**The Management Research Project/Thesis**
The Management Research Project/Thesis is a variable 2-6 credit management research project.

**Comprehensive Examination**
Students must pass a final oral examination if they choose a 4-6-credit management research project or thesis.

**Time Limit**
The student must complete all degree requirements within five years of initial enrollment. In areas of concentration in which the total number of degree credits required exceeds 30, the student must complete all degree requirements within seven years of initial enrollment.
MANAGEMENT, MS: MARKETING

From the expanding presence of social media that empowers customers, to the downward pressure on prices due to increased competition, the rules of marketing continue to be rewritten. Today the number of media options that consumers turn to is in the hundreds of thousands, and businesses must find a way to position themselves strategically and cost effectively.

The MS-Marketing concentration provides knowledge to strategically position an organization - whether consumer or B2B - for competitive advantage, focusing on marketing strategy, marketing research, consumer behavior, and internet marketing. Additional emphasis on international operations delivers the tools needed to understand and overcome the economic, cultural, political, and legal barriers to international marketing.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/Registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus the following program requirements to be considered for admission:

- A bachelor’s degree from an accredited college or university.
- Submission of score on the Graduate Management Admission Test (GMAT) (http://uwm.edu/graduateschool/admission/#gmat).
- Review by the Master of Science Program Committee to assess academic achievement and ability to do intensive graduate-level work.

Applicants admitted to the MS program may be required to complete management foundation courses. Individual areas of concentration require different foundation courses. (See Lubar School of Business MBA/M.S. brochure and the Lubar School of Business Website (http://www4.uwm.edu/business) for details.) Foundation courses will be waived if students have completed equivalent coursework. Credits earned in these courses do not count toward the degree.

Students select the area of concentration most suited to their educational goals. The areas of concentration in the program are:

- Accounting (first professional degree—open only for students with non-accounting majors at baccalaureate level);
- Professional Accounting (program open to students who have completed an undergraduate degree in accounting);
- Finance Analysis;
- Marketing;
- Taxation.

If a student is waived out of a required course, an approved elective course must be substituted in its place and approved by Graduate Program Services (Lubar N251).

The major professor, in consultation with the student, reviews the student’s academic background and career goals and designs an appropriate program of study consistent with degree requirements. In developing a program of study for a student who has no undergraduate background in business administration, care is taken to ensure a basic exposure to different aspects of the management field as well as an in-depth preparation in the chosen field of specialization.

Credits and Courses
The minimum degree requirement for the Master of Science in Management degree concentrations varies from 30-33 graduate credits. In the 30-credit concentrations, at least 18 credits must be taken in the Lubar School of Business.

Electives provide distinction to each individual program. Through proper selection and packaging, each student can design a program to meet individual educational objectives while maintaining a high degree of academic strength. These courses may be selected from the many available in the Lubar School of Business, or from among those offered in graduate programs of other UWM departments.

1 Integrating course

Program Requirements
Students in the MS program have the option of doing a management research project. This option gives students the opportunity to apply methodological techniques and area studies. The urban location and strong ties with the business sector provide opportunities for student projects.

Major Professor as Advisor
Students in the MS program must choose a major professor during the first ten weeks of their first semester of graduate enrollment to advise and supervise their studies. A listing of faculty by area of interest is sent

<table>
<thead>
<tr>
<th>University of Wisconsin-Milwaukee</th>
<th>401</th>
</tr>
</thead>
</table>
to each M.S. student to aid in their selection of a major professor. This list is also available in the Graduate Programs Services office, Lubar N251.

**The Management Research Project/Thesis**
The Management Research Project/Thesis is a variable 2-6 credit management research project.

**Comprehensive Examination**
Students must pass a final oral examination if they choose a 4-6-credit management research project or thesis.

**Time Limit**
The student must complete all degree requirements within five years of initial enrollment. In areas of concentration in which the total number of degree credits required exceeds 30, the student must complete all degree requirements within seven years of initial enrollment.
MANAGEMENT, MS: PROFESSIONAL ACCOUNTING

The MS in Management - Professional Accounting (MS-PA) program is the logical capstone degree in accounting for a student with an undergraduate degree in accounting. Students are advised to enter the program immediately after earning their undergraduate degree in accounting to in order to build on their current knowledge.

Lubar School of Business accounting programs are separately accredited by AASCB. We are one of only three accounting programs in the state and one of 193 schools in the world with such accreditation.

Because the undergraduate BBA Accounting major curriculum does not include all coursework needed to successfully pass the Certified Public Accounting (CPA) Exam, the MS-PA program adds advanced work in financial accounting theory, auditing, tax compliance and planning, and law. The program also includes a specialty choice in either Assurance Services (auditing) which covers financial statement analysis, auditing computerized systems and forensics; or a specialty in Taxation which covers multi-jurisdictional taxation, tax research, tax planning, and corporate taxation. Most students enter a public accounting career specializing in either auditing or tax. Some students choose to work for large corporations or financial institutions.

Students are advised to complete an accounting internship prior to entering the program. Typically, internships result in full-time employment offers upon graduation from the MS-PA program. The MS-PA is normally completed in one year (including summer and/or winterim coursework).

Under Wisconsin law, students with an undergraduate degree in accounting are allowed to sit for the CPA Exam during the program. Most students integrate taking the various parts of the CPA Exam while completing the MS-PA degree. Graduates have a pass rate 50% greater than the national average and four times greater than that of UWM undergraduates not entering the MS-PA program. Most students complete the CPA Exam before they begin full-time employment. Completing the MS-PA degree meets the education requirements to be a CPA in Wisconsin.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus the following program requirements to be considered for admission:

• A bachelor’s degree from an accredited college or university.
• Submission of score on the Graduate Management Admission Test (GMAT) (http://uwm.edu/graduateschool/admission/#gmat).
• Review by the Master of Science Program Committee to assess academic achievement and ability to do intensive graduate-level work.

Applicants admitted to the MS program may be required to complete management foundation courses. Individual areas of concentration require different foundation courses. (See Lubar School of Business MBA/M.S. brochure and the Lubar School of Business Website (http://www4.uwm.edu/business) for details.) Foundation courses will be waived if students have completed equivalent coursework. Credits earned in these courses do not count toward the degree.

Students select the area of concentration most suited to their educational goals. The areas of concentration in the program are:

• Accounting (first professional degree—open only for students with non-accounting majors at baccalaureate level);
• Professional Accounting (program open to students who have completed an undergraduate degree in accounting);

### Program Requirements

Students in the MS program have the option of doing a management research project. This option gives students the opportunity to apply methodological techniques and area studies. The urban location and strong ties with the business sector provide opportunities for student projects.

**Major Professor as Advisor**

Students in the MS program must choose a major professor during the first ten weeks of their first semester of graduate enrollment to advise and supervise their studies. A listing of faculty by area of interest is sent to each M.S. student to aid in their selection of a major professor. This list is also available in the Graduate Programs Services office, Lubar N251.

**The Management Research Project/Thesis**

The Management Research Project/Thesis is a variable 2-6 credit management research project.

**Comprehensive Examination**

Students must pass a final oral examination if they choose a 4-6-credit management research project or thesis.

**Time Limit**

The student must complete all degree requirements within five years of initial enrollment. In areas of concentration in which the total number of degree credits required exceeds 30, the student must complete all degree requirements within seven years of initial enrollment.
MANAGEMENT, MS: TAXATION

The MS-Taxation concentration prepares students to provide expert guidance on tax matters to business organizations and individuals. In this highly specialized curriculum, students develop technical competence in current tax laws, the ability to evaluate tax consequences of business and investment decisions, and understanding of the impact of tax policy on the economy and specific industries.

Admission Requirements

Application Deadlines

If at any time you are unsure about a published date or deadline (http://www4.uwm.edu/businessadmission), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus the following program requirements to be considered for admission:

- A bachelor's degree from an accredited college or university.
- Submission of score on the Graduate Management Admission Test (GMAT) (http://uwm.edu/graduateschool/admission/gmat).
- Review by the Master of Science Program Committee to assess academic achievement and ability to do intensive graduate-level work.

Applicants admitted to the MS program may be required to complete management foundation courses. Individual areas of concentration require different foundation courses. (See Lubar School of Business MBA/M.S. brochure and the Lubar School of Business Website (http://www4.uwm.edu/business) for details.) Foundation courses will be waived if students have completed equivalent coursework. Credits earned in these courses do not count toward the degree.

Students select the area of concentration most suited to their educational goals. The areas of concentration in the program are:

- Accounting (first professional degree—open only for students with non-accounting majors at baccalaureate level);
- Professional Accounting (program open to students who have completed an undergraduate degree in accounting);

This list is also available in the Graduate Programs Services office, Lubar N251.

The Management Research Project/Thesis

The Management Research Project/Thesis is a variable 2-6 credit management research project.
Comprehensive Examination
Students must pass a final oral examination if they choose a 4-6-credit management research project or thesis.

Time Limit
The student must complete all degree requirements within five years of initial enrollment. In areas of concentration in which the total number of degree credits required exceeds 30, the student must complete all degree requirements within seven years of initial enrollment.
MARKETING, BBA

Marketing is a key factor contributing to the success of any business organization. It is the dynamic and creative process of the development, pricing, promotion, and distribution of products and services to satisfy customer and organizational objectives. Effective marketing requires an integration of eclectic knowledge and the skills pertinent to understanding consumer behavior, planning and analyzing marketing research data, thinking strategically, and managing people.

Students learn how marketing supports an organization’s objectives; how to examine consumer motivation and behavior; how to price, promote, and distribute products and services; and how to plan and analyze market research data to make good decisions.

Graduates of the marketing major find an exciting and broad spectrum of career opportunities in brand/product management, industrial selling, retailing, sales management, advertising, marketing research, customer-service management, and other areas.

A minimum of 123 credits is required for graduation for all majors. At least 50% of the business credit hours required for the business degree must be completed at UWM.

Grade Point Average

Students are required to earn at least a 2.25 overall GPA to graduate. Non-accounting majors are required to earn a minimum 2.25 GPA in all
business and economics courses, as well as a 2.25 GPA in all business and economics courses completed at UWM, to graduate.

Accounting majors must have earned a 2.5 GPA for all business and economics courses completed (including transfer credits), as well as a 2.5 GPA in all business and economics courses completed at UWM, to graduate.

Residence Requirements
A minimum of 12 credits must be completed in residence at UWM in each Business Administration major.

Students must earn their last 30 credits at UWM. BBA degree and major requirements must be completed within 10 years of initial enrollment at UW-Milwaukee. Should students not complete the degree and major within the 10-year time frame, the students will switch to the most current degree and major requirements. A new 10-year time frame would then begin.

Post-Baccalaureate Options
The above requirements refer to the full requirements of an initial bachelors degree only. Requirements of a second undergraduate degree are listed on the Lubar School's Policies and Regulations (p. 328). The Accounting major may not be completed as a second undergraduate degree.

Double Majors
Students interested in completing a double major with another UWM program or within Business should meet with an academic advisor to discuss how best to combine their academic plans.

Advising
For information on Academic Advising for undergraduate business majors, see Undergraduate Student Services. (http://uwm.edu/business/academics/undergrad/academic-advising) All students should meet with an academic advisor at least once a semester.

Career Services
The Lubar School of Business also features a dedicated Career Services Center (http://uwm.edu/business/academics/career-services) for its students. Internship positions and job requests are posted on a special bulletin board, which is maintained by the School as a service to students and to businesses that have specifically requested UWM business students to fill positions. The Career Services Center also provides a resume referral service. Potential employers may request resumes by functional area or by special interests within functional areas. Online national job searches and an alumni placement service are other services offered.

Honors in the Lubar School of Business
Beta Gamma Sigma (http://uwm.edu/business/academics/student-organizations) is the national scholastic honor society in the field of business. Election to membership is available to both undergraduate and graduate students in business. Each semester, students are invited to join Beta Gamma Sigma. Selection is based upon outstanding scholastic achievement.

See also information on the Business Scholars Program (p. 372).
NONPROFIT MANAGEMENT AND LEADERSHIP, MS (LUBAR SCHOOL OF BUSINESS)

Related Certificates
- Graduate Certificate in Nonprofit Management (p. 412)

Overview
The College of Letters and Science and the Sheldon B. Lubar School of Business offer and present jointly the Master of Science (MS) in Nonprofit Management and Leadership. The program is designed to provide students with the essential theoretical and practical knowledge and skills needed to be successful in managing and leading nonprofit sector organizations.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
To be admitted to the MS in Nonprofit Management and Leadership degree program, an applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission).

During the admissions process, students will be asked to show evidence of having satisfactorily completed undergraduate or higher level foundation coursework in the principles of accounting and economics. Those students who are unable to show such evidence may be admitted with these academic deficiencies but will then meet with their respective academic advisors to identify and obtain approval for what they must do to remove these deficiencies.

The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

Applicants must submit the following for review by the Graduate School and the Nonprofit Management Program Faculty Committee:

1. Official transcripts from all colleges or universities previously attended.
2. Three letters of recommendation from persons familiar with the applicant’s academic ability and/or professional achievements.
3. Scores from either the Graduate Record Examination (GRE) (http://uwm.edu/graduateschool/admission/#gre) or the Graduate Management Admission Test (GMAT) (http://uwm.edu/graduateschool/admission/#gmat).
4. For those students whose native language is not English, minimum TOEFL score (Test of English as a Foreign Language) of 550 PBT or 79 iBT or minimum IELTS score (International English Language Testing System) of 6.5.

5. Each student’s academic preparation is evaluated at the time of application. A personal interview may be required.

Credits and Courses
The MS in Nonprofit Management and Leadership degree requires satisfactory completion of 39 credits of graduate-level coursework including 33 credit-hours of required or “constrained choice” courses and 6 credit-hours of elective courses as follows:

Total Credits 39

1. This course will serve as the integrative “capstone” requirement for the program and must be taken after completing all other required courses (or concurrently with the final required courses).

2. This is a pre-approved but not exhaustive list: Students may request alternative courses offered in other departments at UWM. Please send an email to Program Advisor with a course description and/or syllabus, and stated reasons why the course being proposed is an appropriate fit for the student's academic and career goals.

**Program Requirements**

**Major Professor as Advisor**

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. A student who is not assigned to an advisor at the time of admission should immediately contact the Program Director.

**Thesis**

Not Required

**Comprehensive Examination**

Not Required

**Time Limit**

The student must complete all degree requirements within seven years of initial enrollment.
NONPROFIT MANAGEMENT, GRADUATE CERTIFICATE (LUBAR SCHOOL OF BUSINESS)

The Graduate Certificate in Nonprofit Management is a collaborative effort between the Lubar School of Business, the College of Letters & Science, and other campus units that have research and/or teaching interests in nonprofit management and leadership, nonprofit organizations, the nonprofit sector, and philanthropy. The certificate responds to the growing need for trained professionals to assume management and leadership positions in non-governmental, nonprofit sector organizations.

The multi-disciplinary Graduate Certificate in Nonprofit Management is designed to provide students with the knowledge and skills needed to successfully pursue or advance careers within nonprofit sector organizations.

Students in degree programs across campus such as urban studies, public administration, business, social welfare, education or the arts, have combined the Graduate Certificate in Nonprofit Management with their degree to further enhance their academic preparation for their particular career goals.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Application
• Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
• All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
• Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
• Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Credits and Courses
Students wishing to earn a Graduate Certificate in Nonprofit Management must complete the required 15 graduate credit hours. No student may complete all 15 credits within a single school or college. The curriculum consists of the following five courses:

<table>

Total Credits 15

Certificate Requirements

Transfer Credit
No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   • Degree programs must approve the courses from certificates that can double count toward the degree.
   • All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   • Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit
Certificate program time limits shall be established as follows:
• 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
• 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.
PUBLIC ADMINISTRATION, MPA (LUBAR SCHOOL OF BUSINESS)

The College of Letters and Science and the Lubar School of Business offer and present jointly the Master of Public Administration (MPA).

The program is designed to provide theoretical and practical preparation for careers in public and non-profit administration with three areas of concentration: municipal management, general public administration, and non-profit management.

Admission Requirements

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

An applicant must meet Graduate School requirements and hold a bachelor's degree from an accredited college or university to be considered for admission.

There are no fixed prerequisites in terms of prior academic training; but background in public administration, American governmental institutions, economics, statistics, and computer applications in social science is beneficial. Each student's academic preparation is evaluated at the time of application. A personal interview may be required.

Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses.

The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

The MPA program requirements to be considered for admission are:

1. An undergraduate grade point average of at least 3.0 (4.0 scale).
2. Three letters of recommendation from persons familiar with applicant's academic ability and achievement.
3. Submission of scores on the Graduate Record Examination (GRE) (http://uwm.edu/graduateschool/admission/#gre) or the Graduate Management Admission Test (GMAT) (http://uwm.edu/graduateschool/admission/#gmat).

Candidates seeking admission to the MPA/MUP program must apply to and be admitted to both programs. The requirements for admission to the MUP program are detailed in the Urban Planning section of this Bulletin.

Credits and Courses

The Master of Public Administration degree requires satisfactory completion of 39-42 credits of prescribed graduate study and appropriate coursework.

Minimum Grade Requirements in the Core Courses

In order to demonstrate mastery of the critical Core Course material, MPA students must achieve a grade point average of 3.0 in the six Core Courses, and, regardless of average, students must earn a grade of B- or better in each Core Course. If a grade of C+ or lower is earned in any Core Course, that course must be repeated in an effort to earn the minimum grade of B-. If the student's grade point average in the six Core Courses is below 3.0, the student must repeat one or more Core Courses in which a grade of lower than B was earned in an effort to establish a grade point average of 3.0 in the Core. (For purposes of this requirement, the grade point average for the Core Courses will be calculated on the basis of only the highest grade earned; that is, the grade earned in the first attempt at a Core Course will not be averaged with the grade earned in the repeat.)

Core Requirements

Students entering the MPA program will be placed, at the discretion of the MPA Director, in one of two tracks (A or B) within the core. The minimum degree requirement is 39 credits for Track A students and 42 credits for Track B students.

The course requirements will include the completion and written and oral presentation of a project on a topic selected with the assistance of the instructor. This course will also be devoted to coverage of special issues and problems of the public administration profession, including administrative ethics.

Track A

Students with significant public or nonprofit sector work experience may, at the discretion of the MPA Director, have the Government/Nonprofit Administrative Internship course (PUB ADM 921) waived. Students seeking placement in this track will need to meet with the MPA Director to
discuss this possibility and will be required to provide documentation of current public or nonprofit sector work experience.

**Track B**

Students with no significant public or nonprofit sector work experience are required to enroll in and successfully complete PUB ADM 921. As part of the requirements for this course, Track B students are required to obtain, with the assistance of the MPA Director, one or more internships in either the public or nonprofit sector while enrolled in the MPA program.

Every student must select and complete the requirements for one of the following three concentrations:

### Program Requirements

**Major Professor as Advisor**

The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. A student who is not assigned to an advisor at the time of admission should immediately contact the Program Director.

**Thesis**

Not required.

**Time Limit**

The student must complete all degree requirements within seven years of initial enrollment. Students in the MPA/MUP program (see below) are allowed up to seven years to complete all requirements for both degrees.
PUBLIC ADMINISTRATION, MPA/CRIMINAL JUSTICE, MS

Both departments collaboratively offer a program designed to provide students with theoretical and practical exposure to evolving professional practice in the field of criminal justice.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Students are admitted to both graduate programs separately and admission requirements are consistent with those specified by the UWM Graduate School, the MS in Criminal Justice and the MPA program.

Credits and Courses

Students accepted into this MS/MPA program complete the following courses:

M.S. in Criminal Justice

Internship

PUB ADM 921 | Public Service Administrative Internship 2 | 3       |

Total Credits 42

1 Every student will be required to take the capstone seminar, PUB ADM 959. The course requirements will include the completion and written and oral presentation of a project on a topic selected with the assistance of the instructor. This course will also be devoted to coverage of special issues and problems of the public administration profession, including administrative ethics.

2 An internship is mandatory for students with no public sector work experience.

Total Degree Credits for Master of Public Administration: 48-51 cr

The total credits for the coordinated program would typically be completed in both programs at the same time, rather than one program after the other. A student not completing the requirements for the coordinated degree program would need to complete all requirements for an individual program in order to receive a degree.
Program Requirements

Time Limit
Students in the coordinated MS/MPA degree program must complete all degree requirements within seven years of the first enrollment semester as a degree student.
PUBLIC ADMINISTRATION, MPA/URBAN PLANNING, MUP

A coordinated degree program has been designed to allow students to obtain both the Master of Public Administration and the Master of Urban Planning degrees concurrently.

This program is intended to combine professional training in planning with applied administrative and managerial skills. The MPA/MUP requirements are described later in this section.

Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Credits and Courses
This program allows students to complete master’s degrees in Public Administration and in Urban Planning concurrently. The coordinated degree requires 42-45 credits of required courses and completion of a concentration in Public Administration (18 credits). However, because some courses completed for the core requirements of the MUP also may count toward the MPA concentration, students may complete the dual degree with a minimum of 54-57 credits. The total number of credits will depend on the student’s track and choice of concentration in public administration.

Required Courses in Urban Planning (27 credits)

Program Requirements

Comprehensive Exam
Completion of the comprehensive exam in Urban Planning is required. (See Urban Planning)
REAL ESTATE, UNDERGRADUATE CERTIFICATE

The Real Estate Certificate is designed to offer students the opportunity to complement their major field of study with an additional concentration in real estate. Students completing the Real Estate Certificate will have coursework in real estate finance, valuation, environmental real estate issues and property development, as well as real estate law.

This background, when added to a business major, opens career opportunities to students in mortgage banking and commercial real estate lending, commercial leasing and brokerage, appraisal and valuation, real estate investment analysis, and property development and management.

Students may also benefit from becoming student members of the Institute for Real Estate Management (IREM) and the Commercial Association of Realtors Wisconsin (CARW) while pursuing the certificate.

Students interested in the certificate program should contact Undergraduate Student Services, Lubar Hall N297, (414) 229-5271, uwmbba@uwm.edu, to make a formal declaration of their intention.

Requirements

The Real Estate certificate is open to all students in good standing seeking a bachelor's degree at the University of Wisconsin-Milwaukee and to all students who have previously received a bachelor's degree from UWM or any other accredited college or university. Business students completing a real estate certificate may utilize the courses as part of their business elective requirements.

Note: Non-business majors are required to complete ECON 104 in order to fulfill requirements for this certificate. It also is recommended that students complete BUS ADM 201 and BUS ADM 350 prior to taking BUS ADM 481. A business minor also satisfies the prerequisite coursework for non-business students.

All coursework required for the Real Estate Certificate must be completed with at least a 2.5 GPA in order to post the certificate on the transcript. At least half of the credits required for the certificate must be taken in resident at UWM. Real Estate Certificate courses may not be taken on a credit/no credit basis except for BUS ADM 389.
STATE AND LOCAL TAXATION, GRADUATE CERTIFICATE

Admission to the Certificate in State and Local Taxation program is temporarily suspended.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Students currently enrolled in a UWM graduate program are eligible to earn the Graduate Certificate in State and Local Taxation. Persons not currently enrolled must apply for admission to the Certificate and must possess, at a minimum, a bachelor’s degree with an overall GPA of 2.75 or better.

Application
• Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
• All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
• Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
• Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Credits and Courses

Students wishing to earn the Certificate must complete the required 12 graduate credit hours.

Certificate Requirements

Transfer Credit
No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   • Degree programs must approve the courses from certificates that can double count toward the degree.
   • All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   • Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit
Certificate program time limits shall be established as follows:
• 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
• 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.
SUPPLY CHAIN AND OPERATIONS MANAGEMENT, BBA

Supply Chain and Operations Management (SCOM) examines the key business processes that take place from “step one” through delivery to the customer. Supply chain management is the integration of all key business processes from original suppliers through end users, and provides products, services, and information that add value for customers and other stakeholders. It includes the supply, storage, and movement of materials, information, personnel, equipment, and finished goods within the organization and between the organization and its environment.

The operations function, within the supply chain, relates to the creation of goods and services through efficient and effective use of personnel, material, and machines, and includes acquisition of resources, planning of production and inventory levels, scheduling of work assignments, and the control of production and quality. Recent concepts in supply chain and operations management include lean operations, Six Sigma, ERP, and mass customization.

Technology is one of the most important facets in supply chain, and the Lubar program emphasizes information technology management, including enterprise resource planning. Other important components include product development lean operations, Six Sigma, and mass customization.

Companies in all sectors of the economy - public and private, manufacturing service, health care, retail and others - recruit SCOM graduates to help them identify competitive issues in the supply chain and develop innovative solutions.

LWM Foreign Language Requirement

Complete Foreign Language Requirement through: 1
- Two years (high school) of a single foreign language
- Two semesters (college) of a single foreign language
- Or equivalent

LWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy LWM’s Cultural Diversity requirement

1 Credit earned for 100-level English and Math courses, as well as college credit earned for Foreign Languages, is counted towards General Electives.

2 Excluding COMMUN 103 if used to satisfy a Foundation course requirement.

3 Excluding COMMUN 105 if used to satisfy a Foundation course requirement. Only one 100- or 200-level economics course can be used to satisfy the Social Science requirement (excluding ECON 103 and ECON 104). Students completing a Human Resources major must complete PSYCH 101.

4 Excluding MATH 211, MATH 221, or MATH 231.
Business Foundation Courses

Total Credits 18

Degree Completion Requirements

Credits

A minimum of 123 credits is required for graduation for all majors. At least 50% of the business credit hours required for the business degree must be completed at UWM.

Grade Point Average

Students are required to earn at least a 2.25 overall GPA to graduate. Non-accounting majors are required to earn a minimum 2.25 GPA in all business and economics courses, as well as a 2.25 GPA in all business and economics courses completed at UWM, to graduate.

Accounting majors must have earned a 2.5 GPA for all business and economics courses completed (including transfer credits), as well as a 2.5 GPA in all business and economics courses completed at UWM, to graduate.

Residence Requirements

A minimum of 12 credits must be completed in residence at UWM in each Business Administration major.

Students must earn their last 30 credits at UWM. BBA degree and major requirements must be completed within 10 years of initial enrollment at UW-Milwaukee. Should students not complete the degree and major within the 10-year time frame, the students will switch to the most current degree and major requirements. A new 10-year time frame would then begin.

Post-Baccalaureate Options

The above requirements refer to the full requirements of an initial bachelors degree only. Requirements of a second undergraduate degree are listed on the Lubars School’s Policies and Regulations (p. 328). The Accounting major may not be completed as a second undergraduate degree.

Double Majors

Students interested in completing a double major with another UWM program or within Business should meet with an academic advisor to discuss how best to combine their academic plans.

Advising

For information on Academic Advising for undergraduate business majors, see Undergraduate Student Services. (http://uwm.edu/business/academics/undergrad/academic-advising) All students should meet with an academic advisor at least once a semester.

Career Services

The Lubars School of Business also features a dedicated Career Services Center (http://uwm.edu/business/academics/career-services) for its students. Internship positions and job requests are posted on a special bulletin board, which is maintained by the School as a service to students and to businesses that have specifically requested UWM business students to fill positions. The Career Services Center also provides a resume referral service. Potential employers may request resumes by functional area or by special interests within functional areas. Online national job searches and an alumni placement service are other services offered.

Honors in the Lubars School of Business

Beta Gamma Sigma (http://uwm.edu/business/academics/student-organizations) is the national scholastic honor society in the field of business. Election to membership is available to both undergraduate and graduate students in business. Each semester, students are invited to join Beta Gamma Sigma. Selection is based upon outstanding scholastic achievement.

See also information on the Business Scholars Program (p. 372).

Dean’s Honor List

GPA of 3.500 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.
TECHNOLOGY ENTREPRENEURSHIP, UNDERGRADUATE CERTIFICATE

Note: Admission to the Undergraduate Certificate in Technology Entrepreneurship is suspended effective Fall 2017.

The online Certificate in Technology Entrepreneurship is designed for business or engineering students who desire a sequence of undergraduate level courses that focus specifically on Technology Entrepreneurship and that are delivered through an online instructional environment. The focus of the certificate is to prepare students to meet the growing global need for individuals who can think innovatively and successfully pursue the commercialization of their innovative ideas and technological solutions, either independently or within the confines of an established organization. Students who complete this certificate will gain a substantial competitive edge in pursuing a career either as an engineer or as a business specialist by combining their entrepreneurial skills and capabilities with their particular field of expertise. The program will prepare students for fast-track leadership positions in technology-based and/or manufacturing companies.

For more information regarding the application process, business majors may contact Undergraduate Student Services (LUB N297) or call 414-229-5271, and CEAS majors may contact the Student Advising Office (EMS E386) or call 414-229-4667.

Eligibility
Students currently enrolled in a UWM business or engineering undergraduate program (or at any other accredited engineering or business baccalaureate program) are eligible to earn the Certificate in Technology Entrepreneurship. This certificate is also open to business and engineering graduates.

Requirements
In addition, to fulfill graduation requirements, students will complete pre-approved, zero-credit professional activities.

Note: A maximum of 6 credits from the Undergraduate Certificate in Technology Entrepreneurship may also count toward other UWM undergraduate degrees.

Graduation Requirements
Students must complete all coursework required for the certificate with at least a 2.5 GPA to have the certificate posted on the transcript at graduation. Students must complete all certificate courses within 3 years of initial enrollment in the certificate program.
TECHNOLOGY ENTREPRENEURSHIP, GRADUATE CERTIFICATE

Admission to the Technology Entrepreneurship graduate certificate program is temporarily suspended.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Students currently enrolled in a UWM graduate program are eligible to earn the Graduate Certificate in Technology Entrepreneurship. Persons not currently enrolled must apply for admission to the Certificate and must possess, at a minimum, a bachelor’s degree with an overall GPA of 2.75 or better.

Application
• Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
• All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
• Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
• Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   • Degree programs must approve the courses from certificates that can double count toward the degree.
   • All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   • Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit
Certificate program time limits shall be established as follows:
• 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
• 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.
The School of Education prepares educators for careers in schools as well as non-school settings such as business, industry, and community agencies. Faculty provides consultation and in-service assistance to school systems at the local and national levels. Current practitioners have opportunities for professional development and can broaden their expertise through in-service work and enriched study. The School of Education offers an array of Bachelor of Science (BS) Programs, five Master’s Degree Programs, and Wisconsin’s only PhD in Urban Education.

Programs in the School of Education prepare students for professional roles in public schools that are approved by the Wisconsin Department of Public Instruction (DPI).

The School of Education offers undergraduate certificates that can enhance professional development. Certificates consist of focused coursework designed to provide targeted academic preparation. Certificate programs are available to all UWM undergraduates and to those who already hold a bachelor’s degree from any institution.

### Programs of Study Leading to Certification

#### Early Childhood Level
Teachers are prepared to teach at the approximate ages of birth through 8.

#### Middle Childhood Through Early Adolescence Level
Teachers are prepared to teach pupils at the approximate ages of 6 through 12 or 13. Students who are interested in pursuing exceptional education certification have the option of doing so as a fifth year post-baccalaureate student.

#### Early Adolescence Through Adolescence Level
Teachers are prepared to teach pupils at the approximate ages of 10 to 21. Several teaching subjects, such as English, mathematics, science, and social studies, fall into this licensure category.

#### Early Childhood Through Adolescence Level
Teachers are prepared to teach at the ages of birth through 21. Several teaching subjects, such as world languages and English as a Second Language, fall into this licensure category.

#### Exceptional Education
Teachers are prepared to work at the early childhood, middle childhood through early adolescence, and early adolescence through adolescence levels. The Deaf and Hard of Hearing program prepares students for teaching early childhood through adolescence.

#### Other School Service Positions
Reading teacher, school counselor, school psychologist, school administrator.

### Non-Certification Programs

#### Community Engagement and Education
A non-certification bachelor’s degree program for community-based educators. For admission and program information, contact the Office of Student Services at (414) 229-4721.

#### Interpreter Training Program (ITP)
Offered through the Department of Exceptional Education, this program prepares students to meet the needs of deaf and hard of hearing individuals in a variety of settings. It is available as part of an undergraduate bachelor’s degree or as a second degree. Contact the Office of Student Services at (414) 229-4721.

#### American Sign Language Studies
Offered through the Department of Exceptional Education, the ASL Studies program provides a rich educational experience that allows for students to develop both linguistic proficiency and a deep respect for the Deaf culturo-linguistic community. For information, contact the Office of Student Services at (414) 229-4721.

### DPI Certification Programs in Other Schools and Colleges

Specific degree programs are managed by schools and colleges outside of the School of Education. The certification process is handled by the School of Education.

#### Fine Arts Education
Programs leading to a Bachelor of Fine Arts degree with certification to teach art, dance, music, or theater are offered by the Peck School of the Arts. For additional information, contact the office of the Administrator of Student Affairs, Peck School of the Arts. Post-baccalaureate programs are available in art, music, dance, and theater.

#### Communication Sciences and Disorders
State certification as a speech pathologist requires completion of a master’s degree. Work toward this license should be started at the undergraduate level. Undergraduate students, as well as those who already hold a bachelor’s degree, should contact the Department of Communication Sciences and Disorders in the College of Health Sciences.

#### Instructional Library Media
The School of Information Studies, in collaboration with the School of Education, offers post-baccalaureate programs leading to State of Wisconsin licensing as Initial Instructional Library Media Specialist and Instructional Library Media Supervisor.

#### School Social Work
The Helen Bader School of Social Welfare, in conjunction with the School of Education, offers a program leading to State of Wisconsin licensing as a school social worker.

#### Continuing Education for Teachers
Teachers who need to earn credits to renew a teaching license to meet local school system or state Department of Public Instruction requirements should contact the Office of Student Services at (414) 229-4721 for information and admission.

- Urban Education, PhD: Social Foundations of Education (p. 640)

Advisors provide students with the academic advice and information that will assist them in completing degree programs and becoming professionals in urban education. Advisors are available on a walk-in basis, by appointment, by phone, or online.

Undergraduate Advising
Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

How to Prepare for an Advising Meeting
- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

Scheduling an Appointment
Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

Walk-In Hours
Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

Transfer Student Not Yet Enrolled at UWM?
If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

Graduate Advising
If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact...
Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

**Graduate Policies and Regulations**

The Graduate School policies and regulations can be found at Graduate School Policies (p. 22). Please refer to the specific program for program policies and regulations.

**Undergraduate Policies and Regulations**

**Academic Regulations**

For information on academic actions for unsatisfactory grades, see Academic Policies (p. 27), University-Wide Academic Action Policy.

**Application Submission and Review**

Application periods for admission vary by program. Most programs have September and January deadlines. Contact the Office of Student Services each semester for details.

All applications are reviewed by faculty of the appropriate department. If admission is deferred or denied, the student may consult with the appropriate department chairperson and/or request a hearing under appeals procedures. The School of Education reserves the right to limit admission due to staffing and space limitations. Enrollment as a pre-education student and/or meeting the minimum requirements does not guarantee admission to a professional education major in the School of Education.

A student who transfers from one program to another within the School must re-apply and meet requirements in effect for that program at the time of transfer.

**Re-entering Students**

Students who do not maintain continuous enrollment/registration at the university should meet with their advisor upon re-entry. It is possible that the program requirements were revised in their absence.

If a student is out for more than one full semester (not including Summer Session), the student must meet the program and graduation requirements in effect at the time of his or her return. Options will be discussed on a case-by-case basis.

An admitted student who has not been enrolled for two or more semesters may be required to re-apply for admission. Students admitted into the post-baccalaureate program have five years from the semester of admission to complete their program.

**Post-Baccalaureate Certification Program**

Students who already hold a bachelor's degree and seek certification must meet the following minimum criteria when submitting an application: completion of a bachelor's degree, a cumulative undergraduate grade point average of 2.5, and passing basic skills test scores. Applicants to the Early Adolescence Through Adolescence programs are required to have a minimum GPA of 2.75 in their majors.

Students interested in a post-baccalaureate certification program in Curriculum and Instruction will be denied admission if they have a grade of C- or below in any prior student teaching experience, or if they have been previously counseled out of student teaching and/or have graduated without certification from a teacher education program because of poor performance in student teaching.

Additional criteria may be required for some programs. For specific admission and program information, contact the Office of Student Services.

Please refer to specific programs for additional information on program admission requirements.

**Advisement Report**

Students who have been admitted to a major will have an Advisement Report indicating course requirements completed as well as those needed. The Advisement Report assists students in planning future semesters, and is one of the documents used in clearing Education students for graduation. Community Engagement and Education students contact the Department of Educational Policy and Community Studies for their summaries and graduation clearance.

**Enrollment Plans for Undergraduate Programs**

Community Engagement and Education students enroll in the School of Education through the Department of Educational Policy and Community Studies. Students planning to major in Educational Studies or in any teacher education program register as pre-education students. They follow the general curriculum requirements of their proposed major in the School of Education and are advised by faculty and staff in the School. All academic actions such as adds, drops, permission to continue, withdrawals, etc., are approved by designated staff in the School of Education.

**Requirements**

**Individual Program Requirements**

Specific program requirements are listed in each program section. To be admitted, students must apply to and be accepted into a specific program. Academic major/minor forms for Early Adolescence Through Adolescence education majors and proposal forms for all other programs require the faculty advisor’s signature prior to submitting the application to be accepted into a specific program. Applicants should follow specific admission procedures for their program.

**Substitution for Requirements**

Any variations from the approved curriculum in the student’s program must be approved in writing by the student’s faculty advisor, department chair, and the Associate Dean for Academic Affairs. This must be done in advance of course selection.

**Degree Requirements**

1. Satisfactory completion of a minimum of 128 credits or 120 credits, depending on program and the requirements of the student's curriculum.

2. Satisfactory completion of the School of Education core curriculum requirements and the University's General Education Requirements. See individual department and program general education core curriculum requirements for the credits required and the distribution.

3. For professional education certification programs, a minimum cumulative grade point average of 2.75 in all professional education coursework. This includes any transfer coursework that is counted.
towards certification at UWM, as well as any grades earned in student teaching or field experiences. General education coursework and/or electives that do not fulfill requirements towards certification will not be included in the cumulative GPA calculation.

4. Completion of the last year of work (30 credits) in residence at UW-Milwaukee. Special permission to earn credits on another campus of the UW System, at another institution, or through correspondence work from the UW Extension must be obtained in advance. Students should meet with their academic advisor. Students who transfer to UWM from any accredited institution must take a minimum of 18 hours of graded credits at UWM to establish a GPA for graduation.

Change in Requirements
When a change in program or graduation requirements is adopted, students currently enrolled may complete either the new requirements or those in effect at the time of their admission to the School of Education, but not a combination. Changes in state requirements for teacher certification may lead to changes in requirements in a student’s program. Satisfaction of state requirements is necessary for eligibility for teacher certification.

Semester Course Load
An overload for undergraduate and special students in the School of Education is 18 or more credit hours during a regular semester. Students who want to take an overload during a regular semester should contact their academic advisor.

Any student in the School of Education who takes an unapproved overload will not be permitted to count the overload credits toward graduation and/or certification. The particular credits that would not be counted toward graduation will be designated by the student’s advisor and approved by the Associate Dean for Academic Affairs.

Field Experience
Students are required to complete a full-day/full-semester student teaching experience during the final year in the teacher education program. However, many programs require more than one semester of student teaching. For information, please call (414) 229-4352.

Employment, Licensing, or Professional Organization Requirements
Applicants to School of Education programs that involve student teaching, practicum, internship, or other field placements must complete an information disclosure statement and be subject to a criminal background check to comply with placement site requirements and state regulations. Criminal background checks are required by state law to help employers and government officials in making employment and licensing decisions. The Wisconsin Department of Public Instruction (DPI) conducts a check as part of licensing. Agencies regulated by the Division of Health and Family Services must have on file a criminal background check for persons who have access to clients within caregiving organizations, including students.

Students in a program with a clinical experience must undergo a criminal background check at the time of admission to the School of Education, or prior to placement in a major clinical experience if that occurs earlier. The student will be charged the cost of the background check administered through School of Education procedures. Students are responsible for obtaining the information necessary for them to become knowledgeable about these requirements and plan their studies accordingly. Contact the Office of Clinical Experiences for further details.

Wisconsin Department of Public Instruction (DPI) License Application
Forms and information about applying for a teaching license may be obtained from the Office of Student Services, Enderis Hall, Room 209, or by calling (414) 229-4153.

A departmental recommendation for certification is required. This recommendation is not automatic upon graduation or completion of a post-baccalaureate certification program. After all program requirements have been completed, a student may submit a license application to the Office of Student Services, Enderis 209, for processing.

The DPI conducts a criminal background check of each applicant for a teaching license. If you have ever lived, worked, or attended school outside of Wisconsin since the age of 18, you are also required to complete fingerprint cards as part of your criminal background check. Based on this information, an applicant may be denied a license even if recommended for certification by the University. The DPI takes 12 to 16 weeks to process an endorsed license.

Special Opportunities
Departmental Examinations
Departments may grant degree credit to a student who, instead of taking a course, requests and passes an examination administered by the department on the content of that course.

Permission to take such examinations must be obtained from the Associate Dean for Academic Affairs, Enderis Hall 583, who will require a recommendation from the department chairperson or program director to whom evidence of work justifying an examination must be presented by the student.

Study Abroad
Qualified students can complete equivalent coursework in another country. For information, consult the Office of Student Services, Enderis Hall 209.

**Administrative Leadership**

The Department of Administrative Leadership has master's and doctoral specializations in Adult, Continuing, and Higher Education and related certificates at the graduate level.

The Adult, Continuing, and Higher Education Leadership master's specialization prepares students for positions of leadership in a wide range of post-secondary programs, including vocational and technical education, university extension, continuing education, training and human resource development, instructional design, instructional technology, adult basic education, adult literacy, and community education.

The primary mission of the specialization in Adult, Continuing, and Higher Education Leadership (ACHEL) doctoral specialization in Urban Education is to prepare individuals for leadership positions in urban adult, continuing, and higher educational organizations. The specialization will assist students to examine changing perspectives on urban postsecondary, adult and continuing educational organizations; changing notions of urban adult, continuing, and higher education teaching and learning; and the changing roles of the students, teachers, researchers, and administrators who work and study within urban adult, continuing, and higher education organizations.

**Programs**

- Administrative Leadership Specialist, Graduate Certificate (p. 441)
- Administrative Leadership, MS (p. 441)
- Administrative Leadership, MS: Adult, Continuing, and Higher Education Administration (p. 438)
- Administrative Leadership, MS: Educational Administration and Supervision (p. 440)
- Educational Studies, BS (p. 442)
- Health Professional Education, Graduate Certificate (School of Education, Department of Administrative Leadership) (p. 443)
- Support Services for Online Students in Higher Education, Graduate Certificate (p. 444)
- Teaching and Learning in Higher Education, Graduate Certificate (p. 446)

**Administrative Leadership Courses**

**AD LDSP 297 Study Abroad:**
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
**Prerequisites:** jr st; cons instr; acceptance for Study Abroad Prog.
**Course Rules:** May be retaken w/chg in topic.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**AD LDSP 497 Study Abroad:**
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
**Prerequisites:** jr st; cons instr; acceptance for Study Abroad Prog.
**Course Rules:** May be retaken w/chg in topic.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**AD LDSP 507 Introduction to Group Leadership**
3 cr. Undergraduate/Graduate.
Concepts and theories of group and organizational leadership applied to problems of youth-serving organizations and student activities in secondary and post-secondary schools and colleges.
**Prerequisites:** jr st.
**Last Taught:** Fall 2017, Fall 2016, Fall 2015, Fall 2014.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**AD LDSP 517 Introduction to Adult Education Practice**
3 cr. Undergraduate/Graduate.
Objectives, organization and practices of postsecondary programs of lifelong learning, adult and continuing education, and community and public service programs.
**Prerequisites:** jr st.
**Last Taught:** Fall 2016, Fall 2015, Fall 2012, Fall 2010.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**AD LDSP 537 Leadership and Management of Volunteer Programs**
3 cr. Undergraduate/Graduate.
Introduction to volunteers and organizations which utilize them. Course emphasizes practical application of leadership skills needed for effective management and training of volunteers.
**Prerequisites:** jr st.
**Last Taught:** Spring 2018, Spring 2016, Spring 2014, Spring 2010.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**AD LDSP 547 The Educational Dimensions of Practice with Older Adults**
3 cr. Undergraduate/Graduate.
Current problems, issues and research relating to the development and organization of educational programs for older adults.
**Prerequisites:** jr st.
**Last Taught:** Spring 2015, Spring 2013, Spring 2011, Spring 2009.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**AD LDSP 557 Foundations and Philosophy of WTCS in Wisconsin**
3 cr. Undergraduate/Graduate.
History, philosophy, objectives, organization and legal bases for vocational education, with special emphasis given the movement in Wisconsin.
**Prerequisites:** jr st or vocational teachers or cons instr.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**AD LDSP 567 Supervision and Planning for Vocational and Technical Education**
3 cr. Undergraduate/Graduate.
Social, economic, philosophical, and historical foundations of career education. Exploration of past, present and projected models. Strategies for program selection, community involvement, evaluation and management.
**Prerequisites:** jr st or cons instr.
**Last Taught:** Fall 2013, Fall 2009, Fall 2007, Fall 2005.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)
AD LDSP 577 Adult Literacy and Workforce Development
3 cr. Undergraduate/Graduate.
Analyzes the problem of adult low literacy and its effects on workforce development; presents alternative procedures for providing educational programs.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

AD LDSP 579 Current Topics in Administrative Leadership:
1-3 cr. Undergraduate/Graduate.
Current problems, issues and research in administrative leadership and supervision and their implications for practitioners.
Prerequisites: jr st.
Course Rules: May be repeated w/chg in topic to max of 9 cr.
Last Taught: Fall 2011, Spring 2011, Fall 2010, Summer 2010.
Current Offerings: http://uwm.edu/schedule

AD LDSP 581 Administration and Supervision in Early Childhood Programs
3 cr. Undergraduate/Graduate.
Analyzes, from a quality perspective, the administrative roles and responsibilities of various early care and education programs, and the groups with whom they have relationships.
Prerequisites: jr st.
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule

AD LDSP 582 Operations Management in Early Childhood Programs
3 cr. Undergraduate/Graduate.
An introduction to systems and operations theory. Students explore and apply management concepts, systems, policies, and procedures to improve the quality of programs and services.
Prerequisites: jr st; Ad Ldsp 581(P); or cons instr.
Course Rules: Jointly offered with & counts as repeat of Ed Pol 582.
Current Offerings: http://uwm.edu/schedule

AD LDSP 583 Financial Management and Planning in Early Childhood Programs
3 cr. Undergraduate/Graduate.
Identifies the principles of sound financial management and develops the ability to apply those principles to the financial planning and management of early childhood programs.
Prerequisites: jr st & Ad Ldsp 581(P); or cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 586 Administrative Seminar: Leadership in Early Childhood Programs
3 cr. Undergraduate/Graduate.
Integrates and applies the concepts and skills acquired in the first five courses as demonstrated in the development of a major project by each student.
Prerequisites: jr st & Ad Ldsp 581(P); Ad Ldsp 582(P) or Ed Pol 582(P); Ad Ldsp 583(P); Ed Pol 584(P); Currins 585(P).
Current Offerings: http://uwm.edu/schedule

AD LDSP 587 Serving Multicultural and Special Needs Learners
3 cr. Undergraduate/Graduate.
Examines the needs of multicultural and adult vocational special needs learners; explores strategies for revising instructional methods/ approaches and program development.
Prerequisites: jr st.
Last Taught: Fall 2012, Fall 2010, Fall 2008, Fall 2006.
Current Offerings: http://uwm.edu/schedule

AD LDSP 591 Early Childhood Leadership: The Personal Disposition of a Leader
3 cr. Undergraduate/Graduate.
Leadership definitions and skills and the role of vision, emotional intelligence, resilience, optimism and reflective practice for successful early childhood leaders.
Prerequisites: jr st; completion of childcare credential or cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 592 Early Childhood Leadership: Leading in Your Program
3 cr. Undergraduate/Graduate.
Leadership roles, responsibilities and skills necessary for leadership in staff development and excellence in early childhood programs.
Prerequisites: jr st; completion of childcare credential or cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 593 Early Childhood Leadership: Leading in Your Community and the Field
3 cr. Undergraduate/Graduate.
Leadership skills necessary for leadership in communities and the profession with a focus on collaboration, interconnections, relationships, transformation and advocacy.
Prerequisites: jr st; completion of childcare credential or cons instr.
Last Taught: Fall 2017, Fall 2016, Spring 2016, Spring 2015.
Current Offerings: http://uwm.edu/schedule

AD LDSP 594 Early Childhood Leadership: Leading for Change
3 cr. Undergraduate/Graduate.
Transformational leadership, theories on change, action research, and advocacy strategies. Completion of action research project to effect change.
Prerequisites: jr st; completion of childcare credential or cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 597 Program Development in Occupational Education
3 cr. Undergraduate/Graduate.
Technical, administrative, organizational, and participatory skills and knowledge associated with program development in occupational education for adults and adolescents.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

AD LDSP 598 Introduction to Workforce Education and Development
3 cr. Undergraduate/Graduate.
Foundations of workforce education and development; nature and role of education in preparing individuals for work.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule
AD LDSP 605 Survey of Human Resource Development
3 cr. Undergraduate/Graduate.
Introduction to human resource development theories, principles, concepts, and practices.
Prerequisites: sr st.
Last Taught: Fall 2017, Fall 2016, Fall 2014, Fall 2012.
Current Offerings: http://uwm.edu/schedule

AD LDSP 607 Coordination of Staff Development and Training Program
3 cr. Undergraduate/Graduate.
Provides knowledge and skills required for the design, coordination and administration of staff development and training programs.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

AD LDSP 617 Leadership in Youth-Serving Organizations
3 cr. Undergraduate/Graduate.
Introduction to the philosophy and operations of youth-serving organizations, administration of programs, and the role of youth-serving organizations in the larger community.
Prerequisites: jr st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

AD LDSP 630 Field Work in Schools, Agencies and Institutions
2-6 cr. Undergraduate/Graduate.
Field inquiry and experience in applied problems of administrative leadership in school administration, supervision or adult education in conjunction with seminar sessions to relate theory to practice.
Prerequisites: Ad Ldsp 517(P) or 702(P) or 757(657)(P); cons instr.
Course Rules: May be retaken to max of 6 cr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 631 Emerging Research in Human Resource Development
3 cr. Undergraduate/Graduate.
Examines the role of research in Human Resource Development (HRD).
Prerequisites: jr st.
Course Rules: Counts as repeat of Ad Ldsp 779 with similar title.
Last Taught: Spring 2015, Spring 2014.
Current Offerings: http://uwm.edu/schedule

AD LDSP 632 International Cross-Cultural Experiences in Developing Human Resources
3 cr. Undergraduate/Graduate.
Examining Human Resource Development (HRD) in international and global contexts.
Prerequisites: jr st.
Course Rules: Counts as repeat of Ad Ldsp 779 with similar title.
Current Offerings: http://uwm.edu/schedule

AD LDSP 647 Evaluation of Adult, Continuing, and Higher Education Programs
3 cr. Undergraduate/Graduate.
Provides an awareness, analysis, and synthesis of the purposes, methods, and procedures for evaluating diverse types of adult, continuing, and higher education programs, e.g., HRD, extension/outreach, etc.
Prerequisites: jr st.
Course Rules: Counts as repeat of Ad Ldsp 579 with similar title.
Current Offerings: http://uwm.edu/schedule

AD LDSP 667 Program Planning in Adult Education
3 cr. Undergraduate/Graduate.
Focus on planning, execution, and evaluation dimensions of the programming process.
Prerequisites: jr st; Ad Ldsp 517(P) or 757(657)(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

AD LDSP 687 Instructional Design and Teaching Strategies
3 cr. Undergraduate/Graduate.
Using an instructional design approach, students develop skills in selecting, using, and evaluating instructional strategies and procedures as appropriate to particular domains of adult learning.
Prerequisites: jr st; Ad Ldsp 517(P); or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Summer 2015.
Current Offerings: http://uwm.edu/schedule

AD LDSP 691 Leadership Ethics in Multicultural Organizations
1 cr. Undergraduate/Graduate.
Introduction to the concept of ethics and leadership in multicultural organizations.
Prerequisites: jr st
Course Rules: Counts as repeat of Ad Ldsp 579 with similar title.
Last Taught: Fall 2015, Spring 2015, Fall 2014, Spring 2014.
Current Offerings: http://uwm.edu/schedule

AD LDSP 692 Quality Management in Education
1 cr. Undergraduate/Graduate.
Introduction to the principles of quality management in education.
Prerequisites: jr st.
Course Rules: Counts as repeat of Ad Ldsp 579 with same topic.
Last Taught: Fall 2015, Spring 2015, Fall 2014, Spring 2014.
Current Offerings: http://uwm.edu/schedule

AD LDSP 693 Decision Making in Multicultural Organizations
1 cr. Undergraduate/Graduate.
Introduction to individual planning and decision making in multicultural organizations.
Prerequisites: jr st.
Course Rules: Counts as repeat of Ad Ldsp 579 with title 'Planning and Decision Making Skills'.
Last Taught: Spring 2017, Spring 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

AD LDSP 702 Leadership in Educational Organizations
3 cr. Graduate.
Governance, social, political, and economic influences; theories of organizations and organizational behavior related to the administration of elementary and secondary schools.
Prerequisites: grad st.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

AD LDSP 703 Resources for Self-directed Learning
1 cr. Graduate.
Resources for self-directed learning to help students succeed in online courses and programs.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule
AD LDSP 704 Technologies for Online Student Support
1 cr. Graduate.
Synchronous and asynchronous technologies for conducting online sessions for advising, teaching, academic, and student support.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

AD LDSP 706 Professional Development for Online Instruction
1 cr. Graduate.
Prepares both current and future instructors of adults to understand online instruction as it relates to pedagogy, professional development, and institutions.
Prerequisites: grad st; Ad Ldsp 757.
Last Taught: Summer 2017, Summer 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

AD LDSP 707 Using Technology With Adult Learners
3 cr. Graduate.
Design and management of web-based instructional programs/classes applying principles of instructional design, media, and software applications for adult learners.
Prerequisites: grad st; Ad Ldsp 757.
Current Offerings: http://uwm.edu/schedule

AD LDSP 708 Online Support Services in Adult, Continuing, and Higher Education
3 cr. Graduate.
Assessment of trends, theory, and research for online student support; development of a plan for an online student support program.
Prerequisites: grad st; Ad Ldsp 757.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

AD LDSP 709 Introduction to Higher Education Administration
3 cr. Graduate.
Contemporary issues of higher education focusing on historical, philosophical and sociological forces that affect higher education from an administrative perspective.
Prerequisites: grad st
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

AD LDSP 710 Organizational Change and Team Leadership
3 cr. Graduate.
Organizational change and team leadership is designed to introduce theories and concepts in organizational change and the interpersonal dynamics of working with and leading teams.
Prerequisites: grad st; Ad Ldsp 702 or 757/657 or cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 711 Organization and Governance in Higher Education Administration
3 cr. Graduate.
Overview of higher education institutions focusing on models of institutional governance, academic organization and higher education constituencies and their respective roles.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

AD LDSP 712 Instructional Leadership
3 cr. Graduate.
Personnel functions of the building principals recruitment, induction, staff development, supervision, and evaluation. Field experience integrated into course activities.
Prerequisites: grad st; Ad Ldsp 702 or cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 729 Qualitative Research and Field Studies in Education Settings
3 cr. Graduate.
Examination of qualitative techniques as applied to educational research and evaluation in schools, classrooms, and other educational settings.
Prerequisites: grad st; Ed Psy 528 or equiv.
Course Rules: Not open to students who have cr in CurrIns 729 which is identical to Ad Ldsp 729.
Current Offerings: http://uwm.edu/schedule

AD LDSP 732 The Politics of Education
3 cr. Graduate.
Prerequisites: grad st; Ad Ldsp 702 or cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 737 Distance Education for Adults
3 cr. Graduate.
Analysis of concepts, theories, and research in distance teaching and learning focusing on adult learners, program development and assessment of distance teaching and learning.
Prerequisites: Ad Ldsp 757 or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

AD LDSP 740 Seminar in Innovative Technologies for Learning in Education
3 cr. Graduate.
Examines innovative educational technologies and potential of these technologies for individuals, groups, and organizations; purpose and impact in organizational change; implementation in an organization.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

AD LDSP 747 Strategic Planning and Budgeting in Adult, Continuing, and Higher Education
3 cr. Graduate.
Examines theoretical models and research literature on both strategic and operational planning, and the budgeting processes for adult, continuing, and higher education organizations.
Prerequisites: grad st; Ad Ldsp 667(P) or cons instr.
Current Offerings: http://uwm.edu/schedule
AD LDSP 750 Internship in Administrative Leadership
1-6 cr. Graduate.
Field experience in school and social agency settings under guidance of an experienced administrator and a faculty member.
Prerequisites: grad st; Ad Ldsp 710 & cons advisor.
Current Offerings: http://uwm.edu/schedule

AD LDSP 752 School Law
3 cr. Graduate.
Authority, power, liability of school personnel, legal status of school districts, officers, pupils. Legal controls on curriculum, property, finances. Emphasis on state, federal court decisions.
Prerequisites: grad st; Ad Ldsp 702 or cons instr.
Last Taught: Fall 2017, Summer 2017, Fall 2016, Spring 2016.
Current Offerings: http://uwm.edu/schedule

AD LDSP 757 Principles and Foundations of Adult Education
3 cr. Graduate.
A study of concepts, theories and principles of adult education, the nature of adult processes, and factors that influence and facilitate adult learning.
Prerequisites: grad st or cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 762 Management of Educational Resources
3 cr. Graduate.
Building level school finance and fiscal management. Federal, state, and local taxation policies; equity; budgeting, purchasing, and fiscal control of public and student funds.
Prerequisites: grad st; Ad Ldsp 702 or cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 767 Practicum in Program Planning and Implementation
3 cr. Graduate.
Application of program planning principles including program development, budgeting, marketing, facilities management and evaluation in the implementation of an education program.
Prerequisites: grad st, Ad Ldsp 667 or 702 (705).
Current Offerings: http://uwm.edu/schedule

AD LDSP 772 The Principalship
3 cr. Graduate.
In-depth seminar examining the problems and issues of school administration at the building level.
Prerequisites: grad st; completion common core.
Current Offerings: http://uwm.edu/schedule

AD LDSP 777 Leadership in Multicultural Organizations
3 cr. Graduate.
Analyzes concepts and theories of leadership, issues of diversity in organizations, and explores techniques for managing differences that comprise today's multicultural workforce.
Prerequisites: grad st; Ad Ldsp 757(657) or 702(705) or cons instr.
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule

AD LDSP 778 Introduction to College Student Personnel Administration
3 cr. Graduate.
Introduction to college student personnel administration stressing the various components that encompass student affairs practice in collegiate settings.
Prerequisites: grad st
Last Taught: Summer 2017, Summer 2016, Fall 2015, Summer 2015.
Current Offerings: http://uwm.edu/schedule

AD LDSP 779 Current Topics in Administrative Leadership
1-3 cr. Graduate.
Current problems, issues and research in administrative leadership and supervision and their implications for practitioners. Specific topics and any additional prerequisites will be announced in the schedule of classes each time the course is offered.
Prerequisites: grad st.
Course Rules: May be repeated with change in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 782 Principalship Field Practicum
1-3 cr. Graduate.
Field application of knowledge, concepts and skills learned in principal accreditation course work. Seminar attendance required.
Prerequisites: grad st; compl common core & Ad Ldsp 772.
Course Rules: Retakeable to max of 3 cr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 787 Administration of Adult Education Programs
3 cr. Graduate.
Current behavioral concepts, theories, and processes of administration, supervision, and coordination as applied in adult education organizations and agencies.
Prerequisites: grad st; Ad Ldsp 757 or writ cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 790 Internship in Instructional Leadership
3 cr. Graduate.
Relevant field experience for candidates seeking the WI DPI Director of Instruction administrative license.
Prerequisites: grad st; completion of common core
Current Offerings: http://uwm.edu/schedule

AD LDSP 792 Principalship Field Practicum
3 cr. Graduate.
Roles, responsibilities, and operational tasks of principals with practical application of knowledge, theories, systems, and processes. Field experience component and seminar component.
Prerequisites: grad st; compl common core
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

AD LDSP 795 Women and Leadership in Education
3 cr. Graduate.
Issues of women's leadership within the field of education in the United States.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule
AD LDSP 797 The Student in the Collegiate Context
3 cr. Graduate.
Overview of the collegiate experience from multiple perspectives including race, gender, sexual identities, abilities, and age within the context of various institutions.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

AD LDSP 798 Seminar in Human Resource Development
3 cr. Graduate.
Analyzes the concepts, current research, issues, and trends in the area of human resource development and how these issues influence organizational performance.
Prerequisites: grad st; Ad Ldsp 607.
Current Offerings: http://uwm.edu/schedule

AD LDSP 799 Independent Reading
1-3 cr. Graduate.
For graduate students unable to secure needed content in regular courses.
Prerequisites: grad st; cons instr & advisor.
Current Offerings: http://uwm.edu/schedule

AD LDSP 800 Administration of the School Plant
2-3 cr. Graduate.
Determination of school plant needs based upon educational program, population, and utilization studies. Evaluation of existing school plant.
Prerequisites: grad st; Ad Ldsp 705 & 706.
Current Offerings: http://uwm.edu/schedule

AD LDSP 801 Urban Education: Doctoral Seminar
3 cr. Graduate.
Administrative leadership and policy development in urban education.
Prerequisites: grad st; admis to Ph.D prog in Urban Educ; Educ 701(P).
Current Offerings: http://uwm.edu/schedule

AD LDSP 802 District Leadership for Learning
3 cr. Graduate.
A study of the special problems and opportunities involved in administering school districts, focusing on the role of the district administrator.
Prerequisites: post masters st; or cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 812 Educational Personnel Administration and Supervision
3 cr. Graduate.
Focus on major concepts, functions and problems of personnel administration in education including recruitment, assignment, evaluation and motivation.
Prerequisites: grad st; Ad Ldsp 802 or cons instr.
Last Taught: Summer 2017, Spring 2016, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

AD LDSP 827 Seminar in Adult and Organizational Learning
3 cr. Graduate.
Application of transformative, critical, and action learning concepts to personal and professional development.
Prerequisites: grad st; Ad Ldsp 710(P).
Last Taught: Fall 2017, Fall 2015, Fall 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

AD LDSP 828 Using Qualitative Data Analysis Software for Educational Research
1 cr. Graduate.
Explores technical and theoretical issues associated with using qualitative data analysis software packages.
Prerequisites: grad st; Ad Ldsp 829(C)
Last Taught: Summer 2012.
Current Offerings: http://uwm.edu/schedule

AD LDSP 829 Advanced Qualitative Research Techniques for Education Settings
3 cr. Graduate.
Advanced examination of qualitative research techniques in three areas; conceptual design; data collection methods and data analysis and reporting.
Prerequisites: Ad Ldsp 729 or cons instr.
Course Rules: Not open to students who have cr in CurrIns 829 which is identical to Ad Ldsp 829.
Current Offerings: http://uwm.edu/schedule

AD LDSP 832 Educational Politics and Policymaking
3 cr. Graduate.
An examination of political sources of decision making in education. The role of interest groups in shaping educational policy and implementation at local, state, and national levels.
Prerequisites: post-master’s st; Ad Ldsp 802 or cons instr.
Last Taught: Spring 2017, Spring 2016, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

AD LDSP 839 Practicum in Writing from Qualitative Research for Educational Settings
3 cr. Graduate.
Practice in writing from qualitative research data and analysis of qualitative text.
Prerequisites: grad st; Ad Ldsp or CurrIns 729(P) & 829(P).
Course Rules: Not open to students who have cr in CurrIns 839 which is identical to Ad Ldsp 839.
Current Offerings: http://uwm.edu/schedule

AD LDSP 842 Program Planning and Evaluation in Education
3 cr. Graduate.
Theory, research, and practice regarding role of the superintendent in planning and evaluating education programs. Case studies, simulations, and field applications.
Prerequisites: grad st; Ad Ldsp 802 or cons instr.
Current Offerings: http://uwm.edu/schedule
AD LDSP 849 Higher Education and the Law
3 cr. Graduate.
Designed for aspiring college or university administrators to provide knowledge and skills in the area of higher education law and policy.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

AD LDSP 850 Supervision of Student Teaching
3 cr. Graduate.
The role and responsibilities of the supervising teacher in planning, guidance and evaluation of the learning experiences of prospective teachers.
Prerequisites: grad st; Ad Ldsp 705 or cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 852 Collective Bargaining and Contract Administration in Education
3 cr. Graduate.
Study of theory and practice of collective bargaining in educational systems. Prepares educators to manage the bargaining process and administer the contract.
Prerequisites: postmaster's st; Ad Ldsp 802 or cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 862 School Finance
3 cr. Graduate.
Theoretical/contemporary bases for raising/distributing local, state, federal funds for public education. Problems, issues of public school financial support. Analysis of Wisconsin school support.
Prerequisites: post-master's st; Ad Ldsp 802 or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Summer 2014.
Current Offerings: http://uwm.edu/schedule

AD LDSP 867 Seminar in Continuing Education in the Professions
3 cr. Graduate.
Analysis of the role and nature of continuing education in professions; current issues affecting the development of this field of adult education practice.
Prerequisites: grad st; Ad Ldsp 667 or cons instr.
Last Taught: Fall 2012, Summer 2012, Fall 2010, Fall 2008.
Current Offerings: http://uwm.edu/schedule

AD LDSP 877 Seminar in Two-Year Post Secondary Institutions
3 cr. Graduate.
Present status, development, functions, organizational and curriculum trends in postsecondary nonbaccalaureate institutions.
Prerequisites: grad st; Ad Ldsp 657 or cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 880 Proseminar in Urban Education: Administrative Leadership
3 cr. Graduate.
An examination of selected problems and issues in urban education.
Prerequisites: grad st; admis to the urban education doctoral prog.
Current Offerings: http://uwm.edu/schedule

AD LDSP 882 Practicum in the School Superintendency
1-3 cr. Graduate.
Field application of the knowledge, concepts, and skills learned in concurrent course work. Seminar attendance required.
Prerequisites: post-master's st; admis to District Administrator Cert Prog; cons instr.
Course Rules: Repeatable to 3 cr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr will be assessed. Repeatable to 3 cr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 890 Higher Education Finance
3 cr. Graduate.
Introduction to financing higher education and analyzing the strengths and weaknesses of that system.
Prerequisites: grad st
Course Rules: Counts as repeat of Ad Ldsp 779 with same topic.
Current Offerings: http://uwm.edu/schedule

AD LDSP 892 Specialist Applied Research Project
2-6 cr. Graduate.
Specialist project and inquiry in applied problems of administration and supervision.
Prerequisites: postmaster's st; completion of 15 cr in specialist sequence; cons advisor.
Current Offerings: http://uwm.edu/schedule

AD LDSP 893 Seminar in International Adult Education
3 cr. Graduate.
Introduction to the foundations, context, global, political, socio-economic, and educational issues for international adult education.
Prerequisites: grad st
Last Taught: Summer 2012.
Current Offerings: http://uwm.edu/schedule

AD LDSP 897 Seminar in the Philosophy and History of Adult, Continuing & Higher Education
3 cr. Graduate.
Philosophical foundations related to the historical movement of adult, continuing, and higher education and implications for future directions.
Prerequisites: grad st; Ad Ldsp 657(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 900 Role of the Professoriate
3 cr. Graduate.
Analysis of traditional faculty responsibilities of teaching, research, and service and the professional context in which they are conducted.
Prerequisites: doctoral status; counts as repeat of EDUC 900 with same topic.
Last Taught: Fall 2014, Fall 2011.
Current Offerings: http://uwm.edu/schedule
AD LDSP 955 Seminar in Instructional Supervision
3 cr. Graduate.
Problems of teacher-learner and supervisory relationships in improvement of instructional programs and development of personnel. Analysis of selected problems.
Prerequisites: postmaster’s st; eligibility for building administrator or supervisor cert.
Current Offerings: http://uwm.edu/schedule

AD LDSP 960 Seminar in Economics of Education
3 cr. Graduate.
Prerequisites: grad st; Ad Ldsp 862.
Current Offerings: http://uwm.edu/schedule

AD LDSP 967 Seminar in Urban Adult, Continuing, and Higher Education
3 cr. Graduate.
Examines adult, continuing, and higher education programs provided in the urban environment and discusses issues related to the development and delivery of those programs.
Prerequisites: grad st; Ad Ldsp 657(P)
Current Offerings: http://uwm.edu/schedule

AD LDSP 970 Policy Issues in Urban Education
1-3 cr. Graduate.
Examines recent policy developments in education, socio-political forces which have defined policy direction, and major points of controversy surrounding educational policies.
Prerequisites: postmaster’s st or cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 978 Seminar in Student Personnel Administration
3 cr. Graduate.
Overview of current skills and competencies needed by student affairs professionals with an emphasis on standards, retention, debt, crisis management, accountability and assessment.
Prerequisites: grad st
Last Taught: Spring 2013.
Current Offerings: http://uwm.edu/schedule

AD LDSP 990 Research or Thesis
1-3 cr. Graduate.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

AD LDSP 999 Independent Reading
1-3 cr. Graduate.
For the benefit of postmaster’s students unable to secure needed content in regular courses.
Prerequisites: grad st; cons instr.
Last Taught: Fall 2016, Summer 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

Administrative Leadership, MS: Adult, Continuing, and Higher Education Administration

The master’s concentration in adult, continuing, and higher education administration prepares the student for positions of administration and leadership in business, community, and higher education environments. These environments can allow the student obtain careers as adult educators, trainers, human resource directors and administrators in vocational and technical education, university extension, continuing professional education; student advisors, managers of support programs for traditionally underrepresented students, student housing specialists, student programming specialists, business managers, and administrative positions at all levels of postsecondary education.

Students in the master’s degree with the concentration in adult, continuing, and higher education administration can jointly earn a certification in Teaching and Learning in Higher Education or a certificate in Support Services for Online Students in Higher Education. In this case,
the student must complete an application (including the application fee) for both programs (master’s program and certificate program).

The master’s degree programs are offered online and hybrid.

**Admission Requirements**

**Application Deadlines**

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**

An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) to be considered for admission to the program.

**Credits and Courses**

Minimum degree requirement is 33 graduate credits, 24 of which must be in education and up to 9 of which may be in related fields. Credit distribution must be:

**Program Requirements**

**Major Professor as Advisor**

The student must have a major professor to advise and supervise the program of studies as specified in Graduate School regulations. A student who is not assigned to an advisor at time of admission should immediately contact the Department Chair.

**Thesis or Master’s Paper**

Optional. See Credits and Courses above.

**Final Portfolio**

As a capstone requirement, students who begin the program fall 2011 and thereafter must develop and submit a comprehensive portfolio for review by faculty. The student must pass both the written part of the portfolio and the oral portfolio defense.
Comprehensive Examination
Students who began the program before Fall 2011 have the option of passing a written and/or oral final comprehensive examination as the capstone requirement.

Time Limit
The student must complete all degree requirements within seven years of initial enrollment.

Administrative Leadership, MS: Educational Administration and Supervision
The master’s concentration in educational administration and supervision prepares the student for a career as a school district administrator, elementary, middle, or secondary school administrator, director of special education and pupil services, school business manager, or curriculum director. Through this program of studies, the student can fulfill professional education requirements for administrative and supervisory licenses in Wisconsin and most other states.

Our rigorous program, led by faculty who are actively engaged in research in the field, meets Wisconsin state licensure requirements and will give you the skills you need to succeed in today’s challenging educational landscape.

The master’s degree programs are offered online and hybrid.

The Department also offers a course of study leading to the Specialist Certificate in Administrative Leadership (http://uwm.edu/graduateschool/administrative-leadership-certificate)—required for the school superintendency and recommended for other school or adult education administrative or supervisory positions.

Admission Requirements
Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) to be considered for admission to the program.

Credits and Courses
Minimum degree requirement is 33 graduate credits, 27 of which must be in education and 6 of which may be in related fields. Credit distribution must be: 18-24 credits in educational administration and supervision; 9-15 credits in related electives, of which 6 credits may be earned through a thesis or master’s paper.

The student plans an individual program of studies in consultation with a major professor. If the student intends to apply for the Specialist Certificate upon completion of the master’s degree, the program of studies may satisfy Specialist Certificate admission requirements.

Program Requirements

Major Professor as Advisor
The student must have a major professor to advise and supervise the program of studies as specified in Graduate School regulations. A student who is not assigned to an advisor at time of admission should immediately contact the Department Chair.

Thesis or Master’s Paper
Optional. See Credits and Courses above.

Final Portfolio
As a capstone requirement, students who begin the program fall 2011 and thereafter must develop and submit a comprehensive portfolio for review by faculty. The student must pass both the written part of the portfolio and the oral portfolio defense.

Comprehensive Examination
Students who began the program before Fall 2011 have the option of passing a written and/or oral final comprehensive examination as the capstone requirement.
Time Limit
The student must complete all degree requirements within seven years of initial enrollment.

Administrative Leadership Specialist, Graduate Certificate
A master’s degree is the minimum prerequisite for admission to the Specialist Certificate. The Certificate can be taken with a career emphasis in the superintendency, the principalship, supervision, central office administration, or adult education administration. A cooperative relationship for the Specialist Certificate exists with the Department of Curriculum and Instruction for students with a reading supervision emphasis.

Our rigorous program, led by faculty who are actively engaged in research in the field, meets Wisconsin state licensure requirements and will give you the skills you need to succeed in today’s challenging educational landscape.

The Department of Administrative Leadership is committed to developing educational leaders, particularly for service in metropolitan areas. We believe that excellent educational leaders nurture leadership among others in the school community; create positive work environments for students, staff and parents; and contribute to the improvement of teaching and learning.

Admission Requirements
Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Applicants must meet these departmental requirements:

- Completion of a master’s degree with a graduate grade point average of 3.5 or above (4.0 scale). The master’s degree may be in any field.
- Written statement of professional objectives and educational experience.
- Applicants not meeting the grade point minimum may be admitted upon submission of additional data to be specified by the Department chair.

Application
- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Credits and Courses
Credit and course requirements depend upon the applicant’s degree field. For an applicant with a master’s degree in educational administration, the minimum credit requirement is 21 graduate credits, normally distributed as follows: 18 credits in administrative leadership, and 3 credits in a field-based practicum. As a capstone requirement, students must develop and submit a comprehensive portfolio which includes an action research project for review by faculty. The student must pass both the written part of the portfolio and the oral portfolio defense. For an applicant with a master’s degree in a field other than educational administration, the minimum credit requirement is 24 graduate credits. Additional coursework may be required for administrative certification.

Program Requirements
Transfer Credit
No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   - Degree programs must approve the courses from certificates that can double count toward the degree.
   - All credits taken in completion of certificate requirements must count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit
Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

Administrative Leadership, MS
The Department of Administrative Leadership offers a graduate program of studies with two emphases: (1) educational administration
and supervision and (2) adult, continuing, and higher education administration.

The concentration in educational administration and supervision prepares the student for a career as a school district administrator, elementary, middle, or secondary school administrator, director of special education and pupil services, school business manager, or curriculum director. Through this program of studies, the student can fulfill professional education requirements for administrative and supervisory licenses in Wisconsin and most other states.

The concentration in adult, continuing, and higher education administration prepares the student for positions of administration and leadership in business, community, and higher education environments. These environments can allow the student to obtain careers as adult educators, trainers, human resource directors and administrators in vocational and technical education, university extension, continuing professional education; student advisors, managers of support programs for traditionally underrepresented students, student housing specialists, student programming specialists, business managers, and administrative positions at all levels of postsecondary education.

Students in the master's degree with the concentration in adult, continuing, and higher education administration can jointly earn a certification in Teaching and Learning in Higher Education or a certificate in Support Services for Online Students in Higher Education. In this case, the student must complete an application (including the application fee) for both programs (master's program and certificate program).

The master's degree programs are offered online and hybrid.

The Department also offers a course of study leading to the Specialist Certificate in Administrative Leadership (http://uwm.edu/graduateschool/administrative-leadership-certificate)—required for the school superintendent and recommended for other school or adult education administrative or supervisory positions.

Under the auspices of the Ph.D. program in Urban Education (http://uwm.edu/graduateschool/urban-education), the Department offers doctoral level specializations in educational administration and in Adult, Continuing, and Higher Education Administration.

**Admission Requirements**

**Application Deadlines**

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**

An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) to be considered for admission to the program.

**Program Requirements**

**Major Professor as Advisor**

The student must have a major professor to advise and supervise the program of studies as specified in Graduate School regulations. A student who is not assigned to an advisor at time of admission should immediately contact the Department Chair.

---

**Educational Studies, BS**

As of Fall 2017, the Educational Studies program has suspended admission. This means that unless you have been accepted into this program prior to Fall 2017, you will not be able to earn the certificate. The following information is provided solely for the benefit of students accepted into the Educational Studies program prior to Fall 2017.

---

1. Students not enrolled in a degree program in an accredited institution prior to September 1986 must also meet the University's General Education Requirements (GER).

2. Educational Studies Major. The Educational Studies Major is a means of developing professional skills. It requires completing at least 42 credits, 34 of them in the School of Education, with a 2.75 grade point average overall. The major contains three components:
   - Focus Area
   - Fieldwork
   - Common Learning Component

---

---
Contact the Office of Student Services for a list of acceptable course titles.

Educational Studies Second Degree Requirements
1. Complete 42 credits.
   • At least 30 of the program credits must be earned in residence at the University of Wisconsin-Milwaukee and following admission to the Educational Studies Program. The remaining 12 credits may be transferred from previous institutions/programs or earned inclusively within the Educational Studies program.
   • At least 20 of the 42 credits must be earned in upper-division courses (300 level or above). The common learning components allow for accommodation of this requirement.
2. Earn at least 18 credits in selected focus areas. Select from: adult education, youth leadership, and training and workforce development.
   • Earn 3 credits in fieldwork within the selected focus area. The fieldwork placement will be determined by the faculty advisor and academic advisor.
   • Earn 24 credits in the common learning components. These credits will be selected in consultation with the faculty advisor: social cultural perspectives, human development and learning, program development, and communication skills and group processes.
3. Achieve a 2.75 GPA on all focus area and common learning components credits.

Honors in the School of Education
Dean's Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Health Professional Education, Graduate Certificate (School of Education, Department of Administrative Leadership)
The Health Professional Education certificate is designed to provide health professionals with additional preparation in educational principles and theory to support them in their roles as educators of students and staff in the health professions as well as in the role of patient educator. This program is open to students simultaneously enrolled in a graduate degree program, as well as to health professionals who have completed a baccalaureate, master’s, or doctoral degree. The certificate program is a collaborative program between the College of Health Sciences and Schools of Nursing and Education, and is coordinated through the College of Nursing.

Admission Requirements
Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Application
• Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
• All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
• Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
• Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Admission
Applicants are admitted to the certificate program in one of three categories: post-baccalaureate, current student in a UWM graduate health profession program, or post-graduate student.
1. Post-baccalaureate students must have completed a bachelor’s degree in a health profession discipline with a grade point average of 2.75 or above (4.0 scale) and not be currently enrolled in a graduate degree program at UWM.
2. The admission requirements of the health professional educational certificate for students enrolled in good standing in a UWM graduate health profession program are consistent with those requirements specified by the program.
3. Post-graduate students must have completed a graduate degree in a health profession or related discipline with a grade point average of 3.0 or above (4.0 scale).

Credits and Courses
The completion of 15 credit hours (5 courses) is required for the certificate program.

#### Curriculum/Program Planning & Evaluation Courses

Select one of the following:

- AD LDSP 667 Program Planning in Adult Education
- AD LDSP 607 Coordination of Staff Development and Training Program
- AD LDSP 647 Evaluation of Adult, Continuing, and Higher Education Programs
- NURS 752 Curriculum Development in Nursing Education

#### Teaching/Instructional Strategies

Select one of the following:

- AD LDSP 687 Instructional Design and Teaching Strategies
- AD LDSP 707 Using Technology With Adult Learners
- AD LDSP 827 Seminar in Adult and Organizational Learning
- NURS 705 Instructional Strategies for Patient Education

#### Elective Courses

Select one additional course from the above or from the following:

- AD LDSP 867 Seminar in Continuing Education in the Professions
- AD LDSP 787 Administration of Adult Education Programs
- AD LDSP 547 The Educational Dimensions of Practice with Older Adults
- NURS 764 Changing Health Behaviors
- CURRINS 774 College Teaching
- NURS 751 Teaching in Practice Disciplines

Total Credits: 18

A current listing of courses that meet these requirements can be obtained from the College of Health Sciences or the College of Nursing. Students will need to maintain a 3.0 GPA and meet all other requirements of the Graduate School for continuation in the program. The Practicum and Seminar in Health Professional Education is the last course taken in the certificate program.

### Certificate Requirements

#### Transfer Credit

No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

#### Grade Point Average Requirement

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

### Articulation with Degree Programs

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   - Degree programs must approve the courses from certificates that can double count toward the degree.
   - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.

3. A course may count toward no more than one certificate and one degree.

4. Students may not earn a certificate subsequent to a concentration in the same area.

### Time Limit

Certificate program time limits shall be established as follows:

- 18 or fewer credits: Three years from initial enrollment in the certificate sequence.
- 19 or more credits: Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

### Support Services for Online Students in Higher Education, Graduate Certificate

This graduate certificate program offers a unique opportunity for professionals interested in online student support in higher education. Prospective professionals venturing into today's higher education environment would benefit from an understanding of teaching and learning and student support service theory, research, and effective practice. Successful professionals require many tools to educate, motivate, and support online students, as well as the wisdom to know when and how to apply those tools. This wisdom comes from a critical, reflective understanding of the research and theory behind teaching, learning, and student support. The 15-credit certificate program draws upon current coursework in Adult Education, Higher Education, Education Technology, and Distance Education.

### Admission Requirements

#### Application Deadlines

If at any time you are unsure about a published date or deadline (http://uw.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uw.edu/registrar/contact-us) online.
Admission
Applicants must have completed a bachelor’s degree prior to admission, must have a minimum 2.75 cumulative undergraduate grade point average.

Application
- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Total Credits 12

1 NOTE: These credits should not be taken before completion of at least 9 credits of coursework.

2 This practicum would require students to complete an internship in an online student support service unit (a total of 150 hours) by enrolling in AD LDSP 750 or an instructor supervised evaluation project of an existing online student support service by enrolling in AD LDSP 647.

Descriptions of required and elective courses offered at UWM as part of the Certificate in Support Services for Online Students in Higher Education can be found under the respective curricular areas (see below).

- Administrative Leadership (Ad Ldsp)
- Educational Psychology (Ed Psy)
- Information Studies (Info St)

Certificate Requirements

Transfer Credit
No more than 20% of the required credits may be taken at an institution other than UWM. Courses will be considered for transfer into the certificate program only if the applicant can provide ample, acceptable evidence that the course taken is substantially the same as one of the five courses that constitute the certificate. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   - Degree programs must approve the courses from certificates that can double count toward the degree.
   - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.

3. A course may count toward no more than one certificate and one degree.

4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit
Certificate program time limits shall be established as follows:
- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.
Teaching and Learning in Higher Education, Graduate Certificate

This graduate certificate program offers a unique opportunity for students interested in teaching in higher education to gain knowledge about teaching and learning, both generally and within their discipline. Prospective teachers venturing into today’s higher education environment would benefit from an understanding of teaching and learning theory, research, and effective practice. Successful instructors require many tools to teach, as well as the wisdom to know when and how to apply those tools. This wisdom comes from a critical, reflective understanding of the research and theory behind teaching and learning. The 15-credit certificate program is multi-disciplinary, drawing upon current coursework in Communication, the School of Education, and other disciplines that have teaching and learning courses in place.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Applicants must have completed a bachelor’s degree prior to admission, and must have a minimum 2.75 cumulative undergraduate grade point average. Applicants with a graduate degree must have a minimum 3.00 graduate grade point average.

Application
- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Total Credits 15

1 Students can count discipline-specific teaching and learning courses from their own department as electives or as one of their core courses (3 credits) with the permission of the Certificate Coordinator.

2 These credits should not be taken before completion of at least 9 credits of coursework.

Successful completion of this certificate is NOT a teaching license or credential for K-12 instruction.
Program Requirements

Transfer Credit
No more than 20% of the required credits may be taken at an institution other than UWM. Courses will be considered for transfer into the certificate program only if the applicant can provide ample, acceptable evidence that the course taken is substantially the same as one of the five courses that constitute the certificate. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.
The American Sign Language (ASL) Studies minor area addresses the needs of students who are already pursuing a major in another area of study, but want to supplement their studies with knowledge and skill in ASL. This will allow students to be able to communicate with Deaf persons they may meet in their professions.

**Requirements**

Students must have a minimum grade of C or better in all ASL minor coursework.

EDUCATION, BS: AMERICAN SIGN LANGUAGE STUDIES

The American Sign Language Studies Program offers an array of courses to prepare students to work with the Deaf community. Students completing this program will have a deeper understanding of American Sign Language (ASL), Linguistics, Deaf History, Deaf Literature and Deaf Culture with an emphasis on the rich language and cultural diversity of the Deaf community as well as the social justice issues impacting their lives.

Several objectives will be covered during the program, such as Deaf culture, Deaf folklore, and Deaf literature, and the relationship between the signing community and the non-signing community. This program also covers linguistic components with several course offerings in ASL as well as specialized skill areas of ASL, such as a focus on grammatical structure and an overview of linguistic components.

Professions that find this program an enhancement to their work include (but are not limited to): interpreting, health care, criminal justice, education, exceptional education, psychology, social work and more. Many of the courses offered through this program also satisfy certain GER requirements for the general student population such as foreign language (ASL-I-IV) and cultural diversity (Deaf Culture or Deaf History). All students start with ASL I however if a student has previous experience with the language, they may be placed into higher classes by taking the American Sign Language Proficiency Interview (ASLPI) and may be eligible for retroactive credits if they meet all requirements.

Requirements

Code | Title | Credits
--- | --- | ---
University General Education Requirements * | 21-42
Program Core | 48
Electives (to ensure 128 credits at time of graduation) | 38-53
Minimum credits for degree | 128

* Requirement credit totals vary based on student test scores, previous area-specific knowledge, and GER course choice.

University General Education Requirements (GER)
Required courses for this program fulfill some of the University GERS. Consult Program Core for specific courses.

Code | Title | Credits
--- | --- | ---
GER Competency Requirements | | 
Oral and Written Communication, Part A 1 | 0-3
  - English Placement Test score at level 4 or higher, or pass English 102 (OWC-A approved) with a grade of C or better
Oral and Written Communication, Part B | 3
  - Complete an OWC-B approved advanced course with a grade of C or better
Quantitative Literacy, Part A 1 | 0-3
  - Math Placement Test code 30 or higher, or pass Math 102, 103, 105, or 175 (QL-A approved) with a grade of C or better
Quantitative Literacy, Part B | 3
  - Complete a QL-B approved advanced course with a grade of C or better
Foreign Language | 0-6

Complete one of the following:
- 2 consecutive semesters of college instruction in a single foreign language with passing grades
- 2 consecutive years of high school instruction in a single foreign language with passing grades
- Demonstrate language proficiency on approved exam

GER Distribution Requirements
Arts 2 | 3
  - Select one approved GER-A designated course
Humanities 1 | 3-6
  - Select two approved GER-HU designated courses
Social Sciences 1 | 0-6
  - Select two approved GER-SS designated courses
Natural Sciences 2 | 6
  - Select one approved GER-NS or GER-NS+ designated course
  - Select one approved GER-NS+ designated course, which includes a lab component
Cultural Diversity 2 | 3
  - Select one approved GER-CD designated course

Total Credits | 21-42

1 Program-specific requirements (including those prior to program admission) fulfill, or partially fulfill, University GER requirements. See Program Core for specific courses.
2 Program requires additional credits. See an academic advisor for details.

Program Admission Requirements (p. 450)
Program Core

Code | Title | Credits
--- | --- | ---
One of the following courses, fulfilled prior to program admission | 3
  - COMMUN 101 Introduction to Interpersonal Communication (GER-SS)
  - COMMUN 103 Public Speaking (GER-HU)
EXCEDUC 301 | American Sign Language I | 3
EXCEDUC 302 | American Sign Language II | 3
EXCEDUC 303 | American Sign Language III | 3
EXCEDUC 304 | American Sign Language IV | 3
EXCEDUC 305 | American Sign Language V | 3
EXCEDUC 306 | American Sign Language VI | 3
EXCEDUC 330 | Deaf History (GER-SS) | 3
EXCEDUC 346 | Skill Development: Semantics | 3
EXCEDUC 352 | American Deaf Culture (GER-SS) | 3

EXCEDUC 520 | ASL Literature | 3
EXCEDUC 348 | Introduction to the Profession of Interpreting | 3
EXCEDUC 655 | Introduction to Education of Individuals Who are Deaf and Hard of Hearing | 3
Additional Requirements for Graduation

- Minimum grade of C or better in all professional coursework.
- At least 30 program credits must be earned in residence at the University of Wisconsin-Milwaukee, following admission to the program.
- Completion of a minimum 128 degree credits.

Advance to Major

Program Admission Requirements

- **English Composition:** Achieve a placement level of 4 or higher on the English Placement Test, or complete ENGLISH 102 with a grade of C or better.
- **Mathematics Skills:** Achieve a placement level of 30 or higher on the Math Placement Test, or complete MATH 105, MATH 175, or equivalent with a grade of C or better.
- **Completion of COMMUN 101 or COMMUN 103,** with a grade of C or better.
- **Completion of ASL GER requirements.**
- **Maintain a cumulative 2.5 GPA**

Undergraduate Advising

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

How to Prepare for an Advising Meeting

- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

Scheduling an Appointment

Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

Walk-In Hours

Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

Transfer Student Not Yet Enrolled at UWM?

If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

Graduate Advising

If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

Honors in the School of Education

Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.
EDUCATION, BS: INTERPRETER TRAINING PROGRAM

The Interpreter Training Program (ITP) goes beyond teaching students about language, culture, and how to facilitate conversations. Our program philosophy of service takes hold the moment you begin. We work to develop well-rounded interpreters who value and consider others’ perspectives; students who are culturally sensitive and empathetic practitioners who continually work to better themselves and the interpreting profession.

We also work hard to ensure that graduates reach their career goals, and we pride ourselves on the success our former students have achieved through their work in our community. In a recent survey of the past five graduating classes, 80% of ITP graduates were working as interpreters and 76% reported finding work within three months of graduation. In general, the interpreting and translation field is growing much faster than other occupations, and ASL interpreters are especially sought-after.

**Program Core**

American Sign Language I-VI courses in the Department of Exceptional Education satisfy University foreign language requirements. For all programs that require American Sign Language, students with previous experience in American Sign Language can take the American Sign Language Proficiency Interview (ASLPI) to determine appropriate placement level. If a B or better is received on the ASLPI, credit will be received for courses up through ASL 4. Any individual who would like to take the ASLPI will be responsible for the cost of the assessment. Please call (414) 229-5251 for more information.

- EXCEDUC 301, EXCEDUC 302, EXCEDUC 303, EXCEDUC 304, EXCEDUC 305, and EXCEDUC 306, American Sign Language I-VI. ASL I-II with a grade of C or better; ASL III-VI with a grade of B- or better;
- EXCEDUC 320, Intro to Interpreting Skills: English to American Sign Language with a grade of B- or better;
- EXCEDUC 321, Intro to Interpreting Skills: American Sign Language to English with a grade of B- or better;
- 58 credits complete;
- Cumulative GPA of 2.5; and
- Completion of Screening Interview, which occurs after application is submitted.

**Undergraduate Advising**

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

**How to Prepare for an Advising Meeting**

- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
• Keep a record of your academic progress.
• Understand you are ultimately responsible for creating your educational, life, and career plans.
• Maintain honest and open communication with your advisor.
• Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

Scheduling an Appointment
Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

Walk-In Hours
Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

Transfer Student Not Yet Enrolled at UWM?
If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

Graduate Advising
If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

Honors in the School of Education
Dean's Honor List
GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.
EDUCATIONAL POLICY AND COMMUNITY STUDIES

The Department of Educational Policy and Community Studies at UWM provides students with a deeper understanding of education and community contexts in urban areas. The department offers a Bachelor of Science in Community Engagement and Education (CEED).

Students often choose to focus their coursework in one of the following areas:

- Alternative Education/At-Risk Students
- Child Care (Educator or Administrator Track)
- Community Organizing for Social Change
- Policy and Leadership in Community-Based Organizations
- Urban Education
- Youth Work

Students, past and present, are employed by charities, hospitals, schools, community-based organizations, and local government units in metropolitan Milwaukee. The Department does not offer licensure for teaching in K-12 public schools, but many graduates either seek post-baccalaureate certification or teach in private schools.

The degree program helps those working in schools and the community better understand the social and political contexts of their jobs and provides a range of skills for better addressing the challenges they face. Students can also select one of four optional submajors: Child Care, Community-Based Organizations Policy and Leadership, Child and Family Services, or Community Leadership. Students may seek certificates in Community Organizing, Community-Based Organizations & Leadership, Community Leadership, and Youth Work. Licensed teachers may seek an add-on state DPI certification in Alternative Education.

The Bachelor of Science degree in Community Engagement and Education is also available as a second degree option. Candidates for a second degree must satisfy all current requirements for an undergraduate degree for the degree program. Some of the requirements may be met by transfer credits. Students must complete at least 30 credits in residence at UWM after the date on which the first degree is awarded. If more than 30 credits are needed to complete all degree requirements, the last 30 credits must be completed in residence.

Students in the department come from a range of educational and community-based backgrounds. Our students and alumni include state and local elected officials; community organizers and developers; personnel in human resource institutions, including program planners, outreach workers, and administrators; teachers and directors of community day care programs; youth workers in community and group home care; teachers and directors of alternative schools; and directors of community-based organizations.

The Department also offers a master’s degree program in Cultural Foundations of Education with areas of concentration in educational foundations and multicultural education, focusing on sociological, historical, philosophical, and other frames of reference. Many of the same focus areas that are available in the CEED BS program can be pursued at a more advanced level in our MS program. Additional information about the master’s degree program is available at https://uwm.edu/education/academics/cultural-foundations-edu/.

Programs

- Community Engagement and Education, BS (p. 463)

Educational Policy and Community Studies Courses

**ED POL 100 Prior Professional Education Experience**

3 cr. Undergraduate.

Allows Community Engagement & Education majors only to earn credits for their prior professional education experiences. Course credits may only be used towards lower electives.

**Prerequisites:** Admis to CEED.

**Course Rules:** Cr/no cr only.

**Last Taught:** Spring 2018, Spring 2017, Spring 2016, Spring 2015.

**Current Offerings:** http://uwm.edu/schedule

**ED POL 101 Community Education II**

1-15 cr. Undergraduate.

Second semester lower division curriculum; includes development of prior educational experience statement, personal goal analysis, learning agreement, continued acquisition of skills and understandings leading to competence, practice.

**Prerequisites:** Ed Pol 100 or cons instr.

**Course Rules:** Less than 15 cr available to students possessing some equivalent skills and/or understandings.

**Current Offerings:** http://uwm.edu/schedule

**ED POL 111 Introduction to Community Change and Engagement**

3 cr. Undergraduate.

Basic concepts and strategies for community change and engagement.

**Prerequisites:** none.

**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.

**Current Offerings:** http://uwm.edu/schedule

**ED POL 112 Introduction to Community Education**

3 cr. Undergraduate.

This course will examine the history of community education and discuss the role of education within a community setting.

**Prerequisites:** none.

**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.

**Current Offerings:** http://uwm.edu/schedule
ED POL 113 The Milwaukee Community
3 cr. Undergraduate.
An overview of communities and neighborhood groups in Milwaukee.
Prerequisites: none.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

ED POL 114 Community Problems
3 cr. Undergraduate.
This course will examine how social problems impact upon communities
and neighborhoods, how they are defined, and how these definitions
influence social policies and programs.
Prerequisites: none.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ED POL 179 Special Topics in Community Education:
1-3 cr. Undergraduate.
Prerequisites: none.
Course Rules: May be retaken w/content chg to 12 cr max.
Current Offerings: http://uwm.edu/schedule

ED POL 200 Community Education III
1-15 cr. Undergraduate.
Third semester lower division curriculum: emphasizes acquisition of
skills and understandings leading to basic competence as set forth in
student learning agreements. Includes fieldwork practice.
Prerequisites: Ed Pol 101 or cons instr.
Course Rules: Variable cr based on skills & understanding to be acquired
& nature of practice.
Current Offerings: http://uwm.edu/schedule

ED POL 201 Community Education IV
1-15 cr. Undergraduate.
Fourth semester of lower division curriculum: emphasizes final
development of skills and understandings leading to basic competence
as set forth in student learning agreements and continuation of fieldwork
practice. Includes final evaluation of basic competence.
Prerequisites: Ed Pol 200 or cons instr.
Current Offerings: http://uwm.edu/schedule

ED POL 202 Community Service Volunteer
1-6 cr. Undergraduate.
Prerequisites: none.
Course Rules: Cr/no cr only. May be retaken to max of 6 cr.
Last Taught: Spring 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

ED POL 203 Communities and Neighborhoods in America
3 cr. Undergraduate.
Students will construct a survey of their neighborhoods, examine
theories of community structure, and analyze neighborhood improvement
movements. Fulfills Ed Pol 113 req for CED.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

ED POL 212 Educational Issues in Spanish Speaking Communities
3 cr. Undergraduate.
This course presents an overview of the educational issues in the
Spanish-speaking communities in the United States and how these
issues affect the total society.
Prerequisites: none.
General Education Requirements: CD, HU
Current Offerings: http://uwm.edu/schedule

ED POL 279 Current Topics in Educational Policy and Community Studies:
1-3 cr. Undergraduate.
Variable content course. Specific topic announced in the Schedule of Classes.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

ED POL 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course
work level, content, and credits are determined and/or in specially
prepared program course work.
Prerequisites: cons instr; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

ED POL 299 Independent Reading
1-3 cr. Undergraduate.
For the benefit of undergraduate students unable to secure needed
content in regular courses.
Prerequisites: cons instr.
Course Rules: May be retaken to max of 6 cr.
Last Taught: Spring 2017, Spring 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

ED POL 302 Approaches to Relationships in the Child Care Setting
3 cr. Undergraduate.
Communication and conflict resolution in relationships in the child care
setting, emphasizing parent-child, teacher-child, teacher-teacher and
parent-teacher relationships.
Prerequisites: Commun Ed majors, cons advisor; others, jr st or cons
instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ED POL 307 Approaches to Relationships in the Child Care Setting
3 cr. Undergraduate.
Communication and conflict resolution in relationships in the child care
setting, emphasizing parent-child, teacher-child, teacher-teacher and
parent-teacher relationships.
Prerequisites: Commun Ed majors, cons advisor; others, jr st or cons
instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ED POL 315 Group Process and Civic Engagement:
1-3 cr. Undergraduate.
Explore group process and identity and relate these issues to future civic
engagement for emerging student leaders.
Prerequisites: none.
Course Rules: Not open to students with cr in Ed Pol 279 Emerging
Leaders topics. May be retaken to 4 cr max.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule
ED POL 375 Cultural Foundations of Education
3 cr. Undergraduate.
Critical examination of cultural influences in American society as they affect education.
Prerequisites: soph st or cons instr.
Current Offerings: http://uwm.edu/schedule

ED POL 377 Conceptual and Development Formulation for Prior Educational Experience
3-6 cr. Undergraduate.
Prerequisites: C/NC only. May be retaken to 12 cr max.
Current Offerings: http://uwm.edu/schedule

ED POL 379 Current Topics in Community Education:
1-6 cr. Undergraduate.
The specific topics and prerequisites will be announced in the Schedule of Classes each time the course is offered.
Prerequisites: jr st or cons instr.
Course Rules: May be retaken w/chg in topic to max of 12 cr.
Last Taught: Summer 2010, Fall 2009, Fall 1999, Fall 1998.
Current Offerings: http://uwm.edu/schedule

ED POL 381 Introduction to Child Care:
3 cr. Undergraduate.
An introductory course for students who are new to the field of child care. Enables students to begin working effectively with young children.
Prerequisites: none.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ED POL 383 Child Care Programming:
1-3 cr. Undergraduate.
Study of child care programming as it relates to the child’s social milieu: family, community, and child care center. Comparative examination of child care programs and their supporting theories.
Prerequisites: none.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ED POL 411 Conflict and Change in Community-Based Organizations
3 cr. Undergraduate.
Examines the role of bargaining and conflict in community-based educational change, various approaches to bargaining and conflict, and their appropriateness in various settings.
Prerequisites: jr st or cons instr.
Current Offerings: http://uwm.edu/schedule

ED POL 416 Analysis of Child Care Environments
3-6 cr. Undergraduate.
Introduces students to a variety of special designs for child care settings and to an understanding of evaluation process for environmental changes.
Prerequisites: Comm Ed majors-cons adv; others-jr st or cons instr.
Current Offerings: http://uwm.edu/schedule

ED POL 442 Intermediate Community Education Practice I
3-9 cr. Undergraduate.
Supervised fieldwork in Area of Specialty (upper divisional majors in C.E.). Emphasizes acquisition of new skills understandings and their application to practice.
Prerequisites: Ed Pol 508(P) & cons instr.
Course Rules: May be retaken to 9 cr max.
Current Offerings: http://uwm.edu/schedule

ED POL 460 The Chicano Experience
3 cr. Undergraduate.
This course surveys important issues shaping the Chicano experience in U.S. society by focusing on immigration, the Barrio, Repatriation, Zoot Suit, Chicano-police riots, etc.
Prerequisites: none.
General Education Requirements: CD, HU
Last Taught: Spring 2017, Spring 2016, Spring 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

ED POL 497 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st, cons instr, acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2014, Spring 2010.
Current Offerings: http://uwm.edu/schedule

ED POL 499 Independent Reading
1-3 cr. Undergraduate.
Prerequisites: jr st; cons instr.
Course Rules: May be retaken for cr.
Current Offerings: http://uwm.edu/schedule

ED POL 500 Sociology and Policy of Urban Communities and Schools
3 cr. Undergraduate/Graduate.
Selected contemporary social issues analyzed for their bearing on urban communities and schools.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

ED POL 501 Community Change and Engagement
3 cr. Undergraduate/Graduate.
Concepts and strategies for community change and engagement in low-income urban settings.
Prerequisites: jr st or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ED POL 506 Research Techniques for Community Organizers and Community Educators
3 cr. Undergraduate.
Introduction to basic research techniques and the specific skills needed for the community organizer and/or educator.
Prerequisites: jr st.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
ED POL 507 Action Research on Milwaukee Institutions  
3 cr. Undergraduate/Graduate. 
Examination and analysis of the organization, philosophy, and history of specific Milwaukee institutions. Emphasis placed on how these institutions affect the lives of community residents and appropriate alternatives to current arrangements. 
Prerequisites: jr st or cons instr. 
Current Offerings: http://uwm.edu/schedule

ED POL 508 Advanced Problems in Community Change and Engagement  
3 cr. Undergraduate/Graduate. 
Advanced training in community engagement with reflective paper. 
Prerequisites: Ed Pol 111(P) & cons instr. 
Current Offerings: http://uwm.edu/schedule

ED POL 509 Fieldwork/Practicum in Education and the Community  
1-3 cr. Undergraduate/Graduate. 
Advanced fieldwork/practicum for students to acquire skills for educational and community practice; fieldwork hours correspond to credit value; 50 hours for 1 cr, 75 hours for 2 crs, 100 hours for 3 crs. 
Prerequisites: Comm Ed majors only. 
Course Rules: May be retaken to 6 cr max. 
Last Taught: Spring 2017, Fall 2016, Spring 2016, Fall 2015. 
Current Offerings: http://uwm.edu/schedule

ED POL 510 Human Relations for Community Organizations & Community Engagement  
3 cr. Undergraduate/Graduate. 
Analysis of selected concepts and resources bearing on human relations training. Various approaches, e.g., Harvard case studies, to human relations will be evaluated. 
Prerequisites: jr st. 
General Education Requirements: SS 
Current Offerings: http://uwm.edu/schedule

ED POL 519 Peer Programs and Mediation: Youth Mentoring and Supporting Youth  
3 cr. Undergraduate/Graduate. 
Theory and practice of peer programs and how they are developed and sustained. 
Prerequisites: jr st. 
Course Rules: Counts as repeat of Ed Pol 579 w/same topic. 
Current Offerings: http://uwm.edu/schedule

ED POL 520 Peace Education  
3 cr. Undergraduate/Graduate. 
Discusses how education and community education can address the threats of violence and prepares students to teach about peace, nonviolence, and conflict resolution. 
Prerequisites: jr st or cons instr. Minimum of 9 hrs Soc Sci division course work. 
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2013. 
Current Offerings: http://uwm.edu/schedule

ED POL 521 Nonviolence in Education  
3 cr. Undergraduate/Graduate. 
An overview of different theories of nonviolence and an examination of their applications in educational setting. 
Prerequisites: jr st; Ed Pol 520(R); Psych 201(R) or cons instr. 
Current Offerings: http://uwm.edu/schedule

ED POL 522 Abusive Relationships: Community Problems, Community Solutions  
3 cr. Undergraduate/Graduate. 
The origins of relationship abuse, the legal aspects of domestic violence, and the healing process for people hurting in relationships. 
Prerequisites: jr st; Ed Pol 520(P) or cons instr. 
Current Offerings: http://uwm.edu/schedule

ED POL 530 Urban Education: Foundations  
3 cr. Undergraduate/Graduate. 
Application of basic social science concepts to study of education in the urban setting. 
Prerequisites: Prereq; jr st. 
Current Offerings: http://uwm.edu/schedule

ED POL 531 Alternative Schools  
3 cr. Undergraduate/Graduate. 
Examine the alternative schools movement. 
Prerequisites: jr st. 
Course Rules: Counts as repeat of Ed Pol 330. 
Current Offerings: http://uwm.edu/schedule

ED POL 532 Male Identity: Education and Development  
3 cr. Undergraduate/Graduate. 
Contribution of schools in forming male identity. Changing expectations of men in work, the family and society. 
Prerequisites: jr st. 
Last Taught: Fall 2006, Fall 2005, Fall 2004, Fall 2003. 
Current Offerings: http://uwm.edu/schedule

ED POL 533 Educating Black Males-Theories, Methods and Strategies  
3 cr. Undergraduate/Graduate. 
This course will develop skills and strategies to affect changes in the lives of black males in the school system, k through 12 grade. 
Prerequisites: jr st; Ed Pol 112 or 375 or equiv or teacher certification. 
Last Taught: Spring 2017, Fall 2015, Fall 2014, Fall 2013. 
Current Offerings: http://uwm.edu/schedule

ED POL 534 The Student at Risk (Causes)  
3 cr. Undergraduate/Graduate. 
Helps teachers to identify and understand the personal, social, cultural and community contexts which contribute to the at-risk status of public school students.Prereq: jr st. 
Prerequisites: 
Current Offerings: http://uwm.edu/schedule

ED POL 535 Educating At-Risk Students  
3 cr. Undergraduate/Graduate. 
Development of skills and techniques to enable teachers to be instructionally effective with at-risk students. 
Prerequisites: jr st. 
Current Offerings: http://uwm.edu/schedule
ED POL 541 Wisconsin Juvenile Justice System and the Law for School Personnel
1 cr. Undergraduate/Graduate.
Provides students and school personnel with knowledge of Wisconsin juvenile justice system, and legal responsibilities of all school personnel, emphasizing current code.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

ED POL 550 Comparative Education
3 cr. Undergraduate/Graduate.
Survey of foreign school systems with attention to cultural setting and major purposes.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

ED POL 560 Education and Hispanics
3 cr. Undergraduate/Graduate.
Examination of the educational experiences of Hispanics in schools in the USA.
Prerequisites: jr st.
General Education Requirements: SS, CD
Current Offerings: http://uwm.edu/schedule

ED POL 561 Education Issues in American Indian Communities
3 cr. Undergraduate/Graduate.
Unique political-legal, social-cultural contexts of Native Education, intergovernmental involvement and role in addressing social/cultural and developmental needs of tribal societies.
Prerequisites: jr st or cons instr.
General Education Requirements: CD
Last Taught: Spring 2010, Fall 2003.
Current Offerings: http://uwm.edu/schedule

ED POL 579 Current Topics in Cultural Foundations of Education:
1-6 cr. Undergraduate/Graduate.
Specific topics and any additional prerequisites will be announced in the Schedule of Classes each time the course is offered.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to max of 9 cr, including cr earned under Ed Pol 779.
Current Offerings: http://uwm.edu/schedule

ED POL 580 An Overview of Child/Youth Care
3 cr. Undergraduate/Graduate.
Survey of skills, theories and approaches of the youth work field. Emphasis on interactive, developmental and relationship-building approaches in a variety of settings.
Prerequisites: jr st or cons instr.
Course Rules: Ed Pol/ExcEduc/Soc Wrk 580 are jointly offered & count as repeats of each other.
Last Taught: Fall 2016, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

ED POL 581 Youth Work Practice
3 cr. Undergraduate/Graduate.
Applies the skills, theories and approaches of the youth work field to settings such as schools, community centers, and residential programs.
Prerequisites: jr st; Ed Pol/Soc Wrk 580(P); or grad st or cons instr.
Course Rules: Ed Pol/Soc Wrk 581 are jointly offered & count as repeats of each other.
Current Offerings: http://uwm.edu/schedule

ED POL 582 Operations Management in Early Childhood Programs
3 cr. Undergraduate/Graduate.
An introduction to systems and operations theory. Students explore and apply management concepts, systems, policies, and procedures to improve the quality of programs and services.
Prerequisites: jr st; Ad Ldsp 581(P); or cons instr.
Course Rules: Jointly offered with & counts as repeat of Ad Ldsp 582.
Current Offerings: http://uwm.edu/schedule

ED POL 584 Early Childhood Programs and the External Environment
3 cr. Undergraduate/Graduate.
Examines external influences that impact daycare. Students explore issues of culture, community, diversity, and policy as well as technical issues related to program quality.
Prerequisites: jr st & Ad Ldsp 581(P); or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ED POL 585 Supervised Practicum in Child and Youth Care
2-4 cr. Undergraduate/Graduate.
Supervised practicum in residential agencies and settings which utilize child and youth care workers and serve behaviorally, cognitively and/or physically disabled youth.
Prerequisites: jr st; Ed Pol/ExcEduc/Soc Wrk 580(P), or grad st; cons instr.
Course Rules: Ed Pol/ExcEduc 585 are jointly offered & count as repeats of each other.
Last Taught: Spring 2018, Fall 2017.
Current Offerings: http://uwm.edu/schedule

ED POL 597 Public Schools, Church-State Issues: Educational Foundations
3 cr. Undergraduate/Graduate.
Examination of the intersection between church and state in public education, including historical, legal, and moral issues; discussions of religious conflicts.
Prerequisites: jr st.
Last Taught: Fall 2017, Fall 2010.
Current Offerings: http://uwm.edu/schedule

ED POL 601 Foundations of Community-Based Organizations
3 cr. Undergraduate/Graduate.
Overview of community based organizations, their structures, functions, & administration. Students will also be taught proposal writing skills.
Prerequisites: jr st or cons instr.
Current Offerings: http://uwm.edu/schedule
ED POL 602 Proposal Writing and Fundraising Skills for Community-Based Organizations
3 cr. Undergraduate/Graduate.
Course prepares students to research, identify and apply for government funded community programs.
Prerequisites: jr st.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ED POL 603 Community Policy Analysis
3 cr. Undergraduate/Graduate.
Overview of policy analysis theory and approaches and techniques used to make sound policy decisions.
Prerequisites: jr st or cons instr.
Last Taught: Fall 2015, Spring 2014, Fall 2013, Spring 2013.
Current Offerings: http://uwm.edu/schedule

ED POL 604 Marketing for Community-Based Organizations
3 cr. Undergraduate/Graduate.
Basic theories of marketing and the application of marketing strategies used by community-based organizations.
Prerequisites: jr st or cons instr.
Last Taught: Fall 2017, Fall 2013, Fall 2012, Spring 2010.
Current Offerings: http://uwm.edu/schedule

ED POL 605 Community-Based Organization Funding
3 cr. Undergraduate/Graduate.
Overview of basic fiscal issues (funding types and sources, accountability issues, oversight systems, etc) impacting community-based organizations.
Prerequisites: jr st or cons instr.
Current Offerings: http://uwm.edu/schedule

ED POL 606 Quality Controls and Accountability for Community-Based Organizations
3 cr. Undergraduate/Graduate.
Introduction to quality controls and accountability tools that community-based organizations need in an era of increased accountability.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

ED POL 607 Service Learning and Community Engagement
3 cr. Undergraduate/Graduate.
Examines theories and practices of Service Learning and Community Engagement. Provides frameworks for reflection and action. Explores power, inequality and approaches to social justice.
Prerequisites: jr st or cons instr.
Course Rules: Part of concentration in Community Engagement and Partnerships.
Current Offerings: http://uwm.edu/schedule

ED POL 608 Social Media and Technology for Community Engagement
3 cr. Undergraduate/Graduate.
Introduces a variety of current visions of social media and approaches to community informatics.
Prerequisites: jr st or cons instr.
Last Taught: Spring 2018, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

ED POL 609 Community Partnerships
3 cr. Undergraduate/Graduate.
Explores different partnership environments, including: community-campus partnerships, inter-agency non-profit partnerships; governmental-non-profit partnerships; and public-private partnerships through theory and practice.
Prerequisites: jr st or cons instr.
Current Offerings: http://uwm.edu/schedule

ED POL 610 Reproduction of Minority Communities
3 cr. Undergraduate/Graduate.
Analysis of the social, economic, and cultural forces behind the formation and reproduction of minority and disadvantaged communities in the United States.
Prerequisites: jr st; any Sociol 100-level course.
Course Rules: Jointly offered w/& counts as repeat of Sociol 610.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ED POL 611 Community Policies and Urban Minority Youths
3 cr. Undergraduate/Graduate.
Focus on how community policies impact urban minority youths.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

ED POL 612 Community Participation and Power
3 cr. Undergraduate/Graduate.
Strategies for community participation in policy and practice; importance of understanding power relations for success. Students choose individual focus: e.g., housing, public health, education, etc.
Prerequisites: jr st.
Last Taught: Fall 2014, Fall 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

ED POL 613 Context and Foundations of Educational Policy
3 cr. Undergraduate/Graduate.
Defines educational policy, studies philosophical, historical, and social contexts of educational policy, examines context of educational policy, and presents contemporary educational concerns.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

ED POL 615 Service Delivery Policies & Systems for Community-Based Organizations
3 cr. Undergraduate/Graduate.
Overview of key policies used by community-based organizations in developing service delivery systems.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

ED POL 620 History of the Education of African Americans
3 cr. Undergraduate/Graduate.
Study of the history, biographies, trends, cultural influences, and movements in the education of African Americans: Africa to slavery to the present. Comparison with ‘white education.’
Prerequisites: jr st.
Last Taught: Fall 2014, Summer 2014, Spring 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule
ED POL 621 History of Native Education and Policy Development
3 cr. Undergraduate/Graduate.
Historic policy development affecting the education of American Indians including the development of schools and the relationship of education to federal Indian policy.
Prerequisites: jr st or cons instr.
General Education Requirements: CD
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

ED POL 624 Gender and Education
3 cr. Undergraduate/Graduate.
Overview of the major discussions and debates in the area of gender, focusing on the intersections of gender, race, class, ethnicity, and sexuality.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

ED POL 625 Race Relations in Education
3 cr. Undergraduate/Graduate.
Study and analysis of historical and theoretical bases of racism/race relations in America and their influences on contemporary educational policies and practices.
Prerequisites: jr st.
General Education Requirements: CD
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule

ED POL 626 Antiracist Education
3 cr. Undergraduate/Graduate.
Comparative perspectives on racism and antiracism in society and education.
Prerequisites: jr st.
Course Rules: Counts as repeat of Ed Pol 579 with same topic.
Current Offerings: http://uwm.edu/schedule

ED POL 630 Race and Public Policy in Urban America
3 cr. Undergraduate/Graduate.
Examination of the relationship between race and public policy with emphasis on issues (housing, crime, welfare reform, poverty, employment, discrimination, etc.) impacting urban communities.
Prerequisites: jr st or cons instr.
Current Offerings: http://uwm.edu/schedule

ED POL 633 Community Development for Low-Income and Minority Communities
3 cr. Undergraduate/Graduate.
Introduction to the principles, ideas, and techniques of community development and the development of minority communities.
Prerequisites: jr st.
Last Taught: Fall 2016, Spring 2015, Spring 2014, Fall 2010.
Current Offerings: http://uwm.edu/schedule

ED POL 636 Issues in African American Education
3 cr. Undergraduate/Graduate.
Contemporary issues in African American education, including special education, poverty, and academics, and their historical contexts.
Prerequisites: jr st.
Last Taught: Fall 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ED POL 639 Milwaukee Black Community
3 cr. Undergraduate/Graduate.
Overview of the social, historical, economic and political developments of Milwaukee's Black community.
Prerequisites: jr st.
Last Taught: Spring 2015.
Current Offerings: http://uwm.edu/schedule

ED POL 640 The Rise and Fall of America's Southern Civil Rights Movement
3 cr. Undergraduate/Graduate.
African Americans' struggle for Civil Rights in the South, focusing on issues such as education, housing, and politics; social and historical context for related policies.
Prerequisites: jr st.
Last Taught: Spring 2014, Fall 2011.
Current Offerings: http://uwm.edu/schedule

ED POL 650 The Civil Rights Movement in Northern Cities
3 cr. Undergraduate/Graduate.
Exploration of the Civil Rights Movement in northern cities, focusing on issues such as education, housing, and politics; social and historical context for related policies.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

ED POL 660 History of Western Education
3 cr. Undergraduate/Graduate.
Chronological narrative examining educational systems in western countries through the development of various civilizations from ancient Egypt to Europe.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

ED POL 668 Fieldwork in Multicultural Education
1-6 cr. Undergraduate/Graduate.
Fieldwork in multicultural settings appropriate for cultural research, analysis and study. Individualized requirements and evaluation criteria to be determined by faculty on individualized bases.
Prerequisites: jr st; cons instr.
Course Rules: May be retaken to 6 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ED POL 698 Fieldwork in International Education
1-6 cr. Undergraduate/Graduate.
Fieldwork in intercultural settings appropriate for cultural research, analysis and study. Requirements and evaluation criteria to be determined by faculty on individualized basis.
Prerequisites: jr st; cons instr.
Course Rules: May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ED POL 702 Cultural Foundations of Education Graduate Seminar
3 cr. Graduate.
Introduction to graduate studies. Provides students the skills and knowledge needed to succeed in graduate school.
Prerequisites: grad st
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

Community Engagement and Education, BS

The Community Engagement and Education Program is designed for students interested in changing their community, working in non-school educational roles, leadership in community-based organizations or teaching in private or alternative schools. Some students also pursue licensure for teaching in public schools after graduation.

Courses are offered during the day as well as online, in the evening and on weekends. We also give academic credit for prior professional experience. Areas of study include child care, youth work, urban education, alternative education, policy and leadership in community-based organizations, and community engagement and social action.

Our graduates work as youth leaders and educators, administrators in community-based organizations, teachers and directors of child care and head start centers, community organizers, and state and local elected officials.

University General Education Requirements (GERs)
The Department requires its students to meet the University’s General Education Requirements. Community Engagement and Education majors have until the beginning of their junior year (58 credits) to meet this requirement. See your advisor to find out which set of Competency Requirements you must fulfill.

3 Students may earn elective units through Educational Policy and Community Studies courses, including Prior Professional Educational Experience (see below), transfer units, or other UWM courses.
4 A maximum of 6 credits of fieldwork (ED POL 509, ED POL 688, or ED POL 698) may be used toward meeting this requirement; ED POL 499 cannot be used.
5 Including upper-division transfer units. These courses should be chosen by the student in consultation with an advisor.

Additional Requirements for Graduation
- 2.5 cumulative GPA in all program requirements.

Opportunities

Prior Professional Education Experience (PPEE)
A student who has been accepted as a major in Community Engagement and Education is eligible to earn credit for their professional/life experience by demonstrating their competency through essay examinations (PPEE). Credits earned, by passing individual exams with a grade of C or better, will be counted toward the Community Engagement and Education degree in 3-credit blocks. Students pay for one 3-credit course, and all additional credits they receive through the course are awarded without cost. In order to "pass" the course and receive at least 3 credits, a student must attempt 7 of the 14 competency area essay exams listed below.

Community Engagement and Education majors wishing to demonstrate their competencies for these credits are required to enroll in the competency examination course, ED POL 100 Community Education I, during their first or second semester of study. PPEE students have the opportunity to earn a maximum of 42 credits, which will only apply toward a Community Engagement and Education degree and only as lower-division electives. Students who leave the CEED program will not be able to use these credits in other programs.

**Undergraduate Advising**

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

**How to Prepare for an Advising Meeting**

- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

**Scheduling an Appointment**

Office of Student Services
Enders Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

**Walk-In Hours**

Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

**Transfer Student Not Yet Enrolled at UWM?**

If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

**Graduate Advising**

If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

**Honors in the School of Education**

**Dean’s Honor List**

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Community Engagement and Education, BS: Child and Family Services**

The Community Engagement and Education Program is designed for students interested in changing their community, working in non-school educational roles, leadership in community-based organizations or teaching in private or alternative schools. Some students also pursue licensure for teaching in public schools after graduation.

Courses are offered during the day as well as online, in the evening and on weekends. We also give academic credit for prior professional experience. Areas of study include child care, youth work, urban education, alternative education, policy and leadership in community-based organizations, and community engagement and social action.

Our graduates work as youth leaders and educators, administrators in community-based organizations, teachers and directors of child care and head start centers, community organizers, and state and local elected officials.

Total Credits 18

4 Including upper-division transfer units. These courses should be chosen by the student in consultation with an advisor.

5 Students completing a Child Care track may be eligible for an additional Certificate and/or Credential. See Opportunities (p. 470) for details.

Community Engagement and Education majors wishing to demonstrate their competencies for these credits are required to enroll in the competency examination course, ED POL 100 Community Education I, during their first or second semester of study. PPEE students have the opportunity to earn a maximum of 42 credits, which will only apply toward a Community Engagement and Education degree and only as lower-
division electives. **Students who leave the CEED program will not be able to use these credits in other programs.**

**Undergraduate Advising**

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

**How to Prepare for an Advising Meeting**

- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

**Scheduling an Appointment**

Office of Student Services  
Enderis Hall, Room 209  
(414) 229-4721  
soeinfo@uwm.edu

**Walk-In Hours**

Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

**Transfer Student Not Yet Enrolled at UWM?**

If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

**Graduate Advising**

If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found on the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

**Additional Certificate and/or Credential**

Students completing ED POL 302, ED POL 381, ED POL 383 and ED POL 416 also earn a Certificate in Child Care Program Development from the UWM Center for Early Childhood Professional Development & Leadership (CECPDL), and are eligible to commission for the Program Development Credential from The Registry.

Students completing the 6 Administrator Track courses within 3 years receive a Certificate in Child Care Administration from the UWM CECPDL, and, upon completing the capstone project, are eligible to commission for the Wisconsin Professional Credential for Child Care Administrators from The Registry. The Registry requires that students earn a grade of at least C- in all of the Child Care Administrator courses for the Credential.

**Honors in the School of Education**

**Dean's Honor List**

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Community Engagement and Education, BS: Community Leadership**

The Community Engagement and Education Program is designed for students interested in changing their community, working in non-school educational roles, leadership in community-based organizations or teaching in private or alternative schools. Some students also pursue licensure for teaching in public schools after graduation.

Courses are offered during the day as well as online, in the evening and on weekends. We also give academic credit for prior professional experience. Areas of study include child care, youth work, urban education, alternative education, policy and leadership in community-based organizations, and community engagement and social action.

Our graduates work as youth leaders and educators, administrators in community-based organizations, teachers and directors of child care and head start centers, community organizers, and state and local elected officials.

### University General Education Requirements (GERs)

The Department requires its students to meet the University’s General Education Requirements. Community Engagement and Education majors have until the beginning of their junior year (58 credits) to meet this requirement. See your advisor to find out which set of Competency Requirements you must fulfill.

#### GER Competency Requirements

1. **Oral and Written Communication, Part A**
   - English Placement Test score at level 4 or higher, or pass English 102 (OWC-A approved) with a grade of C or better

2. **Oral and Written Communication, Part B**
   - Complete an OWC-B approved advanced course with a grade of C or better

3. **Quantitative Literacy, Part A**
   - Math Placement Test code 30 or higher, or pass Math 102, 103, 105, or 175 with a grade of C or better (QL-A approved)

4. **Quantitative Literacy, Part B**
   - Complete a QL-B approved advanced course with a grade of C or better

5. **Foreign Language**
   - Complete one of the following:
     - 2 consecutive semesters of college instruction in a single foreign language with passing grades
     - 2 consecutive years of high school instruction in a single foreign language with passing grades
     - Demonstrate language proficiency on approved exam

#### GER Distribution Requirements

1. **Arts**
   - Select one approved GER-A designated course

2. **Humanities**
   - Select two approved GER-HU designated courses

3. **Social Sciences**
   - Select two approved GER-SS designated courses

4. **Natural Sciences**
   - Select one approved GER-NS or GER-NS+ designated course
   - Select one approved GER-NS+ designated course, which includes a lab component

5. **Cultural Diversity**
   - Select one approved GER-CD designated course

#### Total Credits
- 12-42

---

1. Credit earned for GER Competency may also count toward electives.
2. Program-specific required courses fulfill, or partially fulfill, University GER Competency and/or Distribution requirements. See Program Core for specific courses.

   - ED POL 625 | Race Relations in Education (GER-CD) |
   - ED POL 626 | Antiracist Education |
Community Leadership Foundations

ED POL 315  Group Process and Civic Engagement: Community Leadership  3

Community Leadership & Community Engagement Professional Standards

AD LDSP 579  Current Topics in Administrative Leadership: Human Relations for Community Organizations & Community Engagement  3

or ED POL 510

Community Leadership Focus

Select 3 from the following:  9

ED POL 509  Fieldwork/Practicum in Education and the Community
ED POL 603  Community Policy Analysis
ED POL 607  Service Learning and Community Engagement
ED POL 608  Social Media and Technology for Community Engagement
ED POL 609  Community Partnerships
ED POL 610  Reproduction of Minority Communities
ED POL 612  Community Participation and Power
ED POL 633  Community Development for Low-Income and Minority Communities

Management and Leadership

Select one of the following:  3

AD LDSP 507  Introduction to Group Leadership
AD LDSP 537  Leadership and Management of Volunteer Programs
AD LDSP 607  Coordination of Staff Development and Training Program
AD LDSP 617  Leadership in Youth-Serving Organizations
AD LDSP 647  Evaluation of Adult, Continuing, and Higher Education Programs
AD LDSP 667  Program Planning in Adult Education

Social/Historical Foundations

Select one of the following:  3

ED POL 640  The Rise and Fall of America's Southern Civil Rights Movement
ED POL 650  The Civil Rights Movement in Northern Cities
COMMUN 472  Rhetoric of Radicalism in the United States
HIST 440  History of the American Working Classes
HIST 446  African Americans Since the Civil War
HIST 460  The History of Poverty in America
HIST 468  The American Feminist Movement
SOCIOL 235  Social Change in the Global Economy (GER-SS)
SOCIOL 304  Political Sociology
SOCIOL 321  Contemporary Issues of the American Indian (GER-CD, GER-SS)
SOCIOL 323  Perspectives on Latino Communities (GER-CD, GER-SS)
SOCIOL 324  Comparative Race Relations

SOCIOL 325  Social Change
SOCIOL 333  Social Class in Industrial Society
WGS 303  Feminist Activism and Movements:

Leadership Capstone/Practicum

Select one of the following:  3

ED POL 509  Fieldwork/Practicum in Education and the Community
AD LDSP 630  Field Work in Schools, Agencies and Institutions
COMMUN 698  Internship in Communication
NURS 403  Practice, Research and Leadership Role Development
WGS 489  Internship in Women's and Gender Studies

Upper Division Electives

Select 3 credits of 300-level or higher courses from any school/college  3

Total Credits  96

3 Students may earn elective units through Educational Policy and Community Studies courses, including Prior Professional Educational Experience (see below), transfer units, or other UWM courses.

4 Including upper-division transfer units. These courses should be chosen by the student in consultation with an advisor.

Additional Requirements for Graduation

- 2.5 cumulative GPA in all program requirements.

Opportunities

Prior Professional Education Experience (PPEE)

A student who has been accepted as a major in Community Engagement and Education is eligible to earn credit for their professional/life experience by demonstrating their competency through essay examinations (PPEE). Credits earned, by passing individual exams with a grade of C or better, will be counted toward the Community Engagement and Education degree in 3-credit blocks. Students pay for one 3-credit course, and all additional credits they receive through the course are awarded without cost. In order to "pass" the course and receive at least 3 credits, a student must attempt 7 of the 14 competency area essay exams listed below.

Conflict Resolution 3
Community Engagement and Education majors wishing to demonstrate their competencies for these credits are required to enroll in the competency examination course, ED POL 100 Community Education I, during their first or second semester of study. PPEE students have the opportunity to earn a maximum of 42 credits, which will only apply toward a Community Engagement and Education degree and only as lower-division electives. Students who leave the CEED program will not be able to use these credits in other programs.

Undergraduate Advising
Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

How to Prepare for an Advising Meeting
- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Community Engagement Strategies, Undergraduate Certificate
This undergraduate certificate gives students an opportunity to gain a practical, historical and theoretical understanding of strategies for promoting social change through collective action. If you’re seeking an undergraduate degree at UWM, you’ll receive the certificate upon completion of your degree. If you already have an undergraduate degree, you’ll receive the certificate once you complete the program requirements. Students without a bachelor’s degree receive a certificate from the UWM School of Continuing Education after completing the program’s required coursework.

Outcomes
• Understand power relations
• Build coalitions
• Hold government officials accountable
• Work with the media

Careers
With a focus on urban issues, this certificate is excellent preparation for students who are interested in becoming community organizers, youth and social workers, politicians, community researchers, and nonprofit administrators. It’s also useful for students interested in specializing in other areas, such as international, environmental or union organizing.

A second internship in addition to ED POL 442 may be approved in some cases by a student's advisor. Internships must occur at the time credits are taken and written permission must be included in student's file prior to enrollment. The Program Committee is the final arbiter with regard to the relevance of internship opportunities to the mission of the certificate.
Undergraduate Advising

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

How to Prepare for an Advising Meeting

- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

Scheduling an Appointment

Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

Walk-In Hours

Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

Transfer Student Not Yet Enrolled at UWM?

If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

Graduate Advising

If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

Student-Designed Issue Area Option

May replace up to 6 credits of either Practical or Foundations focus areas.

There are many courses at UWM not listed under the Practical and/or Foundations certificate focus areas that may be especially relevant to students with interest in a particular area of organizing. Therefore, with the written permission of the Program Coordinator, students with special interests may develop an issue area that may take the place of up to 6 credits of the Practical or Foundations areas.

Examples of possible student-designed issue areas might include:

- International Contexts and Organizing
- Organizing in Rural Settings
- Health Care Organizing
- Organizing around Issues of Sexuality and/or Sexual Orientation
- Contesting the Criminal Justice System
- Organizing around Disability Issues
- Pollution and Inequality

Courses for a student-designed focus area will only count towards the Community Engagement certificate if they are taken after a student is officially admitted to the program, and must be officially approved prior to enrollment. Students must show evidence that they cannot pursue their interest under the current constraints of the Practical and Foundations focus areas. A maximum of three credits of independent reading may be included in this student-designed focus if a relevant course or topic is not available at the University.

Community Engagement, Minor

With this minor, students can learn about local urban communities and how to improve them. This practical knowledge can provide a foundation for building a career in a variety of human services and community-based careers. The Community Engagement and Education minor is open to all undergraduate students, but should be of particular interest to majors in:

- Africology
- Anthropology
- Business
- Communication
- Education
- Philosophy
- Political Science
- Psychology
- Social Welfare
- Sociology

Requirements

Students may declare the minor after completing at least 45 credits, but prior to completing 75 credits.

**Community Leadership, Undergraduate Certificate**

The Community Leadership Certificate provides students from any major with a way to explore leadership theory and identity in the community (including the campus community) and community-based institutions. The program will be based on a social justice model of leadership development, but will expose students to additional philosophies such as servant leadership and authentic leadership. Students will also gain practical experience by attending teambuilding activities such as ROPES courses, participating in community service, and doing a practicum in a leadership position, among other experiential learning activities.

**Requirements**

The certificate program consists of 16 credits, three of which will come from an experiential learning course, with activities specific to the student’s major.

Living Learning Communities (LLC)
Living Learning Communities are for those interested in being part of a "community within a community" by living in residence halls among students with similar interests. Members of Living Learning Communities (http://uwm.edu/housing/communities/living-learning-communities) have access to special resources, programs and activities that will connect them with other students, instructors and life at the university. Among the many options is a Community Leadership LLC, which focuses on giving students the skills to succeed as active citizens and leaders in the community.

The Community Leadership option is open to freshmen and sophomores and requires enrollment in certain courses. Students who live in this LLC will only be 9 credits shy of completing the Community Leadership Certificate Program, making it a great add-on to one's major or minor. Certificate completion is noted on University transcripts.

Community-Based Organizations: Policy and Leadership, Undergraduate Certificate
This certificate program prepares students for mid-level positions in community-based organizations and provides a base for graduate work in non-profit management and other related areas. Students take coursework in foundations and policy, which provides an overview of the workings and role of CBOs, fundraising and marketing, and in leadership to provide knowledge in preparation for supervisory and management roles.

Cultural Foundations of Community Engagement and Education, MS

The Department of Educational Policy and Community Studies offers a master’s program for educators, community leaders, and those working in community-based organizations. Students deepen their knowledge base around issues relating to urban education and the contexts of urban communities. The program of study enhances participants’ ability to critically analyze education and processes of community change.

Our courses are offered in the evenings, online, and on weekends to serve working students. All in-department courses required for the degree are offered online, and students are able to complete all of their departmental courses online over a two year cycle as space permits.

A core of four courses provides a foundation in sociology, history, philosophy and research.

Students are encouraged to develop and understand their own frameworks of values and theoretical perspectives as applied to the realities of urban education and urban communities. A faculty advisor will assist the student through the program, balancing flexibility and structure according to professional needs. Common focus areas include the following:

• Alternative Education/At-Risk Students
• Child Care
• Community Organizing for Social Change

• Community Engagement and Partnerships
• Educational Policy
• Race Relations
• Urban Education
• Youth Work

Because our program is very flexible, allowing 6 credits of electives within the department as well as 9 credits that can be chosen from across the university, students often create their own unique informal focus areas, which have included: Latino Studies, Working-Class Studies, Educating Hmong Students, Global Education, Comparative Education, Race and the Police, Education and the Homeless, and more.

Students are encouraged to develop and understand their own values and theoretical perspectives as applied to the realities of urban education and community change. A faculty advisor will assist the student through the program, balancing flexibility and structure according to professional needs.

A wide variety of professionals seeking to understand the urban context of education and community change have found this program useful. Graduates work in a range of fields: directors of non-profit and community-based agencies; teachers and principals in public, private, and alternative schools; administrators of child care centers; directors of social action organizations; managers of programs serving youth; administrators in health service facilities; community organizers; elected government officials; police officers; administrators of group homes; doctoral students; professors; and more.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrat/contact-us) online.

Admission
An applicant must meet Graduate School requirements plus the following departmental requirements to be considered for admission to the program:

1. Submission of two letters of recommendation from individuals who can testify to the applicant’s academic potential.
2. Written statement of educational and professional goals with desired area of concentration.

Credits and Courses

The program in Cultural Foundations of Community Engagement and Education requires a minimum of 30 graduate credits, divided among the following: required core courses (15); focus work (minimum 9 graduate credits), electives (minimum 6 graduate credits).

Capstone Practicum Option

For the Capstone Practicum option, students take three credits of ED POL 791. Working with the instructor of this course, students conduct a project that relates to their core interests in the program and write a final paper related to their capstone project. This course is generally taken in the last or close to last semester of a student's program.

Each of these required courses has a set of major questions that guide the instructor and the students.

ED POL 702 must be taken in the first two semesters after a student enrolls in the program.

May be focused in the following areas:
- alternative education
- multicultural education
- peace education
- urban education
- educational policy

They will select this focus with the help of an advisor.

In order to individualize the program, a maximum of 6 graduate credits of electives is selected in consultation with the advisor to enhance the specific professional goals of the student. These credits may be selected from courses within the Department, courses in other departments in the School of Education, or courses outside of the School of Education. A maximum of 3 credits of Independent Reading and 3 credits of fieldwork may be included in the program.

Program Requirements

Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. A student who is not assigned to an advisor at time of admission should immediately contact the Department Chair.

Capstone Paper/Project or Thesis

All students in the Cultural Foundations of Community Engagement and Education program must complete either a capstone practicum, final paper, or thesis as part of their degree requirements. This choice should be made by the student in consultation with his/her advisor. Each option is completed under the direction of a faculty member.

Final Paper Option

The final paper option generally begins with a research paper written in one of the student's classes, and then this paper is brought to a more complete form with the support of a faculty advisor. This option is designed for students who are planning to go on to further graduate study, and provides an opportunity to generate a writing sample for applications as well as to hone one's research abilities. Students do not generally take extra credits to complete this option. Note that this is NOT a thesis, which is a much more intensive and formalized research effort.

Thesis Option

A thesis represents a much more substantial research project that is submitted formally to the Graduate School. Students pursuing the thesis option may take up to 6 credits of Ed Pol 990 Research or Thesis.

Exit Interview

Students completing any of the above options will also end with a final exit interview with two faculty members from the program.

Time Limit

The student must complete all degree requirements within five years of initial enrollment.

Educational Policy, Graduate Certificate

The Graduate Certificate in Educational Policy prepares professionals to work in policy analysis as analysts, educational researchers, and policymakers in a range of levels, including local school districts, state agencies, nonprofit agencies, as support for elected officials, and the like.

Admission Requirements

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

Applicants must have completed a bachelor's degree prior to admission, must have a minimum 2.75 cumulative undergraduate grade point average, and must declare their intent to pursue the certificate before completion of six credits in the certificate sequence. Applicants with a graduate degree must have a minimum 3.00 graduate grade point average.

Application

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Credits and Courses

The Graduate Certificate in Educational Policy requires the completion of 15 credits of graduate work: 6 core credits, 3 credits of quantitative methods, and 6 credits of electives, chosen in collaboration with the program coordinator.
Certificate Requirements

Transfer Credit
No more than 20% of the required credits may be taken at an institution other than UWM. To be eligible for transfer, the course must have been completed within the last 2 years. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   • Degree programs must approve the courses from certificates that can double count toward the degree.
   • All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   • Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.

3. A course may count toward no more than one certificate and one degree.

4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit
Certificate program time limits shall be established as follows:

• 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
• 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

Youth Work, Undergraduate Certificate (School of Education, Department of Educational Policy and Community Studies)

The Youth Work Certificate is available to students in Social Work, Community Education and Engagement, Exceptional Education, and Educational Studies. It is ideal for students who want to learn more about adolescence and working with youth in a variety of settings, including large and small community based programs, group homes, foster care, and residential treatment centers. The focus is on youth who are troubled or at high risk, but much of the learning applies to youth in general and younger children as well.

**Undergraduate Advising**

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

**How to Prepare for an Advising Meeting**

- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

**Scheduling an Appointment**

Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

**Walk-In Hours**

Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

**Transfer Student Not Yet Enrolled at UWM?**

If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

**Graduate Advising**

If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).
EDUCATIONAL PSYCHOLOGY

The Department of Educational Psychology offers undergraduate courses in human development and learning, measurement, research, evaluation and statistics, school psychology, school counseling, and community counseling. These courses are for students enrolled in teacher preparation programs in the School of Education and for interested students in other schools and colleges. Undergraduates may not major or minor in educational psychology.

Educational Psychology also offers a minor in Counseling to undergraduates from other majors, such as Psychology, Nursing, Criminal Justice, Communication, and other areas in which students are interested in developing counseling skills.

The Department of Educational Psychology prepares graduate students for a variety of clinical, research, and teaching professions at the master’s or doctoral level.

The Master of Science in Educational Psychology is designed to serve those who want to increase their understanding of human behavior from conception through adulthood, research and evaluation of learning, and teaching in informal and formal educational settings. The program permits concentrations in School Counseling, Community Counseling, School Psychology, Human Development and Learning, and Educational Statistics and Measurement. The Department also offers certification sequences to qualify students as school psychologists and school counselors.

The goal of the Doctor of Philosophy in Educational Psychology is to prepare psychologists, researchers and educational professionals to effectively work on the unique challenges of promoting education, learning, and mental health in urban environments. The four areas of emphasis in the doctoral program are Counseling Psychology, Learning and Development, Educational Statistics and Measurement, and School Psychology.

The Counseling Psychology and School Psychology specializations at the master’s and doctoral level are accredited by the American Psychological Association (APA).

Counseling Courses

COUNS 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: cons instr; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

COUNS 403 Overview of Counseling Skills
3 cr. Undergraduate.
An applied course which introduces students to the basic interpersonal skills required in the counseling process. Designed for students interested in counseling and related fields.
Prerequisites: jr st
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COUNS 497 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st, cons instr; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

COUNS 579 Current Topics in Counseling:
1-3 cr. Undergraduate/Graduate.
Specific topic and prerequisites announced in Schedule of Classes each time course is offered.
Prerequisites: jr st
Course Rules: May be retaken w/chg in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

COUNS 600 Introduction to Clinical Mental Health Counseling
3 cr. Undergraduate/Graduate.
Survey of history of counseling; systems of counseling; credentialing in community counseling, counseling techniques; behavior modification and behavioral counseling; group processes in counseling.
Prerequisites: jr st.
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule

COUNS 602 Introduction to School Counseling
3 cr. Undergraduate/Graduate.
Survey of history of school counseling, counseling techniques, systems of counseling, group counseling in schools.
Prerequisites: jr st
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule
COUNS 701 Psychosocial Aspects of Disability in Rehabilitation Counseling
3 cr. Graduate.
Psychological adjustment to disabling conditions by clients and families; case management practices with non-physical disabilities; substance abuse among persons with disabilities.
Prerequisites: grad st; Couns 601 (C)
Current Offerings: http://uwm.edu/schedule

COUNS 702 Neuroscience and Medical Aspects of Counseling
3 cr. Graduate.
Neuroscience and medical practices related to emotional and behavioral conditions with emphasis on appropriate intervention strategies.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

COUNS 703 Vocational Aspects in Rehabilitation and Exceptional Education
3 cr. Graduate.
Disability and case management practices for severely disabled persons. Emphasis on return to work interventions: vocational evaluation, work adjustment, job placement, accommodation, ergonomics.
Prerequisites: grad st; Couns 601 (C) or ExcEduc 679(P).
Course Rules: Jointly offered with & counts as repeat of ExcEduc 703.
Current Offerings: http://uwm.edu/schedule

COUNS 704 Multicultural Mental Health Guidelines and Ethics Overview
3 cr. Graduate.
Basic concepts in multicultural psychology and how they interact to shape the individual.
Prerequisites: grad st
Last Taught: Fall 2016, Fall 2015, Summer 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

COUNS 705 Multicultural Practice: Awareness and Knowledge of Others
3 cr. Graduate.
Understanding and knowledge related to mental health practices of individuals from diverse cultural groups.
Prerequisites: grad st; Couns 704
Current Offerings: http://uwm.edu/schedule

COUNS 710 Counseling: Theory and Issues
3 cr. Graduate.
Counseling theories and issues, associated research, and application of theory to counseling practice.
Prerequisites: grad st; course in learning, human development &/or personality theory.
Current Offerings: http://uwm.edu/schedule

COUNS 711 Foundations in Career Development
3 cr. Graduate.
Educational, psychological, and sociological bases for career development; evolution of career development research; consideration and application of educational-occupational-social information through individual and group counseling approaches.
Prerequisites: grad st.
Last Taught: Spring 2018, Fall 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule

COUNS 714 Essentials of Counseling Practice
3 cr. Graduate.
Experience and practice in basic counseling skills related to the helping process. Analysis of barriers and hazards in the counseling process.
Prerequisites: grad st.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COUNS 715 Multicultural Counseling
3 cr. Graduate.
Understanding the impact of culture on behavior and how to use that knowledge to increase effectiveness in counseling individuals from other cultures.
Prerequisites: grad st; Couns 714(C).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COUNS 740 Multicultural Mental Health Guidelines for Working with Latinos
3 cr. Graduate.
Information about the Hispanic/Latino population in the U.S. through concepts such as identity, acculturation, language, family values, religion, gender, and social class.
Prerequisites: grad st; Couns 704 & 705 (P)
Current Offerings: http://uwm.edu/schedule

COUNS 741 Multicultural Mental Health Guidelines for Working with LGBT Individuals
3 cr. Graduate.
Essential multicultural mental health information as it pertains to the LGBT population in the U.S. Areas related to demographics, historical factors, sociopolitical issues and their influence on mental health.
Prerequisites: grad st; Couns 704 & 705 (P)
Current Offerings: http://uwm.edu/schedule

COUNS 742 Multicultural Health Guidelines for Working with Asian Americans
3 cr. Graduate.
Understanding and knowledge related to mental health practices of individuals of Asian descent living in the U.S.; demographic, historical, and sociopolitical factors influencing mental health.
Prerequisites: grad st; Couns 704 & 705 (P)
Last Taught: Fall 2015, Fall 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

COUNS 743 Multicultural Mental Health Guidelines for Working with African Americans
3 cr. Graduate.
Multicultural mental health information as it pertains to African Americans in the U.S.; addresses demographics, historical factors, and sociopolitical issues and their impact on mental health.
Prerequisites: grad st; Couns 704 & 705 (P)
Current Offerings: http://uwm.edu/schedule
COUNS 744 Multicultural Mental Health Guidelines, Working with First Nations Persons
3 cr. Graduate.
Pan-cultural information about the mental health issues facing the First Nations populations in North America.
Prerequisites: grad st; Couns 704 & 705 (P)
Current Offerings: http://uwm.edu/schedule

COUNS 745 Multicultural Mental Health Guidelines for Working with Men
3 cr. Graduate.
Understanding how the traditionally socialized male gender role affects the lives of men and therapeutic techniques for working with men from a gender sensitive perspective.
Prerequisites: grad st; Couns 704 & 705 (P)
Current Offerings: http://uwm.edu/schedule

COUNS 751 Multicultural Considerations in Lifespan Psychopathology
3 cr. Graduate.
Etiology and pathogenesis of mental disorders as they occur throughout the lifespan, with special attention paid to the multicultural influences.
Prerequisites: grad st.
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

COUNS 755 Counseling Pre-Practicum
3 cr. Graduate.
Introductory experience for Master's level counseling students, and is designed to meet the Wisconsin licensing requirement of 100 hours of supervised experience.
Prerequisites: grad st; Couns 710(P), Couns 714(P)
Course Rules: Counts as repeat of Couns 779 with same topic.
Current Offerings: http://uwm.edu/schedule

COUNS 764 Supervised Practicum 1 in School Counseling
3 cr. Graduate.
Practical, intensive and continuous experience in school settings that utilize counseling personnel.
Prerequisites: grad st; field placement; Couns 710(P) & 714(P); cons instr; competency requirement.
Course Rules: Retakable to 9 cr max. Sat/Unsat grade only.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COUNS 765 Supervised Practicum 1 in Clinical Mental Health Counseling
3 cr. Graduate.
Practical, intensive, and continuous experience in community settings working with professional counseling personnel.
Prerequisites: grad st; field placement; Couns 710(P) & 714(P); cons instr; competency requirement.
Course Rules: Retakable to 9 cr max.
Current Offerings: http://uwm.edu/schedule

COUNS 774 Trauma Counseling I: Theory and Research
3 cr. Graduate.
Seminar examining impact of trauma experience on individuals, groups and communities following a catastrophic event. Explores traumatic events, mental injuries and impact on memory, learning, physical health and dysfunctional behavior.
Prerequisites: grad st.
Course Rules: Couns 774, Nurs 774, OccThpy 774, and Soc Wrk 774 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COUNS 775 Trauma Counseling II: Diagnosis and Treatment
3 cr. Graduate.
Seminar on diagnosis and assessment instruments as well as intervention and therapeutic techniques used to address trauma issues in counseling acute and chronic traumatized clients.
Prerequisites: grad st; Couns 774, Nurs 774, OccThpy 774 or Soc Wrk 774(P), or cons instr.
Course Rules: Couns 775, Nurs 775, OccThpy 775, and Soc Wrk 775 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COUNS 776 Supervised Practicum 1 in Rehabilitation Counseling
3 cr. Graduate.
Practical, intensive, and continuous experience in settings that utilize rehabilitation counseling personnel.
Prerequisites: grad st; field placement; Couns 710(P) & 714(P); cons instr; competency requirement.
Course Rules: Retakable to 9 cr max. Sat/Unsat grade only.
Current Offerings: http://uwm.edu/schedule

COUNS 777 Current Topics in Counseling:
1-3 cr. Graduate.
Specific topic and prerequisites announced in schedule of classes each time course is offered.
Prerequisites: grad st.
Course Rules: Retakeable with change in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

COUNS 790 Research or Thesis
1-3 cr. Graduate.
For graduate students needing to complete master's paper.
Prerequisites: grad st (master's level in Couns/Rehab Couns); cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

COUNS 799 Independent Reading
1-3 cr. Graduate.
For the benefit of graduate students unable to secure needed content in regular courses.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule
COUNS 800 Group Counseling Theory
3 cr. Graduate.
Theories of groups, group counseling strategies, group structure, latent structural analysis, and educational methodologies.
**Prerequisites:** grad st; Couns 710 & 714.
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 803 Vocational Psychology
3 cr. Graduate.
Vocational theories and research; understanding of individual in relation to world of work; understanding of role of assessment in vocational counseling; multicultural vocational research and counseling.
**Prerequisites:** grad st; Ed Psy 720; Couns 711 or equiv; Couns 714
**Last Taught:** Spring 2018, Spring 2016, Spring 2014, Spring 2013.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 805 Consultation Strategies for Counselors and School Psychologists
3 cr. Graduate.
Analysis of consultation models; investigation of intervention strategies; and evaluation of the consultation process.
**Prerequisites:** 21 grad crs in Ed Psy &/or Couns.
**Last Taught:** Spring 2018, Spring 2017, Spring 2016, Fall 2015.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 807 Advanced Counseling Strategies:
1-3 cr. Graduate.
Variable content lecture-laboratory class. This course provides an in-depth view of counseling strategies based on the precepts of a particular theoretical model. Specific topics and any additional prerequisites will be announced in the schedule of classes each time the course is offered.
**Prerequisites:** grad st; Couns 714
**Last Taught:** Spring 2017, Spring 2015, Spring 2001, Fall 2000.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 810 Counseling in the Schools
3 cr. Graduate.
Exploration of counseling functions in schools. The rationale, scope and nature of school counseling. Theories, techniques and principles of counseling process are emphasized.
**Prerequisites:** grad st; Couns 710 & 714.
**Last Taught:** Fall 2017, Fall 2016, Fall 2015, Fall 2014.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 812 Clinical Studies in Counseling
3 cr. Graduate.
Problem behaviors that clients bring to the counseling situation; stypical behaviors; techniques by which counselors deal with those behaviors. Emphasis on case material.
**Prerequisites:** grad st; Couns 710 & 714.
**Last Taught:** Fall 2017, Fall 2016, Summer 2016, Fall 2015.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 814 Professional, Ethical and Legal Issues in Counseling Psychology
3 cr. Graduate.
Examination of professional, legal and ethical issues affecting the practice of counseling psychology. Introduction to the scientist-practitioner model and the profession of counseling psychology.
**Prerequisites:** grad st; 21 crs in Couns or equiv.
**Last Taught:** Fall 2016, Fall 2015, Fall 2012, Summer 2005.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 815 Advanced Multicultural Counseling
3 cr. Graduate.
Multicultural counseling models and related strategies for professionals working in multicultural educational and community settings.
**Prerequisites:** grad st; Couns 714; Couns 715; Couns 774
**Last Taught:** Spring 2016, Spring 2013, Spring 1999, Fall 1997.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 816 Counseling Children and Adolescents
3 cr. Graduate.
This course will describe various counseling issues and strategies applicable to working with children and adolescents in both school and community settings.
**Prerequisites:** grad st.
**Last Taught:** Spring 2018, Spring 2017, Summer 2016, Spring 2016.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 819 Group Assessment for Adults
3 cr. Graduate.
This course is designed to prepare students in adult group assessment. Students will become familiar with instruments used in personality, vocational, and interest assessment.
**Prerequisites:** grad st; Ed Psy 624; Ed Psy 720
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 820 Counseling Appraisal and Clinical Decision-Making
3 cr. Graduate.
Course will integrate science of psychology with counseling practice in order to promote development of advanced interviewing skills and intake reporting.
**Prerequisites:** grad st; Couns 710(P).
**Last Taught:** Spring 2018, Spring 2017, Spring 2016, Spring 2015.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 830 Proseminar 1: Introduction to Counseling Psychology; Multiculturalism
3 cr. Graduate.
Introduction to the profession; multicultural counseling and APA’s code of ethics covered in depth.
**Prerequisites:** grad st, cons instr
**Last Taught:** Fall 2011, Fall 2010, Fall 2009, Fall 2008.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 831 Proseminar 2: Psychotherapy Interventions
3 cr. Graduate.
Psychotherapy models and associated techniques.
**Prerequisites:** grad st; cons instr
**Last Taught:** Spring 2012, Spring 2010, Spring 2009, Spring 2008.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 840 Psychological Assessment
3 cr. Graduate.
Use of psychological assessment in counseling psychology practice.
**Prerequisites:** grad st; cons instr
**Last Taught:** Fall 2017, Fall 2016, Fall 2015, Fall 2013.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)
COUNS 841 Proseminar 4: Vocational Psychology; Social Justice
3 cr. Graduate.
Advanced vocational psychology including career theory, career counseling, and social justice.
**Prerequisites:** grad st; cons instr
**Last Taught:** Spring 2011, Spring 2010, Spring 2009, Spring 2008.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 850 Proseminar 5: Supervision and Consultation
3 cr. Graduate.
Provides an introduction to and practice in supervision in counseling psychology.
**Prerequisites:** grad st; cons instr
**Last Taught:** Fall 2012, Fall 2011, Fall 2010, Fall 2009.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 860 Capstone—Research in Counseling Psychology
3 cr. Graduate.
Analysis of research trends; examination of critical issues; reports of student research projects.
**Prerequisites:** grad st; cons instr
**Last Taught:** Spring 2018, Spring 2017, Spring 2016, Spring 2015.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 868 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
**Prerequisites:** grad st.
**Course Rules:** Fee for 1 cr assessed.
**Last Taught:** Fall 2017, Summer 2017, Fall 2016, Summer 2016.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 904 Family Systems Theory, Research, and Practice
3 cr. Graduate.
Introduction to systems theory, major approaches to family therapy, and the research on family systems concepts, in-session processes, and therapy outcomes.
**Prerequisites:** grad st; Couns 710(P).
**Last Taught:** Spring 2018, Summer 2017, Spring 2017, Summer 2016.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 917 Supervision of Counseling
3 cr. Graduate.
An examination of research and strategies for the supervision of counseling; experience in the actual process of supervision.
**Prerequisites:** grad st; Couns 970
**Last Taught:** Fall 2017, Fall 2014, Fall 2013, Fall 1998.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 968 Supervised Practicum 2 in School Counseling
3 cr. Graduate.
Supervised practice in cooperating K-12 school settings.
**Prerequisites:** grad st; field placement; Couns 774(P); cons instr; Sat/Unsat grade only.
**Course Rules:** Retakable to 9 cr max.
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 970 Supervised Practicum 2 in Clinical Mental Health Counseling
3 cr. Graduate.
Practice in cooperating colleges, agencies, and other community settings.
**Prerequisites:** grad st; field placement; Couns 775(P); cons instr; competency req.
**Course Rules:** Retakable to 9 cr max.
**Last Taught:** Spring 2018, Fall 2017, Summer 2017, Spring 2017.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 971 Supervised Practicum in Group Counseling
3-9 cr. Graduate.
Controlled practicum in group counseling with cooperating schools, colleges and agencies.
**Prerequisites:** master's degree in Ed Psy; acceptance by Couns area; letter of recomm from agency or school
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 972 Internship in Counseling I
6 cr. Graduate.
Practical experience in a cooperating school involving counseling procedures. Supervised by qualified staff at the employing unit and by counselor education faculty. Seminar participation required.
**Prerequisites:** master's degree in Ed Psy with specialization in Couns & writ cons instr & agency.
**Last Taught:** Fall 2003, Fall 2002, Fall 2001, Fall 2000.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 974 Internship in Rehabilitation Counseling
3-6 cr. Graduate.
Supervised experience in a public or private rehabilitation agency. Stress on case management and counseling procedures with a variety of clients.
**Prerequisites:** admis to rehab couns concentration; writ cons instr & agency.
**Last Taught:** Fall 2007, Summer 2007, Spring 2007, Spring 2006.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 975 Doctoral Practicum in Counseling 3
3 cr. Graduate.
A supervised counseling experience with emphasis on the process and techniques of assessment, individual, and group counseling. Opportunity for consultation and feedback on counseling issues.
**Prerequisites:** grad st; field placement; admis to PhD prog in Urban Educ, cons instr.
**Course Rules:** Sat/Unsat grade only. Retakable to 9 cr max.
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

COUNS 976 Doctoral Practicum in Counseling 4
3 cr. Graduate.
A supervised counseling experience with a broad range of clients within a clinical setting. Opportunity for consultation and feedback on counseling issues, and experience at providing supervision of masters' level students.
**Prerequisites:** grad st; field placement; admis to PhD prog in Urban Educ; Couns 975(P); cons instr.
**Course Rules:** Retakable to 9 cr max. Sat/Unsat grade only.
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)
COUNS 977 Advanced Doctoral Practicum in Counseling-5
3 cr. Graduate.
Advanced supervised training in specialized areas of counseling psychology: psychological assessment; individual, family, or group therapy; and consultation in outpatient, inpatient, or community mental health settings.
Prerequisites: grad st; field placement; admis to PhD program in Urban Ed; Couns 976(P); cons instr.
Course Rules: Retakable to 9 cr max. Sat/Unsat grade only.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COUNS 977 Research or Thesis
1-3 cr. Graduate.
Prerequisites: grad st; cons major professor.
Current Offerings: http://uwm.edu/schedule

COUNS 977 Independent Reading
1-3 cr. Graduate.
For benefit of doctoral students unable to secure needed content in regular courses.
Prerequisites: doctoral st & cons instr.
Current Offerings: http://uwm.edu/schedule

Educational Psychology Courses

ED PSY 100 Learning Skills Laboratory
2 cr. Undergraduate.
Prerequisites: none. Not open to jr & sr st except as auditors.
Last Taught: Spring 2016, Fall 2015, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ED PSY 101 Foundations of Academic Success:
1-2 cr. Undergraduate.
A variable content course designed to increase retention through self-assessment, career exploration, decision-making, study skills, goal setting, and available resources at UWM.
Prerequisites: none.
Course Rules: May be retaken w/chg in topic to max of 3 cr.
Last Taught: Fall 2017, Fall 2016, Summer 2016, Spring 2016.
Current Offerings: http://uwm.edu/schedule

ED PSY 104 Pathways to Success at UWM:
3 cr. Undergraduate.
Provides students with knowledge of and connection to campus resources, helping with study skills and time management in order to be successful at UWM.
Prerequisites: none.
Course Rules: May not be retaken for credit. Counts as repeat of Ed Psy 101 with same topic.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

ED PSY 105 Motivation Strategies
3 cr. Undergraduate.
Enhances student success and retention and helps students create greater success in college and life. Strategies for creating academic, professional, and personal success.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

ED PSY 110 Planning Your Major, Career
3 cr. Undergraduate.
Understanding the career planning process for making decisions about academic majors and careers.
Prerequisites: none.
Course Rules: Counts as repeat of Ed Psy 101 with same topic.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ED PSY 212 Career Planning and Development for the Multicultural Workplace
3 cr. Undergraduate.
Understanding of and preparation for multicultural work environments; critical reflection on cultural identities, connecting personal history to social and historical forces, understanding bias and oppression.
Prerequisites: OWC-Part A.
General Education Requirements: OWCB
Current Offerings: http://uwm.edu/schedule

ED PSY 220 Positive Psychology Applied to Culture, Learning, & Development
3 cr. Undergraduate.
Introduction to topics related to happiness and positive aspects of the learning experience, positive psychological constructs that optimize learning.
Prerequisites: OWC Part A
General Education Requirements: OWCB
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ED PSY 277 Cross-Cultural Conversations
3 cr. Undergraduate.
Multicultural dialogue on issues of race, ethnicity, social class, gender, sexual orientation, and other aspects of identity and impacts on personal lives, communities, and society.
Prerequisites: none.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

ED PSY 279 Current Topics in Educational Psychology:
1-3 cr. Undergraduate.
Specific topic announced in Schedule of Classes each time course is offered; any additional prerequisites are included in announcement.
Prerequisites: none.
Course Rules: May be retaken w/chg in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

ED PSY 290 Individual Research
1-3 cr. Undergraduate.
Prerequisites: cons instr.
Current Offerings: http://uwm.edu/schedule
ED PSY 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: cons instr; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2015.
Current Offerings: http://uwm.edu/schedule

ED PSY 299 Independent Reading
1-3 cr. Undergraduate.
For benefit of undergraduate students unable to secure needed content in regular courses.
Prerequisites: cons instr.
Current Offerings: http://uwm.edu/schedule

ED PSY 301 Successful Career Transitions: Ideas, Strategies, Accomplishments
2 cr. Undergraduate.
Help for students to clarify post graduation education or employment goals and successfully address employer/career research, resume development, employer targeting, networking and interview preparation.
Prerequisites: jr st.
Course Rules: Credit/No Credit only.
Current Offerings: http://uwm.edu/schedule

ED PSY 320 Principles of Classroom Appraisal and Evaluation
2-3 cr. Undergraduate.
Principles of evaluation with major emphasis upon nonstandardized and informal techniques of appraisal.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

ED PSY 325 Practice of Classroom Assessment
2-3 cr. Undergraduate.
Introduces the principles and practices of student-centered classroom assessment. Students gain an understanding of when and how to use a variety of assessment techniques.
Prerequisites: admis to School of Educ.
Course Rules: 1 cr counts as repeat of Ed Psy 326.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ED PSY 330 Introduction to Learning and Development
3 cr. Undergraduate.
Principles and concepts of learning and development that contribute to the understanding and direction of school learning.
Prerequisites: soph st.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ED PSY 497 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st, cons instr, acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

ED PSY 505 Positive Psychology: Theory and Application in Learning Contexts
1-3 cr. Undergraduate/Graduate.
Introduction to positive psychology and its application in school and learning settings.
Prerequisites: jr st; grade of C or better in English 102(P) or score at level 4 on EPT.
General Education Requirements: OWCB
Current Offerings: http://uwm.edu/schedule

ED PSY 541 Assessment in Science and Math I
1 cr. Undergraduate/Graduate.
First of a three part assessment series for MACSTEP students.
Prerequisites: jr st.
Course Rules: Counts as repeat of Ed Psy 579 with topic 'Alternative Assess-Sci/Math.'
Last Taught: Fall 2017, Fall 2016, Summer 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ED PSY 542 Assessment in Science and Math II
1 cr. Undergraduate/Graduate.
Second in a three part assessment series for MACSTEP students.
Prerequisites: jr st.
Course Rules: Counts as repeat of Ed Psy 579 with topic 'Alternative Assess-Sci/Math.'
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ED PSY 543 Assessment in Science and Math III
1 cr. Undergraduate/Graduate.
Third of a three part assessment series for MACSTEP students.
Prerequisites: jr st.
Course Rules: Counts as repeat of Ed Psy 579 with topic 'Alternative Assess-Sci/Math.'
Current Offerings: http://uwm.edu/schedule

ED PSY 550 Social and Affective Issues in Urban Classrooms
3 cr. Undergraduate/Graduate.
Explore the social/emotional aspects of children's development as related to schooling and present a framework for creating conducive classroom learning environments.
Prerequisites: jr st; admis to School of Educ.
Current Offerings: http://uwm.edu/schedule

ED PSY 551 Social and Affective Issues: Case-Based Problem-Solving
1 cr. Undergraduate/Graduate.
Students will critique various strategies presented in Ed Psy 550 and engage in a problem-solving process focusing on social/emotional issues and classroom interventions.
Prerequisites: jr st; Ed Psy 550(P).
Current Offerings: http://uwm.edu/schedule

ED PSY 575 Infant and Early Childhood Assessment
3 cr. Undergraduate/Graduate.
Theoretical and applied aspects of early childhood assessment. Experience administering specific individual and group (screening) tests. Assessment of language, cognition, motor, adaptive behavior, developmental delay.
Prerequisites: jr st or grad st.
Last Taught: Spring 2016, Fall 2015, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule
ED PSY 579 Current Topics in Educational Psychology:
1-3 cr. Undergraduate/Graduate.
Specific topic and prerequisites announced in Schedule of Classes each
time course is offered.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

ED PSY 613 Infant and Early Childhood Assessment
3 cr. Undergraduate/Graduate.
Theoretical and applied aspects of early childhood assessment.
Experience administering specific individual and group (screening)
tests. Assessment of language, cognition, motor, adaptive behavior,
developmental delay.
Prerequisites: jr st.
Course Rules: Counts as repeat of Ed Psy 579. Jointly offered with and
counts as repeat of ExcEduc 613.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ED PSY 624 Educational Statistical Methods I
3 cr. Undergraduate/Graduate.
Overview of common statistical techniques used in educational research,
including univariate and bivariate descriptive statistics, inferential
statistics, one-way analysis of variance, and linear regression.
Prerequisites: jr st.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ED PSY 626 Workshop in the Computerized Analysis of Educational Data
1 cr. Undergraduate/Graduate.
Workshop in designing, implementing and interpreting the computer
analysis of survey, research or test-program type data using a popular
comprehensive statistical analysis package.
Prerequisites: jr st.
Last Taught: Summer 2011, Spring 2011, Fall 2010, Summer 2010.
Current Offerings: http://uwm.edu/schedule

ED PSY 631 Cognition: Learning, Problem Solving and Thinking
3 cr. Undergraduate/Graduate.
Overview of historical theories of learning and current theories of
cognition. Emphasis on application to instruction, school subjects,
workplace training, self-directed learning.
Prerequisites: jr st.
Last Taught: Spring 2017, Spring 2015, Spring 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

ED PSY 637 The Psychology of Informal Learning Contexts
3 cr. Undergraduate/Graduate.
Overview of theory and research about how people learn in informal
contexts, i.e. after-school settings, online immersive environments,
science centers, museums and cultural institutions.
Prerequisites: jr st.
Last Taught: Fall 2010, Fall 2009.
Current Offerings: http://uwm.edu/schedule

ED PSY 640 Human Development: Theory and Research
3 cr. Undergraduate/Graduate.
Survey of theory and research in human development from conception to
death, emphasizing the child and adolescent periods of growth.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

ED PSY 710 Child and Adolescent Mental Health Issues in Schools
3 cr. Graduate.
Understanding of mental health disorders and treatment among children
and adolescents in school-based settings. Developmental and risk
factors associated with behavioral and emotional health problems.
Prerequisites:
Last Taught: Summer 2014.
Current Offerings: http://uwm.edu/schedule

ED PSY 711 Cultural Context of Children's Mental Health
3 cr. Graduate.
Influence of culture on the mental health of children; topography of
cultural difference in the US, culture-bound syndromes, influence of
cultural variables on mental health.
Prerequisites: grad st
Course Rules: Counts as repeat of Ed Psy 779 with same topic.
Last Taught: Spring 2015.
Current Offerings: http://uwm.edu/schedule

ED PSY 712 Mentally Healthy Classroom and School Environments
3 cr. Graduate.
Issues pertaining to socio-emotional learning in school settings;
techniques, leadership, & collaboration for fostering emotionally healthy
school environments.
Prerequisites: grad st
Last Taught: Spring 2016, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ED PSY 713 Mental Health Needs in Urban Environments
3 cr. Graduate.
Introduction for educators to the unique context and characteristics of
urban environments, cultivation of understanding of factors that can
shape the mental health of developing children.
Prerequisites: grad st
Last Taught: Summer 2015.
Current Offerings: http://uwm.edu/schedule

ED PSY 720 Techniques of Educational and Psychological Measurement
3 cr. Graduate.
Overview of principles of measurement in educational and psychological
testing. Topics include test reliability, test validity, test bias, test score
interpretation, and standardized tests.
Prerequisites: grad st; Ed Psy 624(P)
Current Offerings: http://uwm.edu/schedule

ED PSY 724 Educational Statistical Methods II
4 cr. Graduate.
Applications of common statistical techniques used in educational
research, including two-way analysis of variance, multiple mean
comparisons, and multiple regression.
Prerequisites: grad st; Ed Psy 624(P)
Current Offerings: http://uwm.edu/schedule
ED PSY 725 Improving Teaching and Learning with Classroom-Based Assessments
3 cr. Graduate.
Development and implementation of classroom-based assessment instruments within existing large-scale state and district accountability systems.
Prerequisites: grad st.
Course Rules: Jointly offered w/ & counts as repeat of CurrIns 725.
Current Offerings: http://uwm.edu/schedule

ED PSY 728 Techniques of Educational Research
3 cr. Graduate.
Study of major design and analysis strategies used in educational research with emphasis upon the critique of existing studies and the planning of future studies.
Prerequisites: grad st & Ed Psy 624(P).
Current Offerings: http://uwm.edu/schedule

ED PSY 731 Cognition and the Design of Instruction
3 cr. Graduate.
Review of theories of human learning and cognition; emphasis on research on learning from text and the design of text and learning adjuncts.
Prerequisites: grad st; Ed Psy 631(P) or equiv.
Current Offerings: http://uwm.edu/schedule

ED PSY 732 Cognitive Behavioral Intervention Strategies in Education
3 cr. Graduate.
Theory and application of effective behavioral treatments for children with adjustment problems in school. Emphasis on principles and techniques of cognitive and multimodal behavioral therapy.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

ED PSY 733 Educational Applications of Social Psychology
3 cr. Graduate.
Implications of theory and research in socialization, attitude development and change, group processes, social perception and role behavior for classroom practices and teacher-student interaction.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

ED PSY 734 Contextual Determinants of Motivation
3 cr. Graduate.
Review of research concerning the effects of teacher expectations, school and classroom climate, and psycho-social variables on student motivation. Focus on problem-solving.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

ED PSY 735 Social Cognition in Educational Psychology
3 cr. Graduate.
Theory and research on basic cognitive elements and processes used in understanding the self and others with emphasis on applications in educational and counseling settings.
Prerequisites: grad st; Ed Psy 631(P) or 640(P); or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ED PSY 741 Cognitive Development
3 cr. Graduate.
Examination of theory and research in cognitive development and applications to developmental assessment and instruction.
Prerequisites: grad st; Ed Psy 640(P) or equiv or cons instr.
Current Offerings: http://uwm.edu/schedule

ED PSY 742 Personality Theories and the Educational Process
3 cr. Graduate.
A study of the major theories of personality growth and development. An emphasis upon the application of the theories to the educational process.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

ED PSY 743 Human Development: Study of Infancy and Early Childhood
3 cr. Graduate.
Study of physical, intellectual, social and emotional development from birth to six years.
Prerequisites: grad st, Ed Psy 640(P) or cons instr.
Last Taught: Fall 2012, Fall 2011, Fall 2010, Summer 2009.
Current Offerings: http://uwm.edu/schedule

ED PSY 745 Human Development: Study of Middle Childhood
3 cr. Graduate.
Study of the physical, intellectual, social, and emotional development of children from 6-12 years of age.
Prerequisites: grad st & Ed Psy 640(P) or equiv or cons instr.
Current Offerings: http://uwm.edu/schedule

ED PSY 746 Human Development: Study of the Adolescent
3 cr. Graduate.
Study of physical, intellectual, social and emotional development during adolescents.
Prerequisites: grad st; Ed Psy 640(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

ED PSY 747 Human Development: Study of the Adult
3 cr. Graduate.
Physical, social, affective and cognitive development which characterizes the period from young adulthood through aging.
Prerequisites: grad st & Ed Psy 640(P) or equiv or cons instr.
Current Offerings: http://uwm.edu/schedule

ED PSY 748 Oral Language, Cognition, and Literacy
3 cr. Graduate.
Psychological and linguistic bases of speaking, reading, and writing in children and adults from diverse populations. Importance of language and cognition for literacy development.
Prerequisites: grad st; college-level course in language acquisition or reading or child development or linguistics or cons instr.
Course Rules: Ed Psy 748 & Linguis 748 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule
ED PSY 751 Professional and Historical Issues in School Psychology
3 cr. Graduate.
Introduction to the practice of psychology in the schools. This course includes the history and systems of psychology, and professional practice issues.
Prerequisites: grad st.
Last Taught: Fall 2017, Spring 2017, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ED PSY 752 Developmental Psychopathology
3 cr. Graduate.
Study of characteristics, definitions, developmental course, correlates, causes, contexts, and outcomes of psychopathology in children and adolescents. Explores interventions within a developmental systems perspective.
Prerequisites: Ed Psy 755 or Couns 710 or equiv.
Current Offerings: http://uwm.edu/schedule

ED PSY 755 Assessment and Intervention: School Age
3 cr. Graduate.
Introduction to school psychology practices in assessment and intervention for school age students. Includes didactic and clinical experiences.
Prerequisites: grad st; Ed Psy 720; cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ED PSY 756 Assessment and Intervention: Early Childhood
3 cr. Graduate.
Introduction to school psychology practices in assessment and intervention for early childhood children and families. Didactic and clinical experiences are included.
Prerequisites: grad st; Ed Psy 755; cons instr.
Current Offerings: http://uwm.edu/schedule

ED PSY 760 Academic Intervention and Alternative Assessment
3 cr. Graduate.
Reviews and critiques major educational reforms in regular and exceptional education. Alternative assessment paradigms, context variables in classrooms, teacher-child interactions, and change strategies are examined.
Prerequisites: grad st.; Ed Psy 755 (P)
Current Offerings: http://uwm.edu/schedule

ED PSY 779 Current Topics in Educational Psychology
1-3 cr. Graduate.
Specific topic and any additional prerequisites announced in schedule of classes each time course is offered.
Prerequisites: grad st.
Course Rules: May be repeated with change in topic to max of 9 cr.
Last Taught: Summer 2017, Summer 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

ED PSY 790 Research or Thesis
1-3 cr. Graduate.
Master's level course.
Prerequisites: grad st & cons instr.
Current Offerings: http://uwm.edu/schedule

ED PSY 799 Independent Reading
1-3 cr. Graduate.
For benefit of superior graduate students unable to secure needed content in regular courses.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

ED PSY 801 Urban Education: Doctoral Seminar in Educational Psychology
3 cr. Graduate.
Overview of theory and research in educational psychology with emphasis on problems and issues in urban settings.
Prerequisites: grad st admis to urban educ doctoral prog; Educ 701.
Current Offerings: http://uwm.edu/schedule

ED PSY 814 Cognition and Emotion: The Affective Components of Human Thought
3 cr. Graduate.
Intersection of cognition and emotion with particular focus on affective processes.
Prerequisites: grad st.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

ED PSY 820 Multiple Regression
3 cr. Graduate.
Basic and advanced topics in linear regression analysis, including prediction, mediation and moderation effects, curvilinear relationship, categorical predictors, and other general linear models like ANCOVA.
Prerequisites: grad st; Ed Psy 724(P) or cons instr.
Last Taught: Fall 2017, Spring 2016, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

ED PSY 821 Psychometric Theory and Practice
3 cr. Graduate.
Advanced topics in psychometrics, covering classical test theory, generalizability theory, and item response theory, test bias, item analysis, and test equating and linking.
Prerequisites: grad st; Ed Psy 724(P) or equiv; Ed Psy 720(P) or equiv.
Last Taught: Fall 2016, Fall 2014, Fall 2010, Fall 2008.
Current Offerings: http://uwm.edu/schedule

ED PSY 822 Item Response Theory
3 cr. Graduate.
A survey of IRT models and their applications in measurement issues, such as latent trait estimation, model fit, differential item functioning, and computerized adaptive testing.
Prerequisites: grad st; Ed Psy 724(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

ED PSY 823 Structural Equation Modeling
3 cr. Graduate.
Study of applied structural equation modeling including path analysis, confirmatory factor analysis and other latent variable models; exposure to computer programs used for model analysis.
Prerequisites: grad st; Ed Psy 825 (P) or 820 (P) or equiv; cons instr.
Current Offerings: http://uwm.edu/schedule
ED PSY 824 Advanced Experimental Design and Analysis
3 cr. Graduate.
Advanced topics in the design and statistical analysis of experiments applied to educational research, including n-way analysis of variance and repeated measures analysis of variance. Prereq: grad st; Ed Psy 724(P) or equiv
Prerequisites:

ED PSY 825 Multivariate Methods
3 cr. Graduate.
Multivariate analysis methods such as MANOVA, discriminant analysis, factor analysis, and principal components analysis, and their applications in the social sciences.
Prerequisites: grad st; Ed Psy 724(P).
Last Taught: Spring 2018, Fall 2015, Fall 2013, Spring 2012.
Current Offerings: http://uwm.edu/schedule

ED PSY 826 Analysis of Cross-Classified Categorical Data
3 cr. Graduate.
Use of methods that include chi-square, log linear, and logistic regression models to analyze cross-classified categorical data with applications in the social sciences.
Prerequisites: grad st; Ed Psy 724(P).
Last Taught: Fall 2016, Fall 2014, Fall 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule

ED PSY 827 Survey Research Methods in Education
3 cr. Graduate.
Advanced topics in survey design, administration, and analysis. Topics include sampling designs, data collection mode, measurement error, and small- and large-scale survey data analysis techniques.
Prerequisites: grad st; Ed Psy 724(P).
Current Offerings: http://uwm.edu/schedule

ED PSY 828 Program Evaluation in Education
3 cr. Graduate.
An examination of the issues related to educational program evaluation; application of statistical and measurement methods to evaluation strategies and designs.
Prerequisites: grad st; Ed Psy 724(P).
Current Offerings: http://uwm.edu/schedule

ED PSY 829 Instrument Development
3 cr. Graduate.
Students will develop an instrument to measure some psychological construct of research interest. Topics include construct development, test and item specifications, item writing, conducting reliability and validity studies.
Prerequisites: grad st; Ed Psy 724(P).
Last Taught: Fall 2011, Fall 2009, Fall 2007, Fall 2005.
Current Offerings: http://uwm.edu/schedule

ED PSY 831 Cognition: Theory and Research
3 cr. Graduate.
A detailed look at cognitive theory and research underlying learning and instruction. Aimed at students who expect to use some aspect of cognitive theory in their research.
Prerequisites: grad st; Ed Psy 631(P), 731(P) or course in human verbal learning.
Current Offerings: http://uwm.edu/schedule

ED PSY 832 Theory of Hierarchical Linear Modeling
3 cr. Graduate.
Theories and applications of the statistical techniques for analyzing multilevel data in which individuals are nested within clusters or repeated measures are nested within individuals.
Prerequisites: grad st; Ed Psy 820(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

ED PSY 833 Social Psychology of Group Differences: Race and Ethnicity
3 cr. Graduate.
Social psychological research and theory concerning race, ethnicity and racial and ethnic relations in American society with applications to a variety of educational situations.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

ED PSY 834 The Psychology of Achievement Motivation
3 cr. Graduate.
Review of research on personality factors that influence achievement motivation. Designed for those interested in incorporating aspects of motivation theory into their research.
Prerequisites: grad st; Ed Psy 734(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

ED PSY 838 Research Practicum in Educational Psychology
3 cr. Graduate.
Supervised research practicum, strategies for dissertation writing process and presentation.
Prerequisites: grad st.
Course Rules: Retakable to 12 cr max.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

ED PSY 840 Theory and Issues in Human Development
3 cr. Graduate.
Study of theory, experimental design, and research in human development.
Prerequisites: grad st; Ed Psy 640(P).
Current Offerings: http://uwm.edu/schedule

ED PSY 844 The Multicultural Family
3 cr. Graduate.
Course examines theory and research for studying development in the family context as it applies to ethnic minority groups in the u.s.
Prerequisites: grad st; Ed Psy 640(P).
Last Taught: Spring 2017, Spring 2015, Fall 2013, Spring 2012.
Current Offerings: http://uwm.edu/schedule
ED PSY 845 Immigrant Child in Developmental Perspective  
3 cr. Graduate.  
Examines immigrant children and families from a developmental perspective. Focus on current issues in theory and research on the study of immigrant children.  
Prerequisites: grad st; Ed Psy 640 (P)  
Last Taught: Fall 2016, Fall 2014, Spring 2013, Fall 2011.  
Current Offerings: http://uwm.edu/schedule

ED PSY 850 Objective Personality Assessment  
3 cr. Graduate.  
Objective diagnostic techniques used in the personality assessment of school-age populations.  
Prerequisites: grad st, Ed Psy 755 & 756. Course in behavior disorders of children or in abnormal psychology recom.  
Current Offerings: http://uwm.edu/schedule

ED PSY 851 Assessment and Interventions: Personality, Social and Emotional Functioning  
3 cr. Graduate.  
Introduction to school psychology practices of assessment and interventions for psychological, social, and emotional functioning of children and adolescents. Didactic and clinical experiences included.  
Prerequisites: Ed Psy 742 & 752; writ cons instr.  
Current Offerings: http://uwm.edu/schedule

ED PSY 852 Social, Psychological, and Biological Basis of Learning Disorders  
3 cr. Graduate.  
Current assessment and intervention in the approaches to learning and emotional difficulties. Includes social, psychological, cultural, educational, and biological factors affecting children and adolescents.  
Prerequisites: grad st; Ed Psy 751 or Couns 710 or equiv.  
Current Offerings: http://uwm.edu/schedule

ED PSY 853 Biological Basis of Childhood Disorders  
3 cr. Graduate.  
Current theory, research, and clinical findings in the biological basis of childhood disorders. Neurodevelopmental assessment and implications for intervention with cognitive behavioral, and psychosocial disorders.  
Prerequisites: grad st; Ed Psy 755 or cons instr.  
Current Offerings: http://uwm.edu/schedule

ED PSY 879 Current Topics in Educational Psychology  
1-3 cr. Graduate.  
Specific topic announced in schedule of classes each time course is offered; any additional prerequisites are included in announcement.  
Prerequisites: grad st.  
Course Rules: May be repeated with change in topic to max of 9 cr.  
Last Taught: Fall 1991.  
Current Offerings: http://uwm.edu/schedule

ED PSY 880 Proseminar in Urban Education: Educational Psychology  
2 cr. Graduate.  
An examination of selected problems and issues in urban education.  
Prerequisites: grad st; admis to urban educ doctoral prog.  
Current Offerings: http://uwm.edu/schedule

ED PSY 888 Candidate for Degree  
0 cr. Graduate.  
Available for graduate students who must meet minimum credit load requirement.  
Prerequisites: grad st.  
Current Offerings: http://uwm.edu/schedule

ED PSY 922 Seminar in Measurement and Evaluation  
3 cr. Graduate.  
Specific topic and any additional prerequisites are announced in timetable each time course is offered.  
Prerequisites: grad st & cons instr.  
Course Rules: May be repeated with change in topic to max of 9 cr.  
Current Offerings: http://uwm.edu/schedule

ED PSY 929 Seminar in Statistics and Research Design  
3 cr. Graduate.  
Specific topic and any prerequisites announced in schedule of classes each time course is offered.  
Prerequisites: grad st; cons instr.  
Course Rules: May be repeated with change in topic to max of 9 cr.  
Current Offerings: http://uwm.edu/schedule

ED PSY 939 Seminar in Human Learning  
3 cr. Graduate.  
Specific topic and any additional prerequisites announced in schedule of classes each time course is offered.  
Prerequisites: grad st; cons instr.  
Course Rules: May be repeated with change in topic to max of 9 cr.  
Last Taught: Spring 1990.  
Current Offerings: http://uwm.edu/schedule

ED PSY 949 Seminar in Human Development  
3 cr. Graduate.  
Specific topic and any additional prerequisites announced in schedule of classes each time course is offered.  
Prerequisites: grad st; cons instr.  
Course Rules: May be repeated with change in topic to max of 9 cr.  
Current Offerings: http://uwm.edu/schedule

ED PSY 952 Pediatric Psychology in Urban Settings  
3 cr. Graduate.  
Theory, research and clinical practice addressing the mental health needs of children in urban settings. Risk and protective factors are explored within a resiliency framework.  
Prerequisites: Ed Psy 752(R), Ed Psy 755(R) or cons instr.  
Current Offerings: http://uwm.edu/schedule

ED PSY 955 Advanced Therapeutic Interventions  
3 cr. Graduate.  
Develop theoretical understanding and competencies related to advance-level prevention and intervention work, including group prevention and intervention and family intervention.  
Prerequisites: grad st, writ cons instr, Ed Psy 732 or equiv.  
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2015.  
Current Offerings: http://uwm.edu/schedule

http://uwm.edu/schedule

ED PSY 959 Seminar in School Psychology
3 cr. Graduate.
Specific topic and any additional prerequisites announced in schedule of classes each time course is offered.
Prerequisites: grad st; cons instr.
Course Rules: May be repeated with change in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

ED PSY 960 Evidence-Based Practices in School Psychology: Prevention & Intervention
3 cr. Graduate.
Evidence-based practices for school psychologists and other professionals working in school and clinic settings.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

ED PSY 974 Beginning Practicum in School Psychology
1-3 cr. Graduate.
Supervised practice in schools, clinics or institutions. Practical experience in administration and interpretation of psychological tests, preparation of case reports and staffing of cases under supervision.
Prerequisites: grad st; enrollment in School Psych prog; cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ED PSY 975 Advanced Practicum in School Psychology
3-9 cr. Graduate.
Advanced psycho-diagnostic practice in schools, clinics or institutions under supervision of a psychologist.
Prerequisites: grad st; Ed Psy 974; writ cons instr.
Current Offerings: http://uwm.edu/schedule

ED PSY 976 MS Internship in School Psychology
1-6 cr. Graduate.
Provides opportunity for masters students to acquire advanced clinical skills in consultation, interventions, and psychological assessment. Supervised experiences in schools.
Prerequisites: grad st; completion of all course requirements for School Psychology certification; writ cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ED PSY 977 Advanced Practicum in Intervention and Supervision
1-3 cr. Graduate.
Training in the design, implementation, evaluation, and supervision of therapeutic or academic assessments and interventions.
Prerequisites: grad st; Ed Psy 732 or equiv.
Course Rules: Sat/Unsat grade only. Retakable to 6 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ED PSY 986 Doctoral Internship in School Psychology
3-6 cr. Graduate.
Provides opportunity for doctoral students to acquire advanced clinical skills in consultation, intervention, and assessment practices. Supervised experiences in school, mental health, and medical setting.
Prerequisites: grad st; writ cons instr; admis to Urban Educ doctoral prog & identification of specific specialization.
Last Taught: Spring 2018, Fall 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule

ED PSY 990 Research or Thesis
1-3 cr. Graduate.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

ED PSY 999 Independent Reading
1-3 cr. Graduate.
For doctoral students unable to secure needed content in regular courses.
Prerequisites: grad st; cons instr.
Last Taught: Spring 2018, Fall 2017, Fall 2016, Spring 2016.
Current Offerings: http://uwm.edu/schedule

As of Spring 2017, the Children’s Mental Health for School Professionals certificate has suspended admission. This means that unless you have been accepted into this certificate program prior to Spring 2017, you will not be able to earn the certificate. The following information is provided solely for the benefit of students accepted into the Children’s Mental Health for School Professionals certificate prior to Spring 2017.

**Admission Requirements**

**Application Deadlines**
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**
- Post baccalaureate: Minimum 2.75 undergraduate GPA, submit undergraduate transcripts and letter of intent.
- Current graduate students: minimum 3.0 cumulative GPA; submit current transcript and letter of intent.
- Post graduate: submit graduate transcript and letter of intent.

**Application**
- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

**Credits and Courses**
15 graduate credits as follows:

</table>

Total Credits 15

The certificate is conferred on completion of all courses with a grade of B or better.

**Certificate Requirements**

**Transfer Credit**
No credits may be taken at an institution other than UWM.

**Grade Point Average Requirement**
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

**Articulation with Degree Programs**
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   - Degree programs must approve the courses from certificates that can double count toward the degree.
   - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.

3. A course may count toward no more than one certificate and one degree.
Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

**How to Prepare for an Advising Meeting**
- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

**Counseling, Minor**
Counseling is an essential component across disciplines in psychology, education, social work, and related health professions. The foundational body of knowledge and development of introductory skills in the field of counseling are applicable to students pursuing these professions. A counseling minor would enable individuals to empower diverse individuals, families, and groups to accomplish mental health, wellness, education, and career goals and overcome personal challenges and obstacles in a variety of settings.

- Minimum GPA of 2.5 on all credits in the minor, including UWM and transfer credits

**Undergraduate Advising**

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

**Scheduling an Appointment**
Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

**Walk-In Hours**
Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

**Graduate Advising**
If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

**Educational Psychology, MS: Clinical Mental Health Counseling**

The counseling program in the Department of Educational Psychology offers two distinct concentration areas:
- Clinical Mental Health Counseling
- School Counseling

Given UWM’s location in the largest urban area in Wisconsin, the counseling faculty is committed to training multicultrually competent community counselors and school counselors to serve clients in urban environments. Both concentrations share a core preparation in the areas of counseling and educational psychology. As students make progress in their program of studies, their focus will take on a more specialized
training with content specific courses and field placements where they will refine their counseling skills in practical settings.

The concentrations train counselors to work with a diverse group of clients in urban settings and to deliver services in an ethical manner, as outlined by professional codes of conduct. They share in common courses comprising an Educational Psychology core of studies, a general Counseling core of studies, and a Concentration core. The Educational Psychology core provides knowledge for understanding research and professional scholarship, techniques of educational and psychological measurement, and typical human growth and development across the life-span. The Counseling core courses provide training in basic helping processes and relationships, career development, social and diversity issues in counseling, group work, appraisal of client issues, counseling theory, and the role of family systems. The Concentration core provides training in advanced strategies for helping clients change, and opportunities for increasing competency with specific populations through field placement. Fieldwork in Counseling and Supervised Practicum in Counseling involve the refinement of more advanced and sophisticated counseling skills in placements in actual counseling settings.

Students are required to spend 20 hours each week during the semester at their placement site (an exception to this hour requirement is described below for students interested in seeking experience in dual concentrations).

The Clinical Mental Health Counseling concentration prepares students for work in a variety of community settings such as mental health clinics, community agencies, counseling centers, colleges and universities, and business and industry. Students arrange their program of studies in consultation with their advisors so that the 48 credits earned toward a master's degree will meet selected state certification requirements.

**Admission Requirements**

**Application Deadlines**

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uw.m.edu/registrar/contact-us) online.

**Application**

Before applying please see the Educational Psychology Website (https://uwm.edu/education/academics/educational-psychology-department) for department-specific application requirements.

**Admission**

An applicant must meet Graduate School requirements plus these departmental requirements to be considered for admission to the program

1. An undergraduate GPA of 3.00.
2. At least 18 undergraduate credits in education or related social sciences. Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. No course credits earned in making up deficiencies may be counted as program credits required for the degree.
3. Initial advisor assignment will be made by the area chair of the concentration to which the applicant has applied.

**Admission - Clinical Mental Health Counseling Concentration**

The Clinical Mental Health Counseling concentration prepares students for work in a variety of community settings such as mental health clinics, community agencies, counseling centers, colleges and universities, and business and industry. Students arrange their program of studies in consultation with their advisors so that the 60 credits earned toward a master's degree will meet selected state certification requirements.

Admission to the master's concentrations in counseling takes place in the fall. The Department of Educational Psychology deadline for receipt of completed applications is February 15.

If you are interested in applying to one of the master's concentrations in counseling, please see the Educational Psychology Website (https://uwm.edu/education/academics/educational-psychology-department) for more information. A student handbook containing detailed information on each program is available online; it can be accessed by clicking on the specific program of interest in the left-hand navigation bar. For further questions not addressed on the website, contact the Department of Educational Psychology at edpsydept@uwm.edu.

Students who seek admission to the Clinical Mental Health or School Counseling concentrations within the counseling area must apply through the Graduate School (https://graduateschool-apply.uwm.edu) for admission to the Department of Educational Psychology. Please note that Graduate School deadlines are earlier because they receive, evaluate, and send completed graduate school applications to the Department. Upon admission, the student is assigned to a faculty member of the Department of Educational Psychology-Counseling Area who shall serve as the student's advisor.

The Counseling Area follows the admissions requirements of the Graduate School and the Department of Educational Psychology.

- 48 credits are required for the School Counseling concentration.
- 60 credits are required for the Clinical Mental Health Counseling concentration.

Electives
Select 3 elective credits  3

Total Credits  60

In addition to the courses listed above, students must complete a comprehensive examination, a master’s paper, or a thesis (no more than three thesis credits to apply towards the degree).

Program Requirements
Major Professor as Advisor
The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. A student who is not assigned to an advisor at time of admission should immediately contact the Department Chair.

Thesis
Optional. Up to 6 degree credits may be awarded for thesis research.

Comprehensive Examination
The student who writes a thesis must pass a final oral examination in defense of that thesis. The student who does not write a thesis must pass a final oral or written comprehensive examination.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Educational Psychology, MS: Educational Statistics and Measurement
Student learning is measured more than ever before, and that means that the education field needs professionals who have expertise in educational statistics and measurement.

You’ll find our graduates working in universities, state and federal agencies, test publishing organizations, school systems, state departments of education, marketing research companies and research centers, among other settings.

The Educational Statistics and Measurement concentration is designed to provide students with the knowledge necessary to execute research and evaluate and critique existing research. Course work exposes students to the general principles of inferential statistics, research methodology and experimental design, psychometrics, and categorical and qualitative research methods.

Admission Requirements
Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Application
Before applying please see the Educational Psychology Website (https://uwm.edu/education/academics/educational-psychology-department) for department-specific application requirements.

Admission
An applicant must meet Graduate School requirements plus these departmental requirements to be considered for admission to the program
1. An undergraduate GPA of 3.00.
2. At least 18 undergraduate credits in education or related social sciences. Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. No course credits earned in making up deficiencies may be counted as program credits required for the degree.
3. Initial advisor assignment will be made by the area chair of the concentration to which the applicant has applied.

Admission - Educational Statistics and Measurement Concentration
The Educational Statistics and Measurement concentration is designed to provide students with the knowledge necessary to execute research and evaluate and critique existing research. Course work exposes students to the general principles of inferential statistics, research methodology and experimental design, psychometrics, and categorical and qualitative research methods.

Educational Psychology, MS: Learning and Development

The Learning and Development concentration provides students with a broad understanding of the psychological foundations of education. The program emphasizes the perspective of the learner and concentrates on the following content areas: cognition, development, and social. The program focuses on research skills as they apply to education and training, throughout the lifespan, in a broad range of settings.

Electives (11 credits)

6 credits must be from the following Educational Statistics and Measurement courses:

- ED PSY 823: Structural Equation Modeling (3 credits)
- ED PSY 824: Advanced Experimental Design and Analysis (3 credits)
- ED PSY 825: Multivariate Methods (3 credits)
- ED PSY 827: Survey Research Methods in Education (3 credits)
- ED PSY 828: Program Evaluation in Education (3 credits)
- ED PSY 829: Instrument Development (3 credits)
- ED PSY 922: Seminar in Measurement and Evaluation (3 credits)
- ED PSY 929: Seminar in Statistics and Research Design (3 credits)

Students' programs of study are developed in consultation with their assigned advisor.

Program Requirements

Major Professor as Advisor
The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. A student who is not assigned an advisor at time of admission should immediately contact the Department Chair.

Thesis
Optional. Up to 6 degree credits may be awarded for thesis research.

Comprehensive Examination
The student who writes a thesis must pass a final oral examination in defense of that thesis. The student who does not write a thesis must pass a final oral or written comprehensive examination.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Admission Requirements

Application
Before applying please see the Educational Psychology Website (https://uwm.edu/education/academics/educational-psychology-department) for department-specific application requirements.

Admission
An applicant must meet Graduate School requirements plus these departmental requirements to be considered for admission to the program:

1. An undergraduate GPA of 3.00.
2. At least 18 undergraduate credits in education or related social sciences. Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. No course credits earned in making up deficiencies may be counted as program credits required for the degree.
3. Initial advisor assignment will be made by the area chair of the concentration to which the applicant has applied.

Admission - Learning and Development concentration
The Learning and Development concentration provides students with the psychological foundations of education. The program emphasizes the perspective of the learner and concentrates on the following content areas: cognition, development, and social. The program focuses on research skills as they apply to education and training, throughout the lifespan, in a broad range of settings.

Credits and Courses

Students are required to complete 30 credits for the master's degree. Students complete 9 credits of core courses, 15 credits of a concentration, and 6 elective credits. Students’ programs of studies are developed in consultation with their assigned advisor.

Graduates of the MS program go on to pursue a PhD (often in Educational Psychology or a related field) or find jobs in education and/or research settings in the private or public sectors. Many graduates of our PhD program pursue careers at research institutes and universities.
Program Requirements

Major Professor as Advisor
The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. A student who is not assigned to an advisor at time of admission should immediately contact the Department Chair.

Thesis
Optional. Up to 6 degree credits may be awarded for thesis research.

Comprehensive Examination
The student who writes a thesis must pass a final oral examination in defense of that thesis. The student who does not write a thesis must pass a final oral or written comprehensive examination.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Educational Psychology, MS: School Counseling

The counseling program in the Department of Educational Psychology offers two distinct concentration areas:

- Clinical Mental Health Counseling
- School Counseling

Given UWM's location in the largest urban area in Wisconsin, the counseling faculty is committed to training multiculturally competent community counselors and school counselors to serve clients in urban environments. Both concentrations share a core preparation in the areas of counseling and educational psychology. As students make progress in their program of studies, their focus will take on a more specialized training with content specific courses and field placements where they will refine their counseling skills in practical settings.

The concentrations train counselors to work with a diverse group of clients in urban settings and to deliver services in an ethical manner, as outlined by professional codes of conduct. They share in common courses comprising an Educational Psychology core of studies, a general Counseling core of studies, and a Concentration core. The Educational Psychology core provides knowledge for understanding research and professional scholarship, techniques of educational and psychological measurement, and typical human growth and development across the life-span. The Counseling core courses provide training in basic helping processes and relationships, career development, social and diversity issues in counseling, group work, appraisal of client issues, counseling theory, and the role of family systems. The Concentration core provides training in advanced strategies for helping clients change, and opportunities for increasing competency with specific populations through field placement. Fieldwork in Counseling and Supervised Practicum in Counseling involve the refinement of more advanced and sophisticated counseling skills in placements in actual counseling settings. Students are required to spend 20 hours each week during the semester at their placement site (an exception to this hour requirement is described below for students interested in seeking experience in dual concentrations). Each concentration requires 48 credits.

The School Counseling concentration prepares students to work as school counselors. The program is approved by the Wisconsin Department of Public Instruction. Students are trained to apply the principles of learning, human development, counseling, and research and measurement within the schools. Preparation is designed to enable students to deliver school counseling programs and services to schools and the community. Students arrange their program of studies in consultation with their advisors so that the 48 credits earned toward a master's degree also will satisfy Wisconsin State Certification requirements. Certification is available as a K-12 School Counselor and as a Bilingual Counselor.

The School Counseling Certification program is for students who already possess a master's degree. Certification students are admitted to the school counseling certification and enroll as non-degree candidates. They need to meet the requirements for school counselor certification, which are generally fewer than the credits required for the M.S. Final selection of courses is determined by consultation with an advisor. Certification is available as a K-12 School Counselor and as a Bilingual Counselor. The requirements for this certification program meet the certification standards of the Wisconsin Department of Public Instruction.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrat/contact-us) online.

Application
Before applying please see the Educational Psychology Website (https://uwm.edu/education/academics/educational-psychology-department) for department-specific application requirements.

Admission

3. Initial advisor assignment will be made by the area chair of the concentration to which the applicant has applied.

Admission - School Counseling Concentration
Admission to the master’s concentrations in counseling takes place in the fall. The Department of Educational Psychology deadline for receipt of completed applications is February 15.

If you are interested in applying to one of the master’s concentrations in counseling, please see the Educational Psychology Website (https://uwm.edu/education/academics/educational-psychology-department) for more information. A student handbook containing detailed information on each program is available online; it can be accessed by clicking on the specific program of interest in the left-hand navigation bar. For further questions not addressed on the website, contact the Department of Educational Psychology at edpsydept@uwm.edu.

Students who seek admission to the Clinical Mental Health or School Counseling concentrations within the counseling area must apply through the Graduate School (https://graduateschool-apply.uwm.edu) for admission to the Department of Educational Psychology. Please note that Graduate School deadlines are earlier because they receive, evaluate, and send completed graduate school applications to the Department. Upon admission, the student is assigned to a faculty member of the Department of Educational Psychology-Counseling Area who shall serve as the student’s advisor.

The Counseling Area follows the admissions requirements of the Graduate School and the Department of Educational Psychology.

• 48 credits are required for the School Counseling concentration.
• 60 credits are required for the Clinical Mental Health Counseling concentration.

Electives
Select 3 elective credits 1

Total Credits: 48

1 EXCEDUC 600, is required for non-teachers in place of the elective.

In addition to the courses listed above, students must complete a comprehensive examination, a master’s paper, or a thesis (no more than three thesis credits to apply towards the degree).

Program Requirements

Major Professor as Advisor
The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. A student who is not assigned to an advisor at time of admission should immediately contact the Department Chair.

Thesis
Optional. Up to 6 degree credits may be awarded for thesis research.

Comprehensive Examination
The student who writes a thesis must pass a final oral examination in defense of that thesis. The student who does not write a thesis must pass a final oral or written comprehensive examination.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Educational Psychology, MS: School Psychology

The School Psychology concentration incorporates the scientist-practitioner model and provides a concrete link between theory, research, and practice. The program prepares students for employment in school and mental health settings. Students are prepared to provide psychological services to children, adolescents, and families; to conduct research; and to empirically evaluate the efficacy of their psychoeducational interventions and assessment procedures.

The following degree options are available:

• Master of Science Degree in Educational Psychology with a concentration in School Psychology;
• Education Specialist Degree in School Psychology; and,
• Ph.D. in Urban Education: Specialization in School Psychology.

The Ph.D. Program is accredited by the American Psychological Association (APA) and the National Association of School Psychologists (NASP).

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.
Application
Before applying please see the Educational Psychology Website (https://uwm.edu/education/academics/educational-psychology-department) for department-specific application requirements.

Admission
An applicant must meet Graduate School requirements plus these departmental requirements to be considered for admission to the program.

1. An undergraduate GPA of 3.00.
2. At least 18 undergraduate credits in education or related social sciences. Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. No course credits earned in making up deficiencies may be counted as program credits required for the degree.
3. Initial advisor assignment will be made by the area chair of the concentration to which the applicant has applied.

Admission - School Psychology Concentration
The School Psychology concentration incorporates the scientist-practitioner model and provides a concrete link between theory, research, and practice. The program prepares students for employment in school and mental health settings. Students are prepared to provide psychological services to children, adolescents, and families; to conduct research; and to empirically evaluate the efficacy of their psychoeducational interventions and assessment procedures.

The following degree options are available: Master of Science Degree in Educational Psychology with a concentration in School Psychology; Education Specialist Degree in School Psychology; and, a Ph.D. in Urban Education: Specialization in School Psychology. The Ph.D. Program is accredited by the American Psychological Association (APA) and the National Association of School Psychologists (NASP).

Credits and Courses
Students in the Educational Psychology MS - School Psychology concentration pursue either the Education Specialist (Ed.S.) degree or the Ph.D degree. In order to better prepare students for their subsequent degree, there are two curriculum tracks to choose from.

Master's Thesis/Paper
Upon successful completion of 30 graduate credits, the student is eligible to become a candidate for the Master of Science in Educational Psychology. The master's degree is awarded pending successful completion of a master's thesis or paper.
Program Requirements

Major Professor as Advisor
The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. A student who is not assigned to an advisor at time of admission should immediately contact the Department Chair.

Comprehensive Examination
The student who writes a thesis must pass a final oral examination in defense of that thesis. The student who does not write a thesis must pass a final oral or written comprehensive examination.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Educational Psychology, PhD: School Psychology

The goal of the Doctor of Philosophy in Educational Psychology is to prepare psychologists, researchers and educational professionals to effectively work on the unique challenges of promoting education, learning, and mental health in urban environments. The four areas of emphasis in the doctoral program are:

• Counseling Psychology
• Learning and Development
• Educational Statistics and Measurement
• School Psychology

See the Educational Psychology Website (https://uwm.edu/education/academics/educational-psychology-department) for more information on these areas.

The Counseling Psychology and School Psychology specializations at the master's and doctoral level are accredited by the American Psychological Association (APA).

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
To be considered for admission to the program applicants must complete the Graduate School online application, and satisfy all UWM Graduate School admission requirements in addition to the following program requirements:

• Submission of scores on the General Test portion of the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre); test taken within last five years.
• Undergraduate GPA of at least 3.0; graduate GPA of at least 3.5 required.
• A letter outlining the applicant's academic and professional background, declaration of Area of Concentration (Counseling Psychology, Learning and Development, Educational Statistics and Measurement, or School Psychology) as well as specific research interests and goals for the Ph.D. program.

• Three letters of recommendation from individuals familiar with the applicant's intellectual achievement and potential.

A master's degree is not required for admission. However, it is recommended that students seeking admission to the Learning and Development area have a master's degree in educational psychology that includes a thesis or master's paper derived from empirical research before admission. Students with a master's degree and no thesis or master's paper must complete an equivalency paper prior to taking their preliminary exams (see other requirements below).

Credits and Courses

Core Educational Psychology Requirements
All doctoral students are required to complete 36 core credits in the areas of Psychological Foundations, Urban Foundations, and Research Methods. In many cases, students entering with a Master's degree will have completed some of these courses. Courses taken during Master's preparation may be counted in meeting the core requirements. Elective credits are taken in consultation with the major professor.

Psychological Foundations Core: Students must take 12 credits minimum of psychological foundations (social, cognitive, affectionate, or biological basis of behavior); students without Ed Psy 631 and Ed Psy 640 must take these courses as part of their 12-credit minimum.

Urban Foundations: 3 credits minimum.

Research Methods Core: 15 credits

All doctoral students must show documentation that they have acquired research skills needed for dissertation work. To fulfill this requirement students must successfully complete 13 credits of coursework in the area of research methods at the 700 level or above, including ED PSY 724 and six credits at the 800 level or above. Students should consult the specific requirements for their area of specialization for additional requirements, as the requirements for each area of specialization may exceed those specified here.

ED PSY 929  Seminar in Statistics and Research Design
AD LDSP 729  Qualitative Research and Field Studies in Education Settings

Total Credits 30

Core Concentration Requirements
All students must complete core courses in their area of concentration. Minimum credit requirements vary with the area of concentration due to accreditation and certification requirements.

Other Requirements
In addition to the requirements listed below, please refer to the program handbook for each concentration.

Students Entering Without a Master’s
For the Counseling Psychology concentration, students entering without a Master’s degree in Counseling must also complete the following in order to meet accreditation/certification requirements:

<table>

Total Credits 24

1 Required within concentration.

2 Students in the School Psychology concentration must also complete 6 credits in Educational Interventions in order to meet certification requirements.

Program Requirements

Advising and the Major Professor
Upon admission to the doctoral program in Educational Psychology, students are assigned a temporary advisor in their area of emphasis (e.g., Counseling Psychology, Learning and Development, Educational Statistics and Measurement, or School Psychology). This person is available to discuss initial course selection and provide general advice about the program. After beginning the program and before filing a Student Academic Plan, students should seek a Major Professor. The permanent Major Professor may—but does not have to be—the same person who is the temporary advisor. Students must select an advisor in their area of emphasis. Selection of a Major Professor is by mutual consent between the student and the faculty member. Students should notify the Training Director within their emphasis when the Major Professor has been selected.

Residence
The student must meet minimum Graduate School residence requirements (http://uwm.edu/graduateschool/doctoral-requirements/
Contingent upon satisfactory completion of program requirements, passage of the preliminary qualifying examination, and successful oral defense of the dissertation, the Chair of the Department of Educational Psychology will give final approval of the Ph. D. in Educational Psychology.

**Time Limit**
It is expected that most students will complete all degree requirements within six years of initial enrollment in the doctoral program. All requirements MUST be completed within ten years from the date of initial enrollment.

See School Psychology (https://uwm.edu/education/academics/school-psychology) for more information.

### Educational Psychology, PhD: Counseling Psychology

UWM’s PhD specialization in Counseling Psychology follows a scientist-practitioner model that integrates theory, practice and research to give you the scientific knowledge and skills needed to work with multicultural urban populations and in diverse settings.

Our PhD students are expected to conduct research and to advance the science of counseling psychology through scholarly inquiry. Our program, which is accredited by the American Psychological Association*, will prepare you to work as a counseling psychologist in a variety of settings, including universities, hospitals, mental health clinics and private practice.

The goal of the Doctor of Philosophy in Educational Psychology is to prepare psychologists, researchers and educational professionals to effectively work on the unique challenges of promoting education, learning, and mental health in urban environments. The four areas of emphasis in the doctoral program are:

- Counseling Psychology
- Learning and Development
- Educational Statistics and Measurement
- School Psychology

See the Educational Psychology Website (https://uwm.edu/education/academics/educational-psychology-department) for more information on these areas.

The Counseling Psychology and School Psychology specializations at the master’s and doctoral level are accredited by the American Psychological Association (APA).

### Admission Requirements

#### Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

#### Admission

To be considered for admission to the program applicants must complete the Graduate School online application, and satisfy all UWM Graduate School admission requirements in addition to the following program requirements:

- Submission of scores on the General Test portion of the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre), test taken within last five years.
• Undergraduate GPA of at least 3.0; graduate GPA of at least 3.5 required.
• A letter outlining the applicant's academic and professional background, declaration of Area of Concentration (Counseling Psychology, Learning and Development, Educational Statistics and Measurement, or School Psychology) as well as specific research interests and goals for the Ph.D. program.
• Three letters of recommendation from individuals familiar with the applicant’s intellectual achievement and potential.

A master's degree is not required for admission. However, it is recommended that students seeking admission to the Learning and Development area have a master's degree in educational psychology that includes a thesis or master's paper derived from empirical research before admission. Students with a master's degree and no thesis or master's paper must complete an equivalency paper prior to taking their preliminary exams (see other requirements below).

Credits and Courses

Core Doctoral Psychology Requirements

All doctoral students are required to complete 36 core credits in the areas of Psychological Foundations, Urban Foundations, and Research Methods. In many cases, students entering with a Master's degree will have completed some of these courses. Courses taken during Master's preparation may be counted in meeting the core requirements. Elective credits are taken in consultation with the major professor.

Psychological Foundations Core: Students must take 12 credits minimum of psychological foundations (social, cognitive, affective, or biological basis of behavior); students without Ed Psy 631 and Ed Psy 640 must take these courses as part of their 12-credit minimum.

Urban Foundations: 3 credits minimum.

Research Methods Core: 15 credits

All doctoral students must show documentation that they have acquired research skills needed for dissertation work. To fulfill this requirement students must successfully complete 13 credits of coursework in the area of research methods at the 700 level or above, including ED PSY 724 and six credits at the 800 level or above. Students should consult the specific requirements for their area of specialization for additional requirements, as the requirements for each area of specialization may exceed those specified here.

### Program Requirements

#### Advising and the Major Professor

Upon admission to the doctoral program in Educational Psychology, students are assigned a temporary advisor in their area of emphasis (e.g., Counseling Psychology, Learning and Development, Educational Statistics and Measurement, or School Psychology). This person is available to discuss initial course selection and provide general advice about the program. After beginning the program and before filing a Student Academic Plan, students should seek a Major Professor. The permanent Major Professor may—but does not have to be—the same person who is the temporary advisor. Students must select an advisor in their area of emphasis. Selection of a Major Professor is by mutual consent between the student and the faculty member. Students should notify the Training Director within their emphasis when the Major Professor has been selected.

#### Residence

The student must meet minimum Graduate School residence requirements (http://uwm.edu/graduateschool/doctoral-requirements/#residence) of one continuous academic year of full-time graduate studies at UWM. This can be satisfied by completing at least 8 graduate credits in each of two consecutive semesters, or 6 or more graduate credits in each of three consecutive semesters, exclusive of summer sessions. Residence credit cannot be earned at the master’s level.

#### Practicum

Students in the Counseling Psychology and School Psychology concentrations are required to complete practicum requirements to become licensed.

#### Internship

Following Practicum, students in the Counseling Psychology and School Psychology concentrations are required to complete a year-long internship in order to be licensed.

#### Publishable Paper

Students are required to work with faculty to have a “publishable” paper within 30 credits of admission to the doctoral program. This may be their master’s theses and/or master’s papers, where original research is generated or a critical review of research is developed. It may also be a collaborative effort, such as publishing a chapter or article with a faculty advisor or other faculty collaborator.

#### Minor

Counseling Psychology and School Psychology students must complete 9 credits in the Department of Psychology. The minor will be optional for students in Learning & Development and Educational Statistics and Measurement, based on consultation with an advisor.

#### Doctoral Preliminary Examination

The Doctoral Preliminary Examination is taken at the end of a student’s coursework. A description of the Preliminary Examination is provided in the doctoral handbook corresponding to the student’s specialization area within Educational Psychology.

The Preliminary Examination consists of a written component and, in some specializations, an oral component. The purpose of the Preliminary Examination is to determine whether the student demonstrates understanding of coursework and related bodies of knowledge and is qualified to proceed with dissertation planning. A minimum of three faculty members in the specialization area shall participate on a student’s Preliminary Examination.

#### Proposal Hearing

A doctoral student qualifies as a “doctoral candidate” upon completion of the doctoral Student Academic Plan, successful completion of the Doctoral Preliminary Examination for the Ph.D. degree, and successfully passing a dissertation proposal hearing. The hearing is open and the date, time and location must be announced by the Doctoral Coordinator. Each member of the committee must sign the doctoral dissertation proposal hearing form, and indicate approval or disapproval. A simple majority of all committee members is required. No absentee ballots are acceptable.

#### Dissertation Defense

The candidate must write a dissertation that demonstrates the ability to pursue independent research. The candidate must pass an oral exam in defense of the dissertation.

#### Exit Requirements

Contingent upon satisfactory completion of program requirements, passage of the preliminary qualifying examination, and successful oral defense of the dissertation, the Chair of the Department of Educational...
Psychology will give final approval of the Ph. D. in Educational Psychology.

**Time Limit**
It is expected that most students will complete all degree requirements within six years of initial enrollment in the doctoral program. All requirements MUST be completed within ten years from the date of initial enrollment.

**Educational Psychology, PhD:**
**Educational Statistics and Measurement**
Student learning is measured more than ever before, and that means that the education field needs professionals who have expertise in educational statistics and measurement.

You'll find our graduates working in universities, state and federal agencies, test publishing organizations, school systems, state departments of education, marketing research companies and research centers, among other settings.

The goal of the Doctor of Philosophy in Educational Psychology is to prepare psychologists, researchers and educational professionals to effectively work on the unique challenges of promoting education, learning, and mental health in urban environments. The four areas of emphasis in the doctoral program are:

- Counseling Psychology
- Learning and Development
- Educational Statistics and Measurement
- School Psychology

See the Educational Psychology Website (https://uwm.edu/education/academics/educational-psychology-department) for more information on these areas.

The Counseling Psychology and School Psychology specializations at the master's and doctoral level are accredited by the American Psychological Association (APA).

**Admission Requirements**

**Admission**
To be considered for admission to the program applicants must complete the Graduate School online application, and satisfy all UWM Graduate School admission requirements in addition to the following program requirements:

- Submission of scores on the General Test portion of the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre); test taken within last five years.
- Undergraduate GPA of at least 3.0; graduate GPA of at least 3.5 required.
- A letter outlining the applicant's academic and professional background, declaration of Area of Concentration (Counseling Psychology, Learning and Development, Educational Statistics and Measurement, or School Psychology) as well as specific research interests and goals for the Ph.D. program.
- Three letters of recommendation from individuals familiar with the applicant's intellectual achievement and potential.

A master's degree is not required for admission. However, it is recommended that students seeking admission to the Learning and Development area have a master's degree in educational psychology that includes a thesis or master's paper derived from empirical research before admission. Students with a master's degree and no thesis or master's paper must complete an equivalency paper prior to taking their preliminary exams (see other requirements below).

**Credits and Courses**

**Core Educational Psychology Requirements**
All doctoral students are required to complete 36 core credits in the areas of Psychological Foundations, Urban Foundations, and Research Methods. In many cases, students entering with a Master's degree will have completed some of these courses. Courses taken during Master's preparation may be counted in meeting the core requirements. Elective credits are taken in consultation with the major professor.

**Psychological Foundations Core:** Students must take 12 credits minimum of psychological foundations (social, cognitive, affective, or biological basis of behavior); students without Ed Psy 631 and Ed Psy 640 must take these courses as part of their 12-credit minimum.

**Urban Foundations:** 3 credits minimum.

**Research Methods Core:** 15 credits

All doctoral students must show documentation that they have acquired research skills needed for dissertation work. To fulfill this requirement students must successfully complete 13 credits of coursework in the area of research methods at the 700 level or above, including ED PSY 724 and six credits at the 800 level or above. Students should consult the specific requirements for their area of specialization for additional requirements, as the requirements for each area of specialization may exceed those specified here.

### Program Requirements

#### Advising and the Major Professor

Upon admission to the doctoral program in Educational Psychology, students are assigned a temporary advisor in their area of emphasis (e.g., Counseling Psychology, Learning and Development, Educational Statistics and Measurement, or School Psychology). This person is available to discuss initial course selection and provide general advice about the program. After beginning the program and before filing a Student Academic Plan, students should seek a Major Professor. The permanent Major Professor may—but does not have to be—the same person who is the temporary advisor. Students must select an advisor in their area of emphasis. Selection of a Major Professor is by mutual consent between the student and the faculty member. Students should notify the Training Director within their emphasis when the Major Professor has been selected.

#### Residence

The student must meet minimum Graduate School residence requirements (http://uwm.edu/graduateschool/doctoral-requirements/#residence) of one continuous academic year of full-time graduate
studies at UWM. This can be satisfied by completing at least 8 graduate credits in each of two consecutive semesters, or 6 or more graduate credits in each of three consecutive semesters, exclusive of summer sessions. Residence credit cannot be earned at the master’s level.

**Practicum**
Students in the Counseling Psychology and School Psychology concentrations are required to complete practicum requirements to become licensed.

**Internship**
Following Practicum, students in the Counseling Psychology and School Psychology concentrations are required to complete a year-long internship in order to be licensed.

**Publishable Paper**
Students are required to work with faculty to have a “publishable” paper within 30 credits of admission to the doctoral program. This may be their master’s theses and/or master’s papers, where original research is generated or a critical review of research is developed. It may also be a collaborative effort, such as publishing a chapter or article with a faculty advisor or other faculty collaborator.

**Minor**
Counseling Psychology and School Psychology students must complete 9 credits in the Department of Psychology. The minor will be optional for students in Learning & Development and Educational Statistics and Measurement, based on consultation with an advisor.

**Doctoral Preliminary Examination**
The Doctoral Preliminary Examination is taken at the end of a student’s coursework. A description of the Preliminary Examination is provided in the doctoral handbook corresponding to the student’s specialization area within Educational Psychology.

The Preliminary Examination consists of a written component and, in some specializations, an oral component. The purpose of the Preliminary Examination is to determine whether the student demonstrates understanding of coursework and related bodies of knowledge and is qualified to proceed with dissertation planning. A minimum of three faculty members in the specialization area shall participate on a student’s Preliminary Examination.

**Proposal Hearing**
A doctoral student qualifies as a “doctoral candidate” upon completion of the doctoral Student Academic Plan, successful completion of the Doctoral Preliminary Examination for the Ph.D. degree, and successfully passing a dissertation proposal hearing. The hearing is open and the date, time and location must be announced by the Doctoral Coordinator. Each member of the committee must sign the doctoral dissertation proposal hearing form, and indicate approval or disapproval. A simple majority of all committee members is required. No absentee ballots are acceptable.

**Dissertation Defense**
The candidate must write a dissertation that demonstrates the ability to pursue independent research. The candidate must pass an oral exam in defense of the dissertation.

**Exit Requirements**
Contingent upon satisfactory completion of program requirements, passage of the preliminary qualifying examination, and successful oral defense of the dissertation, the Chair of the Department of Educational Psychology will give final approval of the Ph. D. in Educational Psychology.

**Time Limit**
It is expected that most students will complete all degree requirements within six years of initial enrollment in the doctoral program. All requirements MUST be completed within ten years from the date of initial enrollment.

**Educational Psychology, PhD: Learning and Development**
This graduate-level program emphasizes the perspective of the learner and trains students to conduct cutting-edge research applied to a broad range of learning contexts — from schools to museums to home — throughout the human lifespan. Students in the L&D program can pursue a master’s or doctoral degree in Educational Psychology while working closely with one of our faculty members (http://uwm.edu/education/academics/learning-development/#a1).

Graduates of the MS program go on to pursue a PhD (often in Educational Psychology or a related field) or find jobs in education and/or research settings in the private or public sectors. Many graduates of our PhD program pursue careers at research institutes and universities.

The goal of the Doctor of Philosophy in Educational Psychology is to prepare psychologists, researchers and educational professionals to effectively work on the unique challenges of promoting education, learning, and mental health in urban environments. The four areas of emphasis in the doctoral program are:

- Counseling Psychology
- Learning and Development
- Educational Statistics and Measurement
- School Psychology

See the Educational Psychology Website (https://uwm.edu/education/academics/educational-psychology-department) for more information on these areas.

The Counseling Psychology and School Psychology specializations at the master’s and doctoral level are accredited by the American Psychological Association (APA).

**Admission Requirements**

**Application Deadlines**
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**
To be considered for admission to the program applicants must complete the Graduate School online application, and satisfy all UWM Graduate School admission requirements in addition to the following program requirements:

- Submission of scores on the General Test portion of the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre); test taken within last five years.
- Undergraduate GPA of at least 3.0; graduate GPA of at least 3.5 required.
A letter outlining the applicant's academic and professional background, declaration of Area of Concentration (Counseling Psychology, Learning and Development, Educational Statistics and Measurement, or School Psychology) as well as specific research interests and goals for the Ph.D. program.

Three letters of recommendation from individuals familiar with the applicant's intellectual achievement and potential.

A master's degree is not required for admission. However, it is recommended that students seeking admission to the Learning and Development area have a master's degree in educational psychology that includes a thesis or master's paper derived from empirical research before admission. Students with a master's degree and no thesis or master's paper must complete an equivalency paper prior to taking their preliminary exams (see other requirements below).

Credits and Courses

Core Educational Psychology Requirements
All doctoral students are required to complete 36 core credits in the areas of Psychological Foundations, Urban Foundations, and Research Methods. In many cases, students entering with a Master's degree will have completed some of these courses. Courses taken during Master's preparation may be counted in meeting the core requirements. Elective credits are taken in consultation with the major professor.

Psychological Foundations Core: Students must take 12 credits minimum of psychological foundations (social, cognitive, affective, or biological basis of behavior); students without Ed Psy 631 and Ed Psy 640 must take these courses as part of their 12-credit minimum.

Urban Foundations: 3 credits minimum.

Research Methods Core: 15 credits
All doctoral students must show documentation that they have acquired research skills needed for dissertation work. To fulfill this requirement students must successfully complete 13 credits of coursework in the area of research methods at the 700 level or above, including ED PSY 724 and six credits at the 800 level or above. Students should consult the specific requirements for their area of specialization for additional requirements, as the requirements for each area of specialization may exceed those specified here.

Total Credits 30

Core Concentration Requirements
All students must complete core courses in their area of concentration. Minimum credit requirements vary with the area of concentration due to accreditation and certification requirements.

Other Requirements
In addition to the requirements listed below, please refer to the program handbook for each concentration.

Students Entering Without a Master’s
For the Counseling Psychology concentration, students entering without a Master’s degree in Counseling must also complete the following in order to meet accreditation/certification requirements:
Advising and the Major Professor

Upon admission to the doctoral program in Educational Psychology, students are assigned a temporary advisor in their area of emphasis (e.g., Counseling Psychology, Learning and Development, Educational Statistics and Measurement, or School Psychology). This person is available to discuss initial course selection and provide general advice about the program. After beginning the program and before filing a Student Academic Plan, students should seek a Major Professor. The permanent Major Professor may—but does not have to be—the same person who is the temporary advisor. Students must select an advisor in their area of emphasis. Selection of a Major Professor is by mutual consent between the student and the faculty member. Students should notify the Training Director within their emphasis when the Major Professor has been selected.

Residence

The student must meet minimum Graduate School residence requirements (http://uwm.edu/graduateschool/doctoral-requirements/#residence) of one continuous academic year of full-time graduate studies at UWM. This can be satisfied by completing at least 8 graduate credits in each of two consecutive semesters, or 6 or more graduate credits in each of three consecutive semesters, exclusive of summer sessions. Residence credit cannot be earned at the master’s level.

Practicum

Students in the Counseling Psychology and School Psychology concentrations are required to complete practicum requirements to become licensed.

Internship

Following Practicum, students in the Counseling Psychology and School Psychology concentrations are required to complete a year-long internship in order to be licensed.

Publishable Paper

Students are required to work with faculty to have a “publishable” paper within 30 credits of admission to the doctoral program. This may be their master’s theses and/or master’s papers, where original research is generated or a critical review of research is developed. It may also be a collaborative effort, such as publishing a chapter or article with a faculty advisor or other faculty collaborator.

Minor

Counseling Psychology and School Psychology students must complete 9 credits in the Department of Psychology. The minor will be optional for students in Learning & Development and Educational Statistics and Measurement, based on consultation with an advisor.

Doctoral Preliminary Examination

The Doctoral Preliminary Examination is taken at the end of a student’s coursework. A description of the Preliminary Examination is provided in the doctoral handbook corresponding to the student’s specialization area within Educational Psychology.

The Preliminary Examination consists of a written component and, in some specializations, an oral component. The purpose of the Preliminary Examination is to determine whether the student demonstrates understanding of coursework and related bodies of knowledge and is qualified to proceed with dissertation planning. A minimum of three faculty members in the specialization area shall participate on a student’s Preliminary Examination.

Proposal Hearing

A doctoral student qualifies as a “doctoral candidate” upon completion of the doctoral Student Academic Plan, successful completion of the Doctoral Preliminary Examination for the Ph.D. degree, and successfully passing a dissertation proposal hearing. The hearing is open and the date, time and location must be announced by the Doctoral Coordinator. Each member of the committee must sign the doctoral dissertation
Dissertation Defense
The candidate must write a dissertation that demonstrates the ability to pursue independent research. The candidate must pass an oral exam in defense of the dissertation.

Exit Requirements
Contingent upon satisfactory completion of program requirements, passage of the preliminary qualifying examination, and successful oral defense of the dissertation, the Chair of the Department of Educational Psychology will give final approval of the Ph. D. in Educational Psychology.

Time Limit
It is expected that most students will complete all degree requirements within six years of initial enrollment in the doctoral program. All requirements MUST be completed within ten years from the date of initial enrollment.

See Learning and Development (https://uwm.edu/education/academics/learning-development) for more information

Educational Psychology, MS
The Department of Educational Psychology resides in the School of Education at the University of Wisconsin-Milwaukee and prepares graduate students for a variety of clinical, research, and teaching professions at the master’s or doctoral level.

The Master of Science in Educational Psychology is designed to serve those who want to increase their understanding of human behavior from conception through adulthood, research and evaluation of learning, and teaching in informal and formal educational settings. The program permits concentrations in School Counseling, Community Counseling, School Psychology, Human Development and Learning, and Educational Statistics and Measurement. The Department also offers certification sequences to qualify students as school psychologists and school counselors.

The Counseling Psychology and School Psychology specializations at the master’s and doctoral level are accredited by the American Psychological Association (APA).

Admission Requirements
Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Application
Before applying please see the Educational Psychology Website (https://uwm.edu/education/academics/educational-psychology-department) for department-specific application requirements.

Admission
An applicant must meet Graduate School requirements plus these departmental requirements to be considered for admission to the program

1. An undergraduate GPA of 3.00.
2. At least 18 undergraduate credits in education or related social sciences. Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. No course credits earned in making up deficiencies may be counted as program credits required for the degree.
3. Initial advisor assignment will be made by the area chair of the concentration to which the applicant has applied.

Applications will choose from the following concentrations to determine which application to complete:

• Clinical Mental Health Counseling
• Learning & Development
• Research & Evaluation
• School Counseling
• School Psychology

Credits and Courses
Each concentration has unique requirements; the student should consult the descriptions of each concentration to determine specific requirements. Descriptions are available from the Department.

Students seeking an emphasis in counseling are required to complete 48 credits.

Program Requirements
Major Professor as Advisor
The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. A student who is not assigned to an advisor at time of admission should immediately contact the Department Chair.

Thesis
Optional. Up to 6 degree credits may be awarded for thesis research.

Comprehensive Examination
The student who writes a thesis must pass a final oral examination in defense of that thesis. The student who does not write a thesis must pass a final oral or written comprehensive examination.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Educational Psychology, PhD
The goal of the Doctor of Philosophy in Educational Psychology is to prepare psychologists, researchers and educational professionals to effectively work on the unique challenges of promoting education, learning, and mental health in urban environments. The four areas of emphasis in the doctoral program are:

• Counseling Psychology
• Learning and Development
• Educational Statistics and Measurement
• School Psychology
See the Educational Psychology Website (https://uwm.edu/education/academics/educational-psychology-department) for more information on these areas.

The Counseling Psychology and School Psychology specializations at the master’s and doctoral level are accredited by the American Psychological Association (APA).

### Admission Requirements

#### Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

#### Admission

To be considered for admission to the program applicants must complete the Graduate School online application, and satisfy all UWM Graduate School admission requirements in addition to the following program requirements:

- Submission of scores on the General Test portion of the Graduate Record Examination (http://uwm.edu/graduateschool/admission/gre); test taken within last five years.
- Undergraduate GPA of at least 3.0; graduate GPA of at least 3.5 required.
- A letter outlining the applicant’s academic and professional background, declaration of Area of Concentration (Counseling Psychology, Learning and Development, Educational Statistics and Measurement, or School Psychology) as well as specific research interests and goals for the Ph.D. program.
- Three letters of recommendation from individuals familiar with the applicant’s intellectual achievement and potential.

A master’s degree is not required for admission. However, it is recommended that students seeking admission to the Learning and Development area have a master’s degree in educational psychology that includes a thesis or master’s paper derived from empirical research before admission. Students with a master’s degree and no thesis or master’s paper must complete an equivalency paper prior to taking their preliminary exams (see other requirements below).

### Credits and Courses

#### Core Educational Psychology Requirements

All doctoral students are required to complete 36 core credits in the areas of Psychological Foundations, Urban Foundations, and Research Methods. In many cases, students entering with a Master’s degree will have completed some of these courses. Elective credits are taken in consultation with the major professor.

**Psychological Foundations Core:** Students must take 12 credits minimum of psychological foundations (social, cognitive, affective, or biological basis of behavior); students without Ed Psy 631 and Ed Psy 640 must take these courses as part of their 12-credit minimum.

**Urban Foundations:** 3 credits minimum.

**Research Methods Core:** 15 credits

All doctoral students must show documentation that they have acquired research skills needed for dissertation work. To fulfill this requirement students must successfully complete 13 credits of coursework in the area of research methods at the 700 level or above, including ED PSY 724 and six credits at the 800 level or above. Students should consult the specific requirements for their area of specialization for additional requirements, as the requirements for each area of specialization may exceed those specified here.

Selection of a Major Professor is by mutual consent between the student and the faculty member. Students should notify the Training Director within their emphasis when the Major Professor has been selected.

Residence
The student must meet minimum Graduate School residence requirements (http://uwm.edu/graduateschool/doctoral-requirements/#residence) of one continuous academic year of full-time graduate studies at UWM. This can be satisfied by completing at least 8 graduate credits in each of two consecutive semesters, or 6 or more graduate credits in each of three consecutive semesters, exclusive of summer sessions. Residence credit cannot be earned at the master’s level.

Practicum
Students in the Counseling Psychology and School Psychology concentrations are required to complete practicum requirements to become licensed.

Internship
Following Practicum, students in the Counseling Psychology and School Psychology concentrations are required to complete a year-long internship in order to be licensed.

Publishable Paper
Students are required to work with faculty to have a “publishable” paper within 30 credits of admission to the doctoral program. This may be their master’s theses and/or master’s papers, where original research is generated or a critical review of research is developed. It may also be a collaborative effort, such as publishing a chapter or article with a faculty advisor or other faculty collaborator.

Minor
Counseling Psychology and School Psychology students must complete 9 credits in the Department of Psychology. The minor will be optional for students in Learning & Development and Educational Statistics and Measurement, based on consultation with an advisor.

Program Requirements
Advising and the Major Professor
Upon admission to the doctoral program in Educational Psychology, students are assigned a temporary advisor in their area of emphasis (e.g., Counseling Psychology, Learning and Development, Educational Statistics and Measurement, or School Psychology). This person is available to discuss initial course selection and provide general advice about the program. After beginning the program and before filing a Student Academic Plan, students should seek a Major Professor. The permanent Major Professor may—but does not have to be—the same person who is the temporary advisor. Students must select an advisor in their area of emphasis. Selection of a Major Professor is by mutual
**Dissertation Defense**
The candidate must write a dissertation that demonstrates the ability to pursue independent research. The candidate must pass an oral exam in defense of the dissertation.

**Exit Requirements**
Contingent upon satisfactory completion of program requirements, passage of the preliminary qualifying examination, and successful oral defense of the dissertation, the Chair of the Department of Educational Psychology will give final approval of the Ph. D. in Educational Psychology.

**Time Limit**
It is expected that most students will complete all degree requirements within six years of initial enrollment in the doctoral program. All requirements MUST be completed within ten years from the date of initial enrollment.

**Multicultural Knowledge of Mental Health Practices, Graduate Certificate**

As of Spring 2017, the Multicultural Knowledge of Mental Health Practices certificate has suspended admission. This means that unless you have been accepted into this certificate program prior to Spring 2017, you will not be able to earn the certificate. The following information is provided solely for the benefit of students accepted into the Multicultural Knowledge of Mental Health Practices certificate prior to Spring 2017.

**Admission Requirements**

**Application Deadlines**
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**
A graduate GPA of at least 3.0 or concurrent enrollment in a graduate degree program with a GPA of at least 3.0 is required for admission.

**Application**
- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Total Credits 15

**Certificate Requirements**

**Exit Requirements**
To earn the certificate, students must complete all certificate courses with a grade of B or better. No Incomplete (I) grades will be given.

**Transfer Credit**
No credits may be taken at an institution other than UWM.

**Grade Point Average Requirement**
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

**Articulation with Degree Programs**
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   - Degree programs must approve the courses from certificates that can double count toward the degree.
   - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.

3. A course may count toward no more than one certificate and one degree.

4. Students may not earn a certificate subsequent to a concentration in the same area.

**Time Limit**
Certificate program time limits shall be established as follows:
- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.
For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

School Counseling, Graduate Certificate

The School Counseling Certificate program is provided for students who already possess a master's degree and need to meet the course requirements for certification as a K-12 School Counselor, as listed below. Courses can be waived if equivalent courses have already been completed, as determined by consultation with an advisor. The requirements for this certification program meet the certification standards of the Wisconsin Department of Public Instruction. For more information on the School Counseling: Initial Educator: K-12, five-year license, please see the Wisconsin Department of Public Instruction Website (http://www.dpi.state.wi.us).

In order to be eligible to receive an initial educator license as a school counselor, students will need to:

1. Complete the coursework and practica listed below
2. Complete a portfolio assessment
3. Pass the national Praxis II licensing examination

Other states have different licensing standards and if you are interested in being eligible for a different state you are strongly encouraged to contact that state's Department of Public Instruction to ascertain whether additional requirements are necessary.

Admission Requirements

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

In order to successfully complete the certification sequence, a student must be accepted into the School Counseling Post-Master's Certificate Program. To be considered, applicants must have a graduate GPA of 3.0 or better, and must complete the Panthera Admission Application (https://graduateschool-apply.uwm.edu).

Application

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Credits and Courses

Students will need to complete the following sequence of courses from the Counseling Core and the School Core, or have equivalent previous coursework, as determined in consultation with an advisor.

Total Credits: 36

Certificate Requirements

Transfer Credit

No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   - Degree programs must approve the courses from certificates that can double count toward the degree.
   - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

**Time Limit**
Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

**School Psychology, EdS**

Upon completion of the master's degree in Educational Psychology (i.e., 30 graduate credits and successful completion of the master's exam, paper or thesis), the student will be considered for the Education Specialist Degree program in School Psychology. The student must file an application for the EdS with the Graduate School. Admission to the EdS program is dependent upon recommendation of the student’s advisor and final approval of the school psychology faculty. Decisions will be made on the basis of successful completion of master’s degree requirements, a minimum of at least one “satisfactory” annual review, and adequate demonstration of knowledge through review of the student’s progressive portfolio (see the School Psychology Student Handbook for these evaluations).

Students who are not recommended for admission into the Education Specialist Degree program are not eligible for school psychology certification through UWM.

The Department of Educational Psychology resides in the School of Education at the University of Wisconsin-Milwaukee and prepares graduate students for a variety of clinical, research, and teaching professions at the master’s or doctoral level.

The Master of Science in Educational Psychology is designed to serve those who want to increase their understanding of human behavior from conception through adulthood, research and evaluation of learning, and teaching in informal and formal educational settings. The program permits concentrations in School Counseling, Community Counseling, School Psychology, Human Development and Learning, and Educational Statistics and Measurement. The Department also offers certification sequences to qualify students as school psychologists and school counselors.

The Counseling Psychology and School Psychology specializations at the master’s and doctoral level are accredited by the American Psychological Association (APA).

**Admission Requirements**

**Application Deadlines**
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

- EXCEDUC 715 Issues and Trends in Exceptional Education

**Program Requirements**

**Education Specialist Final Project**

Upon completion of all course work, including practicum, students will demonstrate their professional knowledge by completing a Education Specialist Final Project. The Final Project will demonstrate the student’s knowledge and proficiency in a clinical area such as innovative assessment practices, consultation, psychosocial therapy, or behavioral/academic intervention planning. Students will demonstrate their knowledge and proficiency by successfully completing one of the following projects:

- Produce a videotape showing a consultation session with a consultee
- Produce a videotape of a therapy session with a child or adolescent
- Develop a treatment manual for reducing psychosocial, behavioral or academic problems in children or adolescents
- Develop a parenting program for families with difficult or at-risk children
- Develop materials for an in-service program for teachers or parents (i.e., power point presentation, overheads, or manual)
- Develop a school-wide prevention program for at-risk students
• Develop an innovative assessment program for reducing academic, behavioral and/or psychosocial problems

The Education Specialist Final Projects are due at the end of the internship. Projects will be judged to be acceptable by the school psychology faculty in charge of the internship and the student’s advisor. Recommendations for satisfactory completion of all of the Education Specialist degree requirements will be made by the student’s advisor, and will be forwarded to the department chair.

Certification as a School Psychologist
Students completing the M.S. concentration and the Ed.S. in School Psychology are eligible for certification as a School Psychologist in the State of Wisconsin. School Psychologists are eligible and encouraged to obtain National Certification as a School Psychologist (NCSP) by taking the national certification examination.

Trauma Informed Care, Graduate Certificate (School of Education, Department of Educational Psychology)

The Certificate in Trauma-Informed Care will expose graduate students in several helping professions to the theory and practice of trauma-related service delivery. This is a multidisciplinary program that integrates knowledge from the social, behavioral, and health sciences. The primary goal of the program is to train graduate students from the helping professions in specialized knowledge and skills related to psychological trauma.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/Registrar/contact-us) online.

Application
• Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
• All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
• Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
• Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Admission
Students in good standing currently in a graduate program or those who have already completed a graduate degree are eligible for the certificate.

Credits and Courses

All students participating in the certificate program will complete 15 academic credits related to trauma theory and practice.

### Certificate Requirements

**Transfer Credit**

No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

**Grade Point Average Requirement**

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

**Articulation with Degree Programs**

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   - Degree programs must approve the courses from certificates that can double count toward the degree.
   - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.

3. A course may count toward no more than one certificate and one degree.

4. Students may not earn a certificate subsequent to a concentration in the same area.

**Time Limit**

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

TEACHING AND LEARNING

The Department of Teaching and Learning is comprised of scholars, educators, practitioners, and staff committed to the development of teachers and the support of learners through scholarship, teaching, service, and collaborative engagement. Our teacher preparation, professional development, interpreter training, and American Sign Language programs embodies a commitment to social justice, equity, and advocacy that inspires and informs how we educate students to be effective, evidence-based practitioners, scholars, and leaders to serve diverse communities situated locally, regionally, and globally.

At the undergraduate level, the department offers teacher education programs for Early Childhood (grades PK-3), Middle Childhood Through Early Adolescence (grades 1-8), Early Adolescence Through Adolescence (grades 6-12), and Early Childhood Through Adolescence Level (PK-12), in regular and special education. The department offers interpreter training (grades 6-12), and Early Childhood Through Adolescence Level (PK-12), in Early Adolescence (grades 1-8), Early Adolescence Through Adolescence (grades 6-12), and American Sign Language programs at the undergraduate level. At the graduate level, the department offers Masters degrees in Curriculum and Instruction (with multiple specializations) and Exceptional Education, certificates in a wide variety of specialty areas, and participates in the School-wide Urban Education Doctoral Program.

Curriculum and Instruction Courses

CURREN 110 Reading Proficiency for College Students I
1 cr. Undergraduate.
Presentation of techniques for the acquisition of basic reading skills. Emphasis on vocabulary building, text organizational structures, and comprehension.
Prerequisites: completion of Nelson-Denny reading test.
Last Taught: Fall 2014, Spring 2014, Fall 2013, Fall 2012.
Current Offerings: [Link]

CURREN 111 Introduction to College Reading
2 cr. Undergraduate.
Understanding and application of college level reading skills.
Prerequisites: none.
Course Rules: Counts as repeat of Currens 279 with same topic.
Last Taught: Fall 2017, Spring 2017, Fall 2016, Summer 2016.
Current Offerings: [Link]

CURREN 112 College Reading:
1 cr. Undergraduate.
Read and respond to text and essays by summarizing information, examining perspective, comparing and contrasting ideas and evaluating arguments.
Prerequisites: none.
Course Rules: May be retaken to max of 3 cr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: [Link]
CURRENS 140 Field Experience with Families & Communities
1 cr. Undergraduate.
Field experience in local agencies providing services to families.
Prerequisites: Currens 312(C) or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRENS 233 Introduction to Children's and Young Adult Literature
3 cr. Undergraduate.
Introductory survey will focus on the literary merit and cultural contexts
of works written for children and young adults.
Prerequisites: none.
General Education Requirements: HU
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRENS 234 Teachers as Writers
3 cr. Undergraduate.
Focus on various rhetorical modes of writing, stylistic strategies, and
grammatical constructions from a teaching perspective.
Prerequisites: OWC Part A.
General Education Requirements: OWCB, HU
Current Offerings: http://uwm.edu/schedule

CURRENS 240 Field Experience with Dual Language Learners
2 cr. Undergraduate.
Field experience with dual language learners in various settings.
Prerequisites: Currens 140(P) & 501(C), or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRENS 250 1st-Year Student Seminar: Early Childhood Education
1 cr. Undergraduate.
Introductory seminar for first-year and transfer Early Childhood Education
intended students.
Prerequisites: none.
Course Rules: Counts as repeat of CurrIns 279 with same topic.
Last Taught: Spring 2013, Fall 2012, Spring 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

CURRENS 279 Current Topics in Curriculum and Instruction:
1-3 cr. Undergraduate.
Special topics for undergraduates will be offered from time to time. See
Schedule of Classes.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

CURRENS 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course
work level, content, and credits are determined and/or in specially
prepared program course work.
Prerequisites: cons instr; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Spring 2017.
Current Offerings: http://uwm.edu/schedule

CURRENS 300 Introduction to Teaching: Colloquium and Fieldwork
3 cr. Undergraduate.
Introduction to the teaching profession and teaching in urban schools.
Provides an overview of educational, multicultural, social, economic, and
political issues that influence urban schools.
Prerequisites: soph st.
Course Rules: Counts as repeat of CurrIns 100.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRENS 301 Infants and Toddlers: Curriculum and Teaching
3 cr. Undergraduate.
Approaches to infant/toddler care and education; instructional material
and techniques to foster infant/toddler development; strategies for
administering and managing learning environments.
Prerequisites: soph st & admis to School of Educ; or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRENS 302 Curriculum Design in Early Childhood
3 cr. Undergraduate.
Curriculum design and unit development in pre-primary and early primary
classrooms.
Prerequisites: jr st & admis to School of Educ; or cons instr.
Current Offerings: http://uwm.edu/schedule

CURRENS 306 MCEA Clinical Experience, Grades 1-3
1 cr. Undergraduate.
Clinical experience with children in grades 1-3. Focus on literacy tutoring
with individual students and in small groups.
Prerequisites: jr st, admis to SOE, Currens 536(C), & 556(C); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRENS 307 MCEA Clinical Experience, Grades 4-8
2 cr. Undergraduate.
Clinical experience focusing on instructional practices in grades 4-8.
Prerequisites: jr st, admis to SOE, Currens 306(P), & 557(C); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRENS 310 Curriculum for the Pre and Early Adolescent
1-4 cr. Undergraduate.
The determination of curriculum and instructional approaches
appropriate for the pre and early adolescent age group.
Prerequisites: admis to School of Educ.
Current Offerings: http://uwm.edu/schedule

CURRENS 312 Models and Issues for Early Childhood Education
3 cr. Undergraduate.
Overview of content, methods, and issues pertaining to the organization
of early childhood programs for developmentally-diverse, monolingual
and bilingual learners.
Prerequisites: Currens 140(C).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
CURRINS 313 Teaching Economics in the Social Studies Curriculum
2 cr. Undergraduate.
Approaches to teaching economics in the social studies curriculum.
Latest research and teaching practices. A study of cooperative enterprises to meet Wisconsin's statutory requirement.
Prerequisites: Econ 103(P) or Econ 104(P).
Current Offerings: http://uwm.edu/schedule

CURRINS 314 Field Work I in Early Childhood Education - PreK/K
1 cr. Undergraduate.
Field experience with children in prekindergarten or kindergarten.
Planning and implementation of learning opportunities in the classroom.
Prerequisites: jr st, CurrIns 302(C)
Last Taught: Spring 2015, Fall 2014, Spring 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

CURRINS 316 Field Work in Secondary Reading in Content Areas, Grade 6-12:
3 cr. Undergraduate.
Field-based application of subject matter methods and instructional strategies in vocabulary development and comprehension, and assessment of student understanding of subject matter texts.
Prerequisites: jr st; admis to School of Educ; CurrIns 545 or equiv; & conc reg in subject matter methods course.
Course Rules: Cr/no cr only.
Last Taught: Fall 2013, Fall 2012, Fall 2011, Spring 2011.
Current Offerings: http://uwm.edu/schedule

CURRINS 320 Introduction to Critical Media Literacy
1 cr. Undergraduate.
Introduction to media literacy and applications of instructional technology to support student learning.
Prerequisites: admis to SOE or cons instr.
Current Offerings: http://uwm.edu/schedule

CURRINS 321 Introduction to the Teaching of Social Studies
1 cr. Undergraduate.
Methods and content introducing the teaching of social studies in secondary schools.
Prerequisites: jr st, admis to School of Educ.
Current Offerings: http://uwm.edu/schedule

CURRINS 323 Teaching of Social Studies:
1-4 cr. Undergraduate.
An examination of the purposes of social studies education in the schools with work in content selection, educational process and the nature of inquiry.
Prerequisites: jr st, admis to School of Educ.
Current Offerings: http://uwm.edu/schedule

CURRINS 325 Instructional Strategies for Using the Computer
1 cr. Undergraduate.
An examination of the instructional uses of computers. Focus on instructional strategies, software evaluation, and management of student learning.
Prerequisites: jr st; admis to School of Educ.
Last Taught: Spring 2013, Fall 2012, Spring 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

CURRINS 326 Environmental Education for Teachers
1 cr. Undergraduate.
Study of environmental issues and problems affecting local, state, and national resources. Fulfills WI DPI certification required for teachers.
Prerequisites: jr st, admis to School of Educ.
Current Offerings: http://uwm.edu/schedule

CURRINS 327 Teaching of Science in the Elementary School
1-4 cr. Undergraduate.
The objectives, materials, and techniques of teaching elementary science.
Prerequisites: jr st; admis to School of Educ; CurrIns 306(P).
Course Rules: May not be retaken for degree cr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 328 Introduction to Teaching Science in Middle and High School
3 cr. Undergraduate.
Exploration of science teaching through developing some foundational teaching strategies and working with students in middle and high schools.
Prerequisites: none.
Last Taught: Fall 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

CURRINS 330 Teaching of Mathematics: Early Childhood
3 cr. Undergraduate.
Methods and curriculum for facilitating the learning of mathematics with children ages 3-8. Emphasis on number concepts, problem solving, and intuitive geometry.
Prerequisites: jr st, admis to School of Educ, Math 176 with grade of C or better, & CurrIns 302(P); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 331 Teaching of Mathematics, Elementary School
3 cr. Undergraduate.
Methods and curriculum for teaching mathematics in grades 1-6. Emphasis on whole numbers, computing devices, fractions/decimals, geometry, measurement, statistics, and problem-solving.
Prerequisites: jr st; admis to SOE; CurrIns 306(C) & Math 176(P) with grade C or better; or cons instr
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 332 Teaching of Mathematics: Middle School
2-3 cr. Undergraduate.
Methods and curriculum for the teaching of mathematics in the middle school. Emphasis on advanced arithmetic topics, number theory, probability and statistics, geometry, measurement, and applications.
Prerequisites: jr st; admis to School of Educ; CurrIns 331(P).
Current Offerings: http://uwm.edu/schedule
CURRINS 333 Introduction to Teaching, Grades 1-8
3 cr. Undergraduate.
Introduction to the teaching profession in grades 1-8 in urban setting.
Overview of educational, multicultural, social and economic, and political issues that influence urban schools.
Prerequisites: Ed Psy 330(C) or cons instr.
Last Taught: Spring 2017, Spring 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

CURRINS 334 Teaching of Modern Foreign Languages
1-4 cr. Undergraduate.
The study of modern foreign language; application of teaching methods to the teaching of modern foreign languages.
Prerequisites: jr st; admis to School of Educ.
Last Taught: Fall 2006, Fall 2005, Fall 2004, Fall 2003.
Current Offerings: http://uwm.edu/schedule

CURRINS 335 Instructional Computing I for Teachers
1 cr. Undergraduate.
Introduction to instructional computing for teachers with emphasis on primary grades.
Prerequisites: admis to Collaborative Teacher Ed Prog for Urban Communities.
Current Offerings: http://uwm.edu/schedule

CURRINS 336 Instructional Computing II for Teachers
1 cr. Undergraduate.
Instructional computing for teachers with emphasis on intermediate grades.
Prerequisites: admis to MCEA prog.
Last Taught: Spring 2014, Fall 2013, Spring 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

CURRINS 337 Instructional Computing III for Teachers
1 cr. Undergraduate.
Instructional computing with emphasis on electronic portfolio development.
Prerequisites: admis to MCEA (Middle Childhood through Early Adolescence) program & Currlns 336(P).
Last Taught: Fall 2014, Spring 2014, Fall 2013, Spring 2013.
Current Offerings: http://uwm.edu/schedule

CURRINS 338 Teaching of Science in Early Childhood
3 cr. Undergraduate.
Objectives, materials, and teaching methods for science in Early Childhood.
Prerequisites: jr st, admis to School of Educ, Currlns 540(C), & 302(P); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 340 Field Experience in Preschool and Kindergarten Classrooms
2 cr. Undergraduate.
Field experience with children in prekindergarten/kindergarten. Focus on early literacy lesson planning.
Prerequisites: Currlns 240(P), 502(C) & admis to School of Educ; or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 343 Teaching of Reading
1-4 cr. Undergraduate.
An introductory course in the teaching of reading. Involves fieldwork. Designed for students without teaching experience.
Prerequisites: admis to School of Educ or cons instr.
Last Taught: Fall 2012, Spring 2012, Fall 2011, Spring 2011.
Current Offerings: http://uwm.edu/schedule

CURRINS 375 Using Technology for Teaching and Learning
1 cr. Undergraduate.
Introduce students to various forms of technology used in the PK-12 classrooms.
Prerequisites: none.
Course Rules: Jointly offered with and counts as repeat of ExcEduc 375.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

CURRINS 376 Understanding and Developing the edTPA
1 cr. Undergraduate.
In-depth overview of all components of the edTPA; practice of skills including video recording, uploading and compressing video, writing summaries.
Prerequisites: none.
Course Rules: Jointly offered with and counts as repeat of ExcEduc 376.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 377 Wisconsin Foundations of Reading
1 cr. Undergraduate.
Foundational literacy assessment and instruction for diverse learners to prepare for the Wisconsin Foundations of Reading test. Focus on reading development grades PreK-8.
Prerequisites: none.
Course Rules: Jointly offered with and counts as repeat of ExcEduc 377. Credit/No Credit only.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 378 Implementing the edTPA in a Clinical Setting
1-4 cr. Undergraduate.
In-depth overview of all components of the edTPA. Opportunities to engage in learning activities and assignments that will increase understandings of the edTPA requirements.
Prerequisites: none.
Course Rules: May be retaken for credit. Credit/no credit only.
Current Offerings: http://uwm.edu/schedule

CURRINS 380 Teaching Music in Elementary Schools I, II
2 cr. Undergraduate.
Methods, materials and observation of teaching vocal music in grades n-6. Includes junior participating experience.
Prerequisites: jr st & admis to school of educ or cons instr.
Current Offerings: http://uwm.edu/schedule
CURRINS 400 Field Work in Curriculum and Instruction: 1-6 cr. Undergraduate.
Credit value to be determined by faculty advisor and student, on the basis of 1) the nature of the field work project, 2) the amount of time the student will spend with the project, and 3) relevant evaluation criteria to be agreed upon in advance by the student and his advisor.
Prerequisites: jr st.
Course Rules: May be retaken for cr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 401 Seminar for Student Teaching 1 cr. Undergraduate.
Collaboration around solving problems encountered in urban teaching through a structured inquiry format with others involved in the student teaching experience.
Prerequisites: jr st; admis to School of Educ.
Last Taught: Spring 2014, Fall 2013, Spring 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

CURRINS 402 Student Teaching in Nursery and Kindergarten 6 cr. Undergraduate.
Prerequisites: jr st; admis to School of Educ.
Last Taught: Spring 2014, Fall 2013, Spring 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

CURRINS 404 Student Teaching in Primary Grades 6 cr. Undergraduate.
Prerequisites: jr st & admis to student teaching.
Last Taught: Spring 2015, Fall 2014, Spring 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

CURRINS 406 Advanced MCEA Clinical Experience 4 cr. Undergraduate.
Advanced clinical experience focusing on instructional practices in grades 1-8.
Prerequisites: jr st, admis to SOE, & CurrIns 558(C); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 407 Student Teaching in Middle Childhood-Early Adolescence 5-9 cr. Undergraduate.
Full time student teaching in grades 1-8.
Prerequisites: jr st, admis to student teaching, CurrIns 471(C) & 406(P); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 415 Preliminary Student Teaching: 1-6 cr. Undergraduate/Graduate.
Initial Student Teaching Experience for EAA Licensure Candidates.
Prerequisites: jr st; eligibility for student teaching & dept req.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CURRINS 423 Student Teaching in Social Studies 10-12 cr. Undergraduate/Graduate.
Final Student Teaching Semester for EAA Social Studies Licensure Candidates.
Prerequisites: jr st; eligibility for student teaching & dept req.
Current Offerings: http://uwm.edu/schedule

CURRINS 427 Student Teaching in Science 2-6 cr. Undergraduate.
Prerequisites: jr st; eligibility for student teaching & dept req.
Current Offerings: http://uwm.edu/schedule

CURRINS 428 Student Teaching Science Seminar 3 cr. Undergraduate/Graduate.
Seminar to support secondary science student teachers. Planning and debriefing lessons, analyzing pedagogy and student work, preparation for teaching licensure assessments.
Prerequisites: jr st; eligibility for student teaching.
Current Offerings: http://uwm.edu/schedule

CURRINS 430 Student Teaching in Computer Science 2-6 cr. Undergraduate.
Prerequisites: jr st; eligibility for student teaching & dept req.
Current Offerings: http://uwm.edu/schedule

CURRINS 431 Student Teaching in Mathematics 2-6 cr. Undergraduate.
Prerequisites: jr st; eligibility for student teaching & dept req.
Current Offerings: http://uwm.edu/schedule

CURRINS 432 Student Teaching Mathematics Seminar 3 cr. Undergraduate/Graduate.
Seminar to support secondary mathematics student teachers. Planning and debriefing lessons, analyzing pedagogy and student work, preparation for teaching licensure assessments.
Prerequisites: jr st or grad st; eligibility for student teaching.
Current Offerings: http://uwm.edu/schedule

CURRINS 437 Student Teaching in World Language- Minor: 2-12 cr. Undergraduate.
Students pursuing a minor in a World Language: EC, MC-EA, EA-A, or EC-A.
Prerequisites: jr st; eligibility for student teaching & dept req.
Current Offerings: http://uwm.edu/schedule

CURRINS 438 Student Teaching in World Language: Early Childhood-Adelescence 2-12 cr. Undergraduate.
Students pursuing an EC-A major in a World Language.
Prerequisites: jr st; eligibility for student teaching & dept req.
Course Rules: May be retaken to max of 12 cr.
Current Offerings: http://uwm.edu/schedule

CURRINS 440 Field Experience in the Primary Grades 2 cr. Undergraduate.
Field experience with children in primary grades. Focus on literacy lesson planning.
Prerequisites: jr st, admis to School of Educ, CurrIns 340(P), & CurrIns 504(C); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
CURRINS 471 Professional Seminar 4: The Effective Urban Educator
2 cr. Undergraduate.
Integrated study of curriculum and classroom management to maximize children’s learning in grades 1-8.
Prerequisites: jr st, admits to SOE, & CurrIns 407(C); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 470 Professional Urban Teaching Linking Seminar
2 cr. Undergraduate.
Facilitates professional growth and development of teachers through structured inquiry, professional collaboration to solve problems in urban teaching, and personal assessment of progress using portfolios.
Prerequisites: jr st, admits to School of Educ.
Course Rules: May be retaken/chg in topic to max of 8 cr.
Last Taught: Fall 2014, Spring 2014, Fall 2013, Spring 2013.
Current Offerings: http://uwm.edu/schedule

CURRINS 447 Professional Seminar 3: Graduate Reading
1-4 cr. Undergraduate.
Prerequisite: jr st or grad st.
Course Rules: Many be retaken. May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

CURRINS 445 Seminar in Language Education
3 cr. Undergraduate.
Provides student teachers in the Language Education program support to reflect on their student teaching experience and successfully complete the program portfolio.
Prerequisites: Admis to School of Educ; Currins 437(C), 438(C), 442(C), 443(C), or 444(C).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2015.
Current Offerings: http://uwm.edu/schedule

CURRINS 444 Student Teaching in ESL- Early Childhood-Adolescence
2-6 cr. Undergraduate.
Students pursuing an EC-A ESL major.
Prerequisites: jr st; eligibility for student teaching & dept req.
Course Rules: May be retaken to 12 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 443 Student Teaching in English as a Second Language: Minor
2-12 cr. Undergraduate.
Students pursuing a minor in ESL EC, MCEA, EAA, or ECA.
Prerequisites: jr st, eligibility for student teaching & dept req.
Course Rules: May be retaken to 12 cr max.
Current Offerings: http://uwm.edu/schedule

CURRINS 442 Student Teaching in Bilingual Education
2-12 cr. Undergraduate.
Students pursuing a supplemental certification in bilingual: EC, MC-EA, EA-A, or EC-A.
Prerequisites: jr st & admis to student teaching.
Course Rules: May be retaken to 12 cr max.
Last Taught: Spring 2018, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

CURRINS 497 Study Abroad
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st, cons instr, acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2017, Fall 2016, Spring 2015, UWinteriM 2010.
Current Offerings: http://uwm.edu/schedule

CURRINS 499 Independent Reading:
1-4 cr. Undergraduate.
Prerequisites: jr st.
Course Rules: May be retaken.
Current Offerings: http://uwm.edu/schedule

CURRINS 500 Workshop in Curriculum and Instruction:
1-6 cr. Undergraduate/Graduate.
Development of teacher growth through problem solving, self-expression, group thinking, and individual study. Individuals or small groups work on problems growing out of their professional needs. Specific topics and any additional prerequisites will be announced in Timetable each time the course is offered.
Prerequisites: jr st or grad st.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

CURRINS 501 Language Acquisition for Children of Diverse Backgrounds
3 cr. Undergraduate.
Examination of theories of language acquisition and development for children of diverse backgrounds. Teaching methods for developing literacy and biliteracy. Methods of sheltered language instruction.
Prerequisites: soph st, admis to School of Educ, Currins 312(P) & 240(C); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 502 Emergent Literacy and Biliteracy in the Early Childhood Classroom
3 cr. Undergraduate.
Study of literacy and biliteracy development of young children and teaching methods to support this development in the early childhood classroom.
Prerequisites: jr st, admis to School of Educ, Currins 501(P) & Currins 340(C); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 503 Assessment Issues in Language Education
3 cr. Undergraduate/Graduate.
Approaches to assessment of first and second language learning including rationale, traditional and alternative strategies, interpretation of results for placement, instruction, and program evaluation.
Prerequisites: jr st or instr cons; admis to School of Educ or grad st.
Current Offerings: http://uwm.edu/schedule
CURRINS 504 Methods for Biliteracy and Language Arts in Primary Grades
3 cr. Undergraduate.
Study of literacy and biliteracy development of young children and teaching methods to support this development in the primary grades.
Prerequisites: jr st, admis to SOE, Currins 502 (P), Currins 440(C); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 505 Collaborative Relationships with Families, Schools and Communities
3 cr. Undergraduate.
Theory and strategies for developing effective family-school relationships, with a focus on urban issues. Topics include: teacher-family communications, family education and support, community resources.
Prerequisites: jr st; admis to SOE; or cons instr.
Last Taught: Fall 2016, Summer 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

CURRINS 508 Language and Urban Schooling
3 cr. Undergraduate/Graduate.
General overview of the major issues in both first and second language acquisition, and the relevant implications for urban schooling.
Prerequisites: jr st & admis to School of Educ, or grad st; or cons instr.
Last Taught: Fall 2014, Spring 2013, Fall 2012, Spring 2012.
Current Offerings: http://uwm.edu/schedule

CURRINS 509 Reading and Social Welfare
1 cr. Undergraduate/Graduate.
Reading process, characteristics of effective reading programs and bibliotherapy as they relate to the work of school social workers.
Prerequisites: admis to Helen Bader School of Social Welfare.
Current Offerings: http://uwm.edu/schedule

CURRINS 510 Cooperative Strategies for Pre and Early Adolescents
1-3 cr. Undergraduate/Graduate.
Teaching and management strategies consistent with fostering productive learning environments for pre and early adolescents.
Prerequisites: admis to School of Educ, or grad st.
Course Rules: May be retaken to max of 3 cr.
Current Offerings: http://uwm.edu/schedule

CURRINS 511 Curriculum and Guidance for Social -Emotional Learning
3 cr. Undergraduate.
Study of classroom teaching strategies and curriculum and guidance methods designed to enhance children's social/emotional learning.
Prerequisites: jr st; admis to School of Educ.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 512 Reflective Practice in Early Childhood Teaching and Learning
3 cr. Undergraduate.
Examination of connections between the urban context, ways of understanding diversity, and professional practice in early childhood classrooms, including implications of pedagogy, curriculum, and instruction.
Prerequisites: soph st, admis to SOE & Currins 312(P); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 514 Field Work II in Early Childhood Education-Primary
1 cr. Undergraduate.
Field experience with children in grades 1 through 3. Completion of assignments associated with Currins 504 while gaining practical experience in the classroom.
Prerequisites: jr st, Currins 502(P), & 504(C)
Last Taught: Spring 2016, Fall 2015, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CURRINS 516 Field Work in Middle School
2-6 cr. Undergraduate/Graduate.
Implementation of strategies learned in the 6-12 teacher education program
Prerequisites: admis to School of Educ or grad st.
Course Rules: May not be retaken for cr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 518 Science Methods I: Middle/Secondary Methods and Fieldwork
3-6 cr. Undergraduate/Graduate.
The objectives, curriculum, instructional strategies, and assessment of middle/secondary school science.
Prerequisites: admis to School of Educ, or grad st.
Course Rules: May not be retaken for cr.
Current Offerings: http://uwm.edu/schedule

CURRINS 519 Science Methods II: Middle/Secondary Methods and Fieldwork
3-6 cr. Undergraduate/Graduate.
The objectives, curriculum, instructional strategies, and assessment of middle/secondary school science. Includes fieldwork in middle/secondary school.
Prerequisites: admis to School of Educ or grad st.
Course Rules: May not be retaken for cr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CURRINS 520 Developing Mathematical Thinking in Young Children
3 cr. Undergraduate/Graduate.
Teaching and learning of mathematics, grades pre k-3. Emphasis on problem-solving, communication, developmentally appropriate experiences with whole numbers, fractions, geometry, measurement, and data analysis.
Prerequisites: jr st, teaching experience.
Current Offerings: http://uwm.edu/schedule

CURRINS 522 Economic Education
3 cr. Undergraduate/Graduate.
Approaches to teaching economic principles. Applications of economic reasoning to current problems. Curricular implications for school programs, grades K-12.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule
CURRINS 523 Current Issues and Practices in the Teaching of Social Studies
3 cr. Undergraduate/Graduate.
Examination of current issues in social studies curriculum reform. Emphasis on the latest research and teaching practices.
Prerequisites: CurrIns 323 or grad st.
Last Taught: Summer 1994.
Current Offerings: http://uwm.edu/schedule

CURRINS 525 Environmental Resources Workshop:
1-3 cr. Undergraduate/Graduate.
Methods and curriculum for teaching about environmental problems. Topic-specific prereq will be published in the Schedule of Classes
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to max of 6 cr.
Last Taught: Summer 2017, Fall 2016, Summer 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

CURRINS 527 Science in the Elementary School
3 cr. Undergraduate/Graduate.
Study of science curriculum materials; instructional procedures; analysis of pupil learning modes; experience with science equipment; teaching of science as inquiry; individual problems and projects.
Prerequisites: jr st & admis to School of Educ; or grad st.
Current Offerings: http://uwm.edu/schedule

CURRINS 530 Workshop in Computer Instruction in the Schools
3 cr. Undergraduate/Graduate.
Examination, construction and evaluation of computer extended instruction. Emphasis on participant development of curriculum materials and instructional procedures centered on pupil development.
Prerequisites: jr st; cons instr.
Course Rules: Not open to students who have cr in Ed Psy 530, which is identical to CurrIns 530.
Current Offerings: http://uwm.edu/schedule

CURRINS 531 Teaching of Computer Science
3 cr. Undergraduate/Graduate.
Methods and curriculum for the teaching of computer science in the secondary schools. A brief introduction to management of a computer laboratory.
Prerequisites: jr st & admis to School of Educ & CompSci 351; or grad st.
Current Offerings: http://uwm.edu/schedule

CURRINS 532 Teaching of Mathematics: Secondary
3 cr. Undergraduate/Graduate.
Methods and curriculum for the teaching of mathematics in middle and high schools.
Prerequisites: jr st; admis to School of Educ.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CURRINS 534 Instructional Strategies in Early Childhood Education
3 cr. Undergraduate.
Study of instructional strategies and practices in the early childhood classroom to promote effective teaching and engaged learning for all children.
Prerequisites: jr st & admis to SOE; or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 535 Methods and Techniques in Affective Education
1-3 cr. Undergraduate/Graduate.
Basic principles and practical techniques for instruction in the affective domain are modeled and practiced. Although process oriented, the course does not neglect theoretical frameworks.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

CURRINS 536 Literacy 1: Assessing and Teaching Early Literacy
3 cr. Undergraduate/Graduate.
Addresses early reading and language arts assessment and instruction with diverse learners. Includes concurrent clinical experience.
Prerequisites: jr st, CurrIns 306(C) & admis to SOE, or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 537 Literacy 2: Assessing and Teaching Literacy through Early Adolescence
3 cr. Undergraduate/Graduate.
The role of reading and language arts assessment and instruction with diverse learners in 1st-8th grade classrooms with particular emphasis on comprehension, vocabulary, and disciplinary literacy.
Prerequisites: jr st & admis to SOE, or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 538 Literacy 3: Introduction to New Literacies
3 cr. Undergraduate/Graduate.
Examines research based processes for literacy instruction, effects of and approaches for the use of technology on literacy development.
Prerequisites: sr st, admis to SOE & CurrIns 537(P); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 540 Advanced Field Experience in Early Childhood Education
3-6 cr. Undergraduate.
Advanced field experience, culmination of pre-student teaching experiences.
Prerequisites: sr st, admis to SOE & CurrIns 440(P); or cons instr.
Course Rules: May be repeated for 9 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 541 Principles and Methods of Teaching ESL
3 cr. Undergraduate/Graduate.
Techniques of introducing ESL at the K-12 level. Teaching of basic language skills, especially listening comprehension and speaking. Curriculum materials and current literature in ESL. Micro teaching provided.
Prerequisites: jr st and admis to SOE; or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 542 History and Politics of Second Language Education
3 cr. Undergraduate/Graduate.
General overview of the history, politics, legal and social contexts of language education in the United States today.
Prerequisites: jr st or cons instr.
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule
CURRINS 543 Developing Biliteracy
3 cr. Undergraduate/Graduate.
Stresses the practical application of theory and research on language development in a bilingual setting. The development of primary language skills is emphasized.
Prerequisites: jr st or cons instr; admis to School of Educ, or grad st.
Current Offerings: http://uwm.edu/schedule

CURRINS 544 Improving the Teaching of Reading:
1-3 cr. Undergraduate/Graduate.
Focuses on instructional problems of teachers in teaching developmental reading. Specific topic and any additional prerequisites will be announced in the Schedule of Classes each time the course is offered.
Prerequisites: jr st; teaching experience.
Course Rules: May be retaken w/chg in topic to max of 6 cr.
Current Offerings: http://uwm.edu/schedule

CURRINS 545 Reading in the Content Areas: Middle, Junior, and Senior High School
3 cr. Undergraduate/Graduate.
Survey of reading process and developmental reading in the middle, junior and senior high school. Emphasis on application of instructional techniques relating the use of reading within subject matter fields.
Prerequisites: jr st; admis to School of Educ or grad st.
Current Offerings: http://uwm.edu/schedule

CURRINS 546 Language, Content, and Comprehensible Input
3 cr. Undergraduate/Graduate.
Theories and methods for delivering content to second language learners. Models of sheltered and learning strategies instruction will be explored.
Prerequisites: jr st or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

CURRINS 547 Curricular Applications of the Internet
3 cr. Undergraduate/Graduate.
Analysis and construction of internet based instruction focusing on the use of interactive media in grades 1-12.
Prerequisites: jr st & admis to School of Educ, or grad st.
Current Offerings: http://uwm.edu/schedule

CURRINS 550 Using Children's Literature to Explore Latin Am/Latino Cultural Heritage
3 cr. Undergraduate/Graduate.
Using children's books that explore Latin American/Latino cultural heritage.
Prerequisites: jr st.
Course Rules: Counts as repeat of CurrIns 579 with similar topic.
Last Taught: Summer 2013.
Current Offerings: http://uwm.edu/schedule

CURRINS 551 Teaching of Language Arts
1-4 cr. Undergraduate/Graduate.
Survey of curriculum, methods and materials in skills and expressive areas of language, linking theory with practical instructional strategies in both preschool and elementary settings.
Prerequisites: jr st & admis to School of Educ; or grad st.
Current Offerings: http://uwm.edu/schedule

CURRINS 552 Teaching Reading, Grades 1-3
3 cr. Undergraduate/Graduate.
Foundations of reading and instructional strategies which support the development of literacy learning in the primary grades (grades 1-3) with concurrent teaching field experience.
Prerequisites: jr st, Admis to School of Educ; or grad st.
Course Rules: Counts as repeat of 3 cr of CurrIns 506.
Last Taught: Fall 2013, Spring 2013, Fall 2012, Spring 2012.
Current Offerings: http://uwm.edu/schedule

CURRINS 553 Teaching Language Arts and Children's Literature, Grades 1-3
3 cr. Undergraduate/Graduate.
Language arts instruction and children's literature in the middle childhood grades (grades 1-3) with concurrent teaching field experience.
Prerequisites: jr st; admis to School of Educ; or grad st.
Course Rules: Counts as repeat of 3 cr of CurrIns 506.
Last Taught: Fall 2013, Spring 2013, Fall 2012, Spring 2012.
Current Offerings: http://uwm.edu/schedule

CURRINS 554 Teaching Reading and Adolescent Literature, Grades 4-8
3 cr. Undergraduate/Graduate.
Reading instruction and literature for early adolescents, grades 4-8 with concurrent teaching field experience.
Prerequisites: jr st; admis to School of Educ; CurrIns 552(P); or grad st.
Course Rules: Counts as repeat of 3 cr of CurrIns 507.
Last Taught: Spring 2014, Fall 2013, Spring 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

CURRINS 555 Teaching Language Arts, Grades 4-8
3 cr. Undergraduate/Graduate.
Language arts instruction in the early adolescent grades, grades 4-8, with concurrent teaching field experience.
Prerequisites: jr st; admis to School of Educ; CurrIns 553(P); or grad st.
Course Rules: Counts as repeat of 3 cr of CurrIns 507.
Last Taught: Fall 2014, Spring 2014, Fall 2013, Spring 2013.
Current Offerings: http://uwm.edu/schedule

CURRINS 556 Professional Seminar 1: Foundations of Curriculum and Instruction
3 cr. Undergraduate/Graduate.
Philosophies of curriculum and instructional models to meet the developmental needs of children in urban contexts.
Prerequisites: jr st, admis to SOE, Ed Psy 325(C), CurrIns 306(C), & 536(C); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
CURRINS 557 Professional Seminar 2: Classroom Management: Theory, Practice and Context
3 cr. Undergraduate/Graduate.
Addresses the theoretical frameworks, models and goals in classroom management practices in grades 1-8.
Prerequisites: jr st, admis to SOE, CurrIns 556(P) & 307(C); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 558 Professional Seminar 3: Building Learning Communities
3 cr. Undergraduate/Graduate.
Exploration and application of strategies that build positive learning climates/communities in urban classrooms in grades 1-8.
Prerequisites: jr st, admis to SOE, CurrIns 557(P) & 406(C); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 560 Improving Mathematics Teaching and Learning:
1-3 cr. Undergraduate/Graduate.
Focuses on instructional and curricular issues in mathematics. Specific topics and any additional prereqs will be announced in the Schedule of Classes each time the course is offered.
Prerequisites: jr st or grad st.
Course Rules: May be retaken w/chg in topic to 18 cr max.
Current Offerings: http://uwm.edu/schedule

CURRINS 561 Issues in Elementary and Middle School Mathematics
3 cr. Undergraduate/Graduate.
Introduction to the teaching and learning of mathematics at the elementary and middle school levels. Emphasis on curriculum, instructional strategies, and assessment.
Prerequisites: jr st; admis to School of Educ or cons instr or grad st.
Current Offerings: http://uwm.edu/schedule

CURRINS 562 Secondary School Mathematics Issues for Exceptional Education Teachers
1 cr. Undergraduate/Graduate.
Issues in secondary mathematics curriculum, instructional strategies, and assessment for teachers of students with special needs.
Prerequisites: jr st, admis to exceduc middle/high cert prog.
Current Offerings: http://uwm.edu/schedule

CURRINS 565 Pedagogy Labs:
1 cr. Undergraduate.
Students concurrently or previously enrolled in content-specific courses will study issues of teaching pedagogy related to that content.
Prerequisites: cons instr.
Course Rules: May be retaken w/chg in topic to 6 credit max.
Last Taught: Fall 2012, Summer 2012, Spring 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

CURRINS 566 Pedagogy Labs - Linking English Content and Processes with Pedagogy
1 cr. Undergraduate.
Examines the instructional implications for English content and processes and is taken concurrently with English 201.
Prerequisites: jr st.
Course Rules: Counts as repeat of CurrIns 565 with similar topic.
Current Offerings: http://uwm.edu/schedule

CURRINS 567 Pedagogy Labs - Linking History Content and Processes with Pedagogy
1 cr. Undergraduate.
Examines the instructional implications for history content and processes and is taken concurrently with Hist 152.
Prerequisites: jr st.
Course Rules: Counts as repeat of CurrIns 565 with similar topic.
Current Offerings: http://uwm.edu/schedule

CURRINS 569 Pedagogy Labs - Linking Mathematics Content and Processes with Pedagogy
1 cr. Undergraduate.
Examines connections between the content material of mathematics courses Math 175/176/275/276/277/278 and K-12 pedagogical practices. Taken concurrently with one of the courses listed.
Prerequisites: one of the following: 175(C), 176(C), 275(C), 276(C), 277(C) or 278(C).
Current Offerings: http://uwm.edu/schedule

CURRINS 570 Improving Science Teaching and Learning:
1-3 cr. Undergraduate/Graduate.
Focuses on instructional and curricular issues in science. Specific topics and any additional prereqs will be announced in the Schedule of Classes each time the course is offered.
Prerequisites: jr st, teaching experience.
Course Rules: May be retaken w/chg in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

CURRINS 579 Current Topics in Curriculum and Instruction:
1-3 cr. Undergraduate/Graduate.
The specific topic will be announced in the Schedule of Classes each time the course is offered.
Prerequisites: jr st, cons instr.
Course Rules: May be retaken w/chg in topic to max of 9 cr including cr earned under CurrIns 779.
Current Offerings: http://uwm.edu/schedule

CURRINS 580 Mathematics Education:
1-3 cr. Undergraduate/Graduate.
Analysis of school and classroom practices in mathematics. Specific topics and any additional prereqs will be announced in the Schedule of Classes each time the course is offered.
Prerequisites: jr st or grad st.
Course Rules: May be retaken w/chg in topic.
Last Taught: Summer 2017, Fall 2016, Summer 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

CURRINS 585 Best Practices in Early Childhood for Children and Families
3 cr. Undergraduate/Graduate.
Child care as a family-friendly community including integration of child growth and development principles into all aspects of the program.
Prerequisites: jr st; admis to child care director's prog or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
CURRINS 593 Supervision of Student Teaching
1 cr. Undergraduate/Graduate.
Roles and responsibilities of the supervising teacher in planning, guidance and evaluation of the learning experiences of prospective teachers.
Prerequisites: current teacher certification.
Last Taught: Summer 2017, Spring 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

CURRINS 601 Early Childhood Seminar in Student Teaching
3 cr. Undergraduate.
Collaboration around challenges encountered in urban student teaching through a structured inquiry format with peers.
Prerequisites: sr st; admis to SOE & CURRINS 640(C); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 602 Early Childhood Education
1-4 cr. Undergraduate/Graduate.
Basic principles of curriculum planning for young children. Education in nursery schools, day care centers, kindergartens and primary grades. A study of the materials of instruction and techniques of teaching at this level.
Prerequisites: jr st.
Last Taught: Summer 2017, Fall 2016, Summer 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

CURRINS 612 Collaborations for Teachers with Families, Schools, and Communities
3 cr. Undergraduate/Graduate.
Theory/strategies for developing effective family-school relationships, with a focus on urban issues, inclusive classrooms, teacher-family communications, family education and support, and community resources for teachers.
Prerequisites: jr st; admis to SOE; or cons instr.
Current Offerings: http://uwm.edu/schedule

CURRINS 624 Instructional Trajectories for Fraction Concepts and Operations
3 cr. Undergraduate/Graduate.
Examination of mathematical trajectories for teaching fractions with focus on evidence-based instructional and assessment strategies and analysis of curriculum.
Prerequisites: jr st; teaching experience, or cons instr.
Last Taught: Summer 2017, Summer 2015.
Current Offerings: http://uwm.edu/schedule

CURRINS 625 Principles and Practices of Teaching Geometry and Geometric Thinking
3 cr. Undergraduate/Graduate.
Examination of instructional sequences for geometry and analysis of teaching strategies for developing and assessing students’ geometric thought.
Prerequisites: jr st; teaching experience
Course Rules: Counts as repeat of CurrIns 560 with topic Geometry and Geometric Thinking.
Last Taught: Summer 2016, Fall 2005.
Current Offerings: http://uwm.edu/schedule

CURRINS 626 Principles and Practices of Teaching Algebraic Reasoning
3 cr. Undergraduate/Graduate.
Examination of instructional trajectories for algebra and analysis of teaching strategies for developing and assessing students’ algebraic reasoning.
Prerequisites: jr st; teaching experience.
Current Offerings: http://uwm.edu/schedule

CURRINS 629 Change and Change Strategies in Education
1-4 cr. Undergraduate/Graduate.
This course will involve students in an exploration of individual groups and institutions as these elements relate to change processes in education. Models and strategies will be studied and applied to change problems.
Prerequisites: jr st; teaching experience.
Course Rules: May be retaken to a 4 cr max.
Current Offerings: http://uwm.edu/schedule

CURRINS 637 World Language Methods and Materials
3 cr. Undergraduate/Graduate.
Basic principles and practical instructional techniques intended to prepare teachers with experiences and background to teach world languages.
Prerequisites: jr st or cons instr.
Last Taught: Fall 2017, Spring 2017, Spring 2016, Fall 2013.
Current Offerings: http://uwm.edu/schedule

CURRINS 639 Critical Issues and Methods in World Language Education
3 cr. Undergraduate/Graduate.
Advanced preparation for teachers of world languages that will equip them for teaching world languages to students from early childhood through adolescence.
Prerequisites: jr st, CurrIns 637(P) or equiv, or cons instr.
Current Offerings: http://uwm.edu/schedule

CURRINS 640 Student Teaching in Early Childhood
6-12 cr. Undergraduate.
Full semester experience in an early childhood classroom.
Prerequisites: sr st; admis to SOE; CurrIns 601(C); CurrIns 540(P); or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2015.
Current Offerings: http://uwm.edu/schedule

CURRINS 643 Balanced Literacy Instruction in the Elementary School
1-3 cr. Undergraduate/Graduate.
Study and implementation of assessment and teaching strategies for balanced literacy instruction including phonics.
Prerequisites: jr st.
Course Rules: May be retaken to 6 cr max. Not open for cr to students with CurrIns 343(ER) or equiv.
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule
CURRINS 644 Enhancing Literacy Learning for Diverse Learners: 3 cr. Undergraduate/Graduate.
Teaching reading and writing to diverse learners.
Prerequisites: currently teaching with at least 2 yrs experience; cons instr.
Course Rules: Jointly offered with & subtitles count as repeat of same title of ExcEduc 644. CurrIns 644 & ExcEduc 644 may be retaken w/chg in topic to combined 9 cr max.
Current Offerings: http://uwm.edu/schedule

CURRINS 646 University of Wisconsin System Reading Research Symposium
1-3 cr. Undergraduate/Graduate.
Updates students on most recent reading research. Students are required to attend the two-day symposium.
Prerequisites: jr st.
Course Rules: May be retaken for credit.
Current Offerings: http://uwm.edu/schedule

CURRINS 647 Early Reading Empowerment: Part 1
3 cr. Undergraduate/Graduate.
First semester of a 2 semester practicum designed for practicing teachers; develop expertise in assessing and teaching reading to struggling early literacy learners.
Prerequisites: currently teaching, at least 2 years teaching experience, cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CURRINS 648 Early Reading Empowerment: Part 2
3 cr. Undergraduate/Graduate.
Second semester of a 2 semester practicum designed for practicing teachers; develop expertise in assessing and teaching reading to struggling early literacy learners.
Prerequisites: CurrIns 647(P), currently teaching, at least 2 years teaching experience, cons instr.
Current Offerings: http://uwm.edu/schedule

CURRINS 649 Children's Literature
1-4 cr. Undergraduate/Graduate.
To acq students with the wide range of good books for children and to provide wide reading experiences in children's literature; evaluation and use of current materials.
Prerequisites: jr st & admis to School of Educ; or grad st.
Current Offerings: http://uwm.edu/schedule

CURRINS 650 Reading Interests of Adolescents
3 cr. Undergraduate/Graduate.
Recently published literature for adolescents - types, themes, issues related to school programs.
Prerequisites: jr st.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 651 Literature for the Young Child
3 cr. Undergraduate.
Examines literature with young children to develop verbal fluency, aesthetic awareness and interest in reading. Rationales, specific instructional strategies, illustration styles and genres are discussed.
Prerequisites: soph st.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 653 Children's Literature: The Past Five Years
3 cr. Undergraduate/Graduate.
Analysis of children's books published in the past five years. Arranged by genres, this course considers issues, trends, evaluative criteria, and classroom uses of books.
Prerequisites: jr st; CurrIns 649 or equiv.
Current Offerings: http://uwm.edu/schedule

CURRINS 655 Applied Educational Linguistics
3 cr. Undergraduate/Graduate.
Explanation of linguistic principles which can be applied to language-based activities in the classroom and which can be useful in solving language-learning problems.
Prerequisites: jr st or cons instr.
Last Taught: Spring 2018, Spring 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

CURRINS 657 Approaches to Teaching and Assessing Texts in the Secondary Schools
3 cr. Undergraduate/Graduate.
Pedagogy and assessment of literature and other texts and their classroom applications: canonical and diverse literary selections; literary critical theory.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

CURRINS 658 Teaching and Assessing English
3 cr. Undergraduate/Graduate.
The objectives, materials, techniques and assessments of teaching English. Covers language and writing methods.
Prerequisites: jr st, Admis to SOE & CurrIns 657(P); or grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CURRINS 659 Teaching and Assessing Grammar to Enrich Writing
2-3 cr. Undergraduate/Graduate.
Current research about teaching grammar, and the historical, social, and political consequences associated with various approaches to grammar instruction and assessment.
Prerequisites: jr st.
Course Rules: English Educ Cert students enroll for 2 cr; other Cert students enroll for 3 cr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule
CURRINS 664 Dramatizing Literature in Elementary Classrooms
1-4 cr. Undergraduate/Graduate.
Nature of creativity in children; basic principles of informal playmaking, including movement, mime, characterization, dialogue, and conflict. Using children's ideas to develop literature-based dramatizations.
Prerequisites: jr st.
Current Offerings: [URL]

CURRINS 675 Making Schools Work: Promoting Positive Change in Chronic Problem Behavior
3 cr. Undergraduate/Graduate.
Methods of applying system theory, cybernetics, and communication theory concepts in classrooms and schools to help solve recurring interpersonal problems and improve educational effectiveness.
Prerequisites: grad st or cons instr.
Current Offerings: [URL]

CURRINS 700 Field Work in Schools, Agencies and Institutions:
2-6 cr. Graduate.
Supervised field experience planned in conference with the student's major professor. An evaluation report required.
Prerequisites: grad st & cons instr.
Current Offerings: [URL]

CURRINS 701 Curriculum Planning and Ideologies
3 cr. Graduate.
The concept of elementary and secondary curriculum in modern American education. Foundation principles and major objectives.
Prerequisites: grad st.
Current Offerings: [URL]

CURRINS 702 Curriculum Problems and Practices in Early Childhood Education
4 cr. Graduate.
Current trends in the education of children in day care centers, nursery schools, kindergartens and primary grades. Opportunities for study of individual problems of teachers at this level.
Prerequisites: grad st.
Current Offerings: [URL]

CURRINS 703 Advanced Curriculum in Early Childhood Education
4 cr. Graduate.
Theoretical foundations of curriculum planning in early childhood education programs.
Prerequisites: grad st
Course Rules: Counts as repeat of CurrIns 779 with same topic.
Last Taught: Fall 2014, Fall 2012, Fall 2010.
Current Offerings: [URL]

CURRINS 705 Research in Schools and Communities
3 cr. Graduate.
Overview of content and inquiry in curriculum and instruction.
Prerequisites: grad st.
Current Offerings: [URL]

CURRINS 710 Curriculum for Early Adolescents
2-3 cr. Graduate.
Functions and purposes of schools for early adolescents; historical developments; types of curricula; instructional methods and techniques; recent developments and trends.
Prerequisites: grad st.
Current Offerings: [URL]

CURRINS 714 Analysis of Instruction to Improve Teaching and Learning
3 cr. Graduate.
Study of teaching behaviors and models. Examination of factors involved in deciding how to teach. Opportunity to analyze teaching and clarify personal teaching preferences.
Prerequisites: grad st.
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: [URL]

CURRINS 715 Guiding Instructional Improvement
3 cr. Graduate.
Methods of applying the knowledge of instruction to solve instructional problems; ways of working with teachers to improve the quality of instructional behavior, styles and strategies.
Prerequisites: grad st; CurrIns 714 or cons dept.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: [URL]

CURRINS 716 Teaching in Urban & Diverse Communities
1-4 cr. Graduate.
Teaching in a culturally pluralistic setting. Examination of how the law, school policy and equity issues affect curriculum and instructional practices.
Prerequisites: grad st.
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: [URL]

CURRINS 720 Curriculum and Standards for School Mathematics
3 cr. Graduate.
Overview of historical and current perspectives on curricular reforms and the standards movement in mathematics education.
Prerequisites: grad st
Course Rules: Counts as repeat of CurrIns 579 with topic, 'National Mathematics Standards.'
Last Taught: Spring 2018, Fall 2017, Fall 2015.
Current Offerings: [URL]

CURRINS 721 Advanced Problems in the Teaching of Social Studies
3 cr. Graduate.
For teachers with experience who wish to improve their understanding and skill; equal emphasis on theory and practice.
Prerequisites: grad st & cons instr.
Current Offerings: [URL]

CURRINS 724 Advanced Problems in Science Education
3 cr. Graduate.
Study of current issues and problems related to science instruction and curriculum developments, course planning, analysis of learning in the science classroom, techniques of evaluation, review of research in science education.
Prerequisites: grad st & science teaching experience.
Current Offerings: [URL]
CURRINS 725 Improving Teaching and Learning with Classroom-Based Assessments
3 cr. Graduate.
Development and implementation of classroom-based assessment instruments within existing large-scale state and district accountability systems.
Prerequisites: grad st.
Course Rules: Jointly offered w/ & counts as repeat of Ed Psy 725.
Current Offerings: http://uwm.edu/schedule

CURRINS 729 Qualitative Research and Field Studies in Educational Settings
3 cr. Graduate.
Examination of qualitative techniques as applied to educational research and evaluation in schools, classrooms, and other educational settings.
Prerequisites: grad st; Ed Psy 528(P) or equiv.
Course Rules: Not open to students who have cr in Ad Ldsp 729 which is identical to Curins 729.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CURRINS 730 Mathematics in Elementary Education
3 cr. Graduate.
Prerequisites: grad st; teaching experience.
Current Offerings: http://uwm.edu/schedule

CURRINS 731 Mathematics in the Secondary School
3 cr. Graduate.
Current trends in curriculum and instruction. Opportunity to work on special problems.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

CURRINS 734 Advanced Problems in the Teaching of Foreign Languages
3 cr. Graduate.
Close re-examination of instructional practices and the soundness of the underlying principles in a period of transition regarding aims, methods, content and psychological aspects of foreign language learning. The teaching of culture and other timely material in changing curricular expectations.
Prerequisites: grad st & teaching experience.
Last Taught: Fall 2006, Fall 2005, Fall 2001, Fall 1998.
Current Offerings: http://uwm.edu/schedule

CURRINS 740 UWM Writing Project: Teachers as Writers
3 cr. Graduate.
Develop self-awareness as writer and compare understanding to theories of writing instruction. Analyze writing opportunities and reflect on experience in relation to classroom practice.
Prerequisites: grad st; acceptance into UWM Writing Project.
Course Rules: Counts as repeat of Currins 779 w/ same topic. Concurrent enrollment in Currins 741 required.
Current Offerings: http://uwm.edu/schedule

CURRINS 741 UWM Writing Project: Teacher Leadership in Writing
3 cr. Graduate.
Analyze theory and research about writing in classrooms. Synthesize and evaluate various methods that enhance writing instruction leading to developing teacher as leader in writing.
Prerequisites: grad st; acceptance into UWM Writing Project.
Course Rules: Concurrent enrollment in Currins 740 required.
Current Offerings: http://uwm.edu/schedule

CURRINS 742 UWM Writing Project:
1-9 cr. Graduate.
Develop as a writer. Analyze theory and research about writing in classrooms. Synthesize and evaluate various methods that enhance writing instruction leading to developing teacher as leader in writing.
Prerequisites: grad st., acceptance into UWM Writing Project, retakable with change in topic to 9 cr max, retakable with same topic to 6 cr max.
Last Taught: Summer 2017.
Current Offerings: http://uwm.edu/schedule

CURRINS 744 Secondary Developmental Reading Practicum
2-4 cr. Graduate.
Analysis of developmental reading methods, assessment devices for secondary students, supervised classroom teaching practicum of secondary students.
Prerequisites: grad st; Currins 747 & 545.
Current Offerings: http://uwm.edu/schedule

CURRINS 746 Advanced Reading Education
3 cr. Graduate.
Analysis and evaluation of research on reading processes, including psycholinguistic perspectives. Evaluation of reading models. Application to current approaches to teaching reading emphasized.
Prerequisites: grad st; Currins 643(P) or equiv.
Current Offerings: http://uwm.edu/schedule

CURRINS 747 Reading Assessment and Instruction with Practicum: K-12 Part I
3 cr. Graduate.
Analysis of the factors contributing to reading difficulty; use of formal and informal assessments with implications for instruction. Includes work with student who have reading difficulties.
Prerequisites: grad st; Currins 504, 506, 544, 545 or equiv; or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CURRINS 748 Reading Assessment and Instruction with Practicum, K-12: Part II
3 cr. Graduate.
Diagnosis, teaching, curriculum planning and materials for disabled readers. Students will work with small groups of elementary age disabled readers in a supervised tutorial situation.
Prerequisites: grad st; Currins 747(P).
Current Offerings: http://uwm.edu/schedule
CURRINS 751 Language Arts in the Elementary School
3 cr. Graduate.
Survey and critical appraisal of programs, practices and trends, emphasis
on oral and written expression including spelling and handwriting;
specific study of individual problems.
Prerequisites: grad st.
Last Taught: Fall 1986.
Current Offerings: http://uwm.edu/schedule

CURRINS 753 Teaching Language and Composition
3 cr. Graduate.
Consideration of problems, curricular materials and teaching procedures
in the areas of language, grammar and written composition, with
emphasis on language history and applications of linguistic knowledge.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

CURRINS 754 Teaching Literature
3 cr. Graduate.
Curriculum materials, methods of organization and approaches to the
study of literature, with attention to problems of teaching prose fiction
and nonfiction, drama and poetry. Micro teaching used.
Prerequisites: teaching experience & grad st.
Current Offerings: http://uwm.edu/schedule

CURRINS 761 Mathematics Instructional Leadership
3 cr. Graduate.
Study and development of teacher leadership for supporting effective
mathematics instruction and high-leverage mathematics teaching
practices through collaborative cultures and content-focused coaching.
Prerequisites: grad st.
Last Taught: Fall 2016, Spring 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 774 College Teaching
3 cr. Graduate.
Analyzes curricular issues and instructional practices in college and adult
programs. Research on youth, college influences and adult change will be
reviewed.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

CURRINS 779 Current Topics in Curriculum and Instruction:
1-3 cr. Graduate.
Specific topic announced in schedule of classes each time course is
offered.
Prerequisites: grad st, cons instr.
Course Rules: May be repeated with change in topic to max of 9 cr,
including grad cr earned under CurrIns 579.
Last Taught: Fall 2017, Spring 2017, Fall 2016, Fall 2009.
Current Offerings: http://uwm.edu/schedule

CURRINS 779 Independent Reading:
1-3 cr. Graduate.
Prerequisites: enrollment in master's prog.
Current Offerings: http://uwm.edu/schedule

CURRINS 800 Master's Seminar in Curriculum and Instruction
3 cr. Graduate.
Required for all curriculum and instruction students. Students develop
and defend a seminar project. Master's examination is in conjunction
with the seminar.
Prerequisites: grad st; 27 grad cr; cons dept; cons advisor
Current Offerings: http://uwm.edu/schedule

CURRINS 801 Urban Education: Doctoral Seminar in Curriculum &
Instruction
3 cr. Graduate.
Curriculum and instruction goals, programs, and practices in urban
schools, as analyzed in varying critical perspectives.
Prerequisites: admis to PhD prog; Educ 701(P).
Current Offerings: http://uwm.edu/schedule

CURRINS 802 Recent Research in the Field of Early Childhood Education
4 cr. Graduate.
A study of recent research in the area of early childhood education and in
child development at these levels. Practical applications to the programs
of day care centers, nursery schools, kindergartens and primary grades
will be made.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

CURRINS 803 Reflective Practice: Urban Early Childhood Teaching
4 cr. Graduate.
The relationships between teaching practice and the socio-cultural-
historical contexts of teaching; application to teaching through reflective
analysis.
Prerequisites: grad st
Last Taught: Fall 2015, Fall 2013, Fall 2011, Fall 2009.
Current Offerings: http://uwm.edu/schedule

CURRINS 805 History Of Curriculum Development
3 cr. Graduate.
A study of the history of curriculum development in american education
including major issues, movements and figures.
Prerequisites: grad st; Ed Pol 650; cons dept.
Current Offerings: http://uwm.edu/schedule

CURRINS 813 Instructional Research and Theory
3 cr. Graduate.
Examination of current research and theory concerning teacher behavior
and its antecedents and consequences. Implications for teaching teacher
training, evaluation of teaching, and classroom research.
Prerequisites: grad st; CurrIns 714 or cons dept.
Current Offerings: http://uwm.edu/schedule

CURRINS 814 Seminar in Instruction
3 cr. Graduate.
Individual instruction problems are examined. Emphasis is placed upon
developing and carrying out a research project dealing with instruction.
Prerequisites: grad st; CurrIns 714 or cons dept.
Current Offerings: http://uwm.edu/schedule
CURRINS 816 Curriculum Designs for Urban Schools
3 cr. Graduate.
Examination of the problems of urban schools and the implications of these problems for the design of school curriculum.
Prerequisites: grad st; CurrIns 701 or 716; or cons instr.
Current Offerings: http://uwm.edu/schedule

CURRINS 819 Theory and Design of Curriculum
3 cr. Graduate.
Examination of the essential operations of curriculum from the point of view of common curriculum patterns, development of the theoretical considerations underlying the application of these operations to curriculum planning and development.
Prerequisites: grad st; CurrIns 701(P).
Current Offerings: http://uwm.edu/schedule

CURRINS 829 Advanced Qualitative Research Techniques for Education Settings
3 cr. Graduate.
Advanced examination of qualitative research techniques in three areas: conceptual design; data collection methods; and data analysis and reporting.
Prerequisites: Ad Ldsp 729 (CurrIns 729) or cons instr.
Course Rules: Not open to students who have cr in Ad Ldsp 829, which is identical to CurrIns 829.
Current Offerings: http://uwm.edu/schedule

CURRINS 830 Seminar in Elementary School Mathematics Education
3 cr. Graduate.
Critical issues in arithmetic instruction. Survey of research studies and their implications for instruction. Development and discussion of individual research problems.
Prerequisites: grad st; cons dept.
Current Offerings: http://uwm.edu/schedule

CURRINS 839 Practicum in Writing from Qualitative Research for Educational Settings
3 cr. Graduate.
Practice in writing from qualitative research data and analysis of qualitative text.
Prerequisites: grad st; Ad Ldsp or CurrIns 729(P) & 829(P).
Course Rules: Not open to students who have cr in Ad Ldsp 839 which is identical to CurrIns 839.
Current Offerings: http://uwm.edu/schedule

CURRINS 846 Seminar in Developmental Reading
3 cr. Graduate.
Topics will vary. In-depth study of implications of trends and research for improving instruction and k-12 curriculum planning. Specific topic and any additional prerequisites will be announced in schedule of classes each time course is offered.
Prerequisites: grad st; CurrIns 746.
Course Rules: May be retaken with change in topic to max of 6 cr.
Current Offerings: http://uwm.edu/schedule

CURRINS 849 Guiding and Directing School Reading Programs K-12
3 cr. Graduate.
The role of the Reading Specialist/Literacy Coach in guiding and directing K-12 reading programs and supervising literacy instruction. Required for WI Reading Specialist license.
Prerequisites: grad st; CurrIns 747 & 748 (P); CurrIns 646 (P) or cons instr.
Last Taught: Summer 2017, Fall 2015, Fall 2013, Fall 2009.
Current Offerings: http://uwm.edu/schedule

CURRINS 861 Seminar in Mathematics Urban Education
3 cr. Graduate.
Focus on issues of equity and access to high-quality mathematics teaching, curriculum, and assessment for students with diverse cultural, linguistic, and economic backgrounds.
Prerequisites: grad st
Last Taught: Spring 2015.
Current Offerings: http://uwm.edu/schedule

CURRINS 864 Integrating Mathematics Education Research into Curriculum and Instruction
3 cr. Graduate.
Using results from research on mathematics teaching and learning to shape teaching practice, including impacts on curriculum development, implementation, and pedagogical practice.
Prerequisites: grad st
Last Taught: Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 865 Mathematics Program Design and Development
3 cr. Graduate.
Research-based practices for guiding and developing school and district mathematics curriculum and programs. Inquiry into problems of practice in mathematics education.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

CURRINS 870 Research Practicum
1-3 cr. Graduate.
Independent research practicum. Application of qualitative and quantitative research methods to conduct a small-scale research study. Develop research questions, collect and analyze data, and report findings.
Prerequisites: grad st
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

CURRINS 880 Proseminar in Urban Education: Curriculum and Instruction
2 cr. Graduate.
An examination of selected problems and issues in urban education.
Prerequisites: grad st; admis to urban educ doctoral prog.
Current Offerings: http://uwm.edu/schedule

CURRINS 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Last Taught: Spring 2018, Fall 2017, Summer 2017, Fall 2015.
Current Offerings: http://uwm.edu/schedule
CURRINS 890 Master’s Research or Thesis
3-6 cr. Graduate.
Research or thesis work for students in the master’s program in curriculum and instruction.
Prerequisites: grad st; cons advisor.
Last Taught: Spring 2018, Fall 2017, Summer 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CURRINS 900 Seminar in Curriculum Construction
3 cr. Graduate.
Opportunity to develop curriculum materials or work on individual problems.
Prerequisites: grad st; cons dept.
Current Offerings: http://uwm.edu/schedule

CURRINS 990 Doctoral Research or Thesis
1-3 cr. Graduate.
Prerequisites: admis to doctoral prog.
Current Offerings: http://uwm.edu/schedule

CURRINS 993 Seminar in the Pre-Service and In-Service Education of Teachers
3 cr. Graduate.
For advanced students interested in problems of teacher education.
Prerequisites: grad st; cons dept.
Current Offerings: http://uwm.edu/schedule

CURRINS 999 Independent Reading
1-3 cr. Graduate.
For the benefit of doctoral students unable to secure needed content in regular courses.
Prerequisites: post-masters or doctoral st; cons instr.
Last Taught: Spring 2018, Fall 2017, Summer 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

Exceptional Education Courses
EXCEDUC 200 Fieldwork in Exceptional Education:
1-4 cr. Undergraduate.
Field experience designed to allow pre-education students to participate and observe in exceptional education setting.
Prerequisites: none.
Course Rules: Cr/no cr only. Fieldwork may not be dropped after the second week of classes. May be retaken w/chg in topic to max of 6 cr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared course work.
Prerequisites: cons instr; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 299 Independent Reading
1-3 cr. Undergraduate.
Prerequisites: cons instr.
Course Rules: May be retaken to max of 6 cr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 300 The Exceptional Individual
3 cr. Undergraduate.
An introduction to etiology, historic background, current service provisions, and issues and trends related to individuals with learning, sensory, behavioral, or physical handicapping conditions.
Prerequisites: none.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 301 American Sign Language I
3 cr. Undergraduate.
This course will introduce basic American Sign Language structure and study of deaf culture. Basic fingerspelling principles are also introduced.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 302 American Sign Language II
3 cr. Undergraduate.
This course will continue skills in American Sign Language, fingerspelling and the study of deaf culture.
Prerequisites: C or better in ExcEduc 301(P) or Level 1 ASLPI score.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 303 American Sign Language III
3 cr. Undergraduate.
Focus is on the development of intermediate level skills in American Sign Language, its structure and study of deaf culture.
Prerequisites: C or better in ExcEduc 302(P) or Level 1+ ASLPI score
Current Offerings: http://uwm.edu/schedule

EXCEDUC 304 American Sign Language IV
3 cr. Undergraduate.
Focus on the continuing development of intermediate level skills in American Sign Language, its structure and the study of deaf culture.
Prerequisites: C or better in ExcEduc 303(P) or Level 2 ASLPI score.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 305 American Sign Language V
3 cr. Undergraduate.
Advanced American Sign Language focusing on classifiers, fingerspelling, numeric techniques and grammar.
Prerequisites: C or better in ExcEduc 304 (P) or Level 2+ ASLPI score.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 306 American Sign Language VI
3 cr. Undergraduate.
Advanced American Sign Language focusing on register, colloquialisms, storytelling and poetry.
Prerequisites: C or better in ExcEduc 305(P).
Current Offerings: http://uwm.edu/schedule
EXCEDUC 320 Introduction to Interpreting: English to American Sign Language
3 cr. Undergraduate.
Theoretical and practical examination and development of various techniques of interpreting from English into American Sign Language through discourse analysis.
Prerequisites: grade of B or better in ExcEduc 303(P).
Last Taught: Summer 2017, Summer 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 321 Introduction to Interpreting: American Sign Language to English
3 cr. Undergraduate.
Theoretical and practical examination and development of various techniques of interpreting from American Sign Language to English through discourse analysis.
Prerequisites: grade of B or better in ExcEduc 303(P).
Last Taught: Summer 2017, Summer 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 330 Deaf History
3 cr. Undergraduate.
History of the Deaf Community in America primarily as well as in other countries.
Prerequisites: none.
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 335 Educational Interpreting I
3 cr. Undergraduate.
Explores issues related to interpreting for children in settings from pre-kindergarten through elementary. Analysis of impact of transitions on professional roles, responsibilities, and ethics.
Prerequisites: admis. to ITP program.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 336 Postsecondary Interpreting I
3 cr. Undergraduate.
Introductory knowledge/skills-based course that examines interpreting in a postsecondary environment, including both the technical college and university level.
Prerequisites: admis. to ITP program.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 337 Video Relay Services Interpreting I
3 cr. Undergraduate.
Introductory knowledge/skills-based course that examines interpreting via distance technology, including video relay and video remote interpreting.
Prerequisites: admis. to ITP program.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 338 Introduction to Healthcare Interpreting
3 cr. Undergraduate.
Introduction to the unique challenges of and skills for sign language interpreting in medical settings.
Prerequisites: admis. to ITP.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 345 Foundations of English to ASL Interpreting
3 cr. Undergraduate.
Techniques for changing an auditory English message into American Sign Language and vice versa.
Prerequisites: jr st & admis to ITP or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 346 Skill Development: Semantics
3 cr. Undergraduate.
Analysis of American Sign Language linguistics semantics. Focus of individual sign meanings, semantic grammar structure including colloquialisms and cultural influences on meanings of signs.
Prerequisites: C or better in ExcEduc 304(P) or Level 2+ ASLPI score
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 347 Foundations of ASL to English Interpreting
3 cr. Undergraduate.
development of English skills for the purposes of providing appropriate interpretations.
Prerequisites: admis to ITP or cons instr.
Course Rules: Not open to students with cr in ExcEduc 326(426).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 348 Introduction to the Profession of Interpreting
3 cr. Undergraduate.
Introduction to the professions and practices of interpreting. Focus on its history, philosophies, ethics, roles, resources and credentialing within the profession.
Prerequisites: none.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 349 Field work: Interacting in the Deaf Community I
3 cr. Undergraduate/Graduate.
Experiences of observation, actual interpreting, sign teaching and interaction with deaf community. Weekly seminar provides forum for feedback and processing experiences.
Prerequisites: jr st, admis to ITP, or cons instr.
Course Rules: Not open for cr to students with cr in ExcEduc 322(657).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 350 Interpreting: Spoken English to ASL II
3 cr. Undergraduate.
Practical application of the process of taking a spoken English message and converting it into American Sign Language. Emphasis on the consecutive mode.
Prerequisites: jr st & admis to ITP or cons instr.
Course Rules: Not open for cr to students with cr in ExcEduc 315.
Current Offerings: http://uwm.edu/schedule
EXCEDUC 351 Interpreting ASL to Spoken English II
3 cr. Undergraduate.
Continues to develop the skill of changing a message signed in ASL into spoken English. Consecutive mode practiced; individual appointments emphasized.
Prerequisites: admis to ITP, ExcEduc 345(P).
Course Rules: Not open for cr to students with cr in ExcEduc 316.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 352 American Deaf Culture
3 cr. Undergraduate.
The impact of Deaf culture on the Deaf community and Deaf education, understanding the Deaf person in a cultural context.
Prerequisites: none.
Course Rules: Not open for cr to students with cr in ExcEduc 340(650).
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 353 Introduction to Culturally Diverse Community Resources
3 cr. Undergraduate/Graduate.
Overview of community resources serving consumers with hearing impairments. Professionals and consumers from agencies and organizations will address needs as they relate to interpreting.
Prerequisites: jr st & admis to ITP or grad st, or cons instr.
Course Rules: Not open for cr to students with cr in ExcEduc 342(421).
Current Offerings: http://uwm.edu/schedule

EXCEDUC 354 Fieldwork: Interacting in the Deaf Community II
3 cr. Undergraduate/Graduate.
Continuation of ExcEduc 349: requires time observing, interpreting, teaching and community interaction. Weekly seminars continue to provide forum for processing of experiences.
Prerequisites: jr st & admis to ITP, ExcEduc 351(P) & 355(P), or cons instr.
Course Rules: Not open for cr to students with cr in ExcEduc 323(658).
Current Offerings: http://uwm.edu/schedule

EXCEDUC 355 Interpreting: ASL to Spoken English III
3 cr. Undergraduate.
Developing intermediate to advanced skills in simultaneously converting American Sign Language to spoken English.
Prerequisites: ExcEduc 345(P) & 350(P), & admis to ITP.
Course Rules: Not open for cr to students with cr in ExcEduc 318 or 319.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 356 Transliteration II
3 cr. Undergraduate.
Skills and theory necessary to change a spoken English message into the form of a signed English message and vice-versa.
Prerequisites: admis to ITP or cons instr.
Course Rules: Not open for cr to students with cr in ExcEduc 327 or 328.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 357 Issues and Trends for Educational Interpreters
3 cr. Undergraduate.
Historical and current issues affecting the education of students who are deaf and hard-of-hearing and their influence on the field of educational interpreting.
Prerequisites: admis to ITP.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 358 ASL/English Linguistics I
3 cr. Undergraduate/Graduate.
The linguistics of American Sign Language, exploring its structure and grammar, emphasizing its phonology and its comparison to English.
Prerequisites: C or better in ExcEduc 306(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 359 Fieldwork: Interacting in the Deaf Community III
3 cr. Undergraduate.
Continuation of ExcEduc 323: requires greater emphasis on interpreting, less on observation, teaching and community interaction. Weekly seminar continues for processing of experiences.
Prerequisites: ExcEduc 354(P) or 349(P); & admis to ITP.
Course Rules: Not open for cr to students with cr in ExcEduc 324.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 360 Transliteration/Oral I
3 cr. Undergraduate.
Introduction of the mechanics and skills needed for Transliteration and Oral Interpreting.
Prerequisites: admis to ITP, ExcEduc 350(P) & 355(P); or cons instr.
Course Rules: Not open to students with cr in ExcEduc 320.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 361 Interpreting: Spoken English to ASL III
3 cr. Undergraduate.
Developing intermediate to advanced skills in simultaneously converting spoken English into American Sign Language. Students will work with a variety of stimulus materials.
Prerequisites: admis to ITP, ExcEduc 351(P) & 355(P), or cons instr.
Course Rules: Not open for cr to students who have cr in ExcEduc 321.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 362 Specialized Interpreting Across Diverse Settings
3 cr. Undergraduate.
Guidelines for interpreting, transliterating, and voicing in a variety of settings, including vocational, legal, health related and performing arts.
Prerequisites: admis to ITP.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 363 ASL/English Linguistics II
3 cr. Undergraduate/Graduate.
Focus on the linguistics of American Sign Language, including emphasis on its morphology and syntax and its comparison to English.
Prerequisites: jr st, C or better in ExcEduc 358(P), or cons instr.
Current Offerings: http://uwm.edu/schedule
EXCEDUC 364 Fieldwork: Interacting in the Deaf Community IV
6-12 cr. Undergraduate.
Continuation of ExcEduc 359: requiring 70% focus on actual interpreting, the remainder on observation, teaching and community interaction. Seminar offers forum for processing experiences.
Prerequisites: ExcEduc 354(P) & 359(P) & admis to ITP.
Course Rules: May be retaken to 12 cr max. Not open for cr to students with cr in ExcEduc 325.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 365 Educational Interpreting II
3 cr. Undergraduate.
Issues related to interpreting for children from 6th through 12th grade. Use of various sign systems in educational settings, working conditions and attitudes, and DPI certification issues.
Prerequisites: admis. to ITP.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 366 Postsecondary Interpreting II
3 cr. Undergraduate.
Advanced knowledge/skills-based course that examines interpreting in a postsecondary environment, including technical college and university level.
Prerequisites: admis. to ITP.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 367 Video Relay Services Interpreting II
3 cr. Undergraduate.
Continuation of the VRS Foundations I course and will continue to be a knowledge/skills-based course that examines interpreting via distance technology, including video relay and video remote interpreting.
Prerequisites: admis. to ITP.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 368 Medical and Mental Healthcare Interpreting
3 cr. Undergraduate.
Prerequisites: admis. to ITP.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 371 Strategies for the National Interpreter Certification Exam
1 cr. Undergraduate.
Techniques and strategies for the knowledge and ethical skills required for the RID-NIC Knowledge Exam.
Prerequisites: grade of B- or better in ExcEduc 354(P).
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 372 Interpreter Training Program Capstone
3 cr. Undergraduate.
Integrates coursework, knowledge, skills and experiential learning to enable the student to demonstrate a broad mastery of learning across the curriculum for a promise of employability and further career advancement.
Prerequisites: ExcEduc 364(C).
Current Offerings: http://uwm.edu/schedule

EXCEDUC 375 Using Technology for Teaching and Learning
1 cr. Undergraduate.
Introduce students to various forms of technology used in the PK-12 classrooms.
Prerequisites: none.
Course Rules: Jointly offered with and counts as repeat of CurrIns 375.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 376 Understanding and Developing the edTPA
1 cr. Undergraduate.
In-depth overview of all components of the edTPA; practice of skills including video recording, uploading and compressing video, writing summaries.
Prerequisites: none.
Course Rules: Credit/no credit only. Jointly offered with and counts as repeat of CurrIns 376.
Last Taught: Fall 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 377 Wisconsin Foundations of Reading
1 cr. Undergraduate.
Foundational literacy assessment and instruction for diverse learners to prepare for the Wisconsin Foundations of Reading test. Focus on reading development grades PreK-8.
Prerequisites: none.
Course Rules: Jointly offered with and counts as repeat of CurrIns 377.
Credit/No Credit only.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 456 Seminar in Student Teaching
1-3 cr. Undergraduate.
Discussion seminar designed to bring continuity to the professional experience of the students.
Prerequisites: Jr st & conc reg in student teaching.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 472 Student Teaching with Students Having Hearing Impairments
1-12 cr. Undergraduate.
Prerequisites: sr st & cons dept; ExcEduc 650(P).
Course Rules: May be retaken to 15 cr max.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 473 Student Teaching with Students Having Cognitive Disabilities
1-12 cr. Undergraduate.
Prerequisites: sr st & cons dept; ExcEduc 640(P).
Course Rules: May be retaken to 15 cr max.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 475 Student Teaching with Students Having Emotional Disturbance
1-12 cr. Undergraduate.
Prerequisites: sr st & cons dept; ExcEduc 620(P).
Course Rules: May be retaken to 15 cr max.
Current Offerings: http://uwm.edu/schedule
EXCEDUC 478 Student Teaching with Students Having Learning Disabilities
1-12 cr. Undergraduate.
Prerequisites: sr st & cons dept; ExcEduc 610(P).
Course Rules: May be retaken to 15 cr max.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 481 Student Teaching with Students Having Early Childhood Exceptional Ed Needs
1-12 cr. Undergraduate.
Prerequisites: sr st & cons dept; ExcEduc 630(P).
Course Rules: May be retaken up to 18 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 486 Linking Seminar: Developing Reflective Practice
1-3 cr. Undergraduate.
Links formal course work and teaching experience. Focus on teaching in urban schools, accommodating diverse learners developing reflective practice and/or creating a professional development portfolio.
Prerequisites: admis to School of Educ.
Course Rules: Cr/no cr only; May not be retaken for cr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 487 Linking Seminar II: Primary/Middle-Behavioral Support, Planning, Assessment
1 cr. Undergraduate.
Links formal course work and teaching experience. Focus on becoming a reflective practitioner and development as a special education teacher.
Prerequisites: C or better in ExcEduc 305(P) or 306(P).
Current Offerings: http://uwm.edu/schedule

EXCEDUC 488 Linking Seminar: Professional Development
1 cr. Undergraduate/Graduate.
Links formal coursework and teaching experience. Focus on teacher as advocate and change agent and professional development.
Prerequisites: jr st; admis to School of Educ.
Course Rules: Cr/no cr only; May not be retaken.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 489 Linking Seminar II: Middle/High-Behavioral Support, Planning & Assessment
1 cr. Undergraduate.
Links formal coursework and teaching experience. Focus on organizing for instruction and emotional/behavioral support at the middle and high school level.
Prerequisites: ExcEduc 635(C) & 587(C); admis to ExcEduc prog or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 496 Linking Seminar III: Middle/High - Professional Development
1 cr. Undergraduate.
Links formal course work and teaching experience. Focus on supporting students with behavioral challenges, planning for and managing day-to-day teaching responsibilities, transition planning.
Prerequisites: admis to School of Educ.
Course Rules: Cr/no cr only;
Current Offerings: http://uwm.edu/schedule

EXCEDUC 497 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Directed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared course work.
Prerequisites: jr st, cons instr, acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 500 Fingerspelling & Numbers
3 cr. Undergraduate/Graduate.
Introduction to fingerspelling and numbers in ASL.
Prerequisites: jr st; C or better in ExcEduc 304(P) or Level 2+ ASLPI score.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 503 Job Development and On the Job Support for Students with Disabilities
3 cr. Undergraduate.
Overview of the career development process and a person-centered framework for job development and job support.
Prerequisites: ExcEduc 679(P)
Current Offerings: http://uwm.edu/schedule

EXCEDUC 505 Transition Assessment for Individuals with Disabilities
3 cr. Undergraduate.
Transition assessments related to training, education, employment, and living skills for students with disabilities.
Prerequisites: ExcEduc 679(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 507 Linking Academics and Self-Determination to Transition Planning
3 cr. Undergraduate.
Youth development and the importance of preparing youth to take the lead in their education, career development, and community participation.
Prerequisites: ExcEduc 679(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 510 Classifiers
3 cr. Undergraduate/Graduate.
Study of the classifier system of ASL.
Prerequisites: jr st; C or better in ExcEduc 305(P) or 306(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule
EXCEDUC 520 ASL Literature
3 cr. Undergraduate/Graduate.
Introduction to the analysis of ASL Literature.
Prerequisites: jr st; C or better in ExcEduc 306(P), or cons. instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 531 Inclusion for Secondary Educators: Humanities, the Arts, Foreign Language
3 cr. Undergraduate/Graduate.
Understanding the needs of secondary level students with handicaps, emphasizing methods of assessment and programming in mainstreamed settings.
Prerequisites: jr st & admis to School of Educ; or grad st.
Course Rules: Counts as repeat of ExcEduc 530 and 605.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 532 Assessment and Monitoring
3 cr. Undergraduate/Graduate.
Roles and responsibilities in district-wide and alternative assessment, developing monitoring systems, report writing, equitable and just assessment practices.
Prerequisites: admis to Post-Bac Cert prog or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 533 Assessment/Monitoring : Deaf & Hard of Hearing
1 cr. Undergraduate/Graduate.
Prerequisites: admis to Post-Bac Cert prog or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 536 Inclusion for Secondary Science and Math Educators
1 cr. Undergraduate/Graduate.
History and legislation related to Special Education, characteristics of various disabilities, overview of universal design for learning (UDL), and accommodations and modifications of curriculum and instruction to meet the needs of all learners.
Prerequisites: jr st, admis to teacher cert prog.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 537 Math and Science Methods for All Learners
1 cr. Undergraduate/Graduate.
Lesson and unit planning that incorporates curriculum and instructional strategies designed to include students with identified disabilities, in collaboration with special educators.
Prerequisites: jr st, admis to teacher cert prog.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 538 Teaching Math and Science to All Learners
1 cr. Undergraduate/Graduate.
Practicum working with students with disabilities in general education settings focused on the planning and delivery of lessons in inclusive classrooms, in collaboration with special educators.
Prerequisites: jr st, admis to teacher cert prog.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 547 Comparative Special Education
3 cr. Undergraduate/Graduate.
Special education legislation, instruction, and policies in a variety of social and cultural contexts.
Prerequisites: jr st., completion of OWC-Part A
General Education Requirements: OWCB
Current Offerings: http://uwm.edu/schedule

EXCEDUC 548 Introduction to Disability Studies
3 cr. Undergraduate/Graduate.
Focuses on understanding disability from a variety of perspectives: historical, political, social, cultural, literary, personal, and artistic. Disability is viewed in a manner closer to ethnic, gender, and sexuality studies.
Prerequisites: jr st, OWC Part A; or grad st.
General Education Requirements: OWCB
Current Offerings: http://uwm.edu/schedule

EXCEDUC 555 Communication in the Classroom I: Deaf/Hard of Hearing
3 cr. Undergraduate/Graduate.
Developing proficiency and instructional skills in using manual communication for individuals who are deaf or hard of hearing in the educational context.
Prerequisites: must pass competency test in basic aspects of manual communication prior to registration; jr st; admis to Post-Bac Cert prog or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 556 Communication in the Classroom II: Deaf/Hard of Hearing
3 cr. Undergraduate/Graduate.
Linguistic analysis and curriculum planning for facilitating the development of communication in students who are deaf or hard of hearing.
Prerequisites: ExcEduc 680(P) & 681(P). Admis to Post-Bac Cert prog or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 557 Foundations of Autism Spectrum Disorders
3 cr. Undergraduate/Graduate.
Examination of characteristics of individuals with autism spectrum disorders. Focus on causes, prevalence, assessment, diagnosis, and impact on personal lives.
Prerequisites: jr st or cons instr; grade of C or better in English 102(P) or score at level 4 on EPT.
General Education Requirements: OWCB
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 558 Communication in the Classroom I: Deaf/Hard of Hearing
3 cr. Undergraduate/Graduate.
Developing proficiency and instructional skills in using manual communication for individuals who are deaf or hard of hearing in the educational context.
Prerequisites: must pass competency test in basic aspects of manual communication prior to registration; jr st; admis to Post-Bac Cert prog or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 559 Communication in the Classroom II: Deaf/Hard of Hearing
3 cr. Undergraduate/Graduate.
Linguistic analysis and curriculum planning for facilitating the development of communication in students who are deaf or hard of hearing.
Prerequisites: ExcEduc 680(P) & 681(P). Admis to Post-Bac Cert prog or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 560 Foundations of Autism Spectrum Disorders
3 cr. Undergraduate/Graduate.
Examination of characteristics of individuals with autism spectrum disorders. Focus on causes, prevalence, assessment, diagnosis, and impact on personal lives.
Prerequisites: jr st or cons instr; grade of C or better in English 102(P) or score at level 4 on EPT.
General Education Requirements: OWCB
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 561 Methods for Working with Individuals with Autism Spectrum Disorders
3 cr. Undergraduate/Graduate.
Strategies for special education teachers and others for effectively working with individuals with autism spectrum disorders. Overview of instructional issues, inclusion, and curriculum development.
Prerequisites: jr st, C or better in ExcEduc 560(P) or cons instr.
Current Offerings: http://uwm.edu/schedule
EXCEDUC 562 Hearing Science
3 cr. Undergraduate/Graduate.
Overview of physical and psycho-physical concepts of hearing science, speech mechanism, audiological evaluation and implications for the educational context.
Prerequisites: admis to Post-Bac Cert prog or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 563 Speechreading/Auditory Rehabilitation
3 cr. Undergraduate/Graduate.
Techniques for teaching speech, speechreading, listening, and auditory training for children who are deaf or hard of hearing.
Prerequisites: admis to Post-Bac Cert prog or cons instr; ExcEduc 562(P); jr st.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 564 Communication Methods Practicum
3 cr. Undergraduate/Graduate.
Field experience with individuals with hearing impairments in schools. Emphasis on spoken and sign language development. Includes scheduled class and demonstrations.
Prerequisites: jr st; admis to School of Educ or grad st; ExcEduc 541, 562 & 563, or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 565 Techniques of Teaching School Subjects to Individuals w/ Hearing Impairments II
3 cr. Undergraduate/Graduate.
Methods of teaching social studies, science, and mathematics as related to the language needs of students with hearing impairments and academic deficiencies.
Prerequisites: jr st & admis to School of Educ, or grad st; ExcEduc 560 & 561 or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 568 Curriculum and Methods for Special Education: Birth to Three
3 cr. Undergraduate/Graduate.
Designed for teachers serving infants and toddlers with disabilities and their families.
Prerequisites: jr st; admis to ExcEduc prog; ExcEduc 647(C).
Current Offerings: http://uwm.edu/schedule

EXCEDUC 569 Curriculum and Methods for Special Education: Preschool
3 cr. Undergraduate/Graduate.
Designed for teachers serving preschool children with disabilities and their families.
Prerequisites: jr st; admis to ExcEduc prog; ExcEduc 648(C).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 570 Curriculum and Methods for Special Education: Primary
3 cr. Undergraduate/Graduate.
Designed for teachers serving primary children with disabilities and their families.
Prerequisites: jr st; admis to ExcEduc prog; ExcEduc 649(C).
Current Offerings: http://uwm.edu/schedule

EXCEDUC 571 Curriculum Accommodations I: Primary/Middle
1-3 cr. Undergraduate/Graduate.
Determine individualized goals within a broad curriculum framework and develop strategies for making accommodations in teaching methods, materials and class set-up.
Prerequisites: admis to Post-Bac Cert prog or cons instr; jr st; ExcEduc 587(C).
Course Rules: May be retaken to 6 cr max.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 574 Curriculum Accommodations II: Primary/Middle
3 cr. Undergraduate/Graduate.
In-depth experience in IEP planning and scheduling to accommodate students with highly individualized needs within the academic curriculum.
Prerequisites: ExcEduc 571(P), 588(C). Admis to post-bac cert prog or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 576 Curriculum Accommodations III: Functional for Middle to High Students
3 cr. Undergraduate/Graduate.
Planning and scheduling for students with highly individualized goals, including school-to-work, while striving to integrate these goals into a well-coordinated program.
Prerequisites: admis to Post-Bac cert prog or cons instr.
Last Taught: Fall 2005, Fall 2004, Fall 2003, Fall 2002.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 579 Current Topics in Exceptional Education: 1-3 cr. Undergraduate/Graduate.
Specific topic announced in Schedule of Classes each time course is offered.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 580 An Overview of Child/Youth Care
3 cr. Undergraduate/Graduate.
Survey of skills, theories and approaches of the youth work field. Emphasis on interactive, developmental and relationship-building approaches in a variety of settings.
Prerequisites: jr st or cons instr.
Course Rules: Ed Pol/ExcEduc/Soc Wrk 580 are jointly offered & count as repeats of each other.
Last Taught: Fall 2014, Fall 2012, Fall 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 585 Supervised Practicum in Child and Youth Care
2-4 cr. Undergraduate/Graduate.
Supervised practicum in residential agencies and settings which utilize child and youth care workers and serve behaviorially, cognitively and/or physically disabled youth.
Prerequisites: jr st; Ed Pol/ExcEduc/Soc Wrk 580(P), or grad st; cons instr.
Course Rules: Ed Pol/ExcEduc 585 are jointly offered & count as repeats of each other.
Last Taught: Spring 2018, Fall 2017.
Current Offerings: http://uwm.edu/schedule
EXCEDUC 586 Teaching Experience I
1-12 cr. Undergraduate/Graduate.
Placement with a regular education teacher. Focus on understanding regular curriculum framework and experience teaching small groups.
Prerequisites: jr st; admis to Post-Bac Cert prog.
Course Rules: C/t/no cr only; may be retaken to 15 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 587 Teaching Experience II
1-12 cr. Undergraduate/Graduate.
Placement with exceptional education teacher. Focus on small group instruction, understanding teaching responsibilities and collaboration. On-the-job option available through application.
Prerequisites: jr st; admis to cert prog in ExcEduc; or cons instr.
Course Rules: May be retaken to 15 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 588 Teaching Experience III
1-12 cr. Undergraduate/Graduate.
Placement with exceptional education teacher. Full teaching responsibility is assumed. On-the-job option available through special application.
Prerequisites: jr st; admis to cert prog in ExcEduc; or cons instr.
Course Rules: May be retaken to 15 cr max.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 589 Workshop in Exceptional Education:
1-6 cr. Undergraduate/Graduate.
Variable content format examines assessment and/or methodological strategies appropriate for educators working with broad range of handicapped children and adolescents.
Prerequisites: jr st; cons instr or workshop dir.
Course Rules: May be retaken w/chg in topic to max of 6 cr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 595 Technology Applications for Diverse Learners
3 cr. Undergraduate/Graduate.
Explores the use of technology to enhance the academic performance of diverse students in inclusive classrooms.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 600 Survey of Exceptional Education
3 cr. Undergraduate/Graduate.
History, theories, research, and practices related to individuals with learning, sensory, behavioral or physical handicapping conditions.
Prerequisites: sr st & admis to School of Educ; or grad st.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 601 Behavioral Supports
3 cr. Undergraduate/Graduate.
Addresses needs of students with challenging behaviors. Emphasis on working collaboratively to conduct functional behavioral analysis.
Prerequisites: admis to Post Bac Cert prog or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 602 Resources and Instruction in American Sign Language
3 cr. Undergraduate/Graduate.
Course focuses on assessment and methodology components in teaching ASL as a foreign language.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 605 Child, Learner, Disabilities
3 cr. Undergraduate/Graduate.
Perspectives on disability; learning characteristics associated with disabilities; historical, legal and philosophical foundations; child mentoring and advocacy linked with a family-based practicum.
Prerequisites: admis to Post-Bac Cert prog or cons instr.
Course Rules: Counts as repeat of ExcEduc 530 and 531.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 607 Working with Culturally Diverse Deaf Students
3 cr. Undergraduate/Graduate.
Discusses the educational and culturally diverse backgrounds of deaf students in the schools.
Prerequisites: none.
Course Rules: Counts as repeat of ExcEduc 579 with similar topic.
Last Taught: Summer 2006.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 608 Multicultural Learning and Teaching in Special Education
3 cr. Undergraduate/Graduate.
Covers theoretical and practical applications of multicultural issues to learning and teaching in special education.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 612 Collaborations for Teachers with Families, Schools, and Communities
3 cr. Undergraduate/Graduate.
Theory/strategies for developing effective family-school relationships, with a focus on urban issues, inclusive classrooms, teacher-family communications, family education and support, and community resources for teachers.
Prerequisites: jr st.
Course Rules: Counts as repeat of CurrIns 505 and ExcEduc 651. Jointly offered with and counts as repeat of CurrIns 612.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 613 Infant and Early Childhood Assessment
3 cr. Undergraduate/Graduate.
Theoretical and applied aspects of early childhood assessment. Experience administering specific individual and group (screening) tests. Assessment of language, cognition, motor, adaptive behavior, developmental delay.
Prerequisites: jr st.
Course Rules: Counts as repeat of Ed Psy 575. Jointly offered with and counts as repeat of Ed Psy 613.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
EXCEDUC 630 Survey of EC Intervention: Young Children with Special Needs, Families
3 cr. Undergraduate/Graduate.
Introduction to etiology, historic background, current service provisions, and issues and trends as related to infants, toddlers, and preschoolers with disabilities and their families.
Prerequisites: jr st & admis to School of Educ; or grad st.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 631 Methods for Teaching Communication Skills to Students with Severe Disabilities
3 cr. Undergraduate/Graduate.
Study of assessment, instructional, and augmentative techniques for teaching and providing communication (vocal and non-vocal) to students with severe disabilities.
Prerequisites: sr st; ExcEduc 665(410)(P), ComsDis 240(P), or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 633 Interdisciplinary Team Field Experience in Urban Settings
2 cr. Undergraduate/Graduate.
Field experience is designed to develop student's skills as members of interdisciplinary teams in urban community settings.
Prerequisites: jr st; ExcEduc 634(C).
Current Offerings: http://uwm.edu/schedule

EXCEDUC 634 Collaborative Consultation/Teaming-Serving Young Children with Disabilities
3 cr. Undergraduate/Graduate.
Focus on development of collaboration and consultation skills for professionals employed in interdisciplinary and interagency settings.
Prerequisites: jr st.
Course Rules: ExcEduc 634, Occthpy 634, & ComSDis 634 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 635 Individualized Planning & Instructional Methods
2-3 cr. Undergraduate/Graduate.
Methods and strategies for teaching and evaluating adolescents with disabilities. Special emphasis given to individual educational programs, lesson planning and scheduling.
Prerequisites: jr st; admis to Post-Bac cert prog or cons instr; ExcEduc 487(C) & 587(C) or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 636 Curriculum Accommodations
2-3 cr. Undergraduate/Graduate.
Methods and strategies for teaching and evaluating adolescents with learning disabilities, emotional disturbance and cognitive disabilities. Special emphasis given to developing individual adaptations and modifications.
Prerequisites: jr st; admis to Post-Bac Cert prog or cons instr; ExcEduc 635(P); 488(C) & 588(C) or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 644 Enhancing Literacy Learning for Diverse Learners:
3 cr. Undergraduate/Graduate.
Teaching reading and writing to diverse learners.
Prerequisites: currently teaching with at least 2 yrs experience; cons instr.
Course Rules: Jointly offered with & subtitles count as repeat of same title of CurrIns 644. CurrIns 644 & ExcEduc 644 may be retaken with change of topic to combined 9 cr max.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 647 Early Childhood Special Education Field Experience: 0 to 3 Yrs
3 cr. Undergraduate/Graduate.
Provides urban experiences in early intervention programs to develop teaching skills in birth to three programs.
Prerequisites: jr st; admis to ExcEduc prog.
Course Rules: May be retaken to 9 cr max.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 648 Early Childhood Special Education Field Experience: Preschool
3 cr. Undergraduate/Graduate.
Practicum provides urban teaching experiences in preschool programs to develop skills for working with 3-to-5 year olds with special needs and their families.
Prerequisites: jr st; admis to ExcEduc prog.
Course Rules: May be retaken to 9 cr max.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 649 Early Childhood Special Education Field Experience: Primary
3 cr. Undergraduate/Graduate.
Practicum provides urban teaching experiences in primary school-age programs to develop skills for working with 1st to 3rd graders with special needs and their families.
Prerequisites: jr st; admis to ExcEduc prog.
Course Rules: May be retaken to 9 cr max.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 651 Working With Families in Urban Communities
3 cr. Undergraduate/Graduate.
Familial and ecological factors affecting individuals with disabilities and their caregivers including in-depth experiences with a family who has a young child with special needs.
Prerequisites: jr st.
Last Taught: Spring 2015, Fall 2013, Fall 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 652 Developmental Evaluation of Young Children with Disabilities
3 cr. Undergraduate/Graduate.
The major functions of assessment used by Early Childhood Special Educators.
Prerequisites: jr st; ExcEduc 651(P).
Current Offerings: http://uwm.edu/schedule
EXCEDUC 655 Introduction to Education of Individuals Who are Deaf and Hard of Hearing
3 cr. Undergraduate/Graduate.
Overview of educational programs and policies for pre K-12 students who are deaf and hard of hearing.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 662 Collaborative Strategies
3 cr. Undergraduate/Graduate.
Provides the teacher with techniques that will assist in establishing relationships with other professionals, parents, and community agencies.
Prerequisites: jr st, ExcEduc 300(P), 600(P), or 605(P); admis to Post-Bac Cert prog or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 665 Language and Literacy for the Exceptional Student
3 cr. Undergraduate/Graduate.
An overview of the theoretical underpinnings for language and literacy practices, assessments, and methods of facilitating growth in students with exceptional education needs.
Prerequisites: ExcEduc 300 or equiv; ComsDis 240, jr st & admis to School of Educ or grad st.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 671 Behavior Support & Intervention for Mid/High Students with Disabilities
3 cr. Undergraduate/Graduate.
Techniques in arranging academic and social environments for adolescents having learning and social problems.
Prerequisites: admis to Middle/High prog; cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 676 Learning Strategies II: Cognitiv/Metacognitv Intervnmns- Mild Hndicapd Stntns
3 cr. Undergraduate/Graduate.
Indepth analysis of strategy instruction for use with adolescents with mild handicaps.
Prerequisites: jr st, ExcEduc 675, cons instr; teacher certification.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 679 Critical Issues in Transition Planning for Students with Disabilities
3 cr. Undergraduate/Graduate.
Understanding transition planning and tools to effectively assist students with disabilities in the transition process.
Prerequisites: jr st.
Course Rules: Counts as repeat of ExcEduc 589 with similar topic.
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 680 Literacy I
3 cr. Undergraduate/Graduate.
Observing and assessing reading and writing; implementing basic strategies toward supporting reading and writing development; becoming a motivated reader/writer.
Prerequisites: admis to the Post-Bac Cert prog or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 681 Literacy II
3 cr. Undergraduate/Graduate.
Organizing and implementing literacy instruction. Addressing the individual strengths and needs in communication of students with disabilities.
Prerequisites: ExcEduc 680(P); admis to the Post-Bac Cert prog or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 682 Language and Literacy in Early Childhood Special Education
3 cr. Undergraduate/Graduate.
Methods in language and literacy instruction for children with special needs including study of first and second language development in children birth through age eight.
Prerequisites: jr st; admis to Post-Bac cert prog, or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 684 Multisensory Structured Language Teaching
3 cr. Undergraduate/Graduate.
Advanced study of dyslexia and how to implement remedial approaches to literacy. Includes a required practicum experience.
Prerequisites: Post-bac status or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 685 Advanced Methods in Learning Disabilities
3 cr. Undergraduate/Graduate.
Examination of recommended instructional practices in the areas of literacy, mathematics, organization and study skills, social interactions and self-advocacy.
Prerequisites: grad st or admis to Post-Bac Cert prog or cons instr.
Course Rules: Counts as repeat of ExcEduc 589 with same topic.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 699 Independent Reading
1-3 cr. Undergraduate/Graduate.
Examination of recommended instructional practices in the areas of literacy, mathematics, organization and study skills, social interactions and self-advocacy.
Prerequisites: jr st & admis to School of Educ or grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 703 Vocational Aspects in Rehabilitation and Exceptional Education
3 cr. Graduate.
Disability and case management practices for severely disabled persons. Emphasis on return-to-work interventions: vocational evaluation, work adjustment, job placement, accommodation, ergonomics.
Prerequisites: grad st; ExcEduc 679(P) or Couns 601(C).
Course Rules: Jointly offered with & counts as repeat of Couns 703.
Last Taught: Spring 2002.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 705 Understanding Culture and Ethnicity in the Transition Process
3 cr. Graduate.
This course will provide an overview of the importance of culture & ethnicity in the transition process for students with disabilities.
Prerequisites: grad st; ExcEduc 679(P); cons instr.
Last Taught: Fall 2002.
Current Offerings: http://uwm.edu/schedule
EXCEDUC 707 Infusing Socio-Sexual Issues into Transition Planning
3 cr. Graduate.
This course is designed to discuss socio-sexual issues & facilitate participants’ development of skills needed to infuse socio-sexual issues into transition planning.
Prerequisites: grad st; ExcEduc 679(P); cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 708 Student, Family & Community Involvement in the Transition Planning Process
3 cr. Graduate.
This course is designed to explore trends & strategies relative to the development of self determination skills, person-centered planning & educators as consultants in transition planning.
Prerequisites: grad st; exceduc 679(P); cons instr.
Last Taught: Fall 2001.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 715 Issues and Trends in Exceptional Education
3 cr. Graduate.
Designed for students with entry level experience in exceptional education, the course reviews the exceptional education populations, methodology and current issues and trends.
Prerequisites: grad st; ExcEduc 300 or equiv or cons dept.
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 730 Assistive and Instructional Technology for Students with Disabilities
3 cr. Graduate.
Introduction to special education technology emphasizing applications for students with disabilities and their teachers.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 735 Technology & Instruction for Students with Disabilities
3 cr. Graduate.
Curriculum intergration models and technology integration strategies for enhancing educational outcomes of students with disabilities.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 740 Universal Design for Learning: Research and Practice
3 cr. Graduate.
Study of research in universal design for learning and design of classroom interventions that enhance the performance of students with disabilities and their non-handicapped peers.
Prerequisites: grad st.
Course Rules: Counts as repeat of ExcEduc 779 with same topic.
Last Taught: Spring 2011, Summer 2009.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 760 Foundations of Autism Spectrum Disorders
3 cr. Graduate.
Examination of characteristics of individuals with autism spectrum disorders. Focus on causes, prevalence, assessment, diagnosis, and impact on personal lives.
Prerequisites: grad st
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 761 Methods for Working with Individuals with Autism
3 cr. Graduate.
Strategies for special education teachers and others for effectively working with individuals with autism spectrum disorders. Overview of instructional issues, inclusion, and curriculum development.
Prerequisites: grad st.; ExcEduc 760(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 762 Academic/Social Challenges of Individuals with ASD: Adv. Interventions
3 cr. Graduate.
Intervention and Supports for Individuals with high functioning Autism and Asperger Syndrome.
Prerequisites: grad st.; ExcEduc 760(P) and ExcEduc 761(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 765 Assistive Technology Service Delivery in Schools
3 cr. Graduate.
Introduction to legal, legislative, and policy foundations guiding the creation and delivery of assistive technology services in schools, clinics and agencies.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 770 Seminar: Research on Individuals With Special Needs
3 cr. Graduate.
Recent research relevant to individuals with handicapping conditions.
Prerequisites: grad st; ExcEduc 300(P) or 600(P).
Current Offerings: http://uwm.edu/schedule

EXCEDUC 771 Field Work with Students Having Exceptional Education Needs
3 cr. Graduate.
Prerequisites: grad st; cons dept.
Course Rules: Retakable to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Fall 2016, Spring 2016.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 772 Field Work with Students Having Hearing Impairments
1-3 cr. Graduate.
Prerequisites: grad st; cons dept.
Course Rules: Retakable to 9 cr max.
Last Taught: Fall 2017, Fall 2016, Summer 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 773 Field Work with Students Having Cognitive Disabilities
3 cr. Graduate.
Prerequisites: grad st; cons dept.
Course Rules: Retakable to 9 cr max.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 775 Field Work: Individuals with Autism Spectrum Disorders
3 cr. Graduate.
Prerequisites: grad st; ExcEduc 760(P) & ExcEduc 761(C) or cons instr
Last Taught: Fall 2017, Spring 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule
EXCEDUC 776 Fieldwork with Students Having Early Childhood-Exceptional Education Needs
1-3 cr. Graduate.
Prerequisites: grad st; cons dept.
Course Rules: Retakable to 9 cr max.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 777 Fieldwork in Assistive Technology
1-6 cr. Graduate.
Provides students with a school- or clinic-based experience in the delivery of assistive technology services.
Prerequisites: grad st & cons instr.
Course Rules: ExcEduc 777 & Occthy 777 are jointly offered; they count as repeats of one another. May be retaken for 9 cr max.
Last Taught: Spring 2016, Fall 2014, Spring 2010.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 778 Field Work with Students Having Learning Disabilities
3 cr. Graduate.
Prerequisites: grad st; cons dept.
Course Rules: Retakable to 9 cr max.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 779 Current Topics in Exceptional Education:
1-3 cr. Graduate.
Specific topic announced in schedule of classes each time course is offered.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 780 Internship in Special Education Administration
3 cr. Graduate.
Students will work with selected administrators in the field of special education administration.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 790 Administration of Pupil Services
3 cr. Graduate.
Review and analysis of pupil service programs in K-12 education, considers historical, legal and professional proactive standards.
Prerequisites: grad st; Ad Ldsp 710(P); 752(P); cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 799 Independent Reading
1-3 cr. Graduate.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 801 Urban Education: Doctoral Seminar in Exceptional Education
3 cr. Graduate.
Examination of research on exceptional education in urban settings including topics related to students in general and special education environments.
Prerequisites: grad st; admis to urban educ doctoral prog; Educ 701.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 805 Legislative and Legal Aspects of Exceptional Education
3 cr. Graduate.
Legislative and legal factors involved in educating individuals with handicapping conditions.
Prerequisites: grad st; ExcEduc 600.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 815 Capstone Course In Special Education
3 cr. Graduate.
Culmination of course work during the graduate program leading to the development of the thesis or graduate project.
Prerequisites: grad st; ExcEduc 715(P).
Last Taught: Fall 2014, Summer 2014, Fall 2013, Summer 2013.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 861 Foundations in Student Services and Special Education Administration
3 cr. Graduate.
Sets the foundation for leadership in special education and student services in the context of integrated comprehensive services and student diversity.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 880 Proseminar in Urban Education: Exceptional Education
3 cr. Graduate.
An examination of selected problems and issues in urban education.
Prerequisites: grad st; admis to Urban Educ doctoral prog.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr will be assessed.
Last Taught: Fall 2015, Summer 2015, Spring 2013, Fall 2010.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 890 Master's Research Project
1-6 cr. Graduate.
Research project for master's degree in Exceptional Education.
Prerequisites: grad st; cons instr
Course Rules: Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule
EXCEDUC 900 Seminar: Urban Issues in Exceptional Education
3 cr. Graduate.
Analysis of societal forces affecting special education, teachers, and pupils in an urban environment. Emphasis on social-political-economic and human-relations factors operant in special education programs.
Prerequisites: grad st; cons instr.
Last Taught: Spring 2017.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 950 Seminar: Research on Mental Retardation
3 cr. Graduate.
Review of literature in mental retardation. Evaluation of recent research.
Prerequisites: grad st; ExcEduc 640.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 953 Seminar on Early Intervention: Infants/Young Children with Special Needs & Families
3 cr. Graduate.
Analysis of research and contemporary issues in early intervention for infants, toddlers, and preschoolers with special needs and their families.
Prerequisites: grad st; ExcEduc 630 or 640 or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 955 Seminar: Research on Students with Severe Handicaps
3 cr. Graduate.
Analysis of the contemporary issues and trends in the field of the education of students with severe handicaps.
Prerequisites: grad st, ExcEduc 556 or cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 960 Seminar: Administration/Supervision of Programs for Exceptional Individuals
3 cr. Graduate.
Administration, supervision, philosophy, organization, and federal and state legislation affecting individuals with handicapping conditions.
Prerequisites: grad st, ExcEduc 300 or 600.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 961 Advanced Analysis and Design of Student Service and Special Education Administration
3 cr. Graduate.
Advanced analysis and design of organization and leadership of integrated comprehensive services for all learners.
Prerequisites: grad st; ExcEduc 861(P).
Current Offerings: http://uwm.edu/schedule

EXCEDUC 975 Seminar: Research on Individuals with Hearing Impairments
3 cr. Graduate.
Review of literature on hearing impairments and education of individuals with hearing impairments. Evaluation of recent research.
Prerequisites: grad st; ExcEduc 650.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 990 Research or Thesis
1-6 cr. Graduate.
For benefit of superior graduate students unable to secure needed content in regular courses.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

EXCEDUC 999 Independent Reading
1-3 cr. Graduate.
For benefit of superior graduate students unable to secure needed content in regular courses.
Prerequisites: grad st; cons instr.
Last Taught: Fall 2017, Spring 2015, Fall 2014, Fall 2012.
Current Offerings: http://uwm.edu/schedule

Advanced Study in Teaching and Learning, Graduate Certificate

This certificate provides individual teachers with the knowledge, skills, and research tools to make evidence-based claims as to their effectiveness in the classroom. The set of five, 3-credit graduate courses prepares professionals with the knowledge base needed to engage in data-driven, action research that draws from the use of formative, benchmark, and summative assessments and leads to effective upgrades in instruction. Certificate completers will be positioned to become school and district leaders having an integrated set of instruction, assessment, and research skills needed to advance student achievement levels in their respective disciplines.

Certificates of Advanced Study in Teaching and Learning may be earned in the following areas:

- Science
- Mathematics
- Reading
- Social Studies
- Interdisciplinary Studies
- English
- Literary Studies
- Adolescent Literature
- Children’s Literature
- Writing
- Second Language Acquisition

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Applicants must have a bachelor’s degree with an undergraduate GPA of 2.75 or a graduate degree with a minimum 3.0 GPA.

Application
- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the
Panthera application before completing 6 credits in the certificate sequence.

- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

**Credits and Courses**

Five required, 3-credit, graduate-level courses. Total credits: 15

**Total Credits** 15

**Certificate Requirements**

**Transfer Credit**

No more than 20% of the required credits may be taken at an institution other than UWM. Transfer credits will be considered only if the applicant can provide ample, acceptable evidence that the course taken is substantially the same as one of the first three courses that constitute the certificate program. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

**Grade Point Average Requirement**

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

**Articulation with Degree Programs**

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   - Degree programs must approve the courses from certificates that can double count toward the degree.
   - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.

3. A course may count toward no more than one certificate and one degree.

4. Students may not earn a certificate subsequent to a concentration in the same area.

**Time Limit**

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

**Arts Integration and Learning, Undergraduate Certificate (School of Education)**

The Certificate in Arts Integration and Learning is a 15 credit, multidisciplinary program offered jointly by the Department of Art and Design in the Peck School of the Arts and the Department of Curriculum & Instruction in the School of Education.

This program is designed to give undergraduate and post baccalaureate students an understanding of best practices in arts integration with an emphasis on project based learning through students’ capstone experience. The Certificate is for students in any teacher certification program at the University of Wisconsin-Milwaukee, but especially for Early Childhood Education; Middle Childhood/Early Adolescence Education; Art, Music, Dance, or Theatre Education students who wish to complement their major with an additional concentration in Arts Integration.

The Certificate in Arts Integration and Learning is also open to all students seeking a Bachelor’s degree or post baccalaureate certification from UWM and to students who previously received a Bachelor’s degree with teacher certification from UWM or any other accredited college or university. Additionally, the Certificate is open to non-degree students who have a strong interest in this area. Students completing...
the Certificate not in conjunction with a degree must be admitted to the university as non-degree students and meet regular university admission requirements. Students completing the Certificate not in conjunction with a degree are not eligible for financial aid.

Requirements

Students must achieve a grade point average of 2.5 or above in all courses counting towards the Certificate. Courses counting for the Certificate may not be taken on a credit/no credit basis.

Autism Spectrum Disorders, Graduate Certificate

The Graduate Autism Spectrum Disorder Certificate program is an interdisciplinary certificate where the broad goal is to provide a foundation in the causes and characteristics of ASD, and interventions in various areas (e.g., communication, sensory needs, etc.). In addition, this certificate addresses challenges with assessment and early identification of children with ASD in diverse communities. The elective courses address areas related to addressing the unique needs of individuals on the spectrum, such as their language development needs and behavioral needs.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
• Applicants with a graduate degree must have a minimum 3.0 graduate grade point average.

Application
• Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
• All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
• Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
• Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted to a certificate program.

Credits and Courses
This certificate program requires 15-18 credits. Students take two required courses and then, in consultation with the Program Coordinator, they choose to take their remaining 9 elective credits, either within the Communication, Psychology, or Exceptional Education strand. Students who do not choose to focus on a specific strand would take courses across strands equaling 9 elective credits total. Students may choose to add an additional 3 credit field/clinical course to their certificate program, bringing the total number of credits to 18.

EXCEDUC 775 Field Work: Individuals with Autism Spectrum Disorders (All semesters) 1 3

Total Credits 9

1 Prerequisites EXCEDUC 760 & EXCEDUC 761; may be taken concurrently with EXCEDUC 761.

Optional 3 Credit Field Course

Code Title Credits
Select one of the following: 3
EXCEDUC 775 Field Work: Individuals with Autism Spectrum Disorders (All semesters) 1
PSYCH 692 Field Placement in Psychology (U/G) (Fall)

Total Credits 3

1 Prerequisites EXCEDUC 760 & EXCEDUC 761; may be taken concurrently with EXCEDUC 761.

Certificate Requirements

Transfer Credit
No more than 20% of the required credits may be taken at an institution other than UWM. Courses will be considered for transfer into the certificate program only if the applicant can provide ample, acceptable evidence that the course taken is substantially the same as the course being substituted. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   • Degree programs must approve the courses from certificates that can double count toward the degree.
   • All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   • Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.

3. A course may count toward no more than one certificate and one degree.

4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit
Certificate program time limits shall be established as follows:

• 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
• 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

Autism Spectrum Disorders, Undergraduate Certificate

The Autism Spectrum Certificate program will train students to help persons with an autism spectrum disorder (ASD) in numerous settings. Potential students include therapists and family members working with children at home, special and general education teachers working with children in school settings, and job coaches working with young adults and adults in the work place.

Through courses, field experiences, and other planned learning experiences, students will critically examine the characteristics, etiology, and prevalence of ASD and related disorders; understand assessment, diagnosis, and intervention; learn how to work with family members of individuals with ASD; understand the language, communication, and social needs of individuals with ASD; and learn to apply interventions.

Undergraduate Advising

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

How to Prepare for an Advising Meeting

• Review your Advisement Report in PAWS (http://uwm.edu/registrar/academic-unit-services/paws-academic-advisement).
• Come prepared with questions or topics for discussion.
• Make a list of courses you think you should take.
• Investigate opportunities to prepare for the job you want.
• Keep a record of your academic progress.
• Understand you are ultimately responsible for creating your educational, life, and career plans.
• Maintain honest and open communication with your advisor.
• Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

Scheduling an Appointment

Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

Walk-In Hours

Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

Transfer Student Not Yet Enrolled at UWM?

If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

Graduate Advising

If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

Bilingual Education (Supplemental), Minor

The University of Wisconsin-Milwaukee offers coursework for a supplemental certification in Bilingual Education. This program is designed for individuals who wish to teach in a classroom in which two languages (English and another language) are used for instruction. Students wishing to pursue this certification must be in process of or already have a certification.

How to Prepare for an Advising Meeting

• Review your Advisement Report in PAWS (http://uwm.edu/registrar/academic-unit-services/paws-academic-advisement).
• Come prepared with questions or topics for discussion.
• Make a list of courses you think you should take.

Additional Requirements for Certification

• Minimum cumulative grade point average of 2.75 in all professional education courses. This includes any transfer coursework that is counted towards certification at UWM, as well as grades earned in student teaching or field experiences.
• Undergraduate students must meet the graduation requirements for their primary certification.
• Program Portfolio - based on the 10 WI Teacher Standards.

Benchmarks

Student Teaching
Prior to requesting/being assigned a student teaching placement, students must:

• Demonstrate Foreign Language Proficiency - A minimum score of Intermediate-High on the ACTFL OPI or equivalent is required prior to student teaching placement. Submit scores from your language proficiency test to your academic advisor.
• Complete and submit an application. Deadlines for submission are posted by the Office of Clinical Experiences. (http://uwm.edu/education/academics/clinical-experiences)

To be approved, students must ALSO meet the following criteria:

• Be admitted to the School of Education
• Complete all required coursework. An exception to allow a student to take a course concurrently with student teaching requires approval by the student’s faculty advisor.
• Have a minimum cumulative GPA of 2.5 on all undergraduate coursework, including transfer courses.
• Have a minimum 2.75 GPA in all content area and professional education courses.
• Removal of all F and/or I (incomplete) grades.
• TB test results submitted to the Office of Clinical Experiences (may take up to 6 weeks).
• Criminal Background Check submitted to the Office of Clinical Experience

Curriculum and Instruction, MS: Cultures and Communities Education

The Department of Curriculum and Instruction offers a graduate program of study in curriculum and instruction, including choices of concentration in three Focus Areas: Subject Area, Instructional Level Area and Cross-Curricular Area.

The Department also cooperates with the Department of Administrative Leadership in the Specialist Certificate Program with an emphasis in reading. Under the auspices of the PhD program in Urban Education, the Department offers doctoral specializations in Curriculum and Instruction and in Mathematics Education.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements to be considered for admission to the program.
Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than 6 credits.

The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

Credits and Courses
The minimum degree requirement is 30 credits, including:

Program Requirements

Major Professor as Advisor
The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. A student who is not assigned to an advisor at time of admission should immediately contact the department chair. Students who have not completed a Proposed Program of Study form with their advisor and filed it with the Department by the end of the semester in which they are admitted may not be allowed to register for the next term.

Certifications
Graduate students seeking initial teacher certification or added certification(s) can arrange their master’s degree program so that a portion of the credits earned towards the master’s degree can also serve as partial fulfillment of teacher certification requirements

Curriculum and Instruction, MS: Early Childhood Education

The Department of Curriculum and Instruction offers a graduate program of study in curriculum and instruction, including choices of concentration in three Focus Areas: Subject Area, Instructional Level Area and Cross-Curricular Area.

The Department also cooperates with the Department of Administrative Leadership in the Specialist Certificate Program with an emphasis in reading. Graduate students seeking initial teacher certification or added certification(s) can arrange their major degree program so that a portion of the credits earned towards the master’s degree can also serve as partial fulfillment of teacher certification requirements.

Curriculum and Instruction, MS: Mathematics Education

The Department of Curriculum and Instruction offers a graduate program of study in curriculum and instruction, including choices of concentration in three Focus Areas: Subject Area, Instructional Level Area and Cross-Curricular Area.

The Department also cooperates with the Department of Administrative Leadership in the Specialist Certificate Program with an emphasis in
reading. Under the auspices of the PhD program in Urban Education, the Department offers doctoral specializations in Curriculum and Instruction and in Mathematics Education.

**Admission Requirements**

**Application Deadlines**
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**
An applicant must meet Graduate School requirements to be considered for admission to the program.

Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than 6 credits.

The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

**Credits and Courses**
The minimum degree requirement is 30 credits, including:

**Education, BS: Early Adolescence - Adolescence Level: Math**
The Mathematics Education Program is available for students who plan to teach mathematics in 6th through 12th grade. Mathematics Program students gain real world experience in the classroom through student teaching or on-the-job experiences at area schools. Students who satisfactorily complete the program requirements also meet the Wisconsin teacher certification requirements for teaching mathematics subject areas in those grades. Students at this level of certification may add the following licenses while pursuing or after obtaining their Mathematics licensure as their initial certification:

- Bilingual
- English as a Second Language
- World Languages

3 May only choose the course that was not taken previously.
Application to the Mathematics Education program requires satisfactory completion of the requirements listed below. For more information about application process, visit our website at http://uwm.edu/education/

**Program Admission Requirements**

- Basic skills test: Passing scores on one of the following exams: Praxis I, CORE, ACT, SAT, or GRE. ACT, SAT, or GRE score must be within ten years of admission term to academic program. Please see your academic advisor for additional information.
- Oral and Written Communication (OWC) Part A: Achieve a placement level of 4 or higher on the English Placement Test, or complete ENGLISH 102 or equivalent with a grade of C or better.
- Quantitative Literacy (QL) Part A: Achieve a placement level of 30 or higher on the Math Placement Test, or complete MATH 102, MATH 103, MATH 105, MATH 108, MATH 175, or an equivalent with a grade of C or better.
- Completion of CURRINS 300, Introduction to Teaching, or CURRINS 328, Introduction to Teaching Science in Middle and High School, with a grade of C or better.
- Completion of Common 103 with a grade of C or better.
- A 2.5 minimum cumulative GPA in all UWM and transfer courses at the time of admission application.
- Completion of the following at the time of admission application: [MATH 231, MATH 232, and MATH 233, or an equivalent sequence of calculus and analytical geometry] plus [MATH 234 or MATH 240 or equivalent courses] with a 2.75 GPA in these all faculty-approved Math courses 300 level and above.
- A minimum of 58 credits (UWM and transfer credits) at the time of admission application. It is not required to have all the Core Curriculum courses completed at the time of application.
- Meeting with faculty advisor to review admission application. Faculty signature required on application.

**Benchmarks**

**Student Teaching**

Students must complete paperwork in order to be assigned a student teaching placement. To determine your deadline (February or April), visit the Office of Clinical Experiences website at uwm.edu/education/academics/clinical-experiences/ (http://uwm.edu/education/academics/clinical-experiences).

To be approved for placement, you must meet the following criteria:

- Be admitted to the School of Education;
- Completion of all required coursework;
- Cumulative GPA of a minimum 2.5;
- A minimum of 2.75 in all your content area and professional education courses;
- Passing scores reflected on your transcript for the Praxis II exam: Mathematics: Content Knowledge #5161;
- Removal of all F or I (incompletes) grades;
- TB test results submitted to the Office of Clinical Experiences; and
- Criminal Background Check submitted to the Office of Clinical Experiences.

**Advance to Major**

**Program Admission Requirements**

Application to the Mathematics Education program requires satisfactory completion of the requirements listed below. For more information about the application process, visit our website at http://uwm.edu/education/academics/mathematics/.

- Completion of edTPA (Teacher Performance Assessment) required for certification.

</table>

**Total Credits** 36

4 Students must complete paperwork in order to be assigned a student teaching placement. To be approved for placement, additional criteria must be met. See Benchmarks (p. 573) for details.

**Additional Requirements for Graduation**

- A minimum cumulative GPA of 2.5.
- A minimum GPA of 2.75 in all your mathematics content area courses and a minimum 2.75 GPA in all your professional education courses.
- Satisfactory completion of a minimum 128 credits.
- Completion of the last year of coursework (30 credits) in residence at UW-Milwaukee.
- Completion of edTPA (Teacher Performance Assessment) required for certification.

**Undergraduate Advising**

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

**How to Prepare for an Advising Meeting**

- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
Keep a record of your academic progress.
Understand you are ultimately responsible for creating your educational, life, and career plans.
Maintain honest and open communication with your advisor.
Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

Scheduling an Appointment
Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

Walk-In Hours
Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

Transfer Student Not Yet Enrolled at UWM?
If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

Graduate Advising
If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

Honors in the Department of Teaching and Learning
Departmental Honors are granted to students who have achieved a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester.

Honors in the School of Education
Dean’s Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Education, BS: Early Adolescence - Adolescence Level: Science
The Science Education program is available for students who plan to teach middle or high school science. Science Education students gain real world experience in the classroom through student teaching or on-the-job experiences at area schools. Students who satisfactorily complete the program requirements also meet the Wisconsin teacher certification requirements for teaching science subject areas in those grades. Students at this level of certification may add the following licenses while pursuing or after obtaining their Science licensure as their initial certification:

- Bilingual
- English as a Second Language
- World Languages

<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GER Competency Requirements</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Oral and Written Communication, Part A

English Placement Test score at level 4 or higher, or pass English 102 with a grade of C or better

Oral and Written Communication, Part B

Complete a GER-OWCB approved advanced course with a grade of C or better

Quantitative Literacy, Part A

Math Placement Test code 30 or higher, or pass Math 102, 103, 105, or 175 with a grade of C or better

Quantitative Literacy, Part B 

Complete a GER-QLB approved advanced course with a grade of C or better

Foreign Language

Complete one of the following:

- 2 consecutive semesters of college instruction in a single foreign language with passing grades

Credit totals vary based on student test scores, previous area-specific knowledge, and GER course choice.
2 consecutive years of high school instruction in a single foreign language with passing grades
Demonstrate language proficiency on approved exam

GER Distribution Requirements

Arts
Select one approved GER-A designated course

Humanities
Select two approved GER-HU designated courses

Social Sciences
Select two approved GER-SS designated courses

Natural Sciences
Select one approved GER-NS or GER-NS+ designated course

Cultural Diversity
Select one approved GER-CD designated course

Total Credits
9-42

Program-specific requirements fulfill, or partially fulfill, University GER requirements. Program identifies certain course categories (i.e. literature, biology, political science, etc) be used to fulfill some GERs in order to meet PI 34 Statutory Requirements and/or program requirements.

| PHILOS 520 | Philosophy of the Natural Sciences | 3       |
| CHEM 502 | Development of Modern Chemistry | 3       |

Total Credits
20-25

Program may allow fulfillment of Act 31 with a 1-day workshop.

Content Area
The selection of at least one major and one minor (highly suggested) should be made in consultation with a faculty advisor prior to applying for admission to the School of Education. Contact your faculty advisor for the "MACSTEP Program Packet," which includes course lists and specific details regarding the majors and minors.

Majors (select at least one)

| Biology | Broad Field Science | 3 |
| Chemistry | Earth and Space Science | |
| Environmental Studies | Life and Environmental Science | |
| Physical Science | Physics | |

Minors (selecting one is highly suggested)

| Biology | Earth and Space Science | |
| Chemistry | Physics | |

The Broad Field Science major consists of 54 credits in science, including:
- 14 credits in each of the following: biology, chemistry, earth, and physics
- 8 credits in each of the remaining science areas
- Electives to be selected in consultation with a faculty advisor

Majors can earn a certification in another subject (biology, chemistry, physics, and earth and space science) if they have 15 credits in that subject area.

Professional Education Requirements
MACSTEP Sequence - Milwaukee Area Collaborative Secondary Science (and Math) Teacher Education Program. Formal admission to the School of Education required. A grade of C or better must be met for all professional requirements, including student teaching.

Summer

| CURRINS 510 | Cooperative Strategies for Pre and Early Adolescents | 2 |
| CURRINS 518 | Science Methods I: Middle/Secondary Methods and Fieldwork | 3 |
Program Admission Requirements

Application to the Science Education program requires satisfactory completion of the requirements listed below. For more information about the application process, visit our website at: [http://uwm.edu/education/academics/science/](http://uwm.edu/education/academics/science/).

- **Pre-Professional Skills Test:** Passing scores on one of the following exams: Praxis I, CORE, ACT, SAT, or GRE. ACT, SAT, and GRE scores must be within five years of admission term to academic program. Please see your academic advisor for additional information.
- **English Composition:** Achieve a placement level of 4 or higher on the English Placement Test, or complete ENGLISH 102 or an equivalent with a grade of C or better.
- **Mathematics Skills:** Achieve a placement level of 30 or higher on the Math Placement Test, or complete MATH 103, MATH 105, MATH 175, or an equivalent with a grade of C or better.

**Advance to Major**

**Student Teaching**

Students must complete paperwork in order to be assigned a student teaching placement. To determine your deadline (February or April), visit the Office of Clinical Experiences website at [uwm.edu/education/academics/clinical-experiences](http://uwm.edu/education/academics/clinical-experiences).

To be approved for placement, you must meet the following criteria:

- Be admitted to the School of Education;
- Completion of all required coursework;
- Cumulative GPA of a minimum 2.5;
- A minimum of 2.75 in all your science content area and professional education courses;
- Passing scores reflected on your transcript for the Praxis II exam: General Science: Content Knowledge #10435;
- Removal of all F or I (incompletes) grades;
- TB test results submitted to the Office of Clinical Experiences; and
- Criminal Background Check submitted to the Office of Clinical Experiences;

**Undergraduate Advising**

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

**How to Prepare for an Advising Meeting**

- Review your Advisement Report in PAWS ([http://uwm.edu/registrar/academic-unit-services/paws-academic-advisement](http://uwm.edu/registrar/academic-unit-services/paws-academic-advisement)).
- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.

- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

**Scheduling an Appointment**
Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

**Walk-In Hours**
Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

**Transfer Student Not Yet Enrolled at UWM?**
If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

**Graduate Advising**
If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

**Honors in the Department of Teaching and Learning**
Departmental Honors are granted to students who have achieved a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester.

**Honors in the School of Education**
**Dean's Honor List**
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Education, BS: Early Adolescence - Adolescence Level: Social Studies**
The Social Studies Education Program is available for candidates who plan to teach social studies to learners in middle through high school.

Social Studies Education Program candidates are exposed to relevant field experiences at area schools through an initial semester long middle level placement and a year-round high school student teaching placement. Candidates who satisfactorily complete the Social Studies Education Program requirements meet the Wisconsin teacher certification requirements for EAA Licensure (ages 10 to 21).

Undergraduate and/or Post-Baccalaureate candidates who satisfactorily complete the Social Studies Education Program will be granted a Wisconsin EAA license in one or more of the following social studies subject areas: Broad Field Social Studies, Economics, Geography, History, Political Science, Psychology, and Sociology.

3 Recommended sequence

5 Students must complete paperwork in order to be assigned a student teaching placement. To be approved for placement, additional criteria must be met. See Benchmarks (p. 579) for details.

Additional Requirements for Graduation

- Minimum cumulative GPA of 2.75 in all professional education courses. This includes any transfer coursework that is counted towards certification at UWM, as well as grades earned in student teaching or field experiences.
- Minimum cumulative GPA of 2.75.
- Satisfactory completion of a minimum 128 credits.
- Completion of the last year of coursework (30 credits) in residence at UW-Milwaukee.
- Completion of edTPA (Teacher Performance Assessment) required for certification.
Advance to Major

Program Admissions Requirements
Application to the Social Studies program requires satisfactory completion of the requirements listed below. For more information about the application process, visit our website at: http://uwm.edu/education/academics/social-studies/.

- **Pre-Professional Skills Test:** Passing scores on one of the following exams: Praxis I, CORE, ACT, SAT, or GRE. ACT, SAT, and GRE scores must be within five years of admission term to academic program. Please see your academic advisor for additional information.
- **English Composition:** Achieve a placement level of 4 or higher on the English Placement Test, or complete ENGLISH 102 or an equivalent with a grade of C or better.
- **Mathematics Skills:** Achieve a placement level of 30 or higher on the Math Placement Test, or complete MATH 105 or an equivalent with a grade of C or better.
- **Completion of COMMUN 103**, with a grade of C or better. Completion of this course fulfills 3 credits of the Humanities GER requirement.
- **Completion of CURRINS 300** with a grade of C or better.
- **A 2.5 minimum cumulative GPA** in all UWM and transfer courses at the time of admission application.
- **A 2.75 cumulative GPA** in all economics, geography, history, psychology, political science, and sociology courses.
- **A minimum of 58 credits** (UWM and transfer credits) at the time of admission application. It is not required to have all the Core Curriculum courses completed at the time of application.
- **Meeting with faculty advisor** to review admission application. Faculty signature required on application.

**Benchmarks**

**Student Teaching**
Students must complete paperwork in order to be assigned a student teaching placement. Student teaching deadlines (February or April) are posted on the Office of Clinical Experiences website at uwm.edu/education/academics/clinical-experiences/ (https://uwm.edu/education/academics/clinical-experiences/).

To be approved for placement, you must meet the following criteria:

- Be admitted to the School of Education;
- Completion of all required coursework;
- Cumulative GPA of a minimum 2.5;
- A minimum of 2.75 in all your social studies content area and professional education courses;
- Passing scores reflected on your transcript for the Praxis II exam: Social Studies: Content Knowledge #5081;
- Removal of all F or I (incompletes) grades;
- TB test results submitted to the Office of Clinical Experiences; and
- Criminal Background Check submitted to the Office of Clinical Experiences.

**Undergraduate Advising**

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

**How to Prepare for an Advising Meeting**
- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

**Scheduling an Appointment**
Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

**Walk-In Hours**
Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

**Transfer Student Not Yet Enrolled at UWM?**
If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

**Graduate Advising**
If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/admissions/).**

**Honors in the Department of Teaching and Learning**
Departmental Honors are granted to students who have achieved a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester.

**Honors in the School of Education**

**Dean's Honor List**
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.
Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Education, BS: Early Adolescence-Adolescence Level: English
The Early Adolescence through Adolescence (EA-A) Program in English Education is available for students who plan to teach English to students from ages 10-21. English Education candidates participate in hands-on, classroom based field and student teaching experiences in urban area middle and high schools. Candidates who satisfactorily complete the program requirements also meet the Wisconsin teacher certification requirements for teaching English subject areas in grades 6-12.

### Total Credits: 54

## Additional Requirements for Graduation

- Completion of University GER;
- Completion of Currins 452 with a C+ or better;
- Minimum cumulative grade point average of 2.75 in all professional education courses. This includes any transfer coursework that is counted towards certification at UWM, as well as grades earned in student teaching or field experiences;
- Minimum Cumulative GPA of 2.75;
- Satisfactory completion of a minimum 120 credits;
- Completion of the last year of coursework (30 credits) in residence at UW-Milwaukee; and
- Completion of edTPA (Teacher Performance Assessment) required for certification.

### Program Admission Requirements

Application to the English Education program requires satisfactory completion of the requirements listed below. For more information about the application process, visit our website at: [http://uwm.edu/education/academics/english/](http://uwm.edu/education/academics/english/).

- **English Composition:** Achieve a placement level of 4 or higher on the English Placement Test, or complete ENGLISH 102 or equivalent with a grade of C or better.
- **Completion of Currins 300** with a grade of C or better.
• A 2.5 minimum cumulative GPA in all UW-M and transfer courses at the time of admission application.
• A 2.75 cumulative GPA in all English content courses.
• A minimum of 58 credits (UWM and transfer credits) at the time of admission application. It is not required to have all the Core Curriculum courses completed at the time of application.
• Meeting with faculty advisor to review admission application. Faculty signature required on application.

**Benchmarks**

**Student Teaching**
Students must complete paperwork in order to be assigned a student teaching placement. To determine your deadline (February or April), visit the Office of Clinical Experiences website at uwm.edu/education/academics/clinical-experiences/ (http://uwm.edu/education/academics/clinical-experiences/).

To be approved for placement, you must meet the following criteria:

- Be admitted to the School of Education.
- Completion of all required coursework.
- Minimum 2.5 cumulative GPA.
- Minimum of 2.75 GPA in all content area and professional education courses.
- Passing scores reflected on your transcript for the Praxis II exam: English Language Art: Content Knowledge #5038.
- Removal of all F or I (incomplete) grades.
- TB test results submitted to the Office of Clinical Experiences.
- Criminal Background Check submitted to the Office of Clinical Experiences.
- Completion of CURRINS 316, CURRINS 415, CURRINS 510, CURRINS 650, CURRINS 657, CURRINS 658, and CURRINS 659 with a C+ or better.

**Undergraduate Advising**

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

**How to Prepare for an Advising Meeting**

- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.
Education, BS: Early Childhood

The Early Childhood Education (ECE) program is available for those interested in teaching young children from birth to age 8 (through third grade) in a variety of early care/education and school programs. Students are admitted to the major immediately in the first year or upon transfer to UWM, and it is possible to complete the program in four years. Students who satisfactorily complete the program requirements will be highly-qualified to teach in early childhood settings. Those who wish to acquire a State of Wisconsin ECE teaching license can complete the state-mandated assessments through the program. Additionally program students can elect to attain add-on certification in ECE and English as a Second Language (ESL) or Bilingual Education. All program students will be prepared to teach culturally and linguistically diverse children. The program provides real-world experiences in a cross-section of sites where future employment opportunities exist, including public and charter primary schools; Head Start; and preschools and other community-based educational settings.

### Program Benchmarks (p. 586)

**Additional Requirements for Graduation:**

- Minimum cumulative GPA of 2.75 on all UWM and transfer courses
- Minimum cumulative GPA of 2.75 on professional education courses
• Satisfactory completion of a minimum of 120 credits
• Completion of the last year of coursework (30 credits) in residence at UWM
• For certification majors only: Completion of edTPA (Teacher Performance Assessment)

**Benchmarks**

Students must meet benchmarks at 30, 60, and 85 credits and prior to student teaching. Benchmarks are monitored through tracking systems and advising. A student will be restricted from moving forward in the program if the benchmarks are not completed.

**30 Credit Benchmarks**

Reviewed with your advisor the semester after completion of 30 credits:

- Mandatory meeting with your advisor
- Completion of English 102 and Math 175 with a C or better
- Minimum cumulative GPA of 2.25 on all UWM and transfer courses

Certification majors only:

- Passing scores on a pre-professional skills test (See your academic advisor for additional information.)

**60 Credit Benchmarks**

Reviewed with your advisor the semester after completion of 60 credits:

- Mandatory meeting with your advisor
- Minimum cumulative GPA of 2.5 on all UWM and transfer courses

Certification majors only:

- Registered for the appropriate Praxis II exam
  - Elementary Education Content Knowledge Exam #5014
  - Teaching English to Speakers of Other Languages #5361

**85 Credit Benchmarks**

Reviewed with your advisor the semester after completion of 85 credits:

- Mandatory meeting with your advisor
- Minimum cumulative GPA of 2.5 on all UWM and transfer courses
- Complete and sign form to declare intention: Education Degree in Early Childhood only or degree with certification in Early Childhood, ESL, and/or Bilingual

**Student Teaching Benchmarks (certification majors only)**

- Mandatory attendance at Pre-Student Teaching Orientation
- Minimum cumulative GPA of 2.75 on all UWM and transfer courses
- Removal of all F or I (Incomplete) grades in courses
- C or better in professional education and CurrIns sequenced courses
- Successfully pass the appropriate Praxis II exam(s)
  - Elementary Education Content Knowledge Exam #5014
  - Teaching English to Speakers of Other Languages #5361
- Successfully pass the Wisconsin Foundations of Reading Test (WiFORT)

**Graduation Benchmarks (must be met to be approved for graduation)**

Reviewed during the student teaching semester

- Minimum cumulative GPA of 2.75 on all UWM and transfer courses
- Satisfactory completion of a minimum of 120 credits
- Completion of the last year of coursework (30 credits) in residence at UWM

Certification majors only:

- Completion of edTPA (Teacher Performance Assessment)

**Undergraduate Advising**

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

**How to Prepare for an Advising Meeting**

- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

**Scheduling an Appointment**

Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
seeinfo@uwm.edu

**Walk-In Hours**

Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

**Transfer Student Not Yet Enrolled at UWM?**

If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

**Graduate Advising**

If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).
Honors in the Department of Teaching and Learning

Departmental Honors are granted to students who have achieved a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester.

Honors in the School of Education

Dean's Honor List

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Education, BS: Early Childhood-Adolescence: English as a Second Language

The English as a Second Language (ESL) Program is available as a major or a minor. An ESL major is for students who plan to teach English to non-native speakers from birth to age 21, in PK through 12th grade. Students must select the Early Childhood through Adolescence ESL major for grades PK through 12th grade. The ESL minor will result in an additional certification at the same level as your initial license.

Students at this level of certification may also add the following licenses while pursuing or after obtaining their ESL licensure as their initial certification:

- World Languages

### Additional Requirements for Graduation

- A grade of C or better is required for all professional education requirements, including student teaching. Prerequisites may be required.
- Students must complete paperwork in order to be assigned a student teaching placement. To be approved for placement, additional criteria must be met. See Benchmarks (p. 589) for details.

### Advance to Major

### Program Admission Requirements

Application to the English as a Second Language program requires satisfactory completion of the requirements listed below. For more information about the application process, visit our website at: http://uwm.edu/education/academics/second-language/.
• **Pre-Professional Skills Test**: Passing scores on one of the following exams: Praxis I, CORE, ACT, SAT, or GRE. ACT, SAT, and GRE scores must be within five years of admission term to academic program. Please see your academic advisor for additional information.

• **English Composition**: Achieve a placement level of 4 or higher on the English Placement Test, or complete ENGLISH 102 or an equivalent with a grade of C or better.

• **Mathematics Skills**: Achieve a placement level of 30 or higher on the Math Placement Test, or complete MATH 103, MATH 105, MATH 175, or an equivalent, with a grade of C or better. **Note**: MATH 103 or MATH 105 are recommended as they also meet core curriculum requirements.

• **Completion of CURRINS 300, Introduction to Teaching**, with a grade of C or better.

• **Completion of COMMUN 103** with a grade of C or better.

• A 2.5 minimum GPA in all English as a Second Language content courses.

• A minimum of 48 credits (UWM and transfer credits) at the time of admission application. It is not required to have all the Core Curriculum courses completed at the time of application.

### Benchmarks

#### Student Teaching

Students must complete an application to request/be assigned a student teaching placement. Deadlines for submission are posted by the Office of Clinical Experiences. (http://uwm.edu/education/academics/clinical-experiences)

To be approved, students must **Also** meet the following criteria:

- Be admitted to the School of Education
- Complete all required coursework. An exception to allow a student to take a course concurrently with student teaching requires approval by the student's faculty advisor.
- Have a minimum cumulative GPA of 2.5 on all undergraduate coursework, including transfer courses.
- Have a minimum 2.75 GPA in all content area and professional education courses.
- Passing scores reflected on your transcript for the Praxis II exam: English to Speakers of Other Languages: Content Knowledge #5361.
- Removal of all F and/or I (incomplete) grades.
- TB test results submitted to the Office of Clinical Experiences (may take up to 6 weeks).
- Criminal Background Check submitted to the Office of Clinical Experiences.

#### Undergraduate Advising

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

### How to Prepare for an Advising Meeting

- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

#### Scheduling an Appointment

Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

#### Walk-In Hours

Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

#### Transfer Student Not Yet Enrolled at UWM?

If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

#### Graduate Advising

If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

#### Honors in the Department of Teaching and Learning

Departmental Honors are granted to students who have achieved a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester.

#### Honors in the School of Education

**Dean's Honor List**

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

#### Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional...
gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Education, BS: Early Childhood-Adolescence: World Language**
The World Languages Program is available for students as a major or a minor. A World Language major is for students who plan to teach a world language to children from birth to age 21, in PK through 12th grade. The World Language minor will result in the additional certification at the same level as your initial license.

Students who satisfactorily complete the undergraduate program (as a major or minor) will be granted a license in one of the following languages: American Sign Language, Chinese, French, German, Hebrew, Italian, Latin, Russian, or Spanish.

Students seeking a World Language certification (major or minor) may also add the following licenses:

- Bilingual (only available for Spanish, World Language Licenses; a bilingual license will allow you to teach Spanish for Heritage Speakers only)
- English as a Second Language

Total Credits 14-24

A grade of C or better is required for all professional education requirements, including student teaching. Prerequisites may be required.

Students must complete paperwork in order to be assigned a student teaching placement. To be approved for placement, additional criteria must be met. See Benchmarks (p. 593) for details.

**Additional Requirements for Graduation**

- Minimum cumulative grade point average of 2.75 in all professional education courses. This includes any transfer coursework that is counted towards certification at UWM, as well as grades earned in student teaching or field experiences.
- Satisfactory completion of a minimum 128 credits.
- Completion of the last year of coursework (30 credits) in residence at UW-Milwaukee.
- Completion of edTPA (Teacher Performance Assessment) required for certification.

**English as a Second Language Minor - option**

World Language majors wishing to complete an English as a Second Language minor should complete these additional requirements:

Select one of the following: 3

</table>

Total Credits 13
To be approved, students must: See Benchmarks (p. 593) for details.

**Advance to Major**

**Program Admission Requirements**

Application to the World Languages program requires satisfactory completion of the requirements listed below. For more information about the application process, visit our website at [http://uwm.edu/education/academics/second-language/](http://uwm.edu/education/academics/second-language/).

- **Pre-Professional Skills Test:** Passing scores on one of the following exams: Praxis I, CORE, ACT, SAT, or GRE. ACT, SAT, and GRE scores must be within five years of admission term to academic program. Please see your academic advisor for additional information.
- **English Composition:** Achieve a placement level of 4 or higher on the English Placement Test, or complete ENGLISH 102 or an equivalent with a grade of C or better.
- **Mathematics Skills:** Achieve a placement level of 30 or higher on the Math Placement Test, or complete MATH 103, MATH 105, MATH 175, or an equivalent, with a grade of C or better. Note: MATH 103 or MATH 105 are recommended as they also meet core curriculum requirements.
- **Completion of CURRINS 300,** with a grade of C or better.
- **Completion of COMMUN 103** with a grade of C or better.
- A 2.5 minimum GPA in all UWM and transfer courses at the time of application.
- A 2.75 cumulative GPA in all language content courses.
- A minimum of 48 credits (UWM and transfer credits) at the time of admission application. It is not required to have all the Core Curriculum courses completed at the time of application.

**Benchmarks**

**Student Teaching**

Prior to requesting/being assigned a student teaching placement, a student must:

- Demonstrate Foreign Language Proficiency - A minimum score of Intermediate-High on the ACTFL OPI or equivalent is required prior to student teaching placement. Submit scores from your language proficiency test to your academic advisor.
- Complete an Immersion Experience - Required for all prospective language teachers, this requirement must be met by spending a semester or a year in a country where the chosen major language is spoken. Submit documentation of immersion experience to your academic advisor prior to student teaching placement.
- Complete and submit an application. Deadlines for submission are posted by the Office of Clinical Experiences. ([http://uwm.edu/education/academics/clinical-experiences](http://uwm.edu/education/academics/clinical-experiences))

To be approved, students must **also** meet the following criteria:

- Be admitted to the School of Education
- Complete all required coursework. An exception to allow a student to take a course concurrently with student teaching requires approval by the student’s faculty advisor.
- Have a minimum cumulative GPA of 2.5 on all undergraduate coursework, including transfer courses.

- Have a minimum 2.75 GPA in all content area and professional education courses.
- Passing scores reflected on your transcript for the Praxis II exam: English to Speakers of Other Languages: Content Knowledge #5361.
- Removal of all F and/or I (incomplete) grades.
- TB test results submitted to the Office of Clinical Experiences (may take up to 6 weeks).
- Criminal Background Check submitted to the Office of Clinical Experience

**Undergraduate Advising**

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

**How to Prepare for an Advising Meeting**

- Review your Advisement Report in PAWS ([http://uwm.edu/registrar/academic-unit-services/paws-academic-advisement](http://uwm.edu/registrar/academic-unit-services/paws-academic-advisement)).
- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

**Scheduling an Appointment**

Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

**Walk-In Hours**

Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

**Transfer Student Not Yet Enrolled at UWM?**

If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

**Graduate Advising**

If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory ([https://uwm.edu/education/people](https://uwm.edu/education/people)). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact [your PAWS account](http://uwm.edu/oasis/).
Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

Honors in the Department of Teaching and Learning

Departmental Honors are granted to students who have achieved a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester.

Honors in the School of Education

Dean's Honor List

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Education, BS: Inclusion and Accessibility Studies

The Inclusion and Accessibility program is designed for those interested in working with students and adults with disabilities in a variety of settings. The focus is on understanding disability and disability policy broadly, along with 9 credits in 3 of the following areas: Autism Spectrum Disorders, Deaf History and Culture, Transition to Post-Secondary Environments, and an International Focus in Disability.

This major is for individuals who are interested in pursuing a career in non-profit, for-profit, governmental agencies, and non-governmental organizations (NGOs) that provide services to children and adults with disabilities (Transition Specialist, Job Coach, Line Therapist, Residential Service Provider, international aid agency, etc.).

How to Prepare for an Advising Meeting

- Come prepared with questions or topics for discussion.

Transition Strand

EXCEDUC 662 Collaborative Strategies 3
EXCEDUC 679 Critical Issues in Transition Planning for Students with Disabilities (This course required for this strand) 3
Choose two:
- EXCEDUC 503 Job Development and On the Job Support for Students with Disabilities 3
- EXCEDUC 505 Transition Assessment for Individuals with Disabilities 3
- EXCEDUC 507 Linking Academics and Self-Determination to Transition Planning 3

Autism Spectrum Disorders Strand

EXCEDUC 560 Foundations of Autism Spectrum Disorders (GER-OWCB) 3
EXCEDUC 561 Methods for Working with Individuals with Autism Spectrum Disorders 3
EXCEDUC 585 Supervised Practicum in Child and Youth Care 3

American Sign Language Strand

EXCEDUC 301 American Sign Language I 3
EXCEDUC 330 Deaf History 3
EXCEDUC 352 American Deaf Culture 3

Global Studies Strand

EXCEDUC 297 Study Abroad: 9

Electives to ensure 120 credits

Students should work with their academic advisor in selecting the additional elective courses, minor, or certificate.

Requirements for Graduation

- Satisfactory completion of a minimum of 120 credits;
- Completion of university GER;
- Completion of program requirements;
- Minimum GPA of 2.0

Advance to Major

Minimum Application Requirements

- Completion of ED POL 375 or ED POL 530 with a grade of C or better;
- Completion of EXCEDUC 300 with a grade of C or better; and
- Minimum 2.5 cumulative GPA in all UWM coursework by the end of the semester in which you apply

Undergraduate Advising

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

How to Prepare for an Advising Meeting

- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

Scheduling an Appointment

Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

Walk-In Hours

Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

Transfer Student Not Yet Enrolled at UWM?

If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

Graduate Advising

If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

Honors in the School of Education

Dean’s Honor List

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).
Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Education, BS: Elementary Education
The Elementary Education Program is designed for students seeking to teach at the middle childhood-early adolescence level (ages 6-12 or 13, grades 1-8). This program prepares students to work in urban settings and takes place in close partnership with local school districts. The UWM School of Education’s urban mission is upheld in the Elementary Education program’s commitment to preparing pre-service teachers to meet the needs of diverse populations. Students are admitted into the Elementary Education program upon admission to the University, and it is possible to complete the program in four years. Students who satisfactorily meet program requirements will be recommended for student teaching. Upon successful completion of all student teaching requirements, including several state-required assessments, students will be licensed to teach grades 1-8. After completion of the Elementary Education program, students may opt to pursue an add-on certification in Exceptional Education by completing streamlined course paths that include an additional student teaching requirement.

Students completing the Elementary Education program will receive a bachelor’s degree in Education, and endorsement to be licensed to teach children in grades one through eight in the State of Wisconsin.

Special Education Certification
Students who successfully complete the Elementary Education program may seek dual licensure in special education, which requires a fifth year of school. Credits in the fifth year may be integrated into a master’s program in Exceptional Education provided the student is admitted into the graduate program at UWM.

Total Credits 15-20

4 Highly recommended course.

Additional Requirements for Graduation and Certification

- Minimum cumulative GPA of 2.75 in all UWM and transfer courses;
- Minimum cumulative GPA of 2.75 in professional education courses;
- Passing scores on the Praxis subject assessment or a content knowledge GPA of 3.0 posted on transcript;
- Satisfactory completion of a minimum 120 credits;
- Completion of last year of coursework (30 credits) in residence at UWM; and
- Completion of edTPA (Teacher Performance Assessment) required for certification.

Benchmarks

Gateway Check at 40 Credits Completed

- Mandatory meeting with advisor in the semester following 40-credit semester;
- Minimum cumulative GPA of 2.5 in required program courses (all courses listed on the program sheet);
- Completion of dispositions and field evaluation from CURRINS 333 or CURRINS 300; and
- Completion of MATH 175 and ENGLISH 102 (or score of 4 or higher on English placement test).

Gateway Check Prior to Approval to Student Teach

- Minimum cumulative GPA of 2.75 in required courses (all courses listed on program sheet);
- Removal of all F or I (incomplete) grades in courses;
- C or better in required program courses (all courses in PS1 - PS3);
- Passing scores on the Wisconsin Foundations of Reading Test (after semester 2);
- Completion of practice Teacher Performance Assessment (edTPA);
- Passing scores on the Praxis subject assessment (take during semester 2) or a content knowledge GPA of 3.0 posted on transcript; and
- Completion of disposition and field evaluation in CURRINS 406.

A mandatory meeting with your academic advisor will be required if you have not met the above gateway checks.

Students pursuing the ESL minor are required to complete additional testing requirements. Please see your academic advisor for details.

For additional opportunities, see the Bilingual Supplemental Certification Program (p. 558).

Undergraduate Advising

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

How to Prepare for an Advising Meeting

- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

Scheduling an Appointment

Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

Walk-In Hours

Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

Transfer Student Not Yet Enrolled at UWM?

If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

Graduate Advising

If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

Honors in the Department of Teaching and Learning

Departmental Honors are granted to students who have achieved a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester.
Honors in the School of Education

Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

 Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

English as a Second Language, Minor

A teaching certification in English as a Second Language (ESL) is for those who wish to teach English to non-native speakers. Students wishing to pursue a minor in ESL must be in the process of obtaining, or already have, a certification to teach at the Early Childhood, Early Childhood Through Adolescence, Middle Childhood Through Early Adolescence, or Early Adolescence Through Adolescence level.

1 Students must complete paperwork in order to be assigned a student teaching placement. To be approved for placement, additional criteria must be met. See Benchmarks (p. 600) for details.

Additional Requirements for Certification

- Minimum cumulative grade point average of 2.75 in all professional education coursework. This includes any transfer coursework that is counted towards certification at UWM, as well as grades earned in student teaching or field experiences;
- Undergraduate students must meet the graduation requirements for their primary certification; and
- Program Portfolio completion - based on the 10 WI Teacher Standards.

Benchmarks

Student Teaching

Students must complete an application to request/be assigned a student teaching placement. Deadlines for submission are posted by the Office of Clinical Experiences. (http://uwm.edu/education/academics/clinical-experiences)

To be approved, students must ALSO meet the following criteria:

- Be admitted to the School of Education
- Complete all required coursework. An exception to allow a student to take a course concurrently with student teaching requires approval by the student’s faculty advisor.
- Have a minimum cumulative GPA of 2.5 on all undergraduate coursework, including transfer courses.
- Have a minimum 2.75 GPA in all content area and professional education courses.
- Passing scores reflected on your transcript for the Praxis II exam: English to Speakers of Other Languages: Content Knowledge #5361.
- Removal of all F and/or I (incomplete) grades.
- TB test results submitted to the Office of Clinical Experiences (may take up to 6 weeks).
- Criminal Background Check submitted to the Office of Clinical Experiences.

Undergraduate Advising

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

How to Prepare for an Advising Meeting

- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

Exceptional Education, BS: Early Adolescence - Adolescence
The Early Adolescence-Adolescence (EAA) Special Education program leads to a Bachelor of Science in Exceptional Education. Upon completion of the program and other license requirements, students will be eligible to apply for a Cross-Categorical Special Education Teaching License from the Wisconsin Department of Public Instruction for ages 10-21 (grades 6 through 12). If you already hold a Bachelor's Degree, you can earn EAA Special Education Teacher Certification as a Post-Baccalaureate student.

Our faculty are recognized leaders in the field of Special Education with expertise in urban teaching, inclusive education, language and literacy and transition. Our program will prepare you to become a powerful, effective educator in a high-demand area.

EXCEDE 300  The Exceptional Individual 3
ED POL 375  Cultural Foundations of Education 3

Total Credits 30-31

3  Non-Western History or Contemporary Culture and Minority Group Relations (Act 31) statutory requirements can both be met by taking one class.

Professional Requirements
Students may enter the professional courses only after formal admission to the School of Education. The professional program consists of four semesters, including fieldwork/student teaching. Students must have a minimum grade of C or better in all professional coursework.

Code  Title  Credits
CURRINS 545  Reading in the Content Areas: Middle, Junior, and Senior High School 3
ED PSY 330  Introduction to Learning and Development 3
EXCEDE 635  Individualized Planning & Instructional Methods 3
CURRINS 643  Balanced Literacy Instruction in the Elementary School 3
Field Requirement 1.5 days per week or 135 hours
Year 1 - Spring
CURRINS 332  Teaching of Mathematics: Middle School 3
EXCEDE 595  Technology Applications for Diverse Learners 3
EXCEDE 636  Curriculum Accommodations 3
EXCEDE 662  Collaborative Strategies 3
EXCEDE 680  Literacy I 3
EXCEDE 586  Teaching Experience I 1
EXCEDE 486  Linking Seminar: Developing Reflective Practice 2
Field Requirement 2 days per week or 190 hours
Reading Test 4

Year 2 - Fall
EXCEDE 532  Assessment and Monitoring 3
EXCEDE 671  Behavior Support & Intervention for Mid/High Students with Disabilities 3
EXCEDE 679  Critical Issues in Transition Planning for Students with Disabilities 3
EXCEDE 587  Teaching Experience II 3
Field Requirement Half-days (M-F)
Praxis II Requirement 5

Year 2 - Spring
EXCEDE 488  Linking Seminar: Professional Development 1
CURRINS 543  Developing Biliteracy 3
EXCEDE 588  Teaching Experience III 9
Field Requirement Twenty weeks full-time (M-F)
Total Credits 55

4  It is strongly recommended that students take the reading test required for initial certification at the end of the first year of the professional sequence.
5  Praxis II requirement: All students are required to successfully complete the Praxis II examination prior to their final student teaching semester (spring II).

Submajor Completion Requirements (p. 603)
- Completion of EAA professional course sequence;
- Completion of a minimum of 53 GER and elective credits focused on content area(s) relevant for a Special Educator in middle and high school settings;
- Completion of university GER requirements;
- Completion of Act 31 requirement;
- At least 30 program credits must be earned in residence at the University of Wisconsin-Milwaukee, following admission to the program;
- Completion of a minimum of 120 degree credits;
- Minimum cumulative GPA of 2.75; and
- Minimum cumulative GPA of 2.75 in professional coursework.
Post-Baccalaureate Program

### Advance to Major

**Program Admission Requirements**

- Achieve a placement level 4 or higher on the English placement test, or complete ENGLISH 102 or an equivalent with a C or better (OWC-A);
- Score of 30 or higher on the Math placement test or MATH 103, MATH 105, MATH 175, or equivalent with a C or better (QL-A);
- Successful completion of a Wisconsin Approved Basic Skills Test;
- Completion of CURRINS 300 (or equivalent), with a C or better;
- Completion of EXCEDUC 300 (or equivalent), with a C or better;
- Completion of ED POL 375 (or equivalent), with a C or better;
- Completion of an approved advanced course (at least three credits) with significant written or oral communication component (OWC-B), with a C or better (recommendations: EXCEDUC 560, ENGLISH 215, ENGLISH 240, ENGLISH 201, ED POL 375, or equivalent);
- Completion of an approved advanced course (at least three credits) making use of quantitative tools (QL-B), with a C or better (recommendations: PHILOS 211 or equivalent);
- Completion of a minimum of 45 credits at the time of application (must complete 58 by the time of program commencement) with a minimum of 37 successfully completed credits in GER/content area coursework;
- Maintain a cumulative GPA of 2.5;
- Completion of a program application; and
- Interview

### Benchmarks

**Student Teaching**

Students must complete paperwork in order to be assigned a student teaching placement. To determine your deadline (February or April), visit the Office of Clinical Experiences website at uwm.edu/education/academics/clinical-experiences/ (http://uwm.edu/education/academics/clinical-experiences).

**Undergraduate Advising**

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

### How to Prepare for an Advising Meeting

- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
Exceptional Education, BS: Early Childhood

The Early Childhood Special Education major leads to a Bachelor of Science in Exceptional Education. Upon completion, students will be eligible to apply for a Cross-Categorical Special Education Teaching License from the Wisconsin Department of Public Instruction for ages birth to eight, grades birth-3rd. Special Education teachers who specialize in early childhood are currently in high demand, according to the U.S. Bureau of Labor Statistics.

Advance to Major

Admission to Program
See academic advisor.

Benchmarks

Student Teaching
Students must complete paperwork in order to be assigned a student teaching placement. To determine your deadline (February or April), visit the Office of Clinical Experiences website at uwm.edu/education/academics/clinical-experiences/(http://uwm.edu/education/academics/clinical-experiences).

Undergraduate Advising

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

How to Prepare for an Advising Meeting

• Review your Advisement Report in PAWS (http://uwm.edu/registrar/academic-unit-services/paws-academic-advisement).
• Come prepared with questions or topics for discussion.
• Make a list of courses you think you should take.
• Investigate opportunities to prepare for the job you want.
• Keep a record of your academic progress.
• Understand you are ultimately responsible for creating your educational, life, and career plans.
• Maintain honest and open communication with your advisor.
• Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

Scheduling an Appointment

Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

Walk-In Hours
Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

Transfer Student Not Yet Enrolled at UWM?
If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

Graduate Advising

If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in
your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

Honors in the School of Education

Dean’s Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Exceptional Education, BS: Middle Childhood - Early Adolescence

The Middle Childhood through Early Adolescence Program (MCEA) for Special Education is designed for students seeking to teach at the middle childhood-early adolescence level, ages 6-12 or 13, in 1st through 8th grade. This program prepares students to work in urban settings and takes place in close partnership with local school districts.

The UWM School of Education’s urban mission is upheld in the MCEA program’s commitment to preparing pre-service teachers to meet the needs of diverse populations. Students are admitted into the MCEA program upon admission to the University and completion of pre-professional coursework. It is possible to complete the program in four years. This is a field-based program involving gradual and extensive work in urban schools. Upon successful completion of all student teaching requirements, including several state required assessments, students will be licensed to teach grades 1st through 8th in Special Education.

1 Non-Western History or Contemporary Culture and Minority Group Relations (Act 31) statutory requirements can both be met by taking one class.

Advanced Education Degree, MCEA Submajor Completion Requirements

- Completion of University GER;
- At least 30 program credits must be earned in residence at the University of Wisconsin-Milwaukee, following admission to the program;
- Completion of the ePortfolio; and
- Completion of a minimum 120 degree credits.

Certification Requirements

- Demonstration of content knowledge proficiency through one of the following:
  - Achieve a cumulative grade point average of 3.0 or above in prescribed content courses;
  - A passing score on the PRAXIS II #5146; or
  - A Content Knowledge Portfolio.
- Passing score on the Wisconsin Foundations of Reading test;
- Passing score on the edTPA;
- Completion of ACT 31 requirement;
- Minimum cumulative GPA of 2.75 in all UWM and transfer courses; and
- Minimum cumulative GPA of 2.75 and a C or better in all professional courses.

Advance to Major

Program Admission Requirements

- At least 45 credits of Pre-Professional Coursework completed with a minimum cumulative GPA of 2.5;
- Minimum cumulative grade point average of 2.5 and a C or better in all required courses;
- Grade of C or better in CURRINS 300 or CURRINS 333 and a positive field evaluation or equivalent;
• Grade of C or better in MATH 175 and ENGLISH 102 (or placement of 4 or higher on English placement test); and
• Successful application and interview.

**Benchmarks**

Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your faculty advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

**Special Education Dual Certificate Program (5th year)**

In partnership with Department of Curriculum and Instruction, the fifth-year program is geared toward undergraduates who are interested in becoming special educators. After successfully completing the regular education MCEA program, students are admitted into the fifth-year special education option. Many students receive their bachelor’s degrees upon completion of UWM’s collaborative regular education program, while others complete the fifth-year special education option as part of a master’s degree program. Please contact the Office of Student Services at 414-229-4721 or soeoss@uwm.edu (soeoss@uwm.edu) for program information and requirements.

**Honors in the School of Education**

**Dean's Honor List**

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Exceptional Education, MS**

The Department of Exceptional Education offers two options for a program of study at the master’s level: a general option or a certification option. Students choosing the General Option enroll in 12 credits of core requirements and 18 credits that reflect a focus area of study. Students following the Certification Option enroll in 12 credits of core requirements and apply 18 credits of their certification credits, taken at the graduate level, to the degree. This program is created in consultation with a faculty advisor. Students choosing the Certification Option must be accepted into one of the Department of Exceptional Education’s Post-Baccalaureate Teacher Certification Programs as well as the Graduate Program. Certification programs include:
• Early Childhood Education (0-8 yrs),
• Primary/Middle and Middle/Secondary Education (grades K-9 or 6-12 in the areas of learning disabilities, cognitive disabilities, and emotional disturbance),
• Deaf and Hard of Hearing (grades K-12).

Up to 15 credits of coursework in the certification program may be applied to the Master’s degree in addition to 15 credits of core requirements.

Under the auspices of the PhD program in Urban Education, the Department offers doctoral level training with a designated specialization in Exceptional Education.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements plus these departmental requirements to be considered for admission to the program:

• Personal interview to determine an applicant’s basis for seeking admission, potential for completion of the program, and relevant background and experience in exceptional education.

Credits and Courses

The minimum degree requirement is 30 graduate credits, of which 18 credits must be in the Department of Exceptional Education. The remaining credits may be taken either in or outside of the School of Education. Courses in either the Certification Option or General Option are determined in consultation with an advisor from suggested course options identified by the Department.

Total Credits 12

Certification Option (Up to 15 credits)
A student pursuing the Certification Option must be admitted to the Department of Exceptional Education’s Post-Baccalaureate Teacher Certification Program (consult Undergraduate Bulletin for more information on admission dates and requirements). In consultation with an advisor, a student selects up to 18 credits of coursework required in the certification program for graduate credit. Additionally, the student enrolls in 12 credits of program core requirements. Listed below are the courses in each of the certification programs that can be taken for graduate credit.

Total Credits 10-12

General Option (15 credits)
The general option for a Master’s program in the Department of Exceptional Education is developed by identifying a theme of study that is based upon the student’s educational background, areas of professional interest, and professional development goals. A theme, for example, may focus on assessment, instruction, policy, or other relevant issues in the area of special education. Courses are selected in consultation with a faculty advisor.

Program Requirements

Major Professor as Advisor
The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations.

Thesis
A thesis or master’s project is required for all students in the certification and general options. All students are required to present the results of their thesis or project at a seminar session in the semester in which they complete their degree.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Doctor of Philosophy in Urban Education Specialization in Exceptional Education
Under the auspices of the doctoral program in Urban Education, the Department of Exceptional Education provides doctoral training with a specialization in Exceptional Education. The program emphasizes the study of the socio-cultural context, educational policy, research-based practices, and systems change and reform to support learning and development of individuals with disabilities. Prospective doctoral students wishing to specialize in Exceptional Education must first be admitted to the Urban Education Doctoral Program. Admission and general program requirements can be obtained from the Director of Doctoral Studies in Urban Education. This program is described in detail on the Urban Education (http://uwm.edu/graduateschool/urban-education) program page.

Inclusion and Accessibility Studies, Minor
The Inclusion and Accessibility Studies Minor will enable individuals from a variety of fields to have a foundational body of knowledge that will aid them in working with individuals with disability labels. Creating access to services and spaces in society is an important responsibility for all individuals; the minor in Inclusion and Accessibility Studies is applicable to undergraduates in a variety of fields, including: General and Special Education Teachers, Criminal Justice, Speech and Hearing Science, Business Administration, Occupational Science/Occupational Therapy, Physical Therapy, Nursing, the Arts, American Sign Language Studies, and American Sign Language interpreting.

**Interdisciplinary Language and Literacy Intervention (ILLI), Graduate Certificate**

This graduate certificate program offers a unique opportunity for students interested in language and literacy intervention to gain and apply knowledge about research, theory and practice across a variety of relevant disciplines. Prospective language and literacy specialists venturing into today’s school environments would benefit from an understanding of leadership, teaching and learning theory, research, and effective practice across the broad range of disciplines involved in interventions. Successful interventionists require many tools to teach, as well as the skills to know when and how to apply those tools. These skills come from a critical, reflective understanding of the research and theory, as well as a complex problem-solving approach to assessment and instruction. The 16-credit certificate program is multi-disciplinary, drawing upon current coursework in Educational Psychology, Curriculum and Instruction, and Exceptional Education in the School of Education, as well as courses in Communication Sciences and Disorders in the College of Health Sciences.

**Completion**

- 18 credits, at least 9 at the 300 level and above;
- Minimum GPA of 2.5 on all credits in the minor, including UWM and transfer credits

**Undergraduate Advising**

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

**How to Prepare for an Advising Meeting**

- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.
- Understand you are ultimately responsible for creating your educational, life, and career plans.
- Maintain honest and open communication with your advisor.
- Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

**Scheduling an Appointment**

Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

**Walk-In Hours**

Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

**Transfer Student Not Yet Enrolled at UWM?**

If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

**Graduate Advising**

If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).

**Completion**

- 18 credits, at least 9 at the 300 level and above;
- Minimum GPA of 2.5 on all credits in the minor, including UWM and transfer credits

---

**Admission Requirements**

**Application Deadlines**

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**

Applicants must have completed a bachelor’s degree prior to admission, must have a minimum 2.75 cumulative undergraduate grade point average. Applicants with a graduate degree must have a minimum 3.0 graduate grade point average.

**Application**

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
• Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

### Certificate Requirements

#### Transfer Credit
No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

#### Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

#### Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   - Degree programs must approve the courses from certificates that can double count toward the degree.
   - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

#### Time Limit
Certificate program time limits shall be established as follows:
- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

### Mathematics Teacher Leadership, Graduate Certificate
This certificate program provides teachers with current professional knowledge of mathematics teaching, learning trajectories, and assessment. It also imparts mathematical knowledge specialized for teaching and content-focused coaching strategies to improve instruction and student learning in mathematics.

Certificate completers will be positioned to contribute mathematics leadership as members of collaborative professional learning communities in schools, school districts, and other educational settings.

### Admission Requirements

#### Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office.
at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**

Applicants must have completed a bachelor’s degree with a 2.75 undergraduate GPA or a graduate degree with a minimum 3.0 GPA and must have teaching experience in mathematics.

**Application**

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

**Credits and Courses**

Students complete 15-credits of coursework, including courses in instructional improvement, mathematics education, and mathematics instruction leadership.

---

**Transition for Students with Disabilities, Graduate Certificate**

The Transition for Students with Disabilities Graduate Certificate provides students with increased knowledge and awareness of state-of-the-art transition planning, as well as experience with specific strategies related to transition assessment, instruction, and community/business collaboration. Those who complete the Transition for Students with Disabilities Certificate program will be able to critically examine and implement effective transition planning while ensuring students are accessing the general education curriculum; effectively collaborate with the business and general community to access work and post-secondary experiences for students with disabilities; implement customized job development strategies to meet the needs of students and the business; identify and collaborate with various community based organizations; learn strategies to develop self-determination and self-advocacy skills for
students with disabilities; and understand cultural and ethnic diversity issues related to transition planning.

The courses are aligned with the APSE (www.apse.org (http://www.apse.org)) professional standards and will provide the knowledge and skills to pass the national Certification of Employment Support Professionals (CESP).

**Admission Requirements**

**Application Deadlines**

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**

Applicants must have completed a bachelor’s degree prior to admission, with a minimum 2.75 cumulative undergraduate grade point average. Applicants with a graduate degree must have a minimum 3.0 graduate grade point average.

**Application**

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

**Credits and Courses**

The certificate requires a minimum of 15 credits. Students take five required courses and then, in consultation with the Program Coordinator, they may choose to take an optional 3 credit course in Business Management for more in-depth knowledge of working with the business community.

### Additional Requirements for Certification

- Undergraduate students must meet the graduation requirements for their primary certification.
- Program Portfolio - based on the 10 WI Teacher Standards.

### Benchmarks

#### Student Teaching

Prior to requesting/being assigned a student teaching placement, students must:

- Demonstrate Foreign Language Proficiency - A minimum score of Intermediate-High on the ACTFL OPI or equivalent is required prior to student teaching placement. Submit scores from your language proficiency test to your academic advisor.
- Complete an Immersion Experience - Required for all prospective language teachers, this requirement must be met by spending a semester or a year in a country where the chosen major language is spoken. Submit documentation of immersion experience to your academic advisor prior to student teaching placement.
- Complete and submit an application. Deadlines for submission are posted by the Office of Clinical Experiences. ([http://uwm.edu/education/academics/clinical-experiences](http://uwm.edu/education/academics/clinical-experiences))

To be approved, students must **ALSO** meet the following criteria:

- Be admitted to the School of Education
- Complete all required coursework. An exception to allow a student to take a course concurrently with student teaching requires approval by the student's faculty advisor.
- Have a minimum cumulative GPA of 2.5 on all undergraduate coursework, including transfer courses.
- Have a minimum 2.75 GPA in all content area and professional education courses.
- Passing scores reflected on your transcript for the Praxis II exam: English to Speakers of Other Languages: Content Knowledge #5361.
- Removal of all F and/or I (incomplete) grades.
- Demonstrate Foreign Language Proficiency - A minimum score of Intermediate-High on the ACTFL OPI or equivalent is required prior to student teaching placement. Submit scores from your language proficiency test to your academic advisor.
- Complete an Immersion Experience - Required for all prospective language teachers, this requirement must be met by spending a semester or a year in a country where the chosen major language is spoken. Submit documentation of immersion experience to your academic advisor prior to student teaching placement.
- Complete and submit an application. Deadlines for submission are posted by the Office of Clinical Experiences. ([http://uwm.edu/education/academics/clinical-experiences](http://uwm.edu/education/academics/clinical-experiences))

#### Undergraduate Advising

Our purpose is to provide collaborative, mentoring relationships which promote educational, career, and professional development. We value a student-centered, holistic, and ethical approach to advising based on strong partnerships with students, faculty and staff, and the larger campus community. We are committed to creating a respectful and supportive environment. We encourage students to be self-reliant through informed decisions and choices based upon dissemination of accurate information. We value our own continuous professional development to enhance the quality of the advising experience.

#### How to Prepare for an Advising Meeting

- Review your Advisement Report in PAWS ([http://uwm.edu/registrar/academic-unit-services/paws-academic-advisement](http://uwm.edu/registrar/academic-unit-services/paws-academic-advisement)).
- Come prepared with questions or topics for discussion.
- Make a list of courses you think you should take.
- Investigate opportunities to prepare for the job you want.
- Keep a record of your academic progress.

---

2 A grade of C or better is required for all professional education requirements, including student teaching. Prerequisites may be required.

3 Students must complete paperwork in order to be assigned a student teaching placement. To be approved for placement, additional criteria must be met. See Benchmarks (p. 617) for details.

4 Not required for students who are currently completing a portfolio in their major certification.

---

For the full document, please see [University of Wisconsin-Milwaukee](http://uwm.edu/).
• Understand you are ultimately responsible for creating your educational, life, and career plans.
• Maintain honest and open communication with your advisor.
• Take responsibility for choices you make as a student and member of the UW-Milwaukee community.

Scheduling an Appointment
Office of Student Services
Enderis Hall, Room 209
(414) 229-4721
soeinfo@uwm.edu

Walk-In Hours
Walk-in advising is for current School of Education students and is limited to 10-15 minutes. Offered weekly on Thursday from 1-4 PM, these opportunities allow for you to meet briefly with your assigned academic advisor, or an advisor familiar with your program of study.

Transfer Student Not Yet Enrolled at UWM?
If you are attending a different college or university and would like to transfer to UWM to study in the School of Education and have questions, please connect with our Transfer Advisor, Emilee Schultz, at (414) 229-6019 or emilee@uwm.edu.

Graduate Advising
If you are a School of Education graduate student, you may schedule an appointment with your faculty advisor by contacting your faculty advisor directly. Faculty contact information can be found in the People Directory (https://uwm.edu/education/people). Your faculty advisor will be listed in your PAWS account. If you are unsure who your advisor is, please contact Graduate Program Admissions Specialist Allison Hochmuth (https://uwm.edu/education/people/hochmuth-allison).
The School of Education offers an interdepartmental program of study leading to the PhD. Students must choose a specialization in either Adult, Continuing, and Higher Education Leadership, Art Education, Curriculum and Instruction, Educational Administration, Exceptional Education, Mathematics Education, Multicultural Studies, or Social Foundations of Education.

The program is designed to permit students to integrate their particular curricular areas of interest and specialization with a broader field of education, including urban education. Each specialization, with the exception of Multicultural Studies, is departmentally focused, and students must satisfy the admissions and curriculum requirements indicated for their particular specialization. Recognition of the specialization is acknowledged by official designation on the student’s transcript.

Each of the specializations offers the doctoral student an opportunity to pursue study in a specific program area. For example, Adult, Continuing, and Higher Education Leadership emphasizes governance and leadership issues within urban adult education organizations. Educational Administration explores governance and leadership issues of urban schools. Curriculum and Instruction provides program emphasis in a content area (e.g., reading), education level (e.g., early childhood), a general area (e.g., curriculum theory) or special area (e.g., guiding instructional improvement). Exceptional Education provides program emphasis in departmental interest areas (e.g., handicapping condition), or a cross-disciplinary interest.

A separate PhD with specialization in Counseling Psychology, Learning and Development, Research Methodology, and School Psychology is offered through the Department of Educational Psychology. Multicultural Studies is a cross-department program allowing students to develop their own area of focus in collaboration with faculty in multicultural urban education. The Social Foundations of Education specialization provides students with the conceptual tools with which to examine the complex interrelationships between school and society, education and culture.

All graduates should have a broad understanding of the issues, problems and trends related to education, including urban education, and the application of these to their major.

The program requires each participant to develop research skills ranging from logic in inquiry to development of specific methodological skills in qualitative and quantitative methods. The PhD is a research degree and not only a professional preparation degree. Therefore research is an integral part of the program. Mastery of these skills is demonstrated through coursework, research projects and the dissertation. Graduates apply their skills, in institutions of higher education, public or private school settings, federal, state or local governmental agencies, community organizations, and the private sector.

Urban Education Courses

EDUC 701 Urban Educational Issues
3 cr. Graduate.
Advanced study of urban educational issues in contemporary American cultural context.
Prerequisites: grad st; admis to School of Educ doctoral prog.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

EDUC 801 Urban Education: Seminar in Multicultural Studies
3 cr. Graduate.
An overview of theory and research on multiculturalism with emphasis on applications of theory and research to practice in a variety of educational settings.
Prerequisites: admis to phd prog urban educ; Educ 701(P).
Current Offerings: http://uwm.edu/schedule

EDUC 881 Action Research
3 cr. Graduate.
Perspectives on action research, its forms in various contexts, and how it contributes to knowledge and improved practice.
Prerequisites: admis to Urban Ed PhD prog; Educ 701(C) or cons instr.
Current Offerings: http://uwm.edu/schedule

EDUC 882 Multicultural Studies Practicum
3 cr. Graduate.
Intensive fieldwork/seminar with emphases on intercultural experience, integration of knowledge bases, and collaboration in community and university settings.
Prerequisites: Prreq: admis to Urban Ed PhD prog: Educ 881(P).
Last Taught: Summer 2002.
Current Offerings: http://uwm.edu/schedule

EDUC 900 Doctoral Seminar in Urban Education:
2-3 cr. Graduate.
Topics will vary. Overview of areas of study focuses upon problems in urban education. Emphasis placed upon research and potential research and potential search projects.
Prerequisites: admis to phd in urban educ prog.
Course Rules: May be repeated to max of 9 cr.
Current Offerings: http://uwm.edu/schedule
EDUC 901 Advanced Seminar in Urban Education
3 cr. Graduate.
A synthesis of research-based urban education issues. Focuses on
development of a literature review leading to a possible dissertation
topic.
**Prerequisites:** grad st; admis to School of Educ doctoral prog, Educ
701(P) and one of the following: Ad Ldsp 801, CurrIns 801, Ed Pol 801, Ed
**Last Taught:** Spring 2018, Fall 2016, Fall 2015, Fall 2014.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

Urban Education, PhD: Adult, Continuing, and Higher Education Leadership (ACHEL)

Specialization Overview

The primary mission of the specialization in Adult, Continuing, and Higher Education Leadership (ACHEL) is to prepare individuals for leadership positions in urban adult, continuing, and higher educational organizations. The specialization will assist students to examine changing perspectives on urban postsecondary, adult and continuing educational organizations; changing notions of urban adult, continuing, and higher education teaching and learning; and the changing roles of the students, teachers, researchers, and administrators who work and study within urban adult, continuing, and higher education organizations.

For course descriptions in this area, visit the Administrative Leadership page (http://wwwdev.uwm.edu/graduateschool/administrative-leadership).

The School of Education offers an interdepartmental program of study leading to the PhD. Students must choose a specialization in either Adult, Continuing, and Higher Education Leadership, Art Education, Curriculum and Instruction, Educational Administration, Exceptional Education, Mathematics Education, Multicultural Studies, or Social Foundations of Education.

The program is designed to permit students to integrate their particular curricular areas of interest and specialization with a broader field of education, including urban education. Each specialization, with the exception of Multicultural Studies, is departmentally focused, and students must satisfy the admissions and curriculum requirements indicated for their particular specialization. Recognition of the specialization is acknowledged by official designation on the student’s transcript.

Each of the specializations offers the doctoral student an opportunity to pursue study in a specific program area. For example, Adult, Continuing, and Higher Education Leadership emphasizes governance and leadership issues within urban adult education organizations. Educational Administration explores governance and Leadership issues of urban schools. Curriculum and Instruction provides program emphasis in a content area (e.g., reading), education level (e.g., early childhood), a general area (e.g., curriculum theory) or special area (e.g., guiding instructional improvement). Exceptional Education provides program emphasis in departmental interest areas (e.g., handicapping condition), or a cross-disciplinary interest.

A separate PhD with specialization in Counseling Psychology, Learning and Development, Research Methodology, and School Psychology is offered through the Department of Educational Psychology (http://uwm.edu/graduateschool/educational-psychology). Multicultural Studies is a cross-department program allowing students to develop their own area of focus in collaboration with faculty in multicultural urban education. The Social Foundations of Education specialization provides students with the conceptual tools with which to examine the complex interrelationships between school and society, education and culture.

All graduates should have a broad understanding of the issues, problems and trends related to education, including urban education, and the application of these to their major.

The program requires each participant to develop research skills ranging from logic in inquiry to development of specific methodological skills in qualitative and quantitative methods. The PhD is a research degree and not only a professional preparation degree. Therefore research is an integral part of the program. Mastery of these skills is demonstrated through coursework, research projects and the dissertation. Graduates apply their skills, in institutions of higher education, public or private school settings, federal, state, or local governmental agencies, community organizations, and the private sector.

Cooperating Departments

- Administrative Leadership

- Educational Policy and Community Studies
- Educational Psychology
- Exceptional Education
- Information Studies (School of)

Admission Requirements

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

An applicant must meet Graduate School requirements plus the following program requirements to be considered for admission.

Graduate Record Examination

Submission of scores on the General Test portion of the Graduate Record Examination is required. Scores that are more than five years old will not be considered valid.

Grade Point Average

Undergraduate GPA of 2.85 (applicants having less than 15 graduate hours must have an undergraduate GPA of 3.50); graduate GPA of 3.5; or a combined (undergraduate and graduate) GPA of 6.5.

Writing Sample

Applicants must submit a writing sample completed within the last five years. The writing sample must be single authored, at least 1500 words, and must be selected from one of the following options:

1. Master’s Thesis
2. Undergraduate Senior Thesis
3. Technical report
4. Term Paper
5. Publication
6. Written Description of a Project
7. Action Research Project
8. A 5-10 page response to the following question: How would you go about determining and evaluating critical issues in urban education?

The response to this question must show evidence of appropriate references to a knowledge base.

The writing sample must be submitted with the application.
The coursework will be structured as follows:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Additional advanced-level (800 or above) coursework from either a qualitative track or quantitative track: 6

Approved research design course: 3

Total Credits: 16

All students demonstrate knowledge in this area by writing a preliminary examination research question and successfully defending a dissertation.

**Designated Specialization**

Students indicate a specific area of specialization, by applying for one of the transcript-designated specializations in either Adult, Continuing, and Higher Education Leadership, Curriculum and Instruction, Art Education, Exceptional Education, Multicultural Studies, or Social Foundations of Education. Students may be required to meet the specific admissions and program requirements for their intended specialization in addition to meeting the PhD admissions and program requirements. (Please see the accompanying explanation and requirements for each specialization.)

**Minor**

Some program specializations may require completion of a minor consisting of courses in a related discipline that supports the student’s program of studies. Students should consult requirements within their specialization. If pursuing a minor, the student may choose either Option A or Option B.

1. **Option A:** A minimum of 8 credits in a single department outside the School of Education. A minor professor approves these courses, sits as a member of the student’s doctoral committee, and contributes to the student’s doctoral preliminary examination.

2. **Option B:** A minimum of 12 credits in two or more departments, with a minimum of 6 credits outside of the School of Education. The remaining credits may be taken within the School of Education, but must be taken outside of the department of specialization.

**Adult, Continuing, and Higher Education Leadership Specialization**

Subsequent to UEDP admission, the student must submit a program of studies for the concentration in Adult, Continuing, and Higher Education Leadership, developed in conjunction with the student’s advisor and committee, to the Director of the Urban Education Doctoral Program.

The student must meet all of the program requirements of the Urban Education Doctoral Program. The specialization in Adult, Continuing, and Higher Education Leadership consists of a minimum of (30) graduate credits excluding dissertation credits.

The coursework will be structured as follows:

### Total Credits

Total Credits: 30-45

---

Students entering the Ph.D. program without a Master's degree in Adult Education are required to take the following electives. Your advisor may recommend other courses in addition to these.

Selection of the major professor is by mutual consent between the student and the faculty member. The student must notify the UEDP in writing when the major professor has been selected.

### Program Requirements

#### Major Professor

Upon admission to the doctoral program, the student is assigned an initial advisor from his or her intended specialization. This person is available to discuss initial course selection and provide general advice about the program and specialization. After beginning the program and before filing a Program of Studies, the student will seek a permanent major professor from his/her specialization who is eligible to serve in such a capacity. This permanent advisor may be the initial advisor if the student desires. The major professor is also chair of the student's dissertation committee.

#### Foreign Language Requirement

There is no foreign language requirement. However, individual students may be required to demonstrate proficiency in a foreign language if such proficiency is determined to be necessary by a student's committee.

#### Residence

The residency requirement is satisfied through the successful completion of 9 or more credits in each of two consecutive semesters, excluding summer, or by completing at least 6 graduate credits in each of three consecutive semesters, excluding summer.

It is the student's responsibility to notify the Office of Doctoral Studies when residency requirements have been met. Such notification must be in writing and must include the semesters, year(s) and number of credits taken during each of the applicable semesters.

#### Doctoral Committee Membership

The dissertation advisor is an Urban Education doctoral advisor and member of the Department of Administrative Leadership. At least two other committee members must be from the Department of Administrative Leadership.

#### Doctoral Preliminary Examination

The student must pass a doctoral preliminary examination to qualify for formal admission to candidacy for the degree. The examination covers the area of specialization, urban education, the minor, and research methods.

#### Dissertation

The candidate must present a dissertation reporting the results of an original research study appropriate to the student's program. Prior to beginning the research, the candidate must present an acceptable dissertation proposal and defend it at an oral hearing.

#### Dissertation Defense

The candidate must, as the final step toward the degree, pass an oral examination in defense of the dissertation.

#### Time Limit

Students who do not complete all degree requirements within seven years from the date of admission to the doctoral program will be recommended for dismissal to the Graduate School.
Other Requirements
This is only a summary of the doctoral program requirements. A complete list of requirements is available from the Office of Doctoral Studies. Doctoral Committees may specify course requirements which exceed the minima described here.

For additional information on the PhD, see the Graduate School Doctoral Requirements (http://wwwdev.uwm.edu/graduateschool/doctoral-requirements)

Exit Requirements
Contingent upon successful completion of program requirements, the doctoral preliminary examination, and the dissertation defense, the Chair of the Department of Administrative Leadership must give final approval for the inclusion of “Urban Education: Adult, Continuing, and Higher Education Leadership” on the student’s transcript.

Urban Education, PhD: Art Education

The program is designed to permit students to integrate their particular media and curricular interests in art and art education with theoretical knowledge and educational practices tied to the contexts of urban education and community studies. An art education specialization provides each graduate student with opportunities for growth as an artist, teacher, and researcher through the development of their own arts practices and the study of the social and cultural implications of the arts in society and among learners. The program emphasizes the exploration of media, the development of socially responsive art curricula in urban environments, and research using disciplines of inquiry in the arts and art education.

The program requires each participant to develop research skills using qualitative and quantitative methods. The PhD is a research degree, not just a professional preparation degree. Mastery of these skills is demonstrated through coursework, research projects, and the dissertation. Many graduates apply their skills in institutions of higher education; public or private school settings; federal, state, or local governmental agencies; community organizations; and the private sector.

Degree Overview
The School of Education offers an interdepartmental program of study leading to the PhD. Students must choose a specialization in either Adult, Continuing, and Higher Education Leadership, Art Education, Curriculum and Instruction, Educational Administration, Exceptional Education, Mathematics Education, Multicultural Studies, or Social Foundations of Education.

The program is designed to permit students to integrate their particular curricular areas of interest and specialization with a broader field of education, including urban education. Each specialization, with the exception of Multicultural Studies, is departmentally focused, and students must satisfy the admissions and curriculum requirements indicated for their particular specialization. Recognition of the specialization is acknowledged by official designation on the student’s transcript.

Each of the specializations offers the doctoral student an opportunity to pursue study in a specific program area. For example, Adult, Continuing, and Higher Education Leadership emphasizes governance and leadership issues within urban adult education organizations. Educational Administration explores governance and Leadership issues of urban schools. Curriculum and Instruction provides program emphasis in a content area (e.g., reading), education level (e.g., early childhood), a general area (e.g., curriculum theory) or special area (e.g., guiding instructional improvement). Exceptional Education provides program emphasis in departmental interest areas (e.g., handicapping condition), or a cross-disciplinary interest.

A separate PhD with specialization in Counseling Psychology, Learning and Development, Research Methodology, and School Psychology is offered through the Department of Educational Psychology (http://uwm.edu/graduateschool/educational-psychology). Multicultural Studies is a cross-department program allowing students to develop their own area of focus in collaboration with faculty in multicultural urban education. The Social Foundations of Education specialization provides students with the conceptual tools with which to examine the complex interrelationships between school and society, education and culture.

All graduates should have a broad understanding of the issues, problems and trends related to education, including urban education, and the application of these to their major.

The program requires each participant to develop research skills ranging from logic in inquiry to development of specific methodological skills in qualitative and quantitative methods. The PhD is a research degree and not only a professional preparation degree. Therefore research is an integral part of the program. Mastery of these skills is demonstrated through coursework, research projects and the dissertation. Graduates apply their skills, in institutions of higher education, public or private school settings, federal, state, or local governmental agencies, community organizations, and the private sector.

Requirements

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements plus the following program requirements to be considered for admission.

Graduate Record Examination
Submission of scores on the General Test portion of the Graduate Record Examination is required. Scores that are more than five years old will not be considered valid.

Grade Point Average
Undergraduate GPA of 2.85 (applicants having less than 15 graduate hours must have an undergraduate GPA of 3.50); graduate GPA of 3.5; or a combined (undergraduate and graduate) GPA of 6.5.
Writing Sample
Applicants must submit a writing sample completed within the last five years. The writing sample must be single authored, at least 1500 words, and must be selected from one of the following options:

1. Master's Thesis
2. Undergraduate Senior Thesis
3. Technical report
4. Term Paper
5. Publication
6. Written Description of a Project
7. Action Research Project
8. A 5-10 page response to the following question: How would you go about determining and evaluating critical issues in urban education? The response to this question must show evidence of appropriate references to a knowledge base.

The writing sample must be submitted with the application.

Interview
An interview may be arranged with all applicants. In the case of applicants living too far away to attend a personal interview, a phone interview will be arranged.

Recommendations
An applicant must have a minimum of three appropriate persons write a recommendation and comment meaningfully and knowledgeably on the likelihood that the applicant can successfully complete an advanced scholarly program of studies for the PhD degree. It is helpful if the majority of references are written by college/university faculty. If an applicant is unable to secure academic references because of elapsed time, other references should be as current as possible. In any case, individuals preparing references should be selected who can comment with confidence on the applicant's academic qualifications. Reference forms must be forwarded directly by the writers to the Office of Doctoral Studies. Complete information is provided in application materials available from the Office of Doctoral Studies.

Application
Applicants are required to articulate their urban and research interests and goals in application materials. An intended concentration within the PhD must be specified at time of application.

1. Applicants who fail to satisfy these admission requirements will not be recommended for admission. However, satisfying these minima does not guarantee admission.
2. Applicants who are not recommended for admission will be provided an opportunity to request a reconsideration.

Individual specializations may expect prior coursework in that area. Applicants may contact the Director for specific information. Openings in the program are limited. Applicants should submit all application materials no later than January 1 for admission the following September. Applicants must contact the Office of Doctoral Studies for application information and forms.

Credits and Courses
Minimum degree requirement is 54 credits beyond the bachelor's degree (although students ordinarily take more than 54), at least 27 of which must be earned in residence at UWM (i.e., on the UWM campus).

In consultation with the major professor, the student designs a program of studies that enables the student to gain the knowledge and skills appropriate to the student's goals.

The program of studies includes the following:

The Doctoral Seminars
All doctoral students must take three 3-credit seminar courses devoted to content involving education in an urban environment. One of these seminars is taken as part of the department specialization.

Research Requirement
Department specialization requirements may exceed those specified here.

All students demonstrate knowledge in this area by writing a preliminary examination research question and successfully defending a dissertation.

Designated Specialization
Students indicate a specific area of specialization, by applying for one of the transcript-designated specializations in either Adult, Continuing, and Higher Education Leadership, Curriculum and Instruction, Art Education, Exceptional Education, Multicultural Studies, or Social Foundations of Education. Students may be required to meet the specific admissions and program requirements for their intended specialization in addition to meeting the PhD admissions and program requirements. (Please see the accompanying explanation and requirements for each specialization.)

Minor
Some program specializations may require completion of a minor consisting of courses in a related discipline that supports the student's program of studies. Students should consult requirements within their specialization. If pursuing a minor, the student may choose either Option A or Option B.

1. **Option A**: A minimum of 8 credits in a single department outside the School of Education. A minor professor approves these courses, sits as a member of the student's doctoral committee, and contributes to the student's doctoral preliminary examination.

2. **Option B**: A minimum of 12 credits in two or more departments, with a minimum of 6 credits outside of the School of Education. The remaining credits may be taken within the School of Education, but must be taken outside of the department of specialization.

Art Education Specialization
Students wishing to specialize in Art Education must first be admitted to the Urban Education Doctoral Program (UEDP). Applications will be reviewed by the UEDP Admissions Committee as well as the Art Education graduate faculty in the Department of Art and Design within the Peck School of the Arts.
Specialization Requirements

1. The student must meet all Urban Education Doctoral Program requirements.
2. The student must submit a program for concentration in Art Education, developed in conjunction with the student’s advisor. The program of study must be reviewed and approved by the Art Education graduate faculty and the UEDP director.
3. Students not having the equivalent of a master of arts, master of science, or master of fine arts degree in art education, or related field recognized by the Department of Art and Design may be required to take appropriate coursework as a prerequisite to the doctoral specialization in Art Education.
4. Students will be required to pass a preliminary examination by demonstrating competence in urban education, research methods, the specialization in Art Education, and their additional area of study.
5. A dissertation will be required in the specialization area of Art Education. The dissertation advisor must be an approved doctoral advisor or major professor who is a member of the specialization faculty.

For a specialization in Art Education, coursework must be completed in four areas:
1. Urban education
2. Research
3. Art education
4. An additional area of study

At least 27 credits must be completed in doctoral status at UWM, not including dissertation credits.

Program Requirements

Major Professor

Upon admission to the doctoral program, the student is assigned an initial advisor from his or her intended specialization. This person is available to discuss initial course selection and provide general advice about the program and specialization. After beginning the program and before filing a Program of Studies, the student will seek a permanent major professor from his/her specialization who is eligible to serve in such a capacity. This permanent advisor may be the initial advisor if the student desires. The major professor is also chair of the student’s dissertation committee.

Selection of the major professor is by mutual consent between the student and the faculty member. The student must notify the UEDP in writing when the major professor has been selected.

Foreign Language Requirement

There is no foreign language requirement. However, individual students may be required to demonstrate proficiency in a foreign language if such proficiency is determined to be necessary by a student’s committee.

Residence

The residency requirement is satisfied through the successful completion of 9 or more credits in each of two consecutive semesters, excluding summer, or by completing at least 6 graduate credits in each of three consecutive semesters, excluding summer.

It is the student’s responsibility to notify the Office of Doctoral Studies when residency requirements have been met. Such notification must be in writing and must include the semesters, year(s) and number of credits taken during each of the applicable semesters.

Doctoral Committee Membership

Three graduate faculty from the Department of Art and Design, at least two of which must be from the Art Education area (including the major professor).

Doctoral Preliminary Examination

The student must pass a doctoral preliminary examination to qualify for formal admission to candidacy for the degree. The examination covers the area of specialization, urban education, the minor, and research methods.

Dissertation

The candidate must present a dissertation reporting the results of an original research study appropriate to the student’s program. Prior to beginning the research, the candidate must present an acceptable dissertation proposal and defend it at an oral hearing.

Dissertation Defense

The candidate must, as the final step toward the degree, pass an oral examination in defense of the dissertation.

Code | Title | Credits
--- | --- | ---
EDUC 701 | Urban Educational Issues | 9
ART ED 801 | Seminar in Urban Education and the Visual Arts | 6
EDUC 901 | Advanced Seminar in Urban Education | 9

Select 9 credits in a specific area

Select at least 6 credits in one department outside the Department of Art and Design and the School of Education that enables the research endeavor

Total Credits 55

1 Students should work with the major professor to determine the appropriate advanced level courses.
Time Limit
Students who do not complete all degree requirements within seven years from the date of admission to the doctoral program will be recommended for dismissal to the Graduate School.

Other Requirements
This is only a summary of the doctoral program requirements. A complete list of requirements is available from the Office of Doctoral Studies. Doctoral Committees may specify course requirements which exceed the minima described here.

For additional information on the PhD, see the Graduate School Doctoral Requirements (http://wwwdev.uwm.edu/graduateschool-doctoral-requirements)

Exit Requirements
Contingent upon the satisfactory completion of program requirements, the preliminary qualifying examination, and the successful oral defense of the dissertation, the Urban Education Doctoral Committee chair will give final approval for the specialization inclusion on transcripts.

Urban Education, PhD: Curriculum and Instruction

The specialization in Curriculum and Instruction (C&I) gives students an opportunity to improve professional experiences with the students they teach, the educational contexts in which they work, and their disciplinary and content knowledge. The Curriculum and Instruction specialization combines theoretical and disciplinary content knowledge, practical experiences and scholarly activities.

The program prepares education professionals to work in such varied settings as schools, colleges and universities, school district central offices, government agencies, community organizations and private consulting. Graduates of the program are prepared for leadership roles as curriculum directors, instructional coordinators, school partnership coordinators, applied researchers, professional development coordinators and professors.

For course descriptions in this area, visit the Curriculum and Instruction page (http://wwwdev.uwm.edu/graduateschool-curriculum-instruction/#courses).

Degree Overview
The School of Education offers an interdepartmental program of study leading to the PhD. Students must choose a specialization in either Adult, Continuing, and Higher Education Leadership, Art Education, Curriculum and Instruction, Educational Administration, Exceptional Education, Mathematics Education, Multicultural Studies, or Social Foundations of Education.

The program is designed to permit students to integrate their particular curricular areas of interest and specialization with a broader field of education, including urban education. Each specialization, with the exception of Multicultural Studies, is departmentally focused, and students must satisfy the admissions and curriculum requirements indicated for their particular specialization. Recognition of the specialization is acknowledged by official designation on the student’s transcript.

Each of the specializations offers the doctoral student an opportunity to pursue study in a specific program area. For example, Adult, Continuing, and Higher Education Leadership emphasizes governance and leadership issues within urban adult education organizations. Educational Administration explores governance and Leadership issues of urban schools. Curriculum and Instruction provides program emphasis in a content area (e.g., reading), education level (e.g., early childhood), a general area (e.g., curriculum theory) or special area (e.g., guiding instructional improvement). Exceptional Education provides program emphasis in departmental interest areas (e.g., handicapping condition), or a cross-disciplinary interest.

A separate PhD with specialization in Counseling Psychology, Learning and Development, Research Methodology, and School Psychology is offered through the Department of Educational Psychology (http://uwm.edu/graduateschool/educational-psychology). Multicultural Studies is a cross-department program allowing students to develop their own area of focus in collaboration with faculty in multicultural urban education. The Social Foundations of Education specialization provides students with the conceptual tools with which to examine the complex interrelationships between school and society, education and culture.

All graduates should have a broad understanding of the issues, problems and trends related to education, including urban education, and the application of these to their major.

The program requires each participant to develop research skills ranging from logic in inquiry to development of specific methodological skills in qualitative and quantitative methods. The PhD is a research degree and not only a professional preparation degree. Therefore research is an integral part of the program. Mastery of these skills is demonstrated through coursework, research projects and the dissertation. Graduates apply their skills, in institutions of higher education, public or private school settings, federal, state, or local governmental agencies, community organizations, and the private sector.

All students demonstrate knowledge in this area by writing a preliminary examination research question and successfully defending a dissertation.

Designated Specialization
Students indicate a specific area of specialization, by applying for one of the transcript-designated specializations in either Adult, Continuing, and Higher Education Leadership, Curriculum and Instruction, Art Education, Exceptional Education, Multicultural Studies, or Social Foundations of Education. Students may be required to meet the specific admissions and program requirements for their intended specialization in addition to meeting the PhD admissions and program requirements. (Please see the accompanying explanation and requirements for each specialization.)

Minor
Some program specializations may require completion of a minor consisting of courses in a related discipline that supports the student’s program of studies. Students should consult requirements within their specialization. If pursuing a minor, the student may choose either Option A or Option B.

1. **Option A:** A minimum of 8 credits in a single department outside the School of Education. A minor professor approves these courses, sits as a member of the student’s doctoral committee, and contributes to the student’s doctoral preliminary examination.
2. **Option B:** A minimum of 12 credits in two or more departments, with a minimum of 6 credits outside of the School of Education. The remaining credits may be taken within the School of Education, but must be taken outside of the department of specialization.
Curriculum and Instruction Specialization
1. Students wishing to specialize in Curriculum and Instruction must first be admitted to the Urban Education Doctoral Program (UEDP).
2. Subsequent to UEDP admission, the student must submit to the Curriculum and Instruction Graduate Committee a program for concentration in Curriculum and Instruction developed in conjunction with the student’s advisor.

The student must meet all of the program requirements of the Urban Education Doctoral Program.

Specialization in Curriculum and Instruction consists of a minimum of 24 credits, 18 of which must be taken in Curriculum and Instruction. No more than 6 credits taken prior to admission to the Ph.D. program may be counted toward the specialty. The credits are to be distributed as follows:

<table>

The UEDP doctoral preliminary examination includes a section covering the student’s Curriculum and Instruction specialization.

A dissertation with a Curriculum and Instruction emphasis is required. The dissertation advisor must be an UEDP doctoral advisor and a member of the Department of Curriculum and Instruction. At least two other committee members must be from Curriculum and Instruction.

Program Requirements
Major Professor
Upon admission to the doctoral program, the student is assigned an initial advisor from his or her intended specialization. This person is available to discuss initial course selection and provide general advice about the program and specialization. After beginning the program and before filing a Program of Studies, the student will seek a permanent major professor from his/her specialization who is eligible to serve in such a capacity. This permanent advisor may be the initial advisor if the student desires. The major professor is also chair of the student’s dissertation committee.

Selection of the major professor is by mutual consent between the student and the faculty member. The student must notify the UEDP in writing when the major professor has been selected.

Foreign Language Requirement
There is no foreign language requirement. However, individual students may be required to demonstrate proficiency in a foreign language if such proficiency is determined to be necessary by a student’s committee.

Residence
The residency requirement is satisfied through the successful completion of 9 or more credits in each of two consecutive semesters, excluding summer, or by completing at least 6 graduate credits in each of three consecutive semesters, excluding summer.

It is the student’s responsibility to notify the Office of Doctoral Studies when residency requirements have been met. Such notification must be in writing and must include the semesters, year(s) and number of credits taken during each of the applicable semesters.

Doctoral Preliminary Examination
The student must pass a doctoral preliminary examination to qualify for formal admission to candidacy for the degree. The examination covers the area of specialization, urban education, the minor, and research methods.

Dissertation
The candidate must present a dissertation reporting the results of an original research study appropriate to the student’s program. Prior to beginning the research, the candidate must present an acceptable dissertation proposal and defend it at an oral hearing.

Dissertation Defense
The candidate must, as the final step toward the degree, pass an oral examination in defense of the dissertation.

Time Limit
Students who do not complete all degree requirements within seven years from the date of admission to the doctoral program will be recommended for dismissal to the Graduate School.

Other Requirements
This is only a summary of the doctoral program requirements. A complete list of requirements is available from the Office of Doctoral Studies. Doctoral Committees may specify course requirements which exceed the minima described here.

For additional information on the PhD, see the Graduate School Doctoral Requirements (http://wwwdev.uwm.edu/graduateschool/doctoral-requirements)

Exit Requirements
Contingent upon completion of program requirements, the doctoral preliminary examination, and the successful defense of the dissertation, the Chair of the Department of Curriculum and Instruction will give final approval for the inclusion of “Urban Education: Curriculum and Instruction” on the student’s transcript.

Urban Education, PhD: Educational Administration
The specialization in Educational Administration focuses on the development of educational leaders, particularly for service in urban metropolitan areas. Individuals trained in this program can provide excellence in leadership by nurturing leadership among others in the school community, creating a positive work environment for students, staff, and parents, and lastly contribute to the quality of teaching and learning in the district and within its schools. The curriculum draws from a variety of sources including current research and literature, national and state professional association standards, federal and state governmental guidelines, and the field of practice.

For course descriptions in this area, visit the Administrative Leadership page (http://wwwdev.uwm.edu/graduateschool/administrative-leadership).
Degree Overview

The School of Education offers an interdepartmental program of study leading to the PhD. All students demonstrate knowledge in this area by writing a preliminary examination research question and successfully defending a dissertation.

Designated Specialization
Students indicate a specific area of specialization, by applying for one of the transcript-designated specializations in either Adult, Continuing, and Higher Education Leadership, Curriculum and Instruction, Art Education, Exceptional Education, Multicultural Studies, or Social Foundations of Education. Students may be required to meet the specific admissions and program requirements for their intended specialization in addition to meeting the PhD admissions and program requirements. (Please see the accompanying explanation and requirements for each specialization.)

Minor
Some program specializations may require completion of a minor consisting of courses in a related discipline that supports the student’s program of studies. Students should consult requirements within their specialization. If pursuing a minor, the student may choose either Option A or Option B.

1. **Option A:** A minimum of 8 credits in a single department outside the School of Education. A minor professor approves these courses, sits as a member of the student’s doctoral committee, and contributes to the student’s doctoral preliminary examination.

2. **Option B:** A minimum of 12 credits in two or more departments, with a minimum of 6 credits outside of the School of Education. The remaining credits may be taken within the School of Education, but must be taken outside of the department of specialization.

Educational Administration Specialization
Subsequent to UEDP admission, the student must submit a program for concentration in Educational Administration, developed in conjunction with the student’s advisor and committee, to the chair of the department of Administrative Leadership.

The student must meet all of the program requirements of the Urban Education Doctoral Program. The specialization in Educational Administration consists of a minimum of 30 graduate credits excluding dissertation credits.

The credits are to be distributed as follows:

**Ph.D. Non-Certification Orientation**

Although a Master’s Degree and certification as a principal are prerequisites to certification as a School Superintendent in Wisconsin, doctoral students may satisfy the requirements for both licenses within
their Ph.D. Program of Study. Advisors will design such programs based on individual student need.

Any post-master’s courses taken prior to admission while enrolled as a non-degree student in the Specialist Program for School Superintendent Certification do not have to be repeated, subject to advisor and UEDC Director approval. All such credits may be applied toward the 30 credits required in the area of concentration except that in no case may a Ph.D. area of concentration contain fewer than 9 upper level graduate credits (excluding dissertation credits) taken after admission to doctoral study. Individuals who have not completed at least 6 credits of accepted graduate coursework within the 5 year immediately prior to admission must take a minimum of 15 credits.

**Program Requirements**

**Major Professor**
Upon admission to the doctoral program, the student is assigned an initial advisor from his or her intended specialization. This person is available to discuss initial course selection and provide general advice about the program and specialization. After beginning the program and before filing a Program of Studies, the student will seek a permanent major professor from his/her specialization who is eligible to serve in such a capacity. This permanent advisor may be the initial advisor if the student desires. The major professor is also chair of the student’s dissertation committee.

Selection of the major professor is by mutual consent between the student and the faculty member. The student must notify the UEDP in writing when the major professor has been selected.

**Foreign Language Requirement**
There is no foreign language requirement. However, individual students may be required to demonstrate proficiency in a foreign language if such proficiency is determined to be necessary by a student’s committee.

**Residence**
The residency requirement is satisfied through the successful completion of 9 or more credits in each of two consecutive semesters, excluding summer, or by completing at least 6 graduate credits in each of three consecutive semesters, excluding summer.

It is the student’s responsibility to notify the Office of Doctoral Studies when residency requirements have been met. Such notification must be in writing and must include the semesters, year(s) and number of credits taken during each of the applicable semesters.

**Doctoral Committee Membership**
The dissertation advisor is an Urban Education doctoral advisor and member of the Department of Administrative Leadership. At least two other committee members must be from the Department of Administrative Leadership.

**Doctoral Preliminary Examination**
The student must pass a doctoral preliminary examination to qualify for formal admission to candidacy for the degree. The examination covers the area of specialization, urban education, the minor, and research methods.

**Dissertation**
The candidate must present a dissertation reporting the results of an original research study appropriate to the student’s program. Prior to beginning the research, the candidate must present an acceptable dissertation proposal and defend it at an oral hearing.

**Dissertation Defense**
The candidate must, as the final step toward the degree, pass an oral examination in defense of the dissertation.

**Time Limit**
Students who do not complete all degree requirements within seven years from the date of admission to the doctoral program will be recommended for dismissal to the Graduate School.

**Other Requirements**
This is only a summary of the doctoral program requirements. A complete list of requirements is available from the Office of Doctoral Studies. Doctoral Committees may specify course requirements which exceed the minima described here.

For additional information on the PhD, see the Graduate School Doctoral Requirements (http://wwwdev.uwm.edu/graduateschool/doctoral-requirements)

**Exit Requirements**
Contingent upon successful completion of program requirements, the doctoral preliminary examination, and the dissertation defense, the Chair of the Department of Administrative Leadership must give final approval for the inclusion of “Urban Education: Educational Administration” on the student's transcript.

**Urban Education, PhD: Exceptional Education**
The doctoral specialization in Exceptional Education provides a program of advanced study of special education. The program emphasizes the study the socio-cultural context, educational policy, research-based practices and systems change and reform. Students in Exceptional Education take advanced coursework in special education and choose to focus on related areas such as administration, research, teacher education, curriculum design and development, and community-based supports and partnerships. In addition, students declare a minor area of interest.

Students work with their major professor to develop an individualized program which incorporates breadth as well as depth of study.

For course descriptions in this area, visit the Exceptional Education section (http://wwwdev.uwm.edu/graduateschool/exceptional-education/#courses) of this catalog.

**Degree Overview**
The School of Education offers an interdepartmental program of study leading to the PhD. Students must choose a specialization in either Adult, Continuing, and Higher Education Leadership, Art Education, Curriculum and Instruction, Educational Administration, Exceptional Education, Mathematics Education, Multicultural Studies, or Social Foundations of Education.

The program is designed to permit students to integrate their particular curricular areas of interest and specialization with a broader field of education, including urban education. Each specialization, with the exception of Multicultural Studies, is departmentally focused, and students must satisfy the admissions and curriculum requirements indicated for their particular specialization. Recognition of the specialization is acknowledged by official designation on the student’s transcript.
Each of the specializations offers the doctoral student an opportunity to pursue study in a specific program area. For example, Adult, Continuing, and Higher Education Leadership emphasizes governance and leadership issues within urban adult education organizations. Educational Administration explores governance and Leadership issues of urban schools. Curriculum and Instruction provides program emphasis in a content area (e.g., reading), education level (e.g., early childhood), a general area (e.g., curriculum theory) or special area (e.g., guiding instructional improvement). Exceptional Education provides program emphasis in departmental interest areas (e.g., handicapping condition), or a cross-disciplinary interest.

A separate PhD with specialization in Counseling Psychology, Learning and Development, Research Methodology, and School Psychology is offered through the Department of Educational Psychology (http://uwm.edu/graduateschool/educational-psychology). Multicultural Studies is a cross-department program allowing students to develop their own area of focus in collaboration with faculty in multicultural urban education. The Social Foundations of Education specialization provides students with the conceptual tools with which to examine the complex interrelationships between school and society, education and culture.

All graduates should have a broad understanding of the issues, problems and trends related to education, including urban education, and the application of these to their major.

The program requires each participant to develop research skills ranging from logic in inquiry to development of specific methodological skills in qualitative and quantitative methods. The PhD is a research degree and not only a professional preparation degree. Therefore research is an integral part of the program. Mastery of these skills is demonstrated through coursework, research projects and the dissertation. Graduates apply their skills, in institutions of higher education, public or private school settings, federal, state, or local governmental agencies, community organizations, and the private sector.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements plus the following program requirements to be considered for admission.

Graduate Record Examination
Submission of scores on the General Test portion of the Graduate Record Examination is required. Scores that are more than five years old will not be considered valid.

Grade Point Average
Undergraduate GPA of 2.85 (applicants having less than 15 graduate hours must have an undergraduate GPA of 3.50); graduate GPA of 3.5; or a combined (undergraduate and graduate) GPA of 6.5.

Writing Sample
Applicants must submit a writing sample completed within the last five years. The writing sample must be single authored, at least 1500 words, and must be selected from one of the following options:

1. Master’s Thesis
2. Undergraduate Senior Thesis
3. Technical report
4. Term Paper
5. Publication
6. Written Description of a Project
7. Action Research Project
8. A 5-10 page response to the following question: How would you go about determining and evaluating critical issues in urban education?

The response to this question must show evidence of appropriate references to a knowledge base.

The writing sample must be submitted with the application.

Interview
An interview may be arranged with all applicants. In the case of applicants living too far away to attend a personal interview, a phone interview will be arranged.

Recommendations
An applicant must have a minimum of three appropriate persons write a recommendation and comment meaningfully and knowledgeably on the likelihood that the applicant can successfully complete an advanced scholarly program of studies for the PhD degree. It is helpful if the majority of references are written by college/university faculty. If an applicant is unable to secure academic references because of elapsed time, other references should be as current as possible. In any case, individuals preparing references should be selected who can comment with confidence on the applicant's academic qualifications. Reference forms must be forwarded directly by the writers to the Office of Doctoral Studies. Complete information is provided in application materials available from the Office of Doctoral Studies.

Application
Applicants are required to articulate their urban and research interests and goals in application materials. An intended concentration within the PhD must be specified at time of application.

1. Applicants who fail to satisfy these admission requirements will not be recommended for admission. However, satisfying these minima does not guarantee admission.
2. Applicants who are not recommended for admission will be provided an opportunity to request a reconsideration.

Individual specializations may expect prior coursework in that area. Applicants may contact the Director for specific information. Openings in the program are limited. Applicants should submit all application materials no later than January 1 for admission the following September. Applicants must contact the Office of Doctoral Studies for application information and forms.
Credits and Courses

Minimum degree requirement is 54 credits beyond the bachelor’s degree (although students ordinarily take more than 54), at least 27 of which must be earned in residence at UWM (i.e., on the UWM campus).

In consultation with the major professor, the student designs a program of studies that enables the student to gain the knowledge and skills appropriate to the student’s goals.

The program of studies includes the following:

The Doctoral Seminars

All doctoral students must take three 3-credit seminar courses devoted to content involving education in an urban environment. One of these seminars is taken as part of the department specialization.

Research Requirement

Department specialization requirements may exceed those specified here.

All students demonstrate knowledge in this area by writing a preliminary examination research question and successfully defending a dissertation.

Designated Specialization

Students indicate a specific area of specialization, by applying for one of the transcript-designated specializations in either Adult, Continuing, and Higher Education Leadership, Curriculum and Instruction, Art Education, Exceptional Education, Multicultural Studies, or Social Foundations of Education. Students may be required to meet the specific admissions and program requirements for their intended specialization in addition to meeting the PhD admissions and program requirements. (Please see the accompanying explanation and requirements for each specialization.)

Minor

Some program specializations may require completion of a minor consisting of courses in a related discipline that supports the student’s program of studies. Students should consult requirements within their specialization. If pursuing a minor, the student may choose either Option A or Option B.

1. **Option A**: A minimum of 8 credits in a single department outside the School of Education. A minor professor approves these courses, sits as a member of the student’s doctoral committee, and contributes to the student’s doctoral preliminary examination.

2. **Option B**: A minimum of 12 credits in two or more departments, with a minimum of 6 credits outside of the School of Education. The remaining credits may be taken within the School of Education, but must be taken outside of the department of specialization.

Exceptional Education Specialization

Subsequent to UEDP admission, the student must submit credentials and a program for concentration in Exceptional Education developed in conjunction with the student’s advisor in the Department of Exceptional Education. Students also must prepare a statement expressing their interests within Exceptional Education for the departmental admissions procedure.

The doctoral specialization in Exceptional Education provides a program of advanced study of special education. The program emphasizes the study the socio-cultural context, educational policy, research-based practices and systems change and reform. Students in Exceptional Education take advanced coursework in special education and choose to focus on related areas such as administration, research, teacher education, curriculum design and development, and community-based supports and partnerships. In addition, students declare a minor area of interest.

Students work with their major professor to develop an individualized program which incorporates breadth as well as depth of study. Building on faculty expertise and research interests, focus areas for study may include:

• Teacher education
• Cultural diversity in education
• Early childhood intervention
• Assistive technology
• Curriculum accommodation & collaboration
• Literacy
• Transition to young adulthood
• Deaf education
• School reform and special education administration

In addition to advanced coursework, students participate in research and development projects, curriculum development, co-teaching, and other activities designed to prepare leaders for roles such as a college or university professor, curriculum leader, special education administrator, consultant, or project director.

The specialization requires a recent master’s degree in exceptional education or a related field (9 of these credits may be counted toward the specialization). If an applicant does not have this background, appropriate graduate coursework and field experiences will be outlined as a prerequisite to the doctoral specialization.

• A minimum of 12 credits in Exceptional Education (800-level or above) focusing on research and practice related to teacher education, field-based practice and supervision, community programs and support for individuals with disabilities and special education research. Core courses are selected in consultation with doctoral advisor.

• A minimum of 12 credits additional electives in an Exceptional Education focus area. Up to 9 credits of recent and relevant master’s degree coursework may be applied.

• The student must meet all of the program requirements of the Urban Education Doctoral Program, including:
  • Urban education Doctoral Seminars (9 credits)
  • Research Design and Methodology (13-16 credits)
  • Minor area of study (9 credits)
Additionally, students must complete preliminary examinations and a dissertation, original research with an emphasis in Exceptional Education.

**Program Requirements**

**Major Professor**
Upon admission to the doctoral program, the student is assigned an initial advisor from his or her intended specialization. This person is available to discuss initial course selection and provide general advice about the program and specialization. After beginning the program and before filing a Program of Studies, the student will seek a permanent major professor from his/her specialization who is eligible to serve in such a capacity. This permanent advisor may be the initial advisor if the student desires. The major professor is also chair of the student’s dissertation committee.

Selection of the major professor is by mutual consent between the student and the faculty member. The student must notify the UEDP in writing when the major professor has been selected.

**Foreign Language Requirement**
There is no foreign language requirement. However, individual students may be required to demonstrate proficiency in a foreign language if such proficiency is determined to be necessary by a student's committee.

**Residence**
The residency requirement is satisfied through the successful completion of 9 or more credits in each of two consecutive semesters, excluding summer, or by completing at least 6 graduate credits in each of three consecutive semesters, excluding summer.

It is the student’s responsibility to notify the Office of Doctoral Studies when residency requirements have been met. Such notification must be in writing and must include the semesters, year(s) and number of credits taken during each of the applicable semesters.

**Doctoral Preliminary Examination**
The student must pass a doctoral preliminary examination to qualify for formal admission to candidacy for the degree. The examination covers the area of specialization, urban education, the minor, and research methods.

**Dissertation**
The candidate must present a dissertation reporting the results of an original research study appropriate to the student’s program. Prior to beginning the research, the candidate must present an acceptable dissertation proposal and defend it at an oral hearing.

**Dissertation Defense**
The candidate must, as the final step toward the degree, pass an oral examination in defense of the dissertation.

**Time Limit**
Students who do not complete all degree requirements within seven years from the date of admission to the doctoral program will be recommended for dismissal to the Graduate School.

**Other Requirements**
This is only a summary of the doctoral program requirements. A complete list of requirements is available from the Office of Doctoral Studies. Doctoral Committees may specify course requirements which exceed the minima described here.

For additional information on the PhD, see the Graduate School Doctoral Requirements (http://wwwdev.uwm.edu/graduateschool/doctoral-requirements)

**Urban Education, PhD: Mathematics Education**

**Specialization Overview**
The specialization in Mathematics Education integrates mathematical knowledge for teaching within the broader field of urban education and prepares individuals to address critical issues across varied educational settings and contexts through research and scholarship in mathematics education.

For course descriptions in this area, visit the Curriculum and Instruction page (http://wwwdev.uwm.edu/graduateschool/curriculum-instruction) of this catalog.

**Degree Overview**
The School of Education offers an interdepartmental program of study leading to the PhD. Students must choose a specialization in either Adult, Continuing, and Higher Education Leadership, Art Education, Curriculum and Instruction, Educational Administration, Exceptional Education, Mathematics Education, Multicultural Studies, or Social Foundations of Education.

The program is designed to permit students to integrate their particular curricular areas of interest and specialization with a broader field of education, including urban education. Each specialization, with the exception of Multicultural Studies, is departmentally focused, and students must satisfy the admissions and curriculum requirements indicated for their particular specialization. Recognition of the specialization is acknowledged by official designation on the student's transcript.

Each of the specializations offers the doctoral student an opportunity to pursue study in a specific program area. For example, Adult, Continuing, and Higher Education Leadership emphasizes governance and leadership issues within urban adult education organizations. Educational Administration explores governance and Leadership issues of urban schools. Curriculum and Instruction provides program emphasis in a content area (e.g., reading), education level (e.g., early childhood), a general area (e.g., curriculum theory) or special area (e.g., guiding instructional improvement). Exceptional Education provides program emphasis in departmental interest areas (e.g., handicapping condition), or a cross-disciplinary interest.

A separate PhD with specialization in Counseling Psychology, Learning and Development, Research Methodology, and School Psychology is offered through the Department of Educational Psychology (http://uwm.edu/graduateschool/educational-psychology). Multicultural Studies is a cross-department program allowing students to develop their own area of focus in collaboration with faculty in multicultural urban education. The Social Foundations of Education specialization provides students with the conceptual tools with which to examine the complex interrelationships between school and society, education and culture.

All graduates should have a broad understanding of the issues, problems and trends related to education, including urban education, and the application of these to their major.
The program requires each participant to develop research skills ranging from logic in inquiry to development of specific methodological skills in qualitative and quantitative methods. The PhD is a research degree and not only a professional preparation degree. Therefore research is an integral part of the program. Mastery of these skills is demonstrated through coursework, research projects and the dissertation. Graduates apply their skills, in institutions of higher education, public or private school settings, federal, state, or local governmental agencies, community organizations, and the private sector.

### Designated Specialization

Students indicate a specific area of specialization, by applying for one of the transcript-designated specializations in either Adult, Continuing, and Higher Education Leadership, Curriculum and Instruction, Art Education, Exceptional Education, Multicultural Studies, or Social Foundations of Education. Students may be required to meet the specific admissions and program requirements for their intended specialization in addition to meeting the PhD admissions and program requirements. (Please see the accompanying explanation and requirements for each specialization.)

### Minor

Some program specializations may require completion of a minor consisting of courses in a related discipline that supports the student’s program of studies. Students should consult requirements within their specialization. If pursuing a minor, the student may choose either Option A or Option B.

1. **Option A:** A minimum of 8 credits in a single department outside the School of Education. A minor professor approves these courses, sits as a member of the student’s doctoral committee, and contributes to the student’s doctoral preliminary examination.

2. **Option B:** A minimum of 12 credits in two or more departments, with a minimum of 6 credits outside of the School of Education. The remaining credits may be taken within the School of Education, but must be taken outside of the department of specialization.

### Mathematics Specialization

Subsequent to admission to the Urban Education Doctoral Program (UEDP), the student must submit a Program of Study in Mathematics Education developed in conjunction with the student’s advisor for approval by the Mathematics Education Graduate Committee and the Director of the UEDP.

The student must meet all of the program requirements of the Urban Education Doctoral Program.

The specialization in Mathematics Education consists of a minimum of 9 required credits in advanced mathematics education and 23 elective credits in mathematics education, related coursework, or an optional minor. Transfer credits from prior graduate work must fulfill program requirements and be approved by the Major Professor. At least 12 credits in mathematics education must be taken after admission to the program.

**Total Credits:** 32

The UEDP doctoral preliminary examination addresses the mathematics education specialization, urban education, and research methods.

A dissertation reporting the results of an original research study in Mathematics Education is required. Prior to beginning the research, the student must prepare an acceptable dissertation proposal, defend it at an oral hearing, and receive committee approval. The dissertation advisor (Major Professor) must be an approved UEDP doctoral advisor and a mathematics education faculty member of the Department of Curriculum and Instruction. At least two other committee members must be from Curriculum and Instruction.

### Program Requirements

**Major Professor**

Upon admission to the doctoral program, the student is assigned an initial advisor from his or her intended specialization. This person is available to discuss initial course selection and provide general advice about the program and specialization. After beginning the program and before filing a Program of Studies, the student will seek a permanent major professor from his/her specialization who is eligible to serve in such a capacity. This permanent advisor may be the initial advisor if the student desires. The major professor is also chair of the student’s dissertation committee.

Selection of the major professor is by mutual consent between the student and the faculty member. The student must notify the UEDP in writing when the major professor has been selected.

**Foreign Language Requirement**

There is no foreign language requirement. However, individual students may be required to demonstrate proficiency in a foreign language if such proficiency is determined to be necessary by a student’s committee.

**Residence**

The residency requirement is satisfied through the successful completion of 9 or more credits in each of two consecutive semesters, excluding summer, or by completing at least 6 graduate credits in each of three consecutive semesters, excluding summer.

It is the student’s responsibility to notify the Office of Doctoral Studies when residency requirements have been met. Such notification must be in writing and must include the semesters, year(s) and number of credits taken during each of the applicable semesters.
Doctoral Preliminary Examination
The student must pass a doctoral preliminary examination to qualify for formal admission to candidacy for the degree. The examination covers the area of specialization, urban education, the minor, and research methods.

Dissertation
The candidate must present a dissertation reporting the results of an original research study appropriate to the student's program. Prior to beginning the research, the candidate must present an acceptable dissertation proposal and defend it at an oral hearing.

Dissertation Defense
The candidate must, as the final step toward the degree, pass an oral examination in defense of the dissertation.

Time Limit
Students who do not complete all degree requirements within seven years from the date of admission to the doctoral program will be recommended for dismissal to the Graduate School.

Other Requirements
This is only a summary of the doctoral program requirements. A complete list of requirements is available from the Office of Doctoral Studies. Doctoral Committees may specify course requirements which exceed the minima described here.

For additional information on the PhD, see the Graduate School Doctoral Requirements (http://wwwdev.uwm.edu/graduateschool/doctoral-requirements)

Exit Requirements
Contingent upon satisfactory completion of program requirements, the preliminary qualifying examination, dissertation proposal hearing, and the successful oral defense of the dissertation, the Urban Education Doctoral Program Director will give final approval for the designated transcript inclusion of "Urban Education: Mathematics Education."

Urban Education, PhD: Multicultural Studies

Specialization Overview
Note that while Multicultural Studies is cross-disciplinary, for the purposes of initial advising and ongoing support the departmental home for a student in this specialization is Educational Policy and Community Studies. Students in this program will be supervised jointly by the Department of Educational Policy and Community Studies and by the Urban Education Doctoral Committee, who will assign an advisor for the particular focus area the student has chosen.

For course descriptions in this area, visit the Cultural Foundations of Education section (http://uwm.edu/graduateschool/cultural-foundations-community-engagement-education/#courses) of this catalog.

Degree Overview
The School of Education offers an interdepartmental program of study leading to the PhD. Students must choose a specialization in either Adult, Continuing, and Higher Education Leadership, Art Education, Curriculum and Instruction, Educational Administration, Exceptional Education, Mathematics Education, Multicultural Studies, or Social Foundations of Education.

The program is designed to permit students to integrate their particular curricular areas of interest and specialization with a broader field of education, including urban education. Each specialization, with the exception of Multicultural Studies, is departmentally focused, and students must satisfy the admissions and curriculum requirements indicated for their particular specialization. Recognition of the specialization is acknowledged by official designation on the student's transcript.

Each of the specializations offers the doctoral student an opportunity to pursue study in a specific program area. For example, Adult, Continuing, and Higher Education Leadership emphasizes governance and leadership issues within urban adult education organizations. Educational Administration explores governance and Leadership issues of urban schools. Curriculum and Instruction provides program emphasis in a content area (e.g., reading), education level (e.g., early childhood), a general area (e.g., curriculum theory) or special area (e.g., guiding instructional improvement). Exceptional Education provides program emphasis in departmental interest areas (e.g., handicapping condition), or a cross-disciplinary interest.

A separate PhD with specialization in Counseling Psychology, Learning and Development, Research Methodology, and School Psychology is offered through the Department of Educational Psychology (http://uwm.edu/graduateschool/educational-psychology). Multicultural Studies is a cross-department program allowing students to develop their own area of focus in collaboration with faculty in multicultural urban education. The Social Foundations of Education specialization provides students with the conceptual tools with which to examine the complex interrelationships between school and society, education and culture.

All graduates should have a broad understanding of the issues, problems and trends related to education, including urban education, and the application of these to their major.

The program requires each participant to develop research skills ranging from logic in inquiry to development of specific methodological skills in qualitative and quantitative methods. The PhD is a research degree and not only a professional preparation degree. Therefore research is an integral part of the program. Mastery of these skills is demonstrated through coursework, research projects and the dissertation. Graduates apply their skills, in institutions of higher education, public or private school settings, federal, state, or local governmental agencies, community organizations, and the private sector.

- Educational Policy and Community Studies
- Educational Psychology
- Exceptional Education
- Information Studies (School of)

Admission Requirements
Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.
Admission
An applicant must meet Graduate School requirements plus the following program requirements to be considered for admission.

Graduate Record Examination
Submission of scores on the General Test portion of the Graduate Record Examination is required. Scores that are more than five years old will not be considered valid.

Grade Point Average
Undergraduate GPA of 2.85 (applicants having less than 15 graduate hours must have an undergraduate GPA of 3.50); graduate GPA of 3.5; or a combined (undergraduate and graduate) GPA of 6.5.

Writing Sample
Applicants must submit a writing sample completed within the last five years. The writing sample must be single authored, at least 1500 words, and must be selected from one of the following options:

1. Master’s Thesis
2. Undergraduate Senior Thesis
3. Technical report
4. Term Paper
5. Publication
6. Written Description of a Project
7. Action Research Project
8. A 5-10 page response to the following question: How would you go about determining and evaluating critical issues in urban education? The response to this question must show evidence of appropriate references to a knowledge base.

The writing sample must be submitted with the application.

Interview
An interview may be arranged with all applicants. In the case of applicants living too far away to attend a personal interview, a phone interview will be arranged.

Recommendations
An applicant must have a minimum of three appropriate persons write a recommendation and comment meaningfully and knowledgeably on the likelihood that the applicant can successfully complete an advanced scholarly program of studies for the PhD degree. It is helpful if the majority of references are written by college/university faculty. If an applicant is unable to secure academic references because of elapsed time, other references should be as current as possible. In any case, individuals preparing references should be selected who can comment with confidence on the applicant’s academic qualifications. Reference forms must be forwarded directly by the writers to the Office of Doctoral Studies. Complete information is provided in application materials available from the Office of Doctoral Studies.

Application
Applicants are required to articulate their urban and research interests and goals in application materials. An intended concentration within the PhD must be specified at time of application.

1. Applicants who fail to satisfy these admission requirements will not be recommended for admission. However, satisfying these minima does not guarantee admission.
2. Applicants who are not recommended for admission will be provided an opportunity to request a reconsideration.

Individual specializations may expect prior coursework in that area. Applicants may contact the Director for specific information. Openings in the program are limited. Applicants should submit all application materials no later than January 1 for admission the following September. Applicants must contact the Office of Doctoral Studies for application information and forms.

Credits and Courses
Minimum degree requirement is 54 credits beyond the bachelor’s degree (although students ordinarily take more than 54), at least 27 of which must be earned in residence at UWM (i.e., on the UWM campus).

In consultation with the major professor, the student designs a program of studies that enables the student to gain the knowledge and skills appropriate to the student’s goals.

The program of studies includes the following:

The Doctoral Seminars
All doctoral students must take three 3-credit seminar courses devoted to content involving education in an urban environment. One of these seminars is taken as part of the department specialization.

Research Requirement
Department specialization requirements may exceed those specified here.

All students demonstrate knowledge in this area by writing a preliminary examination research question and successfully defending a dissertation.

Designated Specialization
Students indicate a specific area of specialization, by applying for one of the transcript-designated specializations in either Adult, Continuing, and Higher Education Leadership, Curriculum and Instruction, Art Education, Exceptional Education, Multicultural Studies, or Social Foundations of Education. Students may be required to meet the specific admissions and program requirements for their intended specialization in addition to meeting the PhD admissions and program requirements. (Please see the accompanying explanation and requirements for each specialization.)

Minor
Some program specializations may require completion of a minor consisting of courses in a related discipline that supports the student’s program of studies. Students should consult requirements within their specialization. If pursuing a minor, the student may choose either Option A or Option B.

1. **Option A**: A minimum of 8 credits in a single department outside the School of Education. A minor professor approves these courses, sits as a member of the student's doctoral committee, and contributes to the student's doctoral preliminary examination.
2. **Option B:** A minimum of 12 credits in two or more departments, with a minimum of 6 credits outside of the School of Education. The remaining credits may be taken within the School of Education, but must be taken outside of the department of specialization.

**Multicultural Specialization**

1. Students seeking admission to the doctoral program must indicate their intended area of specialization. The application will be reviewed by the Admissions Committee of the Urban Education Doctoral Program as well as the interdisciplinary graduate faculty of the Multicultural Studies Area.

2. Students must write a brief statement explaining why they feel an interdisciplinary program is more relevant to their studies than one of the other discipline-specific specializations.

3. Subsequent to admission, the student must submit a program of concentration in Multicultural Studies developed in conjunction with the student’s advisor.

4. When the student’s course of studies in Multicultural Studies is approved by the Multicultural Studies interdisciplinary faculty, the student must submit a program of study to the Office of the Doctoral Studies for review and approval by the Director.

5. Prior to admission, or within the first 30 graduate credits after admittance to the Multicultural Studies specialization, the student must complete a research project, e.g., thesis or publishable paper.

**Program Requirements**

Students must be admitted first to the Ph.D. Program in Urban Education, then specialize in Multicultural Studies. The course requirements for Multicultural Studies are outlined below.

1. Students must meet all the requirements of the Urban Education Doctoral Program.

2. Students not having a graduate degree in a field recognized by the specialization faculty may be required to take master’s level coursework as a prerequisite to admission.

**Recommended Conference Submissions/Participation**

The specialization strongly recommends all students submit and present their original work at two academic conferences during the course of their studies. Conferences may be local, regional, national, or international in scope. Additionally, students are highly encouraged to contribute to papers submitted to peer-reviewed academic journals prior to graduation.

**Other Requirements**

All students must adhere to all other general requirements of the Urban Educational Doctoral Program pertaining to such issues as residency, preliminary examinations, dissertation proposals and defense, and time limits.

**Doctoral Preliminary Examination**

The preliminary qualifying exam will include a section covering the student’s focus area as developed with an advisor or committee chair.

**Dissertation**

A dissertation with the appropriate area of emphasis is required. The dissertation committee must be composed of a minimum of four members of the graduate faculty. The dissertation advisor will be an approved doctoral advisor and a member of the School of Education. One other member must be from the School of Education, and one or two members must be from the student developed focus area.

**Exit Requirements**

Contingent upon the satisfactory completion of program requirements, including the passing of the prelim/proposal defense, and the successful oral defense of the dissertation, the Urban Education Doctoral Committee Chair will give final approval for the inclusion of “Urban Education: Multicultural Foundations” on your transcript.

**Urban Education, PhD: Social Foundations of Education**

The Ph.D. specialization in Social Foundations of Education provides students with a comprehensive understanding of the social forces that affect urban schools and communities. This program is designed for individuals who want to look deeply at the challenges facing urban areas in the 21st Century and are willing to explore creative solutions. Students in Social Foundations examine the sociological, historical, philosophical, anthropological, and political dimensions of schools and community change. Social foundations doctoral students may investigate issues and contexts grounded in the core disciplines of the social sciences.

**Degree Overview**

The School of Education offers an interdepartmental program of study leading to the PhD. Students must choose a specialization in either Adult, Continuing, and Higher Education Leadership, Art Education, Curriculum
and Instruction, Educational Administration, Exceptional Education, Mathematics Education, Multicultural Studies, or Social Foundations of Education.

The program is designed to permit students to integrate their particular curricular areas of interest and specialization with a broader field of education, including urban education. Each specialization, with the exception of Multicultural Studies, is departmentally focused, and students must satisfy the admissions and curriculum requirements indicated for their particular specialization. Recognition of the specialization is acknowledged by official designation on the student’s transcript.

Each of the specializations offers the doctoral student an opportunity to pursue study in a specific program area. For example, Adult, Continuing, and Higher Education Leadership emphasizes governance and leadership issues within urban adult education organizations. Educational Administration explores governance and Leadership issues of urban schools. Curriculum and Instruction provides program emphasis in a content area (e.g., reading), education level (e.g., early childhood), a general area (e.g., curriculum theory) or special area (e.g., guiding instructional improvement). Exceptional Education provides program emphasis in departmental interest areas (e.g., handicapping condition), or a cross-disciplinary interest.

A separate PhD with specialization in Counseling Psychology, Learning and Development, Research Methodology, and School Psychology is offered through the Department of Educational Psychology (http://uwm.edu/graduateschool/educational-psychology). Multicultural Studies is a cross-department program allowing students to develop their own area of focus in collaboration with faculty in multicultural urban education. The Social Foundations of Education specialization provides students with the conceptual tools with which to examine the complex interrelationships between school and society, education and culture.

All graduates should have a broad understanding of the issues, problems and trends related to education, including urban education, and the application of these to their major.

The program requires each participant to develop research skills ranging from logic in inquiry to development of specific methodological skills in qualitative and quantitative methods. The PhD is a research degree and not only a professional preparation degree. Therefore research is an integral part of the program. Mastery of these skills is demonstrated through coursework, research projects and the dissertation. Graduates apply their skills, in institutions of higher education, public or private school settings, federal, state, or local governmental agencies, community organizations, and the private sector.

2. **Option B:** A minimum of 12 credits in two or more departments, with a minimum of 6 credits outside of the School of Education. The remaining credits may be taken within the School of Education, but must be taken outside of the department of specialization.

Social Foundations of Education Specialization
1. Students wishing to be admitted to the Urban Education Doctoral Program must indicate their intended area of specialization. Their applications will be reviewed by the Admissions committee of the Urban Education Doctoral Program as well as by the Department of Educational Policy and Community Studies. The general requirements maintained by the Graduate School at UWM will apply to these candidates;
2. Subsequent to admission, the student must submit a program for study for a specialization in Social Foundations of Education, developed in conjunction with the student’s advisor and committee;
3. If the student’s specialization in Social Foundations of Education is approved, the student must submit his or her program of study to the Office of Doctoral Studies for review and approval by the director;
4. Students who have already had their programs approved prior to their decision to seek specialization in Social Foundations of Education must submit a program for concentration in Social Foundations of Education to the Departmental Graduate Committee for approval, and if changes are made, must seek approval of the new program of studies by the Office of Doctoral Studies.

1. Students who meet this requirement will be asked to take another research methods class in consultation with student’s academic advisor.
2. If a student has taken these courses in a master’s program, comparable 800-level coursework will be selected in conjunction with the student’s academic advisor.
Students with a Cultural Foundations of Education Master of Science degree may transfer 9 credits numbered 609 or above in which they earned an A- or better. Students with other master's degrees will be evaluated individually by the department to determine up to 9 credits that may be suitable to transfer as major elective courses. All courses selected must include research papers and be approved by the student's academic advisor.

**Program Requirements**

**Major Professor**

Upon admission to the doctoral program, the student is assigned an initial advisor from his or her intended specialization. This person is
available to discuss initial course selection and provide general advice about the program and specialization. After beginning the program and before filing a Program of Studies, the student will seek a permanent major professor from his/her specialization who is eligible to serve in such a capacity. This permanent advisor may be the initial advisor if the student desires. The major professor is also chair of the student’s dissertation committee.

Selection of the major professor is by mutual consent between the student and the faculty member. The student must notify the UEDP in writing when the major professor has been selected.

**Foreign Language Requirement**
There is no foreign language requirement. However, individual students may be required to demonstrate proficiency in a foreign language if such proficiency is determined to be necessary by a student’s committee.

**Residence**
The residency requirement is satisfied through the successful completion of 9 or more credits in each of two consecutive semesters, excluding summer, or by completing at least 6 graduate credits in each of three consecutive semesters, excluding summer.

It is the student’s responsibility to notify the Office of Doctoral Studies when residency requirements have been met. Such notification must be in writing and must include the semesters, year(s) and number of credits taken during each of the applicable semesters.

**Doctoral Preliminary Examination**
The student must pass a doctoral preliminary examination to qualify for formal admission to candidacy for the degree. The examination covers the area of specialization, urban education, the minor, and research methods.

**Dissertation**
The candidate must present a dissertation reporting the results of an original research study appropriate to the student’s program. Prior to beginning the research, the candidate must present an acceptable dissertation proposal and defend it at an oral hearing.

**Dissertation Defense**
The candidate must, as the final step toward the degree, pass an oral examination in defense of the dissertation.

**Time Limit**
Students who do not complete all degree requirements within seven years from the date of admission to the doctoral program will be recommended for dismissal to the Graduate School.

**Contribution to Scholarship**
The department strongly recommends all students submit and present their original work at two academic conferences during the course of their studies. Conferences may be local, regional, national, or international in scope. Additionally, students are highly encouraged to contribute to papers submitted to peer-reviewed academic journals prior to graduation.

**Optional Minor (9-12 credits)**
Students may also choose to complete a minor outside the School of Education in an academic department, as negotiated with the student’s academic advisor. While not required, the optional minor, comprised of 9-12 credits in addition to the major requirements of the program, may provide students with another academic area of expertise (e.g., sociology, philosophy, history, etc.)

**Other Requirements**
All students must adhere to all other general requirements of the Urban Educational Doctoral Program pertaining to such issues as residency, preliminary examinations, dissertation proposals and defense, and time limits.

The preliminary qualifying exam will include a section covering the student’s Social Foundations of Education specialization.

A dissertation with the appropriate area of emphasis is required. The dissertation committee must be composed of a minimum of five members of the graduate faculty. The dissertation advisor will be an approved doctoral advisor and a member of the Department of Educational Policy and Community Studies. Two other members must be from the Department of Educational Policy and Community Studies, and one member must be from the minor area.

**Exit Requirements**
Contingent upon completion of program requirements, the preliminary qualifying examination, and the successful defense of the dissertation, the chair of the Department of Educational Policy and Community Studies must give final approval for the inclusion of Social Foundations of Education upon the student’s transcript.

**Urban Education, PhD**
The School of Education offers an interdepartmental program of study leading to the PhD. Students must choose a specialization in either Adult, Continuing, and Higher Education Leadership, Art Education, Curriculum and Instruction, Educational Administration, Exceptional Education, Mathematics Education, Multicultural Studies, or Social Foundations of Education.

The program is designed to permit students to integrate their particular curricular areas of interest and specialization with a broader field of education, including urban education. Each specialization, with the exception of Multicultural Studies, is departmentally focused, and students must satisfy the admissions and curriculum requirements indicated for their particular specialization. Recognition of the specialization is acknowledged by official designation on the student’s transcript.

Each of the specializations offers the doctoral student an opportunity to pursue study in a specific program area. For example, Adult, Continuing, and Higher Education Leadership emphasizes governance and leadership issues within urban adult education organizations. Educational Administration explores governance and Leadership issues of urban schools. Curriculum and Instruction provides program emphasis in a content area (e.g., reading), education level (e.g., early childhood), a general area (e.g., curriculum theory) or special area (e.g., guiding instructional improvement). Exceptional Education provides program emphasis in departmental interest areas (e.g., handicapping condition), or a cross-disciplinary interest.

A separate PhD with specialization in Counseling Psychology, Learning and Development, Research Methodology, and School Psychology is offered through the Department of Educational Psychology (http://uwm.edu/graduateschool/educational-psychology). Multicultural Studies is a cross-department program allowing students to develop their own area of focus in collaboration with faculty in multicultural urban education. The Social Foundations of Education specialization provides
students with the conceptual tools with which to examine the complex interrelationships between school and society, education and culture.

All graduates should have a broad understanding of the issues, problems and trends related to education, including urban education, and the application of these to their major.

The program requires each participant to develop research skills ranging from logic in inquiry to development of specific methodological skills in qualitative and quantitative methods. The PhD is a research degree and not only a professional preparation degree. Therefore research is an integral part of the program. Mastery of these skills is demonstrated through coursework, research projects and the dissertation. Graduates apply their skills, in institutions of higher education, public or private school settings, federal, state, or local governmental agencies, community organizations, and the private sector.

- Educational Policy and Community Studies
- Educational Psychology
- Exceptional Education
- Information Studies (School of)

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements plus the following program requirements to be considered for admission.

Graduate Record Examination
Submission of scores on the General Test portion of the Graduate Record Examination is required. Scores that are more than five years old will not be considered valid.

Grade Point Average
Undergraduate GPA of 2.85 (applicants having less than 15 graduate hours must have an undergraduate GPA of 3.50); graduate GPA of 3.5; or a combined (undergraduate and graduate) GPA of 6.5.

Writing Sample
Applicants must submit a writing sample completed within the last five years. The writing sample must be single authored, at least 1500 words, and must be selected from one of the following options:

1. Master’s Thesis
2. Undergraduate Senior Thesis
3. Technical report
4. Term Paper
5. Publication
6. Written Description of a Project
7. Action Research Project
8. A 5-10 page response to the following question: How would you go about determining and evaluating critical issues in urban education?

The response to this question must show evidence of appropriate references to a knowledge base.

The writing sample must be submitted with the application.

Interview
An interview may be arranged with all applicants. In the case of applicants living too far away to attend a personal interview, a phone interview will be arranged.

Recommendations
An applicant must have a minimum of three appropriate persons write a recommendation and comment meaningfully and knowledgeably on the likelihood that the applicant can successfully complete an advanced scholarly program of studies for the PhD degree. It is helpful if the majority of references are written by college/university faculty. If an applicant is unable to secure academic references because of elapsed time, other references should be as current as possible. In any case, individuals preparing references should be selected who can comment with confidence on the applicant’s academic qualifications. Reference forms must be forwarded directly by the writers to the Office of Doctoral Studies. Complete information is provided in application materials available from the Office of Doctoral Studies.

Application
Applicants are required to articulate their urban and research interests and goals in application materials. An intended concentration within the PhD must be specified at time of application.

1. Applicants who fail to satisfy these admission requirements will not be recommended for admission. However, satisfying these minima does not guarantee admission.
2. Applicants who are not recommended for admission will be provided an opportunity to request a reconsideration.

Individual specializations may expect prior coursework in that area. Applicants may contact the Director for specific information. Openings in the program are limited. Applicants should submit all application materials no later than January 1 for admission the following September. Applicants must contact the Office of Doctoral Studies for application information and forms.

Credits and Courses
Minimum degree requirement is 54 credits beyond the bachelor’s degree (although students ordinarily take more than 54), at least 27 of which must be earned in residence at UWM (i.e., on the UWM campus).

In consultation with the major professor, the student designs a program of studies that enables the student to gain the knowledge and skills appropriate to the student’s goals.

The program of studies includes the following:

The Doctoral Seminars
All doctoral students must take three 3-credit seminar courses devoted to content involving education in an urban environment. One of these seminars is taken as part of the department specialization.

Research Requirement
Department specialization requirements may exceed those specified here.
All students demonstrate knowledge in this area by writing a preliminary examination research question and successfully defending a dissertation.

**Designated Specialization**

Students indicate a specific area of specialization, by applying for one of the transcript-designated specializations in either Adult, Continuing, and Higher Education Leadership, Curriculum and Instruction, Art Education, Exceptional Education, Multicultural Studies, or Social Foundations of Education. Students may be required to meet the specific admissions and program requirements for their intended specialization in addition to meeting the PhD admissions and program requirements. (Please see the accompanying explanation and requirements for each specialization.)

**Minor**

Some program specializations may require completion of a minor consisting of courses in a related discipline that supports the student's program of studies. Students should consult requirements within their specialization. If pursuing a minor, the student may choose either Option A or Option B.

1. **Option A:** A minimum of 8 credits in a single department outside the School of Education. A minor professor approves these courses, sits as a member of the student's doctoral committee, and contributes to the student's doctoral preliminary examination.

2. **Option B:** A minimum of 12 credits in two or more departments, with a minimum of 6 credits outside of the School of Education. The remaining credits may be taken within the School of Education, but must be taken outside of the department of specialization.

**Program Requirements**

**Major Professor**

Upon admission to the doctoral program, the student is assigned an initial advisor from his or her intended specialization. This person is available to discuss initial course selection and provide general advice about the program and specialization. After beginning the program and before filing a Program of Studies, the student will seek a permanent major professor from his/her specialization who is eligible to serve in such a capacity. This permanent advisor may be the initial advisor if the student desires. The major professor is also chair of the student's dissertation committee.

Selection of the major professor is by mutual consent between the student and the faculty member. The student must notify the UEDP in writing when the major professor has been selected.

**Foreign Language Requirement**

There is no foreign language requirement. However, individual students may be required to demonstrate proficiency in a foreign language if such proficiency is determined to be necessary by a student's committee.

**Residence**

The residency requirement is satisfied through the successful completion of 9 or more credits in each of two consecutive semesters, excluding summer, or by completing at least 6 graduate credits in each of three consecutive semesters, excluding summer.

It is the student's responsibility to notify the Office of Doctoral Studies when residency requirements have been met. Such notification must be in writing and must include the semesters, year(s) and number of credits taken during each of the applicable semesters.

**Doctoral Preliminary Examination**

The student must pass a doctoral preliminary examination to qualify for formal admission to candidacy for the degree. The examination covers the area of specialization, urban education, the minor, and research methods.

**Dissertation**

The candidate must present a dissertation reporting the results of an original research study appropriate to the student's program. Prior to beginning the research, the candidate must present an acceptable dissertation proposal and defend it at an oral hearing.

**Dissertation Defense**

The candidate must, as the final step toward the degree, pass an oral examination in defense of the dissertation.

**Time Limit**

Students who do not complete all degree requirements within seven years from the date of admission to the doctoral program will be recommended for dismissal to the Graduate School.

**Other Requirements**

This is only a summary of the doctoral program requirements. A complete list of requirements is available from the Office of Doctoral Studies. Doctoral Committees may specify course requirements which exceed the minima described here.

For additional information on the PhD, see the Graduate School Doctoral Requirements (http://wwwdev.uwm.edu/graduateschool/doctoral-requirements)
ENGINEERING AND APPLIED SCIENCE (COLLEGE OF)

UWM’s College of Engineering & Applied Science is a dynamic research institution with award-winning faculty, state-of-the-art facilities and established business connections that provide context for our work.

One of only two doctorate-granting institutions in the state of Wisconsin, UWM-Milwaukee is recognized by the Carnegie Classification of Institutions of Higher Education as one of the nation’s top research institutions. UWM’s location offers unique benefits to engineering students and faculty alike. Seven Fortune 500 companies’ international headquarters are located within easy driving distance of the university as are many leading manufacturers’ facilities.

This has real and lasting impact on the UWM engineering community. Collaborative research, corporate partnerships, and real-world work experience (http://uwm.edu/engineering/current-students/career-services/co-ops-and-internships) are an integral part of the UWM experience.

We invite you to learn more about our research as well as our undergraduate and graduate programs. You’ll see why UWM is the right choice when you are ready to build your future and change the world.

Mission

To educate students to become creative problem solvers, conduct leading-edge research with global impacts, and act as a catalyst for improved economic development and quality of life in Wisconsin.

Vision

To become a globally prominent engineering education and research institution.

Our location in the major industrial center of the state of Wisconsin offers engineering and computer science students several advantages. Professional engineers and computer scientists from the industrial community share their expertise with the College in the classroom, research laboratory, and on the College’s advisory committees. Our very successful co-op and internship programs give students work experience in their field of study before graduation. Many of the projects that students work on in the classroom are real projects brought to us by local companies. In short, Milwaukee-area companies offer our students a real-world laboratory to gain valuable insights and skills in their major field.

Accreditation

The College is accredited by the North Central Association of Colleges and Secondary Schools. In addition, the programs in civil engineering, computer engineering, electrical engineering, industrial engineering, materials engineering, and mechanical engineering are accredited by the Engineering Accreditation Commission of ABET. The computer science program is accredited by the Computing Accreditation Commission of ABET. ABET, Inc., 415 N. Charles Street, Baltimore, MD 21201, (410) 347-7700.
Requirements for Employment, Licensing, or Professional Organizations

Students should be aware that some professions, occupations, and employers are subject to licensing and/or bonding requirements. When a course of study includes clinical or field training, practice teaching, internships, or the like, students may be subjected to a check of criminal conviction records prior to acceptance of a student by the placement site. Students are responsible for obtaining the necessary information about these requirements and for planning their studies accordingly. Please contact the appropriate department or program office for further information.

Student Organizations

In addition to the wide variety of activities that are available for all UWM students, CEAS students have the opportunity to participate in many organizations relating to their professional interests. Involvement in these organizations is recognized as a valuable component of their professional education.

Organizations

AAO - Aeronautics and Aerospace Organization

AFS - American Foundrymen's Society

ASCE - American Society of Civil Engineers

ASM/TMS - Materials Engineering Society

ASME - American Society of Mechanical Engineers

IEEE - Institute of Electrical and Electronic Engineers

IEEE-CS - Institute of Electrical and Electronic Engineers Computer Society

IIE - Institute of Industrial Engineers

ITE - Institute of Transportation Engineers

NSBE - National Society of Black Engineers

RC - Rocket Club

ROV - Remotely Operated Vehicle Team

SAE - Society of Automotive Engineers

SHPE - Society of Hispanic Professional Engineers

SME - Society of Manufacturing Engineers

SWE - Society of Women Engineers

Professional Fraternity

Honor Societies

Pi Tau Sigma

Tau Beta Pi

Co-op and Internship Program

In today's competitive job market, it takes more than a college degree to find employment upon graduation. The Career Services Office in the College provides the link between your education and the real world. This office is dedicated to helping all CEAS students secure engineering or computer science-related work experience before graduation, because related work experience in combination with good academics are the criteria most employers use to select new hires.

The College offers students two ways to gain that experience: internships and co-ops. The principal goals of the programs are to provide career orientation to students and enhance their professional development. All internships and co-ops are paid at a rate commensurate with educational background and experience. For more information, contact the Career Services Office at (414) 229-6960 or ceascareers@uwm.edu.

# BIOMEDICAL AND HEALTH INFORMATICS

## Programs

The PhD in Biomedical and Health Informatics (p. 650) is an interdisciplinary doctoral program offered by UWM through collaboration between several academic units at UWM and the Medical College of Wisconsin. The Program is housed in the UWM Department of Electrical Engineering and Computer Science. It is guided by a Steering Committee consisting of faculty from the academic units participating in the Program.

Biomedical and health informatics is a field that is concerned with the cognitive, information processing, and communication aspects of medicine and healthcare including the information sciences and technology to support these tasks. The field covers the application of information technology in clinical medicine, medical record keeping, medical instrumentation, and healthcare management.

Biomedical and Health Informatics, PhD

The PhD in Biomedical and Health Informatics is an interdisciplinary doctoral program offered by UWM through collaboration between several academic units at UWM and the Medical College of Wisconsin. The Program is housed in the UWM Department of Electrical Engineering and Computer Science. It is guided by a Steering Committee consisting of faculty from the academic units participating in the Program.

Biomedical and health informatics is a field that is concerned with the cognitive, information processing, and communication aspects of medicine and healthcare including the information sciences and technology to support these tasks. The field covers the application of information technology in clinical medicine, medical record keeping, medical instrumentation, and healthcare management.

The main goal of the PhD program is to prepare graduates to perform advanced research in the discipline and to assume leadership roles in medical and healthcare industries. The degree is philosophically conceptualized as involving several disciplines in a collaborative learning process with the goal of fostering inter-professional interactions and inquiry. This degree will build upon existing graduate programs and research in the participating units. Qualified students with strong academic records in any of these programs will be considered for admission.

Other participating units:

• College of Health Sciences
• College of Nursing
• Lubar School of Business
• School of Information Studies
• Zilber School of Public Health
• The Medical College of Wisconsin
Requirements

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet the UWM Graduate School requirements as well as the following to be considered for admission to the program:

Master’s degree in biomedical and health informatics or a related area such as Computer Science, Electrical Engineering, Health Sciences, Business Administration, Nursing; or an MD degree. Exceptionally strong candidates with Bachelor’s degree in a related area will also be considered for admission.

1. At least two letters of recommendation that attest to academic and/or professional qualifications.
2. Scores from the GRE (general) or GMAT or MCAT (test taken within the last five years.)

For applicants who intend to satisfy the English proficiency requirement by submission of test scores, a score of at least 250 on the computer-based (or 600 on the paper-based) Test of English as a Foreign Language (TOEFL) is required. A score of 6.5 on the international English Language Testing Systems (IELTS) examination will be required in lieu of the TOEFL.

Requests for financial support must also be submitted below:

Co Director
Biomedical and Health Informatics Program
College of Engineering and Applied Science
University of Wisconsin-Milwaukee
Milwaukee, WI 53201

Areas of Concentration
The Ph.D. program requires a student to follow one of the following six areas of concentration. (At the time of application, each applicant should indicate a preferred area of concentration in their statement of Reasons for Graduate Study.)

Translational Bioinformatics Track
The track in Translational Bioinformatics centers on driving the flow of knowledge from "bench to bedside", bridging the gap between basic and clinical informatics research. This discipline has applications to drug development, genetics research, and the use of animal models to develop new understandings or treatments, which has implications both to basic science and to commercialization.

Knowledge Based Systems Track
The Knowledge Based Systems track is designed to train students in the development of techniques to support decision-making in medical practice (including both clinical and administrative decision-making) and customized instruction on health and medical topics for patients and health care providers. Technical areas include decision analysis, expected utility theory and cost-effectiveness analysis, computer-based decision support systems, user modeling and user interface design, intelligent tutoring systems, knowledge representation, structured reporting, and data mining and knowledge discovery.

Health Services Management & Policy Track
Health services management and policy research is broad in scope and touches on all of the standard functional business areas (e.g., management, strategy and marketing, finance/economics, management information systems, human resources management) in addition to government health policy/reimbursement/regulation, insurance and other payer mechanisms, dealing with health professionals, and illness/health in individuals and in populations. The track is designed to equip students to deal with both management information and with population health and illness information and research to understand the implications of such information and research, and to transform inferences from that information and research into practical recommendations on the national, state, and local level. By its nature, it is applied to health services settings including hospitals, skilled-nursing facilities, medical group practices, public health agencies, mental health services, managed care organizations, and integrated health networks.

Health Information Systems Track
The track in Health Information Systems is designed to explore the role of administrative and clinical information systems in health care organizations. Attention will be directed at the design, implementation, and maintenance of the broad array of computer applications used in the health care industry. An interdisciplinary approach will be taken drawing on expertise from the health professions, management information systems, and library and information science. Curricular content will range from systems analysis and design, system efficacy and management, to e-commerce.

Medical Imaging and Instrumentation Track
The track in Medical Imaging and Instrumentation is designed to train students in understanding and developing medical imaging systems and medical electronic instrumentation. The aspects emphasized in this track are medical imaging systems, image processing, computer vision, pattern recognition, medical instrumentation development and optimization, computer modeling, applications of electric and magnetic fields, and wireless communication.

Public Health Informatics Track
The Public Health Informatics track is designed to train students in the development of techniques, methods and tools to conduct public health research and to provide public health programs and tools for practical use. Graduates of this track will also be able to provide customized instruction on public health and related biomedical topics for public health workers, the public and others such as those in public health policy who will benefit from public health informatics. Technical areas include databases, tools and techniques for acquiring, processing, warehousing, and analyzing public health data. Other areas of expertise include utility theory and cost-effectiveness analysis, computer-based decision support systems, user modeling and user interface design, intelligent tutoring systems, structured reporting, and data mining.

Credits and Courses
Students enrolled in this program must follow all UWM Graduate School requirements and regulations. The minimum requirement for the Ph.D. in Biomedical and Health Informatics will be 58-63 credits beyond the bachelor's degree. Up to 24 credits from a related master's degree may be applied toward the Ph.D.

The curriculum will consist of a common set of core courses for all tracks, required and elective courses for each individual track, and the dissertation. The purpose of the core is to ensure that all graduates of the program share a basic common knowledge in biomedical and
health informatics. The purpose of the tracks is to enable the students to develop significant strengths in specific sub-areas within biomedical and health informatics. The courses identified in the curriculum are offered by UWM or MCW and, in some case, by both institutions. Following are descriptions of these components and their corresponding credit requirements.

### Core Courses
The core courses provide a comprehensive structure for the foundations needed for all students in biomedical and health informatics irrespective of their special interests. This includes a series of seminars that deal with different aspects of biomedical and health informatics. All students must take the following core courses or must have taken equivalent courses in previous study.

### Track Electives

**Computing and Applications**

Select 12-15 credits with approval of advisor and steering committee: 12-15

**Quantitative Analysis**

Select up to 6 credits with approval of advisor and steering committee: 6

### Dissertation

Select 12 credits from the following (use course from program of major advisor): 12

- BUS ADM 997 | Doctoral Dissertation
- COMPSCI 998 | Doctoral Thesis
- ELECENG 998 | Doctoral Thesis
- HCA 890 | Health Care Informatics Research and Thesis
- INFOST 997 | Doctoral Dissertation
- NURS 997 | Doctoral Dissertation
- PH 990 | Research and Dissertation

Total Credits: 48-51

Select one of the following:

| HCA 723    | Health Care Systems Applications - Administrative and Clinical | 2-3     |
| MCW 14230  | Product Development of Medical Devices, 2 cr            |         |

### Quantitative Methods

Select 9 credits from the following:

| NURS 883  | Quantitative Methods in Health Research           | 9       |
| MATH 771  | Theory of Probability                             |         |
| PH 702    | Introduction to Biostatistics                     |         |
| PH XXX    | Statistical Genetics and Genetic Epidemiology, 3cr |         |
| PH XXX    | Applied Quantitative Methods for Studying Population Health and Health Disparities, 3 cr |

Select a maximum of one of the following:

| NURS 727  | Epidemiology                                      |         |
| MCW 11200 | Introduction to Epidemiology, 3 cr                |         |
| PH 704    | Principles and Methods of Epidemiology            |         |

### Track Electives

Select a maximum of one of the following:

| PH 711    | Intermediate Biostatistics                        |         |
| MCW 04201 | Biostatistics II, 3cr                              |         |

### Dissertation

Select 12 credits from the following (use course from program of major advisor):

| BUS ADM 997 | Doctoral Dissertation                           |         |
| COMPSCI 998 | Doctoral Thesis                                  |         |
| ELECENG 998 | Doctoral Thesis                                  |         |
| HCA 890     | Health Care Informatics Research and Thesis       |         |
| INFOST 998  | Doctoral Dissertation                            |         |

### Program Requirements

#### Major Professor as Advisor

The Graduate School requires that the student have a major professor to advise, supervise and approve the program of study before registering for courses. The Biomedical and Health Informatics Steering Committee will assign the incoming student to a temporary Program Advisor at the time of admission. Prior to the completion of 12 credit (9 credits for a part-time student), the student must select a major professor who will be the student’s dissertation advisor. The student, in consultation with the major professor, develops a program of study which is submitted to the Biomedical and Health Informatics Steering Committee for approval. For subsequent changes, the student must file a revised program of study for approval.

#### Doctoral Program Committee

The Doctoral Program Committee is proposed by the Major Professor in consultation with the student by the end of the student’s first year of enrollment. The Program Committee, subject to the approval of the Biomedical and Health Informatics Steering Committee, shall consist of the Major Professor and at least four graduate faculty members, including at least one with health care and/or medical background, and one with informatics background.

#### Residence

The student must meet Graduate School residence requirements.

#### Qualifying Examination

A qualifying examination must be taken to determine whether the student is qualified to perform advanced doctoral level work in biomedical and health informatics. This examination is administered by the steering committee and must be taken prior to the completion of 21 credits of coursework in the program.

#### Doctoral Preliminary Examination

The student is also required to take a preliminary examination after all the coursework is completed and prior to the advancement of candidacy to determine the student’s preparation for independent research. Prior to the examination, the student must present a proposal for a doctoral dissertation. The preliminary examination may cover both graduate course material and the dissertation proposal. The preliminary...
examination must be successfully completed within five years of initial enrollment.

**Dissertation**
The candidate must complete a dissertation presenting independent original research that adds to the existing body of knowledge in biomedical and health informatics. It should be of such caliber that warrants publication in respected journals.

**Dissertation Defense**
The final oral examination will be an oral defense of the dissertation but may also cover the general field of the primary area of study. The examination may not be taken until all other degree requirements are satisfied. A majority of the examination committee members must approve the dissertation in order for the student to pass. The final oral examination must be taken within five years after passing the preliminary examination. Candidates who exceed this time limit may be required to retake the preliminary examination and be admitted to candidacy a second time.

**Time Limit**
All components of the Ph.D. program must be completed within 10 years of matriculation.
BIOMEDICAL ENGINEERING

Biomedical engineers apply mathematics, science, and engineering knowledge to solve healthcare-related problems that improve quality of life and reduce the cost of healthcare to society. They design assistive, diagnostic, and therapeutic tools, in collaboration with healthcare professionals. They work in research institutions, clinics, and industry.

According to the United States Bureau of Labor Statistics, employment of biomedical engineers is projected to grow 23 percent from 2014 to 2024, much faster than the average for all occupations. Growing technology and its application to medical equipment and devices, along with an aging population, will increase demand for the work of biomedical engineers.

Programs

- Biomedical Engineering, BSE (p. 657)

Biomedical Engineering Courses

BME 101 Fundamentals of Biomedical Engineering
3 cr. Undergraduate.
A system approach to physiology, cell physiology and transport, major organ systems, cardiovascular system, biomedical signal processing, biomechanics, biomedical engineering design.
Prerequisites: Math 221(C) or Math 231(C).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

BME 302 Analysis and Modeling of Dynamic Systems
4 cr. Undergraduate.
Modeling and analysis of mechanical, electrical, electromechanical, fluid, and physiological systems; laboratory experiments.
Prerequisites: MechEng 101(P), ElecEng 234(P), and Physics 210(P).
Current Offerings: http://uwm.edu/schedule

BME 305 Introduction to Engineering Biomechanics
3 cr. Undergraduate.
Introduction to engineering biomechanics principles applied to the musculoskeletal system and human body for analysis of human movement.
Prerequisites: BioSci 203(P) & BME 302/MechEng302(P).
Current Offerings: http://uwm.edu/schedule

BME 320 Engineering of Biomedical Devices I
3 cr. Undergraduate.
Physiological and biomechatronic systems, sensors and actuators, signal processing, hearing aid and implants.
Prerequisites: jr st, BME 101(P), ElecEng 234(P), MechEng 101(C), Physics 210(P).
Current Offerings: http://uwm.edu/schedule

BME 325 Engineering of Biomedical Devices II
3 cr. Undergraduate.
Feedback and control systems, visual prostheses, heart assist and replacement devices, respiratory aids, active and passive prosthetic limbs.
Prerequisites: jr st, Bio Sci 203(P), BME 320(P).
Current Offerings: http://uwm.edu/schedule

BME 385 Introduction to Biomaterials
3 cr. Undergraduate.
Introduction to the fundamentals of biomaterials including ceramics, metals, and polymers. Important issues in the selection, design, manufacturing, and evaluation of biomaterials. Current applications, and emerging technologies.
Prerequisites: jr st, MatEng 201(P).
Course Rules: Jointly offered with & counts as repeat of MatEng 385.
Current Offerings: http://uwm.edu/schedule

BME 495 Biomedical Instrumentation Laboratory
3 cr. Undergraduate.
Characteristics of measurement systems, experiment planning, sensor and system calibration, measurement of basic quantities, first and second order systems, data acquisition and processing, experimental projects.
Prerequisites: BME 325 (P), MechEng 469 (O).
Course Rules: BME 495 and MechEng 495 are jointly offered and count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

BME 585 Advanced Biomaterials
3 cr. Undergraduate/Graduate.
Theory and application of advanced biomaterials including cardiovascular devices, orthopedic applications, drug delivery systems, biosensors, and tissue engineering.
Prerequisites: sr st; MatlEng 385(P) or BME 385(P); or cons instr.
Current Offerings: http://uwm.edu/schedule

BME 595 Capstone Design Project
4 cr. Undergraduate.
Introduction to design process and ethics; Students work in teams to plan, design, and test in a simulated real-world environment; formal oral and written reports.
Prerequisites: sr st; BME 495(P).
Current Offerings: http://uwm.edu/schedule

BME 599 Senior Thesis
1-3 cr. Undergraduate.
Independent research under the direction of a faculty member; submission of a written thesis required. 3 cr total required.
Prerequisites: sr st & cons instr.
Course Rules: May be retaken to max of 3 cr.
Current Offerings: http://uwm.edu/schedule
BME 690 Topics in Biomedical Engineering:
3 cr. Undergraduate/Graduate.
Specific topics, credits, and any additional prerequisites will be announced in the Schedule of Classes each time the course is offered.
Prerequisites: jr st.
Course Rules: May be retaken w/ chg in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

BME 699 Independent Study
1-3 cr. Undergraduate.
In consultation with a faculty advisor, student will develop the study plan on a topic related to biomedical engineering.
Prerequisites: jr st; cons instr & CEAS Associate Dean.
Course Rules: May be retaken to 6 cr max.
Last Taught: Summer 2017.
Current Offerings: http://uwm.edu/schedule

BME 720 Machine Perception
3 cr. Graduate.
Fundamentals of computer vision and graphics, fundamentals of human-machine interaction, object sensing and tracking, virtual/augmented reality, automatic human behavior analysis, and biomedical applications.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

BME 733 Sensors and Systems
3 cr. Graduate.
Physical principles and working of sensors, interfacing, and sensor networks.
Prerequisites: grad st; ElecEng 305 or cons. instr.; Jointly offered with & counts as repeat of ElecEng 733 & MechEng 733.
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

BME 888 Candidates for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Current Offerings: http://uwm.edu/schedule

BME 890 Special Topics:
3 cr. Graduate.
Lectures on special topics in biomedical engineering. Variable content course. Specific topics and any additional prerequisites will be announced in the schedule of classes each time the course is offered.
Prerequisites: grad st
Course Rules: May be repeated w/ chg in topic to 9 cr max.
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

BME 990 Masters Thesis
1-9 cr. Graduate.
Masters Thesis
Prerequisites: grad st; cons instr
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

BME 999 Advanced Independent Study
1-3 cr. Graduate.
Advanced Independent Study
Prerequisites: grad st & cons instr.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

Biomedical Engineering, BSE

Biomedical engineering (BME) students at UWM will learn to translate engineering principles into clinical methods. Students will also engage in collaborative and interdisciplinary research projects with labs in the College of Engineering & Applied Science, College of Letters & Science, College of Health Sciences, School of Nursing, School of Public Health, and with local industry.

The BME undergraduate program emphasizes engineering design in preparation for employment in biomedical industries or launching startups in this fast-growing field. Freshmen and sophomores take a core curriculum that provides a foundation of engineering principles and
tools, software application, anatomy and physiology, and communication skills. Juniors take courses on sensors and actuators, biomedical signal processing and medical devices. Seniors also work on capstone design projects and the Product Realization course in multidisciplinary teams. A wide variety of elective courses allow juniors and seniors to specialize in the area of their choice.

**Current focus areas include:**

- Assistive Technology
- Biomechanics
- Medical Imaging
- Medical Instrumentation
- Rehabilitation Engineering

**Key aspects of the undergraduate program include:**

- **Design projects**, throughout the curriculum
- **Hands-on laboratories**
- **Flexibility in biomedical engineering** with depth through specialization areas
- **Industry cooperatives/internship opportunities**
- **Research opportunities in world-class labs** that make UWM one of the nation's top research universities (rated R1 by the Carnegie Classification of Institutions of Higher Education); the only one in southeastern Wisconsin

**Career Paths**

Biomedical engineers work with medical scientists, other medical researchers, and manufacturers to address a wide range of injuries and physical disabilities. Their ability to work on different activities with other professionals is enlarging the range of applications for biomedical products and services, particularly in healthcare.

- Clinical or Field Engineer
- Staff Engineer
- Manufacturing Engineer
- Researcher
- Quality Engineer
- Sales Engineer

**New Freshmen**

Admission to the College of Engineering and Applied Science is based on an overall assessment of both academic and non-academic qualifications. The primary review factors for admission are the strength and quality of the high school curriculum, high school class percentile, grade point average, and the result of the ACT or SAT. Well-prepared freshman applicants will have four years of mathematics (including one-and-a-half years of algebra, one year of geometry, and one-half year of trigonometry) and four years of natural science (including biology, chemistry, and physics). The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Freshmen applicants will be considered for admission directly to the major or the First-Year Program. Admission directly to the major is selective.

**Transfer Students**

Transfer student admission is based on an overall assessment of both academic and non-academic qualifications. For transfer applicants, the primary factors considered for admission are the grade point average on transferable courses and the level of curriculum completion. The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Transfer applicants will be considered for admission directly to the major or the Transfer Transition Program based on the number of transfer credits and GPA.

**Admission to the Major**

Students admitted to the First-Year Program or Transfer Transition Program (Engineering-intended or Computer Science-intended) may apply for major status with their academic advisor at the time they believe they meet the requirements. The program may impose major status as a prerequisite for courses numbered 200 or above.

1. Complete first semester calculus with a C or better grade.
2. Complete GER Oral and Written Communication Part A.
3. Engineering majors must complete Chem 100 with a C or better grade (or satisfactory score on the placement test). Computer Science majors must complete CompSci 251 with a C or better grade.
4. Obtain a minimum grade point as set by the major department. A 3.00 GPA guarantees admission to any CEAS major.
5. Courses required by the major may be repeated only once. No more than two courses may be repeated.

First-Year students have a maximum of three semesters to complete the admission to major requirements. Part-time students may be granted an extension by their academic advisor.

Transfer Transition students have a maximum of two semesters to complete the admission to major requirements. Part-time students may be granted an extension by their academic advisor.

**Placement Testing**

Most new freshmen are required to take placement exams in English and mathematics. Engineering students also take a placement exam in chemistry, provided they have had previous coursework in chemistry. Students with previous college-level credits in chemistry, English, and math may not be required to take placement tests. Additional prerequisite coursework may be required as a result of these placement tests. Credit for prerequisite academic work may not count toward the degree program. Entering students are urged to take their placement exams when scheduled. All placement exams must be completed before beginning coursework in the subject area. Students who place into precalculus math courses may be asked to participate in an online summer bridge program.

Questions on admission to CEAS or choosing a major should be directed to the Office of Student Services, (414) 229-4667.

**Biomedical Engineering Curriculum**

The minimum number of credits required to complete the Bachelor of Science in Biomedical Engineering is 120. Students who need background preparation courses in math, English, and foreign language may need additional credits. Students must maintain an average GPA of at least 2.0 on all work attempted at the University and in all
courses offered by the College. Engineering students may apply for major status with their academic advisor at any time they believe they meet the requirements. Students majoring in Biomedical Engineering must maintain an average GPA of at least 2.0 in all 300-level required major courses. Transferable courses will be included as appropriate. Advancement to major status is required for graduation. Programs may impose major status as a prerequisite for courses numbered 200 or above.

¹ Placement Examinations. Once admitted to UWM, most engineering students are required to take placement examinations in mathematics, English, and chemistry. Students with previous college-level credits in these areas may not be required to take placement exams. The placement exams are administered by the UWM Testing Center, Mellencamp Hall, Room B28, (414) 229-4689. The results of these tests help students determine the appropriate course in which to register. Background prerequisite courses may be required in addition to the courses listed above.
Students wishing to major in more than one field can do so in two ways: Dual Majors

1. Complete the requirements for more than one major before receiving a degree from the College. In this case, the degree will list both majors.

2. Be admitted to the College as a second degree candidate (after earning a bachelor's degree in any field), providing University and College entrance requirements are met. Such a student must meet all undergraduate degree requirements in the College and present a minimum of 30 credits beyond the previous bachelor's degree.

**Concurrent Registration at Other Institutions**

CEAS students wishing to establish concurrent enrollment at another institution must obtain prior permission from their academic advisor.

**Student Academic Appeals**

Students may appeal an academic action to the Office of Student Services. An appeal is a request for an exception to an established policy or rule. The content of each appeal is carefully reviewed in order to reach a decision. Appeals should be submitted in writing to the Office of Student Services. The appeals committee considers individual cases concerning the degree requirements and other academic rules and regulations established by the College of Engineering and Applied Science faculty.

The College of Engineering and Applied Science has established written procedures for undergraduate student academic grievances. Copies of the grievance procedure are available in the Office of Student Services. As a first step, students must discuss the grievance with the faculty member or administrator as soon as possible to attempt to resolve the issue, but not later than 30 days after the action that prompted the grievance/appeal.

**Computer Science and Engineering Programs**

Detailed descriptions of the CEAS undergraduate programs are provided in this catalog. All courses are not offered every semester. A few technical elective courses may be offered only once every three to four semesters. In addition, since computer science and engineering curricula are continually evolving to keep current, students are encouraged to consult with their advisors to plan each semester’s list of classes. Part-time students should always maintain a plan that looks ahead two to three semesters to avoid scheduling difficulties.

The curricula outlined in the pages are applicable to new students entering CEAS in fall 2016 or later. Students who enrolled in computer science or engineering programs prior to that date should consult with the appropriate previous editions of this catalog for information about their program requirements. As a general rule, when program changes occur, continuing students have the choice of continuing in their existing program or following the new requirements. Occasionally, a program change will be required of all students regardless of their date of matriculation, so long as it does not increase the total credits needed for graduation.

These program descriptions represent the minimum requirements for graduation from UWM in computer science or engineering. In all cases, it is important that students consult with their advisor before making course selections to avoid errors in programming.

**Academic Advising**

The Office of Student Services in the College of Engineering and Applied Science, located in Room E386 of the Engineering and Mathematical Sciences Building, offers undergraduate students academic advising.
from professional advisors who are familiar with the curriculum, College requirements, and the special needs of engineering and computer science students. These advisors provide services such as freshman orientation, course selection, program planning, and credit transfer evaluation. Students are assigned to a permanent professional advisor as soon as they are accepted into the College, and are urged to confer with their advisor at least once each semester. Students also are assigned to a faculty advisor who provides technical expertise specific to the student’s area of study.

We understand that it can be a delicate balance managing school, work, family, and active social lives. The College of Engineering and Applied Science advisors are here to help you achieve that balance.

You will be assigned a professional academic advisor upon being admitted to the College of Engineering & Applied Science. Your advisor will work with you throughout your undergraduate experience, providing guidance on:

- course registration,
- graduation planning,
- career preparation,
- and serving as a liaison to the many other resources available on our campus.

Advisors are also a great source of information on student organizations, tutoring and scholarship opportunities.

In addition to professional academic advisors, you will also have access to faculty advisors. These advisors can provide insights into the technical aspects of the engineering and computer science curricula while mentoring you as you define your professional goals.

Student Learning Outcomes

Upon the completion of the program, a graduate of the program will be able to:

1. Apply principles of engineering, biology, human physiology, basic science, mathematics, and statistics.
2. Solve biomedical engineering problems, including those associated with the interaction between living and non-living systems.
3. Analyze, model, design, and realize biomedical engineering devices, systems, components, or processes, and make measurements and interpret data from living systems.
4. Design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
5. Demonstrate an understanding of professional and ethical responsibility.
6. Demonstrate the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
7. Demonstrate an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Honors in the College of Engineering and Applied Science

Dean's Honor List
GPA of 3.500 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Joint Programs with Other Campuses

Pre-engineering
Qualified students may enroll in coordinated pre-engineering programs at UW-Green Bay, UW-Parkside, and UW-Waukesha for two years of pre-engineering coursework. These coordinated programs ensure equivalent coursework, appropriate advising, and early access to the Cooperative Education Program at UWM.

Dual Degree Programs
Qualified students may enroll in coordinated dual degree programs at Alverno College, Carroll University, UW-Eau Claire, UW-Green Bay, UW-La Crosse, UW-Oshkosh, UW-Stevens Point, UW-Whitewater and Wisconsin Lutheran College. Students in these programs will earn a bachelor's degree at both universities in five years. Students transfer to UWM after three years at the partner university. For more information, contact the Office of Student Services at (414) 229-4667.

Joint Programs with Wisconsin Technical Colleges

Gateway Technical College
An agreement with GTC allows those students having associate degrees in the Electrical Engineering - Technology the opportunity to be given credit for courses required in the UWM bachelor of science in engineering program. For more information, contact the Office of Student Services at (414) 229-4667.

Milwaukee Area Technical College
An agreement with MATC allows joint admission and enrollment at MATC and CEAS. Qualified students may take English, mathematics, chemistry, and general education courses at MATC. The program ensures equivalent
coursework and appropriate advising. Students complete a bachelor of science degree in engineering or computer science at UWM.

**Waukesha County Technical College**

An agreement with WCTC allows those students having associate degrees in the Industrial Occupations Division at WCTC the opportunity to be given credit for courses required in the UWM bachelor of science in engineering or bachelor of science in computer science program. For more information, contact the Office of Student Services at (414) 229-4667.
Civil engineering is a profession that deals with the infrastructure of society. Civil engineers design bridges, buildings, and other structures; develop and design water resources, waste treatment, and environmental management facilities; plan and design highway and transportation systems; and design foundations, earth and rock structures, and tunnels. Students completing a civil engineering program have an opportunity for professional employment with industry; utilities; consulting firms; contractors; local, state, and federal government agencies; research laboratories; and academia.

Mission Statement
The mission of the UWM undergraduate Civil Engineering Program is to educate students to become civil engineering professionals who plan, design, build, and manage the infrastructure needed for a modern urban society and the environment.

Programs
- Civil Engineering, BSE (p. 670)
- Structural Engineering, Minor (p. 675)

Civil and Environmental Engineering Courses

CIV ENG 150 Builders for Civilization and Environment
3 cr. Undergraduate.
Explores the role of civil engineering in society through the use of case studies, including water and society, bridges, building and transportation. 
Prerequisites: none.
General Education Requirements: NS
Last Taught: Fall 2008, Fall 2007, Fall 2006, Fall 2005.
Current Offerings: http://uwm.edu/schedule

CIV ENG 201 Statics
3 cr. Undergraduate.
Principles of mechanics force systems, equilibrium structures, distributed forces, centroids and friction. 
Prerequisites: Math 232(P).
Current Offerings: http://uwm.edu/schedule

CIV ENG 202 Dynamics
3 cr. Undergraduate.
Kinematics and kinetics of particles and rigid bodies with applications of Newton’s second law and the principles of work-energy and impulse momentum. 
Prerequisites: Civ Eng 201(P), Math 233(C).
Current Offerings: http://uwm.edu/schedule

CIV ENG 250 Engineering Surveying
3 cr. Undergraduate.
Horizontal and vertical distance measurement, angles and direction, traverses, errors, control and construction surveys, coordinate systems, land records, and coordinate geometry. Office and field practice. 
Prerequisites: soph st, Math 232(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CIV ENG 280 Computer Based Engineering Analysis
3 cr. Undergraduate.
Computer based methods for analysis of data and relationships in engineering practice. Data reliability, experimental design, statistical significance, database systems, curve fitting, interpretation of relationships. 
Prerequisites: CompSci 132(P) or one semester H.S. programming; & Math 231(P) or 226(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CIV ENG 303 Strength of Materials
4 cr. Undergraduate.
Stress and strain, torsion, bending of beams, shearing stress in beams, combined stresses, principal stresses, deflections of beams, statically indeterminate members and columns. Lec & lab. 
Prerequisites: Civ Eng 201(P) & Math 233(C).
Current Offerings: http://uwm.edu/schedule

CIV ENG 311 Introduction to Energy, Environment and Sustainability
3 cr. Undergraduate.
Energy system and resources, environmental system and resources, global climate change, life cycle assessment, green chemistry and materials, sustainable technologies. 
Prerequisites: jr st.
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

CIV ENG 335 Soil Mechanics
3 cr. Undergraduate.
Fundamentals of soil mechanics; soil classification; seepage analysis; principle of effective stress; stress distribution; 1-D consolidation theory; shear strength; laboratory experience. 
Prerequisites: jr & admis to an Eng major or grad st; Civ Eng 303(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CIV ENG 360 Introduction to Structural Analysis
3 cr. Undergraduate.
Elementary structural analysis techniques; beams, trusses, statically determinate frames, influence lines; analysis of indeterminate structures by superposition and computer analysis. 
Prerequisites: Civ Eng 303(P).
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule
CIV ENG 372 Introduction to Structural Design
4 cr. Undergraduate.
Intro to design of reinforced concrete, steel, and wood structures; material properties; codes; design for flexure, shear and axial loads; connections.
Prerequisites: jr st; Civ Eng 303(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CIV ENG 401 Intermediate Strength of Materials
3 cr. Undergraduate/Graduate.
Area moment, conjugate beam, deflection due to shear, bending of unsymmetrical beams, curved beams, shear flow, shear center, stresses in open sections, theories of failure, plastic stress-strain relations, plastic deformation, limit analysis, energy methods, laboratory investigation.
Prerequisites: jr st; Civ Eng 303(P).
Last Taught: Fall 2001, Fall 2000, Fall 1999, Fall 1998.
Current Offerings: http://uwm.edu/schedule

CIV ENG 411 Engineering Principles of Water Resources Design
3 cr. Undergraduate/Graduate.
Principles of hydraulics; steady and non-steady flow in closed conduits and open channels; hydraulic design of structures, surge tanks; hydraulic model studies.
Prerequisites: jr st & admis to an Eng major or grad st; MechEng 320(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CIV ENG 412 Applied Hydrology
3 cr. Undergraduate/Graduate.
Applied hydrology with emphasis on analysis of rainfall, runoff and streamflow processes, hydrologic forecasting and simulation, urban hydrology, hydrologic design and modelling.
Prerequisites: jr st; Math 233(P) & MechEng 320(P).
Current Offerings: http://uwm.edu/schedule

CIV ENG 413 Environmental Engineering
3 cr. Undergraduate/Graduate.
Water pollution and control; hazardous substances and risk assessment; water and wastewater treatment systems; air-pollution and emission control; solid wastes; design of treatment facilities.
Prerequisites: jr st & admis to an Eng major or grad st; MechEng 320(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CIV ENG 431 Materials of Construction
3 cr. Undergraduate/Graduate.
Investigation covering engineering properties of metals, timber, concrete, masonry, plain and reinforced plastics, glues; thermal effects.
Prerequisites: jr st; Civ Eng 303(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

CIV ENG 456 Foundation Engineering
3 cr. Undergraduate/Graduate.
Site investigation; foundation bearing capacity and settlement; design of spread and combined footings; lateral earth pressures; retaining wall design; slope stability analysis; pile foundations.
Prerequisites: jr st; Civ Eng 335(P).
Last Taught: Fall 2017, Fall 2016, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CIV ENG 463 Introduction to Finite Elements
3 cr. Undergraduate/Graduate.
Prerequisites: jr st; ElecEng 234(P), Civ Eng 303(P), MechEng 320(C), 311(C) or 321(C).
Course Rules: Not open to students with cr in MechEng 463, which is identical to Civ Eng 463.
Current Offerings: http://uwm.edu/schedule

CIV ENG 466 Mechanics of Composite Materials
3 cr. Undergraduate/Graduate.
Basic concepts, materials, and characteristics of composites. Micromechanics and Macromechanics of Elastic Response. Failure, design and optimization of composite structures.
Prerequisites: jr st & Civ Eng 303(P)
Course Rules: Civ Eng 466 & MechEng 466 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

CIV ENG 469 Introduction to Biomechanical Engineering
3 cr. Undergraduate/Graduate.
Mathematical modeling of human body; dynamics of human motion; neuromuscular control human movement; stress analysis of bones and joints; concurrent mechanical problems in medicine.
Prerequisites: Civ Eng 202(P) & 303 (P); or cons instr.
Course Rules: MechEng 469 & Civ Eng 469 are jointly offered and count as repeats of one another.
Last Taught: Fall 2012.
Current Offerings: http://uwm.edu/schedule

CIV ENG 480 Software Applications for Civil Engineering
3 cr. Undergraduate.
General knowledge and techniques in using computer software in civil engineering design. Software packages include Autodesk Civil 3D and Revit Structure.
Prerequisites: jr st, Civ Eng 303.
Current Offerings: http://uwm.edu/schedule

CIV ENG 490 Transportation Engineering
3 cr. Undergraduate/Graduate.
Technological and common elements of all modes of transportation; their effect on performance, demand, and outputs of a transportation system. Development of new transportation systems.
Prerequisites: jr st & admis to an Eng major; Civ Eng 280(P), or grad st.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CIV ENG 492 Environmental Impact Assessment
3 cr. Undergraduate/Graduate.
Study and evaluation of the impacts of large scale projects on the quality of the environment with emphasis on the assessment of physical and community impacts. Impact statement preparation.
Prerequisites: sr st.
Current Offerings: http://uwm.edu/schedule
CIV ENG 494 Principles of Civil Engineering Design
1 cr. Undergraduate.
Project identification and planning for senior design project; proposals, project management and team procedures. Technical communications. Professional engineering responsibilities. Intended for first semester seniors.
Prerequisites: sr st in Civ Eng; Civ Eng 335(C), 372(C), 411(C), 413(C), & 490(C).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CIV ENG 495 Senior Design
3 cr. Undergraduate.
Team design project involving application of fundamental civil engineering concepts. Discussion of specifications, contracts and implementation. Written and oral presentations. Intended for second semester seniors.
Prerequisites: Civ Eng 335(P), 372(P), 411(P), 413(P), 490(P), 494(P) or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CIV ENG 499 Ad Hoc:
1-12 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: none; addl prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

CIV ENG 502 Experimental Stress Analysis
3 cr. Undergraduate/Graduate.
Basic stress strain relations; demonstration of experimental methods of determining stresses and strains; use of mechanical strain, electric strain, and strain gages, optical photoelastic equipment, brittle lacquers, models.
Prerequisites: jr st & Civ Eng 303(P).
Current Offerings: http://uwm.edu/schedule

CIV ENG 511 Water Supply and Sewerage
3 cr. Undergraduate/Graduate.
Resources of water supply quality and quantity requirements. Principles of hydraulic design of water supply and sewerage systems; pumping stations. Principles of sewage disposal. Problems of management involving hydrological, engineering, institutional, legal and economic aspects. Design project.
Prerequisites: jr st; Civ Eng 411(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CIV ENG 521 Water Quality Assessment
3 cr. Undergraduate/Graduate.
Laboratory techniques for detecting and measuring physical, chemical and biological characteristics of water and wastewater. Water quality requirements. Design of sampling programs.
Prerequisites: sr st; Civ Eng 411(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CIV ENG 555 Sustainable Construction Materials and Technologies
3 cr. Undergraduate/Graduate.
Sustainable construction materials and methodologies related to commercial construction, LEED/Green certifications, material selection.
Prerequisites: jr st.
Last Taught: Spring 2017.
Current Offerings: http://uwm.edu/schedule

CIV ENG 560 Intermediate Structural Analysis
3 cr. Undergraduate/Graduate.
Topics in traditional analysis methods; indeterminate structures, load & load paths, moment distribution, approximate methods, elementary plate analysis.
Prerequisites: jr st; Civ Eng 360(P), 372(P).
Current Offerings: http://uwm.edu/schedule

CIV ENG 571 Design of Concrete Structures
3 cr. Undergraduate/Graduate.
Topics in reinforced concrete design; indeterminate reinforced concrete beams and frames; length effect in columns; torsion; two way floor systems; yield line theory.
Prerequisites: jr st; Civ Eng 360(C), 372(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CIV ENG 572 Design of Steel Structures
3 cr. Undergraduate/Graduate.
Topics in design of steel structures; tension, compression, and beam members; combined axial and bending; connections; frames; serviceability.
Prerequisites: jr st; Civ Eng 360(C), 372(P).
Current Offerings: http://uwm.edu/schedule

CIV ENG 573 Design of Masonry Structures
3 cr. Undergraduate/Graduate.
Topics in design of masonry structures; materials, loads, design codes, reinforced & unreinforced axial & flexural members, composite & cavity walls, shear walls, seismic requirements.
Prerequisites: jr st; Civ Eng 360(C), 372(P).
Last Taught: Fall 2016, Fall 2014, Fall 2010, Fall 2005.
Current Offerings: http://uwm.edu/schedule

CIV ENG 574 Design of Prestressed Concrete Structures
3 cr. Undergraduate/Graduate.
Design of prestressed concrete structures; methods of prestressing; loss of prestress; design for flexure, shear, torsion; camber and deflections; continuity; connections; fire rating; circular prestressing.
Prerequisites: jr st; Civ Eng 360(C), 372(P).
Current Offerings: http://uwm.edu/schedule

CIV ENG 579 Earthquake Engineering
3 cr. Undergraduate/Graduate.
Earthquake mechanics and effects, structural dynamics, seismic hazard analysis, design guidelines, design of steel and concrete buildings for earthquake loads.
Prerequisites: sr st or Civ Eng 411(P) or 491(P); or cons instr; or grad st.
Course Rules: Counts as repeat of Civ Eng 891 w/same subtitle.
Current Offerings: http://uwm.edu/schedule
CIV ENG 580 Engineering Analysis in Applied Mechanics
3 cr. Undergraduate/Graduate.
Engineering analysis of initial and boundary value problems in applied mechanics. Application of various methods to investigate a variety of engineering situations.
Prerequisites: jr st; ElecEng 234(P).
Course Rules: Not open to students with cr in MechEng 580, which is identical to Civ Eng 580.
Last Taught: Fall 1998, Fall 1996, Fall 1993.
Current Offerings: http://uwm.edu/schedule

CIV ENG 590 Urban Transportation Planning
3 cr. Undergraduate/Graduate.
Techniques used to plan urban transportation systems; data collection, trip generation, trip distribution, factors underlying the choice of mode, traffic assignment, modeling and evaluation techniques.
Prerequisites: sr st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

CIV ENG 592 Traffic Control
3 cr. Undergraduate/Graduate.
Control of transportation systems with emphasis on traffic engineering principles. Data collection, capacity analysis, traffic improvements, signalization, signs and markings, channelization, intersection, speeds and safety considerations.
Prerequisites: sr st.
Current Offerings: http://uwm.edu/schedule

CIV ENG 594 Physical Planning and Municipal Engineering
3 cr. Undergraduate/Graduate.
Organization and structure of local government, zoning and planning, subdivision layout, street design, transit service, urban drainage, storm and sanitary sewer, water supply and other public works activities.
Prerequisites: sr st.
Current Offerings: http://uwm.edu/schedule

CIV ENG 596 Transportation Facilities Design
3 cr. Undergraduate/Graduate.
Physical design of transportation facilities including geometric design and terminals for highway, rail, air and water transportation. Student project work will be required.
Prerequisites: jr st; Civ Eng 490(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CIV ENG 598 Pavement Analysis and Design
3 cr. Undergraduate/Graduate.
Pavement types, design factors, traffic loading and volume, materials characterization, drainage design, flexible and rigid pavements design, stresses and deflections, overlay design, pavement rehabilitation.
Prerequisites: jr st & Civ Eng 335(P); or grad st.
Current Offerings: http://uwm.edu/schedule

CIV ENG 610 Introduction to Water and Sewage Treatment
3 cr. Undergraduate/Graduate.
Characteristics of water and sewage. Principles of physical, chemical and biological processes for water and sewage treatment. Design project.
Prerequisites: sr st; Civ Eng 413(P).
Current Offerings: http://uwm.edu/schedule

CIV ENG 614 Hazardous Waste Management
3 cr. Undergraduate/Graduate.
Hazardous waste; regulatory process; fate and transport of contaminants; treatment and disposal methods; site remediation; quantitative risk assessment, design project.
Prerequisites: jr st; Civ Eng 413(P).
Last Taught: Fall 2017, Fall 2016, Fall 2014, Spring 2013.
Current Offerings: http://uwm.edu/schedule

CIV ENG 616 Computational Hydraulics and Environmental Flows
3 cr. Undergraduate/Graduate.
Numerical analysis applied to fluid flows and transport phenomena. Applications in environmental flows, water quality models, transport of pollutant, long wave propagation, etc.
Prerequisites: jr sr, Civ Eng 411(P).
Course Rules: Counts as repeat of Civ Eng 691 w/same topic.
Last Taught: Spring 2018, Fall 2015, Fall 2011.
Current Offerings: http://uwm.edu/schedule

CIV ENG 619 Topics in Civil Engineering:
1-3 cr. Undergraduate/Graduate.
Topics vary. Study of topics in theory and practice of civil engineering. Specific topics and any additional prerequisites will be announced in Schedule of Classes each time the course is offered.
Prerequisites: jr st.
Course Rules: May be retaken to a max of 6 cr.
Current Offerings: http://uwm.edu/schedule

CIV ENG 690 Independent Study
1-3 cr. Undergraduate/Graduate.
Prerequisites: jr st; cons instr.
Course Rules: May be retaken to max of 6 cr toward the undergraduate degree.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

CIV ENG 700 CEAS Graduate Seminar
1-3 cr. Graduate.
Seminar in professional ethics, oral and written communication, contemporary social issues, career development, time management, and laboratory safety.
Prerequisites: grad st
Course Rules: Civ Eng 700, CompSci 700, ElecEng 700, Ind Eng 700, MatlEng 700 & MechEng 700 are jointly offered and count as repeats of one another
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
CIV ENG 701 Advanced Strength of Materials
3 cr. Graduate.
Beams of elastic foundations; advanced energy methods; thick walled cylinders; torsion of non-circular sections; approximate methods for stresses in plates, stress concentrations, contact stresses, interaction curves, elastic and inelastic buckling, introduction to elasticity. Some laboratory, matrix, and tensor applications.
Prerequisites: grad st; Civ Eng 303(P) & 401(C) or cons instr.
Last Taught: Spring 2018, Fall 2016, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

CIV ENG 702 Elastic Stability
3 cr. Graduate.
 Sending of bars under simultaneous action of axial and lateral loads; buckling of compressed bars, rings, and tubes; lateral buckling of beams; torsion of i-beams; buckling of thin plates.
Prerequisites: grad st. Civ Eng 401(P) ElecEng 234(P).
Current Offerings: http://uwm.edu/schedule

CIV ENG 708 Fate and Transport of Micro and Nano Particles in the Environment
3 cr. Graduate.
 Fundamentals governing fate and transport of micro and nano particles, e.g. inorganic particles, bacteria, viruses and protozoan in aquatic environment and porous media including soil, sand and filtration system.
Prerequisites: grad st; Civ Eng 411(P) or 413(P) or cons instr
Last Taught: Spring 2015.
Current Offerings: http://uwm.edu/schedule

CIV ENG 710 Industrial Waste Treatment
3 cr. Graduate.
Prerequisites: grad st; Civ Eng 521(P) & 610(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

CIV ENG 716 Sediment Transport
3 cr. Graduate.
Physical properties of sediment; incipient motion, bed forms, suspended load, bed load, total load, natural river processes.
Prerequisites: grad st; Civ Eng 411(P).
Current Offerings: http://uwm.edu/schedule

CIV ENG 717 Open Channel Flow
3 cr. Graduate.
Basic equations of continuity, mechanical energy and momentum; uniform, gradually varied, and spatially varied flows; hydraulic structures; governing equations of unsteady flow and numerical solutions.
Prerequisites: grad st; Civ Eng 411(P) or equiv.
Last Taught: Fall 2016, Spring 2010, Fall 2007, Fall 2005.
Current Offerings: http://uwm.edu/schedule

CIV ENG 718 Biological Processes for Water and Wastewater Treatment
3 cr. Graduate.
Biological and engineering principles related to trickling filters, activated sludge plants, lagoons, rotating biological contactors, aerobic and anaerobic digesters, nutrient removal and bioremediation.
Prerequisites: grad st; Civ Eng 413(R) or 610(R)
Last Taught: Spring 2017, Fall 2011.
Current Offerings: http://uwm.edu/schedule

CIV ENG 719 Pollutant Dispersion Process
3 cr. Graduate.
Classical diffusion theories; longitudinal dispersion, vertical and transverse mixing in free-surface turbulent flow, application to natural channels.
Prerequisites: grad st; Civ Eng 411(P).
Last Taught: Spring 2017, Fall 2014, Fall 2010.
Current Offerings: http://uwm.edu/schedule

CIV ENG 721 Advanced Water Analysis
3 cr. Graduate.
Advanced analytical methods for evaluating sources, distribution patterns, concentrations, and biological effects of pollutants in natural waters. Tracers, nuclear techniques, organics, metals, bioassays. Lecture and laboratory.
Prerequisites: grad st; Civ Eng 521(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

CIV ENG 725 Finite Element Methods in Engineering
3 cr. Graduate.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule
CIV ENG 726 Mechanical Vibrations
3 cr. Graduate.
Free and forced vibrations of multiple degree of freedom systems using modern matrix methods.
Prerequisites: grad st; MechEng 475 or equiv.
Course Rules: Not open to students who have cr in MechEng 726, which is identical to Civ Eng 726.
Current Offerings: http://uwm.edu/schedule

CIV ENG 731 Properties of Concrete
3 cr. Graduate.
Advanced course in portland cement concrete; proportioning methods, theories of hardening and setting, properties, prefabricated concrete, precast concrete, construction methods, light-weight aggregates and concrete, causes of disintegration, protective treatments, specifications, cost estimates.
Prerequisites: grad st; cons instr.
Last Taught: Fall 2017, Fall 2015, Spring 2014, Fall 2011.
Current Offerings: http://uwm.edu/schedule

CIV ENG 732 Fatigue in Engineering Materials
3 cr. Graduate.
Influence of repeated stress in engineering design, fatigue testing machines, and procedures, factors influencing fatigue properties, theories of fatigue failure.
Prerequisites: Civ Eng 401(P) or cons instr.
Last Taught: Spring 2015, Fall 2012, Fall 2010, Fall 2008.
Current Offerings: http://uwm.edu/schedule

CIV ENG 735 Advanced Soil Mechanics
3 cr. Graduate.
Advanced treatment and application of theories and principles of soil mechanics; permeability and seepage; elastic theories of stress distribution; consolidation theories; shearing strength and failure criteria; plastic equilibrium.
Prerequisites: grad st; Civ Eng 456(P).
Last Taught: Fall 2016, Fall 2014, Fall 2011, Spring 2006.
Current Offerings: http://uwm.edu/schedule

CIV ENG 756 Advanced Foundation Engineering
3 cr. Graduate.
Critical study of actual engineering projects; introduction to existing design procedures and the basis for foundation recommendations.
Prerequisites: grad st; Civ Eng 456(P).
Current Offerings: http://uwm.edu/schedule

CIV ENG 761 Advanced Structural Analysis
3 cr. Graduate.
Analysis of structures utilizing matrix stiffness techniques; material and geometric nonlinearities, volume changes, extreme loadings.
Prerequisites: grad st; Civ Eng 360(P); Civ Eng 463(P).
Current Offerings: http://uwm.edu/schedule

CIV ENG 771 Advanced Concrete Design
3 cr. Graduate.
Advanced topics in design of concrete structures; structural systems & bracing, two-way slab, walls, construction phase assessment, joints & ductility, design for fire, seismic design.
Prerequisites: grad st; Civ Eng 571(P).
Current Offerings: http://uwm.edu/schedule

CIV ENG 772 Advanced Steel Design
3 cr. Graduate.
Advanced topics in design of steel structures; plate girders, moment resisting frames, stability & bracing, connections, torsion, seismic design, fatigue & fracture. Prereq: grad st; Civ Eng 572(P).
Prerequisites:
Last Taught: Fall 2017, Fall 2015, Fall 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

CIV ENG 773 Advanced Dynamics
3 cr. Graduate.
General theory of dynamic behavior from the viewpoint of Lagrangian and Hamiltonian mechanics. Application of energy principles to dynamical analysis of mechanical systems.
Prerequisites: grad st; MechEng(580) or Civ Eng 580(P); or cons instr.
Course Rules: Not open to students who have cr in MechEng 773, which is identical.
Current Offerings: http://uwm.edu/schedule

CIV ENG 774 Shock and Vibration Analysis
3 cr. Graduate.
Dynamic response of mechanical systems to complex shock and vibration conditions; application of the eigenvalue and transform methods of analysis to the solution of engineering problems.
Prerequisites: grad st; MechEng 475(P) & 580(P).
Course Rules: Not open to students who have cr in MechEng 774, which is identical.
Current Offerings: http://uwm.edu/schedule

CIV ENG 775 Analysis and Design of Bridges
3 cr. Graduate.
Bridge types; loads and AASHTO specifications; analysis and design of superstructures; substructure design; computer applications.
Prerequisites: grad st; Civ Eng 463(P); 571(P); 572(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

CIV ENG 777 Design of Multistory Buildings
3 cr. Graduate.
Topics in design of multistory building systems; planning & environmental criteria, loading, analysis, design, construction, lateral systems, foundation, cladding, building service & management.
Prerequisites: grad st; Civ Eng 463(P); 571(P); 572(P).
Last Taught: Fall 2016, Fall 2014, Fall 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule

CIV ENG 785 Dynamics of Structures
3 cr. Graduate.
Analysis and design of structures subjected to dynamic loads; effects of damping and inelastic action; multi-degree of freedom and continuous systems; numerical techniques; seismic design.
Prerequisites: grad st; Civ Eng 463(P) or cons instr.
Current Offerings: http://uwm.edu/schedule
CIV ENG 790 Transportation Systems Design
3 cr. Graduate.
Principles of systems analysis as they relate to the planning, design and operation of transportation systems. Model building, evaluation, systems management.
Prerequisites: grad st; Civ Eng 590(P).
Last Taught: Fall 2013, Fall 2011, Spring 2006, Fall 2003.
Current Offerings: http://uwm.edu/schedule

CIV ENG 792 Methods of Transportation Analysis
3 cr. Graduate.
Mathematical tools useful in analysis of transportation systems. Process of modeling and simulation, matrix techniques, network analysis, statistical analysis, etc. As related to transportation. Use of standard packaged computer programs. Class project may be utilized to develop these skills.
Prerequisites: grad st; CompSci 151(P) or equiv. Civ Eng 590(P).
Last Taught: Fall 2017, Fall 2016, Fall 2014, Spring 2009.
Current Offerings: http://uwm.edu/schedule

CIV ENG 794 Traffic Planning and Operations
3 cr. Graduate.
Planning and design of traffic systems, delay and capacity of signalized intersections, freeway controls, traffic system management and optimization, queues, traffic assignment and simulation.
Prerequisites: grad st; Civ Eng 592(C).
Current Offerings: http://uwm.edu/schedule

CIV ENG 801 Applied Elasticity
3 cr. Graduate.
Equations of elasticity in two and three dimensions; two dimensional problems in rectangular polar and curvilinear coordinates; torsion of noncircular shafts; bending of prismatic bars.
Prerequisites: grad st; Civ Eng 401(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

CIV ENG 804 Theory of Plasticity
3 cr. Graduate.
Yield conditions, stress strain relations; plastic potential, hardening theories, torsion, bending, thick walled spherical and cylindrical shells under internal pressure; plane strain of perfectly plastic material.
Prerequisites: Civ Eng 805(P).
Current Offerings: http://uwm.edu/schedule

CIV ENG 880 Bioengineering Seminar
1 cr. Graduate.
Presentations by bioengineering affiliated faculty, invited speakers, and graduate students.
Prerequisites: grad st
Course Rules: MechEng 880, ElecEng 880, CompSci 880, MatlEng 880, IndEng 880 & Civ Eng 880 are jointly offered and count as repeats of one another. May be repeated to 3 cr. max.
Last Taught: Spring 2018, Fall 2015, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

CIV ENG 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirements.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Last Taught: Fall 2016, Fall 2015, Summer 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

CIV ENG 891 Advanced Topics in Civil Engineering: 1-3 cr. Graduate.
Topics vary. Study of advanced topics of theory and practice of structural engineering. Specific topic and any additional prerequisites will be announced in the schedule of classes each time the course is offered.
Prerequisites: grad st.
Course Rules: Retakeable with change in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

CIV ENG 940 Topics in Transportation: 1-3 cr. Graduate.
Topics vary. Topics and problems of current interest in transportation; readings and review of recent literature and development of a critical analysis or paper. Subject matter may be student initiated. Specific topic and any additional prerequisites will be announced in the schedule of classes each time the course is offered. Retakeable with change in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

CIV ENG 990 Masters Thesis
1-9 cr. Graduate.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

CIV ENG 998 Doctoral Thesis
1-12 cr. Graduate.
Prerequisites: grad st; cons instr & grad prog Comm.
Current Offerings: http://uwm.edu/schedule

CIV ENG 999 Advanced Independent Study
1-3 cr. Graduate.
Prerequisites: grad st; cons instr & grad prog committee.
Current Offerings: http://uwm.edu/schedule
Civil Engineering, BSE

Civil Engineering is a profession that deals with the infrastructure of society and impacts your everyday life. From the roads and bridges you use every day to the drinking water that comes out of your tap at home, civil engineers work to develop safe, efficient and sustainable ways to continually improve our infrastructure.

Concentrations

• Geotechnical engineering
• Structural engineering
• Transportation and municipal engineering
• Water resources and environmental engineering

Research

Work with faculty engaged in leading-edge research in areas such as:

• Social and environmental impacts of transportation development
• Flexible pavement design
• Fatigue and fracture mechanics
• Hydrodynamic modeling
• Environmental fluid mechanics
• Application of nanomaterials in construction

Career Paths

Civil engineers work in all levels of government and throughout the private sector.

• Structural Designer
• Construction Manager

Accreditation

The civil engineering program is accredited by the Engineering Accreditation Commission of ABET, 415 N. Charles Street, Baltimore, MD 21201, (410) 347-7700.

New Freshmen

Admission to the College of Engineering and Applied Science is based on an overall assessment of both academic and non-academic qualifications. The primary review factors for admission are the strength and quality of the high school curriculum, high school class percentile, grade point average, and the result of the ACT or SAT. Well-prepared freshman applicants will have four years of mathematics (including one-and-a-half years of algebra, one year of geometry, and one-half year of trigonometry) and four years of natural science (including biology, chemistry, and physics). The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Freshmen applicants will be considered for admission directly to the major or to the First-Year Program. Admission directly to the major is selective.

Transfer Students

Transfer student admission is based on an overall assessment of both academic and non-academic qualifications. For transfer applicants, the primary factors considered for admission are the grade point average...
on transferable courses and the level of curriculum completion. The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Transfer applicants will be considered for admission directly to the major or the Transfer Transition Program based on the number of transfer credits and GPA.

Admission to the Major
Students admitted to the First-Year Program or Transfer Transition Program (Engineering-Intended or Computer Science-Intended) may apply for major status with their academic advisor at the time they believe they meet the requirements. The program may impose major status as a prerequisite for courses numbered 200 or above.

1. Complete first semester calculus with a C or better grade.
2. Complete GER Oral and Written Communication Part A.
3. Engineering majors must complete Chem 100 with a C or better grade (or satisfactory score on the placement test). Computer Science majors must complete CompSci 251 with a C or better grade.
4. Obtain a minimum grade point as set by the major department. A 3.00 GPA guarantees admission to any CEAS major.
5. Courses required by the major may be repeated only once. No more than two courses may be repeated.

First-Year students have a maximum of three semesters to complete the admission to major requirements. Part-time students may be granted an extension by their academic advisor.

Transfer Transition students have a maximum of two semesters to complete the admission to major requirements. Part-time students may be granted an extension by their academic advisor.

Placement Testing
Most new freshmen are required to take placement exams in English and mathematics. Engineering students also take a placement exam in chemistry, provided they have had previous coursework in chemistry. Students with previous college-level credits in chemistry, English, and math may not be required to take placement tests. Additional prerequisite coursework may be required as a result of these placement tests. Credit for prerequisite academic work may not count toward the degree program. Entering students are urged to take their placement exams when scheduled. All placement exams must be completed before beginning coursework in the subject area. Students who place into precalculus math courses may be asked to participate in an online summer bridge program.

Questions on admission to CEAS or choosing a major should be directed to the Office of Student Services, (414) 229-4667.

Civil Engineering Curriculum
The minimum number of credits required to complete the Bachelor of Science in Engineering with a major in civil engineering is 127. Students who need background preparation courses in math, English, foreign language, and chemistry may need additional credits.

</table>

Mathematics Requirement
Select one of the following sequences: 10-12

Sequence 1:
MATH 231 Calculus and Analytic Geometry I & MATH 232 and Calculus and Analytic Geometry II
MATH 233 and Calculus and Analytic Geometry III

Sequence 2:
MATH 221 Honors Calculus I & MATH 222 Honors Calculus II
ELECENG 234 Analytical Methods in Engineering 4

Chemistry Requirement
One of the following sequences must be completed: 5-10

CHEM 105 General Chemistry for Engineering (suggested)
CHEM 102 & CHEM 104 General Chemistry and General Chemistry and Qualitative Analysis

Physics Requirement
PHYSICS 209 & PHYSICS 210 Physics I (Calculus Treatment) and Physics II (Calculus Treatment) 8

Other Natural Sciences
Select one of the following: 3
Any GEO SCI course 300 level or above
Any BIO SCI course 150 level or above
Any ATM SCI course 200 level or above

GER Distribution Requirement
Select 3 credits in Art
Select 3 credits in Humanities
Select 6 credits of Social Science
ENGLISH 310 Writing, Speaking, and Technoscience in the 21st Century 3

Cultural Diversity - One of the arts, humanities, or social science courses selected must also meet the UWM cultural diversity requirement.
Free Electives
Select 3 credits of free electives 3

English Composition Requirement
Select one of the following. 3
- Earn a satisfactory score on the English placement test; or
- Earn a grade of C or higher in ENGLISH 102; or
- Transfer a grade of C or better in a course (3 credits of more) equivalent to English 102 or higher level expository writing course

Foreign Language Requirement
Select one of the following: 0-6
- Complete two years of a single foreign language in high school
- Complete two semesters of a single foreign language in college
- Demonstrate ability by examination

1 MECHENG 110 and MECHENG 111 may substitute for IND ENG 111 and IND ENG 112 for students transferring from another engineering major.
2 Civil engineering majors may take CIV ENG 431 (with proper prerequisites) in place of MATLENG 201.
3 Placement Examinations. Once admitted to UWM, most engineering students are required to take placement examinations in mathematics, English, and chemistry. Students with previous college-level credits in these areas may not be required to take placement exams. The placement exams are administered by the UWM Testing Center, Mellencamp Hall, Room B28, (414) 229-4689. The results of these tests help students determine the appropriate course in which to register. Background prerequisite courses may be required in addition to the courses listed above.

Technical Electives
A minimum of 21 technical elective credits are required. At least 15 credits are required from Group A Technical Electives. Normally a minimum of 12 credits will be taken in an area of concentration.

Areas of Concentration
The Civil & Environmental Engineering Department offers numerous elective courses that allow students to work in one of four areas of concentration.

</table>
Students majoring in biomedical engineering, computer engineering, computer science, industrial engineering, and materials engineering must maintain an average GPA of at least 2.00 in all 300-level and above courses in the student's major department. Students majoring in civil engineering, electrical engineering, and mechanical engineering must maintain an average GPA of at least 2.50 in all 300-level and above courses in the major department. Transferable courses will be included as appropriate. Advancement to major status is required for graduation.

In order to provide maximum flexibility while preserving the institutional identity of a UWM degree, the College requires residence:

1. during the last 30 credits, or
2. during 45 of the last 60 credits, or
3. during any 90 credits of a student's undergraduate career.

At least 15 credits of advanced work in the major must be completed in residence at UWM.

A student who does not maintain continuous registration during the academic year and is re-admitted to the College must meet the program and graduation requirements in effect at the time of re-entry.

Degree and major requirements must be completed within 10 years of initial enrollment at UW-Milwaukee. Should students not complete the major within the 10-year time frame, the students will switch to the most current degree and major requirements. A new 10-year time frame would then begin.

**Dual Majors**

Students wishing to major in more than one field can do so in two ways:

1. Complete the requirements for more than one major before receiving a degree from the College. In this case, the degree will list both majors.
2. Be admitted to the College as a second degree candidate (after earning a bachelor's degree in any field), providing University and College entrance requirements are met. Such a student must meet all undergraduate degree requirements in the College and present a minimum of 30 credits beyond the previous bachelor's degree.

**Concurrent Registration at Other Institutions**

CEAS students wishing to establish concurrent enrollment at another institution must obtain prior permission from their academic advisor.

**Student Academic Appeals**

Students may appeal an academic action to the Office of Student Services. An appeal is a request for an exception to an established policy or rule. The content of each appeal is carefully reviewed in order to reach a decision. Appeals should be submitted in writing to the Office of Student Services. The appeals committee considers individual cases concerning the degree requirements and other academic rules and regulations established by the College of Engineering and Applied Science faculty.

The College of Engineering and Applied Science has established written procedures for undergraduate student academic grievances. Copies of the grievance procedure are available in the Office of Student Services. As a first step, students must discuss the grievance with the faculty member or administrator as soon as possible to attempt to resolve the issue.
but not later than 30 days after the action that prompted the grievance/appeal.

Computer Science and Engineering Programs

Detailed descriptions of the CEAS undergraduate programs are provided in this catalog. All courses are not offered every semester. A few technical elective courses may be offered only once every three to four semesters. In addition, since computer science and engineering curricula are continually evolving to keep current, students are encouraged to consult with their advisors to plan each semester’s list of classes. Part-time students should always maintain a plan that looks ahead two to three semesters to avoid scheduling difficulties.

The curricula outlined in the pages are applicable to new students entering CEAS in fall 2016 or later. Students who enrolled in computer science or engineering programs prior to that date should consult with the appropriate previous editions of this catalog for information about their program requirements. As a general rule, when program changes occur, continuing students have the choice of continuing in their existing program or following the new requirements. Occasionally, a program change will be required of all students regardless of their date of matriculation, so long as it does not increase the total credits needed for graduation.

These program descriptions represent the minimum requirements for graduation from UWM in computer science or engineering. In all cases, it is important that students consult with their advisor before making course selections to avoid errors in programming.

Academic Advising

The Office of Student Services in the College of Engineering and Applied Science, located in Room E386 of the Engineering and Mathematical Sciences Building, offers undergraduate students academic advising from professional advisors who are familiar with the curriculum, College requirements, and the special needs of engineering and computer science students. These advisors provide services such as freshman orientation, course selection, program planning, and credit transfer evaluation. Students are assigned to a permanent professional advisor as soon as they are accepted into the College, and are urged to confer with their advisor at least once each semester. Students also are assigned to a faculty advisor who provides technical expertise specific to the student’s area of study.

We understand that it can be a delicate balance managing school, work, family, and active social lives. The College of Engineering and Applied Science advisors are here to help you achieve that balance.

You will be assigned a professional academic advisor upon being admitted to the College of Engineering & Applied Science. Your advisor will work with you throughout your undergraduate experience, providing guidance on:

- course registration,
- graduation planning,
- career preparation,
- and serving as a liaison to the many other resources available on our campus.

Advisors are also a great source of information on student organizations, tutoring and scholarship opportunities.

In addition to professional academic advisors, you will also have access to faculty advisors. These advisors can provide insights into the technical aspects of the engineering and computer science curricula while mentoring you as you define your professional goals.

Program Educational Objectives

The educational objectives of the undergraduate Civil Engineering Program are:

1. Graduates apply broad-based knowledge of mathematics, science, and engineering science for solving engineering problems and creating engineering designs in the civil engineering professional field.

   This objective implies that graduates will have a solid preparation that includes the knowledge of mathematics, sciences, statistics, engineering science disciplines, and computer applications as a foundation for later studies and lifelong learning. Through a rigorous program preparation, graduates will also be well-versed in different ways of addressing engineering problems.

Objective 1

Graduates demonstrate leadership in infrastructure design by creating solutions for complex urban problems by synthesizing and implementing knowledge from multiple disciplines.

This objective implies that graduates will have the necessary breadth and depth of technical knowledge and professional training to sustain a lengthy career as a civil engineer. It also encompasses broad knowledge of four traditional fields of civil engineering such as with an in-depth specialization knowledge in one focus area, as well as proficiency in experimentation, design, professional tools, communication skills, relationships between the engineering design and legal, environmental, and societal concerns.

Objective 3

Graduates are leaders in the workplace and in professional organizations by demonstrating effective communication skills, ethical responsibility, and social awareness.

This objective relates to the non-technical aspects of professional practice. Included in professional preparation are ethics, participation in professional organizations, interactions between professionals, and integrating non-engineering factors in designs and decisions.
Objective 4
Graduates adapt to changes in the urban and global environment by exhibiting intellectual curiosity, innovating, pursuing continuous education, and embracing diverse ideas.

This objective recognizes the speed of technological change, changing professional environments, and the need to keep the program up-to-date, both in terms of the knowledge transmitted and the means by which it is transmitted.

Honors in the College of Engineering and Applied Science

Dean's Honor List
GPA of 3.500 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Joint Programs with Other Campuses

Pre-engineering
Qualified students may enroll in coordinated pre-engineering programs at UW-Green Bay, UW-Parkside, and UW-Waukesha for two years of pre-engineering coursework. These coordinated programs ensure equivalent coursework, appropriate advising, and early access to the Cooperative Education Program at UWM.

Dual Degree Programs
Qualified students may enroll in coordinated dual degree programs at Alverno College, Carroll University, UW-Eau Claire, UW-Green Bay, UW-La Crosse, UW-Oshkosh, UW-Stevens Point, UW-Whitewater and Wisconsin Lutheran College. Students in these programs will earn a bachelor’s degree at both universities in five years. Students transfer to UWM after three years at the partner university. For more information, contact the Office of Student Services at (414) 229-4667.

Joint Programs with Wisconsin Technical Colleges

Gateway Technical College
An agreement with GTC allows those students having associate degrees in the Electrical Engineering - Technology the opportunity to be given credit for courses required in the UWM bachelor of science in engineering program. For more information, contact the Office of Student Services at (414) 229-4667.

Milwaukee Area Technical College
An agreement with MATC allows joint admission and enrollment at MATC and CEAS. Qualified students may take English, mathematics, chemistry, and general education courses at MATC. The program ensures equivalent coursework and appropriate advising. Students complete a bachelor of science degree in engineering or computer science at UWM.

Waukesha County Technical College
An agreement with WCTC allows those students having associate degrees in the Industrial Occupations Division at WCTC the opportunity to be given credit for courses required in the UWM bachelor of science in engineering or bachelor of science in computer science program. For more information, contact the Office of Student Services at (414) 229-4667.

Structural Engineering, Minor
Structural engineers focus on the design and physical integrity of buildings and other large structures, assuring they are safe and stable. They frequently work with architects and contractors. In addition to new construction, they often inspect and design plans for maintenance or renovation of existing structures.

The minor in structural engineering is designed especially for students in the following majors:

• Architecture
• Mechanical Engineering
• Industrial and Manufacturing Engineering
• Materials
• Geology
• Physics

This minor is not available to civil engineering majors.

Requirements
The 19-credit minor requires the following:

More information on the minor may be obtained from the CEAS Office of Student Services (414) 229-4667, EMS Room E386.
COMPUTER ENGINEERING, BSE

The Computer Engineering major is offered through the Electrical Engineering and Computer Science departments at UWM. Computer engineering pertains to the design, implementation and maintenance of hardware and software components of computers and computer-controlled equipment.

Our program provides students with a broad and strong technical background in the field. It also helps students develop a solid grounding in computing, mathematics and engineering. Students will learn to apply these theoretical principles to design hardware, software, networks, and computerized equipment for diverse application domains.

Accreditation
The Computer Engineering program is accredited by the Computing Accreditation Commission of ABET, 415 N. Charles Street, Baltimore, MD 21201, (410) 347-7700.

New Freshmen
Admission to the College of Engineering and Applied Science is based on an overall assessment of both academic and non-academic qualifications. The primary review factors for admission are the strength and quality of the high school curriculum, high school class percentile, grade point average, and the result of the ACT or SAT. Well-prepared freshman applicants will have four years of mathematics (including one-and-a-half years of algebra, one year of geometry, and one-half year of trigonometry) and four years of natural science (including biology, chemistry, and physics). The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Freshmen applicants will be considered for admission directly to the major or to the First-Year Program. Admission directly to the major is selective.

Transfer Students
Transfer student admission is based on an overall assessment of both academic and non-academic qualifications. For transfer applicants, the primary factors considered for admission are the grade point average on transferable courses and the level of curriculum completion. The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Transfer applicants will be considered for admission directly to the major or the Transfer Transition Program based on the number of transfer credits and GPA.

Admission to the Major
Students admitted to the First-Year Program or Transfer Transition Program (Engineering-Intended or Computer Science-Intended) may apply for major status with their academic advisor at the time they believe they meet the requirements. The program may impose major status as a prerequisite for courses numbered 200 or above.

1. Complete first semester calculus with a C or better grade.
2. Complete GER Oral and Written Communication Part A.
3. Engineering majors must complete Chem 100 with a C or better grade (or satisfactory score on the placement test). Computer Science majors must complete CompSci 251 with a C or better grade.
4. Obtain a minimum grade point as set by the major department. A 3.00 GPA guarantees admission to any CEAS major.
5. Courses required by the major may be repeated only once. No more than two courses may be repeated.

First-Year students have a maximum of three semesters to complete the admission to major requirements. Part-time students may be granted an extension by their academic advisor.

Transfer Transition students have a maximum of two semesters to complete the admission to major requirements. Part-time students may be granted an extension by their academic advisor.

Placement Testing
Most new freshmen are required to take placement exams in English and mathematics. Engineering students also take a placement exam in chemistry, provided they have had previous coursework in chemistry. Students with previous college-level credits in chemistry, English, and math may not be required to take placement tests. Additional prerequisite coursework may be required as a result of these placement tests. Credit for prerequisite academic work may not count toward the degree program. Entering students are urged to take their placement exams when scheduled. All placement exams must be completed before beginning coursework in the subject area. Students who place into precalculus math courses may be asked to participate in an online summer bridge program.

Questions on admission to CEAS or choosing a major should be directed to the Office of Student Services, (414) 229-4667.

Computer Engineering Curriculum
The minimum number of credits required to complete the Bachelor of Science in Computer Engineering is 126. Students who need background preparation courses in math, English, and foreign language may need additional credits. Engineering students may apply for major status with their academic advisor at any time they believe they meet the requirements. Admission to major is a graduation requirement. Programs may impose major status as a prerequisite for courses numbered 200 or above.

**Mathematics Requirement**

Select one of the following Calculus sequences: 1

**Sequence 1:**

MATH 231 & MATH 232 & MATH 233
Calculus and Analytic Geometry I and Calculus and Analytic Geometry II and Calculus and Analytic Geometry III

**Sequence 2:**

MATH 221 & MATH 222
Honors Calculus I and Honors Calculus II

ELECENG 234
Analytical Methods in Engineering 4

**Chemistry or Biology Requirement**

Select one of the following: 1

CHEM 105
General Chemistry for Engineering

CHEM 102
General Chemistry

BIO SCI 150
Foundations of Biological Sciences I

BIO SCI 202
Anatomy and Physiology I

**Physics Requirement**

PHYSICS 209 & PHYSICS 210
Physics I (Calculus Treatment) and Physics II (Calculus Treatment) 8

**GER Distribution Requirement**

Arts 3

Humanities 3

Social Science 3

COMMUN 105
Business and Professional Communication 3

ENGLISH 310
Writing, Speaking, and Technoscience in the 21st Century 3

Cultural Diversity - Arts, Humanities, or Social Science course must also satisfy UWM Cultural Diversity Requirement

**Free Electives**

Select 0-2 credits 0-2

**English Composition Requirement**

Select one of the following: 1

- Earning a satisfactory score on the English placement test; or
- Earning a grade of C or higher in ENGLISH 102; or
- Transferring a grade of C or higher in a course equivalent to ENGLISH 102 or higher expository writing course; or

**Foreign Language Requirement**

The foreign language requirement can be completed with one of these options: 0-8

- Two years of a single foreign language in high school

Two semesters of a single foreign language in college

Demonstrate ability by examination

1 Placement Examinations. Once admitted to UWM, most engineering students are required to take placement examinations in mathematics, English, and chemistry. Students with previous college-level credits in these areas may not be required to take placement exams. The placement exams are administered by the UWM Testing Center, Mellencamp Hall, Room B28, (414) 229-4689. The results of these tests help students determine the appropriate course in which to register. Background prerequisite courses may be required in addition to the courses listed above.

**Technical Electives - 16 Credits Required**

Group A Technical Electives Select 9 to 12 credits from the following list:

All Computer Science and Electrical Engineering courses 300-699 that are not explicitly listed in another category.

**Minimum Requirements**

Students must maintain an average GPA of at least 2.00 on all work attempted at the University and in all courses offered by the College. Students majoring in biomedical engineering, computer engineering, computer science, industrial engineering, and materials engineering must maintain an average GPA of at least 2.00 in all 300-level and above courses in the student's major department. Students majoring in civil engineering, electrical engineering, and mechanical engineering must maintain an average GPA of at least 2.50 in all 300-level and above courses in the major department. Transferable courses will be included as appropriate. Advancement to major status is required for graduation.

In order to provide maximum flexibility while preserving the institutional identity of a UWM degree, the College requires residence:

1. during the last 30 credits, or
2. during 45 of the last 60 credits, or
3. during any 90 credits of a student's undergraduate career.

At least 15 credits of advanced work in the major must be completed in residence at UWM.

Degree and major requirements must be completed within 10 years of initial enrollment at UW-Milwaukee. Should students not complete the major within the 10-year time frame, the students will switch to the most current degree and major requirements. A new 10-year time frame would then begin.

**Dual Majors**

Students wishing to major in more than one field can do so in two ways:

1. Complete the requirements for more than one major before receiving a degree from the College. In this case, the degree will list both majors.
2. Be admitted to the College as a second degree candidate (after earning a bachelor's degree in any field), providing University and College entrance requirements are met. Such a student must meet all undergraduate degree requirements in the College and present a minimum of 30 credits beyond the previous bachelor's degree.

**Concurrent Registration at Other Institutions**

CEAS students wishing to establish concurrent enrollment at another institution must obtain prior permission from their academic advisor.

**Student Academic Appeals**

Students may appeal an academic action to the Office of Student Services. An appeal is a request for an exception to an established policy or rule. The content of each appeal is carefully reviewed in order to reach a decision. Appeals should be submitted in writing to the Office of Student Services. The appeals committee considers individual cases concerning the degree requirements and other academic rules and regulations established by the College of Engineering and Applied Science faculty.
The College of Engineering and Applied Science has established written procedures for undergraduate student academic grievances. Copies of the grievance procedure are available in the Office of Student Services. As a first step, students must discuss the grievance with the faculty member or administrator as soon as possible to attempt to resolve the issue, but not later than 30 days after the action that prompted the grievance/appeal.

**Computer Science and Engineering Programs**

Detailed descriptions of the CEAS undergraduate programs are provided in this catalog. All courses are not offered every semester. A few technical elective courses may be offered only once every three to four semesters. In addition, since computer science and engineering curricula are continually evolving to keep current, students are encouraged to consult with their advisors to plan each semester’s list of classes. Part-time students should always maintain a plan that looks ahead two to three semesters to avoid scheduling difficulties.

The curricula outlined in the pages are applicable to new students entering CEAS in fall 2016 or later. Students who enrolled in computer science or engineering programs prior to that date should consult with the appropriate previous editions of this catalog for information about their program requirements. As a general rule, when program changes occur, continuing students have the choice of continuing in their existing program or following the new requirements. Occasionally, a program change will be required of all students regardless of their date of matriculation, so long as it does not increase the total credits needed for graduation.

These program descriptions represent the minimum requirements for graduation from UWM in computer science or engineering. In all cases, it is important that students consult with their advisor before making course selections to avoid errors in programming.

**Academic Advising**

The Office of Student Services in the College of Engineering and Applied Science, located in Room E386 of the Engineering and Mathematical Sciences Building, offers undergraduate students academic advising from professional advisors who are familiar with the curriculum, College requirements, and the special needs of engineering and computer science students. These advisors provide services such as freshman orientation, course selection, program planning, and credit transfer evaluation. Students are assigned to a professional advisor who provides technical expertise specific to the student’s area of study.

We understand that it can be a delicate balance managing school, work, family, and active social lives. The College of Engineering and Applied Science advisors are here to help you achieve that balance.

You will be assigned a professional academic advisor upon being admitted to the College of Engineering & Applied Science. Your advisor will work with you throughout your undergraduate experience, providing guidance on:

- course registration,
- graduation planning,
- career preparation,
- and serving as a liaison to the many other resources available on our campus.

Advisors are also a great source of information on student organizations, tutoring and scholarship opportunities.

In addition to professional academic advisors, you will also have access to faculty advisors. These advisors can provide insights into the technical aspects of the engineering and computer science curricula while mentoring you as you define your professional goals.

**Program Educational Objectives**

The educational objectives of the undergraduate Computer Engineering Program are:

1. Graduates will have successful careers in computer engineering fields or will be able to successfully pursue advanced degrees.
2. Graduates will provide solutions to challenging problems in their profession by applying computer engineering theory and principles.
3. Graduates will communicate effectively, work collaboratively, and exhibit high levels of professionalism and ethical responsibility.
4. Graduates will engage in lifelong learning and professional development to adapt to rapidly changing work environments.

**Honors in the College of Engineering and Applied Science**

**Dean’s Honor List**

GPA of 3.500 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Joint Programs with Other Campuses**

**Pre-engineering**

Qualified students may enroll in coordinated pre-engineering programs at UW-Green Bay, UW-Parkside, and UW-Waukesha for two years of pre-engineering coursework. These coordinated programs ensure equivalent coursework, appropriate advising, and early access to the Cooperative Education Program at UWM.
Dual Degree Programs
Qualified students may enroll in coordinated dual degree programs at Alverno College, Carroll University, UW-Eau Claire, UW-Green Bay, UW-La Crosse, UW-Oshkosh, UW-Stevens Point, UW-Whitewater and Wisconsin Lutheran College. Students in these programs will earn a bachelor’s degree at both universities in five years. Students transfer to UWM after three years at the partner university. For more information, contact the Office of Student Services at (414) 229-4667.

Joint Programs with Wisconsin Technical Colleges
Gateway Technical College
An agreement with GTC allows those students having associate degrees in the Electrical Engineering - Technology the opportunity to be given credit for courses required in the UWM bachelor of science in engineering program. For more information, contact the Office of Student Services at (414) 229-4667.

Milwaukee Area Technical College
An agreement with MATC allows joint admission and enrollment at MATC and CEAS. Qualified students may take English, mathematics, chemistry, and general education courses at MATC. The program ensures equivalent coursework and appropriate advising. Students complete a bachelor of science degree in engineering or computer science at UWM.

Waukesha County Technical College
An agreement with WCTC allows those students having associate degrees in the Industrial Occupations Division at WCTC the opportunity to be given credit for courses required in the UWM bachelor of science in engineering or bachelor of science in computer science program. For more information, contact the Office of Student Services at (414) 229-4667.
COMPUTER SCIENCE

The discipline of computer science pertains to the study and design of computer systems, hardware and software, computing techniques, and underlying theory. Our program provides a student with a broad technical background in computer science. It is a flexible program providing breadth and permitting a student to develop strengths in selected areas within computer science, as well as in related areas such as electrical engineering, mathematics, or business, depending on a student's interests. Technical electives available in the Computer Science major span courses in a broad spectrum of areas such as Networks, Computer Security, Artificial Intelligence, and Database Systems.

Mission Statement

The Department of Electrical Engineering and Computer Science is committed to outstanding undergraduate and graduate education, distinguished research programs, and strong service to our students, professional and technical societies, and the community.

Programs

- Applied Computing, BS (p. 692)
- Applied Math and Computer Science, BS (College of Engineering and Applied Science, Department of Computer Science) (p. 694)
- Computer Science, BS (p. 696)
- Computer Science, Minor (p. 700)
- Computer Science, MS (p. 700)
- Web Development, Undergraduate Certificate (p. 702)

Applied Computing Courses

APC 300 Programming 1
3 cr. Undergraduate.
Introduction to history of computing, fundamental computer concepts and structured programming techniques.
Prerequisites: none.
Last Taught: Spring 2018, Fall 2017.
Current Offerings: http://uwm.edu/schedule

APC 310 Math for Computer Science
3 cr. Undergraduate.
Important foundational topics in computer science.
Prerequisites: none.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

APC 320 Introduction to Business
3 cr. Undergraduate.
Introduction to the major functional areas of business including the roles of accounting, finance, human resources, marketing, information systems, and operations in the organization.
Prerequisites: none.
Last Taught: Spring 2018, Fall 2017.
Current Offerings: http://uwm.edu/schedule

APC 330 Technical and Professional Communication
3 cr. Undergraduate.
Technical and professional communication skills and techniques. Practice in creating effective memos and reports, delivering technical material, delivering presentations, and developing communication within teams.
Prerequisites: none.
Last Taught: Spring 2018, Fall 2017.
Current Offerings: http://uwm.edu/schedule

APC 340 Legal and Ethical Responsibilities of the IT Professional
3 cr. Undergraduate.
Legal, regulatory, ethical and compliance issues associated with developing software and using information systems in an organization.
Prerequisites: admis to BS-APC prog; APC 320(P).
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

APC 350 Programming 2
3 cr. Undergraduate.
Continuation of fundamental computer concepts and Programming.
Prerequisites: APC 300(P); 310(P).
Current Offerings: http://uwm.edu/schedule

APC 360 Database Management 1
3 cr. Undergraduate.
Design and implementation of relational database management systems to support computer-based information systems.
Prerequisites: admis to BS-APC prog; APC 300(P); 310(P).
Current Offerings: http://uwm.edu/schedule

APC 370 System Analysis and Design
3 cr. Undergraduate.
The five phases of Systems Development Life Cycle: scope definition, problem analysis, requirements analysis, logical design and decision analysis.
Prerequisites: admis to BS-APC prog; APC 300(P); 320(P); 330(P).
Current Offerings: http://uwm.edu/schedule

APC 380 Project Management Techniques
3 cr. Undergraduate.
An introduction to project management techniques including project selection and life cycle, stakeholder/scopequality/procurement management, budget control, scheduling, risk identification.
Prerequisites: admis to BS-APC prog; APC 370(P).
Current Offerings: http://uwm.edu/schedule

APC 390 Object Oriented Programming
3 cr. Undergraduate.
An introduction to Object-Oriented Programming techniques using the Java programming language.
Prerequisites: APC 350(P)
Current Offerings: http://uwm.edu/schedule

APC 400 Applied Communication Networks
3 cr. Undergraduate.
Fundamental concepts in the design, configuration, and problem solving of computer networks.
Prerequisites: admis to BS-APC prog; APC 350(P).
Current Offerings: http://uwm.edu/schedule
APC 410 Database Management 2
3 cr. Undergraduate.
Architecture and use-cases of non-relational (NoSQL) based on four types of databases including document, Graph, Key-value, and wide column store.
Prerequisites: admis to BS-APC prog; APC 360(P).
Current Offerings: http://uwm.edu/schedule

APC 420 Computer Security 1
3 cr. Undergraduate.
Security and risk management, security engineering, identity and access management, and security operations.
Prerequisites: APC 350(P).
Current Offerings: http://uwm.edu/schedule

APC 430 Applied Data Structures and Algorithms
3 cr. Undergraduate.
Concepts and the application of data structures and algorithms.
Prerequisites: APC 390(P).
Current Offerings: http://uwm.edu/schedule

APC 440 Web Development
3 cr. Undergraduate.
Creating advanced and interactive websites web sites using technologies like HTML 5, CSS, JavaScript, Bootstrap, XML, web services, and database integration within the ASP.Net platform.
Prerequisites: APC 360(P); 400(P).
Current Offerings: http://uwm.edu/schedule

APC 450 Operating Systems Theory and Practice
3 cr. Undergraduate.
An introduction to important operating systems concepts such as processes, threads, scheduling, concurrency control and memory management.
Prerequisites: admis to BS-APC prog; APC 430(C).
Current Offerings: http://uwm.edu/schedule

APC 460 Software Engineering
3 cr. Undergraduate.
Basic software development methodologies and tools, including the waterfall, iterative, and agile approaches.
Prerequisites: APC 370(P); 390(P).
Current Offerings: http://uwm.edu/schedule

APC 470 IS Strategy and Management
3 cr. Undergraduate.
Organizational/IS strategy using a capability maturity model for topics such as budgeting, acquisition, service/change/personnel management.
Prerequisites: admis to BS-APC prog; APC 380(P); 460(C).
Current Offerings: http://uwm.edu/schedule

APC 480 Computer Security 2
3 cr. Undergraduate.
Communication and network security, security assessment and testing, software development security, and asset security.
Prerequisites: APC 360(P); 400(P); 420(P); 450(P).
Current Offerings: http://uwm.edu/schedule

APC 490 Capstone Project Preparation
1 cr. Undergraduate.
Student capstone project and creation of initial plan with specific deliverables identified.
Prerequisites: admis to BS-APC prog; APC 460(C).
Current Offerings: http://uwm.edu/schedule

APC 495 Capstone Project
3 cr. Undergraduate.
Development, management and delivery of an applied computer science project for a client, including communication of project requirements and status to a non-technical audience.
Prerequisites: admis to BS-APC prog; APC 490(P).
Current Offerings: http://uwm.edu/schedule

Computer Science Courses

COMPSCI 101 Introduction to PC Application Software
3 cr. Undergraduate.
Introduction to software applications of the personal computer, including word processing, desktop publishing, spreadsheets, and databases.
Prerequisites: none.
Course Rules: Not open to CompSci students for cr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

COMPSCI 111 Introduction to Unix
1 cr. Undergraduate.
Introduction to basic user skills for Unix operating systems. File system structure and access control. Basic user commands. Text editing. Internet utilities.
Prerequisites: none.
Last Taught: Fall 2010, Fall 2009, Spring 2009, Fall 2008.
Current Offerings: http://uwm.edu/schedule

COMPSCI 112 Introduction to the Internet and the World Wide Web
3 cr. Undergraduate.
Survey of the technologies that enable common Internet applications and their security/privacy issues. Topics include HTTP, TCP/IP, DNS, email protocols, search engines, encryption, digital signatures and malware.
Prerequisites: none.
Last Taught: Fall 2012, Fall 2011, Fall 2009, Spring 2009.
Current Offerings: http://uwm.edu/schedule

COMPSCI 113 Introduction to Web Document Production
3 cr. Undergraduate.
An introduction to the computer languages used in World Wide Web documents. Design principles; techniques for form processing and inclusion of multimedia content.
Prerequisites: none.
Last Taught: Spring 2018, Fall 2014, Fall 2013, Spring 2013.
Current Offerings: http://uwm.edu/schedule

COMPSCI 132 Introduction to Computers and Programming
3 cr. Undergraduate.
How computers work; communicating with computers; introductory programming in a high-level language; elementary problem solving.
Prerequisites: Level 30 on Math Placement Test or Math 105(C).
Current Offerings: http://uwm.edu/schedule
COMPSCI 140 Introduction to the Computer Science Laboratories
1 cr. Undergraduate.
Survey of the programming tools available in the Computer Science laboratory environment.
Prerequisites: CompSci 201(C)
Current Offerings: http://uwm.edu/schedule

COMPSCI 150 Survey of Computer Science
3 cr. Undergraduate.
A survey of computer science. Topics include data storage and manipulation, operating systems and networks, algorithms and data structures, programming languages, artificial intelligence, and computability.
Prerequisites: none.
Course Rules: Counts as repeat of CompSci 299 with similar topic.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

COMPSCI 151 Introduction to Scientific Programming in Fortran
3 cr. Undergraduate.
Design and implementation of computer programs in fortran; stress will be placed on applications to different fields of science and engineering.
Prerequisites: Math 231(C) or 226(C).
Current Offerings: http://uwm.edu/schedule

COMPSCI 160 Introduction to Computer Game Design and Programming
3 cr. Undergraduate.
An overview of computer game history; design concepts and considerations; implementation using a modern software development platform, such as GameMaker.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

COMPSCI 202 Introductory Programming Using Python
3 cr. Undergraduate.
Programming in Python. Basic control structures including recursion. Basic and library data types. Problem solving with objects. Writing classes. Basic software development skills.
Prerequisites: Counts as repeat of CompSci 290 with similar topic. Preq: Level 30 on Math Placement Test, or a grade of C or better in Math 105 or 108.
Current Offerings: http://uwm.edu/schedule

COMPSCI 240 Introduction to Engineering Programming
3 cr. Undergraduate.
Problem solving with structured programming techniques using an engineering oriented programming language, such as MATLAB, including control structures, functions, arrays and matrices.
Prerequisites: Math Placement Level 40 or Math 116(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COMPSCI 241 C Programming for Embedded Systems
3 cr. Undergraduate.
Problem solving with structured programming techniques, using the C programming language; Topics include using Arrays & Pointers; Memory Management; Unions, Structures; Files & Low Level IO; Process’s & Inter-process Communication.
Prerequisites: C or better in CompSci 240(P)
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

COMPSCI 250 Introductory Computer Programming
3 cr. Undergraduate.
Problem solving with structured programming techniques using an object-oriented programming language, including control structures, functions, arrays, vectors, and pre-defined objects.
Prerequisites: Math Placement level 30.
Current Offerings: http://uwm.edu/schedule

COMPSCI 251 Intermediate Computer Programming
3 cr. Undergraduate.
Problem solving with objects. Writing classes. Use of standard data structures. Basic software development skills including text analysis tools, debugging, and configuration management.
Prerequisites: Math Placement Level 40 or Math 116(P) or Math 211(P); C or better in CompSci 250(201)(P).
Current Offerings: http://uwm.edu/schedule

COMPSCI 290 Introductory Topics in Computer Science:
1-3 cr. Undergraduate.
Lectures on new introductory material in computer science. Variable-content course.
Prerequisites: specific courses dependent on topic.
Course Rules: May be retaken to max of 6 cr w/chg in topic.
Current Offerings: http://uwm.edu/schedule

COMPSCI 315 Introduction to Computer Organization and Assembly Language Programming
3 cr. Undergraduate.
Introduction to number systems, arithmetic and Boolean operations. Digital computer organization. A specific computer system, assembly and machine language programming.
Prerequisites: Math Placement Level 40 or Math 116(P) or Math 211(P); CompSci 250(201)(P).
Current Offerings: http://uwm.edu/schedule

COMPSCI 317 Discrete Information Structures
3 cr. Undergraduate.
Introductory discussion of logic, proof techniques, sets, functions, relations, combinatorics, probability, and graphs.
Prerequisites: Math Placement Level 40; grade of C or better in CompSci 250(P).
Current Offerings: http://uwm.edu/schedule
COMPSCI 318 Topics in Discrete Mathematics
3 cr. Undergraduate.
Number theory topics related to cryptography; discrete structures including graphs, partial orders, Latin squares and block designs; advanced counting techniques.
Prerequisites: a grade of C or better in CompSci 317(P) or Math 341(P).
Course Rules: Jointly offered with & count as repeat of Math 318.
Current Offerings: http://uwm.edu/schedule

COMPSCI 337 System Programming
3 cr. Undergraduate.
Introduction to the application programmer interface for a modern operating system. Overview of mechanisms for object oriented programming and memory management
Prerequisites: C or better in CompSci 251(P)
Current Offerings: http://uwm.edu/schedule

COMPSCI 351 Data Structures and Algorithms
3 cr. Undergraduate.
Programming in a structured, high-level, object-oriented language. Implementation of data structures and algorithms and their application.
Prerequisites: Math Placement Level 40 or Math 116(P) or 211(P); C or better in CompSci 251(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COMPSCI 361 Introduction to Software Engineering
3 cr. Undergraduate.
Introduction to core topics of software engineering including requirements analysis, object-oriented design, testing, and project management. Overview of ethical and social issues in computing.
Prerequisites: C or better in CompSci 351(P), satisfaction of GER English Composition competency req.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COMPSCI 395 Social, Professional, and Ethical Issues
3 cr. Undergraduate.
The social, professional and ethical issues that arise in the context of professional computing.
Prerequisites: soph st or cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COMPSCI 417 Introduction to the Theory of Computation
3 cr. Undergraduate/Graduate.
Introduction to formal languages, grammars and automata. Finite state automata, pushdown automatata, turing machines. Regular, context-free recursive and recursively enumerable languages. Decidability.
Prerequisites: jr st; grade of C or better in CompSci 317(P) or grade of C or better in Math 341(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COMPSCI 422 Introduction to Artificial Intelligence
3 cr. Undergraduate/Graduate.
Introduction to core techniques and broad survey of AI. Topics include: Lisp, heuristic search, knowledge representation, planning, vision, learning.
Prerequisites: jr st; C or better in CompSci 317(217)(P); & CompSci351(252)(P).
Current Offerings: http://uwm.edu/schedule

COMPSCI 423 Introduction to Natural Language Processing
3 cr. Undergraduate/Graduate.
Introduction to natural language processing programs and an overview of the field. Topics include syntactic frameworks, parsing, semantics, interpretation, and applications.
Prerequisites: jr st; C or better in CompSci 351(P).
Last Taught: Fall 2017, Fall 2015, Fall 2013, Spring 2012.
Current Offerings: http://uwm.edu/schedule

COMPSCI 425 Introduction to Data Mining
3 cr. Undergraduate/Graduate.
Algorithms for uncovering useful information from data. Topics include data exploration, association rules, clustering, supervised learning, and mining structured data (e.g., sequences or graphs)
Prerequisites: jr st; CompSci 251(P), Math 221(P) or Math 232(P)
Course Rules: Counts as repeat of CompSci 657 with same topic.
Current Offerings: http://uwm.edu/schedule

COMPSCI 431 Programming Languages Concepts
3 cr. Undergraduate/Graduate.
Examination of abstract features of languages. Study of syntactic and semantic models; design and programming in procedural, object-oriented, functional and logical languages. Implementation methods.
Prerequisites: jr st; grade of C or better in CompSci 351(252)(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COMPSCI 444 Introduction to Text Retrieval and Its Applications in Biomedicine
3 cr. Undergraduate/Graduate.
Introduction to text retrieval, text classification and their biomedical applications; topics include: indexing, query processing, and document retrieval methods.
Prerequisites: jr st; CompSci 351(P) or HCA 442(P).
Course Rules: Jointly offered with & counts as repeat of HCA 444, CompSci 744, & HCA 744.
Last Taught: Spring 2015, Spring 2013, Fall 2010, Fall 2007.
Current Offerings: http://uwm.edu/schedule

COMPSCI 458 Computer Architecture
3 cr. Undergraduate/Graduate.
Processor organization and design; memory organization; microprogramming and control unit design; I-O organization; case studies of selected machine architectures.
Prerequisites: jr st; ElecEng 354(P), C or better in CompSci 315(P) or ElecEng 367(P).
Course Rules: Jointly offered with & counts as repeat of ElecEng 458.
Current Offerings: http://uwm.edu/schedule
**COMPSCI 459 Fundamentals of Computer Graphics**  
3 cr. Undergraduate/Graduate.  
Scan-line algorithms, object representation, homogeneous coordinates, geometric transformations, viewing curves, illumination models, interactive input methods, texture mapping.  
**Prerequisites:** jr st; Math 232(P); CompSci 251(P).  
**Last Taught:** Fall 2017, Fall 2016, Fall 2015, Fall 2014.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**COMPSCI 469 Introduction to Computer Security**  
3 cr. Undergraduate/Graduate.  
Privacy and authenticity of data and programs, communication, operating systems, network and database security, computer viruses, cryptography, private and public key cryptosystems, protocols.  
**Prerequisites:** jr st; C or better in both CompSci 317(217)(P) & 251(P).  
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**COMPSCI 481 Server-side Internet Programming**  
3 cr. Undergraduate/Graduate.  
Introduces students to the concept of server-side programming and web applications development. Topics include dynamic web site development, session management, security, and relational databases.  
**Prerequisites:** jr st; one of CompSci 113 (P), InfoSt 320 (P), or Art 324 (P); C or better in CompSci 202(P) or CompSt 702(P)  
**Last Taught:** Spring 2018, Fall 2016, Fall 2015, Fall 2014.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**COMPSCI 482 Rich Internet Applications**  
3 cr. Undergraduate/Graduate.  
**Prerequisites:** jr st; CompSci 361(P) or 481(P).  
**Last Taught:** Spring 2017, Spring 2016, Spring 2015, Spring 2014.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**COMPSCI 511 Symbolic Logic**  
3 cr. Undergraduate/Graduate.  
First-order predicate calculus; formal properties of theoretical systems; chief results of modern mathematical logic; advanced topics such as completeness and computability.  
**Prerequisites:** jr st & either Philos 212(P) or 6 cr Math at the 300-level or above, or grad st.  
**Course Rules:** CompSci 511, Math 511, & Philos 511 are jointly offered & count as repeat of each other.  
**Last Taught:** Spring 2017, Fall 2015, Fall 1989, Fall 1988.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**COMPSCI 520 Computer Networks**  
3 cr. Undergraduate/Graduate.  
Layered network architecture, protocols, data transmission, local area networks, multiplexing and switching, routing flow and congestion control, internetworking, wireless networking, network reliability and security.  
**Prerequisites:** jr st; CompSci 315(215)(P) or CompSci 458(P) or ElecEng 367(P).  
**Last Taught:** Spring 2018, Fall 2017, Summer 2017, Spring 2017.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**COMPSCI 522 Computer Game Design**  
3 cr. Undergraduate/Graduate.  
Design of rules, environments, rewards, and punishments, Game metrics, including artificial intelligence in games, Puzzle generation, Automatic design, Humanness test, Influence maps, Diversity, Unpredictability.  
**Prerequisites:** jr st; grade of C or better in CompSci 317(P).  
**Course Rules:** Counts as repeat of CompSci 657 with similar topic.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**COMPSCI 530 Computer Networks Laboratory**  
3 cr. Undergraduate/Graduate.  
**Prerequisites:** jr st; CompSci 520(P).  
**Last Taught:** Spring 2017, Spring 2016, Fall 2015, Spring 2015.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**COMPSCI 535 Algorithm Design and Analysis**  
3 cr. Undergraduate/Graduate.  
Introduction to abstract data structures, analysis of time and space requirements of numerical and non-numerical algorithms methods for data manipulation.  
**Prerequisites:** jr st; Math 211(P), 213(P), 221(P) or 231(P); C or better in both CompSci 317(P) & 351(P).  
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**COMPSCI 536 Software Engineering**  
3 cr. Undergraduate/Graduate.  
Software engineering, the software life cycle, qualities of software; design, specification and verification of software, programming environments and tools, object oriented programming.  
**Prerequisites:** jr st; grade of C or better in CompSci 251(P).  
**Last Taught:** Spring 2012, Fall 2011, Summer 2011, Spring 2011.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**COMPSCI 537 Introduction to Operating Systems**  
3 cr. Undergraduate/Graduate.  
Process management including process creation, switching, multithreading, scheduling, communication and concurrency control; memory management including paging, segmentation and virtual memory; systems programming.  
**Prerequisites:** jr st; CompSci 458(C) or ElecEng 458(C); CompSci 337(P).  
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**COMPSCI 545 FPGA Embedded CPUs & Firmware Development**  
3 cr. Undergraduate/Graduate.  
Use of modern embedded system central processor units (CPUs) with integrated field-programmable gate arrays (FPGAs). Design and implementation of firmware for these devices.  
**Prerequisites:** jr st; ElecEng 367(P) & 457(P).  
**Course Rules:** Jointly offered with & counts as repeat of ElecEng 545.  
**Last Taught:** Fall 2014.  
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)
COMPSCI 547 User-Centered Interaction Design
3 cr. Undergraduate/Graduate.
Introduction of human-computer interaction theories and design processes. Emphasis is on applied user experience (UX) design.
Prerequisites: sr st.
Course Rules: Jointly offered with & counts as repeat of InfoSt 547.
Current Offerings: http://uwm.edu/schedule

COMPSCI 552 Advanced Object-Oriented Programming
3 cr. Undergraduate/Graduate.
An advanced course in object-oriented programming. Abstraction; single and multiple inheritance; dynamic binding of functions; polymorphic types and operators; survey of object-oriented techniques.
Prerequisites: jr st; CompSci 351(P) & 361(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COMPSCI 557 Introduction to Database Systems
3 cr. Undergraduate/Graduate.
Prerequisites: jr st; CompSci 315(215)(P) & 251(P) or equiv.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COMPSCI 581 Web Languages and Standards
3 cr. Undergraduate.
Introduction to languages and standards for Web applications, including markup, schema, style, transformation, and metadata languages. Document programming interfaces. Emphasis on programming language principles.
Prerequisites: jr st; CompSci 431(P) & 417(R).
Current Offerings: http://uwm.edu/schedule

COMPSCI 595 Capstone Project
4 cr. Undergraduate.
Students will integrate their knowledge of the undergraduate computer science curriculum by implementing a significant computer science team project.
Prerequisites: sr st, CompSci 351 (P), CompSci 361 (P), and credit in at least 6 credits of 400 or higher CompSci courses.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COMPSCI 599 Senior Thesis
3 cr. Undergraduate.
Independent scholarly research in Computer Science supervised by a faculty member.
Prerequisites: sr st & cons instr.
Last Taught: Spring 2018, Summer 2014.
Current Offerings: http://uwm.edu/schedule

COMPSCI 654 Introduction to Compilers
3 cr. Undergraduate.
Fundamentals of compiler construction for modern programming languages. Syntax analysis, table organization, storage administration, semantic routines and code generation
Prerequisites: jr st; CompSci 431(P), 655(C).
Current Offerings: http://uwm.edu/schedule

COMPSCI 655 Compiler Implementation Laboratory
3 cr. Undergraduate/Graduate.
Implementation of compiler phases: scanner, parser, semantic analysis; code generation and optimization.
Prerequisites: Prereq. jr st, CompSci 431(P); 654(C) or 754(C).
Current Offerings: http://uwm.edu/schedule

COMPSCI 657 Topics in Computer Science:
1-4 cr. Undergraduate/Graduate.
Lectures on recent advances in computer science. Specific credits and any additional prerequisites will be announced in Schedule of Classes whenever course is offered.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COMPSCI 658 Topics in Applied Computing:
1-4 cr. Undergraduate.
Lectures on recent advances in applied computing. Specific credits and any additional prerequisites will be announced in Schedule of Classes whenever course is offered.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

COMPSCI 699 Independent Study
1-3 cr. Undergraduate/Graduate.
Prerequisites: jr st; cons instr.
Course Rules: May be retaken to max of 6 cr by undergraduates.
Current Offerings: http://uwm.edu/schedule

COMPSCI 700 CEAS Graduate Seminar
1-3 cr. Graduate.
Seminar in professional ethics, oral and written communication, contemporary social issues, career development, time management, and laboratory safety.
Prerequisites: grad st
Course Rules: Civ Eng 700, CompSci 700, ElecEng 700, Ind Eng 700, MatlEng 700 & MechEng 700 are jointly offered and count as repeats of one another
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COMPSCI 704 Analysis of Algorithms
3 cr. Graduate.
Introduction to concrete complexity theory and efficient algorithms. Fast data structure and graph algorithms, matrix multiplication, algebraic and numeric algorithms, reducibilities and np-completeness. Exponential and non-elementary lower bounds.
Prerequisites: grad st; CompSci 217(P) & 535(P).
Last Taught: Fall 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule
COMPSCI 708 Scientific Computing
3 cr. Graduate.
Fundamental algorithms and practical issues of scientific computing, including Monte Carlo simulations, data fitting, fast Fourier transform, optimization, numerical integration & differentiation, parallel computing, selected biomedical applications.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

COMPSCI 710 Artificial Intelligence
3 cr. Graduate.
AI programming, search techniques game playing, knowledge representation, knowledge acquisition, expert systems, selected topics from learning. Natural language understanding, vision and robotics.
Prerequisites: grad st; CompSci 252(P) & 535(P).
Course Rules: Not open to students who have cr in ElecEng 710, which is identical to CompSci 710.
Last Taught: Spring 2018, Spring 2016, Fall 2014, Fall 2012.
Current Offerings: http://uwm.edu/schedule

COMPSCI 711 Introduction to Machine Learning
3 cr. Graduate.
Introduction to machine learning techniques and applications, including optimal classification, regression, support vector machines, boosting, deep learning, and clustering.
Prerequisites: grad st
Course Rules: ElecEng 711 & CompSci 711 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Spring 2016, Fall 2013, Spring 2011.
Current Offerings: http://uwm.edu/schedule

COMPSCI 712 Image Processing
3 cr. Graduate.
This course covers the materials required to process and enhance photographic images, remote sensor multispatial scanner data and others. Topics include transform techniques, recorders, discriminate function, and associated hardware.
Prerequisites: grad st
Course Rules: ElecEng 410(P) or cons instr.
Course Rules: Jointly offered w/ and counts as a repeat of ElecEng 713.
Last Taught: Fall 2005.
Current Offerings: http://uwm.edu/schedule

COMPSCI 713 Computer Vision
3 cr. Graduate.
Fundamental issues and current research in computer vision. Topics in early or low-level vision, intermediate vision or perceptual organization, and high-level vision or object recognition.
Prerequisites: grad st; ElecEng 410(P) or cons instr.
Course Rules: Jointly offered w/ and counts as a repeat of ElecEng 713.
Last Taught: Fall 2005.
Current Offerings: http://uwm.edu/schedule

COMPSCI 714 Computational Geometry
3 cr. Graduate.
Special data structures and algorithmic techniques for representing and manipulating geometric objects, such as points, lines and polygons. Applications to vlsi design and robotics.
Prerequisites: grad st; CompSci 535(P).
Current Offerings: http://uwm.edu/schedule

COMPSCI 718 Advanced Computer Graphics: Modeling and Animation
3 cr. Graduate.
Advanced graphics topics on mesh processing, illumination models, ray-tracing, and volumetric data visualization; popular animation approaches such as keyframes, particles, fluids and rigid bodies.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

COMPSCI 720 Computational Models of Decision Making
3 cr. Graduate.
Theoretical foundations and practical problems of formulating and constructing computational models of decision making.
Prerequisites: basic course in Probability or Statistics.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

COMPSCI 722 Artificial Intelligence Planning Techniques
3 cr. Graduate.
Algorithms and representations for classical and more expressive planning, search control techniques, study and comparison of a variety of planners, applications of planning.
Prerequisites: grad st; Comp Sci 535(P).
Current Offerings: http://uwm.edu/schedule

COMPSCI 723 Natural Language Processing
3 cr. Graduate.
Principles and problems of natural language processing with emphasis on recent advances and open problems. Topics: lexicons, parsing, interpretation, discourse structure, generation, and collaborative interfaces.
Prerequisites: grad st; CompSci 422(P) or 710(P).
Course Rules: Not open to students with cr in CompSci 423.
Last Taught: Fall 2017, Fall 2015, Fall 2013, Spring 2012.
Current Offerings: http://uwm.edu/schedule

COMPSCI 724 Distributed Algorithms
3 cr. Graduate.
Identification of canonical problems in distributed computing, design and analysis of algorithms to solve these problems. Formal proof techniques and impossibility results.
Prerequisites: grad st; CompSci 517(P), 535(P), or 523(P).
Current Offerings: http://uwm.edu/schedule

COMPSCI 725 Robot Motion Planning
3 cr. Graduate.
Configuration space, C-obstacles, sampling-based algorithms, potential fields, coverage, hierarchical motion planning, human control, relaxation, moving or deformable obstacles, multirobot motion planning, metrics, outdoor planning.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

COMPSCI 729 Real-Time Operating Systems
3 cr. Graduate.
Fundamentals of real-time operating systems with emphasis on scheduling and resource management.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule
COMPSCI 730 Advanced Computer Networks
3 cr. Graduate.
Network architecture, protocols, routing, congestion control, traffic management, ATM, optical networks, TCP/IP, LANs, WANs, QOS, wireless and mobile networks, mobility management, security, multimedia, network management.
Prerequisites: CompSci 520 (P).
Last Taught: Fall 2014, Fall 2010, Fall 2009, Fall 2008.
Current Offerings: http://uwm.edu/schedule

COMPSCI 732 Type Systems for Programming Languages
3 cr. Graduate.
Lambda calculus, simple types, record types, subtypes, polymorphic types, type reconstruction, universal types, bounded quantification, higher-order types.
Prerequisites: grad st; CompSci 431 (P) & 654 (P).
Last Taught: Fall 2016, Spring 2015, Spring 2014, Fall 2011.
Current Offerings: http://uwm.edu/schedule

COMPSCI 737 Software Project Management
3 cr. Graduate.
Concepts and techniques for management of large software projects. Life cycle models; team organization; cost estimation and budgeting; schedule and risk management; software metrics.
Prerequisites: grad st; CompSci 361 (P) or equivalent
Current Offerings: http://uwm.edu/schedule

COMPSCI 738 Program Analysis for Software Engineering
3 cr. Graduate.
Static techniques for determining run-time properties of a program: data-flow analysis, abstract interpretation.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

COMPSCI 743 Intelligent User Interfaces
3 cr. Graduate.
Principles, methods, and current research in intelligent user interfaces including applications, architectures, knowledge representation, and evaluation.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2015, Spring 2014, Fall 2012.
Current Offerings: http://uwm.edu/schedule

COMPSCI 744 Text Retrieval and Its Applications in Biomedicine
3 cr. Graduate.
Fundamental issues and current research in text retrieval, text classification and their biomedical applications; Programming and use of indexing, query processing, and document retrieval methods.
Prerequisites: grad st; COMPSCI 351 (P) or HCA 442 (P)
Course Rules: Not open to students who have cr in HCA 744, COMPSCI 444, or HCA 444.
Last Taught: Spring 2015, Spring 2013, Fall 2010, Fall 2007.
Current Offerings: http://uwm.edu/schedule

COMPSCI 747 Principles & Practices of User Interface Design
3 cr. Graduate.
Principles and practices of user interface design for desktop, web, and mobile applications: interaction principles; UI design elements; user-centered design process and practices.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

COMPSCI 754 Compiler Construction and Theory
3 cr. Graduate.
Fundamentals of compiler construction for modern programming languages. Syntax analysis, table organization, storage administration, semantic routines and code generation.
Prerequisites: grad st.
Course Rules: Not open to those who have cr in CompSci 654.
Current Offerings: http://uwm.edu/schedule

COMPSCI 755 Information and Coding Theory
3 cr. Graduate.
Information measures, entropy, source coding, channon's theorems, channel capacity, error correcting codes, linear codes, convolutional codes, arithmetic codes, encoding and decoding algorithms.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

COMPSCI 757 Data Base Organization and File Structure
3 cr. Graduate.
Introduction to automatic information organization and retrieval. Dictionary construction and operation, statistical and syntactic operations, performance evaluation of retrieval systems, design of query languages, models of database systems, database security.
Prerequisites: grad st; CompSci 217 (P) & 535 (P).
Current Offerings: http://uwm.edu/schedule

COMPSCI 758 Advanced Computer Architecture
3 cr. Graduate.
Advanced topics in computer architecture including pipeline processing, multiple and parallel processing systems, performance enhancement issues and VLSI computing structures.
Prerequisites: grad st; CompSci 458 (NP) or ElecEng 458 (NP).
Course Rules: Not open to students who have cr in ElecEng 758, which is identical to CompSci 758.
Current Offerings: http://uwm.edu/schedule

COMPSCI 759 Data Security
3 cr. Graduate.
Protection of data in computer and communication systems, cryptography, classical one key and public key cryptosystems, database protection, operating system security.
Prerequisites: grad st; CompSci 217 (P) & 536 (P).
Current Offerings: http://uwm.edu/schedule
COMPSCI 760 Computer Systems Performance Evaluation
3 cr. Graduate.
Performance measurement and tools, workload characterization, markov models, queueing theory, simulation, benchmarks, data analysis, parallel systems performance analysis.
Prerequisites: grad st; CompSci 458(P) or ElecEng 458(P).
Course Rules: Not open to students who have cr in ElecEng 760, which is the same as CompSci 760.
Last Taught: Fall 2017, Fall 2016, Fall 2014, Spring 2013.
Current Offerings: http://uwm.edu/schedule

COMPSCI 761 Software Testing and Verification
3 cr. Graduate.
Software testing techniques: test case generation, test oracles, regression testing, structural testing, test coverage, mutation testing, and model-based testing. Testing for object-oriented and distributed software. Security testing.
Prerequisites: grad st; CompSci 361(P) or equivalent
Current Offerings: http://uwm.edu/schedule

COMPSCI 762 Fault-Tolerant Computing
3 cr. Graduate.
Faults in digital circuits, fault detection, fault location, system reconfiguration or repair, system recovery, design for testability, self-checking circuits, fault-tolerant interconnection networks, systems level fault-diagnosis, fault-tolerant software.
Prerequisites: grad st; ElecEng 354(P).
Course Rules: Not open to students with cr for ElecEng 762.
Current Offerings: http://uwm.edu/schedule

COMPSCI 780 Multimedia Systems
3 cr. Graduate.
Survey of principles and applications of multimedia computer systems. Media fundamentals. Networking, architecture, software engineering, and user interface issues.
Prerequisites: CompSci 537(P).
Current Offerings: http://uwm.edu/schedule

COMPSCI 790 Advanced Topics in Computer Science
3 cr. Graduate.
Discussion of special advanced topics in theoretical as well as applied areas in computer science.
Prerequisites: grad st, add'l prereqs depending on topic.
Course Rules: Retakable w/chg in topic to 9 cr max. Specific topics may be jointly-offered w/Philos.
Current Offerings: http://uwm.edu/schedule

COMPSCI 805 Randomized Algorithms; Pseudorandom Numbers
3 cr. Graduate.
Prerequisites: CompSci 704(P) CompSci 523(R).
Last Taught: Fall 2013, Fall 2010, Spring 2007, Fall 2005.
Current Offerings: http://uwm.edu/schedule

COMPSCI 810 Knowledge Representation
3 cr. Graduate.
Study of the design and properties of formalisms for representing knowledge in computational systems. Topics include: first-order logic, nonmonotonic logic, uncertainty, time, space, beliefs, plans.
Prerequisites: grad st; CompSci 710(P).
Last Taught: Fall 2014, Spring 2011.
Current Offerings: http://uwm.edu/schedule

COMPSCI 854 Advanced Compiler Techniques
3 cr. Graduate.
Details of compiler construction: syntax theory, attribute grammars, implementing advanced language features, optimization
Prerequisites: grad st; CompSci 654(P) or 754(P)
Last Taught: Fall 2015, Fall 2010.
Current Offerings: http://uwm.edu/schedule

COMPSCI 859 Advanced Cryptography and Security Protocols
3 cr. Graduate.
Elliptic curve cryptography, AES, cryptanalysis, secret sharing, zero knowledge proofs, provable security.
Prerequisites: grad st; CompSci 469(P) & CompSci 535(P), or CompSci 759(P)
Last Taught: Spring 2012, Fall 2008.
Current Offerings: http://uwm.edu/schedule

COMPSCI 870 Medical Informatics Seminar
1 cr. Graduate.
Presentations by medical informatics affiliated faculty and invited speakers. Graduate students may present their work or published research from recent medical informatics journals or conferences.
Prerequisites: grad st.
Course Rules: Meets once every two weeks for 100 minutes.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COMPSCI 880 Bioengineering Seminar
1 cr. Graduate.
Presentations by bioengineering affiliated faculty, invited speakers, and graduate students.
Prerequisites: grad st
Course Rules: MechEng 880, ElecEng 880, CompSci 880, MatlEng 880, IndEng 880 & Civ Eng 880 are jointly offered and count as repeats of one another. May be repeated to 3 cr. max.
Last Taught: Spring 2015, Fall 2012.
Current Offerings: http://uwm.edu/schedule

COMPSCI 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Last Taught: Summer 2017, Summer 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

COMPSCI 990 Masters Thesis
1-9 cr. Graduate.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule
COMPSCI 995 Master's Capstone Project
1-3 cr. Graduate.
Independent project supervised by student's adviser
Prerequisites: grad st; cons instr & grad prog comm.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

COMPSCI 998 Doctoral Thesis
1-12 cr. Graduate.
Prerequisites: grad st; cons instr & grad prog committee.
Current Offerings: http://uwm.edu/schedule

COMPSCI 999 Advanced Independent Study
1-3 cr. Graduate.
Prerequisites: grad st; cons instr & grad prog comm.
Current Offerings: http://uwm.edu/schedule

Computer Studies Courses

COMPST 701 Mathematical & Computing Fundamentals for IT Professionals
3 cr. Graduate.
Introductory discussion of logic and reasoning techniques, discrete structures, combinatorics, probability, and their applications to IT.
Prerequisites: grad st.
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

COMPST 702 Software Development in Python
3 cr. Graduate.
Programming in Python. Basic control structures including recursion. Basic and library data types. Problem solving with objects. Writing classes. Basic software development skills.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

COMPST 703 Software Engineering Principles
3 cr. Graduate.
Introduction to core topics of software engineering including requirements analysis, object-oriented design, testing, and project management. Overview of ethical and social issues in computing.
Prerequisites: CompSt 702 or equiv.
Last Taught: Summer 2017.
Current Offerings: http://uwm.edu/schedule

COMPST 705 Problem Solving with Object-Oriented Programming
3 cr. Graduate.
Problem solving with object-oriented programming language. Topics include arrays, strings, classes, standard data structures, graphical user interfaces, exceptions, files, debugging, and configuration management.
Prerequisites: Previous programming experience such as CompSt 702(P), CompSci 240(P), or CompSci 250(P).
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

COMPST 710 Data Structures and Algorithms
3 cr. Graduate.
Programming in a structured, high-level, object-oriented language. Implementation of data structures and algorithms and their application.
Prerequisites: CompSt 750(P) or CompSci 251(R).
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

COMPST 790 Advanced Topics in Computer Studies:
3-9 cr. Graduate.
Discussion of special advanced topics in the study of computing. Retakable with change in topic to 9 cr max.
Prerequisites: grad st; add'l prereqs depending on topic.
Current Offerings: http://uwm.edu/schedule

Applied Computing, BS

The B.S. in Applied Computing is a fully online 21-course, 61-credit undergraduate program.

As technology continues to expand into every field and industry, from the environment to education to politics, the market for skilled hands-on technicians grows increasingly competitive. The Bachelor of Science in Applied Computing was designed to produce graduates who can perform programming, software engineering, graphic applications, networking, and operating systems management in a variety of environments, while at the same time promoting power skills such as business communications, ethics, and project management.

The applied nature of the degree implies that graduates will have the competencies to solve real-world business problems through the application of technology. Its curriculum puts a deeper focus on fundamental computer science, software engineering, tech security issues, computing solutions for business problems, and data management. A poll of industry representatives indicates that they see a skills gap in computer and information technology related positions which the multidisciplinary focus of this degree would fill.

Accreditation
The UW Bachelor of Science in Applied Computing program is approved by the University of Wisconsin Board of Regents and approved by the Higher Learning Commission (http://www.ncahlc.org).

Admissions Process and Requirements
A successful applicant will have:

- A minimum combined grade point average of 2.0 for college credits taken;
- About 60 transferable college credits or an associate degree from an accredited university;
- Prerequisite work in college algebra;
- Completed online application for undergraduate study; and
- Transcripts sent directly from previous institutions to UWM.

Tuition, Fees, and Financial Aid
Tuition is $495 per credit or $30,195 total for 61 credits. Textbooks are purchased separately and are not included in tuition. Students who take at least six credits each term may be eligible for financial assistance.

Outcomes and Objectives

Students completing the B.S. in Applied Computing will leave the program as professionals with the following established competencies:

- Demonstrate a solid foundation in core computer science
- Demonstrate a solid foundation in software engineering practices
- Recognize and address security issues
- Implement a computing solution for a business problem
- Demonstrate effective oral and written communication skills
- Demonstrate a solid foundation in data management

APC 300 Programming 1
3 cr. Undergraduate.
Introduction to history of computing, fundamental computer concepts and structured programming techniques.
Prerequisites: none.
Last Taught: Spring 2018, Fall 2017.
Current Offerings: http://uwm.edu/schedule

APC 310 Math for Computer Science
3 cr. Undergraduate.
Important foundational topics in computer science.
Prerequisites: none.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

APC 320 Introduction to Business
3 cr. Undergraduate.
Introduction to the major functional areas of business including the roles of accounting, finance, human resources, marketing, information systems, and operations in the organization.
Prerequisites: none.
Last Taught: Spring 2018, Fall 2017.
Current Offerings: http://uwm.edu/schedule

APC 330 Technical and Professional Communication
3 cr. Undergraduate.
Technical and professional communication skills and techniques. Practice in creating effective memos and reports, developing technical material, delivering presentations, and developing communication within teams.
Prerequisites: none.
Last Taught: Spring 2018, Fall 2017.
Current Offerings: http://uwm.edu/schedule

APC 340 Legal and Ethical Responsibilities of the IT Professional
3 cr. Undergraduate.
Legal, regulatory, ethical and compliance issues associated with developing software and using information systems in an organization.
Prerequisites: admits to BS-APC prog; APC 320(P).
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

APC 350 Programming 2
3 cr. Undergraduate.
Continuation of fundamental computer concepts and Programming.
Prerequisites: APC 300(P); 310(P).
Current Offerings: http://uwm.edu/schedule

APC 360 Database Management 1
3 cr. Undergraduate.
Design and implementation of relational database management systems to support computer-based information systems.
Prerequisites: admits to BS-APC prog; APC 300(P); 310(P).
Current Offerings: http://uwm.edu/schedule

APC 370 System Analysis and Design
3 cr. Undergraduate.
The five phases of Systems Development Life Cycle: scope definition, problem analysis, requirements analysis, logical design and decision analysis.
Prerequisites: admits to BS-APC prog; APC 300(P); 320(P); 330(P).
Current Offerings: http://uwm.edu/schedule

APC 380 Project Management Techniques
3 cr. Undergraduate.
An introduction to project management techniques including project selection and life cycle, stakeholder/scopequality/procurement management, budget control, scheduling, risk identification.
Prerequisites: admits to BS-APC prog; APC 370(P).
Current Offerings: http://uwm.edu/schedule

APC 390 Object Oriented Programming
3 cr. Undergraduate.
An introduction to Object-Oriented Programming techniques using the Java programming language.
Prerequisites: APC 350(P).
Current Offerings: http://uwm.edu/schedule

APC 400 Applied Communication Networks
3 cr. Undergraduate.
Fundamental concepts in the design, configuration, and problem solving of computer networks.
Prerequisites: admits to BS-APC prog; APC 350(P).
Current Offerings: http://uwm.edu/schedule

APC 410 Database Management 2
3 cr. Undergraduate.
Architecture and use-cases of non-relational (NoSQL) based on four types of databases including document, Graph, Key-value, and wide column store.
Prerequisites: admits to BS-APC prog; APC 360(P).
Current Offerings: http://uwm.edu/schedule

APC 420 Computer Security 1
3 cr. Undergraduate.
Security and risk management, security engineering, identity and access management, and security operations.
Prerequisites: APC 350(P).
Current Offerings: http://uwm.edu/schedule

APC 430 Applied Data Structures and Algorithms
3 cr. Undergraduate.
Concepts and the application of data structures and algorithms.
Prerequisites: APC 390(P).
Current Offerings: http://uwm.edu/schedule
Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Applied Math and Computer Science, BS (College of Engineering and Applied Science, Department of Computer Science)
The Applied Mathematics and Computer Science (AMCS) program is a special degree program that blends courses from both the College of Letters & Science and the College of Engineering & Applied Science. It is a structured curriculum offering courses from both applied math and computer science so that students get the benefit of both majors without having to double major.

The job outlook for individuals with math majors is extremely favorable, as is the job outlook for computer science majors. A student with combined knowledge in both areas is likely to be in high demand on the job market.

Our program is highly technical in nature yet still retains elements of a classic liberal arts degree. Students take courses in the humanities, social sciences, and natural sciences on their way to a degree. Why? Because math and computer science are not applied in a world without humans. Regardless of the type of industry, the applications being worked on have impact and consequences for human beings. A broad world view of cultures, history, and society only leads to better decision-making in scientific careers, and strong communication skills only make our graduates even more attractive.

Requirements

Honors in the College of Engineering and Applied Science

Dean’s Honor List
GPA of 3.500 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.
Admission
As soon as students realize their interest in the AMCS degree, they should consult with an AMCS advisor either in College of Engineering and Applied Science or College of Letters and Science, who assists in planning a program. Students may be given the AMCS classification at any point in their studies; however, they are not formally admitted to the major until their junior year. Admission to the junior year of the program requires a GPA of at least 2.500 in 8 credits of mathematics courses at or above the 200 level and 6 credits of computer science courses at or above the 200 level.

Degree Requirements
For the BS (AMCS) degree, 120 credits are required, of which 80 must be taken from the College of Letters and Science. Students must satisfy the general education requirements (GER) of the University. They must complete at least 6 credits each from humanities and social sciences, 3 credits from the arts, and 6 additional credits in any of these three areas or in foreign languages. Students also must take at least 8 credits of natural sciences outside of mathematics or mathematical statistics, including at least one laboratory course from biological sciences, chemistry, or physics. A cultural diversity course must be included among the humanities and social science courses selected.

An overall GPA of 2.000 on all coursework attempted at UWM is required for this degree. In addition, students must achieve a 2.000 GPA on all coursework attempted, including transfer work. A minimum 2.000 GPA must be earned on all 300-level and above courses taken to satisfy the advanced requirements. Students satisfy the residency requirement for the degree by completing at UWM both a minimum of 15 credits of the required advanced courses and one of the following:

• The last 30 credits;
• 45 of the last 60 credits;
• Any 90 credits.

Computer Science, BS

Computer science is the study and design of computer systems, networks, software, and computing techniques. But more importantly, it is a dynamic field with a growing impact on the world today. A report on Science, Technology, Engineering and Math (STEM) from the Georgetown University Center on Education and the Workforce (http://cew.georgetown.edu/STEM) forecasts 51% of STEM occupations will be computer occupations by 2018.

Research

Honors in the Degree
Students in AMCS who meet all of the following criteria can be awarded honors in the degree upon graduation:

1. A 3.000 cumulative GPA in all UWM graded credits;
2. A 3.500 GPA over all UWM courses attempted that count toward the AMCS degree;
3. A 3.500 GPA over all upper division UWM courses counting toward the AMCS degree;
4. A grade of B+ or better in one of: MATH 599, MATH 699, COMPSCI 595, or COMPSCI 699;
5. Completion of 3 credits in Mathematical Sciences (curricular areas MATH or MTHTSTAT) or Computer Science in a course numbered 600 or higher that is different from MATH 699 and COMPSCI 699.

Accreditation
The computer science program is accredited by the Computing Accreditation Commission of ABET, 415 N. Charles Street, Baltimore, MD 21201, (410) 347-7700.

New Freshmen
Admission to the College of Engineering and Applied Science is based on an overall assessment of both academic and non-academic qualifications. The primary review factors for admission are the strength and quality of the high school curriculum, high school class percentile, grade point average, and the result of the ACT or SAT. Well-prepared freshman applicants will have four years of mathematics (including one-and-a-half years of algebra, one year of geometry, and one-half year of trigonometry) and four years of natural science (including biology, chemistry, and physics). The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Freshmen applicants will be considered for admission directly to the major or to the First-Year Program. Admission directly to the major is selective.

Transfer Students
Transfer student admission is based on an overall assessment of both academic and non-academic qualifications. For transfer applicants, the primary factors considered for admission are the grade point average on transferable courses and the level of curriculum completion. The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Transfer applicants will be considered for admission directly to the major or the Transfer Transition Program based on the number of transfer credits and GPA.

Admission to the Major
Students admitted to the First-Year Program or Transfer Transition Program (Engineering-Intended or Computer Science-Intended) may apply
for major status with their academic advisor at the time they believe they meet the requirements. The program may impose major status as a prerequisite for courses numbered 200 or above.

1. Complete first semester calculus with a C or better grade.
2. Complete GER Oral and Written Communication Part A.
3. Engineering majors must complete Chem 100 with a C or better grade (or satisfactory score on the placement test). Computer Science majors must complete CompSci 251 with a C or better grade.
4. Obtain a minimum grade point as set by the major department. A 3.00 GPA guarantees admission to any CEAS major.
5. Courses required by the major may be repeated only once. No more than two courses may be repeated.

First-Year students have a maximum of three semesters to complete the admission to major requirements. Part-time students may be granted an extension by their academic advisor.

Transfer Transition students have a maximum of two semesters to complete the admission to major requirements. Part-time students may be granted an extension by their academic advisor.

Placement Testing
Most new freshmen are required to take placement exams in English and mathematics. Engineering students also take a placement exam in chemistry, provided they have had previous coursework in chemistry. Students with previous college-level credits in math, English, and foreign language may need additional credits. Computer Science students who need background preparation courses in math, English, and mathematics. Engineering students also take a placement exam in chemistry, provided they have had previous coursework in chemistry.

The minimum number of credits required to complete the Bachelor of Science in Computer Science with a major in Computer Science is 120.

Students who need background preparation courses in math, English, and foreign language may need additional credits. Computer Science students may apply for major status with their academic advisor at any time they believe they meet the requirements. Admission to major is a graduation requirement. Programs may impose major status as a prerequisite for courses numbered 200 or above.

Minimum Requirements

Students must maintain an average GPA of at least 2.00 on all work attempted at the University and in all courses offered by the College. Students majoring in biomedical engineering, computer engineering, computer science, industrial engineering, and materials engineering must maintain an average GPA of at least 2.00 in all 300-level and above courses in the student’s major department. Students majoring in civil engineering, electrical engineering, and mechanical engineering must maintain an average GPA of at least 2.50 in all 300-level and above courses in the major department. Transferable courses will be included as appropriate. Advancement to major status is required for graduation.
In order to provide maximum flexibility while preserving the institutional identity of a UWM degree, the College requires residence:

1. during the last 30 credits, or
2. during 45 of the last 60 credits, or
3. during any 90 credits of a student's undergraduate career.

At least 15 credits of advanced work in the major must be completed in residence at UWM.

A student who does not maintain continuous registration during the academic year and is re-admitted to the College must meet the program and graduation requirements in effect at the time of re-entry.

Degree and major requirements must be completed within 10 years of initial enrollment at UW-Milwaukee. Should students not complete the major within the 10-year time frame, the students will switch to the most current degree and major requirements. A new 10-year time frame would then begin.

**Dual Majors**

Students wishing to major in more than one field can do so in two ways:

1. Complete the requirements for more than one major before receiving a degree from the College. In this case, the degree will list both majors.
2. Be admitted to the College as a second degree candidate (after earning a bachelor's degree in any field), providing University and College entrance requirements are met. Such a student must meet all undergraduate degree requirements in the College and present a minimum of 30 credits beyond the previous bachelor's degree.

**Concurrent Registration at Other Institutions**

CEAS students wishing to establish concurrent enrollment at another institution must obtain prior permission from their academic advisor.

**Student Academic Appeals**

Students may appeal an academic action to the Office of Student Services. An appeal is a request for an exception to an established policy or rule. The content of each appeal is carefully reviewed in order to reach a decision. Appeals should be submitted in writing to the Office of Student Services. The appeals committee considers individual cases concerning the degree requirements and other academic rules and regulations established by the College of Engineering and Applied Science faculty.

The College of Engineering and Applied Science has established written procedures for undergraduate student academic grievances. Copies of the grievance procedure are available in the Office of Student Services. As a first step, students must discuss the grievance with the faculty member or administrator as soon as possible to attempt to resolve the issue, but not later than 30 days after the action that prompted the grievance/appeal.

**Computer Science and Engineering Programs**

Detailed descriptions of the CEAS undergraduate programs are provided in this catalog. All courses are not offered every semester. A few technical elective courses may be offered only once every three to four semesters. In addition, since computer science and engineering curricula are continually evolving to keep current, students are encouraged to consult with their advisors to plan each semester's list of classes. Part-time students should always maintain a plan that looks ahead two to three semesters to avoid scheduling difficulties.

The curricula outlined in the pages are applicable to new students entering CEAS in fall 2016 or later. Students who enrolled in computer science or engineering programs prior to that date should consult with the appropriate previous editions of this catalog for information about their program requirements. As a general rule, when program changes occur, continuing students have the choice of continuing in their existing program or following the new requirements. Occasionally, a program change will be required of all students regardless of their date of matriculation, so long as it does not increase the total credits needed for graduation.

These program descriptions represent the minimum requirements for graduation from UWM in computer science or engineering. In all cases, it is important that students consult with their advisor before making course selections to avoid errors in programming.

**Academic Advising**

The Office of Student Services in the College of Engineering and Applied Science, located in Room E386 of the Engineering and Mathematical Sciences Building, offers undergraduate students academic advising from professional advisors who are familiar with the curriculum, College requirements, and the special needs of engineering and computer science students. These advisors provide services such as freshman orientation, course selection, program planning, and credit transfer evaluation.

Students are assigned to a permanent professional advisor as soon as they are accepted into the College, and are urged to confer with their advisor at least once each semester. Students also are assigned to a faculty advisor who provides technical expertise specific to the student’s area of study.

We understand that it can be a delicate balance managing school, work, family, and active social lives. The College of Engineering and Applied Science advisors are here to help you achieve that balance.

You will be assigned a professional academic advisor upon being admitted to the College of Engineering & Applied Science. Your advisor will work with you throughout your undergraduate experience, providing guidance on:

- course registration,
- graduation planning,
- career preparation,
- and serving as a liaison to the many other resources available on our campus.

Advisors are also a great source of information on student organizations, tutoring and scholarship opportunities.

In addition to professional academic advisors, you will also have access to faculty advisors. These advisors can provide insights into the technical aspects of the engineering and computer science curricula while mentoring you as you define your professional goals.
Program Educational Objectives
The educational objectives of the undergraduate Computer Science Program are:

1. Alumini of the program will have successful careers built on their understanding of formal and applied methods of solving problems using computer theory, hardware, and software.
2. In their professional lives, alumini of the program will demonstrate problem-solving and design skills, including the ability to formulate problems and their solutions, think creatively, communicate effectively, and work collaboratively.
3. Alumini of the program will exercise professional responsibility and be able to adapt to an ever-changing professional environment.

Honors in the College of Engineering and Applied Science

Dean's Honor List
GPA of 3.500 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Joint Programs with Other Campuses

Pre-engineering
Qualified students may enroll in coordinated pre-engineering programs at UW-Green Bay, UW-Parkside, and UW-Waukesha for two years of pre-engineering coursework. These coordinated programs ensure equivalent coursework, appropriate advising, and early access to the Cooperative Education Program at UWM.

Dual Degree Programs
Qualified students may enroll in coordinated dual degree programs at Alverno College, Carroll University, UW-Eau Claire, UW-Green Bay, UW-La Crosse, UW-Oshkosh, UW-Stevens Point, UW-Whitewater and Wisconsin Lutheran College. Students in these programs will earn a bachelor’s degree at both universities in five years. Students transfer to UWM after three years at the partner university. For more information, contact the Office of Student Services at (414) 229-4667.

Joint Programs with Wisconsin Technical Colleges

Gateway Technical College
An agreement with GTC allows those students having associate degrees in the Electrical Engineering - Technology the opportunity to be given credit for courses required in the UWM bachelor of science in engineering program. For more information, contact the Office of Student Services at (414) 229-4667.

Milwaukee Area Technical College
An agreement with MATC allows joint admission and enrollment at MATC and CEAS. Qualified students may take English, mathematics, chemistry, and general education courses at MATC. The program ensures equivalent coursework and appropriate advising. Students complete a bachelor of science degree in engineering or computer science at UWM.

Waukesha County Technical College
An agreement with WCTC allows those students having associate degrees in the Industrial Occupations Division at WCTC the opportunity to be given credit for courses required in the UWM bachelor of science in engineering or bachelor of science in computer science program. For more information, contact the Office of Student Services at (414) 229-4667.

Computer Science, Minor
The computer science minor is directed toward those students wishing to develop some strength and background in computer science. This minor also is available to those who have already graduated.

Requirements
- The minor requires 18 credits selected from Computer Science courses.
- Minimum of 9 credits from 300-level coursework or higher. May not include COMPSCI 395 and prior consent is required to include COMPSCI 657 or COMPSCI 658.
- Minimum of 12 credits of minor coursework must be completed at UWM.
- The student must obtain a minimum GPA, as specified by the department, in the courses used to complete the minor.
- If a bachelor’s degree was obtained at another institution, upon completion of the minor requirements the student will be awarded a Certificate of Minor.

Computer Science, MS
The MS in Computer Science program is a rigorous graduate program designed to meet the needs of any student wishing to gain advanced understanding of the principles and practices needed to harness the power of computing to help society and the world. The program can be a stepping stone on the way to further studies and the pursuit of advanced research, such as can be obtained by pursuing the PhD. Or the program can provide a pathway to professional advancement through greater technical knowledge and intellectual maturity.

Tracks
The Master of Science in Computer Science (MSCS) degree offers a regular track and a professional track. The regular track is designed to
prepare students for PhD research in Computer Science. The professional track is designed to prepare students, possibly with undergraduate majors other than computer science, for success in their industrial careers. Students in the professional track are not eligible for financial aid from Computer Science department.

- MSCS Regular Track
- The Professional Track

### Requirements

#### Admission Requirements

#### Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

#### Credits and Courses

**MSCS Regular Track**

An applicant must meet Graduate School requirements to be considered for admission. Additionally, the applicants must meet either of the following program requirements:

- Undergraduate major in Computer Science.
- Satisfactory completion of two programming courses (such as COMPSCI 250 and COMPSCI 251); at least 6 additional credits of coursework in CS; and one course in calculus (such as MATH 211 or MATH 231).

Applicants without sufficient Computer Science background are encouraged to apply to the professional track. Applicants not admitted to the regular track may be offered admission to the professional track instead. Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

The student must have taken six Computer Science courses (specified below) or their equivalents prior to completion of the M.S. Program. Appropriate courses taken by a student in another program that are considered equivalent to the courses below can be used to satisfy this requirement with the approval of the Department. The six courses are:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMPSCI 315</td>
<td>Introduction to Computer Organization and Assembly Language Programming</td>
<td>3</td>
</tr>
<tr>
<td>COMPSCI 317</td>
<td>Discrete Information Structures</td>
<td>3</td>
</tr>
<tr>
<td>COMPSCI 351</td>
<td>Data Structures and Algorithms</td>
<td>3</td>
</tr>
<tr>
<td>COMPSCI 458</td>
<td>Computer Architecture</td>
<td>3</td>
</tr>
<tr>
<td>COMPSCI 535</td>
<td>Algorithm Design and Analysis</td>
<td>3</td>
</tr>
<tr>
<td>COMPSCI 537</td>
<td>Introduction to Operating Systems</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits 18

At most six credits of the courses used to satisfy this requirement (excluding COMPSCI 315, COMPSCI 317 and COMPSCI 351) and taken as a graduate student may be used in either option of the program. All students must submit an approved Undergraduate Requirements Assessment (which explains how the requirement will be met) prior to registering for any courses.

The students in the regular track must write a thesis or complete a capstone project.

#### Thesis Option

The minimum credit requirement is 30, comprising:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMPSCI 700</td>
<td>CEAS Graduate Seminar</td>
<td>3</td>
</tr>
<tr>
<td>COMPSCI 704</td>
<td>Analysis of Algorithms</td>
<td>3</td>
</tr>
<tr>
<td>Select 12 additional credits of 700 or higher level courses, including the following:</td>
<td>12</td>
<td></td>
</tr>
<tr>
<td>Select 6 credits of additional courses that carry graduate credit</td>
<td>6</td>
<td></td>
</tr>
<tr>
<td>COMPSCI 990</td>
<td>Masters Thesis</td>
<td>6</td>
</tr>
</tbody>
</table>

Total Credits 30

1 Excluding COMPSCI 990.

All courses must be approved in the Program of Study. The student must not register for more than 4 credits of COMPSCI 990 in any one semester. The student must write an acceptable thesis under the supervision of a faculty advisor and pass a final comprehensive examination, which will normally focus on the thesis. Once a student begins a thesis under the supervision of an advisor, the graduate program director must approve any change to a new thesis advisor.

#### Capstone Option

The minimum credit requirement is 31, comprising:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMPSCI 700</td>
<td>CEAS Graduate Seminar</td>
<td>1</td>
</tr>
<tr>
<td>COMPSCI 704</td>
<td>Analysis of Algorithms</td>
<td>3</td>
</tr>
<tr>
<td>COMPSCI 995</td>
<td>Master’s Capstone Project</td>
<td>3</td>
</tr>
<tr>
<td>Select 15 additional credits of 700 or higher level courses</td>
<td>15</td>
<td></td>
</tr>
<tr>
<td>Select 9 credits of additional courses that carry graduate credit</td>
<td>9</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 31

The student must complete a capstone project under the supervision of a faculty advisor and pass COMPSCI 995 with a grade of B or better.

#### Capstone Requirement

The student must demonstrate the ability to integrate the knowledge of the discipline in one of the following ways:

- A capstone project completed under faculty supervision by completing the 3-credit COMPSCI 995 course with a B or better grade. These credits can be applied towards the requirement regarding 700-level CompSci courses.
- An oral exam based on a prior open-source or professional project completed by the student. The student must ensure that faculty can review the actual implementation of the project.

#### The Professional Track

An applicant must meet Graduate School requirements to be considered for admission. We expect that students admitted to the professional track will have knowledge of computer programming to the extent of COMPSCI 250 and COMPSCI 251. Applicants can demonstrate this knowledge via academic coursework or online courses. Applicants can also explain in their Statement of Purpose if they gained this knowledge via work experience. All admitted students must take a placement test.
on their knowledge of computer programming. The students may be required to additionally take COMPSCI 250 and COMPSCI 251 based on their performance in this test.

The student must demonstrate knowledge equivalent to the following four Computer Science courses prior to completion of the M.S. Program:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMPSCI 317</td>
<td>Discrete Information Structures</td>
<td>3</td>
</tr>
<tr>
<td>COMPSCI 351</td>
<td>Data Structures and Algorithms</td>
<td>3</td>
</tr>
<tr>
<td>COMPSCI 535</td>
<td>Algorithm Design and Analysis</td>
<td>3</td>
</tr>
<tr>
<td>COMPSCI 537</td>
<td>Introduction to Operating Systems</td>
<td>3</td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>12</td>
</tr>
</tbody>
</table>

This requirement can be met in one of the following ways:

- A grade B or better in these courses or equivalent CompSt courses.
- Passing the sufficiency exams offered by the course instructors.
- Prior academic coursework approved by the academic advisor.

The credits earned while taking these courses as a graduate student may be used to meet the credit requirements of the program. All students must submit an approved Undergraduate Requirements Assessment (which explains how the requirement will be met) prior to registering for any courses.

The minimum credit requirement is 31 graduate credits, comprising:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMPSCI 700</td>
<td>CEAS Graduate Seminar</td>
<td>1</td>
</tr>
<tr>
<td>Select at least 15 credits of 700-level CompSci courses</td>
<td>15</td>
<td></td>
</tr>
<tr>
<td>Select up to 9 graduate credits of courses from a pre-approved list of non-CompSci courses considered useful for professionals in CompSci-related industries</td>
<td>9</td>
<td></td>
</tr>
<tr>
<td>Select the remaining credits from graduate-level or U/G-level CompSci courses</td>
<td>6</td>
<td></td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>31</td>
</tr>
</tbody>
</table>

1 These 15 credits may include COMPSCI 995, which is required for those students who fulfill the Capstone Requirement by completing a capstone project.

Up to 12 credits of prior graduate-level course work (including up to 6 credits of prior graduate-level Computer Science courses) can be used to meet the credit requirements. All courses must be approved in the Program of Study. Any non-CompSci courses must be approved prior to registering.

**Industrial Internship**
With faculty advisor's approval, one credit per semester of COMPSCI 990 or COMPSCI 995 may be satisfied with a supervised industrial internship for a maximum of two credits.

**Program Requirements**

**Major Professor as Advisor**
The student is assigned an initial faculty advisor at the time of admission. The student selects a faculty member as a thesis or capstone advisor, respectively, as they follow the regular or professional track, after consultation with that faculty member. Any change in faculty advisor requires the documented permission of the new faculty member and the Department. An initial Program of Study with student, advisor and Department approval should be completed prior to the completion of 9 credits in the program. The final Program of Study must be approved by the thesis or capstone advisor, as appropriate.

**Switching between Tracks**
A student in the regular track may switch to the professional track at any time. However, such a student will no longer be eligible for research/teaching/project assistantships or any other financial aid from Computer Science department. A student admitted under the professional track may switch to the regular track after completing at least 15 credits of the professional track with at least 3.5 cumulative GPA. Note that not all courses acceptable under the professional track may be acceptable under the regular track.

**Financial Aid**
Students enrolled in the professional track are not eligible for financial aid from Computer Science department including research assistantships, teaching assistantships, project assistantships, fellowships and/or tuition waivers. However, such students are still eligible for financial aid available elsewhere on the campus.

**Time Limit**
All students must complete the degree requirements within five years of initial enrollment.

**Web Development, Undergraduate Certificate**
The Web Development Certificate is designed to offer students the opportunity to complement their major field of study with an additional concentration in web programming. This certificate is also available to those who have already graduated.

**Requirements**
At least 8 credits must be completed at UWM. The student must maintain a minimum GPA, as specified by department, in courses used to complete the certificate. No course may be taken on a credit/no credit basis.

The 18-credit certificate requires the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMPSCI 202</td>
<td>Introductory Programming Using Python</td>
<td>3</td>
</tr>
<tr>
<td>COMPSCI 351</td>
<td>Data Structures and Algorithms</td>
<td>3</td>
</tr>
<tr>
<td>Web Documents (3 credits) - Select one of the following:</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>ART 325</td>

ELECTRICAL ENGINEERING

Electrical engineers are at the forefront of developing technologies to improve and enhance our society. They are involved with understanding the fundamentals of nature to improve design methods and techniques, as well as applying their creativity to solving challenging problems. Electrical engineers design and analyze systems for supplying electric power; navigation systems for automobiles, aircraft, and spacecraft; audio and visual communication systems; and systems for information processing and computing.

The major in electrical engineering provides the undergraduate student with a broad understanding of the many areas within the field of electrical engineering. At the same time, the curriculum provides a choice of technical electives designed to strengthen the student in a chosen area of specialization.

Mission Statement

The Department of Electrical Engineering is committed to outstanding undergraduate and graduate education, distinguished research programs, and strong service to our students, professional and technical societies, and the community.

Programs

- Electrical Engineering, BSE (p. 711)
- Electrical Engineering, Minor (p. 715)

Electrical Engineering Courses

ELECENG 101 Fundamentals of Electrical Engineering
3 cr. Undergraduate.
Principles of electrical engineering including intro to fundamental electrical quantities and circuit analysis. Lab with reinforcing experiments, introduction to electrical test equipment, computer simulation techniques, and team project.
Prerequisites: Math 116(C).
Course Rules: Counts as repeat of ElecEng 299 with same topic.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ELECENG 150 Electronic Technology in the World Around Us
3 cr. Undergraduate.
An introductory course that explains the modern technology affecting our everyday life. Topics include: digital communication, satellites, television, stereo system, computer, radar, microwaves, lasers.
Prerequisites: none.
General Education Requirements: NS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ELECENG 234 Analytical Methods in Engineering
4 cr. Undergraduate.
Prerequisites: Grade of C or better in Math 232(P).
Current Offerings: http://uwm.edu/schedule

ELECENG 299 Topics in Electrical Engineering:
1-3 cr. Undergraduate.
Work on new material in electrical engineering. Section title and credits announced whenever course is offered.
Prerequisites: specific courses dependent on topic.
Course Rules: May be retaken w/chg in topic to max of 6 cr max.
Last Taught: Fall 2011, Fall 2010, Fall 2005, Fall 1998.
Current Offerings: http://uwm.edu/schedule

ELECENG 301 Electrical Circuits I
3 cr. Undergraduate.
Circuit laws and analysis, resistive circuits, energy storage, AC circuits and power, three-phase circuits, computer-aided analysis.
Prerequisites: Physics 210(C) or 220(C).
Current Offerings: http://uwm.edu/schedule

ELECENG 305 Electrical Circuits II
4 cr. Undergraduate.
Transformers, transient response, network functions, s-domain, response, filters, fourier analysis, two-ports. 3 hr Lec/2 hr Lab.
Prerequisites: C or better in ElecEng 234(P); ElecEng 301(P).
Current Offerings: http://uwm.edu/schedule

ELECENG 306 Introduction to Electrical Engineering
4 cr. Undergraduate.
An introduction to electrical circuits with laboratory. Topics include dc and ac circuits, signal transients, motors, transformers and operational amplifiers.
Prerequisites: Physics 210(P); ElecEng 234(P).
Last Taught: Spring 2016, Fall 2015, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ELECENG 310 Signals and Systems
3 cr. Undergraduate.
Analysis techniques for signals and systems in both continuous and discrete time. Signal representation, including fourier and laplace transforms; system definitions and properties.
Prerequisites: ElecEng 305(C).
Current Offerings: http://uwm.edu/schedule

ELECENG 330 Electronics I
4 cr. Undergraduate.
Op-amps, diodes, bipolar junction transistors, mos field effect circuit applications.
Prerequisites: ElecEng 305(C).
Course Rules: Counts as repeat of ElecEng 331.
Current Offerings: http://uwm.edu/schedule

ELECENG 335 Electronics II
4 cr. Undergraduate.
CMOS Logic Gates, Differential and multistage amplifiers, IC techniques, frequency response.
Prerequisites: ElecEng 330(P), 310(C).
Course Rules: Counts as repeat of ElecEng 332.
Current Offerings: http://uwm.edu/schedule
**ELECENG 354 Digital Logic**
3 cr. Undergraduate.
Number systems and binary codes; Boolean Algebra and basic results; switching functions; minimization techniques; analysis and design of combinational and sequential logic circuits.
**Prerequisites:** CompSci 240(P) or 250(201)(P).
**Last Taught:** Spring 2018, Fall 2017, Summer 2017, Spring 2017.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**ELECENG 361 Electromagnetic Fields**
3 cr. Undergraduate.
Principles of electrostatics and electromagnetics; laws of fields; resistance, inductance, and capacitance; dielectrics; energy storage; Maxwell's field equation.
**Prerequisites:** grade C or better in Physics 210(P) & 215(P) or Physics 220(P); ElecEng 234(P); grade C or better in Math 233(P).
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**ELECENG 362 Electromechanical Energy Conversion**
4 cr. Undergraduate.
Principles of electrical and electromechanical energy conversion; transformers, polyphase induction and synchronous machines, d.c. machines, single phase motors, including design parameters and testing; with lab (3 hr lec recitation & 2 hr lab per week).
**Prerequisites:** ElecEng 305(P) & ElecEng 361(P).
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**ELECENG 367 Introduction to Microprocessors**
4 cr. Undergraduate.
Fundamentals of microprocessors, including assembly language programming, hardware design, interfacing peripherals and programmable I/O devices, and social/ethical issues in engineering design and practice. Lab.
**Prerequisites:** CompSci 240(P) or 250(201)(P); & C or better in ElecEng 354(P).
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**ELECENG 410 Digital Signal Processing**
3 cr. Undergraduate/Graduate.
Spectral computation including DFT and FFT, sampling of continuous signals, digital filter design including FIR and IIR filters.
**Prerequisites:** jr st, ElecEng 310(P).
**Last Taught:** Fall 2017, Fall 2016, Fall 2015, Fall 2014.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**ELECENG 420 Random Signals and Systems**
3 cr. Undergraduate/Graduate.
Fundamental probability and random process theory, power spectral density. Linear systems and random signals, auto- and cross-correlation, optimum MSE filter design.
**Prerequisites:** jr st, ElecEng 310(P); or grad st.
**General Education Requirements:** QLB
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**ELECENG 421 Communication Systems**
3 cr. Undergraduate/Graduate.
Basic concepts of information; modulation, transmission and demodulation; presentation of information; practical communication systems.
**Prerequisites:** jr st; ElecEng 335(C).
**Last Taught:** Spring 2016, Spring 2015, Spring 2014, Spring 2010.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**ELECENG 430 Energy Modeling**
3 cr. Undergraduate/Graduate.
Electrical/thermal energy modeling through lectures and hands-on classroom work along with use of energy modeling software.
**Prerequisites:** jr st; or cons instr.
**Course Rules:** Jointly offered with and counts are repeat of MechEng 430.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**ELECENG 436 Introduction to Medical Instrumentation**
3 cr. Undergraduate/Graduate.
Biopotential signals and electrodes; Biopotential Amplifiers and Signal Processing; Sensors, Detectors, and Sources; Electrical Safety; Specifications; Error Analysis; Device Approval Process.
**Prerequisites:** jr st; ElecEng 305(P) or equiv.
**Last Taught:** Spring 2016, Spring 2012, Fall 2010, Fall 2008.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**ELECENG 437 Introduction to Biomedical Imaging**
3 cr. Undergraduate/Graduate.
Biomedical imaging modalities and underlying principles: X-radiography, computerized tomography, Radon transforms; image reconstruction techniques; ultrasonic imaging; nuclear medicine; magnetic resonance imaging; experimental techniques.
**Prerequisites:** sr st; ElecEng 310(P) or equiv.
**Last Taught:** Fall 2017, Fall 2014, Fall 2013, Fall 2011.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**ELECENG 439 Introduction to Biomedical Optics**
3 cr. Undergraduate/Graduate.
**Prerequisites:** jr st; ElecEng 310(P) & 361(P).
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**ELECENG 451 Introduction to VLSI Design**
3 cr. Undergraduate/Graduate.
Introduction to design of VLSI circuits. Ic fundamentals including: energy band diagrams, transistor optimization, design approaches including both customs and semi-custom.
**Prerequisites:** jr st; ElecEng 330(P), 354(P).
**Last Taught:** Fall 2017, Fall 2015, Fall 2014, Fall 2013.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

**ELECENG 457 Digital Logic Laboratory**
3 cr. Undergraduate/Graduate.
Digital design using a hardware description language and FPGAs. Topics include VHDL, Design Methodologies, Finite State Machines, Multiple clock domains, Timing Analysis, Simulation and Verification.
**Prerequisites:** jr st, ElecEng 354(P).
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)
ELECENG 458 Computer Architecture
3 cr. Undergraduate/Graduate.
Processor organization and design; memory organization; microprogramming and control unit design; I-O organization; case studies of selected machine architectures.
Prerequisites: jr st; ElecEng 354(P), C or better in CompSci 315(P) or ElecEng 367(P).
Course Rules: Jointly offered with & counts as repeat of CompSci 458.
Current Offerings: http://uwm.edu/schedule

ELECENG 461 Microwave Engineering
3 cr. Undergraduate/Graduate.
Review from electromagnetics, transmission lines and waveguides; impedance matching, passive components, stripline and microstrip line circuits, dielectric waveguide, laboratory experiments, industrial and biomedical applications.
Prerequisites: jr st; ElecEng 361(P) or equiv.
Last Taught: Fall 2016, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

ELECENG 462 Antenna Theory
3 cr. Undergraduate/Graduate.
Analysis and design of antennas: antenna fundamentals; wire antennas; dipole, monopole, and loop antennas; antenna arrays; aperture antennas; horn, slot, and parabolic dish antennas.
Prerequisites: jr st; ElecEng 361(P).
Last Taught: Spring 2015, Fall 2013, Spring 2012, Spring 2011.
Current Offerings: http://uwm.edu/schedule

ELECENG 464 Fundamentals of Photonics
3 cr. Undergraduate/Graduate.
Fundamentals of ray, electromagnetic, and beam optics; polarization and polarization-based devices; optics of layered media; and guided-wave optics, including optical fibers.
Prerequisites: jr st; ElecEng 361(P); or grad st.
Last Taught: Fall 2015, Fall 2014, Fall 2012.
Current Offerings: http://uwm.edu/schedule

ELECENG 465 Broadband Optical Networks
3 cr. Undergraduate/Graduate.
Multichannel lightwave systems based on wavelength-division, time-division, and subcarrier multiplexing; optical devices and coding techniques for implementing optical networks.
Prerequisites: jr st; ElecEng 305(P) & 361(P); or grad st.
Course Rules: Counts as repeat of ElecEng 490(690) w/same topic.
Current Offerings: http://uwm.edu/schedule

ELECENG 471 Electric Power Systems
3 cr. Undergraduate/Graduate.
Elements of a typical power system. Per-unit quantities; load flow study; economic dispatch; symmetrical components; fault study; system protection; stability.
Prerequisites: jr st; ElecEng 362(C).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ELECENG 472 Introduction to Wind Energy
3 cr. Undergraduate/Graduate.
Principles of wind turbines; wind characteristics; rotor dynamics of wind turbines; turbine design and integration; controls and electrical systems; grid connection.
Prerequisites: jr st; or cons instr.
Course Rules: MechEng 472 & ElecEng 472 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

ELECENG 474 Introduction to Control Systems
4 cr. Undergraduate/Graduate.
Modeling of continuous systems; stability considerations, analysis and design of feedback control systems in time and frequency domains.
Prerequisites: jr st; ElecEng 310(P), CompSci 240 (P); or grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ELECENG 482 Introduction to Nanoelectronics
3 cr. Undergraduate/Graduate.
Wave properties of electrons, diffraction, Schrödinger's equation, quantum confinement, band theory, tunnel junctions, Coulomb blockade, quantum dots and wires, quantum conductance and ballistic transport.
Prerequisites: jr st; ElecEng 330(C), ElecEng 361(C).
Last Taught: Fall 2016, Fall 2011.
Current Offerings: http://uwm.edu/schedule

ELECENG 490 Topics in Electrical Engineering:
1-3 cr. Undergraduate/Graduate.
Specific topics, credits, and any additional prerequisites will be announced in the Schedule of Classes each time the course is offered.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to max of 9 cr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ELECENG 541 Integrated Circuits and Systems
3 cr. Undergraduate/Graduate.
Prerequisites: jr st; ElecEng 330(P).
Current Offerings: http://uwm.edu/schedule

ELECENG 545 FPGA Embedded CPUs & Firmware Development
3 cr. Undergraduate/Graduate.
Use of modern embedded system central processor units (CPUs) with integrated field-programmable gate arrays (FPGAs). Design and implementation of firmware for these devices.
Prerequisites: jr st; ElecEng 367(P) & 457(P).
Course Rules: Jointly offered with & counts as repeat of ElecEng 545.
Last Taught: Spring 2018, Spring 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule
**ELECENG 562 Telecommunication Circuits**  
3 cr. Undergraduate/Graduate.  
Radio frequency communication systems, terrestrial and satellite communication systems, mixers, oscillators, filters, design considerations for receivers and transmitters.  
**Prerequisites:** sr st; ElecEng 330(P).  
**Last Taught:** Fall 2011, Spring 2010, Spring 2008, Spring 2006.  
**Current Offerings:** http://uwm.edu/schedule

**ELECENG 565 Optical Communication**  
3 cr. Undergraduate/Graduate.  
Overview of communication systems, light and electromagnetic waves, optical fibers, lasers, led, photodetectors, receivers, optical fiber communication systems.  
**Prerequisites:** sr st; ElecEng 361(P), & 330(P) or 465(P).  
**Last Taught:** Spring 2016, Spring 2015, Spring 2013, Fall 2011.  
**Current Offerings:** http://uwm.edu/schedule

**ELECENG 566 Applications of Digital Signal Processing**  
3 cr. Undergraduate/Graduate.  
Introduction to the use of modern digital signal processor (DSP) units in DSP applications such as digital filtering and speech signal processing.  
**Prerequisites:** ElecEng 310(P), 367(P).  
**Course Rules:** Counts as repeat of ElecEng 490 and 890 w/similar topic;  
**Last Taught:** Spring 2018.  
**Current Offerings:** http://uwm.edu/schedule

**ELECENG 572 Power Electronics**  
3 cr. Undergraduate/Graduate.  
Power diodes and transistors; static converters; D.C. power supplies; power transistor circuits; SCR's; classical and modern forced-commutation inverters; choppers; cycloconverters, applications in power.  
**Prerequisites:** sr st; ElecEng 335(C).  
**Last Taught:** Spring 2018, Fall 2017, Fall 2016, Fall 2015.  
**Current Offerings:** http://uwm.edu/schedule

**ELECENG 574 Intermediate Control Systems**  
3 cr. Undergraduate/Graduate.  
State space; frequency domain methods of modelling, analysis and design of control systems; digital control; and multivariate systems.  
**Prerequisites:** sr st; MechEng 474(P) or ElecEng 474(402)(P); or grad st.  
**Course Rules:** ElecEng 574(503) & MechEng 574(478) are jointly offered & count as repeats of each other. Not open for cr to students who have cr in ElecEng 503(ER) or MechEng 478(ER).  
**Last Taught:** Spring 2018, Spring 2017, Spring 2016, Spring 2015.  
**Current Offerings:** http://uwm.edu/schedule

**ELECENG 575 Analysis of Electric Machines and Motor Drives**  
3 cr. Undergraduate/Graduate.  
Reference frame analysis, computer simulation, permanent magnet synchronous machines, induction machines, power electronic inverters, pulsewidth modulation, vector control.  
**Prerequisites:** jr st, ElecEng 330(P) & 362(P).  
**Last Taught:** Spring 2017, Spring 2016, Spring 2015, Spring 2014.  
**Current Offerings:** http://uwm.edu/schedule

**ELECENG 588 Fundamentals of Nanotechnology**  
3 cr. Undergraduate/Graduate.  
Nanofabrication, self-assembly, principles of scanning tunneling/atomic force microscopy, operators, energy quantization; density of states, quantum dots, nanowires, carbon nanotubes: electronic properties and applications.  
**Prerequisites:** sr st; non-ElecEng majors; ElecEng 361(P) or equiv.  
**Last Taught:** Fall 2014, Fall 2012, Fall 2009, Fall 2008.  
**Current Offerings:** http://uwm.edu/schedule

**ELECENG 595 Capstone Design Project**  
4 cr. Undergraduate.  
Team project in simulated industrial environment. Each team develops solutions to complex real world design problems and reports results in professional writing and oral presentation.  
**Prerequisites:** sr st; ElecEng 335(P), ElecEng 367(P).  
**Course Rules:** Counts as repeat of ElecEng 355.  
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.  
**Current Offerings:** http://uwm.edu/schedule

**ELECENG 599 Senior Thesis**  
1-3 cr. Undergraduate.  
Independent research under the direction of a faculty member; submission of a written thesis is required. 3 cr total required.  
**Prerequisites:** sr st & cons instr.  
**Course Rules:** May be retaken to max of 3 cr.  
**Last Taught:** Fall 2014, Spring 2014, Spring 1997, Fall 1990.  
**Current Offerings:** http://uwm.edu/schedule

**ELECENG 699 Independent Study**  
1-3 cr. Undergraduate/Graduate.  
**Prerequisites:** jr st; cons instr.  
**Course Rules:** May be retaken to max of 6 cr toward the undergraduate degree.  
**Last Taught:** Spring 2018, Fall 2017, Summer 2017, Spring 2017.  
**Current Offerings:** http://uwm.edu/schedule

**ELECENG 700 CEAS Graduate Seminar**  
1-3 cr. Graduate.  
Seminar in professional ethics, oral and written communication, contemporary social issues, career development, time management, and laboratory safety.  
**Prerequisites:** grad st  
**Course Rules:** Civ Eng 700, CompSci 700, ElecEng 700, Ind Eng 700, MatlEng 700 & MechEng 700 are jointly offered and count as repeats of one another  
**Last Taught:** Spring 2018, Fall 2017, Spring 2017, Fall 2016.  
**Current Offerings:** http://uwm.edu/schedule

**ELECENG 701 Advanced Linear System Analysis**  
3 cr. Graduate.  
Theory and analysis of linear dynamic systems; discrete and continuous state models; linear algebra for dynamic systems; state transition matrix, numerical methods; and applications.  
**Prerequisites:** grad st.  
**Course Rules:** ElecEng 701 & MechEng 701 are jointly offered and count as repeats of one another.  
**Last Taught:** Fall 2016, Fall 2015, Fall 2014, Fall 2013.  
**Current Offerings:** http://uwm.edu/schedule
ELECENG 710 Artificial Intelligence
3 cr. Graduate.
Programming, search techniques game playing, knowledge representation, knowledge acquisition, expert systems. Selected topics from learning. Natural language understanding, vision and robotics.
Prerequisites: grad st; CompSci 252 & 535.
Course Rules: Not open to students who have cr in CompSci 710.
Last Taught: Spring 2016, Fall 2014, Fall 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

ELECENG 711 Introduction to Machine Learning
3 cr. Graduate.
Introduction to machine learning techniques and applications, including optimal classification, regression, support vector machines, boosting, deep learning, and clustering.
Prerequisites: grad st
Course Rules: Not open to students who have cr in CompSci 711 which is identical to Eleceng 711.
Last Taught: Fall 2017, Spring 2016, Fall 2013, Spring 2011.
Current Offerings: http://uwm.edu/schedule

ELECENG 712 Image Processing
3 cr. Graduate.
This course covers the materials required to process and enhance photographic images, remote sensor multispatial scanner data and others. Topics include transform techniques, recorders, discriminate function, and associated hardware.
Prerequisites: grad st
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

ELECENG 713 Computer Vision
3 cr. Graduate.
Fundamental issues and current research in computer vision. Topics in early or low-level vision, intermediate vision or perceptual organization, and high-level vision or object recognition.
Prerequisites: grad st; ElecEng 410(P) or cons instr.
Course Rules: Jointly offered w/ and counts as a repeat of CompSci 713.
Last Taught: Fall 2005.
Current Offerings: http://uwm.edu/schedule

ELECENG 716 Tomography: Imaging and Image Reconstruction
3 cr. Graduate.
In-depth examination of the fundamentals of tomographic imaging and tomographic image reconstruction algorithms.
Prerequisites: grad st; ElecEng 410 (P) & ElecEng 420 (P)
Current Offerings: http://uwm.edu/schedule

ELECENG 717 Tomography: Image Quality and Artifact Correction
3 cr. Graduate.
In depth study of the factors affecting tomographic image quality. State-of-the-art techniques and practices for artifact correction.
Prerequisites: grad st; ElecEng 716 (P)
Last Taught: Spring 2014.
Current Offerings: http://uwm.edu/schedule

ELECENG 718 Nonlinear Control Systems
3 cr. Graduate.
Advanced concepts and methodologies in modeling and design of nonlinear control systems. Lyapunov theory; describing functions; variable structure control.
Prerequisites: grad st; ElecEng or MechEng474(P) or equiv; ElecEng or MechEng 701(P); or cons instr.
Course Rules: ElecEng 718 & MechEng718 are jointly offered and count as repeats of one another. Not open for credit to students w/ cr in MechEng 778.
Current Offerings: http://uwm.edu/schedule

ELECENG 721 Digital Communications
3 cr. Graduate.
Fundamentals of design and analysis of digital communication systems in the presence of noise; application of satellite, phone, and computer communication systems.
Prerequisites: grad st, ElecEng 421 or cons instr.
Last Taught: Spring 2011, Fall 2009, Fall 2007, Fall 2004.
Current Offerings: http://uwm.edu/schedule

ELECENG 733 Sensors and Systems
3 cr. Graduate.
Physical principles and working of sensors, interfacing, and sensor networks.
Prerequisites: grad st; ElecEng 305 or cons. instr.; Jointly offered with & counts as repeat of BME 733 & MechEng 733.
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

ELECENG 737 Medical Imaging Signals and Systems
3 cr. Graduate.
Medical imaging physics; physical parameters of imaging systems; imaging system models; physical measurements; image reconstruction; image characteristics; biomedical applications.
Prerequisites: grad st; ElecEng 310(P) and Physics 210(P), or cons instr.
Last Taught: Fall 2009.
Current Offerings: http://uwm.edu/schedule

ELECENG 741 Electromagnetic Fields and Waves
3 cr. Graduate.
Propagation, radiation and scattering of electromagnetic waves and their applications in electrical engineering.
Prerequisites: grad st; ElecEng 361 or equiv.
Last Taught: Fall 2013, Fall 2010, Fall 2009, Fall 2005.
Current Offerings: http://uwm.edu/schedule

ELECENG 742 Electromagnetic Wave Theory
3 cr. Graduate.
Electromagnetics of layered media and open waveguides; surface waves, radiation modes, and plasmons; asymptotic methods; Dyadic green’s functions; integral equation methods
Prerequisites: Grad st; ElecEng 361(P).
Current Offerings: http://uwm.edu/schedule
ELECENG 755 Information and Coding Theory
3 cr. Graduate.
Information measures, entropy, source coding, shannon's theorems, channel capacity, error correcting codes, linear codes, convolutional codes, arithmetic codes, encoding and decoding algorithms.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ELECENG 758 Advanced Computer Architecture
3 cr. Graduate.
Advanced topics in computer architecture including pipeline processing, multiple and parallel processing systems, performance enhancement issues and vlsi computing structures.
Prerequisites: grad st; CompSci 458 or ElecEng 458.
Course Rules: Not open for cr to students with cr in CompSci 758, which is identical to ElecEng 758.
Last Taught: Fall 2013.
Current Offerings: http://uwm.edu/schedule

ELECENG 760 Computer Systems Performance Evaluation
3 cr. Graduate.
Performance measurement and tools, workload characterization, markov models, queueing theory, simulation, benchmarks, data analysis, parallel systems performance analysis.
Prerequisites: grad st; & CompSci 458(P) or ElecEng 458(P).
Course Rules: Not open to students who have cr in CompSci 760, which is the same as ElecEng 760.
Last Taught: Fall 2017, Fall 2016, Fall 2014, Spring 2013.
Current Offerings: http://uwm.edu/schedule

ELECENG 762 Fault-Tolerant Computing
3 cr. Graduate.
Faults in digital circuits, fault detection, fault location, system reconfiguration or repair, system recovery, design for testability, self-checking circuits, fault-tolerant interconnection networks, systems level fault-diagnosis, fault-tolerant software.
Prerequisites: grad st; ElecEng 354.
Course Rules: Not open to students with cr in CompSci 762, which is identical to ElecEng 762.
Current Offerings: http://uwm.edu/schedule

ELECENG 765 Introduction to Fourier Optics and Optical Signal Processing
3 cr. Graduate.
Two dimensional linear systems, scalar diffraction theory, imaging properties of lenses, optical imaging systems, spatial filtering, wavefront reconstruction.
Prerequisites: grad st; ElecEng 310(P) & 361(P)
Current Offerings: http://uwm.edu/schedule

ELECENG 766 Introduction to Nonlinear Optics
3 cr. Graduate.
Characteristics and efficiency of various nonlinear optical processes that find applications in communications, signal processing and computing. Topics include optical switching devices, mixers and solitons.
Prerequisites: grad st; ElecEng 361(P).
Current Offerings: http://uwm.edu/schedule

ELECENG 781 Advanced Synchronous Machinery
3 cr. Graduate.
Machine construction, direct and quadrature axis reactances, steady state performance, unbalanced operating conditions, transient performance, motor starting, standards.
Prerequisites: ElecEng 362.
Current Offerings: http://uwm.edu/schedule

ELECENG 810 Advanced Digital Signal Processing
3 cr. Graduate.
Prediction and optimum filters; lattice structures; adaptive filters; deconvolution techniques, spectrum estimation, applications.
Prerequisites: grad st; ElecEng 410(P).
Last Taught: Spring 2015, Fall 2011, Spring 2010, Fall 2008.
Current Offerings: http://uwm.edu/schedule

ELECENG 816 Optimal Control Theory
3 cr. Graduate.
Analysis and synthesis of discrete and continuous optimal control systems; linear quadratic regulators; dynamic programming and variational methods; applications.
Prerequisites: grad st; ElecEng or MechEng474(P) or equiv; ElecEng or MechEng 701(P); or cons instr.
Course Rules: ElecEng 816 & MechEng 816 are jointly offered and count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

ELECENG 819 Adaptive Control Theory
3 cr. Graduate.
Adaptive control systems including mathematical foundations, estimation, model reference adaptive control, self tuning regulators, numerical methods, applications.
Prerequisites: grad st; ElecEng or MechEng474(P) or equiv; ElecEng or MechEng 701(P); or cons instr.
Course Rules: ElecEng 819 & MechEng 819 are jointly offered and count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

ELECENG 817 Computer Analysis of Electric Power Systems
3 cr. Graduate.
Graph theory, matrix algebra and numerical analysis applied to computer solution of power system problems; mathematical models; algorithms and solution techniques for load flow and fault studies.
Prerequisites: grad st & ElecEng 471.
Current Offerings: http://uwm.edu/schedule

ELECENG 820 Bioengineering Seminar
1 cr. Graduate.
Presentations by bioengineering affiliated faculty, invited speakers, and graduate students.
Prerequisites: grad st
Course Rules: MechEng 880, ElecEng 880, CompSci 880, MatlEng 880, IndEng 880 & Civ Eng 880 are jointly offered and count as repeats of one another. May be repeated to 3 cr. max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
ELECENG 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.

Course Rules: Fee for 1 cr assessed.
Last Taught: Summer 2017, Spring 2017, Summer 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ELECENG 890 Special Topics:
3 cr. Graduate.
Lectures on special topics in electrical engineering. Variable content course. Specific topics and any additional prerequisites will be announced in the schedule of classes each time the course is offered.
Prerequisites: grad st.

Course Rules: May be repeated w/ chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ELECENG 990 Masters Thesis
1-9 cr. Graduate.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

ELECENG 998 Doctoral Thesis
1-12 cr. Graduate.
Prerequisites: grad st; cons instr & grad prog comm.
Current Offerings: http://uwm.edu/schedule

ELECENG 999 Advanced Independent Study
1-3 cr. Graduate.
Prerequisites: grad st & cons instr.
Current Offerings: http://uwm.edu/schedule

Electrical Engineering, BSE

Electrical engineering graduates pursue careers in fields such as energy generation and transmission, renewable energy, power electronics, bio-imaging and devices, signal and image processing, communications, optical and photonic circuits and devices, controls and automation, and many other areas.

Concentrations
Several possible technical elective course groupings are listed below, as an aid in choosing technical electives. Electrical engineering students do not need to follow any particular grouping – the listings described below are provided as a guide only. In the long term, students will be better prepared for an engineering career having a broad exposure to different technical areas, rather than a narrow focus in one specialized area.

- Power Electronics and Power Systems
- Optics
- Nanotechnology/Nanoengineering
- Microwave/Radio-Frequency Engineering
- Electronics
- Controls
- Computer Systems
- Communications and Signal Processing
- Biomedical Imaging
- Embedded Systems

Research
Work with faculty (http://uwm.edu/engineering/classification/faculty/electrical-engineering) engaged in leading-edge research in areas such as:

- Optics and photonics in neuroscience
- Renewable energy
- Machine learning
- Artificial intelligence
- Data visualization
- Electric vehicles, aircraft and ships

Accreditation
The electrical engineering program is accredited by the Engineering Accreditation Commission of ABET, 415 N. Charles Street, Baltimore, MD 21201, (410) 347-7700.

New Freshmen
Admission to the College of Engineering and Applied Science is based on an overall assessment of both academic and non-academic qualifications. The primary review factors for admission are the strength and quality of the high school curriculum, high school class percentile, grade point average, and the result of the ACT or SAT. Well-prepared freshman applicants will have four years of mathematics (including one-and-a-half years of algebra, one year of geometry, and one-half year of trigonometry) and four years of natural science (including biology, chemistry, and physics). The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Freshmen applicants will be considered for admission directly to the major or to the First-Year Program. Admission directly to the major is selective.

Transfer Students
Transfer student admission is based on an overall assessment of both academic and non-academic qualifications. For transfer applicants, the primary factors considered for admission are the grade point average on transferable courses and the level of curriculum completion. The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Transfer applicants will be considered for admission directly to the major or the Transfer Transition Program based on the number of transfer credits and GPA.

Admission to the Major
Students admitted to the First-Year Program or Transfer Transition Program (Engineering-Intended or Computer Science-Intended) may apply for major status with their academic advisor at the time they believe they meet the requirements. The program may impose major status as a prerequisite for courses numbered 200 or above.

1. Complete first semester calculus with a C or better grade.
2. Complete GER Oral and Written Communication Part A.
3. Engineering majors must complete Chem 100 with a C or better grade (or satisfactory score on the placement test). Computer Science majors must complete CompSci 251 with a C or better grade.
4. Obtain a minimum grade point as set by the major department. A 3.00 GPA guarantees admission to any CEAS major.
5. Courses required by the major may be repeated only once. No more than two courses may be repeated.

First-Year students have a maximum of three semesters to complete the admission to major requirements. Part-time students may be granted an extension by their academic advisor.

Transfer Transition students have a maximum of two semesters to complete the admission to major requirements. Part-time students may be granted an extension by their academic advisor.

Placement Testing
Most new freshmen are required to take placement exams in English and mathematics. Engineering students also take a placement exam in chemistry, provided they have had previous coursework in chemistry. Students with previous college-level credits in chemistry, English, and math may not be required to take placement tests. Additional prerequisite coursework may be required as a result of these placement tests. Credit for prerequisite academic work may not count toward the degree program. Entering students are urged to take their placement exams when scheduled. All placement exams must be completed before beginning coursework in the subject area. Students who place into precalculus math courses may be asked to participate in an online summer bridge program.

Questions on admission to CEAS or choosing a major should be directed to the Office of Student Services, (414) 229-4667.
Electrical Engineering Curriculum

The minimum number of credits required to complete the Bachelor of Science in Engineering with a major in electrical engineering is 126. Engineering students may apply for major status with their academic advisor at any time they believe they meet the requirements. Admission to major is a graduation requirement. Programs may impose major status as a prerequisite for courses numbered 200 or above.

GER Distribution Requirement

Arts 3

Humanities 3

Social Science 6

ENGLISH 310 Writing, Speaking, and Technoscience in the 21st Century 3

Cultural Diversity - Arts, Humanities, or Social Science course must also satisfy UWM Cultural Diversity Requirement

Free Electives

Select 3 credits

English Composition Requirement

Satisfied by one of the following: 0-6

Earning a satisfactory score on the English placement test; or
Earning a grade of C or higher in ENGLISH 102; or
Transferring a grade of C or higher in a course equivalent to ENGLISH 102 or higher expository writing course; or

Foreign Language Requirement

Satisfied by one of the following: 0-8

Two years of a single foreign language in high school;
Two semesters of a single foreign language in college; or
Demonstrate ability by examination.

1 Placement Examinations. Once admitted to UWM, most engineering students are required to take placement examinations in mathematics, English, and chemistry. Students with previous college-level credits in these areas may not be required to take placement exams. The placement exams are administered by the UWM Testing Center, mellencamp hall, room b28, (414) 229-4689. The results of these tests help students determine the appropriate course in which to register. Background prerequisite courses may be required in addition to the courses listed above.

English Composition Requirement

Satisfied by one of the following: 0-6

Earning a satisfactory score on the English placement test; or
Earning a grade of C or higher in ENGLISH 102; or
Transferring a grade of C or higher in a course equivalent to ENGLISH 102 or higher expository writing course; or

Foreign Language Requirement

Satisfied by one of the following: 0-8

Two years of a single foreign language in high school;
Two semesters of a single foreign language in college; or
Demonstrate ability by examination.

1 Placement Examinations. Once admitted to UWM, most engineering students are required to take placement examinations in mathematics, English, and chemistry. Students with previous college-level credits in these areas may not be required to take placement exams. The placement exams are administered by the UWM Testing Center, mellencamp hall, room b28, (414) 229-4689. The results of these tests help students determine the appropriate course in which to register. Background prerequisite courses may be required in addition to the courses listed above.
..., as appropriate. Advancement to major status is required for graduation. Students majoring in civil engineering, electrical engineering, and mechanical engineering must maintain an average GPA of at least 2.50 in all 300-level and above courses in the major department. Transferable courses will be included as appropriate. Advancement to major status is required for graduation.

Minimum Requirements

Students must maintain an average GPA of at least 2.00 on all work attempted at the University and in all courses offered by the College. Students majoring in biomedical engineering, computer engineering, computer science, industrial engineering, and materials engineering must maintain an average GPA of at least 2.00 in all 300-level and above courses in the student’s major department. Students majoring in civil engineering, electrical engineering, and mechanical engineering must maintain an average GPA of at least 2.50 in all 300-level and above courses in the major department. Transferable courses will be included as appropriate. Advancement to major status is required for graduation.

In order to provide maximum flexibility while preserving the institutional identity of a UWM degree, the College requires residence:

1. during the last 30 credits, or
2. during 45 of the last 60 credits, or
3. during any 90 credits of a student’s undergraduate career.

At least 15 credits of advanced work in the major must be completed in residence at UWM.

A student who does not maintain continuous registration during the academic year and is re-admitted to the College must meet the program and graduation requirements in effect at the time of re-entry.

Degree and major requirements must be completed within 10 years of initial enrollment at UW-Milwaukee. Should students not complete the major within the 10-year time frame, the students will switch to the most current degree and major requirements. A new 10-year time frame would then begin.

Dual Majors

Students wishing to major in more than one field can do so in two ways:

1. Complete the requirements for more than one major before receiving a degree from the College. In this case, the degree will list both majors.
2. Be admitted to the College as a second degree candidate (after earning a bachelor’s degree in any field), providing University and College entrance requirements are met. Such a student must meet all undergraduate degree requirements in the College and present a minimum of 30 credits beyond the previous bachelor’s degree.

Concurrent Registration at Other Institutions

CEAS students wishing to establish concurrent enrollment at another institution must obtain prior permission from their academic advisor.

Student Academic Appeals

Students may appeal an academic action to the Office of Student Services. An appeal is a request for an exception to an established policy or rule. The content of each appeal is carefully reviewed in order to reach a decision. Appeals should be submitted in writing to the Office of Student Services. The appeals committee considers individual cases concerning the degree requirements and other academic rules and regulations established by the College of Engineering and Applied Science faculty.

The College of Engineering and Applied Science has established written procedures for undergraduate student academic grievances. Copies of the grievance procedure are available in the Office of Student Services. As a first step, students must discuss the grievance with the faculty member or administrator as soon as possible to attempt to resolve the issue, but not later than 30 days after the action that prompted the grievance/appeal.

Computer Science and Engineering Programs

Detailed descriptions of the CEAS undergraduate programs are provided in this catalog. All courses are not offered every semester. A few technical elective courses may be offered only once every three to four
semesters. In addition, since computer science and engineering curricula are continually evolving to keep current, students are encouraged to consult with their advisors to plan each semester’s list of classes. Part-time students should always maintain a plan that looks ahead two to three semesters to avoid scheduling difficulties.

The curricula outlined in the pages are applicable to new students entering CEAS in fall 2016 or later. Students who enrolled in computer science or engineering programs prior to that date should consult with the appropriate previous editions of this catalog for information about their program requirements. As a general rule, when program changes occur, continuing students have the choice of continuing in their existing program or following the new requirements. Occasionally, a program change will be required of all students regardless of their date of matriculation, so long as it does not increase the total credits needed for graduation.

These program descriptions represent the minimum requirements for graduation from UWM in computer science or engineering. In all cases, it is important that students consult with their advisor before making course selections to avoid errors in programming.

**Academic Advising**

The Office of Student Services in the College of Engineering and Applied Science, located in Room E386 of the Engineering and Mathematical Sciences Building, offers undergraduate students academic advising from professional advisors who are familiar with the curriculum, College requirements, and the special needs of engineering and computer science students. These advisors provide services such as freshman orientation, course selection, program planning, and credit transfer evaluation.

Students are assigned to a permanent professional advisor as soon as they are accepted into the College, and are urged to confer with their advisor at least once each semester. Students also are assigned to a faculty advisor who provides technical expertise specific to the student’s area of study.

We understand that it can be a delicate balance managing school, work, family, and active social lives. The College of Engineering and Applied Science advisors are here to help you achieve that balance.

You will be assigned a professional academic advisor upon being admitted to the College of Engineering & Applied Science. Your advisor will work with you throughout your undergraduate experience, providing guidance on:

- course registration,
- graduation planning,
- career preparation,
- and serving as a liaison to the many other resources available on our campus.

Advisors are also a great source of information on student organizations, tutoring and scholarship opportunities.

In addition to professional academic advisors, you will also have access to faculty advisors. These advisors can provide insights into the technical aspects of the engineering and computer science curricula while mentoring you as you define your professional goals.

---

**Program Educational Objectives**

The educational objectives of the undergraduate Electrical Engineering Program are:

1. Graduates are creative problem solvers who provide and communicate solutions to challenging problems by applying fundamental mathematical, scientific, and engineering principles, while giving special considerations to social issues, human factors, and ethical issues.
2. Graduates solve problems as members of a team, and will exhibit high levels of professionalism in their work.
3. Graduates are successfully engaged in careers in electrical engineering and related fields that support the regional and national economy.
4. Graduates are engaged in continued professional development.

**Honors in the College of Engineering and Applied Science**

**Dean’s Honor List**

GPA of 3.500 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Joint Programs with Other Campuses**

**Pre-engineering**

Qualified students may enroll in coordinated pre-engineering programs at UW-Green Bay, UW-Parkside, and UW-Waukesha for two years of pre-engineering coursework. These coordinated programs ensure equivalent coursework, appropriate advising, and early access to the Cooperative Education Program at UWM.

**Dual Degree Programs**

Qualified students may enroll in coordinated dual degree programs at Alverno College, Carroll University, UW-Eau Claire, UW-Green Bay, UW-La Crosse, UW-Oshkosh, UW-Stevens Point, UW-Whitewater and Wisconsin Lutheran College. Students in these programs will earn a bachelor’s degree at both universities in five years. Students transfer to UWM after
three years at the partner university. For more information, contact the Office of Student Services at (414) 229-4667.

Joint Programs with Wisconsin Technical Colleges

Gateway Technical College
An agreement with GTC allows those students having associate degrees in the Electrical Engineering - Technology the opportunity to be given credit for courses required in the UWM bachelor of science in engineering program. For more information, contact the Office of Student Services at (414) 229-4667.

Milwaukee Area Technical College
An agreement with MATC allows joint admission and enrollment at MATC and CEAS. Qualified students may take English, mathematics, chemistry, and general education courses at MATC. The program ensures equivalent coursework and appropriate advising. Students complete a bachelor of science degree in engineering or computer science at UWM.

Waukesha County Technical College
An agreement with WCTC allows those students having associate degrees in the Industrial Occupations Division at WCTC the opportunity to be given credit for courses required in the UWM bachelor of science in engineering or bachelor of science in computer science program. For more information, contact the Office of Student Services at (414) 229-4667.

Electrical Engineering, Minor
The minor in electrical engineering is designed for students in engineering and science majors. The minor is not available to electrical engineering majors.

Requirements
It requires students to take a minimum of 21 credits, of which not more than 6 credits overlap with the student’s major. Students must attain a minimum GPA of 2.0 in the minor.

ENGINEERING AND APPLIED SCIENCE (GRADUATE PROGRAMS)

With the exception of the Master of Science in Computer Science, the graduate programs offered by the College of Engineering and Applied Science are college-wide programs, and the responsibility for these programs is vested in the graduate faculty of the College operating via an interdepartmental committee, the Graduate Program Subcommittee (GPSC).

The engineering master's program offered by the College is the Master of Science in Engineering.

The program provides breadth by requiring a program of coursework and depth through participation in research or design synthesis. The research or design synthesis effort is documented in a thesis that is presented and defended by the student at the final degree examination. For those with prior engineering/scientific work experience which includes appropriate report writing, the program offers a non-thesis option which requires additional coursework in lieu of thesis.

Since the program does not require a rigid set of courses, each student, in consultation with faculty, has the flexibility to put together a program of study which is compatible with the student's career objectives. The flexibility of customizing the program of study makes the Master of Science in Engineering Program suitable as a terminal degree as well as a stepping stone for doctoral level study.

Engineering and Applied Science Courses

EAS 1 Engineering Co-op Work Period
1 cr. Undergraduate.
One semester work period in an industrial environment.
Prerequisites: prior cons co-op dir.
Course Rules: Cr/No cr only. May be retaken but only 3 cr count toward graduation.
Current Offerings: http://uwm.edu/schedule

EAS 100 CEAS Freshman Orientation
1 cr. Undergraduate.
An introduction to problem solving in engineering and computer science.
Prerequisites: none.
Course Rules: Credit/No Credit grading option only.
Last Taught: Fall 2014, Fall 2013, Fall 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

EAS 200 Professional Seminar
1 cr. Undergraduate.
Professional orientation and career planning. Current issues in the profession.
Prerequisites: none.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

EAS 290 Topics in Engineering and Applied Science:
1-3 cr. Undergraduate.
Lectures on new introductory material in engineering and applied science. Variable-content course.
Prerequisites: specified in semester Schedule whenever required for topic.
Course Rules: May be retaken with change in topic.
Current Offerings: http://uwm.edu/schedule

EAS 297 Study Abroad:
1-5 cr. Undergraduate.
Designed to enroll students in UWM sponsored program. Course work, content, and credits determined at the time of offering.
Prerequisites: acceptance to Study Abroad Prog; cons CEAS assoc dean for academic prog.
Course Rules: Retakable with change in topic to 12 cr max.
Current Offerings: http://uwm.edu/schedule

EAS 299 Independent Study:
1-3 cr. Undergraduate.
Independent study on a topic of choice. Credit hours to be arranged between student and staff on an individual basis.
Prerequisites: cons instr.
Course Rules: May be retaken for degree cr.
Current Offerings: http://uwm.edu/schedule

EAS 350 Senior Leadership Seminar
1 cr. Undergraduate.
Elements of historical and modern social and professional leadership, preparing for a leadership position in industry, leadership and entrepreneurship, engineering management techniques.
Prerequisites: sr st.
Current Offerings: http://uwm.edu/schedule
Advanced Computational Imaging, Graduate Certificate

Modern medical imaging systems are complex, high-technology devices. Engineers designing and developing medical imaging systems must have knowledge and understanding around concepts not traditionally available in bachelor’s degree programs in engineering or computing. Such concepts include:

- Mathematical foundations of tomography (images constructed from a series of “slices”).
- Image artifacts that distort the images and how to correct them.
- Hardware and software for the embedded computing systems that are used to implement image construction and correction.

This program fills a need to prepare engineers with the knowledge, understanding, and abilities essential for a successful career in modern medical imaging systems.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Students must have:

1. A baccalaureate degree.
2. A minimum 2.75 cumulative undergraduate grade point average.

Application

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Credits and Courses

A minimum of 15 credits of which at least 12 credits must be taken at UWM.

Total Credits 15

1 Students who have taken ELECENG 437 or ELECENG 545/COMPSCI 545 or their equivalents as an undergraduate may substitute a relevant graduate course with the approval of the Certificate program. The program maintains a list of suggested substitute courses. The current list is:

- ELECENG 711/COMPSCI 711
- ELECENG 712/COMPSCI 712
- ELECENG 713/COMPSCI 713
- COMPSCI 718
- COMPSCI 758
- COMPSCI 762

Certificate Requirements

Transfer Credit
No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   - Degree programs must approve the courses from certificates that can double count toward the degree.
• All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
• Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

**Time Limit**
Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

**Energy Engineering, Graduate Certificate**

With the rapid dwindling of energy resources, there is a great demand for workers in various fields to keep themselves abreast of the latest technology in solving and planning for the energy shortage and efficient use of energy. This interdisciplinary Certificate in Energy Engineering Program is open to post-baccalaureate students who are interested in continuing education for career development or gaining experience in the energy area. In particular, the Program will provide basic knowledge on the design of electrical and mechanical devices and systems and yet has adequate flexibility for students to focus on certain areas in energy according to their own discretion in advanced courses.

**Admission Requirements**

**Application Deadlines**
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**
Students must have a baccalaureate degree. A minimum 2.75 cumulative undergraduate grade point average is required.

**Application**
- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

**Credits and Courses**

To obtain the certificate, students are required to complete a minimum of 15 credits from the lists of Groups A and B courses of which at least 12 credits must be taken at UWM.

Students must complete at least two courses from Group A to obtain an Energy Engineering Certificate. Additional electives can be chosen from Group B. At least 6 credits must be 700-level or above. A maximum of 3 credits of independent study may be applied toward the certificate.

**Certificate Requirements**

**Transfer Credit**
No more than 20% of the required credits may be transferred from energy-related, graduate-level coursework taken at an institution other than
UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   • Degree programs must approve the courses from certificates that can double count toward the degree.
   • All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   • Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit
Certificate program time limits shall be established as follows:

• 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
• 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

Engineering, MS: Biomedical Engineering

The Master of Science in Engineering program is a flexible program designed to meet the needs of a wide variety of students. The program can be a stepping stone on the way to further studies and the pursuit of advanced research, such as can be obtained by pursuing the PhD. Or the program can provide a pathway to professional advancement through greater technical knowledge and intellectual maturity. The student, with the help and approval of a major advisor, can choose from a wide range of courses from throughout the College of Engineering and Applied Science (CEAS), and where appropriate, from other schools and colleges.

Students entering the Master of Science in Engineering program must choose an areas of concentration, from among the numerous choices offered. It is possible to complete the MS in Engineering without a concentration, but almost all students do complete one. The MS in Engineering program currently offers the following areas of concentration:

• Biomedical Engineering
• Civil Engineering

• Electrical and Computer Engineering
• Energy Engineering
• Engineering Management (admission to this concentration is suspended)
• Engineering Mechanics
• Industrial and Systems Engineering
• Manufacturing Engineering
• Materials Engineering
• Mechanical Engineering
• Occupational Biomechanics/Ergonomics

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission Requirements

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these College requirements to be considered for admission to the program:

1. Undergraduate major in engineering, mathematics or a natural science.
2. Submission of official GRE (http://uwm.edu/graduateschool/admission/#gre) scores from a test taken within the last 5 years.

Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

Credits and Courses

Minimum degree requirements are 30 credits for the thesis option and 31 credits for the non-thesis option as outlined below. Of the courses offered in the College only those numbered 400 and above may be taken for graduate credit for this degree. Independent study courses (699 and 999) may be included in the minimum course credit requirements provided approval of a program of study including them has been obtained prior to registration in such courses. Typically, no more than three credits of independent study are allowed in the MS Program. Guidelines on acceptable independent study courses are available in the CEAS Graduate Programs Office. A student may not use courses that formed part of the requirements of a baccalaureate degree for subsequent graduate credit, except when those courses were part of CEAS Integrated BS/MS program.

Thesis and Non-Thesis Options

Students will be required to either the Thesis or Non-Thesis option in their program of study. If the student chooses the Non-Thesis option, then as permitted by the student’s department, the student must also choose between two methods of final evaluation: the Capstone Option and the Comprehensive Examination Option.

After 12 credits of coursework are completed, changes from Thesis to Non-Thesis option will not be allowed, except under exceptional circumstances to be considered on a case-by-case basis. Students
may always change from a Non-Thesis to a Thesis option. Departments and faculty may make pursuing the Thesis option a requirement (or preference) of employment for TA’s, RA’s, and PA’s.

**Thesis Option**

All students are encouraged to undertake the thesis option. The degree requires the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select a minimum of 12 credits in an approved technical program of studies</td>
<td>12</td>
<td></td>
</tr>
<tr>
<td>Select 9 credits of approved electives</td>
<td>9</td>
<td></td>
</tr>
<tr>
<td>Select 3 credits CEAS Graduate Seminar (Offered by each department and numbered 700)</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>Select 6 credits of thesis</td>
<td>6</td>
<td></td>
</tr>
<tr>
<td>Total Credits</td>
<td>30</td>
<td></td>
</tr>
</tbody>
</table>

At least 12 credits, not including thesis or the CEAS Graduate Seminar Course, must be in courses of 700 level or higher. At least 12 credits, including thesis, must be earned at UWM. The thesis may be written in absenta provided prior permission has been obtained from the major professor and the Associate Dean for Academic Affairs in the College of Engineering & Applied Science. Students in the thesis option must pass a final comprehensive examination, administered by the Master’s Program Committee, partially in defense of the thesis.

**Non-Thesis Capstone Option**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select a minimum of 18 credits in an approved technical program of studies</td>
<td>18</td>
<td></td>
</tr>
<tr>
<td>Select 9 credits of approved electives</td>
<td>9</td>
<td></td>
</tr>
<tr>
<td>Select 1 credits CEAS Graduate Seminar (Offered by each department and numbered 700)</td>
<td>1</td>
<td></td>
</tr>
<tr>
<td>Select 3 credits of a capstone project, using a 3 credit course that allows flexible independent study (either the Independent Study course or a specific capstone course)</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>Total Credits</td>
<td>31</td>
<td></td>
</tr>
</tbody>
</table>

In addition to the requirements listed in the table above, at least 15 credits must be of 700 level or above.

For the capstone project, the student must submit a written proposal and receive approval from the advisor. The capstone project should be designed with the intent of leading to creative work based on the student’s background, and should be the equivalent of 3 credits of work to be completed over a single semester. Upon completion of the capstone, the student must submit a written report and give an oral presentation of the project to the Master’s Program Committee for approval.

**Non-Thesis Comprehensive Examination Option**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select a minimum of 21 credits in an approved technical program of studies</td>
<td>21</td>
<td></td>
</tr>
<tr>
<td>Select 9 credits of approved electives</td>

<td>1</td>
<td></td>
</tr>
<tr>
<td>Total Credits</td>
<td>31</td>
<td></td>
</tr>
</tbody>
</table>

In addition to the requirements listed in the table above, at least 15 credits must be of 700 level or above.

Mastery of the courses taken in the program of study may be demonstrated by one of the following:

1. The student submits a dossier of work, and passes an oral examination given by the Master’s Program Committee. Or
2. The student passes a written master’s comprehensive examination when it is offered by the department.

Departments allowing a written examination option will offer such exams at least once per semester, and will announce the date of the exam at least 60 days prior to the exam. The department also must provide a written description of the topics covered on the exam, including text books and chapters.

**Biomedical Engineering Concentration**

A minimum of 15 credits of qualifying graduate courses from the list below. May include up to 3 credits each of BME 990 and BME 999. Also, students must take at least 16 credits of engineering courses.

**Qualifying Courses**

* A maximum of 3 credits of BME 990 or 999 may be included.
Program Requirements

Major Professor as Advisor
The Graduate School requires that the student have a major professor to advise, supervise, and approve the Program of Study before registering for courses. The College will assign the incoming student to an initial advisor at the time of admission. A student may change advisors with the consent of the new advisor, approval by the Associate Dean for Academic Affairs, and upon notification of the student’s current advisor.

Program of Study
During the first semester the student, in consultation with the major professor, develops a program of study, obtains the consent of the advisor and submits it to the CEAS Graduate Programs Office for approval by the Associate Dean. To make subsequent changes, the student must follow the same process. Graduation requires successful completion of courses from an approved program of study. Students are recommended to obtain approval for an amended program of study before taking a course not on the current program of study.

Master’s Program Committee
The Master’s Program Committee is proposed by the major professor in consultation with the student. The Committee must include at least three graduate faculty, not all of whom are in the same department.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Engineering, MS: Civil Engineering

The Master of Science in Engineering program is a flexible program designed to meet the needs of a wide variety of students. The program can be a stepping stone on the way to further studies and the pursuit of advanced research, such as can be obtained by pursuing the PhD. Or the program can provide a pathway to professional advancement through greater technical knowledge and intellectual maturity. The student, with the help and approval of a major advisor, can choose from a wide range of courses from throughout the College of Engineering and Applied Science (CEAS), and where appropriate, from other schools and colleges.

Select 1 credits CEAS Graduate Seminar (Offered by each department and numbered 700)

| Total Credits | 31 |

In addition to the requirements listed in the table above, at least 15 credits must be of 700 level or above.

Mastery of the courses taken in the program of study may be demonstrated by one of the following:

1. The student submits a dossier of work, and passes an oral examination given by the Master’s Program Committee. Or
2. The student passes a written master’s comprehensive examination when it is offered by the department.

Departments allowing a written examination option will offer such exams at least once per semester, and will announce the date of the exam at least 60 days prior to the exam. The department also must provide a written description of the topics covered on the exam, including text books and chapters.

Electrical and Computer Engineering Concentration
A minimum of 15 credits of qualifying graduate courses in Electrical Engineering.

Program Requirements

Major Professor as Advisor
The Graduate School requires that the student have a major professor to advise, supervise, and approve the Program of Study before registering for courses. The College will assign the incoming student to an initial advisor at the time of admission. A student may change advisors with the consent of the new advisor, approval by the Associate Dean for Academic Affairs, and upon notification of the student’s current advisor.

Program of Study
During the first semester the student, in consultation with the major professor, develops a program of study, obtains the consent of the advisor and submits it to the CEAS Graduate Programs Office for approval by the Associate Dean. To make subsequent changes, the student must follow the same process. Graduation requires successful completion of courses from an approved program of study. Students are recommended to obtain approval for an amended program of study before taking a course not on the current program of study.

Master’s Program Committee
The Master’s Program Committee is proposed by the major professor in consultation with the student. The Committee must include at least three graduate faculty, not all of whom are in the same department.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Engineering, MS: Energy Engineering

The Master of Science in Engineering program is a flexible program designed to meet the needs of a wide variety of students. The program can be a stepping stone on the way to further studies and the pursuit of advanced research, such as can be obtained by pursuing the PhD. Or the program can provide a pathway to professional advancement through greater technical knowledge and intellectual maturity. The student, with the help and approval of a major advisor, can choose from a wide range of courses from throughout the College of Engineering and Applied Science (CEAS), and where appropriate, from other schools and colleges.

Students entering the Master of Science in Engineering program must choose an areas of concentration, from among the numerous choices offered. It is possible to complete the MS in Engineering without a concentration, but almost all students do complete one. The MS in Engineering program currently offers the following areas of concentration:

- Biomedical Engineering
- Civil Engineering
- Electrical and Computer Engineering
- Energy Engineering
- Engineering Management (admission to this concentration is suspended)
- Engineering Mechanics
- Industrial and Systems Engineering
- Manufacturing Engineering
- Materials Engineering
- Mechanical Engineering
- Occupational Biomechanics/Ergonomics

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these College requirements to be considered for admission to the program:

1. Undergraduate major in engineering, mathematics or a natural science.
2. Submission of official GRE (http://uwm.edu/graduateschool/admission/#gre) scores from a test taken within the last 5 years.

Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

Credits and Courses

Minimum degree requirements are 30 credits for the thesis option and 31 credits for the non-thesis option as outlined below. Of the courses offered in the College only those numbered 400 and above may be taken.
for graduate credit for this degree. Independent study courses (699 and 999) may be included in the minimum course credit requirements provided approval of a program of study including them has been obtained prior to registration in such courses. Typically, no more than three credits of independent study are allowed in the MS Program. Guidelines on acceptable independent study courses are available in the CEAS Graduate Programs Office. A student may not use courses that formed part of the requirements of a baccalaureate degree for subsequent graduate credit, except when those courses were part of CEAS Integrated BS/MS program.

Thesis and Non-Thesis Options

Students will be required to either the Thesis or Non-Thesis option in their program of study. If the student chooses the Non-Thesis option, then as permitted by the student’s department, the student must also choose between two methods of final evaluation: the Capstone Option and the Comprehensive Examination Option.

After 12 credits of coursework are completed, changes from Thesis to Non-Thesis option will not be allowed, except under exceptional circumstances to be considered on a case-by-case basis. Students may always change from a Non-Thesis to a Thesis option. Departments and faculty may make pursuing the Thesis option a requirement (or preference) of employment for TA’s, RA’s, and PA’s.

Thesis Option

All students are encouraged to undertake the thesis option. The degree requires the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>12</td>
<td>Select a minimum of 12 credits in an approved technical program of studies</td>

Program Requirements

Major Professor as Advisor
The Graduate School requires that the student have a major professor to advise, supervise, and approve the Program of Study before registering for courses. The College will assign the incoming student to an initial advisor at the time of admission. A student may change advisors with the consent of the new advisor, approval by the Associate Dean for Academic Affairs, and upon notification of the student’s current advisor.

Program of Study
During the first semester the student, in consultation with the major professor, develops a program of study, obtains the consent of the advisor and submits it to the CEAS Graduate Programs Office for approval by the Associate Dean. To make subsequent changes, the student must follow the same process. Graduation requires successful completion of courses from an approved program of study. Students are recommended to obtain approval for an amended program of study before taking a course not on the current program of study.

Master’s Program Committee
The Master’s Program Committee is proposed by the major professor in consultation with the student. The Committee must include at least three graduate faculty, not all of whom are in the same department.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Engineering, MS: Industrial and Systems Engineering

The Master of Science in Engineering program is a flexible program designed to meet the needs of a wide variety of students. The program can be a stepping stone on the way to further studies and the pursuit of advanced research, such as can be obtained by pursuing the PhD. Or the program can provide a pathway to professional advancement through greater technical knowledge and intellectual maturity. The student, with the help and approval of a major advisor, can choose from a wide range of courses from throughout the College of Engineering and Applied Science (CEAS), and where appropriate, from other schools and colleges.

Students entering the Master of Science in Engineering program must choose an areas of concentration, from among the numerous choices offered. It is possible to complete the MS in Engineering without a concentration, but almost all students do complete one. The MS in Engineering program currently offers the following areas of concentration:

- Biomedical Engineering
- Civil Engineering
- Electrical and Computer Engineering
- Energy Engineering
- Engineering Management (admission to this concentration is suspended)
- Engineering Mechanics
- Industrial and Systems Engineering
- Manufacturing Engineering
- Materials Engineering
- Mechanical Engineering
- Occupational Biomechanics/Ergonomics

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these College requirements to be considered for admission to the program:
1. Undergraduate major in engineering, mathematics or a natural science.
2. Submission of official GRE (http://uwm.edu/graduateschool/admission/#gre) scores from a test taken within the last 5 years.

Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

**Credits and Courses**

Minimum degree requirements are 30 credits for the thesis option and 31 credits for the non-thesis option as outlined below. Of the courses offered in the College only those numbered 400 and above may be taken for graduate credit for this degree. Independent study courses (699 and 999) may be included in the minimum course credit requirements provided approval of a program of study including them has been obtained prior to registration in such courses. Typically, no more than three credits of independent study are allowed in the MS Program. Guidelines on acceptable independent study courses are available in the CEAS Graduate Programs Office. A student may not use courses that formed part of the requirements of a baccalaureate degree for subsequent graduate credit, except when those courses were part of CEAS Integrated BS/MS program.

**Thesis and Non-Thesis Options**

Students will be required to either the Thesis or Non-Thesis option in their program of study. If the student chooses the Non-Thesis option, then as permitted by the student’s department, the student must also choose between two methods of final evaluation: the Capstone Option and the Comprehensive Examination Option.

After 12 credits of coursework are completed, changes from Thesis to Non-Thesis option will not be allowed, except under exceptional circumstances to be considered on a case-by-case basis. Students may always change from a Non-Thesis to a Thesis option. Departments and faculty may make pursuing the Thesis option a requirement (or preference) of employment for TA’s, RA’s, and PA’s.

**Thesis Option**

All students are encouraged to undertake the thesis option. The degree requires the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Select a minimum of 12 credits in an approved technical program of studies</td>
<td>12</td>
</tr>
<tr>
<td>2.</td>
<td>Select 9 credits of approved electives</td>
<td>9</td>
</tr>
<tr>
<td>3.</td>
<td>Select 3 credits CEAS Graduate Seminar (Offered by each department and numbered 700)</td>
<td>3</td>
</tr>
<tr>
<td>4.</td>
<td>Select 6 credits of thesis</td>
<td>6</td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>30</td>
</tr>
</tbody>
</table>

At least 12 credits, not including thesis or the CEAS Graduate Seminar Course, must be in courses of 700 level or higher. At least 12 credits, including thesis, must be earned at UWM. The thesis may be written in absentia provided prior permission has been obtained from the major professor and the Associate Dean for Academic Affairs in the College of Engineering & Applied Science. Students in the thesis option must pass a final comprehensive examination, administered by the Master’s Program Committee, partially in defense of the thesis.

**Non-Thesis Capstone Option**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Select a minimum of 18 credits in an approved technical program of studies</td>
<td>18</td>
</tr>
<tr>
<td>2.</td>
<td>Select 9 credits of approved electives</td>
<td>9</td>
</tr>
<tr>
<td>3.</td>
<td>Select 1 credits CEAS Graduate Seminar (Offered by each department and numbered 700)</td>
<td>1</td>
</tr>
<tr>
<td>4.</td>
<td>Select 3 credits of a capstone project, using a 3 credit course that allows flexible independent study (either the Independent Study course or a specific capstone course)</td>
<td>3</td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>31</td>
</tr>
</tbody>
</table>

In addition to the requirements listed in the table above, at least 15 credits must be of 700 level or above.

For the capstone project, the student must submit a written proposal and receive approval from the advisor. The capstone project should be designed with the intent of leading to creative work based on the student’s background, and should be the equivalent of 3 credits of work to be completed over a single semester. Upon completion of the capstone, the student must submit a written report and give an oral presentation of the project to the Master’s Program Committee for approval.

**Non-Thesis Comprehensive Examination Option**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Select a minimum of 21 credits in an approved technical program of studies</td>
<td>21</td>
</tr>
<tr>
<td>2.</td>
<td>Select 9 credits of approved electives</td>
<td>9</td>
</tr>
<tr>
<td>3.</td>
<td>Select 1 credits CEAS Graduate Seminar (Offered by each department and numbered 700)</td>
<td>1</td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>31</td>
</tr>
</tbody>
</table>

In addition to the requirements listed in the table above, at least 15 credits must be of 700 level or above.

Mastery of the courses taken in the program of study may be demonstrated by one of the following:

1. The student submits a dossier of work, and passes an oral examination given by the Master’s Program Committee. Or
2. The student passes a written master’s comprehensive examination when it is offered by the department.

Departments allowing a written examination option will offer such exams at least once per semester, and will announce the date of the exam at least 60 days prior to the exam. The department also must provide a written description of the topics covered on the exam, including text books and chapters.

**Industrial and Systems Engineering Concentration**

A minimum of 15 credits of qualifying graduate courses in Industrial and Manufacturing Engineering, may include up to 3 credits each of Ind Eng 990 and Ind Eng 999.
greater technical knowledge and intellectual maturity. The student, with the help and approval of a major advisor, can choose from a wide range of courses from throughout the College of Engineering and Applied Science (CEAS), and where appropriate, from other schools and colleges.

Students entering the Master of Science in Engineering program must choose an area of concentration, from among the numerous choices offered. It is possible to complete the MS in Engineering without a concentration, but almost all students do complete one. \(^*\) Qualifying topics: Sustainable Energy Systems & Industrial Management; Connected Enterprise

\(^1\) The following qualifying course(s) are currently inactive: IND ENG 740.
Program Requirements

Major Professor as Advisor
The Graduate School requires that the student have a major professor to advise, supervise, and approve the Program of Study before registering for courses. The College will assign the incoming student to an initial advisor at the time of admission. A student may change advisors with the consent of the new advisor, approval by the Associate Dean for Academic Affairs, and upon notification of the student’s current advisor.

Program of Study
During the first semester the student, in consultation with the major professor, develops a program of study, obtains the consent of the advisor and submits it to the CEAS Graduate Programs Office for approval by the Associate Dean. To make subsequent changes, the student must follow the same process. Graduation requires successful completion of courses from an approved program of study. Students are recommended to obtain approval for an amended program of study before taking a course not on the current program of study.

Master’s Program Committee
The Master’s Program Committee is proposed by the major professor in consultation with the student. The Committee must include at least three graduate faculty, not all of whom are in the same department.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Engineering, MS: Materials Engineering
The Master of Science in Engineering program is a flexible program designed to meet the needs of a wide variety of students. The program can be a stepping stone on the way to further studies and the pursuit of advanced research, such as can be obtained by pursuing the PhD. Or the program can provide a pathway to professional advancement through greater technical knowledge and intellectual maturity. The student, with the help and approval of a major advisor, can choose from a wide range of courses from throughout the College of Engineering and Applied Science (CEAS), and where appropriate, from other schools and colleges.

Students entering the Master of Science in Engineering program must choose an areas of concentration, from among the numerous choices offered. It is possible to complete the MS in Engineering without a concentration, but almost all students do complete one. The MS in Engineering program currently offers the following areas of concentration:

- Biomedical Engineering
- Civil Engineering
- Electrical and Computer Engineering
- Energy Engineering
- Engineering Management (admission to this concentration is suspended)
- Engineering Mechanics
- Industrial and Systems Engineering
- Manufacturing Engineering
- Materials Engineering
- Mechanical Engineering
- Occupational Biomechanics/Ergonomics

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these College requirements to be considered for admission to the program:

1. Undergraduate major in engineering, mathematics or a natural science.
2. Submission of official GRE (http://uwm.edu/graduateschool/admission/#gre) scores from a test taken within the last 5 years.

Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

Credits and Courses
Minimum degree requirements are 30 credits for the thesis option and 31 credits for the non-thesis option as outlined below. Of the courses offered in the College only those numbered 400 and above may be taken for graduate credit for this degree. Independent study courses (699 and 999) may be included in the minimum course credit requirements provided approval of a program of study including them has been obtained prior to registration in such courses. Typically, no more than three credits of independent study are allowed in the MS Program. Guidelines on acceptable independent study courses are available in the CEAS Graduate Programs Office. A student may not use courses that formed part of the requirements of a baccalaureate degree for subsequent graduate credit, except when those courses were part of CEAS Integrated BS/MS program.

Thesis and Non-Thesis Options
Students will be required to either the Thesis or Non-Thesis option in their program of study. If the student chooses the Non-Thesis option, then as permitted by the student’s department, the student must also choose between two methods of final evaluation: the Capstone Option and the Comprehensive Examination Option.

After 12 credits of coursework are completed, changes from Thesis to Non-Thesis option will not be allowed, except under exceptional circumstances to be considered on a case-by-case basis. Program Requirements

Major Professor as Advisor

The Graduate School requires that the student have a major professor to advise, supervise, and approve the Program of Study before registering for courses. The College will assign the incoming student to an initial advisor at the time of admission. A student may change advisors with the consent of the new advisor, approval by the Associate Dean for Academic Affairs, and upon notification of the student's current advisor.

Program of Study

During the first semester the student, in consultation with the major professor, develops a program of study, obtains the consent of the advisor and submits it to the CEAS Graduate Programs Office for approval by the Associate Dean. To make subsequent changes, the student must follow the same process. Graduation requires successful completion of courses from an approved program of study. Students are recommended to obtain approval for an amended program of study before taking a course not on the current program of study.

Master's Program Committee

The Master's Program Committee is proposed by the major professor in consultation with the student. The Committee must include at least three graduate faculty, not all of whom are in the same department.

Time Limit

The student must complete all degree requirements within five years of initial enrollment.
Engineering, MS: Mechanical Engineering

The Master of Science in Engineering program is a flexible program designed to meet the needs of a wide variety of students. The program can be a stepping stone on the way to further studies and the pursuit of advanced research, such as can be obtained by pursuing the PhD. Or the program can provide a pathway to professional advancement through greater technical knowledge and intellectual maturity. The student, with the help and approval of a major advisor, can choose from a wide range of courses from throughout the College of Engineering and Applied Science (CEAS), and where appropriate, from other schools and colleges.

Students entering the Master of Science in Engineering program must choose an area of concentration, from among the numerous choices offered. It is possible to complete the MS in Engineering without a concentration, but almost all students do complete one. The MS in Engineering program currently offers the following areas of concentration:

- Biomedical Engineering
- Civil Engineering
- Electrical and Computer Engineering
- Energy Engineering
- Engineering Management (admission to this concentration is suspended)
- Engineering Mechanics
- Industrial and Systems Engineering
- Manufacturing Engineering
- Materials Engineering
- Mechanical Engineering
- Occupational Biomechanics/Ergonomics

Admission Requirements

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these College requirements to be considered for admission to the program:

1. Undergraduate major in engineering, mathematics or a natural science.
2. Submission of official GRE (http://uwm.edu/graduateschool/admission/gre) scores from a test taken within the last 5 years.

Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

Credits and Courses

Minimum degree requirements are 30 credits for the thesis option and 31 credits for the non-thesis option as outlined below. Of the courses offered in the College only those numbered 400 and above may be taken for graduate credit for this degree. Independent study courses (699 and 999) may be included in the minimum course credit requirements provided approval of a program of study including them has been obtained prior to registration in such courses. Typically, no more than three credits of independent study are allowed in the MS Program. Guidelines on acceptable independent study courses are available in the CEAS Graduate Programs Office. A student may not use courses that formed part of the requirements of a baccalaureate degree for subsequent graduate credit, except when those courses were part of CEAS Integrated BS/MS program.

Thesis and Non-Thesis Options

Students will be required to either the Thesis or Non-Thesis option in their program of study. If the student chooses the Non-Thesis option, then as permitted by the student's department, the student must also choose between two methods of final evaluation: the Capstone Option and the Comprehensive Examination Option.

After 12 credits of coursework are completed, changes from Thesis to Non-Thesis option will not be allowed, except under exceptional circumstances to be considered on a case-by-case basis. Students may always change from a Non-Thesis to a Thesis option. Departments and faculty may make pursuing the Thesis option a requirement (or preference) of employment for TA's, RA's, and PA's.

Thesis Option

All students are encouraged to undertake the thesis option. The degree requires the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

advisor at the time of admission. The College will assign the incoming student to an initial advise, supervise, and approve the Program of Study before registering for courses. The Graduate School requires that the student have a major professor to demonstrate by one of the following:

1. The student submits a dossier of work, and passes an oral examination given by the Master's Program Committee. Or
2. The student passes a written master's comprehensive examination when it is offered by the department.

Departments allowing a written examination option will offer such exams at least once per semester, and will announce the date of the exam at least 60 days prior to the exam. The department also must provide a written description of the topics covered on the exam, including text books and chapters.

Mechanical Engineering Concentration
A minimum of 15 credits of qualifying graduate courses in Mechanical Engineering.

Non-Thesis Comprehensive Examination Option

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select 3 credits of a capstone project, using a 3 credit course that allows flexible independent study (either the Independent Study course or a specific capstone course)</td>
<td>3</td>
</tr>
</tbody>
</table>

In addition to the requirements listed in the table above, at least 15 credits must be of 700 level or above.

For the capstone project, the student must submit a written proposal and receive approval from the advisor. The capstone project should be designed with the intent of leading to creative work based on the student's background, and should be the equivalent of 3 credits of work to be completed over a single semester. Upon completion of the capstone, the student must submit a written report and give an oral presentation of the project to the Master's Program Committee for approval.

Engineering, MS: Occupational Biomechanics/Ergonomics

The Master of Science in Engineering program is a flexible program designed to meet the needs of a wide variety of students. The program can be a stepping stone on the way to further studies and the pursuit of advanced research, such as can be obtained by pursuing the PhD. Or the program can provide a pathway to professional advancement through greater technical knowledge and intellectual maturity. The student, with the help and approval of a major advisor, can choose from a wide range of courses from throughout the College of Engineering and Applied Science (CEAS), and where appropriate, from other schools and colleges.

Students entering the Master of Science in Engineering program must choose an areas of concentration, from among the numerous choices offered. It is possible to complete the MS in Engineering without a concentration, but almost all students do complete one. The MS in Engineering program currently offers the following areas of concentration:

- Biomedical Engineering
- Civil Engineering
- Electrical and Computer Engineering
- Energy Engineering
- Engineering Management (admission to this concentration is suspended)
- Engineering Mechanics
- Industrial and Systems Engineering
- Manufacturing Engineering
- Materials Engineering
- Mechanical Engineering
- Occupational Biomechanics/Ergonomics

<td>1</td>
</tr>
</tbody>
</table>

In addition to the requirements listed in the table above, at least 15 credits must be of 700 level or above.

Mastery of the courses taken in the program of study may be demonstrated by one of the following:

1. The student submits a dossier of work, and passes an oral examination given by the Master's Program Committee. Or
2. The student passes a written master's comprehensive examination when it is offered by the department.

Program Requirements

Major Professor as Advisor
The Graduate School requires that the student have a major professor to advise, supervise, and approve the Program of Study before registering for courses. The College will assign the incoming student to an initial advisor at the time of admission. A student may change advisors with the consent of the new advisor, approval by the Associate Dean for Academic Affairs, and upon notification of the student's current advisor.

Program of Study
During the first semester the student, in consultation with the major professor, develops a program of study, obtains the consent of the advisor and submits it to the CEAS Graduate Programs Office for approval by the Associate Dean. To make subsequent changes, the student must follow the same process. Graduation requires successful completion of courses from an approved program of study. Students are recommended to obtain approval for an amended program of study before taking a course not on the current program of study.

Master's Program Committee
The Master's Program Committee is proposed by the major professor in consultation with the student. The Committee must include at least three graduate faculty, not all of whom are in the same department.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office.
All students are encouraged to undertake the thesis option. The degree may always change from a Non-Thesis to a Thesis option. Departments may consider on a case-by-case basis. Students who change to Non-Thesis option will not be allowed, except under exceptional circumstances to be considered by the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

Credits and Courses

Minimum degree requirements are 30 credits for the thesis option and 31 credits for the non-thesis option as outlined below. Of the courses offered in the College only those numbered 400 and above may be taken for graduate credit for this degree. Independent study courses (699 and 999) may be included in the minimum course credit requirements provided approval of a program of study including them has been obtained prior to registration in such courses. Typically, no more than three credits of independent study are allowed in the MS Program. Guidelines on acceptable independent study courses are available in the CEAS Graduate Programs Office. A student may not use courses that formed part of the requirements of a baccalaureate degree for subsequent graduate credit, except when those courses were part of CEAS Integrated BS/MS program.

Thesis and Non-Thesis Options

Students will be required to either the Thesis or Non-Thesis option in their program of study. If the student chooses the Non-Thesis option, then as permitted by the student’s department, the student must also choose between two methods of final evaluation: the Capstone Option and the Comprehensive Examination Option.

After 12 credits of coursework are completed, changes from Thesis to Non-Thesis option will not be allowed, except under exceptional circumstances to be considered on a case-by-case basis. Students may always change from a Non-Thesis to a Thesis option. Departments and faculty may make pursuing the Thesis option a requirement (or preference) of employment for TA’s, RA’s, and PA’s.

Thesis Option

All students are encouraged to undertake the thesis option. The degree requires the following:

At least 12 credits, not including thesis or the CEAS Graduate Seminar Course, must be in courses of 700 level or higher. At least 12 credits, including thesis, must be earned at UWM. The thesis may be written in absentia provided prior permission has been obtained from the major professor and the Associate Dean for Academic Affairs in the College of Engineering & Applied Science. Students in the thesis option must pass a final comprehensive examination, administered by the Master’s Program Committee, partially in defense of the thesis.

Occupational Biomechanics/Ergonomics Concentration

- Students must complete at least 6 credits of qualifying courses from Group A.
- Thesis option students must complete at least 18 credits combined of qualifying courses from Group A and Group B.
- Non-thesis option students must complete at least 24 credits combined from Group A and Group B.
- Students must complete at least 2, but no more than 3 credits, of INDENG 880.
- Any remaining credits in the MS in Engineering program of study may be taken as free electives.

Program Requirements

Major Professor as Advisor

The Graduate School requires that the student have a major professor to advise, supervise, and approve the Program of Study before registering for courses. The College will assign the incoming student to an initial advisor at the time of admission. A student may change advisors with the consent of the new advisor, approval by the Associate Dean for Academic Affairs, and upon notification of the student’s current advisor.

Program of Study

During the first semester the student, in consultation with the major professor, develops a program of study, obtains the consent of the advisor and submits it to the CEAS Graduate Programs Office for approval by the Associate Dean. To make subsequent changes, the student must follow the same process. Graduation requires successful completion of courses from an approved program of study. Students are recommended to obtain approval for an amended program of study before taking a course not on the current program of study.

Master’s Program Committee

The Master’s Program Committee is proposed by the major professor in consultation with the student. The Committee must include at least three graduate faculty, not all of whom are in the same department.

Time Limit

The student must complete all degree requirements within five years of initial enrollment.

Engineering, MS

The Master of Science in Engineering program is a flexible program designed to meet the needs of a wide variety of students. The program can be a stepping stone on the way to further studies and the pursuit of advanced research, such as can be obtained by pursuing the PhD. Or the program can provide a pathway to professional advancement through greater technical knowledge and intellectual maturity. The student, with the help and approval of a major advisor, can choose from a wide range of courses from throughout the College of Engineering and Applied Science (CEAS), and where appropriate, from other schools and colleges.

Students entering the Master of Science in Engineering program must choose an areas of concentration, from among the numerous choices offered. It is possible to complete the MS in Engineering without a concentration, but almost all students do complete one. The MS in Engineering program currently offers the following areas of concentration:

- Biomedical Engineering
- Civil Engineering
- Electrical and Computer Engineering
- Energy Engineering
- Engineering Management (admission to this concentration is suspended)
- Engineering Mechanics
- Industrial and Systems Engineering
- Manufacturing Engineering
- Materials Engineering
- Mechanical Engineering
- Occupational Biomechanics/Ergonomics

Admission Requirements

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these College requirements to be considered for admission to the program:

1. Undergraduate major in engineering, mathematics or a natural science.
2. Submission of official GRE (http://uwm.edu/graduateschool/admission/#gre) scores from a test taken within the last 5 years.

Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

Credits and Courses

Minimum degree requirements are 30 credits for the thesis option and 31 credits for the non-thesis option as outlined below. Of the courses offered in the College only those numbered 400 and above may be taken for graduate credit for this degree. Independent study courses (699 and 999) may be included in the minimum course credit requirements provided approval of a program of study including them has been obtained prior to registration in such courses. Typically, no more than three credits of independent study are allowed in the MS Program. Guidelines on acceptable independent study courses are available in the CEAS Graduate Programs Office. A student may not use courses that formed part of the requirements of a baccalaureate degree for subsequent graduate credit, except when those courses were part of CEAS Integrated BS/MS program.

Thesis and Non-Thesis Options

Students will be required to either the Thesis or Non-Thesis option in their program of study. If the student chooses the Non-Thesis option, then as permitted by the student's department, the student must also choose between two methods of final evaluation: the Capstone Option and the Comprehensive Examination Option.

After 12 credits of coursework are completed, changes from Thesis to Non-Thesis option will not be allowed, except under exceptional circumstances to be considered on a case-by-case basis. Students may always change from a Non-Thesis to a Thesis option. Departments and faculty may make pursuing the Thesis option a requirement (or preference) of employment for TA’s, RA’s, and PA’s.

Thesis Option

All students are encouraged to undertake the thesis option. The degree requires the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select a minimum of 12 credits in an approved technical program of studies</td>
<td>12</td>

Master’s Program Committee
The Master’s Program Committee is proposed by the major professor in consultation with the student. The Committee must include at least three graduate faculty, not all of whom are in the same department.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Engineering, MS/Urban Planning, MUP
In cooperation with the Department of Urban Planning, the College of Engineering and Applied Science offers a Master of Science in Engineering/Master of Urban Planning program to prepare students for positions in transportation, public works or similar areas.

Cooperating Departments:
Civil Engineering
Electrical Engineering and Computer Science
Industrial and Manufacturing Engineering
Materials
Mechanical Engineering

Admission Requirements
Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Credits and Courses
Students are required to meet the College of Engineering and Applied Science requirements for the Master of Science in Engineering degree as well as the requirements for a Master of Urban Planning degree as set by the Department of Urban Planning. Students in this program are required to take 15 credits in an approved program of technical studies in the College of Engineering and Applied Science, and 6 credits in nontransportation related engineering approved electives.

Students in the MS/MUP program are required to take 6 credits in the Department of Urban Planning as well as an additional 24 credits of core courses in the Department of Urban Planning. The total credit requirement for the MS/MUP program is 54 credits. Students in the MS/MUP program must also take and pass a comprehensive exam in Urban Planning.

Important
You must refer to the catalog pages of both individual master’s programs to ensure that you meet all requirements for both degrees.

Engineering, PhD

The Doctor of Philosophy, the highest degree offered by the University, is conferred in recognition of marked scholarship in a broad field of knowledge as well as distinguished critical or creative achievement within a special area of the general field (the special area being the subject of the doctoral dissertation). The Doctor of Philosophy (PhD) program in the College of Engineering and Applied Science (CEAS) is designed to meet the traditional high standards for such programs. The PhD in Engineering is administered by the CEAS Graduate Program Subcommittee (GPSC). Some aspects of the program are delegated to the CEAS Graduate Office and to the various departments of the College.

There are six major areas in the PhD program:

- Civil Engineering
- Computer Science
- Electrical Engineering
- Industrial Engineering
- Materials Engineering
- Mechanical Engineering

Each major is flexible, allowing the student to develop a plan of studies tailored to meet individual needs. Evaluation of the study plan is based on its appropriateness as an engineering or computer science program, the availability within the University of appropriate course offerings, and the availability within the College of a faculty member who is qualified to serve as the student's major professor.

The PhD degree requires a minimum of 66 credits beyond the baccalaureate, including a dissertation. The student must also satisfy a residence requirement.

Many of the courses leading toward graduate degrees in CEAS are offered in the late afternoon or evening. So, students can complete much of their coursework on a part-time basis.

Admission Requirements

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/Registrar/contact-us) online.

Admission

An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these College requirements to be considered for admission to the program:

1. A bachelor's or master's degree:
   a. Applicants holding a BS or MS degree in engineering or computer science, depending on the major area selected will generally be admitted without deficiencies.
   b. Applicants holding BS or MS degrees from domains outside of engineering or computer science may be admitted with specific program-defined course deficiencies, provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree. For the Engineering major areas, the BS or MS preparation generally must include mathematics equivalent to ELECENG 234 or MATH 234. For the Computer Science major area, the mathematics preparation must generally include mathematics equivalent to MATH 232. Otherwise, the made-up deficiencies must be sufficient to assure the Graduate Program Subcommittee that the applicant is able to proceed with advanced work directed toward the doctoral degree.

2. A minimum grade point average of 3.0 on the basis of 4.0, in the highest degree granted. An applicant with a master's degree in engineering or computer science having a GPA of less than 3.0, but at least equal to 2.75, may be admitted if substantial evidence can be submitted demonstrating that the applicant has the capacity to perform satisfactory doctoral work.

3. All applicants are required to submit a brief (1 or 2 page) statement describing their professional goals and at least two letters of reference.

4. The Graduate Record Examination (GRE) is required for all international and domestic applicants.

6. Applicants with a relevant master's degree who intend to complete an additional master's in engineering at UWM should announce their plans at the time of admission, and not later than the start of their second year into the PhD program.

Reapplication

A student who receives a master's degree at UWM must formally apply for admission to the Graduate School as a doctoral student before continuing studies that will be credited toward the Doctor of Philosophy in Engineering.

Credits and Courses

The minimum degree requirement is 66 graduate credits beyond the bachelor’s degree. The minimum credit distribution of coursework to be undertaken must be as follows depending on the option selected.

<table>

Total Credits: 66

The 6-credit requirement in mathematics and/or quantitative methods may be met by satisfactorily completing certain courses specified by the GPSC or by taking the minor in mathematics. When such courses also count for either the major or the minor area, the remaining credits may be taken as approved electives.
The student must achieve a 3.0 GPA separately in each of the following areas: the major area, the minor area, and the quantitative methods area.

The major area of concentration must be in one of the six areas approved for the PhD degree in the College. These areas are:

- Civil Engineering
- Computer Science
- Electrical Engineering
- Industrial Engineering
- Materials
- Mechanical Engineering

The minor is normally in another area offered in the College or in the physical sciences or mathematics or in management sciences. Consideration of any other area as a minor requires the prior approval of the GPSC.

A minimum of 26 credits, excluding doctoral thesis, must be at the 700 level or higher.

A minimum of 33 credits, including doctoral thesis, must be completed while enrolled at UWM in the PhD degree program. For students entering with a relevant master’s degree who intend to complete a second master’s and a PhD in Engineering at UWM, a minimum of 27 credits, including doctoral thesis, must be completed while enrolled in the doctoral program.

Students entering the program without a prior applicable master’s degree are limited to a total maximum transfer of 9 credits for courses taken elsewhere. Independent study courses (699 and 999) may be included in the minimum course credit requirements provided GPSC approval has been obtained prior to registration in such course. Typically no more than six credits of independent study are allowed in the PhD program. Guidelines on acceptable independent study courses are available in the CEAS Graduate Studies Office.

The GPSC or the major department may require candidates to complete certain courses as part of the requirement for the specific major or to meet the mathematics and/or quantitative methods requirement.

**Program Requirements**

**Major Professor as Advisor**

The Graduate School requires that the student must have a major professor to advise, supervise, and approve the program of study before registering for courses. The GPSC or its delegates will assign the incoming student to an initial Program Advisor at the time of admission. Prior to the completion of 12 credits (9 credits for part-time students), the student must select a major professor who will be the student’s thesis advisor. The student, in consultation with the major professor, develops a proposed program of studies which is submitted to the Graduate Program Subcommittee for approval. For subsequent changes, the student must file a revised program of study for approval.

**Foreign Language**

There is no foreign language requirement for the degree.

**Residence**

The program residence requirement is satisfied either by completing 8 or more graduate credits in two consecutive semesters, exclusive of summer sessions, or by completing 6 or more graduate credits in each of three consecutive semesters, exclusive of summer sessions.

**Qualifying Examination**

Each student in the program must take and pass a Qualifying Examination to demonstrate that the student is qualified for doctoral-level work. The Qualifying Examination is a written exam and is structured in two parts: Part 1 and Part 2. The examination is offered twice a year during the regular academic year. The content of the examination varies among the major areas of the PhD in Engineering program.

Students entering with only a bachelor’s degree or with a master’s degree in an area unrelated to their major area may take the Qualifying Examination for the first time after earning 12 credits of graduate work at UWM and must successfully pass the exam before earning 30 credits of graduate work at UWM.

Students admitted after completing an appropriate master’s degree must take this examination no later than the semester immediately after 18 credits of graduate work have been earned at UWM.

A student may take the Qualifying Examination twice. On the first attempt, the student must attempt both Part 1 and Part 2 of the examination.

- If the student passes both parts, then the student has passed the entire examination and will be permitted to proceed toward the Doctor of Philosophy degree.
- If the student fails both parts, then the student must take the entire exam again at its next offering.
- If a student passes only one of the two parts, then the student must take the examination again at its next offering, but may choose to take only the part of the examination that was not passed on the first attempt.
- If a passing grade is not obtained on the second attempt of the Qualifying Examination, the student will not be permitted to proceed toward the Doctor of Philosophy degree.

A student who fails the qualifying exam twice is subject to dismissal from the PhD in Engineering program. A student may appeal the failure and dismissal within 30 days of being notified of the failure. If the student does not appeal or the appeal is not granted, the College will recommend to the graduate school that the student be dismissed. A student who is dismissed from the PhD in Engineering program because of failing the qualifying exam may not be enrolled in the PhD in Engineering program for a complete calendar year. This does not preclude the student from being enrolled in any other degree program offered by the University. A student who wishes to re-enroll in the program after a calendar year has passed must apply as any other student would, including payment of fees. A student readmitted after having failed the qualifying exam twice must take the qualifying exam in the first semester of matriculation and this will count as the student’s first attempt at the exam. The student may appeal this requirement prior to the first scheduled day of classes. If the student fails the qualifying exam on this first attempt, the student is permitted the customary second attempt as described above. All appeals must be in writing and directed to the CEAS Associate Dean for Academic Affairs.

**Doctoral Program Committee**

The Doctoral Program Committee is proposed by the major professor in consultation with the student and the department. The Committee must include at least five graduate faculty (three from major area, one from minor area, and one from another area). The member from another area may be a person from outside the University (such as another university, a research laboratory, or a relevant industrial partner), provided that person meets graduate school requirements. The Committee may have
more than five members, provided that the majority of the Committee members are from the student's major field.

**Doctoral Preliminary Examination**
A student is admitted to candidacy only after successful completion of the doctoral preliminary examination conducted by the Doctoral Program Committee. This examination, which normally is oral, must be taken before the completion of 48 credits of graduate work toward the Doctor of Philosophy degree in Engineering and should be taken within the first seven years in the program. Prior to the examination, the student must present a proposal for a doctoral dissertation project. The examination may cover both graduate course material and items related to the proposed dissertation project.

**Dissertation and Dissertator Status**
The student must carry out a creative effort in the major area under the supervision of the major professor and report the results in an acceptable dissertation. The effort of the student and the major professor to produce the dissertation is reflected in the PhD in Engineering program requirement that the student complete at least 18 credits of doctoral thesis. After the student has successfully completed all degree requirements except the dissertation, the student may enter Dissertator Status. Achieving Dissertator Status requires successful completion of the Doctoral Preliminary Examination and prior approval of the student's advisor, the Doctoral Program Committee, and the GPSC of a dissertation proposal that outlines the scope of the project, the research method, and the goals to be achieved. Any proposal that may involve a financial commitment by the University also must be approved by the Office of the Dean. After having achieved Dissertator Status, the student must continue to register for 3 credits of doctoral thesis per semester during the academic year until the dissertation is completed.

**Dissertation Defense**
The final examination, which is oral, consists of a defense of the dissertation project. The doctoral defense examination may only be taken after all coursework and other requirements have been completed. The student must have Dissertator Status at the time of the defense.

**Time Limit**
All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.

For additional information see the Graduate School PhD requirements (http://uwm.edu/graduateschool/phd-requirements).

**Ergonomics, Graduate Certificate**

*The Certificate in Ergonomics is being revised; admission to the program is temporarily suspended.*

The Certificate in Ergonomics program is designed to provide a formal program of study for students who wish to pursue careers in ergonomics in industry, government, or academia.

**Admission Requirements**

**Application Deadlines**

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/Registrar/contact-us) online.

**Admission**

Students wishing to earn the certificate must be enrolled in a UWM master's or doctoral degree program in any department or be admitted as UWM non-degree graduate students (see below).

Graduate non-degree applicants can be admitted to CEAS provided they meet one of the following requirements:

- A bachelor's or higher degree with a GPA of 2.75 or better in engineering, medicine, industrial hygiene, safety, physical therapy, occupational therapy, nursing, educational psychology, human kinetics.
- A bachelor's or higher degree with a GPA of 2.75 or better with evidence of at least one year of experience in ergonomics and/or occupational health and safety related area.

**Application**

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted to a certificate program.

**Credits and Courses**

Students must complete the required 15 credit hours with a GPA of 3.0 or better from the following group of courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</tr>
</tbody>
</table>

**Certificate Requirements**

**Transfer Credit**
No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

**Grade Point Average Requirement**
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

**Articulation with Degree Programs**

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:

- Degree programs must approve the courses from certificates that can double count toward the degree.
• All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
• Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

**Time Limit**
Certificate program time limits shall be established as follows:

• 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
• 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.
INDUSTRIAL AND MANUFACTURING ENGINEERING

Industrial and manufacturing engineers are concerned with the design, improvement, installation, and operation of integrated systems of people, material, information, and energy for the development of environmentally sound and globally competitive enterprises.

Industrial/manufacturing engineers are needed in industries ranging from medical products and equipment manufacturing to automotive and electronic components manufacturing. Their skills benefit organizations such as hospitals, banks, airlines, telecommunications companies, and more. Some activities of an industrial/manufacturing engineer include: methods improvement; plant layout; integration of automation components (CAD and CAM); logistics; supply chain management; economic analysis; optimization of resources; quality control; reliability analysis; and ergonomics, i.e., design of workplaces, equipment, and tools for maximum productivity and employee comfort and safety.

In manufacturing companies, industrial/manufacturing engineers may be responsible for production and inventory control, quality control, plant layout, and work station design, and may lead the effort for the introduction of new technologies and other advancements. In service organizations these engineers may develop methods for optimal utilization of resources, such as doctors, nurses, and medical equipment in a hospital; determine the optimal number of communication lines and service level for a telephone company; participate in the development of a total quality management system for a bank, etc.

Mission Statement

The mission of the department is to provide a broad-based education in industrial and manufacturing engineering and to prepare students for a diversified career in industry, academia, government, and private sectors.

Programs

- Industrial Engineering, BSE (p. 749)
- Industrial Engineering, Minor (p. 752)

Industrial and Manufacturing Engineering Courses

IND ENG 111 Introduction to Engineering
3 cr. Undergraduate.
Introduction to Engineering Disciplines, problem solving methods, teamwork, technical communication, professionalism, and ethics.
Prerequisites: Math 116(C).
Course Rules: Counts as repeat of Ind Eng 210.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

IND ENG 112 Engineering Drawing & Computer Aided Design/Drafting
3 cr. Undergraduate.
Visualization, Engineering Drawing, CAD, Geographic Information Systems (GIS), Group Project, Team Work.
Prerequisites: Math 116(P).
Course Rules: Counts as repeat of Ind Eng 101.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

IND ENG 299 Independent Reading and Work
1-3 cr. Undergraduate.
Credit hours to be arranged between student and staff on an individual basis.
Prerequisites: cons instr.
Current Offerings: http://uwm.edu/schedule

IND ENG 350 Manufacturing Processes
3 cr. Undergraduate.
Broad study of processes and equipment used in modern production. Design considerations, economic factors, automation, metals and plastics processing, fabrication of electronic materials.
Prerequisites: MatlEng 201(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

IND ENG 360 Engineering Economic Analysis
3 cr. Undergraduate.
Concept of time value of money. Economical evaluation of alternate projects and replacement policies using methods such as present worth, rate of return, and annual cost. Engineering investment decision analysis.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

IND ENG 367 Introductory Statistics for Physical Sciences and Engineering Students
3 cr. Undergraduate.
Concepts of probability and statistics; probability distributions of engineering applications; sampling distributions; hypothesis testing; parameter estimation; regression analysis.
Prerequisites: B- or better in Math 211(P) or B- or better in Math 213(P) or C or better in Math 221(P) or C or better in Math 231(P)
Current Offerings: http://uwm.edu/schedule

IND ENG 370 Introduction to Operations Analysis
3 cr. Undergraduate.
Functions and philosophies of the contemporary engineer in the production/service environment as it is planned, designed, manufactured/delivered, maintained, controlled and distributed.
Prerequisites: Math 233(P)
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule
IND ENG 390 Senior Thesis
1-3 cr. Undergraduate.
Independent research under the direction of a faculty member; submission of a written thesis is required.
Prerequisites: sr st & cons instr.
Course Rules: 3 cr total required. Need not all be taken during the same semester.
Current Offerings: http://uwm.edu/schedule

IND ENG 405 Product Realization
3 cr. Undergraduate/Graduate.
This interdisciplinary course (engineering and art students) considers the diverse aspects of the product realization process.
Prerequisites: jr st & admis to Art & Design prog or IAT prog; or Ind Eng 350(P), 360(P), 370(P); or MechEng 321(P), 360(P), 366(P), 370(P); or grad st & cons instr.
Course Rules: Art 405, MechEng 405, & Ind Eng 405 are jointly offered; they count as repeats of one another. Counts as repeat of Art 402/Ind Eng 590/MechEng 490 with same topic.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

IND ENG 455 Operations Research I
3 cr. Undergraduate/Graduate.
Fundamental optimization methods; linear programming, integer programming, network models, and dynamic programming methods of operations research. Modeling and applications of these methods in practical situations.
Prerequisites: jr st; Math 233(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

IND ENG 455 Operations Research II
3 cr. Undergraduate/Graduate.
Concepts and methods of probabilistic modeling in queueing, forecasting, and inventory problems for design and analysis of manufacturing and service operations.
Prerequisites: jr st; Ind Eng 467(P) or MthStat 467(P) or equiv course in statistics.
Current Offerings: http://uwm.edu/schedule

IND ENG 470 Methods Engineering
3 cr. Undergraduate/Graduate.
Use of production machine for producing a simple product. Study of production sequence, material flow, plant layout; time and motion; and the economics of materials and methods of fabrication. Redesign of the product and the methods of production to minimize total costs within physical, social and aesthetic constraints.
Prerequisites: jr st; Ind Eng 467(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

IND ENG 475 Simulation Methodology
3 cr. Undergraduate/Graduate.
Fundamentals of discrete simulation. Random number and random variable generation for simulation modeling and analysis using simulation software.
Prerequisites: Ind Eng 467(P), CompSci 201(C).
Current Offerings: http://uwm.edu/schedule

IND ENG 485 Senior Design Project
3 cr. Undergraduate.
Capstone design projects involving design of a production/service system. Progress reports, final report, and presentation.
Prerequisites: sr st, Ind Eng 370(P), 455(P), 465(C), 470(C), 475(P), 571(C), 580(C), 583(C).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

IND ENG 499 Ad Hoc:
1-12 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

IND ENG 550 Control of Automated Manufacturing Systems
3 cr. Undergraduate/Graduate.
Theoretical and practical skills to design and control automated manufacturing systems and industrial processed through science-based theoretical advancements and state-of-the-art industrial applications.
Prerequisites: jr st; ElecEng 234(P), 301(P).
Current Offerings: http://uwm.edu/schedule

IND ENG 571 Quality Control
3 cr. Undergraduate/Graduate.
Statistical process quality design and control. Process control charts, six sigma and process capability assessment.
Prerequisites: jr st & Ind Eng 467(P) or equiv course in statistics; or grad st.
Current Offerings: http://uwm.edu/schedule

IND ENG 572 Reliability Engineering
3 cr. Undergraduate/Graduate.
Concepts and methods for the design, testing, and estimation of component and system reliabilities. Failures and failure rates; life tests; series-parallel, and standby systems; stress levels; redundancy and reliability apportionment; maintainability, availability, and safety; reliability design and implementation.
Prerequisites: jr st, Ind Eng 467(P) or equiv.
Current Offerings: http://uwm.edu/schedule

IND ENG 575 Design of Experiments
3 cr. Undergraduate/Graduate.
Statistical principles, designs and analyses for planned experimentation; factorial and fractional factorial designs, inner-out designs, robustness, confounding and blocking, and response surface methodology.
Prerequisites: Ind Eng 467(P) or equiv.
Current Offerings: http://uwm.edu/schedule

IND ENG 577 Dimensional Measurement and Tolerancing
3 cr. Undergraduate/Graduate.
Measurement techniques; implementation and integration of precision measuring equipment and gages in manufacturing systems; geometric dimensioning and tolerancing; and devices for statistical process control.
Prerequisites: sr st & Ind Eng 467(P).
Current Offerings: http://uwm.edu/schedule
IND ENG 580 Ergonomics
3 cr. Undergraduate/Graduate.
Broad study of ergonomics principles and stresses in design and analysis of workplaces and physical environment; 2 hrs lec & 2 hrs lab/week.
Prerequisites: jr st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

IND ENG 582 Ergonomic Job Evaluation Techniques
3 cr. Undergraduate/Graduate.
Review of popular, contemporary methods of job evaluation for risk of low back pain and distal upper extremity.
Prerequisites: sr st & Ind Eng 580(P).
Current Offerings: http://uwm.edu/schedule

IND ENG 583 Facility Layout and Material Handling
3 cr. Undergraduate/Graduate.
Basics in facility planning; design and integration of plant layout, material handling, and warehousing; quantitative models for facility location problems.
Prerequisites: sr st, Ind Eng 370(P), Ind Eng 455(C).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

IND ENG 584 Biodynamics of Human Motion
3 cr. Undergraduate/Graduate.
Techniques for collecting, analyzing and interpreting human motion data. Special emphasis will be placed on performing data analysis using the software package, Matlab.
Prerequisites: jr st, ElecEng 234(P); Civ Eng202(C).
Last Taught: Spring 2013, Spring 2012.
Current Offerings: http://uwm.edu/schedule

IND ENG 587 Lean Production Systems
3 cr. Undergraduate/Graduate.
An integrated approach to efficient manufacturing of products with high quality, low cost, and timely delivery including one-piece flow, pull system, and visual factory.
Prerequisites: Ind Eng 350(P).
Current Offerings: http://uwm.edu/schedule

IND ENG 590 Topics in Industrial and Systems Engineering:
1-3 cr. Undergraduate/Graduate.
Selected topics of current interest in an area of systems design.
Prerequisites: sr st.
Course Rules: May be retaken w/chg in topic to max of 9 cr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

IND ENG 699 Independent Study
1-3 cr. Undergraduate/Graduate.
Prerequisites: jr st; cons instr.
Course Rules: Limited to max of 6 cr applied toward undergraduate degree.
Last Taught: Spring 2018, Fall 2017, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

IND ENG 700 CEAS Graduate Seminar
1-3 cr. Graduate.
Seminar in professional ethics, oral and written communication, contemporary social issues, career development, time management, and laboratory safety.
Prerequisites: grad st
Course Rules: Civ Eng 700, CompSci 700, ElecEng 700, Ind Eng 700, MatlEng 700 & MechEng 700 are jointly offered and count as repeats of one another
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

IND ENG 716 Engineering Statistical Analysis
3 cr. Graduate.
Statistical methods and their applications to solve engineering decision-making problems, integrating computer usage. Inference, probability and probability distributions, data analysis, regression analysis, and anova.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

IND ENG 717 Operations Research in Engineering Management
3 cr. Graduate.
Various operations research techniques for engineering management decision-making. Linear programming, integer programming, network models, multi-objective decision-making, decision analysis, and queueing models.
Prerequisites: grad st; Ind Eng 716(P).
Last Taught: Fall 2016, Fall 2015, Fall 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

IND ENG 750 Group Technology and Process Planning
3 cr. Graduate.
Group technology and computer-aided process planning; classification and coding schemes, machine loading, production planning/scheduling models, process planning, expert systems in capp.
Prerequisites: grad st; Ind Eng 450 & 455.
Current Offerings: http://uwm.edu/schedule

IND ENG 751 Flexible Manufacturing Systems
3 cr. Graduate.
Hierarchy of manufacturing control, process control, advanced concepts in fms, optimal design planning and production scheduling in fms.
Prerequisites: grad st; Ind Eng 450 & 455.
Last Taught: Fall 2017, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

IND ENG 765 Operations Research Methods
3 cr. Graduate.
Formulation and application of mathematical models for the design of industrial systems. Mathematical programming, network flow, decision theory and simulation techniques are used for solving single and multi-stage production, inventory and service problems.
Prerequisites: grad st; Ind Eng 465 & 767.
Current Offerings: http://uwm.edu/schedule
IND ENG 772 Facilities Planning
3 cr. Graduate.
Modern techniques in facilities planning, location of the facility; systems approach, factors and evaluation. Systematic layout planning, computerized methods. Assembly line balancing, simulation techniques. Cpm and pert. Projects and laboratory work.
Prerequisites: grad st; Ind Eng 455 & 470.
Current Offerings: http://uwm.edu/schedule

IND ENG 777 Scheduling and realtime resource management
3 cr. Graduate.
Scheduling (allocation of resources over time) and realtime resource management techniques in highly informative production and service systems.
Prerequisites: grad st; Ind Eng 370(P), 475(P), 455(P), 465(P) or cons instr
Last Taught: Spring 2017, Spring 2015, Fall 2010.
Current Offerings: http://uwm.edu/schedule

IND ENG 780 Advanced Ergonomics - Low Back Pain
3 cr. Graduate.
An in-depth study of lbp causes, risk factors, preventive approaches, job evaluation/design techniques. 2 hr lec & 2 hr lab/week.
Prerequisites: grad st; Ind Eng 580(P); a course in anatomy & physiology or cons instr
Last Taught: Spring 2013, Fall 2009, Fall 2007, Fall 2005.
Current Offerings: http://uwm.edu/schedule

IND ENG 783 Advanced Ergonomics - Upper Extremity
3 cr. Graduate.
In depth study of musculoskeletal disorders of upper extremity, personal and job risk factors, job analysis, design and prevention. 2 hr lec & 2 hr lab/week.
Prerequisites: grad st; Ind Eng 580(P); a course in Anatomy & Physiology or cons instr
Current Offerings: http://uwm.edu/schedule

IND ENG 786 Applied Biostatistics in Ergonomics
3 cr. Graduate.
Statistical methods used in ergonomic studies to analyze, summarize, and report measurements and data. 2 hr lec & 2 hr lab/week.
Prerequisites: grad st; Ind Eng 580(P); a course in statistics or cons instr.
Course Rules: Jointly offered with & counts as repeat of OccThpy 786.
Current Offerings: http://uwm.edu/schedule

IND ENG 790 Design Project
2-3 cr. Graduate.
Integration and application of concepts learned in other ergonomic courses to analyze and abate ergonomic hazards in a scientific manner.
Prerequisites: grad st; Ind Eng 780(P), 783(P), 786(P), 788(P); or cons instr.
Course Rules: Jointly offered with & counts as repeat of OccThpy 790.
Current Offerings: http://uwm.edu/schedule

IND ENG 880 Bioengineering Seminar
1 cr. Graduate.
Presentations by bioengineering affiliated faculty, invited speakers, and graduate students.
Prerequisites: grad st
Course Rules: MechEng 880, ElecEng 880, CompSci 880, MatlEng 880, IndEng 880 & Civ Eng 880 are jointly offered and count as repeats of one another. May be repeated to 3 cr. max.
Current Offerings: http://uwm.edu/schedule

IND ENG 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Current Offerings: http://uwm.edu/schedule

IND ENG 890 Advanced Topics in Industrial and Systems Engineering:
1-3 cr. Graduate.
Topics vary. Advanced topics of current interest in an area of systems-design; review of recent literature. Subject matter may be student initiated. Specific topics and any additional prerequisites will be announced in the schedule of classes each time the course is offered.
Prerequisites: grad st.
Course Rules: May be repeated with change in topic to max of 9 cr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

IND ENG 990 Masters Thesis
1-9 cr. Graduate.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

IND ENG 998 Doctoral Thesis
1-12 cr. Graduate.
Prerequisites: grad st; cons instr & grad prog comm.
Current Offerings: http://uwm.edu/schedule

IND ENG 999 Advanced Independent Study
1-3 cr. Graduate.
Prerequisites: grad st; cons instr & grad prog committee.
Current Offerings: http://uwm.edu/schedule

Industrial Engineering, BSE

Industrial & Manufacturing Engineering is an operations and optimization science, focused on productivity, quality and continuous improvement of all business operations from acquisition of raw materials/resources to delivery of finished products/services to customers.

Industrial & Manufacturing Engineering is among the most far-reaching disciplines of engineering. Industrial and Manufacturing Engineers work in diverse industries within both the public and private sectors. Because of the flexibility and value of industrial engineering skills, employment opportunities are numerous and diverse.

Accreditation

The College of Engineering and Applied Science is accredited by the Engineering Accreditation Commission of ABET, 415 N. Charles Street, Baltimore, MD 21201, (410) 347-7700.

New Freshmen

Admission to the College of Engineering and Applied Science is based on an overall assessment of both academic and non-academic qualifications. The primary review factors for admission are the strength and quality of the high school curriculum, high school class percentile, grade point average, and the result of the ACT or SAT. Well-prepared freshman applicants will have four years of mathematics (including one-and-a-half years of algebra, one year of geometry, and one-half year of trigonometry) and four years of natural science (including biology, chemistry, and physics). The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Freshmen applicants will be considered for admission directly to the major or to the First-Year Program. Admission directly to the major is selective.

Transfer Students

Transfer student admission is based on an overall assessment of both academic and non-academic qualifications. For transfer applicants, the primary factors considered for admission are the grade point average on transferable courses and the level of curriculum completion. The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Transfer applicants will be considered for admission directly to the major or the Transfer Transition Program based on the number of transfer credits and GPA.

Admission to the Major

Students admitted to the First-Year Program or Transfer Transition Program (Engineering-Intended or Computer Science-Intended) may apply for major status with their academic advisor at the time they believe they meet the requirements. The program may impose major status as a prerequisite for courses numbered 200 or above.

1. Complete first semester calculus with a C or better grade.
2. Complete GER Oral and Written Communication Part A.
3. Engineering majors must complete Chem 100 with a C or better grade (or satisfactory score on the placement test). Computer Science majors must complete CompSci 251 with a C or better grade.
4. Obtain a minimum grade point as set by the major department. A 3.00 GPA guarantees admission to any CEAS major.
5. Courses required by the major may be repeated only once. No more than two courses may be repeated.

First-Year students have a maximum of three semesters to complete the admission to major requirements. Part-time students may be granted an extension by their academic advisor.

Transfer Transition students have a maximum of two semesters to complete the admission to major requirements. Part-time students may be granted an extension by their academic advisor.

Placement Testing

Most new freshmen are required to take placement exams in English and mathematics. Engineering students also take a placement exam in chemistry, provided they have had previous coursework in chemistry. Students with previous college-level credits in chemistry, English, and math may not be required to take placement tests. Additional prerequisite coursework may be required as a result of these placement tests. Credit for prerequisite academic work may not count toward the degree program. Entering students are urged to take their placement exams when scheduled. All placement exams must be completed before beginning coursework in the subject area. Students who place into precalculus math courses may be asked to participate in an online summer bridge program.

Questions on admission to CEAS or choosing a major should be directed to the Office of Student Services, (414) 229-4667.

Industrial Engineering Curriculum

The minimum number of credits required to complete the Bachelor of Science in Engineering with a major in industrial engineering is 125. Engineering students may apply for major status with their academic advisor at any time they believe they meet the requirements. Admission to major is a graduation requirement. Programs may impose major status as a prerequisite for courses numbered 200 or above.

Cultural Diversity - Arts, Humanities, or Social Science course must also satisfy UWM Cultural Diversity Requirement

**Free Electives**

Select 4 credits

---

**English Composition Requirement**

Satisfied by one of the following: 2

- Earning a satisfactory score on the English placement test;
- Earning a grade of C or higher in ENGLISH 102;
- Transferring a grade of C or higher in a course equivalent to ENGLISH 102 or higher expository writing course;
- Demonstrating ability by examination.

**Foreign Language Requirement**

Satisfied by one of the following: 0-8

- Two years of a single foreign language in high school;
- Two semesters of a single foreign language in college;
- Demonstrating ability by examination.

**Placement Examinations.** Once admitted to UWM, most engineering students are required to take placement examinations in mathematics, English, and chemistry. Students with previous college-level credits in these areas may not be required to take placement exams. The placement exams are administered by the UWM Testing Center, Mellencamp Hall, Room B28, (414) 229-4689. The results of these tests help students determine the appropriate course in which to register. Background prerequisite courses may be required in addition to the courses listed above.

**Approved Natural Science Elective Courses**

- Atmospheric Science 100 level or above
- BIO SCI 150 or above
- CES 210
- GEO SCI 100, GEO SCI 102, GEO SCI 150 or above
- MATH 240 or MATH 300 level or above
- Physics 300 level or above

**Technical Electives**

The industrial engineering program requires a total of 12 credits of technical electives, chosen from the following list. At least 6 credits must be in courses from IND ENG. All non-required IND ENG courses numbered 400-699 are approved technical electives.

**Code**

cases concerning the degree requirements and other academic rules. The appeals committee considers individual policy or rule. The content of each appeal is carefully reviewed in order to reach a decision. Appeals should be submitted in writing to the Office of Student Services. The appeals committee considers individual cases concerning the degree requirements and other academic rules and regulations established by the College of Engineering and Applied Science faculty.

The College of Engineering and Applied Science has established written procedures for undergraduate student academic grievances. Copies of the grievance procedure are available in the Office of Student Services. As a first step, students must discuss the grievance with the faculty member or administrator as soon as possible to attempt to resolve the issue, but not later than 30 days after the action that prompted the grievance/appeal.

Computer Science and Engineering Programs

Detailed descriptions of the CEAS undergraduate programs are provided in this catalog. All courses are not offered every semester. A few technical elective courses may be offered only once every three to four semesters. In addition, since computer science and engineering curricula are continually evolving to keep current, students are encouraged to consult with their advisors to plan each semester’s list of classes. Part-time students should always maintain a plan that looks ahead two to three semesters to avoid scheduling difficulties.

The curricula outlined in the pages are applicable to new students entering CEAS in fall 2016 or later. Students who enrolled in computer science or engineering programs prior to that date should consult with their advisors to plan each semester’s list of classes. Occasionally, a program change will be required of all students regardless of their date of matriculation, so long as it does not increase the total credits needed for graduation.

These program descriptions represent the minimum requirements for graduation from UWM in computer science or engineering. In all cases, it is important that students consult with their advisor before making course selections to avoid errors in programming.

Academic Advising

The Office of Student Services in the College of Engineering and Applied Science, located in Room E386 of the Engineering and Mathematical Sciences Building, offers undergraduate student academic advising from professional advisors who are familiar with the curriculum, College requirements, and the special needs of engineering and computer science students. These advisors provide services such as freshman orientation, course selection, program planning, and credit transfer evaluation. Students are assigned to a permanent professional advisor as soon as they are accepted into the College, and are urged to confer with their advisor at least once each semester. Students also are assigned to a faculty advisor who provides technical expertise specific to the student's area of study.

We understand that it can be a delicate balance managing school, work, family, and active social lives. The College of Engineering and Applied Science advisors are here to help you achieve that balance.

You will be assigned a professional academic advisor upon being admitted to the College of Engineering & Applied Science. Your advisor will work with you throughout your undergraduate experience, providing guidance on:
• course registration,
• graduation planning,
• career preparation,
• and serving as a liaison to the many other resources available on our campus.

Advisors are also a great source of information on student organizations, tutoring and scholarship opportunities.

In addition to professional academic advisors, you will also have access to faculty advisors. These advisors can provide insights into the technical aspects of the engineering and computer science curricula while mentoring you as you define your professional goals.

Program Educational Objectives
The educational objectives of the undergraduate Industrial Engineering Program are:

1. Graduates will have successful careers as professionals in industrial engineering or related fields.
2. Graduates contribute to improving efficiency, productivity, and/or quality of products manufactured or services provided by their organization.
3. Graduates demonstrate professionalism and continue their professional development.

Honors in the College of Engineering and Applied Science

Dean’s Honor List
GPA of 3.500 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Joint Programs with Other Campuses

Pre-engineering
Qualified students may enroll in coordinated pre-engineering programs at UW-Green Bay, UW-Parkside, and UW-Waukesha for two years of pre-engineering coursework. These coordinated programs ensure equivalent coursework, appropriate advising, and early access to the Cooperative Education Program at UWM.

Dual Degree Programs
Qualified students may enroll in coordinated dual degree programs at Alverno College, Carroll University, UW-Eau Claire, UW-Green Bay, UW-La Crosse, UW-Oshkosh, UW-Stevens Point, UW-Whitewater and Wisconsin Lutheran College. Students in these programs will earn a bachelor’s degree at both universities in five years. Students transfer to UWM after three years at the partner university. For more information, contact the Office of Student Services at (414) 229-4667.

Joint Programs with Wisconsin Technical Colleges

Gateway Technical College
An agreement with GTC allows those students having associate degrees in the Electrical Engineering - Technology the opportunity to be given credit for courses required in the UWM bachelor of science in engineering program. For more information, contact the Office of Student Services at (414) 229-4667.

Milwaukee Area Technical College
An agreement with MATC allows joint admission and enrollment at MATC and CEAS. Qualified students may take English, mathematics, chemistry, and general education courses at MATC. The program ensures equivalent coursework and appropriate advising. Students complete a bachelor of science degree in engineering or computer science at UWM.

Waukesha County Technical College
An agreement with WCTC allows those students having associate degrees in the Industrial Occupations Division at WCTC the opportunity to be given credit for courses required in the UWM bachelor of science in engineering or bachelor of science in computer science program. For more information, contact the Office of Student Services at (414) 229-4667.

Industrial Engineering, Minor
The minor in industrial and manufacturing engineering is ideally suited for:

• Business majors interested in strengthening their background in quantitative production operations management
• Computer Science majors interested in advanced optimization techniques
• Mechanical Engineering majors interested in development and implementation of integrated manufacturing systems
• Civil Engineering majors focusing on transportation where advanced optimization techniques may be useful

Requirements - 21 Credits
The program of study to obtain the minor in industrial and manufacturing engineering consists of four required courses and three elective courses.

If you are interested in an Industrial and Manufacturing Engineering minor, contact Student Services at ceas-adv@uwm.edu or (414) 229-4667. Student Services is located in the EMS building, Room E386.
INTEGRATED BS-MS DEGREE

Requirements

Admission
An Integrated BS-MS program is available for exceptional undergraduate students. In this program, students take 6 graduate credits while completing the BS degree.

Minimum admission requirements:

- 3.2 GPA.
- 36 credits or less remaining for the BS.
- Approval from their major department.

Application Process

- In consultation with their major professor, students must complete an Integrated BS/MS Program of Study Form. Students must indicate on the form which 6 graduate-level credits are being taken while completing the BS degree. Engineering students must have the form approved by the CEAS Office of Graduate Programs and Research. Computer Science students must have the form approved by the Graduate Program Representative for the CompSci MS Program. Students must have their Program of Study approved prior to the start of the final undergraduate semester and before starting graduate courses.
- Students must apply to the Graduate School. The MS degree requirements must be completed within five years of completion of the BS degree. Students in the Integrated Program are not required to take the GRE exam for admission to the Graduate School.

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Program of Study
Advanced standing will be granted to Integrated BS-MS students who have successfully completed six credits of pre-approved coursework at the graduate level with a grade of B or better. If a course has U/G status, the student must follow the syllabus and grading scale designated for graduate students. Once admitted to the Graduate School, students in the Integrated Program are not required to take the GRE exam for admission to the Graduate School.

</tr>
</tbody>
</table>

The following is a common requirement for both options: The students must have taken six Computer Science courses (specified below) or their equivalent prior to completion of the MS Program.

Appropriate courses satisfy the common requirement with the approval of the department.

The six courses are:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

<td></td>
</tr>
<tr>
<td>COMPSCI 537</td>
<td>Introduction to Operating Systems</td>
<td></td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>18</td>
</tr>
</tbody>
</table>

At most six credits of the above courses with UG credit may be used to satisfy the courses requirements of the two options.

In the thesis option, the student must register for thesis credits (COMPSCI 990) in at least two semesters.

Time Limit
The MS degree requirements must be completed within five years of the first enrollment in the Integrated Program.

Graduation
Students who withdraw from the Integrated Program may continue in the BS program and be awarded the bachelor’s degree.
MATERIALS ENGINEERING

In today’s world there is a constant demand for new materials of superior quality or with particular combinations of properties. It is the task of the materials engineer to use chemical and physical processes to provide new materials, more useful and valuable products, and improvements in the properties of existing materials on a cost-effective basis.

Materials engineering, like other branches of engineering, is based on mathematics, physics, and chemistry.

Necessarily, the engineer must work with every type of material, whether it be metal, glass, plastic, or naturally occurring rock or wood; and electrical conductors, semiconductors, or insulators, transparent or otherwise. The variety of available materials is as wide as the applications; to use them to good effect, the engineer must understand the nature of the substances that might be used for a particular purpose and the chemical and physical processes that are involved in their production.

Being in a central position in the development and design of new products, the materials engineer has excellent and varied career opportunities, extending from fundamental research through primary production processes and subsequent manufacturing to quality control and failure analysis.

Mission Statement

The Materials Department is committed to provide comprehensive undergraduate and graduate education in Materials Engineering, outstanding research, and service to our students, College, the University of Wisconsin-Milwaukee, and the community, as well as to active participation in professional societies.

Programs

• Materials Engineering, BSE (p. 759)
• Materials Engineering, Minor (p. 763)

Materials Engineering Courses

MATLENG 150 It’s a Material World: The Role of Materials in Society
3 cr. Undergraduate.
Introductory course on the nature of materials and their role in the development of society. Historical perspectives, current societal issues, and future trends are discussed.
Prerequisites: none.
General Education Requirements: NS+
Current Offerings: http://uwm.edu/schedule

MATLENG 201 Engineering Materials
4 cr. Undergraduate.
Basic behavior and processing of engineering materials emphasizing metals and alloys including ceramics and plastics. Laboratory work is included.
Prerequisites: Math 231(C), score of 1 on chem placement test or min grade C in Chem 100(P)
Current Offerings: http://uwm.edu/schedule

MATLENG 299 Topics in Materials
1-3 cr. Undergraduate.
Work on new material in materials. Section title and credits announced whenever course is offered.
Prerequisites: specific courses dependent on topic.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

MATLENG 330 Materials and Processes in Manufacturing
3 cr. Undergraduate.
Principles and practice of manufacturing processes for engineering materials. Processes include casting, forging, rolling, extrusion, sintering and machining. Laboratory work is included.
Prerequisites: MatEng 201(P).
Current Offerings: http://uwm.edu/schedule

MATLENG 380 Engineering Basis for Materials Selection
3 cr. Undergraduate.
The study of the basis for materials selection in the design of engineering systems. Materials design parameters, classes of materials case studies in material's selections.
Prerequisites: MatEng 201(P).
Current Offerings: http://uwm.edu/schedule

MATLENG 385 Introduction to Biomaterials
3 cr. Undergraduate.
Introduction to the fundamentals of biomaterials including ceramics, metals, and polymers. Important issues in the selection, design, manufacturing, and evaluation of biomaterials. Current applications, and emerging technologies.
Prerequisites: jr st, MatEng 201(P).
Course Rules: Jointly offered with 8 counts as repeat of BME 385.
Current Offerings: http://uwm.edu/schedule

MATLENG 402 Physical Metallurgy
3 cr. Undergraduate/Graduate.
Crystal binding and electron theory of solids, phase diagrams, diffusion, nucleation and growth, recrystallization, precipitation hardening, solidification, austenite decomposition.
Prerequisites: jr st, MatEng 201(P).
Current Offerings: http://uwm.edu/schedule

MATLENG 410 Mechanical Behavior of Materials
3 cr. Undergraduate/Graduate.
An introduction to the mechanical behavior of metals, ceramics, polymers and composite materials. Topics include elastic, plastic and viscoelastic deformation, fracture, fatigue, and creep.
Prerequisites: jr st, MatEng 201(P); or grad st; or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MATLENG 411 Materials Laboratory
3 cr. Undergraduate.
Experiments demonstrating the basic laws governing the structure, properties, and processing of materials.
Prerequisites: sr st; MatEng 201(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

http://uwm.edu/schedule
MATLENG 431 Welding Engineering
3 cr. Undergraduate/Graduate.
An engineering course on joining processes; reaction of materials to welding, brazing and soldering; distortion; process and material selection and structural engineering considerations.
Prerequisites: jr st; MatlEng 201(P).
Last Taught: Spring 2018, Fall 2013, Fall 2011, Fall 2007.
Current Offerings: http://uwm.edu/schedule

MATLENG 442 Thermodynamics of Materials
3 cr. Undergraduate/Graduate.
Third law of thermodynamics; application of thermodynamics to materials processes and systems; behavior of solutions; reaction equilibria.
Prerequisites: jr st, admis to MatlEng major, MatlEng 201(P); or grad st; or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MATLENG 443 Transport Phenomena in Materials Processing
3 cr. Undergraduate/Graduate.
A study of phenomena related to transport of mass, energy, and momentum with applications to materials processing.
Prerequisites: jr st, MatlEng 442(P); & ElecEng 234(P) or Math 234(P); or grad st.
Current Offerings: http://uwm.edu/schedule

MATLENG 452 Ceramic Materials
3 cr. Undergraduate/Graduate.
Ceramic bonding, crystallography and structure, defects and Brouwer diagram, mass and electrical transport of ceramics, phase equilibria, mechanical properties, and processing of ceramics including sintering.
Prerequisites: jr st, MatlEng 201(P); or grad st.
Course Rules: Not open for cr to students with cr in MatlEng 451(ER).
Last Taught: Fall 2017, Fall 2016, Spring 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

MATLENG 453 Polymeric Materials
3 cr. Undergraduate/Graduate.
Structure, crystallinity of polymers, amorphous polymers and elastomers, synthesis method, polymerization, copolymerization, polymer characterization, polymer solutions, and viscoelasticity, deformation mechanics of polymers.
Prerequisites: jr st, MatlEng 201(P); or grad st.
Course Rules: Not open for cr to students with cr in MatlEng 451(ER).
Current Offerings: http://uwm.edu/schedule

MATLENG 456 Metal Casting Engineering
3 cr. Undergraduate/Graduate.
Pattern and core design; molding technology; pouring and feeding castings; metallurgy of cast engineering alloys and their foundry practice; casting design.
Prerequisites: jr st; MatlEng 201(P).
Course Rules: MatlEng 456(421) and MechEng 456 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

MATLENG 457 Engineering Composites
3 cr. Undergraduate/Graduate.
Prerequisites: jr st; MatlEng 201(P).
Course Rules: MatlEng 457(455) & MechEng 457 are jointly offered; they count as repeats of each other.
Current Offerings: http://uwm.edu/schedule

MATLENG 460 Nanomaterials and Nanomanufacturing
3 cr. Undergraduate/Graduate.
Structure, properties, processing and manufacture of nanoparticles, nanotubes, nanofibers, bulk nanomaterials, nanocomposites including polymer, metal, ceramic, natural and biocomposites; nanofluidics, nanorheology, nanomachines, and nanotribology.
Prerequisites: jr st; MatlEng 201(P).
Course Rules: MatlEng 460 & MechEng 460 are jointly offered; they count as repeats of each other.
Current Offerings: http://uwm.edu/schedule

MATLENG 461 Environmental Degradation of Materials
3 cr. Undergraduate/Graduate.
Technical and economic aspects of material degradation including corrosion and corrosion control. Forms of corrosion, other degradation mechanisms, thermodynamics, kinetics, materials, design, protection strategies.
Prerequisites: jr st; MatlEng 201(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MATLENG 465 Friction and Wear
3 cr. Undergraduate/Graduate.
Friction and wear of engineering materials. Effect of environment, surface interactions, lubrication, and material properties. Techniques of analysis and measurement.
Prerequisites: jr st; MatlEng 201(P).
Course Rules: Not open to students who have cr in MechEng 465, which is identical to MatlEng 465.
Last Taught: Fall 2017, Fall 2016, Spring 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

MATLENG 471 Heat Treatment of Materials
3 cr. Undergraduate/Graduate.
Study of the heat treatment processes and their effect on the microstructure and properties of metals. Emphasis is on steels, but all alloy systems of importance are covered.
Prerequisites: jr st; MatlEng 201(P).
Current Offerings: http://uwm.edu/schedule

MATLENG 481 Electronic Materials
3 cr. Undergraduate/Graduate.
Prerequisites: jr st; MatlEng 201(P) or cons instr.
Current Offerings: http://uwm.edu/schedule
MATLENG 483 Materials for Energy Systems
3 cr. Undergraduate/Graduate.
Processing, structure, and properties of materials used in energy systems. Focus on materials applied to solid oxide fuel cells, photovoltaics, and advanced secondary batteries.
Prerequisites: jr st, MatlEng 201(P).
Last Taught: Fall 2017, Fall 2016, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MATLENG 490 Senior Design Projects I
1 cr. Undergraduate.
Project identification and planning; proposals, project management, ethics, professional responsibilities, standards and team procedures. Written and oral engineering reports and proposals. For first semester seniors.
Prerequisites: sr st, MatlEng 411(C).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

MATLENG 491 Senior Design Projects II
3 cr. Undergraduate.
Independent and team design projects under the direction of a faculty member. Written and oral engineering reports must be submitted on each design project undertaken.
Prerequisites: MatlEng 490(P).
Current Offerings: http://uwm.edu/schedule

MATLENG 511 Advanced Materials Characterization
3 cr. Undergraduate/Graduate.
Theory and operation of advanced materials characterization instrumentation including thermal analysis (TGA, DSC, DMA), XRD, SEM/EDS, FTIR/Raman, 3D confocal microscopy. Prereq: jr st & MatlEng 411(P).
Prerequisites:
Current Offerings: http://uwm.edu/schedule

MATLENG 585 Advanced Biomaterials
3 cr. Undergraduate/Graduate.
Theory and application of advanced biomaterials including cardiovascular devices, orthopedic applications, drug delivery systems, biosensors, and tissue engineering.
Prerequisites: sr st, MatlEng 385(P) or BME 385(P); or cons instr.
Course Rules: Jointly offered with & counts as repeat of BME 585.
Current Offerings: http://uwm.edu/schedule

MATLENG 690 Topics in Materials:
3 cr. Undergraduate/Graduate.
Lectures on special topics in materials engineering and science.
Prerequisites: jr st; cons instr.
Course Rules: May be retaken w/chg in topic to max of 9 cr.
Last Taught: Spring 2017, Fall 2015, Fall 2014, Fall 2012.
Current Offerings: http://uwm.edu/schedule

MATLENG 699 Independent Study
1-3 cr. Undergraduate/Graduate.
Prerequisites: jr st; cons instr.
Course Rules: May be retaken to max of 6 cr applied toward undergraduate degree.
Current Offerings: http://uwm.edu/schedule

MATLENG 700 CEAS Graduate Seminar
1-3 cr. Graduate.
Seminar in professional ethics, oral and written communication, contemporary social issues, career development, time management, and laboratory safety.
Prerequisites: grad st
Course Rules: CIV 700, CompSci 700, ElecEng 700, Ind Eng 700, MatlEng 700 & MechEng 700 are jointly offered and count as repeats of one another
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MATLENG 701 Properties of Solids
3 cr. Graduate.
The applications of physics to the understanding of the properties of solids, including lattice mechanics, band theory, electrical, thermal, magnetic, and defect properties.
Prerequisites: MatlEng 402(P).
Last Taught: Spring 2018, Spring 2016, Fall 2014, Fall 2012.
Current Offerings: http://uwm.edu/schedule

MATLENG 702 Advanced Materials Thermodynamics
3 cr. Graduate.
Thermodynamics of materials including solutions, mixtures, and interfaces. Topics including statistical interpretation of entropy, chemical reactions, Ellingham diagrams, phase diagrams, and intermediate phases.
Prerequisites: grad st; MatlEng 442(P)
Current Offerings: http://uwm.edu/schedule

MATLENG 710 Advanced Mechanical Behavior of Materials
3 cr. Graduate.
Advanced topics on the mechanical properties of materials including plasticity, anelasticity, fracture, creep, fatigue, and the effects of temperature, rates, and processing history.
Prerequisites: grad st; MatlEng 410(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2014.
Current Offerings: http://uwm.edu/schedule

MATLENG 720 Kinetic Processes in Materials
3 cr. Graduate.
Absolute reaction rate theory, defects in materials, diffusion, phase transformation in metals.
Prerequisites: grad st; MatlEng 442(P).
Current Offerings: http://uwm.edu/schedule

MATLENG 731 Deformation Processing
3 cr. Graduate.
Application of engineering principles to shape generation by deformation processing. Analysis of forging, stamping, drawing. Effect of deformation material properties and behavior.
Prerequisites: grad st; MatlEng 410(P).
Last Taught: Fall 2017, Fall 2004.
Current Offerings: http://uwm.edu/schedule
MATLENG 732 Solidification Processing
3 cr. Graduate.
Solidification phenomena and its engineering application to metals, semiconductors, ceramics, properties of cast products. Foundry processes.
Prerequisites: grad st; Matleng 330(P).
Course Rules: MatEng 732 and MechEng 732 are jointly offered; they count as repeats of each other.
Last Taught: Fall 2016, Fall 2014, Spring 2013, Fall 2008.
Current Offerings: http://uwm.edu/schedule

MATLENG 740 Heterogeneous Equilibria
3 cr. Graduate.
Quantitative description of heterogeneous equilibria for unary, binary, and ternary systems from the thermodynamic point of view; composite systems and current experimental techniques in high temperature materials.
Prerequisites: grad st; MechEng 301(P); MatlEng 201(P).
Last Taught: Fall 2013, Fall 2011, Fall 2009, Spring 2008.
Current Offerings: http://uwm.edu/schedule

MATLENG 750 Thin Solid Films
3 cr. Graduate.
Application of materials science to thin films. Nucleation, growth, and characterization. Discussion of optical, electrical, and mechanical behavior in terms of atomic order and chemistry. Consideration of specific deposition methods and applications.
Prerequisites: grad st; MatlEng 201(P) & Physics 210(P).
Current Offerings: http://uwm.edu/schedule

MATLENG 760 Surface Analysis of Solids
3 cr. Graduate.
Prerequisites: grad st or cons instr.
Current Offerings: http://uwm.edu/schedule

MATLENG 880 Bioengineering Seminar
1 cr. Graduate.
Presentations by bioengineering affiliated faculty, invited speakers, and graduate students.
Prerequisites: grad st
Course Rules: MechEng 880, ElecEng 880, CompSci 880, MatlEng 880, Ind Eng 880 & Civ Eng 880 are jointly offered and count as repeats of one another. May be repeated to 3 cr. max.
Current Offerings: http://uwm.edu/schedule

MATLENG 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirements.
Prerequisites: grad st.
Course Rules: Fee assessed for 1 cr.
Current Offerings: http://uwm.edu/schedule

MATLENG 890 Advanced Topics in Materials:
3 cr. Graduate.
Lectures on special topics in materials engineering and science.
Prerequisites: grad st; cons instr.
Course Rules: May be repeated with change in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

MATLENG 990 Masters Thesis
1-9 cr. Graduate.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

MATLENG 998 Doctoral Thesis
1-12 cr. Graduate.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

MATLENG 999 Advanced Independent Study
1-3 cr. Graduate.
Prerequisites: grad st; cons instr & grad prog committee.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

Materials Engineering, BSE

Everything we use is made of some material or combination of materials. Materials science is involved with all the processes that turn natural resources into useful products that impact all facets of our economy such as aerospace, electronics, transportation, communication, construction, recreation, entertainment and environment.

Concentrations

- Biomaterials
- Materials for energy application
- Materials processing
- Advanced materials characterization
- Metal casting
- Specific courses in ceramics, polymers, composites, and electronic materials

Research

Work with faculty (http://uwm.edu/engineering/classification/faculty/materials-science-engineering) engaged in leading-edge research in areas such as:

- Polymer solar cells
- Materials for advanced drug delivery
- Manufacturing processes
- Structural analysis of aerospace materials
- Materials for energy storage
- Application of nanomaterials in construction
- Self-healing metals and advanced metal-matrix composites

Career Paths

Materials engineers work in a wide range of jobs across diverse industries. Many of today’s significant scientific and technological advances come from materials engineers.

- Research Scientist
- Application Technologist
- Materials and Process Engineer
- Quality Engineer
- Materials Engineering Manager
- Product Engineer
- Geotechnical / Materials Engineer

Accreditation

The materials engineering program is accredited by the Engineering Accreditation Commission of ABET, 415 N. Charles Street, Baltimore, MD 21201, (410) 347-7700.

New Freshmen

Admission to the College of Engineering and Applied Science is based on an overall assessment of both academic and non-academic qualifications. The primary review factors for admission are the strength and quality of the high school curriculum, high school class percentile, grade point average, and the result of the ACT or SAT. Well-prepared freshman applicants will have four years of mathematics (including one-and-a-half years of algebra, one year of geometry, and one-half year of trigonometry) and four years of natural science (including biology, chemistry, and physics). The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Freshmen applicants will be considered for admission directly to the major or to the First-Year Program. Admission directly to the major is selective.

Transfer Students

Transfer student admission is based on an overall assessment of both academic and non-academic qualifications. For transfer applicants, the primary factors considered for admission are the grade point average on transferable courses and the level of curriculum completion. The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Transfer applicants will be considered for admission directly to the major or the Transfer Transition Program based on the number of transfer credits and GPA.

Admission to the Major

Students admitted to the First-Year Program or Transfer Transition Program (Engineering-Intended or Computer Science-Intended) may apply for major status with their academic advisor at the time they believe they meet the requirements. The program may impose major status as a prerequisite for courses numbered 200 or above.

1. Complete first semester calculus with a C or better grade.
2. Complete GER Oral and Written Communication Part A.
3. Engineering majors must complete Chem 100 with a C or better grade (or satisfactory score on the placement test). Computer Science majors must complete CompSci 251 with a C or better grade.
4. Obtain a minimum grade point as set by the major department. A 3.00 GPA guarantees admission to any CEAS major.
5. Courses required by the major may be repeated only once. No more than two courses may be repeated.

First-Year students have a maximum of three semesters to complete the admission to major requirements. Part-time students may be granted an extension by their academic advisor.

Transfer Transition students have a maximum of two semesters to complete the admission to major requirements. Part-time students may be granted an extension by their academic advisor.

Placement Testing

Most new freshmen are required to take placement exams in English and mathematics. Engineering students also take a placement exam in chemistry, provided they have had previous coursework in chemistry. Students with previous college-level credits in chemistry, English, and math may not be required to take placement tests. Additional prerequisite coursework may be required as a result of these placement tests. Credit for prerequisite academic work may not count toward the degree program. Entering students are urged to take their placement exams when scheduled. All placement exams must be completed before beginning coursework in the subject area. Students who place into
precalculus math courses may be asked to participate in an online summer bridge program.

Questions on admission to CEAS or choosing a major should be directed to the Office of Student Services, (414) 229-4667.

**Materials Engineering Curriculum**

The minimum number of credits required to complete the Bachelor of Science in Engineering with a major in materials engineering is 124. Students who need background preparation courses in math, English, foreign language, and chemistry may need additional credits. Engineering students may apply for major status with their academic advisor at any time they believe they meet the requirements. Admission to major is a graduation requirement. Programs may impose major status as a prerequisite for courses numbered 200 or above.

**English Composition Requirement**

Satisfied by one of the following: 0-6

- Earning a satisfactory score on the English placement test; or
- Earning a grade of C or higher in ENGLISH 102; or
- Transferring a grade of C or higher in a course equivalent to ENGLISH 102 or higher expository writing course; or

**Foreign Language Requirement**

Satisfied by one of the following: 0-8

- Two years of a single foreign language in high school; or
- Two semesters of a single foreign language in college; or
- Demonstrate ability by examination.

1. COMPSCI 151, COMPSCI 202 or COMPSCI 250 may substitute for COMPSCI 240.
2. Placement Examinations. Once admitted to UWM, most engineering students are required to take placement examinations in mathematics, English, and chemistry. Students with previous college-level credits in these areas may not be required to take placement exams. The placement exams are administered by the UWM Testing Center, Mellencamp Hall, Room B28, (414) 229-4689. The results of these tests help students determine the appropriate course in which to register. Background prerequisite courses may be required in addition to the courses listed above.

3. MATH 234 may substitute for ELECENG 234.

**Technical Electives**

24 credits of technical electives are to be selected from the following lists.

**Group A1 Technical Electives (Structure)**

Select at least 2 courses from the following:
as appropriate. Advancement to major status is required for graduation.

Students must maintain an average GPA of at least 2.00 in all work attempted at the University and in all courses offered by the College. Students majoring in biomedical engineering, computer engineering, computer science, industrial engineering, and materials engineering must maintain an average GPA of at least 2.00 in all 300-level and above courses in the student’s major department. Students majoring in civil engineering, electrical engineering, and mechanical engineering must maintain an average GPA of at least 2.50 in all 300-level and above courses in the major department. Transferable courses will be included as appropriate. Advancement to major status is required for graduation.

Minimum Requirements

Students must maintain an average GPA of at least 2.00 on all work attempted at the University and in all courses offered by the College. Students majoring in biomedical engineering, computer engineering, computer science, industrial engineering, and materials engineering must maintain an average GPA of at least 2.00 in all 300-level and above courses in the student’s major department. Students majoring in civil engineering, electrical engineering, and mechanical engineering must maintain an average GPA of at least 2.50 in all 300-level and above courses in the major department. Transferable courses will be included as appropriate. Advancement to major status is required for graduation.

In order to provide maximum flexibility while preserving the institutional identity of a UWM degree, the College requires residence:

1. during the last 30 credits, or
2. during 45 of the last 60 credits, or
3. during any 90 credits of a student’s undergraduate career.

At least 15 credits of advanced work in the major must be completed in residence at UWM.

A student who does not maintain continuous registration during the academic year and is re-admitted to the College must meet the program and graduation requirements in effect at the time of re-entry.

Degree and major requirements must be completed within 10 years of initial enrollment at UW-Milwaukee. Should students not complete the major within the 10-year time frame, the students will switch to the most current degree and major requirements. A new 10-year time frame would then begin.

Dual Majors

Students wishing to major in more than one field can do so in two ways:

1. Complete the requirements for more than one major before receiving a degree from the College. In this case, the degree will list both majors.
2. Be admitted to the College as a second degree candidate (after earning a bachelor's degree in any field), providing University and College entrance requirements are met. Such a student must meet all undergraduate degree requirements in the College and present a minimum of 30 credits beyond the previous bachelor’s degree.

Concurrent Registration at Other Institutions

CEAS students wishing to establish concurrent enrollment at another institution must obtain prior permission from their academic advisor.

Student Academic Appeals

Students may appeal an academic action to the Office of Student Services. An appeal is a request for an exception to an established policy or rule. The content of each appeal is carefully reviewed in order to reach a decision. Appeals should be submitted in writing to the Office of Student Services. The appeals committee considers individual cases concerning the degree requirements and other academic rules and regulations established by the College of Engineering and Applied Science faculty.

The College of Engineering and Applied Science has established written procedures for undergraduate student academic grievances. Copies of the grievance procedure are available in the Office of Student Services. As a first step, students must discuss the grievance with the faculty member or administrator as soon as possible to attempt to resolve the issue, but not later than 30 days after the action that prompted the grievance/appeal.

Computer Science and Engineering Programs

Detailed descriptions of the CEAS undergraduate programs are provided in this catalog. All courses are not offered every semester. A few technical elective courses may be offered only once every three to four
The curricula outlined in the pages are applicable to new students entering CEAS in fall 2016 or later. Students who enrolled in computer science or engineering programs prior to that date should consult with the appropriate previous editions of this catalog for information about their program requirements. As a general rule, when program changes occur, continuing students have the choice of continuing in their existing program or following the new requirements. Occasionally, a program change will be required of all students regardless of their date of matriculation, so long as it does not increase the total credits needed for graduation.

These program descriptions represent the minimum requirements for graduation from UWM in computer science or engineering. In all cases, it is important that students consult with their advisor before making course selections to avoid errors in programming.

**Academic Advising**

The Office of Student Services in the College of Engineering and Applied Science, located in Room E386 of the Engineering and Mathematical Sciences Building, offers undergraduate students academic advising from professional advisors who are familiar with the curriculum, College requirements, and the special needs of engineering and computer science students. These advisors provide services such as freshman orientation, course selection, program planning, and credit transfer evaluation. Students are assigned to a permanent professional advisor as soon as they are accepted into the College, and are urged to confer with their advisor at least once each semester. Students also are assigned to a faculty advisor who provides technical expertise specific to the student’s area of study.

We understand that it can be a delicate balance managing school, work, family, and active social lives. The College of Engineering and Applied Science advisors are here to help you achieve that balance.

You will be assigned a professional academic advisor upon being admitted to the College of Engineering & Applied Science. Your advisor will work with you throughout your undergraduate experience, providing guidance on:

- course registration,
- graduation planning,
- career preparation,
- and serving as a liaison to the many other resources available on our campus.

Advisors are also a great source of information on student organizations, tutoring and scholarship opportunities.

In addition to professional academic advisors, you will also have access to faculty advisors. These advisors can provide insights into the technical aspects of the engineering and computer science curricula while mentoring you as you define your professional goals.

**Program Educational Objectives**

The educational objectives of the undergraduate Materials Engineering Program are:

1. Graduates have successful careers in materials engineering and/or related fields, including graduate education.
2. Graduates utilize their materials engineering knowledge to address contemporary issues for society.
3. Graduates apply their knowledge of materials engineering to problem solving and projects in their chosen field of employment.

**Honors in the College of Engineering and Applied Science**

**Dean's Honor List**

GPA of 3.500 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Joint Programs with Other Campuses**

**Pre-engineering**

Qualified students may enroll in coordinated pre-engineering programs at UW-Green Bay, UW-Parkside, and UW-Waukesha for two years of pre-engineering coursework. These coordinated programs ensure equivalent coursework, appropriate advising, and early access to the Cooperative Education Program at UWM.

**Dual Degree Programs**

Qualified students may enroll in coordinated dual degree programs at Alverno College, Carroll University, UW-Eau Claire, UW-Green Bay, UW-La Crosse, UW-Oshkosh, UW-Stevens Point, UW-Whitewater and Wisconsin Lutheran College. Students in these programs will earn a bachelor’s degree at both universities in five years. Students transfer to UWM after three years at the partner university. For more information, contact the Office of Student Services at (414) 229-4667.
Joint Programs with Wisconsin Technical Colleges

Gateway Technical College
An agreement with GTC allows those students having associate degrees in the Electrical Engineering - Technology the opportunity to be given credit for courses required in the UWM bachelor of science in engineering program. For more information, contact the Office of Student Services at (414) 229-4667.

Milwaukee Area Technical College
An agreement with MATC allows joint admission and enrollment at MATC and CEAS. Qualified students may take English, mathematics, chemistry, and general education courses at MATC. The program ensures equivalent coursework and appropriate advising. Students complete a bachelor of science degree in engineering or computer science at UWM.

Waukesha County Technical College
An agreement with WCTC allows those students having associate degrees in the Industrial Occupations Division at WCTC the opportunity to be given credit for courses required in the UWM bachelor of science in engineering or bachelor of science in computer science program. For more information, contact the Office of Student Services at (414) 229-4667.

Materials Engineering, Minor
The Materials minor is directed toward students who want to strengthen their background in materials engineering.

Requirements
The 18-credit minor requires the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATLENG 330</td>
<td>Materials and Processes in Manufacturing</td>
<td>3</td>
</tr>
<tr>
<td>MATLENG 402</td>
<td>Physical Metallurgy</td>
<td>3</td>
</tr>
<tr>
<td>MATLENG 442</td>
<td>Thermodynamics of Materials</td>
<td>3</td>
</tr>
</tbody>
</table>

Electives
Select 3 electives (see below) 9

Total Credits 18

Electives

<table>
<thead>
<tr>
<th>Code</th>

</tr>
<tr>
<td>MATLENG 471</td>
<td>Heat Treatment of Materials</td>
<td>3</td>
</tr>
</tbody>
</table>

More information on the minor may be obtained from the CEAS Office of Student Services (414) 229-4667.
MECHANICAL ENGINEERING

Mechanical engineering is one of the broadest and most general fields of engineering. Combining some of the basic elements found in electrical and civil engineering with more in-depth use of mechanical design and thermal science principles, a mechanical engineering education will provide its students with the tools required to solve a wide range of technological problems.

Mechanical engineers work on the design, development, analysis, production, and testing of a wide variety of devices, products, and systems. The devices and systems developed by mechanical engineers can be found in many fields, including energy conversion, power generation, environmental control, manufacturing, materials handling and processing, and transportation and construction equipment.

The mechanical engineering curriculum is based upon fundamental engineering science courses in mechanics, the thermal sciences, mechanical design, and controls. Students also take courses in experimentation, computer-aided engineering, vibrations, and mechatronics. A variety of technical elective courses are also offered. With these courses, a student can either pursue a general mechanical engineering education, or can tailor a program of study towards a concentration in either thermal sciences or mechanical systems.

Mission Statement
The mission of the UWM Mechanical Engineering Department is:

1. To provide quality educational programs for undergraduate and graduate students planning careers in mechanical engineering or related fields.
2. To create and disseminate knowledge through research, publications, and other scholarly activities.
3. To foster a close partnership with industry and government.
4. To engage in professional and academic service activities of value to the University and the community at large.

• Mechanical Engineering, BSE (p. 771)
• Mechanical Engineering, Minor (p. 776)

Mechanical Engineering Courses
MECHENG 101 Computational Tools for Engineers
2 cr. Undergraduate.
Introduction to the use of spreadsheets and equation solvers. Basic engineering and financial applications using these tools.
Prerequisites: Math 231(C) or 221(C).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MECHENG 110 Engineering Fundamentals I
4 cr. Undergraduate.
Introduction to engineering disciplines, problem-solving, visualization, technical communication, and data collection and analysis.
Prerequisites: Math 231(C) or Math 225(C), admis to College of Engineering & Applied Science.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MECHENG 111 Engineering Fundamentals II
4 cr. Undergraduate.
Intermediate problem-solving skills, experimentation, technical communication and introduction to engineering design.
Prerequisites: MechEng 110(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MECHENG 150 How Things Work: Understanding Technology
3 cr. Undergraduate.
An introductory course that explains the technology that affects our everyday life. Topics include: automobiles, computers, telephone, radio, television, etc.
Prerequisites: none.
General Education Requirements: NS+
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MECHENG 301 Basic Engineering Thermodynamics
3 cr. Undergraduate.
Basic energy concepts and definitions; First and Second Laws of Thermodynamics; ideal and real gases; thermodynamic properties; introductory cycle analysis.
Prerequisites: Math 233(P) & Physics 209(P).
Current Offerings: http://uwm.edu/schedule

MECHENG 302 Analysis and Modeling of Dynamic Systems
4 cr. Undergraduate.
Modeling and analysis of mechanical, electrical, electromechanical, fluid, and physiological systems; laboratory experiments.
Prerequisites: MechEng 101(P), ElecEng 234(P), and Physics 210(P).
Course Rules: Jointly offered with & counts as repeat of BME 302.
Current Offerings: http://uwm.edu/schedule

MECHENG 305 Introduction to Fluid Mechanics
4 cr. Undergraduate.
Basics of fluid mechanics with applications to engineering problems and with laboratory demonstrations.
Prerequisites: MechEng 301(C); ElecEng 234(P) & Civ Eng 202(P).
Current Offerings: http://uwm.edu/schedule

MECHENG 320 Basic Heat Transfer
4 cr. Undergraduate.
Introduction to conduction, convection and radiation heat transfer; heat exchangers; mass transfer analogies; laboratory experiments.
Prerequisites: jr st; MechEng 301(P).
Current Offerings: http://uwm.edu/schedule

MECHENG 323 Fluid Mechanics Laboratory
1 cr. Undergraduate.
Hands-on experiments involving applications of potential flows, boundary layer flows, gas dynamics, aerodynamics, and fluid power.
Prerequisites: jr st; MechEng 320(P).
Current Offerings: http://uwm.edu/schedule
MECHENG 360 Mechanical Design I
3 cr. Undergraduate.
Kinematic and dynamic analysis of machine members and design applications to linkages, cams, gears, machine balancing and mechanical systems subject to various constraints.
Prerequisites: MechEng 101(P), 111(P); & Civ Eng 202(P).
Current Offerings: [link]

MECHENG 366 Design of Machine Elements
4 cr. Undergraduate.
Design of mechanical components under steady and fatigue loads. Design of columns, shafts, fasteners, springs, bearings, gearing, etc. Mini-design projects.
Prerequisites: MechEng 101(P), 111(P); MatEng 201(P); & Civ Eng 303(P).
Current Offerings: [link]

MECHENG 370 Computer Aided Engineering Laboratory
2 cr. Undergraduate.
Mechanical design and analysis using state of the art CADD, kinematics, and FEA computer tools.
Prerequisites: MechEng 101(P) & 111(P); Civ Eng 202(P) & 303(P); & ElecEng 234(P).
Current Offerings: [link]

MECHENG 402 Thermo-Fluid Engineering
3 cr. Undergraduate.
Analysis and design of systems involving applications of thermodynamics, heat transfer, and fluid mechanics. Applications include heat exchangers, power generation, refrigeration systems, and environmental control.
Prerequisites: MechEng 320(P) & 321(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: [link]

MECHENG 405 Product Realization
3 cr. Undergraduate/Graduate.
This interdisciplinary course (engineering and art students) considers the diverse aspects of the product realization process.
Prerequisites: jr st & admis to Art & Design prog or IAT prog; or Ind Eng 350(P), 360(P), 370(P); or MechEng 321(P), 360(P), 366(P), 370(P); or grad st & cons instr.
Course Rules: Art 405, MechEng 405, & Ind Eng 405 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: [link]

MECHENG 411 Heat Transfer
3 cr. Undergraduate/Graduate.
Concepts of heat transfer including conduction, convection, and radiation; steady-state and transient conduction; laminar and turbulent convection; phase changes; black-body and real surface radiation; heat exchangers.
Prerequisites: jr st; MechEng 321(P).
Last Taught: Fall 2017, Fall 2015, Fall 2014, Fall 1987.
Current Offerings: [link]

MECHENG 415 Modern Thermomanufacturing Processes
3 cr. Undergraduate/Graduate.
An introduction to thermal management and techniques applied to chemical vapor deposition, welding, thermal spraying, and machining (cutting and grinding).
Prerequisites: jr st; Civ Eng 303(P), MechEng 321(P) or equiv, or cons instr.
Current Offerings: [link]

MECHENG 420 Intermediate Fluid Mechanics
3 cr. Undergraduate/Graduate.
Prerequisites: jr st; MechEng 320(P).
Current Offerings: [link]

MECHENG 423 Applied Fluid Mechanics
3 cr. Undergraduate/Graduate.
Principles of fluid mechanics as applied to elements of fluid machinery, power transmission devices and control systems.
Prerequisites: jr st, MechEng 320 (P).
Current Offerings: [link]

MECHENG 425 Aerodynamics of Wind Turbines
3 cr. Undergraduate/Graduate.
Introductory and intermediate wind turbine aerodynamics; wind and wind turbine interaction in energy transmission.
Prerequisites: jr st; MechEng 320(P) or cons instr.
Current Offerings: [link]

MECHENG 430 Energy Modeling
3 cr. Undergraduate/Graduate.
Electrical/thermal energy modeling through lectures and hands-on classroom work along with use of energy modeling software.
Prerequisites: jr st; or cons instr.
Course Rules: Jointly offered with and counts as repeat of ElecEng 430.
Current Offerings: [link]

MECHENG 432 Internal Combustion Engines
3 cr. Undergraduate/Graduate.
Thermodynamic principles of internal combustion engines; cycles, combustion, engine operation; carburation, ignition, performance analysis; engine balancing; super charging.
Prerequisites: jr st; MechEng 301 (P).
Last Taught: Spring 2018, Fall 2016, Spring 2015, Fall 2013.
Current Offerings: [link]

MECHENG 434 Air Conditioning System Design
3 cr. Undergraduate/Graduate.
The design of systems for heating and cooling spaces. Selection and design of central heating, cooling and energy distribution systems.
Prerequisites: jr st; MechEng 321(P), Ind Eng 210(P).
Last Taught: Fall 2014, Spring 2013, Fall 2011, Spring 2010.
Current Offerings: [link]
MECHENG 435 Power Plant Theory and Design
3 cr. Undergraduate/Graduate.
Prerequisites: jr st; MechEng 301 (P).
Last Taught: Spring 2017, Fall 2015, Spring 2014, Fall 2012.
Current Offerings: http://uwm.edu/schedule

MECHENG 436 Solar Engineering
3 cr. Undergraduate/Graduate.
Estimation of energy needs for solar heating and cooling systems for buildings; insolation; solar collector/energy storage design; applications to space heating/cooling, water heating.
Prerequisites: jr st; MechEng 301 (P).
Last Taught: Spring 2016, Fall 2014, Spring 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

MECHENG 438 Mechanical Engineering Experimentation
3 cr. Undergraduate.
Training and understanding data acquisition systems; experiment planning; sensor calibration; professional report writing and communication; industrial projects.
Prerequisites: sr st or cons instr; ElecEng 301 (P); Ind Eng 467 or MthStat 467 (P); MechEng 321 (P), 360 (P), 366 (P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MECHENG 451 Applied Optics in Engineering
3 cr. Undergraduate/Graduate.
Principles of geometric and physical optics. Introduction to lasers. Topics from current engineering uses of optics, including measurement systems and laser machining.
Prerequisites: sr st; Physics 210 (P) or cons instr.
Last Taught: Spring 2017.
Current Offerings: http://uwm.edu/schedule

MECHENG 455 Processing of Plastics
3 cr. Undergraduate/Graduate.
Description of plastics as polymers and polymer composites. Study of various technologies to manufacture plastics. Analytical description of flow and heat transfer in polymers.
Prerequisites: MechEng 320 (P) & 321 (P).
Last Taught: Fall 2016, Spring 2015, Fall 2012, Fall 2009.
Current Offerings: http://uwm.edu/schedule

MECHENG 456 Metal Casting Engineering
3 cr. Undergraduate/Graduate.
Pattern and core design; molding technology; pouring and feeding castings; metallurgy of cast engineering alloys and their foundry practice; casting design.
Prerequisites: jr st; MatlEng 201 (P).
Course Rules: MechEng 456 and MatlEng 456(421) are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

MECHENG 457 Engineering Composites
3 cr. Undergraduate/Graduate.
Prerequisites: jr st; MatlEng 201 (P).
Course Rules: MechEng 457 and MatlEng 457(455) are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

MECHENG 460 Nanomaterials and Nanomanufacturing
3 cr. Undergraduate/Graduate.
Structure, properties, processing and manufacture of nanoparticles, nanotubes, nanofibers, bulk nanomaterials, nanocomposites including polymer, metal, ceramic, natural and biocomposites; nanofluidics, nanorheology, nanomachines, and nanotribology.
Prerequisites: jr st; MechEng 201 (P).
Course Rules: MechEng 460 & MatlEng 460 are jointly offered; they count as repeats of each other.
Current Offerings: http://uwm.edu/schedule

MECHENG 462 Intermediate Design of Machinery
3 cr. Undergraduate/Graduate.
Consideration of complicated loadings and combined stresses. Design against fatigue. Design and analysis of machine systems. Consideration of special topics in machine element design.
Prerequisites: jr st; MechEng 366 (P).
Last Taught: Spring 2018, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MECHENG 463 Introduction to Finite Elements
3 cr. Undergraduate/Graduate.
Generation and assembly of finite element matrices in one and two-dimensional problems. Modeling and practical applications in solid mechanics, heat transfer and fluid flow.
Prerequisites: jr st; ElecEng 234 (P), Civ Eng 303 (P); MechEng 320 (C), 311 (C) or 321 (C).
Course Rules: Not open to students with cr in Civ Eng 463 (ER).
Current Offerings: http://uwm.edu/schedule

MECHENG 465 Friction and Wear
3 cr. Undergraduate/Graduate.
Friction and wear of engineering materials. Effect of environment, surface interactions, lubrication, and material properties. Techniques of analysis and measurement.
Prerequisites: jr st; MatlEng 201 (P).
Course Rules: Not open to students who have cr in MatlEng 465, which is identical to MechEng 465.
Last Taught: Fall 2017, Fall 2016, Spring 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule
MECHENG 466 Mechanics of Composite Materials
3 cr. Undergraduate/Graduate.
Basic concepts, materials, and characteristics of composites. Micromechanics and Macromechanics of Elastic Response. Failure, design and optimization of composite structures.
Prerequisites: jr st & Civ Eng 203(P)
Course Rules: MechEng 466 & Civ Eng 466 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

MECHENG 469 Introduction to Biomechanical Engineering
3 cr. Undergraduate/Graduate.
Mathematical modeling of human body; dynamics of human motion; neuromuscular control human movement; stress analysis of bones and joints; concurrent mechanical problems in medicine.
Prerequisites: Civ Eng 202(P) & 303(P), or cons instr.
Course Rules: MechEng 469 & Civ Eng 469 are jointly offered and count as repeats of one another.
Last Taught: Fall 2017, Fall 2016, Fall 2012, Spring 2011.
Current Offerings: http://uwm.edu/schedule

MECHENG 472 Introduction to Wind Energy
3 cr. Undergraduate/Graduate.
Principles of wind turbines; wind characteristics; rotor dynamics of wind turbines; turbine design and integration; controls and electrical systems; grid connection.
Prerequisites: jr st, or cons instr.
Course Rules: MechEng 472 & ElecEng 472 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

MECHENG 473 Applied Dynamics
3 cr. Undergraduate/Graduate.
Application of dynamic principles to a variety of engineering situations. Behavior of particle systems and rigid body motion in space. Analysis of traffic accidents, shock machines, rockets and satellites, missiles and projectiles, dynamic balancing, gyroscopes and inertial navigation.
Prerequisites: jr st & Civ Eng 202(P).
Current Offerings: http://uwm.edu/schedule

MECHENG 474 Introduction to Control Systems
4 cr. Undergraduate/Graduate.
Modeling of continuous systems; stability considerations, analysis and design of feedback control systems in time and frequency domains.
Prerequisites: sr st, ElecEng 301(P); a grade of C or better in ElecEng 234(P) & Civ Eng 202(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MECHENG 475 Vibrations in Mechanical Design
3 cr. Undergraduate/Graduate.
Integrated treatment of mathematical modeling and analysis of mechanical systems, analysis of vibrations and performance under different loading conditions.
Prerequisites: sr st; Civ Eng 202(P), ElecEng 234(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MECHENG 476 Introduction to Robotics
3 cr. Undergraduate/Graduate.
Fundamentals of manipulators, sensors, actuators, end-effectors and product design for automation, computer vision and pattern recognition.
Prerequisites: ElecEng 234(P), MechEng 360(P).
Current Offerings: http://uwm.edu/schedule

MECHENG 479 Control and Design of Mechatronic Systems
3 cr. Undergraduate/Graduate.
Understanding interfacing of mechanical systems using electromechanical components; conceptual design and analysis of high performance computer controlled mechanical systems; prototyping of mechatronic systems.
Prerequisites: sr st or cons instr; ElecEng 474(402)(P) or MechEng 474(P).
Current Offerings: http://uwm.edu/schedule

MECHENG 490 Topics in Mechanical Engineering:
1-3 cr. Undergraduate/Graduate.
Recent theoretical and applied topics in mechanical engineering.
Prerequisites: jr st & cons instr.
Course Rules: May be retaken with change in topic to max of 9 cr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MECHENG 495 Biomedical Instrumentation Laboratory
3 cr. Undergraduate.
Characteristics of measurement systems, experiment planning, sensor and system calibration, measurement of basic quantities, first and second order systems, data acquisition and processing, experimental projects.
Prerequisites: BME 325 (P), MechEng 469 (C).
Course Rules: BME 495 and MechEng 495 are jointly offered and count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

MECHENG 496 Senior Design Project
3 cr. Undergraduate.
Engineering design project in a simulated industrial environment. Student design team works on a problem in collaboration with college faculty and vendors. Formal report writing.
Prerequisites: MechEng 321(P), 360(P), 366(P), & 370(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MECHENG 542 Introduction to Technology Entrepreneurship
3 cr. Undergraduate.
Introductory concepts related to technology entrepreneurship including opportunity identification, analysis and new venture planning. Prepares students to recognize and pursue viable technology-based entrepreneurial opportunities.
Prerequisites: jr st & admis to Tech Entrep Cert program or admis to business or engineering major.
Course Rules: Counts as repeat of Bus Adm 495 or Mech Eng 490 with same topic. Jointly offered with & counts as repeat of Bus Adm 542.
Last Taught: Fall 2014.
Current Offerings: http://uwm.edu/schedule
MECHENG 543 Introduction to Technology Management and Innovation
3 cr. Undergraduate.
Introductory concepts related to technology management and technological innovation. Prepares students to evaluate and plan technology commercialization projects.
Prerequisites: jr st & admis to Tech Entrep Cert program or admis to business or engineering major.
Course Rules: Counts as repeat of Bus Adm 495 with same topic. Jointly offered with & counts as repeat of Bus Adm 543.
Last Taught: Fall 2014.
Current Offerings: http://uwm.edu/schedule

MECHENG 544 New Product Development
3 cr. Undergraduate/Graduate.
Concepts related to product development including product concept development and testing, and product design. Prepares students to work in cross-functional product development teams.
Prerequisites: jr st & admis to Tech Entrep Cert program or Bus Adm major or CEAS major; or grad st. & admis to business or engineering program or admis to Tech Entrep Cert program.
Course Rules: Counts as repeat of Bus Adm 795 with same topic; Jointly offered with & counts as repeat of Bus Adm 544.
Last Taught: Spring 2016, Spring 2015.
Current Offerings: http://uwm.edu/schedule

MECHENG 546 Global Innovation Management
3 cr. Undergraduate/Graduate.
Concepts related to collaborative innovation in global networks including diverse collaboration models, innovation processes, and capabilities. Prepares students to manage global collaborative innovation projects.
Prerequisites: jr st & admis to Tech Entrep Cert program or Bus Adm major or CEAS major; or grad st. & admis to business or engineering program or admis to Tech Entrep Cert program.
Course Rules: Counts as repeat of Bus Adm 795 with same topic. Jointly offered with & counts as repeat of Bus Adm 546.
Last Taught: Spring 2016.
Current Offerings: http://uwm.edu/schedule

MECHENG 548 Technology Venturing Project
3 cr. Undergraduate.
A capstone course for students to demonstrate their knowledge and skills related to technology/product commercialization. Prepares students to lead their (or corporate) technology ventures.
Prerequisites: jr st & admis to Tech Entrep Cert program or admis to business or engineering major; Bus Adm/Mech Eng 542(P).
Course Rules: Jointly offered with & counts as repeat of Bus Adm 548.
Current Offerings: http://uwm.edu/schedule

MECHENG 574 Intermediate Control Systems
3 cr. Undergraduate/Graduate.
State space; frequency domain methods of modeling, analysis and design of control systems; digital control; and multivariate systems.
Prerequisites: sr st; MechEng 474(P) or ElecEng 474(402)(P); or grad st.
Course Rules: ElecEng 574(503) & MechEng 574(478) are jointly offered & count as repeats of each other. Not open for cr to students who have cr in ElecEng 503(ER) or MechEng 503(ER).
Current Offerings: http://uwm.edu/schedule

MECHENG 584 Biodynamics of Human Motion
3 cr. Undergraduate/Graduate.
Techniques for collecting, analyzing and interpreting human motion data. Special emphasis will be placed on performing data analysis using the software package, Matlab.
Prerequisites: jr st; ElecEng 234(P); Civ Eng 202(C).
Last Taught: Spring 2013, Spring 2012.
Current Offerings: http://uwm.edu/schedule

MECHENG 699 Independent Study
1-3 cr. Undergraduate/Graduate.
Prerequisites: jr st; cons instr.
Course Rules: Limited to max of 6 cr applied toward undergrad degree.
Current Offerings: http://uwm.edu/schedule

MECHENG 700 CEAS Graduate Seminar
1-3 cr. Graduate.
Seminar in professional ethics, oral and written communication, contemporary social issues, career development, time management, and laboratory safety.
Prerequisites: grad st
Course Rules: Civ Eng 700, CompSci 700, ElecEng 700, Ind Eng 700, MatlEng 700 & MechEng 700 are jointly offered and count as repeats of one another
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MECHENG 701 Advanced Linear System Analysis
3 cr. Graduate.
Theory and analysis of linear dynamic systems; discrete and continuous state models; linear algebra for dynamic systems; state transition matrix, numerical methods; and applications.
Prerequisites: grad st
Course Rules: ElecEng 701 & MechEng 701 are jointly offered and count as repeats of one another.
Last Taught: Fall 2016, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

MECHENG 702 Advanced Engineering Thermodynamics
3 cr. Graduate.
Laws of thermodynamics, property relations, equations of state; introduction to statistical and irreversible thermodynamics; applications to perfect gases, perfect crystals, and homogeneous solutions.
Prerequisites: grad st; MechEng 301(P) & 321(P) or equiv.
Current Offerings: http://uwm.edu/schedule

MECHENG 703 Principles of Combustion
3 cr. Graduate.
Chemical kinetics and thermodynamics, conservation equations for multicomponent reacting systems, detonation, premix, diffusion and turbulent flames.
Prerequisites: grad st; MechEng 302(P) & 321(P) or equiv.
Current Offerings: http://uwm.edu/schedule
MECHENG 706 Continuum Mechanics
3 cr. Graduate.
Basic concepts of the continuum models used in the various fields of mechanics including fluid mechanics, rheology, elasticity, fracture mechanics, and plasticity.
Prerequisites: grad st.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

MECHENG 707 Transport in Porous Media
3 cr. Graduate.
Introduction to fluid mechanics in porous media, single- and multi-phase flows, volume averaged transport equations, convection heat transfer, consolidating porous media, volume averaging theory, applications.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

MECHENG 710 Advanced Transport Processes
2 cr. Graduate.
Vector and tensor analysis of practical engineering problems; basic laws of mass, momentum and energy transport; transport phenomena in porous media reacting and non-reaction media.
Prerequisites: MechEng 321(P) or equiv.
Last Taught: Spring 2018, Fall 2016, Fall 2014, Fall 2009.
Current Offerings: http://uwm.edu/schedule

MECHENG 711 Thermal Radiation and Conduction
3 cr. Graduate.
Radiative properties of and radiative transfer in absorbing, emitting and scattering media; transient and steady state heat conduction; multi-mode heat transfer applications.
Prerequisites: grad st; MechEng 311(P) or 321(P).
Last Taught: Fall 2014, Spring 2013, Fall 2011, Fall 2009.
Current Offerings: http://uwm.edu/schedule

MECHENG 712 Convection Heat and Mass Transfer
3 cr. Graduate.
Conservation equations; laminar developed and developing flows; laminar boundary layers; high speed flows; turbulent flow and heat transfer; natural convection; mass transfer; special engineering applications.
Prerequisites: grad st; MechEng 311(P) or 321(P).
Last Taught: Fall 2016, Spring 2015, Fall 2013, Spring 2012.
Current Offerings: http://uwm.edu/schedule

MECHENG 714 Energy Transport in Microscale Systems
3 cr. Graduate.
Introducing thermophysics of microscale systems including statistical, non-equilibrium thermodynamics, particle transport theory, energy carriers in different materials and phases, and applications including mems and nanotechnology.
Prerequisites: grad st; Mecheng 320(P) & 321(P).
Last Taught: Fall 2001.
Current Offerings: http://uwm.edu/schedule

MECHENG 715 Numerical Methods in Engineering
3 cr. Graduate.
Differential equation solutions with finite difference and finite volume methods; grid generation technique; finite element methods; applications to solid mechanics, heat transfer, and fluid mechanics.
Prerequisites: grad st; Math 413(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

MECHENG 716 Nonlinear Control Systems
3 cr. Graduate.
Advanced concepts and methodologies in modeling and design of nonlinear control systems. Lyapunov theory; describing functions; variable structure control.
Prerequisites: grad st; ElecEng or MechEng 474(P) or equiv; ElecEng or MechEng 701(P); or cons instr.
Course Rules: ElecEng 718 & MechEng 718 are jointly offered and count as repeats of one another. Not open for credit to students w/ cr in MechEng 778.
Last Taught: Fall 2016, Fall 2010, Spring 2007, Fall 2001.
Current Offerings: http://uwm.edu/schedule

MECHENG 721 Fundamentals of Fluid Flow
3 cr. Graduate.
Inviscid, viscous and compressible flow; potential flow in aerodynamics; analytical solutions of navier-stokes equation; laminar and turbulent boundary layers, jets, wakes, and separating flows; applications.
Prerequisites: grad st; MechEng 320(P).
Current Offerings: http://uwm.edu/schedule

MECHENG 722 Advanced Fluid Mechanics
3 cr. Graduate.
Formulations of navier-stokes and energy equations; turbulence models; solutions to wall, free shear layer, and recirculating flows; turbulence energy spectrum; applications to industrial problems.
Prerequisites: grad st; MechEng 320(P).
Current Offerings: http://uwm.edu/schedule

MECHENG 723 Computational Fluid Dynamics and Heat Transfer
3 cr. Graduate.
Finite difference methods for solving boundary layer equations, navier-stokes equations, etc. Laminar and turbulent flows.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

MECHENG 725 Fluid Power and Turbomachinery
2 cr. Graduate.
Concept of hydraulic systems; hydraulic motors; valves; hydraulic circuits; pneumatic systems; axial and radial gas turbines, pumps, compressors; steam turbines; hydraulic turbines; wind turbines.
Prerequisites: grad st; MechEng 320(P).
Last Taught: Fall 2017, Spring 2016, Fall 2013, Fall 2010.
Current Offerings: http://uwm.edu/schedule

MECHENG 726 Mechanical Vibrations
3 cr. Graduate.
Free and forced vibrations of multiple degree of freedom systems using modern matrix methods.
Prerequisites: grad st; MechEng 475(R) or equiv.
Course Rules: Not open to students who have cr in Civ Eng 726 which is identical to Mecheng 726.
Last Taught: Spring 2015, Spring 2013, Fall 2011, Spring 2009.
Current Offerings: http://uwm.edu/schedule
MECHENG 732 Solidification Processing
3 cr. Graduate.
Solidification phenomena and its engineering application to metals, semiconductors, ceramics, properties of cast products. Foundry processes.
Prerequisites: grad st; MatlEng 330(P).
Course Rules: MechEng 732 and MatlEng 732 are jointly offered; they count as repeats of each other.
Last Taught: Fall 2016.
Current Offerings: http://uwm.edu/schedule

MECHENG 733 Sensors and Systems
3 cr. Graduate.
Physical principles and working of sensors, interfacing, and sensor networks.
Prerequisites: grad st; ElecEng 305 or cons. instr.; Jointly offered with & Counts as repeat of BME 733 & ElecEng 733.
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

MECHENG 760 Dynamic Problems in Design
3 cr. Graduate.
Analytical methods for solution of typical vibrating and balancing problems encountered in mechanical systems. Special emphasis on methods of suppression and control.
Prerequisites: grad st; MechEng 360(P).
Last Taught: Fall 2017, Spring 2016, Spring 2014, Fall 2012.
Current Offerings: http://uwm.edu/schedule

MECHENG 762 Mechanical Systems Analysis
3 cr. Graduate.
An integrated treatment of mathematical modeling and analysis of mechanical systems. Modeling of machine elements and systems; performance under transient, periodic and random loads.
Prerequisites: grad st; MechEng 365(P).
Current Offerings: http://uwm.edu/schedule

MECHENG 765 Mechanical Reliability and Probabilistic Design
3 cr. Graduate.
Advanced design theory and methodology incorporating probabilistic and statistical concepts. Design of mechanical and structural members for specific reliability and confidence level. Case histories and applications.
Prerequisites: grad st; MechEng 360(P) & 365(P); or cons instr.
Last Taught: Spring 2016, Fall 2014, Spring 2013, Fall 2010.
Current Offerings: http://uwm.edu/schedule

MECHENG 773 Advanced Dynamics
3 cr. Graduate.
General theory of dynamic behavior from the viewpoint of Lagrangian and Hamiltonian mechanics. Application of energy principles to dynamical analysis of mechanical systems.
Prerequisites: grad st; MechEng 580(P) or Civ Eng 580(P); or cons instr.
Course Rules: Not open to students who have cr in Civ Eng 773, which is identical.
Current Offerings: http://uwm.edu/schedule

MECHENG 785 Optimization Methods in Engineering
3 cr. Graduate.
Optimization as engineering design tool; nonlinear programming; computational techniques for unconstrained and constrained problems; conjugate gradient, sumt, reduced gradient, feasible directions methods; design applications.
Prerequisites: grad st; ElecEng 234(P), CompSci 151(P) or equiv.
Course Rules: Not open to students who have cr in Ind Eng 785 which is identical to MechEng 785.
Last Taught: Fall 2016, Spring 2015, Fall 2013, Spring 2011.
Current Offerings: http://uwm.edu/schedule

MECHENG 816 Optimal Control Theory
3 cr. Graduate.
Analysis and synthesis of discrete and continuous optimal control systems; linear quadratic regulators; dynamic programming and variational methods; applications.
Prerequisites: grad st; ElecEng or MechEng 474(P) or equiv; ElecEng or MechEng 701(P); or cons instr.
Course Rules: ElecEng 816 & MechEng 816 are jointly offered and count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

MECHENG 819 Adaptive Control Theory
3 cr. Graduate.
Adaptive control systems including mathematical foundations, estimation, model reference adaptive control, self tuning regulators, numerical methods, applications.
Prerequisites: grad st; ElecEng or MechEng 474(P) or equiv; ElecEng or MechEng 701(P); or cons instr.
Course Rules: ElecEng 819 & MechEng 819 are jointly offered and count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

MECHENG 880 Bioengineering Seminar
1 cr. Graduate.
Presentations by bioengineering affiliated faculty, invited speakers, and graduate students.
Prerequisites: grad st.
Course Rules: MechEng 880, ElecEng 880, CompSci 880, MatlEng 880, Ind Eng 880 & Civ Eng 880 are jointly offered and count as repeats of one another. May be repeated to 3 cr. max.
Last Taught: Spring 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

MECHENG 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Current Offerings: http://uwm.edu/schedule
MECHENG 890 Advanced Topics in Mechanical Engineering:
1-3 cr. Graduate.
Recent theoretical and applied developments in mechanical engineering.
Topics selected from areas in thermal-fluid engineering, machine design
and controls, and chemical process engineering.
Prerequisites: grad st; cons instr.
Course Rules: May be repeated with change in topic to max of 9 cr.
Last Taught: Spring 2018, Fall 2017, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MECHENG 990 Masters Thesis
1-9 cr. Graduate.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

MECHENG 998 Doctoral Thesis
1-12 cr. Graduate.
Prerequisites: grad st; cons instr & grad prog comm.
Current Offerings: http://uwm.edu/schedule

MECHENG 999 Advanced Independent Study
1-3 cr. Graduate.
Prerequisites: grad st; cons instr & grad prog committee.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

Mechanical Engineering, BSE

Mechanical engineering is one of the most general engineering fields. The engineer has the freedom to deal with virtually any aspect of the multi-faceted engineering process such as design, development, analysis, production and testing. The broad nature of the field also provides opportunities to work in various areas of interest ranging from energy conversion or environmental control to the production of transportation and construction equipment.

Concentrations

- General mechanical engineering
- Thermal sciences
- Mechanical systems

Research

Work with faculty engaged in leading-edge research in areas such as:

- Design optimization
- Nanotribology
- Technology innovation and entrepreneurship
- Sustainable design and manufacturing
• Marine robotics
• Biomimetic surfaces

Career Paths
Materials engineers work primarily in engineering services, research and development, manufacturing and the federal government.

• Senior Mechanical Engineer
• Propulsion Engineer
• Process Engineer
• Mechanical Design Engineer
• Product Development Engineer
• Aerospace Structural Engineer

Accreditation
The mechanical engineering program is accredited by the Engineering Accreditation Commission of ABET, 415 N. Charles Street, Baltimore, MD 21201, (410) 347-7700.

New Freshmen
Admission to the College of Engineering and Applied Science is based on an overall assessment of both academic and non-academic qualifications. The primary review factors for admission are the strength and quality of the high school curriculum, high school class percentile, grade point average, and the result of the ACT or SAT. Well-prepared freshman applicants will have four years of mathematics (including one-and-a-half years of algebra, one year of geometry, and one-half year of trigonometry) and four years of natural science (including biology, chemistry, and physics). The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Freshmen applicants will be considered for admission directly to the major or to the First-Year Program. Admission directly to the major is selective.

Transfer Students
Transfer student admission is based on an overall assessment of both academic and non-academic qualifications. For transfer applicants, the primary factors considered for admission are the grade point average on transferable courses and the level of curriculum completion. The College also will consider non-academic qualifications such as leadership skills, diversity in personal background, work experience, motivation, and maturity.

Transfer applicants will be considered for admission directly to the major or the Transfer Transition Program based on the number of transfer credits and GPA.

Admission to the Major
Students admitted to the First-Year Program or Transfer Transition Program (Engineering-Intended or Computer Science-Intended) may apply for major status with their academic advisor at the time they believe they meet the requirements. The program may impose major status as a prerequisite for courses numbered 200 or above.

1. Complete first semester calculus with a C or better grade.
2. Complete GER Oral and Written Communication Part A.

3. Engineering majors must complete Chem 100 with a C or better grade (or satisfactory score on the placement test). Computer Science majors must complete CompSci 251 with a C or better grade.
4. Obtain a minimum grade point as set by the major department. A 3.00 GPA guarantees admission to any CEAS major.
5. Courses required by the major may be repeated only once. No more than two courses may be repeated.

First-Year students have a maximum of three semesters to complete the admission to major requirements. Part-time students may be granted an extension by their academic advisor.

Transfer Transition students have a maximum of two semesters to complete the admission to major requirements. Part-time students may be granted an extension by their academic advisor.

Placement Testing
Most new freshmen are required to take placement exams in English and mathematics. Engineering students also take a placement exam in chemistry, provided they have had previous coursework in chemistry. Students with previous college-level credits in chemistry, English, and math may not be required to take placement tests. Additional prerequisite coursework may be required as a result of these placement tests. Credit for prerequisite academic work may not count toward the degree program. Entering students are urged to take their placement exams when scheduled. All placement exams must be completed before beginning coursework in the subject area. Students who place into precalculus math courses may be asked to participate in an online summer bridge program.

Questions on admission to CEAS or choosing a major should be directed to the Office of Student Services, (414) 229-4667.

Mechanical Engineering Curriculum
The minimum number of credits required to complete the Bachelor of Science in Engineering with a major in Mechanical Engineering is 128. Engineering students may apply for major status with their academic advisor at any time they believe they meet the requirements. Advancement to major is a graduation requirement. Programs may impose major status as a prerequisite for courses numbered 200 or above.

MECHENG 479  Control and Design of Mechatronic Systems  3
MECHENG 405  Product Realization  3
or MECHENG 496  Senior Design Project  
Mathematics Requirement  1
Select one of the following Calculus sequences:  10-12
Sequence 1:
MATH 231  Calculus and Analytic Geometry I  
& MATH 232  and Calculus and Analytic Geometry II  
& MATH 233  and Calculus and Analytic Geometry III  
Sequence 2:
MATH 221  Honors Calculus I  
& MATH 222  and Honors Calculus II  
ELECENG 234  Analytical Methods in Engineering  4
Chemistry Requirement
Select one of the following:  1 5-10
CHEM 105  General Chemistry for Engineering (Suggested)  
CHEM 102  and General Chemistry and Qualitative Analysis  
& CHEM 104  
Physics Requirement
PHYSICS 209  Physics I (Calculus Treatment)  5
& PHYSICS 214  and Lab Physics I (Calculus Treatment)  
PHYSICS 210  Physics II (Calculus Treatment)  5
& PHYSICS 215  and Lab Physics II (Calculus Treatment)  
GER Distribution Requirement
Arts  3
Humanities  3
Social Science  6
ENGLISH 310  Writing, Speaking, and Technoscience in the 21st Century  3
Cultural Diversity - Arts, Humanities, or Social Science course must also satisfy UWM Cultural Diversity Requirement  
English Composition Requirement
Satisfied by one of the following:  1 0-6
Earning a satisfactory score on the English placement test; or
Earning a grade of C or higher in ENGLISH 102; or
Transferring a grade of C or higher in a course equivalent to ENGLISH 102 or higher expository writing course; or
Foreign Language Requirement
Satisfied by one of the following:  0-8
Two years of a single foreign language in high school; or
Two semesters of a single foreign language in college; or
Demonstrate ability by examination.

Placement Examinations. Once admitted to UWM, most engineering students are required to take placement examinations in mathematics, English, and chemistry. Students with previous college-level credits in these areas may not be required to take placement exams. The placement exams are administered by the UWM Testing Center, Mellencamp Hall, Room B28, (414) 229-4689. The results of these tests help students determine the appropriate course in which to register. Background prerequisite courses may be required in addition to the courses listed above.

Technical Electives
Select a minimum of 15 credits of technical electives from Groups A, B, and C as indicated below.

Students wishing to major in more than one field can do so in two ways:

**Dual Majors**

Students may earn a degree in more than one major. Students must maintain an average GPA of at least 2.00 on all work attempted at the University and in all courses offered by the College. Students majoring in biomedical engineering, computer engineering, computer science, industrial engineering, and materials engineering must maintain an average GPA of at least 2.00 in all 300-level and above courses in the student’s major department. Students majoring in civil engineering, electrical engineering, and mechanical engineering must maintain an average GPA of at least 2.50 in all 300-level and above courses in the major department. Transferable courses will be included as appropriate. Advancement to major status is required for graduation. Students who earn 3 or more credits of Co-op may use 3 of those credits as approved Free Technical Electives.

**Concurrent Registration at Other Institutions**

CEAS students wishing to establish concurrent enrollment at another institution must obtain prior permission from their academic advisor.

**Student Academic Appeals**

Students may appeal an academic action to the Office of Student Services. An appeal is a request for an exception to an established policy or rule. The content of each appeal is carefully reviewed in order to reach a decision. Appeals should be submitted in writing to the Office of Student Services. The appeals committee considers individual cases concerning the degree requirements and other academic rules and regulations established by the College of Engineering and Applied Science faculty.

The College of Engineering and Applied Science has established written procedures for undergraduate student academic grievances. Copies of the grievance procedure are available in the Office of Student Services.

**Minimum Requirements**

Students must maintain an average GPA of at least 2.00 on all work attempted at the University and in all courses offered by the College. Students majoring in biomedical engineering, computer engineering, computer science, industrial engineering, and materials engineering must maintain an average GPA of at least 2.00 in all 300-level and above courses in the student’s major department. Students majoring in civil engineering, electrical engineering, and mechanical engineering must maintain an average GPA of at least 2.50 in all 300-level and above courses in the major department. Transferable courses will be included as appropriate. Advancement to major status is required for graduation.

In order to provide maximum flexibility while preserving the institutional identity of a UWM degree, the College requires residence:

1. during the last 30 credits, or
2. during 45 of the last 60 credits, or
3. during any 90 credits of a student’s undergraduate career.

At least 15 credits of advanced work in the major must be completed in residence at UWM.

A student who does not maintain continuous registration during the academic year and is re-admitted to the College must meet the program and graduation requirements in effect at the time of re-entry.

Degree and major requirements must be completed within 10 years of initial enrollment at UW-Milwaukee. Should students not complete the major within the 10-year time frame, the students will switch to the most current degree and major requirements. A new 10-year time frame would then begin.

**Dual Majors**

Students wishing to major in more than one field can do so in two ways:
Academic Advising

The Office of Student Services in the College of Engineering and Applied Science, located in Room E386 of the Engineering and Mathematical Sciences Building, offers undergraduate students academic advising from professional advisors who are familiar with the curriculum, College requirements, and the special needs of engineering and computer science students. These advisors provide services such as freshman orientation, course selection, program planning, and credit transfer evaluation. Students are assigned to a permanent professional advisor as soon as they are accepted into the College, and are urged to confer with their advisor at least once each semester. Students also are assigned to a faculty advisor who provides technical expertise specific to the student’s area of study.

We understand that it can be a delicate balance managing school, work, family, and active social lives. The College of Engineering and Applied Science advisors are here to help you achieve that balance.

You will be assigned a professional academic advisor upon being admitted to the College of Engineering & Applied Science. Your advisor will work with you throughout your undergraduate experience, providing guidance on:

- course registration,
- graduation planning,
- career preparation,
- and serving as a liaison to the many other resources available on our campus.

Advisors are also a great source of information on student organizations, tutoring and scholarship opportunities.

In addition to professional academic advisors, you will also have access to faculty advisors. These advisors can provide insights into the technical aspects of the engineering and computer science curricula while mentoring you as you define your professional goals.

Program Educational Objectives

The educational objectives of the undergraduate Mechanical Engineering Program are:

1. Graduates have a successful professional career in Mechanical Engineering or related fields.
2. Graduates apply their knowledge of mechanical engineering to problem solving in their field of employment.
3. Graduates are recognized as creative problem solvers and effective communicators.
4. Graduates are successfully engaged in continued professional development.

Honors in the College of Engineering and Applied Science

Dean’s Honor List

GPA of 3.500 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Joint Programs with Other Campuses

Pre-engineering

Qualified students may enroll in coordinated pre-engineering programs at UW-Green Bay, UW-Parkside, and UW-Waukesha for two years of pre-engineering coursework. These coordinated programs ensure equivalent coursework, appropriate advising, and early access to the Cooperative Education Program at UWM.

Dual Degree Programs

Qualified students may enroll in coordinated dual degree programs at Alverno College, Carroll University, UW-Eau Claire, UW-Green Bay, UW-La Crosse, UW-Oshkosh, UW-Stevens Point, UW-Whitewater and Wisconsin Lutheran College. Students in these programs will earn a bachelor’s degree at both universities in five years. Students transfer to UWM after three years at the partner university. For more information, contact the Office of Student Services at (414) 229-4667.

Joint Programs with Wisconsin Technical Colleges

Gateway Technical College

An agreement with GTC allows those students having associate degrees in the Electrical Engineering - Technology the opportunity to be given credit for courses required in the UWM bachelor of science in engineering program. For more information, contact the Office of Student Services at (414) 229-4667.

Milwaukee Area Technical College

An agreement with MATC allows joint admission and enrollment at MATC and CEAS. Qualified students may take English, mathematics, chemistry, and general education courses at MATC. The program ensures equivalent coursework and appropriate advising. Students complete a bachelor of science degree in engineering or computer science at UWM.

Waukesha County Technical College

An agreement with WCTC allows those students having associate degrees in the Industrial Occupations Division at WCTC the opportunity to be given credit for courses required in the UWM bachelor of science in engineering or bachelor of science in computer science program. For more information, contact the Office of Student Services at (414) 229-4667.
Mechanical Engineering, Minor

The minor in mechanical engineering is designed for students in engineering, architecture, and physics. The minor is not available to mechanical engineering majors.

Requirements

• 20 credits from Mechanical Engineering courses 301 and above.
• Minimum of 12 credits of the minor coursework must be completed at UWM.
• If a bachelor’s degree was obtained at another institution, upon completion of the minor requirements the student will be awarded a Certificate of Minor.
FRESHWATER SCIENCES  
(SCHOOL OF)

About Freshwater Sciences
The School of Freshwater Sciences offers a graduate program of studies providing students with advanced training and education in four areas:

- Freshwater System Dynamics
- Human and Ecosystem Health
- Freshwater Technology
- Freshwater Policy and Economics

Each of these focus areas is interrelated with the others, and includes biologic, physical, technologic, and policy aspects of freshwater.

The Master of Science program has two tracks designed to provide a strong foundation necessary for the training of graduates that will utilize novel approaches to the sustainable and equitable use and management of freshwater systems worldwide. The Doctor of Philosophy program is a research degree designed to explore and discover novel approaches to the sustainable and equitable use and management of freshwater systems worldwide. These programs will create an interdisciplinary atmosphere for training the next generation of scientists armed with the knowledge, skills, and experience to anticipate and address the freshwater issues of the future.

Departments and Programs
- Applied Urban Aquaculture, Undergraduate Certificate (p. 782)
- Freshwater Sciences and Technology, MS (Thesis) (p. 784)
- Freshwater Sciences and Technology, MS: Professional Science Track (p. 786)
- Freshwater Sciences, PhD (p. 788)

Freshwater Sciences
FRSHWTR 190 Topics in Freshwater Sciences:
1-3 cr. Undergraduate.
Current issues in freshwater sciences for undergraduates.
Prerequisites: none, except as may be required for specific topics.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

FRSHWTR 191 Great Lakes Ecology
3 cr. Undergraduate.
A select history of Great Lakes ecosystem change.
Prerequisites: none.
Course Rules: Counts as repeat of Frshwtr 190 with similar topic.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 461 Politics and Policy of Sustainability
3 cr. Undergraduate/Graduate.
Principles of environmental policy, governance, and management for global sustainability.
Prerequisites: jr st; CES 210(P) or cons instr.
Course Rules: CES 461, Frshwtr 461, & Global 461 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 464 Chemical Hydrogeology
3 cr. Undergraduate/Graduate.
Natural chemical processes that occur in groundwater systems, how they are modified by human activity and contamination, and attempts to regulate them. Lec, lab.
Prerequisites: jr st; Chem 102(P)
Course Rules: Frshwtr 464 & Geo Sci 464 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 496 UROP Apprenticeship, Upper-Level
1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with a supervising member of the faculty or staff. One credit for 45 hrs research.
Prerequisites: jr st; acceptance to UROP; prior or conc reg in UROP seminar.
Course Rules: May be retaken to 9 cr max in any combination of UROP apprenticeship courses.
Last Taught: Spring 2017, Fall 2013.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 497 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM sponsored program before course work level, content and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: UWinteriM 2012.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 498 Undergraduate Research
1-3 cr. Undergraduate.
Undergraduate research on faculty-supervised research projects.
Prerequisites: jr st; cons instr.
Course Rules: May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 502 Aquatic Ecosystem Dynamics
3 cr. Undergraduate/Graduate.
Interdisciplinary, quantitative approach to understanding large lake dynamic processes, including geological formation, hydrology, hydrodynamics, chemistry and the dynamics of plankton and fish communities.
Prerequisites: jr st; 1 sem calculus or algebra; 2 sem Physics, Chem, or Bio Sci; or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule
FRSHWTR 504 Quantitative Freshwater Analysis
3 cr. Undergraduate/Graduate.
A fundamental set of tools for the quantitative analysis of environmental
data sets, with an emphasis on the calculation of reservoirs, residence
times and rates in aquatic systems.
Prerequisites: jr st; 1 sem calculus, Physics, Chem, & Bio Sci; or cons
instr.
Last Taught: Spring 2018, Spring 2017, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 506 Environmental Health of Freshwater Ecosystems
3 cr. Undergraduate/Graduate.
The influences of human-induced environmental change on the health of
freshwater ecosystems and humans who interact with these systems.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 508 Aquatic Technologies
3 cr. Undergraduate/Graduate.
Interdisciplinary perspective on the function, application and
development of technologies used in the aquatic sciences.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 510 Economics, Policy and Management of Water
3 cr. Undergraduate/Graduate.
The impact of economics, policy and management decisions on our
freshwater resources and how science and economics affect these
decisions.
Prerequisites: jr st.
Last Taught: Fall 2017, Fall 2016, Spring 2016, Fall 2014.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 511 Ichthyology
3 cr. Undergraduate/Graduate.
The diverse biology of fishes focusing on behavioral, biomechanical,
genetic, and physiological adaptations to diverse ecological systems.
Prerequisites: jr st; grade of C or better in Bio Sci 310(P); or cons instr.
Course Rules: Bio Sci 511 & Frshwr 511 are jointly offered; they count as
repeats of one another.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 512 Freshwater Sciences Practicum:
2-4 cr. Undergraduate/Graduate.
Diverse opportunities for practical, hands-on experience in the practice
of freshwater science with emphasis on team work, problem solving, field
work, and dissemination of results.
Prerequisites: jr st, Frshwr 502(P) & 504(P); or cons instr.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 513 Field Experimentation and Analysis in Freshwater
Sciences
3 cr. Undergraduate/Graduate.
Student acquisition of comprehensive investigative procedures
in freshwater ecology focusing on field and laboratory interactive
assignments.
Prerequisites: jr st; Bio Sci 152(P); Chem 104(P); or grad st.
Last Taught: Fall 2017.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 514 Analytical Techniques in Freshwater Sciences
3 cr. Undergraduate/Graduate.
Modern analytical techniques and genomics principles and methods in
freshwater sciences.
Prerequisites: jr st; Bio Sci 152(P); Chem 104(P); or grad st.
Course Rules: Counts as repeat of Frshwr 650 w/same topic.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 522 Aquatic Organic Biogeochemistry
3 cr. Undergraduate/Graduate.
Fluxes and biogeochemical cycling pathways of dissolved, colloidal and
particulate organic matter across interfaces in aquatic systems.
Prerequisites: jr st & 1 sem Chem; or cons instr.
Last Taught: Fall 2017, Fall 2015.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 524 Aquatic Isotope Biogeochemistry
3 cr. Undergraduate/Graduate.
Principles and applications of stable and radioactive isotopes and other
biogeochemical tracers in aquatic environments.
Prerequisites: jr st.
Last Taught: Fall 2016.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 562 Principles of Aquaculture Systems
3 cr. Undergraduate/Graduate.
Physical and chemical aspects of intensive & recirculating operations of
aquaculture production systems.
Prerequisites: jr st; BioSci 152 (P); Chem 104(P); Math 116(P).
Current Offerings: http://uwm.edu/schedule

FRSHWTR 563 Finfish Aquaculture and Nutrition Principles
3 cr. Undergraduate/Graduate.
Principles of aquaculture and fish nutrition; emphasis on Great Lakes;
future challenges to aquaculture development in North America.
Prerequisites: jr st; Bio Sci 152(P); Chem 104(P).
Last Taught: Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 564 Water Quality in Aquaculture
3 cr. Undergraduate/Graduate.
Principles of water chemistry & microbial conversion of nutrients;
microorganisms that impact fish health; for successful operation of
intensive aquaculture operations.
Prerequisites: jr st; Bio Sci 152(P); Chem 104(P).
Current Offerings: http://uwm.edu/schedule
FRSHWTR 565 Fish Health
3 cr. Undergraduate/Graduate.
Overview of current and emerging fish diseases and treatment strategies to diagnose and identify pathogens and disease to mitigate spread of disease.
Prerequisites: jr st, Bio Sci 152(P); Chem 104(P).
Current Offerings: http://uwm.edu/schedule

FRSHWTR 584 Aquatic Ecosystem Services Valuation
3 cr. Undergraduate/Graduate.
Economic theory and methods in valuing aquatic and related terrestrial ecosystems.
Prerequisites: jr st.
Course Rules: Counts as repeat of Frshwtr 650 with same topic.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 560 Sequence Analysis
3 cr. Undergraduate/Graduate.
Molecular biology underlying nucleic and amino acid analyses and the tools available to conduct comparative sequence analysis.
Prerequisites: jr st, BIO SCI 152(P), BIO SCI 325(P), & CHEM 104(P); or grad st.
Course Rules: Counts as repeat of Frshwtr 512 with similar topic.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 650 Topics in Freshwater Sciences:
1-3 cr. Undergraduate/Graduate.
Current issues in freshwater sciences.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 690 Undergraduate Seminar in Freshwater Sciences:
1-3 cr. Undergraduate.
Seminar on topics of current interest in freshwater sciences.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 695 Independent Study in Freshwater Sciences for Biological Sciences Students
1-3 cr. Undergraduate.
Independent and original research on a topic not available as a regular course; conducted under the direction of faculty or staff scientist from the School of Freshwater Science.
Prerequisites: jr st; Bio Sci 325 (P); one of Bio Sci 310(P), 315(P)/316(P), or 383(P); 2.500 GPA; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: Bio Sci 695 & Frshwtr 695 are jointly offered; w/ same subject, they count as repeats of one another. May be retaken to 6 cr max. Satisfies Bio Sci research req; does not count as a Bio Sci lab course.
Last Taught: Fall 2016, Spring 2016.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 699 Independent Study for Undergraduates
1-3 cr. Undergraduate.
Independent study on a topic not available as a regular course; conducted under the supervision of a faculty member; requires approved study proposal.
Prerequisites: jr st; cons instr.
Course Rules: May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 781 Water Law for Scientists and Policy Makers
3 cr. Graduate.
The course is formatted to provide five (5) classes each on the Clean Water Act and basic common law concepts of Water Law; The Great Lakes Compact; and Wisconsin’s Groundwater Protection Act. Counts as repeat of Frsh Wtr 650 with similar topic.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 782 Water Resources Planning
3 cr. Graduate.
Emphasis on planning for water across the water cycle (surface, groundwater, wetlands, etc.), integrating non-water resources (habitat, energy, GHG emissions, etc.) in an urban context.
Prerequisites: grad st.
Course Rules: Jointly offered with & counts as repeat of UrbPlan 782.
Last Taught: Fall 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 790 Freshwater Policy and Governance
3 cr. Graduate.
The main theoretical frameworks used in public policy to study environmental problems.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 810 Professional Development for Water Leaders
3 cr. Graduate.
Exploration of skill set needed for lifelong career development: research ethics, communications, teamwork, interpersonal relationships, administration, entrepreneurship, project management, and leadership.
Prerequisites: Counts as repeat of FrshWtr 650 with similar topic. Prereq grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule
FRSHWTR 822 Molecular & Cellular Basis of Environmental Disease
3 cr. Graduate.
Examines how environmental agents cause changes in gene expression, structure, and activity leading to disease; and resulting alterations in normal cellular processes and physiological consequences.
Prerequisites: grad st
Course Rules: Frshwtr 822 & EOH 822 are jointly-offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 888 Candidate for Degree
0 cr. Graduate.
Available for grad students who must meet minimum credit load requirement. Fee for 1 credit assessed.
Prerequisites: grad st; cons instr.
Last Taught: Fall 2017, Summer 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 900 Colloquium in Freshwater Sciences
1 cr. Graduate.
Lectures by staff and visitors on research in various areas of freshwater sciences.
Prerequisites: grad st.
Course Rules: Retakable up to 2 cr.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 901 Seminar in Freshwater Sciences:
1-3 cr. Graduate.
Seminar on topics of current interest in freshwater sciences.
Prerequisites: grad st.
Course Rules: May be repeated w/ chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 980 Graduate Internship
1-3 cr. Graduate.
Students earn credits for serving in an internship that involves work related to freshwater sciences disciplines. They must prepare a report based on the internship. Retakable w/chg in topic to 6 cr max. Satisfactory/Unsatisfactory only.
Prerequisites: grad st; cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 985 Master's Research and Thesis
1-6 cr. Graduate.
Research and writing of the master's thesis under the supervision of the major professor.
Prerequisites: grad st; cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 990 Doctoral Research and Dissertation
1-9 cr. Graduate.
Research and writing of the doctoral dissertation under the supervision of the major professor.
Prerequisites: grad st; cons instr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

FRSHWTR 999 Independent Study
1-3 cr. Graduate.
For graduate students unable to secure needed content in regular courses.
Prerequisites: grad st; cons instr.
Course Rules: Retakable w/ chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

APPLIED URBAN AQUACULTURE, UNDERGRADUATE CERTIFICATE

The Certificate in Applied Urban Aquaculture is open to all students seeking a bachelor's degree from UWM, as well as those who previously received a bachelor's degree from UWM or any other accredited college or university. Urban aquaculture techniques developed at UWM School of Freshwater Sciences promote the use of integrated, fish and vegetable production systems that utilize green technology, water reuse, zero effluent discharge, and energy conservation.

Learn concepts, apply methods, and develop solutions:
- Monitor water chemistry and microbial activity
- Perform harvesting and husbandry techniques
- Identify and diagnose pathogens and diseases
- Operate and oversee life support and recirculating aquaculture systems
- Create and implement aquaculture operating procedures

For more information contact Dr. Jhonatan Sepulveda, Assistant Professor of Freshwater Sciences, Certificate Coordinator, at sepulveo@uwm.edu.

Application Deadlines
- Fall 2018 – March 1, 2018
- Spring 2019 – December 15, 2018

Admissions
To be admitted to the university as non-degree students, individuals must meet regular university admission requirements (p. 12). Students who are not currently enrolled and have not applied to UW-Milwaukee in the past need to fill out an online application and pay the application fee. All applicants must submit transcripts that provide evidence of the following required coursework (or equivalent) prior to admission:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 104</td>
<td>General Chemistry and Qualitative Analysis</td>
<td>5</td>
</tr>
<tr>
<td>BIO SCI 152</td>
<td>Foundations of Biological Sciences II</td>
<td>4</td>
</tr>
<tr>
<td>MATH 116</td>
<td>College Algebra</td>
<td>3</td>
</tr>
</tbody>
</table>

To formally declare your intent to pursue the Certificate in Applied Urban Aquaculture, complete the Declaration Form and make an appointment with the certificate coordinator.

Program Requirements
Students must complete 15 credits (5 courses) with a minimum grade point average of 2.75. Courses for this certificate may not be taken on a credit/no credit basis.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</tr>
</tbody>
</table>

Credits earned at other accredited institutions equivalent to courses in the certificate program may be accepted in partial fulfillment of the program requirements, subject to review by the Certificate Program Advisory Committee. This information should be included on the Declaration Form for approval when you apply to the certificate program.

To Apply
I have a Bachelor's Degree and am not currently enrolled in a degree program.

1. Contact Jhonatan Sepulveda Villet (sepulveo@uwm.edu) to review unofficial transcripts for prerequisites.
2. Apply online as a degree seeking certificate student at https://apply.wisconsin.edu/ and submit official transcripts. (There is no application fee for former UWM students; all others must pay the fee.
3. SFS reviews application and submits decision to Office of Undergraduate Admissions.

I am enrolled at another UW System school and have achieved at least junior status.

1. Contact Jhonatan Sepulveda Villet (sepulveo@uwm.edu) to review unofficial transcripts for prerequisites.
2. Your current undergraduate advisor completes a pre-authorization form.
3. Apply online as a degree seeking certificate student at https://apply.wisconsin.edu/ and submit official transcripts.
4. SFS reviews application and submits decision to Office of Undergraduate Admissions.

I am at least a junior at UWM.

1. Contact Jhonatan Sepulveda Villet (sepulveo@uwm.edu) to review unofficial transcripts for prerequisites.
2. SFS reviews application and submits decision to Office of Undergraduate Admissions.
3. Complete and submit the Applied Urban Aquaculture Declaration Form (http://uwm.edu/freshwater/wp-
content/uploads/sites/48/2014/07/AUA-Declaration-Form1.pdf) to Mallory Kaul (minorm@uwm.edu).

4. Certificate plan is added to your PAWS account.

There is no additional application fee for current UWM students.

**Gainful Employment**

The Applied Urban Aquaculture Program is subject to gainful employment regulations (http://uwm.edu/financialaid/apply-for-aid/eligibility/non-degree-students).

FRESHWATER SCIENCES AND TECHNOLOGY MS (THESIS)

The School of Freshwater Sciences offers a graduate program of studies providing students with advanced training and education in four areas:

- Freshwater System Dynamics
- Human and Ecosystem Health
- Freshwater Technology
- Freshwater Policy and Economics

Each of these focus areas is interrelated with the others, and includes biologic, physical, technologic and policy aspects of freshwater.

The Master of Science program has two tracks designed to provide a strong foundation necessary for the training of graduates that will utilize novel approaches to the sustainable and equitable use and management of freshwater systems worldwide. The Doctor of Philosophy program is a research degree designed to explore and discover novel approaches to the sustainable and equitable use and management of freshwater systems worldwide. These programs will create an interdisciplinary atmosphere for training the next generation of scientists armed with the knowledge, skills and experience to anticipate and address the freshwater issues of the future.

Timely application is encouraged for students seeking financial support. When applying for admission, applicants should describe as completely as possible their specific research interests within freshwater sciences. Applicants are strongly encouraged to establish contact, before or during the application process, with Freshwater Sciences faculty members whose research interests are closest to their own, regarding the likelihood of one serving as the student's major professor.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Prerequisite Coursework
The following prerequisites are strongly recommended:

1. At least one semester coursework in three of the following at the college level: chemistry, biological sciences, physics, and calculus.
2. One additional semester of chemistry, biological sciences, or physics.

Admission will be considered based upon the applicant's academic and/or professional background, proposed course of study, and possible additional coursework once in the degree program, should important preparatory gaps be identified.

Other Admission Requirements
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these departmental requirements to be considered for admission to the program:

1. A bachelor's degree in biology, chemistry, economics, geosciences, mathematics, physics, public policy, or other appropriate natural science, social science or engineering discipline.
2. A minimum GPA of 3.0.

3. Submission of scores on the General Test of the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre) (This requirement is optional for Professional Track applicants.).
4. Three letters of recommendation from persons familiar with the applicant's scholarship and/or research potential.

The student must indicate in the Statement of Purpose (part of the formalized application process) the track to which they are applying and the intended focus of their MS studies. The statement must also indicate how their previous education has prepared them for graduate studies.

Critical skills required for the successful completion of the MS program include research design, data analysis, and effective communication of research results.

Credits and Courses

For students admitted Spring 2018 and after
Minimum degree requirement is 31 graduate credits.

Program Requirements

Major Professor as Advisor
Students in the thesis track must be accepted by a faculty member who will serve as the initial major professor, and be primarily responsible for matriculation. Acceptance or agreement by a faculty member does not constitute formal acceptance into the School of Freshwater Sciences. Prospective thesis-track students are strongly encouraged to communicate with the prospective major professors early in the admission process.

A plan of study is required that identifies the planned courses and timeline for completion of the degree. For the thesis track, this includes coursework and proposed research and is planned by the student in consultation with the major professor and must be approved by the Thesis Advisory Committee.

Thesis Advisory Committee
The membership of the Thesis Advisory Committee should be established by the end of the student’s first semester. The Committee must consist of three members including the M.S. student’s advisor as chair (or co-advisors as co-chairs who are graduate faculty members from the School of Freshwater Sciences) and at least two additional members, one of whom must come from outside the student’s research focus. Consideration will be given to the inclusion of one external, non-UWM member of the committee. If included as part of the committee, this person would participate in the thesis defense examination. The Committee must meet at least once a year to monitor the student’s academic and research progress.

Proposal Defense and Preliminary Oral Examination
The student must complete a formal oral defense of her or his written thesis proposal. This defense should be made before the end the third semester and will also serve as the preliminary oral examination. The Thesis Committee decides by simple majority whether the student passes, fails, or must repeat the examination or defense. At the discretion of the Committee, a student who fails the defense or examination may be allowed one additional attempt at successful completion.

Thesis
The thesis is conducted with oversight from the student’s Advisory Committee. The thesis research is expected to be of a caliber sufficient for publication in a peer-reviewed journal. Satisfactory completion of the thesis, including successful defense, is required for graduation. Up to six credits may be awarded for thesis research.

Please see the Graduate School thesis and dissertation formatting requirements (http://uwm.edu/graduateschool/thesis-dissertation-formatting) for further information.

Thesis Defense
The thesis defense is a public presentation of the thesis research followed by an oral defense administered by the Advisory Committee.

Time Limit
All degree requirements must be completed within five years of initial enrollment.
FRESHWATER SCIENCES AND TECHNOLOGY MS: PROFESSIONAL SCIENCE TRACK

The School of Freshwater Sciences offers a graduate program of studies providing students with advanced training and education in four areas:

- Freshwater System Dynamics
- Human and Ecosystem Health
- Freshwater Technology
- Freshwater Policy and Economics

Each of these focus areas is interrelated with the others, and includes biologic, physical, technologic and policy aspects of freshwater.

The Master of Science program has two tracks designed to provide a strong foundation necessary for the training of graduates that will utilize novel approaches to the sustainable and equitable use and management of freshwater systems worldwide. The Doctor of Philosophy program is a research degree designed to explore and discover novel approaches to the sustainable and equitable use and management of freshwater systems worldwide. These programs will create an interdisciplinary atmosphere for training the next generation of scientists armed with the knowledge, skills and experience to anticipate and address the freshwater issues of the future.

Timely application is encouraged for students seeking financial support. When applying for admission, applicants should describe as completely as possible their specific research interests within freshwater sciences. Applicants are strongly encouraged to establish contact, before or during the application process, with Freshwater Sciences faculty members whose research interests are closest to their own, regarding the likelihood of one serving as the student's major professor.

Admission Requirement

Program Requirements

Major Professor as Advisor
Upon admission to the program, each student in the professional track will be assigned an initial advisor based on their background. The initial advisor will provide counseling to the students and help to identify goals and objectives of their graduate education. Students should identify their permanent advisor during the first semester in the program. The advisor will oversee the student’s internship.

A plan of study is required and planned by the student in consultation with his or her advisor and the internship coordinators of the program. The plan of study identifies the planned courses and timeline for completion of the degree coursework and internship.

Internship
All students in the professional science track are required to participate in an internship research experience, generally between the first and second years of the program. Internship experiences focus on complex regional, national, and global water problems and often involve authentic, practical problems in the field. The program coordinators provide resources and internship opportunities with industry, government, and non-profit organizations. It is the responsibility of the student and advisor to identify the internship and the direct supervisor within a specific organization and submit a proposal that identifies goals and objectives of the internship. Proposals will be reviewed and approved by the advisor. Alternatively, a group project may occur in lieu of an internship and should provide students with training and experience in performing professional-level work that involves managing group dynamics and applying technical expertise to solve complex, multidisciplinary water-related problems.

Time Limit
The student must complete all degree requirements within seven years of initial enrollment.

1 Substitute courses (http://uwm.edu/freshwater/professional-core-courses) as approved by program director.
FRESHWATER SCIENCES, PHD

The School of Freshwater Sciences offers a graduate program of studies providing students with advanced training and education in four areas:

- Freshwater System Dynamics
- Human and Ecosystem Health
- Freshwater Technology
- Freshwater Policy and Economics

Each of these focus areas is interrelated with the others, and includes biologic, physical, technologic and policy aspects of freshwater.

The Master of Science program has two tracks designed to provide a strong foundation necessary for the training of graduates that will utilize novel approaches to the sustainable and equitable use and management of freshwater systems worldwide. The Doctor of Philosophy program is a research degree designed to explore and discover novel approaches to the sustainable and equitable use and management of freshwater systems worldwide. These programs will create an interdisciplinary atmosphere for training the next generation of scientists armed with the knowledge, skills and experience to anticipate and address the freshwater issues of the future.

Timely application is encouraged for students seeking financial support. When applying for admission, applicants should describe as completely as possible their specific research interests within freshwater sciences. Applicants are strongly encouraged to establish contact, before or during the application process, with Freshwater Sciences faculty members whose research interests are closest to their own, regarding the likelihood of one serving as the student’s major professor.

Admission Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Prerequisite Coursework
The following prerequisites are strongly recommended:

1. At least one semester coursework in three of the following four areas: chemistry, biological sciences, physics, and calculus.
2. One additional semester of chemistry, biological sciences, or physics.

Admission will be considered based upon the applicant’s academic and/or professional background, proposed course of study, and possible additional coursework once in the degree program, should important preparatory gaps be identified.

Other Requirements
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus the following program requirements to be considered for admission:

1. A degree in biology, chemistry, economics, geosciences, mathematics, physics, public policy or other appropriate natural science, social science or engineering discipline.
2. An undergraduate GPA of at least 3.0 (4.0 basis).

4. Three letters of recommendation from persons familiar with the applicant’s scholarship, research achievements and potential.

A master’s degree is not a prerequisite for admission to the PhD program.

Students in the PhD program must be accepted by a faculty member who will serve as the major professor, and be primarily responsible for matriculation. Acceptance or agreement by a faculty member does not constitute formal acceptance into the School of Freshwater Sciences. Applicants are strongly encouraged to communicate with prospective major professors early in the admission process.

Reapplication
A student in the MS program, or who receives the master’s degree at UWM, must formally reapply for admission to the Graduate School before continuing studies toward the PhD.

Credits and Courses

For students admitted Spring 2018 and after
Students must earn 54 credits beyond the bachelor’s degree, of which 24 credits may be taken from formal coursework completed as part of a master’s degree. A minimum of 27 credits must be earned in residence at UWM. Students may take up to a maximum of 9 credits of independent study counting toward the degree.

A Program of Study, including coursework and proposed research, is planned by the student in consultation with the major professor, and must be approved by the Committee. A student must present an annual progress report and an updated plan of study to his or her Doctoral Advisory Committee. For students entering with advanced degrees, some of the coursework may already be completed. Requests for
counting previously taken courses toward the degree requirements will be evaluated on a case-by-case basis. A minimal grade point average of 3.00 must be earned in coursework, not including research or seminars.

For students admitted Fall 2017 and before
You must earn 54 credits beyond the bachelor's degree, of which 24 credits may be taken from formal coursework completed as part of a master's degree.

You are required to take two integrative Seminar courses (FRSHWTR 901) and two Freshwater Sciences Practicum courses (FRSHWTR 512), as well as Quantitative Freshwater Analysis (FRSHWTR 504). In addition, you must complete at least 9 credits of dissertation research. Elective courses are selected in consultation with your PhD committee. A minimum of 27 credits must be earned in residence at UWM. You may take up to a maximum of 9 credits of independent study counting toward the degree.

You must be proficient in at least three of the four areas of study: 1. freshwater systems, 2. human/ecosystem health, 3. freshwater technology, and 4. freshwater policy and economics. To meet this requirement, core courses are offered in each of these respective areas:

Program Requirements

Residence
The student must meet Graduate School residence requirements (http://uwm.edu/graduateschool/doctoral-requirements/#residence).

Major Professor as Advisor
The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. Appointment of a major professor will be based on compatibility between a student's preferred research area or area of specialization and a professor's area of specialization.

PhD Advisory Committee
The membership of the PhD Advisory Committee will be established by the end of the student's first year. The Committee must consist of five members including the doctoral student's advisor as chair (or co-advisors as co-chairs). A minimum of three members must be from UWM, at least two graduate faculty members from the School of Freshwater Sciences, and two additional members, with consideration given to the inclusion of an external, non UWM member. The Committee must meet at least once a year to monitor and formally report to the faculty on the student's academic and research progress.

Doctoral Preliminary Examination
The preliminary examination must be passed by the end of the second year for the student to continue in the program. Extensions of this deadline must be approved by the PhD Advisory Committee. The examination is in two parts: written and oral. The content of the examination is determined in advance by the student's Advisory Committee, and will include subject matter that is broadly related to the area of research that the student will specialize in, as well as content related to the core courses. The Doctoral Committee decides by simple majority whether the student passes, fails, or must retake part or all of the examination. At the discretion of the Committee, a student who fails the examination may be allowed one additional attempt of all or part of the examination. After successful completion of the preliminary examination, the student concentrates on the development and execution of original research.

Dissertation Proposal Hearing
Following successful completion of the doctoral preliminary examination, the student submits a written dissertation proposal to the student's PhD Advisory Committee. The proposal must be submitted within one semester of the successful completion of preliminary exams, and defended by the end of the following semester. Extensions of this deadline must be approved by the PhD Advisory Committee.

Dissertator Status
Specific requirements which must be completed before the Graduate School places a doctoral student in dissertator status are described in the Doctor of Philosophy Degree (http://uwm.edu/graduateschool/doctoral-requirements) requirements section.

Dissertation
During the final year of study, the candidate must present a public seminar on the dissertation research and subsequently prepare and successfully defend a dissertation reporting the results of the candidate's research to the Committee. The original research findings embodied in this dissertation are expected to be accepted for publication in one or more refereed journals. Please see the Graduate School thesis and dissertation formatting requirements for further information.

Dissertation Defense
As the final step toward the degree the candidate must defend the dissertation before the PhD Advisory Committee.

Time Limit
All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.
HEALTH SCIENCES (COLLEGE OF)

The UWM College of Health Sciences offers the largest number of health-related degree programs in Wisconsin, training its graduates for high-demand careers. Many of the College’s seven undergraduate and eleven graduate degree programs are nationally-recognized and have achieved the highest accreditation awards possible. The College’s faculty conducts state-of-the-art research attracting a record number of federal research grants. During its 42-year history, the College’s research and health sciences education have contributed significantly to improving quality of life.

Our faculty comprises an esteemed group of scholars. The research activities of our faculty and staff encompass groundbreaking urban and population studies, pioneering biomedical research investigations, advances in movement science, ingenious rehabilitation research and development, innovative applied clinical technologies, and novel disease prevention approaches. These activities are supported by the resources of eight academic centers and twenty-seven state of the art laboratories within the College, and millions of dollars in funds from reputable institutions, such as the National Institutes of Health, the National Science Foundation, the Centers for Disease Control and Prevention, and the U.S. Department of Education.

  - Pre-Physical Therapy (p. 913)

Undergraduate Academic Advising

Academic advising and counseling for all pre-professional students is available in the Office of Student Affairs. Students who have been admitted to their major/professional program may be assigned a faculty advisor. Professional and faculty advisors are prepared to guide academic planning, provide career and job market information, and to
assist students in making appropriate career choices within the health professions. Students are strongly encouraged to schedule one advising session per semester (preferably before the registration process).

Students who believe they have a disability that might affect their academic or job performance are encouraged to meet with an advisor early in their academic planning to discuss appropriate accommodations. Graduation clearance service is available for all students planning to register for the last two semesters. Call (414) 229-2758 for an appointment.

Transfer Students
The College of Health Sciences welcomes students from other academic areas on the UWM campus, and students transferring to UWM from other institutions. Students planning to transfer into any of the College’s majors should meet with an advisor in the Office of Student Affairs to plan their curriculum as early as possible. Most students find that a number of their courses transfer in meeting specific program and General Education Requirements (GER) needed for graduation. Students may meet with their advisor in person or by phone; quick questions to advisors may be handled by email as well. Please call (414) 229-2758 for an appointment or information.

Graduate Policies and Regulations
The Graduate School policies and regulations can be found at Graduate Policies (p. 22). Please refer to the specific program for program policies and regulations.

Undergraduate Academic Regulations
For information regarding action on unsatisfactory grades or about honors for scholarship, see Academic Policies (p. 27).

Students in all College of Health Sciences majors whose cumulative or semester GPA in professional studies falls below 2.5 (except Nutrition, Occupational Studies, and all Kinesiology majors, who must have a semester GPA of 2.75; semesterly GPA of 3.0 is required for BS in Communication Sciences and Disorders) are required to consult with their program head and obtain the Dean’s permission to continue in the program.

Continuous Enrollment
A student who does not maintain continuous registration during the academic year and is re-admitted to the College must meet the program and graduation requirements in effect at the time of re-entry.

Curriculum Requirements
Any deviations from the curriculum must be approved, in writing, by the student’s program director or chairperson, and the Associate Dean. It is required that a student consult his/her advisor before requesting any program changes or waivers.

Requirements for Employment, Licensing, or Professional Organizations
Students should be aware that some professions, occupations, and employers are subject to licensing and/or bonding requirements. When a course of study includes clinical or field training, practice teaching, or internships, students will be required to have a check of criminal conviction records prior to acceptance of a student by the placement site. Students are responsible for obtaining the information necessary for them to become knowledgeable about these requirements and plan their studies accordingly.

Health Insurance Documentation
Students may be required to carry health insurance during internship or fieldwork experiences. As a condition of placement in an internship program, students may also be required to have updated vaccinations (e.g., MMR, Hbv). In addition, a physical examination and TB test may be required.

Special Opportunities
Enrollment in UW System Independent Learning
Courses may be taken through the University of Wisconsin-Extension, with the permission of the Director of the Office of Student Affairs. Students may not exceed 18 credits during one semester, including correspondence courses and work in residence, without permission. Approval of a tuition waiver in an Independent Learning course may be contingent on enrollment by the add deadline in the semester in which you aim to enroll. Please connect with your advisor for further guidance.

Only elective course requirements may be met through Extension study.

Independent Study
Independent study is available in each department. Credits are awarded for academic activities pursued outside the formal classroom setting under the supervision of a faculty member. Activities may include reading, research, and special projects and must be approved, in advance, by the full-time faculty supervisor. Independent study is offered at the lower and upper levels. Students must have a cumulative GPA of 2.5 at UWM to pursue independent study. Upper-division independent study requires senior status. For more information, see the catalog course listings or contact the department chairperson.

College Level Examination Program (CLEP)
Credit for specific college courses may be earned through the College Level Examination Program (CLEP) of the College Entrance Examination Board. Students will be granted degree credit only for subject examinations, and if they score at the 50th percentile or higher on the National Sophomore norm. Credit for subject examinations may only be used to satisfy elective credits within the College of Health Sciences degree programs. A list of acceptable examinations may be found in the introductory section of this catalog under Academic Opportunities.

Online Programs
The College of Health Sciences is pleased to offer our Undergraduate students the opportunity to complete select degree programs and certificate programs in a fully online format.

Interested students should contact the College’s Office of Student Affairs for curriculum plans and an opportunity to meet with our academic advisors, (414) 229-2758. The Office is located in NWQB, Room 6425.

These programs include:

- BS, Biomedical Sciences, Degree Completion Program in Health Sciences (see the Biomedical Sciences (p. 793) section of this Catalog)
- BS, Biomedical Sciences, Degree Completion Program in Diagnostic Imaging (also available in Flexible Option) (see the Biomedical Sciences (p. 793) section of this Catalog)
• Certificate, Study of Complementary and Alternative Medicine (see the Kinesiology (p. 862) section of this Catalog)
• Certificate, Health Care Informatics (see the Health Informatics and Administration (p. 842) section of this Catalog)
• Certificate, Therapeutic Recreation (see the Occupational Science and Technology (p. 889) section of this Catalog)

Administration
Ron Cisler, PhD
Dean

Jeri-Annette Lyons, PhD
Associate Dean

Abigail Amissah-Arthur, PhD
Assistant Dean, Office of Research

Kate Brondino, MEd
Director, Office of Student Affairs

Susan Cashin, PhD
Director, Data Analytics

Cheri Dzieken Chapman
Communications Manager

Chi (Chris) Cho, MS
Biostatistician

Mike Hauer, PhD
Assistant Dean Emeritus

Michelle Janowiak
Senior Student Services Coordinator

Debra Maglio
Senior Administrative Program Specialist, Business Office

Karen Miyoshi, MA
Administrative Program Manager II

Marion McDowell
Administrative Program Manager III Emerita

Bill Mueller, MS
Academic Advisor

Nancy Nelson, PhD
Assistant Dean, Outreach and Continuing Education

Agnes Northrup, MS
Academic Advisor

Angela Rintelman, MS
Academic Advisor/Recruiter

Torry Rufer, MS
Recruiter, Academic Advisor

Roger O. Smith, PhD, OTR, FAOTA
Director, R2D2

Susan Stalewski, MBA, MLS (ASCP)
Director, Academic Initiatives and Planning
Director, E-learning

Scott Strath, PhD
Director, Center for Aging and Translational Research

**BIOMEDICAL SCIENCES**

Medical tests are critical to the accurate detection, diagnosis and treatment of diseases, and so are the scientists who analyze and interpret those tests in the lab. A degree in biomedical sciences prepares these analysts, and is ideal for students who enjoy science and its practical applications in healthcare or research settings.

**Programs**

- Biomedical Sciences, BS: Biomedical Science (p. 802)
- Biomedical Sciences, BS: Cytotechnology (p. 804)
- Biomedical Sciences, BS: Diagnostic Imaging Completion (p. 807)
- Biomedical Sciences, BS: Diagnostic Medical Sonography (p. 808)
- Biomedical Sciences, BS: Health Science Completion (p. 811)
- Biomedical Sciences, BS: Medical Laboratory Science (p. 813)
- Biomedical Sciences, BS: Public Health Microbiology (p. 815)
- Biomedical Sciences, BS: Radiologic Technology (p. 818)
- Biomedical Sciences, MS (p. 820)
- Blood Banking/Immunohematology, Undergraduate Certificate (p. 821)
- Death Investigation, Undergraduate Certificate (College of Health Sciences, Department of Biomedical Sciences) (p. 822)
- Forensic Science, Undergraduate Certificate (College of Health Sciences, Department of Biomedical Sciences) (p. 823)
- Forensic Toxicology, Undergraduate Certificate (College of Health Sciences, Department of Biomedical Sciences) (p. 823)
- Molecular Diagnostics, Undergraduate Certificate (p. 824)
- Nutritional Sciences, BS (Department of Biomedical Sciences) (p. 825)
- Nutritional Sciences, Minor (Department of Biomedical Sciences) (p. 826)

**Biomedical Sciences Courses**

**BMS 101 Introduction to Clinical Laboratory Sciences**
2 cr. Undergraduate.
Lecture and laboratory instruction to introduce the student to the profession of clinical laboratory sciences with special emphasis in medical technology and cytotechnology.
Prerequisites: none.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

**BMS 201 Sexually Transmitted Diseases and AIDS**
3 cr. Undergraduate.
Introductory course examining epidemiology, physiology, and microbiology of sexually transmitted infectious diseases. Information on reproductive physiology, pathophysiology and clinical disease, prevention and current treatment strategies.
Prerequisites: none.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

**BMS 204 Plagues, Pandemics, and Epidemics**
3 cr. Undergraduate.
Basic principles and concepts of infectious diseases recognized to be of major worldwide importance in terms of mortality and morbidity.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

**BMS 205 Introduction to Diagnostic Medicine**
3 cr. Undergraduate.
This course will provide a framework for understanding medical diagnostic tests in terms of procedures, risks, interpretation of results and relevant science behind the tests.
Prerequisites: none.
Course Rules: Counts as repeat of BMS 205X.
General Education Requirements: NS
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

**BMS 232 Introduction to Nutrition**
3 cr. Undergraduate.
Fundamentals of human nutrition, functions and requirements of nutrients, nutritional needs throughout the life cycle.
Prerequisites: none.
Course Rules: Not open for cr to students with cr in Hlthsci 238 or BMS 332.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

**BMS 245 Client Diversity in Health Sciences: An Interdisciplinary Perspective**
3 cr. Undergraduate.
Interdisciplinary instruction on effective service delivery in the health sciences to culturally diverse individuals and families. Emphasis on the complexity of an individual's cultural identity.
Prerequisites: soph st or cons instr.
Course Rules: BMS/ComSDis/HCA/Kin/OccThpy/TherRec 245 are jointly offered; they count as repeats of one another. Counts as repeat of BMS 245X.
General Education Requirements: CD, SS
Current Offerings: http://uwm.edu/schedule

**BMS 260 Introduction to Complementary and Integrative Health Approaches**
3 cr. Undergraduate.
Introduction to the philosophy, evidence and applications of diverse medical and health care systems, practices, and products that are not generally considered part of conventional western biomedicine.
Prerequisites: none.
Course Rules: Counts as repeat of BMS 260X.
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
BMS 281 Dead Men Do Tell Tales: An Introduction to Forensic Science
3 cr. Undergraduate.
A multidisciplinary view of how forensic scientists contribute to the many ways that physical evidence is collected, analyzed, and evaluated.
Prerequisites: none.
Course Rules: Jointly-offered with & counts as repeat of Anthro/Chem/Crm Jst 281.
Last Taught: Fall 2015, Fall 2014, Fall 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

BMS 285 Medicolegal Death Investigation
3 cr. Undergraduate.
Lectures on the fundamentals of death investigation as outlined by national guidelines for death investigators.
Prerequisites: none.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

BMS 290 Topics in Health Sciences:
1-3 cr. Undergraduate.
Topics of current interest in the field of health sciences.
Prerequisites: specified in sem schedule whenever req’d for a topic.
Course Rules: May be repeated with change in topic.
Current Offerings: http://uwm.edu/schedule

BMS 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content and credits are determined and/or in specially prepared program course work.
Prerequisites: acceptance to Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

BMS 301 Human Pathophysiology: Fundamentals
1 cr. Undergraduate.
Pathological mechanisms underlying disease states, diagnosis and treatment of these disorders; topics cover cell injury, inflammation, immunopathology, repair, regeneration and fibrosis.
Prerequisites: Bio Sci 203(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 302 Human Pathophysiology: Organ Systems I
1 cr. Undergraduate.
Pathological mechanisms underlying disease states, diagnosis and treatment of these disorders; topics cover developmental and genetic disorders, neoplasms, nervous system, bone, joints, skeletal muscle.
Prerequisites: BMS 301(C) or cons instr.
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule

BMS 303 Human Pathophysiology: Organ Systems II
1 cr. Undergraduate.
Pathological mechanisms underlying disease states, diagnosis and treatment of these disorders; topics cover cardiovascular, respiratory, blood and lymphoid systems, diabetes.
Prerequisites: BMS 301(C) or cons instr.
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule

BMS 304 Human Pathophysiology: Organ Systems III
1 cr. Undergraduate.
Pathological mechanisms underlying disease states, diagnosis and treatment of these disorders; topics cover gastrointestinal tract, pancreas, kidney, liver/biliary system, female and male reproductive systems.
Prerequisites: BMS 301(C) or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 305 Human Pathophysiology: Organ Systems IV
1 cr. Undergraduate.
Pathological mechanisms underlying disease states, diagnosis/treatment of these disorders. Topics: endocrine system, infectious and parasitic diseases, environmental and nutritional factors related to morbidity/mortality.
Prerequisites: BMS 301(C) or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 332 Clinical Nutrition
2 cr. Undergraduate.
Nutritional needs throughout life; relationships between food habits and health problems; evaluating dietary information for deficiencies and imbalances.
Prerequisites: Chem 103(P), Bio Sci 202(P) & 203(P), or BMS 232(P) or HlthSci 232(P).
Current Offerings: http://uwm.edu/schedule

BMS 333 Echocardiography I
3 cr. Undergraduate.
Introduction to normal cardiovascular anatomy, the normal ultrasound exam and protocol for an echocardiogram.
Prerequisites: jr st in BioMed Sci prog or cons instr.
Last Taught: Fall 2009, Fall 2008, Fall 2007.
Current Offerings: http://uwm.edu/schedule

BMS 403 Sonographic Physics I
1 cr. Undergraduate.
Study of the basic principles of acoustic transmission, reflection in tissues and transducer design in pulse echo systems.
Prerequisites: jr st in BioMed Sci prog or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 404 Sonographic Physics II
1 cr. Undergraduate.
Study of the basic principles of near zone, far zone, beam profiles, beam focusing, transducer arrays.
Prerequisites: jr st in BioMed Sci prog or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 405 Sonographic Physics III
1 cr. Undergraduate.
Study of the basic principles of Doppler, acoustical exposure measurements, QA, bioeffects and the ALARA principle.
Prerequisites: jr st in BioMed Sci prog or cons instr.
Current Offerings: http://uwm.edu/schedule
BMS 406 Diagnostic Medical Sonography (DMS) Abdomen I
4 cr. Undergraduate.
Study of normal and abnormal sonograms of the peritoneal space, prevertebral vessels, liver, biliary, pancreas and kidneys will be discussed.
Prerequisites: jr st in BioMed Sci prog or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 407 Diagnostic Medical Sonography (DMS) Abdomen II
4 cr. Undergraduate.
Study of normal and abnormal sonograms of the spleen, transplant imaging, GI imaging and dedicated pediatric imaging will be discussed.
Prerequisites: jr st in BioMed Sci prog or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 408 Vascular Sonography: CV & PV-Arterial
5 cr. Undergraduate.
Study of cerebrovascular anatomy, normal and abnormal, and ultrasound imaging, upper arterial ultrasound exams, anatomy and pathology and lower extremity arterial ultrasound.
Prerequisites: jr st in BioMed Sci prog or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 409 Vascular Technology: Advanced
4 cr. Undergraduate.
Study of peripheral vascular direct and indirect arterial and venous, normal and abnormal and abdominal Doppler.
Prerequisites: jr st in BioMed Sci prog or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 410 Sonography Clinical Internship I
5 cr. Undergraduate.
Students will successfully complete sonography clinical competency examinations, under the supervision of the clinical instructors.
Prerequisites: jr st in BioMed Sci prog or cons instr.
Last Taught: Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

BMS 411 Sonography Clinical Internship II
5 cr. Undergraduate.
Students will successfully complete sonography clinical competency examinations, under the supervision of the clinical instructors.
Prerequisites: jr st in BioMed Sci prog or cons instr.
Last Taught: Spring 2015, Spring 2014.
Current Offerings: http://uwm.edu/schedule

BMS 420 Clinical Hematology
3 cr. Undergraduate/Graduate.
Lectures in the production, regulation, function, and cytomorphology of normal hematopoietic elements. Introduction to hemostasis theory.
Prerequisites: jr st or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 421 Introduction To Hematology Laboratory
1 cr. Undergraduate.
Clinical laboratory experiences in basic hematology techniques and instrumentation to evaluate hematopoietic elements. 3 hr lab.
Prerequisites: jr st in BioMed Sci prog or cons instr; BMS 420(C).
Current Offerings: http://uwm.edu/schedule

BMS 427 Clinical Immunology
3 cr. Undergraduate/Graduate.
Fundamentals of Clinical Immunology, including cellular, humoral and molecular aspects. Correlation of laboratory test results with clinical disease states.
Prerequisites: jr st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

BMS 428 Clinical Immunology Laboratory
1 cr. Undergraduate.
Laboratory experiments in clinical immunology and theories of testing concepts. 3 hr lab.
Prerequisites: jr st in BioMed Sci prog or cons instr; BMS 427(C).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

BMS 431(C). Clinical Chemistry
3 cr. Undergraduate/Graduate.
Correlation of clinical chemistry with the pathophysiology of human disease.
Prerequisites: jr st; Chem 501(P) or cons instr; or grad st.
Current Offerings: http://uwm.edu/schedule

BMS 432 Clinical Chemistry Laboratory Theory & Operations
1 cr. Undergraduate.
Theory and application of Clinical Chemistry laboratory principles. Focus on laboratory principles, quality assurance, theory of instrumentation, and laboratory problem solving.
Prerequisites: jr st in BioMed Sci prog or cons instr; Chem 501(P); BMS 431(C).
Current Offerings: http://uwm.edu/schedule

BMS 433 Teamwork in the Health Professions
3 cr. Undergraduate.
Develop and demonstrate competency in best practices for professionalism, roles, responsibilities, teamwork, communication, ethics, and collaboration to improve the quality and safety of patient care.
Prerequisites: sr st or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 433X Teamwork in the Health Professions
3 cr. Undergraduate.
Develop and demonstrate competency in best practices for professionalism, roles, responsibilities, teamwork, communication, ethics, and collaboration to improve the quality and safety of patient care.
Prerequisites: sr st or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 434 Professional Development in the Health Sciences
3 cr. Undergraduate.
Knowledge and understanding about professional volunteerism, leadership, legislative, and advocacy efforts, certification and licensure, career pathways, growth, and advancement.
Prerequisites: sr st or cons instr.
Current Offerings: http://uwm.edu/schedule
BMS 434X Professional Development in the Health Sciences  
3 cr. Undergraduate.  
Knowledge and understanding about professional volunteerism, leadership, legislative, and advocacy efforts, certification and licensure, career pathways, growth, and advancement.  
Prerequisites: sr or cons instr.  
Current Offerings: http://uwm.edu/schedule

BMS 459 Introduction to 3D/4D Ultrasound  
3 cr. Undergraduate.  
Comparison of normal and pathological anatomy cases utilizing two, three and four dimensional sonography techniques.  
Prerequisites: jr st in BioMed Sci prog or cons instr.  
Last Taught: Fall 2013, Spring 2010, Spring 2009.  
Current Offerings: http://uwm.edu/schedule

BMS 462 Seminar in Ultrasound Research  
3 cr. Undergraduate.  
Student is assigned to a research project and mentor in didactic one-on-one sessions and performing clinical studies.  
Prerequisites: jr st in BioMed Sci prog or cons instr.  
Last Taught: Spring 2009.  
Current Offerings: http://uwm.edu/schedule

BMS 472 Radiographic Anatomy and Physiology IV  
3 cr. Undergraduate.  
Structure and physiology of the human body as they relate to radiography of the remaining systems. The physiochemical process.  
Prerequisites: sr st in BioMed Sci prog or cons instr.  
Last Taught: Fall 2012, Fall 2011, Fall 2010, Fall 2009.  
Current Offerings: http://uwm.edu/schedule

BMS 476 Radiographic Exposure IV  
3 cr. Undergraduate.  
Digital imaging concepts and conversion problems, qualities of contrast, density, detail, and distortion.  
Prerequisites: sr st in BioMed Sci prog or cons instr.  
Current Offerings: http://uwm.edu/schedule

BMS 481 Criminalistics  
3 cr. Undergraduate.  
Instruction on collection, preservation, and analysis of physical evidence from crime scenes. Instruction on the rules of evidence and expert testimony.  
Prerequisites: jr st; admis to Forensic Sci cert prog; Anthro/Chem/BMS/Crm Jst 281 (P); Crm Jst 480 (P).  
Course Rules: Anthro 481, Chem 481, BMS 481, & Crm Jst 481 are jointly offered; they count as repeats of one another.  
Current Offerings: http://uwm.edu/schedule

BMS 497 Study Abroad:  
1-12 cr. Undergraduate/Graduate.  
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.  
Prerequisites: acceptance to Study Abroad Prog.  
Course Rules: May be retaken w/chg in topic.  
Current Offerings: http://uwm.edu/schedule

BMS 501 Introduction to Cytotechnology  
1 cr. Undergraduate.  
Fieldwork to include lecture and laboratory instruction introducing the profession of Cytotechnology with emphasis on the role, responsibility, and ethics of the profession.  
Prerequisites: sr st in BioMed Sci prog & cons prog dir.  
Last Taught: Fall 2013, Fall 2012, Fall 2011, Fall 2010.  
Current Offerings: http://uwm.edu/schedule

BMS 521 Applied Clinical Hematology  
2 cr. Undergraduate.  
Instruction in hematological laboratory techniques and the pathophysiology of disease of the reticuloendothelial system using case studies as a basis of discussion.  
Prerequisites: sr st in BioMed Sci prog or cons instr.  
Current Offerings: http://uwm.edu/schedule

BMS 522 Hemostasis  
1 cr. Undergraduate.  
Correlation of basic theories of the hemostatic system with normal and abnormal clinical laboratory results. Introduction to basic methodology employed in differential diagnosis of hemostatic disorders.  
Prerequisites: sr st in BioMed Sci prog or cons prog dir.  
Current Offerings: http://uwm.edu/schedule

BMS 523 Lectures in Advanced Clinical Hematology  
1 cr. Undergraduate.  
Lectures dealing with abnormalities of hematopoiesis, and the blood dyscrasias, and examination of bone marrow and lymphnodes.  
Prerequisites: BMS 420(320)(P) or cons instr.  
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.  
Current Offerings: http://uwm.edu/schedule

BMS 524 Advanced Clinical Hematology Practicum  
3 cr. Undergraduate.  
Practical experience in the clinical laboratory dealing with both normal and abnormal hematology and body fluids.  
Prerequisites: sr st in BioMed Sci prog or cons prog dir.  
Current Offerings: http://uwm.edu/schedule

BMS 529 Introduction to Immunohematology  
3 cr. Undergraduate.  
An introduction to the fundamentals of immunohematology and clinical blood banking.  
Prerequisites: BMS 427(P) or cons instr.  
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.  
Current Offerings: http://uwm.edu/schedule

BMS 530 Immunohematology and Blood Banking Laboratory  
1 cr. Undergraduate.  
Fundamental practical instruction in basic blood banking techniques.  
Prerequisites: BMS 529(C) or cons instr.  
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.  
Current Offerings: http://uwm.edu/schedule
BMS 531 Advanced Lectures in the Clinical Laboratory Sciences
1 cr. Undergraduate.
Clinical applications and relationships within the various disciplines of
clinical laboratory sciences including discussion of current topics of
interest in diagnostic medicine.
Prerequisites: sr st in BioMed Sci prog or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 532 Advanced Clinical Immunohematology and Immunology
3 cr. Undergraduate.
Practical instruction in clinical serology and immunohematology.
Correlation of test results with disease states.
Prerequisites: sr st in BioMed Sci prog or cons prog dir.
Current Offerings: http://uwm.edu/schedule

BMS 534 Medical Microbiology
3 cr. Undergraduate/Graduate.
Advanced comprehensive study of microorganisms that influence human
health and disease. Emphasis on identification/diagnosis and microbial
attributes and mechanisms that facilitate infectious disease.
Prerequisites: jr st & Bio Sci 383(303)(P); or grad st; or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 535 Medical Microbiology Laboratory
2 cr. Undergraduate/Graduate.
Formal systematic laboratory study of microorganisms important in
human health and disease. Emphasis on current methods of detection,
identification and treatment. 4 hr lab.
Prerequisites: jr st & Bio Sci 383(303)(P), or cons instr; BMS 534(C).
Current Offerings: http://uwm.edu/schedule

BMS 536 Applied Clinical Microbiology
2 cr. Undergraduate.
Lectures and laboratory dealing with the systematic study of bacteria of
medical importance to humans.
Prerequisites: sr st in BioMed Sci prog or cons prog dir.
Current Offerings: http://uwm.edu/schedule

BMS 537 Medical Parasitology and Mycology
2 cr. Undergraduate/Graduate.
Lectures and laboratory dealings with the medically significant parasitic
and mycotic agents of human disease.
Prerequisites: sr st in BioMed Sci prog; or grad st; or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 538 Advanced Clinical Microbiology Practicum
3 cr. Undergraduate.
Clinical instruction in techniques utilized for the diagnosis of infectious
disease, including special culture techniques.
Prerequisites: sr st in BioMed Sci prog or cons prog dir.
Current Offerings: http://uwm.edu/schedule

BMS 539 Public Health Microbiology
2 cr. Undergraduate/Graduate.
The role of microbiological analysis in public health and the current
techniques for detecting, identifying, and enumerating pathogenic
microorganisms.
Prerequisites: jr st & Bio Sci 383(303)(P), or grad st; or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

BMS 540 Public Health Microbiology Lab
2 cr. Undergraduate/Graduate.
Current laboratory techniques for detecting, identifying, and enumerating
pathogenic microorganisms.
Prerequisites: jr st, or cons instr
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

BMS 541 Urinalysis
1 cr. Undergraduate.
Lecture and laboratory experience in clinical analysis of urine.
Prerequisites: sr st in BioMed Sci prog or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 542 Applied Clinical Chemistry
2 cr. Undergraduate.
Systematic instruction in the laboratory determination of substances of
principal interest to the diagnosis of human disease.
Prerequisites: sr st in BioMed Sci prog or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 544 Advanced Clinical Chemistry Practicum
3 cr. Undergraduate.
Experience in a hospital laboratory dealing with routine and specialized
biochemical procedures and all phases of instrumentation currently used
in this field.
Prerequisites: sr st in BioMed Sci prog or cons prog dir.
Current Offerings: http://uwm.edu/schedule

BMS 545 Human Histology
3 cr. Undergraduate/Graduate.
A detailed study of the structure and function of human tissues.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

BMS 547 Clinical Laboratory Diagnosis
5 cr. Undergraduate.
Lectures and laboratory covering special topics in the use of laboratory
testing in clinical diagnosis of disease.
Prerequisites: sr st in BioMed Sci prog or cons prog dir.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

BMS 548 Clinical Laboratory Practice
5 cr. Undergraduate.
Experience in various laboratory techniques.
Prerequisites: sr st in BioMed Sci prog or cons prog dir.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
BMS 549 Professional Development in Clinical Laboratory Sciences
3 cr. Undergraduate.
Discussion and participation in professional development activities.
Topics include: laboratory management, laboratory information systems, professional conduct, ethics, certification, job placement, and educational methodologies.
Prerequisites: sr st in BioMed Sci prog or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 552 Advanced Nutrition
2 cr. Undergraduate/Graduate.
Nutrient utilization and human metabolism, nutritional influences in anthropology, epidemiology and international development issues.
Prerequisites: jr st, BMS 232(P) or Bio Sci 501(P).
Current Offerings: http://uwm.edu/schedule

BMS 555 Toxicology and Therapeutic Drug Monitoring
1 cr. Undergraduate/Graduate.
Survey of the pharmacology and analytical methods for identification and quantitation of therapeutic and toxic substances.
Prerequisites: jr st, & Chem 341(P) or 345(P); or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

BMS 560 Molecular and Genetic Diagnostics
2 cr. Undergraduate/Graduate.
Introduction to principles and applications of DNA technology in the clinical laboratory.
Prerequisites:
Current Offerings: http://uwm.edu/schedule

BMS 561 Molecular Diagnostics Laboratory
1 cr. Undergraduate/Graduate.
Clinical laboratory experiences in molecular diagnostic techniques and instrumentation.
Prerequisites: jr st & BMS 560(C); or grad st & BMS 705(P); or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 575 Cytology of the Female Genital Tract - I
4 cr. Undergraduate.
Fieldwork to include lectures discussing the normal and abnormal cytology of the female genital tract.
Prerequisites: sr st in BioMed Sci prog & cons prog dir.
Last Taught: Fall 2013, Fall 2012, Fall 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

BMS 576 Cytology of the Female Genital Tract - II
4 cr. Undergraduate.
Fieldwork to include laboratory experience dealing with the study of the normal and abnormal cytology of the female genital tract.
Prerequisites: sr st in BioMed Sci prog & cons prog dir.
Last Taught: Fall 2013, Fall 2012, Fall 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

BMS 577 Cytology of the Respiratory Tract
3 cr. Undergraduate.
Lectures and laboratory experience in the study of the normal and abnormal cytology of the respiratory tract.
Prerequisites: sr st in BioMed Sci prog & cons prog dir.
Last Taught: Fall 2013, Fall 2012, Fall 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

BMS 578 Cytology of the Gastrointestinal and the Genito-Urinary Tract
2 cr. Undergraduate.
Fieldwork to include lecture and laboratory experience dealing with the normal and abnormal cytology of the G.I. and G.U. tracts.
Prerequisites: sr st in BioMed Sci prog & cons prog dir.
Current Offerings: http://uwm.edu/schedule

BMS 579 Cytology of Effusions and the Central Nervous System
3 cr. Undergraduate.
Fieldwork to include lecture and laboratory experiences in the study of various body fluids in health and disease.
Prerequisites: sr st in BioMed Sci & cons prog dir.
Current Offerings: http://uwm.edu/schedule

BMS 580 Aspiration Cytology
4 cr. Undergraduate.
Fieldwork to include lecture and laboratory experience dealing with aspiration cytology.
Prerequisites: sr st in BioMed Sci prog & cons prog dir.
Current Offerings: http://uwm.edu/schedule

BMS 581 Special Procedures in Cytology
1 cr. Undergraduate.
Fieldwork to include lecture and laboratory experiences dealing with special procedures used in cytological diagnosis.
Prerequisites: sr st in BioMed Sci prog & cons prog dir.
Current Offerings: http://uwm.edu/schedule

BMS 582 Cytology of the Breast
1 cr. Undergraduate.
Fieldwork to include lecture and laboratory experiences dealing with the normal and abnormal cytology of the breast.
Prerequisites: sr st in BioMed Sci prog & cons prog dir.
Current Offerings: http://uwm.edu/schedule

BMS 583 Cytology Preparation Techniques
1 cr. Undergraduate.
Fieldwork to include laboratory preparation of gynecologic and non-gynecologic cytology specimens using several different instrument methodologies.
Prerequisites: sr st in BioMed Sci prog & cons prog dir.
Current Offerings: http://uwm.edu/schedule
BMS 585 Internship in Forensic Toxicology
1-3 cr. Undergraduate.
Prerequisites: jr st; admis to Forensic Sci cert prog; Anthro/Chem/BMS/ Crm Jst 281(P) & 285(P); Chem 221(P) or 223(P); Crm Jst 480(P); Hepatitis B vaccine series or waiver.
Course Rules: Anthro 585, Chem 585, BMS 585, & Crm Jst 585 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2002.
Current Offerings: http://uwm.edu/schedule

BMS 586 Cytology Lab Operations and Quality Control
1 cr. Undergraduate.
Basic administrative functions and quality control procedures utilized in the cytology laboratory.
Prerequisites: sr st in BioMed Sci prog & cons prog dir.
Current Offerings: http://uwm.edu/schedule

BMS 587 Research Methods in Cytology
1 cr. Undergraduate.
Research methods in cytology through journal club, literature reviews, case studies, and library research.
Prerequisites: sr st in BioMed Sci prog & cons prog dir.
Current Offerings: http://uwm.edu/schedule

BMS 588 Diagnostic Microscopy in Cytology
5 cr. Undergraduate.
Fieldwork in a functioning cytotechnology laboratory.
Prerequisites: sr st in BioMed Sci prog & cons prog dir.
Current Offerings: http://uwm.edu/schedule

BMS 589 Internship in Death Investigation
1-3 cr. Undergraduate.
Practical experience in death investigation under the supervision of a death investigator and forensic pathologist.
Prerequisites: jr st, admis to Forensic Sci cert prog; Anthro/Chem/BMS/ Crm Jst 281(P); Crm Jst 480(P); BMS 620(R); Hepatitis B vaccine series or waiver.
Course Rules: Anthro 589, Chem 589, BMS 589 & Crm Jst 589 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Spring 2002.
Current Offerings: http://uwm.edu/schedule

BMS 590 Topics in Clinical Laboratory Sciences:
1-5 cr. Undergraduate/Graduate.
Topics of current interest in the field of clinical laboratory sciences. The major theme for each semester offering will be posted.
Prerequisites: jr st; cons instr for grad cr.
Course Rules: May be retaken w/chg in topic to max of 9 cr for grad students.
Last Taught: Spring 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

BMS 594 Internship in Forensic Science
1-3 cr. Undergraduate.
On-site shadowing of evidence analyst at State Crime Laboratory.
Prerequisites: jr st; admis to Forensic Sci cert prog; Anthro/Chem/BMS/ Crm Jst 281(P); Chem 221(P) or 223(P); Crm Jst 480(P); Hepatitis B vaccine series or waiver.
Course Rules: Anthro 594, Chem 594, BMS(C L Sc) 594, & Crm Jst 594 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2016.
Current Offerings: http://uwm.edu/schedule

BMS 599 Independent Study
1-3 cr. Undergraduate.
Individualized experience which enables the student to study current topics of interest to the clinical laboratory scientist. Level of credit assigned based on time required for completion.
Prerequisites: cons instr & prog dir.
Course Rules: May be retaken to 12 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

BMS 600 Contrast Diagnostic Imaging
3 cr. Undergraduate/Graduate.
Use of contrast media in medical imaging diagnostic procedures.
Prerequisites: jr st in Biomed Sci program; ARRT, ARDMS, or CCI Imaging Certification or completion of an Intro to Diagnostic Imaging course.
Last Taught: Spring 2014.
Current Offerings: http://uwm.edu/schedule

BMS 601 Molecular Imaging for Diagnostic Imaging
3 cr. Undergraduate/Graduate.
Study of imaging principles utilized with molecular imaging. To include review of scientific publications for the use of molecular imaging to review various disease processes.
Prerequisites: jr st in Biomed Sci program; ARRT, ARDMS, or CCI Imaging Certification or completion of an Intro to Diagnostic Imaging course.
Last Taught: Spring 2014.
Current Offerings: http://uwm.edu/schedule

BMS 610 Pharmacology
3 cr. Undergraduate/Graduate.
Lectures on pharmacokinetics, mechanisms of action, and physiological effects of toxic and therapeutic substances.
Prerequisites: jr st, Chem 501(P), or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

BMS 615 Cellular and Molecular Toxicology
3 cr. Undergraduate/Graduate.
Cellular and molecular mechanisms of toxicant interactions with critical target organelles and molecules and subsequent downstream cellular responses.
Prerequisites: jr st, Chem 501(P) or cons instr; or grad st.
Current Offerings: http://uwm.edu/schedule

BMS 701 Human Pathophysiology I
3 cr. Graduate.
An advanced course in basic pathological mechanisms underlying production of human disease and effects on selected organ systems.
Prerequisites: grad st or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule
BMS 702 Human Pathophysiology II
3 cr. Graduate.
A continuation of 701 dealing with pathogenesis of the major diseases of human organ systems.
Prerequisites: grad st; BMS 701(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 705 Molecular Pathology
3 cr. Graduate.
Principles, methods, and applications of nucleic acid-based technologies in pathology and laboratory medicine.
Prerequisites: grad st or cons instr.
Course Rules: Counts as repeat of BMS 590 with similar topic.
Last Taught: Fall 2017, Fall 2015, Fall 2013, Fall 2009.
Current Offerings: http://uwm.edu/schedule

BMS 710 Seminar in Biomedical Sciences
1 cr. Graduate.
Presentation of topics of current interest to the biomedical scientist.
Prerequisites: grad st or cons instr.
Course Rules: May be repeated to max of 9 cr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

BMS 717 Laboratory Technology—Theory and Practice
1 cr. Graduate.
Fundamental laboratory bench techniques common to the biological sciences to prepare students for independent research.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

BMS 718 Experimental Design, Research, and Epidemiologic Methods
1 cr. Graduate.
Fundamentals of laboratory, clinical and epidemiologic experimental design for beginning graduate students in the Health Sciences.
Prerequisites: grad st; Biostat or undergrad stats course or cons instr
Current Offerings: http://uwm.edu/schedule

BMS 750 Infection and Immunity
3 cr. Graduate.
Immunobiology of the response to infectious disease agents of humans, with resulting clinical outcomes; mechanisms of immune evasion in establishing infection and causing disease.
Prerequisites: grad st; Lec courses in immunology and microbiology or cons instr
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

BMS 751 Immunopathology
3 cr. Graduate.
Examination of mechanisms by which abnormal, unwanted, or absent immune responses result in disease, including discussion of clinical presentation, diagnostic testing, and therapeutic intervention.
Prerequisites: grad st; BMS 750(P) or cons instr
Last Taught: Spring 2017, Spring 2015.
Current Offerings: http://uwm.edu/schedule

BMS 756 Current Concepts in Cancer
3 cr. Graduate.
An overview of various forms of human cancer. Emphasis on cell markers and cytomorphology, etiology and kinetics.
Prerequisites: grad st or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 765 Molecular Pathophysiology
3 cr. Graduate.
Advanced theoretical skills and an appreciation of the current scientific literature in basic and clinical physiologic chemistry.
Prerequisites: grad st or cons instr; basic college chemistry class suggested
Current Offerings: http://uwm.edu/schedule

BMS 766 Advanced Cardiovascular Hemodynamics
3 cr. Graduate.
Study of fundamental principles of fluid mechanics as applicable to physiologic and biological systems. Topics include Poiseuille flow, circulatory flow resistance.
Prerequisites: Admission to Biomed Sci MS program; ARRT, ARDMS, or CCI Imaging Certification or completion of introductory course in diagnostic imaging
Current Offerings: http://uwm.edu/schedule

BMS 767 Comparative Analysis of Diagnostic Imaging
3 cr. Graduate.
Study of imaging principles evoked in utilizing multiple imaging modalities (DMS, CT, MRI and radiographic imaging) of both the normal and pathology findings.
Prerequisites: Admission to Biomed Sci MS program; ARRT, ARDMS, or CCI Imaging Certification or completion of introductory course in diagnostic imaging
Current Offerings: http://uwm.edu/schedule

BMS 768 Diagnostic Imaging of Acquired Heart Disease
3 cr. Graduate.
In-depth study of how acquired heart disease is imaged in the adult patient.
Prerequisites: Admission to Biomed Sci MS program; ARRT, ARDMS, or CCI Imaging Certification or completion of introductory course in diagnostic imaging
Current Offerings: http://uwm.edu/schedule

BMS 769 Diagnostic Imaging for Management of Cardiovascular Disease
3 cr. Graduate.
In-depth study of imaging used to monitor surgical and medical management of patients with cardiovascular disease.
Prerequisites: Admission to Biomed Sci MS program; ARRT, ARDMS, or CCI Imaging Certification or completion of introductory course in diagnostic imaging
Current Offerings: http://uwm.edu/schedule
BMS 775 Mechanisms of Infectious Disease
2 cr. Graduate.
Molecular and cellular means by which microorganisms facilitate infection, withstand or evade immune response, induce damage to host, and ensure transmission to human populations.
Prerequisites: grad st; lc & la course in medical microbiology
Course Rules: BMS 775 & PH 775 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

BMS 780 Emerging Infectious Diseases
3 cr. Graduate.
Detailed studies of those infectious diseases with both an emerging nature and a high impact on public health.
Prerequisites: grad st; background in microbiology, BMS 534 or BMS 539 or BioSci 383 (R)
Current Offerings: http://uwm.edu/schedule

BMS 782 Advanced Immunology
3 cr. Graduate.
Cellular basis of the immune response with emphasis on immunoregulation and clinical disease manifestations resulting from altered cellular immune function.
Prerequisites: grad st; course in immunology; or cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 799 Research in Biomedical Sciences
1-8 cr. Graduate.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 901 Seminar on Philosophical Approaches to Science
3 cr. Graduate.
The nature and function of sciences, the logic of the scientific method as it relates to health, and implications of research and practices in health care.
Prerequisites: grad st.
Course Rules: BMS 901 & LibrlSt 901 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

BMS 909 Guided Teaching Experience in Health Sciences
3 cr. Graduate.
This course provides the student, under the supervision of a faculty member, with the opportunity to design, deliver, and evaluate an undergraduate course.
Prerequisites: grad st; Occ Thpy 900(P); cons instr
Course Rules: Jointly offered w/ and counts as a repeat of HCA 909.
Current Offerings: http://uwm.edu/schedule

BMS 910 Advanced Seminar in Health Sciences
1 cr. Graduate.
Faculty, students, and guests present research topics in the Health Sciences.
Prerequisites: grad st
Course Rules: Retakable to 4 cr max.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

BMS 990 Research and Dissertation
1-6 cr. Graduate.
Preparation of a dissertation under the direction of the student's primary and secondary advisors.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

BMS 999 Advanced Independent Study
1-3 cr. Graduate.
Individualized experience enables student to study current topics of interest to the biomedical scientist. Level of credit assigned based on time required for completion.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

Biomedical Sciences, BS: Biomedical Science

Students in the Biomedical Sciences major are awarded a Bachelor of Science degree upon completion of all requirements. Students choose from one of the following seven areas or submajors:

- Medical Laboratory Science
- Biomedical Science
- Cytotechnology
- Radiologic Technology
- Diagnostic Medical Sonography
- Diagnostic Imaging (degree completion program)
- Health Science (degree completion program)
- Public Health Microbiology

All students, with the exception of students in the Diagnostic Imaging or Health Sciences degree completion program, will be required to comply with a background check and maintain health insurance during the professional training experience.

Biomedical Science

Students in the Biomedical Sciences major are awarded a Bachelor of Science degree upon completion of all requirements. This submajor provides excellent preparation for medical, physician assistant, dental, or veterinary school, biomedical research, forensic science, or employment with pharmaceutical or biotechnology companies.

Biomedical Sciences Requirements

Students in the Biomedical Sciences major are awarded a Bachelor of Science degree upon completion of all requirements. All students, with the exception of students in the Diagnostic Imaging or Health Sciences degree completion program, will be required to comply with a background check and maintain health insurance during the professional training experience.

The process of application to the professional training occurs at the end of the first semester of the junior year.

Entry into professional training or internship is competitive and dependent upon:

1. Completion of UWM’s General Education Requirements (GER) (p. 33);
2. A cumulative UWM minimum grade point average of 2.5;
3. A cumulative minimum grade point average of 2.5 in specific, required science courses;
4. Completion of:
   a. all required courses and electives (87 credits) through the second semester of junior year for students pursuing or Biomedical Sciences, Cytotechnology, or Medical Laboratory Science;
   b. all required courses and electives (114 credits) through the first semester of senior year for students pursuing Public Health Microbiology; and
5. A grade of C or better in all junior-level courses.

Students who meet these minimum requirements for entry into professional training will be evaluated on the basis of their science GPA for placement at one of the training sites.

To remain eligible to continue in the professional training, students must earn a grade of C or better in all senior-level courses.

Pre-Clinical Requirements

The junior year for students pursuing the Biomedical Science, Cytotechnology, or Medical Laboratory Science submajor consists primarily of pre-clinical courses, and the senior year is a 12-month professional training experience.

Medical Laboratory Science and Cytotechnology students must be prepared for full-time study (40 hours per week) that could also require additional study time at night and on weekends.

**Honors in the Major**

Honors in the major are granted to students who earn a GPA of 3.500 or above on a minimum of 30 completed credits at UWM following advancement to a Health Sciences major.

**Honors in the College of Health Sciences**

**Dean's Honor List**

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Biomedical Sciences, BS: Cytotechnology**

Students in the Biomedical Sciences major are awarded a Bachelor of Science degree upon completion of all requirements. Students choose from one of the following seven areas or submajors:

- Medical Laboratory Science
- Biomedical Science
- Cytotechnology
- Radiologic Technology
- Diagnostic Medical Sonography
- Diagnostic Imaging (degree completion program)
- Health Science (degree completion program)
- Public Health Microbiology

All students, with the exception of students in the Diagnostic Imaging or Health Sciences degree completion program, will be required to comply with a background check and maintain health insurance during the professional training experience.

**Cytotechnology**

Cytotechnologists examine human cells under the microscope, looking for early signs of cancer or other diseases. When abnormal cells are detected, the cytotechnologist works with a pathologist to arrive at a final diagnosis. The Cytotechnology program is accredited by the Commission on Accreditation of Allied Health Programs (CAAHEP), www.caahep.org (http://www.naacls.org), located at 1361 Park St., Clearwater, FL 33756. Students successfully completing this program are eligible to sit for a national certification exam.
**Requirements**

**Biomedical Sciences Requirements**

Students in the Biomedical Sciences major are awarded a Bachelor of Science degree upon completion of all requirements. All students, with the exception of students in the Diagnostic Imaging or Health Sciences degree completion program, will be required to comply with a background check and maintain health insurance during the professional training experience.

The process of application to the professional training occurs at the end of the first semester of the junior year.

Entry into professional training or internship is competitive and dependent upon:

1. Completion of UWM’s General Education Requirements (GER) (p. 33);
2. A cumulative UWM minimum grade point average of 2.5;
3. A cumulative minimum grade point average of 2.5 in specific, required science courses;
4. Completion of:
   a. all required courses and electives (87 credits) through the first semester of junior year for students pursuing the Biomedical Science, Cytotechnology, or Medical Laboratory Science;
   b. all required courses and electives (114 credits) through the second semester of junior year for students pursuing Public Health Microbiology; and
5. A grade of C or better in all junior-level courses.

Students who meet these minimum requirements for entry into professional training will be evaluated on the basis of their science GPA for placement at one of the training sites.

To remain eligible to continue in the professional training, students must earn a grade of C or better in all senior-level courses.

**Pre-Clinical Requirements**

The junior year for students pursuing the Biomedical Science, Cytotechnology, or Medical Laboratory Science submajor consists primarily of pre-clinical courses, and the senior year is a 12-month professional training experience.

Medical Laboratory Science and Cytotechnology students must be prepared for full-time study (40 hours per week) that could also require additional study time at night and on weekends.

Honors in the Major
Honors in the major are granted to students who earn a GPA of 3.500 or above on a minimum of 30 completed credits at UWM following advancement to a Health Sciences major.

Honors in the College of Health Sciences
Dean's Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Biomedical Sciences, BS: Diagnostic Imaging Completion
Students in the Biomedical Sciences major are awarded a Bachelor of Science degree upon completion of all requirements. Students choose from one of the following seven areas or submajors:

- Medical Laboratory Science
- Biomedical Science
- Cytotechnology
- Radiologic Technology
- Diagnostic Medical Sonography
- Diagnostic Imaging (degree completion program)
- Health Science (degree completion program)
- Public Health Microbiology

All students, with the exception of students in the Diagnostic Imaging or Health Sciences degree completion program, will be required to comply with a background check and maintain health insurance during the professional training experience.

Diagnostic Imaging Degree Completion
Offered Online and in the UW Flexible Option format.

To be eligible for the Diagnostic Imaging degree completion program, you must hold active registry from one of the following: the American Registry of Radiologic Technologists (ARRT), the American Registry of Diagnostic Medical Sonography (ARDMS), Cardiovascular Credentialing International (CCI), or equivalent professional imaging registry. The program, which provides the opportunity to complete a baccalaureate degree in diagnostic imaging (BSDI), consists of 120 credits with students receiving 60 credits for holding an active registry. Students entering the program with an Associate's Degree will typically complete 60 credits to be eligible for graduation; students entering the program with hospital-based diploma credits only may have additional credits to satisfy graduation. Prospective students are strongly encouraged to meet with an academic advisor to have their previous credits evaluated. Please contact an academic advisor at (414) 229-2758.

The degree-completion program is designed for non-traditional adult students who have already worked several years as a healthcare professional and can be completed 100% online. This program will prepare you to assume a wide range of positions and leadership roles in hospitals and clinics, including quality-assurance manager, healthcare administrator, diagnostic imaging educator, and others that require a bachelor’s degree for entry, such as occupational therapist, physical therapist, and physician’s assistant. With a bachelor of science in diagnostic imaging degree, you will also be qualified to expand your career into other areas of the medical imaging industry, from product development to sales and marketing.

Students may also choose to complete the program via the UW Flexible Option. The Flex Option is especially designed for self-motivated nontraditional students who want their previous schooling, work skills, and prior knowledge to apply toward degrees or certificates. The competency-based and self-paced format of the UW Flexible Option fits the schedules of students who must balance work and family responsibilities with educational goals. Because most Flexible Option competencies and assessments are delivered online, students have the opportunity to learn when and where they choose.

The degree completion program in Diagnostic Imaging is open to professionals holding an active registry from ARRT, ARDMS, CCI, or equivalent professional imaging registry. Students will be awarded 60 credits toward their degree completion for the active registry. Students will then complete a minimum of 60 additional credits toward the baccalaureate degree. The 60 credits needed may be completed completely online. The minimum degree requirement for completion is 120 credits including:
1. Completion of UWM’s General Education Requirements (GER) (p. 33)
2. A cumulative UWM GPA of 2.5
3. Completion of the following courses

**Biomedical Sciences, BS: Diagnostic Medical Sonography**

Students in the Biomedical Sciences major are awarded a Bachelor of Science degree upon completion of all requirements. Students choose from one of the following seven areas or submajors:

- Medical Laboratory Science
- Biomedical Science
- Cytotechnology
- Radiologic Technology
- Diagnostic Medical Sonography
- Diagnostic Imaging (degree completion program)
- Health Science (degree completion program)
- Public Health Microbiology

All students, with the exception of students in the Diagnostic Imaging or Health Sciences degree completion program, will be required to comply with a background check and maintain health insurance during the professional training experience.

**Diagnostic Medical Sonography**

By using high-frequency sound waves or ultrasound, sonographers produce images of soft tissue and blood flow to assist with the diagnostic process or administration of therapeutic application. Sonography is used to examine the abdomen, breast tissue, female reproductive system, urinary system, heart, and blood vessels. In addition,
sound waves are used to guide fine-needle biopsy. Diagnostic Medical Sonography students complete the first two years of prerequisite courses on campus before applying for placement into the professional education portion of the curriculum. Once accepted into the professional education component of the program, students will take didactic and clinical education courses concurrently. Upon successful completion of the Bachelor of Science degree, students are eligible to write the national board exams offered through the American Registry for Diagnostic Medical Sonography (www ardms.org (http://www.ardms.org)). The Diagnostic Medical Sonography professional education program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org (http://www.caahep.org)) upon recommendation of the Joint Review Committee on Education in Diagnostic Medical Sonography.

Commission on Accreditation of Allied Health Education Programs (CAAHEP) 25400 U.S. Highway 19 North, Suite 158 Clearwater, FL 33763 (727) 210-2354

Students pursuing Diagnostic Medical Sonography complete the freshman and sophomore years on campus. Upon advancement to the major, students complete the professional training curriculum (junior and senior years) at either the on-campus UWM sonography program or through the external sonography program offered at UW Hospital & Clinics (UWHC) in Madison. Two educational options are available: General/Vascular Sonography or Echocardiography/Vascular Sonography. The Echocardiography/Vascular Sonography option is only available through external program at UWHC. The internal clinical affiliates through UWM include clinical sites in the Milwaukee area for general/vascular. Students are responsible for any relocation and all living expenses during clinical training. Entry into the professional curriculum is highly competitive and dependent upon:

1. Completion of UWM's General Education Requirements (GER) (p. 33);
2. Completion of all required courses and electives (60 credits) in the freshman and sophomore semesters with a cumulative GPA of 3.0;
3. Successful completion of the professional education application process to include an on-site interview with the external sonography programs and/or the UWM sonography program;
4. Successful completion of a background check, health physical, drug screen, and maintenance of health insurance and CPR certification for the duration of the professional curriculum;
5. Students are required to earn a grade of C or better in the following:

<table>

6. Complete job-shadowing in an imaging department with a Diagnostic Medical Sonography professional prior to applying for placement into the professional education component;
7. Complete the American Heart Association Basic Life Support CPR and AED Training for Healthcare Professionals; and
9. Interview with the program.

Note: 100 hours of patient care beyond the CNA course are required for placement at UW Hospital and Clinics School of Diagnostic Medical Sonography. Documentation verifying the 100 hours and evaluation of job performance will be required. Completing the CNA course and hours by the professional training application deadline of November 1 is recommended.

Additional information is available from the Office of Student Affairs, (414) 229-2758.

Admission into the professional training curriculum is highly competitive and final admission decisions rest with the program directors. Admission is not guaranteed. To remain eligible to continue in the professional training curriculum, students must adhere to all program policies and procedures.

**Honors in the Major**

Honors in the major are granted to students who earn a GPA of 3.500 or above on a minimum of 30 completed credits at UWM following advancement to a Health Sciences major.

**Honors in the College of Health Sciences**

**Dean's Honor List**

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Biomedical Sciences, BS: Health Science Completion**

Students in the Biomedical Sciences major are awarded a Bachelor of Science degree upon completion of all requirements. Students choose from one of the following seven areas or submajors:

- Medical Laboratory Science
- Biomedical Science
• Cytotechnology
• Radiologic Technology
• Diagnostic Medical Sonography
• Diagnostic Imaging (degree completion program)
• Health Science (degree completion program)
• Public Health Microbiology

All students, with the exception of students in the Diagnostic Imaging or Health Sciences degree completion program, will be required to comply with a background check and maintain health insurance during the professional training experience.

Health Sciences Degree Completion
Offered Online and in the UW Flexible Option format.

This interdisciplinary degree completion in Health Sciences is open to those holding an Associate's degree in a health-related profession and an active certification or license in a related health profession. Applicants with the required credentials are awarded 60 credits and will then complete a minimum of 60 additional credits toward the baccalaureate degree. Students with GER requirements or those planning application to specific professional graduate programs may need to complete more than 60 credits. Coursework may be completed online. The availability of this degree completion program in a Flex Option competency-based format is pending approval as of the publication date of this Catalog.

Prospective students are strongly encouraged to meet with an academic advisor to have their previous credits evaluated. Please contact an academic advisor at (414) 229-2758.

This degree completion program will prepare you to assume a wide range of positions and leadership roles in hospitals and clinics, including quality-assurance manager, healthcare administrator, health educator, and others that require a bachelor's degree for entry, such as occupational therapist, physical therapist, and physician's assistant.

Health Sciences Degree Completion Requirements
Offered Online and in the UW Flexible Option format.

This interdisciplinary degree completion in Health Sciences is open to those holding an Associate's degree in a health-related profession and an active certification or license in a related health profession. Applicants with the required credentials are awarded 60 credits and will then complete a minimum of 60 additional credits toward the baccalaureate degree. Students with GER requirements or those planning application to specific professional graduate programs may need to complete more than 60 credits. Coursework may be completed online or in a flexible, competency-based format.

The minimum degree requirement for completion is 120 credits including:

1. Completion of UWM's General Education Requirements (GER) (p. 33), and
2. Completion of math and English competency requirements, and
3. A cumulative UWM GPA of 2.5, and
4. A minimum of 30 credits from UWM.

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Biomedical Sciences, BS: Medical Laboratory Science

Students in the Biomedical Sciences major are awarded a Bachelor of Science degree upon completion of all requirements. Students choose from one of the following seven areas or submajors:

- Medical Laboratory Science
- Biomedical Science
- Cytotechnology
- Radiologic Technology
- Diagnostic Medical Sonography
- Diagnostic Imaging (degree completion program)
- Health Science (degree completion program)
- Public Health Microbiology

All students, with the exception of students in the Diagnostic Imaging or Health Sciences degree completion program, will be required to comply with a background check and maintain health insurance during the professional training experience.

Medical Laboratory Science

Medical laboratory scientists are trained in the theoretical and practical aspects of laboratory medicine, which are critical to the detection, diagnosis, and treatment of diseases. Medical Laboratory Science offers a wide variety of career options, including hospitals, clinics, independent laboratories, public health facilities, business, industry, research, sales, and marketing. Students also may use this major to prepare for medical or graduate school. Students successfully completing this program are eligible to sit for a national certification exam offered by the American Society for Clinical Pathology (ASCP-BOC). The UWM Medical Laboratory Science Program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS), www.naacls.org (http://www.naacls.org), located at 5600 N. River Road, Suite 720, Rosemont, IL 60018-5119.

Biomedical Sciences Requirements

Students in the Biomedical Sciences major are awarded a Bachelor of Science degree upon completion of all requirements. All students, with the exception of students in the Diagnostic Imaging or Health Sciences degree completion program, will be required to comply with a background check and maintain health insurance during the professional training experience.

The process of application to the professional training occurs at the end of the first semester of the junior year.

Entry into professional training or internship is competitive and dependent upon:

1. Completion of UWM's General Education Requirements (GER) (p. 33);
2. A cumulative UWM minimum grade point average of 2.5;
3. A cumulative minimum grade point average of 2.5 in specific, required science courses;
4. Completion of:
   a. all required courses and electives (87 credits) through the second semester of junior year for students pursuing Biomedical Sciences, Cytotechnology, or Medical Laboratory Science;
   b. all required courses and electives (114 credits) through the first semester of senior year for students pursuing Public Health Microbiology; and
5. A grade of C or better in all junior-level courses.

Students who meet these minimum requirements for entry into professional training will be evaluated on the basis of their science GPA for placement at one of the training sites.
