior Promotion.
Prerequisites: Grad St
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

PH 960 Core Doctoral Seminar in Epidemiology
3 cr. Graduate.
This advanced doctoral seminar discusses practical aspects of an
epidemiology career, from developing a research question and study, to
managing a grant, writing results and reporting results to the press.
Prerequisites: grad st; PH 758 (P), PH 823 (P), PH 779 (P) and PH 801(P),
or cons instr
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

PH 990 Research and Dissertation
1-8 cr. Graduate.
Original research in any public health discipline
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

PH 999 Independent Study
1-3 cr. Graduate.
Independent study on a topic not available as a regular course, directed
by a member of the graduate faculty.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

ENVIRONMENTAL HEALTH SCIENCES, PHD

The program in Environmental Health Sciences offers graduate studies leading to the doctoral degree. Faculty for this program have a diverse expertise in the environmental health sciences spanning a broad range of research domains including developmental toxicology, environmental toxicology and chemistry, and environmental epidemiology. The EHS program through its faculty, offers students an unparalleled opportunity for cross-disciplinary training in pursuit of original and cutting-edge dissertation research projects. In addition, laboratories and equipment are available across campus to help facilitate innovative research endeavors relevant to environmental health science.

When applying for admission, students should describe their interest in the field and any research preferences. Applicants are encouraged to review the research interests of the faculty and contact those faculty who are of interest.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Applicants must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus the following program requirements to be considered for admission:

- A baccalaureate degree in a science discipline, including at least four laboratory courses and one statistics course.
- Submission of scores on the General Test portion of the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre); test taken within last five years.
- Submission of at least three letters of recommendation from persons familiar with the applicant’s scholarship, research achievements and potential.

For students entering with an advanced degree, credit may be given for relevant coursework at the discretion of the Admissions Committee.

Reapplication
A student who receives the Master of Public Health degree must formally reapply to the Zilber School of Public Health to gain admission to the PhD program in Public Health before continuing studies toward the PhD.

Credits and Courses

The PhD in Environmental Health Sciences requires 65 credits beyond the bachelor’s degree. In addition to the PhD Common Core Coursework, credits include required concentration coursework (17 credits), electives (at least 12 credits), and the remaining credits taken as research.

| Electives (see table below) | 12 |
| Research                   | 24 |
| Total Credits              | 65 |

Electives are divided into three categories (molecular, organismal, and population/environment). It is recommended that the student take courses relevant to their research in consultation with the major professor. As the Zilber School’s programmatic offerings grow and diversity, additional PH courses may be approved by the EHS faculty for inclusion as potential elective options.

Program Requirements

Major Professor as Advisor

As specified in Graduate School regulations, each student in the EHS PhD program must have a major professor to advise and supervise his or her studies. Upon admission, the student is assigned a temporary advisor; however, a permanent advisor must be selected during the spring of the first year of study. The major professor serves as the student's research mentor and will guide the student in course selection and research design. During the spring of the first year in the program, the student should form an academic advisory committee which is to consist of the student's advisor and two faculty members from within the Joseph J. Zilber School of Public Health.

Residence

The student must complete 8 to 12 graduate credits in each of two consecutive semesters, or 6 or more graduate credits in each of three consecutive semesters, exclusive of summer sessions. Residence requirements cannot be met at the master's level.

PhD Advisory Committee

The student, in consultation with the Major Professor, will select four additional members to form a PhD Advisory Committee. A minimum of three committee members must be EHS program faculty. See the Graduate School Doctoral Requirements (http://uwm.edu/graduateschool/doctoral-requirements) page for more information on the doctoral committee.

Doctoral Qualifying Exam

During the end of the second semester of enrollment, the student is required to pass a brief qualifying exam. The duration of this exam is to be no longer than 90 minutes. The student will give an oral synopsis/self-evaluation of his/her first year in the program describing highlights from his/her coursework. The academic advisory committee will evaluate if the student has demonstrated a knowledge base in Public Health that was to be firmly established in the first year of coursework. The academic advisory committee in conjunction with the student will also map out the remaining coursework that needs to be completed by the end of the third year of the program. Students failing this important first exam will not be allowed to continue in the program and will forfeit their TAship, PAship, or RAship if applicable.

Doctoral Preliminary Examination

This examination must be taken no later than the end of the third year of study. In order to take the preliminary exam, all formal coursework must be completed with a cumulative GPA of 3.0 or higher. The preliminary examination consists of both written and oral components. The oral portion of the examination is broken into two subparts. The (proposal phase) will consist of the student presenting his/her dissertation proposal to the examining committee. In the "General Public Health Knowledge Phase" of the preliminary examination, the student will be evaluated (via oral questioning) by the academic advisory /doctoral advisory committee to determine if the student has truly acquired Public Health competencies which should have been acquired by completion of the formal coursework in the EHS PhD program. A student who fails the doctoral preliminary examination will be dismissed from the program.

Dissertator Status

Specific requirements which must be completed before a doctoral student qualifies for dissertator status are described on the Graduate School Doctoral Requirements page.

Dissertation

Doctoral students should be aware that the research component is extremely important and requires significant time allocation. A full-time commitment is required to complete this critical component of the degree. Successful doctoral students in our EHS program should anticipate working long hours, including on weekends, winter intersession and summer months. Students are also expected to enroll in, and successfully complete research credit. Six or more of these research credits must be obtained at the level of dissertator.

All successful doctoral students must prepare and successfully defend a dissertation reporting the results of their research. A full time student who does not pass the dissertation defense within six years of admission may be required to take another preliminary examination and be readmitted to the program.

Time Limit

The student must complete all requirements for the degree within 10 years of the date of initial enrollment in the program.
EPIDEMIOLOGY, PHD

The PhD program in epidemiology prepares graduates for many career paths, including academia, non-governmental organizations, and public service at all levels of local, national, and international government.

Through rigorous theoretical and methodological training, students learn to conduct independent research that examines the distribution and determinants of health, and to translate their findings to public health policy and strategies to promote population health. The program encourages applicants from diverse backgrounds, with a clearly communicated interest in epidemiology and in promoting health equity.

This program also meets requirements outlined by the national Council on Education for Public Health (CEPH).

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Applicants must meet Graduate School requirements plus these departmental requirements to be considered for admission to the program:

1. Submission of scores from the Graduate Record Examination (GRE), taken within 5 years of the date of application. While there is not a minimum GRE score requirement, strong quantitative, verbal and writing skills are critical to successfully completing the program.
2. Three letters of recommendation are required. At least one letter must be from a university faculty member.

Recommended:

- Applicants should have an earned bachelor’s degree in any field with a cumulative undergraduate GPA of 3.0 or higher.
- A completed Master’s degree in Epidemiology, public health or the social sciences is encouraged, but not required.
- At least one undergraduate mathematics or statistics course and one biological sciences course with a 3.0 is preferred.

Reapplication
A student who receives the Master of Public Health degree must formally reapply to the Zilber School of Public Health to gain admission to the PhD program in Public Health before continuing studies toward the PhD.

Credits and Courses

The curriculum consists of 75 credits to degree completion beyond the bachelor’s degree – 66 credits of didactic coursework and 9 credits toward dissertation writing and research. Students will take 24 credits of coursework to introduce them to the principles of Epidemiology, Biostatistics, public health policy and community engagement. They will take 6 credits of ‘selective’ coursework in subject matter areas, 6 credits of coursework in more advanced analytic methods, and 3 credits of an elective in an area that aligns with their research interests. They will also take 9 credits of advanced coursework in both theoretical and applied epidemiology, in addition to 6 credits in more advanced policy analysis and translation of epidemiologic findings to policy-interventions.

Additionally, students will take 12 credits of PhD-level coursework in research ethics, community-engagement, and a seminar in current issues in epidemiology. Students may apply previous graduate course work towards didactic credits, contingent on assessment of course equivalencies, in accordance with UW-Milwaukee policies.

Required Epidemiology Subject Matter “S” Elective
Select two courses from the following:

- PH 768 Cancer Epidemiology
- PH 769 Critical Perspectives on Nutritional Epidemiology and the Food System
- PH 762 Environmental Epidemiology
- PH 868 Epidemiologic Links Between Infectious and Chronic Disease
- PH 865 Critical Methodologies for Health Equity Research

Analytic Methods Electives
Select two courses from the following; other classes as approved:

- PH 712 Probability and Statistical Inference
- PH 714 Statistical Genetics and Genetic Epidemiology
- PH 715 Applied Categorical Data
- PH 716 Applied Survival Analysis
- PH 717 Applied Longitudinal Data Analysis
- PH 718 Data Management and Visualization in R
Preliminary Examination Committee will select the research articles and create the exam. The questions will assess several PhD program competencies and will require students to integrate content related to 1) epidemiologic concepts and methods, 2) data analysis methods and applications to epidemiologic research, 3) applications of theory, social and environmental justice, health equity, and community engagement to epidemiologic research, and 4) policy implications of epidemiologic research. The examining committee will grade the exam and assign either a pass, conditional pass, or fail. For a conditional pass, the examining committee will determine options for remediation including but not limited to an oral presentation or re-write of certain questions. At the discretion of the examining committee, a student who fails the preliminary exam may be allowed one additional attempt with all or part of the examination.

Dissertation Proposal
The student, in consultation with the Major Professor, will select members to form a PhD Advisory Committee. See the Zilber School of Public Health Graduate Student Handbook and the Graduate School Doctoral Requirements page for more information on the doctoral committee. The dissertation research plan should include an abstract, background, outline of specific aims and hypotheses, (articulated as three distinct but related research questions), preliminary findings (if applicable), research methods proposed, public health significance of the proposed research and references. The composition of the dissertation committee must be in compliance with the rules and regulations of the Graduate School. The candidate then submits a written dissertation plan to be reviewed and formally approved by the dissertation advisory committee. The research plan must clearly outline the student's obligation for completing an original piece of work of sufficient quality, as determined by the committee. The review and approval process for the dissertation research plan will include a formal presentation to the committee.

Dissertation Defense
Upon approval of the dissertation proposal, students will proceed with an original and significant research investigation under the supervision of their major professor, culminating in a written dissertation.

The dissertation must, as the final step toward the degree, pass an oral examination in defense of the dissertation. The dissertation defense will be publicly announced and open to the academic community. Once the defense is completed, students will be encouraged to revise their dissertation and submit it for publication.

Once the committee has formally approved the dissertation document and the oral defense, and the Chair of the appropriate program has certified completion of all requirements, the candidate is awarded the Ph.D. in Public Health.

Time Limit
All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.
INTERPROFESSIONAL GRADUATE CERTIFICATE IN PUBLIC AND POPULATION HEALTH (ZILBER SCHOOL OF PUBLIC HEALTH)

The Interprofessional Graduate Certificate in Public and Population Health is designed for students and working professionals involved in program planning and implementation, evaluation, education policy, health policy, engineering administration, research, and other areas related to public and population health. It recognizes that an interdisciplinary, systems approach is essential for communities to solve complicated social and economic problems. No one perspective or set of strategies can address the many dimensions of current societal problems. Prevention and population health are important cornerstones of the solutions to these problems, requiring linkages and new models of interaction among primary care, hospitals, communities and public health.

The Interprofessional Graduate Certificate is a 16-credit program with courses in four core disciplines: epidemiology, health policy, social and behavioral health, and environmental health. The fifth course grounds students in public health principles and practice. The sixth course will provide students the opportunity to engage in interprofessional workshops and other learning forums to foster competencies in interprofessional values, communication and teamwork. Three of the courses, in health behavior, epidemiology and health policy, are offered online, which will provide added flexibility for students.

This program is open to post-baccalaureate students, to those currently enrolled in a UWM graduate degree program, as well as to health professionals who have completed a baccalaureate, master’s or doctoral degree. The certificate program is a collaborative program between the College of Health Sciences, College of Nursing, and the Zilber School of Public Health, and is coordinated through the Zilber School of Public Health with administrative support from the College of Nursing.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Application

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Credits and Courses

The completion of 16 credit hours is required for the certificate program. All students are required to complete six courses (All are 3 credits unless noted):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PH 703</td>
<td>Environmental Health Sciences</td>
<td>3</td>
</tr>

<tr>
<td>NURS 803</td>
<td>Health Policy</td>
<td>3</td>
</tr>
</tbody>
</table>

Students will need to maintain a 3.0 GPA and meet all other standard requirements for UWM graduate students for continuation in the program.

Certificate Requirements

Transfer Credit

No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   - Degree programs must approve the courses from certificates that can double count toward the degree.
   - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
• 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.
PUBLIC HEALTH MPH: BIOSTATISTICS

The Biostatistics track builds on the classic Public Health Biostatistics skill and knowledge base and takes advantage of special knowledge of its faculty in the areas of genetics, bioinformatics, network analysis, causal inference, and big data science. Students have the opportunity to learn and apply statistical genetics in the context of complex disease study, high throughout computing used in "big" data science, applications in evidence-based patient-centered outcome studies, and population-based epidemiological studies. Courses include topics and material such as interpretation of personalized and evidence-based medicine in the context of public health; basic understanding of genetics and epigenetics; general "omic" approaches and concepts; as well as classic Biostatistics topics such as Survival and Categorical data analysis.

Related Certificate

The Zilber School of Public Health (SPH) offers a Master of Public Health (MPH), a PhD in Public Health with a Concentration in Community and Behavioral Health Promotion, a PhD in Public Health with a Concentration in Biostatistics, a PhD in Environmental Health Sciences, and a PhD in Epidemiology.

Master of Public Health

The Master of Public Health offered by the Zilber SPH is a professional master's degree program with five distinct tracks of study. The MPH program provides students with a broad understanding of public health practice and allows specialization in Biostatistics, Community and Behavioral Health Promotion, Environmental Health Sciences, Epidemiology, or Public Health Policy and Administration.

Like most MPH programs, the Zilber SPH's program imparts knowledge and skills in each of these core disciplines in public health, helping prepare all students to analyze information and consider solutions to public health problems using a social justice lens at the community, institutional, and societal levels. Courses have been designed to teach program- and track-level competencies as defined by Zilber SPH faculty. Program-level competencies reflect key public health skills including systems thinking, ethics, analytical methods, communications/ informatics, diversity/culture, leadership, and professionalism. In addition, students engage in a specific track of study, gaining deeper competency in one of the five areas. Upon graduation students are prepared for positions in a range of population health settings and/or for doctoral-level study.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

An applicant must meet Graduate School requirements plus as the desired track of study requires: the following program requirements to be considered for admission to the program. These materials will be considered in a holistic admissions process with special attention to ensure a diverse student body.

1. Three letters of recommendation from persons familiar with the applicant's academic experience and potential for graduate work in public health.
2. CV or resume.
3. Score report from the General Test of the Graduate Record Examination (GRE) (http://uwm.edu/graduateschool/admission/#gre), taken within the last five years.
4. The admissions committee may consider GMAT (http://uwm.edu/graduateschool/admission/#gmat), LSAT, MCAT scores in place of GRE (http://uwm.edu/graduateschool/admission/#gre) scores. Students requesting this or any other exception should apply in writing for consideration by the Applications Review Committee.
5. Address the following two Short Essay questions, limiting responses to no more than 500 words (approximately 250 words per question):
   - Describe how your professional, volunteer, and educational background has led you to seek a degree in Public Health.
   - How will your desired track of study help you reach your personal and professional goals in Public Health?
6. International applicants must also meet admission standards set and monitored by UWM's Center for International Education.
7. MPH applicants must use SOPHAS (https://sophas.org) to apply. When applying applicants must select their track of which they are applying; Biostatistics, Community and Behavioral Health Promotion, Environmental Health Sciences, Epidemiology, or Public Health Policy & Administration.
8. Tracks may have additional admission requirements, which can be found here (http://uwm.edu/publichealth/faqs).

Credits and Courses

All students enrolled in the MPH program take a common set of core classes designed to give basic skills and knowledge of public health concepts. The core curriculum consists of at least 24 credit hours, including at least a four-credit Field Experience and a two-credit capstone seminar. In addition to the common core, students complete the required coursework in one of five specialization tracks: Biostatistics, Community and Behavioral Health Promotion, Environmental Health Sciences, Epidemiology, or Public Health Policy and Administration. The MPH degree varies from 46-48 credits depending on the track. Students must maintain a cumulative G.P.A. of 3.0 or better in order to progress through the program.

Unless noted, all courses are 3 credits.

MPH Required Common Core Courses (at least 24 credits)

Field Experience

The Field Experience enables students to apply knowledge and skills learned in the classroom to public health problems in a community context. Students work with their Faculty Advisor and school staff to identify a placement that matches their public health interests and career goals. Possible placement settings include a local health department, state health department, non-profit agency, hospital system, or research institute. The experience is a mentored placement engaging both a Faculty Advisor and a Site Preceptor.

Students complete three credits (80 contact hours per one credit, 240 hours total) with the organization. The specified competencies, scope of work, and final products for the organization are defined in a learning agreement, which is signed by the student, preceptor, faculty advisor and course instructor. Students must demonstrate attainment of at least five competencies, three of which must be foundational competencies (see Field Experience Handbook), and two of which are identified from the track competency sets. One foundational competency is required of all students:

- 19. Communicate audience-appropriate public health content, both in writing and through oral presentation

Students complete at least two products as agreed upon with the Site Preceptor.

In addition to the three credits/240 hours with an organization, students complete a one-credit module as part of the Field Experience designed to integrate competencies in leadership, negotiation, and interprofessional teamwork. The required competencies are:

- CEPH 16. Apply principles of leadership, governance and management, which include creating a vision, empowering others, fostering collaboration and guiding decision making.
- CEPH 17. Apply negotiation and mediation skills to address organizational or community challenges.
- CEPH 21. Perform effectively on interprofessional teams.

Students fulfill these competencies through a series of activities including forums, workshops, case studies, an 8-week course, or specific projects at the organization. Students from at least two professions constitute an interprofessional team. Assessments for the leadership, negotiation and interprofessional team competencies may be presentations in a forum, written reflections, or other written and/or oral exercises.

All four credits may be taken in one semester, or spread out over two semesters.

**Capstone**

The capstone requires students to integrate the knowledge and skills learned in the classroom, Field Experience, and/or lab into some aspect of professional public health practice. Students work with their Faculty Advisor to write a project proposal the semester prior to the capstone reflecting the student’s interests and career goals. Students then implement the project during their final semester of the program. The project has both a written paper and oral presentation component, in addition to attending a weekly seminar. The capstone project is an opportunity for students to demonstrate public health competencies.

**Program Requirements**

**Faculty Advisor**

Each student will be assigned a track-specific Faculty Advisor during Orientation week preceding the first semester. Faculty Advisors assist the student in the development of an individual Plan of Study designed to advance the career goals of the student and be consistent with the track curriculum. The Advisor plays an important role in connecting the Field Experience, Capstone, and career goals for each student.

UWM’s Zilber School recognizes the importance of a strong faculty advising program coupled with a sound system for monitoring student progress in all programs. Each semester, students are asked to assess their own progress through a required survey. They also complete a progress form together with their advisor. Feedback to students will be provided by 1) their faculty advisor in December during their advisor-student meeting and 2) a letter in May signed by their faculty advisor and program director confirming progress and noting any guidance for subsequent years, including plans and timetable for remediation when necessary.
Administrative offices of the Zilber School of Public Health have staff assigned on policies and procedures for admission, academic progression, and graduation. If deemed necessary, any student can petition to the Zilber SPH's Office of Academic and Student Affairs for a reassignment of Faculty Advisor. Program track faculty will make every effort to accommodate requests to give all students opportunities for success in the program.

**Thesis**
Not required. See capstone for similar culminating experience.

**Comprehensive Examination**
Not required. See capstone for similar culminating experience.

**Time Limit**
The student must complete all degree requirements within five years of initial enrollment.
PUBLIC HEALTH MPH: COMMUNITY AND BEHAVIORAL HEALTH PROMOTION

The Community and Behavioral Health Promotion (CBHP) track focuses on promoting the health of communities through innovative approaches to community engagement and collaborative practice. Coursework addresses theories and frameworks in social and behavioral science, evidence-based methods for program planning (including assessment) and implementation, and program evaluation. Students apply a social justice and equity-centered approach to public health training and practice. Methodological approaches address quantitative, qualitative, and community-engaged techniques.

Program track faculty will make every effort to accommodate requests to give all students opportunities for success in the program.
PUBLIC HEALTH MPH: ENVIRONMENTAL HEALTH SCIENCES

Environmental Health Sciences MPH students learn the biological, chemical, and structural components of public health and how to put current research into practice. Students’ experiences incorporate environmental health theories with cross-cutting public health competencies such as communication, public health biology, systems-thinking and leadership.

Faculty for this program are drawn from a number of departments and research units at UWM, affording the student an unparalleled opportunity for cross-disciplinary training and the performance of novel research projects. Laboratories and equipment are available across campus to promote innovative concepts in issues of Environmental Health Sciences.

Related Certificate

The Zilber School of Public Health (SPH) offers a Master of Public Health (MPH), a PhD in Public Health with a Concentration in Community and Behavioral Health Promotion, a PhD in Public Health with a Concentration in Biostatistics, a PhD in Environmental Health Sciences, and a PhD in Epidemiology.

Master of Public Health

The Master of Public Health offered by the Zilber SPH is a professional master’s degree program with five distinct tracks of study. The MPH program provides students with a broad understanding of public health practice and allows specialization in Biostatistics, Community and Behavioral Health Promotion, Environmental Health Sciences, Epidemiology, or Public Health Policy and Administration.

Like most MPH programs, the Zilber SPH’s program imparts knowledge and skills in each of these core disciplines in public health, helping prepare all students to analyze information and consider solutions to public health problems using a social justice lens at the community, institutional, and societal levels. The required competencies are:

- Communicate audience-appropriate public health content, both in writing and through oral presentation

Students complete at least two products as agreed upon with the Site Preceptor.

In addition to the three credits/240 hours with an organization, students complete a one-credit module as part of the Field Experience designed to integrate competencies in leadership, negotiation, and interprofessional teamwork. The required competencies are:

- CEPH 16. Apply principles of leadership, governance and management, which include creating a vision, empowering others, fostering collaboration and guiding decision making.
- CEPH 17. Apply negotiation and mediation skills to address organizational or community challenges.
- CEPH 21. Perform effectively on interprofessional teams.

Students fulfill these competencies through a series of activities including forums, workshops, case studies, an 8-week course, or specific projects at the organization. Students from at least two professions constitute an interprofessional team. Assessments for the leadership, negotiation and interprofessional team competencies may be presentations in a forum, written reflections, or other written and/or oral exercises.

All four credits may be taken in one semester, or spread out over two semesters.
Program Requirements

Faculty Advisor
Each student will be assigned a track-specific Faculty Advisor during Orientation week preceding the first semester. Faculty Advisors assist the student in the development of an individual Plan of Study designed to advance the career goals of the student and be consistent with the track curriculum. The Advisor plays an important role in connecting the Field Experience, Capstone, and career goals for each student.

UWM’s Zilber School recognizes the importance of a strong faculty advising program coupled with a sound system for monitoring student progress in all programs. Each semester, students are asked to assess their own progress through a required survey. They also complete a progress form together with their advisor. Feedback to students will be provided by 1) their faculty advisor in December during their advisor-student meeting and 2) a letter in May signed by their faculty advisor and program director confirming progress and noting any guidance for subsequent years, including plans and timetable for remediation when necessary.

Administrative offices of the Zilber School of Public Health have staff assigned on policies and procedures for admission, academic progression, and graduation. If deemed necessary, any student can petition to the Zilber SPH’s Office of Academic and Student Affairs for a reassignment of Faculty Advisor. Program track faculty will make every effort to accommodate requests to give all students opportunities for success in the program.

Thesis
Not required. See capstone for similar culminating experience.

Comprehensive Examination
Not required. See capstone for similar culminating experience.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.
PUBLIC HEALTH MPH: EPIDEMIOLOGY

The Epidemiology track emphasizes the application of epidemiologic theory and methods for promoting social justice and health equity. The integrated multidisciplinary curriculum bridges theory, research, and practice to prepare students to engage in rigorous, collaborative, evidence-informed and reflexive public health practice. Through both didactic and experiential learning, students acquire foundations of applied epidemiological methods, epidemiologic data analysis, theories of social inequality, social epidemiology, and community partnership building. Graduates are able to collect, analyze, and interpret epidemiological information, generate theory-driven hypotheses and research questions, and work in true collaboration with diverse community partners to create social change to improve the public’s health and reduce health inequities.

Related Certificate

The Zilber School of Public Health (SPH) offers a Master of Public Health (MPH), a PhD in Public Health with a Concentration in Community and Behavioral Health Promotion, a PhD in Public Health with a Concentration in Biostatistics, a PhD in Environmental Health Sciences, and a PhD in Epidemiology.

Master of Public Health

The Master of Public Health offered by the Zilber SPH is a professional master’s degree program with five distinct tracks of study. The MPH program provides students with a broad understanding of public health practice and allows specialization in Biostatistics, Community and Behavioral Health Promotion, Environmental Health Sciences, Epidemiology, or Public Health Policy and Administration.

Like most MPH programs, the Zilber SPH’s program imparts knowledge and skills in each of these core disciplines in public health, helping prepare all students to analyze information and consider solutions to public health problems using a social justice lens at the community, institutional, and societal levels. Courses have been designed to teach program- and track-level competencies as defined by Zilber SPH faculty. Program-level competencies reflect key public health skills including systems thinking, ethics, analytical methods, communications/informatics, diversity/culture, leadership, and professionalism. In addition, students engage in a specific track of study, gaining deeper competency in one of the five areas. Upon graduation students are prepared for positions in a range of population health settings and/or for doctoral-level study.

Admission Requirements

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

An applicant must meet Graduate School requirements plus as the desired track of study requires: the following program requirements to be considered for admission to the program. These materials will be considered in a holistic admissions process with special attention to ensure a diverse student body.

1. Three letters of recommendation from persons familiar with the applicant’s academic experience and potential for graduate work in public health.
2. CV or resume.
3. Score report from the General Test of the Graduate Record Examination (GRE) (http://uwm.edu/graduateschool/admission/#gre), taken within the last five years.
4. The admissions committee may consider GMAT (http://uwm.edu/graduateschool/admission/#gmat), LSAT, MCAT scores in place of GRE (http://uwm.edu/graduateschool/admission/#gre) scores. Students requesting this or any other exception should apply in writing for consideration by the Applications Review Committee.
5. Address the following two Short Essay questions, limiting responses to no more than 500 words (approximately 250 words per question):
   a. Describe how your professional, volunteer, and educational background has led you to seek a degree in Public Health.
   b. How will your desired track of study help you reach your personal and professional goals in Public Health?
6. International applicants must also meet admission standards set and monitored by UWM’s Center for International Education.
7. MPH applicants must use SOPHAS (https://sophas.org) to apply. When applying applicants must select their track of which they are applying; Biostatistics, Community and Behavioral Health Promotion, Environmental Health Sciences, Epidemiology, or Public Health Policy & Administration.
8. Tracks may have additional admission requirements, which can be found here (http://uwm.edu/publichealth/faqs).

Credits and Courses

All students enrolled in the MPH program take a common set of core classes designed to give basic skills and knowledge of public health concepts. The core curriculum consists of at least 24 credit hours, including at least a four-credit Field Experience and a two-credit capstone seminar. In addition to the common core, students complete the required coursework in one of five specialization tracks: Biostatistics, Community and Behavioral Health Promotion, Environmental Health Sciences, Epidemiology, or Public Health Policy and Administration. The MPH degree varies from 46-48 credits depending on the track. Students must maintain a cumulative G.P.A. of 3.0 or better in order to progress through the program.

Unless noted, all courses are 3 credits.

MPH Required Common Core Courses (at least 24 credits)

PH 790 Field Experience in Public Health (See following section for details) 1 4
PH 800 Capstone in Public Health (See following section for details) 2 2

Total Credits 24

1 Satisfactory/Unsatisfactory; may be taken for 1, 2, 3, or 4 credits in a given semester.
2 Completed in the final year of study.

Field Experience
The Field Experience enables students to apply knowledge and skills learned in the classroom to public health problems in a community context. Students work with their Faculty Advisor and school staff to identify a placement that matches their public health interests and career goals. Possible placement settings include a local health department, state health department, non-profit agency, hospital system, or research institute. The experience is a mentored placement engaging both a Faculty Advisor and a Site Preceptor.

Students complete three credits (80 contact hours per one credit, 240 hours total) with the organization. The specified competencies, scope of work, and final products for the organization are defined in a learning agreement, which is signed by the student, preceptor, faculty advisor and course instructor. Students must demonstrate attainment of at least five competencies, three of which must be foundational competencies (see Field Experience Handbook), and two of which are identified from the track competency sets. One foundational competency is required of all students:

- 19. Communicate audience-appropriate public health content, both in writing and through oral presentation

Students complete at least two products as agreed upon with the Site Preceptor.

In addition to the three credits/240 hours with an organization, students complete a one-credit module as part of the Field Experience designed to integrate competencies in leadership, negotiation, and interprofessional teamwork. The required competencies are:

- CEPH 16. Apply principles of leadership, governance and management, which include creating a vision, empowering others, fostering collaboration and guiding decision making.
- CEPH 17. Apply negotiation and mediation skills to address organizational or community challenges.
- CEPH 21. Perform effectively on interprofessional teams.

Students fulfill these competencies through a series of activities including forums, workshops, case studies, an 8-week course, or specific projects at the organization. Students from at least two professions constitute an interprofessional team. Assessments for the leadership, negotiation and interprofessional team competencies may be presentations in a forum, written reflections, or other written and/or oral exercises.

All four credits may be taken in one semester, or spread out over two semesters.

Capstone
The capstone requires students to integrate the knowledge and skills learned in the classroom, Field Experience, and/or lab into some aspect of professional public health practice. Students work with their Faculty Advisor to write a project proposal the semester prior to the capstone reflecting the student’s interests and career goals. Students then implement the project during their final semester of the program. The project has both a written paper and oral presentation component, in addition to attending a weekly seminar. The capstone project is an opportunity for students to demonstrate public health competencies.

Comprehensive Examination
Not required. See capstone for similar culminating experience.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.
PUBLIC HEALTH MPH: PUBLIC HEALTH POLICY AND ADMINISTRATION

Public health policy includes local, state, and federal policies that directly or indirectly impact the level and distribution of health in the population. At the Zilber School, we take a broad inter-sectoral view that includes a “Health in All Policies” approach. This framework recognizes that the level and distribution of health and wellbeing in the population are fundamentally shaped by public policies that create the social and economic conditions that underlie population health and health equity.

What makes our program distinct?
The Public Health Policy & Administration (PHPA) track is nationally distinct in its inter-sectoral, systems-level, and justice focused curriculum. Emphasizing the social, political, and economic determinants of health, students in the PHPA track gain foundational understanding of social and policy theories, and their relevance to public health practice and policymaking in various contexts.

The PHPA track also uniquely trains students in both quantitative, econometric policy analysis and qualitative research methods, with application to real-world public health policy problems.

Related Certificate

Total Credits 24

1 Satisfactory/Unsatisfactory; may be taken for 1, 2, 3, or 4 credits in a given semester.
2 Completed in the final year of study.

Field Experience

The Field Experience enables students to apply knowledge and skills learned in the classroom to public health problems in a community context. Students work with their Faculty Advisor and school staff to identify a placement that matches their public health interests and career goals. Possible placement settings include a local health department, state health department, non-profit agency, hospital system, or research institute. The experience is a mentored placement engaging both a Faculty Advisor and a Site Preceptor.

Students complete three credits (80 contact hours per one credit, 240 hours total) with the organization. The specified competencies, scope of work, and final products for the organization are defined in a learning agreement, which is signed by the student, preceptor, faculty advisor and course instructor. Students must demonstrate attainment of at least five competencies, three of which must be foundational competencies (see Field Experience Handbook), and two of which are identified from the track competency sets. One foundational competency is required of all students:

- 19. Communicate audience-appropriate public health content, both in writing and through oral presentation

Students complete at least two products as agreed upon with the Site Preceptor.

In addition to the three credits/240 hours with an organization, students complete a one-credit module as part of the Field Experience designed to integrate competencies in leadership, negotiation, and interprofessional teamwork. The required competencies are:

- CEPH 16. Apply principles of leadership, governance and management, which include creating a vision, empowering others, fostering collaboration and guiding decision making.
- CEPH 17. Apply negotiation and mediation skills to address organizational or community challenges.
- CEPH 21. Perform effectively on interprofessional teams.

Students fulfill these competencies through a series of activities including forums, workshops, case studies, an 8-week course, or specific projects at the organization. Students from at least two professions constitute an interprofessional team. Assessments for the leadership, negotiation and interprofessional team competencies may be presentations in a forum, written reflections, or other written and/or oral exercises.

All four credits may be taken in one semester, or spread out over two semesters.

Capstone

The capstone requires students to integrate the knowledge and skills learned in the classroom, Field Experience, and/or lab into some aspect of professional public health practice. Students work with their Faculty Advisor to write a project proposal the semester prior to the capstone reflecting the student’s interests and career goals. Students then implement the project during their final semester of the program. The project has both a written paper and oral presentation component, in addition to attending a weekly seminar. The capstone project is an opportunity for students to demonstrate public health competencies.

PUBLIC HEALTH PHD: BIOSTATISTICS

Related Certificate

The Biostatistics doctoral program is designed to train students in the development of techniques, methods and tools to conduct public health research using rigorous statistical, bioinformatics and general quantitative methods. Faculty interest areas include: bioinformatics, statistical genetics, network analysis, causal inference, survival analysis, and high throughput computing.

Students entering the program will be trained at the graduate level in the analysis of data from genetics and genomics, electronic medical records, and population-based epidemiological studies. Such research will include approaches requiring large populations, large data sets, and as needed, the collection, processing and analysis of data used in the pursuit of improving the public’s health. Graduates of this program will be able to participate and execute the study design, data collection, analysis and dissemination of results. Technical areas include database management, causal inference, network analysis, medical and population genetics, as well as tools and techniques for acquiring, processing, warehousing, and analyzing public health data. Other areas of expertise include data mining, computer-based decision support systems, and computational biology. The Ph.D. in Public Health with a concentration in Biostatistics requires 69 course credits beyond the Bachelor's degree. Coursework includes core courses as outlined below, methods courses, electives, and credits taken as doctoral research.

Upon graduation, a student completing the requirements for the Ph.D. in Public Health with a concentration in Biostatistics will be able to:

1. Develop new statistical methodologies to solve problems in biomedical, clinical, public health, or other fields
2. Contribute to the body of knowledge in the field of biostatistics by writing and successfully submitting manuscripts for publication in a peer-reviewed journal
3. Perform all responsibilities of a statistician in collaborative research; in particular: design studies, manage and analyze data and interpret findings from a variety of biomedical, clinical or public health experimental and observational studies
4. Communicate statistical information effectively with individuals with varying degrees of statistical knowledge through written and oral presentations
5. Use statistical, bioinformatic and other computing software to organize, analyze, and visualize data
6. Review and critique statistical methods and interpretation of results in published research studies, presentations, or reports
7. Demonstrate solid theoretical knowledge necessary for the development and study of new statistical methods
8. Understand and implement modern statistical approaches emerging in the literature to improve biomedical and public health

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission Requirements

Admission

Applicants to the PhD program in Public Health with a concentration in Biostatistics should have completed academic programs that facilitated development of solid analytical skills. Applicable baccalaureate programs include mathematics, statistics, computer science, and engineering. Baccalaureate degrees in related fields will be considered. A minimum undergraduate grade point average of 3.00 (A=4.00) is required.

Applicants from diverse backgrounds are encouraged to apply. Each application will be evaluated individually primarily on the basis of academic achievement, although relevant work experience will also be considered.

Applicants to the PhD program in Public Health with a concentration in Community and Behavioral Health Promotion should have completed academic programs that facilitated development of solid analytical and communication skills. Applicable baccalaureate programs include those in the social and behavioral sciences, health and health-related sciences, and biological sciences. Baccalaureate degrees in related fields will be considered. At least one statistics course is preferred for admission. A minimum undergraduate grade point average of 3.00 (A=4.00) is preferred. While a completed master’s degree in public health or the social and behavioral sciences is encouraged, a master’s degree is not a prerequisite for admission. For those applicants without a master’s degree in a relevant field, most successful candidates will have work, research and/or volunteer experiences that contribute to career development in community health and health promotion. Demonstrated communication and analytic skills are required. Applicants from diverse backgrounds with a strong interest in community health and health promotion are encouraged to apply. Each application will be evaluated individually on the basis of four key areas:

1. Academic record/achievement.
2. Work, research, and/or community experience.
3. Commitment/interest/awareness of public health and community health promotion.
4. Matching interest with current Community and Behavioral Promotion Health faculty.

Graduate Record Examination (GRE) scores from the general test (verbal, quantitative, analytical writing) are required of all applicants. Submitted test scores must be from a test taken within 5 years of the date of application. While there is not a minimum GRE score requirement, strong quantitative, verbal and writing skills are critical to successfully completing the program.

Students must meet UWM Graduate School admission requirements. For international applicants whose native language is not English, the UW-Milwaukee Center for International Education Website provides English Language Proficiency Requirements including required TOEFL or IELTS scores. Students who attended an international university must also pay an additional fee for evaluation of international transcripts.

In addition, a personal statement, and at least three letters of recommendation from individuals familiar with the applicant’s scholarship, research achievements, and/or academic potential are required for the application. The letters of recommendation should address the candidate’s potential for achievement in a graduate program from an academic as well as personal (e.g., commitment, integrity,
ethical) standpoint. At least one letter must be from a university faculty member.

A select group of the most qualified candidates will be invited to participate in an interview process. In-person or internet-facilitated interviews (Skype, etc.) will be required for finalist candidates prior to admission.

Applicants may be admitted with course deficiencies at the discretion of the ZSPH Graduate Program Committee. The student is expected to rectify these course deficiencies with a grade of B or better within three enrolled semesters. The academic program unit will monitor deficiencies. No course credits earned in making up deficiencies may be counted as program credits required for the degree. For students entering with an advanced degree, the Admissions Committee can grant credit for relevant coursework at its discretion, but at least half of the graduate credits required for the PhD must be completed at UW-Milwaukee in doctoral status in accordance with Graduate School policy. Thesis, dissertation, and research credits must be completed at UW-Milwaukee.

Reapplication
A student who receives the Master of Public Health degree must formally reapply to the Zilber School of Public Health to gain admission to the PhD program in Public Health before continuing studies toward the PhD.

Biostatistics Concentration
Minimum degree requirement is 60 graduate credits beyond the bachelor’s degree (plus an additional 9 credits dedicated to dissertation writing and research), at least 35 of which must be earned in residence at UWM. The student, in consultation with the major professor, must create a plan of study and submit to the Biostatistics Faculty by the end of the first year. Minimum course requirements for all work requires approximately two to three full years of study.

Program Requirements

Major Professor as Advisor
The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. The entering student is assigned an advisor/major professor at admission based on fit and focus. The major professor serves as the student’s research mentor and will guide the student in course selection, program planning, and research design. Students may change their advisor/major professor if the fit and focus change over time. Such changes will need approval of the graduate program committee. The major professor must have graduate faculty status.

Residence
The student must meet minimum Graduate School residence requirements.
Preliminary Exam Process
The preliminary exams must be successfully completed within five years of initial enrollment in the Ph.D. program.

Students must successfully complete a preliminary examination process before formally achieving dissertator status. When the student is sufficiently prepared, a doctoral preliminary examination to determine the student’s knowledge and achievement is taken. The exam evaluates the student’s general knowledge of mathematical statistics, and general biostatistical and quantitative methods. Students must pass this examination to continue in the program. With permission of the examination committee, the student may repeat this examination once within one year. After successful completion of the qualifying process, the student will concentrate on the development of the dissertation.

Time Limit
All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.
PUBLIC HEALTH PHD: COMMUNITY AND BEHAVIORAL HEALTH PROMOTION

Related Certificate

The Community and Behavioral Health Promotion (CBHP) doctoral program is designed to train students in social and behavioral science aspects of public health research and intervention with a particular emphasis on the development of community-level interventions. Faculty interest areas include: maternal, infant, and child health; health disparities; obesity; nutrition; food security; HIV and STD prevention; adolescent health; violence prevention; substance abuse prevention; creating healthy environments; and promoting mental health.

Students entering the program will be trained at the graduate level in community and behavioral health promotion from a public health perspective. Students will also have exposure to other key areas of public health (environmental health, epidemiology, biostatistics, and policy and administration), providing a broad foundation of public health research and practice. The Ph.D. in Public Health with a concentration in CBHP requires 72 course credits beyond the Bachelor’s degree. Coursework includes core courses as outlined below, research and methods courses, electives, and credits taken as pre-dissertation research supporting CBHP faculty research. In addition, students will prepare for public health leadership through their own original research.

Student research in community and behavioral health promotion may focus on the social and behavioral determinants of disease, illness, injury, and health, the interaction of social and behavioral factors with biological or environmental factors, or the efficacy of interventions to improve health through social and behavioral strategies within community settings.

This program aligns with UWM’s mission to further academic opportunities at all levels for women, minority, part-time students, and financially or educationally disadvantaged students. In addition, the program consistently strives for diversity within its faculty ranks to achieve the University’s goal for cultural competency in teaching and learning.

Upon graduation, a student completing the requirements for the Ph.D. in Public Health with a concentration in Community and Behavioral Health Promotion will be able to:

1. Describe and critically evaluate the utility of key social and behavioral science theories for public health research.
2. Design and implement theory driven community and behavioral health prevention and intervention research.
3. Apply social and environmental justice philosophies, theories, and frameworks to public health research and the interpretation of research findings.

4. Describe the social-political-historical contexts that have shaped the development of community engaged research including community based participatory approaches.
5. Describe the unique contributions of community engaged approaches to community and behavioral health research and interventions.
6. Critically appraise different methodological strategies in developing and implementing community engaged research.
7. Apply qualitative and advanced quantitative methods to the study of public health problems, the assessment of community strengths and the evaluation of prevention and intervention programs.
8. Use research findings to advocate for policies, programs, and resources that improve the health of communities.
9. Demonstrate an advanced understanding of how to manage ethical issues in community and behavioral health research and practice.
10. Demonstrate respect for the integrity and perspectives of others in all professional contexts.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/Registrar/contact-us) online.

Admission
Applicants to the PhD program in Public Health with a concentration in Biostatistics should have completed academic programs that facilitated development of solid analytical skills. Applicable baccalaureate programs include mathematics, statistics, computer science, and engineering. Baccalaureate degrees in related fields will be considered. A minimum undergraduate grade point average of 3.00 (A=4.00) is required. Applicants from diverse backgrounds are encouraged to apply. Each application will be evaluated individually primarily on the basis of academic achievement, although relevant work experience will also be considered.

Applicants to the PhD program in Public Health with a concentration in Community and Behavioral Health Promotion should have completed academic programs that facilitated development of solid analytical and communication skills. Applicable baccalaureate programs include those in the social and behavioral sciences, health and health-related sciences, and biological sciences. Baccalaureate degrees in related fields will be considered. At least one statistics course is preferred for admission. A minimum undergraduate grade point average of 3.00 (A=4.00) is preferred. While a completed master’s degree in public health or the social and behavioral sciences is encouraged, a master’s degree is not a prerequisite for admission. For those applicants without a master’s degree in a relevant field, most successful candidates will have work, research and/or volunteer experiences that contribute to career development in community health and health promotion. Demonstrated communication and analytic skills are required. Applicants from diverse backgrounds with a strong interest in community health and health promotion are encouraged to apply. Each application will be evaluated individually on the basis of four key areas:

1. Academic record/achievement.
2. Work, research, and/or community experience.
3. Commitment/interest/awareness of public health and community health promotion.
4. Matching interest with current Community and Behavioral Promotion Health faculty.

Graduate Record Examination (GRE) scores from the general test (verbal, quantitative, analytical writing) are required of all applicants. Submitted test scores must be from a test taken within 5 years of the date of application. While there is not a minimum GRE score requirement, strong quantitative, verbal and writing skills are critical to successfully completing the program.

Students must meet UWM Graduate School admission requirements. For international applicants whose native language is not English, the UW-Milwaukee Center for International Education Website provides English Language Proficiency Requirements including required TOEFL or IELTS scores. Students who attended an international university must also pay an additional fee for evaluation of international transcripts.

In addition, a personal statement, and at least three letters of recommendation from individuals familiar with the applicant’s scholarship, research achievements, and/or academic potential are required for the application. The letters of recommendation should address the candidate’s potential for achievement in a graduate program from an academic as well as personal (e.g., commitment, integrity, ethical) standpoint. At least one letter must be from a university faculty member.

A select group of the most qualified candidates will be invited to participate in an interview process. In-person or internet-facilitated interviews (Skype, etc.) will be required for finalist candidates prior to admission.

Applicants may be admitted with course deficiencies at the discretion of the ZSPH Graduate Program Committee. The student is expected to rectify these course deficiencies with a grade of B or better within three enrolled semesters. The academic program unit will monitor deficiencies. No course credits earned in making up deficiencies may be counted as program credits required for the degree. For students entering with an advanced degree, the Admissions Committee can grant credit for relevant coursework at its discretion, but at least half of the graduate credits required for the PhD must be completed at UW-Milwaukee in doctoral status in accordance with Graduate School policy. Thesis, dissertation, and research credits must be completed at UW-Milwaukee.

Reapplication
A student who receives the Master of Public Health degree must formally reapply to the Zilber School of Public Health to gain admission to the PhD program in Public Health before continuing studies toward the PhD.

Concentration in Community and Behavioral Health Promotion
A minimum of 72 credits of coursework beyond the bachelor’s level must be completed to earn the degree, at least 35 of which must be earned in residence at UW-Milwaukee. The course list consists of required common Ph.D. core courses, CBHP core courses, research and methods courses, and elective courses. Also, students will be required to complete three credits of supervised research under the tutelage of the primary advisor prior to the required dissertation research requirement. This is to ensure that all students obtain hands-on, supervised research training. After achieving dissertation status, students will enroll in three research credits per semester for at least two semesters.

**Total Credits**

72 credits

1. Prereq: PH 702 Introduction to Biostatistics or approval for equivalent course.
2. Or other qualitative analysis course approved by advisor.
3. Other advanced quantitative courses will be considered.
4. Other electives may be considered (such as advanced qualitative and quantitative courses).

**Program Requirements**

**Major Professor as Advisor**

The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. The entering student is assigned an advisor/major professor at admission based on fit and focus. The major professor serves as the student’s research mentor and will guide the student in course selection, program planning, and research design. Students may change their advisor/major professor if the fit and focus change over time. Such changes will need approval of the graduate program committee. The major professor must have graduate faculty status.

**Residence**

The student must meet minimum Graduate School residence requirements.

**Preliminary/Qualifying Exam Process**

The qualifying exams must be successfully completed within five years of initial enrollment in the Ph.D. program.

The preliminary exam is designed to assess a student’s mastery of knowledge and skills to ensure adequate preparation for individual dissertation research. Students taking the preliminary exam are expected to demonstrate knowledge, competency and mastery of core public health concepts, issues and content relevant to the CBHP PhD Program. The preliminary exam consists of three sections: an open book integrative review, a closed book exam focusing on a case study, and an oral exam. (Please refer to the CBHP Qualifying Exam Policies and Procedures.) At the discretion of the examining committee, a student who fails the qualifying process may be allowed one additional attempt with all or part of the examination. After successful completion of the qualifying process, the student will concentrate on the development of the dissertation.

**Time Limit**

All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.
The Zilber School of Public Health (SPH) offers a Master of Public Health (MPH), a PhD in Public Health with a Concentration in Community and Behavioral Health Promotion, a PhD in Public Health with a Concentration in Biostatistics, a PhD in Environmental Health Sciences, and a PhD in Epidemiology.

Master of Public Health

The Master of Public Health offered by the Zilber SPH is a professional master’s degree program with five distinct tracks of study. The MPH program provides students with a broad understanding of public health practice and allows specialization in Biostatistics, Community and Behavioral Health Promotion, Environmental Health Sciences, Epidemiology, or Public Health Policy and Administration.

Like most MPH programs, the Zilber SPH’s program imparts knowledge and skills in each of these core disciplines in public health, helping prepare all students to analyze information and consider solutions to public health problems using a social justice lens at the community, institutional, and societal levels. Courses have been designed to teach program- and track-level competencies as defined by Zilber SPH faculty. Program-level competencies reflect key public health skills including systems thinking, ethics, analytical methods, communications/informatics, diversity/culture, leadership, and professionalism. In addition, students engage in a specific track of study, gaining deeper competency in one of the five areas. Upon graduation students are prepared for positions in a range of population health settings and/or for doctoral-level study.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements plus as the desired track of study requires; the following program requirements to be considered for admission to the program. These materials will be considered in a holistic admissions process with special attention to ensure a diverse student body.

1. Three letters of recommendation from persons familiar with the applicant’s academic experience and potential for graduate work in public health.
2. CV or resume.
3. Score report from the General Test of the Graduate Record Examination (GRE) (http://uwm.edu/graduateschool/admission/#gre), taken within the last five years.
4. The admissions committee may consider GMAT (http://uwm.edu/graduateschool/admission/#gmat), LSAT, MCAT scores in place of GRE (http://uwm.edu/graduateschool/admission/#gre) scores.

Students requesting this or any other exception should apply in writing for consideration by the Applications Review Committee.

5. Address the following two Short Essay questions, limiting responses to no more than 500 words (approximately 250 words per question):
   • Describe how your professional, volunteer, and educational background has led you to seek a degree in Public Health.
   • How will your desired track of study help you reach your personal and professional goals in Public Health?

6. International applicants must also meet admission standards set and monitored by UWM’s Center for International Education.

7. MPH applicants must use SOPHAS (https://sophas.org) to apply. When applying applicants must select their track of which they are applying; Biostatistics, Community and Behavioral Health Promotion, Environmental Health Sciences, Epidemiology, or Public Health Policy & Administration.

8. Tracks may have additional admission requirements, which can be found here (http://uwm.edu/publichealth/faqs).

Credits and Courses

All students enrolled in the MPH program take a common set of core classes designed to give basic skills and knowledge of public health concepts. The core curriculum consists of at least 24 credit hours, including at least a four-credit Field Experience and a two-credit capstone seminar. In addition to the common core, students complete the required coursework in one of five specialization tracks: Biostatistics, Community and Behavioral Health Promotion, Environmental Health Sciences, Epidemiology, or Public Health Policy and Administration. The MPH degree varies from 46-48 credits depending on the track. Students must maintain a cumulative G.P.A. of 3.0 or better in order to progress through the program.

Unless noted, all courses are 3 credits.

MPH Required Core Courses (at least 24 credits)

Total Credits 24

1 Satisfactory/Unsatisfactory; may be taken for 1, 2, 3, or 4 credits in a given semester.
2 Completed in the final year of study.

Field Experience
The Field Experience enables students to apply knowledge and skills learned in the classroom to public health problems in a community context. Students work with their Faculty Advisor and school staff to
identify a placement that matches their public health interests and career goals. Possible placement settings include a local health department, state health department, non-profit agency, hospital system, or research institute. The experience is a mentored placement engaging both a Faculty Advisor and a Site Preceptor.

Students complete three credits (80 contact hours per one credit, 240 hours total) with the organization. The specified competencies, scope of work, and final products for the organization are defined in a learning agreement, which is signed by the student, preceptor, faculty advisor and course instructor. Students must demonstrate attainment of at least five competencies, three of which must be foundational competencies (see Field Experience Handbook), and two of which are identified from the track competency sets. One foundational competency is required of all students:

• 19. Communicate audience-appropriate public health content, both in writing and through oral presentation

Students complete at least two products as agreed upon with the Site Preceptor.

In addition to the three credits/240 hours with an organization, students complete a one-credit module as part of the Field Experience designed to integrate competencies in leadership, negotiation, and interprofessional teamwork. The required competencies are:

• CEPH 16. Apply principles of leadership, governance and management, which include creating a vision, empowering others, fostering collaboration and guiding decision making.
• CEPH 17. Apply negotiation and mediation skills to address organizational or community challenges.
• CEPH 21. Perform effectively on interprofessional teams.

Students fulfill these competencies through a series of activities including forums, workshops, case studies, an 8-week course, or specific projects at the organization. Students from at least two professions constitute an interprofessional team. Assessments for the leadership, negotiation and interprofessional team competencies may be presentations in a forum, written reflections, or other written and/or oral exercises.

All four credits may be taken in one semester, or spread out over two semesters.

**Capstone**

The capstone requires students to integrate the knowledge and skills learned in the classroom, Field Experience, and/or lab into some aspect of professional public health practice. Students work with their Faculty Advisor to write a project proposal the semester prior to the capstone reflecting the student’s interests and career goals. Students then implement the project during their final semester of the program. The project has both a written paper and oral presentation component, in addition to attending a weekly seminar. The capstone project is an opportunity for students to demonstrate public health competencies.

**Program Requirements**

**Faculty Advisor**

Each student will be assigned a track-specific Faculty Advisor during Orientation week preceding the first semester. Faculty Advisors assist the student in the development of an individual Plan of Study designed to advance the career goals of the student and be consistent with the track curriculum. The Advisor plays an important role in connecting the Field Experience, Capstone, and career goals for each student.

UWM’s Zilber School recognizes the importance of a strong faculty advising program coupled with a sound system for monitoring student progress in all programs. Each semester, students are asked to assess their own progress through a required survey. They also complete a progress form together with their advisor. Feedback to students will be provided by 1) their faculty advisor in December during their advisor-student meeting and 2) a letter in May signed by their faculty advisor and program director confirming progress and noting any guidance for subsequent years, including plans and timetable for remediation when necessary.

Administrative offices of the Zilber School of Public Health have staff assigned on policies and procedures for admission, academic progression, and graduation. If deemed necessary, any student can petition to the Zilber SPH’s Office of Academic and Student Affairs for a reassignment of Faculty Advisor. Program track faculty will make every effort to accommodate requests to give all students opportunities for success in the program.

**Thesis**

Not required. See capstone for similar culminating experience.

**Comprehensive Examination**

Not required. See capstone for similar culminating experience.

**Time Limit**

The student must complete all degree requirements within five years of initial enrollment.
PUBLIC HEALTH, PHD

Related Certificate

Students will choose between two concentrations in the Ph.D. in Public Health offered by UW-Milwaukee's Joseph J. Zilber School of Public Health. The two concentrations share a common core of four courses for a total of 12 credits toward the required coursework. Students in the concentration in Biostatistics will select an elective to replace the introductory biostatistics course, as they will likely enter the program having already completed that level.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Applicants to the PhD program in Public Health with a concentration in Biostatistics should have completed academic programs that facilitated development of solid analytical skills. Applicable baccalaureate programs include mathematics, statistics, computer science, and engineering. Baccalaureate degrees in related fields will be considered. A minimum undergraduate grade point average of 3.00 (A=4.00) is required. Applicants from diverse backgrounds are encouraged to apply. Each application will be evaluated individually primarily on the basis of academic achievement, although relevant work experience will also be considered.

Applicants to the PhD program in Public Health with a concentration in Community and Behavioral Health Promotion should have completed academic programs that facilitated development of solid analytical and communication skills. Applicable baccalaureate programs include those in the social and behavioral sciences, health and health-related sciences, and biological sciences. Baccalaureate degrees in related fields will be considered. At least one statistics course is preferred for admission. A minimum undergraduate grade point average of 3.00 (A=4.00) is preferred. While a completed master's degree in public health or the social and behavioral sciences is encouraged, a master's degree is not a prerequisite for admission. For those applicants without a master's degree in a relevant field, most successful candidates will have work, research and/or volunteer experiences that contribute to career development in community health and health promotion. Demonstrated communication and analytic skills are required. Applicants from diverse backgrounds with a strong interest in community health and health promotion are encouraged to apply. Each application will be evaluated individually on the basis of four key areas:

1. Academic record/achievement.
2. Work, research, and/or community experience.
3. Commitment/interest/awareness of public health and community health promotion.
4. Matching interest with current Community and Behavioral Promotion Health faculty.

Graduate Record Examination (GRE) scores from the general test (verbal, quantitative, analytical writing) are required of all applicants. Submitted test scores must be from a test taken within 5 years of the date of application. While there is not a minimum GRE score requirement, strong quantitative, verbal and writing skills are critical to successfully completing the program.

Students must meet UWM Graduate School admission requirements. For international applicants whose native language is not English, the UW-Milwaukee Center for International Education Website provides English Language Proficiency Requirements including required TOEFL or IELTS scores. Students who attended an international university must also pay an additional fee for evaluation of international transcripts.

In addition, a personal statement, and at least three letters of recommendation from individuals familiar with the applicant’s scholarship, research achievements, and/or academic potential are required for the application. The letters of recommendation should address the candidate’s potential for achievement in a graduate program from an academic as well as personal (e.g., commitment, integrity, ethical) standpoint. At least one letter must be from a university faculty member.

A select group of the most qualified candidates will be invited to participate in an interview process. In-person or internet-facilitated interviews (Skype, etc.) will be required for finalist candidates prior to admission.

Applicants may be admitted with course deficiencies at the discretion of the ZSPH Graduate Program Committee. The student is expected to rectify these course deficiencies with a grade of B or better within three enrolled semesters. The academic program unit will monitor deficiencies. No course credits earned in making up deficiencies may be counted as program credits required for the degree. For students entering with an advanced degree, the Admissions Committee can grant credit for relevant coursework at its discretion, but at least half of the graduate credits required for the PhD must be completed at UW-Milwaukee in doctoral status in accordance with Graduate School policy. Thesis, dissertation, and research credits must be completed at UW-Milwaukee.

Reapplication
A student who receives the Master of Public Heath degree must formally reapply to the Zilber School of Public Health to gain admission to the PhD program in Public Health before continuing studies toward the PhD.

Program Requirements

Major Professor as Advisor
The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. The entering student is assigned an advisor/major professor at admission based on fit and focus. The major professor serves as the student’s research mentor and will guide the student in course selection, program planning, and research design. Students may change their advisor/major professor if the fit and focus change over time. Such changes will need approval of the graduate program committee. The major professor must have graduate faculty status.

Residence
The student must meet minimum Graduate School residence requirements.
The Helen Bader School of Social Welfare offers programs to educate students about social policies and programs, and to train them for beginning level practice in a variety of professional roles in social work and criminal justice. Its location in metropolitan Milwaukee gives students numerous opportunities to gain practical experience in social, health, educational, or criminal justice agencies.

Undergraduate majors in both social work and criminal justice lead to the Bachelor of Science degree, and are designed to prepare students for available entry-level positions in their respective fields. These programs also provide excellent preparation for graduate work.

The School also offers graduate programs at the master's degree level in both criminal justice and social work.

**Degree Programs**

**Bachelor of Science** Criminal Justice, Social Work

**Master of Science**

**Master of Social Work**

**Doctor of Philosophy** Social Welfare

**Departments and Programs**

- Criminal Justice (p. 1893)
  - Crime Analysis, Undergraduate Certificate (p. 1898)
  - Criminal Justice, BS (p. 1900)
  - Criminal Justice, Minor (p. 1902)
  - Criminal Justice, MS (p. 1902)
  - Criminal Justice, MS/Public Administration, MPA (p. 1903)
  - Criminal Justice, MS/Social Work, MSW (p. 1904)
  - Criminal Justice, MS: Crime Analytics (p. 1898)
  - Death Investigation, Undergraduate Certificate (Helen Bader School of Social Welfare, Department of Criminal Justice) (p. 1905)
  - Forensic Science, Undergraduate Certificate (Helen Bader School of Social Welfare, Department of Criminal Justice) (p. 1906)
  - Forensic Toxicology, Undergraduate Certificate (Helen Bader School of Social Welfare, Department of Criminal Justice) (p. 1907)
  - Forensic Science, Undergraduate Certificate (Helen Bader School of Social Welfare, Department of Criminal Justice) (p. 1908)
  - Military Science (p. 1908)
  - Social Work (p. 1912)
    - Applied Data Analysis Using SAS, Graduate Certificate (p. 1919)
    - Applied Gerontology, Graduate Certificate (Helen Bader School of Social Welfare, Department of Social Work) (p. 1920)
    - Social Welfare, PhD (p. 1921)
    - Social Work, BS (p. 1924)
    - Social Work, MSW (p. 1926)
    - Social Work, MSW/Criminal Justice, MS (p. 1928)
    - Social Work, MSW/Social Welfare, PhD (p. 1929)
    - Social Work, MSW/Women's and Gender Studies, MA (p. 1932)
    - Trauma Informed Care, Graduate Certificate (Helen Bader School of Social Welfare, Department of Social Work) (p. 1933)

- Youth Work, Undergraduate Certificate (Helen Bader School of Social Welfare, Department of Social Work) (p. 1934)

**Graduate Admission Requirements**

Each graduate program has admission requirements in addition to the general Graduate School admission requirements. Refer to Graduate Admissions and Cost (p. 17) for the graduate school's admission requirements, and to the specific program for the program's admission requirements.

**Undergraduate Admission**

**Freshmen**

Freshmen entering UWM who indicate an interest in criminal justice or social work are admitted directly into the Helen Bader School of Social Welfare, and are designated criminal justice or social work majors.

Admission to the University does not guarantee enrollment in the social work major; a separate application will be required to advance in the major.

**Transfer Students**

Transfer students who transfer from outside UWM to criminal justice or social work become criminal justice or social work intended majors upon admission regardless of the number of credits they transfer. They can apply for admission to the major when they have at least junior standing and have completed one full-time semester or the equivalent at UWM.

Those who transfer from two-year UW College campuses, Milwaukee Area Technical College, and other two-year institutions (junior colleges) are generally allowed to transfer up to 72 credits toward a degree in the Helen Bader School of Social Welfare.

**Second Bachelor's Degree Students**

Second bachelor's degree students applying to the University who already hold one bachelor's degree and who wish to pursue a second degree in either criminal justice or social work are directly admitted and social work majors must submit a separate application to advance in the major. They must complete at least 30 credits at UWM beyond the credits that counted toward the first degree, and must satisfy the same degree and curriculum requirements as students working towards a first degree in the same major.

Special students in the Helen Bader School of Social Welfare and University special students are permitted to register in any undergraduate course offered by the School, provided they meet the stated prerequisites or are admitted to the course by the instructor.

**Graduate Requirements**

Refer to individual graduate program for specific requirements. For the Graduate School's requirements, please refer to Graduate School Policies (p. 22).

**Undergraduate Requirements**

**Degree Requirements**

To receive the bachelor's degree with a criminal justice or social work major, the student must complete at least 30 degree credits at UWM. In both majors, an overall GPA (including non-UWM college work) of 2.0 and a total of 120 credits are needed for graduation. At least 15 credits in the criminal justice or 21 credits in the social work portion of the major must be earned at UWM. Social work students must complete at least
one semester of field placement at UWM. Students must earn their last 30 credits at UWM.

Course of Study
All social work and criminal justice majors who began their education in fall 1999 or later must meet the requirements below. Others should contact an advisor in the School to determine their degree requirements.

General Curriculum Requirements: Social Work and Criminal Justice
For courses that satisfy the distribution requirements in humanities, natural science, and social science, see the GER listing in the current Timetable (http://www4.uwm.edu/schedule). The UWM General Education Requirements (p. 33) apply to all students who were not enrolled in an accredited institution prior to 1986.

Total Credits 27

Requirements in the Major
A minimum total of 57-69 credits is required. See the individual degree pages in social work and criminal justice for the specific requirements of each major.

Electives
Students may take up to 30 elective credits in courses outside the Helen Bader School of Social Welfare and the College of Letters and Science. Credits earned in HONORS 687 or HONORS 689 will not count towards either major.

Requirements for Employment, Licensing, or Professional Organizations
Effective October 1, 1998, changes in Chapters 48 (Children’s Code) and 50 (Uniform Licensure) of the Wisconsin State Statutes make it a requirement for selected organizations to perform rigorous background checks of persons who provide care for vulnerable adults and children or who have access to people who receive such care.

The results of these background checks are intended to help employers and government officials in making employment and licensing decisions. The law affects anyone who is employed as a caregiver or who has access to clients within caregiving organizations, including students. The organizations required to perform these background checks are those that are regulated by the State Department of Health and Family Services (DHFS).

The law means that if you are going to train (including a field or clinical placement) or work in an agency providing care to vulnerable adults or children, and that agency is regulated by DHFS, a background check will be required of you. A background check may be required even if you do not have direct caregiving responsibilities to clients. Depending on the circumstances, a student may be disqualified from field placement in certain agencies as a result of this law. Students are responsible for obtaining the information necessary for them to become knowledgeable about these requirements and plan their studies accordingly.

Graduate Policies and Regulations
The Graduate School policies and regulations can be found at Graduate School Policies (p. 22). Please refer to the specific program for program policies and regulations.

Undergraduate Policies and Regulations
Academic Regulations
For information on actions on unsatisfactory grades and honors for scholarship, see Academic Policies (p. 27).
Semester Course Load
Registration for more than 18 credits in a given semester requires the advisor's permission. For students in the School's majors, this permission will be given upon advice of the appropriate program chair.

Change in Requirements
If curriculum requirements are changed after the student has been formally accepted in the major, the student is free to remain with the former requirements or to follow the new ones.

CRIMINAL JUSTICE

Study the criminal justice system through legal and political lenses, examining the nature, causes and impact of crime. Students learn through courses taught by experienced faculty, and in fieldwork opportunities, to improve their listening, speaking, writing, analytical and evaluative skills. They graduate prepared to work in law enforcement, corrections and the courts.

Undergraduate Certificate Program in Forensic Sciences

The Criminal Justice Program in the Helen Bader School of Social Welfare cooperates with the Departments of Anthropology and Chemistry in the College of Letters and Science and the Biomedical Sciences Program in the College of Health Sciences to offer studies in forensic sciences. Certificates can be earned in Death Investigation, Forensic Sciences, and Forensic Toxicology.

Programs

- Crime Analysis, Undergraduate Certificate (p. 1898)
- Criminal Justice, BS (p. 1900)
- Criminal Justice, Minor (p. 1902)
- Criminal Justice, MS (p. 1902)
- Criminal Justice, MS/Public Administration, MPA (p. 1903)
- Criminal Justice, MS/Social Work, MSW (p. 1904)
- Criminal Justice, MS: Crime Analytics (p. 1898)
- Death Investigation, Undergraduate Certificate (Helen Bader School of Social Welfare, Department of Criminal Justice) (p. 1905)
- Forensic Science, Undergraduate Certificate (Helen Bader School of Social Welfare, Department of Criminal Justice) (p. 1906)
- Forensic Toxicology, Undergraduate Certificate (Helen Bader School of Social Welfare, Department of Criminal Justice) (p. 1907)

Criminal Justice Courses

CRM JST 105 Orientation for Social Welfare Students
1 cr. Undergraduate.
Prepares students to participate in UWM's educational process and to explore career choices in social welfare.
Prerequisites: Frst only.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CRM JST 110 Introduction to Criminal Justice
3 cr. Undergraduate.
Survey of the present structure, philosophy, procedures, future prospects of police, courts, corrections, and of the penal system in American society.
Prerequisites: none.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

CRM JST 271 Police Process
3 cr. Undergraduate.
An interdisciplinary analysis of the role of police in a democratic society; emphasis on historical development of police institution, cultural attributes, accountability, occupational socialization, police-behavior, and selected current issues.
Prerequisites: Crm Jst 110(P).
Current Offerings: http://uwm.edu/schedule

CRM JST 273 Correctional Process
3 cr. Undergraduate.
Analysis of role of corrections in American criminal justice. Emphasis on describing and assessing the effectiveness of correctional models in prisons, jails, probation, and parole.
Prerequisites: Crm Jst 110(P).
Current Offerings: http://uwm.edu/schedule

CRM JST 275 Criminal Court Process
3 cr. Undergraduate.
Examination of criminal judicial process from setting bail through sentencing, role of courts within criminal justice. Analysis of structure, professional roles, and procedural law governing processing.
Prerequisites: Crm Jst 110(P).
Current Offerings: http://uwm.edu/schedule

CRM JST 281 Dead Men Do Tell Tales: An Introduction to Forensic Science
3 cr. Undergraduate.
A multidisciplinary view of how forensic scientists contribute to the many ways that physical evidence is collected, analyzed, and evaluated.
Prerequisites: none.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CRM JST 285 Medicolegal Death Investigation
3 cr. Undergraduate.
Lectures on the fundamentals of death investigation as outlined by national guidelines for death investigators.
Prerequisites: none.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CRM JST 291 Current Issues in Criminal Justice:
1-3 cr. Undergraduate.
Selected current issues in criminal justice.
Prerequisites: none.
Course Rules: May be retaken with change in topic to max of 6 cr.
Last Taught: Fall 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule
CRM JST 297 Study Abroad:  
1-12 cr. Undergraduate.  
Designed to enroll students in UWM sponsored program before course work level, content and credits are determined and/or in specially prepared program course work.  
Prerequisites: acceptance for Study Abroad Prog.  
Course Rules: May be retaken with change in topic.  
Current Offerings: http://uwm.edu/schedule

CRM JST 300 Criminal Process  
3 cr. Undergraduate.  
Analysis of the problems of the criminal justice system in separating the guilty and the innocent. Discussion of constitutional issues and technical procedural problems involved.  
Prerequisites: jr st; Crm Jst 110(P).  
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.  
Current Offerings: http://uwm.edu/schedule

CRM JST 301 Criminal Law  
3 cr. Undergraduate.  
Principles, theories and doctrines of the law of crimes with a unified study of legal defense.  
Prerequisites: jr st; Crm Jst 110(P).  
Current Offerings: http://uwm.edu/schedule

CRM JST 304 Gangs and Organized Crime  
3 cr. Undergraduate.  
Provides an overview of domestic and international gangs and organized crime networks. The challenges these organizations bring to the criminal justice system are also discussed.  
Prerequisites: none  
Course Rules: Counts as repeat of Crm Jst 291 with same topic.  
Last Taught: Spring 2018.  
Current Offerings: http://uwm.edu/schedule

CRM JST 305 Crime and Criminal Justice Policy  
3 cr. Undergraduate.  
Examination of criminal justice policy through analysis of relevant theory, research findings, and implications.  
Prerequisites: Crm Jst 110(P).  
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.  
Current Offerings: http://uwm.edu/schedule

CRM JST 310 Race, Ethnicity, and Justice  
3 cr. Undergraduate.  
Issues of race and ethnicity in the criminal justice system. Emphasis on research examining social construction of race and ethnicity.  
Prerequisites: none.  
Course Rules: Counts as repeat of Crm Jst 291 with same topic.  
Current Offerings: http://uwm.edu/schedule

CRM JST 311 Field Experience Practicum  
3-6 cr. Undergraduate.  
Placement in a faculty unit or project in a criminal justice setting, either public or private. Minimum 120 hours per semester under supervision.  
Prerequisites: jr st; Crm Jst 110(P); writ cons instr. Regis priority for students admitted to Crm Jst major.  
Course Rules: May be retaken to 6 cr max.  
Current Offerings: http://uwm.edu/schedule

CRM JST 340 Policing the Streets  
3 cr. Undergraduate.  
Analysis of policing from the perspective of the front line police officer, including societal expectations, legality, use of force, discretion, and psychological aspects.  
Prerequisites: none  
Course Rules: Counts as repeat of Crm Jst 291 w/same topic.  
Current Offerings: http://uwm.edu/schedule

CRM JST 350 White Collar Crime  
3 cr. Undergraduate.  
The nature and extent of white collar drime in the United States, especially the harmful and criminal acts of the rich and powerful  
Prerequisites: none.  
Current Offerings: http://uwm.edu/schedule

CRM JST 370 Criminal Justice Administration  
3 cr. Undergraduate.  
Analysis of operational and administrative issues in criminal justice drawn from organizational theory, management theory, discussion of organizational technology, structure, environment; and organizational assessment.  
Prerequisites: jr st; Crm Jst 110(P).  
Last Taught: Fall 2014, Fall 2013, Spring 2008, Fall 2006.  
Current Offerings: http://uwm.edu/schedule

CRM JST 380 Victimology  
3 cr. Undergraduate.  
An overview of conceptual and substantive issues in victim centered theory and research, including past, present and future models of victim participation in criminal justice.  
Prerequisites: jr st; Crm Jst 110(P).  
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.  
Current Offerings: http://uwm.edu/schedule

CRM JST 385 Women and Criminal Justice  
3 cr. Undergraduate.  
A study of female crime and delinquency, and how the criminal justice system responds to female crime.  
Prerequisites: none.  
Current Offerings: http://uwm.edu/schedule

CRM JST 386 Criminal Intelligence  
3 cr. Undergraduate.  
Contemporary responses to police problems, the tenets of various police styles and tactical crime analysis.  
Prerequisites: Crm Jst 110(P).  
Course Rules: Counts as repeat of Crm Jst 592 with same subtitle.  
Current Offerings: http://uwm.edu/schedule

CRM JST 410 Comparative Criminal Justice  
3 cr. Undergraduate.  
Comparative study of criminal justice components of selected countries. Emphasis will be on cultural influences on the principles and operation of criminal justice systems.  
Prerequisites: jr st or cons instr.  
General Education Requirements: SS  
Last Taught: Fall 2017, Fall 2016, Spring 2013, Spring 2012.  
Current Offerings: http://uwm.edu/schedule
CRM JST 416 Domestic Violence Research
3 cr. Undergraduate.
An examination of the criminal justice response to domestic violence related incidents. Theoretical and practical issues are explored in the context of physical child abuse, spousal battering, and elder abuse.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

CRM JST 420 Violence and the Criminal Justice System
3 cr. Undergraduate.
Historical and contemporary study of violent crime and its relationship to the criminal justice system.
Prerequisites: jr st; Crm Jst 110(P) & 150(P).
General Education Requirements: SS
Last Taught: Fall 2015, Fall 2014, Fall 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

CRM JST 421 Cybercrime
3 cr. Undergraduate/Graduate.
Legal issues associated with cybercrimes, including response, investigation and prosecution.
Prerequisites: jr st.
Course Rules: Counts as repeat of Crm Jst 592/970 with same topic.
Current Offerings: http://uwm.edu/schedule

CRM JST 430 Punishment
3 cr. Undergraduate.
Critical examination of theoretical justifications of punishment, corresponding sentencing structures, and recent empirical evidence addressing the utilitarian aims of punishment. Seminar.
Prerequisites: jr st or cons instr.
General Education Requirements: SS
Last Taught: Fall 2016, Spring 2014, Fall 2003, Fall 2002.
Current Offerings: http://uwm.edu/schedule

CRM JST 460 The Federal System: The FBI, Courts and Corrections
3 cr. Undergraduate.
Aspects of the federal criminal justice system; how law enforcement, courts, and corrections at the federal level are organized as well as special topics within these areas.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

CRM JST 480 Criminal Evidence and Investigation
3 cr. Undergraduate.
Examination of the criminal investigation process with emphasis on theory of investigation, role of criminal evidence, and effectiveness of the process.
Prerequisites: Crm Jst 110(P).
Current Offerings: http://uwm.edu/schedule

CRM JST 481 Criminalistics
3 cr. Undergraduate.
Instruction on collection, preservation, and analysis of physical evidence from crime scenes. Instruction on the rules of evidence and expert testimony.
Prerequisites: jr st; admis to Forensic Sci cert program; Crm Jst/Anthro/Chem/BMS(C L Sci) 281(P); Crm Jst 480(P).
Course Rules: Anthro 481, Chem 481, BMS(C L Sci) 481, and Crm Jst 481 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

CRM JST 490 Drugs, Crime and Criminal Justice
3 cr. Undergraduate/Graduate.
Overviews illicit drug use, the relationship between drugs and crime, and responses of criminal justice agencies to illegal drug use.
Prerequisites: jr st.
Course Rules: Counts as repeat of Crm Jst 592/970 w/same topic.
Current Offerings: http://uwm.edu/schedule

CRM JST 497 Study Abroad:
1-6 cr. Undergraduate/Graduate.
Variable content (subtitle is area of concentration). Designed to enroll students in UWM sponsored program before course work level, content and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

CRM JST 510 Introduction to Crime Analysis
3 cr. Undergraduate.
Introduction to crime analysis and crime mapping. Examines techniques, theory, data collection methods, statistics used, history of and career opportunities in crime analysis.
Prerequisites: Crm Jst 110(P).
Course Rules: Counts as repeat of Crm Jst 592 w/same topic.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CRM JST 520 Analysis Oriented Technology: Spatial Data Analysis; Crime Mapping; ArcGIS
3 cr. Undergraduate/Graduate.
Examines theories and applications to analyze data. Approaches include crime mapping and spatial analysis; strategic, administrative, and tactical crime analysis. Other methods are also covered.
Prerequisites: jr st; Crm Jst 110(P).
Current Offerings: http://uwm.edu/schedule

CRM JST 530 Data Driven Policing Strategies and Police Intelligence
3 cr. Undergraduate.
Examines data driven policing strategies and police intelligence. Approaches covered include: Problem-oriented Policing (POP), Smart Policing, Intelligence-led Policing, and Place-based Policing.
Prerequisites: Crm Jst 110(P).
Current Offerings: http://uwm.edu/schedule
CRM JST 585 Internship in Forensic Toxicology
1-3 cr. Undergraduate.
Prerequisites: jr st; admis to Forensic Sci cert prog; Anthro/Chem/BMS(C L Sci)/Crm Jst 281(P) & 285(P); Chem 221(P) or 223(P); Crm Jst 480(P); Hepatitis B vaccine series or waiver. Course Rules: Anthro 589, Chem 589, BMS(C L Sci) 589, & Crm Jst 585 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2002.
Current Offerings: http://uwm.edu/schedule

CRM JST 589 Internship in Death Investigation
1-3 cr. Undergraduate.
Prerequisites: jr st; admis to Forensic Sci cert prog; Crm Jst/Anthro/Chem/BMS(C L Sci) 281(P); Crm Jst 480(P); BMS(C L Sci) 620(R); Hepatitis B vaccine series or waiver. Course Rules: Anthro 589, Chem 589, BMS(C L Sci) 589 & Crm Jst 589 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

CRM JST 591 Senior Thesis
1-3 cr. Undergraduate. Thesis written under supervision.
Prerequisites: sr st, 2.5 GPA; wrt cons instr & dept. Last Taught: Summer 1991.
Current Offerings: http://uwm.edu/schedule

CRM JST 592 Critical Issues in Criminal Justice
1-3 cr. Undergraduate.
Current Offerings: http://uwm.edu/schedule

CRM JST 594 Internship in Forensic Science
1-3 cr. Undergraduate.
Prerequisites: jr st; admis to Forensic Sci cert prog; Anthro/Chem/BMS(C L Sci)/Crm Jst 281(P); Chem 221(P) or 223(P); Crm Jst 480(P); Hepatitis B vaccine series or waiver. Course Rules: Anthro 594, Chem 594, BMS(C L Sci) 594, & Crm Jst 594 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

CRM JST 599 Independent Reading
1-3 cr. Undergraduate.
Prerequisites: sr st; wrt cons instr & coord; gpa 2.5 or above. Course Rules: May be retaken to max of 6 cr.
Last Taught: Summer 2016, Fall 2015, Spring 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

CRM JST 662 Methods of Social Welfare Research
3 cr. Undergraduate.
Prerequisites: jr st. Course Rules: May be retaken to max of 6 cr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CRM JST 663 Criminal Justice Capstone Seminar
3 cr. Undergraduate.
Prerequisites: jr st.; completion of OWC-A GER. Course Rules: May be retaken to max of 6 cr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CRM JST 671 Juvenile Justice
3 cr. Undergraduate/Graduate.
Prerequisites: jr st; Crm Jst 110 (P). Course Rules: May be retaken to max of 6 cr.
Current Offerings: http://uwm.edu/schedule

CRM JST 680 Jails
3 cr. Undergraduate/Graduate.
Prerequisites: jr st; Crm Jst 110 (P). Course Rules: May be retaken to max of 6 cr.
Current Offerings: http://uwm.edu/schedule

CRM JST 713 Measuring Crime & Analyzing Crime Data
3 cr. Graduate.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

CRM JST 716 Advanced Analytic Techniques for Crime Analysts
3 cr. Graduate.
Prerequisites: grad st; Crm Jst 520(P), Crm Jst 713(P), Crm Jst 716(P)
Current Offerings: http://uwm.edu/schedule

CRM JST 743 Proseminar: Administration of Criminal Justice Systems
3 cr. Graduate.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

CRM JST 743 Proseminar: Administration of Criminal Justice Systems
3 cr. Graduate.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule
CRM JST 756 Proseminar: Analysis of Criminal Justice Research
3 cr. Graduate.
A study of the application of social science research methods to criminal justice issues.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

CRM JST 773 Perspectives on Crime and the Criminal Justice System
2-3 cr. Graduate.
An in-depth analysis of the etiology of criminal behavior; processes of becoming a criminal; patterns of criminal behavior; and policy and individual consequences of decriminalization.
Prerequisites: grad st.
Course Rules: Not open to students who have cr in Soc Wrk 773, which is identical to Crm Jst 773.
Current Offerings: http://uwm.edu/schedule

CRM JST 775 Race, Crime and Criminal Justice
3 cr. Graduate.
A study of crime and criminal justice issues as they impact major racial groups such as Blacks, American Indians, and Hispanics
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

CRM JST 783 Data Mining and Predictive Modeling for Crime Analytics
3 cr. Graduate.
Explores data mining and predictive analytics for crime analysts. Theoretical and practical applications of these techniques are explained.
Prerequisites: grad st.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

CRM JST 795 Issues in Law Enforcement Practice and Policy
3 cr. Graduate.
An examination of police practice in a democratic society from an operational, legal, and sociological perspective
Prerequisites: grad st.
Last Taught: Fall 2017, Spring 2016, Spring 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

CRM JST 810 Police Administration
3 cr. Graduate.
An application of management principles to the police organization.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

CRM JST 820 Police and the Multicultural Community
3 cr. Graduate.
A study of the critical issues facing police officers and administrators in relation to policing a diverse society, with particular emphasis on training leadership, minorities and women police officers, and police - community relations.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

CRM JST 830 Intervention Strategies for Correctional Clients
3 cr. Graduate.
A review and analysis of intervention approaches and programs used with correctional clients, both juvenile and adult, with emphasis on diversion, prevention, and rehabilitation strategies.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2014, Fall 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

CRM JST 840 Philosophical Foundations of Policing
3 cr. Graduate.
An in-depth analysis of the social theory of policing. The most significant theoretical and empirical works on policing are examined.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

CRM JST 850 Issues in Correctional Practice and Policy
3 cr. Graduate.
Overview of significant issues facing corrections, including sentencing, life imprisonment, violence and victimization in prison, supermax, evidence-based practices, and parole revocation.
Prerequisites: grad st
Last Taught: Fall 2016.
Current Offerings: http://uwm.edu/schedule

CRM JST 910 Methods and Practice Capstone for Crime Analysts
3 cr. Graduate.
Seminar in use of crime analysis techniques and synthesis of prior empirical research using crime analysis techniques.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

CRM JST 920 Criminal Justice Masters Capstone Seminar
3 cr. Graduate.
Seminar involving synthesis and integration of degree coursework on criminal justice theories, empirical research and program creation and implementation.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

CRM JST 970 Readings in Criminal Justice Research
3 cr. Graduate.
Variable content research oriented course involving systematic analysis and investigation of criminal justice topics.
Prerequisites: grad st; cons instr.
Course Rules: May be retaken to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

CRM JST 990 Thesis or Research Project
1-3 cr. Graduate.
Prerequisites: grad st; writ cons instr & coord grad prog.
Course Rules: May be repeated once for cr.
Current Offerings: http://uwm.edu/schedule
Crime Analysis, Undergraduate Certificate

The Department of Criminal Justice offers a specialization and a post-baccalaureate certificate in Crime Analysis. Crime analysts gather crime and disorder data, identify and analyze patterns, trends and problems, develop recommendations based on their findings, and create and disseminate information that helps criminal justice agencies address crime and allocate resources.

A sequence of courses will lead to a specialization in this growing area. Preparation includes a foundation in criminal justice and research methods; specialized coursework in crime analysis, analysis-oriented technology, and data-driven policing; and field placement in an agency setting with practicing professionals.

Requirements

Course of Study: Specialization in Crime Analysis

The specialization in Crime Analysis is designed for students completing their major in Criminal Justice and consists of 18 credits, with the following courses (or equivalents) required:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>INFOST 110</td>
<td>Introduction to Information Science and Technology</td>
<td>3</td>
</tr>
<tr>
<td>or INFOST 120</td>
<td>Information Technology Ethics</td>
<td></td>
</tr>
<tr>
<td>CRM JST 480</td>
<td>Criminal Evidence and Investigation</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 510</td>
<td>Introduction to Crime Analysis</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 520</td>
<td>Analysis Oriented Technology: Spatial Data Analysis; Crime Mapping; ArcGIS</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 530</td>
<td>Data Driven Policing Strategies and Police Intelligence</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 311</td>
<td>Field Experience Practicum</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits 18

Students must complete all coursework within the sequence. A minimum of 15 credits must be taken in residence at UWM.

Course of Study: Certificate in Crime Analysis

The Certificate in Crime Analysis is designed for students who already have a bachelor’s degree in any field and consists of 21 credits, with the following courses (or equivalents) required:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CRM JST 110</td>
<td>Introduction to Criminal Justice</td>
<td>3</td>
</tr>

freiburg@uwm.edu

http://uwm.edu/socialwelfare/academics/crime-analytics/

Criminal Justice, MS: Crime Analytics

The Department of Criminal Justice offers a Crime Analytics Concentration at the master’s level. A sequence of courses will lead to a concentration in this growing area. Preparation includes a foundation in criminal justice, research methods, and criminological theory. It also includes specialized coursework in measuring crime, crime mapping,
and analytic techniques for understanding crime and crime patterns. At
the conclusion of the program, students will complete a crime analytics
project to demonstrate their mastery of crime analytics.

Students entering the Concentration in Crime Analytics choose one of the
two tracks:

- Crime Analytics Track
- Advance Crime Analytics Track

General Degree Information
The School of Social Welfare offers a master's program of study in
criminal justice. The program is designed to educate students for
leadership positions in the field of criminal justice. The program also
provides a strong foundation for students anticipating advanced study
at the doctoral level. The curriculum is also designed to prepare Criminal
Justice professionals to understand all aspects of criminal justice policy.
Legal, organizational, political and behavioral frameworks are used
to analyze the operation of the criminal justice system. Students are
introduced to advanced knowledge on the nature and causes of crime,
the justification and means of social control, the administration of the
justice system, and the evaluation of criminal justice programs.

Admission Requirements
Application Deadlines
If at any time you are unsure about a published date or deadline (http://
uw.edu/graduateschool/program-deadlines), call the Registrar's Office
at (414) 229-3800 or submit a contact form (http://uw.edu/registrar/
contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uw.edu/
graduateschool/admission) plus these program requirements to be
considered for admission:

- Undergraduate degree, from an accredited university, in criminal
  justice, a related social science or other relevant educational
  experience.
- Undergraduate cumulative grade point average (GPA) of 3.00.
  (Applicants are advised that all coursework from all previous
  institutions will be included in this calculation. If coursework was
  repeated for credit, each attempt will also be included.)
- In addition, applicants with an undergraduate cumulative GPA
  between 2.75-2.99 may also be considered for admission but must
  also submit satisfactory scores on the verbal and quantitative
  sections of either the Graduate Record Examination (http://uw.edu/
  graduateschool/admission/#gre) (GRE) or the Miller Analogies Test
  (MAT).
- Two letters of recommendation from persons who are familiar with
  the applicant's academic record.
- It is recommended that applicants have completed a research
  methods course and a statistics course at the undergraduate level
  prior to beginning the program.

Application
Application must be made to the Graduate School. Applicants may be
admitted to the program for Fall, Spring or Summer (note graduate course
offerings may be limited in the summer session.) For further information
regarding the application process, please contact the Criminal Justice
Department office at (414) 229-2392.

Credits and Courses
The Master of Science in Criminal Justice consists of a minimum of 33
graduate credits:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CRM JST 713</td>
<td>Measuring Crime &amp; Analyzing Crime Data</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 743</td>
<td>Proseminar: Administration of Criminal Justice Systems</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 756</td>
<td>Proseminar: Analysis of Criminal Justice Research</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 773</td>
<td>Perspectives on Crime and the Criminal Justice System</td>
<td>2-3</td>
</tr>
<tr>
<td>CRM JST 920</td>
<td>Criminal Justice Masters Capstone Seminar</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Select an additional 12 credits of Criminal Justice Electives</td>
<td>12</td>
</tr>
<tr>
<td></td>
<td>Select an additional 6 credit hours taken elsewhere in the School of Social Welfare or in other UWM departments with the prior consent of advisor.</td>
<td>6</td>
</tr>
</tbody>
</table>

The student must pursue either Option A: Essay Option, or Capstone Option B: Non-Essay Option described below.

Option A: Essay Option
Students must complete the required prosemitters and, as part of the
33 graduate credits required, must complete 3 credits of research and a
graduate-level statistics course approved by the student's faculty advisor.
Students planning to go into doctoral programs are strongly encouraged
to pursue the essay option.

Essay
An acceptable essay must be written on the student's area of
concentration.

Comprehensive Examination
The student must pass a final oral examination in defense of the essay.

Option B: Non-Essay Option
Students must complete the 33 graduate credits required, including the
three prosemitters and the criminal justice capstone seminar course.

Crime Analytics Track
Students who complete the Crime Analytics Track will be prepared to
enter into crime analysis positions in law enforcement and in other
criminal justice organizations. To complete this track, students will take
the following series of courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CRM JST 520</td>
<td>Analysis Oriented Technology: Spatial Data Analysis; Crime Mapping; ArcGIS</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 713</td>
<td>Measuring Crime &amp; Analyzing Crime Data</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 716</td>
<td>Advanced Analytic Techniques for Crime Analysts</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 795</td>
<td>Issues in Law Enforcement Practice and Policy</td>
<td>3</td>
</tr>
</tbody>
</table>
  or CRM JST 850 | Issues in Correctional Practice and Policy                  | 3       |
Students who complete the Crime Analytics track will also be required to complete the requirements of the Master’s in Criminal Justice, for a total of 33 credits. Students who completed CRM JST 520 at the undergraduate level can have another course substituted for CRM JST 520 with the permission of the department chair. Students who take CRM JST 910 will not need to take CRM JST 920. Students must receive a B or better in all the listed required courses in order to have the concentration posted on their transcripts.

Advanced Crime Analytics Track

The Advanced Crime Analytics track will be intensive in research methods and advanced statistical analysis. Students who complete the advanced track with be prepared for jobs as advanced analyst, to work with big data, and to conduct advanced predictive modeling. To complete this track, students will take the following series of courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CRM JST 520</td>
<td>Analysis Oriented Technology: Spatial Data Analysis; Crime Mapping; ArcGIS</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 713</td>
<td>Measuring Crime &amp; Analyzing Crime Data</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 716</td>
<td>Advanced Analytic Techniques for Crime Analysts</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 795</td>
<td>Issues in Law Enforcement Practice and Policy</td>
<td>3</td>
</tr>
<tr>
<td>or CRM JST 850</td>
<td>Issues in Correctional Practice and Policy</td>
<td>3</td>
</tr>
<tr>
<td>SOC WRK 962</td>
<td>Applied Multiple Regression Analysis</td>
<td>3</td>
</tr>
<tr>
<td>SOC WRK 963</td>
<td>Measurement Methods and Related Multivariate Statistics</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 783</td>
<td>Data Mining and Predictive Modeling for Crime Analytics</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 910</td>
<td>Methods and Practice Capstone for Crime Analysts</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits: 24

Students who complete the Advanced Crime Analysts track will also be required to complete the requirements of the Master’s in Criminal Justice, for a total of 36 completed credits. Students who completed CRM JST 520 at the undergraduate level can have another course substituted for CRM JST 520 with the permission of the department chair. Students who take CRM JST 910 will not need to take CRM JST 920. Students must receive a B or better in all the listed required courses in order to have the concentration posted on their transcripts.

Program Requirements

Major Professor as Advisor

The student must have a faculty advisor to advise and supervise the student’s studies as specified in Graduate School regulations. At the time of admission, the Graduate Program Director will assign each student to a faculty advisor. Students who begin to work closely with a particular faculty member with expertise in their area of interest may request that this faculty member serve as their advisor. Students who pursue the Essay Option must choose a faculty member to serve as their major professor.

Time Limit

The student must complete all degree requirements within seven years of initial enrollment.

Criminal Justice, BS

Study in the field of criminal justice examines the component parts of criminal justice – police, courts, and corrections – and seeks to gain an understanding of the interdependencies among them. Courses emphasize the role of criminal justice agencies in society, particularly in relation to the impact of alternative criminal justice policies on society and social problems. The program prepares students as generalists in criminal justice and is well suited for those who want to pursue graduate work in criminal justice, law, public administration, and the social sciences.

Thousands of our graduates have gone on to careers with the public sector, private sector and non-profit organizations, including jobs such as FBI agent, intelligence analyst, police officer, evidence technician, border patrol agent, computer security expert, probation officer, customs inspector, and private investigator.

Requirements

Criminal justice intended majors spend their first two years building a liberal arts foundation and fulfilling proficiency requirements. Freshmen and sophomores may begin to take courses offered in the Helen Bader School of Social Welfare.

The major in criminal justice requires a minimum of 36 credits in criminal justice courses, and 27 credits in social science courses, for a minimum of 63 credits for the major. The Department requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including transfer work, to meet graduation requirements.

General Curriculum Requirements: Social Work and Criminal Justice

For courses that satisfy the distribution requirements in humanities, natural science, and social science, see the GER listing in the current Timetable (http://www4.uwm.edu/schedule). The UWM General Education Requirements (p. 33) apply to all students who were not enrolled in an accredited institution prior to 1986.

English

Refer to Proficiency Requirements in General Education Requirements. Contact a school advisor for specific information.

Mathematics

Refer to Proficiency Requirements in General Education Requirements. Contact a school advisor for specific information.

Liberal Arts Foundation

Arts
Select 3 credits of General Education-approved arts course in the history, philosophy, theory, or practice of the creative and interpretive arts

Foreign Language
Completion of two years of high school-level instruction in a single foreign language, or satisfactory completion of at least two semesters of a single foreign language, or approved demonstration of foreign language ability

Humanities
COMMUN 103 Public Speaking 3
Select 9 credits of General Education-approved humanities courses

Natural Science
Select 6 credits of General Education-approved natural science courses to include a lab or field course

United States History and Institutions
Select Option 1: History 151 and 152 or Option 2: one 400 level U.S. history course plus one additional course listed below.

Option 1:
HIST 151 American History: 1607 to 1877
& HIST 152 American History: 1877 to the Present

Option 2:
HIST 4XX 400 level U.S. History Course
and one of the following:
ECON 100 Introductory Economics
ECON 103 Principles of Microeconomics
POL SCI 104 Introduction to American Government and Politics
POL SCI 105 State Politics
POL SCI 385 American Political Thought
POL SCI 405 State Government:
POL SCI 411 Constitutional Law: Government Powers and Federalism
POL SCI 412 Constitutional Law: Civil Rights and Liberties
POL SCI 471 Problems in Law Studies:
SOCIO 200 Contemporary American Society

Total Credits 27

Fieldwork
Fieldwork is not required, but highly recommended.

Undergraduate Academic Advising
The Office of Student Services in the Helen Bader School of Social Welfare, located in Enderis Hall Room 1110, offers undergraduate student academic advising from professional advisors who are familiar with the Social Work and Criminal Justice curriculum, College requirements, and university policies. Advisors can also provide information on scholarship opportunities, tutoring, and student organizations that align with a student’s interests.

These advisors provide services such as new freshman orientation, course selection, assistance with registration, and review of transfer credit. Students are assigned to a permanent professional advisor upon admittance into the Helen Bader School of Social Welfare and are encouraged to meet with their academic advisor at least once each semester. Please call (414) 229-4852 to schedule an appointment or for more information.
Transfer Students

The Helen Bader School of Social Welfare welcomes students from other academic areas on the UWM campus and students transferring to UWM from other institutions. Students planning to transfer into either major from another institution should meet with an academic advisor as soon as they are admitted and the transfer credit evaluation process has been completed. During this meeting, the student and advisor will review transfer course equivalencies, discuss program requirements, and create an academic plan for coming semesters. Students may meet with their advisor in person or by phone. Please call (414) 229-4852 to schedule an appointment or for more information.

Honors in the Major

Honors in the Major are granted to students who have earned a GPA of 3.500 or above in major courses, including social science credits completed at UWM.

Honors in the School of Architecture and Urban Planning

Dean's Honor List

GPA of 3.750 or above (Levels 1, 2), earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Criminal Justice, Minor

Students interested in a minor in criminal justice can pursue one of two tracks:

- Standard Track
- Crime Analysis Track

Requirements

Standard Track

The standard minor track requires a minimum of 18 credits in criminal justice courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CRM JST 110</td>
<td>Introduction to Criminal Justice</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 271</td>
<td>Police Process</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 273</td>
<td>Correctional Process</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 275</td>
<td>Criminal Court Process</td>
<td>3</td>
</tr>
</tbody>
</table>

Electives

Select 6 credits in courses at the 300 level or above

Total Credits: 18

Credits earned in CRM JST 311 and CRM JST 599 do not count toward the minimum number of credits required for the standard minor track.

Crime Analysis Track

The crime analysis minor track consists of 18 credits, with the following courses (or equivalents approved by the department chairperson) required:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CRM JST 110</td>
<td>Introduction to Criminal Justice</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 480</td>
<td>Criminal Evidence and Investigation</td>
<td>3</td>
</tr>
<tr>

<td>3</td>
</tr>
<tr>
<td>CRM JST 530</td>
<td>Data Driven Policing Strategies and Police Intelligence</td>
<td>3</td>
</tr>
<tr>
<td>CRM JST 311</td>
<td>Field Experience Practicum</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits: 18

A minimum of 15 credits must be taken in residence at UWM.

Criminal Justice, MS

The School of Social Welfare offers a master's program of study in criminal justice. The program is designed to educate students for leadership positions in the field of criminal justice. The program also provides a strong foundation for students anticipating advanced study at the doctoral level. The curriculum is also designed to prepare Criminal Justice professionals to understand all aspects of criminal justice policy. Legal, organizational, political and behavioral frameworks are used to analyze the operation of the criminal justice system. Students are introduced to advanced knowledge on the nature and causes of crime, the justification and means of social control, the administration of the justice system, and the evaluation of criminal justice programs.

Requirements

Admission Requirements

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office.
at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these program requirements to be considered for admission:

- Undergraduate degree, from an accredited university, in criminal justice, a related social science or other relevant educational experience.
- Undergraduate cumulative grade point average (GPA) of 3.00. (Applicants are advised that all coursework from all previous institutions will be included in this calculation. If coursework was repeated for credit, each attempt will also be included.)
- In addition, applicants with an undergraduate cumulative GPA between 2.75-2.99 may also be considered for admission but must also submit satisfactory scores on the verbal and quantitative sections of either the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre) (GRE) or the Miller Analogies Test (MAT).
- Two letters of recommendation from persons who are familiar with the applicant’s academic record.
- It is recommended that applicants have completed a research methods course and a statistics course at the undergraduate level prior to beginning the program.

Application
Application must be made to the Graduate School. Applicants may be admitted to the program for Fall, Spring or Summer (note graduate course offerings may be limited in the summer session.) For further information regarding the application process, please contact the Criminal Justice Department office at (414) 229-2392.

Credits and Courses
The Master of Science in Criminal Justice consists of a minimum of 33 graduate credits:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Courses taken within the Criminal Justice program</td>

<td>6</td>
<td></td>
</tr>
</tbody>
</table>

The student must pursue either Option A: Essay Option, or Capstone Option B: Non-Essay Option described below.

Option A: Essay Option
Students must complete the required proseminars and, as part of the 33 graduate credits required, must complete 3 credits of research and a graduate-level statistics course approved by the student’s faculty advisor. Students planning to go into doctoral programs are strongly encouraged to pursue the essay option.

Essay
An acceptable essay must be written on the student’s area of concentration.

Comprehensive Examination
The student must pass a final oral examination in defense of the essay.

Option B: Non-Essay Option
Students must complete the 33 graduate credits required, including the three proseminars and the criminal justice capstone seminar course.

Program Requirements

Major Professor as Advisor
The student must have a faculty advisor to advise and supervise the student’s studies as specified in Graduate School regulations. At the time of admission, the Graduate Program Director will assign each student to a faculty advisor. Students who begin to work closely with a particular faculty member with expertise in their area of interest may request that this faculty member serve as their advisor. Students who pursue the Essay Option must choose a faculty member to serve as their major professor.

Time Limit
The student must complete all degree requirements within seven years of initial enrollment.

Criminal Justice, MS/Public Administration, MPA
Both departments collaboratively offer a program designed to provide students with theoretical and practical exposure to evolving professional practice in the field of criminal justice.

Requirements

Admission Requirements
Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/Registrar/contact-us) online.

Admission
Students are admitted to both graduate programs separately and admission requirements are consistent with those specified by the UWM Graduate School, the MS in Criminal Justice and the MPA program.

Credits and Courses
Students accepted into this MS/MPA program complete the following courses:
Criminal Justice, MS/Social Work, MSW

M.S. in Criminal Justice

Select 12 additional credits with the consent of the student’s advisor 12

Total Credits 33

Master of Public Administration

Students entering the MPA program will be placed, at the discretion of the MPA Director in one of two tracks (A or B) within the core. The minimum degree requirement is 39 credits for Track A and 42 for Track B.

Track A

Students with significant public or nonprofit sector work experience may, at the discretion of the MPA Director, have PUB ADM 921 waived. Students seeking placement in this track will need to meet with the MPA Director to discuss this possibility and will be required to provide documentation of current public or nonprofit sector work experience.

Track B

Students with no significant public or nonprofit sector work experience are required to enroll in and successfully complete PUB ADM 921. As part of the requirements for this course, Track B students are required to obtain, with the assistance of the MPA Director, one or more internships in either the public or nonprofit sector while enrolled in the MPA program.

Total Credits 42

1. Every student will be required to take the capstone seminar, PUB ADM 959. The course requirements will include the completion and written and oral presentation of a project on a topic selected with the assistance of the instructor. This course will also be devoted to coverage of special issues and problems of the public administration profession, including administrative ethics.

2. An internship is mandatory for students with no public sector work experience.

Total Degree Credits for Master of Public Administration: 48-51 cr

The total credits for the coordinated program would typically be completed in both programs at the same time, rather than one program after the other. A student not completing the requirements for the coordinated degree program would need to complete all requirements for an individual program in order to receive a degree.

Program Requirements

Time Limit

Students in the coordinated MS/MPA degree program must complete all degree requirements within seven years of the first enrollment semester as a degree student.

Criminal Justice, MS/Social Work, MSW

Both departments in the Helen Bader School of Social Welfare collaboratively offer a program designed to provide students with theoretical and practical exposure to evolving professional practice in the field of criminal justice, or social work with a focus on criminal justice (e.g., corrections, juvenile justice, probation and parole, etc).

Requirements

Admission Requirements

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.
Admission
Students are admitted to both graduate programs separately and admission requirements are consistent with those specified by the UWM Graduate School, the MS in Criminal Justice and the MSW program in the Helen Bader School of Social Welfare.

Credit and Courses
Students accepted into this MS/MSW program complete the following courses:

Electives

| Select 6 credits of electives 3 | 6 |

Total Credits 89

1 The capstone requirement is satisfied by SOC WRK 822.
2 Requires sections to be selected from within the specialized concentration area.
3 Electives selected from among successfully completed CJ courses in consultation with faculty advisor.

The total credits for the coordinated program would typically be completed in both programs at the same time, rather than one program after the other. Degrees will be awarded simultaneously.

Program Requirements

Time Limit
Students in the coordinated MS/MSW degree program must complete all degree requirements within seven years of the first enrollment semester as a degree student.

Death Investigation, Undergraduate Certificate (Helen Bader School of Social Welfare, Department of Criminal Justice)

The Biomedical Sciences Program, Criminal Justice Program, and Departments of Anthropology and Chemistry cooperate in offering three certificates in the area of forensic sciences. Sponsored jointly by the Colleges of Letters and Science and Health Sciences and the Helen Bader School of Social Welfare, these certificate curricula are designed to train students in basic skills that will provide the foundation for careers in the fields of law enforcement, death investigation, pathology, and toxicology. Certificates are offered in Death Investigation, Forensic Science, and Forensic Toxicology. Where applicable, the curriculum meets the criteria required for professional certification examinations (Medicolegal Death Investigation, Toxicological Chemist).

Eligibility
Undergraduate students who pursue a forensic sciences certificate maintain their identity as majors in their home departments and continue to progress toward a baccalaureate degree while in the certificate program. Courses include lecture presentations and laboratory experiences that cover fundamental areas of forensic science and
provide unique instruction on techniques that are essential in the specific certificates. Students are given instruction by faculty members at UWM and forensic professionals in the Milwaukee community. Any of the programs may be pursued as a post-baccalaureate educational certificate. Individuals who are not enrolled in a degree program at UWM, but are seeking continuing education for career development, may be admitted to courses in the certificate programs by meeting prerequisites with equivalent experience or consent of the instructor.

Requirements

To receive a certificate in Death Investigation, Forensic Science, or Forensic Toxicology, students must complete at least one half of the required credits on the UWM campus. A minimum grade point average of 2.500 must be achieved on the required credits. All options within the certificate require at least a basic knowledge of chemistry and biology. To meet this requirement, prior to registering themselves in the certificate require at least a basic knowledge of chemistry and biology. To meet this requirement, prior to registering themselves in the certificate program, students must successfully complete CHEM 100 or equivalent and BIO SCI 100 or equivalent.

The following courses must be completed successfully to obtain a Certificate in Death Investigation:

Students are given instruction by faculty members at UWM and forensic professionals in the Milwaukee community. Any of the programs may be pursued as a post-baccalaureate educational
**Army ROTC**

UW-Milwaukee students have the opportunity to participate in the Army Reserve Officers Training Corps (AROTC) at Marquette University. The AROTC program provides university students with leadership, management, technical, and tactical skills that will enable them to start their journey as commissioned officers in the United States Army, Army Reserve, or Army National Guard.

Army ROTC is not a major field of study. It is a program in which students pursue a baccalaureate degree of their choice and take AROTC courses in military-oriented subject matter. AROTC provides a general knowledge of the contemporary role of the Army in support of national objectives and a practicum in management and leadership skills. Credits earned in military science courses apply toward graduation requirements.

The Army ROTC program offers competitive two-, three-, and four-year scholarships to qualified students. Currently, the scholarships offered for UWM students cover full tuition and fees or room and board, $1,200 a year for books, and a $300-$500 monthly stipend.

**General Eligibility**

To be eligible for an AROTC scholarship, students must:

- Be a United States citizen;
- Be a full-time student;
- Have no major civil convictions;
- Not be a conscientious objector;
- Be medically qualified;
- Have a minimum 2.5 GPA; and
- Have a minimum ACT score of 19 or SAT score of 950.

The Army ROTC program is divided into two parts: the basic course (freshman and sophomore years) and the advanced course (junior and senior years). The freshman year course currently is being offered at UWM; the remainder of the courses are offered at Marquette University. Credit hours earned at Marquette University are transferred to UWM student transcripts and count towards GPA and elective credit.

**Basic Course**

In the basic course, cadets learn basic military skills and receive the foundation for leadership and management skills that are expanded during the advanced course. The basic course is open to all full-time UWM students without any obligation to the Army.

**Advanced Course**

During the advanced course, cadets learn more extensive leadership and management skills, and they are placed into various leadership positions in the battalion. Cadets also develop skills and attributes that are essential for all commissioned officers in the U.S. Army.

In addition to completing the military science courses, advanced-course students are required to attend the Advanced Leadership Course at Fort Lewis, Washington, during the summer between the junior and senior years. During this five-week camp, cadets are expected to apply all of the skills that they have learned in the AROTC program. In addition, cadets are offered the opportunity to compete for a chance to attend Airborne School, Air Assault School, or Cadet Troop Leadership Training (CTLT).

CTLT is an “internship” in which cadets have a chance to see what a Second Lieutenant does on an active duty Army post.

To qualify for the Advanced Course, students must accomplish one of the following:

- Complete the two years of the basic course;
- Attend the Basic Leaders Course, a six-week camp at Fort Knox, Kentucky; or
- Complete U.S. Army Basic Training or its equivalent.

**Field Exercises**

Once a semester, all of the cadets in the program go to Fort McCoy, Wisconsin, to practice all of the skills that they have learned. Advanced course cadets also are given the opportunity to improve their leadership skills by being placed in various leadership positions leading other cadets.

**Physical Training**

Three times a week, cadets are required to attend physical training (PT). During PT, cadets do physical activities such as push-ups, sit-ups, and running. PT currently is conducted at both UWM and Marquette University.

For more information about enrolling in the Army ROTC program, contact army-rotc@uwm.edu or the Department of Military Science at Marquette University, (414) 288-7195, or www.marquette.edu/rotc/army (http://www.marquette.edu/rotc/army).

**Air Force ROTC**

UW students have the opportunity to participate fully in the Air Force Reserve Officers Training Corps (AFROTC) Program. Students enrolled in the Air Force ROTC program attend AFROTC courses at Marquette University.

Through this program, UWM offers its students the opportunity to prepare for initial active duty assignments as Air Force Commissioned Officers. In order to receive a commission, AFROTC cadets must complete all university requirements for a degree and courses specified by the Air Force. AFROTC offers four- and three-year programs leading to a commission as an Air Force officer. Four-year program students complete the general military course and the professional officer course.

**General Eligibility**

- Be a full-time student;
- Be a United States citizen (for scholarship appointment);
- Be in good physical condition;
- Be of good moral character;
- For pilot or navigator training, fulfill all commissioning requirements before age 29;
- For scholarship recipients, fulfill all commissioning requirements before age 31; and
- For non-scholarship students, fulfill all commissioning requirements before age 31.

**General Military Course**

The first- and second-year educational program in Air Force Aerospace Studies consists of a series of one-hour courses designed to give students basic information on world military systems and the role of the U.S. Air Force in the defense of the free world. All required textbooks
and uniforms are provided free. The general military course is open to all students at UWM without advance application and does not obligate students to the Air Force in any way.

**Field Training**

AFROTC Field Training is offered during the summer months at Maxwell Air Force Base, Alabama, and provides leadership and officer training in a structured military environment. Major areas of study include physical training, drill and ceremony, marksmanship, and survival training. The Air Force pays all expenses associated with field training.

**Professional Officer Course**

The third and fourth years of Air Force Aerospace Studies are designed to develop skills and attitudes vital to the professional officer. Students completing the professional officer course are commissioned as officers in the U.S. Air Force upon college graduation. All students in the professional officer course receive a non-taxable subsistence allowance per month during the academic year. Students wanting to enter the professional officer course should apply early in the spring semester in order to begin this course of study in the following fall semester.

**Leadership Lab**

Leadership Lab is a cadet-centered activity. It is largely cadet-planned and -directed, in line with the premise that it provides leadership training experience that will improve a cadet’s ability to perform as an Air Force officer. The freshman and sophomore leadership laboratory program introduces Air Force customs and courtesies, drill and ceremonies, wearing the uniform, career opportunities in the Air Force, education and training benefits, the life and work of an Air Force officer, and opportunities for field trips to Air Force installations throughout the U.S. Initial experiences include preparing the cadet for individual squadron and flight movements in drill and ceremonies and for the field training assignment prior to the junior year.

The junior and senior leadership laboratory program involves the cadets in advanced leadership experiences. Cadet responsibilities include planning and directing the activities of the cadet corps, preparing briefings and written communications, and providing interviews, guidance, information, and other services that will increase the performance and motivation of other cadets.

**AFROTC College Scholarship and High School Scholarship Programs**

While participating in AFROTC, scholarship students receive a stipend per month along with paid tuition, fees, and a fixed textbook reimbursement. To be eligible for either of these programs, students must:

- Be a U.S. citizen;
- Be at least 17 years of age on the date of enrollment and under 31 years of age on December 31 of the estimated year of commissioning;
- Pass an Air Force physical exam;
- Be selected by a board of Air Force officers;
- Have no moral objections or personal convictions that prevent bearing arms and supporting and defending the Constitution of the United States against all enemies, foreign and domestic (applicants must not be conscientious objectors);
- Maintain a 2.5 grade point average.

High school students can apply for scholarships late in their junior year or early in their senior year. Information on Air Force ROTC and applications for Air Force scholarships are available at www.AFROTC.com (http://www.afrotc.com). Scholarship applications will not be accepted after December 1 of the year before entering college.

For more information, contact the Department of Aerospace Studies at Marquette University, (414) 288-7682.

**Naval ROTC**

The Naval Science Department at Marquette University administers the Naval Reserve Officers Training Corps (NROTC) program. Graduates who complete all requirements will receive reserve commissions and serve on active duty in the Navy or Marine Corps with a minimum three-year commitment for non-scholarship students and five-year commitment for scholarship students.

**Scholarships**

NROTC offers two-, three-, and four-year scholarships to qualified applicants. Four-year scholarships are awarded on a national level to qualified high school applicants (visit www.nrotc.navy.mil (http://www.nrotc.navy.mil) for more information and to apply). Two- and three-year scholarships are awarded to students who have completed at least one, but not more than four, terms of college while a member of the NROTC Unit. Two-year scholarships for students who are entering their junior year and have not previously been enrolled in the NROTC program also are available.

Students entering UWM with a four-year scholarship, earned on a competitive basis while still in high school, will receive full tuition, fees, laboratory expenses, a stipend for books, and a subsistence allowance of $250 to $400 per month, depending on class year. Necessary uniforms and textbooks for required Naval Science courses are issued as well.

**General Eligibility**

- Be a U.S. citizen;
- Not less than 17 years old by Sept. 1 of year starting college, and no more than 23 on June 30 of that year;
- Be of good moral character;
- Be a high school graduate;
- Be 27 or younger by June 30 of the year you will graduate;
- Be physically qualified by Navy/Marine Corps standards; and
- Achieve qualifying scores on the SAT or ACT

**ACT:** 22 verbal, 22 math (22 composite for Marine Corps)

**SAT:** 530 verbal, 520 math (1000 composite for Marine Corps).

Students not on scholarship can still participate in the NROTC College Program. They receive uniforms and Naval Science textbooks, and $350 and $400 per month during their junior and senior years, respectively. All College Program students are eligible to compete for Naval Education and Training Command scholarships. Students are selected on a competitive basis after completing at least one term as an NROTC College Program student. Selection boards meet semiannually in March and June to consider students based on their most recent term. Students may receive scholarship benefits for three or two academic years. Once selected, the students receive the same benefits and incur the same active duty requirements as students in the four-year scholarship program.

The Naval Science Department teaches Naval Science courses and supervises a midshipman-run drill program that instills leadership skills and professional development in all members of the midshipman battalion. All midshipmen are required to register for and participate in the midshipman-run drill program.
in this two-hour weekly drill period, which occurs at the Marquette University Gymnasium. One Naval Science class each term is also required, with the exception of Nurse Corps and Marine Corps Options. Students enrolled in the program from UWM attend Naval Science classes at Marquette as “cross-town” students, while the rest of their major is completed on the UWM campus. Midshipmen on scholarship or in advanced-standing status also are required to attend a four- to six-week training period each summer. This summer training introduces midshipmen to the fleet and to the life of a junior Naval Officer. The summer training period also provides an orientation to each of the different warfare specialties available upon graduation (aviation, surface, submarine, and the Marine Corps).

All Navy Option scholarship students are required to complete one year of calculus by the end of their sophomore year, and one year of calculus-based physics by the end of their junior year. Navy Option college program students must complete one year each in mathematics and physical science. One course on World Cultural Awareness, one year of English, and either an American Military History or National Security Policy course also are required for all NROTC students.

All scholarships are awarded on the basis of merit and personal qualifications. Neither a Parents’ Confidential Financial Statement nor a standard FAF is required for consideration for Naval ROTC scholarships.

For more information, contact the Department of Naval Science at Marquette University, (414) 288-7076, or visit our website at [www.marquette.edu/rotc/navy](http://www.marquette.edu/rotc/navy).

### Air Force & Aerospace Studies Courses

**AFAS 101 Foundations of the United States Air Force 1**
3 cr. Undergraduate.
Introduction to communication skills and the US Air Force. Overview of the basic characteristics, missions, and organization.
Prerequisites: none.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

**AFAS 102 Foundations of the United States Air Force 2**
1 cr. Undergraduate.
Continuation of AFAS 101.
Prerequisites: none.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

**AFAS 201 Evolution of the Air Force/Air and Space Power 1**
1 cr. Undergraduate.
Air Force heritage and leaders; introduction to air and space power; and continued application of communication skills.
Prerequisites: none.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

**AFAS 202 Evolution of the Air Force/Air and Space Power 2**
3 cr. Undergraduate.
Continuation of AFAS 201.
Prerequisites: none.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

### Military Science Courses

**MIL SCI 101 Military Physical Training and Conditioning I**
1 cr. Undergraduate.
Goal-oriented, small unit approach to physical conditioning and military drill.
Prerequisites: none.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

**MIL SCI 102 Military Physical Training and Conditioning II**
1 cr. Undergraduate.
Goal-oriented, small unit approach to physical conditioning and military drill.
Prerequisites: Mil Sci 101(P) or cons instr.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

**MIL SCI 110 Leadership and Personal Development**
1 cr. Undergraduate.
Personal challenges and competencies that are critical for effective leadership and the structure of the ROTC.
Prerequisites: none.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

**MIL SCI 120 Introduction to Leadership**
1 cr. Undergraduate.
Issues and competencies that are central to a commissioned officer’s responsibilities.
Prerequisites: Mil Sci 110(P) or cons instr.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)
MIL SCI 201 Military Physical Training and Conditioning III
1 cr. Undergraduate.
Goal-oriented, small unit approach to physical conditioning and military drill.
Prerequisites: Mil Sci 102(P) or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MIL SCI 202 Military Physical Training and Conditioning IV
1 cr. Undergraduate.
Goal-oriented, small unit approach to physical conditioning and military drill.
Prerequisites: Mil Sci 201(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

MIL SCI 210 Foundations of Leadership
2 cr. Undergraduate.
The dimensions of creative and innovative tactical leadership strategies and styles.
Prerequisites: Mil Sci 120(P) or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MIL SCI 220 Foundations of Tactical Leadership
2 cr. Undergraduate.
The challenges of leading teams in the complex operational environment.
Prerequisites: Mil Sci 210(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

MIL SCI 301 Military Physical Training and Conditioning V
1 cr. Undergraduate.
Goal-oriented, small unit approach to physical conditioning and military drill.
Prerequisites: Mil Sci 202(P) or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MIL SCI 302 Military Physical Training and Conditioning VI
1 cr. Undergraduate.
Goal-oriented, small unit approach to physical conditioning and military drill.
Prerequisites: Mil Sci 301(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

MIL SCI 310 Adaptive Team Leadership
3 cr. Undergraduate.
The study, practice and application of Army leadership in team or squad situations.
Prerequisites: Mil Sci 220(P) or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MIL SCI 320 Applied Team Leadership
3 cr. Undergraduate.
The study and practice of small unit tactics at the team and squad level.
Prerequisites: Mil Sci 310(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

MIL SCI 401 Military Physical Training and Conditioning VII
1 cr. Undergraduate.
Goal-oriented, small unit approach to physical conditioning and military drill.
Prerequisites: Mil Sci 302(P) or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MIL SCI 402 Military Physical Training and Conditioning VIII
1 cr. Undergraduate.
Goal-oriented, small unit approach to physical conditioning and military drill.
Prerequisites: Mil Sci 401(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

MIL SCI 410 Adaptive Leadership
2 cr. Undergraduate.
Methods of training, mentoring and evaluating subordinate personnel.
Prerequisites: Mil Sci 320(P) or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MIL SCI 420 Leadership in a Complex World
2 cr. Undergraduate.
Differences in customs and courtesies, military law, principles of war, COIN, and Rules of Engagement in the face of persistent conflict.
Prerequisites: Mil Sci 410(P) or cons instr.
Current Offerings: http://uwm.edu/schedule
SOCIAL WORK

Study in the field of social work examines social problems from multiple perspectives and encourages change among individuals, families, groups, organizations and communities. Social work practitioners work in child welfare, gerontology, mental and physical health, and community leadership. This program partners with hundreds of agencies to prepare graduates with hands-on field experience.

Programs

- Applied Data Analysis Using SAS, Graduate Certificate (p. 1919)
- Applied Gerontology, Graduate Certificate (Helen Bader School of Social Welfare, Department of Social Work) (p. 1920)
- Social Welfare, PhD (p. 1921)
- Social Work, BS (p. 1924)
- Social Work, MSW (p. 1926)
- Social Work, MSW/Criminal Justice, MS (p. 1928)
- Social Work, MSW/Social Welfare, PhD (p. 1929)
- Social Work, MSW/Women's and Gender Studies, MA (p. 1932)
- Trauma Informed Care, Graduate Certificate (Helen Bader School of Social Welfare, Department of Social Work) (p. 1933)
- Youth Work, Undergraduate Certificate (Helen Bader School of Social Welfare, Department of Social Work) (p. 1934)

Social Work Courses

SOC WRK 100 Introduction to Social Work
3 cr. Undergraduate.
A survey course focused on the development of human service institutions and occupations.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

SOC WRK 105 Orientation for Social Welfare Students
1 cr. Undergraduate.
Prepares students to participate in UWM’s educational process and to explore career choices in social welfare.
Prerequisites: fr st only.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

SOC WRK 112 Field Observation
1 cr. Undergraduate.
Introduction to the services of a social welfare setting through placement in an approved social service, health, law enforcement, or recreational setting. Minimum of 3 hours per week.
Prerequisites: soph st.
Current Offerings: http://uwm.edu/schedule

SOC WRK 206 Introduction to Social Welfare Policy
3 cr. Undergraduate.
An analysis of the relationships between poverty, welfare programs, and the society which creates and sustains them; the origins, structures, and goals of welfare programs.
Prerequisites: soph st.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

SOC WRK 250 Human Behavior and the Social Environment
3 cr. Undergraduate.
A survey course in normative development from conception through aging. Focus on the interaction between biological, psychological, social, and cultural forces.
Prerequisites: soph st; Soc Wrk 100(P) or Psych 101(C).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

SOC WRK 291 Current Issues in Social Welfare and Social Work:
1-3 cr. Undergraduate.
Selected current issues in Social Welfare and Social Work.
Prerequisites: none.
Course Rules: May be retaken with change in topic to max of 6 cr.
Current Offerings: http://uwm.edu/schedule

SOC WRK 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content and credits are determined and/or in specially prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken with change in topic.
Current Offerings: http://uwm.edu/schedule

SOC WRK 300 Aged to Perfection: Introduction to the Study of Aging
3 cr. Undergraduate.
Interdisciplinary survey on aging.
Prerequisites: Satisfaction of OWC- Part A GER.
General Education Requirements: OWCB, SS
Last Taught: Spring 2018, Fall 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

SOC WRK 310 Social Work Methods I
3 cr. Undergraduate.
Introduction to generic Social Work practice methods. Course also provides experiential exercises designed to provide students with basic interviewing skills.
Prerequisites: jr st; Soc Wrk 100(P), 250(P), & SW 206(C); satisfaction of OWC-A GER.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
SOC WRK 410 Social Work Methods II
3 cr. Undergraduate.
Introduction to social work methods as applied to small groups. Lab provides experiential exercises in group interactions, needs, and leadership roles.
Prerequisites: jr st; admis to Soc Wrk major; satisfaction of OWC-A GER; Soc Wrk 310(P); 421(C).
General Education Requirements: OWC
Current Offerings: http://uwm.edu/schedule

SOC WRK 421 Field Education & Integrated Field Seminar I
5 cr. Undergraduate.
1st of two consecutive semester practicum, and weekly field seminar which provides an opportunity to develop and demonstrate social work skills. 256 hours per semester.
Prerequisites: 
Current Offerings: http://uwm.edu/schedule

SOC WRK 422 Field Education & Integrated Seminar II
5 cr. Undergraduate.
(Second of a two semester required sequence). Continuation of Soc Wrk 421.
Prerequisites: Grade of B or better in Soc Wrk 410(P) and Soc Wrk 421(P); 427(C).
Current Offerings: http://uwm.edu/schedule

SOC WRK 423 Field Education III
5 cr. Undergraduate.
(Elective field course). Continuation of Soc Wrk 421 & 422.
Prerequisites: sr st; Soc Wrk 422(P), 427(P); cons Field Office.
Last Taught: Spring 2018, Fall 2014, Fall 2010, Fall 2009.
Current Offerings: http://uwm.edu/schedule

SOC WRK 427 Social Work Methods III
3 cr. Undergraduate.
Introduction to social work methods as applied to community problems. Lab provides experiential exercises in community organization and other techniques of social change.
Prerequisites: grade of B or better in Soc Wrk 410(P) & Soc Wrk 421 (P); Soc Wrk 422(C).
Current Offerings: http://uwm.edu/schedule

SOC WRK 497 Study Abroad:
1-6 cr. Undergraduate/Graduate.
Variable content (subtitle is area of concentration). Designed to enroll students in UWM sponsored program before course work level, content and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

SOC WRK 562 Child and Family Services
2 cr. Undergraduate/Graduate.
Introduction to child and family welfare services, including methods for assessing needs, existing treatment techniques, and institutional support systems.
Prerequisites: jr st, satisfy English competency, one prior course in Soc Wrk recom; or grad st.
Last Taught: Fall 2016, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

SOC WRK 564 Social Services for the Aging
2 cr. Undergraduate/Graduate.
Individual and societal implications of the aging process, with an emphasis upon current resources and programs for the elderly.
Prerequisites: jr st, satisfy English competency, one prior course in Soc Wrk recom; or grad st.
Last Taught: Fall 2016, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

SOC WRK 580 An Overview of Child/Youth Care
3 cr. Undergraduate/Graduate.
Survey of skills, theories and approaches of the youth work field. Emphasis on relationship-building, interactive and developmental approaches in a variety of settings.
Prerequisites: jr st or cons instr.
Course Rules: Ed Pol/ExcEduc/Soc Wrk 580 are jointly offered & count as repeats of each other.
Last Taught: Fall 2016, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

SOC WRK 581 Youth Work Practice
3 cr. Undergraduate/Graduate.
Applies the skills, theories and approaches of the youth work field to settings such as schools, community centers, and residential programs.
Prerequisites: jr st; Ed Pol/Soc Wrk 580(P); or grad st or cons instr.
Course Rules: Ed Pol/Soc Wrk 581 are jointly offered & count as repeats of each other.
Current Offerings: http://uwm.edu/schedule

SOC WRK 591 Special Topics: Social Welfare and Social Work:
1-3 cr. Undergraduate.
Selected topics in social welfare and social work. Specific credits and additional prerequisites announced in Schedule of Classes whenever course is offered.
Prerequisites: jr st; satisfy English competency; one prior course in Soc Wrk recom.
Course Rules: May be retaken w/chg in topic to max of 6 cr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
SOC WRK 592 Independent Research
1-3 cr. Undergraduate.
Participation in an independent research project under faculty supervision.
Prerequisites: jr st; satisfy English competency; GER math requirement; 2.5 gpa; Soc Wrk 662(P), writ cons instr & dir Soc Wrk prog.
Course Rules: May be retaken to max of 6 cr.
Current Offerings: http://uwm.edu/schedule

SOC WRK 599 Independent Reading
1-3 cr. Undergraduate.
Intensive readings in fields related to student's preparation and training, under the supervision of a faculty member.
Prerequisites: sr st; satisfy English competency; 2.5 gpa; writ cons instr & dir Soc Wrk Prog.
Course Rules: May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

SOC WRK 604 Social Systems and Social Work Practice
3 cr. Undergraduate/Graduate.
Analysis of organizations, community and social institutions and the impact they have on human behavior and how they provide the social context of social work practice.
Prerequisites: jr st; one prior course in Soc Wrk recom.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

SOC WRK 630 Families and Poverty
2-3 cr. Undergraduate/Graduate.
Description of families in poverty and analysis of historical and contemporary national and state policies aimed at reducing poverty.
Prerequisites: jr st; one prior course in Soc Wrk recom.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

SOC WRK 650 Social Welfare and the Law
2 cr. Undergraduate/Graduate.
Collaborative principles of social work and the legal profession. Selected concepts and principles of legal and social provision for protection of family, children and adults.
Prerequisites: jr st, one prior course in Soc Wrk recom; or grad st.
Last Taught: Fall 2015, Fall 2014, Fall 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

SOC WRK 662 Methods of Social Welfare Research
3 cr. Undergraduate/Graduate.
Analyze methods of social welfare research and problems in project design and programming. Characteristics of investigations directed to planning, administrative, practice, and scientific objectives.
Prerequisites: jr st, admis to Soc Wrk major, satisfaction of QL-A GER, Soc Wrk 100(P), 206(P), & 250(P); or grad st.
General Education Requirements: QLB
Current Offerings: http://uwm.edu/schedule

SOC WRK 665 Cultural Diversity and Social Work
3 cr. Undergraduate/Graduate.
Emphasis on culture, race and ethnicity, theories of prejudice, and racial minority groups, and the politics of human services in multicultural society.
Prerequisites: jr st, admis to Soc Wrk major, satisfy English competency, Soc Wrk 100(P), 206(P), 250(350)(P); or grad st.
General Education Requirements: CD, SS
Current Offerings: http://uwm.edu/schedule

SOC WRK 680 Death and Dying
3 cr. Undergraduate/Graduate.
Focus on multiple perspectives on death, dying, and bereavement; roles and skills for social workers and other helpers about end-of-life issues.
Prerequisites: jr st; or grad st.
Course Rules: Counts as repeat of Soc Wrk 591 & 791 with same topic.
Current Offerings: http://uwm.edu/schedule

SOC WRK 685 Social Gerontology
3 cr. Undergraduate/Graduate.
Exploration of individual aging experiences and interaction with social structures and social systems.
Prerequisites: jr st and one prior course in Soc Wrk recom; or grad st.
Course Rules: Counts as repeat of Soc Wrk 591 & 791 with the same topic.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

SOC WRK 691 Practice Methods in Social Work:
1-3 cr. Undergraduate/Graduate.
Topics focused on Social Work practice methods. Specific topics and credits to be announced in Schedule of Classes.
Prerequisites: jr st.
Course Rules: May be retaken with change in topic to max of 6 cr.
Current Offerings: http://uwm.edu/schedule

SOC WRK 705 Individual Behavior and Social Welfare
3 cr. Graduate.
The development and behavior of individuals in interaction with their social contexts; implications for social welfare.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

SOC WRK 708 Social Work Methods I: Individuals and Families
3 cr. Graduate.
Introduction to generalist social work practice with individuals and families, with emphasis on integration of theory and knowledge with professional practice.
Prerequisites: grad st; admis to MSW
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule
SOC WRK 709 Social Work Methods II: Groups, Organizations and Communities
2 cr. Graduate.
Introduction to generalist social work practice with groups, organizations and communities, with emphasis on integration of theory and knowledge with professional practice.
Prerequisites: grad st; admis to MSW; Soc Wrk 708(C)
Current Offerings: http://uwm.edu/schedule

SOC WRK 711 Direct Social Work Practice I
3 cr. Graduate.
Methods of social work intervention employed in helping individuals, families and small groups. Addresses personal, interpersonal, environmental and resource issues with emphasis on interviewing, assessing, contracting and goal setting.
Prerequisites: grad st; Soc Wrk 710(P), or BSW degree, or Soc Wrk 708(P) & 709(P); Soc Wrk 722(C).
Current Offerings: http://uwm.edu/schedule

SOC WRK 713 Community Organization, Planning and Human Service Administration I
3 cr. Graduate.
Knowledge and skill development in the activities, roles, styles, and ethical issues in community and administrative practice. Emphasis on needs assessment, planning methodologies, and change efforts.
Prerequisites: grad st; Soc Wrk 708 & 709(710) or BSW degree.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

SOC WRK 718 Introduction to SAS Programming
3 cr. Graduate.
Fundamental instruction in programming, data management and exploratory data analysis using SAS software.
Prerequisites: grad st
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

SOC WRK 719 Advanced SAS Programming
3 cr. Graduate.
Advanced instruction in programming, data management, and exploratory data analysis using SAS software.
Prerequisites: grad st; Soc Wrk 718(P) or cons instr
Current Offerings: http://uwm.edu/schedule

SOC WRK 721 Field Instruction I
3 cr. Graduate.
Supervised social work practice in a social agency.
Prerequisites: grad st; Soc Wrk 710(P) or 708(P); 709(C) or 711(C).
Current Offerings: http://uwm.edu/schedule

SOC WRK 722 Field Instruction II
3 cr. Graduate.
Supervised social work practice in a social agency.
Prerequisites: grad st; Soc Wrk 721(P) or BSW degree; Soc Wrk 713(C) or 711(C).
Current Offerings: http://uwm.edu/schedule

SOC WRK 750 Social Welfare Policy Development and Implementation
2 cr. Graduate.
Examination of policy development, implementation, and models of analysis that describe and provide analytical guides for determining the efficacy of public policy in addressing human needs.
Prerequisites: grad st.
Last Taught: Spring 2018, Fall 2017, Summer 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

SOC WRK 753 Adult Psychopathology
3 cr. Graduate.
Mental disorders and their implications for the social work profession, including assessment, intervention and prevention issues.
Prerequisites: grad st; Soc Wrk 705(P).
Current Offerings: http://uwm.edu/schedule

SOC WRK 754 Child and Adolescent Psychopathology
2 cr. Graduate.
Mental and behavioral disorders of children and adolescents and their implications for the social work profession, including assessment, intervention and prevention issues.
Prerequisites: grad st; Soc Wrk 705.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

SOC WRK 765 Social Work Boundaries and Ethics in Professional Practice
2-3 cr. Graduate.
Ethical issues faced by social work practitioners in professional practice. Topics include NASW Code of Ethics, boundary issues, ethical dilemmas, and risk management.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

SOC WRK 771 Development of the Family Over the Life Span
3 cr. Graduate.
The family as a social system as it engages in various developmental tasks throughout the life cycle and in interaction with the social context; social work implications of relevant theories and research.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

SOC WRK 774 Trauma Counseling I: Theory and Research
3 cr. Graduate.
Seminar examining impact of trauma experience on individuals, groups and communities following a catastrophic event. Explores traumatic events, mental injuries and impact on memory, learning, physical health and dysfunctional behavior.
Prerequisites: grad st
Course Rules: Couns 774, Nurs 774, OccThpy 774, and Soc Wrk 774 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule
SOC WRK 775 Trauma Counseling II: Diagnosis and Treatment
3 cr. Graduate.
Seminar on diagnosis and assessment instruments as well as
intervention and therapeutic techniques used to address trauma issues in
counseling acute and chronic traumatized clients.
Prerequisites: grad st; Couns 774, Nurs 774, OccThpy 774, or Soc Wrk 774(P), or cons instr
Course Rules: Couns 775, Nurs 775, OccThpy 775, and Soc Wrk 775 are
jointly offered; they count as repeats of one another.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

SOC WRK 791 Current Topics in Social Work:
1-3 cr. Graduate.
Variable content course with specific topics to be announced in schedule
of classes.
Prerequisites: grad st.
Course Rules: May be repeated with change in topic to max of 6 cr.
Current Offerings: http://uwm.edu/schedule

SOC WRK 793 Evaluation of Practice
2 cr. Graduate.
Advanced problems and methods of research in social work practice.
Prerequisites: grad st; Soc Wrk 662(P) or equiv; Soc Wrk 721(C) or 722(C).
Current Offerings: http://uwm.edu/schedule

SOC WRK 794 Evaluation of Programs
2 cr. Graduate.
Provides students with the skills and knowledge base necessary to
understand the program evaluation process as it applies to social welfare
programs.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

SOC WRK 811 Direct Social Work Practice II:
3 cr. Graduate.
A continuation of methods of social work intervention, with sections
tailored to specialized concentration areas: gerontology, family and child
welfare, and behavioral and physical health. Emphasis is on selection and
implementation of appropriate intervention plans.
Prerequisites: grad st; Soc Wrk 711(P); 722(C).
Current Offerings: http://uwm.edu/schedule

SOC WRK 813 Financial Management and Planning in Human Services
2 cr. Graduate.
This course is designed to facilitate and understanding of selected areas
of planning and management in human services with an emphasis on
resource development and financial management.
Prerequisites: grad st; Soc Wrk 713(C) & 915(C) or cons reg; cons instr.
Current Offerings: http://uwm.edu/schedule

SOC WRK 818 Treatment of Co-Occurring Disorders
3 cr. Graduate.
Knowledge on assessment and treatment strategies with substance
misuse and mental health issues, along with research on etiology and
best practices for addressing co-occurring disorders.
Prerequisites: grad st; Soc Wrk 711(P) or 713(P)
Current Offerings: http://uwm.edu/schedule

SOC WRK 819 Social and Environmental Justice in Public Health
3 cr. Graduate.
Social and environmental justice perspective on public health problems
and concerns.
Prerequisites: grad st.
Course Rules: Jointly offered w/ & counts as a repeat of PH 819.
Current Offerings: http://uwm.edu/schedule

SOC WRK 820 Seminar in Social Work Practice:
2 cr. Graduate.
Critical examination of varied and specialized methodologies with
emphasis on new professional directions, interdisciplinary coordination
and integration of professional practice with behavioral sciences,
research, and policy concerns.
Prerequisites: grad st; Soc Wrk 711(P) or 713(P)
Course Rules: May be repeated with change in topic to max of 6 cr.
Current Offerings: http://uwm.edu/schedule

SOC WRK 821 Field Instruction III
4 cr. Graduate.
Second-year supervised social work practice in a social agency.
Prerequisites: grad st; Soc Wrk 811(C) or 915(C); 722(P); 711(P) or
713(P).
Current Offerings: http://uwm.edu/schedule

SOC WRK 822 Field Instruction IV
4 cr. Graduate.
Advanced second-year supervised social work practice in a social agency
with emphasis on integration of professional practice with methodology,
behavioral sciences, research and policy concerns.
Prerequisites: grad st; Soc Wrk 821(P).
Current Offerings: http://uwm.edu/schedule

SOC WRK 830 Intervention Strategies for Correctional Clients
3 cr. Graduate.
A review and analysis of intervention approaches and programs used
with correctional clients, both juvenile and adult, with emphasis on
diversion, prevention, and rehabilitation strategies.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

SOC WRK 831 Models of Family Therapy
2 cr. Graduate.
Introduction to the major family therapy approaches, including
assessment and intervention techniques for each. Models include
systemic, structural, strategic, interactional and multigenerational.
Prerequisites: grad st; Soc Wrk 811 or conc reg.
Last Taught: Fall 2013, Fall 2012, Fall 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

SOC WRK 832 Social Work Practice with Couples
2 cr. Graduate.
Intensive examination of varied methodologies to effect therapeutic
change in couples. Includes assessing couples' interactional patterns
and formulating therapeutic strategies.
Prerequisites: grad st; Soc Wrk 811 or conc reg; cons instr.
Current Offerings: http://uwm.edu/schedule
SOC WRK 851 Social Issue and Policy Analysis
2-3 cr. Graduate.
Advanced level analysis of the relationship between selected problem areas, policy development and service system.
Prerequisites: grad st; Soc Wrk 750(P) or BSW degree.
Course Rules: May be repeated with change in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

SOC WRK 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Current Offerings: http://uwm.edu/schedule

SOC WRK 901 Philosophy of Science
3 cr. Graduate.
Analyzes philosophical foundations of science, knowledge building processes, and the scope and nature of knowledge, emphasizing applications for the social and behavioral sciences.
Prerequisites: grad st; admis to the Soc Wrk Ph.D. program or written cons instr.
Last Taught: Fall 2017, Fall 2015, Fall 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

SOC WRK 915 Human Services Administration II
3 cr. Graduate.
The role of the professional in the human services administrative organization, focusing on interpersonal relationships in supervision, evaluation and leadership.
Prerequisites: grad st; Soc Wrk 713; 722 or conc reg.
Current Offerings: http://uwm.edu/schedule

SOC WRK 921 Field Instruction V
3-4 cr. Graduate.
Optional advanced supervised social work practice in a social agency.
Prerequisites: grad st; Soc Wrk 822.
Current Offerings: http://uwm.edu/schedule

SOC WRK 931 Theories of Poverty and Social Welfare Policy
3 cr. Graduate.
Analyzes anti-poverty policies/programs, populations at risk, poverty dynamics, poverty-rate trends, circumstances of the poor, poverty etiology and government roles in income redistribution and social change.
Prerequisites: grad st; admis to the Social Work Ph.D. program or written cons instr
Current Offerings: http://uwm.edu/schedule

SOC WRK 932 Theories and Research on Behavior Change
3 cr. Graduate.
Theory and research of individual change from a social work perspective using classic to recent models, with application to diverse populations.
Prerequisites: grad st; admis to the Soc Wrk Ph.D. program or written cons instr.
Last Taught: Fall 2014, Fall 2012, Fall 2010, Fall 2009.
Current Offerings: http://uwm.edu/schedule

SOC WRK 940 Applied Gerontology Capstone I
2 cr. Graduate.
Professional socialization seminar emphasizing the interdisciplinary nature of gerontology and exposing students to professional and library resources for continuing professional development.
Prerequisites: grad st; Soc Wrk 940 and Soc Wrk 942 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2010, Fall 2009, Fall 2008, Fall 2007.
Current Offerings: http://uwm.edu/schedule

SOC WRK 941 Applied Gerontology Capstone II
2-3 cr. Graduate.
Teamwork applied research project conducted in collaboration with a community-based organization that serves the elderly; presentation of findings to a professional audience.
Prerequisites: grad st; Sociol 942 & Soc Wrk 942 are jointly offered; they count as repeats of one another. Students who intend to prepare a manuscript for publication enroll for 3 crs; all others enroll for 2 crs.
Current Offerings: http://uwm.edu/schedule

SOC WRK 942 The Family and Long-Term Care
3 cr. Graduate.
Seminar on the role of family in providing long term care. Social values, public policies, and consequences for individuals and society.
Prerequisites: grad st.
Course Rules: Sociol 942 & Soc Wrk 942 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

SOC WRK 945 Family and Long-Term Care Across the Life Course
3 cr. Graduate.
Seminar on the family role in the provision of long term care within the context of kinship care, and care of persons with chronic illnesses, developmental and adult disabilities.
Prerequisites: grad st; admis to the Soc Wrk Ph.D. prog or writ cons instr.
Last Taught: Spring 2013, Spring 2011, Fall 2008.
Current Offerings: http://uwm.edu/schedule

SOC WRK 951 Quantitative Research Methods
3 cr. Graduate.
An in-depth, hands-on review of experimental, quasi-experimental, and non-experimental approaches to the design and implementation of quantitative research studies.
Prerequisites: grad st; admis to the Social Work Ph.D. Program or written cons instr
Current Offerings: http://uwm.edu/schedule

SOC WRK 952 Qualitative Research Methods in Social Work
3 cr. Graduate.
Seminar on the philosophical and methodological issues of qualitative research. Students will conduct exploratory original field research and produce a research proposal based on their findings.
Prerequisites: grad st; admis to the Soc Wrk Ph.D. prog or writ cons instr.
Current Offerings: http://uwm.edu/schedule
SOC WRK 961 Introduction to Statistical Methods
4 cr. Graduate.
Reviews basic parametric and nonparametric tests, including descriptive
statistics, correlation, basic inferential statistics, one- and two-way
ANOVA, OLS regression, nonparametric statistics, and handling missing
data.
Prerequisites: grad st; admis to the Social Work Ph.D. program or written
cons instr
Last Taught: Fall 2017, Fall 2016, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

SOC WRK 962 Applied Multiple Regression Analysis
3 cr. Graduate.
Multiple regression analysis concentrating on OLS regression techniques
but also covering logistic and Poisson regression.
Prerequisites: grad st; admis to the Social Work Ph.D. program or written
cons instr.
Current Offerings: http://uwm.edu/schedule

SOC WRK 963 Measurement Methods and Related Multivariate Statistics
3 cr. Graduate.
Survey of concepts and applications of Classical True Score and Item
Response Theory and multivariate statistical methods relevant to test
evaluation and construction.
Prerequisites: grad st; SocWrk 961(P) & 962(P); admis to the Soc Wrk
Ph.D. program or written cons instr.
Last Taught: Fall 2017, Fall 2015, Fall 2014, Fall 2009.
Current Offerings: http://uwm.edu/schedule

SOC WRK 964 Advanced Statistical Methods
3 cr. Graduate.
Covers multivariate statistical procedures, including MANOVA,
MANCOVA, canonical correlation and discriminant function analysis,
Poisson regression, survival analysis, multilevel modeling, and analysis of
longitudinal data.
Prerequisites: grad st; admis to the Soc Wrk Ph.D. program or written
cons instr.
Current Offerings: http://uwm.edu/schedule

SOC WRK 970 Independent Research
1-4 cr. Graduate.
Participation in an independent research project under faculty
supervision.
Prerequisites: grad st; cons instr; Soc Wrk 662(P)
Course Rules: Students shall not take more than 6 cr total between
courses Soc Wrk 970(P) & 999(P).
Last Taught: Summer 2017, Fall 2015, Fall 2014, Summer 2014.
Current Offerings: http://uwm.edu/schedule

SOC WRK 990 Doctoral Research
1-12 cr. Graduate.
Research connected with dissertation.
Prerequisites: grad st. & admis to candidacy for Ph.D. degree.
Current Offerings: http://uwm.edu/schedule

SOC WRK 991 Doctoral Proseminar:
1 cr. Graduate.
Variable content course with specific topics to be announced in schedule
of classes.
Prerequisites: grad st; admis to the Social Work Ph.D. Program or written
cons instr
Course Rules: May be repeated with change in topic to 6 cr max.
Last Taught: Fall 2017, Spring 2017, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

SOC WRK 999 Independent Reading in Social Work
1-3 cr. Graduate.
Work suited to individual graduate students arranged.
Prerequisites: grad st; completion of foundation courses for non-BSW
students; writ cons instr & dir of Soc Wrk prog.
Course Rules: Students shall not take more than 6 cr total between
courses Soc Wrk 970(P) & 999(P).
Last Taught: Spring 2018, Fall 2017, Summer 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

Applied Data Analysis Using SAS, Graduate Certificate

The Graduate Certificate in Applied Data Analysis Using SAS® is a multidisciplinary program that fosters knowledge and programmatic skills in data management and statistical analysis using SAS software. The certificate’s curriculum is designed for students with diverse career goals, but at its core, it focuses on the job roles of SAS Programmer, Data Analyst, and Data Scientist. A person in one of these roles typically accesses and manages data, performs complex queries, and conducts and interprets statistical data analyses. Upon completion of the certificate program, students will not only earn the SAS-sponsored joint certificate from UWM, but they will also be prepared to take two globally recognized Programming Certification exams either through the SAS Institute or on-site at UWM:

- Base SAS Programming Certificate
- Advanced SAS Programming Certificate

Students are required to take a total of 18 credits toward the completion of the certificate. The mandatory core courses in programming and regression analysis make up 12 credits (6 credits fixed, 6 credits flexible) and an additional 6 credits are to be taken as electives. The program’s curriculum stimulates interdisciplinary skill acquisition and research by requiring students to enroll in courses from at least two academic units. Students can choose courses from Business Administration, Business Management, Economics, Educational Psychology, Political Science, Public Health, Social Work, and Sociology to satisfy the certificate’s credit requirements.

Post-baccalaureate students will be interested in this certificate program because it provides a valuable skill set without pursuing a full graduate degree. Graduate and post-graduate students will find this certificate program appealing as it complements many existing degree programs at UWM and should give graduates a competitive edge on the job market.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Students must have earned a bachelor’s degree with a minimum cumulative grade point average (GPA) of 2.75 to be able to apply for the certificate program. Students who already hold a graduate degree must have earned that degree with a minimum cumulative GPA of 3.00 when applying for the certificate program.

Applied Gerontology, Graduate Certificate (Helen Bader School of Social Welfare, Department of Social Work)

The Graduate Certificate in Applied Gerontology is designed to provide students with the knowledge and skills needed to successfully pursue or advance careers within aging services organizations or academic research in aging.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Application
• Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
• All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
• Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
• Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Admission
Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Credits and Courses
Students wishing to earn a Graduate Certificate in Applied Gerontology must complete 18 graduate credit hours. No student may complete all 18 credits within a single school or college.

Certificate Requirements
Transfer Credit
No more than 20% of the required credits may be taken at an institution other than UWM. Transfer courses must have been completed within the last 3 years with grades of B or higher. Students must provide evidence that the transfer courses are substantially the same as the core or elective courses. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   • Degree programs must approve the courses from certificates that can double count toward the degree.
   • All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   • Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit
Certificate program time limits shall be established as follows:
• 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
• 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

Additional elective courses can be chosen with prior consent of the program committee.
Theatre 699 Independent Study: (Creativity in Health Settings (3 credits))

Electives
Select 6 credits¹ 6

Total Credits 18

¹ Students will work with the Certificate Coordinator to approve the selection of additional electives, including a "Practicum" in the student's home department or area of choice.

Integrative Portfolio
Students must complete an Integrative Portfolio as a final project under the guidance of the Certificate Coordinator and an assigned advisor. This Portfolio includes papers/materials from core courses and an introduction and reflective conclusion that integrates the key concepts from the interdisciplinary coursework and identifies potential impact on their future practice in research or aging services.

Certificate Requirements

Transfer Credit
No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   • Degree programs must approve the courses from certificates that can double count toward the degree.
   • All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   • Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit
Certificate program time limits shall be established as follows:
   • 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
   • 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

Overview
The Helen Bader School of Social Welfare (HBSSW) offers a program of graduate studies in social work. As a department in an urban research university, the mission of the Department of Social Work is to promote positive change through social work research, scholarship, education, and community partnerships. The Department promotes the values of the social work profession through a commitment to social justice and diversity, a dedication to public service, and an emphasis on individual and community well-being. The goal of the MSW program is to prepare graduates with specialized knowledge and skills for advanced practice and leadership with diverse populations and communities.

In furtherance of its mission, the goals of the Social Work Department are:

1. To educate students to become highly skilled, culturally competent, and ethical social workers and to provide leadership for the practice of social justice.
2. To create and disseminate knowledge leading to social work and inter-disciplinary innovations.
3. To engage in research and apply results that inform social work policy, practice, advocacy, education, and future research.
4. To collaborate with community partners in promoting evidence-informed practice, educational and research partnerships, and social and economic justice.

HBSSW offers students access to the University computer system, special interview training rooms, and specialized audiovisual materials.

The MSW curriculum is designed to prepare students for advanced-level professional Social Work practice, and builds upon a solid base of coursework in human behavior, practice methods, research, and policy. The MSW program is accredited by the Council on Social Work Education and can prepare students for state certification requirements.
Requirements

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Relevant application materials must be submitted to both the Graduate School (http://uwm.edu/graduateschool/admission) and HBSSW and will be accepted for admission in the Fall semester only. All applications must be completed and submitted on or before January 2. Applications received after January 2 will be considered only if space is available after other applications are reviewed. Applicants must meet Graduate School requirements plus the following departmental requirements in order to be considered:

1. Hold or be in the process of completing a master’s degree in social welfare or master’s degree in criminal justice, criminology, or comparable degree. Applicants with master’s degrees in related disciplines will be considered on a case-by-case basis.
2. Identify the following in the Personal Statement section of the Graduate School application:
   - Which of the program’s four areas of specialization (Applied Behavioral Health, Applied Gerontology, Criminal Justice, or Family and Child Welfare) they wish to pursue.
   - Their reasons for seeking a doctoral degree in social welfare.
   - Their goals as future scholars.
   - A topic or issue in the field that they consider to be particularly challenging and worthy of study.
3. Submit a current copy of a professional résumé or curriculum vitae to the Social Welfare Ph.D. Program. This should contain information on:
   - All post-secondary education, including institutions, degrees and dates of completed programs of study, plus institutions, dates, and types of study that did not lead to a degree.
   - All employment by the applicant in social work, criminal justice, and related areas, including dates and employing organizations.
   - Employment unrelated to social work or criminal justice within the past five years.
   - Information on any past or current professional licenses held.
4. Submit scores from within the past five years on the Graduate Record Examination (GRE) (http://uwm.edu/graduateschool/admission/gre) General Test to the Social Welfare Ph.D. Program.
5. Submit three letters of recommendation from persons familiar with the applicant’s achievements and academic potential, including at least one current or former graduate program instructor to the Social Welfare Ph.D. Program.
6. Submit a sample of written work to the Social Welfare Ph.D. Program that demonstrates: the applicant’s knowledge of social work and/or criminal justice theory, practice, and research; ability to think analytically; and writing skills. The sample should be at least 1000 words in length and represent work for which the applicant was the sole author.

The program will assign each Ph.D. student a major professor. This assignment is based on congruence between the applicant’s interests and the expertise of the major professor. In consultation with the director of the Ph.D. program, the student may change major professors after beginning the program, but no applicant will be admitted unless a doctoral faculty member in criminal justice or social work agrees to serve as major professor.

Financial Assistance
Through a combination of tuition remission, teaching assistantships, research assistantships, fellowships, and other options, the program will attempt to provide financial assistance to all admitted students during their first three years in the program. Applicants needing additional information on other sources of financial assistance, such as student loans, should contact the campus Office of Financial Aid.

Credits and Courses
A minimum degree of 43 graduate credits beyond the master’s degree are required, at least 36 of which must be earned in residence at UWM.

In consultation with the major professor and as soon as possible after admission, each student designs a program of study to gain the knowledge and skills appropriate to his/her educational goals. All programs of study must include the following:

1 Content in this area comprises a set of required courses in methods of social/behavioral research and statistics. Students are expected to enter the program with at least a basic background in both methods and statistics and may need to satisfy prerequisites before proceeding to required courses.
Two electives from inside or outside the HBSSW are required. Students may choose one or both of the above elective courses or one or two courses from an approved set of alternatives offered in other Schools or campuses. Approval must be secured from the major advisor prior to enrolling.

Requirements in this area are designed to provide students with specialized knowledge and skills needed for success in scholarly endeavors and teaching at the post-secondary level. With respect to classroom work, all students must complete the following three one-credit proseminars.

All students must complete one semester of work as a teaching assistant and one semester as a project or research assistant, usually in their second year. During the semester in which they serve as a teaching assistant, students must enroll for one credit in SOC WRK 999/CRM JST 999.

This independent study credit will be completed under the supervision of the faculty member to whom the student is assigned as an assistant. The product should be a project that will advance the student’s skills in teaching, such as preparation of a guest lecture or other such task determined by the supervising faculty member.

These credits provide an opportunity for students to take content of interest within the HBSSW or in other schools on campus that offer graduate-level courses relevant to the student’s educational goals. Elective options within the HBSSW include the completion of additional specialization seminars beyond the required total. Students may also complete this requirement by taking additional research methods or statistics courses within or outside the HBSSW, or they may take theory or basic-knowledge courses in other Schools that are at the graduate level and are approved by their advisor and the Ph.D. program director.

Knowledge Building

The goals and objectives of the doctoral program reflect the Department’s concern with urban social problems, social and economic equity and well-being, cultural diversity, and the empowerment of individuals, families, organizations, and communities to effect change. The program will prepare students to make significant contributions to social work education and the knowledge base of the profession.

The curriculum includes four areas of specialization:

- Applied Behavioral Health
- Applied Gerontology
- Criminal Justice
- Family and Child Welfare

Each student must select at least one of these areas in which to concentrate. In consultation with the major professor, a student may also choose to develop expertise that spans more than one area.

Content in these four specialization areas is presented in the form of specialization seminars. All students must take at least three specialization seminars within the program and at least one relevant course external to the HBSSW; the external course must be from a list of courses approved for this purpose or a student’s unique request approved by the doctoral program committee. At least two courses, including one internal and one external course, must be in the student’s area of specialization, and at least one course internal to the HBSSW must be in an area other than the student’s primary specialization. All specialization courses outside the HBSSW must be approved by the student’s major professor prior to enrollment.

Program Requirements

Residence

Students must meet minimum Graduate School residency requirements.

Preliminary Examination

All students must pass a preliminary examination subsequent to successfully completing all required coursework and prior to being admitted to doctoral candidacy. The examination assesses students’ ability to articulate their research interests, analyze and synthesize empirical knowledge and relevant theoretical concepts, explain how theory may affect the generation of knowledge, and show familiarity with relevant scientific methodologies. In keeping with Graduate School rules, the preliminary examination should be completed within five years of enrollment.

An Application for the Doctoral Preliminary Examination must be completed by the student and signed and submitted to the Ph.D. Program Committee by the major professor six weeks prior to the first examination. Students who fail the preliminary examination may not proceed to the dissertation. The exam may be retaken only once. Complete policies regarding forming a preliminary examination committee, writing the proposal, and taking the examination are available in the Social Welfare Ph.D. program handbook.

Dissertation Proposal Defense

All students must successfully complete an oral defense of their dissertation proposal to determine their preparation for independent research. The defense must be completed successfully within four years of initial enrollment.

Dissertation

Students who have passed the Preliminary Examination and have submitted a one-page preliminary dissertation proposal are formally admitted to doctoral candidacy. In accordance with Graduate School policies, students must then register for three research or thesis/dissertation credits each semester until the dissertation is submitted to the Graduate School. To meet the requirements for the dissertation, the candidate must complete an original independent research project that adds meaningfully to the existing body of knowledge in social work. It should be of a caliber that warrants publication in respected journals in the field.

Dissertation Defense

As the final step toward the degree, the candidate must pass an oral examination before his/her doctoral committee in defense of the dissertation. The examination may also cover general topics relevant to
the student's area of study. This requirement may not be completed until all other degree requirements are satisfied.

**Time Limit**
It is expected that most students will complete all degree requirements within six years of initial enrollment in the doctoral program. All requirements MUST be completed within ten years from the date of initial enrollment.

**Social Work, BS**

The bachelor's degree in social work is accredited by the Council on Social Work Education. Its primary objective is to prepare students for beginning generalist social work practice.

The program prepares students for potential employment in both public (federal, state, and county) and private social service agencies. Students are trained to work and affect change among individuals, families, groups, organizations and communities. The program helps prepare students to engage in critical thinking and actively apply research to practice, policy, advocacy, education, and leadership. A sample of career possibilities includes caseworker, psychiatric social worker, youth counselor, and alcohol/drug counselor.

**Requirements**
The undergraduate social work major includes a pre-professional component. Social work intended majors spend their first two years building a liberal arts foundation and fulfilling proficiency requirements. Freshmen and sophomores may begin to take courses offered in the Helen Bader School of Social Welfare.

The major in Social Work requires a minimum of 42 credits in Social Work or Helen Bader School of Social Welfare courses (students can take courses in criminal justice and have them count toward the major as elective credit), and 27 credits in social sciences courses, for a minimum of 69 credits in the major. The Department requires that students attain at least a 2.5 cumulative GPA, including transfer credits, in order to declare the major. In addition, students must attain a 2.0 cumulative GPA in order to graduate from UWM.

For further information about fieldwork, consult the Field Staff Office, Enderis Hall, Room 1075, (414) 229-6526

Declaring Your Major
In addition to the normal University admission requirements, students apply on a separate application for admission to the Social Work major. Students who have not yet been admitted to the Social Work major are still able to take a sequence of Social Work courses. Students must formally be admitted into the Social Work major prior to beginning field placement. The requirements to apply to the Social Work major are:

- Completion of 48+ credits
- Completion of Social Work 100, 250, and 206
- Cumulative GPA of 2.5 or higher, including all transfer work.

All of these requirements must be satisfied at the time a student applies. Applications are found online and an advisor should be consulted for more information.

Undergraduate Academic Advising
The Office of Student Services in the Helen Bader School of Social Welfare, located in Enderis Hall Room 1110, offers undergraduate student academic advising from professional advisors who are familiar with the Social Work and Criminal Justice curriculum, College requirements, and university policies. Advisors can also provide information on scholarship opportunities, tutoring, and student organizations that align with a student’s interests.

These advisors provide services such as new freshman orientation, course selection, assistance with registration, and review of transfer credit. Students are assigned to a permanent professional advisor upon admittance into the Helen Bader School of Social Welfare and are encouraged to meet with their academic advisor at least once each semester. Please call (414) 229-4852 to schedule an appointment or for more information.

Transfer Students
The Helen Bader School of Social Welfare welcomes students from other academic areas on the UWM campus and students transferring to UWM from other institutions. Students planning to transfer into either major from another institution should meet with an academic advisor as soon as they are admitted and the transfer credit evaluation process has been completed. During this meeting, the student and advisor will review transfer course equivalencies, discuss program requirements, and create an academic plan for coming semesters. Students may meet with their advisor in person or by phone. Please call (414) 229-4852 to schedule an appointment or for more information.

Honors in the Major
Honors in the Major are granted to students who have earned a GPA of 3.500 or above in major courses, including social science credits completed at UWM.

Honors in the School of Architecture and Urban Planning
Dean's Honor List
GPA of 3.750 or above (Levels 1, 2), earned on a full-time student’s GPA on 12 or more graded credits in a given semester.
Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Overview
The Helen Bader School of Social Welfare (HBSSW) offers a program of graduate studies in social work. As a department in an urban research university, the mission of the Department of Social Work is to promote positive change through social work research, scholarship, education, and community partnerships. The Department promotes the values of the social work profession through a commitment to social justice and diversity, a dedication to public service, and an emphasis on individual and community well-being. The goal of the MSW program is to prepare graduates with specialized knowledge and skills for advanced practice and leadership with diverse populations and communities.

In furtherance of its mission, the goals of the Social Work Department are:
1. To educate students to become highly skilled, culturally competent, and ethical social workers and to provide leadership for the practice of social justice.
2. To create and disseminate knowledge leading to social work and inter-disciplinary innovations.
3. To engage in research and apply results that inform social work policy, practice, advocacy, education, and future research.
4. To collaborate with community partners in promoting evidence-informed practice, educational and research partnerships, and social and economic justice.

HBSSW offers students access to the University computer system, special interview training rooms, and specialized audiovisual materials.

The MSW curriculum is designed to prepare students for advanced-level professional Social Work practice, and builds upon a solid base of coursework in human behavior, practice methods, research, and policy. The MSW program is accredited by the Council on Social Work Education and can prepare students for state certification requirements.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/Registrar/contact-us) online.

Admission
Application must be made to both the Graduate School and the MSW program. Program application materials are available for the Fall semester only. All applications must be completed and submitted on or before January 2. Applicants must meet Graduate School and program requirements for admission, including:
1. Undergraduate grade point average of 2.75 or better.
2. Completion of at least 21 semester credits in the social and behavioral sciences (i.e., psychology, sociology, political science, economics, anthropology, and/or their equivalents).
3. Submission of a program application which includes three letters of recommendation, a narrative statement, and a comprehensive professional resume.

Please see complete requirements and instructions for applying on the MSW program web page (http://uwm.edu/socialwelfare/academics/msw-in-social-work) before starting an application.

Credits and Courses
The MSW program requires a minimum of 34 graduate credits for students admitted to the Advanced Curriculum. Students may be required to complete up to 22 credits to fulfill the Professional Foundation prior to beginning the Advanced Curriculum. The minimum 34 Advanced Curriculum credit requirements are distributed as follows:
**Professional Foundation**

Students admitted into the graduate social work program without having earned a bachelor's degree from an accredited social work program within the past 5 years are required to fulfill the Professional Foundation prior to Advanced Curriculum coursework (see below for exemptions). The purpose of the Professional Foundation is to orient students to the profession and to provide a knowledge, values and skills base in preparation for the Advanced Curriculum. Coursework in the Professional Foundation is not included in the 34 Advanced Curriculum credits required for completion of the MSW degree. The Professional Foundation courses are:

<table>

Select one of the following options:

**Option 1:**

- SOC WRK 711 Direct Social Work Practice I
- SOC WRK 811 Direct Social Work Practice II

Select one additional practice course

**Option 2:**

- SOC WRK 713 Community Organization, Planning and Human Service Administration I
- SOC WRK 813 Financial Management and Planning in Human Services

Select one additional practice course

- SOC WRK 793 Evaluation of Practice
- SOC WRK 794 Evaluation of Programs

**Concentration**

- SOC WRK 851 Social Issue and Policy Analysis

Select one of the following (depending on area of concentration):

- SOC WRK 685 Social Gerontology
- SOC WRK 753 Adult Psychopathology
- SOC WRK 771 Development of the Family Over the Life Span

**Electives**

Select 6 credits of electives

Total Credits 34

---

1. The capstone requirement is satisfied by SOC WRK 822.
2. Requires sections to be selected from within the specialized concentration area.

**Exemptions**

Students who have, within the 5 years preceding admission, completed coursework which substantially duplicates Professional Foundation courses may apply to the Chair of the Social Work Department for an exemption from the relevant courses. Exemption examinations are also offered on a scheduled basis for these courses. Exemption of the field experience (SOC WRK 721) may be permitted under special employment experience circumstances and only by permission of the Director of Field Programs. Students interested in securing an exemption should request course exemption forms upon notification of admission to the program.

All requests for exemptions must be made at the time of initial enrollment. Exemption requests will not be accepted following the end of the first semester of coursework.

**Specializations**

Upon completion of the Professional Foundation requirements—through coursework or exemption—students enter into the Advanced Curriculum and choose one of five specialized concentrations:

- Physical Health
- Behavioral Health and Mental Health
- Gerontology
- Children and Families
- Community and Organizational Leadership

With careful faculty advising, students are able to develop a course of study that builds upon their individualized interests, experiences, and strengths.

**Specialization Descriptions**

**Physical Health**

This concentration is designed to prepare students for advanced and clinical practice in a variety of health care settings. Students in the health concentration are prepared to address the multifaceted world of health care through coursework designed to expose them to issues of chronic health, health care delivery, health policy, and the social determinates of health across the life course. Health concentration students are trained in case management and assessment skills, and the role of social work in multidisciplinary health care teams. Students develop a solid understanding of how access to health systems, policies, and programs impact health. Students who graduate with a concentration in health are trained in case management and assessment skills, and the role of social work in multidisciplinary health care teams. Students develop a solid understanding of how access to health systems, policies, and programs impact health. Students who graduate with a concentration in health are prepared for practice in a variety of settings from hospitals and primary care clinics, to community health settings and long term care.

**Behavioral Health and Mental Health**

This concentration is designed to prepare students for advanced social work practice involving the delivery of mental health and addictions services to individuals, families, small groups, and the community. Students are exposed to issues, approaches, and technologies for application in prevention, treatment, administration, and policy. These are related to risks and problems with: alcohol and other drugs, mental health and mental illness, intimate partner violence, community violence, and other behavioral health concerns across the lifespan. Coursework provides students with knowledge, values, and skills to prepare them for professional practice in a variety of private and public settings related to mental health, addictions, and substance abuse.
Gerontology
This concentration is designed to aid students in understanding the complexity of the aging process from the perspective of the individual, family, society and social policy. The concentration will cover the physical, psychological and social processes of aging including family roles and responsibilities, cultural diversity, social support networks and the use of health and social services. Major developmental issues during the second half of life will be presented and interventions to facilitate adaptation to developmental change will be described. Coursework will enable students to: understand late-life mental disorders; develop assessment skills; formulate, implement and evaluate treatment plans; and become aware of issues related to age and ageism as they influence social work practice.

Children and Families
The social work profession has a long history of commitment to ensuring the well-being of children. Furthermore, professionals recognize the family system as being significant in the lives of children. The family system, in its various forms, represents a significant social institution, essential to communities and to society as a whole. This concentration focuses on the study of family systems, child and family welfare, and interventions to enhance the lives of children and families. Students in this concentration develop the advanced practice knowledge and skills necessary to provide services to children and families in a wide variety of settings.

Community and Organizational Leadership
Often described as “macro” practice, this concentration is for students who are interested in social change with organizations and communities. Social work within this concentration is about creating social and policy change, strengthening community and organizational systems, developing leadership skills, and addressing social injustices. Students will prepare for roles in leadership and administration, program development, planning, policy, and community practice.

Double Concentration
Students who are interested in gaining knowledge and skills relevant to both macro practice techniques and a second “direct practice” concentration may choose a “Double Concentration” sequence. This sequence is a combination of Community and Organizational Leadership and a second concentration (Physical Health, Behavioral Health and Mental Health, Gerontology, or Children and Families), and may require up to an additional semester of coursework. Four semesters of Field Placement are required with two semesters of that Field experience being within a direct practice field setting and two semesters of a Community and Organizational Leadership-based field placement. Students who have interests that range from direct social work practice to more leadership social work roles will benefit from this option.

Practice Method Areas

Direct Practice
By providing advanced-level knowledge and skills to address the changing impact of interpersonal and social problems, this specialty prepares students who are interested in using direct practice to help individuals, families, and groups.

Macro Practice
This method is for students who are interested in planned change with organizations and communities. Students will prepare for roles in planning, policy, administration, program development and community practice.

Double Methods
Students who are interested in gaining knowledge and skills relevant to both Direct Practice and Macro Practice techniques and settings may choose a “Double Methods” sequence. This combination of methods tracks may require up to an additional semester of coursework. Four semesters of Field Placement are required with two semesters of Direct Practice experience and two semesters of Macro Practice experience. Students who have interests that range from direct social work practice to more administrative social work roles will benefit from this option.

Program Requirements
Faculty Advisor
All students will be assigned a faculty member to advise and supervise their studies as specified in Graduate School regulations. Students should develop, in consultation with the advisor, a written plan of study, including selection of the specialized concentration. Students may elect to change advisor contingent upon the new advisor’s appropriateness to the area of specialized concentration, the advisor’s acceptance of additional advisees, and formal notification to the MSW specialist in the MSW program.

Time Limit
Students admitted directly into the Advanced Curriculum must complete all degree requirements within seven years of initial enrollment; students required to complete any portion of the Professional Foundation must complete all degree requirements within seven years of initial enrollment.

Social Work, MSW/Criminal Justice, MS
Both departments in the Helen Bader School of Social Welfare collaboratively offer a program designed to provide students with theoretical and practical exposure to evolving professional practice in the field of criminal justice, or social work with a focus on criminal justice (e.g., corrections, juvenile justice, probation and parole, etc).

Requirements
Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Students are admitted to both graduate programs separately and admission requirements are consistent with those specified by the UWM Graduate School, the MS in Criminal Justice and the MSW program in the Helen Bader School of Social Welfare.

Credit and Courses
Students accepted into this MS/MSW program complete the following courses:

**Electives**

Select 6 credits of electives 3

**Total Credits** 89

---

1 Electives selected from among successfully completed CJ courses in consultation with faculty advisor.

**Total Credits for Coordinated Degree: 71 (without a BSW) or 49 (with a BSW).**

The total credits for the coordinated program would typically be completed in both programs at the same time, rather than one program after the other. Degrees will be awarded simultaneously.

A student not completing the requirements for the coordinated degree program would need to complete all requirements for an individual program in order to receive a degree.

**Program Requirements**

**Time Limit**

Students in the coordinated MS/MSW degree program must complete all degree requirements within seven years of the first enrollment semester as a degree student.

**Social Work, MSW/Social Welfare, PhD**

**Related Certificates**

- Applied Gerontology (http://uwm.edu/graduateschool/applied-gerontology-certificate)

- Trauma-Informed Care (http://uwm.edu/graduateschool/trauma-informed-care-certificate)
- Women’s Studies (http://uwm.edu/graduateschool/womens-studies-certificate)

**State of Wisconsin Credentials**

- School Social Work Certification (http://uwm.edu/socialwelfare/academics/school-social-work)
- Substance Abuse Certification (http://uwm.edu/socialwelfare/academics/substance-abuse-certification-sac)

**Overview**

The Helen Bader School of Social Welfare (HBSSW) offers a program of graduate studies in social work. As a department in an urban research university, the mission of the Department of Social Work is to promote positive change through social work research, scholarship, education, and community partnerships. The Department promotes the values of the social work profession through a commitment to social justice and diversity, a dedication to public service, and an emphasis on individual and community well-being. The goal of the MSW program is to prepare graduates with specialized knowledge and skills for advanced practice and leadership with diverse populations and communities.

In furtherance of its mission, the goals of the Social Work Department are:
1. To educate students to become highly skilled, culturally competent, and ethical social workers and to provide leadership for the practice of social justice.
2. To create and disseminate knowledge leading to social work and inter-disciplinary innovations.
3. To engage in research and apply results that inform social work policy, practice, advocacy, education, and future research.
4. To collaborate with community partners in promoting evidence-informed practice, educational and research partnerships, and social and economic justice.

HBSSW offers students access to the University computer system, special interview training rooms, and specialized audiovisual materials.

The MSW curriculum is designed to prepare students for advanced-level professional Social Work practice, and builds upon a solid base of coursework in human behavior, practice methods, research, and policy. The MSW program is accredited by the Council on Social Work Education and can prepare students for state certification requirements.

**Admission Requirements**

**Application Deadlines**

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**

Relevant application materials must be submitted to both the Graduate School and HBSSW and will be accepted for admission in the Fall semester only. All applications must be completed and submitted on or before January 2. Applications received after January 2 will be considered only if space is available after other applications are reviewed.

Students who apply and are accepted to the joint MSW/Ph.D. program will be able to earn both the Master of Social Work and Doctor of Philosophy in Social Welfare both degrees in the course of their studies and will not be required to apply to the Ph.D. program after earning the MSW degree, assuming their progress is satisfactory. Applicants who are not offered admission to the joint program will still be considered for admission into the MSW-only program.

All applicants must meet Graduate School requirements plus the following HBSSW requirements:

1. Have an undergraduate grade point average of 2.75 or better.
2. Have completed at least 21 semester credits in the social and behavioral sciences (i.e., psychology, sociology, political science, economics, anthropology, and/or their equivalents).
3. Indicate the following in the Personal Statement section of the Graduate School application form:
   • Which of the program’s four areas of specialization (Applied Behavioral Health, Applied Gerontology, Criminal Justice, or Family and Child Welfare) they wish to pursue.
   • Their reasons for seeking a doctoral degree in social welfare.
   • Their goals as future scholars.
   • Topic or issue in the field that they consider to be particularly challenging and worthy of study.
4. In materials submitted to the HBSSW, applicants must:
   • Provide a current copy of a professional résumé or curriculum vitae. This should contain information on:
   • All post-secondary education, including institutions, degrees and dates of completed programs of study, plus institutions, dates, and types of study that did not lead to a degree.
   • All employment by the applicant in social work or criminal justice and related areas, including dates and employing organizations.
   • Employment unrelated to social work or criminal justice within the past five years.
   • Information on any past or current professional licenses held.

5. Submit scores from within the past five years on the Graduate Record Examination (GRE) (http://uwm.edu/graduateschool/admission/#gre) General Test.
6. Submit three letters of recommendation from persons familiar with the applicant’s achievements and academic potential, including at least one current or former academic instructor.
7. Submit a sample of written work that demonstrates: the applicant’s knowledge of social science theory, practice, and research; ability to think analytically; and writing skills. The sample should be at least 1000 words in length and represent work for which the applicant was the sole author, or if it is jointly authored should indicate which sections were primarily done by the applicant.

**Advisement**

The HBSSW will assign each MSW/Ph.D. student a major professor. This assignment is based on congruence between the applicant’s interests and the expertise of the major professor. In consultation with the director of the Ph.D. program, the student may change major professors after beginning the program, but no applicant will be admitted unless a doctoral faculty member in social welfare agrees to serve as major professor.

**Financial Assistance**

Through a combination of tuition remission, teaching assistantships, research assistantships, fellowships, and other options, the program will attempt to provide financial assistance to all admitted students during their first four years in the program. Applicants needing additional information on other sources of financial assistance, such as student loans, should contact the campus’s Office of Financial Aid.

**Credits and Courses**

**MSW Requirements**

The MSW portion of the joint curriculum requires a minimum of 22 graduate credits for students admitted to the Advanced Curriculum. Another 12 credits normally required in the Advanced Curriculum will be replaced by the same number of Ph.D-level credits. Students admitted into the joint curriculum who have not earned a bachelor’s degree from an accredited social work program within the past five years are required to complete 22 credits in the Professional Foundation prior to beginning courses in the Advanced Curriculum.

**Professional Foundation**

The purpose of the Professional Foundation is to orient students to the profession and to provide a knowledge, values and skills base for later course. Credits in the Professional Foundation are not included in the 22 Advanced Curriculum credits required for completion of the MSW degree, nor do they apply to the required 12 Ph.D-level credits.

A minimum of 39 credits of Ph.D.-level coursework is required. At least 33 credits must be earned in residence at UWM. Required courses include:

- Social Work Methods I: Individuals and Families
- Social Work Methods II: Groups, Organizations and Communities
- Field Instruction I
- Social Welfare Policy Development and Implementation

Exemptions

Students who have, within the 5 years preceding admission, completed coursework which substantially duplicates MSW Professional Foundation courses may apply to the Chair of the Social Work Department for an exemption from the relevant courses. Exemption examinations are available in the Social Welfare Ph.D. program handbook. Students interested in securing an exemption should request course exemption forms upon notification of admission to the program. All requests for exemptions must be made at the time of initial enrollment. Exemption requests will not be accepted following the end of the first semester of coursework.

Ph.D. Requirements

A minimum of 39 credits of Ph.D.-level coursework is required. At least 33 of these must be earned in residence at UWM. Required courses include:

MSW courses in the Advanced Curriculum to be replaced by Ph.D.-level courses are:

- SOC WRK 793 replaced by SOC WRK 961
- SOC WRK 794 replaced by SOC WRK 951 or SOC WRK 952
- SOC WRK 851 (subtitled) replaced by SOC WRK 931 or SOC WRK 945
- SOC WRK 791 replaced by SOC WRK 901 or SOC WRK 932
- SOC WRK 791 replaced by SOC WRK 963 or doctoral elective

Dissertation Proposal Defense

All students must successfully complete an oral defense of their dissertation proposal to determine their preparation for independent research. The defense must be completed successfully within four years of initial enrollment.

Dissertation

Students who have passed the Preliminary Examination and have submitted a one-page preliminary dissertation proposal are formally admitted to doctoral candidacy. In accordance with Graduate School policies, students must then register for three research or thesis/
dissertation credits each semester until the dissertation is submitted to the Graduate School. To meet the requirements for the dissertation, the candidate must complete an original independent research project that adds meaningfully to the existing body of knowledge in social work or criminal justice. It should be of a caliber that warrants publication in respected journals in the field.

**Dissertation Defense**
As the final step toward the degree, the candidate must pass an oral examination before his/her doctoral committee in defense of the dissertation. The examination may also cover general topics relevant to the student's area of study. This requirement may not be completed until all other degree requirements are satisfied.

**Residence**
Students must meet minimum Graduate School residency requirements.

**Time Limit**
It is expected that most students will complete all degree requirements within seven years of initial enrollment in the joint MSW/Ph.D. program. All requirements MUST be completed within ten years from the date of initial enrollment.

**Social Work, MSW/Women's and Gender Studies, MA**
The College of Letters and Science and the Helen Bader School of Social Welfare collaboratively offer a program designed to provide students with theoretical and practical exposure to evolving professional practice and the field of feminist research and scholarship. Prerequisite to the award of either degree in this program is the simultaneous award of its counterpart degree.

**Admission Requirements**

**Application Deadlines**
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**
Students are admitted to both graduate programs separately, and admission requirements (http://uwm.edu/graduateschool/admission) are consistent with those specified by the UWM Graduate School, the MA in Women's and Gender Studies program in the College of Letter and Science, and the MSW in Social Work (http://uwm.edu/graduateschool/social-work) of the Helen Bader School of Social Welfare.

**Credit and Courses**
Students accepted into this MA/MSW program complete the following courses:

### Women's and Gender Studies

Select 6 credits from Women's and Gender Studies courses in consultation with faculty advisor

Total Credits 56-57

Minimum Total Credits for Coordinated Program: 52 (for those admitted to the MSW Social Work Advanced Curriculum).

Program Requirements

Time Limit
Students in the coordinated MA/MSW degree program must complete all degree requirements within seven years of the first enrollment semester as a degree student.

Trauma Informed Care, Graduate Certificate (Helen Bader School of Social Welfare, Department of Social Work)

The Certificate in Trauma-Informed Care will expose graduate students in several helping professions to the theory and practice of trauma-related service delivery. This is a multidisciplinary program that integrates knowledge from the social, behavioral, and health sciences. The primary goal of the program is to train graduate students from the helping professions in specialized knowledge and skills related to psychological trauma.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Application
- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Admission
Students in good standing currently in a graduate program or those who have already completed a graduate degree are eligible for the certificate.

Credits and Courses

All students participating in the certificate program will complete 15 academic credits related to trauma theory and practice.

Youth Work, Undergraduate Certificate (Helen Bader School of Social Welfare, Department of Social Work)

The Youth Work Certificate is available to students in Social Work, Community Education and Engagement, Exceptional Education, and Educational Studies. It is ideal for students who want to learn more about adolescence and working with youth in a variety of settings, including large and small community-based programs, group homes, foster care, and residential treatment centers. The focus is on youth who are troubled or at high risk, but much of the learning applies to youth in general and younger children as well.

Select 6 credits of courses focused on Human Development or Family Work

Total Credits | 14-15

1. Fieldwork must relate to child and/or youth care.

Certificate Requirements

**Transfer Credit**

No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

**Grade Point Average Requirement**

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

**Articulation with Degree Programs**

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   - Degree programs must approve the courses from certificates that can double count toward the degree.
   - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.

3. A course may count toward no more than one certificate and one degree.

4. Students may not earn a certificate subsequent to a concentration in the same area.

**Time Limit**

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.
