- An undergraduate major in economics with a grade point average (both overall and in economics) of 3.0 (4.0 scale) and one semester of calculus or adequate preparation at the undergraduate level equivalent to two semesters of coursework in intermediate economic theory, one semester of statistics, and one semester of calculus.
- An applicant having a master’s degree in economics or graduate coursework in economic theory must have a graduate grade point average of at least 3.33 (4.0 scale).
- Submission of scores on the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre) General Test and Subject Test or equivalent quantitative courses is recommended. Test of English as a Foreign Language exam is required for applicants whose native language is not English.
- Two letters of recommendation from persons familiar with applicant’s scholastic achievement and potential.

Reaplication

A student who is in the master’s program must formally reapply for admission to Graduate School before continuing toward the PhD. To receive doctoral student status, a student must complete the master’s degree or obtain a waiver of this requirement from the admissions
committee, the graduate study advisor, and the Department Chair. The waiver must be obtained before the student completes 27 credits in the M.A. program.

**Major Professor as Advisor**

The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. In Economics, the newly admitted PhD student is advised by the Graduate Study advisor.

**Credits and Courses**

Minimum degree requirement is 54 credits beyond the bachelor's degree, at least 27 of which must be earned in residence at UWM. Of the total credits required, a minimum of 42 must be taken in the field of economics.

Total Credits: 51-54

1. Minor field: 9 to 12 credits in a single department other than Economics; courses planned with a professor in the minor department and the examination, if required, is administered by the minor department.
2. Electives: 9 to 12 credits in courses from any departments, including Economics, but no more than 6 credits in any one department other than Economics; courses are to be planned with the approval of the Graduate Study advisor and no examination is required.

**Research Skill**

Research skill requirements are individually assigned by the graduate study advisor. Research skill requirement is fulfilled through courses in computer science, mathematics, statistics, mathematical economics (700 level or above), or econometrics (700 level or above).

**Residence**

The student must meet minimum Graduate School residence requirements. The PhD student meets the continuous portion of the residence credit requirement by completing 8 to 12 credits in each of two consecutive semesters, including summer sessions. Residence credit is not earned at the master’s level or prior to award of the master’s degree.

**Doctoral Preliminary Examination**

The student must pass doctoral preliminary examinations for formal admission to candidacy for the degree. The examinations are given in sections covering economic theory and the student’s two areas of concentration. Students must take the sections in economic theory first.

Students may attempt any prelim exam twice. Any student failing a prelim exam twice may appeal to the Graduate Faculty for permission to take the exam for a third time if:

1. The student’s request is accompanied by letters of support from at least two members of the faculty and where one of the faculty is a member of the prelim committee awarding the failing grade, and
2. The student is still able to satisfy the time limits outlined below.

(Note: These conditions must be met before an appeal can be considered by the Graduate Faculty. Satisfaction of these conditions in no way obligates the Graduate Faculty to grant any appeal.)

Students may not take the field exams until they have passed both theory exams. A section is also included covering the minor if there is one; this section is administered by the department concerned.

The schedule specifying the time at which these examinations are taken is as follows:

1. A doctoral student with an M.A. in Economics from UWM must attempt both theory prelims at the conclusion of 2 semesters or 12 credits (whichever happens last) and must pass both theory prelims prior to the start of the 5th semester or at the conclusion of 24 credits (whichever happens last).
2. A doctoral student with an M.A. in Economics from another institution must attempt both theory prelims at the conclusion of 3 semesters or 24 credits (whichever happens last) and must pass both theory prelims prior to the beginning of the 6th semester or at the conclusion of 36 credits (whichever happens last).
3. A doctoral student without an M.A. in Economics must attempt both theory prelims at the conclusion of 5 semesters or 36 credits (whichever happens last) and must pass both exams prior to the beginning of the 8th semester or at the conclusion of 48 credits (whichever happens last).

**Dissertation**

The candidate must write a dissertation which demonstrates ability to formulate a research topic and pursue independent and original investigation.

**Dissertation Defense**

The candidate must, as the final step toward the degree, pass an oral examination in defense of the dissertation.

**Time Limit**

All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.
ENGLISH

English studies today offers a wider range of classes, topics, and projects than ever before. You can still explore the classic works of literature and the great authors, to be sure. But now our curriculum also includes film studies and media, rhetoric and professional writing, the digital humanities, critical and cultural theory, and creative writing workshops. Students can focus their studies in these areas and work with our advisors to plan a curriculum that meets their personal and career goals best.

English has gone global as well. Literature in English now comes from all over the world. Many of our courses feature the postcolonial fiction, drama, poetry, and prose from Africa, Asia, the Caribbean and the Americas. Here in the United States the study of literature includes Native American, African American, Latina/o, and Asian American works that introduce students to the rich cultural diversity of contemporary society.

Courses offered in the English curricular area of the Department of English are concerned primarily with the language and literature of English-speaking peoples. They are designed to develop skills in reading and writing and to offer students a variety of approaches to literature, language, and rhetoric. Further, the department seeks to encourage in each student a questioning approach to canon formation and aesthetic criteria, especially through the texts of previously marginalized minority and women writers, in order to gain insight into cultural diversity.

Programs

• English, BA (p. 1253)
• English, MA (p. 1262)
• English, MA/Library and Information Science, MLIS (p. 1264)
• English, Minor (p. 1266)
• English, PhD (p. 1267)
• Professional Writing and Communication, Graduate Certificate (p. 1269)

English Courses

ENGLISH 90 Basic Writing
0 cr. Undergraduate.
Sustained writing and revision to develop fluency in articulating ideas and familiarity with writing conventions. Fourth instructional hr required.
Prerequisites: level 0 on English Placement Test.
Course Rules: May not be taken cr/no cr. Audit not allowed. Fee for 3 cr assessed; credits count toward credit load for Financial Aid and enrollment verification only.
Current Offerings: http://uwm.edu/schedule

ENGLISH 95 Fundamentals of Composition
0 cr. Undergraduate.
Critical reading and writing, with an emphasis on the processes of writing and revision. Students produce a portfolio of revised essays.
Prerequisites: level 0 on English Placement Test.
Course Rules: May not be taken cr/no cr. Fee for 3 cr assessed; credits count toward credit load for Financial Aid and enrollment verification only.
Last Taught: Spring 2015, Fall 2014, Spring 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

ENGLISH 100 Introduction to College Writing and Reading
4 cr. Undergraduate.
Critical reading and writing, with emphasis on the processes of writing, revision, and academic conventions. Students produce a portfolio of revised essays.
Prerequisites: level 1 on English Placement Test.
Course Rules: Weekly Writing Center session req’d. May not be taken cr/no cr. Not open to students who have taken English 101.
Current Offerings: http://uwm.edu/schedule

ENGLISH 101 Introduction to College Writing
3 cr. Undergraduate.
Critical reading, writing, and revision, with emphasis on reflective inquiry and academic writing conventions. Students produce a portfolio of revised essays.
Prerequisites: Level 2 on English Placement Test or grade of C or better in English 095.
Course Rules: May not be taken cr/no cr. Not open to students who have taken English 100. ESL 118 counts as a repeat of English 101.
Current Offerings: http://uwm.edu/schedule

ENGLISH 102 College Writing and Research
3 cr. Undergraduate.
Extensive engagement with academic research writing and reflective analysis. Students will produce a portfolio of revised writing.
Prerequisites: level 3 on English Placement Test or grade of C or better in English 100(P) or 101(P) or EAP 101(P) or 118(P).
Course Rules: May not be taken cr/no cr. Counts as repeat of English 112, Honors 102, 112.
General Education Requirements: ENG, OWC-A
Current Offerings: http://uwm.edu/schedule

ENGLISH 105 College Writing Workshop
1 cr. Undergraduate.
Workshop on strategies for revising and editing college writing.
Prerequisites: grade of C or better in English 095(P) or Level 1 on English Placement Test; conc reg in English 101(C).
Course Rules: Credit/no credit only.
Current Offerings: http://uwm.edu/schedule

ENGLISH 111 Entertainment Arts: Film, Television, and the Internet
3 cr. Undergraduate.
History of film, television, and the internet. Focus on economic and aesthetic features of these media and interrelationships among them. Models for critiquing each form.
Prerequisites: none
Course Rules: ArtHist 111, English 111, & FilmStd 111 are jointly offered; they count as repeats of one another.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule
ENGLISH 150 Multicultural America
3 cr. Undergraduate.
Cross-cultural study of U.S. ethnic and racial identities through materials from literature, history, and the media, with attention to African-, Asian-, Hispanic-, and Native American experiences.
Prerequisites: none.
Course Rules: none.
General Education Requirements: HU, CD
Current Offerings: http://uwm.edu/schedule

ENGLISH 192 First-Year Seminar:
3 cr. Undergraduate.
The specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First Year Sem (course numbers 192, 193, 194).
General Education Requirements: HU
Last Taught: Fall 2017, Fall 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

ENGLISH 199 Independent Study
1-3 cr. Undergraduate.
For further information, consult dept chair.
Prerequisites: 2.5 gpa; writ cons instr, dept chair & asst dean for SAS.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 201 Strategies for Academic Writing
3 cr. Undergraduate.
Intensive practice in expository writing designed to continue development of already proficient writers.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
General Education Requirements: OWCB
Current Offerings: http://uwm.edu/schedule

ENGLISH 202 Writing in the Humanities
3 cr. Undergraduate.
Development of styles and modes of literary and academic discourse in response to essays and literary works touching on a common theme.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Current Offerings: http://uwm.edu/schedule

ENGLISH 205 Business Writing
3 cr. Undergraduate.
Instruction and practice in writing business reports, memos, and letters. Particularly appropriate for students in business and related areas.
Prerequisites: soph st; grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May not be taken cr/no cr.
General Education Requirements: OWCB
Current Offerings: http://uwm.edu/schedule

ENGLISH 206 Technical Writing
3 cr. Undergraduate.
Instruction and practice in writing technical reports, proposals, and other technical writing forms. Particularly appropriate for students in science, engineering, architecture, and other applied sciences.
Prerequisites: satisfaction of GER English Composition competency req.
Course Rules: May not be taken cr/no cr. Counts as repeat of English 206X.
General Education Requirements: OWCB
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ENGLISH 207 Health Science Writing
3 cr. Undergraduate.
Instruction and practice in writing reports and research papers for health science professions. Particularly appropriate for students in health related fields, including pre-medical, dental, etc.
Prerequisites: satisfaction of GER English Composition competency req.
Course Rules: May not be taken cr/no cr.
General Education Requirements: OWCB
Current Offerings: http://uwm.edu/schedule

ENGLISH 208 Writing and Research
3 cr. Undergraduate.
Extensive practice in gathering information, evaluating sources, interviewing, writing research papers, and bibliographical methods.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Current Offerings: http://uwm.edu/schedule

ENGLISH 209 Language in the United States
3 cr. Undergraduate.
Survey of the languages of the U.S., discussing social and political aspects of language use and issues of interethnic communication.
Prerequisites: none.
General Education Requirements: HU
Last Taught: Fall 2012, Summer 2012, Spring 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

ENGLISH 210 Global Englishes
3 cr. Undergraduate.
Varieties of English spoken around the world; history and spread of English; use of English as a national and international language.
Prerequisites: none.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

ENGLISH 211 Aspects of the English Language:
3 cr. Undergraduate.
Introductory projects in such areas as social or specialized usages, modern grammars, dialects, English language history, theoretical and practical studies of language in literary forms.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May not be retaken for cr.
Current Offerings: http://uwm.edu/schedule
ENGLISH 212 Grammar and Usage
3 cr. Undergraduate.
The basic concepts and categories of English grammar, with emphasis on usage and writing problems.
Prerequisites: none.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ENGLISH 213 Grammar for Students of Foreign Languages
3 cr. Undergraduate.
An introduction to the grammatical concepts useful in studying foreign languages.
Prerequisites: none.
Course Rules: Jointly offered with, & may be used to repeat, Classic 213, French 213, German 213, Italian 213, Linguis 213, Polish 213, Russian 213, & Spanish 213.
Last Taught: Spring 2006, Fall 1997.
Current Offerings: http://uwm.edu/schedule

ENGLISH 214 Writing in the Professions:
3 cr. Undergraduate.
Adaptation of writing to situations and requirements of specific professional writing genres, such as criminal justice, government, and environmental writing.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg in topic; no cr limit.
General Education Requirements: OWCB
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ENGLISH 215 Introduction to English Studies
3 cr. Undergraduate.
Writing-intensive introduction to multiple forms and contexts of literary and nonliterary texts and discourses in English, in a cultural, historical, and global framework.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: Required for English & secondary education English majors.
General Education Requirements: HU, OWCB
Current Offerings: http://uwm.edu/schedule

ENGLISH 218 Veterans Re-Entry Writing Workshop
2 cr. Undergraduate.
Instruction in a combination of stress reduction and journaling techniques designed to ease readjustment to civilian life, tap into creative capacities, and boost writing skills.
Prerequisites: prior military service or cons instr.
Last Taught: Spring 2012.
Current Offerings: http://uwm.edu/schedule

ENGLISH 219 Introduction to Modern Literature:
3 cr. Undergraduate.
Works in the modern tradition from the 1910’s to the present.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg in topic to 9 cr max. With 'Backgrounds' subtitle, counts as a repeat of English 225; with 'Modern Developments' subtitle counts as a repeat of English 226.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule
ENGLISH 230 Writing with Style
3 cr. Undergraduate.
Students develop and enhance their expository writing style by reading short essay selections and writing in a variety of rhetorical forms, styles, and modes.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Last Taught: Spring 2014, Fall 2007, Fall 2006, Fall 2005.
Current Offerings: http://uwm.edu/schedule

ENGLISH 233 Introduction to Creative Writing
3 cr. Undergraduate.
An introduction to the writing of poetry and fiction.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
General Education Requirements: A
Current Offerings: http://uwm.edu/schedule

ENGLISH 234 Writing Fiction: Structure and Technique
3 cr. Undergraduate.
Readings and discussion demonstrating the basic structural and technical elements of modern fiction, with opportunities for practice.
Prerequisites: Satisfaction of OWC-A GER.
Current Offerings: http://uwm.edu/schedule

ENGLISH 235 Writing Poetry: Forms, Styles, Voices
3 cr. Undergraduate.
Readings and discussion demonstrating traditional and contemporary forms, with opportunities for practice.
Prerequisites: Satisfaction of OWC-A GER.
Current Offerings: http://uwm.edu/schedule

ENGLISH 236 Introductory Topics in Creative Writing:
3 cr. Undergraduate.
Instruction and practice in genres other than fiction and poetry.
Prerequisites: English 233(203)(P) or 234(P).
Course Rules: May be retaken w/chg in topic to 6 cr max.
Last Taught: Spring 2013, Fall 2012, Fall 2011, Spring 2011.
Current Offerings: http://uwm.edu/schedule

ENGLISH 240 Rhetoric, Writing, and Culture:
3 cr. Undergraduate.
Major concerns in cultural criticism, including race, gender, class, cultural identity, technology, and ideology; examines how rhetoric, writing, and media influence our thinking about these concerns.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: OWCB, HU
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ENGLISH 243 Introduction to Literature by Women:
3 cr. Undergraduate.
Ways in which women have expressed their views of women's roles and goals in literature.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

ENGLISH 245 The Life, Times, and Work of a Literary Artist:
3 cr. Undergraduate.
A writer in a cultural, historical, and biographical context.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

ENGLISH 247 Literature and Human Experience:
3 cr. Undergraduate.
Focus upon the portrayal of a universal theme in literature of the past and present.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

ENGLISH 248 Literature and Contemporary Life:
3 cr. Undergraduate.
Literary portrayal of the character issues and concerns of the contemporary world as reflected in literature.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: HU
Last Taught: Fall 2013, Spring 2013, Fall 2012, Spring 2011.
Current Offerings: http://uwm.edu/schedule

ENGLISH 250 Fantasy in Literature:
3 cr. Undergraduate.
Forms of fantasy in literature from the medieval period to the present.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

ENGLISH 251 Fantasy in Literature:
3 cr. Undergraduate.
Selected works of detective fiction by theme, type, period, or origin.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule
ENGLISH 253 Science Fiction:
3 cr. Undergraduate.
Selected works of literary science fiction by theme, type, period, or origin.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

ENGLISH 260 Introduction to Poetry:
3 cr. Undergraduate.
Selected works of poetry by theme or type.
Prerequisites: grade of C or better in English 102(P) or score at level 4 of EPT.
Course Rules: May be retaken w/chg of topic to 9 cr max.
General Education Requirements: HU
Last Taught: Spring 2013, Spring 2010, Fall 2009, Fall 2008.
Current Offerings: http://uwm.edu/schedule

ENGLISH 261 Introduction to Short Stories:
3 cr. Undergraduate.
Selected short stories by theme, type, period, or origin.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: HU
Last Taught: Spring 2013, Fall 2011, Spring 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

ENGLISH 262 Introduction to Drama:
3 cr. Undergraduate.
Selected plays of the English-speaking theater by theme, type, period, or origin.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

ENGLISH 263 Introduction to the Novel:
3 cr. Undergraduate.
Selected novels from the English-speaking world by theme, type, period, or origin.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg of topic to 9 cr max.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

ENGLISH 268 Introduction to Cultural Studies:
3 cr. Undergraduate.
Theories, subject matters, and core texts of the interdisciplinary field of cultural studies.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: HU
Last Taught: Fall 2013, Fall 2009, Fall 2007, Spring 2005.
Current Offerings: http://uwm.edu/schedule

ENGLISH 269 Literary Forms and Genres:
3 cr. Undergraduate.
A literary form or genre such as essay, satire, tragedy, etc.
Prerequisites: grade of C or better in English 102(P) or score at level 4 of EPT.
Course Rules: May be retaken w/chg of topic to 9 cr max.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

ENGLISH 274 Literature and the Other Arts:
3 cr. Undergraduate.
Selections from literary studies in connection with works from the other arts ranging from the Middle Ages to the present.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 275 The Forms of Folk Literature:
3 cr. Undergraduate.
Folk literature as a literary type with emphasis on varying ethnic groups.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 276 Introduction to American Indian Literature:
3 cr. Undergraduate.
Literature of the American Indian, focusing on major forms, prominent themes, or a particular tribe or time period.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: AIS 276 & English 276 are jointly offered; w/same topic, they count as repeats of one another. May be retaken w/chg in topic to 9 cr max.
General Education Requirements: HU, CD
Current Offerings: http://uwm.edu/schedule

ENGLISH 277 Introduction to Ethnic Minority Literature:
3 cr. Undergraduate.
A survey covering literature by three or more of the following ethnic groups: African American, American Indian, Asian American, U.S. Latino/a, and Caribbean American.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: CD, HU
Last Taught: Fall 2016, Fall 2015, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule
ENGLISH 278 Introduction to World Literatures Written in English:  
3 cr. Undergraduate.  
The literature of a particular region or regions of the English-speaking world.  
Prerequisites: grade of C or better in English 102(P) or score at level 4 of EPT.  
Course Rules: May be retaken w/chg of topic to 9 cr max.  
General Education Requirements: HU  
Last Taught: Spring 2013, Spring 2012, Fall 2010, Fall 2009.  
Current Offerings: http://uwm.edu/schedule  

ENGLISH 279 Introduction to U.S. Latino/a Literature:  
3 cr. Undergraduate.  
Latino/a American literature with a focus on region, genre, theme, or period.  
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.  
Course Rules: May be retaken w/chg in topic to a 9 cr max. English 279 & Latino 279 are jointly offered; they count as repeats of one another.  
General Education Requirements: CD, HU  
Current Offerings: http://uwm.edu/schedule  

ENGLISH 280 Introduction to Asian-American Literature:  
3 cr. Undergraduate.  
Asian-American literature with focus on region, genre, theme, or period.  
Prerequisites: grade of C or better in English 102(P) or score at level 4 of EPT.  
Course Rules: May be retaken w/chg of topic to 9 cr max.  
General Education Requirements: CD, HU  
Current Offerings: http://uwm.edu/schedule  

ENGLISH 281 Introduction to African-American Literature:  
3 cr. Undergraduate.  
African-American literature with a focus on region, genre, theme, or period.  
Prerequisites: May be retaken w/chg in topic to 9 cr max. Prereq grad of C or better in English 102(P) or score at level 4 of EPT.  
General Education Requirements: CD, HU  
Current Offerings: http://uwm.edu/schedule  

ENGLISH 285 Modern Irish Language and Literature in Translation  
3 cr. Undergraduate.  
Major works of literature written in Irish Gaelic, eighth century to present day, in bilingual (Irish/English) texts.  
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.  
Course Rules: Celtic 285 & English 285 are jointly offered; they count as repeats of one another.  
Current Offerings: http://uwm.edu/schedule

Current Offerings: http://uwm.edu/schedule

ENGLISH 806 Seminar in Linguistics:
3 cr. Graduate.
Advanced-level seminar in which students do in-depth research on a particular area of linguistics through readings, class discussion, and writing a research paper.
Prerequisites: grad st; cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max. English 806 & Linguis 806 are jointly offered; w/same topic, they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

ENGLISH 812 Seminar in Theories of Composition and Rhetoric:
3 cr. Graduate.
A graduate-level introduction to the history and current development of rhetoric and composition theory, and to their applications in research in written composition.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2013, Fall 2011, Fall 2009, Fall 2007.
Current Offerings: http://uwm.edu/schedule

ENGLISH 813 Special Topics in Creative Writing:
3 cr. Graduate.
Readings, writing, and discussion in a designated genre, form, or literary tradition.
Prerequisites: grad st; cons instr.
Course Rules: Retakable w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 814 Seminar in Irish Literature:
3 cr. Graduate.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 815 Seminar in Fiction Writing:
3 cr. Graduate.
Content varies. A workshop for graduate students.
Prerequisites: grad st & English 715(P).
Course Rules: Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 816 Seminar in Poetry Writing:
3 cr. Graduate.
Content varies. A workshop for advanced graduate students.
Prerequisites: grad st; English 716(P).
Course Rules: Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 817 Seminar in Critical Writing
3 cr. Graduate.
An advanced workshop in the writing and revising of critical essays.
Prerequisites: grad st.
Last Taught: Spring 2012, Fall 2010, Fall 2008, Fall 2006.
Current Offerings: http://uwm.edu/schedule

ENGLISH 819 Project in Creative Writing
1-6 cr. Graduate.
Content varies.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 6 cr max. Open only to MA candidates in Plan C, creative writing.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
ENGLISH 820 Seminar in Advanced Topics in Literary Criticism and Research:
1-3 cr. Graduate.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 822 Seminar in Poetry:
3 cr. Graduate.
An intensive examination of some aspect of the genre, including questions of history, theory, theme, or technique, or the study of major figures.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 824 Seminar in Special Topics in Literature:
3 cr. Graduate.
Advanced study of a topic in literary history, criticism or theory.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2015, Fall 2011, Spring 2010, Fall 2008.
Current Offerings: http://uwm.edu/schedule

ENGLISH 825 Seminar in Major Figures:
3 cr. Graduate.
Topics vary. Poetry, fiction, drama, and non-fiction prose writers, with attention to biography, culture and literary background.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2014, Spring 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

ENGLISH 827 Seminar in Contemporary Literature:
3 cr. Graduate.
Advanced study of a specialized topic or critical issue in the recent work of contemporary writers in english.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 828 Seminar in Comparative Literature:
3 cr. Graduate.
Advanced study of a specialized topic or critical issue in the literatures of two or more languages and/or national traditions.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 843 Seminar in Renaissance Prose and Poetry:
3 cr. Graduate.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 845 Seminar in Shakespeare:
3 cr. Graduate.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 853 Seminar in Contemporary Rhetorical Theory:
1-3 cr. Graduate.
Issues, topics, and major figures in contemporary rhetoric, philosophies of composition, critical discourse, and theories of writing.
Prerequisites: grad st; English 750(P); English 753(P) or 755(P).
Course Rules: Retakable w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 854 Seminar in College Writing Pedagogy:
3 cr. Graduate.
Professional concerns in teaching college writing; develops various topics in-depth, such as cultural literacy or large-scale assessment.
Prerequisites: grad st; 6 cr at 700-level, including English 706(P), 754(P), or 755(P).
Course Rules: Retakable w/chg in topic to 6 cr max.
Last Taught: Spring 2018, Fall 2015, Spring 2015, Fall 2012.
Current Offerings: http://uwm.edu/schedule

ENGLISH 855 Seminar in Public Rhetorics and Community Engagement:
3 cr. Graduate.
Theories of public rhetorics and community engagement. The effects of institutional structures and organizational cultures on writers and rhetoric. Retakable w/chg in topic to 6 cr max. Prereq: grad st; English 706(P);English 753(P) or 756(P).
Prerequisites:
Last Taught: Fall 2017, Spring 2016, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ENGLISH 858 Seminar in Professional and Literary Nonfiction:
3 cr. Graduate.
Advanced study of publications and audiences in nonfiction; intensive writing and research in scholarship, education, the arts, human services, business, and government.
Prerequisites: grad st; English 758(p).
Course Rules: Retakable w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 861 Seminar in Romantic Literature:
3 cr. Graduate.
This seminar will examine one or more aspects of english romanticism as expressed in the poetry and essays of the age.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2000, Fall 1994.
Current Offerings: http://uwm.edu/schedule

ENGLISH 862 Seminar in Victorian Literature:
3 cr. Graduate.
Advanced studies in victorian poetry, fiction, drama, and non-fiction prose, with attention to culture and critical theory.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule
ENGLISH 871 Seminar in African American Literature:
3 cr. Graduate.
Intensive examination of one or more major writers, themes, or critical topics in the literature of African Americans.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 872 Seminar in Women Writers:
3 cr. Graduate.
Intensive examination of one or more major writers, themes, or critical topics.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 6 cr max.

ENGLISH 874 Seminar in World Literature in English:
3 cr. Graduate.
Advanced study of one or more major writers or special topics in the literature outside England and the United States.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 6 cr max.
Last Taught: Fall 2013, Fall 2010.
Current Offerings: http://uwm.edu/schedule

ENGLISH 875 Seminar in Modern Literature:
3 cr. Graduate.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 6 cr max.
Last Taught: Spring 2015, Spring 2014, Fall 2012, Fall 2008.
Current Offerings: http://uwm.edu/schedule

ENGLISH 876 Seminar in Media Culture:
3 cr. Graduate.
Seminar focused on a broad issue related to media culture or specific forms of media, including alternative textual production, cinema, and digital culture.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max. English 876 & FilmStd 876 are jointly offered; w/same topic, they count as repeats of one another.
Last Taught: Fall 2017, Spring 2017, Spring 2016, Fall 2013.
Current Offerings: http://uwm.edu/schedule

ENGLISH 877 Seminar in Film Theory:
3 cr. Graduate.
A graduate-level seminar in film theory.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max. English 877 & FilmStd 877 are jointly offered; w/same topic, they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

ENGLISH 878 Seminar in Feminist Critical Theory:
3 cr. Graduate.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 6 cr max.
Last Taught: Spring 2017, Fall 2014, Spring 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

ENGLISH 879 Seminar in Native American Literature:
3 cr. Graduate.
Intensive examination of one or more major writers, themes, or critical topics in the literature of Native Americans.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 6 cr max.
Last Taught: Fall 2013, Fall 2009, Spring 2006, Fall 2001.
Current Offerings: http://uwm.edu/schedule

ENGLISH 881 Seminar in Colonial American Literature:
3 cr. Graduate.
Advanced studies in the literature of colonial America with special attention to cultural and literary backgrounds and critical theory.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.

ENGLISH 882 Seminar in Nineteenth-Century American Literature:
3 cr. Graduate.
Retakable w/chg in topic to 6 cr max. Prereq: grad st
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 6 cr max.
Last Taught: Fall 2017, Fall 2013, Fall 2012, Spring 2009.
Current Offerings: http://uwm.edu/schedule

ENGLISH 883 Seminar in Twentieth-Century American Literature:
3 cr. Graduate.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ENGLISH 885 Seminar in Critical Theory:
3 cr. Graduate.
A graduate-level seminar in one or more major theoretical models, methods, or approaches.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2016, Fall 2015, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ENGLISH 887 Understanding Participatory Media
3 cr. Graduate.
Theory and critical approaches to creative use of computational, networked media.
Prerequisites: grad st.
Course Rules: Counts as repeat of English 876 w/same topic.
Last Taught: Spring 2018, Fall 2015, Spring 2014.
Current Offerings: http://uwm.edu/schedule

ENGLISH 888 Candidate for Degree
0 cr. Graduate.
Available for students who must meet minimum credit requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Last Taught: Fall 2017, Summer 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
ENGLISH 890 Science, Communications, & Public Engagement
3 cr. Graduate.
Theory and practice of science communication and public engagement for a variety of audiences, including interdisciplinary researchers, public policy professionals, the press, and public stakeholders.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

ENGLISH 902 STEM and Public Debate
1 cr. Graduate.
How to engage in public debates about science, with special attention paid to responding to scientific detractors and manufactured controversies.
Prerequisites: grad st, English 901(R)
Current Offerings: http://uwm.edu/schedule

ENGLISH 903 Presenting STEM
1 cr. Graduate.
Development of facility with oral presentations of research results to a wide variety of venues including conferences, public lectures, and job talks.
Prerequisites: grad st, English 901(R)
Current Offerings: http://uwm.edu/schedule

ENGLISH 990 Research in English
1-3 cr. Graduate.
Reserved for research in connection with doctoral thesis.
Prerequisites: admis to Ph.D. prog & completion of 45 grad cr.
Course Rules: Retakable as necessary to fulfill thesis requirements.
Consult coord grad studies.
Current Offerings: http://uwm.edu/schedule

ENGLISH 999 Independent Reading for Ph.D. Candidates
1-3 cr. Graduate.
Consult graduate advisor.
Prerequisites: admis to Ph.D. candidacy.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

English, BA

Majoring in English provides students with a wealth of intellectual and practical learning, a foundation to future success. In today’s high-technology, interconnected world, the ability to read carefully, think imaginatively, understand others, and communicate across all types of platforms and formats is essential.

Students in the English major at UWM get to choose a track and focus their studies on an area of particular interest:

- Literature and Cultural Theory - where the reading and analysis of literature is emphasized
- Rhetoric and Writing - a broad field that includes writing for different genres
- Creative Writing - ideal for students who love fiction and poetry
- Professional and Technical Writing - with an emphasis on business documentation
- Media, Cinema, and Digital Studies - includes the many forms of communicating through media such as film, tv, games, and the web

In small classes, our students learn to understand the power and possibilities of the English language across the centuries and around the world. Students learn to think critically, write persuasively, argue logically, delve deeply into history, and explore their own creativity. Students are challenged to examine their own assumptions, sharpen their writing, and learn how to read and understand even the most difficult works, from fiction to philosophy.

Requirements
Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td><strong>I. English Writing Requirement</strong></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).</td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>Note:</strong> This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters &amp; Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.</td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>II. Mathematics and Formal Reasoning</strong></td>
<td></td>
</tr>
<tr>
<td></td>
<td>To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>MATH 102 Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>MATH 103 Contemporary Applications of Mathematics</td>

* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

VI. The Major
The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

English Major Requirements
The department welcomes prospective majors who have maintained a minimum 2.500 GPA in their English courses during the freshman and sophomore years.

Prospective majors are expected to consult with the associate chair for undergraduate studies in designing a program that satisfies their individual interests, abilities, and ambitions; if appropriate, a particular requirement may be waived to meet a student's special programmatic needs. English majors intending to continue their studies in graduate school are urged to plan with the coordinator a program that meets graduate school expectations and prepares them for the Graduate Record Exam.

Students entering with advanced standing are required to earn at least 15 credits in English courses numbered 300 and above while in residence at UWM.

Credit Requirements
All students must complete ENGLISH 215 before declaring the major. This is a rigorous sophomore-level course designed to introduce students to the discipline; to teach them how to read closely and critically; and to instruct them in the writing of analytical essays. Since ENGLISH 215 is intended to help students improve their performance in upper-level English courses, it is recommended strongly that students take it before registering for any higher-level courses.

All courses taken towards the major must be at or above the 300 level unless otherwise noted. Students must complete at least 15 upper-division (numbered 300 and above) credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work.

English majors also must complete one of the following tracks. In each track, in their senior year, majors complete a capstone course or senior seminar. This course includes one or more in-depth writing assignments or projects that include a research component, which satisfies the research requirement for the L&S degree.

Please Note: In order to register for the ENGLISH 615 or ENGLISH 616 capstone (see below), students must have completed successfully two 400-level workshops (ENGLISH 414, ENGLISH 415, ENGLISH 416) as follows:

- Prerequisites for ENGLISH 615 fiction capstone: ENGLISH 415 and one of the following: a second section of ENGLISH 415 or ENGLISH 414 or ENGLISH 416.
- Prerequisites for ENGLISH 616 poetry capstone: ENGLISH 416 and one of the following: a second section of ENGLISH 416 or ENGLISH 414 or ENGLISH 415.
- Students may not take the two required 400-level workshops in the same semester, and they may not take either of them concurrently with ENGLISH 615/ENGLISH 616.

Track D: English Language and Linguistics
At this time, students are not being admitted to this track.

Track E: Literature, Culture, and Media
At this time, students are not being admitted to this track.

Track F: Literature and Language Studies
Completing this option alone does not satisfy the requirements for teaching certification. For certification requirements, see the School of Education (p. 426) section of this catalog:

Letters & Science Advising
The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless of their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Honors in the Major
English majors need to meet the following three criteria in order to graduate with Honors in the Major:

1. minimum 3.00 GPA on all UWM graded credits attempted;
2. minimum 3.500 GPA on all credits attempted that count toward the major; and
3. minimum 3.500 GPA on all advanced (300+) credits that count toward the major.

Students who meet these criteria should apply to the coordinator of undergraduate studies.

Honors in the College of Letters and Science

Dean's Honor List
GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Contact Information
Current Students contact Associate Professor Gilberto Blasini, gblasini@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu
http://uwm.edu/english/undergraduate/
English, MA

Related Certificates

- Graduate Certificate in Professional Writing and Communication (http://uwm.edu/graduateschool/professional-writing-communication-certificate)

The Department of English offers master’s and doctoral degrees in several areas of specialization: Literature and Cultural Theory; Rhetoric and Composition; Creative Writing; Professional and Technical Writing; and Media, Cinema, and Digital Studies. Students apply for admission to a specific area or concentration, but are encouraged to take classes in others. The Department also offers graduate certificates in International Technical Communication and Professional Writing and Communication.

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these departmental requirements to be considered for admission to the program:

1. Undergraduate major in English or related field, with appropriate background for proposed concentration of study: Plan A, broad background in English and American literature; Plan B, literature, linguistics, and/or composition; Plan C, literature and creative writing; Plan G, professional writing; Plan H, background in media studies, film studies, or digital and/or popular culture.
2. Undergraduate grade point average of 3.0 (4.0 scale).
4. Three letters of recommendation to the Department’s Director of Graduate Studies from persons familiar with applicant’s academic ability and achievement.
5. A sample of academic writing.
6. For Plan C admission, an applicant must also submit samples of original fiction or poetry.

For more specific information about departmental requirements for admission and instructions for submitting, letters of recommendation, please visit the English Department’s Graduate Admissions Web page.

Major Professor as Advisor

The student must have a Major Professor to advise and supervise the student’s work as specified in Graduate School regulations. The coordinator of the student’s concentration serves as an initial advisor.

Credits and Courses

Students admitted to the master’s program earn the degree by completing a minimum of 30 credits of graduate coursework in English, writing a final project, and passing an oral examination at the conclusion of their coursework.

Although students must enroll initially in one of the five plans of study described below, students who demonstrate a capacity for doctoral work, and wish to earn a Ph.D. at UWM, are advised to proceed as rapidly as possible to the PhD program. Ordinarily students are not allowed to proceed beyond 30 credits without having been admitted to the doctoral program. No more than 27 credits earned at the master’s level may be included in the 54 credits required for the Ph.D.

Plan A (Literature and Cultural Theory)

A minimum of 30 credits, including:

<table>
<thead>
<tr>
<th>Code</th>

Select 12 credits of electives in courses numbered 700 and above

Total Credits

Note: Students can take no more than 6 credits in any combination of 400-level U/G courses and interdisciplinary courses.

Students should consult with their advisor about which option would best suit their background and career goals. In general, students with little workplace experience will take the internship and those with substantial workplace experience will take a 700-level elective.

1. Which may include up to 6 credits of ENGLISH 790.
Program Requirements

Final Project
A research paper or other project appropriate to the student's professional goals.

Oral Examination
Usually lasting an hour and a half, the oral exam covers the final project and a reading list of at least 30 texts not listed in the project bibliography or works cited list.

Regulations Concerning Final Projects and Oral Examinations
1. Students should consult with their advisors before completing 24 credits to determine a final project. Ordinarily, it is a revised and expanded course or seminar paper of at least 30 pages. The project should demonstrate the student's skills in research, critical analysis, argumentation, and prose style. For students in Plan C (Creative Writing), the project is a substantial portfolio, the exact character of which is determined in consultation with the student's M.A. Committee. The project serves both as a concluding effort at the master's level and also as an indication of a student's potential for doctoral study.

2. In consultation with the student, the Director of Graduate Studies appoints an M.A. Examining Committee. At least two of the three members must be English Graduate Faculty. The M.A. Examining Committee administers the final Oral Examination, covering the project and a separate reading list of at least 30 texts, to be selected by the student and approved by the Committee.

3. The project must be submitted and the oral examination completed within one year after the completion of 24 credits. Students should remember that a maximum of 27 credits at the master's level is applicable to the Ph.D. 54 credit requirement.

4. The Examining Committee offers a recommendation regarding the student's qualifications for further graduate study at the doctoral level. The Committee Chair puts this recommendation in writing and places it in the student's academic file.

5. Students who fail the oral examination may be required to revise their final project, retake the examination, or both. The oral examination may be retaken only once. No additional credits may be earned for the revision of the project after a failed examination. For further information regarding the M.A. project and examination, see the English Graduate Program Handbook.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

English, MA/Library and Information Science, MLIS

In collaboration with several other academic units at UWM-Milwaukee, SOIS offers students the opportunity to obtain two Master's degrees concurrently—one in Library and Information Science (MLIS) and one in a subject area.

Degree Requirements
- The number of degree credits needed for each of the coordinated programs is usually 12 fewer than the sum of the two programs if they were not taken simultaneously. All degree requirements of each component must be satisfied.
- The MLIS portion of the coordinated degrees can be completed online.
- Prerequisite to the award of either degree in this program is the simultaneous award of its counterpart degree.

MLIS Component
The Master of Library and Information Science (MLIS) component of each of the coordinated programs includes 30 credits of SOIS courses. These include the MLIS core courses (12 credits). The remaining 18 MLIS credits are selected from the School's offerings in accordance with the student's goals in the coordinated degree program.

MLIS/MA English
The MLIS/MA English Coordinated Degree Program prepares students for positions as humanities librarians.

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrat/contact-us) online.

Admission
An applicant must meet the UWM Graduate School requirements plus all admission requirements of both the School of Information Studies and the coordinated degree department. Please review the admission details of each program and contact an advisor with any questions.

Requirements
Students interested in the English MA/MLIS program are expected to follow all the requirements and standards as described in this section of the Bulletin with the following exceptions: the 21 credits required for the MA in English in the coordinated degree program are to be taken within the Department. Courses in related areas must be approved by the Director of Graduate Studies in English. For more information on this program, see the Library and Information Science page.

Total Credits | 30

Important
You must refer to the catalog pages of both individual master's programs to ensure that you meet all requirements for both degrees.

English Courses
Students in the MA/MLIS program may subtract 9 elective credits from their chosen concentration below.

Students admitted to the master's program earn the degree by completing a minimum of 30 credits of graduate coursework in English,
writing a final project, and passing an oral examination at the conclusion of their coursework.

Although students must enroll initially in one of the five plans of study described below, students who demonstrate a capacity for doctoral work, and wish to earn a Ph.D. at UWM, are advised to proceed as rapidly as possible to the Ph.D. program. Ordinarily students are not allowed to proceed beyond 30 credits without having been admitted to the doctoral program. No more than 27 credits earned at the master’s level may be included in the 54 credits required for the Ph.D.

**Plan A (Literature and Cultural Theory)**
A minimum of 30 credits, including:

Plan H (Media, Cinema, and Digital Studies)

Program Requirements

Final Project

A research paper or other project appropriate to the student’s professional goals.

Oral Examination

Usually lasting an hour and a half, the oral exam covers the final project and a reading list of at least 30 texts not listed in the project bibliography or works cited list.

Regulations Concerning Final Projects and Oral Examinations

1. Students should consult with their advisors before completing 24 credits to determine a final project. Ordinarily, it is a revised and expanded course or seminar paper of at least 30 pages. The project should demonstrate the student’s skills in research, critical analysis, argumentation, and prose style. For students in Plan C (Creative Writing), the project is a substantial portfolio, the exact character of which is determined in consultation with the student’s M.A. Committee. The project serves both as a concluding effort at the master’s level and also as an indication of a student’s potential for doctoral study.

2. In consultation with the student, the Director of Graduate Studies appoints an M.A. Examining Committee. At least two of the three members must be English Graduate Faculty. The M.A. Examining Committee administers the final Oral Examination, covering the project and a separate reading list of at least 30 texts, to be selected by the student and approved by the Committee.

3. The project must be submitted and the oral examination completed within one year after the completion of 24 credits. Students should remember that a maximum of 27 credits at the master’s level is applicable to the Ph.D. 54 credit requirement.

4. The Examining Committee offers a recommendation regarding the student’s qualifications for further graduate study at the doctoral level. The Committee Chair puts this recommendation in writing and places it in the student’s academic file.

5. Students who fail the oral examination may be required to revise their final project, retake the examination, or both. The oral examination may be retaken only once. No additional credits may be earned for the revision of the project after a failed examination. For further information regarding the M.A. project and examination, see the English Graduate Program Handbook.

Time Limit

The student must complete all degree requirements within five years of initial enrollment.

English, Minor

Minoring in English provides students with a wealth of intellectual and practical learning, a foundation to future success. In today’s high-technology, interconnected world, the ability to read carefully, think imaginatively, understand others, and communicate across all types of platforms and formats is essential.
In small classes, our students learn to understand the power and possibilities of the English language across the centuries and around the world. Students learn to think critically, write persuasively, argue logically, delve deeply into history, and explore their own creativity. Students are challenged to examine their own assumptions, sharpen their writing, and learn how to read and understand even the most difficult works, from fiction to philosophy.

Requirements
The College of Letters and Science requires that students attain at least a 2.5 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work. The minor in English requires the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGLISH 215</td>
<td>Introduction to English Studies</td>

</tr>
<tr>
<td>Select a minimum of 12 credits in English courses numbered 300 and above (at least 9 taken in residence at UWM)</td>
<td>12</td>
<td></td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>18</td>
</tr>
</tbody>
</table>

Contact Information
Current Students contact Associate Professor Gilberto Blasini, gblasini@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu
http://uwm.edu/english/undergraduate/

English, PhD
Related Certificates
- Graduate Certificate in Professional Writing and Communication (http://uwm.edu/graduateschool/professional-writing-communication-certificate)

The Department of English offers master's and doctoral degrees in several areas of specialization: Literature and Cultural Theory, Rhetoric and Composition; Creative Writing; Professional and Technical Writing; and Media, Cinema, and Digital Studies. Students apply for admission to a specific area or concentration, but are encouraged to take classes in others. The Department also offers graduate certificates in International Technical Communication and Professional Writing and Communication.

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Students in the UWM Master of Arts degree program in English must pass an M.A. exam and be recommended for admission into the Ph.D. program by their M.A. committee. An application for the Ph.D. program also must be submitted to the Graduate School.

Applicants with master's degrees from other institutions are evaluated on the basis of standard application materials:
- GPA
- GRE (http://uwm.edu/graduateschool/admission/#gre) Scores
- Statement of Purpose
- Three Supporting Letters
- A Sample of Academic Writing

Such applicants are admitted to doctoral study provisionally and are required to complete an Academic Review within six weeks of finishing 12 credits.

For more specific information about departmental requirements for admission, please visit the English Department's Graduate Admissions Web page (http://www4.uwm.edu/letssci/english/grad/admissions.cfm).

The Academic Review is a one- to two-hour meeting with three faculty members of the English Graduate Faculty. At least two members come from the student's concentration. The Review covers the student's academic progress in doctoral coursework, two unrevised course papers, and a list of 20-25 books chosen by the student in consultation with the reviewers. See the English Graduate Program Handbook for further details regarding the Academic Review. Applicants should contact the Graduate Program Office for additional information and deadlines.

Credits and Courses
The Ph.D. program requires 54 credits beyond the B.A. (55 for Rhetoric and Composition, 56 for Literature and Cultural Theory), including no more than 27 credits earned at the master's level. Course distribution requirements vary according to the doctoral concentration a student enters.

Doctoral Concentration
Students applying to the English doctoral program must indicate their preference for one of the following doctoral concentrations: Literature and Cultural Theory; Rhetoric and Composition; Creative Writing; Professional and Technical Writing; Media, Cinema, and Digital Studies. The Director of Graduate Studies and a Program Coordinator for each concentration provide initial advising for the student in course enrollment and in selecting a Major Professor for long-term advising. Although a continuing doctoral student can change concentrations, such changes require approval by the Coordinator of the new concentration and the Director of Graduate Studies, and may require a substantial amount of additional coursework.

Because course requirements change frequently, students should regularly consult with Program Coordinators or the Director of Graduate Studies regarding doctoral concentration requirements. The following listings reflect current curricular requirements:

<table>

Doctoral Preliminary Examination

The doctoral preliminary examination consists of a written examination and an oral examination designed to demonstrate the breadth of a student’s knowledge and the ability to conduct advanced research in one or more areas of study. The written and oral examinations draw from field bibliographies with rationale (500 word maximum) prepared by the student and approved by the student’s preliminary examination committee and the advisory committee of the student's plan.

The written examination must be at least eight hours long, and it is frequently taken as a three-day, take-home, open book exam. The exam must be arranged in advance with the Director of Graduate Studies and must be taken before the preliminary examination. If a student’s Major Professor considers proficiency in more than one language necessary to the student’s specific plan of study, exams in more than one language may be required. The exam may be retaken until proficiency is attained.

Residence

The student must meet minimum Graduate School residence requirements (http://uwm.edu/graduateschool/doctoral-requirements/#residence).

General Restrictions

Doctoral students may not accumulate more than 12 credits in U/G courses and not more than 6 credits in independent study without the approval of the Director of Graduate Studies. No more than 18 credits may be taken in courses outside the Department.

Advising

Students are required to consult periodically with their Major Professor. The Major Professor helps the student to define an area of special interest within the concentration for the preliminary examination. The Major Professor also assists the student in the selection of appropriate coursework and may chair the Preliminary Examination Committee.

Foreign Language Requirement

All Ph.D. candidates are required to demonstrate proficiency (reading knowledge) in a foreign language. The choice of a language must be approved by the student’s advisor. If a student has not met this requirement in other ways (see English Graduate Program Handbook), a student must pass a two-hour written examination in the translation of a piece of literature or criticism. A student may use a dictionary and/or grammar book. The exam must be arranged in advance with the Director of Graduate Studies and must be taken before the preliminary examination. If a student’s Major Professor considers proficiency in more than one language necessary to the student’s specific plan of study, exams in more than one language may be required. The exam may be retaken until proficiency is attained.

Dissertation

The dissertation topic, together with a brief prospectus, must be approved by the Graduate Policy Committee. The student’s major professor or a member of the dissertation committee must present the topic and prospectus to the Graduate Policy Committee. See the Director of Graduate Studies and the English Graduate Program Handbook (http://uwm.edu/english/graduate/graduate-resources/grad-handbook) for specific guidelines for selecting a doctoral committee and preparing the dissertation proposal. The Department considers 200 pages a reasonable length for the dissertation.

Dissertation Defense

The completed dissertation is subject to an oral defense, to be arranged by the Coordinator according to Graduate School regulations. A copy of the dissertation is kept in the Department office.

Time Limit

All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.

For additional information see the Graduate School Ph.D. requirements (http://uwm.edu/graduateschool/doctoral-requirements).

Professional Writing and Communication, Graduate Certificate

The Professional Writing and Communication Graduate Certificate is designed for post-baccalaureate students seeking professional training and education to advance their careers.

The Certificate is a joint offering by the Professional Writing Program in the Department of English and the Department of Communication. It is a popular option for anyone seeking academic credentials and will qualify graduates to compete for jobs involving writing or communication or for advancement opportunities at their current places of employment.

There is no single “typical” certificate student, but many of our students are:

- BA/BS graduates in a major other than English or Communication with little or no related work experience in writing who are seeking a change in their job or career.
- Happy with their current employer, but hoping to qualify for more writing and communication responsibilities or for promotional opportunities that might involve project management, assessment, training, and other activities that require writing or communications experience.
- Seeking specialized and current instruction in writing or communication to qualify for more jobs or assist their employer in keeping up with current technologies, concepts, and standards in professional writing or communication.

It's possible to complete all the Certificate courses online, but many students also choose to take both online and face-to-face courses to complete their Certificate.
Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Eligibility and Admission
Students must have completed a bachelor's degree with a minimum GPA of 2.75.

Application
• Students wishing to obtain this certificate must declare their intention by applying to the program office.
• All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
• Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
• Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted to a certificate program.
• In addition, send the following items directly to the Department of English:
  a. A portfolio of writing samples.
  b. Two letters of recommendation from persons knowledgeable about applicants’ recent academic or work experience.
  c. A statement of purpose that identifies the applicants’ knowledge of workplace communication practices and business operations, their professional experience, or basic undergraduate coursework in business writing, technical writing, and communication.
  d. A statement describing the applicants’ access to and operational knowledge of online communication technology, including a PC or equivalent computer system with Internet access and other applications sufficient to participate in the program’s online learning activities.
  e. An unofficial transcript from each undergraduate and graduate institution attended.

1 Mailing Address: Department of English, Attn: Certificate Program, UWM, P.O. Box 413, Milwaukee, WI 53201-0413

Credits and Courses
Students must complete 15 credits of coursework as outlined below. The Certificate will be awarded when students achieve the following:

Total Credits 15

1 Students who within the past five years have successfully completed courses equivalent to these required English courses may, with the approval of the Certificate Coordinator, substitute alternate English graduate courses.

Transfer Credit
No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   • Degree programs must approve the courses from certificates that can double count toward the degree.
• All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)

• Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.

3. A course may count toward no more than one certificate and one degree.

4. Students may not earn a certificate subsequent to a concentration in the same area.

**Time Limit**
Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

ENGLISH AS A SECOND LANGUAGE

English for Academic Purposes Courses

EAP 100 Introduction to College Writing for Multilingual Students
4 cr. Undergraduate.
Opportunities for multilingual students to improve their analytical reading and academic writing skills while offering intensive language work and individualized instruction.
Prerequisites: English Placement Test for Non-Native Speakers of English (EPT-NNSE) Score of 2, ESL-PIC score of 1, 2, or 3, or Grade of C or better in EAP 115(P) or 116(P) or 110(P).
Course Rules: Counts as repeat of 4 cr of combined EAP 116 & 117.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: [link]

EAP 101 College Writing for Multilingual Students/English 101
3 cr. Undergraduate.
Prepares and qualifies multilingual writers for English 102. Writing analytical essays based on academic reading.
Prerequisites: English Placement Test for Non-Native Speakers of English (EPT-NNSE) Score of 3 or ESL-PIC score of 4 or Grade of C or better in EAP 117(P) or grade of C or better in English 100(P) or EAP 100(P).
Course Rules: Counts as repeat of EAP 118.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: [link]

EAP 105 Skills for Academic Reading Success
3 cr. Undergraduate.
Introduces ESL students to academic reading strategies and builds basic reading competence in English. Uses high-interest materials to invite engaging class discussions.
Prerequisites: ESL-PIC score of 0.
Course Rules: Open only to students who are non-native speakers of English.
Last Taught: Spring 2016, Fall 2015.
Current Offerings: [link]

EAP 110 College Reading and Writing Skills for Multilingual Students
4 cr. Undergraduate.
Opportunities for multilingual students to develop reading comprehension and critical reading skills along with basic composition skills, including individualized, grammar-based instruction.
Prerequisites: English Placement Test for Non-Native Speakers of English (EPT-NNSE) Score of 1 or self-placement.
Course Rules: Counts as repeat of 4 cr of EAP 105 & 115.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: [link]

EAP 115 Basic Writing in English as a Second Language
6 cr. Undergraduate.
Introduction to academic writing practices. Intensive grammar review and vocabulary expansion with individualized instruction. Extensive reading and writing.
Prerequisites: score at level 1 on ESL-PIC test.
Course Rules: For non-native speakers of English. No cr for students with cr in EAP 116.
Last Taught: Spring 2016, Fall 2015, Spring 2015, Fall 2014.
Current Offerings: [link]

EAP 116 Introduction to College Writing in English as a Second Language
6 cr. Undergraduate.
Rigorous introduction to academic writing practices, including reading-based writing. Thorough review of grammar, with individualized instruction. Extensive reading and writing.
Prerequisites: score at level 2 on ESL-PIC test; or grade C or better in EAP 115(P).
Last Taught: Spring 2016, Fall 2015, Spring 2015, Fall 2014.
Current Offerings: [link]

EAP 117 College Writing in English as a Second Language
6 cr. Undergraduate.
Guidance in analytical reading and academic writing plus intensive language work, with individualized instruction. Extensive reading and writing.
Prerequisites: score at level 3 on ESL-PIC test; or grade C or better in EAP 116(P).
Last Taught: Spring 2016, Fall 2015, Spring 2015, Fall 2014.
Current Offerings: [link]

EAP 118 Advanced College Writing in English as a Second Language/English 101
3 cr. Undergraduate.
Prepares and qualifies ESL writers for English 102. Writing analytical essays based on academic reading.
Prerequisites: score at level 4 on ESL-PIC test; or grade C or better in EAP 117(P); or grade B or better in EAP 116(P) & cons instr.
Course Rules: Counts as repeat of English 101.
Last Taught: Summer 2016, Spring 2016, Fall 2015, Spring 2015.
Current Offerings: [link]

EAP 120 Grammar and Editing in English for Multilingual Students
3 cr. Undergraduate.
Grammar instruction and writing. Individual feedback given in conferences with instructor.
Prerequisites: none.
Course Rules: Open only to undergraduates who are non-native speakers of English.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: [link]

EAP 135 Basic Skills in Academic Listening & Speaking
3 cr. Undergraduate.
Academic presentation and lecture note-taking skill development for English learners with no previous formal instruction in these areas.
Prerequisites: none.
Course Rules: Open only to undergraduate students who are non-native speakers of English.
Last Taught: Fall 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: [link]

EAP 145 Practice in Academic Listening and Speaking
3 cr. Undergraduate.
Academic presentation and lecture note-taking skill development for English learners with previous formal instruction in these areas.
Prerequisites: none.
Course Rules: Open only to undergraduate students who are non-native speakers of English.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: [link]
EAP 199 Independent Study
1-3 cr. Undergraduate.
For further information, consult dept chair.
Prerequisites: 2.5 gpa; writ cons instr, dept chair & asst dean for SAS.
Course Rules: May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

EAP 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Requires only dept & assoc dean approval. In exceptional circumstances,
can be offered in one add'l sem.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Last Taught: Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

EAP 420 Advanced Reading, Writing, and Grammar Tune-up for Internationals
4 cr. Undergraduate.
Refinement of advanced undergraduate and graduate students' language control; extensive reading, writing, and contextualized grammar; focus on American academic expectations. Intensive individual conferences.
Prerequisites: jr st.
Course Rules: May enroll in one fall and one spring term to a combined total of 8 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

EAP 435 Advanced Listening, Speaking, and Notetaking Skills for Internationals
4 cr. Undergraduate.
Refinement of advanced undergraduate and graduate students' listening and speaking skills and pronunciation. Focus on American academic expectations. Intensive individual conferences target unique needs.
Prerequisites: jr st.
Course Rules: May enroll in one fall and one spring term to a combined total of 8 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

EAP 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Requires only dept & assoc dean approval. In exceptional circumstances,
can be offered in one add'l sem.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule
ETHNIC STUDIES

Rachel Buff, Professor of History, Program Coordinator, rbuff@uwm.edu

The Comparative Ethnic Studies Program offers an undergraduate major through the Committee Interdisciplinary Major, an undergraduate certificate in Comparative Ethnic Studies, and an undergraduate certificate in Hmong Diaspora Studies.

Programs

- Committee Interdisciplinary Major, BA: Comparative Ethnic Studies (p. 1277)
- Comparative Ethnic Studies, Undergraduate Certificate (p. 1282)
- Hmong Diaspora Studies, Undergraduate Certificate (p. 1284)

Ethnic Studies, Comparative Courses

ETHNIC 101 The Making of American Cultures: Africans, Europeans, and Indian Nations
3 cr. Undergraduate.
Origins and development of racial and ethnic identities in the Americas; specific attention to Wisconsin history; African-American, American Indian, Latino, Euro-American identities; relationships among them. 2 hrs lec, 1 hr dis.
Prerequisites: none.
Course Rules: Not retakable for cr; may be repeated for higher grade.
General Education Requirements: HU, CD
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ETHNIC 102 Transnational Migrations: Asian-, Arab-, Euro-American and Latino Identity
3 cr. Undergraduate.
Modern and contemporary social and cultural processes of migration and identity; role of law as 'gatekeeping'; history of nativism, interethnic relations, and community formation.
Prerequisites: none.
General Education Requirements: CD, HU
Current Offerings: http://uwm.edu/schedule

ETHNIC 192 First-Year Seminar:
3 cr. Undergraduate.
The specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: HU
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ETHNIC 193 First-Year Seminar:
3 cr. Undergraduate.
The specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

ETHNIC 199 Independent Study: Lower Division
1-3 cr. Undergraduate.
For further information, consult Ethnic Studies coordinator.
Prerequisites: 2.25 gpa on at least 12 graded cr; writ cons instr & prog coord.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

ETHNIC 200 Racial Minorities in the United States
3 cr. Undergraduate.
Prerequisites: none.
General Education Requirements: SS, CD
Current Offerings: http://uwm.edu/schedule

ETHNIC 245 Indians, Artists, and Conquistadores: The U.S. Southwest
3 cr. Undergraduate.
Interaction of diverse Indian, European, and Latino cultures in the U.S. southwest.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

ETHNIC 250 Selected Topics in Ethnic Studies:
3 cr. Undergraduate.
This course will focus on one individual ethnic group, or one particular aspect of an ethnic group.
Prerequisites: none.
Course Rules: Counts as a repeat of Ethnic 250 with similar title.
General Education Requirements: HU, CD
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ETHNIC 255 Migration and Gender: Starbucks, Sex Trafficking, and Nannies
3 cr. Undergraduate.
Changing roles of women in the global marketplace; effects of migration on gender and family life.
Prerequisites: none.
Course Rules: Counts as a repeat of Ethnic 250 with similar title.
General Education Requirements: HU, CD
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ETHNIC 265 Hmong Americans: History, Culture, and Contemporary Life
3 cr. Undergraduate.
Hmong American history, the effects of the Vietnam War on Hmong culture, and the history of the resulting refugee immigrants in America.
Prerequisites: none.
Course Rules: Ethnic 265 & Hmong 265 are jointly offered; they count as repeats of one another.
General Education Requirements: CD, SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
ETHNIC 275 Queer Migrations
3 cr. Undergraduate.
How gender, race, and sexuality shape the migration processes; how concerns about sexuality shape U.S. immigration and citizenship policy; how mass migrations transform diverse queer communities.
Prerequisites: none.
Course Rules: No cr for students w/cr in Ethnic 250 w/similar topic. Ethnic 275 & LGBT 275 are jointly offered; they count as repeats of one another.
General Education Requirements: CD, HU
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ETHNIC 285 Cultures of Contemporary Russia
3 cr. Undergraduate.
Ethnic conflict and struggles over language, territory, culture, and politics after the dissolution of the Soviet Union.
Prerequisites: none.
Course Rules: Counts as a repeat of Ethnic 250 w/similar title.
Current Offerings: http://uwm.edu/schedule

ETHNIC 289 Internship in Ethnic Studies, Lower Division
1-6 cr. Undergraduate.
Application of basic principles of ethnic studies in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: intro course in ethnic; 2.25 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hours in internship. Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ETHNIC 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

ETHNIC 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

ETHNIC 325 Gender, Race, and Ethnicity in Milwaukee:
3 cr. Undergraduate.
Influxes into the U.S. of migrants from Europe, Latin America, and elsewhere; evolution of conflict and division; particular attention to Civil Rights and deindustrialization.
Prerequisites: jr st.
Course Rules: Retakable w/chg in topic to 9 cr max.
General Education Requirements: CD, HU
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ETHNIC 350 Advanced Topics in Comparative Ethnic Studies:
3 cr. Undergraduate.
Various advanced topics in the field of comparative ethnic studies.
Prerequisites: Ethnic 101(P); 102(P), or 250(P), or cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2011, Fall 2010, Spring 2010, Fall 2009.
Current Offerings: http://uwm.edu/schedule

ETHNIC 355 Muslims and American Popular Culture
3 cr. Undergraduate.
History of Muslims in American pop culture; sub-cultures of various Muslim ethnic groups from the perspective of film, literature, and music.
Prerequisites: jr st or Ethnic 101(P) or 102(P).
Last Taught: Fall 2009.
Current Offerings: http://uwm.edu/schedule

ETHNIC 360 Villainy, Sex, & Blood: Race, Gender & Ethnicity in Pop Culture
3 cr. Undergraduate.
Exploration of the ways in which popular culture creates, maintains, and challenges notions of race, gender, and ethnicity throughout the American historical experience.
Prerequisites: jr st.
Course Rules: Counts as a repeat of Ethnic 250 w/ similar topic.
Current Offerings: http://uwm.edu/schedule

ETHNIC 375 Global Violence, Disease, and Death
3 cr. Undergraduate.
Development schemas, health policies, and the role of international organizations in global incidents of suffering, violence, and death.
Prerequisites: jr st or Ethnic 101(P) or 102(P).
Current Offerings: http://uwm.edu/schedule

ETHNIC 489 Internship in Ethnic Studies, Upper Division
1-6 cr. Undergraduate.
Application of advanced principles of ethnic studies in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; 300-level or above course in ethnic stds; 2.25 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hours in internship. Retakable to 6 cr max.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Summer 2014.
Current Offerings: http://uwm.edu/schedule
ETHNIC 497 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

ETHNIC 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

ETHNIC 550 Senior Seminar in Comparative Ethnic Studies:
3 cr. Undergraduate.
Focus on specific aspects (social, cultural) of ethnic and racial identity, based on readings and presentation of original student research.
Prerequisites: sr st; cons instr.
Course Rules: Topic varies; not retakable for cr. May be repeated for higher grade. Satisfies L&S Seminar req.
Current Offerings: http://uwm.edu/schedule

ETHNIC 699 Advanced Independent Work
1-3 cr. Undergraduate.
See Independent Study. For further information consult Ethnic Studies coord.
Prerequisites: jr st; 2.5 gpa; writ cons instr, prog coord, & asst dean for SAS.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

Hmong Studies Courses

HMONG 107 First-Semester Hmong Literacy
3 cr. Undergraduate.
Introduction to literacy skills in Hmong. Intended for speakers of Hmong.
Prerequisites: none.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

HMONG 108 Second-Semester Hmong Literacy
3 cr. Undergraduate.
Continuation of Hmong 107(FLL 107/Linguis 161).
Prerequisites: Hmong 107(FLL 107/Linguis 161)(P).
Current Offerings: http://uwm.edu/schedule

HMONG 192 First-Year Seminar:
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: CD, HU
Current Offerings: http://uwm.edu/schedule

HMONG 193 First-Year Seminar:
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: SS, CD
Current Offerings: http://uwm.edu/schedule

HMONG 199 Independent Study:
1-3 cr. Undergraduate.
Independent work under supervision of faculty or academic staff member. For further information, consult the program director. Students must submit a study proposal.
Prerequisites: 2.5 GPA; writ cons instr, prog dir, & asst dean for SAS.
Course Rules: Retakable to 6 cr max.
Last Taught: Summer 2017.
Current Offerings: http://uwm.edu/schedule

HMONG 265 Hmong Americans: History, Culture, and Contemporary Life
3 cr. Undergraduate.
Hmong American history, the effects of the Vietnam War on Hmong culture, and the history of the resulting refugee immigrants in America.
Prerequisites: none.
Course Rules: Ethnic 265 & Hmong 265 are jointly offered; they count as repeats of one another.
General Education Requirements: SS, CD
Current Offerings: http://uwm.edu/schedule

HMONG 289 Internship in Hmong Studies, Lower Division:
1-6 cr. Undergraduate.
Application of basic principles of Hmong Studies in business, organizational, educational, political, or other appropriate setting.
Prerequisites: 2.50 gpa, cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hrs in internship. Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule
HMONG 296 UROP Apprenticeship:
1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with
a supervising member of the faculty or staff.
Prerequisites: acceptance to UROP; prior or conc reg in UROP seminar.
Course Rules: One credit for 45 hrs research. Retakable to 9 cr max in any
combination of UROP apprenticeship courses.
Current Offerings: http://uwm.edu/schedule

HMONG 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM-sponsored program before course
work levels, content, and credits are determined and/or in specially-
prepared course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

HMONG 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: Requires only program dir & assoc dean approval. In
exceptional circumstances, can be offered in one add'l sem. Retakable w/
chg in topic.
Current Offerings: http://uwm.edu/schedule

HMONG 489 Internship in Hmong Studies, Upper Division
1-6 cr. Undergraduate.
Application of basic principles of Hmong Studies in business,
organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; 2.50 GPA, cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hrs in
internship. Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

HMONG 496 Advanced UROP Apprenticeship:
1-3 cr. Undergraduate.
Advanced undergraduate research participation in a project developed
with a supervising member of the faculty or staff.
Prerequisites: acceptance to UROP; prior UROP apprenticeship or equiv
rsch experience.
Course Rules: One credit for 45 hrs research. Retakable to 9 cr max in any
combination of UROP apprenticeship courses.
Current Offerings: http://uwm.edu/schedule

HMONG 497 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM-sponsored program before course
work levels, content, and credits are determined and/or in specially-
prepared course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Last Taught: UWinteriM 2018.
Current Offerings: http://uwm.edu/schedule

HMONG 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: Requires only program dir & assoc dean approval. In
exceptional circumstances, can be offered in one add'l sem. Retakable w/
chg in topic.
Current Offerings: http://uwm.edu/schedule

HMONG 699 Advanced Independent Study:
1-3 cr. Undergraduate.
Advanced level independent work under supervision of a Hmong Studies
faculty or academic staff member. Students must submit a study
proposal.
Prerequisites: jr st; 2.50 GPA; cons supervising instr, program coord, &
assst dean of SAS
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

Committee Interdisciplinary Major,
BA: Comparative Ethnic Studies

Comparative Ethnic Studies is an interdisciplinary field that examines
issues of social identity and power, in contemporary and historical
contexts. The field centers on questions of race, gender, and sexuality.
Students are free to select from a range of courses in the Ethnic Studies
program, and to include coursework they do from around the university
their academic programs.

Unique to UWM, our program offers courses covering the Hmong
diaspora. Wisconsin is home to the third largest Hmong American
population in the US, making UWM a great place to learn about this
population.

The Committee Interdisciplinary Major with a focus in Comparative Ethnic
Studies is also one of a handful of majors that requires an internship prior
to graduation, thereby ensuring that students leave college with hands-
on experience from the local community. The program is administered by
the College of Letters and Science interdepartmental Comparative Ethnic
Studies Advisory Committee.

A certificate in Comparative Ethnic Studies is also available for students
seeking something closer to a minor.

Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters &
Science and with 36 of the 90 credits in L&S upper-level (numbered
above 300) courses. The College requires that students must complete
in residence at UWM at least 15 credits in upper-division (numbered 300
or above) courses in their major. Students are also required to complete
University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### College of Letters & Science Requirements

#### I. English Writing Requirement

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

#### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 103</td>
<td>Contemporary Applications of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 105</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

   **Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Complete one of the following:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3 or more credits in any 200-level or above Math course</td>
<td></td>
<td></td>
</tr>
<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>
<td></td>
</tr>
<tr>
<td>ANTHRO 568</td>
<td>Introduction to Anthropological Statistics</td>
<td></td>
</tr>
<tr>
<td>ATM SCI 500</td>
<td>Statistical Methods in Atmospheric Sciences</td>
<td></td>
</tr>
<tr>
<td>BIO SCI 465</td>
<td>Biostatistics</td>
<td></td>
</tr>
<tr>
<td>ECON 210</td>
<td>Economic Statistics</td>
<td></td>
</tr>
<tr>
<td>GEOG 247</td>
<td>Quantitative Analysis in Geography</td>
<td></td>
</tr>
<tr>
<td>HIST 595</td>
<td>The Quantitative Analysis of Historical Data</td>
<td></td>
</tr>
<tr>
<td>MTHSTAT 215</td>
<td>Elementary Statistical Analysis</td>
<td></td>
</tr>
<tr>
<td>PHILOS 211</td>
<td>Elementary Logic</td>
<td></td>
</tr>
<tr>
<td>POL SCI 390</td>
<td>Political Data Analysis</td>
<td></td>
</tr>
<tr>
<td>POL SCI 392</td>
<td>Survey Research</td>
<td></td>
</tr>
<tr>
<td>PSYCH 210</td>
<td>Psychological Statistics</td>
<td></td>
</tr>
<tr>
<td>SOCIOL 261</td>
<td>Introduction to Statistical Thinking in Sociology</td>
<td></td>
</tr>
</tbody>
</table>

   **Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

#### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement.
requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

### IV. International Requirement

See Approved Courses for the L&S International Requirement (p. 1169) for course options.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>Completed in one of the following ways:</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)</td>
</tr>
</tbody>
</table>

**Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.**

**Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.**

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

### Major Requirements

The Committee Interdisciplinary Major submajor in Comparative Ethnic Studies requires completion of at least 33 credits in approved Comparative Ethnic Studies and Comparative Ethnic-related courses. Students may count towards the major a maximum of 9 credits in a single curricular area outside of Comparative Ethnic Studies. A minimum of 18 credits must be completed in L&S courses, and at least 15 credits must be at the upper-division level (courses numbered 300 and above) taken in residence at UWM. Completion of the College’s research experience in the major is required. ETHNIC 550 or another suitable course approved by the coordinator satisfies this requirement. Students must attain at least a 2.500 GPA on all major credits attempted at UWM. In addition, the College requires that students earn a 2.500 GPA on all credits in the major, including transfer work.

**Learning Outcomes**

Students who complete the major will be able to do the following:

- Discuss the complexities of social identity for public policy as well as cultural formations;
• Provide interdisciplinary explanations for historical and contemporary conflicts based in race, ethnicity, gender, and sexuality, and
• Identify and assess different theoretical frameworks for explaining social change and relationships between actors, institutions, and ideas of identity.

Letters & Science Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the “Declaration of Major” information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Honors in the College of Letters and Science

Dean’s Honor List

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Contact Information

Current Students contact Professor Rachel Buff, rbuff@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

https://uwm.edu/comparative-ethnic-studies/undergraduate/

Comparative Ethnic Studies, Undergraduate Certificate

Comparative Ethnic Studies is an interdisciplinary field that examines issues of social identity and power, in contemporary and historical contexts. The field centers on questions of race, gender, and sexuality. Students are free to select from a range of courses in the Ethnic Studies program, and to include coursework they do from around the university their academic programs. The program is administered by the College of Letters and Science interdepartmental Comparative Ethnic Studies Advisory Committee.

Unique to UWM, our program offers courses covering the Hmong diaspora. Wisconsin is home to the third largest Hmong American population in the U.S., making UWM a great place to learn about this population.

The Undergraduate Certificate program in Comparative Ethnic Studies is also available for students seeking something closer to a minor. Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

Eligibility

The Certificate in Comparative Ethnic Studies is open to all students seeking a bachelor’s degree from UWM, to students who previously have received a bachelor’s degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. To be admitted to the University as non-degree students, individuals must meet regular University admission requirements.

Students who complete the certificate as part of their undergraduate work are awarded the certificate at the time of graduation. Students already possessing a bachelor’s degree and non-degree students receive the certificate upon completion of the program requirements.

Requirements

To receive the certificate, the student must earn a minimum of 21 credits as stated below, at least 12 from UWM, with a grade point average of 2.750 or better. A minimum of 9 credits must be earned in upper-division (numbered 300 and above) courses. At least 18 credits must be taken in the Ethnic curricular area; the other 3 credits may be selected from the approved list of elective courses. Students may discuss their specific
Courses for the certificate must include the following:

Students interested in the undergraduate certificate should register with the Comparative Ethnic Studies Program Coordinator by the beginning of their junior year, at the latest.

Substitutions for credits in the Ethnic curricular area are subject to the approval of the Program Coordinator.

**Hmong Diaspora Studies, Undergraduate Certificate**

The Hmong Diaspora Studies undergraduate certificate program provides students with a multidisciplinary perspective on Hmong history, culture, and contemporary life.

Wisconsin and the upper Midwest are home to large concentrations of Hmong Americans, making this area of study particularly relevant to UWM students. Political unrest and international wars forced many Hmong from Laos to leave their native land during the last quarter of the twentieth century and seek refuge in foreign nations. Hmong populations can now be found throughout the Americas, Asia, Europe, and Oceania. Each area has its own distinct social, cultural, economic, and political conditions.

The certificate program includes courses about Hmong history, language, and culture, as well as classes that discuss the societal differences encountered by Hmong people. The certificate complements many different types of majors and is valuable for individuals who intend to work with the Hmong population in careers such as social work, education, public administration, law, journalism, international affairs, travel and hospitality, and global business.

UWM students have in recent years traveled to Laos, Thailand, and Vietnam to complement their classroom experience with a study abroad trip.

Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

**Eligibility**

The Hmong Diaspora Studies Undergraduate Certificate is open to all students seeking a bachelor's degree from UWM, to students who previously received a bachelor's degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. To be admitted as a non-degree student, the individual must meet regular UWM admission requirements. Students currently involved in baccalaureate studies who successfully complete
the requirements of the program will be awarded the certificate at the
time of graduation. Students who already have a bachelor’s degree and
non-degree students will receive the certificate upon completion of the
program requirements.

Requirements
To obtain the certificate, the student must complete, with a minimum
grade point average of 2.500, at least 18 credits in approved Hmong
diaspora studies courses as indicated below. Of the 18 required credits,
12 must be taken in the College of Letters and Science, and at least six of
them should be at the 300 level or above. No more than nine credits from
any one curricular area may count toward the certificate. Twelve of the 18
required credits must be earned in residence at UWM. Of these 12 credits,
ine must be taken at the 300 level or above. A maximum of six credits in
independent study may count toward program requirements. Courses for
the certificate may not be taken on a credit/no credit basis.

Independent study courses focusing on Hmong cultural groups may be
accepted with the approval of the certificate program committee. Other
courses that are not on the lists below but relevant to the study of Hmong
people in the US and other parts of the world may be accepted with the
approval of the certificate program committee.

Credits earned at other institutions equivalent to courses in the
certificate program may be accepted in partial fulfillment of the program
requirements with the approval of the certificate program committee.
Students currently enrolled at UWM who have fulfilled some of the
program’s requirements prior to the creation of the program may have
their credits applied retroactively to the certificate program.

The College of Letters and Science offers a unique major and minor in Film Studies. Our interdisciplinary programs are founded on a broad, international perspective on film, television, popular culture, and media forms, texts, and global industries.

After completing the required introductory courses in history, formal analysis, and theory, film studies students explore a variety of advanced topics including world cinema, the internet and media culture, theories of mass culture, film and literature, writing on film and television, classical and contemporary film theory, television criticism and theory, film genres, and other special topic courses to suit their interests and concentrations. In addition to courses stressing cultural, historical, and theoretical approaches, students can take advantage of a range of resources and opportunities to explore and deepen their understanding of contemporary and historically significant film and television, and take part in major festivals and symposia, most recently devoted to contemporary Asian cinema, Latin American and Caribbean film and culture, and global media and technology.

Programs

• Business of Media and Film Studies, Undergraduate Certificate (College of Letters and Science, Department of Film Studies) (p. 1290)
• Film Studies, BA (p. 1291)
• Film Studies, Minor (p. 1294)

Film Studies Courses

FILMSTD 111 Entertainment Arts: Film, Television, and the Internet
3 cr. Undergraduate.
History of film, television, and the internet. Focus on economic and aesthetic features of these media and interrelationships among them. Models for critiquing each form.
Prerequisites: none.
Course Rules: ArtHist 111, English 111, & FilmStd 111 are jointly offered; they count as repeats of one another.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

FILMSTD 192 First-Year Seminar
3 cr. Undergraduate.
The specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: HU
Last Taught: Fall 2015, Fall 2014, Fall 2013, Fall 2010.
Current Offerings: http://uwm.edu/schedule

FILMSTD 205 History of Film I: Development of an Art
3 cr. Undergraduate.
The technology, style, history, and theory of the medium. Aesthetic advances from silent to color and sound films. Contributions of various nationalities and artists.
Prerequisites: none.
Course Rules: ArtHist 205 & FilmStd 205 are jointly offered; they count as repeats of one another.
General Education Requirements: HU
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

FILMSTD 206 History of Film II: Development of an Art
3 cr. Undergraduate.
The technology, style, history, and theory of the medium. Aesthetic advances from silent to color and sound films. Contributions of various nationalities and artists.
Prerequisites: none.
Course Rules: ArtHist 206 & FilmStd 206 are jointly offered; they count as repeats of one another.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

FILMSTD 212 Intermediate Topics in Film Studies:
3 cr. Undergraduate.
Stylistic, generic, historical, or theoretical issues in film studies.
Prerequisites: soph st or English 290(P).
Course Rules: Retakable w/chg in topic to 9 cr max.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

FILMSTD 286 Writing about Film and Television
3 cr. Undergraduate.
Intensive practice and study of the critical and technical elements of writing with emphasis on close reading and writing about media images and narratives.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: English 286 & FilmStd 286 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

FILMSTD 290 Introduction to Film Studies
3 cr. Undergraduate.
Analysis of formal, thematic, and generic components of narrative, documentary, and avant garde filmmaking.
Prerequisites: none.
Course Rules: English 290 & FilmStd 290 are jointly offered; they count as repeats of one another.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule
FILMSTD 291 Introduction to Television Studies  
3 cr. Undergraduate.  
The forms, images, and narratives particular to television.  
Prerequisites: none.  
Course Rules: English 291 & FilmStd 291 are jointly offered; they count as repeats of one another.  
Current Offerings: http://uwm.edu/schedule  

FILMSTD 292 Classic Dramas in Film:  
1 cr. Undergraduate.  
A sampling of great plays in film versions, with performances by acclaimed actors.  
Prerequisites: none.  
Course Rules: Offered on a cr/no cr basis. Retakable w/chg in topic to 3 cr max. English 292 & FilmStd 292 are jointly offered; w/same topic, they count as repeats of one another.  
Current Offerings: http://uwm.edu/schedule  

FILMSTD 293 Literature and Media:  
3 cr. Undergraduate.  
A study of novels, essays, magazines, newspapers, advertisements, and films in order to disclose similarities and differences in their use of rhetorical strategies.  
Prerequisites: soph st.  
Course Rules: Retakable w/chg in topic to 9 cr max. English 293 & FilmStd 293 are jointly offered; w/same topic, they count as repeats of one another.  
Current Offerings: http://uwm.edu/schedule  

FILMSTD 294 Game Culture  
3 cr. Undergraduate.  
Critical study of games, digital and otherwise; forms, conventions, and practices that inform design and reception of games; place of games in contemporary culture.  
Prerequisites: GER OWC-A.  
Course Rules: Counts as repeat of English 380 w/same topic. English 294 & FilmStd 294 are jointly offered; they count as repeats of one another.  
Current Offerings: Fall 2017.  

FILMSTD 295 Women and Film  
3 cr. Undergraduate.  
A study of the representation of women in narrative, documentary, and avant garde film, television and/or video, including a survey of psychoanalytic theories of spectatorship and feminist analyses of mass culture.  
Prerequisites: soph st.  
Course Rules: English 295 & FilmStd 295 are jointly offered; they count as repeats of one another.  
General Education Requirements: HU  
Current Offerings: http://uwm.edu/schedule  

FILMSTD 297 Study Abroad:  
1-12 cr. Undergraduate.  
Designed to enroll students in UWM-sponsored program before coursework levels, content, and credits are determined and/or in specially-prepared program coursework.  
Prerequisites: acceptance for Study Abroad Program.  
Course Rules: Retakable w/change in topic.  
Last Taught: Fall 2016, Fall 2010, Spring 2010.  
Current Offerings: http://uwm.edu/schedule  

FILMSTD 299 Ad Hoc:  
1-6 cr. Undergraduate.  
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l sem.  
Prerequisites: none, except as required for specific topic.  
Course Rules: Retakable w/chg in topic.  
Current Offerings: http://uwm.edu/schedule  

FILMSTD 305 Film Analysis I: Method and Theory  
3 cr. Undergraduate/Graduate.  
Film language, critical methods, and theory applied to selected works of film art. Cross-cultural analysis of styles and themes. Study of major film artists.  
Prerequisites: jr st.  
Course Rules: Retakable w/chg in topic to 9 cr max. ArtHist 305 & FilmStd 305 are jointly offered; they count as repeats of one another.  
Current Offerings: http://uwm.edu/schedule  

FILMSTD 306 Film Analysis II: Method and Theory  
3 cr. Undergraduate/Graduate.  
Film language, critical methods, and theory applied to selected works of major national film artists. Cross-cultural analysis of styles and themes.  
Prerequisites: jr st.  
Course Rules: Retakable w/chg in topic to 9 cr max. ArtHist 306 & FilmStd 306 are jointly offered; they count as repeats of one another.  
Current Offerings: http://uwm.edu/schedule  

FILMSTD 307 Film Directors:  
3 cr. Undergraduate/Graduate.  
Comprehensive analysis of the technique, style, and themes of specific major film artists. Biographical, cultural, artistic influences on artists’ work.  
Prerequisites: jr st; Arthist 205(R) or 305(R).  
Course Rules: Retakable w/chg in topic to 9 cr max. ArtHist 307 & FilmStd 307 are jointly offered; w/same topic they count as repeats of one another.  
Last Taught: Fall 2016.  
Current Offerings: http://uwm.edu/schedule  

FILMSTD 308 Film Styles:  
3 cr. Undergraduate/Graduate.  
A stylistic analysis of film of major filmmakers made within the structures of particular genres, such as gangsters, musicals, westerns, horror, science fiction and studios.  
Prerequisites: jr st.  
Course Rules: Retakable w/chg in topic to 9 cr max. ArtHist 308 & FilmStd 308 are jointly offered; w/same topic they count as repeats of one another.  
Last Taught: Fall 2014, Spring 2014, Fall 2013.  
Current Offerings: http://uwm.edu/schedule  

FILMSTD 312 Topics in Film Studies:  
3 cr. Undergraduate.  
Study of stylistic, generic, historical, or theoretical issues in film studies.  
Prerequisites: jr st; satisfaction of GER English Composition competency req; English 290(P).  
Course Rules: Retakable w/chg in topic to 9 cr max. English 312 & FilmStd 312 are jointly offered; w/same topic, they count as repeats of one another.  
Current Offerings: http://uwm.edu/schedule
FILMSTD 316 World Cinema:
3 cr. Undergraduate.
National cinemas in first, second, and/or third world nations; relationships among representation, narrative, and social forms.
Prerequisites: jr st or English 290(P); satisfaction of WOR-A.
Course Rules: Retakable w/chg in topic to 9 cr max. CompLit 316, English 316 & FilmStd 316 are jointly offered; w/same topic, they count as repeats of one another.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

FILMSTD 320 Studies in Film Authorship:
3 cr. Undergraduate.
The function of authorship in the cinema and/or in television; the roles of producer, director, screenwriter, and star.
Prerequisites: jr st or English 290(P); satisfaction of GER English Composition competency req.
Course Rules: Retakable w/chg in topic to 9 cr max. English 320 & FilmStd 320 are jointly offered; w/same topic, they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

FILMSTD 329 Film and Literature
3 cr. Undergraduate/Graduate.
Capabilities and limitations of narrative film and literature, emphasizing the distinctiveness of each artistic mode.
Prerequisites: jr st, English 290(P), satisfaction of GER English Composition competency req; or cons instr.
Course Rules: English 329 & FilmStd 329 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Summer 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule

FILMSTD 330 Film and Drama:
3 cr. Undergraduate.
Capabilities and limitations of narrative film and drama, emphasizing the distinctiveness of each artistic mode.
Prerequisites: jr st or English 290(P); satisfaction of GER English Composition competency req.
Course Rules: Retakable w/chg in topic to 9 cr max. English 330 & FilmStd 330 are jointly offered; w/same topic, they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

FILMSTD 350 Global Jewish Film and Television:
3 cr. Undergraduate.
Global Jewish identity in its historic and contemporary cultural dimensions through film and media texts, analysis, and criticism.
Prerequisites: jr st.
Course Rules: FilmStd 350 & Jewish 350 are jointly offered; with the same subtitle, they count as repeats of one another. Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2011, Spring 2009.
Current Offerings: http://uwm.edu/schedule

FILMSTD 380 Media and Society:
3 cr. Undergraduate/Graduate.
An examination of film and/or television, with attention to the representation of class, gender, race, and nation. Subtitles vary.
Prerequisites: jr st, English 290(P) or 291(P) or 6 cr in courses approved for hum breadth cr.
Course Rules: Retakable w/chg in topic to 9 cr max. English 380 & FilmStd 380 are jointly offered; w/same topic, they count as repeats of one another.
Last Taught: Fall 2017, Spring 2016, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

FILMSTD 383 Cinema and Genre:
3 cr. Undergraduate/Graduate.
Stylistic and thematic analyses of literary and film genres (e.g., melodrama, film noir). Consideration of writers, directors, producers and stars whose works represent forms of a genre.
Prerequisites: jr st; satisfaction of GER English Composition competency req; English 290(P) or 6 cr in courses approved for hum breadth cr.
Course Rules: Retakable w/chg in topic to 9 cr max. English 383 & FilmStd 383 are jointly offered; w/same topic, they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

FILMSTD 390 Classical Film Criticism and Theory
3 cr. Undergraduate/Graduate.
Survey of the history of film theory, with particular attention to developing critical skills in film theoretical writing.
Prerequisites: jr st, satisfaction of GER English Composition competency req, English 290(P), & ArtHist 205(P); or cons instr.
Course Rules: English 390 & FilmStd 390 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

FILMSTD 391 Television Criticism and Theory
3 cr. Undergraduate/Graduate.
Study of the forms and representational strategies of television narrative, and the various modes of analysis that may be applied to television viewers and texts.
Prerequisites: jr st; satisfaction of GER English Composition competency req; English 291(P) or cons instr.
Course Rules: English 391 & FilmStd 391 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2018, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

FILMSTD 392 Contemporary Film Criticism and Theory
3 cr. Undergraduate/Graduate.
Current issues in film criticism and theory and an exploration of critical perspectives (psychoanalysis, feminism, structuralism, post-structuralism) informing recent debates in film studies.
Prerequisites: jr st; satisfaction of GER English Composition competency req; English 290(P) or 291(P) or cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max. English 392 & FilmStd 392 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule
FILMSTD 393 Entertainment Industries:
3 cr. Undergraduate.
In-depth look at contemporary media industries both in the U.S. and globally. Emphasis on changing content, production and viewing practices.
Prerequisites: jr st; satisfaction of OWC-A; English 290(P), English 291(P), or cons instr.
Course Rules: English 393 & FilmStd 393 are jointly offered; w/same topic, they count as repeats of one another. May be retaken w/change in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

FILMSTD 394 Theories of Mass Culture:
3 cr. Undergraduate/Graduate.
A survey of theories of mass culture relative to film from the late 19th century to the present.
Prerequisites: jr st; satisfaction of GER English Composition competency req; English 290(P) or 291(P) or cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max. English 394 & FilmStd 394 are jointly offered; w/same topic, they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

FILMSTD 395 Feminist Film Criticism and Theory:
3 cr. Undergraduate/Graduate.
Theories of representation and spectatorship that focus on the position of women in film, television, and/or video.
Prerequisites: jr st; satisfaction of GER English Composition competency req; English 295(P) or cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max. English 395 & FilmStd 395 are jointly offered; w/same topic, they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

FILMSTD 412 Global Cinemas - Cinematic Practices in the Context of Globalization:
3 cr. Undergraduate/Graduate.
Cinema within global transformations that reshape the way we think about film and its history; cinema’s changing impact beyond national borders.
Prerequisites: jr st or English 290(P); satisfaction of GER English Composition competency req.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2008.
Current Offerings: http://uwm.edu/schedule

FILMSTD 489 Internship in Film Studies, Upper Division
1-6 cr. Undergraduate.
Application of advanced principles of film studies in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st, 300-level or above course in FilmStd; 2.25 gpa; cons supervising faculty member.
Course Rules: One cr earned for 40 hrs work. Retakable to 6 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

FILMSTD 497 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM-sponsored program before coursework levels, content, and credits are determined and/or in specially-prepared program coursework.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Last Taught: Spring 2013, Fall 2011, Fall 2010, Summer 2010.
Current Offerings: http://uwm.edu/schedule

FILMSTD 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specific enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l sem.
Prerequisites: jr st; add’l prereqs may be assigned to specific topic.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

FILMSTD 669 Screening Sexuality:
3 cr. Undergraduate/Graduate.
Relationship between discourses of sexuality and media artifacts/texts. Historical/theoretical approaches to apprehend construction and representation of sexuality/sexual identities in media.
Prerequisites: jr st.
Course Rules: Retakable w/chg in topic to 9 cr max. Repeat of English 312 w/same topic.

Business of Media and Film Studies, Undergraduate Certificate (College of Letters and Science, Department of Film Studies)

The Certificate Program in Business of Media and Film Studies (BMFS) prepares students to be successful in their post-college careers by uniting the study of Business with the study of a popular, accessible, and pertinent area within the Humanities, Film Studies. Business students will have more sustained study in humanistic inquiry, both of their own field and of the diverse world that the Humanities investigates. Letters and Science students will have access to professional school curricula to help them be better equipped to enter a workforce that demands flexibility and a diversity of knowledge and experience.

The certificate in BMFS includes coursework engaging the financial and industry practices and structures in film and television. It is an interdisciplinary academic program consisting of an introductory course in Film or Television Studies, introductory courses in Business Administration (accounting, management, and marketing), an intermediate level Film Studies course focused on history and representational analysis, and a set of electives from Business Administration and Film Studies.

Eligibility
The program is open to all students seeking a bachelor’s degree from UWM, to students who previously earned a bachelor’s degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. Students currently involved in baccalaureate studies at UWM who successfully complete the requirements of the certificate program will be awarded the certificate at the time of graduation. Other students will receive the certificate upon completion of the program requirements.

Requirements
To obtain the certificate, the student must complete, with a minimum grade point average of 2.50, a minimum of 18 credits in approved BMFS courses as indicated below, 15 of which must be earned in residence at UWM. Of these 15 residence credits, 9 must be taken at the 300 level or above. Nine credits must be taken in the College of Letters and Science, and nine credits must be taken in the Lubar School of Business. Courses for the certificate may not be taken on a credit/no credit basis.

Credits earned at other institutions equivalent to courses in the certificate program may be accepted in partial fulfillment of the program requirements, subject to review by the Certificate Program Advisory
Committee (BMFSAC). Students currently enrolled at UWM who have fulfilled some of the program’s requirements prior to the program’s approval may have their credits applied retroactively to the certificate program.

Film Studies, BA

The Department of Film Studies’ BA program focuses on the history, theory and criticism of film and television. Students learn how to critically analyze the impact of film and television on individuals and society; make connections between media, historical themes and cultural change; and compare different formats. Film and media cross time periods and locations, languages and cultures. The courses that a well-rounded Film Studies student will take are equally as diverse. The major blends courses in Film Studies with classes from English, Art History, Comparative Literature, History, Religious Studies, French, Italian, Japanese, and other languages. UWM students have the advantage of being in the heart of the largest city in Wisconsin, home to a lively art house movie scene, a growing independent film industry, and a thriving cinematic culture.

Students who are more interested in film and video production process and who are looking to become a filmmaker or videographer may wish to also explore the majors offered through UWM’s Peck School of the Arts.

Additional courses that count toward the major are offered by the following departments in the College of Letters and Science:
- Art History
- English
- Foreign Languages and Linguistics
- French, Italian, and Comparative Literature
- Journalism, Advertising, and Media Studies

Lower division film production courses are offered by the Peck School of the Arts’ Film Department, and may count towards a student’s elective course requirements.

Requirements

Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

Course designated as OWC-B; may be completed through a major-specific course requirement

Or equivalent course
College of Letters & Science Requirements

I. English Writing Requirement

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

   - MATH 102 Mathematical Literacy for College Students II 3
   - MATH 103 Contemporary Applications of Mathematics 3
   - MATH 105 Introduction to College Algebra 3
   - MATH 108 Algebraic Literacy II 3
   - MATH 175 Mathematical Explorations for Elementary Teachers I 3

   Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

   - Complete one of the following:
     - 3 or more credits in any 200-level or above Math course
     - AFRICOL 220 Introduction to Statistics in Africology

III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

IV. International Requirement

See Approved Courses for the L&S International Requirement (p. 1169) for course options.

V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural
Diversity (CD+) designation, L&S students must complete the Breadth requirement.

* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

**VI. The Major**

The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

**Research Requirement**

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

**Film Studies Major Requirements**

A total of 36 credits is required for the major, at least 18 in upper-level courses (numbered 300 or above), with at least 15 of them taken in residence at UWM. Students must attain a 2.500 GPA on all UWM credits attempted for the major. In addition, the College requires that students attain a 2.500 GPA on all major credits attempted, including any transfer work. Students must complete the requirements specified below.

1 A maximum of 3 credits in Film Department courses (FILM) may count toward the intermediate-level course requirement.

**Advanced-Level Electives**

The following is a partial list. Other variable content courses with appropriate subtitles may be approved on a semester-by-semester basis to count toward the major. See the list published in the Schedule of Classes (http://www4.uwm.edu/schedule) under affiliated Film Studies courses, the Film Studies website, or the program advisor.
The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

### Honors in the Major
Film Studies majors who have maintained at least a 3.500 GPA in courses for the major, a 3.500 GPA on all advanced (300-level and above) courses in the major, and a 3.000 GPA overall on all UWM courses attempted may apply to the Film Studies undergraduate advisor to graduate with "Honors in the Major."

### Honors in the College of Letters and Science

#### Dean's Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

#### Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

#### Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

#### Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

FOOD & BEVERAGE STUDIES

Food Studies is for any student working in or studying a topic that has a relationship to food - agriculture, food distribution, social work, maternal and infant health, economic and political stability, peacebuilding, transportation, conservation, global health, and many more. UWM's program does not focus on food preparation or culinary arts but provides value for individuals in food service who want to understand the impact of food and nutrition in our society and in places around the globe.

Students take courses in nutrition and health sciences to explore the effects of food on our physical and mental well-being as well as liberal arts coursework in history, anthropology, and foreign cultures to develop a deeper understanding of the culture, identity, costs, distribution, infrastructure, scarcity, and politics surrounding food.

Programs
- Food Studies, Undergraduate Certificate (College of Letters and Science, Department of Food & Beverage Studies) (p. 1297)

Food & Beverage Studies Courses

**FOODBEV 101 Introduction to Food Studies**
3 cr. Undergraduate.
Ways in which food affects health; health 'crazes;' systems of food distribution and economics; ethical and environmental issues; food as a symbol for social distinction.
Prerequisites: none.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

**FOODBEV 102 Taste: The Culture and Science of Fermentation**
3 cr. Undergraduate.
Fermentation as a cultural and scientific phenomenon; anthropological, historical, biological, chemical, and cultural aspects of fermentation process; roles of fermented foods and beverages in society.
Prerequisites: none.
Last Taught: Spring 2017.
Current Offerings: http://uwm.edu/schedule

**FOODBEV 199 Independent Study**
1-3 cr. Undergraduate.
Independent study under supervision of faculty or academic staff member. For further information, consult prog coordinator.
Prerequisites: 2.5 GPA; writ cons instr, prog coord, & asst dean for SAS.
Course Rules: Retakable to 3 cr max.
Current Offerings: http://uwm.edu/schedule

**FOODBEV 289 Internship in Food Studies, Lower Division**
1-3 cr. Undergraduate.
Application of basic principles of food studies in business, organizational, educational, political, or other appropriate setting.
Prerequisites: 2.50 gpa; cons supervising instr.
Course Rules: One cr earned for academic work based on 40 hrs in internship. Retakable to 3 cr max.
Current Offerings: http://uwm.edu/schedule

**FOODBEV 297 Study Abroad**
1-6 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work levels, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

**FOODBEV 299 Ad Hoc**
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: Requires only prog coord & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem. Retakable w/ chg in topic.
Current Offerings: http://uwm.edu/schedule

**FOODBEV 489 Internship in Food Studies, Upper Division**
1-3 cr. Undergraduate.
Application of basic principles of food studies in business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; 2.50 gpa; cons supervising instr.
Course Rules: One cr earned for academic work based on 40 hrs in internship. Retakable to 3 cr max.
Current Offerings: http://uwm.edu/schedule

**FOODBEV 497 Study Abroad**
1-6 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work levels, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

**FOODBEV 499 Ad Hoc**
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: Requires only prog coord & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem. Retakable w/ chg in topic.
Current Offerings: http://uwm.edu/schedule

**FOODBEV 499 Advanced Independent Study**
1-3 cr. Undergraduate.
Advanced-level independent study work under the supervision of a faculty or academic staff member.
Prerequisites: jr st; 2.50 gpa; writ cons instr, prog coord, & asst dean for SAS.
Course Rules: Retakable w/chg in topic to 3 cr max.
Last Taught: Spring 2018, Fall 2015.
Current Offerings: http://uwm.edu/schedule
Food Studies, Undergraduate Certificate (College of Letters and Science, Department of Food & Beverage Studies)

Lori Klos, Assistant Professor, Kinesiology, Co-Coordinator, END 455, (414) 229-3162, lkos@uwm.edu
Larry Kuiper, Associate Professor, French, Co-Coordinator, CRT 782, (414) 229-5966, kuiper@uwm.edu

The College of Letters and Science cooperates with the College of Health Sciences to offer an undergraduate certificate in Food Studies. The certificate is designed to help students become proficient at:

1. Investigating and analyzing food systems and practices in a variety of cultural, social, and geographical settings;
2. Presenting their critical reflections on the forces that surround these systems and practices in both written and oral form;
3. Using information (statistical, textual, first-hand accounts, etc.) as a basis for formulating plans for personally and socially responsible action pertinent to local and global food and health; and
4. Becoming active in the community by participating in activities that develop responsible and sustainable practices, promote cross-cultural understanding, and help people in disparate professions or academic fields understand the relationships the study of food has with their own specializations.

Requirements

To earn the certificate, students must complete 18 credits in approved Food Studies courses, with a minimum grade point average of 2.500, including:

<table>

Total Credits 21

Of the 18 required credits, at least 9 credits must be taken at the advanced level (courses numbered 300 and above) and at least 9 credits must be taken in residence at UWM. No more than 9 credits in one curricular code may be counted towards the certificate. Students are limited to 3 credits in independent studies and 3 credits in internships.

Approved Electives

The following courses are approved to count toward the Food Studies Certificate. Additional courses may be found each semester in the Schedule of Classes. In addition, students are encouraged to consult the Program Coordinators and to petition for the inclusion of relevant courses as appropriate.

Eligibility

The Certificate in Food Studies is open to all students seeking a bachelor’s degree from UWM, to those who previously received a bachelor’s degree from UWM or any other accredited college or university, to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. To be admitted to the university as non-degree students, individuals must meet regular University admission requirements. The Certificate is awarded jointly by the College of Health Sciences and the College of Letters and Science.

Students concurrently enrolled in a degree program who successfully complete the certificate program requirements will be awarded the certificate at the time of graduation. Post-baccalaureate and non-degree students will receive the certificate upon completion of the program requirements. Graduate students are eligible to pursue the Food Studies certificate concurrently with their graduate studies, and they will be awarded the certificate upon completion of the program requirements.

FOREIGN LANGUAGES AND LITERATURE

The Department of Foreign Languages and Literature, formed in 1996, teaches modern and ancient languages, their literature, and the linguistic and philological study of these languages. The broad departmental structure encourages the development of cross-disciplinary academic undertakings.

The University's Foreign Language course requirements may be satisfied through coursework in the following curricular areas:

Arabic

Arabic courses may be of particular interest to students in the Certificate in Middle Eastern and North African Studies, the International Studies major, the Linguistics major, and the Global Studies degree program. A minor in Arabic is also offered.

Chinese

Courses in Chinese also may be of interest to students pursuing the Asian Studies Certificate, the International Studies major, and the Bachelor of Arts in Global Studies. A Chinese major can be completed through the Committee Interdisciplinary major; a Chinese minor is also available.

German

Students who have had no previous training in German should enroll in German 101. Those who have studied German in high school should take the placement exam in German, administered by the Testing Center, before enrolling; the exam is required for those who have had two or more years of high school German. After consultation with the department, a student may enroll in a course one level higher or lower than the one recommended by the placement examination. Both a German major and a minor are available.

Japanese

Courses in Japanese may be of interest to students pursuing the Asian Studies certificate, the International Studies major, and the Bachelor of Arts in Global Studies. A Japanese major can be completed through the Committee Interdisciplinary major; a minor is also available.

Korean

Courses in Korean may be of interest to students pursuing the Asian Studies Certificate and/or the International Studies major. The Department offers a four-semester sequence in Korean.

Slavic Languages

The Slavic Languages program offers coursework in Polish and Russian. Through the study of these languages, students gain exposure to the literature and culture of the eastern European areas in which these languages are spoken. The program offers a major in Russian. In addition, the Slavic languages are an integral part of the Russian and East European Studies Certificate Program.

Classics

The Classics program offers instruction in the ancient Greek and classical Latin languages and literatures and in the civilizations of Greece and Rome. Courses offered in the area of classical civilization do not require a knowledge of Greek or Latin.

Students planning to pursue graduate study in classics and related disciplines, or teaching certification in Latin, should consult with the Classics Program coordinator early in their undergraduate career. Students interested in a Classics major may also want to consider the Ancient Mediterranean Studies Certificate.

Hebrew/Jewish Studies

The Department of Foreign Languages and Literature, in cooperation with the Center for Jewish Studies, offers a major in Jewish Studies. Students may choose between two tracks: Hebrew Studies, which requires proficiency in the Hebrew language and focuses on the texts and history of early Judaism, and Jewish Cultural Studies, which focuses on modern Jewish culture and history. Hebrew/Jewish Studies students also may be interested in the Comparative Ethnic Studies and the Religious Studies programs as well as the certificate program in Middle Eastern and North African Studies.

Programs

- Arabic, Minor (p. 1327)
- Business German, Minor (p. 1328)
- Chinese, Minor (p. 1328)

- Russian, BA (p. 1353)
- Russian, Minor (p. 1356)
- Scandinavian Studies, Undergraduate Certificate (p. 1357)

Foreign Languages and Literature Courses

FLL 101 How to Learn a Language
1 cr. Undergraduate.
This course provides language students with learning tools that are helpful for articulatory phonetics, morphology, grammatical inflections, word derivations, and explanations of unfamiliar grammatical constructions.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule
FLL 102 Uncommonly Taught Language: Intensive First Semester: 
5-7 cr. Undergraduate. 
Intensive training in an uncommonly taught language, for students with no previous knowledge of the language. 
**Prerequisites:** none. 
**Course Rules:** May be retaken w/chg of language. FLL 102 & Linguis 102 are jointly offered; w/same topic, they count as repeats of one another. 
**Last Taught:** Fall 2009, Fall 2008, Summer 2004, Fall 2002. 
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

FLL 103 First Semester of an Uncommonly-Taught Language: 
1-4 cr. Undergraduate. 
Elementary training in an uncommonly-taught language (i.e. one not otherwise offered in any UWM program). Number of credits earned by the student is determined by the credit value assigned to section number. 
**Prerequisites:** none. 
**Course Rules:** For students with no previous knowledge of the language. May be retaken w/chg in language. FLL 103 & Linguis 103 are jointly offered; with same topic, they count as repeats of one another. 
**Last Taught:** Fall 2007, Fall 2006, Spring 2006, Spring 2005. 
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

FLL 104 Second Semester of an Uncommonly Taught Language: 
3-4 cr. Undergraduate. 
Continuation of FLL/Linguis 103 (Linguis 131). Number of credits earned by student is determined by the credit value assigned to section number. 
**Prerequisites:** FLL/Linguis 103(Linguis 131)(P) in same language. 
**Course Rules:** May be retaken w/chg in language. FLL 104 & Linguis 104 are jointly offered; w/same topic, they count as repeats of one another. 
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

FLL 105 Intensive Elementary Language I: 
4 cr. Undergraduate. 
Methodical study of the elements of a designated language; phonology, morphology, syntax, vocabulary. First five-week module in semester-long intensive program. 
**Prerequisites:** conc reg FLL 216. 
**Course Rules:** May be retaken w/chg in topic. 
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

FLL 106 Intensive Elementary Language II: 
4 cr. Undergraduate. 
Continuation of FLL 105. A five-week intensive course offered as the second of three modules in a semester-long intensive program. 
**Prerequisites:** FLL 105(C) or equiv; conc reg in FLL 216. 
**Course Rules:** May be retaken w/chg in topic. 
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

FLL 109 First-Semester Lao Literacy 
3 cr. Undergraduate. 
Introduction to literacy skills in Lao. Intended for speakers of Lao. 
**Prerequisites:** none. 
**Last Taught:** Fall 2005, Fall 2004, Fall 2003. 
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

FLL 110 Second-Semester Lao Literacy 
3 cr. Undergraduate. 
Continuation of FLL 109 (Linguis 163). 
**Prerequisites:** FLL 109 (Linguis 163)(P). 
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

FLL 192 First Year Seminar: 
3 cr. Undergraduate. 
Specific topics announced in the Schedule of Classes each time course is offered. 
**Prerequisites:** none. 
**Course Rules:** Open only to freshman. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194). 
**General Education Requirements:** HU 
**Last Taught:** Fall 2013, Fall 2012, Fall 2011, Fall 2010. 
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

FLL 199 Independent Study 
1-3 cr. Undergraduate. 
Independent work under supervision of faculty or academic staff member. For further information, consult dept chair. 
**Prerequisites:** 2.5 GPA; writ cons instr, dept chair, & asst dean for SAS. 
**Course Rules:** May be retaken to 6 cr max. 
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

FLL 202 Uncommonly Taught Language: Intensive Second Semester: 
5-7 cr. Undergraduate. 
Continuation of FLL/Linguis 102(Linguis 133). 
**Prerequisites:** FLL/Linguis 102(Linguis 133)(P) in same language. 
**Course Rules:** May be retaken w/chg in language. FLL 202 & Linguis 202 are jointly offered; w/same topic, they count as repeats of one another. 
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

FLL 203 Third Semester of an Uncommonly Taught Language: 
3-4 cr. Undergraduate. 
Continuation of FLL/Linguis 104(Linguis 132). Number of credits earned by student is determined by credit value assigned to section number. 
**Prerequisites:** FLL/Linguis 104(Linguis 132)(P) in the same language. 
**Course Rules:** May be retaken w/chg in language. FLL 203 & Linguis 203 are jointly offered; w/same topic, they count as repeats of one another. 
**Last Taught:** Fall 2008, Fall 2007, Fall 2005, Spring 2005. 
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

FLL 204 Fourth Semester of an Uncommonly Taught Language: 
3-4 cr. Undergraduate. 
Continuation of FLL/Linguis 203(Linguis 231). Number of credits earned by student is determined by credit value assigned to section number. 
**Prerequisites:** FLL/Linguis 203(Linguis 231)(P) in same language. 
**Course Rules:** May be retaken w/chg in language. FLL 204 & Linguis 204 are jointly offered; w/same topic, they count as repeats of one another. 
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)

FLL 205 Intensive Intermediate Language I: 
3 cr. Undergraduate. 
Completion of methodical study of elements of the designated language; emphasis on intensive review of/practice with vocabulary, morphology, syntax. Third five-week module in semester-long intensive program. 
**Prerequisites:** FLL 106(C) or equiv; conc reg in FLL 216. 
**Course Rules:** May be retaken w/chg in topic. 
**Current Offerings:** [http://uwm.edu/schedule](http://uwm.edu/schedule)
FLL 216 Survey of Civilization:
3 cr. Undergraduate.
Survey of the civilization of the designated language from geographical, historical, and cultural perspectives; emphasis on reading in the language simple and intermediate texts that illustrate aspects of the civilization.
Prerequisites: conc reg in FLL 105, 106, & 205.
Course Rules: May be retaken w/chg in topic.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

FLL 240 Vampires: From Slavic Village to Hollywood
3 cr. Undergraduate.
Historical survey of western vampire lore from discovery in eastern Europe in the 1700's through British literary vampire literature to Hollywood Dracula films.
Prerequisites: none.
Course Rules: Not open to students who have taken FLL 192, Vampires topic.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

FLL 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created especially for offering in a specified enrollment period. Requires only dept and Assoc Dean approval. In exceptional circumstances can be offered in one add'l semester.
Prerequisites: none, except as required for specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

FLL 303 Fifth Semester of an Uncommonly Taught Language:
3-4 cr. Undergraduate.
Continuation of FLL/Linguis 204(Linguis 232). Number of credits earned by student is determined by the credit value assigned to section number.
Prerequisites: FLL/Linguis 204(Linguis 232)(P) in same language.
Course Rules: May be retaken w/chg in language. FLL 303 & Linguis 303 are jointly offered; w/same topic, they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

FLL 304 Sixth Semester of an Uncommonly Taught Language:
3 cr. Undergraduate.
Continuation of FLL/Linguis 303(Linguis 331). Number of credits earned by student is determined by the credit value assigned to section number.
Prerequisites: FLL/Linguis 303(Linguis 331)(P) in same language.
Course Rules: May be retaken w/chg in language. FLL 304 & Linguis 304 are jointly offered; w/same topic, they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

FLL 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Last Taught: Spring 2013.
Current Offerings: http://uwm.edu/schedule

FLL 699 Advanced Independent Study
1-3 cr. Undergraduate.
Advanced-level independent work under the supervision of a Foreign Languages and Literature faculty or academic staff member.
Prerequisites: jr st; 2.5 GPA; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

Arabic Courses

ARABIC 101 First Semester Arabic
5 cr. Undergraduate.
For students with no previous knowledge of Arabic. Emphasis on one standard dialect. Language laboratory required.
Prerequisites: none.
Course Rules: Open to native speakers of Arabic only w/cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ARABIC 102 Second Semester Arabic
5 cr. Undergraduate.
Elements of reading and writing contemporary literary Arabic.
Prerequisites: Arabic 101(P). Generates L&S credit for demonstrated equivalent preparation (4 retro crs).
Course Rules: Open to native speakers of Arabic only w/cons instr.
Current Offerings: http://uwm.edu/schedule

ARABIC 111 Cultures and Civilizations of the Muslim Middle East
3 cr. Undergraduate.
Muslim Middle East through historical and ethnographic materials; reading of Quran and some modern literature.
Prerequisites: none.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

ARABIC 164 Arabs and Islam in America
3 cr. Undergraduate.
History of Arab immigration, experience of Arabs, and nature of Islam and Islamic communities in America.
Prerequisites: none.
General Education Requirements: HU
Last Taught: Spring 2018, Fall 2016, Fall 2014, Spring 2012.
Current Offerings: http://uwm.edu/schedule

ARABIC 197 Study Abroad:
1-12 cr. Undergraduate.
Designed to enable students studying language abroad to receive course credit at appropriate level.
Prerequisites: acceptance in Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

ARABIC 199 Independent Study
1-3 cr. Undergraduate.
For further information, consult dept chair.
Prerequisites: 2.5 gpa; writ cons instr, dept chair & asst dean for SAS.
Course Rules: May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule
ARABIC 201 Third Semester Arabic
5 cr. Undergraduate.
Prerequisites: Arabic 102(P). Generates L&S credit for demonstrated equivalent preparation (8 retro crs).
Course Rules: Open to native speakers of Arabic only w/cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ARABIC 202 Fourth Semester Arabic
5 cr. Undergraduate.
Continuation of 201. Noun forms. Use of cases. Particles and prepositions. Introduction to Arabic verse.
Prerequisites: Arabic 201(P). Generates L&S credit for demonstrated equivalent preparation (12 retro crs).
Course Rules: Open to native speakers of Arabic only w/cons instr.
Current Offerings: http://uwm.edu/schedule

ARABIC 289 Internship in Arabic, Lower Division
1-6 cr. Undergraduate.
Application of basic principles of Arabic in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: intro course in Arabic; 2.25 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hours in internship. May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

ARABIC 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

ARABIC 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2010, Spring 2002.
Current Offerings: http://uwm.edu/schedule

ARABIC 301 Fifth Semester Arabic
3 cr. Undergraduate.
Continuation of Arabic 202. Root and pattern systems; complex sentence structure; continued development of conversation and writing skills; strategies in reading culturally-oriented texts.
Prerequisites: Arabic 202(P).
Course Rules: Open to native speakers of Arabic only w/cons instr. Generates L&S credit for demonstrated equivalent preparation (16 retro crs).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

ARABIC 302 Sixth Semester Arabic
3 cr. Undergraduate.
Continuation of Arabic 301. More complex grammatical forms; vocabulary building principles; continued development of skills in conversation, reading, writing, culturally-oriented readings, and films.
Prerequisites: Arabic 301(P). Generates L&S credit for demonstrated equivalent preparation (16 retro crs).
Course Rules: Open to native speakers of Arabic only w/cons instr.
Current Offerings: http://uwm.edu/schedule

ARABIC 397 Study Abroad:
1-12 cr. Undergraduate.
Designed to enable students studying language abroad to receive course credit at appropriate level.
Prerequisites: jr st; acceptance in Study Abroad Prog.
Course Rules: May be retaken w/ change in topic.
Last Taught: Fall 2015, Fall 2013.

RUSSIAN 699 Supervised Individual Reading
1-6 cr. Undergraduate.
Advanced independent work under the supervision of a Slavic Lang faculty or instructional academic staff member. Students must submit a study proposal. For more information, consult Slavic Lang prog coord.
Prerequisites: jr st; 2.5 GPA; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

Scandinavian Studies Courses

SCNDVST 101 First-Semester Swedish
4 cr. Undergraduate.
Introductory course for students who have not studied Swedish previously. Oral practice, grammar, and reading.
Prerequisites: none.
Last Taught: Fall 2017, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

SCNDVST 102 Second-Semester Swedish
4 cr. Undergraduate.
Continuation of ScndvSt 101 (German 180).
Prerequisites: ScndvSt 101(German 180)(P) or equiv. Generates L&S credit for demonstrated equivalent preparation (4 retro cr).
Current Offerings: http://uwm.edu/schedule

SCNDVST 192 First-Year Seminar
3 cr. Undergraduate.
Specific humanities topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: HU
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule
SCNDVST 199 Independent Study
1-3 cr. Undergraduate.
Independent work under supervision of faculty or academic staff member. For further information, consult dept chair.
Prerequisites: 2.5 GPA; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken to 6 cr max.
Last Taught: Fall 2017, Summer 2017, Spring 2017, Fall 2014.
Current Offerings: http://uwm.edu/schedule

SCNDVST 203 Third-Semester Swedish
3 cr. Undergraduate.
Continuation of ScndvSt 102 (German 181).
Prerequisites: ScndvSt 102(German 181)(P) or equiv. Generates L&S credit for demonstrated equivalent preparation (8 retro cr).
Last Taught: Fall 2016, Summer 2016, Fall 2015, Fall 2012.
Current Offerings: http://uwm.edu/schedule

SCNDVST 204 Fourth-Semester Swedish
3 cr. Undergraduate.
Continuation of ScndvSt 203 (German 280).
Prerequisites: ScndvSt 203(German 280)(P) or equiv. Generates L&S credit for demonstrated equivalent preparation (11 retro cr).
Current Offerings: http://uwm.edu/schedule

SCNDVST 289 Internship in Scandinavian Studies, Lower Division
1-6 cr. Undergraduate.
Application of basic knowledge of Scandinavian Studies in business, organizational, educational, political or other appropriate setting. One cr earned for academic work based on 40 hrs in internship.
Prerequisites: jr st; 2.50 gpa; cons supervising faculty member.
Course Rules: May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

SCNDVST 296 UROP Apprenticeship
1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with a supervising member of the faculty or staff. One credit for 45 hours research.
Prerequisites: acceptance to UROP; prior or conc reg in UROP seminar.
Course Rules: May be retaken to 6 cr max in any combination of UROP apprenticeship courses. Not open to jrs & srs.
Current Offerings: http://uwm.edu/schedule

SCNDVST 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: acceptance for Study Abroad Program.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

SCNDVST 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept and assoc dean approval. In exceptional circumstances, can be offered in one add'l semester.
Prerequisites: none; additional prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

Arabic, Minor

Arabic is one of the main languages of the Middle East. Its influence is felt in related languages and dialects such as Urdu and Kurdish, it is the language of the Quran, and is the fifth most common language with more than 375 million native speakers. Westerners with Arabic fluency are in high demand as the global influence of the Middle East continues to grow.

The Department of Foreign Languages and Literature offers six semesters of instruction in Arabic language leading to a minor.

Arabic courses may be of particular interest to students in the certificate in Middle Eastern and North African studies, the international studies major, the linguistics major, and the global studies degree program.

The U.S. State Department includes Arabic in its scholarship and training program for critically-needed languages.

Requirements

Retro credits earned at the 200-level or above may count toward the minor. Students who begin their Arabic studies in higher-level courses may need to take additional credits, approved by the Arabic language coordinator, to reach a minimum of 18 credits in Arabic.

A minimum of nine credits must be taken at the 300-level or above in residence at UWM. The College requires that students attain at least a 2.500 GPA on all minor credits attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work. Students entering with no previous Arabic language experience should enroll in ARABIC 101. Students entering with previous knowledge of, or high school preparation in, Arabic, or transfer students who have studied Arabic in other colleges, are assigned to courses on the basis of a departmental placement consultation with the Arabic program coordinator. Students placed into a course beyond the 101 level who complete their first course with a grade of at least a B may receive retroactive credits, to a maximum of 16 credits (no more than 4 credits for any single course), for the courses leading to the one into which they placed.

The minor in Arabic consists of a minimum of 18 credits, with the following courses (or equivalents) required:
Students are encouraged to start planning early in sophomore year. Most students are aware of the complexities of planning a study abroad experience, students are aware that study abroad programs include a few week immersion, to semester-long, to even a full year. Because of the available programs in more than 70 sites around the world and vary in length from one week to a full year. Students are encouraged to participate in UWM’s well-established study abroad programs. Destinations are available in more than 70 sites around the world and vary in length from one week to a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

## Requirements

The College of Letters and Science requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work. Substitutions for some course requirements are possible and may include internships with firms doing business in German-speaking countries. Students also have the option of completing a Certificate in Business German offered by the Goethe Institut. For further information, consult the German Program Coordinator.

The business German minor consists of a minimum of 18 credits, including the following:

## Business German, Minor

German is the third most studied foreign language in the world, and, at UWM, we offer more than just instruction in language. In addition to German fluency, students learn how to apply that fluency by studying German culture, literature, customs, and history.

Wisconsin has a strong German heritage and many students find it both professionally useful and personally satisfying to explore the State’s German influences. Many may come into college having already taken German in high school. Students can take a placement test to determine their starting course and may be able to earn retroactive credits if they place above the level of GERMAN 101.

Fluency in German can provide a career advantage in all types of industries where Germany and other German-speaking countries are leaders: finance, marketing, manufacturing, politics, government work, electronics and technology, chemical and biochemical, environmental science, and architecture. At UWM, language students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of German in order to successfully apply their fluency.

A general minor in German is available, and there is a minor in Business German. The Business German minor is ideal for students interested in German business concepts, perhaps in preparation for an international business career. In addition to German language and culture classes, students take accounting or marketing classes from UWM’s Lubar School of Business.

Students are encouraged to participate in UWM’s well-established study abroad program. Destinations are available in more than 70 sites around the world and vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

## Requirements

The College of Letters and Science requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work. Substitutions for some course requirements are possible and may include internships with firms doing business in German-speaking countries. Students also have the option of completing a Certificate in Business German offered by the Goethe Institut. For further information, consult the German Program Coordinator.

The business German minor consists of a minimum of 18 credits, including the following:

<table>
<thead>
<tr>
<th>Code</th>

Classics, BA

Classics is the study of the literature, languages, cultures and societies of ancient Greece and Rome. It is one of the oldest of the liberal arts disciplines.

The popularity of movies like 300, Gladiator, and Troy, have renewed students' interest in mythology and the study of classics.

Whether you choose to major in Classics or just take a few classes of interest, students in this field are exposed to the history, literature, art and architecture, archaeology, language, and religion of ancient times. Many classes are in English but some offer the subject matter in its original format of Greek or Latin. Many pre-med majors also find that an introduction to Latin vocabulary serves as an exceptional preparation for medical school where much of the terminology originated from Latin.

What can you do with a Classics major? Classics is an original liberal arts field and is designed to prepare students for any type of profession that emphasizes critical analysis, reading of dense texts, and oral and written communication. Law school is a popular destination after college, though certainly not the only option. A student's career choices after college will be guided by how they applied their coursework to real world applications during college. A student who volunteered and interned in museums and galleries may find work in that industry. A student who obtained work experience during college in library reference may pursue that line of work after graduation. The possibilities are numerous, and all students are encouraged to gain practical experience that complements the major.

Requirements

Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

University General Education Requirements (GER)

College of Letters & Science Requirements

I. English Writing Requirement
Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning
To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>

</tr>
<tr>
<td>MATH 105</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFRICOL 220</td>

</tr>
<tr>
<td>ECON 210</td>
<td>Economic Statistics</td>
<td></td>
</tr>
<tr>
<td>GEOG 247</td>
<td>Quantitative Analysis in Geography</td>
<td></td>
</tr>
</tbody>
</table>

Select 6 credits (at least two courses including one lab) 6

UWM Foreign Language Requirement
Complete Foreign Language Requirement through:

- Two years (high school) of a single foreign language
- Two semesters (college) of a single foreign language
- Or equivalent

UWM Cultural Diversity Requirement
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement

III. Foreign Language Requirement
Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

<table>
<thead>
<tr>

V. Breadth Requirement
Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+ designation, L&S students must complete the Breadth requirement.
VI. The Major

The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Major Requirements

There are three major concentrations:

- Classical Civilization
- Ancient Greek Language and Literature
- Classical Latin Language and Literature

Students who major in a Classics Program concentration must complete at least 15 credits of the major in 300-level or above courses in residence at UWM. All students must complete a research experience in their major. The College requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM, including any transfer work.

Classical Civilization Major Concentration

This Concentration is intended for students who wish to study classical literature and culture without pursuing coursework in the original languages. Courses in ancient Greek and Latin are optional and may count toward fulfilling major requirements.

Ancient Greek Language and Literature Major Concentration

The Ancient Greek Language and Literature major concentration requires the completion of 33 credits, including the following. A total of 15 credits of all courses in the major must be at the 300 level or above taken in residence at UWM. Students must complete the L&S research requirement in the context of a Greek or Classic course of their choosing at the 300 level or above, under the supervision of the instructor of that course:

Letters & Science Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

The Undergraduate Faculty Advisor for Classics is Associate Professor Elisabetta Cova, covae@uwm.edu.

Honors in the College of Letters and Science

Dean's Honor List

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Classics, Minor

Classics is the study of the literature, languages, cultures and societies of ancient Greece and Rome. It is one of the oldest of the liberal arts disciplines.

The popularity of movies like 300, Gladiator, and Troy, have renewed students’ interest in mythology and the study of classics.

Whether you choose to major or minor in Classics or just take a few classes of interest, students in this field are exposed to the history, literature, art and architecture, archaeology, language, and religion of ancient times. Many classes are in English but some offer the subject matter in its original format of Greek or Latin. Many pre-med majors also find that an introduction to Latin vocabulary serves as an exceptional preparation for medical school where much of the terminology originated from Latin.

Classics is an original liberal arts field and is designed to prepare students for any type of profession that emphasizes critical analysis, reading of dense texts, and oral and written communication. Law school is a popular destination after college, though certainly not the only option. A student’s career choices after college will be guided by how they applied their coursework to real world applications during college.

A student who volunteered and interned in museums and galleries may find it is less difficult than they lead themselves to believe. Successful speakers because of their vast differences from English, students often find it is less difficult than they lead themselves to believe. Successful

Requirements

There are three minor concentrations:

• Classical Civilization
• Ancient Greek Language and Literature
• Classical Latin Language and Literature

Completion of each minor concentration requires a minimum of 21 credits, at least 9 of which must be upper-division courses (300 level and above) completed in residence at UWM. The College requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work.

Minor Concentration in Classical Civilization

Committee Interdisciplinary Major, BA: Chinese Language and Culture

The Committee Interdisciplinary Major with a focus in Chinese language and culture is a vital program with growing importance and value as China expands its role as a super power in world economics, manufacturing, technology, and politics.

Each year more and more students are joining the ranks of the 1.4 billion people who speak Mandarin, the official language of the People’s Republic of China and of Taiwan.

Many students now can find Chinese instruction in their high schools. At UWM, students can continue their high school studies or begin from the first semester of Chinese language instruction. We offer eight semesters of Chinese language, and equally as important, we offer an array of classes on Chinese culture. Students can explore classes in Chinese art, Chinese film, the use of Chinese in business settings, Chinese and Asian history, and the politics and religions of the region.

While the study of any Asian language is challenging for native English speakers because of their vast differences from English, students often find it is less difficult than they lead themselves to believe. Successful
students of Chinese will dedicate the necessary daily time to practice and repeat...and practice and repeat.

Students are encouraged to participate in UWM’s well-established study abroad (http://uwm.edu/cie/study-abroad) program. Destinations are available in more than 70 sites around the world and vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

Requirements
Course of Study – Bachelor of Arts Degree
Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

Select 6 credits

Social Sciences
Select 6 credits

Natural Sciences
Select 6 credits (at least two courses including one lab)

UWM Foreign Language Requirement
Complete Foreign Language Requirement through:
- Two years (high school) of a single foreign language
- Two semesters (college) of a single foreign language
- Or equivalent

UWM Cultural Diversity Requirement
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement

College of Letters & Science Requirements

I. English Writing Requirement
Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning
To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>

<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Complete one of the following:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3 or more credits in any 200-level or above Math course</td>

</tbody>
</table>
### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

<table>
<thead>

<tbody>
<tr>
<td>101</td>
<td>English 1</td>
<td>9</td>
</tr>
<tr>
<td>102</td>
<td>English 2</td>
<td>9</td>
</tr>
</tbody>
</table>

**Note:** Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

**Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

### Major Requirements

The Chinese Language and Culture program requires completion of 30 credits in approved Chinese and related courses. Students in the major must complete the fifth- through eighth-semester Chinese courses as the core of the program. In addition, culture-related courses that are taught using the target language are required. Students must complete 30 credits to graduate, at least 15 of them at the advanced level (300 and above) taken in residence at UWM. The major requires a minimum of 18 credits at the 300 level or above taught in Chinese. The College requires that students attain at least a 2.500 GPA on all major credits attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work.

**Letters & Science Advising**

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

**Honors in the College of Letters and Science**

**Dean's Honor List**

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.
Japan is a very popular destination for study abroad and repeat...and practice and repeat. Students of Japanese will dedicate the necessary daily time to practice and find it is less difficult than they lead themselves to believe. Successful speakers because of their vast differences from English, students often travel or hospitality industry, business, technology, finance or sales. Many students are also interested in careers related to Anime or translation, interpretation, government relations, social services, the travel or hospitality industry, business, technology, finance or sales. Many students are also interested in careers related to Anime or technology, both large industries in Japan. A major in Japanese combined with technology and science training is excellent preparation for entry into those fields. Many students now can find Japanese instruction in their high schools. At UWM, students can continue their high school studies or begin from the first semester of Japanese language instruction. We offer eight semesters of Japanese language plus the vitally important courses the first semester of Japanese language instruction. We offer eight semesters of Japanese language plus the vitally important courses. A Committee Interdisciplinary Major with a focus on Japanese language and culture can be the first step towards a career path in teaching, translation, interpretation, government relations, social services, the travel or hospitality industry, business, technology, finance or sales. Many students are also interested in careers related to Anime or computer technology, both large industries in Japan. A major in Japanese combined with technology and science training is excellent preparation for entry into those fields. Many students now can find Japanese instruction in their high schools. At UWM, students can continue their high school studies or begin from the first semester of Japanese language instruction. UWM Cultural Diversity Requirement
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement.

College of Letters & Science Requirements

I. English Writing Requirement
Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning
To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>

</tbody>
</table>
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *

Cultural Diversity
Complete 3 credits in a course with Cultural Diversity (CD) designation. **

* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

VI. The Major
The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Major Requirements
The Japanese Language and Culture program requires completion of 30 credits in approved Japanese and related courses. Students in the major must complete the fifth- through eighth-semester Japanese courses as the core of the program. In addition, culture-related courses that are taught using the target language are required. Students must complete 30 credits to graduate, at least 15 of them at the advanced (300 and above) level taken in residence at UWM. The major requires a minimum of 18 credits at the 300 level or above taught in Japanese. The College requires that students attain at least a 2.500 GPA on all major credits attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work.

- JAPAN 351 Japanese Performance Traditions
- JAPAN 361 Translating Japanese Media
- JAPAN 500 Research and Research Writing in Japanese

Electives
Select 8 credits (see below) **

Study Abroad
Study Abroad is strongly encouraged 4

Total Credits
30

1. Students whose language skills allow them to begin their study of Japanese beyond the fifth semester course must discuss with the advisor appropriate substitute courses in order to complete the required 30 credits.

2. Japanese majors wishing to use this course for the research requirement must notify the instructor that they will complete an independent research project.

3. At least one course must be taken outside the Japan curricular area.

4. Up to 12 credits from study abroad programs will be accepted for the major. Any language credits acquired from study abroad must not duplicate language credits acquired from classes taken at UWM.

Honors in the College of Letters and Science

Dean's Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

German Studies, Undergraduate Certificate

The German Studies Certificate Program is designed to offer UWM students the opportunity to experience firsthand contemporary German life and culture by integrating a semester of study at the Justus Liebig Universität in Giessen with their coursework at UWM. This certificate program is unique in its requirement of a semester study abroad. While at Justus Liebig Universität, students take a sequence of courses that deal with the history and culture of Germany, completing 15 of the 27 credits required by the certificate program. Upon completion of the requirements, students are awarded a certificate, which evidences a concentration in coursework related to the culture, civilization, and language of Germany. The courses taken in Giessen provide the student with a broad exposure to social and cultural issues in German life and society. The program will be of particular interest to students who major in German, music, art, art history, literature, history, international studies, political science, and business.

Prior to the required semester abroad, students must have sophomore standing and demonstrate intermediate proficiency in German (as described in the ACTFL Provisional Proficiency Guidelines) by a written and oral test or by transcript evidence of successful completion of fourth-semester German at UWM. During their semester of study in Giessen,

Letters & Science Advising
The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the “Declaration of Major” information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Honors in the Major
Japanese majors who meet the following requirements may apply to the undergraduate advisor to graduate with "Honors in the Major".

1. Maintain a 3.000 cumulative GPA on all UWM credits attempted;
2. Maintain a 3.500 GPA on all credits that count toward the major, and
3. Maintain a 3.500 GPA on all advanced credits that count toward the major.
4. Complete a research project in consultation with the major advisor. The project also serves to fulfill the L&S Research Requirement for the Japanese Major.

1 No more than 3 credits of JAPAN 310 may count towards the total elective credits.
students pay UWM tuition and earn UWM credits. Their programs of study are overseen by a select group of faculty members of the Justus Liebig Universität.

**Requirements**

To earn the certificate, students must complete satisfactorily a minimum of 27 credits in courses beyond prerequisite language courses with an average grade of B or better. Students propose their individual programs of study from the list of required and elective courses and submit their proposals to the German Studies Certificate Committee for approval.

http://uwm.edu/foreign-languages-literature/undergraduate/

**German, BA**

German is the third most studied foreign language in the world, and, at UWM, we offer more than just instruction in language. In addition to German fluency, students learn how to apply that fluency by studying German culture, literature, customs, and history.

Wisconsin has a strong German heritage and many students find it both professionally useful and personally satisfying to explore the State’s German influences. Many may come into college having already taken German in high school. Students can take a placement test to determine their starting course and may be able to earn retroactive credits if they place above the level of GERMAN 101.

Fluency in German can provide a career advantage in all types of industries where Germany and other German-speaking countries are leaders: finance, marketing, manufacturing, politics, government work, electronics and technology, chemical and biochemical, environmental science, and architecture. At UWM, language students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of German in order to successfully apply their fluency.

Students are encouraged to participate in UWM’s well-established study abroad (http://uwm.edu/cie/study-abroad) program. Destinations are available in more than 70 sites around the world and vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

**Requirements**

**Course of Study – Bachelor of Arts Degree**

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

**University General Education Requirements (GER)**

ENGLISH 102 College Writing and Research (or equivalent)

Part B
Course designated as OWC-B; may be completed through a major-specific course requirement

Quantitative Literacy

Part A
Select one of the following:

- MATH 103 Contemporary Applications of Mathematics
- MATH 105 Introduction to College Algebra
- MATH 108 Algebraic Literacy II

Or equivalent course

Part B
Course designated as QL-B; may be completed through a major-specific course requirement

Arts
Select 3 credits

Humanities
Select 6 credits

Social Sciences
Select 6 credits

Natural Sciences
Select 6 credits (at least two courses including one lab)

UWM Foreign Language Requirement
Complete Foreign Language Requirement through:

- Two years (high school) of a single foreign language
- Two semesters (college) of a single foreign language
- Or equivalent

UWM Cultural Diversity Requirement
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement

College of Letters & Science Requirements

I. English Writing Requirement
Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning
To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
</tbody>
</table>

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>

</tr>
<tr>
<td>PSYCH 210</td>
<td>Psychological Statistics</td>
<td></td>
</tr>
<tr>
<td>SOCIOL 261</td>
<td>Introduction to Statistical Thinking in Sociology</td>
<td></td>
</tr>
</tbody>
</table>

Note: This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

III. Foreign Language Requirement
Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

<table>
<thead>
<tr>
<th>Code</th>

</tr>
<tr>
<td></td>
<td>Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Complete 9 credits in combination of the two options above.</td>
<td></td>
</tr>
</tbody>
</table>

**V. Breadth Requirement**

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

<table>
<thead>
<tr>

<td>12</td>
</tr>
<tr>
<td></td>
<td>Cultural Diversity Complete 3 credits in a course with Cultural Diversity (CD) designation.</td>
<td>3</td>
</tr>
</tbody>
</table>

* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

**VI. The Major**

The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

**Research Requirement**

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

**Major Requirements**

All majors are required to take an advanced language proficiency exam, normally during the semester in which they complete 18 credits in the major. The College of Letters & Science requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work.

Majors must register with the program at the beginning of their candidacy.

The major requires a minimum of 30 credits in courses numbered 300 or above, at least 18 of them taken in residence at UWM. No more than 9 credits per semester will be accepted from study abroad.

Letters & Science Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Honors in the College of Letters and Science

Dean's Honor List

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

German, Minor

German is the third most studied foreign language in the world, and, at UWM, we offer more than just instruction in language. In addition to German fluency, students learn how to apply that fluency by studying German culture, literature, customs, and history.

Wisconsin has a strong German heritage and many students find it both professionally useful and personally satisfying to explore the State’s German influences. Many may come into college having already taken German in high school. Students can take a placement test to determine their starting course and may be able to earn retroactive credits if they place above the level of GERMAN 101.

Fluency in German can provide a career advantage in all types of industries where Germany and other German-speaking countries are leaders: finance, marketing, manufacturing, politics, government work, electronics and technology, chemical and biochemical, environmental science, and architecture. At UWM, language students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of German in order to successfully apply their fluency.

Students are encouraged to participate in UWM’s well-established study abroad (http://uwm.edu/cie/study-abroad) program. Destinations are available in more than 70 sites around the world and vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

Requirements

The College of Letters & Science requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work. The minor in German requires a minimum of 21 credits in courses numbered 300 or above, at least 9 of them taken in residence at UWM.
Japanese, Minor

As one of the five largest world economies, professional opportunities exist for individuals who are proficient in the Japanese language and who can understand and integrate into Japanese culture.

A minor in Japanese can part of the first step towards a career path in teaching, translation, interpretation, government relations, social services, the travel or hospitality industry, business, technology, finance or sales. Many students are also interested in careers related to Anime or computer technology, both large industries in Japan. A Committee Interdisciplinary Major with a focus in Japanese Language and Culture, combined with technology and science training, is excellent preparation for entry into those fields.

Many students now can find Japanese instruction in their high schools. At UWM, students can continue their high school studies or begin from the first semester of Japanese language instruction. We offer eight semesters of Japanese language plus the vitally important courses about Japanese culture, business practices, values, politics, history, and religions.

While the study of any Asian language is challenging for native English speakers because of their vast differences from English, students often find it is less difficult than they lead themselves to believe. Successful students of Japanese will dedicate the necessary daily time to practice and repeat...and practice and repeat.

Japan is a very popular destination for study abroad (http://uwm.edu/cie/study-abroad), and Japanese majors are encouraged to take advantage of the opportunities available through UWM. Programs vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

Requirements

A minimum of 9 credits must be taken at the 300 level or above. A minimum of 9 credits must be taken in residence at UWM. Students entering with no previous Japanese language experience should enroll in JAPAN 101. Students entering with previous knowledge of, or high school preparation in, Japanese, or transfer students who have studied Japanese in other colleges, are assigned to courses on the basis of a departmental placement consultation with the Japanese program coordinator. Students placed into a course beyond the 101 level who complete their first course with a grade of at least a B may receive retroactive credits earned at the 200 level or above to a maximum of 16 credits, for the courses leading to the one into which they are placed. The College requires that students attain at least a 2.500 GPA on all minor credits attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work.

Those who are able to begin their study of Japanese beyond the third-semester level will take additional elective credits, approved by the Japanese language coordinator, to complete at least 18 credits in the minor. Students must complete a minimum of 12 credits in language courses. The following (or equivalent or exemption) are required:

Japanese Studies, BA

Jewish Studies majors at UWM examine the culture and religion of the Jewish people through language, history, arts, media, politics, and literature. Students can shape their own degree by focusing their electives around their specific interests, such as Israel, the Holocaust, or media representation.

A major in Jewish Studies prepares students for work in a multicultural world with a skill set that includes the ability to analyze texts and weigh different interpretations, present persuasive arguments in writing and speech, and appreciate different backgrounds and viewpoints. Jewish Studies alumni have found careers in social welfare, Jewish organization administration, foreign affairs, business administration, journalism, the arts, education, and more. Further graduate study has led others to careers in religious leadership as rabbis or cantors.

UWM students can choose a Hebrew Studies track within the major which has a focus on the foundations of Judaism, including extensive study of the Hebrew language. Or, students can opt for the Jewish

Contact Information

Current Students contact Assistant Professor Aragorn Quinn, quinna@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

http://uwm.edu/japanese/undergraduate/
Studies track with an emphasis on modern Jewish history, literature, film and politics.

Jewish Studies majors and minors can further their education by participating in UWM’s Study Abroad opportunities in Israel. Majors and minors studying in Israel are eligible for travel awards from the Stahl Center for Jewish Studies. The Stahl Center for Jewish Studies also offers other scholarships and awards to outstanding Jewish Studies majors and minors.

The major can be completed fully online for students who need coursework that fits their schedules.

Requirements

Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

- Two years (high school) of a single foreign language
- Two semesters (college) of a single foreign language
- Or equivalent

UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement

College of Letters & Science Requirements

I. English Writing Requirement

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 103</td>
<td>Contemporary Applications of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 105</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 200</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 220</td>
<td>Contemporary Applications of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 250</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 258</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 275</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

Complete one of the following:

- 3 or more credits in any 200-level or above Math course
- AFRICOL 220 Introduction to Statistics in Africology
- ANTHRO 568 Introduction to Anthropological Statistics
- ATM SCI 500 Statistical Methods in Atmospheric Sciences
- BIO SCI 465 Biostatistics
- ECON 210 Economic Statistics
- GEOG 247 Quantitative Analysis in Geography
requirement.

Diversity (CD/) designation, L&S students must complete the Breadth (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD) designation. Complete 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/) designation, L&S students must complete the Breadth requirement.

Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area.

Social Sciences
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area.

Natural Sciences
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area.

Cultural Diversity
Complete 3 credits in a course with Cultural Diversity (CD) designation.

* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

VI. The Major

The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Major Requirements

All majors in Jewish Studies are required to register with the program at the beginning of their candidacy and are encouraged to speak to the program coordinator as early as possible to plan a course of study.

Jewish Studies majors in both tracks must complete a minimum of 15 advanced-level (numbered 300 and above) credits in L&S courses taken in residence at UWM. A GPA of 2.500 is required in courses taken for the major at UWM and in all courses that count for the major, including transfer work. All majors in Jewish Studies must complete a minimum of 30 credits in the major.

- JEWISH 699: Advanced Independent Study
- HEBR ST 699: Independent Study

Total Credits 26

Letters & Science Advising
The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program
in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

**Honors in the College of Letters and Science**

**Dean's Honor List**

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Contact Information**

Current Students contact Senior Lecturer Rachel Baum, rbaum@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at 36x53 (414) 229-7711 or let-sci@uwm.edu

https://www4.uwm.edu/jewishstudies major.cfm

**Jewish Studies, Minor**

Jewish Studies minors at UWM examine the culture and religion of the Jewish people through language, history, arts, media, politics, and literature. Students can shape their own degree by focusing their electives around their specific interests, such as Israel, the Holocaust, or media representation.

The Jewish Studies program prepares students for work in a multicultural world with a skill set that includes the ability to analyze texts and weigh different interpretations, present persuasive arguments in writing and speech, and appreciate different backgrounds and viewpoints. Jewish Studies alumni have found careers in social welfare, Jewish organization administration, foreign affairs, business administration, journalism, the arts, education, and more. Further graduate study has led others to careers in religious leadership as rabbis or cantors.

Jewish Studies minors can further their education by participating in UWM’s Study Abroad opportunities in Israel. Majors and minors studying in Israel are eligible for travel awards from the Stahl Center for Jewish Studies. The Stahl Center for Jewish Studies also offers other scholarships and awards to outstanding Jewish Studies majors and minors.

Both the major and minor can be completed fully online for students who need coursework that fits their schedules.

**Requirements**

The minor requires completion of a minimum of 18 credits, at least 9 of which must be taken at the 300 level or above in residence at UWM. The College requires that students earn a GPA of at least 2.500 on all credits for the minor attempted at UWM. In addition, students must earn a GPA of 2.500 on all minor credits attempted, including any transfer work.

Students can attain a minor in Jewish Studies by following one of two tracks:

**Hebrew Studies Track**

The Hebrew Studies track of the Jewish Studies minor requires the following:

<table>

**Russian and East European Studies, Undergraduate Certificate**

The purpose of the Russian and East European Studies undergraduate certificate is to enable students to take a coordinated series of courses and to receive a formal certificate signifying this specialization.

In recent years, Russia has become an even larger global influence on politics, the economy, security, and international trade. Understanding the
language and culture of Russia has become increasingly important, and the value of knowledge and skills in this area is anticipated to continue to grow.

Only about 15% of the colleges and universities in the U.S. are able to offer a Russian major, and UWM is among this small group. This Slavic language is growing in importance and in value as the political and economic dynamics of Russia and the region are evolving. Russian is one of the five official languages of the United Nations and has more than 200 million speakers around the world. The U.S. State Department has deemed Russian to be a “critical language” and has many programs to encourage students to join this needed area of study.

At UWM, students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of Russian in order to successfully apply their fluency. Students are also encouraged to participate in UWM’s study abroad program with destinations including Saratov, Moscow, St. Petersburg, and Vladimir. Some students choose just a short immersion while others go abroad for a semester or even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

Eligibility
The Russian and East European Studies Certificate Program is open to all students seeking a bachelor’s degree from UWM, to those who previously received a bachelor’s degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this topic. To be admitted as non-degree students, individuals must meet regular University admission requirements. Students currently involved in baccalaureate studies who successfully complete the requirements of the program will be awarded the certificate at the time of graduation. Students who already have a bachelor’s degree and non-degree students receive the certificate upon completion of the program requirements. All students are required to complete an exit survey before the certificate is awarded.

Requirements
To obtain the certificate, students must complete at least 18 credits including the requirements in either of the following two tracks. In both tracks, students must achieve a minimum grade point average of 2.75 in all courses taken for the certificate, including language courses. Students should be aware that not all certificate courses are taught regularly. They are advised, therefore, to plan ahead in choosing courses needed for the certificate. A maximum of 3 credits in advanced independent study courses (699) may be applied toward completion of certificate requirements. Other appropriate courses taught by the area faculty, but not on the list, may be taken with the approval of the Chair of the Russian and East European Studies Committee. For courses to count towards the REES certificate, at least one third of the content must be related to the regions of Eastern and Central Europe, Russia, Eurasia, and/or Central Asia. For pre-approved courses, see the list of approved courses. When necessary, requests for other substitute courses will be considered by the committee, provided they are made well in advance of graduation.

Track One (with language study)
1. 9 credits in approved upper division courses in area history, political science, area studies, and foreign languages and literature, or substitutes as approved by the Committee.

2. Demonstrated proficiency in one of the languages of the region: four semesters of language study or its equivalent. Students with language proficiency gained in contexts other than classroom instruction should consult the REES advisor about proficiency testing options.

Track Two
1. 18 credits from the approved list of courses in area history, political science, area studies, and foreign languages and literature, or substitutes approved by the Committee. At least 9 credits must be upper division.

At least 9 credits must be completed successfully at UWM for both tracks.

Exit Survey
Students in both tracks are required to complete an exit survey upon completion of their required coursework. The assessment process allows certificate students to reflect on their experiences while providing important information to help improve the program.

The exit survey is conducted online for a limited period of time during the fall and spring semesters. Students who are about to complete or have finished all coursework should contact Tracy Buss (tbuss@uwm.edu) concerning the exit survey.

Please note: The exit survey is a program requirement. Failure to complete the survey prior to graduation will delay processing of the graduation clearance.

Russian, BA

In recent years, Russia has become an even larger global influence on politics, the economy, security, and international trade. Understanding the language and culture of Russia has become increasingly important, and the value of knowledge and skills in this area is anticipated to continue to grow.

Only about 15% of the colleges and universities in the U.S. are able to offer a Russian major, and UWM is among this small group. This Slavic language is growing in importance and in value as the political and economic dynamics of Russia and the region are evolving. Russian is one of the five official languages of the United Nations and has more than 200 million speakers around the world. The U.S. State Department has deemed Russian to be a "critical language" and has many programs to encourage students to join this needed area of study.

At UWM, language students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of Russian in order to successfully apply their fluency.

Students are also encouraged to participate in UWM’s study abroad (https://uwm.edu/cie/study-abroad) program with destinations including Saratov, Moscow, St. Petersburg, and Vladimir. Some students choose just a short immersion while others go abroad for a semester or even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

Requirements

Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

Course designated as QL-B; may be completed through a major-specific course requirement

**Arts**

Select 3 credits

**Humanities**

Select 6 credits

**Social Sciences**

Select 6 credits

**Natural Sciences**

Select 6 credits (at least two courses including one lab)

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

- Two years (high school) of a single foreign language
- Two semesters (college) of a single foreign language
- Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement

---

**College of Letters & Science Requirements**

**I. English Writing Requirement**

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

*Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.*

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>

<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

*Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.*

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses.

<table>
<thead>
<tr>

<td></td>
</tr>
<tr>
<td>SOCIOL 261</td>
<td>Introduction to Statistical Thinking in Sociology</td>
<td>3</td>
</tr>
</tbody>
</table>

*Note: This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.*

**III. Foreign Language Requirement**

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work. Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

</tr>
</tbody>
</table>

**IV. International Requirement**

See Approved Courses for the L&S International Requirement (p. 1169) for course options.
Diversity (CD/+) designation, L&S students must complete the Breadth Requirement:

- Complete 3 credits in a course with Cultural Diversity (CD) designation.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

VI. The Major

The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

---

**Major Requirements**

Majors must complete at least 15 credits in advanced-level courses (300 and above) in residence at UWM; at least 9 of these credits must be in the Russian curricular area. Students must attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, the College of Letters and Science requires that students attain a 2.500 GPA on all major credits attempted, including any transfer work. Major courses taken outside the Russian curricular area count in the major GPAs.

Students are strongly encouraged to pursue study abroad in Russia and may apply transfer credits from an approved study abroad program toward their degree requirements. Students interested in doing extensive study abroad should contact the program coordinator to discuss the college’s residency requirement.

The Russian major requires completion of four semesters of college-level Russian (through RUSSIAN 202) or equivalent preparation. Credits earned at UWM in satisfying this requirement count in the minor GPA. In addition, individuals must complete 18 credits as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>RUSSIAN 310</td>
<td>Advanced Russian Reading and Conversation:</td>
<td>3</td>
</tr>

<td>3</td>
</tr>
<tr>
<td>Select 12 additional credits in Russian</td>
<td>12</td>
<td></td>
</tr>
<tr>
<td>Total Credits</td>
<td>33</td>
<td></td>
</tr>
</tbody>
</table>

1. Selected from Russian and/or cross-listed and related courses (see the two lists below). A maximum of 3 credits from the list of related courses can count toward this requirement.

2. As part of their required credits, all students must complete a research experience as required by the College. Students will satisfy this requirement in the context of RUSSIAN 391 or RUSSIAN 699.

---

**Cross-listed Courses**

The following courses are approved to satisfy the requirements of the Russian major and minor. Please contact the program coordinator for the most up-to-date list of approved courses or to request approval for Russian-related courses not on this list.

<table>
<thead>
<tr>

1 Students may enroll in and complete all advanced-level courses with the subject code LINGUIS and all courses under the subject code POLISH.

Letters & Science Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the “Declaration of Major” information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Honors in the College of Letters and Science

Dean’s Honor List

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Russian, Minor

In recent years, Russia has become an even larger global influence on politics, the economy, security, and international trade. Understanding the language and culture of Russia has become increasingly important, and the value of knowledge and skills in this area is anticipated to continue to grow.

Only about 15% of the colleges and universities in the U.S. are able to offer a Russian major, and UWM is among this small group. This Slavic language is growing in importance and in value as the political and economic dynamics of Russia and the region are evolving. Russian is one of the five official languages of the United Nations and has more than 200 million speakers around the world. The U.S. State Department has deemed Russian to be a “critical language” and has many programs to encourage students to join this needed area of study.

At UWM, language students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of Russian in order to successfully apply their fluency.

Students are also encouraged to participate in UWM’s study abroad (https://uwm.edu/cie/study-abroad) program with destinations including Saratov, Moscow, St. Petersburg, and Vladimir. Some students choose just a short immersion while others go abroad for a semester or even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.
Requirements

At least 9 credits must be completed in advanced-level courses in residence at UWM; at least 6 of these credits must be in the Russian curricular area. Students must attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, the College requires that students attain a 2.500 GPA on all minor credits attempted, including transfer work. Minor courses taken outside the Russian curricular area count in the minor GPAs.

Students are strongly encouraged to pursue study abroad in Russia and may apply transfer credits from an approved study abroad program toward their degree requirements. Students interested in doing extensive advanced-level coursework at a Russian university should contact the program coordinator to discuss the College’s residency requirement.

The Russian minor requires completion of four semesters of college-level Russian (through RUSSIAN 202) or equivalent preparation. Credits earned at UWM in satisfying this requirement count in the minor GPA. In addition, minors must complete 18 credits as follows:

Scandinavian Studies, Undergraduate Certificate

The Undergraduate Certificate in Scandinavian Studies provides students with a thorough understanding of the language, culture, history, and literature of the Nordic nations including Denmark, Finland, Iceland, Norway, and Sweden. The Nordic region is known for its innovative approaches to democracy, literature, and the arts, as well as its history surrounding colonialism, migration, and globalization. This certificate may be of particular interest to students who plan to enter government service, tourism and hospitality, or global business, and complements many different majors including history, political science, international studies, economics, geography, foreign languages and anthropology. Students interested in a career that works with the Scandinavian population or with a corporation with Scandinavian operations may find this certificate particularly valuable.

Study abroad (http://uwm.edu/cie/study-abroad) is not required, but many students find that an overseas experience is life-changing and an exceptional complement to their studies in the US.

Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

Eligibility

The Scandinavian Studies Undergraduate Certificate Program is open to all students seeking a bachelor’s degree from UWM and to students who previously received a bachelor’s degree from UWM or any other accredited college or university. Students currently involved in baccalaureate studies who successfully complete the requirements of the program will be awarded the certificate at the time of graduation. Students who already have a bachelor’s degree receive the certificate upon completion of the program requirements.

Requirements

To complete the certificate, students must earn a minimum GPA of 3.000 in 18 credits of Scandinavian Studies courses, as listed below.

Scandinavian studies courses completed elsewhere, with the approval of the program coordinator, will be accepted in partial fulfillment of the requirements of the certificate. The majority of the certificate requirements may be completed at Mälardalen University, UWM’s sister university in Sweden. Students attending Mälardalen University pay UWM tuition and take courses on the Swedish language and Scandinavian culture. Students also may take courses in pursuit of their other academic interests, either in Swedish or in English.

FRENCH, ITALIAN, AND COMPARATIVE LITERATURE

The study of languages has been the fundamental basis of liberal education since the Renaissance, and it is crucial to learning in the 21st century as technologies create global channels of communication. This department, therefore, is committed to promoting the study of at least one second language in order to enable students to participate in the world of international communities and, moreover, to appreciate and contribute to a broad spectrum of diverse cultures. The Department of French, Italian, and Comparative Literature offers a complete sequence of courses in two languages and in the literatures and cultures of the world.

The department follows the Credit for Demonstrated Equivalent Preparation policy.

Programs

- Business French, Minor (p. 1373)
- Comparative Literature, BA (p. 1374)
- Comparative Literature, Minor (p. 1378)
- French and Francophone Studies, Undergraduate Certificate (p. 1378)
- French, BA (p. 1380)
- French, Minor (p. 1383)
- Italian, BA (p. 1383)
- Italian, Minor (p. 1387)

3 cr. Graduate.
The role of translation in the development of languages, cultures, and societies; cultural and ideological forces shaping translations; contemporary theories of translation.
Prerequisites: grad st.
Course Rules: CompLit 820 & Trnsltn 820 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2014, Fall 2013, Fall 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

French Courses

FRENCH 103 First-Semester French
4 cr. Undergraduate.
For students who have not studied French previously. Oral practice, grammar, and reading. Language laboratory required.
Prerequisites: none.
Course Rules: Counts as repeat of French 113. Open only to students with 2 yrs HS French or less or score of 1 on the French placement exam.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

FRENCH 104 Second-Semester French
4 cr. Undergraduate.
Continuation of French 103. Further drill in the language laboratory.
Prerequisites: grade of C or better in French 103(P) or level 2 score on French placement exam or cons instr. Generates L&S credit for demonstrated equivalent preparation (4 retro cr).
Course Rules: Counts as repeat of French 114.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

FRENCH 110 French for Travelers
1-2 cr. Undergraduate.
Basic conversational French for travelers. For students with no knowledge of French as well as for those with a basic foundation in the language. Useful vocabulary and cultural information.
Prerequisites: none.
Last Taught: Fall 2015, Spring 2015, Fall 2014, Spring 2014.
Current Offerings: http://uwm.edu/schedule

FRENCH 113 Intensive French I
4 cr. Undergraduate.
Compressed introductory course focused on speaking, oral comprehension, and reading. For students with some knowledge of French or another foreign language.
Prerequisites: none.
Course Rules: Counts as a repeat of French 103.
Current Offerings: http://uwm.edu/schedule

FRENCH 114 Intensive French II
4 cr. Undergraduate.
Continuation of French 113. Prepares students for placement into French 203.
Prerequisites: French 103(P), 113(P), or cons instr. Generates L&S credit for demonstrated equivalent preparation (4 retro crs).
Course Rules: Counts as a repeat of French 104.
Current Offerings: http://uwm.edu/schedule
FRENCH 145 Views of France:
3 cr. Undergraduate.
In-depth study of selected aspects of French civilization as reflected in literature.
Prerequisites: none.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: HU
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

FRENCH 190 Elementary French Electives
3-12 cr. Undergraduate.
Awarded by the program director for language work at the introductory (first-year) level completed in Paris.
Prerequisites: acceptance in Study Abroad Prog.
Course Rules: May not be retaken for cr.
Current Offerings: http://uwm.edu/schedule

FRENCH 192 First-Year Seminar:
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: HU
Last Taught: Fall 2017, Fall 2009, Fall 2007, Fall 2001.
Current Offerings: http://uwm.edu/schedule

FRENCH 197 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content and credits are determined and/or in specially prepared program course work.
Prerequisites: acceptance in Study Abroad Prog.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

FRENCH 199 Independent Study
1-4 cr. Undergraduate.
For further information consult department chair.
Prerequisites: 2.5 GPA; cons instr, dept chair & asst dean for SAS.
Course Rules: May not be retaken for cr.
Current Offerings: http://uwm.edu/schedule

FRENCH 203 Third-Semester French
3 cr. Undergraduate.
Review and further study of language and culture with emphasis on the development of reading skills.
Prerequisites: grade of C or better in French 104(P) or 114(P) or level 3 score on French placement exam or cons instr. Generates L&S credit for demonstrated equivalent preparation (8 retro cr).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

FRENCH 204 Fourth-Semester French
3 cr. Undergraduate.
Prerequisites: grade of C or better in French 203(P) or level 4 score on French placement exam or cons instr; French 213(R). Generates L&S credit for demonstrated equivalent preparation (11 retro cr).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

FRENCH 205 Reading for Research
3 cr. Undergraduate.
Basic grammatical principles and linguistic structures, augmented by individually-supervised readings in the student’s field of specialization.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

Current Offerings: http://uwm.edu/schedule

ITALIAN 497 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM sponsored program before course work level, content and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

ITALIAN 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

ITALIAN 413 Introduction to Italian to English Translation
3 cr. Undergraduate/Graduate.
Comprehensive overview of Italian to English translation; interactive learning of vocabulary and language usage through application of different translation topics; literary, technical, personal documents translation.
Prerequisites: two of Italian 311(P), 312(P), 321(P), or 322(P) or equiv; or admis to grad prog in Translation; or cons instr.
Last Taught: Fall 2015.
Current Offerings: http://uwm.edu/schedule

ITALIAN 414 Advanced Seminar in Italian to English Translation
3 cr. Undergraduate/Graduate.
Advanced level Italian to English translation overview; interactive learning of language usage through advanced exercises covering different translation topics; medicine, technology, business/advertising, and film/ subtitling.
Prerequisites: jr st; Italian 413(P); or cons instr.
Last Taught: Spring 2016.
Current Offerings: http://uwm.edu/schedule

ITALIAN 456 Topics in Italian Food Studies:
3 cr. Undergraduate/Graduate.
Interdisciplinary study of a topic or period related to Italian food culture, with attention to historical and social contexts.
Prerequisites: jr st or cons instr.
Course Rules: Taught in English. May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

ITALIAN 457 Topics in Italian Literature and Culture in Translation:
3 cr. Undergraduate/Graduate.
Critical reading, lectures, and discussion of major works on a topic, genre, or period; attention to cultural and historical context.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Last Taught: Fall 2017, Fall 2015, Spring 2014, Spring 2012.
Current Offerings: http://uwm.edu/schedule

ITALIAN 551 Literature of the Thirteenth and Fourteenth Centuries
3 cr. Undergraduate.
The first masterpieces of modern European literature from the Sicilian School of poetry to Petrarch, and from the early novellas to Boccaccio's Decameron.
Prerequisites: jr st; Italian 311(P) & 312(P).
Current Offerings: http://uwm.edu/schedule

ITALIAN 552 The Renaissance:
3 cr. Undergraduate.
One or more aspects of intellectual, literary, and artistic production in Italy from Petrarch and Humanism to the Counter-Reformation.
Prerequisites: jr st & Italian 311(P) & 312(P); or grad st.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

ITALIAN 556 A Literary Period:
3 cr. Undergraduate.
Interdisciplinary study of the main literary, intellectual, and cultural aspects of a specific period.
Prerequisites: jr st; Italian 311(P) & 312(P).
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

ITALIAN 570 Outline of Italian Literary History
3 cr. Undergraduate.
Historical overview of Italian literature covering the major periods and movements and stressing the relations between literature, philosophy, and aesthetics.
Prerequisites: jr st; Italian 311(P) & 312(P).
Current Offerings: http://uwm.edu/schedule
ITALIAN 597 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Designed to enable students studying language abroad to receive course credit at appropriate level.
Prerequisites: jr st; acceptance in Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.

Business French, Minor

Develop global perspectives sought by companies, educational institutions and NGOs in the US, France and other French-speaking countries (Canada, Haiti, Belgium, Congo, etc.), and explore our many study abroad (http://uwm.edu/cie/study-abroad) opportunities. Students who enter UWM with advanced French can earn both a bachelor’s and master’s in 5 years to become a translator/interpreter.

Fluency in French can provide a career advantage in all types of professions including business, medicine, law, the arts, politics, government work, and more. The country of France is a leader in science and high-tech, architecture, fashion, and cuisine, making French fluency valuable in these industries as well.

At UWM, language students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of French in order to successfully apply their fluency.

Student with no previous experience in French will start in the introductory French language class; those who have studied French in high school should take the placement exam to determine if they can start at a higher level. Students who place in a higher-level course who subsequently complete that course with a “B” or better may receive retroactive credits for the courses that were skipped.

Requirements

The business French minor consists of a minimum of 18 credits taken in one of two tracks. The curriculum includes courses in business administration for non-business students and courses in the practical and professional use of the French language as well as understanding of Francophone culture for business students. Students must complete at least 9 upper-division (numbered 300 and above) credits in the minor in residence at UWM. The College requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work.

Substitutions for some course requirements are possible and may include internships with firms doing business in French-speaking countries (including Canada). Students also have the option of completing a Certificate in Business French offered by the Paris Chamber of Commerce. For further information, consult the French Program Coordinator.

Total Credits 18

¹ Students who place into FRENCH 303 and above, and therefore are exempt from taking FRENCH 203 and FRENCH 204, are expected to take 6 additional credits in language and culture at the 300 level and above.

² These courses satisfy GER Humanities distribution requirements.

### Contact Information

Current Students contact the Department directly, french-italian@uwm.edu

Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

https://uwm.edu/french/undergraduate/minor/

### Comparative Literature, BA

In the Comparative Literature major, students examine literature across languages, geographic location, time periods, and genres. The discipline also explores the relationship between literature and other forms of cultural expression such as pop culture, technology, arts, music, or film, as well as the relationship between literature and other academic disciplines, like anthropology, history, religious studies, or women's and gender studies. It's a great major for anyone who loves to explore other cultures.

Students sometimes ask whether they need to be fluent in a foreign language in order to study comparative literature. Definitely not! While all of UWM's instructors and faculty in comparative literature do research in other languages, all Comparative Literature courses are taught entirely in English. Comparative Literature majors choose one of two paths - one path that requires some literature courses be taken in a foreign language program, or another path where all classes are taught in English.

Our alumni can be found working in university and K-12 education, the arts, politics, law, library services, publishing, social services, journalism and communications, editorial roles, marketing, fundraising, corporate sales, consulting, and many other fields. Their knowledge and skills in cross-cultural communication, critical analysis, reading and comprehension of complex text, and writing are highly valued.

### Requirements

#### Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

**Part B**

Course designated as QL-B; may be completed through a major-specific course requirement

#### Arts

Select 3 credits

#### Humanities

Select 6 credits

#### Social Sciences
Select 6 credits | 6
---|---
**Natural Sciences**
Select 6 credits (at least two courses including one lab) | 6
---|---
**UWM Foreign Language Requirement**
Complete Foreign Language Requirement through:
- Two years (high school) of a single foreign language
- Two semesters (college) of a single foreign language
- Or equivalent
---|---
**UWM Cultural Diversity Requirement**
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

### College of Letters & Science Requirements

#### I. English Writing Requirement
Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

#### II. Mathematics and Formal Reasoning
To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 103</td>
<td>Contemporary Applications of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 105</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
</table>

Complete one of the following:

- 3 or more credits in any 200-level or above Math course
- AFRICOL 220 | Introduction to Statistics in Africology |
- ANTHRO 568 | Introduction to Anthropological Statistics |
- ATM SCI 500 | Statistical Methods in Atmospheric Sciences |
- BIO SCI 465 | Biostatistics |
- ECON 210 | Economic Statistics |
- GEOG 247 | Quantitative Analysis in Geography |
- HIST 595 | The Quantitative Analysis of Historical Data |
- MTHSTAT 215 | Elementary Statistical Analysis |
- PHILOS 211 | Elementary Logic |
- POL SCI 390 | Political Data Analysis |
- POL SCI 392 | Survey Research |
- PSYCH 210 | Psychological Statistics |
- SOCIOL 261 | Introduction to Statistical Thinking in Sociology |

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

#### III. Foreign Language Requirement
Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Completed in one of the following ways:</td>
<td>0-18</td>
</tr>
<tr>
<td></td>
<td>Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)</td>
<td></td>
</tr>
</tbody>
</table>

#### IV. International Requirement
See Approved Courses for the L&S International Requirement (p. 1169) for course options.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

<td>Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Complete 9 credits in combination of the two options above</td>
<td></td>
</tr>
</tbody>
</table>

#### V. Breadth Requirement
Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU); Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+ designation, L&S students must complete the Breadth requirement.

<table>
<thead>
<tr>

**VI. The Major**

The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

### Major Requirements

The program welcomes prospective majors who have maintained a minimum 2.500 GPA in their language and literature courses during the freshman and sophomore years. Prospective majors should meet with the Comparative Literature coordinator to declare the major. Students are assigned a Comparative Literature advisor in their primary areas of interest. The advisor helps students design plans of study tailored to their particular interests, academic goals, and professional aspirations.

Comparative literature majors are encouraged to take additional literature courses offered in languages other than English when possible. They also are encouraged to take additional courses outside of the program in the analysis of literature and other arts. In many cases, these courses may be counted toward the comparative literature major.

All CompLit courses and approved electives that a student takes will count in the Comparative Literature major. All CompLit courses and approved electives that a student takes will count in calculating the major GPA. The College of Letters and Science requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work.

The department offers two options for the major. Both major options require that, in their senior year, students complete a research project that focuses on major theoretical and critical trends in comparative literature. Students may fulfill this requirement by completing either COMPLIT 463 or COMPLIT 464.

### Credit Requirements

A total of 36 credits is required for the major, including COMPLIT 207 and COMPLIT 208 and at least 24 credits at the advanced level (numbered 300 and above). At least 15 of the advanced credits must be taken in residence at UWM. Students may count toward the major up to 6 credits in the following selected in consultation with their advisor.

#### Option A

This option is recommended particularly for students who intend to pursue graduate work in comparative literature. Option A students must complete the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMPLIT 207</td>
<td>Global Literature from Antiquity to the 1600s:</td>
<td>3</td>
</tr>
<tr>
<td>COMPLIT 208</td>
<td>Global Literature from the 17th Century to the Present:</td>
<td>3</td>
</tr>
<tr>
<td>COMPLIT 463 or COMPLIT 464</td>
<td>Literary Criticism: Major Authors or Seminar in Comparative Literary Criticism:</td>
<td>3</td>
</tr>
<tr>
<td>Select 9-12 credits in CompLit courses numbered 300 and above</td>
<td></td>
<td>9-12</td>
</tr>
<tr>
<td>Select 9-12 credits in advanced literature courses (numbered 300 and above) offered in a foreign language</td>
<td></td>
<td>9-12</td>
</tr>
</tbody>
</table>

#### Electives

Select 6 credits from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMPLIT 133</td>
<td>Contemporary Imagination in Literature and the Arts</td>
<td>3</td>
</tr>
<tr>
<td>COMPLIT 135</td>
<td>Experiencing Literature in the 21st Century:</td>
<td>3</td>
</tr>
<tr>
<td>COMPLIT 230</td>
<td>Literature and Society:</td>
<td>3</td>
</tr>
<tr>
<td>COMPLIT 231</td>
<td>Literature and Religion:</td>
<td>3</td>
</tr>
<tr>
<td>COMPLIT 232</td>
<td>Literature and Politics:</td>
<td>3</td>
</tr>
<tr>
<td>COMPLIT 233</td>
<td>Literature and Film:</td>
<td>3</td>
</tr>
<tr>
<td>CompLit courses numbered 300 and above</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits**

36

#### Option B

This option is offered for students with little if any training in a foreign language. Though such work normally is not considered as suitable
preparation for graduate work in comparative literature, Option B offers training that is useful and applicable in many academic and professional fields. Option B students must complete the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMPLIT 207</td>
<td>Global Literature from Antiquity to the 1600s:</td>
<td>3</td>
</tr>
<tr>
<td>COMPLIT 208</td>
<td>Global Literature from the 17th Century to the Present:</td>
<td>3</td>
</tr>
<tr>
<td>COMPLIT 463 or COMPLIT 464</td>
<td>Literary Criticism: Major Authors or Seminar in Comparative Literary Criticism:</td>
<td>3</td>
</tr>
</tbody>
</table>

Select 12 additional credits in CompLit courses numbered 300 and above
Select 9 credits in advanced courses (300 and above) in the analysis of literature or the other arts ¹

Electives
Select 6 credits from the following:
- COMPLIT 133 | Contemporary Imagination in Literature and the Arts
- COMPLIT 230 | Literature and Society.
- COMPLIT 231 | Literature and Religion.
- COMPLIT 232 | Literature and Politics.
- COMPLIT 233 | Literature and Film.

CompLit courses numbered 300 and above

Total Credits: 36

¹ Advanced courses (300 and above) in the analysis of literature or the other arts offered by CompLit or by other related departments and programs, with the approval of the CompLit advisor. This includes literature-in-translation courses offered by foreign language programs as well as courses in Art History, English, Film Studies, Philosophy, Religious Studies, or other disciplines that have as their focus the study of literature and/or the other arts.

Comparative Literature Advising
Students select a departmental advisor from Comparative Literature faculty and staff upon declaring a major or minor in Comparative Literature. Departmental advisors work closely with students to develop an individual course of study that will both match their interests and fulfill program requirements.

Letters & Science Advising
The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the “Declaration of Major” information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Honors in the College of Letters and Science
Dean's Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Contact Information
Current Students contact the Program directly, comp-lit@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

https://uwm.edu/comparative-literature/undergraduate/
Comparative Literature, Minor

Students examine literature across languages, geographic location, time periods, and genres by pursuing the comparative literature minor. The discipline also explores the relationship between literature and other forms of cultural expression such as pop culture, technology, arts, music, or film, as well as the relationship between literature and other academic disciplines, like anthropology, history, religious studies, or women's and gender studies. It’s a great major or minor for anyone who loves to explore other cultures.

Students sometimes ask whether they need to be fluent in a foreign language in order to study comparative literature. Definitely not! While all of UWM’s instructors and faculty in comparative literature do research in other languages, all Comparative Literature courses are taught entirely in English.

Requirements

The College of Letters & Science requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all credits attempted, including any transfer work. The minor requires 18 credits, including the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMPLIT 207</td>
<td>Global Literature from Antiquity to the 1600s:</td>

French and Francophone Studies, Undergraduate Certificate

Develop global perspectives sought by companies, educational institutions and NGOs in the US, France and other French-speaking countries (Canada, Haiti, Belgium, Congo, etc.), and explore our many study abroad opportunities. Students who enter UWM with advanced French can earn both a bachelor’s and master’s in 5 years to become a translator/interpreter.

Fluency in French can provide a career advantage in all types of professions including business, medicine, law, the arts, politics, government work, and more. The country of France is a leader in science and high-tech, architecture, fashion, and cuisine, making French fluency valuable in these industries as well.

At UWM, language students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of French in order to successfully apply their fluency.

Student with no previous experience in French will start in the introductory French language class; those who have studied French in high school should take the placement exam to determine if they can start at a higher level. Students who place in a higher-level course who subsequently complete that course with a “B” or better may receive retroactive credits for the courses that were skipped.

Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

Eligibility

The undergraduate certificate in French and Francophone Studies is open to all students seeking a bachelor’s degree from UWM, to students who previously received a bachelor’s degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. To be admitted to the University as non-degree students, individuals must meet regular University admission requirements. Students currently involved in baccalaureate studies who successfully complete the requirements of the program will be awarded the certificate at the time of graduation. Students who already have a bachelor’s degree and non-degree students receive the certificate upon completion of the program requirements. All students are required to complete an exit survey before the certificate is awarded.

Requirements

Students must achieve a grade point average of 2.750 or higher in the courses that satisfy the program requirements, and all such courses must be graded. They cannot be taken on a credit/no credit basis.

Certificate students who are majoring or minoring in French must take at least 9 credits outside the French curricular area.

Credits earned at other institutions in equivalent French and Francophone Studies courses will be accepted in partial fulfillment of the requirements. Students must obtain the approval of the certificate program committee to apply more than 9 credits from courses at other institutions to the UWM program.

Students currently enrolled at UWM who fulfilled some of the program’s requirements prior to its approval may have their credits applied retroactively toward the certificate.

To obtain a certificate in French and Francophone Studies with language proficiency, students must complete, as part of or in addition to the
certificate requirements, 9 credits in language, literature, or culture courses taught in French numbered 300 or above.

Students enrolled in the program must complete at least 18 credits from the list of courses (see below) approved for the certificate, including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>I.</td>
<td>Select 3 credits in a French language course numbered 200 or above</td>
<td>3</td>
</tr>
<tr>
<td>II.</td>
<td>Select 3 additional credits in humanities</td>
<td>3</td>
</tr>
<tr>
<td>III.</td>
<td>Select 6 credits in social sciences</td>
<td>6</td>
</tr>
<tr>
<td>IV.</td>
<td>Select 6 credits in courses dealing with Europe</td>
<td>6</td>
</tr>
<tr>
<td>V.</td>
<td>Select 6 credits in courses dealing with Francophone areas outside of Europe</td>
<td>6</td>
</tr>
</tbody>
</table>

**Total Credits:** 24

Of the courses taken to complete these requirements, 9 credits must be in courses numbered 300 or above.

**Exit Survey**

All students are required to complete an exit survey upon completion of their required coursework. The assessment process allows certificate students to reflect on their experiences while providing important information to help improve the program. The exit survey is conducted online for a limited period of time during the fall and spring semesters. Students who are about to complete or have finished all coursework should contact Tracy Buss (tbuss@uwm.edu) concerning the exit survey.

**Please Note:** The exit survey is a program requirement. Failure to complete the survey prior to graduation will delay processing of the graduation clearance.

**Approved Courses**

The following courses are approved to satisfy requirements for the French and Francophone Studies Certificate. The Roman numerals within the parentheses following each course title indicate the requirement(s), I through VI, for which the course counts. See the program coordinator for the most current list.

French, BA

Develop global perspectives sought by companies, educational institutions and NGOs in the U.S., France and other French-speaking countries (Canada, Haiti, Belgium, Congo, etc.), and explore our many study abroad (http://uwm.edu/cie/study-abroad) opportunities. Students who enter UWM with advanced French can earn both a bachelor’s and master’s in 5 years to become a translator/interpreter.

Fluency in French can provide a career advantage in all types of professions including business, medicine, law, the arts, politics, government work, and more. The country of France is a leader in science and high-tech, architecture, fashion, and cuisine, making French fluency valuable in these industries as well.

At UWM, language students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of French in order to successfully apply their fluency.

Student with no previous experience in French will start in the introductory French language class; those who have studied French in high school should take the placement exam to determine if they can start at a higher level. Students who place in a higher-level course who subsequently complete that course with a "B" or better may receive retroactive credits for the courses that were skipped.

Requirements

Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

College of Letters & Science Requirements

I. English Writing Requirement

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language).

### IV. International Requirement
See Approved Courses for the L&S International Requirement (p. 1169) for course options.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Complete in one of the following ways:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Complete 9 credits in combination of the two options above</td>
<td></td>
</tr>
</tbody>
</table>

### V. Breadth Requirement
Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD+/+) designation, L&S students must complete the Breadth requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Complete 3 credits</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Select 3 credits</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Humanities</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Complete 12 credits of L&amp;S courses with Humanities Breadth designation; no more than 6 credits from a single subject area.</td>
<td>12</td>
</tr>
<tr>
<td></td>
<td>Social Sciences</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Complete 12 credits of L&amp;S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area.</td>
<td>12</td>
</tr>
<tr>
<td></td>
<td>Natural Sciences</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Complete 12 credits of L&amp;S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area.</td>
<td>12</td>
</tr>
<tr>
<td></td>
<td>Cultural Diversity</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Complete 3 credits in a course with Cultural Diversity (CD) designation.</td>
<td>3</td>
</tr>
</tbody>
</table>

* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major
The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses
from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

**Research Requirement**
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

**Major Requirements**
The College of Letters and Science requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work.

The major in French consists of 27 credits, at least 15 numbered above 303 taken in residence at UWM. The department offers two options:

- French and Francophone Option
- French Translation Option

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

**Letters & Science Advising**
The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uw.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwu.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.
All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

**Honors in the College of Letters and Science**

**Dean's Honor List**
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Contact Information**
Current Students contact the program directly, french-italian@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu
https://uwm.edu/french/undergraduate/

**Italian, BA**

Italy has one of the ten largest economies in the world, and mastering Italian can open up a world of professional and personal opportunities.

Italian has more than 67 million native speakers worldwide. Some 120 million people speak Italian as a second language. In addition to serving as the official language of Italy, Italian is common in 29 countries, such as Switzerland, Germany, Belgium, North Africa, Brazil, Canada, and the United States.

Learning Italian serves as a gateway to a wide variety of career opportunities, in finance, marketing, journalism, translation, and computer programming. Italy is also a leader in the fields of air and water quality control, transportation technology, food and beverage fields, robotics, interior design and fashion.

The courses in the Italian Program are designed to help students become fluent in both the language and culture of Italy. On the very first day of class, students begin speaking Italian, and gain valuable communication skills as they progress through the Intermediate and advanced courses. Students may choose from an array of Italian courses on various topics that enable them to understand key turning points in Italian history, society and politics, cultural trends, and movements in such arts as film and literature. Italian courses contribute to such programs as Global Studies and the certificate program in Food Studies.

Student with no previous experience in French will start in the introductory French language class; those who have studied French in high school should take the placement exam to determine if they can start at a higher level. Students who place in a higher-level course who subsequently complete that course with a "B" or better may receive retroactive credits for the courses that were skipped.

**Requirements**
The College of Letters & Science requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work. At least 9 credits must be taken at the 300 level or above in residence at UWM.

The minor in French consists of a minimum of 18 credits as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>FRENCH 204</td>
<td>Fourth-Semester French (or equivalent)</td>
<td>3</td>
</tr>
<tr>
<td>FRENCH 303</td>
<td>Conversation and Composition: Intermediate Level (or equivalent)</td>
<td>3</td>
</tr>
<tr>
<td>FRENCH 332</td>
<td>Reading French Texts (or equivalent)</td>
<td>3</td>
</tr>
</tbody>
</table>

Select 9 credits in French literature, language, and culture above the 300 level

Total Credits: 18

**French, Minor**

Develop global perspectives sought by companies, educational institutions and NGOs in the US, France and other French-speaking countries (Canada, Haiti, Belgium, Congo, etc.), and explore our many study abroad (http://uwm.edu/cie/study-abroad) opportunities. Students who enter UWM with advanced French can earn both a bachelor's and master's in 5 years to become a translator/interpreter. Fluency in French can provide a career advantage in all types of professions including business, medicine, law, the arts, politics, government work, and more. The country of France is a leader in science and high-tech, architecture, fashion, and cuisine, making French fluency valuable in these industries as well.

At UWM, language students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of French in order to successfully apply their fluency.
Students are also encouraged to participate in UWM’s study abroad (http://uwm.edu/cie/study-abroad) program. Destinations are available in more than 70 sites around the world and vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

**Requirements**

**Course of Study – Bachelor of Arts Degree**

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

</tbody>
</table>

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement

**College of Letters & Science Requirements**

I. **English Writing Requirement**

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

*Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.*

II. **Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 103</td>

<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

*Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.*

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

<tr>
<td>MTHSTAT 215</td>
<td>Elementary Statistical Analysis</td>
<td></td>
</tr>
<tr>
<td>PHILOS 211</td>
<td>Elementary Logic</td>
<td></td>
</tr>
</tbody>
</table>
**III. Foreign Language Requirement**

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

**IV. International Requirement**

See Approved Courses for the L&S International Requirement (p. 1169) for course options.

**V. Breadth Requirement**

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+), Designation, L&S students must complete the Breadth requirement.

**VI. The Major**

The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

**Research Requirement**

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

**Major Requirements**

Students who wish to become Italian majors may do so once they have completed ITALIAN 104 or equivalent and by registering with the Italian major advisor. To be accepted and to continue as majors, they must maintain at least a 2.500 GPA in all Italian courses attempted at UWM. In addition, the College of Letters and Science requires students to attain a 2.500 GPA in all major credits attempted, including any transfer work.

ITALIAN 213 is recommended for Italian majors and minors. Students also are encouraged to take courses in other literatures and Comparative Literature.

The major in Italian may be completed in one of the following options:

**Option A (Italian)**

Students must complete 24 credits in Italian courses at the 300 level and above, with at least 15 taken in residence at UWM. The credits are distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ITALIAN 311</td>
<td>Advanced Conversation and Composition: Contemporary Italian Usage</td>
<td>3</td>
</tr>
<tr>
<td>ITALIAN 321</td>
<td>Introduction to Italian Literature</td>
<td>3</td>
</tr>
</tbody>
</table>
ITALIAN 322  Introduction to Italian Literature and Film  3
ITALIAN 457  Topics in Italian Literature and Culture in Translation: 1  3
Select 6 additional credits in advanced literature courses  6
Select 6 credits in Italian electives numbered 300 and above  6
Total Credits  24

1 Both options of the major require that students complete a research experience. To fulfill this requirement, students must complete, with a passing grade, ITALIAN 457 (subtitle). Students will conduct independent research related to the general theme of the course, presenting their research in a final 10- to 12-page paper.

Option B (Italian Studies)
At least 15 of the 38 credits must be earned in courses at the 300 level and above taken in residence at UWM. The credits are distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select 14 credits of first- and second-year Italian language</td>
<td>14</td>
<td></td>

<td></td>
</tr>
<tr>
<td>COMPLIT 231</td>
<td>Literature and Religion: (Italians and the Holocaust)</td>
<td></td>
</tr>
<tr>
<td>HIST 325</td>
<td>The Renaissance</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits  38

1 Both options of the major require that students complete a research experience. To fulfill this requirement, students must complete, with a passing grade, ITALIAN 457 (subtitle). Students will conduct independent research related to the general theme of the course, presenting their research in a final 10- to 12-page paper.

2 Please note, the advanced, 300-level Italian language courses ITALIAN 311, ITALIAN 312, ITALIAN 321, and ITALIAN 322 are not sequential, and may be taken in any order, for example ITALIAN 321 before ITALIAN 311.

Letters & Science Advising
The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Honors in the College of Letters and Science

Dean’s Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Italian, Minor

Italy has one of the ten largest economies in the world, and mastering Italian can open up a world of professional and personal opportunities.

Italian has more than 67 million native speakers worldwide. Some 120 million people speak Italian as a second language. In addition to serving as the official language of Italy, Italian is common in 29 countries, such as Switzerland, Germany, Belgium, North Africa, Brazil, Canada, and the United States.

Learning Italian serves as a gateway to a wide variety of career opportunities, in finance, marketing, journalism, translation, and computer programming. Italy is also a leader in the fields of air and water quality control, transportation technology, food and beverage fields, robotics, interior design and fashion.

The courses in the Italian Program are designed to help students become fluent in both the language and culture of Italy. On the very first day of class, students begin speaking Italian, and gain valuable communication skills as they progress through the intermediate and advanced courses. Students may choose from an array of Italian courses on various topics that enable them to understand key turning points in Italian history, society and politics, cultural trends, and movements in such arts as film and literature. Italian courses contribute to such programs as Global Studies and the certificate program in Food Studies.

Students are also encouraged to participate in UWM’s study abroad (http://uwm.edu/cie/study-abroad) program. Destinations are available in more than 70 sites around the world and vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

Requirements

At least 9 credits must be taken at the 300 level or above in residence at UWM. The College of Letters and Science requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work.

The Italian minor requires 18 credits distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ITALIAN 311</td>
<td>Advanced Conversation and Composition: Contemporary Italian Usage</td>
<td>3</td>
</tr>
<tr>
<td>ITALIAN 312</td>
<td>Contemporary Italian Language and Culture</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Select 12 additional credits within the Italian curricular area, including courses in language (beyond the first year), literature, film, culture, and civilization</td>
<td>12</td>
</tr>
<tr>
<td></td>
<td>Total Credits</td>
<td>18</td>
</tr>

GEORGEOGRAPHY

Geography is the study of the earth as created by natural forces and modified by human actions. It analyzes spatial patterns and locational associations of human and physical environments. It is concerned with people's interrelationships with their environments now, in the past, and in the future. The Department of Geography includes the Cartography and Geographic Information Science (GIS) Center and works closely with the American Geographical Society Library, one of the largest holdings of geographical materials in the world.

Programs

- Geographic Information Science, Minor (p. 1396)
- Geographic Information Systems, Graduate Certificate (College of Letters and Science) (p. 1403)
- Geography, BA (p. 1399)
- Geography, BS (p. 1403)
- Geography, MA (p. 1407)
- Geography, MA/Library and Information Science, MLIS (p. 1409)
- Geography, Minor (p. 1410)
- Geography, MS (p. 1410)
- Geography, PhD (p. 1413)

Geography Courses

GEOG 105 Introduction to Human Geography
3 cr. Undergraduate.
How humans interact with and alter the Earth through cultural, political, and economic processes; how these processes are dependent on and affect Earth's natural resources. 2 hrs lec, 1 hr dis.
Prerequisites: none.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

GEOG 110 The World: Peoples and Regions
3 cr. Undergraduate.
Introduction to regional cultural geography through a study of representative and significant areas of the earth.
Prerequisites: none.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

GEOG 114 Geography of Race in the United States
3 cr. Undergraduate.
Contemporary geographic issues of segregation, assimilation, belonging, and exclusion facing African-American, white, Asian, Latino, Native American and either groups in the U.S. 2 hrs lec, 1 hr dis.
Prerequisites: none.
General Education Requirements: CD, SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

GEOG 115 Globalization and Economic Development
3 cr. Undergraduate.
Geographic perspectives on world economy: geographic organization of contemporary production and consumption around the world; historical development of capitalist economy; economic geography of globalization processes.
Prerequisites: none.
General Education Requirements: SS
Last Taught: Fall 2012, Fall 2011, Fall 2010, Fall 2009.
Current Offerings: http://uwm.edu/schedule

GEOG 120 Our Physical Environment
3 cr. Undergraduate.
Characteristics and significance of world land form, climate, soils, vegetation, and mineral and water resources. 2 hrs lec, 2 hrs lab/dis.
Prerequisites: none.
Course Rules: Not open for cr to students w/cr in Geog 121(ER), 122(ER).
Required all-day field trip for which fee is assessed.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

GEOG 125 Introduction to Environmental Geography
3 cr. Undergraduate.
Introduction to environmental geography and related environmental problems aimed at understanding of the earth's systems in our daily encounter with them.
Prerequisites: none.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

GEOG 128 Introduction to Caves and Caving
3 cr. Undergraduate.
An introduction to the science of speleology, to the underground world of caves, and to the techniques and history of caving.
Prerequisites: none.
General Education Requirements: NS
Last Taught: Spring 2018, Fall 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

GEOG 140 Our Urban Environment: Introduction to Urban Geography
3 cr. Undergraduate.
Site and situation, central functions, spatial patterns of socio-economic and demographic characteristics of urban population. Spatial patterns of urban economy.
Prerequisites: none.
General Education Requirements: SS
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

GEOG 193 First-Year Seminar
3 cr. Undergraduate.
The specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule
GEOG 194 First-Year Seminar
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

GEOG 199 Independent Study
1-3 cr. Undergraduate.
For further information, consult dept chair.
Prerequisites: 2.5 gpa; writ cons instr, dept chair & asst dean for SAS.
Course Rules: May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

GEOG 213 Geography of Asia
3 cr. Undergraduate.
Population, resources, development, and diversity. Regions discussed are East Asia, Southeast Asia, South Asia, and Central Asia.
Prerequisites: soph st.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

GEOG 214 Wisconsin
3 cr. Undergraduate.
Regional examination of physical features, resources, people, land utilization, and economic development.
Prerequisites: soph st.
Current Offerings: http://uwm.edu/schedule

GEOG 215 Introduction to Geographic Information Science
3 cr. Undergraduate.
Geographic objects, their representation and analysis. Topics include special nature of spatial data; concepts of space, mapping, spatial relationships; and use of geographic information systems. 2 hrs lec, 2 hrs lab.
Prerequisites: none.
Current Offerings: http://uwm.edu/schedule

GEOG 216 Geography of the United States and Canada
3 cr. Undergraduate.
Physical features, resources, peoples, and utilization and economic development of the United States and Canada.
Prerequisites: soph st.
Current Offerings: http://uwm.edu/schedule

GEOG 225 The Language of Maps
3 cr. Undergraduate.
Maps as a visual language. An introduction to their making, conventions, distortions, use, and significance in society. Historical examples.
Prerequisites: soph st.
Current Offerings: http://uwm.edu/schedule

GEOG 231 Muslim Geographies: Identities and Politics
3 cr. Undergraduate.
Origin and main features of Islam and the diversity of Muslim cultures in various geographical, social, cultural, and political contexts.
Prerequisites: none.
General Education Requirements: SS, SS
Last Taught: Spring 2017, Fall 2015, Fall 2014, Spring 2013.
Current Offerings: http://uwm.edu/schedule

GEOG 247 Quantitative Analysis in Geography
3 cr. Undergraduate.
Application of quantitative measures to geographic problems. Topics include descriptive statistics, statistical inference, and bivariate relationships. 2 hrs lec, 2 hrs lab.
Prerequisites: Math 105(P).
General Education Requirements: QLB
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

GEOG 253 Austria: The Second German State
1 cr. Undergraduate.
Lands and people of Austria; climate, soils, and mineral resources; settlements and economy; the role of Austria today.
Prerequisites: soph st.
Current Offerings: http://uwm.edu/schedule

GEOG 261 Africa: Topical Analysis
3 cr. Undergraduate.
Countries south of the Sahara.
Prerequisites: soph st.
Current Offerings: http://uwm.edu/schedule

GEOG 289 Internship in Geography, Lower Division
1-6 cr. Undergraduate.
Application of basic principles of geography in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: intro course in Geog; 2.25 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hours in internship. May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

GEOG 296 UROP Apprenticeship
1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with a supervising member of the faculty or staff.
Prerequisites: acceptance into UROP; prior or conc reg in UROP seminar.
Course Rules: One credit for 45 hrs research. May be retaken to 9 cr max in any combination of UROP apprenticeship courses. Not open to jrs & srs.
Last Taught: Fall 2005.
Current Offerings: http://uwm.edu/schedule
GEOG 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course
work level, content and credits are determined and/or in specially
prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2017, Fall 2014, Spring 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

GEOG 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Requires only dept & assoc dean approval. In exceptional circumstances,
can be offered in one add'l sem.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

GEOG 304 Human Impact on the Environment
3 cr. Undergraduate.
Geographical and temporal distribution of human effects on land and
resources; historical background of human concern for deleterious
effects of impacts on environments.
Prerequisites: jr st; intro course in Geog or a life sci recom.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

GEOG 306 Natural Hazards
3 cr. Undergraduate.
An introduction to processes and conditions responsible for natural
hazards, reasons for geographic patterns of hazards’ occurrence, and
modes of adjustment to natural hazards.
Prerequisites: jr st; a physical geog course recom.
General Education Requirements: NS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

GEOG 309 Nationalities and Nations of the World
3 cr. Undergraduate.
Nationalities, nations and changing borders of countries. Emigration and
immigration. Cultural diffusion, languages and folk and popular culture.
Prerequisites: jr st; 100-level course in Geog or Ethnic recom.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

GEOG 310 General Climatology
3 cr. Undergraduate.
Global patterns of climate and the processes that shape them. Climatic
elements, upper-atmospheric waves, internet data, Midwest climate,
climate classification, and climate change.
Prerequisites: jr st; Geog 120(R), Atm Sci 100(R), or Atm Sci 240(R).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

GEOG 311 Environmental Analysis
3 cr. Undergraduate.
Use of aerial photographs and digital imagery in environmental analysis,
including urban areas. 3 hrs lec; 2 hrs lab. PC/Windows familiarity recom.
Prerequisites: jr st & Geog 215(P).
Current Offerings: http://uwm.edu/schedule

GEOG 313 Advanced GIS
4 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course
work level, content and credits are determined and/or in specially
prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2017, Fall 2014, Spring 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

GEOG 314 Conservation of Natural Resources
3 cr. Undergraduate.
Analysis of environmental ethics; the positive and negative
consequences of resource development with emphasis on strategies
designed to resolve environmental conflicts.
Prerequisites: jr st or a geog course.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

GEOG 315 Cultural Diffusion
3 cr. Undergraduate.
Cultural diffusion, languages and folk and popular culture.
Prerequisites: jr st; Geog 105(P), 110(P), 114(P), or 140(P).
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

GEOG 330 Europe: East and West
3 cr. Undergraduate.
Europe’s lands and peoples, physical and cultural diversities and
similarities.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

GEOG 332 China: Peoples, Regions, and Development
3 cr. Undergraduate.
Geographic examination and explanation of change in China, including
population, resources, development processes, environment, diverse
cities and regions, and integration into the global economy.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

GEOG 340 Biogeography
3 cr. Undergraduate.
An introduction to the geography of the biosphere, the earth's surface,
and the plants and animals which live there.
Prerequisites: jr st; a physical geog or a biology course recom.
Last Taught: Spring 2018, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

GEOG 350 Conservation of Natural Resources
3 cr. Undergraduate.
Analysis of environmental ethics; the positive and negative
consequences of resource development with emphasis on strategies
designed to resolve environmental conflicts.
Prerequisites: jr st or a geog course.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

GEOG 351 Population, Environment, Development
3 cr. Undergraduate/Graduate.
Population processes and policies in different geographical contexts:
fertility, mortality, migration, and policies affecting these; population-
environment relations; interactions of population and economic
development.
Prerequisites: jr st; Geog 120(R), Atm Sci 100(R), or Atm Sci 240(R).
Current Offerings: http://uwm.edu/schedule

GEOG 381 Honors Seminar:
3 cr. Undergraduate.
Selected topics in geography.
Prerequisites: soph st; Honors200(P); cons Honors College dir.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

GEOG 400 Population, Environment, Development
3 cr. Undergraduate/Graduate.
Population processes and policies in different geographical contexts:
fertility, mortality, migration, and policies affecting these; population-
environment relations; interactions of population and economic
development.
Prerequisites: jr st; Geog 120(R), Atm Sci 100(R), or Atm Sci 240(R).
Current Offerings: http://uwm.edu/schedule

GEOG 403 Remote Sensing: Environmental and Land Use Analysis
4 cr. Undergraduate.
Use of aerial photographs and digital imagery in environmental and land
use analysis, including urban areas. 3 hrs lec; 2 hrs lab. PC/Windows
familiarity recom.
Prerequisites: jr st & Geog 215(P).
Current Offerings: http://uwm.edu/schedule
GEOG 405 Cartography
4 cr. Undergraduate.
Thematic cartography; map communication, design principles, illustration and mapping software. 3 hrs lec, 2 hrs lab.
Prerequisites: jr st & Geog 215(P).
Current Offerings: http://uwm.edu/schedule

GEOG 410 Gendered Geographies
3 cr. Undergraduate/Graduate.
Various ways feminist geographers have analyzed gender in relation to phenomena such as the body, home, work, the nation, colonization, and globalization.
Prerequisites: jr st & one of Geog 105(P) or 110(P) or Wmns 200(P) or 201(P) or equiv, or grad st.
Current Offerings: http://uwm.edu/schedule

GEOG 411 Physical Climatology
3 cr. Undergraduate/Graduate.
Analyzing climatic processes at the microclimate scale. Budgets of radiation, energy, water, and momentum at the earth's surface, sensible-latent heat, and soil-plant-atmosphere interactions.
Prerequisites: jr st, Geog 120(P) or Atm Sci 100(P) or 240(P), & Geog 310(R), or grad st.
Last Taught: Fall 2006, Fall 2003.
Current Offerings: http://uwm.edu/schedule

GEOG 415 Hydrogeography
3 cr. Undergraduate/Graduate.
Role of water in geographic systems. Interaction of water with physical and human systems, key hydrological processes, spatial and temporal variations of water, data collection, modeling.
Prerequisites: jr st, Geog 120(P) or 125(P), & Geog 215(P); or grad st.
Last Taught: Fall 2015, Fall 2013, Spring 2012, Spring 2011.
Current Offerings: http://uwm.edu/schedule

GEOG 420 Methods and Principles in Land Form Geography
3 cr. Undergraduate/Graduate.
Geographic qualitative and quantitative methods in land form analysis and principles of landscape evolution.
Prerequisites: jr st & Geog 120(P) or 121(P) or Geo Sci 100(P).
Current Offerings: http://uwm.edu/schedule

GEOG 421 Geography of Latin America
3 cr. Undergraduate/Graduate.
Topical and regional analysis of physical features, discovery and exploration, processes of settlement, evolution of the landscape, and problems of development through modern times.
Prerequisites: jr st & Geog 110(P) or 120(P) or 125(P); or grad st.
Current Offerings: http://uwm.edu/schedule

GEOG 424 Karst Geomorphology
3 cr. Undergraduate/Graduate.
Description and analysis of karst (limestone) processes and landforms.
Prerequisites: jr st, Geog 004(P), 120(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

GEOG 430 Geography of Transportation
3 cr. Undergraduate.
Geographic analysis of transportation, with emphasis on commodity flows and traffic patterns.
Prerequisites: jr st, Geog 115(P).
Current Offerings: http://uwm.edu/schedule

GEOG 437 Qualitative Methods in Geography
3 cr. Undergraduate.
Research design, interview, focus group, ethnography, survey, and discourse analysis; epistemological debates and the methodological and ethical issues that arise throughout the research process.
Prerequisites: jr st; Geog 105(P), 110(P), 114(P), or 140(P).
Current Offerings: http://uwm.edu/schedule

GEOG 441 Geography of Cities and Metropolitan Areas
3 cr. Undergraduate/Graduate.
Extent, localization, and geographic relations of land uses, facilities, and internal circulation, with particular reference to large North American cities.
Prerequisites: jr st & intro course in geog or acceptable course in an urban related field, e.g. Econ, UrbPlan, Urb Std; or grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

GEOG 443 Cities of the World: Comparative Urban Geography
3 cr. Undergraduate/Graduate.
Geographic analysis of world urban systems with emphasis on the cultural traditions, form, function and socio-economic development of cities.
Prerequisites: jr st & Geog 110(P), 115(P), or 140(P).
Current Offerings: http://uwm.edu/schedule

GEOG 450 Climates of the Past and Climate Change
3 cr. Undergraduate/Graduate.
Climatic history of the earth and climate models. Milankovitch theory, quaternary climates, temporal-spatial scales of change, general circulation, and earth system models.
Prerequisites: jr st, Geog 120(P) or Atm Sci 100(P) or 240(P), & Geog 310(R), or grad st.
Current Offerings: http://uwm.edu/schedule

GEOG 455 Applied Climatology
3 cr. Undergraduate.
Applications of climate processes and data. Solar energy, wind energy, food production, water usage, building design, urban environments, ecological assessment, and land form development.
Prerequisites: jr st, Geog 120(P) or Atm Sci 100(P) or 240(P), & Geog 310(R); or grad st.
Current Offerings: http://uwm.edu/schedule
Geography

GEOG 462 Cultural Geography of Latin America
3 cr. Undergraduate/Graduate.
Development of cultural landscapes, with emphasis on land use and environmental change resulting from European introductions; historical explanation of modern landscapes and environmental problems.
Prerequisites: jr st; one of Geog 105(P), 110(P), 421(P), 422(P), Hist 180(P), 388(P), 389(P), or 390(P).
Current Offerings: http://uwm.edu/schedule

GEOG 464 Environmental Problems
3 cr. Undergraduate/Graduate.
General discussion and case studies of geographical contexts and historical roots of modern environmental problems. History of human concern over adverse environmental impacts.
Prerequisites: jr st & an intro course in a life science or environmental science.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

GEOG 470 Geography of South Asia
3 cr. Undergraduate/Graduate.
Survey of the historical, cultural and economic geography of South Asia, including India and adjacent countries.
Prerequisites: jr st; intro Geog, Anthro, or Econ course.
Current Offerings: http://uwm.edu/schedule

GEOG 475 Geography of Soils
3 cr. Undergraduate/Graduate.
Systematic and regional study of soils, interrelationships of soils with the physical and cultural landscape. 2 hrs lec, 2 hrs lab.
Prerequisites: jr st; Geog 120(P), 121(P), or 125(P) or equiv.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

GEOG 489 Internship in Geography, Upper Division
1-6 cr. Undergraduate.
Application of advanced principles of geography in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; 300-level or above course in Geog; 2.25 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hours in internship. May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

GEOG 496 UROP Apprenticeship, Upper Level
1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with a supervising member of the faculty or staff. One credit for 45 hrs research.
Prerequisites: jr st; acceptance to UROP.
Course Rules: May be retaken to 9 cr max.
Current Offerings: http://uwm.edu/schedule

GEOG 497 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM sponsored program before course work levels, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Summer 2017, Summer 2016, Spring 2016, Fall 2014.
Current Offerings: http://uwm.edu/schedule

GEOG 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l sem.
Prerequisites: jr st; add’l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 1999.
Current Offerings: http://uwm.edu/schedule

GEOG 515 Watershed Analysis and Modeling
3 cr. Undergraduate.
Theories and applications of analytical and modeling techniques for watershed processes, including geographic information systems (GIS), statistics, and computer simulations.
Prerequisites: jr st; working knowledge of GIS; Geog 415(R) or Geo Sci 463(R) or 562(R).
Last Taught: Fall 2016, Spring 2014.
Current Offerings: http://uwm.edu/schedule

GEOG 520 Physical Geography of the City
3 cr. Undergraduate/Graduate.
Spatial aspects and interactions of plants, animals, climate, soils, and water resources relevant to human activities in the urban environment.
Prerequisites: jr st & Geog 120(P) or 125(P); or grad st.
Last Taught: Spring 2013, Fall 2010, Fall 2008, Spring 2006.
Current Offerings: http://uwm.edu/schedule

GEOG 525 Geographic Information Science
4 cr. Undergraduate.
Geographic and information theoretical foundations of geographic information science (GIS). Use of macro languages in a software project to expand GIS functionality. 3 hrs lec, 2 hrs lab.
Prerequisites: jr st, & Geog 215(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

GEOG 531 Insurgent Cities - Global Geographies of Urban Social Movements
3 cr. Undergraduate.
Current and past social movements, activism, resistance, and revolution and their multiscalar geographies, from the urban, to the national, to the global.
Prerequisites: jr st.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule
GEOG 540 Globalization and the City
3 cr. Undergraduate/Graduate.
Spatial aspects of globalization and their impact on the city. Topics include emergence of global cities, impacts on urban development, and global urban strategies.
Prerequisites: jr st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

GEOG 547 Spatial Analysis
4 cr. Undergraduate.
Advanced analysis techniques, including multivariate relationships and spatial modeling.
Prerequisites: jr st; Geog 247(P) or dept-approved equiv.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

GEOG 564 Urban Environmental Change and Social Justice
3 cr. Undergraduate/Graduate.
Spatial aspects of contributors to urban environmental change affecting social justice. Inequitable distribution of environmental risks and benefits; challenge of developing policies.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

GEOG 600 Perspectives on Geography
3 cr. Undergraduate.
Seminar on concepts, methods, and approaches to geographic inquiry. Discussion of professional geographic materials, bibliographic procedures and methodologies.
Prerequisites: sr st; declared geography major; writ cons instr.
Current Offerings: http://uwm.edu/schedule

GEOG 625 Intermediate Geographic Information Science
4 cr. Undergraduate.
Concepts and techniques of geographic information science (GIS), with emphasis on GIS-based spatial analysis, associated applications, and technology. 3 hrs lec, 2 hrs lab.
Prerequisites: jr st; Geog 525(P) or UrbPlan 591(P) or 791(P); or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

GEOG 647 ArcGIS Programming with Python
4 cr. Undergraduate.
Fundamentals of Python programming language; focus on programming designed to automate ArcGIS geoprocessing tasks, manipulate spatial data (including geometries and rasters), and create customized tools.
Prerequisites: jr st; C+ or better in Geog 525(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

GEOG 650 Geography Field Work
3 cr. Undergraduate/Graduate.
Geographic field techniques and field problems; classroom preparations and field projects.
Prerequisites: jr st; writ cons instr.
Course Rules: Students will pay fieldwork expenses. May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

GEOG 654 Tropical Field Course:
3 cr. Undergraduate/Graduate.
Study of geographic field problems and techniques in the tropics. Classroom preparations, field projects and field trip to the tropics.
Prerequisites: jr st; writ cons instr.
Course Rules: Students will pay field trip expenses. May be retaken for cr w/chg of field topic & site to 9 cr max.
Current Offerings: http://uwm.edu/schedule

GEOG 696 Independent Work in Physical Geography
1-3 cr. Undergraduate.
Independent reading or project on a physical geography topic under the supervision of a geography faculty member.
Prerequisites: jr st; 2.5 GPA; writ cons instr & dept chair.
Course Rules: May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

GEOG 699 Independent Work
1-3 cr. Undergraduate.
Independent reading or project. See Advanced Independent Study.
Prerequisites: jr st, 2.5 gpa, & writ cons instr & dept chair & asst dean for SAS.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

GEOG 704 Remote Sensing: Environmental and Land Use Analysis
4 cr. Graduate.
Use of aerial photographs and digital imagery in environmental and land use analysis, including urban areas. 3 hrs lec; 2 hrs lab
Prerequisites: PC/Windows familiarity recom.
Current Offerings: http://uwm.edu/schedule

GEOG 705 Cartography
4 cr. Graduate.
Thematic cartography; map communication, design principles, illustration and mapping software. 3 hrs lec; 2 hrs lab.
Prerequisites: grad st.
Course Rules: Counts as repeat of Geog 405. Not open for cr to students w/grad cr in Geog 405.
Current Offerings: http://uwm.edu/schedule

GEOG 716 Watershed Analysis and Modeling
3 cr. Graduate.
Theories and applications of analytical and modeling techniques for watershed processes, including geographic information systems (GIS), statistics, and computer simulations.
Prerequisites: grad st; working knowledge of GIS.
Course Rules: Not open for cr to students w/grad cr in Geog 515.
Current Offerings: http://uwm.edu/schedule
GEOG 726 Geographic Information Science
4 cr. Graduate.
Geographic and information theoretical foundations of geographic information science (GIS). Use of macro languages in a software project to expand GIS functionality. 3 hrs lec, 2 hrs lab.

Prerequisites: grad st.
Course Rules: Not open for cr to students w/ grad cr in Geog 525.
Current Offerings: http://uwm.edu/schedule

GEOG 730 Geography of Transportation
3 cr. Graduate.
Geographic analysis of transportation, with emphasis on commodity flows and traffic patterns.

Prerequisites: grad st.
Course Rules: Not open for cr to students w/ grad cr in Geog 430.
Current Offerings: http://uwm.edu/schedule

GEOG 731 Insurgent Cities - Theorizing geographies of social movements
3 cr. Graduate.
Investigation into how social movements use and produce various spatialities, in relation to state forms, other social movements and forces, media assemblages, the built environment

Prerequisites: grad st.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

GEOG 742 Urban and Regional Dimensions of Globalization
3 cr. Graduate.
Geographic perspectives on urban and regional change as 'developed' and 'less developed' parts of the world become more interconnected by wider international processes of change.

Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

GEOG 744 Cities, Regions, and Globalization
3 cr. Graduate.
Globalization process and impact on cities and regions, including emergence of global cities and regions, impact on uneven development, and global era urban strategies.

Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

GEOG 747 Spatial Analysis
4 cr. Graduate.
Advanced analysis techniques, including multivariate relationships and spatial modeling.

Prerequisites: grad st
Course Rules: Not open for cr to students w/ grad cr in Geog 547.
Current Offerings: http://uwm.edu/schedule

GEOG 748 ArcGIS Programming with Python
4 cr. Graduate.
Fundamentals of Python programming language; focus on programming designed to automate ArcGIS geoprocessing tasks, manipulate spatial data (including geometries and rasters), and create customized tools.

Prerequisites: grad st; Geog 726(P).
Course Rules: Not open for cr to students w/ grad cr in Geog 647.
Current Offerings: http://uwm.edu/schedule

GEOG 798 GIS/Cartography Internship
1-4 cr. Graduate.
Practical GIS/cartography experience with government agency or private firm under supervision of working expert and faculty member. Intern's contract specifies duties and duration.

Prerequisites: grad st; writ cons instr & dept chair
Course Rules: May be retaken to 8 cr max.
Current Offerings: http://uwm.edu/schedule

GEOG 804 Advanced Remote Sensing
3 cr. Graduate.
Advanced techniques of image processing and analysis, including classification, georegistration, and spatial modeling.

Prerequisites: grad st; Geog 704(P)
Course Rules: Counts as a repeat of Geog 703.
Current Offerings: http://uwm.edu/schedule

GEOG 810 Introduction to Techniques of Research and Presentation
3 cr. Graduate.
Proseminar on the scholarly use of materials in all aspects of geography; training for effective presentation in both written and oral form.

Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2014, Fall 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

GEOG 826 Intermediate Geographic Information Science
4 cr. Graduate.
Concepts and techniques of geographic information science (GIS), with emphasis on GIS-based spatial analysis, associated applications, and technology. 3 hrs lec, 2 hrs lab.

Prerequisites: grad st; Geog 525(P) or Geog 726(P) or UrbPlan 591(P) or UrbPlan 791(P).
Course Rules: Counts as a repeat of Geog 625. Not open for cr to students w/grad cr in Geog 625.
Current Offerings: http://uwm.edu/schedule

GEOG 827 Qualitative Research
3 cr. Graduate.
Qualitative research as applied in geography, including the relationship between quantitative and qualitative approaches, issues of interpretation, and ethics of field work.

Prerequisites: grad st.
Last Taught: Spring 2017, Spring 2015, Spring 2013, Fall 2010.
Current Offerings: http://uwm.edu/schedule

GEOG 834 GIS and Society
3 cr. Graduate.
Interconnected relationship between Geographic Information Science (GIS) and society, including hidden impacts and implications of such a relationship.

Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

GEOG 870 Contemporary Geographic Approaches
3 cr. Graduate.
Foundations of geographic inquiry, with emphasis on the roles of subdisciplines, and generalist/specialist approaches in the development of geographic science.

Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 6 cr max.
Last Taught: Fall 2016, Fall 2014, Fall 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule
GEOG 880 Urban Sustainability
3 cr. Graduate.
Urban sustainable challenges and opportunities that impact the built environment. Includes review of traditional and innovative sustainable practices and regulations
Prerequisites: grad st.
Course Rules: Jointly-offered w/ Urb Plan 880.
Current Offerings: http://uwm.edu/schedule

GEOG 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirements.
Prerequisites: grad st.
Course Rules: Fee assessed for 1 cr.
Last Taught: Summer 2015, Summer 2014, Fall 2013, Spring 2013.
Current Offerings: http://uwm.edu/schedule

GEOG 889 Internship in Geography
1-6 cr. Graduate.
Application of advanced principles of geography in a business, organizational, educational, political, or other appropriate setting. Intern's contract specifies duties and duration.
Prerequisites: grad st; Geog 810(P); writ cons instr & dept chair.
Course Rules: Retakable to 6 cr max.
Last Taught: Spring 2015, Fall 2014, Fall 2013, Spring 2013.
Current Offerings: http://uwm.edu/schedule

GEOG 890 Research and Master Thesis
1-6 cr. Graduate.
Research connected with master thesis.
Prerequisites: grad st.
Course Rules: Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

GEOG 904 Remote Sensing and Urban Analysis
3 cr. Graduate.
Seminar in remote sensing technologies and applications in urban analyses, including land use/land cover analysis, socio-economic information estimation, heat-island effect, sprawl monitoring, and growth modeling.
Prerequisites: grad st; Geog 403(P) or Geog 704(P); Geog 525(P) or Geog 726(P) or UrbPlan 591(P) or 791(P).
Last Taught: Fall 2015, Spring 2012.
Current Offerings: http://uwm.edu/schedule

GEOG 905 Seminar: Selected Topics in Geography
3 cr. Graduate.
Prerequisites: grad st.
Course Rules: Retakable w/topic chg to 9 cr max.
Last Taught: Fall 2017, Fall 2016, Spring 2015, Spring 2014.
Current Offerings: http://uwm.edu/schedule

GEOG 910 Techniques of Research and Presentation
3 cr. Graduate.
Seminar on theoretical and practical aspects of geographic research, funding, presentation, and publication.
Prerequisites: grad st in Geog Ph.D. program.
Last Taught: Fall 2017, Fall 2014, Fall 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

GEOG 926 Advanced Geographic Information Science: Geographic Modeling
3 cr. Graduate.
Advanced spatial modeling with both GIS and other tools of geocomputation, including examination of conceptual models aimed at an analysis of their possible implementation.
Prerequisites: grad st; Geog 826(P).
Course Rules: Counts as a repeat of Geog 725.
Current Offerings: http://uwm.edu/schedule

GEOG 932 Seminar: Economic Geography:
3 cr. Graduate.
Analysis in depth of significant topics in advanced economic geography specializations: agricultural geography, geography of manufacturing, and geography of transportation.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

GEOG 934 Seminar: Urban Geography:
3 cr. Graduate.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

GEOG 940 Seminar: Physical Geography:
3 cr. Graduate.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

GEOG 941 Seminar: Climatology:
3 cr. Graduate.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

GEOG 942 Seminar: Geography of Land Form:
3 cr. Graduate.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

GEOG 945 The Internal Structure of the City
3 cr. Graduate.
The interaction of forces responsible for the evolution of the city as a spatial form and the allocation of economic and social activity within the spatial configuration.
Prerequisites: grad st.
Course Rules: Geog 945 & Urb Std 945 are jointly-offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule
Geographic Information Science, Minor

The Geographic Information Science (GIS) minor is available to students who want to learn GIS without majoring in geography. GIS refers to working with spatial data, which is useful in many fields, including urban planning, environmental analysis, cartography, retail and real estate, health, and military intelligence.

Requirements

The GIS minor requires the completion of a minimum of 18 credits, at least 9 of them at the 300 level or above taken in residence at UWM. The College of Letters & Science requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work. The following are required:

<table>

Total Credits 18

Contact Information

Current Students contact Associate Professor Kristin Sziarto at sziarto@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

http://uwm.edu/geography/undergraduate/minor-in-gis/

Geographic Information Systems, Graduate Certificate (College of Letters and Science)

The Certificate in Geographic Information Systems is designed for those individuals seeking careers as GIS specialists, providing geographic data management, spatial analysis, and GIS system management support to professionals in a broad range of disciplines, such as criminal justice, health services, city and regional planning, civil and environmental engineering, transportation, and marketing. Certificate holders will seek employment in positions such as "GIS Specialist," "GIS Analyst," or "GIS Coordinator."

The School of Architecture and Urban Planning, and the College of Letters and Science jointly offer the certificate. The core courses (12 credits) focus on the structure of geographic data, components for managing geographic information systems, spatial analysis, and delivery of geographic information through maps and displays. Students select the remaining 6 credits for the certificate from electives, which may include an internship, in areas such as remote sensing, map-making, and data management systems.

Upon completion of the certificate courses, a student is awarded the certificate which qualifies for 5 credential points in the GIS Certification Institute's standards for professional certification in GIS.

Application Deadlines
If at any time you are unsure about a published date or deadline (http:// uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/ contact-us) online.

Application
• Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
• All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
• Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
• Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

Credits and Courses
A minimum of 6 credits each in Urban Planning and Geography courses are required for completion of the certificate. To earn the Certificate, one must complete six semester-long courses (with a minimum of 18 credits), satisfy graduate school criteria for successful completion and maintain at least a B (3.00) average among the following courses:

Total Credits: 18

Other courses as approved by the GIS Certificate Advisory Committee chairperson

Students will be advised by the Geography and Urban Planning faculty who teach GIS courses.

### Transfer Credit

No more than 20% of the required credits may be taken at an institution other than UWM. To be eligible for transfer, the course must have been completed within the last 2 years. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

### Grade Point Average Requirement

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

### Articulation with Degree Programs

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   - Degree programs must approve the courses from certificates that can double count toward the degree.
   - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.

3. A course may count toward no more than one certificate and one degree.

4. Students may not earn a certificate subsequent to a concentration in the same area.

### Time Limit

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

### Gainful Employment Disclosure Information

- UWM Financial Aid Gainful Employment (http://uwm.edu/financialaid/apply-for-aid/eligibility/non-degree-students/#primary)
• Gainful Employment Disclosure Information (http://www4.uwm.edu/LS/ge-dis/gis/45.0702-Gedt.html)

Geography, BA

In high school, your Geography class probably focused on maps and locations. But, the field is so much broader than that. Geography bridges the physical and human world, using scientific methods to explain and predict people’s impact on the planet and the planet’s impact on people.

UWM’s Geography students graduate with an exceptional ability to intellectually and technologically process spatial data about space, place, and people and how they relate to each other. They understand how to make sense of seemingly unrelated pieces of information by bringing together facts and diverse values. They also are adept at presenting information visually - for example, maps!

Some examples of research topics being tackled by today’s geographers include climate change, population shifts, land use patterns, and animal migration. These are all examples of how geographers focus on human’s relationship with man-made and natural environments.

Geographic Information Science (GIS) is a growing specialty within geography. GIS is a technology-based system for capturing, storing, and checking different types of data in relation to its position on Earth. It is a tool that enhances decision-making in both the private and public sector. For example, a rural town in the Rocky Mountains may use GIS data to determine where and when to place fire stations and personnel based on the patterns of forest fires and permanent and tourist populations. A corporation may use GIS to plan the location and layout of a new store based on shopping and traffic patterns.

At UWM, students can focus on GIS within the major, or choose another specialty track: urban geography with a focus on cities; environmental geography for those interested in natural resources; or physical systems with an emphasis on the natural features of earth such as climate, soil, and plants. Or, students can take the broad major and explore a little bit of each of these areas.

Related Programs

For the teaching major and minor, see the School of Education (p. 426) section of this catalog. A related special major is International Studies (p. 1490). Related certificate programs include Asian Studies (p. 1052), Latin American, Caribbean, and U.S. Latin@ Studies (p. 1550), and Middle Eastern and North African Studies (p. 1636).

Requirements

Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

College of Letters & Science Requirements

I. English Writing Requirement

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:
1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 103</td>
<td>Contemporary Applications of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 105</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

*Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.*

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>
<td></td>
</tr>
<tr>
<td>ANTHRO 568</td>
<td>Introduction to Anthropological Statistics</td>
<td></td>
</tr>
<tr>
<td>ATM SCI 500</td>
<td>Statistical Methods in Atmospheric Sciences</td>
<td></td>
</tr>
<tr>
<td>BIO SCI 465</td>

<tr>
<td>POL SCI 390</td>
<td>Political Data Analysis</td>
<td></td>
</tr>
<tr>
<td>POL SCI 392</td>
<td>Survey Research</td>
<td></td>
</tr>
<tr>
<td>PSYCH 210</td>
<td>Psychological Statistics</td>
<td></td>
</tr>
<tr>
<td>SOCIOL 261</td>
<td>Introduction to Statistical Thinking in Sociology</td>
<td></td>
</tr>
</tbody>
</table>

*Note: This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.*

### III. Foreign Language Requirement
Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

### IV. International Requirement
See Approved Courses for the L&S International Requirement (p. 1169) for course options.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Complete 3 credits in a course with Cultural Diversity (CD) designation; no more than 6 credits from a single subject area.</td>
<td>12</td>
<td></td>
</tr>
<tr>
<td>Complete 12 credits of L&amp;S Courses with Humanities Breadth designation; no more than 6 credits from a single subject area.</td>
<td>12</td>
<td></td>
</tr>
<tr>
<td>Complete 12 credits of L&amp;S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area.</td>
<td>12</td>
<td></td>
</tr>
<tr>
<td>Complete 12 credits of L&amp;S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area.</td>
<td>12</td>
<td></td>
</tr>
</tbody>
</table>

### V. Breadth Requirement
Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Arts</td>
<td>Select 3 credits</td>
<td>3</td>
</tr>
<tr>

<td>12</td>
</tr>
<tr>
<td>Natural Sciences</td>
<td>Complete 12 credits of L&amp;S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area.</td>
<td>12</td>
</tr>
<tr>
<td>Cultural Diversity</td>
<td>Complete 3 credits in a course with Cultural Diversity (CD) designation.</td>
<td>3</td>
</tr>
</tbody>
</table>

* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.
VI. The Major
The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Geography Major Requirements
Students must meet with the department’s undergraduate advisor to declare geography as a major. All majors must complete the 24- or 25-credit core curriculum and the additional requirements as defined in one of the five tracks:

1. Geographic Information
2. Urban
3. Environmental
4. Physical Systems
5. Globalization and Development

Geography majors may earn either a Bachelor of Arts or Bachelor of Science degree. The physical systems track is recommended for Bachelor of Science students. In satisfying their major requirements, all students must complete at least 37 credits in geography, 18 of which must be at or above the 300 level, with at least 15 of those taken in residence at UWM. Courses taken outside geography that fulfill geography requirements will be included in the GPA. Majors must have a 2.500 GPA in all geography credits attempted at UWM. In addition, students must attain a 2.500 GPA in all major credits attempted, including any transfer work.

</table>

### Letters & Science Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the “Declaration of Major” information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.
Honors in the College of Letters and Science

Dean’s Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Contact Information
Current Students contact Associate Professor Kristin Sziarto at sziarto@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu
http://uwm.edu/geography/undergraduate/

Geography, BS
In high school, your Geography class probably focused on maps and locations. But, the field is so much broader than that. Geography bridges the physical and human world, using scientific methods to explain and predict people’s impact on the planet and the planet’s impact on people.

UWM’s Geography students graduate with an exceptional ability to intellectually and technologically process spatial data about space, place, and people and how they relate to each other. They understand how to make sense of seemingly unrelated pieces of information by bringing together facts and diverse values. They also are adept at presenting information visually - for example, maps!

Some examples of research topics being tackled by today’s geographers include climate change, population shifts, land use patterns, and animal migration. These are all examples of how geographers focus on human’s relationship with man-made and natural environments.

Geographic Information Science (GIS) is a growing specialty within geography. GIS is a technology-based system for capturing, storing, and checking different types of data in relation to its position on Earth. It is a tool that enhances decision-making in both the private and public sector. For example, a rural town in the Rocky Mountains may use GIS data to determine where and when to place fire stations and personnel based on the patterns of forest fires and permanent and tourist populations. A corporation may use GIS to plan the location and layout of a new store based on shopping and traffic patterns.

At UWM, students can focus on GIS within the major, or choose another specialty track: urban geography with a focus on cities; environmental geography for those interested in natural resources; or physical systems with an emphasis on the natural features of earth such as climate, soil, and plants. Or, students can take the broad major and explore a little bit of each of these areas.

Related Programs
For the teaching major and minor, see the School of Education (p. 426) section of this catalog. A related special major is International Studies (p. 1490). Related certificate programs include Asian Studies (p. 1052), Latin American, Caribbean, and U.S. Latin@ Studies (p. 1550), and Middle Eastern and North African Studies (p. 1636).

Requirements
Course of Study – Bachelor of Science Degree
Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated upper-level Natural Science. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### College of Letters & Science Requirements

#### I. English Writing Requirement

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond English 102 on the English Placement Test (EPT).

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

#### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 211</td>
<td>Survey in Calculus and Analytic Geometry</td>
<td>4</td>
</tr>
<tr>
<td>MATH 221</td>
<td>Honors Calculus I</td>
<td>5</td>
</tr>
<tr>
<td>MATH 231</td>
<td>Calculus and Analytic Geometry I</td>
<td>4</td>
</tr>
</tbody>
</table>

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 212, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>
<td></td>
</tr>
<tr>
<td>ANTHRO 568</td>
<td>Introduction to Anthropological Statistics</td>
<td></td>
</tr>
<tr>
<td>ATM SCI 500</td>
<td>Statistical Methods in Atmospheric Sciences</td>
<td></td>
</tr>
<tr>
<td>BIO SCI 465</td>
<td>Biostatistics</td>
<td></td>
</tr>
<tr>
<td>ECON 210</td>
<td>Economic Statistics</td>
<td></td>
</tr>
<tr>
<td>GEOG 247</td>
<td>Quantitative Analysis in Geography</td>
<td></td>
</tr>
</tbody>
</table>

#### III. Foreign Language Requirement

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required. Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

#### IV. International Requirement

See Approved Courses for the L&S International Requirement (p. 1169) for course options.

</tr>
</tbody>
</table>

#### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+/-) designation, L&S students must complete the Breadth requirement.

</tbody>
</table>
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including laboratory or field courses from three different curricular areas.*

Cultural Diversity
Complete 3 credits in a course with Cultural Diversity (CD) designation. **

* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

VI. The Major
The College requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement.
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Geography Major Requirements
Students must meet with the department’s undergraduate advisor to declare geography as a major. All majors must complete the 24- or 25-credit core curriculum and the additional requirements as defined in one of the five tracks:

1. Geographic Information
2. Urban
3. Environmental
4. Physical Systems
5. Globalization and Development

Geography majors may earn either a Bachelor of Arts or Bachelor of Science degree. The physical systems track is recommended for Bachelor of Science students. In satisfying their major requirements, all students must complete at least 37 credits in geography, 18 of which must be at or above the 300 level, with at least 15 of those taken in residence at UWM. Courses taken outside geography that fulfill geography requirements will be included in the GPA. Majors must have a 2.500 GPA in all geography credits attempted at UWM. In addition, students must attain a 2.500 GPA in all major credits attempted, including any transfer work.

### Letters & Science Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of
Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Honors in the College of Letters and Science

Dean's Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Contact Information
Current Students contact Associate Professor Kristin Sziarto at sziarto@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

http://uwm.edu/geography/undergraduate/

Geography, MA
Related Certificates

Overview
The Department of Geography offers both master's and doctoral programs of study across a range of systematic, regional, and technical fields, with innovative energy in the doctoral program for studying urban environments. The department's overall strengths are aligned along a theme of "Changing Environments," with three major axes, each responsive to areas with strong demand for new professionals:

- **Urban Environments:** This area emphasizes the spatial interactions of economic systems as well as political, social, cultural, environmental, technological, and other forces that influence the people, identities, landscape, development, and dynamics of urban areas. With the world's population becoming increasingly urbanized and globalized, courses examine the continuing challenges of urban growth and change, race, ethnicity, and gender in the city, immigration and identity politics, and spatial aspects of urban planning processes and political decision-making.

- **Physical Geography and Environmental Studies:** This area addresses the interactions among natural forms and processes on the earth's surface, the impact and implications of global climate change, and human connections with those natural phenomena. Courses discuss and analyze the distribution and processes of earth surface landforms (geomorphology), soils (pedology), plants and animals (biogeography), water (hydrology), and long-term atmospheric conditions (climatology). Overlapping emphases include phenology, water resources, conservation, natural hazards, natural resource scarcity, and the mounting challenges of global environmental change.

- **Geographic Information Science (GIS):** This area emphasizes using geospatial technology to further understanding of spatial interactions among natural and social forces at multiple scales across the Earth's surface, and exploring the impacts of using such technology on social and cultural interactions. Courses examine geographic information collection (including remote sensing), data analysis and geocomputation (spatial analysis), information presentation (cartography), and societal implications. Our program emphasizes applications of GIS in urban, regional, and environmental planning, policy making, and public health.

In addition to these departmental strengths, individual faculty members apply their expertise in topics such as remote sensing, GIS, and cartography to problems of the city. Geography faculty also participate in the certificate program in Geographic Information Systems, which is jointly offered by the College of Letters and Science and the School of Architecture and Urban Planning.

While the master's program offers a more traditional structure within which students can strengthen their knowledge of the discipline and one or more of its subfields, the department's unique PhD program is designed to be especially attractive to forward-looking students interested in the urban environment who seek a flexible, versatile, 21st century graduate education with a strong emphasis on interdisciplinarity. The PhD program's urban-environmental theme is inclusive and encompassing of processes and problems associated with the intersection of human and natural environments, strongly focused.
on “the city” as the entity of engagement. The program breaks with longstanding tradition in the field of geography in stressing a balance between specialized analytical research and synthetic research, between traditional academic research and community engagement, and between research and teaching. It relies heavily on Geographic Information Science (GIS) as a research tool and as an organizing framework.

Facilities and Resources
The University of Wisconsin–Milwaukee is the repository of the venerable American Geographical Society Library, an internationally renowned research resource. The Department of Geography boasts a large instructional Map Collection, which functions as a federal government depository for maps; and a Soils and Physical Geography Laboratory, which supports research projects among several UWM departments.  

Microcomputer facilities used by the Geography Department for instruction include two PC/Windows workstation labs. Software installed in these labs includes geographic information systems, remote sensing, mapping, illustration, photo editing, desktop publishing, statistical, database management, and word processing packages. Several university DEC Alphas, other microcomputer laboratories, and multimedia facilities also are available for graduate student research.

Other research resources at UWM available to the Geography Department staff and students include the Cartography and GIS Center, the Great Lakes WATER Institute, the Center for Urban Initiatives and Research, the Center for Latin America, the Center for International Education, the Center for Urban Transportation Studies, the Center for Women’s Studies, the Institute for Survey and Policy Research, and University Information Technology Services (formerly Information and Media Technologies).

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Master of Arts in Geography
The MA normally is awarded to those who concentrate in cultural or human geography. Students must elect to pursue either the MA or MS option during their first semester in the program. Students may also elect to complete their degree through either a thesis or non-thesis track.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these departmental requirements to be considered for admission to the program:

1. Evidence of general intellectual ability and compelling interest in geography. An undergraduate major in geography is desirable as evidence of such ability and interest but is not required. Past coursework will be compared to the core requirements of the UWM Geography bachelor’s degree in order to determine any deficiencies that need to be satisfied as a condition of acceptance.
2. Submission to the Geography department of three letters of recommendation supporting application.
4. Departmental approval, based on thorough evaluation of applicant’s potential for professional development.

Major Professor as Advisor
The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. The Chair of the Graduate Student Administrative Committee is a temporary advisor; within the first semester the student selects an advisor in the student’s specialization.

Time Limit
This program is designed to be completed in two years of full-time attendance. The Graduate School requires that all degree requirements be completed within five years of initial enrollment.

The Standard Track is the only option for MA students.

A. Standard Track
Both M.A. and M.S. degrees are offered in the standard track. The M.A. normally is awarded to those who concentrate in cultural or human geography, whereas the M.S. is awarded to those who concentrate in physical geography. Students must elect to pursue either the M.A. or M.S. option during their first semester in the program. A minimum of 6 credits in physical geography or natural science courses appropriate to the student’s area of study are required for the M.S. Students may also elect to complete their degree through either a thesis or non-thesis option.

The two options have the same coursework requirements except for the capstone project. Details are provided below.

Credits and Courses
Minimum degree requirement is 30 graduate credits with an average GPA of 3.0. The student, in consultation with the advisor, plans a program of studies to include:

- 4 credits in Geog 726 (Geographic Information Science)
- 4 credits in Geog 747 (Spatial Analysis)
- 3 credits in Geog 810 (Introduction to Techniques of Research and Presentation)
- 3 credits in Geog 870 (Contemporary Geographic Approaches)
- 12 credits in graduate-level (700 and above) courses approved by the student’s advisor (at least 3 of these credits must be in one Geography graduate seminar course).

The remaining 4 credits will be earned in the student’s capstone project (see Thesis Option and Non-Thesis Option information below).

The student also must attend Geography colloquia regularly while in residence and must present her/his thesis research at a departmental colloquium.

Thesis Option
The student must register at least 4 credits of Geog 890 Research and Master’s Thesis (approved by the student’s advisor). In addition, the student, through the advisor, must present a proposed thesis topic and Advisory Committee to the Graduate Faculty of the Department for its approval. For students electing the M.S. option, the Faculty will also judge the appropriateness of the thesis topic for that degree.

The student must then write a thesis acceptable to the major professor for presentation to the Advisory Committee (two faculty members in addition to the advisor). The defense date for the thesis must be set at least two weeks prior to the Graduate School deadline for completion of all work. The thesis must be approved by the advisor and delivered to the committee at least six weeks prior to the defense date. Students must submit the thesis to the advisor in sufficient time to meet the committee
Non-Thesis Option
This option is intended for students who are not interested in continuing their graduate education beyond the master's degree, and plan to seek professional employment. The M.A. degree will normally be awarded upon completion of this option. Those who wish a M.S. degree must formally petition the Graduate Faculty in writing, providing a rationale as to why that degree is appropriate to their program. The student must complete at least 4 credits of graduate work (approved by the student’s advisor) as either:

- Two research papers (Geog 999) Students pursuing the non-thesis option through the two-research paper option must choose two separate topics, and conduct extended literature reviews on the topics, although other possibilities, such as a small research project, should not be excluded. The papers are expected to be 25-50 pages apiece. The student is expected to have an oral defense with three committee members regarding the two papers. According to current guidelines, the student is not expected to present their papers to the colloquium series.

OR

- A graduate internship (Geog 798 or Geog 889) (note that Geog 810 is a prerequisite for Geog 889). Students pursuing the non-thesis option through the graduate internship should conduct at least 180 hours of internship. The internship should be related to the student’s academic area of interest and must be approved by the advisor. The student is expected to write a scholarly paper of 25-50 pages in length that connects the internship to the appropriate literature. The student must have a committee of three faculty members, and is expected to go through an oral defense with the committee members regarding the internship paper. According to current guidelines, the student is not expected to present their internship paper to the colloquium series.

Comprehensive Examination
In combination with the thesis defense (or after completion of the work for the non-thesis option), the student must pass a final oral examination over the field of geography, administered by the student’s Advisory Committee. Scheduling this examination during the summer is not permitted except under unusual academic circumstances and with the approval of the department faculty.

Geography, MA/Library and Information Science, MLIS
In collaboration with several other academic units at UW-Milwaukee, SOIS offers students the opportunity to obtain two Master’s degrees concurrently—one in Library and Information Science (MLIS) and one in a subject area.

Degree Requirements
- The number of degree credits needed for each of the coordinated programs is usually 12 fewer than the sum of the two programs if they were not taken simultaneously. All degree requirements of each component must be satisfied.
  - The MLIS portion of the coordinated degrees can be completed online.
  - Prerequisite to the award of either degree in this program is the simultaneous award of its counterpart degree.

MLIS Component
The Master of Library and Information Science (MLIS) component of each of the coordinated programs includes 30 credits of SOIS courses. These include the MLIS core courses (12 credits). The remaining 18 MLIS credits are selected from the School’s offerings in accordance with the student’s goals in the coordinated degree program.

MLIS/MA Geography
The MLIS/MA Geography Coordinated Degree Program prepares students for positions as map librarians. Graduates of the program are qualified to assume positions as curators and staff in map collections of universities, governmental agencies, and industry.

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Credits and Courses
The M.A. in Geography normally has a minimum requirement of 24 credits in geography. For the coordinated MA Geography/MLIS degree program, however, students can substitute 6 credits in INFOST courses for 6 credits of geography. This program, therefore, requires a total of 48 credits. Students must complete the 30 credits required for the MLIS degree and the 18 credits in Geography courses specified below.

The Geography Department offers opportunities for fieldwork that may count toward these requirements. In addition to off-campus fieldwork, the American Geographical Society Collection at the UWM Golda Meir Library provides many unique opportunities for map librarianship fieldwork and is an appropriate site for an internship.

Graduates of the program are qualified to assume positions as curators and staff members in map collections of universities, governmental agencies, and industry. In cases where map collections are not of sufficient size to warrant separation as distinct collections, knowledge of how to store, classify, and retrieve maps will be a valuable set of skills that enhance the qualifications of the information professional.

Important
You must refer to the catalog pages of both individual master’s programs to ensure that you meet all requirements for both degrees.

Geography, Minor

In high school, your Geography class probably focused on maps and locations. But, the field is so much broader than that. Geography bridges the physical and human world, using scientific methods to explain and predict people’s impact on the planet and the planet’s impact on people.

UWM’s Geography students graduate with an exceptional ability to intellectually and technologically process spatial data about space, place, and people and how they relate to each other. They understand how to make sense of seemingly unrelated pieces of information by bringing together facts and diverse values. They are adept at presenting information visually - for example, maps!

Some examples of research topics being tackled by today’s geographers include climate change, population shifts, land use patterns, and animal migration. These are all examples of how geographers focus on human’s relationship with man-made and natural environments.

Geographic Information Science (GIS) is a growing specialty within geography. GIS is a technology-based system for capturing, storing, and checking different types of data in relation to its position on Earth. It is a tool that enhances decision-making in both the private and public sector. For example, a rural town in the Rocky Mountains may use GIS data to determine where and when to place fire stations and personnel based on the patterns of forest fires and permanent and tourist populations. A corporation may use GIS to plan the location and layout of a new store based on shopping and traffic patterns.

Related Programs
For the teaching major and minor, see the School of Education (p. 426) section of this catalog. A related special major is International Studies (p. 1490). Related certificate programs include Asian Studies (p. 1052), Latin American, Caribbean, and U.S. Latin@ Studies (p. 1550), and Middle Eastern and North African Studies (p. 1636).

Requirements
The geography minor requires the completion, with a GPA of 2.500 or above in all geography courses attempted at UWM, of 18 credits in geography courses, at least 9 of which must be at the 300 level or above taken in residence at UWM. In addition, students must attain a 2.500 GPA on all courses attempted in the minor, including transfer work. The following are required:

Contact Information
Current Students contact Associate Professor Kristin Sziarto at sziarto@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

Geography, MS

Related Certificates

Overview
The Department of Geography offers both master’s and doctoral programs of study across a range of systematic, regional, and technical fields, with innovative energy in the doctoral program for studying urban environments. The department’s overall strengths are aligned along a theme of “Changing Environments,” with three major axes, each responsive to areas with strong demand for new professionals:

- Urban Environments: This area emphasizes the spatial interactions of economic systems as well as political, social, cultural, environmental, technological, and other forces that influence the people, identities, landscape, development, and dynamics of urban areas. With the world’s population becoming increasingly urbanized and globalized, courses examine the continuing challenges of urban growth and change, race, ethnicity, and gender in the city, immigration and identity politics, and spatial aspects of urban planning processes and political decision-making.

- Physical Geography and Environmental Studies: This area addresses the interactions among natural forms and processes on the earth’s surface, the impact and implications of global climate change,
and human connections with those natural phenomena. Courses discuss and analyze the distribution and processes of earth surface landforms (geomorphology), soils (pedology), plants and animals (biogeography), water (hydrology), and long-term atmospheric conditions (climatology). Overlapping emphases include phenology, water resources, conservation, natural hazards, natural resource scarcity, and the mounting challenges of global environmental change.

- Geographic Information Science (GIS): This area emphasizes using geospatial technology to further understanding of spatial interactions among natural and social forces at multiple scales across the Earth's surface, and exploring the impacts of using such technology on social and cultural interactions. Courses examine geographic information collection (including remote sensing), data analysis and geocomputation (spatial analysis), information presentation (cartography), and societal implications. Our program emphasizes applications of GIS in urban, regional, and environmental planning, policy making, and public health.

In addition to these departmental strengths, individual faculty members apply their expertise in topics such as remote sensing, GIS, and cartography to problems of the city. Geography faculty also participate in the certificate program in Geographic Information Systems, which is jointly offered by the College of Letters and Science and the School of Architecture and Urban Planning.

While the master's program offers a more traditional structure within which students can strengthen their knowledge of the discipline and one or more of its subfields, the department's unique PhD program is designed to be especially attractive to forward-looking students interested in the urban environment who seek a flexible, versatile, 21st century graduate education with a strong emphasis on interdisciplinarity. The PhD program's urban-environmental theme is inclusive and encompassing of processes and problems associated with the intersection of human and natural environments, strongly focused on “the city” as the entity of engagement. The program breaks with longstanding tradition in the field of geography in stressing a balance between specialized analytical research and synthetic research, between traditional academic research and community engagement, and between research and teaching. It relies heavily on Geographic Information Science (GIS) as a research tool and as an organizing framework.

Facilities and Resources
The University of Wisconsin—Milwaukee is the repository of the venerable American Geographical Society Library, an internationally renowned research resource. The Department of Geography boasts a large instructional Map Collection, which functions as a federal government depository for maps; and a Soils and Physical Geography Laboratory, which supports research projects among several UWM departments.

Microcomputer facilities used by the Geography Department for instruction include two PC/Windows workstation labs. Software installed in these labs includes geographic information systems, remote sensing, mapping, illustration, photo editing, desktop publishing, statistical, database management, and word processing packages. Several university DEC Alphas, other microcomputer laboratories, and multimedia facilities also are available for graduate student research.

Other research resources at UWM available to the Geography Department staff and students include the Cartography and GIS Center, the Great Lakes WATER Institute, the Center for Urban Initiatives and Research, the Center for Latin America, the Center for International Education, the Center for Urban Transportation Studies, the Center for Women's Studies, the Institute for Survey and Policy Research, and University Information Technology Services (formerly Information and Media Technologies).

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Master of Science in Geography
The MS is awarded to those who concentrate in physical geography. Students must elect to pursue either the MA or MS option during their first semester in the program. A minimum of 6 credits in physical geography or natural science courses appropriate to the student’s area of study are required for the MS Students may also elect to complete their degree through either a thesis or non-thesis track.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these departmental requirements to be considered for admission to the program:

1. Evidence of general intellectual ability and compelling interest in geography. An undergraduate major in geography is desirable as evidence of such ability and interest but is not required. Past coursework will be compared to the core requirements of the UWM Geography bachelor's degree in order to determine any deficiencies that need to be satisfied as a condition of acceptance.
2. Submission to the Geography department of three letters of recommendation supporting application.
4. Departmental approval, based on thorough evaluation of applicant’s potential for professional development.

Major Professor as Advisor
The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. The Chair of the Graduate Student Administrative Committee is a temporary advisor; within the first semester the student selects an advisor in the student’s specialization.

Time Limit
This program is designed to be completed in two years of full-time attendance. The Graduate School requires that all degree requirements be completed within five years of initial enrollment.

Track Options
MS students may choose the Standard or the GIS Professional Track.

A. Standard Track
Both M.A. and M.S. degrees are offered in the standard track. The M.A. normally is awarded to those who concentrate in cultural or human geography, whereas the M.S. is awarded to those who concentrate in physical geography. Students must elect to pursue either the M.A. or M.S. option during their first semester in the program. A minimum of 6 credits in physical geography or natural science courses appropriate to the student’s area of study are required for the M.S. Students may also elect to complete their degree through either a thesis or non-thesis option.
The two options have the same coursework requirements except for the capstone project. Details are provided below.

**Credits and Courses**

Minimum degree requirement is 30 graduate credits with an average GPA of 3.0. The student, in consultation with the advisor, plans a program of studies to include:

- 4 credits in Geog 726 (Geographic Information Science)
- 4 credits in Geog 747 (Spatial Analysis)
- 3 credits in Geog 810 (Introduction to Techniques of Research and Presentation)
- 3 credits in Geog 870 (Contemporary Geographic Approaches)
- 12 credits in graduate-level (700 and above) courses approved by the student's advisor (at least 3 of these credits must be in one Geography graduate seminar course).

The remaining 4 credits will be earned in the student's capstone project (see Thesis Option and Non-Thesis Option information below).

The student also must attend Geography colloquia regularly while in residence and must present her/his thesis research at a departmental colloquium.

**Thesis Option**

The student must register at least 4 credits of Geog 890 Research and Master's Thesis (approved by the student's advisor). In addition, the student, through the advisor, must present a proposed thesis topic and Advisory Committee to the Graduate Faculty of the Department for its approval. For students electing the M.S. option, the Faculty will also judge the appropriateness of the thesis topic for that degree.

The student must then write a thesis acceptable to the major professor for presentation to the Advisory Committee (two faculty members in addition to the advisor). The defense date for the thesis must be set at least two weeks prior to the Graduate School deadline for completion of all work. The thesis must be approved by the advisor and delivered to the committee at least six weeks prior to the defense date. Students must submit the thesis to the advisor in sufficient time to meet the committee deadline. Exceptions to these deadlines under unusual circumstances must be approved unanimously by the student's committee. In addition to submission of the final thesis to the Graduate School (according to their required procedure), the candidate must present the Geography Department with a professionally hard-bound copy which meets Graduate School specifications for quality. This copy will remain on file in the department.

**Non-Thesis Option**

This option is intended for students who are not interested in continuing their graduate education beyond the master's degree, and plan to seek professional employment. The M.A. degree will normally be awarded upon completion of this option. Those who wish to earn a M.S. degree must formally petition the Graduate Faculty in writing, providing a rationale as to why that degree is appropriate to their program. The student must complete at least 4 credits of graduate work (approved by the student's advisor) as either:

- Two research papers (Geog 999) Students pursuing the non-thesis option through the two-research paper option must choose two separate topics, and conduct extended literature reviews on the topics, although other possibilities, such as a small research project, should not be excluded. The papers are expected to be 25-50 pages apiece. The student is expected to have an oral defense with three committee members regarding the two papers. According to current guidelines, the student is not expected to present their papers to the colloquium series.

**OR**

- A graduate internship (Geog 798 or Geog 889 (note that Geog 810 is a prerequisite for Geog 889). Students pursuing the non-thesis option through the graduate internship should conduct at least 180 hours of internship. The internship should be related to the student's academic area of interest and must be approved by the advisor. The student is expected to write a scholarly paper of 25-50 pages in length that connects the internship to the appropriate literature. The student must have a committee of three faculty members, and is expected to go through an oral defense with the committee members regarding the internship paper. According to current guidelines, the student is not expected to present their internship paper to the colloquium series.

**Comprehensive Examination**

In combination with the thesis defense (or after completion of the work for the non-thesis option), the student must pass a final oral examination over the field of geography, administered by the student’s Advisory Committee. Scheduling this examination during the summer is not permitted except under unusual academic circumstances and with the approval of the department faculty.

**B. GIS Professional Track**

This track is intended for students who plan to seek professional employment in the field of GIS and are not interested in continuing their graduate education beyond the master's degree. Only M.S. degrees are offered in the GIS professional track.

**Credits and Courses**

Minimum degree requirement is 30 graduate credits with an average GPA of 3.0. The student, in consultation with the advisor, plans a program of studies to include:

- 4 credits in Geog 726 (Geographic Information Science)
- 4 credits in Geog 747 (Spatial Analysis)
- 4 credits in Geog 704 (Remote Sensing)
- 4 credits in Geog 826 (Intermediate GIS)
- 4 credits in Geog 705 (Cartography)
- 6 credits from electives

The remaining 4 credits will be earned in the student’s capstone project (Geog 798).

The student also must attend Geography colloquia regularly while in residence.

**Elective Courses**

(Choose two)

- Geog 926 Advanced GIS: Geographic Modeling
- Geog 834 GIS & Society
- Geog 960 Seminar in Geographic Techniques (subtitled)
- Geog 804 Advanced Remote Sensing
- Geog 904 Remote Sensing and Urban Analysis
- Geog 827 Qualitative Research
- UrbPlan 791 Introduction to Urban Geographic Systems for Planning
- UrbPlan 792 Using Urban Geographic Information Systems (GIS) for Planning
- UrbPlan 793 Applied Projects in Urban Geographic Information Systems
- UrbPlan 794 Internet Geographic Information Systems (GIS)
Capstone Project (Geog 798)

Students pursuing the GIS professional track should conduct at least 180 hours of internship. The internship should be related to the field of GIS and must be approved by the advisor. The student is expected to write a scholarly paper of 25-50 pages in length that connects the internship to the appropriate literature. The student must have a committee of three faculty members, and is expected to go through an oral defense with the committee members regarding the internship paper. According to current guidelines, the student is not expected to present their internship paper at the colloquium series.

Geography, PhD

Related Certificates

Overview

The Department of Geography offers both master's and doctoral programs of study across a range of systematic, regional, and technical fields, with innovative energy in the doctoral program for studying urban environments. The department’s overall strengths are aligned along a theme of “Changing Environments,” with three major axes, each responsive to areas with strong demand for new professionals:

- **Urban Environments**: This area emphasizes the spatial interactions of economic systems as well as political, social, cultural, environmental, technological, and other forces that influence the people, identities, landscape, development, and dynamics of urban areas. With the world’s population becoming increasingly urbanized and globalized, courses examine the continuing challenges of urban growth and change, race, ethnicity, and gender in the city, immigration and identity politics, and spatial aspects of urban planning processes and political decision-making.

- **Physical Geography and Environmental Studies**: This area addresses the interactions among natural forms and processes on the earth’s surface, the impact and implications of global climate change, and human connections with those natural phenomena. Courses discuss and analyze the distribution and processes of earth surface landforms (geomorphology), soils (pedology), plants and animals (biogeography), water (hydrology), and long-term atmospheric conditions (climatology). Overlapping emphases include phenology, water resources, conservation, natural hazards, natural resource scarcity, and the mounting challenges of global environmental change.

- **Geographic Information Science (GIS)**: This area emphasizes using geospatial technology to further understanding of spatial interactions among natural and social forces at multiple scales across the Earth’s surface, and exploring the impacts of using such technology on social and cultural interactions. Courses examine geographic information collection (including remote sensing), data analysis and geocomputation (spatial analysis), information presentation (cartography), and societal implications. Our program emphasizes applications of GIS in urban, regional, and environmental planning, policy making, and public health.

In addition to these departmental strengths, individual faculty members apply their expertise in topics such as remote sensing, GIS, and cartography to problems of the city. Geography faculty also participate in the certificate program in Geographic Information Systems, which is jointly offered by the College of Letters and Science and the School of Architecture and Urban Planning.

While the master’s program offers a more traditional structure within which students can strengthen their knowledge of the discipline and one or more of its subfields, the department’s unique PhD program is designed to be especially attractive to forward-looking students interested in the urban environment who seek a flexible, versatile, 21st century graduate education with a strong emphasis on interdisciplinarity. The PhD program’s urban-environmental theme is inclusive and encompassing of processes and problems associated with the intersection of human and natural environments, strongly focused on “the city” as the entity of engagement. The program breaks with longstanding tradition in the field of geography in stressing a balance between specialized analytical research and synthetic research, between traditional academic research and community engagement, and between research and teaching. It relies heavily on Geographic Information Science (GIS) as a research tool and as an organizing framework.

Facilities and Resources

The University of Wisconsin–Milwaukee is the repository of the venerable American Geographical Society Library, an internationally renowned research resource. The Department of Geography boasts a large instructional Map Collection, which functions as a federal government depository for maps; and a Soils and Physical Geography Laboratory, which supports research projects among several UWM departments.

Microcomputer facilities used by the Geography Department for instruction include two PC/Windows workstation labs. Software installed in these labs includes geographic information systems, remote sensing, mapping, illustration, photo editing, desktop publishing, statistical, database management, and word processing packages. Several university DEC Alphas, other microcomputer laboratories, and multimedia facilities also are available for graduate student research.

Other research resources at UWM available to the Geography Department staff and students include the Cartography and GIS Center, the Great Lakes WATER Institute, the Center for Urban Initiatives and Research, the Center for Latin America, the Center for International Education, the Center for Urban Transportation Studies, the Center for Women’s Studies, the Institute for Survey and Policy Research, and University Information Technology Services (formerly Information and Media Technologies).

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) to be considered for admission to the program. Students from a wide range of disciplinary backgrounds may be admitted. They must present the following credentials:

1. Master's degree.
2. Statement of interest in the program.
3. Substantial evidence of scholarly potential and commitment.
4. Three letters of recommendation, submitted to the Geography Department.

5. Recent (within five years) GRE (http://uwm.edu/graduateschool/admission/#gre) scores.

In some instances where the applicant’s record demonstrates exceptional promise, the Department will consider applications for admission to the PhD program directly from a BA/BS degree. Such admission does not constitute a waiver of any of the requirements indicated below.

The Graduate Program Committee, during the admission process, will evaluate an applicant’s academic background and will assign deficiencies based on a comparison of his/her background and the proposed specific area of study as outlined in the student’s statement of interest. In general, the department seeks students with:

1. Potential for planning and successfully completing an independent scientific research project, as evidenced by a master’s thesis and/or other appropriate materials;
2. Basic statistical analysis skills;
3. Interest and/or ability in evaluating problems related to the urban environment with a spatial framework; and
4. Interest in examining research questions within a multi-disciplinary (human/physical) team environment.

**Reaplication**

A student who receives the master’s degree from UWM must formally reapply for admission to the Graduate School before continuing studies toward the PhD.

**Major Advisor and Committee**

The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations; the student may not register for any courses without that advisor’s prior approval. The Chair of the Graduate Student Administrative Committee is a temporary advisor; within the first semester the student selects an advisor within the area of specialization. Each student, preferably after completion of the first year of study, also will select four additional members of the faculty/qualified professions to form his/her advisory committee. A majority of the committee members must be core geography faculty members. Affiliated faculty members from other departments may serve as major advisors.

**Graduate Student Orientation**

All new students are expected to participate in the department orientation program, offered during the week prior to the start of fall classes. If a student enters the program in the spring, s/he must participate in this program during the subsequent fall semester. New students will be paired with an experienced student mentor during their first year. Instructional opportunities sponsored by the Center for Instruction and Professional Development (CIPD) and the Preparing Future Faculty (PFF) initiative will be offered to all teaching assistants and other interested students enrolled in the doctoral program.

**Credits and Courses**

Minimum degree requirement is 54 graduate credits beyond the bachelor’s degree, at least 27 of which must be earned in residence at UWM with a minimum GPA of 3.0.

Under the guidance of the advisory committee, the chair of which serves as the student’s major professor, the student plans a program of study leading to the development of a special interest. All programs of study contain the following four elements: core concepts and methods, thematic focus, elective courses (as needed to meet the total credit requirement), and dissertation.

1. Students must have the approval of their advisors for the elective courses.
The candidate must write an acceptable dissertation that demonstrates formulation, design, and independent execution of a significant research project. The dissertation must make an original contribution to knowledge in the field of geography. It may focus on geographical research project. The dissertation must make an original contribution to knowledge in the field of geography. It may focus on geographical research, funding, presentation, and publication.

Each student must make two presentations at department colloquia. The first presentation will be scheduled early in the student's program; it is designed to give the student experience in making formal presentations. The second presentation will communicate the student's dissertation research. The second examination will be recommended for academic dismissal. The student receiving a negative vote of the advisory committee after the examination over the parts in which the student failed to qualify. A student judged qualified by the majority of the five-member advisory committee will be determined by the student's advisory committee. The content of the examination will be determined by the area of the student's interest. The scope of the examination will be determined by the student's advisory committee.

The student's advisor, as chair of the advisory committee, will organize and administer the examination. The content of the examination will be determined by the area of the student's interest. The scope of the examination will be determined by the student's advisory committee. A student judged qualified by the majority of the five-member advisory committee will be admitted to candidacy. A student judged not qualified by the majority of the advisory committee will not be admitted to candidacy at the time of the examination but will be given an opportunity to retake the examination once, after a waiting period of at least one semester. At the discretion of the advisory committee, the second examination will be either a complete reexamination or a partial examination over the parts in which the student failed to qualify. A student receiving a negative vote of the advisory committee after the second examination will be recommended for academic dismissal. The student will be informed of the reasons for failure to qualify.

Presentations

Each student must make two presentations at department colloquia. The first presentation will be scheduled early in the student's program; it is designed to give the student experience in making formal presentations. The second presentation will communicate the student's dissertation research topic and preliminary results.

Dissertation

As mentioned above, the candidate must write an acceptable dissertation. The defense date for the dissertation must be set at least two weeks prior to the Graduate School deadline. The dissertation must be approved by the major professor and delivered to the student's advisory committee at least six weeks prior to the defense date. A student must submit the dissertation to the advisor in sufficient time.
to meet the committee's deadline. Exceptions to these deadlines under unusual circumstances must be approved unanimously by the student's committee.

**Dissertation Defense**

The candidate must, as the final step toward the degree, defend the dissertation before the advisory committee. If the candidate passes the defense, the advisory committee will recommend to the Graduate School that a degree of Doctor of Philosophy be conferred.

**Submission of Completed Dissertation**

In addition to submission of the final dissertation to the Graduate School (according to its required procedure), the candidate must present to the Geography Department a professionally hard-bound copy that meets Graduate School specifications for quality. This copy will remain on file in the department.

**Time Limit**

All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.

**Special Issues for Directly Admitted Students**

Students directly admitted to the doctoral program after completion of their bachelor's degree will not earn a master's degree during the course of their studies. Further, formal doctoral status (which affects stipend rates and the ability to fulfill the residency requirement) will not be granted until the student has completed 24 credits in the program. Lastly, no more than 12 dissertation credits can be used to satisfy the 54-credit doctoral degree requirement.
GEOSCIENCES

The Department of Geosciences is an educational community of students, researchers, and teachers focused on scientific examination of the Earth. We ask important questions, create new knowledge, and communicate information about Earth's properties and processes through deep-time. Through our research, study, and teaching, we aim to help create a scientifically informed society and enable our students to achieve their professional goals. We welcome all who share our intellectual curiosity about the Earth; our diverse community includes people from a variety of intellectual, religious, class, cultural, and political perspectives.

Programs

• Geosciences, BA (p. 1423)
• Geosciences, BS (p. 1426)
• Geosciences, Minor (p. 1429)
• Geosciences, MS (p. 1429)
• Geosciences, PhD (p. 1430)

Geosciences Courses

GEO SCI 100 Introduction to the Earth
3 cr. Undergraduate.
Study of earth processes and materials as they relate to man and the environment. Lec, lab.
Prerequisites: none.
Course Rules: Voluntary field trip for which fee is assessed. No cr for students w/cr in Geo Sci 185.
General Education Requirements: NS+
Current Offerings: http://uwm.edu/schedule

GEO SCI 102 Principles of Historical Geology
3 cr. Undergraduate.
Principles for interpreting the physical and paleontological history of the earth using case studies from the rock record. 2 hrs lec, 3 hrs lab.
Prerequisites: none.
Course Rules: Field trip for which fee is assessed.
General Education Requirements: NS+
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

GEO SCI 105 Earth, Air, Fire and Water
3 cr. Undergraduate.
A study of planet Earth from formation through history to modern-day oceans, atmosphere, continents, and interior; how all interact to form the human environment.
Prerequisites: none.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

GEO SCI 106 The Earth Environment
3 cr. Undergraduate.
The Earth and its environment; emphasis on the interrelationships of humans with the Earth’s processes and responses. Lec.
Prerequisites: none.
Course Rules: Voluntary field trip for which fee is assessed.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

GEO SCI 108 A History of Life
3 cr. Undergraduate.
Major features of the history of life; how paleontologists reconstruct this history. 2 hrs lec, 2 hrs lab.
Prerequisites: none.
General Education Requirements: NS+
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

GEO SCI 109 Dinosaurs
3 cr. Undergraduate.
The natural history of dinosaurs and how geologists and paleontologists reconstruct that history.
Prerequisites: none.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

GEO SCI 120 Geology of the Planets
3 cr. Undergraduate.
Geological features of the planets, similarities and differences in materials and processes, significance of space exploration to geology. Lec/Lab.
Prerequisites: none.
General Education Requirements: NS+
Current Offerings: http://uwm.edu/schedule

GEO SCI 150 Introduction to Ocean Sciences
3 cr. Undergraduate.
Survey of the interdisciplinary sciences supporting oceanography. Designed for students who do not plan to major in geological sciences but are interested in the recent advances of marine sciences. Lec, voluntary dis.
Prerequisites: none.
Course Rules: Not open for cr to students who have had Geo Sci 460.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

GEO SCI 151 Ocean Sciences Laboratory
1 cr. Undergraduate.
Laboratory exercises and demonstrations of the physical, chemical and biological processes operating in the oceans and how scientists study these processes. 2 hrs lab.
Prerequisites: Geo Sci 150(C).
Course Rules: Not open for cr to students who have had Geo Sci 460 or 461.
General Education Requirements: NS+
Current Offerings: http://uwm.edu/schedule
GEO SCI 185 Introductory Earth Science for Teachers
3 cr. Undergraduate.
A study of the rock cycle, water cycle and atmosphere of the earth and the essential processes that affect them. 2 hrs lec; 2 hrs lab/dis.
Prerequisites: regis in elem, early childhood, or exc educ curric, EDBA classif, or cons instr.
Course Rules: Not open for cr to students w/cr in Geo Sci 100, 105, or Atm Sci 105. Required field trips for which fees are assessed.
General Education Requirements: NS+
Last Taught: Fall 2017, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

GEO SCI 194 First-Year Seminar.
3 cr. Undergraduate.
The specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: NS
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2007.
Current Offerings: http://uwm.edu/schedule

GEO SCI 199 Independent Study
1-3 cr. Undergraduate.
For further information, consult dept chair.
Prerequisites: 2.5 gpa; writ cons instr, dept chair & asst dean for SAS.
Course Rules: May be retaken to 6 cr max.
Last Taught: Spring 2013, Fall 2011, Summer 2011, Spring 2011.
Current Offerings: http://uwm.edu/schedule

GEO SCI 208 Geology of Wisconsin
1 cr. Undergraduate.
Introduction to the geologic events and processes which shaped the scenic Wisconsin landscape with emphasis on geologically significant recreational areas accessible to the public.
Prerequisites: college course in physical geology or physical geography.
Course Rules: Not open for cr to students with Geo Sci 011.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

GEO SCI 250 Marine Science at Sea: A Hands-On Laboratory
3 cr. Undergraduate.
Marine field work at sea from an oceanographic vessel.
Prerequisites: Geo Sci 150(P) or cons instr.
Course Rules: Not open for cr to students who completed Geo Sci 150 at sea in UWinteriM 2003.
General Education Requirements: NS+
Current Offerings: http://uwm.edu/schedule

GEO SCI 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2015, Fall 2014, Fall 2013, Spring 2010.
Current Offerings: http://uwm.edu/schedule

GEO SCI 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l sem.
Prerequisites: none; add’l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

GEO SCI 301 Principles of Mineralogy
3 cr. Undergraduate.
Major rock-forming minerals, their associations, geologic occurrence, and importance with an emphasis on identification using physical properties and other techniques. 2 hrs lec, 3 hrs lab.
Prerequisites: Geo Sci 100(P); course in college chem.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

GEO SCI 302 Elementary Petrology
3 cr. Undergraduate.
Continuation of Geo Sci 301. Igneous and metamorphic rocks, including classification, genesis, field identification, and petrographic microscope study. 2 hrs lec, 3 hrs lab.
Prerequisites: Geo Sci 301(P).
Course Rules: Required field trip for which fee is assessed.
Current Offerings: http://uwm.edu/schedule

GEO SCI 316 Introduction to Geophysics
3 cr. Undergraduate.
The study of geophysical methods and their applications to the understanding of the interior of the Earth and global tectonics. Lec.
Prerequisites: Geo Sci 100(P) or 101(P) & Physics 120(P) or 209(P).
Course Rules: Geo Sci 301(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

GEO SCI 317 Stable Isotope Geochemistry
3 cr. Undergraduate/Graduate.
To understand the fractionation and mass balance of stable isotope systems in nature and their application to geologic problems.
Prerequisites: jr st; Geo Sci 100(P) or 101(P), & Chem 104(C) & Geo Sci 301(P).
Current Offerings: http://uwm.edu/schedule

GEO SCI 381 Honors Seminar:
3 cr. Undergraduate.
Selected topics.
Prerequisites: soph st; Honors 200(P); cons Honors College dir.
Course Rules: May be retaken w/chg in topic to 9 cr max. Field trips may be required.
General Education Requirements: NS
Last Taught: Fall 2015, Spring 2008, Fall 2000, Fall 1998.
Current Offerings: http://uwm.edu/schedule

GEO SCI 400 Water Quality
3 cr. Undergraduate/Graduate.
Water availability and water quality in surface and subsurface water bodies; management of water as a resource. 2 hrs lec, 3 hrs lab.
Prerequisites: jr st; Chem 102(P); Math 232(P); or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule
GEO SCI 401 General Soil Science
3 cr. Undergraduate/Graduate.
Soil profile development, weathering, soil mineralogy, water and nutrient relationships, classification of soil. 2 hrs lec, 3 hr lab.
Prerequisites: jr st; Chem 104(P) or equiv or cons instr.
Course Rules: Required field trips for which fees are assessed.
Current Offerings: http://uwm.edu/schedule

GEO SCI 405 Geology for In-Service Teachers:
1-3 cr. Undergraduate/Graduate.
Basic, advanced or new topics in geology for in-service teachers.
Prerequisites: in-service teacher, additional prereqs depending on topic.
Course Rules: May be retaken w/chg in topic to max of 9 cr.
Current Offerings: http://uwm.edu/schedule

GEO SCI 409 Process Geomorphology
3 cr. Undergraduate/Graduate.
Study of geological processes and their effect on the formation and evolution of land forms. Lec, lab, field trips for which fee is assessed.
Prerequisites: jr st; Geo Sci 100(P), Geoq 120(P), or 121(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

GEO SCI 414 Structural Geology
3 cr. Undergraduate.
Description and analysis of primary and secondary geological structures; regional and global frameworks of geological structures. 2 hrs lec, 2 hrs lab.
Prerequisites: jr st; Math Placement Level 40; Geo Sci 302(C).
Course Rules: Field trip for which fee is assessed.
Current Offerings: http://uwm.edu/schedule

GEO SCI 435 History of Geologic Thought
3 cr. Undergraduate/Graduate.
History of development of the major concepts in geology.
Prerequisites: jr st; Geo Sci 102(P) or cons instr.
Last Taught: Fall 2016, Fall 2013, Fall 2009, Fall 1993.
Current Offerings: http://uwm.edu/schedule

GEO SCI 440 Geochemical Thermodynamics
3 cr. Undergraduate/Graduate.
Basic equilibrium thermo-dynamics applied to low-temperature and high-temperature geochemical problems.
Prerequisites: jr st, Chem 104(P), Geo Sci 301(P), & Math 231(P).
Current Offerings: http://uwm.edu/schedule

GEO SCI 443 Glacial and Pleistocene Geology
3 cr. Undergraduate/Graduate.
Mechanics of glacial flow, Pleistocene stratigraphy, and laboratory techniques. Lec, lab, & field trips for which fees are assessed.
Prerequisites: jr st; Geo Sci 100(P) or 101(P) or Geoq 120(P) or 121(P).
GEO Sci 102(R) or 108(R).
Current Offerings: http://uwm.edu/schedule

GEO SCI 445 Field Geology
3-8 cr. Undergraduate.
Geologic field work and mapping. Taken off-campus, usually during the summer.
Prerequisites: sr st; Geo Sci 302(P) & 414(P).
Course Rules: May be retaken to 8 cr max.
Current Offerings: http://uwm.edu/schedule

GEO SCI 461 Physical Oceanography
3 cr. Undergraduate/Graduate.
Overview of physical oceanography, conservation of mass, salinity and momentum, thermodynamics, equations of motion. Waves, currents and circulation.
Prerequisites: jr st; Math 232(P), & Physics 123(P) or 210(P).
Current Offerings: http://uwm.edu/schedule

GEO SCI 463 Physical Hydrogeology
3 cr. Undergraduate/Graduate.
Study of ground water occurrence, its interrelationship with surface water, aquifer properties, groundwater flow and water supply development, including well hydraulics, water quality, and groundwater law. Lec, lab, & field trip for which fee is assessed.
Prerequisites: jr st; Geo Sci 100(P) or 101(P); Math 232(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

GEO SCI 464 Chemical Hydrogeology
3 cr. Undergraduate/Graduate.
Natural chemical processes that occur in groundwater systems, how they are modified by human activity and contamination, and attempts to regulate them. Lec, lab.
Prerequisites: jr st; Chem 102(P).
Course Rules: Frshwr 464 & Geo Sci 464 are jointly-offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

GEO SCI 497 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

GEO SCI 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l sem.
Prerequisites: jr st; add’l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule
GEO SCI 501 Phanerozoic Evolutionary Trends
3 cr. Undergraduate/Graduate.
Examination of Earth's paleoecological patterns and their driving
mechanisms. Counts as repeat of Geo Sci 696 or 697 w/same topic.
Prerequisites: jr st; Geo Sci 102(P).
Last Taught: Spring 2017.
Current Offerings: http://uwm.edu/schedule

GEO SCI 511 Stratigraphy and Sedimentation
3 cr. Undergraduate/Graduate.
Techniques and principles of sedimentology and stratigraphy, including
methods of correlation, analysis of facies, stratigraphic mapping, and
tectonic controls of sedimentation. Lec, lab, field trips.
Prerequisites: jr st; Geo Sci 102(P) or equiv.
Current Offerings: http://uwm.edu/schedule

GEO SCI 515 Physical Sedimentology
3 cr. Undergraduate/Graduate.
Physical properties, processes, and environments of clastic sediments.
Lec, lab, field trip for which fee is assessed.
Prerequisites: jr st; Geo Sci 511(P).
Last Taught: Fall 2014, Fall 2009, Fall 2007, Fall 2004.
Current Offerings: http://uwm.edu/schedule

GEO SCI 520 Introduction to Paleontology
3 cr. Undergraduate/Graduate.
General study of fossils and theoretical principles used in the study of
paleontology. Lec, lab, field trips.
Prerequisites: jr st; Geo Sci 102 or 108.
Last Taught: Fall 2017, Fall 2015, Fall 2011, Fall 2009.
Current Offerings: http://uwm.edu/schedule

GEO SCI 525 Terroir: Geology in a Glass
3 cr. Undergraduate/Graduate.
The geology, soil types, and climate of famous wine regions; factors that
influence the production of fine wine.
Prerequisites: jr st; Geo Sci 100(P).
Course Rules: No cr for students w/cr in Geo Sci 696 w/same topic.
Last Taught: Fall 2015.
Current Offerings: http://uwm.edu/schedule

GEO SCI 528 Biogeochemistry and the Fossil Record
3 cr. Undergraduate/Graduate.
Fermentation as a metabolic process; the organic geochemistry of
fermentation; and procedures and protocols for fermentation experiments.
Prerequisites: jr st.
Current Offerings: http://uwm.edu/schedule

GEO SCI 545 X-Ray Analytical Methods
3 cr. Undergraduate/Graduate.
Methods in x-ray diffractometry and spectrometry. Nature and generation
of x-rays, collection and interpretation of powder diffraction patterns and
 elemental analysis using x-ray spectrometry.
Prerequisites: jr st, Geo Sci 301(P); satisfaction of OWC-A req; Chem
102(C).
General Education Requirements: OWC
Current Offerings: http://uwm.edu/schedule

GEO SCI 558 Conducted Field Trip:
1-3 cr. Undergraduate/Graduate.
Field trip to a classical geologic area. Preceded by a seminar.
Prerequisites: jr st; cons instr.
Course Rules: May be retaken w/chg in topic to 9 cr max, only 3 cr of
which may be applied toward geo sci major.
Current Offerings: http://uwm.edu/schedule

GEO SCI 562 Environmental Surface Hydrology
3 cr. Undergraduate/Graduate.
Land-atmosphere interactions, modeling of runoff generation, and water
movement in the vadose zone. 3 hrs lec.
Prerequisites: jr st; Math 232(P); or cons instr.
Last Taught: Fall 2012, Fall 2010, Fall 2008, Fall 2006.
Current Offerings: http://uwm.edu/schedule

GEO SCI 563 Field Methods in Hydrogeology
3 cr. Undergraduate/Graduate.
Introduction to current equipment and methodology used in field
evaluation of hydrologic systems. Well installation and monitoring,
stream gaging, indirect surface observations. Lab, field trip for which fee
is assessed.
Prerequisites: jr st; Geo Sci 463(P).
Last Taught: Fall 2012, Fall 2010, Fall 2008, Fall 2006.
Current Offerings: http://uwm.edu/schedule

GEO SCI 599 Geology of Wisconsin--Field Course
3 cr. Undergraduate/Graduate.
Multi-institutional team-taught, conducted field course throughout
Wisconsin; instruction in the field, using exposures on which Wisconsin's
geological history has been interpreted.
Prerequisites: jr st; Geo Sci 302(P).
Current Offerings: http://uwm.edu/schedule

GEO SCI 614 Advanced Structural Geology
3 cr. Undergraduate/Graduate.
Advanced analysis of deformation as applied to geological structures
from microscopic through regional scales. Lec, field trip for which fee is
assessed.
Prerequisites: jr st; Geo Sci 414(P); Math 231(C).
Current Offerings: http://uwm.edu/schedule

GEO SCI 635 Volcanology
3 cr. Undergraduate/Graduate.
Why and when volcanoes erupt; predicting whether eruptions will be
explosive or passive.
Prerequisites: jr st; Geo Sci 302(P) or cons instr.
Last Taught: Fall 2016, Fall 2013, Fall 2009, Fall 2007.
Current Offerings: http://uwm.edu/schedule

GEO SCI 636 Geochronology
3 cr. Undergraduate/Graduate.
Theory and application of radiometric and other numerical dating
methods in geology, archaeology, and paleoanthropology.
Prerequisites: jr st, Anthro 101(P) or 103(P) or Geo Sci 100(P), & cons
instr; or grad st & cons instr.
Course Rules: Anthro 636 & Geo Sci 636 are jointly offered; they count as
repeats of one another.
Current Offerings: http://uwm.edu/schedule
GEO SCI 637 Planetary Geology
3 cr. Undergraduate/Graduate.
Advanced study of planetary geology, for advanced undergraduate and graduate students.
Prerequisites: jr st; Geo Sci 301(P) or Astron 211(P) or 400(P); completion of OWC-A GER (English 102 or equiv placement).
Course Rules: No cr for students w/cr in Geo Sci 697 w/same topic.
General Education Requirements: OWCB
Last Taught: Spring 2017, Spring 2015.
Current Offerings: http://uwm.edu/schedule

GEO SCI 638 Advanced Igneous Petrology
3 cr. Undergraduate/Graduate.
Prerequisites: jr st; Geo Sci 302(P).
Last Taught: Fall 2017, Fall 2014, Fall 2010, Fall 2008.
Current Offerings: http://uwm.edu/schedule

GEO SCI 655 Topics in Structure and Tectonics
1-3 cr. Undergraduate/Graduate.
Prerequisites: jr st; Geo Sci 414(P) or cons instr.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

GEO SCI 668 Geoelectrical Methods
3 cr. Undergraduate/Graduate.
Fundamentals of electrical resistivity surveys and electromagnetic methods, with an emphasis on surficial and environmental applications.
Prerequisites: jr st; Geo Sci 316(C), 463(C), or 661(C).
Current Offerings: http://uwm.edu/schedule

GEO SCI 668 Seminar in Geosciences for Teachers:
1-6 cr. Undergraduate/Graduate.
Seminar modules on various topics in geosciences offered for teachers.
Prerequisites: current teaching contract.
Course Rules: Open only to practicing science teachers with demonstrable expertise in geoscience. May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

GEO SCI 694 Undergraduate Seminar:
1-3 cr. Undergraduate.
Intensive study of a selected topic in a seminar format.
Prerequisites: jr st; cons instr.
Course Rules: May be retaken w/chg in topic to 9 cr max, of which up to 3 cr may count in major requirements.
Last Taught: Spring 2011, Fall 2010, Fall 2009, Spring 2009.
Current Offerings: http://uwm.edu/schedule

GEO SCI 695 Internship in Geoscience
1-3 cr. Undergraduate/Graduate.
An internship consistent with the student's plan of study in geosciences. Requirements and evaluation determined by the department on an individual basis.
Prerequisites: jr st; cons dept.
Current Offerings: http://uwm.edu/schedule

GEO SCI 696 Topics in the Geological Sciences:
1-3 cr. Undergraduate/Graduate.
Add'l prereqs announced in Schedule of Classes each time course offered.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

GEO SCI 697 Seminar in the Geological Sciences:
1-3 cr. Undergraduate/Graduate.
Specific credits and add'l prereqs announced in Schedule of Classes each time course offered.
Prerequisites: jr st.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

GEO SCI 698 Research Experience for Teachers
1-6 cr. Undergraduate/Graduate.
Enrichment of students' geoscience background. Work with faculty mentor to develop an innovative teaching program for use in students' own classrooms.
Prerequisites: current teaching contract.
Course Rules: Open only to practicing science teachers with demonstrable expertise in geoscience. May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

GEO SCI 699 Advanced Independent Reading
1-3 cr. Undergraduate.
Advanced independent geologic study under supervision of Geo Sci faculty or instructional academic staff member. Students must submit a study proposal. For more information, consult supervising instr or dept chair.
Prerequisites: jr st; 2.5 GPA; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken w/chg in topic to 3 cr max.
Last Taught: UWinterM 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

GEO SCI 703 Biotic Crises in Earth's History
3 cr. Graduate.
The interconnectedness among the physical, chemical, and biological processes on Earth and throughout Earth's history.
Prerequisites: grad st; Geo Sci 520(P) or equiv.
Current Offerings: http://uwm.edu/schedule

GEO SCI 730 Modelling Techniques for Hydrogeology
3 cr. Graduate.
Study and application of modelling techniques in hydrogeology. Includes finite difference and finite element techniques for groundwater flow, contaminant transport, and geochemistry.
Prerequisites: grad st; Geo Sci 463; knowledge of fortran or equiv; cons instr.
Current Offerings: http://uwm.edu/schedule
GEO SCI 740 Carbonate Sedimentology
3 cr. Graduate.
Depositional processes, environments and stratigraphic analysis of carbonate rocks. Lec, lab, field trip, for which fee is assessed.
Prerequisites: grad st; Geo Sci 511 or equiv.
Course Rules: Field trip for which fee is assessed.
Last Taught: Fall 2017, Fall 2015, Fall 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule

GEO SCI 749 Biogeochemistry of Soils
3 cr. Graduate.
Biogeochemical processes in soils and their impact on water quality. 3 hrs lec.
Prerequisites: grad st; Geo Sci 464(P) or cons instr.
Last Taught: Spring 2009.
Current Offerings: http://uwm.edu/schedule

GEO SCI 750 Contaminant Hydrogeology
3 cr. Graduate.
Transport and fate of contaminants in aquifers, aquitards, and unsaturated geologic materials.
Prerequisites: grad st; Geo Sci 464(C).
Last Taught: Fall 2017, Fall 2015, Fall 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

GEO SCI 790 Graduate Seminar in the Geological Sciences:
1-3 cr. Graduate.
Add'l prereqs announced in schedule of classes each time course offered.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

GEO SCI 888 Candidate for Degree
0 cr. Graduate.
Available for grad students who must meet minimum cr load requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Last Taught: Fall 2017, Fall 2016, Summer 2016, Summer 2015.
Current Offerings: http://uwm.edu/schedule

GEO SCI 990 Master’s Thesis
1-8 cr. Graduate.
Prerequisites: grad st; cons instr & completed thesis proposal.
Current Offerings: http://uwm.edu/schedule

GEO SCI 997 Doctoral Externship
1-12 cr. Graduate.
Prerequisites: grad st.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

GEO SCI 998 Doctoral Dissertation
1-12 cr. Graduate.
Prerequisites: grad st.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

GEO SCI 999 Advanced Independent Reading
1-4 cr. Graduate.
Independent geologic study.
Prerequisites: grad st & cons instr.
Course Rules: Retakable to 4 cr max.
Current Offerings: http://uwm.edu/schedule

Cross-listed Courses
The following courses offered by the Department of Geography may be used to fulfill the requirements of the undergraduate major and minor in geosciences:

<table>

Geosciences, BA

Many students are already familiar with Geosciences through what is commonly called "earth science" in high school. Geosciences covers our Planet Earth - its soil, minerals, climate change, magnetic fields, earthquakes, water, plants, fossils, volcanoes and more.

The BA degree in Geosciences requires fewer math, physics, and chemistry prerequisites and upper-level courses than the BS degree. It is designed for students who expect to use the earth sciences in preparation for a career in law, business, government, primary or secondary schools, or natural resources, or for those who start the Geosciences program later in their college careers. The BA degree in Geosciences is more easily combined with complementary majors for students to pursue a double or a triple major.

Geosciences majors at UWM can organize their electives around a particular area of interest if they wish:

- Hard Rock - the study of structural geology, mineralogy, petrology, volcanology and tectonics
- Hydrogeology - the study of water resources
- Paleontology - the study of evolutionary patterns in history
- Sedimentary Geology - the study of rocks, fossils, and landforms in the context of the biological and chemical make-up

Geosciences touches on all aspects of the other natural sciences including chemistry, biology, mathematics and physics, so the ideal student for Geosciences loves all types of science and is curious about how they interrelate. Most Geosciences students also love the outdoors and traveling off of the beaten path.

Required outdoor field work prepares students for jobs with environmental and water resource management; energy and mineral industries; and government agencies.

UWM students often participate in research abroad in places as diverse as Iceland, Turkey, South America, Ireland, and New Zealand. Others gain hands-on experience in the dirt of Montana, the hills of South Dakota or the swamps of Florida.

Requirements

Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

</tbody>
</table>
Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning
To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

</tr>
</tbody>
</table>

Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

IV. International Requirement
See Approved Courses for the L&S International Requirement (p. 1169) for course options.

V. Breadth Requirement
Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Complete one of the following:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>Complete 9 credits in combination of the two options above</td>
<td>9</td>
</tr>
</tbody>
</table>

Note: This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

III. Foreign Language Requirement
Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

<td>9</td>
</tr>
<tr>
<td></td>
<td>Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)</td>
<td>9</td>
</tr>
</tbody>
</table>

Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part B.
* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

### Major Requirements

All students who major in Geosciences must complete at least 15 credits in Geosciences courses at the advanced level (numbered 300 or above) in residence at UWM as part of the 36 advanced-level credits required for the L&S degree. The College requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work.

### Letters & Science Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus' general education requirements and the College's degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uw.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

### Honors in the College of Letters and Science

#### Dean's Honor List

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

#### Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

#### Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable
semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Contact Information**
Current Students contact the Department directly at geo-info@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu
http://uwm.edu/geosciences/undergraduate/

**Geosciences, BS**
Many students are already familiar with Geosciences through what is commonly called "earth science" in high school. Geosciences covers our Planet Earth - its soil, minerals, climate change, magnetic fields, earthquakes, water, plants, fossils, volcanoes and more.

The Bachelor of Science (BS) degree in Geosciences is designed to prepare students to become professional Earth scientists in a wide range of disciplines, as well as to enter graduate programs for further advanced training. The BS curriculum includes more allied science requirements than the BA and is designed for students who plan professional employment or advanced study in the geosciences. Graduates seek employment with environmental and water resource management; energy and mineral industries; and government agencies.

Geosciences majors at UWM can organize their electives around a particular area of interest if they wish:

- **Hard Rock** - the study of structural geology, mineralogy, petrology, volcanology and tectonics
- **Hydrogeology** - the study of water resources
- **Paleontology** - the study of evolutionary patterns in history
- **Sedimentary Geology** - the study of rocks, fossils, and landforms in the context of the biological and chemical make-up

Geosciences touches on all aspects of the other natural sciences including chemistry, biology, mathematics and physics, so the ideal student for Geosciences loves all types of science and is curious about how they interrelate. Most Geosciences students also love the outdoors and traveling off of the beaten path.

Required outdoor field work prepares students for jobs with environmental and water resource management; energy and mineral industries; and government agencies.

UWM students often participate in research abroad in places as diverse as Iceland, Turkey, South America, Ireland, and New Zealand. Others gain hands-on experience in the dirt of Montana, the hills of South Dakota or the swamps of Florida.

**Course of Study – Bachelor of Science Degree**
Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated upper-level Natural Science. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

**University General Education Requirements (GER)**

**College of Letters & Science Requirements**

I. **English Writing Requirement**
Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond English 102 on the English Placement Test (EPT).
II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 211</td>
<td>Survey in Calculus and Analytic Geometry</td>
<td>4</td>
</tr>
<tr>
<td>MATH 221</td>
<td>Honors Calculus I</td>
<td>5</td>
</tr>
<tr>
<td>MATH 231</td>
<td>Calculus and Analytic Geometry I</td>
<td>4</td>
</tr>
</tbody>
</table>

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 212, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>
<td></td>
</tr>
<tr>
<td>ANTHRO 568</td>
<td>Introduction to Anthropological Statistics</td>
<td></td>
</tr>
<tr>
<td>ATM SCI 500</td>
<td>Statistical Methods in Atmospheric Sciences</td>
<td></td>
</tr>
<tr>
<td>BIO SCI 465</td>
<td>Biostatistics</td>
<td></td>
</tr>
<tr>
<td>ECON 210</td>
<td>Economic Statistics</td>
<td></td>
</tr>
<tr>
<td>GEOG 247</td>
<td>Quantitative Analysis in Geography</td>
<td></td>
</tr>
<tr>

</tr>
<tr>
<td>PSYCH 210</td>
<td>Psychological Statistics</td>
<td></td>
</tr>
<tr>
<td>SOCIOL 261</td>
<td>Introduction to Statistical Thinking in Sociology</td>
<td></td>
</tr>
</tbody>
</table>

Note: This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

III. Foreign Language Requirement

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

IV. International Requirement

See Approved Courses for the L&S International Requirement (p. 1169) for course options.

<table>
<thead>
<tr>

</tbody>
</table>

* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

VI. The Major

The College requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires...
that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

**Research Requirement.**
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

**Major Requirements**
All students who major in Geosciences must complete at least 15 credits in Geosciences courses at the advanced level (numbered 300 or above) in residence at UWM as part of the 36 advanced-level credits required for the L&S degree. The College requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work.

<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYSICS 209 &amp; PHYSICS 214</td>
<td>Physics I (Calculus Treatment) and Lab Physics I (Calculus Treatment)</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 63-66

1 GEO SCI 455 is required but not offered at UWM. Students must enroll in a field course at another university to satisfy the requirement.

Students are advised strongly to increase their scholastic breadth by selecting courses from among several subdisciplines of the geosciences, in consultation with Geosciences Department faculty.

Students who are interested in general geology are encouraged to include courses from among the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO SCI 409</td>
<td>Process Geomorphology</td>
<td>3</td>
</tr>

**Letters & Science Advising**

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.
Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the “Declaration of Major” information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Honors in the College of Letters and Science

Dean's Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Contact Information
Current Students contact the Department directly at geo-info@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu
http://uwm.edu/geosciences/undergraduate/

Geosciences, Minor

Many students are already familiar with Geosciences through what is commonly called "earth science" in high school. Geosciences covers our Planet Earth - its soil, minerals, climate change, magnetic fields, earthquakes, water, plants, fossils, volcanoes and more.

Geoscience minors at UWM can organize their electives around a particular area of interest if they wish:

- Hard Rock - the study of structural geology, mineralogy, petrology, volcanology and tectonics
- Hydrogeology - the study of water resources
- Paleontology - the study of evolutionary patterns in history
- Sedimentary Geology - the study of rocks, fossils, and landforms in the context of the biological and chemical make-up

Geosciences touches on all aspects of the other natural sciences including chemistry, biology, mathematics and physics, so the ideal student for Geosciences loves all types of science and is curious about how they interrelate. Most Geosciences students also love the outdoors and traveling off of the beaten path.

For the minor, outdoor field work is not required but is recommended as preparation for jobs with environmental and water resource management; energy and mineral industries; and government agencies.

UWM students often participate in research abroad in places as diverse as Iceland, Turkey, South America, Ireland, and New Zealand. Others gain hands-on experience in the dirt of Montana, the hills of South Dakota or the swamps of Florida.

Requirements
The College of Letters and Science requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work. The minor consists of a minimum of 18 credits in geosciences courses, including the following:

<table>
<thead>
<tr>

http://uwm.edu/geosciences/undergraduate/

Geosciences, MS

The Department of Geosciences offers graduate work emphasizing applied aspects of the hydrologic, geological, and geophysical sciences. The geological sciences concentration prepares students for careers in such areas as engineering and environmental geology, hydrogeology, geophysical exploration, mining and petroleum geology.
The M.S. degree program trains students equally for professional practice and continued graduate study. The typical course of study takes two years to complete. The Ph.D. degree program, with interwoven components in lithospheric and hydrospheric science, is problem oriented rather than specialty oriented: this program is designed to produce scholars and practitioners capable of applying their training to achieve sound and pragmatic solutions to real problems in the earth sciences. Students in the doctoral program will normally spend a minimum of two years of formal coursework, not including dissertation research.

The Department has a variety of geological and geophysical field equipment including a drill rig, portable water sampling and analytical systems, and marine and land-based seismic and electrical resistivity systems. In addition, the Department maintains the following equipment directly or through its association with the UWM Center for Great Lakes Studies: X-ray diffractometer and spectrometer, atomic absorption unit, gas and ion chromatographs, liquid scintillation counter, cold region environmental chambers, operating well field, seismograph, Paleomagnetics laboratory, and recirculating flume.

Supporting facilities in the University include a computing center, scanning electron microscope, a cartographic laboratory, the Saukville Field Station 50 km north of the campus, the Center for Great Lakes Studies, and the Urban Research Center.

The Department also maintains the extensive geological collections of the Greene Geological Gallery and cooperates actively with the Milwaukee County Public Museum.

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus the following departmental requirements to be considered for admission to the program:

- Undergraduate preparation consisting of one year each of: college chemistry, college physics, and calculus; one summer of field training in geology for students majoring in geology.
- Undergraduate grade point average of 3.0 (4.0 scale).
- Submission of scores on the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gmat) (General Test).

Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses.

The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree. A geology student who lacks field training must acquire the training not later than the summer following initial enrollment.

Major Professor as Advisor
The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. The student is assigned a temporary advisor at the time of initial enrollment and requests a faculty member to serve as the thesis advisor after selecting an area of specialization.

Credits and Courses
Minimum degree requirement is 30 graduate credits, at least 24 of which must be earned in formal course credits and up to 6 of which may be earned through an acceptable thesis.

<table>
<thead>
<tr>
<th>Code</th>

</tr>
<tr>
<td>GEO SCI 990*</td>
<td></td>
<td>6</td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>30</td>
</tr>
</tbody>
</table>

* A graduate student is allowed to register for a maximum of nine 990 research credits, no more than 6 of which may be counted toward the 30-credit requirement.

All students in their second or later year are required to present a progress report annually to the Department.

Proposal for Thesis
Prior to the formal undertaking of thesis research, the student must prepare a written proposal for the thesis problem including an estimate of costs to be incurred. Copies of the proposal are to be distributed to the faculty advisor and the Department reading file. One copy is to be placed in the student's permanent Department file. An abstract of the proposal is to be distributed to each Department faculty member for comment and criticism.

Thesis
The student must write an acceptable thesis embodying the results of original research completed under the direction of the advisor.

Comprehensive Examination
The student must pass a comprehensive examination, either oral or written or both. In part a defense of the thesis, the examination covers the student's entire graduate program of studies. At the option of the student, the part of the examination consisting of the presentation of the results of thesis research may be open to other graduate students.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Geosciences, PhD
The Department of Geosciences offers graduate work emphasizing applied aspects of the hydrologic, geological, and geophysical sciences. The geological sciences concentration prepares students for careers in such areas as engineering and environmental geology, hydrogeology, geophysical exploration, mining and petroleum geology.

The M.S. degree program trains students equally for professional practice and continued graduate study. The typical course of study takes two years to complete. The Ph.D. degree program, with interwoven components in lithospheric and hydrospheric science, is problem oriented rather than specialty oriented: this program is designed to produce scholars and practitioners capable of applying their training to achieve sound and pragmatic solutions to real problems in the
earth sciences. Students in the doctoral program will normally spend a minimum of two years of formal coursework, not including dissertation research.

The Department has a variety of geological and geophysical field equipment including a drill rig, portable water sampling and analytical systems, and marine and land-based seismic and electrical resistivity systems. In addition, the Department maintains the following equipment directly or through its association with the UWM Center for Great Lakes Studies: x-ray diffractometer and spectrometer, atomic absorption unit, gas and ion chromatographs, liquid scintillation counter, cold region environmental chambers, operating well field, seismograph, Paleomagnetics laboratory, and recirculating flume.

Supporting facilities in the University include a computing center, scanning electron microscope, a cartographic laboratory, the Saukville Field Station 50 km north of the campus, the Center for Great Lakes Studies, and the Urban Research Center.

The Department also maintains the extensive geological collections of the Greene Geological Gallery and cooperates actively with the Milwaukee County Public Museum.

**Application Deadlines**

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**

To be considered for admission to the program, an applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus the following program requirements:

1. Hold a master’s degree in one of the natural sciences, engineering, or mathematics or have equivalent experience.
2. Have an appropriate background in aspects of the geosciences relevant the intended field of study.
3. Submit scores from the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre) (general test).
4. Arrange to have at least three (3) letters of recommendation sent to the Graduate Coordinator of the Department of Geosciences.

Exceptional students without a M.S. degree may be considered for admission. A student who holds a master’s degree from UWM must formally reapply for admission to the Graduate School before continuing studies toward the Ph.D.

**Credits and Courses**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits taken from formal master’s study</td>
<td></td>
<td>24</td>

<td>21</td>
</tr>
<tr>
<td>Elective and GEO SCI 998 Doctoral Dissertation credits</td>
<td></td>
<td>9</td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>54</td>
</tr>
</tbody>
</table>

Doctoral students must earn 54 credits beyond the bachelor’s degree, of which 24 credits may be taken from formal coursework completed as part of the master’s study. At least 21 graduate credits beyond the master’s degree must be earned in formal coursework.

Each student must prepare a formal Program of Study to be submitted to the Graduate School within the first semester in the program. Courses are selected in consultation with the student’s advisor with approval from the Doctoral Committee. Students are strongly advised to take courses from each of their committee members prior to taking the doctoral preliminary examination. For full time students, coursework should be completed within 4 semesters after admission to the Ph.D. program. In unusual situations, this timetable may be extended beyond 4 semesters. A timetable for coursework completion for part time students will be established on an individual basis.

**Residency Requirement**

The Graduate School requires satisfaction of a residency requirement. This involves completing at least 8 graduate credits in 2 consecutive semesters or 6 graduate credits in 3 consecutive semesters (including summer sessions) while in full doctoral status at UWM. In addition, at least half of the graduate credits required for the Ph.D. must be earned at UWM.

**Quantitative Skill**

A working knowledge of computer programming, statistics, numerical methods, or GIS appropriate to the student’s field of study is required. Standards for this requirement will be established by the student’s Doctoral Committee. Undergraduate courses taken to meet this requirement do not apply to the course requirements for the Ph.D.

**Doctoral Committee**

The membership of the Doctoral Committee will be established in the student’s first semester. The Committee must consist of the following:

- the doctoral student’s advisor as chair (or co-advisors as co-chairs);
- at least three additional graduate faculty members from the Geosciences Department; and
- at least one member from outside the student’s fields of specialization.

The student is required to arrange a meeting with the Doctoral Committee at least once each year.

The student may request a change of advisor if another faculty member is available, willing, and able to assume that role. If this change involves a significant modification of the area of specialization or research, the student’s record will be reexamined to determine whether the student’s background is sufficient for the new specialty. If it is not, it may be necessary for the student to withdraw from the program and reapply in the new specialty. Normally such a change of direction will not be allowed once the dissertation proposal has been defended.

**Doctoral Preliminary Examination**

Advancement to dissiator status requires that students must pass a doctoral preliminary examination and then develop and successfully defend a dissertation proposal. The doctoral preliminary examination is administered in two parts: a set of written exams and a follow-up oral exam. The structure of the examination will be established by the student’s Doctoral Committee. It must be passed prior to the completion of 24 credits in the program and must demonstrate knowledge in the fields of geology and related sciences defined by the Doctoral Committee. The written and oral exams are taken after the residency requirement is fulfilled.

Subsequently, the student must present to the Doctoral Committee a written proposal in NSF format for her/his dissertation research. At a minimum, it should provide an overview of and approach to the problem being addressed, a budget, and appropriate bibliographic references.
The dissertation proposal should be defended within one semester of completion of the preliminary exam. Students who successfully pass all three elements of the doctoral preliminary examination are admitted to doctoral dissertator status.

**Annual Presentation of Results**
Each dissertator is required to make a 30-minute presentation of research results at a Geosciences Colloquium each year. Dissertators also are required to make a 50-minute colloquium presentation of the results of the completed doctoral research prior to the dissertation defense.

**Dissertation**
The candidate must present a written dissertation reporting the results of independent, original research carried out under the direction of the major professor. Prior to a defense, the dissertation must be reviewed by a Reading Committee consisting of the major professor and at least two other members of the Doctoral Committee. Information regarding dissertation deadlines, preparation, and review of the dissertation is available from the Student Services Office of the Graduate School.

**Dissertation Defense**
The student first will present research results in a colloquium. Then the dissertation must be orally defended before the entire Doctoral Committee. The defense may include questions related to any of the dissertator’s fields of study. If the dissertation is defended and the oral examination is passed to the satisfaction of a majority of the Doctoral Committee, the candidate is passed and recommended for the degree.

**Time Limit**
All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.

**Additional Requirements and Information**
Detailed information about program requirements is provided to each student following admission and is available from the Department office. For additional information on Graduate School Ph.D. requirements, see the Doctoral Requirements (http://uwm.edu/graduateschool/doctoral-requirements) Webpage.
GLOBAL STUDIES

The College of Letters and Science, together with several of UWM’s professional schools, offers a Bachelor of Arts and a Minor in Global Studies. These programs are designed to combine the acquisition of leadership, management, and communication skills with an in-depth understanding of global issues. Students in these programs will be uniquely prepared for careers in an increasingly integrated world.

Programs

- Global Health, Undergraduate Certificate (College of Letters and Science) (p. 1436)
- Global Studies, BA (p. 1438)
- Global Studies, Minor (p. 1450)

Global Studies Courses

GLOBAL 101 Introduction to Global Studies I: People and Politics
3 cr. Undergraduate.
Fundamental aspects of globalization; how economic, political, and cultural globalization affects contemporary societies.
Prerequisites: none.
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

GLOBAL 190 Think Tank Learning Community I:
1 cr. Undergraduate.
Integration of social, artistic, and cultural forces into global business, economics, politics etc; discussion of case studies with working professionals.
Prerequisites: fr st only.
Course Rules: Retakable once w/chg in topic. Students may earn a max of 8 cr in the combination of Global 190, 290, 390, & 490. Not open for cr to sophs, jrs, or srs.
Last Taught: Spring 2012, Fall 2011, Spring 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

GLOBAL 192 First-Year Seminar:
3 cr. Undergraduate.
Specific topics announced in Schedule of Classes each time course is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: HU
Last Taught: Fall 2012.
Current Offerings: http://uwm.edu/schedule

GLOBAL 193 First-Year Seminar:
3 cr. Undergraduate.
Specific topics announced in Schedule of Classes each time course is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: SS
Last Taught: Spring 2006.
Current Offerings: http://uwm.edu/schedule

GLOBAL 194 First-Year Seminar:
3 cr. Undergraduate.
Selected topics announced in Schedule of Classes each time course is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

GLOBAL 199 Independent Study
1-3 cr. Undergraduate.
Independent work under supervision of faculty or academic staff member. For further information, consult the program director.
Prerequisites: 2.5 GPA; wrt cons instr, prog dir, & asst dean for SAS.
Course Rules: Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

GLOBAL 201 Introduction to Global Studies II: Economics and the Environment
3 cr. Undergraduate.
Link between international trade and environmental change; conditions related to global economy; political impact of environmental change; human dimensions of international trade and environmental change.
Prerequisites: none.
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

GLOBAL 202 Introduction to Global Studies III: Globalization and Technology
3 cr. Undergraduate.
Globalization and information technology; history of and current trends in global transfer of technology; contemporary issues in information technology; media convergences and divisions.
Prerequisites: none.
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

GLOBAL 289 Internship in Global Studies, Lower Division
1-6 cr. Undergraduate.
Application of basic principles of global studies in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: Global 101(P); 2.25 gpa; cons supervising faculty member.
Course Rules: Min 40 hrs in internship req’d for 1 cr. Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

GLOBAL 290 Think Tank Learning Community II:
1 cr. Undergraduate.
Application of concepts of globalization to case studies presented by working professionals.
Prerequisites: soph st only.
Course Rules: Retakable once w/chg in topic. Students may earn a max of 8 cr in the combination of Global 190, 290, 390, & 490. Not open for cr to fr, jrs, or srs.
Last Taught: Spring 2012, Fall 2011, Spring 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

GLOBAL 298 Internship in Global Studies, Lower Division
1-6 cr. Undergraduate.
Application of basic principles of global studies in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: Global 101(P); 2.25 gpa; cons supervising faculty member.
Course Rules: Min 40 hrs in internship req’d for 1 cr. Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

GLOBAL 299 Independent Study
1-3 cr. Undergraduate.
Independent work under supervision of faculty or academic staff member. For further information, consult the program director.
Prerequisites: 2.5 GPA; writ cons instr, prog dir, & asst dean for SAS.
Course Rules: Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule
GLOBAL 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

GLOBAL 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: Retakable w/chg in topic.
Last Taught: Spring 2013, Fall 2012, Spring 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

GLOBAL 311 Contexts for Global Management
3 cr. Undergraduate.
How globalization can impact the success or failure of business decisions; how business decisions can impact globalization; management in a global context.
Prerequisites: jr st.
Last Taught: Spring 2018, Spring 2017, Fall 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

GLOBAL 321 The Global City in History
3 cr. Undergraduate.
Key issues in history of the global city from Mesopotamia to the age of globalization; changing role of urban centers; global dimensions of Milwaukee's history.
Prerequisites: jr st.
Last Taught: Fall 2011, Fall 2010, Spring 2008.
Current Offerings: http://uwm.edu/schedule

GLOBAL 351 Language, Media, and Social Practice in Global Communications
3 cr. Undergraduate.
Explores the impact of global communications on languages and cultures; examines implications of globalization for technologically mediated forms of communication and related social practices.
Prerequisites: jr st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

GLOBAL 361 Environment and Sustainability
3 cr. Undergraduate/Graduate.
Different answers to 'what is sustainability?' given by ecological and social thinkers.
Prerequisites: jr st.
Last Taught: Fall 2014.
Current Offerings: http://uwm.edu/schedule

GLOBAL 362 System Failure: Globalization and Language Extinction
3 cr. Undergraduate/Graduate.
Role of globalization in the projected extinction of a large number of the world's languages within the next century.
Prerequisites: jr st; a course in social science; a course in linguistic anthro; or cons instr.
Course Rules: AIS 362, Anthro 362, & Global 362 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2014, Spring 2012.
Current Offerings: http://uwm.edu/schedule

GLOBAL 371 Rethinking Global Security
3 cr. Undergraduate.
Basic concepts for international security in the age of globalization; sources of security and insecurity from a historical perspective.
Prerequisites: jr st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

GLOBAL 390 Think Tank Learning Community III:
1 cr. Undergraduate.
Application of concepts of globalization to case studies presented by working professionals.
Prerequisites: jr st only.
Course Rules: Retakable once w/chg in topic. Students may earn a max of 8 cr in the combination of Global 290, 390, & 490. Not open for cr to fr, sophs, or srs.
Last Taught: Spring 2012, Fall 2011, Spring 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

GLOBAL 421 Cities in the Global Economy
3 cr. Undergraduate.
How and why globalization leaves different imprints on cities; how cities in turn constantly restructure the form of the global economy.
Prerequisites: jr st.
Course Rules: Anthro 421 & Global 421 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2015, Spring 2014, Fall 2010.
Current Offerings: http://uwm.edu/schedule

GLOBAL 439 Culture and Global Health
3 cr. Undergraduate/Graduate.
Contemporary global health through the lens of cultural anthropology and related social sciences; local communities' response to globally-directed intervention into disease.
Prerequisites: jr st.
Course Rules: Anthro 439 & Global 439 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2015, Spring 2014, Fall 2010.
Current Offerings: http://uwm.edu/schedule

GLOBAL 442 Humanitarianism in Global Perspective
3 cr. Undergraduate/Graduate.
Anthropological study of global humanitarianism through specific case studies. Themes include politics of representation, intervention, war, genocide, trauma, child soldiers, and human trafficking.
Prerequisites: jr st; a social science course (P).
Course Rules: Anthro 442 & Global 442 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2015, Spring 2014, Fall 2010.
Current Offerings: http://uwm.edu/schedule
GLOBAL 443 Medicine and Pharmaceuticals in the Global Age
3 cr. Undergraduate/Graduate.
The practices of medicine and the distribution of pharmaceuticals globally.
Prerequisites: jr st; Anthro 440(R).
Course Rules: Anthro 443 & Global 443 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2017, Spring 2015.
Current Offerings: http://uwm.edu/schedule

GLOBAL 446 The Re-Configuring Global Order
3 cr. Undergraduate/Graduate.
Contemporary and past global forces re-configuring our world systems and economic and political orders.
Prerequisites: jr st
Last Taught: Summer 2014.
Current Offerings: http://uwm.edu/schedule

GLOBAL 447 The Global Politics of Human Rights
3 cr. Undergraduate/Graduate.
Historical and theoretical context of human rights discourse; anthropology of human rights; case studies of efforts to protect human rights in particular social settings.
Prerequisites: jr st; Anthro 102(R).
Course Rules: Anthro 447 & Global 447 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Fall 2014, Spring 2012, Fall 2007.
Current Offerings: http://uwm.edu/schedule

GLOBAL 448 Intellectual Property in the Global Information Economy
3 cr. Undergraduate/Graduate.
Emerging conflicts between the intellectual property rules and new information technologies; all aspects - copyright, patent, trademarks - in global contexts of biotechnology, software, print, digital media, and music industries.
Prerequisites: jr st.
Last Taught: Fall 2013, Summer 2011, Fall 2008.
Current Offerings: http://uwm.edu/schedule

GLOBAL 449 Internship in Global Studies, Upper Division
1-6 cr. Undergraduate.
Application of basic principles of global studies in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; 6 cr Global 300-level or above; 2.5 gpa; cons supervising faculty member.
Course Rules: Credit granted for academic work based on 40 hours in internship for each credit. Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

GLOBAL 450 Think Tank Learning Community IV
1-6 cr. Undergraduate.
Application of concepts of globalization to case studies presented by working professionals.
Prerequisites: sr st only.
Course Rules: Retakable to 4 cr max w/chg in topic. Students may earn a max of 8 cr in the combination of Global 190, 290, 390, & 490. Not open for cr to fr, sophs, or jrs.
Last Taught: Spring 2012, Fall 2011, Spring 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

GLOBAL 451 Access, Security, and Intercultural Contexts in Global Communications
3 cr. Undergraduate.
Information equity and access in a globalized context, including issues of security, intercultural communication, and current uses of communication technologies.
Prerequisites: jr st.
Last Taught: Fall 2017, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

GLOBAL 461 The Politics and Policy of Sustainability
3 cr. Undergraduate/Graduate.
Principles of environmental policy, governance, and management for global sustainability.
Prerequisites: jr st; CES 210(P) or cons instr.
Course Rules: CES 461, FrshWr 461, & Global 461 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Spring 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

GLOBAL 467 Strategies for Realizing Security in Global Contexts
3 cr. Undergraduate.
Present-day strategies of those working to create or effect greater security in a global context.
Prerequisites: jr st.
Last Taught: Fall 2016, Fall 2014, Fall 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

GLOBAL 488 Elective Internship in Global Studies
1-6 cr. Undergraduate.
Application of basic principles of global studies in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; 6 cr Global 300-level or above; 2.5 gpa; cons supervising faculty member.
Course Rules: Credit granted for academic work based on 40 hours in internship for each credit. Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

GLOBAL 489 Internship in Global Studies, Upper Division
1-6 cr. Undergraduate.
Application of basic principles of global studies in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; 6 cr Global 300-level or above; 2.5 gpa; cons supervising faculty member.
Course Rules: Credit granted for academic work based on 40 hours in internship for each credit. Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

GLOBAL 490 Think Tank Learning Community IV
1 cr. Undergraduate.
Application of concepts of globalization to case studies presented by working professionals.
Prerequisites: sr st only.
Course Rules: Retakable to 4 cr max w/chg in topic. Students may earn a max of 8 cr in the combination of Global 190, 290, 390, & 490. Not open for cr to fr, sophs, or jrs.
Last Taught: Spring 2012, Fall 2011, Spring 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

GLOBAL 497 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Last Taught: Fall 2017, Summer 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

GLOBAL 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l sem.
Prerequisites: jr st; add’l prereqs may be assigned to specific topic.
Course Rules: Retakable w/chg in topic.
Last Taught: Fall 2008, Fall 2005.
Current Offerings: http://uwm.edu/schedule
GLOBAL 500 Global Studies Capstone Seminar
3 cr. Undergraduate.
Integration of coursework in the Global Studies curriculum. Majors enroll in designated section for their Global Studies track.
Prerequisites: jr st; declared global studies major; or cons instr.
Course Rules: Not retakable.
Current Offerings: http://uwm.edu/schedule

GLOBAL 541 Cross-Cultural Management
3 cr. Undergraduate.
Business cultures around the world; the impact of cultural differences in international management and negotiations.
Prerequisites: jr st; Bus Adm 330(P); admis to Bus Adm major or declared Global Studies program.
Course Rules: Bus Adm 541 & Global 541(411) are jointly offered; they count as repeats of one another.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

GLOBAL 550 Global Studies Integrated Capstone:
3 cr. Undergraduate/Graduate.
Integration of coursework for students in the Global Communications, Health, Security, Sustainability, and Urban Development tracks.
Prerequisites: jr st; satisfaction of OWC-A GER; declared Global Studies major or cons instr.
Course Rules: May be taken w/chg in topic to 6 cr max.
General Education Requirements: OWC
Current Offerings: http://uwm.edu/schedule

GLOBAL 551 Global Communications Capstone: Future Trends
3 cr. Undergraduate.
Global Studies-Global Communications capstone. Communication challenges that constitute & complicate global experiences; ways to respond in a manner that demonstrates competence as global communicators.
Prerequisites: jr st; declared Global Studies major; or cons instr.
Course Rules: Counts as a repeat of Global 500 w/same topic.
Current Offerings: http://uwm.edu/schedule

GLOBAL 561 Preparing for Sustainable Peacebuilding and Social Change
3 cr. Undergraduate/Graduate.
Analytical framework for understanding the key social dynamics that affect sustainable social change.
Prerequisites: jr st; Global 361(P) & 461(P), or cons instr.
Last Taught: Spring 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

GLOBAL 571 Global Security Capstone: Future Trends
3 cr. Undergraduate.
Global Studies-Global Security capstone. Examination of justice and power broadly defined as they pertain to emerging trends & efforts to address anticipated problems.
Prerequisites: jr st; declared Global Studies major; or cons instr.
Course Rules: Counts as a repeat of Global 500 w/same topic.
General Education Requirements: OWC
Current Offerings: http://uwm.edu/schedule

GLOBAL 597 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Designed to enable students studying or interning abroad to receive course credit at appropriate level.
Prerequisites: jr st; Global Studies or MSP advisor approval.
Course Rules: Retakable with change in topic.
Current Offerings: http://uwm.edu/schedule

GLOBAL 599 Advanced Independent Study
1-3 cr. Undergraduate.
See Independent Study in current catalog. For further information, consult Global Studies Coordinator.
Prerequisites: jr st; 2.5 gpa; writ cons instr, prog coord, & asst dean for SAS.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2016, Fall 2013, Summer 2013.
Current Offerings: http://uwm.edu/schedule

Global Health, Undergraduate Certificate (College of Letters and Science)

Anne Dressel, Director, Center for Global Health Equity, Nursing, Certificate Coordinator
Deatra Holloway, Senior Advisor, Nursing, CUN 129

Global Health is an interdisciplinary undergraduate certificate administered by the Director of the Center for Global Health Equity and the Global Health Advisory Committee (GHAC).

The world is economically, politically, culturally, and technologically connected and interdependent with increasingly mobile populations seeking economic opportunity, security, and safety as a result of civil unrest, regional conflicts, diminished natural resources, poverty, and disease. Although some health problems and issues remain specific to levels and contexts of socio-cultural, economic, and political development within countries, many of the same problems, issues, and concerns transcend geographic boundaries, as should appropriate approaches and solutions. The concept of “global health” describes and addresses these realities. An undergraduate certificate in Global Health will provide students with academic inquiry into:

- the global burden of disease
- the social determinants of health in a global context
- the principles, language, and measurement tools used in global health
- ethics and global health
- the global cultural, religious, and historical contexts of health, disease, and health care

The Global Health Certificate will provide undergraduate students with an opportunity to focus on current global health issues and concerns, policies, processes, programs, and practices that contribute to and hinder global health improvement. A wide array of courses will help students...
better comprehend the interdisciplinary approach to understanding and addressing global health issues.

Eligibility

The Global Health Certificate is intended to enhance a bachelor's degree. The certificate is available to all students seeking a bachelor's degree from UWM, to students who previously have received a bachelor's degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. Non-degree students must meet regular University admission requirements. Students currently involved in baccalaureate studies who successfully complete the requirements of the program will be awarded the certificate upon completion of the program requirements.

Requirements

To obtain the certificate, the student must complete, with a minimum grade point average of 2.500, at least 21 credits in approved Global Health courses, of which 12 must be earned in residence at UWM. Of these 12 residence credits, 9 must be taken at the 300 level or above. A minimum of 6 credits must be taken in the College of Letters and Science. A minimum of 6 credits must be taken in the College of Nursing. No more than 9 credits from any one department may count toward the certificate. A maximum of 6 credits of independent study may count toward program requirements. Courses for the certificate may not be taken on a credit/no credit basis.

Independent study courses focusing on global health issues may be accepted with the approval of the Certificate Program Coordinator. Other courses not on this list but relevant to the study of global health may be accepted with the approval of the Certificate Program Coordinator.

Credits earned at other institutions equivalent to courses in the certificate program may be accepted in partial fulfillment of the program requirements, subject to review by the Certificate Program Coordinator. Students currently enrolled at UWM who have fulfilled some of the program's requirements prior to the approval of this program may count those courses toward completion of the certificate requirements.

Fieldwork

Students are required to do an internship, self-designed research project, or study abroad (for a minimum of 3 credits at the 300-level or above) in the field of global health. The purpose of this requirement is to enable the student to engage in global health work through "practical" experience or research. The area of study must be approved by the coordinator of the Global Health Certificate and must meet the requirements of the department through which it is being completed.

The fieldwork requirement can be fulfilled in one of three ways:

- Internship – A number of global health internships are available through the International Studies Major (INTLST 450), as well as other departments and organizations.
- Study Abroad – UWM offers a number of Global Health study abroad programs, through several departments.
- Independent Study – The student may propose a global health research project to a professor in an area of interest. The independent study also must be discussed with and approved by the Global Health Certificate Coordinator.
Global Studies, BA

UWM’s Global Studies programs combines the benefits of a liberal arts education with the training of a professional program to prepare students to work internationally or domestically on matters that cross borders and cultures. The College of Letters and Science and several of UWM’s professional schools have formed a partnership to offer students this unique program of study that will prepare them for positions of global leadership in our increasingly interconnected world.

At UWM, Global Studies is a rigorous program that incorporates classes across disciplines, a required study abroad experience, and extensive foreign language requirements. This challenging but rewarding program prepares students to excel in a job market that demands knowledge across subject areas and a culturally sensitive and savvy approach. The analytical, communication, and cultural awareness knowledge and skills acquired through the Global Studies degree will serve students well in any area of work.

Students at UWM choose from one of six tracks:

- Global Communications - with a focus on language, culture and the technology of modern, global communication (option for a joint degree between the College of Letters and Science and the School of Information Studies)
- Global Management - focusing on business and the world economy (joint degree between the College of Letters and Science and the Sheldon B. Lubar School of Business)
- Global Security - dealing with aspects of conflict and change such as water resources, war, human rights, borders, and global health
- Global Sustainability - where students develop expertise in matters of the environment and government systems
- Global Urban Development - an ideal choice for students interested in cities, population growth, architecture, and urban planning (joint degree between the College of Letters and Science and the School of Architecture and Urban Planning)
- Global Health - a track for students interested in global careers in healthcare, international aid, healthcare policy, international health education, health outreach, and international health regulations (option for a joint degree between the College of Letters and Science and the College of Nursing)

Students often wonder what the differences are between Global Studies and International Studies. In addition to the specialties mentioned above that are available to Global Studies students, in the Global Studies program, students are required to reach foreign language fluency equivalent to the eighth semester of study and are required to complete a study abroad and an international internship experience.

Requirements

Major Requirements

To earn the Bachelor of Arts in Global Studies, students in all tracks must complete 120 credits, including a minimum of 36 credits in upper-division courses (numbered 300 or above), while fulfilling the requirements below. GPAs of at least 2.000 overall and 2.500 in the selected track are required for graduation. Students also are responsible for completing the University-wide General Education Requirements (p. 33).

</tbody>
</table>

World Regions

Select one of the following:

- GEOG 110 The World: Peoples and Regions (SS)
- HIST 132 World History Since 1500 (HU)
- POL SCI 106 Politics of the World’s Nations (SS)

Foreign Language

Select one of the following options:

Option 1:

- One Language: Eight semesters (or equivalent) of a single foreign language with passing grades

Option 2:

- Two Languages: First- through sixth-semester (or equivalent) of a first language other than English and two semesters (or equivalent) in a second language other than English, all with passing grades

Study Abroad

Select a minimum of 12 credits while studying abroad 12

International Internship

Select a 3-credit internship at a location outside of the U.S 3

Tracks

Select one of the following tracks:

- Global Communications
- Global Health
- Global Management
- Global Security
- Global Sustainability
- Global Urban Development

Total Credits 30

1 The internship normally will be completed during the semester abroad, in the summer following the semester abroad, or in the senior year.

Tracks Core Curricula

Additional requirements designated for each track appear in the sections below. Under track core curriculum, students are required to complete only the requirements for their elected track.

Global Communications Track

To earn the Bachelor of Arts in Global Studies through the Global Communications track, students must complete the following requirements.
**Global Communications Track Core**

- ENGLISH 449, Internship in the Humanities
- JAMS 201, Media Writing
- INFOST 110, Introduction to Information Science and Technology
- INFOST 250, Internet Communications and Information Transfer

**Global Communications Track Electives**

Select 24 credits (see below) 24

Total Credits 45

1 At least one writing course must be selected.

**Global Communications Electives**

Students must complete 24 credits from the following lists of courses, with a minimum of 15 credits taken from List A. There is no minimum number of credits that must be selected from Lists B-E. Electives from Lists C-E should be courses about the country or region in which the student will pursue language study and/or study abroad. Any individual course may count only once toward degree requirements. Students in this track who are awarded their degree by L&S only must complete at least 36 credits in L&S upper-division (numbered 300 or above) courses.

**List A**

(A minimum of 15 credits must be completed from the following):

**Global Sustainability Track**

To earn the Bachelor of Arts in Global Studies through the Global Sustainability track, students must complete 51-56 credits in the requirements listed below. Students in this track must complete at least 36 credits in upper-division (numbered 300 or above) courses, of which 24 credits must be in L&S.

**Exit Survey**

All Global Studies degree and minor students are required to complete an assessment assignment and an exit survey upon completion of their required coursework. This assessment process allows Global Studies students to reflect on their experience while providing important information to help improve the program.

The exit survey is conducted online for a limited period of time during the fall, spring, and summer terms. Students who are about to complete or who have finished all coursework and need to take the exit survey should contact Tracy Buss (tbusss@uwm.edu).

**Letters & Science Advising**

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including
high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

**Honors in the Global Studies Degree**

Honors in the Global Studies Degree is different from all-university honors and signifies that a student has attained a significant level of achievement in their specific academic program. While the exact number of students who receive Honors in the Global Studies Degree will vary from year to year, on average recipients can be considered to rank among the top 10% of Global Studies graduates. Eligibility requirements for Honors in the Global Studies Degree are:

- GPA of 3.000 or higher for all graded UWM credits attempted;
- GPA of 3.500 or higher for all courses required in the Global Studies degree;
- GPA of 3.750 or higher for all upper-level courses required in the Global Studies degree (minimum of 15 credits);
- GPA of 3.750 or higher for all Global courses (minimum of 18 credits).

Non-UWM/transfer credits are excluded from GPA calculations for Honors in the Global Studies Degree.

**Honors in the College of Letters and Science**

**Dean’s Honor List**

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., .3.499).

**Final Honors**

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Contact Information**

Current Students contact Christine Wolf, cawolf@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

http://uwm.edu/cie/academics/global-studies/

**Global Studies, Minor**

UWM’s Global Studies programs combines the benefits of a liberal arts education with the training of a professional program to prepare students to work internationally or domestically on matters that cross borders and cultures. The College of Letters and Science and several of UWM’s professional schools have formed a partnership to offer students this unique program of study that will prepare them for positions of global leadership in our increasingly interconnected world.

At UWM, the Global Studies minor are rigorous programs that incorporates classes across disciplines, a required study abroad experience, and extensive foreign language requirements. This challenging but rewarding program prepares students to excel in a job market that demands knowledge across subject areas and a culturally sensitive and savvy approach. The analytical, communication, and cultural awareness knowledge and skills acquired through the Global Studies program will serve students well in any area of work. Global Studies minors do not choose a track, but rather choose classes from an array of options that include classes from each of the different tracks. An overseas experience is required for minors.

**Requirements**

A minimum of 9 credits for the minor must be taken at the 300 level or above. These credits can include foreign language or additional study abroad coursework. At least 9 credits must be completed in residence at UWM. Credits earned in a UWM study abroad or exchange program count toward this requirement. No more than 9 credits from another major, minor, or certificate program may be counted toward the Global Studies minor. The College of Letters & Science requires that students achieve at least a 2.500 cumulative GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including transfer work. The program also requires students to complete an exit survey prior to graduation. See the Global Studies information in the Inter-School/College section of the catalog for details on completion of the exit survey.
The Global Studies Minor consists of at least 18 credits, distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GLOBAL 101</td>
<td>Introduction to Global Studies I: People and Politics (SS)</td>
<td>3</td>
</tr>
<tr>
<td>GLOBAL 201</td>
<td>Introduction to Global Studies II: Economics and the Environment (SS)</td>
<td>3</td>
</tr>
<tr>
<td>GLOBAL 202</td>
<td>Introduction to Global Studies III: Globalization and Technology (SS)</td>
<td>3</td>
</tr>
</tbody>
</table>

**Foreign Language**
Select at least four university-level semesters of a single foreign language.

**Study Abroad**
Select one of the following with approval from a Global Studies advisor:
- Overseas academic experience
- Internship outside of the U.S.

**Global Content Electives**
Select 6 credits (see below)

HISTORY

The study of history involves all aspects of human experience throughout time. The Department of History offers a variety of courses, defined geographically, chronologically, and thematically, through which students acquire both broad and specialized knowledge of the past.

History courses are intended to transmit knowledge about various areas and periods, to address general historical problems, and to make students more capable of reading and analyzing both primary sources and secondary literature. Students learn how to collect information independently, to present material, and to construct arguments in a literate and cogent manner. Courses also are intended to make students more understanding of the complexity of human existence and the reality of human diversity, as well as more prepared to make informed and responsible decisions about issues in the world in which they live. These provide excellent training for professional careers in education, government, business, law, and social work, as well as advanced work in academics.

Programs

- History, BA (p. 1468)
- History, MA (p. 1474)
- History, MA/Library and Information Science, MLIS (p. 1476)
- History, MA: Public History (p. 1477)
- History, Minor (p. 1480)
- History, PhD (p. 1483)

History Courses

HIST 101 Western Civilization: Ancient World to 1500
3 cr. Undergraduate.
A survey of major themes in the social, political, and cultural development of the western world from its ancient origins to 1500.

3 cr. Undergraduate.
Survey of the culture, history, and institutions of China, Korea, and Japan from earliest times.
Prerequisites: none.
General Education Requirements: HU
Last Taught: Spring 2018, Fall 2016, Fall 2014, Spring 2014.
Current Offerings: http://uwm.edu/schedule

HIST 176 East Asian Civilization Since 1600
3 cr. Undergraduate.
Survey of the culture, history, and institutions of China, Korea, and Japan since 1600.
Prerequisites: none.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

HIST 180 Latin American Society and Culture
3 cr. Undergraduate.
Lecture course designed to familiarize students with the broad parameters of Latin American history, emphasis on themes of continuity and change.
Prerequisites: none.
Course Rules: No cr for students with cr in Hist 388, 389, or 390.
General Education Requirements: SS
Last Taught: Fall 2014, Spring 2014, Spring 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

HIST 192 First-Year Seminar:
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

HIST 193 First-Year Seminar:
3 cr. Undergraduate.
The specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: SS
Last Taught: Fall 2007, Fall 2006, Fall 2001, Fall 2000.
Current Offerings: http://uwm.edu/schedule

HIST 199 Independent Study
1-3 cr. Undergraduate.
For further information, consult dept chair.
Prerequisites: 2.5 gpa; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

HIST 200 Historical Roots of Contemporary Issues:
3 cr. Undergraduate.
This course examines the historical dimensions and demonstrates the importance of historical thinking for the understanding of contemporary problems and crises.
Prerequisites: none.
Course Rules: May be retaken w/chg in topic.
General Education Requirements: SS
Last Taught: Fall 2017, Summer 2013, Summer 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

HIST 201 The Ancient World: The Near East and Greece
3 cr. Undergraduate.
Mesopotamians, biblical Palestinians, Assyrians, Medes, Persians, and Greeks to 323 B.C.E.
Prerequisites: none.
Course Rules: Not open for cr to students who have had any Hist courses numbered 121, 303, or 304.
General Education Requirements: HU
Last Taught: Spring 2017, Fall 2014, Fall 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with a supervising member of the faculty or staff.
Prerequisites: acceptance to UROP; prior or conc reg in UROP seminar.
Course Rules: One credit for 45 hrs research. May be retaken to 9 cr max in any combination of UROP apprenticeship courses. Not open to jrs & sr s.
Current Offerings: http://uwm.edu/schedule

HIST 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before coursework level, content and credits are determined and/or in specially prepared program coursework.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: UWинтериM 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

HIST 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l sem.
Prerequisites: none; add’l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

HIST 303 A History of Greek Civilization: The Greek City-State
3 cr. Undergraduate/Graduate.
Greek history from prehistoric times to the death of Alexander the Great.
Prerequisites: jr st; satisfaction of English Composition competency req.
Last Taught: Spring 2018, Fall 2015, Spring 2014, Fall 2010.
Current Offerings: http://uwm.edu/schedule

HIST 304 A History of Greek Civilization: The Age of Alexander the Great
3 cr. Undergraduate/Graduate.
The Macedonian state to the death of Alexander the Great; the Hellenistic states.
Prerequisites: jr st; completion of GER English Composition competency req.
Last Taught: Spring 2015, Fall 2011, Fall 2007, Spring 2005.
Current Offerings: http://uwm.edu/schedule

HIST 307 A History of Rome: The Republic
3 cr. Undergraduate/Graduate.
Roman history from the beginnings of the Roman state to the death of Julius Caesar.
Prerequisites: jr st; satisfaction of English Composition competency req.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

HIST 308 A History of Rome: The Empire
3 cr. Undergraduate/Graduate.
Roman history from the death of Julius Caesar to the fall of the empire in the west.
Prerequisites: jr st; satisfaction of English Composition competency req.
Current Offerings: http://uwm.edu/schedule
HIST 318 Medieval Civilization: The High Middle Ages
3 cr. Undergraduate/Graduate.
The intellectual development of medieval Europe, from the twelfth century to the fourteenth century.
Prerequisites: jr st; completion of GER English Composition competency req.

1-6 cr. Undergraduate.
Internship. May be retaken to 6 cr max.
Prerequisites: Hist 288(P), 291(P), 293(P), 294(P), 594(P), 595(P), or 596(P); declared Hist major or Educ/Soc Studies-Broad Field Hist major.
Course Rules: May be retaken w/chg in topic with petition to department chair to 6 cr max.
General Education Requirements: OWCB
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

HIST 600 Seminar in History:
3 cr. Undergraduate.
In-depth investigation of a period or theme in history. Emphasis on designing and writing a research paper based on primary and secondary sources.
Prerequisites: sr st; satisfaction of GER English Composition & Math Skills competency reqs; Hist 288(P), 291(P), 293(P), 294(P), 594(P), 595(P), or 596(P); declared Hist major or Educ/Soc Studies-Broad Field Hist major.
Course Rules: May be retaken w/chg in topic with petition to department chair to 6 cr max.
General Education Requirements: OWCB & Hist 475 are jointly offered; they count as repeats of one another.

HIST 681 Senior Thesis I
3 cr. Undergraduate.
Senior research project for history majors.
Prerequisites: sr st; satisfaction of GER English Composition competency req; Hist 288(P), 291(P), 293(P), 294(P), 594(P), 595(P), or 596(P); cons faculty thesis advisor & dept chair.
Last Taught: Fall 2013, Summer 2013, Fall 2012, Summer 2011.
Current Offerings: http://uwm.edu/schedule

HIST 682 Senior Thesis II
3 cr. Undergraduate.
Senior research project for history majors.
Prerequisites: Hist 681(P); satisfaction of GER English Composition competency req.
Last Taught: Spring 2014, Fall 2013, Spring 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule
HIST 699 Independent Reading:
1-6 cr. Undergraduate.
Advanced independent work under the supervision of a history faculty member. Students must submit study proposal. For more information, consult dept chair, www4.uwm.edu/letsic/history/undergrad/ internships.cfm.
Prerequisites: jr st; satisfaction of GER English Composition competency req; 2.5 GPA; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

HIST 700 Introduction to Public History
3 cr. Graduate.
Seminar on community history, relations between academic history and public history, and uses of material culture and oral history.
Prerequisites: grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

HIST 701 Internship in Public History
1-6 cr. Graduate.
Requirements determined and evaluation arranged on an individual basis.
Prerequisites: grad st; cons coord of public history.
Course Rules: Total of 6 cr required for the public history specialization of the M.A. degree and the optional public history minor in the PhD degree.
Current Offerings: http://uwm.edu/schedule

HIST 712 Historiography and Theory of History
3 cr. Graduate.
Seminar on history of historical writing and thought, including such theoretical problems as objectivity, generalization, the nature of historical explanation, and the value of history.
Prerequisites: grad st.
Last Taught: Spring 2017, Spring 2016, Fall 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

HIST 713 Historical Research Methods
3 cr. Graduate.
Seminar addressing evaluation of evidence, quantitative methods, and application of social science methodology to historical research.
Prerequisites: grad st.
Last Taught: Spring 2018, Fall 2016, Fall 2014, Fall 2011.
Current Offerings: http://uwm.edu/schedule

HIST 715 Research Methods in Local History
3 cr. Graduate.
Seminar on history and methodology of studying small towns, rural areas, cities, and neighborhoods in the United States.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

HIST 716 Professional and Pedagogical Issues in History
3 cr. Graduate.
Seminar on professional and pedagogical aspects of historical work, including course management, lecture writing, grading, and grant writing.
Prerequisites: grad st.
Last Taught: Fall 2015, Spring 2013, Fall 2009, Spring 2008.
Current Offerings: http://uwm.edu/schedule

HIST 717 History and the New Media
3 cr. Graduate.
Seminar on uses of new forms of technology in historical research and teaching.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

HIST 740 Approaches to the Modern I
3 cr. Graduate.
Seminar on major figures and intellectual forces that have shaped multiple approaches to the modern across the academy.
Prerequisites: grad st.
Course Rules: English 740, Hist 740, & MALLT 740 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2017, Fall 2011, Fall 2007.
Current Offerings: http://uwm.edu/schedule

HIST 741 Approaches to the Modern II
3 cr. Graduate.
Seminar on major figures and intellectual forces that have shaped approaches to the modern across periods.
Prerequisites: grad st.
Course Rules: English 741, Hist 741 & MALLT 741 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2013, Fall 2010, Fall 2009.
Current Offerings: http://uwm.edu/schedule

HIST 800 Colloquium on U.S. History:
3 cr. Graduate.
Seminar on issues and problems in U.S. history. Specific topics announced in Timetable each time course is offered.
Prerequisites: grad st.
Last Taught: Spring 2018, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

HIST 805 Colloquium: The Age of Jackson
3 cr. Graduate.
Studies in basic aspects of American history between 1815 and 1848 with emphasis on changing interpretations.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

HIST 809 Colloquium on Readings in the Gilded Age, 1877-1901
3 cr. Graduate.
Seminar that surveys historical literature on politics, culture, and society in late 19th century United States.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

HIST 813 Colloquium: Twentieth-Century Problems in American History
3 cr. Graduate.
A study of selected aspects of the American domestic scene and of important contemporary historians and their interpretations of the recent past.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule
HIST 825 Colloquium in the History of the South
3 cr. Graduate.
Studies of aspects of the history of the south with emphasis on changing interpretations.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

HIST 831 Colloquium on U.S. Labor History
3 cr. Graduate.
Seminar on topics in the history of the working classes in the U.S. since 1800.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

HIST 833 Colloquium on Urban History:
3 cr. Graduate.
Seminar on issues and problems in urban development and institutions. Specific topics announced in Schedule of Classes each time course is offered.
Prerequisites: grad st.
Course Rules: Retakable w/ chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

HIST 835 Colloquium-Literature of Milwaukee
3 cr. Graduate.
Examination and analysis of the documentation of Milwaukee's history, biography, memoirs, fiction, newspapers and periodicals, government documents and reports, manuscripts, maps, iconographic materials, and physical survivals.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

HIST 839 Approaches to Global History
3 cr. Graduate.
Seminar on historiography and practices of global and comparative history.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

HIST 840 Colloquium on Global History:
3 cr. Graduate.
Seminar on historical developments from a global or comparative perspective. Specific topics announced in Timetable each time course is offered.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

HIST 841 Colloquium on Modern Studies:
3 cr. Graduate.
Seminar on historical developments from a modern studies perspective. Specific topics and any additional prerequisites announced in Timetable each time course is offered.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2008.
Current Offerings: http://uwm.edu/schedule

HIST 850 Colloquium on European History.
3 cr. Graduate.
Seminar on issues and problems in European history. Specific topics announced in Timetable each time course is offered.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2017, Fall 2012, Spring 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

HIST 859 Colloquium in Medieval Economic History
3 cr. Graduate.
Studies in the economic and social history of the middle ages.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

HIST 862 Colloquium in the History of Renaissance and Reformation Europe:
3 cr. Graduate.
Introduction to important primary and secondary sources for the period; historiographical problems; different periods and/or problems are dealt with from semester to semester.
Prerequisites: grad st; cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

HIST 868 Colloquium in Modern British History
3 cr. Graduate.
Review basic historical literature on development of British economy, social structure and relations, political institutions, and cultural values since industrial revolution.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

HIST 880 Colloquium: European Diplomatic History
3 cr. Graduate.
Studies in modern European diplomatic history, emphasizing historiography, interpretation, and archival sources.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

HIST 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Current Offerings: http://uwm.edu/schedule

HIST 894 Colloquium in Tropical History: Colonial Rule
3 cr. Graduate.
The colonial period both from the point of view of the European rulers and the colonized peoples of the third world.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule
HIST 989 Colloquium in Modern Chinese History
3 cr. Graduate.
Studies in 19th and 20th century Chinese history with emphasis on the
main thematic approaches employed by Chinese, Japanese, European,
and American historians.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

HIST 900 Seminar on U.S. History:
3 cr. Graduate.
Topics in U.S. history. Specific topics announced in Timetable each time
course is offered.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

HIST 903 Seminar: American Political Hist in Revolutionary & Early
National Periods
3 cr. Graduate.
Studies in American political history in the age of the founding fathers.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

HIST 904 Seminar in Modern America
3 cr. Graduate.
Research in United States history since 1921.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

HIST 907 Seminar on U.S. Intellectual and Cultural History
3 cr. Graduate.
Intellectual and cultural figures and movements in U.S. history.
Prerequisites: grad st.
Last Taught: Fall 2014, Fall 2010, Spring 2007, Fall 2005.
Current Offerings: http://uwm.edu/schedule

HIST 924 Seminar In American Economic History
3 cr. Graduate.
Problems in the economic history of the United States.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

HIST 940 Seminar on Global History:
3 cr. Graduate.
Historical developments from a global or comparative perspective.
Specific topics announced in Timetable each time course is offered.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2017, Fall 2016, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

HIST 950 Seminar on European History:
3 cr. Graduate.
Topics in European history. Specific topics announced in Timetable each
time course is offered.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2015, Fall 2012, Spring 2012, Spring 2011.
Current Offerings: http://uwm.edu/schedule

HIST 970 Seminar on European Political History
3 cr. Graduate.
State, society, revolution, war and empire in European history.
Prerequisites: grad st.
Last Taught: Fall 2011, Spring 2009, Fall 2006, Fall 2002.
Current Offerings: http://uwm.edu/schedule

HIST 971 Seminar on the History of American Urban Problems
3 cr. Graduate.
Historical analysis of the current problems of housing, race relations, the
powers and functions of municipal government, law enforcement, and
city planning in the United States.
Prerequisites: grad st.
Course Rules: Hist 971 & Urb Std 971 are jointly offered; they count as
repeats of one another.
Last Taught: Fall 2017, Fall 2015, Fall 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

HIST 973 Seminar on Non-Western History:
3 cr. Graduate.
Significant themes and eras in the history of non-Western peoples and
nations. Specific topics and any additional prerequisites announced in
Timetable each time course is offered.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

HIST 980 Growth of Urban Society
3 cr. Graduate.
Seminar in historical, social, and ecological growth and development of
urban agglomerations. Comparative framework will be used to examine
the urban process.
Prerequisites: grad st.
Course Rules: Hist 980 & Urb Std 980 are jointly offered; they count as
repeats of one another.
Current Offerings: http://uwm.edu/schedule

HIST 985 Master's Thesis Research
1-6 cr. Graduate.
For students in the thesis option.
Prerequisites: grad st; cons instr.
Course Rules: Retakable to 6 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

HIST 989 Master's Level Independent Work
1-3 cr. Graduate.
Independent study on topics selected in agreement with supervising
professor.
Prerequisites: grad st; cons instr.
Course Rules: Retakable to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

HIST 990 Dissertation Research
1-6 cr. Graduate.
Research or dissertation work for students in the doctoral program in
History.
Prerequisites: grad st; cons instr.
Course Rules: Retakable as necessary to fulfill dissertation requirements.
Current Offerings: http://uwm.edu/schedule
HIST 999 Doctoral Level Independent Work
1-3 cr. Graduate.
Independent study on topics selected in agreement with supervising professor.
Prerequisites: grad st; cons instr.
Last Taught: Fall 2017, Spring 2017, Fall 2016, Summer 2016.
Current Offerings: http://uwm.edu/schedule

History, BA

Students of History do not just memorize the past. They ask questions about the past in order to solve problems of the present.

History is an original liberal arts field and is designed to prepare students for any type of profession that emphasizes critical analysis, reading of dense texts, creative problem-solving, and oral and written communication. History majors collect and analyze evidence to construct arguments, pose new interpretations, formulate conclusions, test hypotheses, and communicate new ideas.

There is no typical job for a history major. Our graduates can be found in all types of companies and in all types of roles, as well as graduate programs in History and other related humanities and social science fields. A student’s career choices after college is often guided by how they applied their coursework to real world applications during college. Internships, part-time jobs, and volunteer experiences will help a student network during college and shape their career choices after graduation. The possibilities are numerous, and all students are encouraged to gain practical experience that complements the major.

At UWM, undergraduates can work on research projects such as the Encyclopedia of Milwaukee. The opportunity to participate in research as an undergraduate is a distinct advantage for UWM students. At most large, research universities, research opportunities for undergraduates are limited; there are fewer of them and they often are reserved for juniors or seniors. At UWM, you can get involved as early as freshman year. Students work directly with faculty and graduate students on their current research projects, and sometimes find themselves published in a peer-reviewed journal right alongside the faculty member. Participating in undergraduate research is an excellent way to enhance your resume for graduate school or employment.

Students preparing to major in history are encouraged to enroll in several 100- and 200-level courses. Students may combine a major in history with many of the certificate programs or with another departmental major.

History is also available at UWM as an online major - all of the classes for the major can be completed online if desired, or students can mix-and-match assorted online and traditional-format classes.

Requirements
Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

</table>
### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement.

### College of Letters & Science Requirements

#### I. English Writing Requirement

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

#### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 103</td>
<td>Contemporary Applications of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 105</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>
<td></td>
</tr>
<tr>
<td>ANTHRO 568</td>
<td>Introduction to Anthropological Statistics</td>
<td></td>
</tr>
<tr>
<td>ATM SCI 500</td>
<td>Statistical Methods in Atmospheric Sciences</td>
<td></td>
</tr>
<tr>
<td>BIO SCI 465</td>
<td>Biostatistics</td>
<td></td>
</tr>
<tr>
<td>ECON 210</td>
<td>Economic Statistics</td>
<td></td>
</tr>
<tr>
<td>GEOG 247</td>
<td>Quantitative Analysis in Geography</td>
<td></td>
</tr>
<tr>
<td>HIST 595</td>
<td>The Quantitative Analysis of Historical Data</td>
<td></td>
</tr>
<tr>
<td>MTHSTAT 215</td>
<td>Elementary Statistical Analysis</td>
<td></td>
</tr>
<tr>
<td>PHILOS 211</td>
<td>Elementary Logic</td>
<td></td>
</tr>
<tr>
<td>POL SCI 390</td>
<td>Political Data Analysis</td>
<td></td>
</tr>
<tr>
<td>POL SCI 392</td>
<td>Survey Research</td>
<td></td>
</tr>
<tr>
<td>PSYCH 210</td>
<td>Psychological Statistics</td>
<td></td>
</tr>
</tbody>
</table>

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

#### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 103</td>
<td>Contemporary Applications of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 105</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

3. Select 3 credits

   Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.

   Complete 9 credits in combination of the two options above.

### IV. International Requirement

See Approved Courses for the L&S International Requirement (p. 1169) for course options.

<table>
<thead>
<tr>

<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

4. Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.

5. Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

<table>

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

6. Select 3 credits

   Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.

7. Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.

8. Complete 9 credits in combination of the two options above.

### Courses

#### SOCIOL 261

Introduction to Statistical Thinking in Sociology

**Note:** This is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

</tbody>
</table>

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

6. Select 3 credits

   Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.

7. Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.

8. Complete 9 credits in combination of the two options above.
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *

Cultural Diversity
Complete 3 credits in a course with Cultural Diversity (CD) designation. **

* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

VI. The Major
The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

History Major Requirements
History majors must maintain a 2.500 GPA in all history credits attempted at UWM and a 2.500 GPA in all history credits attempted at all institutions attended, collectively. No more than 6 of the 36 credits applied to the major may be earned in independent study courses (HIST 199 or HIST 699). Note that in all courses taken in the major on a credit/no credit basis (whether applied to the major or not), regular letter grades are recorded on your transcript and are used in the calculation of your GPA. History majors must enroll in and complete at least 18 credits in courses numbered 300 or above, of which 15 must be taken in residence at UWM.

Note: Specific courses may count toward the fulfillment of more than one requirement. For example, HIST 101 counts toward the fulfillment of both requirement #1 and requirement #4.

History majors are required to take 36 credits of coursework distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 101</td>
<td>Western Civilization: Ancient World to 1500</td>
<td>3</td>
</tr>
<tr>
<td>HIST 131</td>
<td>World History to 1500</td>
<td>3</td>
</tr>
<tr>
<td>HIST 175</td>
<td>East Asian Civilization to 1600</td>
<td>3</td>
</tr>
<tr>
<td>HIST 201</td>
<td>The Ancient World: The Near East and Greece</td>
<td>3</td>
</tr>
<tr>
<td>HIST 202</td>
<td>The Ancient World: The Roman Republic and Empire</td>
<td>3</td>
</tr>
<tr>
<td>HIST 203</td>
<td>The History of Medieval Europe: The Early Middle Ages</td>
<td>3</td>
</tr>
<tr>
<td>HIST 204</td>
<td>The History of Medieval Europe: The High Middle Ages</td>
<td>3</td>
</tr>
<tr>
<td>HIST 235</td>
<td>English History to 1688</td>
<td>3</td>
</tr>
<tr>
<td>HIST 274</td>
<td>Ancient Egyptian Civilization</td>
<td>3</td>
</tr>
<tr>
<td>HIST 280</td>
<td>Islamic Civilization: The Formative Period, ca. 500-1258</td>
<td>3</td>
</tr>
<tr>
<td>HIST 303</td>
<td>A History of Greek Civilization: The Greek City-State</td>
<td>3</td>
</tr>
<tr>
<td>HIST 304</td>
<td>A History of Greek Civilization: The Age of Alexander the Great</td>
<td>3</td>
</tr>
<tr>
<td>HIST 307</td>
<td>A History of Rome: The Republic</td>
<td>3</td>
</tr>
<tr>
<td>HIST 308</td>
<td>A History of Rome: The Empire</td>
<td>3</td>
</tr>
<tr>
<td>HIST 318</td>
<td>Medieval Civilization: The High Middle Ages</td>
<td>3</td>
</tr>
</tbody>
</table>

Students should pay particular attention to requirements #6 and #7. They will not be permitted to enroll in HIST 600 until after they have taken and passed one of the courses in historical methods listed under #6. This sequence may not be reversed and students cannot take both courses in the same semester. Prospective majors should fulfill the methods requirement at an early stage of their progress in the curriculum, in no case later than the next-to-last semester before they plan to graduate.

Course lists delineating approved European, U.S., non-Western or global, and pre-1500 history courses offered at UWM are below.

Ancient and Medieval History (Pre-1500) Requirements
The following courses satisfy the pre-1500 requirement of the History major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 294</td>
<td>Seminar on Historical Method: Research Techniques</td>
<td></td>
</tr>
<tr>
<td>HIST 594</td>
<td>Methods and Theory in the Historical Study of Religion:</td>
<td></td>
</tr>
<tr>
<td>HIST 595</td>
<td>The Quantitative Analysis of Historical Data</td>
<td></td>
</tr>
<tr>
<td>HIST 596</td>
<td>Maps as Historical Sources</td>
<td></td>
</tr>
<tr>
<td>HIST 600</td>
<td>Seminar in History:</td>
<td>3</td>
</tr>
</tbody>
</table>

Students who complete the senior thesis (see below) may substitute the thesis courses for HIST 600.
HIST 319  The Era of the Crusades  3  
HIST 320  History of Medieval Warfare  3  
HIST 325  The Renaissance  3  
HIST 376  History of Ancient China, Earliest Times to 220 A.D.  3  
HIST 394  History of Japan to 1600  3  

The following variable topic courses satisfy the pre-1500 requirement of the History major if the specific topic deals preponderantly with the era prior to 1500:

<table>
<thead>

</tr>
</tbody>
</table>

Because individual student topics in Hist 600 can vary, that course, with the instructor's approval, may count toward the pre-1500 requirement for certain students, as determined by the predominant focus of their individual work in the course.

**Cross-Listed Courses**

PORTUGS 360, with the topic “History of Brazil,” may be used to fulfill requirements of the undergraduate major or minor in history. It counts as a non-Western/global history course.

**Categorization of Courses by Geographic Area**

The following lists indicate the geographic areas towards which courses count in the fulfillment of the major and minor requirements. (Note that some courses do not satisfy any of the geographic area distribution requirements and that for variable-topic courses, the geographic area is determined by the specific topic).

**European History**

The geographic area of concentration in sections of Hist 600, where the area is not obvious in the title, by default is designated in accordance with the primary teaching and research interests of the instructor. In such cases, and with the instructor’s approval, Hist 600 can count toward different areas for different students, as determined by the predominant focus of their individual work in the course. Note that a variable topic course cannot be considered “Non-Western or Global” unless at least a substantial part of the course’s focus includes the study of African, Asian, Middle Eastern, or Latin American history.

Senior Thesis Option

Students choosing this two-semester sequence (HIST 681-HIST 682) write a substantial research paper on a topic of their choice in consultation with a faculty thesis advisor. The prerequisite for HIST 681 is at least one of the following courses: HIST 293, HIST 294, HIST 594, HIST 595, or HIST 596. Students also must receive approval from the faculty thesis advisor and department chair prior to enrolling. With the consent of the faculty thesis advisor and the department chair, history majors with a GPA of 3.333 (B+) or higher in all history credits attempted, including transfer work, may take the thesis sequence in lieu of Hist 600 to satisfy (in part) major requirements and the L&S research requirement. Access and print out the senior thesis proposal form (http://uw.edu/history/wp-content/uploads/sites/212/2016/01/senior-thesis-form.pdf) (PDF).

Independent Study

Independent study is not a substitute for courses regularly available in the curriculum. Students who wish to enroll in independent study (HIST 199 for freshmen and sophomores; HIST 699 for juniors and seniors) must have a minimum GPA of 2.500 in credits attempted at UWM. It is recommended that students work only with faculty members from whom they previously have taken regular classes. Students may not enroll in HIST 199 or HIST 699 for work already completed. When enrolling in HIST 199 or HIST 699, students shall select the section number of the faculty member who will supervise their work.

After consultation with the supervising faculty member, students must print out and complete an independent study form (http://uw.edu/history/wp-content/uploads/sites/212/2015/09/independentsudy.pdf) (PDF). This form contains the description of the independent study proposal, and it should be completed during the first two weeks of the semester. The supervising faculty member must approve the proposal and return the signed form to the department office for endorsement by the department chair as well as by the Dean. A student should not take more than three credits of independent study in one semester from the same faculty member. History majors may take no more than 6 of the required 36 credits in History in independent study, and a maximum of 3 credits of independent study may count toward the minor.

Letters & Science Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uw.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uw.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in.
In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

History Academic Advising
For academic advice, as well as for information on how to declare a major or minor in history, visit the undergraduate program web page of the Department of History at uwm.edu/history/undergraduate/ (http://uwm.edu/history/undergraduate).

Honors in the College of Letters and Science
Dean's Honor List
GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Contact Information
Current Students contact the Department directly, history@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu
http://uwm.edu/history/undergraduate/

History, MA
The Department of History offers MA and PhD programs that prepare students for careers in teaching, in historical research, and in archives, historical agencies, museums, libraries and government. The Department offers a wide array of geographically, chronologically and thematically defined courses.

At the master's level, the Department offers four options:
Credits and Courses

General History Option A: Thesis Option

Minimum degree requirement is 30 graduate credits, at least 24 of which must be taken in History. Required credit distribution:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 712</td>
<td>Historiography and Theory of History</td>

<td>30</td>
<td></td>
</tr>
</tbody>
</table>

1 Students may take 3 credits of either HIST 716 or HIST 717 as a substitute for 3 credits in one colloquium.

Academic Review and Thesis Prospectus

Within the first semester after completing 9 credits (including two of the following courses: HIST 712, HIST 713, a colloquium and/or seminar), Option A students are subject to an academic review. The Review is a one- to two-hour meeting involving the student, the student’s Major Professor and two other members of the History Graduate Faculty who will serve as secondary readers of the student's thesis. With the assistance of his or her Major Professor, the student must prepare a thesis prospectus in advance of the Review. The Review involves an evaluation of the student’s academic progress in master’s coursework, two unrevised course papers, and the reading list for the comprehensive exam.

Thesis

The student must write an acceptable thesis.

Comprehensive Examination

The student must pass a written and oral comprehensive examination.

Time Limit

The student must complete all degree requirements within five years of initial enrollment.

Urban Historical Studies Specialization

This specialization combines historical approaches with those of the social sciences in studying urban processes, organizations, and society. It is designed to meet the needs of students who intend to enter the interdisciplinary Urban Studies Ph.D. program or a similar program after completion of the Master of Arts degree.

Degree Requirements

The minimum degree requirement is 33 graduate credits distributed in the following manner:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 712</td>
<td>Historiography and Theory of History</td>

</tbody>
</table>

Thesis

A thesis is required in this specialization.

Comprehensive Examination

The student must pass an oral defense of the thesis.

Time Limit

The student must complete all degree requirements within five years of initial enrollment.
History, MA/Library and Information Science, MLIS

In collaboration with several other academic units at UW-Milwaukee, SOIS offers students the opportunity to obtain two Master’s degrees concurrently—one in Library and Information Science (MLIS) and one in a subject area.

Degree Requirements

- The number of degree credits needed for each of the coordinated programs is usually 12 fewer than the sum of the two programs if they were not taken simultaneously. **All degree requirements of each component must be satisfied.**
- The MLIS portion of the coordinated degrees can be completed online.
- Prerequisite to the award of either degree in this program is the simultaneous award of its counterpart degree.

MLIS Component

The Master of Library and Information Science (MLIS) component of each of the coordinated programs includes 30 credits of SOIS courses. These include the MLIS core courses (12 credits). The remaining 18 MLIS credits are selected from the School’s offerings in accordance with the student’s goals in the coordinated degree program.

MLIS/MA History

A Master of Arts in History/Master of Library and Information Science program to prepare students for positions as archivists, 48 credits.

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Basic Required MLIS Courses

<table>

Important

You must refer to the catalog pages of both individual master’s programs to ensure that you meet all requirements for both degrees.

Within the coordinated degree program, the minimum requirement for the MA in History is 30 graduate credits. Course distribution requirements are the same as those for General History Option A or Option B above, but the 3 elective credits for Option A and 6 of the elective credits for Option B can be selected from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>INFOST 650</td>
<td>An Introduction to Modern Archives Administration</td>
<td>3</td>
</tr>
</tbody>
</table>

These elective credits also can be used to satisfy degree requirements for the MLIS. For both Option A and Option B, at least 24 credits must be taken in History graduate courses.

General History Option A: Thesis Option

Minimum degree requirement is 30 graduate credits, at least 24 of which must be taken in History. Required credit distribution:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 712 or HIST 713</td>

</tr>
<tr>
<td>Select 9 credits in electives in consultation with the student’s advisor</td>
<td></td>
<td>9</td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>30</td>
</tr>
</tbody>
</table>

1 Students may take 3 credits of either HIST 716 or HIST 717 as a substitute for 3 credits in one colloquium.

General History Option B: Non-Thesis Option

Minimum degree requirement is 30 graduate credits, 24 of which must be taken in History. Required credit distribution:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 712 or HIST 713</td>
<td>Historiography and Theory of History</td>
<td>3</td>
</tr>
<tr>
<td>HIST 712 or HIST 713</td>
<td>Historical Research Methods</td>
<td>3</td>
</tr>
<tr>
<td>Select 6 credits in two colloquia (800 numbers) 1</td>
<td></td>
<td>6</td>
</tr>
<tr>
<td>Select 6 credits in two seminars (900 numbers)</td>
<td></td>
<td>6</td>
</tr>
<tr>
<td>Select 15 credits in electives in consultation with the student’s advisor</td>
<td></td>
<td>15</td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>30</td>
</tr>
</tbody>
</table>

1 Students may take 3 credits of either HIST 716 or HIST 717 as a substitute for 3 credits in one colloquium.

Academic Review and Comprehensive Examination Reading List

Within the first semester after completing 9 credits (including two of the following courses: HIST 712, HIST 713, a colloquium and/or seminar), Option B students are subject to an academic review. The Review is a one- to two-hour meeting involving the student, the student’s Major Professor and two other members of the History Graduate Faculty who will serve as examiners for the student’s comprehensive exam. With the assistance of his or her Major Professor, the student must prepare a reading list for the comprehensive exam in advance of the Review. The Review involves an evaluation of the student’s academic progress in master’s coursework, two unrevised course papers, and the reading list for the comprehensive exam.
Program Requirements

Comprehensive Examination
The student must pass a written and oral comprehensive examination.

Thesis (Option A)
Not required, but with the approval of the Director of Graduate Studies in History, the student may substitute a thesis for the comprehensive examination requirement. MA/MLIS students who write a thesis are subject to the Academic Review and Thesis Prospectus requirements outlined above for Option A.

Time Limit
The student must complete all requirements for the coordinated degree within seven years of initial enrollment.

History, MA: Public History

The Department of History offers MA and PhD programs that prepare students for careers in teaching, in historical research, and in archives, historical agencies, museums, libraries and government. The Department offers a wide array of geographically, chronologically and thematically defined courses.

At the master's level, the Department offers four options:

1. A general degree in History;
2. A specialization in Public History for those interested in areas such as museum work, archival administration and historic preservation;
3. A coordinated Master of Arts/Master of Library and Information Science degree program;
4. A specialization in Urban Historical Studies for students who intend to pursue a PhD in Urban Studies or in Urban History.

At the doctoral level, the Department offers the PhD in History.

The Department also participates in the interdisciplinary master's and doctoral programs in Urban Studies. For more information, see Urban Studies (p. 1778).

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
To be considered for admission, an applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these departmental requirements:

1. An undergraduate minor or 18 credits in history or equivalent preparation.
2. Two letters of recommendation from persons familiar with the applicant's scholastic achievement and potential.
3. A sample of the applicant's written work that demonstrates his or her ability to conduct historical research and/or the ability to analyze critically the work of others.
4. Scores on the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre) (General Test only).

Please visit the History department's website for information on the History Department Application (http://www4.uwm.edu/letsci/history/graduate/gradapply.cfm).

Applicants may be admitted with course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted toward the degree.

Advising
The Director of Graduate Studies provides initial advising for students in selecting courses and assists in selecting a Major Professor for long-term advising; the Director may assign a provisional graduate advisor before students select a Major Professor. Students are required to consult periodically with, and have their schedules approved by, the Director of Graduate Studies, the provisional advisor, or the Major Professor. The Major Professor normally serves as the chair of the student's academic review and supervises either the writing of the student's thesis or the student's reading for the comprehensive exam.

Credits and Courses

General History Option A: Thesis Option

are to be supervised and evaluated by the Coordinator and the host.

All internships must be approved by the Public History Coordinator and the host.

Internship

All internships must be approved by the Public History Coordinator and are to be supervised and evaluated by the Coordinator and the host. Internships, part-time jobs, and volunteer experiences will help a student match assorted online and traditional-format classes. For the minor can be competed online if desired, or students can mix-and-match assorted online and traditional-format classes.

Thesis Option for Students in Non-Thesis Tracks

A thesis is not required for students in the museum studies, archives, and historical preservation tracks, but with the approval of the Public History Coordinator these students may write a thesis in public history, which will add 6 credits to the 36-credit Public History specialization. Public History students who write a thesis are subject to the Academic Review and Thesis Prospectus requirements outlined above for the General History Option A.

Comprehensive Examination

Not required.

Time Limit

The student must complete all degree requirements within seven years of initial enrollment.

History, Minor

Students of History do not just memorize the past. They ask questions about the past in order to solve problems of the present.

History is an original liberal arts field and is designed to prepare students for any type of profession that emphasizes critical analysis, reading of dense texts, creative problem-solving, and oral and written communication. History majors collect and analyze evidence to construct arguments, propose new interpretations, formulate conclusions, test hypotheses, and communicate new ideas.

There is no typical job for a history major. Our graduates can be found in all types of companies and in all types of roles, as well as graduate programs in History and other related humanities and social science fields. A student's career choices after college is often guided by how they applied their coursework to real world applications during college. Internships, part-time jobs, and volunteer experiences will help a student network during college and shape their career choices after graduation. The possibilities are numerous, and all students are encouraged to gain practical experience that complements the major.

At UWM, undergraduates can work on research projects such as the Encyclopedia of Milwaukee. The opportunity to participate in research as an undergraduate is a distinct advantage for UWM students. At most large, research universities, research opportunities for undergraduates are limited; there are fewer of them and they often are reserved for juniors or seniors. At UWM, you can get involved as early as freshman year. Students work directly with faculty and graduate students on their current research projects, and sometimes find themselves published in a peer-reviewed journal right alongside the faculty member. Participating in undergraduate research is an excellent way to enhance your resume for graduate school or employment.

History is also available at UWM as an online minor - all of the classes for the minor can be competed online if desired, or students can mix-and-match assorted online and traditional-format classes.

### Interdisciplinary Recommendations

The following are recommended interdisciplinary courses (others may be chosen with the approval of the Public History coordinators):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTHRO 349</td>
<td>Seminar in Ethnography and Cultural Processes</td>
<td>3</td>
</tr>
<tr>
<td>ANTHRO 803</td>
<td>Survey of Cultural Anthropology</td>
<td>3</td>
</tr>
<tr>
<td>ARCH 302</td>
<td>Architecture and Human Behavior</td>
<td>3</td>
</tr>
<tr>
<td>ARTHIST 363</td>
<td>Modern Sculpture: 1880-1945</td>
<td>3</td>
</tr>
<tr>
<td>ARTHIST 458</td>
<td>A Comparative History of Architecture and Urbanism:</td>
<td>3</td>
</tr>
<tr>
<td>ARTHIST 901</td>
<td>Problems in Art History:</td>
<td>3</td>
</tr>
<tr>
<td>ENGLISH 630</td>
<td>Seminar in Literature and the Other Arts:</td>
<td>3</td>
</tr>
<tr>
<td>ENGLISH 741</td>
<td>Approaches to the Modern II</td>
<td>3</td>
</tr>
<tr>
<td>ENGLISH 885</td>
<td>Seminar in Critical Theory.</td>
<td>3</td>
</tr>
<tr>
<td>JAMS 562</td>
<td>Media Studies and Culture</td>
<td>3</td>
</tr>
<tr>
<td>JAMS 815</td>
<td>Media and Cultural Studies</td>
<td>3</td>
</tr>
<tr>
<td>INFOST 650</td>
<td>An Introduction to Modern Archives Administration</td>
<td>3</td>
</tr>
<tr>
<td>INFOST 655</td>
<td>Information and Records Management:</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 927</td>
<td>Seminar in Sociology of Contemporary Institutions:</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 928</td>
<td>Seminar in Social Organization:</td>
<td>3</td>
</tr>
<tr>
<td>URB STD 921</td>
<td>Seminar: Research Methods in Urban Studies</td>
<td>3</td>
</tr>
</tbody>
</table>

Within the first semester after completing 9 credits (including two of the following courses: HIST 700, HIST 715, a colloquium, and/or a seminar), public history students who choose to write a thesis are subject to an academic review. The review is a one- to two-hour meeting involving the student, the student's major professor, and two other members of the History Graduate Faculty who will serve as secondary readers of the student's thesis. With the assistance of his or her major professor, the student must prepare a thesis prospectus in advance of the review. The review involves an evaluation of the student's academic progress in master's coursework, two unrevised course papers, and the thesis prospectus.
Requirements

History minors are required to take a minimum of 18 credits of coursework distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select at least 3 credits in European history</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Select at least 3 credits in U.S. history</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Select at least 3 credits in non-Western or global history</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Select at least 9 credits in courses numbered 300 or above taken in residence at UWM</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td><strong>Total Credits</strong></td>
<td><strong>18</strong></td>
</tr>
</tbody>
</table>

History minors must maintain a 2.500 GPA in all history courses attempted at UWM and a 2.500 GPA in all history credits attempted at all institutions attended, collectively. No more than 3 of the 18 credits applied to the minor may be earned in independent study courses (HIST 199 or HIST 699). Note that in all courses taken in the minor on a credit/no credit basis (whether applied to the requirements of the minor or not), regular letter grades are recorded on your transcript and are used in the calculation of your GPA.

Note: Specific courses may count toward the fulfillment of more than one requirement. For example, HIST 307 counts toward the fulfillment of both requirement #1a and requirement #2.

Course lists delineating approved European, U.S., non-Western or global, and pre-1500 history courses offered at UWM are below.

Cross-Listed Courses

PORTUGS 360, with the topic “History of Brazil,” may be used to fulfill requirements of the undergraduate major or minor in history. It counts as a non-Western/global history course.

Categorization of Courses by Geographic Area

The following lists indicate the geographic areas towards which courses count in the fulfillment of the major and minor requirements. (Note that some courses do not satisfy any of the geographic area distribution requirements and that for variable-topic courses, the geographic area is determined by the specific topic).

European History

</tbody>
</table>
The geographic area of concentration in sections of Hist 600, where the area is not obvious in the title, by default is designated in accordance with the primary teaching and research interests of the instructor. In such cases, and with the instructor’s approval, Hist 600 can count toward different areas for different students, as determined by the predominant focus of their individual work in the course. Note that a variable topic course cannot be considered “Non-Western or Global” unless at least a substantial part of the course’s focus includes the study of African, Asian, Middle Eastern, or Latin American history.

### Contact Information

Current Students contact the Department directly, history@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

http://uwm.edu/history/undergraduate/

### History, PhD

The Department of History offers MA and PhD programs that prepare students for careers in teaching, in historical research, and in archives, historical agencies, museums, libraries and government. The Department offers a wide array of geographically, chronologically and thematically defined courses.

At the master’s level, the Department offers four options:

1. a general degree in History;
2. a specialization in Public History for those interested in areas such as museum work, archival administration and historic preservation;
3. a coordinated Master of Arts/Master of Library and Information Science degree program;
4. a specialization in Urban Historical Studies for students who intend to pursue a PhD in Urban Studies or in Urban History.

At the doctoral level, the Department offers the PhD in History.

The Department also participates in the interdisciplinary master’s and doctoral programs in Urban Studies. For more information, see the Urban Studies page.

### Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

### Admission

To be considered for admission, an applicant must meet Graduate School admission requirements plus these departmental requirements:

1. A master’s degree in history or a related field
2. Three letters of recommendation from persons familiar with the applicant’s intellectual achievement and potential.
3. A sample of the applicant’s written work that demonstrates his or her ability to conduct historical research and/or the ability to analyze the work of others critically.

Please visit the History department’s website for information on the History Department Application (http://www4.uwm.edu/letsci/history/graduate/gradapply.cfm).

### Credits and Courses

To earn the Ph.D., a student must have accumulated at least 54 graduate credits, at least 30 of them taken at the post-master’s level. (Precise numbers of credits and actual course requirements while in Ph.D. status will be determined after a review of the applicant’s previous coursework.)

Doctoral students may not accumulate more than 6 credits in U/G courses, nor more than 6 credits in independent study without the approval of the Director of Graduate Studies. Of the 54 credits, at least 9 must be in fields other than history. No more than 18 credits in courses outside of History may be counted toward the doctoral degree.

### Electives

Select 12 credits of electives (may include additional dissertation credits) 12

### Total Credits

21

### Advising

The Director of Graduate Studies provides initial advising for the student in selecting courses and assists in selecting a Major Professor for long-term advising; the Director may assign a provisional graduate advisor before students select a Major Professor.

Students are required to consult periodically with, and have their schedules approved by, the Director of Graduate Studies, the provisional advisor, or the Major Professor. The Major Professor helps the student to define a dissertation topic and assists the student in choosing
appropriate courses and in selecting members of the student's Preliminary Examination and Doctoral Committees. The Major Professor normally chairs the student's Preliminary Examination and Doctoral Committees.

**Foreign Language or Data Analysis Proficiency**

Students must demonstrate proficiency in one or more relevant foreign languages by passing a written examination in the translation of source materials or historical analysis. If a student's Major Professor considers proficiency in more than one language necessary to the student's specific plan of study, exams in more than one language may be required.

With the approval of the Major Professor, a student may substitute proficiency in another skill relevant to historical study; in these cases, proficiency will be demonstrated through relevant coursework.

**Minor**

Students are not required to elect a minor field, but they may wish to supplement their chosen specialty in this way. Depending on the particular course array, students may need to take more than 54 credits to complete both the major and minor requirements. Those who wish to take a minor have three options:

**Option A: Minor In One Field**

Working with a minor professor, students take 8-12 credits in a single department, leading to a minor examination.

**Option B: Interdisciplinary Minor**

Students take 8-12 credits in two or more departments, selected for their relevance to the student's area of specialty. The minor will be defined in consultation with the student's Major Professor and the Director of Graduate Studies.

**Option C: Minor in Public History**

This 21-credit minor is appropriate for students planning a career in archives, museums, historic preservation, or other related specialties. It is not available to students who already have a specialization or degree in public history at the master's level. Students in this minor are required to take 12 credits as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 700</td>
<td>Introduction to Public History</td>
<td>3</td>
</tr>
<tr>
<td>HIST 701</td>
<td>Internship in Public History</td>
<td>6</td>
</tr>
<tr>
<td>HIST 715</td>
<td>Research Methods in Local History</td>
<td>3</td>
</tr>
</tbody>
</table>

**Electives**

Select 9 credits (see below) 

Total Credits 21

1 Students must take HIST 700 in the first semester of their first year.

**Electives**

The remaining 9 credits in public history must be selected from courses that pertain to the area of public history in which the student wishes to specialize.

For students interested in careers as archivists, electives should be selected from the following courses:

<table>

**Doctoral Preliminary Examination**

The doctoral preliminary examination includes written and oral components designed to demonstrate the breadth of a student's knowledge and the ability to conduct advanced historical research. It must be taken within five years of enrollment in the Ph.D. program.

Students who fail the doctoral preliminary examination may not proceed to the dissertation. The exam may be retaken only once. The Director of Graduate Studies provides specific guidelines for selecting the Doctoral Preliminary Examination Committee and preparing the doctoral preliminary examination proposal.

**Dissertation**

The dissertation is a major piece of original research representing a substantial contribution to historical scholarship. In consultation with the Major Professor, the student chooses a dissertation committee, which must approve the prospectus. The student's Major Professor provides guidance in preparing the prospectus and in developing and writing the dissertation.

**Dissertation Defense**

The candidate must pass an oral examination in defense of the dissertation.

**Time Limit and Residence**

All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program. To meet the continuous-year portion of the residence credit requirement, students must complete 8 to 12 graduate credits in each of two consecutive
semesters, or 6 or more graduate credits in each of three consecutive semesters, including summer sessions. In exceptional cases, modifications of the residence requirement may be requested, subject to the approval of the History Department and the Graduate School.
HUMAN RESOURCES AND LABOR RELATIONS

The Lubar School of Business and the College of Letters and Science offer and present jointly the Master of Human Resources and Labor Relations (MHRLR).

The MHRLR is an innovative master's program offering students an interdisciplinary blend of courses and faculty in the areas of human resources and labor relations. The MHRLR program prepares students for careers as practitioners, and emphasizes a firm educational grounding in both the liberal arts and business administration. This grounding includes knowledge of human resources, staffing, labor relations, the legal system, and statistics.

Elective courses and options within the core requirements allow students to gain the specialized knowledge needed to work in the human resource management and labor relations areas of: compensation and benefits, collective bargaining, alternative dispute resolution, recruitment and selection, training and development, occupational health and safety, equal employment opportunity, strategic human resource management, and international human resource management.

The program is designed for full-time and part-time students who seek careers in the private or public sectors, and with unions or management.

Programs

- Human Resources and Labor Relations, MHRLR (College of Letters and Science) (p. 1487)
- International Human Resources and Labor Relations, Graduate Certificate (p. 1488)

Industrial and Labor Relations Courses

IND REL 701 Industrial and Labor Relations
3 cr. Graduate.
Industrial relations systems, unions and management as institutions, work place as a socio-economic unit, labor market analysis, human resource management and collective bargaining.
Prerequisites: grad st or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

IND REL 711 Labor Relations Law
3 cr. Graduate.
Legal aspects of labor relations; operations of National Labor Relations Board, representation issues, use of economic weapons, good faith bargaining, enforcement, Wisconsin Employment Relations Commission.
Prerequisites: grad st or cons instr.
Current Offerings: http://uwm.edu/schedule

IND REL 712 Employment Law
3 cr. Graduate.
Introduction to federal laws and regulations covering such topics as wage standards, unemployment compensation, osha, alien employment, social security, employee safety and prohibited discrimination.
Prerequisites: grad st or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

IND REL 715 Workplace Dispute Resolution
3 cr. Graduate.
Examination of the processes for dispute resolution; their usefulness and application in both union and non-union settings.
Prerequisites: grad st & Econ 753(P), or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

IND REL 716 Compensation: Theory and Practice
3 cr. Graduate.
Examination of pay policies and practices, their impact on employees, internal and external determinants, and problems of administration.
Prerequisites: grad st; Bus Adm 731(P) & 738(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

IND REL 717 Employee Benefits
3 cr. Graduate.
Examination of role and scope of employee benefits, their determinants, and problems of administration.
Prerequisites: grad st; Econ 753(R); Ind Rel 712(R).
Current Offerings: http://uwm.edu/schedule

IND REL 720 Economics of Personnel
3 cr. Graduate.
Use of various economic models to examine personnel practices.
Prerequisites: grad st; Econ 103(P) or equiv.
Last Taught: Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

IND REL 725 Total Rewards Compensation
3 cr. Graduate.
Advanced workplace perspective for aligning business and reward strategies including developing, administering and evaluating compensation and benefit programs.
Prerequisites: grad st or cons instr.
Course Rules: Counts as a repeat of Ind Rel 800 w/the same topic.
Current Offerings: http://uwm.edu/schedule

IND REL 731 Research Tools for Practitioners in Human Resources and Labor Relations
3 cr. Graduate.
Planning and carrying out simple surveys; evaluating policies, programs, and procedures in organizations; interpreting, evaluating and using research conducted by others.
Prerequisites: grad st; Econ 210(P) or Bus Adm 210(P) or cons instr.
Course Rules: Ind Rel 731 and BusMgmt 731 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

IND REL 754 Worker Participation
3 cr. Graduate.
Analyzes worker participation programs using history, economic and industrial relations theories, and empirical research and case studies.
Prerequisites: grad st; Econ 447(451)(P) or cons instr.
Course Rules: Jointly-offered w/& counts as repeat of Econ 754.
Current Offerings: http://uwm.edu/schedule
IND REL 800 Current Issues in Industrial Relations:
1-3 cr. Graduate.
Topics course covering subjects such as quality work, innovations, employee testing, dispute resolution.
Prerequisites: grad st; Ind Rel 701(P) or cons instr.
Course Rules: Retakable w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

IND REL 801 Research Project in Industrial and Labor Relations
3 cr. Graduate.
Work with a faculty advisor on the development and preparation of a research project on a current industrial relations issue.
Prerequisites: completion of 24 cr in MHRLR Prog; cons instr.
Current Offerings: http://uwm.edu/schedule

IND REL 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Last Taught: Fall 2016, Summer 2013, Fall 2006, Summer 2006.
Current Offerings: http://uwm.edu/schedule

IND REL 921 Internship in Industrial Relations
1-6 cr. Graduate.
An internship with a company, union or a governmental agency in the field of human resources and labor relations. Project paper required. Retakable to a total of 6 crs.
Prerequisites: grad st; 8 cr in MHRLR Prog completed.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

IND REL 999 Independent Study
1-3 cr. Graduate.
Supervised investigation of a particular topic area either not covered by other industrial relations courses or a level of sophistication beyond that in other courses.
Prerequisites: grad st; cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

Human Resources and Labor Relations, MHRLR (College of Letters and Science)

Related Certificates

- Graduate Certificate in Mediation and Negotiation (http://uwm.edu/graduateschool/mediation-negotiation-certificate)
- Graduate Certificate in International Human Resources and Labor Relations (http://uwm.edu/graduateschool/international-human-resources-labor-relations-certificate)

Overview

The Master of Human Resources and Labor Relations (MHRLR) prepares leaders to be successful professionals. Whether you are currently in the field, a recent college graduate or wish to change careers, MHRLR provides the knowledge necessary to thrive. Our classes emphasize practical application of theory, laying the foundation for your future success.

Jobs in Human Resources will grow faster than average over the next decade. The MHRLR degree allows you to capitalize on that growth and advance in an increasingly complex business environment.

While the majority of our students work full-time in the profession and attend classes part-time, many others choose to attend full time to progress more quickly through the program. Our small classes provide the opportunity to network with both the faculty and fellow human resources and labor relations professionals.

The Lubar School of Business and the College of Letters and Science jointly offer the MHRLR degree.
Application Deadline

Students may begin their studies in the Fall, Spring or Summer semesters. Applications are accepted on a continuous basis. The program does not have a specific deadline to apply.

Admission

An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus the following requirements to be considered for admission to the MHRLR program:

1. Submission of two letters of recommendation to the MHRLR program.
2. Submission of GRE (http://uwm.edu/graduateschool/admission/#gre) or GMAT (http://uwm.edu/graduateschool/admission/#gmat) scores is recommended, but not required.
3. Students admitted to the program will be expected to present at least three credits of prior work in both microeconomics and introductory statistics.
4. Students who are deficient in the areas of microeconomics or statistics at the time of admission (see above), will be expected to satisfy deficiency requirements within three enrolled semesters. Deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted for the degree.
5. Applicants are reviewed by the MHRLR admissions committee to assess academic achievements and the ability to do intensive graduate-level work.

Credits and Courses

The Master of Human Resources and Labor Relations degree will be awarded upon completion of 36 credits of prescribed graduate study and appropriate prerequisite coursework. The program offers a balance between liberal arts and business-based education, requiring that at least 15 credits be taken within the College of Letters and Science and at least 15 credits be taken within the Lubar School of Business. The MHRLR Program believes in a common body of knowledge and skills necessary to be an effective Human Resource or Labor Relations professional.

The program has a required core of seven courses totaling 21 credits.

Total Credits 21

1. If IND REL 720 and ECON 753 are both taken, one of these may be used to help fulfill elective requirements.
2. If IND REL 711 and IND REL 712 are both taken, one of these may be used to help fulfill elective requirements.
3. The required course Research Tools for Practitioners in Human Resources and Labor Relations can be taken as either IND REL 731 or BUSMGMT 731 (but not both).

Elective Courses

The choice of electives to complete a MHRLR degree should reflect student interest. Students are not required to choose a specialization and are encouraged to select those electives that best suit their backgrounds and interests. A student may take up to 6 credits from the approved list of alternative electives in other schools such as the College of Nursing, the School of Education, and the School of Social Welfare. No student will be permitted to apply more than nine credits taken at the U/G level toward meeting MHRLR degree requirements. Please refer to the MHRLR website (http://uwm.edu/human-resources-labor-relations/graduate/requirements/elective-courses) for a comprehensive listing of elective courses.

Students without prior experience in the field are encouraged to take advantage of the program’s extensive contacts in the business and labor communities by undertaking one or more internships as either BUS ADM 899 or IND REL 921. Students may also utilize the wide range of faculty expertise available within the program for a major research paper on a human resources or labor relations topic. These papers, under the direction of a faculty advisor, are taken as either IND REL 801 or BUS ADM 899. A student may graduate with honors from the MHRLR program by maintaining a 3.5 grade-point average within the program, and by writing a 3-credit major research paper (under BUS ADM 899 or IND REL 801).

Any new course development, programmatic changes, or program name change must be approved by the appropriate curricular committees and faculty in the respective units.

The program, including admissions and course staffing, is subject to the AACSB accreditation requirements.

International Human Resources and Labor Relations, Graduate Certificate

The Graduate Certificate in International Human Resources and Labor Relations responds to the increasing influence of globalization on the practice of Human Resource Management and the conduct of Labor Relations. Firms and unions are increasingly part of a complex web of international economic relationships. Many of the workplace innovations now taken for granted began overseas: quality circles, work groups and flatter hierarchies. Many firms operate overseas under very different labor market institutions and human resource expectations.

This program of study provides practical and theoretical knowledge designed to help students function as professionals in the increasing broad international context of human resource management and labor relations.

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.
Eligibility and Admission

Students applying for the Certificate Program in International Human Resources and Labor Relations must hold a bachelor’s degree and must have earned a 2.75 GPA overall or must furnish substantial evidence of ability to succeed in graduate-level work. Students admitted to the Certificate will be expected to present at least three credits of prior work in microeconomics and three credits in statistics.

Application

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

1 Course substitutions would be allowed with the consent of the MHRLR Director for those who had previously completed similar coursework.

Transfer Credit

No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

Grade Point Average Requirement

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

Articulation with Degree Programs

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   - Degree programs must approve the courses from certificates that can double count toward the degree.
   - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.

2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

INTERNATIONAL STUDIES

The International Studies (IS) Program is interdisciplinary and administered by faculty members in the College of Letters and Science. Our IS programs offer students an excellent opportunity to improve their understanding of the diverse cultures of the world and to begin developing the skills they need for careers that have an international dimension. Our IS programs have grown steadily over the past 50 years to meet the needs for a more globalized education.

All interested students should consult the International Studies advisor at the earliest opportunity.

Programs

- International Studies, BA (p. 1491)
- International Studies, Minor (p. 1499)

International Studies Courses

INTLST 193 First-Year Seminar:
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

INTLST 250 Introduction to Study Abroad
2 cr. Undergraduate.
Discussion of study abroad programs by addressing objectives, cross-cultural communication; specific programs and pre-departure information.
Prerequisites: none.
Course Rules: No degree cr for students with cr in IntlSt 350 'Studying in the World's Regions'(ER). Cr/no cr only; audit not permitted.
Current Offerings: http://uwm.edu/schedule

INTLST 260 Introduction to International Careers
2 cr. Undergraduate.
Introduction to a wide variety of career options in area of international studies, partly through lectures with academics and professionals from relevant fields.
Prerequisites: none.
Course Rules: No degree cr for students with cr in IntlSt 350 'Careers in the World's Regions'(ER). Cr/no cr only; audit not permitted.
Current Offerings: http://uwm.edu/schedule

INTLST 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in a UWM sponsored program before course level, content, and credits are determined and/or in a specially prepared program course. Section title(s) and credits announced whenever course is offered.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Last Taught: Summer 2016, Spring 2016, Fall 2015, Summer 2015.
Current Offerings: http://uwm.edu/schedule

INTLST 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’t sem.
Prerequisites: none; add’l prereqs may be assigned to specific topic.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

INTLST 450 Internship in International Studies
2-6 cr. Undergraduate.
Internship offering on the job experience to selected majors in international studies. Student enrolls for a specific number of credits.
Prerequisites: jr or sr st; gpa of 3.0; writ cons prog coord.
Course Rules: Retakable to 6 cr max. Cr/no cr only; audit not permitted.
Last Taught: Fall 2016, Spring 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

INTLST 497 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Last Taught: Fall 2016, Spring 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

INTLST 498 Applied Foreign Language
1 cr. Undergraduate.
Independent reading in a foreign language as companion to courses in international studies. To be arranged with International Studies coordinator.
Prerequisites: 2 yrs college-level work in a foreign language or equiv; cons IntlSt coord.
Course Rules: Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

INTLST 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’t sem.
Prerequisites: jr st; add’l prereqs may be assigned to specific topic.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

INTLST 550 Senior Seminar in International Studies:
3 cr. Undergraduate/Graduate.
Interdisciplinary seminar with emphasis on functional/regional problems in world affairs.
Prerequisites: declared Intl Stds major or minor, or cons instr or prog coord.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
INTLST 699 Independent Study
1-6 cr. Undergraduate.
Advanced independent work under the supervision of an IntSt faculty or instructional academic staff member. Students must submit a study proposal. For more information, consult prog coord or advisor.
Prerequisites: jr st; 2.5 GPA; writ cons instr, prog coord, & asst dean for SAS.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

International Studies, BA

Students in UWM’s international studies program take courses in history, political science, economics, anthropology, comparative literature, and foreign languages to build a program around their own specialized interests in international relations, politics, economics or development. The International Studies (IS) major offers a number of special programs designed to help students deepen their knowledge of international affairs.

Understanding the nuances of globalization in our personal and professional lives, speaking the languages of others, and appreciating cultural diversity are essential skills for living and working in the world today. UWM’s program is based on the principles of the liberal arts with an emphasis in broad knowledge of people, places, and institutions and the skills to be an adaptable career-changing in a fast-moving marketplace. International studies majors have the ability to interact across cultures, converse in more than one language, analyze problems across cultural or national boundaries, adapt to new and foreign situations, appreciate differences in people and processes, and problem solve across different areas and formats.

With this background, students have job opportunities in many different industries and many different roles. Career choices immediately after college are often influenced by the hands-on experiences obtained during the college years. Students are encouraged to explore all of their options through internships, part-time jobs, and volunteer experiences.

Similarly, a study abroad (http://uwm.edu/cie/study-abroad) experience can open up new opportunities that would not have even been imagined prior to going abroad. UWM has programs at more than 70 sites around the world that vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

Students often wonder what the differences are between Global Studies and International Studies. The foreign language requirements for the International Studies program are not as stringent as those in Global Studies, and study abroad is not required for International Studies as it is for Global Studies. In addition, International Studies coursework is focused exclusively on courses found in the College of Letters & Science.

Requirements

Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

</tbody>
</table>

I. English Writing Requirement

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing
course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning
To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 103</td>
<td>Contemporary Applications of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 105</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)</td>
<td>0-18</td>
</tr>
<tr>
<td></td>
<td>Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)</td>
<td>9</td>
</tr>
</tbody>
</table>

IV. International Requirement
See Approved Courses for the L&S International Requirement (p. 1169) for course options.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.</td>
<td>9</td>
</tr>
</tbody>
</table>

V. Breadth Requirement
Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select 3 credits</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Complete 12 credits of L&amp;S courses with Humanities Breadth designation; no more than 6 credits from a single subject area.</td>
<td>12</td>
</tr>
<tr>
<td></td>
<td>Complete 12 credits of L&amp;S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area.</td>
<td>12</td>
</tr>
<tr>
<td></td>
<td>Complete 12 credits of L&amp;S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area.</td>
<td>12</td>
</tr>
<tr>
<td></td>
<td>Complete 3 credits in a course with Cultural Diversity (CD) designation.</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

III. Foreign Language Requirement
Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Complete in one of the following ways:</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)</td>
</tr>
</tbody>
</table>

Note: This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.
Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

** VI. The Major

The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

** Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

International Studies Major Requirements

The major requires 14 college credits or the equivalent in one foreign language. Students must complete at least one college course to meet this requirement; high school work alone will not suffice. Students must attain a 2.500 GPA in all UWM credits attempted for the major. In addition, the College requires that students attain a 2.500 GPA in all major credits attempted, including any transfer work.

Students may receive credit toward the International Studies (IS) major for participation in study abroad programs or the United Nations Summer Seminar. Credit towards the major also may be obtained through a semester-long internship in an international business, a government office, or a private organization with an international focus, either in Milwaukee or abroad.

Students may declare the International Studies (IS) major once they have reached 15 credits. The advisor will assist each student in preparing a logical sequence of studies.

</table>

Total Credits 18

**Option C: World Languages and Culture**

This option emphasizes the cultural aspects of international studies, examining topics such as globalization and politics from a range of perspectives. 18 credits are required as outlined below:

Select four from the following list, selecting from four different disciplinary areas: 12

**Anthropology:**
- ANTHRO 355 | Globalization, Culture, and Environment                     |         |
- ANTHRO 431 | Cities and Culture                                          |         |
- ANTHRO/GLOBAL 442 | Humanitarianism in Global Perspective |         |
- ANTHRO/GLOBAL 447 | The Global Politics of Human Rights |         |
- ANTHRO 449 | The Human Economy                                          |         |
- ANTHRO 450 | Political Anthropology                                     |         |
- ANTHRO 543 | Cross-Cultural Study of Religion                           |         |

**Comparative Literature:**
- COMPLIT 231 | Literature and Religion:                                    |         |
- COMPLIT 232 | Literature and Politics:                                    |         |

Select at least two upper-division courses (numbered 300 or above) in a single foreign language 6

</table>
In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

**Honors in the Major**

Honors and high honors in the major are awarded at graduation to students who achieve the following:

**Honors:** at least a 3.0 overall GPA with a 3.5 GPA on all credits attempted in the major and a 3.50 GPA on all advanced credits attempted in the major;

**High Honors:** at least a 3.0 overall GPA with a 3.75 GPA on all credits attempted in the major and a 3.75 GPA on all advanced credits attempted in the major.

**Honors in the College of Letters and Science**

**Dean's Honor List**

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Contact Information**

Current Students contact Professor Erica Bornstein, elbornst@uwm.edu.

Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu.

http://uwm.edu/cie/academics/international-studies/
International Studies, Minor

Students in UWM’s international studies program take courses in history, political science, economics, anthropology, comparative literature, and foreign languages to build a program around their own specialized interests in international relations, politics, economics or development.

Understanding the nuances of globalization in our personal and professional lives, speaking the languages of others, and appreciating cultural diversity are essential skills for living and working in the world today. UWM’s program is based on the principles of the liberal arts with an emphasis in broad knowledge of people, places, and institutions and the skills to be an adaptable career-changing in a fast-moving marketplace. International studies majors have the ability to interact across cultures, converse in more than one language, analyze problems across cultural or national boundaries, adapt to new and foreign situations, appreciate differences in people and processes, and problem solve across different areas and formats.

With this background, students have job opportunities in many different industries and many different roles. Career choices immediately after college are often influenced by the hands-on experiences obtained during the college years. Students are encouraged to explore all of their options through internships, part-time jobs, and volunteer experiences.

Similarly, a study abroad (http://uw.edu/cie/study-abroad) experience can open up new opportunities that would not have been even imagined prior to going abroad. UWM has programs at more than 70 sites around the world that vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

Students often wonder what the differences are between Global Studies and International Studies. The foreign language requirements for the International Studies program are not as stringent as those in Global Studies, and study abroad is not required for International Studies as it is for Global Studies. In addition, International Studies coursework is focused exclusively on courses found in the College of Letters & Science.

Requirements

The International Studies minor consists of a total of 18 credits, in which students must attain a GPA of 2.500 in all UWM credits attempted for the minor. In addition, the College requires that students attain a 2.500 GPA in all minor credits attempted, including transfer work. Students must complete in residence at UWM at least 9 credits of upper-division courses (numbered 300 and above) in the minor. Students may declare the minor after completing at least 15 credits.

JOURNALISM, ADVERTISING, AND MEDIA STUDIES

The Department of Journalism, Advertising, and Media Studies offers a major or minor in journalism, advertising, and media studies that emphasizes the study of the social implications and responsibilities of the mass media, an understanding of the processes of communication, and a fundamental knowledge of media communication techniques and procedures. The program provides students with a broad background in the liberal arts and sciences, which are vital aspects of contemporary life and essential to those entering careers in media communication.

Cross-listed Courses

The following courses offered by the Department of English may be used to fulfill curricular requirements of the undergraduate major or minor in journalism, advertising, and media studies:

<table>

3 cr. Undergraduate.
Preparation to be informed, critical consumers of political messages in wide range of mass media; applying research on political content and effects of mass media.
Prerequisites: none.  
Course Rules: No cr for students w/cr in JAMS 615.  
General Education Requirements: SS  
Last Taught: Fall 2008.  
Current Offerings: http://uwm.edu/schedule

JAMS 116 Journalism, Documentary, and Democracy
3 cr. Undergraduate.
The role of journalism and documentary in democracy examined through a variety of media products.
Prerequisites: none.  
Last Taught: Fall 2016, Summer 2015, Summer 2014, Fall 2012.  
Current Offerings: http://uwm.edu/schedule

JAMS 142 Television and Radio in American Society
3 cr. Undergraduate.
Current issues in broadcasting in the United States, including ratings, programming, audience research, and effects.
Prerequisites: none.  
Course Rules: Not open for cr to students who have cr in JAMS 250.  
General Education Requirements: SS  
Last Taught: Spring 2016, Fall 2015, Spring 2015, Fall 2014.  
Current Offerings: http://uwm.edu/schedule
JAMS 192 First-Year Seminar:
3 cr. Undergraduate.
The specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: HU
Last Taught: Fall 2015, Fall 2014, Fall 2013, Fall 2007.
Current Offerings: http://uwm.edu/schedule

JAMS 193 First-Year Seminar:
3 cr. Undergraduate.
Specific topics announced in Schedule of Classes each time course is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

JAMS 199 Independent Study
1-3 cr. Undergraduate.
For further information, consult dept chair.
Prerequisites: 2.5 gpa; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

JAMS 201 Media Writing
3 cr. Undergraduate.
Techniques and strategies for writing that can communicate effectively with media audiences; emphasizes innovation and creativity within the constraints of good grammar and style.
Prerequisites: satisfaction of OWC-A GER
General Education Requirements: OWCB
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

JAMS 204 News Writing and Technology
3 cr. Undergraduate.
Writing, storytelling, digital editing and production for journalism.
Prerequisites: declared JAMS major or minor.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

JAMS 207 Introduction to Advertising and Public Relations
3 cr. Undergraduate.
A practical approach to developing, implementing, and evaluating advertising and public relations strategies.
Prerequisites: declared JAMS major or minor.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

JAMS 210 Jewish and Ethnic Narratives and Identities in Media
3 cr. Undergraduate.
Jewish and ethnic media; comparative analysis of narrative and identity constructions in photography, television, film, and convergent media.
Prerequisites: none.
Course Rules: Jewish 210 & JAMS 210 are jointly offered; they count as repeats of one another.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

JAMS 212 Introduction to Corporate Communication
3 cr. Undergraduate.
The profession of corporate communication; focus on the variety of mass communication strategies in the field.
Prerequisites: none.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

JAMS 214 Advertising in American Society
3 cr. Undergraduate.
A critical survey of advertising's development and current practices as well as its impact on knowledge, attitudes, and behaviors.
Prerequisites: none.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

JAMS 230 Copy Editing
3 cr. Undergraduate.
Training in print editing; introduction to basic layout principles.
Prerequisites: grade of B or better in JAMS 201(P).
Current Offerings: http://uwm.edu/schedule

JAMS 231 Publication Design
3 cr. Undergraduate.
Principles of print layout and design.
Prerequisites: none.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

JAMS 232 Photojournalism
3 cr. Undergraduate.
The history of photography and the practice of photojournalism, including aesthetic, conceptual, and technical developments. Digital production and distribution.
Prerequisites: soph st.
Current Offerings: http://uwm.edu/schedule

Course Rules: Students earn one academic credit per 40 hours of internship placement. Does not count toward JAMS major or minor. Cr/no cr only. May be retaken to 6 cr max.
Last Taught: Fall 2017, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

JAMS 296 UROP Apprenticeship
1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with a supervising member of the faculty or staff.
Prerequisites: acceptance into UROP, prior or conc reg in UROP seminar.
Last Taught: Spring 2011, Fall 2010, Fall 2009, Spring 2009.
Current Offerings: http://uwm.edu/schedule

JAMS 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content and credits are determined and/or in specially prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

JAMS 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

JAMS 306 Feature and Magazine Article Writing:
3 cr. Undergraduate.
Using interviews, analysis and/or observation to produce feature and profile stories.
Prerequisites: jr st; declared JAMS major/minor or English major.
Course Rules: May not be retaken for cr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

JAMS 307 Persuasive Media Writing and Production:
3 cr. Undergraduate.
Writing, design, and production of persuasive media elements through individual and group work and skills-based activities.
Prerequisites: declared JAMS major/minor; grade of C or better in JAMS 207(P).
Course Rules: May not be retaken for cr.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

JAMS 320 Integrated Reporting
3 cr. Undergraduate.
Multimedia reporting and writing in an integrated newsroom setting.
Prerequisites: declared JAMS major or minor; grade of C or better in JAMS 204(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

JAMS 325 Audio Storytelling
3 cr. Undergraduate.
Analysis of audio storytelling techniques and impact; audio storytelling production.
Prerequisites: jr st.
Course Rules: Counts as repeat of JAMS 380 w/similar topic.
Current Offerings: http://uwm.edu/schedule

JAMS 332 Introduction to Digital Documentary
3 cr. Undergraduate.
How to film and edit quality documentary footage fit for client use, broadcast television, or film festival entry.
Prerequisites: declared JAMS major or minor; grade of C or better in JAMS 203(P), 204(P), 242(P) or 307(P).
Last Taught: Fall 2011, Spring 2011, Fall 2010, Spring 2009.
Current Offerings: http://uwm.edu/schedule

JAMS 336 Media Graphics
3 cr. Undergraduate.
Production and analysis of mass media graphics, photographs, and illustrations.
Prerequisites: jr st; JAMS major/minor or Digital Arts and Culture (DAC) status; grade of C or better in JAMS 113(P) or grade of C or better in ART 118(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

JAMS 342 Television News Reporting
3 cr. Undergraduate.
Reporting, writing, and editing television news, including field camera operation and video editing.
Prerequisites: declared JAMS major or minor; grade of C or better in JAMS 204(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
JAMS 356 Media Literacy
3 cr. Undergraduate.
Application of general semantics and other critical thinking principles to reporting methodology and news judgment.
Prerequisites: jr st.
Last Taught: Fall 2017, Spring 2015, Fall 2014, Spring 2014.
Current Offerings: http://uwm.edu/schedule

JAMS 380 Special Topics in Journalism, Advertising, and Media Studies:
3 cr. Undergraduate.
Special topics not addressed in regularly-approved courses.
Prerequisites: jr st; any add'l prereqs announced in Schedule of Classes.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

JAMS 399 On-Campus Internship
3 cr. Undergraduate.
Professional internship in journalism, public relations, advertising, or other media.
Prerequisites: jr st, declared JAMS major, & cons dept internship committee.
Course Rules: May be retaken to 6 cr max in combination with JAMS 600.

Journalism, Advertising, and Media Studies, BA

The worlds of journalism, advertising, and public relations are changing at a rapid pace with the integration of social media, mobile apps, amateur photography and video, and instant feedback. UWM’s Department of Journalism, Advertising, and Media Studies (JAMS) is a great place to learn about the tools used today and to obtain the skills to adapt to the channels of tomorrow.

The Department of Journalism, Advertising, and Media Studies (JAMS) teaches students about the role of media in culture and society and offers hands-on experience in journalism and advertising/public relations.

The JAMS major blends liberal arts education in media studies with professional training for work in media fields.

JAMS undergraduate students choose one of three concentrations based on their interests and career aspirations: journalism, advertising/public relations, and media studies. Students have opportunities to learn from media scholars and industry professionals, and they produce media in their chosen areas of study.

Our students report news stories, run social media pages, produce short documentaries and podcasts, and research, plan, and conduct events for nonprofit organizations. JAMS students have several opportunities to learn outside the classroom through active clubs and organizations including a student chapter of the Public Relations Society of America, Ad Club, Journalism Club, The UWM Post, and the Minority Media
Association. Student work is showcased on a student-powered online news site, Media Milwaukee. Many JAMS students have internships which earn major credits.

JAMS majors excel in careers in writing, reporting, editing, marketing, advertising, broadcasting, public relations, social media management, journalism, and more.

**Requirements**

**Course of Study – Bachelor of Arts Degree**

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

**University General Education Requirements (GER)**

**College of Letters & Science Requirements**

**I. English Writing Requirement**

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

*Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.*

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>

<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

*Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.*

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</tr>
</tbody>
</table>
POL SCI 392 Survey Research
PSYCH 210 Psychological Statistics
SOCIOL 261 Introduction to Statistical Thinking in Sociology

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

<table>
<thead>
<tr>

<td></td>
</tr>
<tr>
<td></td>
<td>Complete 9 credits in combination of the two options above</td>
<td></td>
</tr>
</tbody>
</table>

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+)* designation, L&S students must complete the Breadth requirement.

<table>

</tr>
<tr>
<td></td>
<td>Social Sciences</td>
<td></td>
</tr>
</tbody>
</table>

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).
to the Journalism, Advertising, and Media Studies website: uwm.edu/journalism-advertising-media-studies/ for application procedures.

**JAMS Major Requirements**

Students must complete 18 or more credits in courses numbered 300 or above, and at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM. Students may count a maximum of 6 credits in any combination of JAMS 399 and JAMS 600, each of which can be taken to a maximum of 6 credits. The College of Letters and Science requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. Students must attain a 2.500 GPA on all major credits attempted, including transfer work.

A Journalism, Advertising, and Media Studies (JAMS) major requires a minimum of 36 credits in JAMS:

<table>

**Letters & Science Advising**

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of
Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

**Honors in the College of Letters and Science**

**Dean's Honor List**

GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Contact Information**

Current Students contact the Department directly, jams-info@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

https://uwm.edu/journalism-advertising-media-studies/undergraduate/

**Journalism, Advertising, and Media Studies, Minor**

The worlds of journalism, advertising, and public relations are changing at a rapid pace with the integration of social media, mobile apps, amateur photography and video, and instant feedback. UWM’s Department of Journalism, Advertising, and Media Studies (JAMS) is a great place to learn about the tools used today and to obtain the skills to adapt to the channels of tomorrow.

The Department of Journalism, Advertising, and Media Studies (JAMS) teaches students about the role of media in culture and society and offers hands-on experience in journalism and advertising/public relations. The JAMS major blends liberal arts education in media studies with professional training for work in media fields.

JAMS majors choose one of three concentrations based on their interests and career aspirations: journalism, advertising/public relations, and media studies; minors take a more general array of coursework.

Our students report news stories, run social media pages, produce short documentaries and podcasts, and research, plan, and conduct events for nonprofit organizations. JAMS students have several opportunities to learn outside the classroom through active clubs and organizations including a student chapter of the Public Relations Society of America, Ad Club, Journalism Club, The UWM Post, and the Minority Media Association. Student work is showcased on a student-powered online news site, Media Milwaukee. Many JAMS students have internships which earn major credits.

JAMS majors excel in careers in writing, reporting, editing, marketing, advertising, broadcasting, public relations, social media management, journalism, and more.

**Requirements**

A minor in journalism, advertising, and media studies consists of a minimum of 18 credits in journalism, advertising, and media studies including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>JAMS 101</td>
<td>Introduction to Mass Media</td>
<td>3</td>
</tr>
<tr>
<td>JAMS 201</td>
<td>Media Writing</td>

</tr>
<tr>
<td>total</td>
<td></td>
<td>12</td>
</tr>
</tbody>
</table>

**Criteria and Procedures for Admission to the Minor**

Students will be eligible to declare the JAMS minor if they meet all of the following criteria:

1. They have completed JAMS 101 and JAMS 201 with at least a 2.500 GPA in the two courses.
2. They have an overall GPA of at least 2.500.
3. They have at least 24 credits on their transcript, excluding credits obtained through examinations (such as CLEP and AP credits) and retroactive foreign language credits. These 24 credits must include at least 12 credits taken in residence at UWM unless the applicant has completed a bachelor’s degree and is seeking an additional major or degree.

To declare the minor, students who meet the listed criteria should call (414) 229-4436 or email jams-email@uwm.edu. Students enrolled in JAMS 201 will be guided through the declaration process by faculty near the end of the semester. NOTE: JAMS does not declare new minors during the week before classes begin in fall or spring semester or during the first two weeks of those semesters.
Students who do not meet the declaration requirement listed above must go through the appeals process for admission to the JAMS major. Go to the Journalism, Advertising, and Media Studies website: uwm.edu/journalism-advertising-media-studies/ for application procedures.

**Additional Requirements**

- At least 9 credits must be at the 300 level or above taken in residence at UWM.
- The College requires that students attain at least a 2.500 GPA on credits in the major attempted at UWM.
- Students must attain a 2.500 GPA on all minor credits attempted, including transfer work.

**Contact Information**

Current Students contact the Department directly, jams-info@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

https://uwm.edu/journalism-advertising-media-studies/undergraduate/

**Media Studies, MA**

Mediated communication brings information, persuasion, and entertainment to our neighborhoods, our nation, and our world. As the choices expand and the reach of the media becomes more global, media producers can be anyone from a major corporation to an individual activist with a Web site, and media consumers can interact with the products they encounter in a multitude of ways.

The M.A. in Media Studies offered through the Department of Journalism, Advertising, and Media Studies is wide ranging and interdisciplinary. The goal of the program is to foster knowledge and understanding of mass media and society through critical, cultural, historical, legal, ethical, or social scientific approaches. One particular emphasis of the program is the relationship between the media and the public interest.

The program is oriented toward academic study rather than instruction in technical skills. The curriculum focuses on research and critical thinking about the media. Students complete 24 credits of coursework and a 6-credit thesis. They work closely with their faculty advisors to design a course of study and to conduct original research for their theses.

Media studies graduate faculty members have national reputations for research in an array of specialties. Students in the master’s program also are active in research.

The program’s alumni apply what they have learned to a range of endeavors, including media-oriented careers and advanced academic work. An increasing number continue their education in Ph.D. programs.

**Application Deadlines**

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Admission**

An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus the following departmental requirements to be considered for admission to the program:

1. Present an overall undergraduate grade point average of 3.00 or above.
2. Submit three letters of recommendation from persons capable of judging the applicant’s capacity for success in a graduate program of study.
3. Submit scores from the General Test section of the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre).
4. Submit a sample of original writing in English — a piece of academic or professional work, or a brief essay about a topic of the applicant’s choice.

International students, in addition to satisfying the Graduate School’s requirements for English language proficiency, must submit TOEFL or IELTS scores sufficiently high to meet program standards.

**Advisors**

The department’s graduate director initially advises students and helps them find a thesis advisor. Students consult with their advisors as they prepare their course plans and consider thesis topics. The thesis advisor guides the student in preparing a thesis proposal, provides advice on the thesis research, and chairs the thesis committee. In consultation with the graduate director, students may change thesis advisors.

**Courses and Credits**

Students must take 30 graduate credits, at least 24 of which must be in courses offered by the Department of Journalism, Advertising, and Media Studies.

<table>

</tr>
</tbody>
</table>

**Electives**

Select 12 additional graduate credits

Total Credits

30

**Thesis**

All students write a thesis based on original research. The thesis advisor chairs the thesis committee, which also includes two other members. The committee chair and at least one of the other committee members must be from the Department of Journalism, Advertising, and Media Studies. Normally, all members of a thesis committee will be members of the UWM graduate faculty. With the approval of the thesis advisor and the departmental graduate program committee, a student’s thesis committee may include someone who is not a member of the UWM graduate faculty when such a person has at least a master’s degree and greater expertise in the subject area than do available members of the graduate faculty.

The thesis advisor guides the student in writing a formal thesis proposal, which must be approved by the thesis committee. After the thesis proposal has been approved, the student carries out the proposed research.

The thesis committee evaluates the written thesis and conducts an oral examination at which the student defends his or her research. A student
receives credit for the thesis only if all three members of the committee approve the thesis.

**Time Limit**

The student must complete all degree requirements within five years of initial enrollment.
LANGUAGE, LITERATURE & TRANSLATION

MA in Language, Literature, and Translation (MALLT)

The MA in Language, Literature, and Translation (MALLT) is an interdisciplinary MA degree program focused on global languages, literatures and translation. With over 50 faculty from five different departments, MALLT offers a flexible program of study tailored to your professional goals. Three departments—French, Italian and Comparative Literature, Foreign Languages and Literature and Translation & Interpreting Studies cooperate in offering this interdepartmental, interdisciplinary master's program designed for the student who wishes to focus on language, literature, and translation on a cross-cultural basis. Students may complete one of the following concentrations: Comparative Literature; French and Francophone Language, Literature, and Culture; German Language, Literature, and Culture and Translation (Professional Track or Research Track). In addition to these specific concentrations, students may pursue coursework in Classical Greek; Classics; Hebrew Studies, Italian Studies, Latin; and Slavic Languages. MALLT also allows students interested in Linguistics or Spanish to complete double concentrations, or the joint MLIS/MALLT of MBA/MALLT (Translation) coordinated degrees.

Programs

- Language, Literature, and Translation, MA (p. 1539)
- Language, Literature, and Translation, MA/Business Administration, MBA (p. 1541)

- Language, Literature, and Translation, MA: Interpreting (p. 1530)
- Language, Literature, and Translation, MA: Latin (p. 1532)
- Language, Literature, and Translation, MA: Linguistics (p. 1533)
- Language, Literature, and Translation, MA: Spanish and Hispanophone Language, Literature, and Culture (p. 1535)
- Language, Literature, and Translation, MA: Translation (p. 1536)
- Translation, Graduate Certificate (p. 1542)

Language, Literature & Translation Courses

MALLT 700 Language Teaching Methods
3 cr. Graduate.
Introduction to practical issues of language instruction for new teaching assistants and language teachers; explores some theoretical issues related to second- and foreign language learning.
Prerequisites: grad st
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MALLT 703 Seminar in Language and Communication:
3 cr. Graduate.
Survey of basic theories on the nature of language and of the modes of verbal communication, with emphasis on the socio-cultural aspects.
Prerequisites: grad st; proficiency in a language other than English
Current Offerings: http://uwm.edu/schedule

MALLT 704 Seminar in Cultural Studies:
3 cr. Graduate.
Investigation of cultural phenomena in their socio-historical contexts in their symbolization in folklore, literature, and art. Specific topics and any additional prereqs announced in the Schedule of Classes each time course is offered.
Prerequisites: grad st
Course Rules: CompLit 704 & MALLT 704 are jointly offered; they count as repeats of one another. Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

MALLT 706 Seminar in Foreign Language Methodology and Pedagogy
3 cr. Graduate.
Nature and direction of recent developments in foreign language methodology and instructional principles.
Prerequisites: grad st
Last Taught: Spring 2013, Spring 2010, Fall 2006, Fall 2005.
Current Offerings: http://uwm.edu/schedule

MALLT 707 Seminar in Methods of Literary Analysis:
3 cr. Graduate.
Two or more theoretical and methodological approaches to literature, with application to selected literary texts. Specific topics and any additional prerequisites announced in Schedule of Classes each time course is offered.
Prerequisites: grad st
Course Rules: CompLit 707 & MALLT 707(701) are jointly offered; they count as repeats of one another. Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

MALLT 708 Proseminar in Linguistics
3 cr. Graduate.
Presents a range of linguistic constructs, demonstrating through readings, problems, and exercises how these concepts can be used in the analysis of language.
Prerequisites: grad st.
Course Rules: Linguis 708(701) & MALLT 708 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule
MALLT 709 Seminar in Literary and Cultural Translation
3 cr. Graduate.
Study and practice of literary translation in its cultural setting. Discussion of essays, analysis of published translations, translation practice, and collegial discussion of students' work.
Prerequisites: grad st.
Course Rules: MALLT 709 & Trnsltn 709 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

MALLT 712 Bibliographic and Research Methodology in Foreign Language and Literature
3 cr. Graduate.
Discussion of types of research in languages and literatures, bibliographic resources and sources of research support.
Prerequisites: grad st
Last Taught: Spring 2010, Fall 1999, Fall 1998, Fall 1996.
Current Offerings: http://uwm.edu/schedule

MALLT 721 The Old Testament in Literature and the Arts
3 cr. Graduate.
The impact of the Old Testament on literature and the arts; its influence on major subsequent religious classics and through them on music, philosophy, and the visual arts.
Prerequisites: grad st
Current Offerings: http://uwm.edu/schedule

MALLT 728 Literary Translation
3 cr. Graduate.
Seminar in literary translation focusing on various genres including prose, poetry, essays, and theater; publication and copyright matters.
Prerequisites: grad st; admission to Translation Program.
Current Offerings: http://uwm.edu/schedule

MALLT 740 Approaches to the Modern I
3 cr. Graduate.
Seminar on the major figures and intellectual forces that have shaped multiple approaches to the modern across the academy.
Prerequisites: grad st.
Course Rules: English 740, Hist 740, & MALLT 740 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2017, Fall 2013, Fall 2011, Fall 1991.
Current Offerings: http://uwm.edu/schedule

MALLT 741 Approaches to the Modern II
3 cr. Graduate.
Seminar on major figures and intellectual forces that have shaped approaches to the modern across periods.
Prerequisites: grad st.
Course Rules: English 741, Hist 741 & MALLT 741 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2013, Fall 2010, Fall 2009, Spring 2009.
Current Offerings: http://uwm.edu/schedule

MALLT 781 Graduate Study Abroad: Language and Culture:
1-3 cr. Graduate.
Coursework in a foreign language or culture taken in a UWM exchange program at a foreign university; subject to review and evaluation of the MALLT program faculty.
Prerequisites: grad st; cons MALLT coord comm chair.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

MALLT 782 Graduate Study Abroad: Pre-1900 Literature:
1-3 cr. Graduate.
Coursework in pre-1900 literature taken in a UWM exchange program at a foreign university; subject to review and evaluation of the MALLT program faculty.
Prerequisites: grad st; cons MALLT coord comm chair.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

MALLT 783 Graduate Study Abroad: Post-1900 Literature:
1-3 cr. Graduate.
Coursework in post-1900 literature taken in a UWM exchange program at a foreign university; subject to review and evaluation of the MALLT program faculty.
Prerequisites: grad st; cons MALLT coord comm chair.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

MALLT 790 Thesis
1-6 cr. Graduate.
Independent study and research on a master's thesis under supervision of the student's advisory committee.
Prerequisites: grad st; cons advisory committee.
Course Rules: Retakable to 6 cr max.
Last Taught: Fall 2017, Spring 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MALLT 791 Reading and Research - Greek or Latin
1-3 cr. Graduate.
Reading and research under the direction of a member of the MALLT faculty.
Prerequisites: grad st.
Last Taught: Fall 2016, Spring 2014, Spring 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

MALLT 792 Reading and Research - Comparative Literature
1-3 cr. Graduate.
Reading and research under the direction of a member of the MALLT faculty.
Prerequisites: grad st.
Last Taught: Spring 2017, Fall 2014, Spring 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

MALLT 793 Reading and Research - French or Italian
1-3 cr. Graduate.
Reading and research under the direction of a member of the MALLT faculty.
Prerequisites: grad st.
Last Taught: Spring 2018, Fall 2017, Fall 2016, Spring 2014.
Current Offerings: http://uwm.edu/schedule
MALLT 794 Reading and Research - German
1-3 cr. Graduate.
Reading and research under the direction of a member of the MALLT faculty.
Prerequisites: grad st.
Last Taught: Fall 2017, Spring 2014, Spring 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

MALLT 795 Reading and Research - Hebrew or Arabic
1-3 cr. Graduate.
Reading and research under the direction of a member of the MALLT faculty.
Prerequisites: grad st.
Last Taught: Fall 2010, Fall 2009, Summer 2009, Fall 2008.
Current Offerings: http://uwm.edu/schedule

MALLT 796 Reading and Research - Language
1-3 cr. Graduate.
Reading and research under the direction of a member of the MALLT faculty.
Prerequisites: grad st.
Last Taught: Spring 2015, Spring 2012, Fall 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

MALLT 797 Reading and Research - Polish or Russian or Serbo-Croatian
1-3 cr. Graduate.
Reading and research under the direction of a member of the MALLT faculty.
Prerequisites: grad st.
Last Taught: Spring 2015, Spring 2012, Fall 2011, Fall 2010.
Current Offerings: http://uwm.edu/schedule

MALLT 799 Reading and Research
1-3 cr. Graduate.
Directed reading and research on a topic selected by the student in consultation with his/her advisory committee.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

MALLT 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.
Course Rules: Fee assessed for 1 cr.
Current Offerings: http://uwm.edu/schedule

Translation and Interpreting Courses
TRNSLTN 201 Introduction to Translation and Interpreting Studies
3 cr. Undergraduate.
Linguistic and cultural aspects of globalization analyzed alongside emerging practices in various language service professions/specializations; prevailing modes of multilingual communication and cross-cultural interaction.
Prerequisites: none.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

TRNSLTN 400 Consecutive Interpreting
3 cr. Undergraduate.
Professional protocols and practices of different modalities of consecutive interpreting; exercises for improvement of split-attention, short-term memory and information organization; ethical principles of interpreting profession.
Prerequisites: jr st; sixth semester of a foreign language.
Last Taught: Fall 2017, Fall 2015.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 409 Seminar in Literary and Cultural Translation
3 cr. Undergraduate.
Study and practice of literary translation in its cultural setting. Discussion of essays, analysis of published translations, translation practice, and collegial discussion of students' work.
Prerequisites: jr st; sixth-semester or equiv of a foreign language.
Last Taught: Spring 2016, Spring 2015.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 410 Comparative Systems for Translation
3 cr. Undergraduate.
Comparative systems in society; how those systems relate to the field of translation; how to make informed translation choices based on subtle differences in systems.
Prerequisites: jr st; satisfaction of Oral and Written Communication Part A GER.
General Education Requirements: OWCB, HU
Current Offerings: http://uwm.edu/schedule

TRNSLTN 411 Ethics and Procedures in Interpreting
3 cr. Undergraduate.
Fundamentals of providing spoken language interpreting services in various settings.
Prerequisites: sixth sem of any lang or cons instr.
Last Taught: Fall 2016, Fall 2012.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 422 Simultaneous Interpreting
3 cr. Undergraduate.
The field and practice of simultaneous interpretation, covering the historical development, cognitive processes and how SIMS is used in other contexts.
Prerequisites: jr st; cons instr
Course Rules: Counts as repeat of Global 499 w/same topic.
Current Offerings: http://uwm.edu/schedule
**TRNSLTN 427 Project Management in Translation**  
3 cr. Undergraduate.  
Principles of project management and quality assurance in translation industry standards and techniques of effective project management for a variety of language service projects.  
**Prerequisites:** jr st.  
**Current Offerings:** http://uwm.edu/schedule

**TRNSLTN 428 Editing for Translation**  
3 cr. Undergraduate.  
Translation industry standards and best practices for quality assurance. Students edit texts in English, applying style guides and implementing effective research techniques.  
**Prerequisites:** jr st; cons Trnsln Prog dir.  
**Current Offerings:** http://uwm.edu/schedule

**TRNSLTN 465 Introduction to Translation: English to French**  
3 cr. Undergraduate/Graduate.  
Translation of texts from English into French. Comparative study of French and English syntax and comparative culture.  
**Prerequisites:** jr st; grade of B or better in French 325(P); French 427(P) or cons instr.  
**Course Rules:** French 465 & Trnsltn 465 are jointly offered; they count as repeats of one another. Counts as repeat of French 499 with Intro to English to French Translation topic.  
**Last Taught:** Fall 2008.  
**Current Offerings:** http://uwm.edu/schedule

**TRNSLTN 530 Business and Professional Aspects of Translation**  
3 cr. Undergraduate/Graduate.  
Practical knowledge needed to succeed as free-lance or in-house translators; marketing, advertising, negotiating as well as legal and tax issues.  
**Prerequisites:** jr st; French 415(425)(P), or German 425(P), or Spanish 347(P) or 707(P), or Trnsln 415(P), 425(P), or 707(P).  
**Last Taught:** Fall 2017, Fall 2015, Fall 2013, Fall 2010.  
**Current Offerings:** http://uwm.edu/schedule

**TRNSLTN 550 Advanced Modes of Interpreting**  
3 cr. Undergraduate.  
Practice of simultaneous & consecutive interpreting; sight translation; note-taking; technology in interpreting.  
**Prerequisites:** jr st; cons instr  
**Course Rules:** Counts as repeat of Global 499 w/same topic.  
**Current Offerings:** http://uwm.edu/schedule

**TRNSLTN 599 Independent Reading**  
1-3 cr. Undergraduate.  
Advanced independent work under the supervision of a faculty or instructional academic staff member. Student must submit a study proposal. For further information, consult program coord.  
**Prerequisites:** jr st; 2.5 GPA; writ cons instr, dept chair & asst dean for SAS.  
**Course Rules:** May be retaken w/chg in topic to 9 cr max.  
**Last Taught:** Summer 2016.  
**Current Offerings:** http://uwm.edu/schedule

**TRNSLTN 700 Consecutive Interpreting**  
3 cr. Graduate.  
Professional protocols and practices of different modalities of consecutive interpreting; exercises for improvement of split-attention, short-term memory and information organization; ethical principles of interpreting profession.  
**Prerequisites:** grad st; cons Trnsltn Prog dir.  
**Last Taught:** Fall 2017, Fall 2015, Fall 2013.  
**Current Offerings:** http://uwm.edu/schedule

**TRNSLTN 702 Introduction to Translation: English to Spanish**  
3 cr. Graduate.  
Basic skills necessary for professional translation. Translation of texts from English into Spanish. Summarizing texts; sight translation.  
**Prerequisites:** grad st; admis to Trnsltn Prog.  
**Last Taught:** Fall 2017, Fall 2015, Fall 2013, Fall 2010.  
**Current Offerings:** http://uwm.edu/schedule

**TRNSLTN 703 Introduction to Translation: Japanese to English**  
3 cr. Graduate.  
Basic skills for translating texts from Japanese to English; focus on articles and documents encountered in business, banking, legal, medical, and academic contexts.  
**Prerequisites:** grad st; admis to Trnsltn prog.  
**Last Taught:** Fall 2013.  
**Current Offerings:** http://uwm.edu/schedule

**TRNSLTN 704 Introduction to Translation: Arabic to English**  
3 cr. Graduate.  
Translating texts from Arabic to English, including media articles, political texts, and literary and consumer-oriented texts. Identifying and developing translation strategies; proofreading and editing own work.  
**Prerequisites:** grad st; admis to Trnsltn Prog or cons instr.  
**Last Taught:** Fall 2017, Fall 2015, Fall 2013.  
**Current Offerings:** http://uwm.edu/schedule

**TRNSLTN 706 Introduction to Translation: French to English**  
3 cr. Graduate.  
Introduction to basic skills necessary to professional translation. Translation of texts form French into English. Summarizing texts. Sight translation.  
**Prerequisites:** grad st; admis to Trnsltn Prog or cons instr.  
**Course Rules:** French 706 (715) & Trnsltn 706 (715) are jointly offered; they count as repeats of one another. Counts as repeat of French/Trnsltn 415 (425) taken for grad cr.  
**Last Taught:** Fall 2016, Fall 2014, Fall 2012.  
**Current Offerings:** http://uwm.edu/schedule
TRNSLTN 707 Introduction to Translation: Spanish to English
3 cr. Graduate.
Basic skills necessary for professional translation. Translation of texts from Spanish into English. Summarizing texts; sight translation.
Prerequisites: grad st; Spanish 308(P) or equiv.
Course Rules: Counts as a repeat of Spanish 707. Not open for cr to students w/grad cr in Spanish 347.
Last Taught: Fall 2017, Fall 2015, Fall 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 708 Introduction to Translation: German to English
3 cr. Graduate.
Advanced skills for German to English translation including texts encountered in 'real world;' document terminology; translation strategies and tools; researching parallel texts; translation history and methodology.
Prerequisites: grad st.
Course Rules: MALLT 709 & Trnsltn 709 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2016, Fall 2014, Fall 2012.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 709 Seminar in Literary and Cultural Translation
3 cr. Graduate.
Study and practice of literary translation in its cultural setting. Discussion of essays, analysis of published translations, translation practice, and collegial discussion of students' work.
Prerequisites: grad st.
Prerequisites: grad st; Spanish 707(P) or grad cr in Spanish 347(P), or writ cons Trnsltn coord.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 710 Comparative Systems for Translation
3 cr. Graduate.
Comparative systems in society; how those systems relate to field of translation; how to make informed translation choices based on subtle differences in systems.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 711 Ethics and Procedures in Interpreting
3 cr. Graduate.
Fundamentals of providing spoken language interpreting services in various settings.
Prerequisites: grad st; admis to Trnsltn Prog or cons instr.
Last Taught: Fall 2016, Fall 2014, Fall 2012.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 712 Seminar in Advanced Translation: English to Spanish
3 cr. Graduate.
Comparative study of Spanish and English syntax; advanced translation (English to Spanish) of texts from the humanities, social and political sciences, technical writing, advertising.
Prerequisites: grad st; admis to Trnsltn Prog.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 713 Seminar in Advanced Translation: Japanese to English
3 cr. Graduate.
Translation of ideas and conceptual knowledge in subject areas including economics, law, society, culture, and history.
Prerequisites: grad st; Trnsltn 703(P).
Last Taught: Spring 2014.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 714 Advanced Translation: Arabic to English
3 cr. Graduate.
Translating a variety of texts from Arabic to English, including media articles, political texts, literary and consumer-oriented texts. Identifying and developing translation strategies.
Prerequisites: grad st; admis to Trnsltn Prog or cons instr.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 716 Seminar in Advanced Translation: French to English
3 cr. Graduate.
Translation from French into English; advanced grammar; techniques of documentation.
Prerequisites: grad st; French 415(425)(P) or cons instr.
Course Rules: French 716(515) & Trnsltn 716(515) are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 717 Seminar in Advanced Translation: Spanish to English
3 cr. Graduate.
Comparative study of Spanish and English syntax; advanced translation (Spanish to English) of texts from the humanities, social and political sciences, technical writing, advertising. Counts as repeat of Spanish 717.
Not open for cr to students w/grad cr in Spanish 447.
Prerequisites: grad st; Spanish 707(P) or grad cr in Spanish 347(P), or writ cons Trnsltn coord.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 718 Seminar in Advanced German Translation
3 cr. Graduate.
Refinement of translation skills; concentration on specific types of texts.
Prerequisites: grad st; grade of B or better in Trnsltn 708(P); admis to Trnsltn Prog or cons instr.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 719 Introduction to Translation: Russian to English
3 cr. Graduate.
Translation process as combination of linguistic, cultural, ethical, and logistic challenges; translation strategies for business, media, academic, legal, commercial, medical, technical, and popular culture documents.
Prerequisites:
Last Taught: Fall 2016, Fall 2014.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 720 Topics in Translation:
1-3 cr. Graduate.
Advanced and specialized translation skills courses targeting the translation industry.
Prerequisites: grad st; add'l prereq depending on topic
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2017, Fall 2016, Spring 2016, Spring 2011.
Current Offerings: http://uwm.edu/schedule
TRNSLTN 722 Simultaneous Interpreting
3 cr. Graduate.
Reviewing traditional modes; working with technology-assisted interpretation; and skill building in sight translation, note-taking, summary and the emerging mode SimConsec.
Prerequisites: grad st; cons instr.
Course Rules: Counts as a repeat of Trnsltn 720 w/same topic.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 726 Computer-Assisted Translation
3 cr. Graduate.
Terminology and database management for translators. Students should know D2L, Microsoft Office Suite and Explorer, how to compress files, view invisibles, format, navigate file structures.
Prerequisites: grad st; approved grad level intro to trnsltn course or cons instr.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 727 Project Management in Translation
3 cr. Graduate.
Principles of project management and quality assurance in the global language services industry; standards and techniques of effective project management for a variety of language service projects.
Prerequisites: grad st; admis to Trnsltn Prog.
Course Rules: Counts as repeat of Trnsltn 720 w/same title.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 728 Editing for Translation
3 cr. Graduate.
Translation industry standards and best practices for quality assurance. Students edit texts in English, applying style guides and implementing effective research techniques.
Prerequisites: grad st; cons Trnsltn coord.
Course Rules: Counts as repeat of Trnsltn 720 w/same title.
Last Taught: Fall 2016, Fall 2014, Fall 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 729 Seminar in Advanced Translation: Russian to English
3 cr. Graduate.
Translation of ideas and conceptual knowledge in subject areas including economics, law, society, culture, and history.
Prerequisites: grad st; Trnsltn 719 or cons instr
Last Taught: Spring 2017, Spring 2015.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 730 Internship in Translation
3 cr. Graduate.
Internship offering on-the-job experience to students in the graduate program in translation.
Prerequisites: Trnsltn (MAFLL) 726(P); approved grad-level adv trnsltn course.
Course Rules: Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 750 Advanced Modes of Interpreting
3 cr. Graduate.
Practice of simultaneous & consecutive interpreting; sight translation; note-taking; technology in interpreting.
Prerequisites: jr st; cons instr
Current Offerings: http://uwm.edu/schedule

TRNSLTN 790 Thesis
1-6 cr. Graduate.
Independent study and research on a master's thesis under supervision of the student's advisory committee.
Prerequisites: grad st; cons advisory committee
Course Rules: Retakeable up to 9 crs w/chg in topic.
Current Offerings: http://uwm.edu/schedule

TRNSLTN 820 Translation Theory
3 cr. Graduate.
The role of translation in development of languages, cultures, and societies; cultural and ideological forces shaping translations; contemporary theories of translation.
Prerequisites: grad st.
Course Rules: CompLit 820 & Trnsltn 820 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

Language, Literature, and Translation, MA: Classics

Related Certificates

- Graduate Certificate in Translation (http://uwm.edu/graduateschool/translation-certificate)

The MA in Language, Literature, and Translation (MALLT) is an interdisciplinary MA degree program focused on global languages, literatures and translation. With over 50 faculty from five different departments, MALLT offers a flexible program of study tailored to your professional goals. Three departments—French, Italian and Comparative Literature, Foreign Languages and Literature and Translation & Interpreting Studies cooperate in offering this interdepartmental, interdisciplinary master's program designed for the student who wishes to focus on language, literature, and translation on a cross-cultural basis. Students may complete one of the following concentrations: Comparative Literature; French and Francophone Language, Literature, and Culture; German Language, Literature, and Culture and Translation (Professional Track or Research Track). In addition to these specific concentrations, students may pursue coursework in Classical Greek; Classics; Hebrew Studies, Italian Studies, Latin; and Slavic Languages. MALLT also allows students interested in Linguistics or Spanish to complete double concentrations, or the joint MLIS/MALLT coordinated degrees.

Inquiries concerning this program should be directed to the Coordinator of the Language, Literature, and Translation program. Email the MALLT program (mallt-program@uwm.edu) for more information.

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these program requirements to be considered for admission to the program:

1. Knowledge of a language other than English. Entrance competencies for specific concentrations are as follows:
   - Language concentrations: an undergraduate major in the language, or comparable background, such as coursework, a significant immersion experience, or native fluency combined with appropriate academic training.
   - Translation tracks: competence on a qualifying examination.
   - Comparative Literature concentration: an undergraduate major in comparative literature, including advanced study of a language other than English, or equivalent literary and language preparation.
   - Linguistics concentration: an undergraduate major in linguistics or in a related field, such as English, a foreign language, psychology, philosophy, or anthropology; and at least a basic-level familiarity with a language other than English, as evidenced by coursework, immersion experience or native fluency.
   - Submission to the MALLT Program of three letters of recommendation, at least two of which should be from instructors acquainted with the student’s academic work.
   - Submission to the MALLT Program of a well-developed statement of approximately 500 words outlining the applicant’s academic background and interests, reasons for graduate study in the MALLT program, intended concentration and professional goals.

   Applicants who meet general Graduate School requirements (an undergraduate grade point average of at least 2.75) and the above program requirements may be admitted in good standing.

   Upon recommendation of the Coordinating Committee, an applicant lacking in course background may be admitted with specified deficiencies in the above on the condition that the deficiencies be made up by the end of the first full semester (9-12 credits). Credits earned in making up deficiencies do not count toward the degree. If an applicant furnishes substantial evidence of capacity to do satisfactory graduate work despite a deficiency in GPA on admission, probationary admission may be recommended.

Credits and Courses

No credits carrying a grade below B- may be counted toward meeting the MALLT degree requirement of 30 credits.

The MALLT degree offers two tracks:

- the Standard Track within which students may complete one of eight concentrations and
- the Translation Track, which will be designated as a concentration on the student’s transcript.

Students are not obligated to elect a concentration, but many will find it beneficial to do so. They also have the option of completing two concentrations, but, in doing so, students must complete all requirements for each concentration and a minimum of 36 credits for the degree.

Standard Track

Thirty graduate credits are required, 6 of which must be in core seminars in the language, literature, and linguistics areas. The student develops a program of study in consultation with the Major Professor, normally including the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select two core seminars as a foundation in basic aspects of languages, literatures, and linguistics</td>
<td>6</td>
</tr>
<tr>
<td></td>
<td>Select five to eight courses in a language, literature, or linguistics area to permit concentration in the student’s major area of interest. Select the remaining credits in related areas to give the program breadth.</td>
<td>24</td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>30</td>
</tr>
</tbody>
</table>

Classics Requirements

The following are the minimum course requirements for a concentration within the Standard Track:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select two core seminars as a foundation in basic aspects of languages, literatures, and linguistics</td>
<td>6</td>
</tr>
<tr>
<td></td>
<td>Select at least 18 credits of graduate-level coursework consisting of an equal number of credits in classical Greek and in Latin</td>
<td>18</td>
</tr>
</tbody>
</table>
Students may complete one of the following concentrations:

- Language, Literature, and Translation, MA: Comparative Literature
- Language concentrations: an undergraduate major in the language, or comparable background, such as coursework, a significant immersion experience, or native fluency combined with appropriate academic training.
- Translation tracks: competence on a qualifying examination.
- Comparative Literature concentration: an undergraduate major in comparative literature, including advanced study of a language other than English, or equivalent literary and language preparation.
- Linguistics concentration: an undergraduate major in linguistics or in a related field, such as English, a foreign language, psychology, philosophy, or anthropology; and at least a basic-level familiarity with a language other than English, as evidenced by coursework, immersion experience or native fluency.

Compared to these specific concentrations, students may pursue coursework in Classical Greek; Classics; Hebrew Studies; Italian Studies; Latin; and Slavic Languages. MALLT also allows students interested in Linguistics or Spanish to complete double concentrations, or the joint MLIS/MALLT of MBA/MALLT (Translation) coordinated degrees.

Inquiries concerning this program should be directed to the Coordinator of the Language, Literature, and Translation program. Email the MALLT program (mallt-program@uwm.edu) for more information.

**Application Deadlines**

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

### Admission

An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these program requirements to be considered for admission to the program:

1. Knowledge of a language other than English. Entrance competencies for specific concentrations are as follows:
   - Language concentrations: an undergraduate major in the language, or comparable background, such as coursework, a significant immersion experience, or native fluency combined with appropriate academic training.
   - Translation tracks: competence on a qualifying examination.
   - Comparative Literature concentration: an undergraduate major in comparative literature, including advanced study of a language other than English, or equivalent literary and language preparation.
   - Linguistics concentration: an undergraduate major in linguistics or in a related field, such as English, a foreign language, psychology, philosophy, or anthropology; and at least a basic-level familiarity with a language other than English, as evidenced by coursework, immersion experience or native fluency.

2. Submission to the MALLT Program of three letters of recommendation, at least two of which should be from instructors acquainted with the student’s academic work.

3. Submission to the MALLT Program of a well-developed statement of approximately 500 words outlining the applicant’s academic background and interests, reasons for graduate study in the MALLT program, intended concentration and professional goals.

Applicants who meet general Graduate School requirements (an undergraduate grade point average of at least 2.75) and the above program requirements may be admitted in good standing.

Upon recommendation of the Coordinating Committee, an applicant lacking in course background may be admitted with specified deficiencies in the above on the condition that the deficiencies be made up by the end of the first full semester (9-12 credits). Credits earned in making up deficiencies do not count toward the degree. If an applicant furnishes substantial evidence of capacity to do satisfactory graduate work despite a deficiency in GPA on admission, probationary admission may be recommended.
Credits and Courses
No credits carrying a grade below B- may be counted toward meeting the MALLT degree requirement of 30 credits.

The MALLT degree offers two tracks:
- the Standard Track within which students may complete one of eight concentrations and
- the Translation Track, which will be designated as a concentration on the student's transcript.

Students are not obligated to elect a concentration, but many will find it beneficial to do so. They also have the option of completing two concentrations, but, in doing so, students must complete all requirements for each concentration and a minimum of 36 credits for the degree.

Standard Track
Thirty graduate credits are required, 6 of which must be in core seminars in the language, literature, and linguistics areas. The student develops a program of study in consultation with the Major Professor, normally including the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select two core seminars as a foundation in basic aspects of languages, literatures, and linguistics</td>
<td>6</td>
</tr>
<tr>
<td></td>
<td>Select five to eight courses in a language, literature, or linguistics area to permit concentration in the student’s major area of interest. Select the remaining credits in related areas to give the program breadth.</td>
<td>24</td>
</tr>
<tr>
<td></td>
<td>Total Credits</td>
<td>30</td>
</tr>
</tbody>
</table>

Comparative Literature Requirements
The following are the minimum course requirements for a concentration within the Standard Track:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select two core seminars as a foundation in basic aspects of languages, literatures, and linguistics</td>
<td>6</td>
</tr>
<tr>
<td></td>
<td>Select at least 15 graduate credits in Comparative Literature</td>
<td>15</td>
</tr>
<tr>
<td></td>
<td>Select three courses in related areas to give the program breadth</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>Total Credits</td>
<td>30</td>
</tr>
</tbody>
</table>

Program Requirements
Transfer of Credits
Any course submitted for transfer must be no more than five years old at the time of the student's admission to the MALLT Program, must have been taken at the graduate level in a recognized institution, and must have been completed with a grade of B or better. Since Graduate School regulations allow the transfer of only 12 non-degree graduate credits to a master's program, students are advised to apply for degree candidacy in the MALLT program before completion of 12 credits of coursework.

Major Professor as Advisor
The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations.

The Coordinating Committee refers each incoming student to a temporary advisor, normally the Graduate Advisor in the student's chosen concentration, as stated in the application. The Graduate Advisor assists in assessing the student's competencies, interests, and future academic or professional needs. Normally, the Graduate Advisor recommends a Major Professor after his/her initial meeting with the student.

The Major Professor and the student establish a plan of study by the end of the student’s first semester of graduate work. The plan will be reviewed by the Major Professor and the student after the successful completion of 12 credits and the removal of any deficiencies that may have been assessed at admission. At the time of the review, the student may request another Major Professor in the event that his/her programmatic needs have been modified or altered. Subsequent minor changes must be approved by the Major Professor.

The Major Professor evaluates and updates the student’s progress after completion of every six (6) credits or every semester of subsequent work. The student may not register for any courses without this advisor’s prior approval.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Language, Literature, and Translation, MA: Classical Greek

Related Certificates
- Graduate Certificate in Translation (http://uwm.edu/graduateschool/translation-certificate)

The MA in Language, Literature, and Translation (MALLT) is an interdisciplinary MA degree program focused on global languages, literatures and translation. With over 50 faculty from five different departments, MALLT offers a flexible program of study tailored to your professional goals. Three departments—French, Italian and Comparative Literature, Foreign Languages and Literature and Translation & Interpreting Studies cooperate in offering this interdepartmental, interdisciplinary master's program designed for the student who wishes to focus on language, literature, and translation on a cross-cultural basis. Students may complete one of the following concentrations: Comparative Literature; French and Francophone Language, Literature, and Culture; German Language, Literature, and Culture; and Translation (Professional Track or Research Track). In addition to these specific concentrations, students may pursue coursework in Classical Greek; Classics; Hebrew Studies, Italian Studies, Latin; and Slavic Languages. MALLT also allows students interested in Linguistics or Spanish to complete double concentrations, or the joint MLIS/MALLT of MBA/MALLT (Translation) coordinated degrees.

**Related Certificates**

- Graduate Certificate in Translation (http://uwm.edu/graduateschool/translation-certificate)

The MA in Language, Literature, and Translation (MALLT) is an interdisciplinary MA degree program focused on global languages, literatures and translation. With over 50 faculty from five different departments, MALLT offers a flexible program of study tailored to your professional goals. Three departments—French, Italian and Comparative Literature, Foreign Languages and Literature and Translation & Interpreting Studies cooperate in offering this interdepartmental, interdisciplinary master’s program designed for the student who wishes to focus on language, literature, and translation on a cross-cultural basis. Students may complete one of the following concentrations: Comparative Literature; French and Francophone Language, Literature, and Culture; German Language, Literature, and Culture and Translation (Professional Track or Research Track). In addition to these specific concentrations, students may pursue coursework in Classical Greek; Classics; Hebrew Studies, Italian Studies, Latin; and Slavic Languages. MALLT also allows students interested in Linguistics or Spanish to complete double concentrations, or the joint MLIS/MALLT of MBA/MALLT (Translation) coordinated degrees.

Inquiries concerning this program should be directed to the Coordinator of the Language, Literature, and Translation program. Email the MALLT program (mallt-program@uwm.edu) for more information.

Being bilingual is not enough to be a successful translator. Professional translators must be experts in both source and target cultures, skilled readers of the source language and superb writers of the target language.
In addition, they need expertise in an area of specialization and a solid grasp of the language-services industry.

Our Translation & Interpreting Studies programs are housed in an accredited, Tier 1 Research institution and offer professional translator and interpreter training in a dynamic environment. Students collaborate with faculty and classmates from around the world to develop the skills they need to succeed in a thriving international market. Learn how to translate and/or interpret, and how to be a language professional through using leading industry computer-assisted translation tools and completing internships that often lead to employment. Our program can prepare you to:

- be an in-house translator
- be a freelancer
- be a translation company owner
- specialize in your area of interest
- pursue doctoral studies
- develop your professional skills without pursuing a degree

Program Requirements

Transfer of Credits
Any course submitted for transfer must be no more than five years old at the time of the student’s admission to the MALLT Program, must have been taken at the graduate level in a recognized institution, and must have been completed with a grade of B or better. Since Graduate School regulations allow the transfer of only 12 non-degree graduate credits to a master’s program, students are advised to apply for degree candidacy in the MALLT program before completion of 12 credits of coursework.

Major Professor as Advisor
The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations.

The Coordinating Committee refers each incoming student to a temporary advisor, normally the Graduate Advisor in the student’s chosen concentration, as stated in the application. The Graduate Advisor assists in assessing the student’s competencies, interests, and future academic or professional needs. Normally, the Graduate Advisor recommends a Major Professor after his/her initial meeting with the student.

The Major Professor and the student establish a plan of study by the end of the student’s first semester of graduate work. The plan will be reviewed by the Major Professor and the student after the successful completion of 12 credits and the removal of any deficiencies that may have been assessed at admission. At the time of the review, the student may request another Major Professor in the event that his/her programmatic needs have been modified or altered. Subsequent minor changes must be approved by the Major Professor.

The Major Professor evaluates and updates the student’s progress after completion of every six (6) credits or every semester of subsequent work. The student may not register for any courses without this advisor’s prior approval.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Language, Literature, and Translation, MA: Latin

Related Certificates

- Graduate Certificate in Translation (http://uwm.edu/graduateschool/translation-certificate)

The MA in Language, Literature, and Translation (MALLT) is an interdisciplinary MA degree program focused on global languages, literatures and translation. With over 50 faculty from five different departments, MALLT offers a flexible program of study tailored to your professional goals. Three departments—French, Italian and Comparative Literature, Foreign Languages and Literature and Translation & Interpreting Studies cooperate in offering this interdepartmental, interdisciplinary master’s program designed for the student who wishes to focus on language, literature, and translation on a cross-cultural basis. Students may complete one of the following concentrations: Comparative Literature; French and Francophone Language, Literature, and Culture; German Language, Literature, and Culture and Translation (Professional Track or Research Track). In addition to these specific concentrations, students may pursue coursework in Classical Greek; Classics; Hebrew Studies, Italian Studies, Latin; and Slavic Languages. MALLT also allows students interested in Linguistics or Spanish to complete double concentrations, or the joint MLIS/MALLT of MBA/MALLT (Translation) coordinated degrees.

Inquiries concerning this program should be directed to the Coordinator of the Language, Literature, and Translation program. Email the MALLT program (mallt-program@uwm.edu) for more information.

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these program requirements to be considered for admission to the program:

1. Knowledge of a language other than English. Entrance competencies for specific concentrations are as follows:
   - Language concentrations: an undergraduate major in the language, or comparable background, such as coursework, a significant immersion experience, or native fluency combined with appropriate academic training.
   - Translation tracks: competence on a qualifying examination.
   - Comparative Literature concentration: an undergraduate major in comparative literature, including advanced study of a language other than English, or equivalent literary and language preparation.
   - Linguistics concentration: an undergraduate major in linguistics or in a related field, such as English, a foreign language, psychology, philosophy, or anthropology; and at least a basic-level familiarity with a language other than English, as evidenced by coursework, immersion experience or native fluency.

2. Submission to the MALLT Program of three letters of recommendation, at least two of which should be from instructors acquainted with the student’s academic work.

3. Submission to the MALLT Program of a well-developed statement of approximately 500 words outlining the applicant’s academic
within the Standard Track:

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these program requirements to be considered for admission to the program:

1. Knowledge of a language other than English. Entrance competencies for specific concentrations are as follows:
   - **Language concentrations:** an undergraduate major in the language, or comparable background, such as coursework, a significant immersion experience, or native fluency combined with appropriate academic training.
   - **Translation tracks:** competence on a qualifying examination.
   - **Comparative Literature concentration:** an undergraduate major in comparative literature, including advanced study of a language other than English, or equivalent literary and language preparation.
   - **Linguistics concentration:** an undergraduate major in linguistics or in a related field, such as English, a foreign language, psychology, philosophy, or anthropology; and at least a basic-level familiarity with a language other than English, as evidenced by coursework, immersion experience or native fluency.

2. Submission to the MALLT Program of three letters of recommendation, at least two of which should be from instructors acquainted with the student’s academic work.

3. Submission to the MALLT Program of a well-developed statement of approximately 500 words outlining the applicant’s academic background and interests, reasons for graduate study in the MALLT program, intended concentration and professional goals.

Applicants who meet general Graduate School requirements (an undergraduate grade point average of at least 2.75) and the above requirements may be admitted in good standing.

Upon recommendation of the Coordinating Committee, an applicant lacking in course background may be admitted with specified deficiencies in the above on the condition that the deficiencies be made up by the end of the first full semester (9-12 credits). Credits earned in making up deficiencies do not count toward the degree. If an applicant furnishes substantial evidence of capacity to do satisfactory graduate work despite a deficiency in GPA on admission, probationary admission may be recommended.

Credits and Courses
No credits carrying a grade below B- may be counted toward meeting the MALLT degree requirement of 30 credits.

The MALLT degree offers two tracks:

- **the Standard Track within which students may complete one of eight concentrations and**
- **the Translation Track, which will be designated as a concentration on the student’s transcript.**

Students are not obligated to elect a concentration, but many will find it beneficial to do so. They also have the option of completing two concentrations, but, in doing so, students must complete all requirements for each concentration and a minimum of 36 credits for the degree.

Being bilingual is not enough to be a successful translator. Professional translators must be experts in both source and target cultures, skilled readers of the source language and superb writers of the target language. In addition, they need expertise in an area of specialization and a solid grasp of the language-services industry.

Our Translation & Interpreting Studies programs are housed in an accredited, Tier 1 Research institution and offer professional translator and interpreter training in a dynamic environment. Students collaborate with faculty and classmates from around the world to develop the skills they need to succeed in a thriving international market. Learn how to translate and/or interpret, and how to be a language professional through using leading industry computer-assisted translation tools and completing internships that often lead to employment. Our program can prepare you to:
be an in-house translator
be a freelancer
be a translation company owner
specialize in your area of interest
pursue doctoral studies
develop your professional skills without pursuing a degree

Translation Track: Research
The Research track is designed for those considering further study at the doctoral level.

Students must earn thirty graduate credits, as indicated below; they may not count undergraduate credits earned in the Translation Certificate Program. Admission is based in part on a qualifying examination that consists of a 300-word translation from the source to the target language and one 150-word essay in the target language.

Select one of the following:  6

French to English
FRENCH 415  Introduction to Translation: French to English
MALLT/TRNSLTN 709  Seminar in Literary and Cultural Translation

German to English

Thesis
Up to 6 graduate credits may be earned by presentation of a satisfactory thesis. The student’s Major Professor, in consultation with the student, will recommend the names of a Thesis Director and two readers who, upon approval by the Coordinating Committee, will constitute the ad hoc Thesis Committee.

Comprehensive Examination
The student must pass both written and oral examinations, prepared and administered by an Examining Committee. The composition of the committee is approved by the Coordinating Committee. If the student
fails the examination, s/he may repeat it once, but no sooner than three months from the date of the first examination.

Comparative Literature students must demonstrate a reading knowledge of a second language other than English prior to taking their Comprehensive Examinations. Reading knowledge may be demonstrated by coursework in the specific language program or by written examination, to be determined with the Major Professor.

Program Requirements
Transfer of Credits
Any course submitted for transfer must be no more than five years old at the time of the student’s admission to the MALLT Program, must have been taken at the graduate level in a recognized institution, and must have been completed with a grade of B or better. Since Graduate School regulations allow the transfer of only 12 non-degree graduate credits to a master’s program, students are advised to apply for degree candidacy in the MALLT program before completion of 12 credits of coursework.

Major Professor as Advisor
The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations.

The Coordinating Committee refers each incoming student to a temporary advisor, normally the Graduate Advisor in the student's chosen concentration, as stated in the application. The Graduate Advisor assists in assessing the student's competencies, interests, and future academic or professional needs. Normally, the Graduate Advisor recommends a Major Professor after his/her initial meeting with the student.

The Major Professor and the student establish a plan of study by the end of the student's first semester of graduate work. The plan will be reviewed by the Major Professor and the student after the successful completion of 12 credits and the removal of any deficiencies that may have been assessed at admission. At the time of the review, the student may request another Major Professor in the event that his/her programmatic needs have been modified or altered. Subsequent minor changes must be approved by the Major Professor.

The Major Professor evaluates and updates the student's progress after completion of every six (6) credits or every semester of subsequent work. The student may not register for any courses without this advisor's prior approval.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.

Language, Literature, and Translation, MA
Related Certificates
- Graduate Certificate in Translation (http://uwm.edu/graduateschool/translation-certificate)

The MA in Language, Literature, and Translation (MALLT) is an interdisciplinary MA degree program focused on global languages, literatures and translation. With over 50 faculty from five different departments, MALLT offers a flexible program of study tailored to your professional goals. Three departments—French, Italian and Comparative Literature, Foreign Languages and Literature and Translation & Interpreting Studies cooperate in offering this interdepartmental, interdisciplinary master's program designed for the student who wishes to focus on language, literature, and translation on a cross-cultural basis. Students may complete one of the following concentrations: Comparative Literature; French and Francophone Language, Literature, and Culture; German Language, Literature, and Culture and Translation (Professional Track or Research Track). In addition to these specific concentrations, students may pursue coursework in Classical Greek; Classics; Hebrew Studies, Italian Studies, Latin; and Slavic Languages. MALLT also allows students interested in Linguistics or Spanish to complete double concentrations, or the joint MLIS/MALLT of MBA/MALLT (Translation) coordinated degrees.

Inquiries concerning this program should be directed to the Coordinator of the Language, Literature, and Translation program. Email the MALLT program (mallt-program@uwm.edu) for more information.

Being bilingual is not enough to be a successful translator. Professional translators must be experts in both source and target cultures, skilled readers of the source language and superb writers of the target language. In addition, they need expertise in an area of specialization and a solid grasp of the language-services industry.

Our Translation & Interpreting Studies programs are housed in an accredited, Tier 1 Research institution and offer professional translator and interpreter training in a dynamic environment. Students collaborate with faculty and classmates from around the world to develop the skills they need to succeed in a thriving international market. Learn how to translate and/or interpret, and how to be a language professional through using leading industry computer-assisted translation tools and completing internships that often lead to employment. Our program can prepare you to:

- be an in-house translator
- be a freelancer
- be a translation company owner
- specialize in your area of interest
- pursue doctoral studies
- develop your professional skills without pursuing a degree

For information, please go here: http://uwm.edu/translation-interpreting-studies/contact/request-for-information/

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these program requirements to be considered for admission to the program:

1. Knowledge of a language other than English. Entrance competencies for specific concentrations are as follows:
- **Language concentrations**: an undergraduate major in the language, or comparable background, such as coursework, a significant immersion experience, or native fluency combined with appropriate academic training.
- **Translation tracks**: competence on a qualifying examination.
Comparative Literature concentration: an undergraduate major in comparative literature, including advanced study of a language other than English, or equivalent literary and language preparation.

Linguistics concentration: an undergraduate major in linguistics or in a related field, such as English, a foreign language, psychology, philosophy, or anthropology; and at least a basic-level familiarity with a language other than English, as evidenced by coursework, immersion experience or native fluency.

2. Submission to the MALLT Program of three letters of recommendation, at least two of which should be from instructors acquainted with the student's academic work.

3. Submission to the MALLT Program of a well-developed statement of approximately 500 words outlining the applicant's academic background and interests, reasons for graduate study in the MALLT program, intended concentration and professional goals.

Applicants who meet general Graduate School requirements (an undergraduate grade point average of at least 2.75) and the above program requirements may be admitted in good standing.

Upon recommendation of the Coordinating Committee, an applicant lacking in course background may be admitted with specified deficiencies in the above on the condition that the deficiencies be made up by the end of the first full semester (9-12 credits). Credits earned in making up deficiencies do not count toward the degree. If an applicant furnishes substantial evidence of capacity to do satisfactory graduate work despite a deficiency in GPA on admission, probationary admission may be recommended.

Credits and Courses

No credits carrying a grade below B- may be counted toward meeting the MALLT degree requirement of 30 credits.

The MALLT degree offers two tracks:

- the Standard Track within which students may complete one of eight concentrations and
- the Translation Track, which will be designated as a concentration on the student's transcript.

Students are not obligated to elect a concentration, but many will find it beneficial to do so. They also have the option of completing two concentrations, but, in doing so, students must complete all requirements for each concentration and a minimum of 36 credits for the degree.

Standard Track

Thirty graduate credits are required, 6 of which must be in core seminars in the language, literature, and linguistics areas. The student develops a program in consultation with the Major Professor, normally including the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select two core seminars as a foundation in basic aspects of languages, literatures, and linguistics</td>
<td>6</td>
</tr>
<tr>
<td></td>
<td>Select five to eight courses in a language, literature, or linguistics area to permit concentration in the student’s major area of interest. Select the remaining credits in related areas to give the program breadth.</td>
<td>24</td>
</tr>
</tbody>
</table>

Total Credits 30

The following are the minimum course requirements for a concentration within the Standard Track:

- Classical Greek (p. 1526): at least 15 graduate credits in Greek.
- Classics (p. 1524): at least 18 credits of graduate-level coursework consisting of an equal number of credits in classical Greek and in Latin.
- Comparative Literature (p. 1525): at least 15 graduate credits in Comparative Literature.
- French and Francophone Language, Literature, and Culture (p. 1528): at least 15 graduate credits in French.
- German Language, Literature, and Culture (p. 1529): at least 15 graduate credits in German.
- Interpreting (p. 1530): at least 30 graduate credits in Translation.
- Latin (p. 1532): at least 15 graduate credits in Latin.
- Linguistics (p. 1533): 6 credits in the two core seminars; at least 15 credits in Linguistics, and other courses chosen with the student’s advisor.
- Spanish and Hispanophone Language, Literature, and Culture (p. 1535): at least 15 graduate credits in Spanish.

Program Requirements

Transfer of Credits

Any course submitted for transfer must be no more than five years old at the time of the student's admission to the MALLT Program, must have been taken at the graduate level in a recognized institution, and must have been completed with a grade of B or better. Since Graduate School regulations allow the transfer of only 12 non-degree graduate credits to a master's program, students are advised to apply for degree candidacy in the MALLT program before completion of 12 credits of coursework.

Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations.

The Coordinating Committee refers each incoming student to a temporary advisor, normally the Graduate Advisor in the student’s chosen concentration, as stated in the application. The Graduate Advisor assists in assessing the student's competencies, interests, and future academic or professional needs. Normally, the Graduate Advisor recommends a Major Professor after his/her initial meeting with the student.

The Major Professor and the student establish a plan of study by the end of the student's first semester of graduate work. The plan will be reviewed by the Major Professor and the student after the successful completion of 12 credits and the removal of any deficiencies that may have been assessed at admission. At the time of the review, the student may request another Major Professor in the event that his/her programmatic needs have been modified or altered. Subsequent minor changes must be approved by the Major Professor.

The Major Professor evaluates and updates the student’s progress after completion of every six (6) credits or every semester of subsequent work. The student may not register for any courses without this advisor’s prior approval.

Time Limit

The student must complete all degree requirements within five years of initial enrollment.
Language, Literature, and Translation, MA/Business Administration, MBA

The College of Letters and Science and Lubar School of Business collaboratively offer a program designed to provide students with theoretical and practical exposure to evolving language services industry theory and practices, and to provide high level management and administrative skills needed to work in business, industry, governmental, and nonprofit organizations.

Requirements

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission
Students are admitted to both graduate programs separately, and admission requirements are consistent with those specified by the UWM Graduate School, the Master of Arts in Language, Literature, and Translation (MALLT), Translation Professional Track in the College of Letters and Science, and the MBA program of the Lubar School of Business.

Credit and Courses

The total credits for the Coordinated MALLT/MBA program is 54. Students accepted into the MALLT/MBA program complete the following courses:

| Electives | Select 9 shared credits in consultation with faculty advisors from among all approved TRNSLTN or MBA elective courses | 9       |

| Total MBA credits: 24 + 9 shared |

Program Requirements

The 54 credits for the coordinated program typically would be completed in both programs at the same time, rather than one program after the other. A student not completing the requirements for the coordinated degree program would need to complete all requirements for an individual program to receive a degree.

Time Limit
Students in the coordinated MALLT/MBA degree program must complete all degree requirements within seven years of the first enrollment semester as a degree student.

Language, Literature, and Translation, MA/Library and Information Science, MLIS

In collaboration with several other academic units at UW-Milwaukee, SOIS offers students the opportunity to obtain two Master’s degrees concurrently—one in Library and Information Science (MLIS) and one in a subject area.

Degree Requirements

- The number of degree credits needed for each of the coordinated programs is usually 12 fewer than the sum of the two programs if they were not taken simultaneously. All degree requirements of each component must be satisfied.
- The MLIS portion of the coordinated degrees can be completed online.
- Prerequisite to the award of either degree in this program is the simultaneous award of its counterpart degree.

MLIS Component

The Master of Library and Information Science (MLIS) component of each of the coordinated programs includes 30 credits of SOIS courses. These include the MLIS core courses (12 credits). The remaining 18 MLIS credits are selected from the School’s offerings in accordance with the student’s goals in the coordinated degree program.

MLIS/MA Language, Literature, and Translation

Available to students interested in Linguistics or Spanish, the joint MLIS/MALLT program prepares students for specialized positions in libraries.

Application Deadlines
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office.
Admission
An applicant must meet the UWM Graduate School requirements plus all admission requirements of both the School of Information Studies and the coordinated degree department. Please review the admission details of each program and contact an advisor with any questions.

Requirements
Students interested in the MALLT/MLIS program will be expected to follow all of the requirements and standards as described in this section of the Bulletin. Nine of the 30 credits normally required for a MALLT degree will be satisfied by courses taken in SOIS. In the coordinated degree program, MALLT thesis option credits will be in addition to the 21 required MALLT credits. Courses in related areas must be approved by the Coordinator of MALLT.

• See the MALLT (p. 1539) and MLIS (p. 951) pages for more information.

Translation, Graduate Certificate

The Graduate Certificate in Translation offers online-only professional training to students in French, German, Spanish, Arabic, Russian, and often other languages, who wish to pursue careers in the language-services industry broadly speaking, or in other fields requiring advanced professional use of a language other than English.

Being bilingual is not enough to be a successful translator. Professional translators must be experts in both source and target cultures, skilled readers of the source language and superb writers of the target language. In addition, they need expertise in an area of specialization and a solid grasp of the language-services industry.

Our Translation & Interpreting Studies programs are housed in an accredited, Tier 1 Research institution and offer professional translator and interpreter training in a dynamic environment. Students collaborate with faculty and classmates from around the world to develop the skills they need to succeed in a thriving international market. Learn how to translate and/or interpret, and how to be a language professional through using leading industry computer-assisted translation tools and completing internships that often lead to employment. Our program can prepare you to:

• be an in-house translator
• be a freelancer
• be a translation company owner
• specialize in your area of interest
• pursue doctoral studies
• develop your professional skills without pursuing a degree

For information, please go here: http://uwm.edu/translation-interpreting-studies/contact/request-for-information/

Eligibility and Admission

Applicants to the Certificate Program must hold a bachelor’s degree with an overall GPA of 2.75 or must provide substantial evidence of ability to succeed in graduate-level work.
A degree in the foreign language of concentration, or advanced study in that area, is desirable. In addition, admission to the program is based in part on a qualifying examination administered by the Program. The two-hour exam consists of a short translation from the source to the target language (between 200 and 250 words, depending on the source language) and one 300 to 500 word essay in English.

**Application**

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted to a certificate program.

**Credits and Courses**

Students must complete 21 credits of required courses; all credits must be at the graduate level, including the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>TRNSLTN 709</td>
<td>Seminar in Literary and Cultural Translation</td>
<td>3</td>

<tr>
<td>TRNSLTN 726</td>
<td>Computer-Assisted Translation</td>
<td>3</td>
</tr>
<tr>
<td>TRNSLTN 730</td>
<td>Internship in Translation</td>
<td>3</td>
</tr>
</tbody>
</table>

**Language Concentration**

Students must select a language concentration and complete the three courses (9 cr) listed below for that concentration.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>TRNSLTN 706</td>

Transfer Credit
Certificate coursework at the graduate level may be applied toward an M.A. degree in the MALLT Program. Required courses completed as part of an undergraduate degree will not count toward the certificate requirements; in such cases, students, in consultation with the certificate program coordinator, will select additional appropriate elective courses to complete a minimum of 21 certificate program credits after the baccalaureate degree has been awarded.

Grade Point Average Requirement
Students must earn at least an average GPA of 3.0 in courses completed at the graduate level as well as a 3.0 GPA on all credits completed for the certificate. In addition, students must earn a B or better in all courses completed for the certificate.

Capstone requirement
All certificate students will be required to pass a one-hour translation examination.

Articulation with Degree Programs
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   • Degree programs must approve the courses from certificates that can double count toward the degree.
   • All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   • Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

Time Limit
Certificate program time limits shall be established as follows:
   • 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
   • 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

LATIN AMERICAN AND CARIBBEAN STUDIES

UWM graduates in the 21st century will participate in a globalized economy with corresponding internationalization of the mass media, education and the arts. As the United States draws even closer to its neighbors in the Americas, students in the Latin American and Caribbean Studies Undergraduate Certificate Program (LACS) will be especially well prepared for this complex and ever-changing world.

Programs

- Latin American and Caribbean Studies, Undergraduate Certificate (p. 1546)

Latin American and Caribbean Studies Courses

LACS 101 Introduction to Latin American and Caribbean Studies
3 cr. Undergraduate.
Lectures and discussion of a range of topics relating to Latin America and the Caribbean that lead to an understanding of the cultures of these areas.
Prerequisites: none.
General Education Requirements: HU
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
Current Offerings: http://uwm.edu/schedule

LACS 192 First-Year Seminar
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

LACS 193 First-Year Seminar
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

LACS 199 Independent Study
1-3 cr. Undergraduate.
Independent work under supervision of faculty or academic staff member. For further information, consult the program director.
Prerequisites: 2.5 GPA, writ cons instr, progr dir, & asst dean for SAS.
Course Rules: Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

LACS 201 Special Topics in Latin American and Caribbean Studies
3 cr. Undergraduate.
Topics concerning Latin America and/or the Caribbean, with little or no focus on their diasporas.
Prerequisites: none.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

LACS 289 Internship in Latin American/Caribbean Studies, Lower Division
1-6 cr. Undergraduate.
Application of basic principles of history in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: 2.50 gpa, cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hrs in internship. Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

LACS 296 UROP Apprenticeship
1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with a supervising member of the faculty or staff.
Prerequisites: acceptance to UROP; prior or conc reg in UROP seminar.
Course Rules: One credit for 45 hrs research. Retakable to 9 cr max in any combinations of UROP apprenticeship courses.
Current Offerings: http://uwm.edu/schedule

LACS 297 Study Abroad
1-12 cr. Undergraduate.
Designed to enroll students in UWM-sponsored program before course work levels, content, and credits are determined and/or in specially-prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Last Taught: Summer 2011.
Current Offerings: http://uwm.edu/schedule

LACS 299 Ad Hoc
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only progr dir & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

LACS 301 Advanced Topics in Latin American and Caribbean Studies
3 cr. Undergraduate.
Advanced-level topics concerning Latin America and/or the Caribbean, with little or no focus on their diasporas.
Prerequisites: jr st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

LACS 326 Brazilian Politics and Society
3 cr. Undergraduate.
Puzzles and complexities of governing Brazil in 20th and 21st centuries. Historical and institutional foundations of the Brazilian state; current political, economic, and social environment.
Prerequisites: jr st.
Course Rules: Comparative politics course. LACS 326 & Pol Sci 326 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2015.
Current Offerings: http://uwm.edu/schedule
LACS 489 Internship in Latin American/Caribbean Studies, Upper Division
1-6 cr. Undergraduate.
Application of basic principles of Latin American/Caribbean studies in business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; 2.50 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hrs in internship. Retakable to 6 cr max.
Last Taught: Spring 2017, Fall 2011.
Current Offerings: http://uwm.edu/schedule

LACS 496 Advanced UROP Apprenticeship
1-3 cr. Undergraduate.
Advanced undergraduate research participation in a project developed with a supervising member of the faculty of staff.
Prerequisites: acceptance to UROP; prior UROP apprenticeship or equiv rsch experience.
Course Rules: One cr for 45 hrs research. Retakable to 9 cr max in any combination of UROP apprenticeship courses.
Current Offerings: http://uwm.edu/schedule

LACS 497 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM-sponsored program before course work level, content, and credits are determined and/or in specially-prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Last Taught: Summer 2011.
Current Offerings: http://uwm.edu/schedule

LACS 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only progr dir & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

LACS 699 Advanced Independent Study
1-3 cr. Undergraduate.
Advanced level independent work under the supervision of a Latin American/Caribbean studies faculty or academic staff member.
Prerequisites: jr st; 2.5 GPA; writ cons instr, progr dir, & asst dean for SAS.
Course Rules: Retakable w/chg in topic to 9 cr max in any combination of LACS/Latino 698, LACS 699, & Latino 699.
Last Taught: Spring 2011.
Current Offerings: http://uwm.edu/schedule

LACS 789 Graduate Internship in Latin American and Caribbean Studies
1-3 cr. Graduate.
Application of basic principles of Latin American/Caribbean Studies in business, organizational, educational, political, or other appropriate setting.
Prerequisites: One cr earned for academic work based on 40 hrs in internship. Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

Latin American and Caribbean Studies, Undergraduate Certificate
Like a departmental minor, the LACS undergraduate certificate offers a specific academic focus but differs by being interdisciplinary, allowing students to combine related courses in different disciplines to explore common themes. Students who earn a certificate demonstrate their intellectual commitment to a subject and their competence in scholarly areas, which can prove valuable at the graduate level or in the workplace.

Numerous study abroad opportunities are available to students in any of these programs, including short-term and longer-length. Most students start planning their study abroad experience early in sophomore year for trips that take place in junior year. Popular destinations include Mexico, Cuba, Brazil, Peru, Ecuador, Argentina, and Chile.

Eligibility
The Certificate in Latin American and Caribbean Studies is open to all students seeking a bachelor’s degree from UWM, to those who previously received a bachelor’s degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. To be admitted to the University as non-degree students, individuals must meet regular University admission requirements. Students currently involved in baccalaureate studies who successfully complete the requirements of the certificate program are awarded the certificate at the time of graduation. Students who already possess the bachelor’s degree and non-degree students receive the certificate upon completion of the program requirements.

Requirements
You are strongly advised to consult both the Latin American and Caribbean Studies advisor and your L&S advisor to ensure you stay on track towards a degree.

Proficiency in a language (other than English) widely spoken in Latin America or the Caribbean is required. The Center for Latin American and Caribbean Studies will determine which languages will satisfy the certificate. This requirement may be fulfilled by either:

1. successful completion (with a grade of C or above) of any upper-level (numbered 300 or above) course in the target language; or
2. successful completion of a language proficiency examination.
Exceptions to this requirement must be approved by the LACS Certificate Committee.

Students must complete 21 credits in Latin American and Caribbean content courses, 12 of which must be at the 300 level or above. The 21 credits include one required course, LACS 101. Students must take courses in at least two curricular areas, although three areas are recommended. No more than 12 credits in any one curricular area may be counted towards the certificate program, and no more than 3 credits may be in independent study courses. In addition to any Latin American content courses taken in a semester-length, UWM-approved study abroad program in Latin America or the Caribbean, an additional three credits for participating also may be counted, if courses are taken within an immersion setting (as determined by the Center for Latin American and Caribbean Studies). A 2.750 GPA or better must be achieved in all UWM coursework and in all certificate credits. At least 12 credits of the Latin American/Caribbean content courses must be completed at UWM.
Courses that meet the certificate requirements include, but are not limited to, those in the following list. For the most current list of Latin American and Caribbean content courses, see the Center for Latin American and Caribbean Studies (http://uwm.edu/clacs), located at NWQ B 2484.

LATIN AMERICAN, CARIBBEAN, AND U.S. LATIN@ STUDIES

Note: The @ ending (“a” at the center of “o”) offers a simultaneous presentation of both the feminine and masculine word endings of Latina and Latino and allows the reader or speaker to choose one, both, or a variation of the gendered forms.

Uniquely UWM, the Department of Latin American, Caribbean, and U.S. Latin@ Studies integrates the study of peoples and culture of Latin America and the Caribbean with the study of U.S. Latin@s. Most other programs focus on one or the other. Alumni work stateside or abroad in health services, education, nonprofits, business, and government. An accelerated program leads to both the BA and a master’s in translation in five years.

Programs
- Latin American, Caribbean, and U.S. Latin@ Studies, BA (p. 1552)

Latin American, Caribbean, and U.S. Latin@ Studies Courses

LACUSL 199 Independent Study
1-3 cr. Undergraduate.
Independent work under supervision of faculty or academic staff member. For further information, consult the program coordinator.
Prerequisites: 2.50 gpa; writ cons inst, prog coord, & asst dean for SAS.
Course Rules: Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

LACUSL 200 Special Topics in Latin American, Caribbean, and U.S. Latin@ Studies: 3 cr. Undergraduate.
Various topics that integrate the experiences of Latin American, Caribbean, and U.S. Latin@ populations, environments, and/or cultures.
Prerequisites: none.
Course Rules: Retakable w/chg in topic to 9 cr max. Counts as repeat of LACS/Latino 200 w/same topic.
Last Taught: Fall 2015, Spring 2013.
Current Offerings: http://uwm.edu/schedule

LACUSL 201 Latin American, Caribbean, and U.S. Latin@ Arts and Culture:
3 cr. Undergraduate.
Approaches to the art, literature, and other cultural productions of Latin America, the Caribbean, and the Latin@ U.S.
Prerequisites: none.
Course Rules: Retakable w/chg in topic to 9 cr max.
General Education Requirements: HU
Last Taught: Fall 2016.
Current Offerings: http://uwm.edu/schedule

LACUSL 289 Internship in Latin American, Caribbean, and U.S. Latino Studies, Lower Div 1-6 cr. Undergraduate.
Application of basic principles of Latin American, Caribbean, and U.S. Latino studies in business, organizational, educational, political, or other appropriate setting. One cr earned for academic work based on 40 hrs in internship.
Prerequisites: 2.50 gpa, cons supervising faculty member.
Course Rules: Retakable to 6 cr max.
Last Taught: Summer 2016.
Current Offerings: http://uwm.edu/schedule

LACUSL 296 UROP Apprenticeship
1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with a supervising member of the faculty or staff.
Prerequisites: acceptance to UROP; prior or conc reg in UROP seminar.
Course Rules: One credit for 45 hrs research. Retakable to 9 cr max in any combination of UROP apprenticeship courses.
Current Offerings: http://uwm.edu/schedule

LACUSL 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM-sponsored program before course work levels, content, and credits are determined and/or in specially-prepared program course work.
Prerequisites: acceptance for Study Abroad Program.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

LACUSL 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Prerequisites: none; addl prereqs may be assigned to specific topic.
Course Rules: Requires only prog coord & assoc dean approval. In exceptional circumstances, can be offered in one addl sem. Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

LACUSL 300 Advanced Topics in Latin American, Caribbean, and U.S. Latino Studies:
3 cr. Undergraduate.
Advanced study of topics that integrate the experiences of U.S. Latino populations with their countries of origin.
Prerequisites: jr st.
Course Rules: Retakable w/chg in topic to 9 cr max. Counts as repeat of LACS/Latino 300 w/same topic.
Last Taught: Spring 2016, Spring 2012.
Current Offerings: http://uwm.edu/schedule

LACUSL 324 Theatre in the Americas: Latin American, Caribbean, and Latina/o Theatre
3 cr. Undergraduate.
Survey of Latin American, Caribbean, and U.S. Latina/o theatre and performance. History and cultures of the Americas that shape these productions.
Prerequisites: jr st.
Course Rules: Counts as repeat of LACS or Latino 324. LACUSL 324 & Theatre 324 are jointly-offered; they count as repeats of one another.
General Education Requirements: CD, A
Current Offerings: http://uwm.edu/schedule

LACUSL 329 UROP Apprenticeship
1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with a supervising member of the faculty or staff.
Prerequisites: acceptance to UROP; prior or conc reg in UROP seminar.
Course Rules: One credit for 45 hrs research. Retakable to 9 cr max in any combination of UROP apprenticeship courses.
Current Offerings: http://uwm.edu/schedule

LACUSL 396 Internship in Latin American, Caribbean, and U.S. Latino Studies, Upper Div
1-6 cr. Undergraduate.
Application of basic principles of Latin American, Caribbean, and U.S. Latino studies in business, organizational, educational, political, or other appropriate setting. One cr earned for academic work based on 40 hrs in internship.
Prerequisites: 2.50 gpa, cons supervising faculty member.
Course Rules: Retakable to 6 cr max.
Last Taught: Summer 2016.
Current Offerings: http://uwm.edu/schedule

LACUSL 397 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM-sponsored program before course work levels, content, and credits are determined and/or in specially-prepared program course work.
Prerequisites: acceptance for Study Abroad Program.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule
LACUSL 489 Internship in Latin American, Caribbean, and US Latino Studies, Upper Level
1-6 cr. Undergraduate.
Application of basic principles of Latin American, Caribbean, and U.S. Latino studies in business, organizational, educational, political, or other appropriate setting. One cr earned for academic work based on 40 hrs in internship.
Prerequisites: jr st; 2.50 gpa; written cons supervising prof.
Course Rules: Retakable to 6 cr max.
Last Taught: Fall 2015.
Current Offerings: http://uwm.edu/schedule

LACUSL 496 UROP Apprenticeship, Upper Level
1-3 cr. Undergraduate.
Advanced-level undergraduate research in a project developed with a supervising member of the faculty or academic staff. One credit for 45 hours research.
Prerequisites: jr st; acceptance to UROP; prior on conc reg in UROP seminar.
Course Rules: Retakable to 9 cr max in any combination of UROP apprenticeship courses.
Current Offerings: http://uwm.edu/schedule

LACUSL 497 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UW-sponsored program before course work levels, content, and credits are determined and/or in specially-prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

LACUSL 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only prog coord & assoc dean approval. In exceptional circumstances, can be offered in one add’l semester.
Prerequisites: jr st; add’l prereqs may be assigned to specific topic.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

LACUSL 680 LACUSL Senior Research Project
3 cr. Undergraduate.
Independent capstone project for the LACUSL major, integrating Latin@ and Latin American/Caribbean perspectives on a topic selected by the student in consultation with their faculty mentor.
Prerequisites: sr st; declared LACUSL major.
Last Taught: Fall 2015.
Current Offerings: http://uwm.edu/schedule

LACUSL 699 Advanced Independent Study
1-3 cr. Undergraduate.
Advanced independent work under supervision of faculty or academic staff member. For further information, consult the program coordinator.
Prerequisites: jr st; 2.50 gpa; written cons instr, prog coord, & asst dean for SAS.
Course Rules: Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

Latin American, Caribbean, and U.S Latin@ Studies, BA

UWM students interested in pursuing advanced knowledge about the varied cultures, histories, languages, and origins that are included within Latino/a populations have three different programs to choose from, including a major and two different certificates.

UWM students in the Latin American, Caribbean, and U.S Latin@ Studies (LACUSL) major learn about the many different histories, cultures, and modern issues of Latinos from all three regions - Latin America, the Caribbean, and the United States. It is among a small handful of programs nationwide to explore both Latinos in the U.S. as well as those living in Latin America and the Caribbean; most programs focus on one or the other. Coursework spans several departments, including history, sociology, the arts, political science, anthropology, languages and literature, giving students many different lenses through which to look.

Many students choose this major because they intend to work with the Latino/a population in some way. They may be going into health services, education, manufacturing, business, nonprofit work, social services, trade, or government work. Regardless of industry, they understand that the impact of globalization is growing and they recognize the increasing importance of Latin American countries and Latinos in the U.S. as political and economic forces.

Students more interested in the experience of Latino/as within the United States might find our certificate in Latino Studies well-suited to their personal and professional goals. A certificate is similar to a minor in terms of number of credits, but like the interdisciplinary LACUSL major mentioned above, it draws on classes from many different subject areas. Students can expect to take classes from history, English, Spanish, educational policy, and sociology.

Students more interested in the peoples of Latin America and the Caribbean should explore the certificate in Latin American and Caribbean Studies in more detail. The certificate is very similar to the major in terms of content.

Both certificates are excellent complements to other majors both within the College of Letters & Science as well as professional degrees such as business, education, nursing or health sciences.

Numerous study abroad opportunities are available to students in any of these programs, including short-term and longer-length. Most students start planning their study abroad experience early in sophomore year for trips that take place in junior year. Popular destinations include Mexico, Cuba, Brazil, Peru, Ecuador, Argentina, and Chile.

Requirements

Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

University General Education Requirements (GER)

Arts
Select 3 credits

**Humanities**
Select 6 credits

**Social Sciences**
Select 6 credits

**Natural Sciences**
Select 6 credits (at least two courses including one lab)

**UWM Foreign Language Requirement**
Complete Foreign Language Requirement through:
- Two years (high school) of a single foreign language
- Two semesters (college) of a single foreign language
- Or equivalent

**UWM Cultural Diversity Requirement**
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement

### College of Letters & Science Requirements

**I. English Writing Requirement**
Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

*Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.*

**II. Mathematics and Formal Reasoning**
To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 103</td>
<td>Contemporary Applications of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 105</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

*Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.*

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 or more credits in any 200-level or above Math course</td>
<td></td>
<td></td>
</tr>
<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>
<td></td>
</tr>
<tr>
<td>ANTHRO 568</td>
<td>Introduction to Anthropological Statistics</td>
<td></td>
</tr>
</tbody>
</table>

**III. Foreign Language Requirement**
Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

<td></td>
</tr>
<tr>
<td>ANTHRO 568</td>
<td>Introduction to Anthropological Statistics</td>
<td></td>
</tr>
</tbody>
</table>

**V. Breadth Requirement**
Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural
Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Arts</td>
<td>Select 3 credits</td>
<td>3</td>
</tr>
</tbody>
</table>

**Humanities**

Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area.

**Social Sciences**

Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area.

**Natural Sciences**

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area.

**Cultural Diversity**

Complete 3 credits in a course with Cultural Diversity (CD) designation.

* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

**VI. The Major**

The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

**Research Requirement**

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

**Major Requirements**

Students are required to complete a minimum of 33 credits in the major, at least 15 of which must be taken at the advanced level (300 and above) in residence at UWM. The College requires that all students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work.

With approval of program coordinator, a relevant course not currently listed above may be substituted.

The following are required:

**Major Requirements**

**Capstone**

LACUSL 680 or LACUSL 699 LACUSL Senior Research Project 1 3

**Electives**

Select 18 credits (see below) 18

Total Credits 33

1 In semesters when LACUSL 680 is not offered, students may complete the capstone requirement by taking LACUSL 699, with an appropriate faculty member from the LACUSL associated faculty.

L&S guidelines require that the student:

1. conduct independent research;
2. evaluate and integrate prior research; and
3. present the findings in a professional manner and context; and that the sponsoring faculty member provide clear guidelines on how performance will be evaluated.

The student also may substitute an existing course in one of the curricular codes represented by the major’s electives, provided that it satisfies the L&S research requirement for that major and provided that the major research project undertaken as part of that course has a distinctly LACUSL topic.

**Electives**

Electives may be selected from integrated courses as well as from the three course clusters listed below. Students must take at least two courses from Artistic Expression, at least two from Social and Natural Sciences, and up to two from Language and Communication Skills. At least three different departmental curricular codes must be represented among the electives. A course taken to satisfy the Integrative requirement may not count as an elective. A maximum of 3 credits in an
internship (LACUSL 289 or LACUSL 489) may count as an elective for the major.

With approval of program coordinator, a relevant course not currently listed below may be substituted.

Letters & Science Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus’ general education requirements and the College’s degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uw.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the “Declaration of Major” information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Honors in the College of Letters and Science

Dean’s Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).
Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

LATINO STUDIES

The Latino Studies Undergraduate Certificate Program is designed for students who have an interest in Latino studies, regardless of major or college affiliation. It utilizes an interdisciplinary approach to examining the experiences, cultures, and social conditions of Latinos in the United States.

Programs

- Latino Studies, Undergraduate Certificate (p. 1559)

Latino Studies Courses

LATINO 101 Introduction to Latino Studies
3 cr. Undergraduate.
Analyses of the historical and structural forces which have shaped the experience of Latinos in the U.S., including the relationship between Latinos and social institutions.
Prerequisites: none.
General Education Requirements: CD, SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

LATINO 192 First-Year Seminar:
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

LATINO 199 Independent Study
1-3 cr. Undergraduate.
Independent study under supervision of faculty or academic staff member. For further information, consult dept chair.
Prerequisites: 2.5 GPA; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: Retakable to 6 cr max.
Last Taught: Summer 2009, Fall 2008.
Current Offerings: http://uwm.edu/schedule

LATINO 201 Special Topics in U.S. Latino Studies:
3 cr. Undergraduate.
Interdisciplinary topics central to U.S. Latino studies.
Prerequisites: none.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

LATINO 267 The History of Latinos in the United States
3 cr. Undergraduate.
History and culture of Latinos in the United States from the colonial period to the present; emphasis on Mexican American, Puerto Rican, and Cuban experiences.
Prerequisites: none.
Course Rules: Hist 267 & Latino 267 are jointly offered; they count as repeats of one another.
General Education Requirements: HU, CD
Last Taught: Summer 2017, Summer 2016.
Current Offerings: http://uwm.edu/schedule

LATINO 279 Introduction to U.S. Latino/a Literature:
3 cr. Undergraduate.
Latino/a American literature with a focus on region, genre, theme, or period.
Prerequisites: grade of C or better in English 102(P) or score at level 4 on EPT.
Course Rules: Retakable w/chg in topic to 9 cr max. English 279 & Latino 279 are jointly offered; they count as repeats of one another.
General Education Requirements: CD, HU
Current Offerings: http://uwm.edu/schedule

LATINO 289 Internship in Latino Studies, Lower Division
1-6 cr. Undergraduate.
Application of basic principles of Latino Studies in business, organizational, educational, political, or other appropriate setting.
Prerequisites: 2.50 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hrs in internship. Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

LATINO 296 UROP Apprenticeship
1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with a supervising member of the faculty or staff.
Prerequisites: acceptance to UROP; prior or conc reg in UROP seminar.
Course Rules: One credit for 45 hrs research. Retakable to 9 cr max in any combination of UROP apprenticeship courses. Not open to jrs & srs.
Current Offerings: http://uwm.edu/schedule

LATINO 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work levels, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

LATINO 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l sem.
Prerequisites: none; add’l prereqs may be assigned to specific topic.
Course Rules: Retakable w/chg in topic.
Last Taught: Spring 2011.
Current Offerings: http://uwm.edu/schedule

LATINO 301 Advanced Topics in U.S. Latino Studies:
3 cr. Undergraduate.
Advanced-level interdisciplinary topics central to U.S. Latino studies.
Prerequisites: jr st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule
LATINO 323 Perspectives on Latino Communities
3 cr. Undergraduate.
Sociological analysis of the experiences of Latinos. Examination of immigration and mode of incorporation from theoretical perspectives. Emphasis on Chicanos, Cubans, and Puerto Ricans.
Prerequisites: jr st & any Socio 100-level course or cons instr.
Course Rules: Latino 323 & Socio 323 are jointly offered; they count as repeats of one another.
General Education Requirements: SS, CD
Last Taught: Fall 2017, Spring 2016, Spring 2015.
Current Offerings: http://uwm.edu/schedule

LATINO 374 Survey of U.S. Latino/a Literature
3 cr. Undergraduate.
A general, representative study of U.S. Latino/a literature.
Prerequisites: jr st; satisfaction of GER English Composition competency req.
Course Rules: English 374 & Latino 374 are jointly offered; they count as repeats of one another.
General Education Requirements: CD
Current Offerings: http://uwm.edu/schedule

LATINO 388 Latino Politics
3 cr. Undergraduate.
Contemporary Latino politics in the U.S.; demographic analysis; interplay between political incorporation and political institutional responses; Chicano movement, immigration policies, public opinion, voting behavior, representation.
Prerequisites: jr st.
Course Rules: Latino 388 & Pol Sci 388 are jointly offered; they count as repeats of one another.
General Education Requirements: SS, CD
Last Taught: Spring 2013.
Current Offerings: http://uwm.edu/schedule

LATINO 423 Latino Immigration and Incorporation:
3 cr. Undergraduate/Graduate.
Latino institutional, geo-political, demographic, comparative, and social network theoretical perspectives on migration to and incorporation into the United States
Prerequisites: jr st, 3 cr in Sociol at 200 level or above or cons instr; addl prereqs may be assigned for specific topics.
Course Rules: Retakable w/chg in topic to 6 cr max. Latino 423 & Sociol 423 are jointly offered; w/same topic, they count as repeats of one another.
Last Taught: Fall 2014, Spring 2013.
Current Offerings: http://uwm.edu/schedule

LATINO 489 Internship in Latino Studies, Upper Division
1-6 cr. Undergraduate.
Application of basic principles of Latino Studies in business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st, 2.50 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hrs in internship. Retakable to 6 cr max.
Current Offerings: http://uwm.edu/schedule

LATINO 497 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

LATINO 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l sem.
Prerequisites: none; addl prereqs may be assigned to specific topic.
Course Rules: Retakable w/chg in topic.
Current Offerings: http://uwm.edu/schedule

LATINO 523 Studies in U.S. Latino/a Literature:
3 cr. Undergraduate.
Critical study of themes, figures, aspects, trends, etc. in U.S. Latino/a Literature.
Prerequisites: Retakable w/chg in topic to 9 cr max. English 523 & Latino 523 are jointly offered; they count as repeats of one another. Prerq: jr st; satisfaction of GER English Composition competency req.
General Education Requirements: CD
Current Offerings: http://uwm.edu/schedule

LATINO 699 Advanced Independent Study
1-3 cr. Undergraduate.
Advanced level independent work under the supervision of a Latino Studies faculty or academic staff member.
Prerequisites: jr st; 2.50 gpa; writ cons instr, dept chair, & assoc dean for SAS.
Course Rules: Retakable w/chg in topic to 9 cr max in any combination of LACS/Latino 698, LACS 699, and Latino 699.
Last Taught: Spring 2009.
Current Offerings: http://uwm.edu/schedule

Latino Studies, Undergraduate Certificate
Latinos are the fastest growing minority population in the United States, numbering between 50 and 60 million today. Our interdisciplinary program allows students in many majors to complete their existing studies while also deepening knowledge about the experience of the Latin American and Caribbean diaspora in the U.S.

With demographic trends and the need to work with diverse groups, employers will appreciate your specialized training in Latino Studies. The certificate complements academic fields in Letters & Science (Spanish, Sociology, Anthropology, History, and Political Science among others) as well as professional fields such as Business, Criminal Justice, Health Science, Nursing, and Social Welfare. Latino Studies courses also count towards the major in Latin American, Caribbean, and U.S. Latin@ Studies.

Students will find answers to these questions:

- Who are Latinos?
- Why has the U.S. Latino population grown so rapidly in recent years?
- Which groups are growing the fastest?
- How have immigration policies affected population growth and change?
- How do Latinos engage in politics of their communities, states, and the nation?
- Why has their growth spurred so much electoral attention?
- What challenges do Latinos face in terms of racism, sexism, and discrimination?
- What contributions have Latinos made to US art, music, and literature?
- What is the history of Mexicans, Puerto Ricans, and Cubans in the U.S. from the 1600s to the present?

A certificate in Latino Studies is similar to a minor, in that it demonstrates you've achieved substantial knowledge in this interdisciplinary area of study.

The mission of the multidisciplinary Certificate in Latino Studies is twofold:
1. To enable students to understand and evaluate the impact of Latinos on the history, culture, politics, and economy of the United States, and
2. To foster the development of new, critical approaches that enable students to transform their world views and apply sound principles in their professional and personal interactions.

**Eligibility**

The Undergraduate Certificate Program in Latino Studies is open to any University of Wisconsin-Milwaukee undergraduate who has completed at least 15 credits, to those who previously received a bachelor's degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. To be admitted to the University as non-degree students, individuals must meet regular University admission requirements. Students currently involved in baccalaureate studies who successfully complete the requirements of the certificate program are awarded the certificate at the time of graduation. Students who already possess the bachelor's degree and non-degree students receive the certificate upon completion of the program requirements.

**Requirements**

To obtain the certificate, students must complete 21 credits in approved Latino courses, including 12 credits at the 300 level and above, with a minimum grade point average of 2.500. Students must select courses from at least three curricular areas, including LATINO 101. No more than 12 credits in a single curricular area may count toward the certificate, and a maximum of 3 credits of independent study may be applied to the 21 credit requirement. At least 12 credits for the certificate must be completed in residence at UWM, with at least 9 of the residence credits at the 300 level and above. For additional program information, contact the Latino Studies Coordinator.

LESBIAN, GAY, BISEXUAL, AND TRANSGENDER (LGBT) STUDIES

Cary Gabriel Costello, Associate Professor, Sociology

Lesbian, Gay, Bisexual, and Transgender (LGBT) Studies investigates the historical and contemporary experiences of people traditionally neglected in scholarship and courses. It explores questions about sexuality as well as identity, community, representation, diversity, assimilation, and discrimination that are both academically and socially significant. Work in this innovative field includes material and methods from many disciplines: English and foreign languages, health professions, anthropology, art history, biology, communications, economics, fine arts, history, music, nursing, political science, psychology, sociology, social welfare, and women's and gender studies.

Programs

- Lesbian, Gay, Bisexual, and Transgender (LGBT) Studies, Undergraduate Certificate (p. 1563)

Lesbian, Gay, Bisexual, and Transgender (LGBT) Studies Courses

LGBT 192 First-Year Seminar:
3 cr. Undergraduate.
Specific humanities topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: HU
Current Offerings: [link]

LGBT 193 First-Year Seminar:
3 cr. Undergraduate.
Specific social science topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: SS
Current Offerings: [link]

LGBT 199 Independent Study
1-3 cr. Undergraduate.
Independent work under supervision of faculty or academic staff member. For further information, consult dept chair.
Prerequisites: 2.5 GPA; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: Retakable to 6 cr max.
Current Offerings: [link]

LGBT 200 Introduction to Lesbian, Gay, Bisexual, and Transgender Studies
3 cr. Undergraduate.
Explores ideas about sexual identity and community through theory, literature, film, photography, music, and popular culture.
Prerequisites: none.
General Education Requirements: HU
Current Offerings: [link]

LGBT 275 Queer Migrations
3 cr. Undergraduate.
How gender, race, and sexuality shape the migration processes; how concerns about sexuality shape U.S. immigration and citizenship policy; how mass migrations transform diverse queer communities.
Prerequisites: none.
Course Rules: No cr for students w/cr in Ethnic 250 w/similar topic. Ethnic 275 & LGBT 275 are jointly offered; they count as repeats of one another.
General Education Requirements: HU, CD
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: [link]

LGBT 289 Internship in LGBT Studies, Lower Division
1-6 cr. Undergraduate.
Application of basic principles of LGBT studies in business, organizational, educational, political, or other appropriate setting.
Prerequisites: 2.50 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hrs in internship. Retakable to 6 cr max.
Last Taught: Spring 2018.
Current Offerings: [link]

LGBT 290 Topics in LGBT Studies:
3 cr. Undergraduate.
Selected LGBT topics and issues. Specific topics and add'l prereqs announced in Schedule of Classes each time course is offered.
Prerequisites: none.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2016, Fall 2013, Spring 2013, Spring 2012.
Current Offerings: [link]

LGBT 296 UROP Apprenticeship
1-3 cr. Undergraduate.
Undergraduate research participation in a project developed with a supervising member of the faculty or staff.
Prerequisites: acceptance to UROP; prior or conc reg in UROP seminar.
Course Rules: Not open to jrs & srs.
Current Offerings: [link]

LGBT 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work levels, content, and credits are determined and/or in specially prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: Retakable w/chg in topic.
Current Offerings: [link]
Lesbian, Gay, Bisexual, and Transgender (LGBT) Studies, Undergraduate Certificate

The Undergraduate Certificate in Lesbian, Gay, Bisexual, and Transgender (LGBT) Studies explores questions about sexuality, identity, gender, community, representation, diversity, assimilation, and discrimination that are both academically and socially significant.

This certificate is designed for all students, regardless of major, who have an interest in learning more about the history and contemporary life of LGBT individuals. Students who earn the LGBT Studies certificate are prepared for careers that involve interaction with people of diverse backgrounds in areas such as business, education, healthcare, and law. Some graduates go on to work in social services or public affairs, promoting equality in legislation and policy.

Coursework in this program is interdisciplinary and includes materials and methods from many fields, including Africology, anthropology, communication, comparative literature, economics, English, ethnic studies, film studies, health sciences, history, linguistics, music, nursing, political science, psychology, social welfare, sociology, theatre, and women's and gender studies.

Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

Eligibility

The LGBT Studies Undergraduate Certificate is designed for students majoring in any field who wish to complement their study of a discipline with an additional concentration in lesbian, gay, bisexual, and transgender studies. Any student in good standing at the University of Wisconsin-Milwaukee who is seeking a bachelor's degree or who previously received a bachelor's degree from UWM or any other accredited college or university is eligible to participate in the certificate program. The program also is open to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this topic. To be admitted as non-degree students, individuals must meet regular University admission requirements.

Requirements

The LGBT Studies Undergraduate Certificate requires completion of 18 credits in approved courses, with a minimum GPA of 2.500, as follows:

costello@uwm.edu
Electives
Select 9 credits of approved LGBT Studies curricular area or cross-listed coursework, of which 3 credits must be in courses numbered 300 or above.

Students are limited to a maximum of 6 credits in independent study and no more than 9 credits from any one department. At least half the credits must be taken in residence at UWM, and no courses may be taken on a credit/no credit basis.

Credits earned at other institutions in equivalent LGBT courses, as well as credits earned and approved through study abroad, are accepted in partial fulfillment of the requirements. Students must obtain the approval of the certificate program committee to apply more than nine credits from courses at other institutions to the program requirements.

Approved Electives
The following courses are approved to count toward the LGBT Studies Certificate. Additional courses may be found each semester in the Schedule of Classes. In addition, students are encouraged to consult the Program Coordinator and to petition for the inclusion of relevant courses as appropriate.

LIBERAL STUDIES

Admission to the Master of Liberal Studies is suspended during the redesign of the program.

The College of Letters and Science offers an interdisciplinary graduate program leading to a Master of Liberal Studies. The MLS curriculum consists of small introductory seminars, special topics courses conceived exclusively for the program, electives taken in specific departments, and a final thesis or independent project. All courses are taught by graduate faculty drawn primarily from the College of Letters and Science and augmented by other interested instructors from across the University. Such faculty diversity allows students to expand their cultural and intellectual horizons through a carefully structured course of study that encourages multiple perspectives on important issues and integration of knowledge across disciplines.

The MLS program is housed in the internationally respected Center for Twenty-first Century Studies, which ensures access to leading scholars, outstanding facilities, special lectures and other events. Each fall a limited class of new students is admitted in order to maintain an intimate learning environment, and all courses are offered during evenings. Although the MLS is not a traditional graduate degree that focuses on a single academic field or set of professional skills, its emphasis on critical thinking, imaginative reflection, ethical consideration, and effective communication carries substantial value in both private and public life.

Programs

- Liberal Studies, MLS (p. 1566)

Liberal Studies Courses

LIBRLST 701 Traditions and Transformations I:
3 cr. Graduate.
A fundamental contemporary issue explored through a historical perspective; emphasis on the humanities. Interdisciplinary resources, methods, theories. Required special programs outside regular class hours.
Prerequisites: grad st; admis to MLS Prog.
Course Rules: Not retakable.
Last Taught: Fall 2014, Fall 2013, Fall 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

LIBRLST 702 Traditions And Transformations II:
3 cr. Graduate.
Continuation of LibrlSt 701, exploring a contemporary issue within a more recent modern/postmodern context. Required special programs outside regular class hours emphasize course topics.
Prerequisites: grad st; LibrlSt 701(P)
Course Rules: Retakable w/chg in topic to 12 cr max.
Current Offerings: http://uwm.edu/schedule

LIBRLST 721 Special Topics in Liberal Studies:
3 cr. Graduate.
Topics in human culture emphasizing the pervasiveness of a particular idea, belief, process, or other cultural construct in many facets of human society.
Prerequisites: grad st; admis to MLS Prog
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2014, Fall 2011, Spring 2011, Fall 2009.
Current Offerings: http://uwm.edu/schedule

LIBRLST 722 Special Topics in Contemporary Cultural Studies:
3 cr. Graduate.
Topics in contemporary culture; emphasis on literature, experimental arts/film, mass culture, performance; new approaches to study of culture, including media theory, multi-culturalism, feminism, post-colonialism.
Prerequisites: grad st; admis to MLS Prog
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2015, Spring 2015, Spring 2014, Fall 2013.
Current Offerings: http://uwm.edu/schedule

LIBRLST 797 Special Topics In International Liberal Studies:
3 cr. Graduate.
Examination of a belief, idea, process, or other cultural construct in an international setting.
Prerequisites: grad st; admis to mls prog
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

LIBRLST 798 Liberal Studies Master's Project
4 cr. Graduate.
Culmination of student’s studies in MLS Program; may take any form appropriate to interdisciplinary focus of student’s study prog, e.g. research paper, performance, literary/exhibition project.
Prerequisites: grad st; 20 cr in the MLS Prog.
Last Taught: Fall 2016, Spring 2016, Spring 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

LIBRLST 799 Independent Work in Liberal Studies
1-3 cr. Graduate.
Independent reading or project; topic selected in consultation with supervising professor.
Prerequisites: grad st.
Course Rules: Fee for 1 cr will be assessed.
Current Offerings: http://uwm.edu/schedule

LIBRLST 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr will be assessed.
Current Offerings: http://uwm.edu/schedule

LIBRLST 901 Seminar on Philosophical Approaches to Science
3 cr. Graduate.
The nature and function of sciences, the logic of the scientific method as it relates to health, and implications of research and practices in health care.
Prerequisites: grad st.
Course Rules: C L Sci 901 & LibrlSt 901 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2007.
Current Offerings: http://uwm.edu/schedule

Liberal Studies, MLS

Admission to the MLS is suspended during the redesign of the program.

The College of Letters and Science offers an interdisciplinary graduate program leading to a Master of Liberal Studies. The MLS curriculum consists of small introductory seminars, special topics courses conceived exclusively for the program, electives taken in specific departments, and a final thesis or independent project. All courses are taught by graduate faculty drawn primarily from the College of Letters and Science and augmented by other interested instructors from across the University. Such faculty diversity allows students to expand their cultural and intellectual horizons through a carefully structured course of study that encourages multiple perspectives on important issues and integration of knowledge across disciplines.

The MLS program is housed in the internationally respected Center for Twenty-first Century Studies, which ensures access to leading scholars, outstanding facilities, special lectures and other events. Each fall a limited class of new students is admitted in order to maintain an intimate learning environment, and all courses are offered during evenings.

Although the MLS is not a traditional graduate degree that focuses on a single academic field or set of professional skills, its emphasis on critical thinking, imaginative reflection, ethical consideration, and effective communication carries substantial value in both private and public life.

Note: Admission to the MLS is suspended during the redesign of the program.

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool-program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

To be considered for admission to the Master of Liberal Studies, an applicant must meet the requirements for admission to the Graduate School. For international students, demonstration of English proficiency for MLS requires a minimum internet-based TOEFL score of 79 for regular graduate admission, 68-78 for dual admission, or a minimum IELTS score of 6.5. In addition, the applicant must submit an essay (two pages) describing why s/he is interested in pursuing graduate study in an interdisciplinary program and describing the educational background and life experiences that s/he brings to the program. An interview with the director of the program also is required.

Major Professor as Advisor

As specified in the regulations of the Graduate School, a major professor will be assigned to every person enrolled in the program to advise and supervise his or her work. Those admitted to the program will consult with the Director of the Master of Liberal Studies program for assistance in identifying an appropriate advisor. The responsibility of the advisor will be to assist in selecting a cohesive sequence of courses and developing a rationale for that sequence. The major advisor must approve the program of study.

Credits and Courses

Thirty credits are required for the MLS degree, distributed as follows:

| Total Credits | 30 |

1 Select courses that are designed to orient the individuals to the program, to establish a common base of knowledge in an interdisciplinary context, and to create a sense of intellectual community among the participants, many of whom may be re-entering the world of formal education.

2 Although the core and special topics courses that are designed specifically for the Master of Liberal Studies will be emphasized in all programs of study, participants may wish to take graduate courses offered by departments or to undertake independent study in order to pursue specific interests.
This project, which must be interdisciplinary in nature, can take the form of a traditional research paper or thesis, but it also may adopt an alternative creative, performative, or occupationally related practical model. The project must be approved by the student's advisor and the program director.

**Transfer Credits**

Individuals with prior graduate coursework may receive permission to count up to 9 credits of that work toward the Master of Liberal Studies if the Advisory Committee accepts the courses as relevant to the program of study and if the courses meet Graduate School requirements for transfer. Liberal Studies core courses and the culminating project course must be taken at the University of Wisconsin-Milwaukee.

**Time Limit**

All degree requirements must be completed within five years of initial enrollment.
LINGUISTICS

Linguistics inquires into the nature of human language. In modern times, research in linguistics has concentrated on the search for universal properties of human languages in an effort to understand that unique characteristic of human beings, the faculty of language. Recognition of the importance of modern linguistic research continues to grow today, with research results now seen to have implications for numerous additional disciplines, including anthropology, computer science, education, ethnology, psychology, sociology, and speech pathology.

Many of the courses taught in the Linguistics Department form a required or recommended portion of the curricula of other academic programs.

Programs

- Adult/University Level Teaching English to Speakers of Other Languages, Graduate Certificate (p. 1574)
- Adult/University Level Teaching English to Speakers of Other Languages, Undergraduate Certificate (p. 1576)
- Linguistics, BA (p. 1577)
- Linguistics, MA (p. 1580)
- Linguistics, MA: Teaching English to Speakers of Other Languages (p. 1582)
- Linguistics, Minor (p. 1583)
- Linguistics, PhD (p. 1584)

Linguistics Courses

LINGUIS 100 The Diversity of Human Language
3 cr. Undergraduate.
Survey course on the nature and diversity of human language. Topics include language and society, dialects, language and culture, language acquisition, and language typology.
Prerequisites: none.
General Education Requirements: HU, CD
Current Offerings: http://uwm.edu/schedule

LINGUIS 102 Uncommonly Taught Language: Intensive First Semester
5-7 cr. Undergraduate.
Intensive training in an uncommonly taught language, for students with no previous knowledge of the language.
Prerequisites: none.
Course Rules: May be retaken w/chg of language. FLL 102 & Linguis 102 are jointly offered; w/same topic, they count as repeats of one another.
Last Taught: Fall 2010.
Current Offerings: http://uwm.edu/schedule

LINGUIS 103 First Semester of an Uncommonly-Taught Language
1-4 cr. Undergraduate.
Elementary training in an uncommonly-taught language (i.e. one not otherwise offered in any UWM program). Number of credits earned by the student is determined by the credit value assigned to section number.
Prerequisites: none.
Course Rules: For students with no previous knowledge of the language. May be retaken w/chg in language. FLL 103 & Linguis 103 are jointly offered; with same topic, they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

LINGUIS 104 Second Semester of an Uncommonly Taught Language:
3-4 cr. Undergraduate.
Continuation of FLL/Linguis 103 (Linguis 131). Number of credits earned by student is determined by the credit value assigned to section number.
Prerequisites: FLL/Linguis 103(Linguis 131)(P) in same language.
Course Rules: May be retaken w/chg in language. FLL 104 & Linguis 104 are jointly offered; w/same topic, they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

LINGUIS 105 First-Semester Hmong
3 cr. Undergraduate.
Beginning Hmong for students with no previous knowledge of the language.
Prerequisites: none.
Course Rules: No cr for students w/cr in Hmong 107 or Hmong 108. Hmong 105 & Linguis 105 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

LINGUIS 106 Second-Semester Hmong
3 cr. Undergraduate.
Continuation of Linguis 105.
Prerequisites: Hmong 105/Linguis 105 (P).
Course Rules: No cr for students w/cr in Hmong 107 or Hmong 108. Hmong 106 & Linguis 106 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

LINGUIS 109 The Diversity of Human Language
3 cr. Undergraduate.
Survey course on the nature and diversity of human language. Topics include language and society, dialects, language and culture, language acquisition, and language typology.
Prerequisites: none.
General Education Requirements: HU, CD
Current Offerings: http://uwm.edu/schedule

LINGUIS 190 Special Topics in Linguistics
1-5 cr. Undergraduate.
Selected topics involving innovative approaches to the study of language, particularly as related to other disciplines.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

LINGUIS 193 First-Year Seminar
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

LINGUIS 199 Independent Study
1-3 cr. Undergraduate.
Prerequisites: 2.5 gpa, cons instr, & either Linguis 100 or any Linguistics course 200 or above.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

LINGUIS 200 Aspects of Language
3 cr. Undergraduate.
Selected topics involving innovative approaches to the study of language, particularly as related to other disciplines.
Prerequisites: none.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: HU
Last Taught: Spring 2014, Fall 2013, Spring 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

LINGUIS 202 Uncommonly Taught Language: Intensive Second Semester
5-7 cr. Undergraduate.
Continuation of FLL/Linguis 102(Linguis 133).
Prerequisites: FLL/Linguis 102(Linguis 133)(P) in same language.
Course Rules: May be retaken w/chg in language. FLL 202 & Linguis 202 are jointly offered; w/same topic, they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule
LINGUIS 203 Third Semester of an Uncommonly Taught Language: 3-4 cr. Undergraduate.
Continuation of FLL/Linguis 104(Linguis 132). Number of credits earned by student is determined by credit value assigned to section number.
Prerequisites: FLL/Linguis 104(Linguis 132)(P) in the same language.
Course Rules: May be retaken w/chg in language. FLL 203 & Linguis 203 are jointly offered; w/same topic, they count as repeats of one another.
Last Taught: Fall 2010.
Current Offerings: http://uwm.edu/schedule

LINGUIS 204 Fourth Semester of an Uncommonly Taught Language: 3-4 cr. Undergraduate.
Continuation of FLL/Linguis 203(Linguis 231). Number of credits earned by student is determined by the credit value assigned to section number.
Prerequisites: FLL/Linguis 203(Linguis 231)(P) in same language.
Course Rules: May be retaken w/chg in language. FLL 204 & Linguis 204 are jointly offered; w/same topic, they count as repeats of one another.
Last Taught: Spring 2011.
Current Offerings: http://uwm.edu/schedule

LINGUIS 210 Power of Words 3 cr. Undergraduate.
Dynamic role of language in interpersonal relations, social attitudes and behavior. Topics include: patterns of culture and language, language as identification; prejudice, politics, and advertisement.
Prerequisites: none.
General Education Requirements: CD, HU
Current Offerings: http://uwm.edu/schedule

LINGUIS 211 Origins of Words 3 cr. Undergraduate.
Vocabulary of English from historical origins to the present; how words and word patterns change over time under influences of both internal and external forces.
Prerequisites: none.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

LINGUIS 212 Language and Gender 3 cr. Undergraduate.
How patterns of speaking reflect, perpetuate, and create our experience of gender; how gender interacts with race, class, socioeconomic status, age, occupational and social roles.
Prerequisites: none.
Course Rules: Counts as a repeat of Linguis 200 with same topic.
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Fall 2016, Spring 2016.
Current Offerings: http://uwm.edu/schedule

LINGUIS 213 Grammar for Students of Foreign Languages 3 cr. Undergraduate.
An introduction to the grammatical concepts useful in studying foreign languages.
Prerequisites: none.
Course Rules: Jointly offered with, & may be used to repeat, Classic 213, English 213, French 213, German 213, Italian 213, Polish 213, Russian 213, & Spanish 213.
Current Offerings: http://uwm.edu/schedule

LINGUIS 289 Internship in Linguistics, Lower Division 1-6 cr. Undergraduate.
Application of basic principles of linguistics in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: intro course in Linguis; 2.25 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hours in internship. May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

LINGUIS 297 Study Abroad: 1-12 cr. Undergraduate.
Designed to enroll students in UWM-sponsored program before course work level, content and credits are determined and/or in specially prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken w/topic chg.
Last Taught: Spring 2016, Fall 2015, Summer 2015, Fall 2013.
Current Offerings: http://uwm.edu/schedule

LINGUIS 299 Ad Hoc: 1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

LINGUIS 303 Fifth Semester of an Uncommonly Taught Language: 3-4 cr. Undergraduate.
Continuation of FLL/Linguis 204 (Linguis 232). Number of credits earned by student is determined by the credit value assigned to section number.
Prerequisites: FLL/Linguis 204(Linguis 232)(P) in same language.
Course Rules: May be retaken w/chg in language. FLL 303 & Linguis 303 are jointly offered; w/same topic, they count as repeats of one another.
Last Taught: Spring 2016.
Current Offerings: http://uwm.edu/schedule

LINGUIS 304 Sixth Semester of an Uncommonly Taught Language: 3 cr. Undergraduate.
Continuation of FLL/Linguis 303(Linguis 331). Number of credits earned by student is determined by the credit value assigned to section number.
Prerequisites: FLL/Linguis 303(Linguis 331)(P) in same language.
Course Rules: May be retaken w/chg in language. FLL 304 & Linguis 304 are jointly offered; w/same topic, they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

LINGUIS 350 Introduction to Linguistics 3 cr. Undergraduate.
Introduction to basic linguistic principles and concepts. Elementary analysis of sentence patterns, sound systems and language change.
Prerequisites: jr st or a linguis course.
General Education Requirements: SS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule
LINGUIS 390 Fundamentals of Linguistic Analysis
3 cr. Undergraduate/Graduate.
Introduction to the systematic analysis of language. Principles and
methods of describing phonological and syntactic processes.
Prerequisites: jr st & Linguis 350(P) or 400(P).
Current Offerings: http://uwm.edu/schedule

LINGUIS 400 Introduction to English Linguistics
3 cr. Undergraduate/Graduate.
Application of linguistic theory and techniques to modern English.
Linguis/English 400 required of all English majors and minors in School
of Education.
Prerequisites: jr st; Linguis 350(P) or equiv.
Course Rules: Jointly-offered with & counts as repeat of English 400.
Last Taught: Spring 2018, Fall 2016, Spring 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

LINGUIS 406 Advanced English Grammar
3 cr. Undergraduate/Graduate.
Continuation of English 403 with emphasis on the analysis of complex
sentences and discourse syntax.
Prerequisites: jr st; satisfaction of GER English Composition competency
req.English 403(P).
Course Rules: English 406 & Linguis 406 are jointly offered; they count as
repeats of one another.
Current Offerings: http://uwm.edu/schedule

LINGUIS 410 Literacy, Grammar, and Methodologies in ESL Education
3 cr. Undergraduate/Graduate.
Grammatical and other linguistic concepts relevant to ESL education;
implications for teaching language, reading and composition. Topics
include language acquisition and grammatical problems in language/
dialect variation.
Prerequisites: jr st & Linguis 350(P).
Last Taught: Spring 2018, Fall 2016, Fall 2015, UWinterI 2015.
Current Offerings: http://uwm.edu/schedule

LINGUIS 415 First Language Acquisition
3 cr. Undergraduate/Graduate.
Examination of research on what individuals know about their first
language at different ages and the kinds of theories offered to explain
these data.
Prerequisites: jr st & Linguis 350(P); or grad st & cons instr.
Last Taught: Fall 2016, Fall 2015, Spring 2015, Fall 2012.
Current Offerings: http://uwm.edu/schedule

LINGUIS 420 Introduction to Second Language Acquisition
3 cr. Undergraduate/Graduate.
Principles and methods of describing and comparing the structure of two
or more languages with emphasis on the implications of this comparison
for language learning.
Prerequisites: jr st; Linguis 350(P) or equiv.
Current Offerings: http://uwm.edu/schedule

LINGUIS 430 Language and Society
3 cr. Undergraduate/Graduate.
The influence of society on language and of language on society.
Language as social interaction, speech styles, social dialects; effects on
language change.
Prerequisites: jr st & Linguis 350(P).
General Education Requirements: SS
Current Offerings: http://uwm.edu/schedule

LINGUIS 432 Urban Dialects
3 cr. Undergraduate/Graduate.
Study of language variation in urban areas. Structure of black English
vernacular and its relation to other dialects. Social and educational
implications of dialect variation.
Prerequisites: jr st & Linguis 100 or 350.
Current Offerings: http://uwm.edu/schedule

LINGUIS 440 Psycholinguistics
3 cr. Undergraduate/Graduate.
A survey of the history, goals, methods, and findings of psycholinguistics.
Principal topics: phonetic perception, speech production, syntactic
processing, linguistic memory, meaning, and language acquisition.
Prerequisites: jr st, Linguis 350(R) or Psych 101(R); or grad st & cons
instr.
General Education Requirements: SS
Last Taught: Fall 2016, Fall 2015, Fall 2013, Fall 2005.
Current Offerings: http://uwm.edu/schedule

LINGUIS 450 General Phonetics and Phonetics Practicum
3 cr. Undergraduate/Graduate.
Study of linguistic phonetics, including articulatory physiology, acoustics,
and speech perception. Practice in production and transcription of a wide
variety of speech sounds. 3 hrs lec with practicum.
Prerequisites: jr st.
Last Taught: Spring 2018, Spring 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

LINGUIS 460 Introduction to Phonology
3 cr. Undergraduate/Graduate.
Basic properties of sounds, sound patterns, and sound processes of
spoken language.
Prerequisites: jr st & Linguis 350(P); or grad st & cons instr.
Current Offerings: http://uwm.edu/schedule

LINGUIS 464 Introduction to Syntax
3 cr. Undergraduate/Graduate.
Study of word and sentence formation in languages. Practice in analysis
and argumentation using data from various languages.
Prerequisites: jr st & Linguis 350(P); or grad st & cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

LINGUIS 466 Semantics
3 cr. Undergraduate/Graduate.
The study of meaning in language; its role in grammatical description.
Basic concepts used in semantic analysis and discussion of their place in
grammatical theory.
Prerequisites: jr st & Linguis 260(P) or 350(P) or Philos 211(P), or grad st
& cons instr.
Current Offerings: http://uwm.edu/schedule
LINGUIS 468 Language in its Various Forms:
3 cr. Undergraduate/Graduate.
Analysis and description of various language types. Topics may include language change, language development, dialectology, and language typology.
Prerequisites: jr st & Linguis 350(P), or grad st & cons instr.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Last Taught: Fall 2016, Spring 2016, Fall 2015, Spring 2015.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

LINGUIS 470 Historical/Comparative Linguistics
3 cr. Undergraduate/Graduate.
The study of language change; introduction to internal reconstruction and the comparative method; generative approaches to historical change.
Prerequisites: jr st & Linguis 350(P); or grad st & cons instr.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

LINGUIS 474 Language Typology and Language Universals
3 cr. Undergraduate/Graduate.
Comparison of phonetic, syntactic, and lexical patterns of different languages, with emphasis on deriving statements about properties of all languages or of significant subclasses of languages.
Prerequisites: jr st & Linguis 350(P); or grad st & cons instr.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

LINGUIS 476 Linguistic Theory
3 cr. Undergraduate/Graduate.
Survey of twentieth century American linguistic theories from traditionalism through American structuralism to generative grammar, including discussion of some current issues.
Prerequisites: jr st & Linguis 350(P); or grad st & cons instr.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

LINGUIS 489 Internship in Linguistics, Upper Division
1-6 cr. Undergraduate.
Application of advanced principles of linguistics in a business, organizational, educational, political, or other appropriate setting.
Prerequisites: jr st; 300-level or above course in linguis; 2.25 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hrs in internship. May be retaken to 6 cr max.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

LINGUIS 490 Field Methods
3 cr. Undergraduate/Graduate.
Work with a native speaker of a foreign language. Gathering and collation of data. Evaluation of possible phonemic and grammatical analyses.
Prerequisites: jr st & Linguis 350(P); or grad st & cons instr.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

LINGUIS 497 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM sponsored program before course work level, content and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Last Taught: Spring 2015, Fall 2014, Fall 2013, Fall 2012.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

LINGUIS 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l semester.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken with change in topic.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

LINGUIS 520 Advanced Second Language Acquisition:
3 cr. Undergraduate/Graduate.
Readings, discussions, and analyses of current issues in second-language acquisition theory.
Prerequisites: jr st; Linguis 420(P) or equiv.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Spring 2015, Fall 2013.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

LINGUIS 550 Phonetics II
3 cr. Undergraduate/Graduate.
Auditory phonetics; issues in speech production and speech acoustics; quantitative study of speech sounds in linguistic contexts; independent experimental research on topic selected by student.
Prerequisites: jr st; Linguis 450(370)(P) or cons instr.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

LINGUIS 560 Advanced Phonology
3 cr. Undergraduate/Graduate.
Fundamental issues in generative phonology; emphasis on comparing alternative models of phonological description.
Prerequisites: jr st; Linguis 460(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

LINGUIS 564 Advanced Syntax
3 cr. Undergraduate/Graduate.
Continuation of Linguis 464, with greater emphasis on the evaluation and justification of competing solutions and competing models of grammar.
Prerequisites: jr st & Linguis 464(P).
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

LINGUIS 565 Introduction to Adult/University Level TESOL
3 cr. Undergraduate/Graduate.
Overview of the various approaches to teaching English as a second language (ESL) to adult/university-level learners.
Prerequisites: jr st; satisfaction of English Composition competency req.
Course Rules: Jointly-offered w/ & counts as repeat of English 565. Does not satisfy requirements in School of Educ.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)

LINGUIS 566 Advanced Semantics
3 cr. Undergraduate/Graduate.
Readings, discussion, and analysis of current issues in formal semantics for natural language.
Prerequisites: jr st; Linguis 466(P) or equiv; or grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: [http://uwm.edu/schedule](http://uwm.edu/schedule)
LINGUIS 567 Materials for ESL Instruction
3 cr. Undergraduate/Graduate.
Designed for prospective ESL/EFL teachers. Focus on planning and designing courses to meet the needs of specific populations of language learners.
Prerequisites: Jr st; satisfaction of GER English Composition competency req; cons instr.
Course Rules: English 567 & Linguis 567 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

LINGUIS 569 Practicum in Adult/University TESOL
3 cr. Undergraduate/Graduate.
A structured, supervised practicum in language teaching to students in the adult/university TESOL certificate program.
Prerequisites: Jr st; satisfaction of GER English Composition competency req; cons instr.
Course Rules: English 569 & Linguis 569 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

LINGUIS 570 Issues in Bilingualism
3 cr. Undergraduate/Graduate.
Study of bilingual competence, bilingual community, and second language acquisition from sociolinguistic, psycholinguistic, and general linguistic standpoints.
Prerequisites: Jr st.
Course Rules: Anthro 570 & Linguis 570 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

LINGUIS 590 Morphology
3 cr. Undergraduate/Graduate.
Introduction to morphology, which is the study of word formation in human language.
Prerequisites: Jr st & Linguis 350(P); or grad st & cons instr.
Course Rules: Counts as repeat of Linguis 763.
Current Offerings: http://uwm.edu/schedule

LINGUIS 699 Independent Reading
1-3 cr. Undergraduate.
Advanced independent work under the supervision of a Linguis faculty or instructional academic staff member. Students must submit a study proposal. For more information, consult dept chair.
Prerequisites: Jr st; 2.5 GPA; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken w/chg in topic to 12 cr max.
Current Offerings: http://uwm.edu/schedule

LINGUIS 708 Proseminar in Linguistics
3 cr. Graduate.
Presents a range of linguistic constructs, demonstrating through readings, problems, and exercises how these concepts can be used in the analysis of language.
Prerequisites: Grad st.
Course Rules: Linguis 708(701) & MALLT 708 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

LINGUIS 748 Oral Language, Cognition, and Literacy
3 cr. Graduate.
Psychological and linguistic bases of speaking, reading, and writing in children and adults from diverse populations. The importance of language and cognition for literacy development.
Prerequisites: Grad st; college-level course in language acquisition or reading or child development or linguistics or cons instr.
Course Rules: Ed Psych 748 & Linguis 748 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2011.
Current Offerings: http://uwm.edu/schedule

LINGUIS 750 General Phonetics and Phonetics Practicum
3 cr. Graduate.
Introduction to phonetics, the basics of speech production and speech acoustics.
Prerequisites: Grad st.
Course Rules: Not open for cr to students w/grad cr in LINGUIS 450.
Current Offerings: http://uwm.edu/schedule

LINGUIS 760 Research Methods in Linguistics and ESL
3 cr. Graduate.
Introduction to basic research methodology in linguistics and ESL.
Prerequisites: Grad st; cons instr.
Course Rules: English 760 & Linguis 760 are jointly offered; they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

LINGUIS 761 Introduction to Phonology
3 cr. Graduate.
Introduction to the basic properties of sounds, sound patterns, and sound processes of spoken language.
Prerequisites: Grad st; Linguis 350(P) or equiv.
Course Rules: Counts as repeat of LINGUIS 460.
Current Offerings: http://uwm.edu/schedule

LINGUIS 763 Morphology
3 cr. Graduate.
A graduate-level introduction to morphological theory.
Prerequisites: Grad st; Linguis 460(P) & 464(P) or equiv.
Last Taught: Fall 2005.
Current Offerings: http://uwm.edu/schedule

LINGUIS 764 Introduction to Syntax
3 cr. Graduate.
Investigation of the syntax or sentence structure properties of human language.
Prerequisites: Grad st.
Course Rules: Not open for cr to students w/grad cr in LINGUIS 464.
Current Offerings: http://uwm.edu/schedule
LINGUIS 765 Pragmatics
3 cr. Graduate.
Investigation of selected topics in the relationship between linguistic expressions and those who use them.
Prerequisites: grad st; Linguistics 466(P) or cons instr.
Current Offerings: http://uwm.edu/schedule

LINGUIS 766 Theory of Second Language Acquisition
3 cr. Graduate.
Introduction to theories of second language acquisition.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

LINGUIS 767 Methodologies and Approaches in Adult/University TESOL
3 cr. Graduate.
Designed for prospective ESL/EFL teachers. Graduate level introduction to the field of adult TESOL.
Prerequisites: grad st.
Current Offerings: http://uwm.edu/schedule

LINGUIS 769 Topics in Linguistics:
3 cr. Graduate.
Advanced-level study of a topic relevant to linguistics; may be contemporary or historical.
Prerequisites: grad st; cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max. English 769 & Linguistics 769 are jointly offered; w/same topic, they count as repeats of one another w/same topic.
Current Offerings: http://uwm.edu/schedule

LINGUIS 789 Practicum in Teaching ESL to Adult Learners
1-6 cr. Graduate.
Field experience in teaching English as a second language to adult learners.
Prerequisites: grad st; English/Linguistics 567(P) or Linguistics 767(P); cons instr.
Course Rules: Open only to grad students in Linguistics specializing in ESL. Retakable to max 6 cr. English 789 & Linguistics 789 are jointly offered; w/same topic, they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

LINGUIS 798 Internship in Linguistics
1-3 cr. Graduate.
Application of advanced principles of linguistics in an internship experience in a business, organizational, educational, political, governmental or other appropriate setting.
Prerequisites: grad st.
Course Rules: One cr earned for academic work based on minimum 40 hrs. in internship. Paper or project req’d.
Last Taught: Summer 2015.
Current Offerings: http://uwm.edu/schedule

LINGUIS 799 Independent Reading and Research for Master's Students
1-3 cr. Graduate.
Independent reading and/or research under the supervision of a Linguistics faculty member on a linguistics topic relating to the student’s area of interest.
Prerequisites: grad st; cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2017, Spring 2016, Fall 2015, Spring 2015.
Current Offerings: http://uwm.edu/schedule

LINGUIS 801 Seminar in Syntax and Semantics:
3 cr. Graduate.
Advanced topics in the theory of syntax, including but not limited to, syntactic description, variation, and typology.
Prerequisites: grad st
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2017, Fall 2016, Fall 2015, Spring 2013.
Current Offerings: http://uwm.edu/schedule

LINGUIS 802 Seminar in Phonology and Phonetics:
3 cr. Graduate.
Advanced topics in phonological theory, including, but not limited to, phonological description, variation, and typology.
Prerequisites: grad st
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2017, Fall 2015, Spring 2015, Spring 2014.
Current Offerings: http://uwm.edu/schedule

LINGUIS 803 Seminar in Language Acquisition:
3 cr. Graduate.
Theory of adult language acquisition, including, but not limited to, interpretation of learner errors, description of acquisition strategies, and analysis of learning sequences.
Prerequisites: grad st
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2015, Spring 2013.
Current Offerings: http://uwm.edu/schedule

LINGUIS 804 Seminar in Language Variation:
3 cr. Graduate.
Advanced topics in social dialects, including, but not limited to, language variation, social markers, and the concept of a standard language.
Prerequisites: grad st
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2013.
Current Offerings: http://uwm.edu/schedule

LINGUIS 805 Seminar in English Language:
3 cr. Graduate.
Advanced-level seminar addressing specific topics in English language, both contemporary and historical.
Prerequisites: grad st; English/Linguistics 400(P).
Course Rules: Retakable w/chg in topic to 9 cr max. English 805 & Linguistics 805 are jointly offered; w/same topic, they count as repeats of one another.
Current Offerings: http://uwm.edu/schedule

LINGUIS 806 Seminar in Linguistics:
3 cr. Graduate.
Advanced-level seminar in which students do in-depth research on a particular area of linguistics through readings, class discussion, and writing a research paper.
Prerequisites: grad st; cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max. English 806 & Linguistics 806 are jointly offered; w/same topic, they count as repeats of one another.
Last Taught: Fall 2014, Fall 2013, Spring 2012, Spring 2011.
Current Offerings: http://uwm.edu/schedule
LINGUIS 888 Candidate for Degree
0 cr. Graduate.
Available for students who must meet minimum credit requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Last Taught: Spring 2016, Fall 2015, Spring 2013, Fall 2012.
Current Offerings: http://uwm.edu/schedule

LINGUIS 999 Independent Reading for Doctoral Students
1-3 cr. Graduate.
Individual work directed by a member of the graduate faculty; for doctoral students unable to secure needed content in regular courses.
Prerequisites: grad st; cons instr
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

LINGUIS 990 Research in Linguistics
1-3 cr. Graduate.
Research and writing of the doctoral dissertation under the supervision of the major professor.
Prerequisites: grad st
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

Adult/University Level Teaching English to Speakers of Other Languages, Graduate Certificate

UWM’s TESOL certificate prepares students for a career teaching English to non-English speaking adults. TESOL is an internationally-recognized acronym that denotes the holder of the certificate has received specialized training in the methodologies of teaching English, second language acquisition, bilingualism, and multicultural awareness.

The use of English as a common language of communication has risen dramatically in the last few decades, and the demand for TESOL trained instructors is high in certain parts of the world. Asia, Central America, and South America are three particular hot spots where people have a strong desire learn English or improve their English language skills.

Students who love to travel often make a career out of traveling the globe, picking up jobs in various nations. Others stay closer to home and find similar positions in the U.S. teaching English to immigrants, visitors, foreign students, or others who have not learned English as their first language. TESOL is a dynamic profession that combines innovation and creativity with interactions in culturally-diverse communities.

The Adult/University-Level TESOL (Teaching English to Speakers of Other Languages) Graduate Certificate Program is designed to meet the needs of graduate non-degree students or graduate students concurrently enrolled in a UWM master’s or Ph.D. program. Requirements for this program are very similar to those for the undergraduate-level “Adult/University-Level TESOL Certificate Program” but is more rigorous and can
be applied (concurrently or subsequently) to the Master of Arts program in Linguistics.

**Application Deadlines**
If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

**Eligibility and Admission**
Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted into a certificate program.

**Application**
- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (https://graduateschool-apply.uwm.edu).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted into a certificate program.
- Submit the following materials to the TESOL Certificate Program Coordinator in the Department of Linguistics:
  - Adult/University-Level TESOL Graduate Certificate Program application form (available from the Linguistics Department office).
  - Transcripts of all college-level academic work, with evidence of a GPA of 2.75 or better.
  - A statement of purpose.
  - Two letters of recommendation from persons knowledgeable about the applicant's recent academic and/or work experience.
  - Applicants who are not native speakers of English should also submit TOEFL scores of at least 550 (paper-based test) or 79 (internet-based test), or at least 6.5 on the IELTS exam, and 45 on the TSE, or an equivalent means of demonstrating proficiency.

**Credits and Courses**
Students are required to complete the six courses (18 credits) plus teaching internship (3 credits) outlined below.

**Total Credits** 19-24

**Transfer Credit**
No more than 6 credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program. Students who have completed any of the required courses for undergraduate credit must substitute other courses at the graduate level, selected in consultation with the certificate program coordinator to fulfill the credit requirements.

**Grade Point Average Requirement**
A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

**Articulation with Degree Programs**
1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
   - Degree programs must approve the courses from certificates that can double count toward the degree.
   - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in Ph.D. programs must still complete the minimum residency requirements)
   - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

**Time Limit**
Certificate program time limits shall be established as follows:
- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.
For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

Contact Information
Current Students contact Associate Professor Sandra Pucci, pucci@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

Adult/University Level Teaching English to Speakers of Other Languages, Undergraduate Certificate

UWM’s TESOL certificate prepares students for a career teaching English to non-English speaking adults. TESOL is an internationally-recognized acronym that denotes the holder of the certificate has received specialized training in the methodologies of teaching English, second language acquisition, bilingualism, and multicultural awareness.

The use of English as a common language of communication has risen dramatically in the last few decades, and the demand for TESOL trained instructors is high in certain parts of the world. Asia, Central America, and South America are three particular hot spots where people have a strong desire learn English or improve their English language skills.

Students who love to travel often make a career out of traveling the globe, picking up jobs in various nations. Others stay closer to home and find similar positions in the U.S. teaching English to immigrants, visitors, foreign students, or others who have not learned English as their first language. TESOL is a dynamic profession that combines innovation and creativity with interactions in culturally-diverse communities.

Eligibility
The Adult/University-Level TESOL Undergraduate Certificate Program is designed to meet the needs of students who wish to teach English as a Second Language (ESL) to adults or university-level students abroad. The program is open to undergraduates with at least junior standing, to post-baccalaureate special students, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. Non-degree students must meet regular University admission requirements. Graduate students or post-baccalaureate non-degree students should pursue instead the “Adult/University-Level TESOL Graduate Certificate.” Training in the graduate certificate program is more rigorous, and some credits earned can be transferred to the Linguistics Department MA program.

Undergraduate students concurrently completing a bachelor’s degree receive the certificate upon completion of their degree requirements; post-baccalaureate special students and non-degree students receive the certificate upon completion of the required coursework and internship.

Requirements
Admission
Students who wish to apply to the program should submit the following materials to the TESOL Certificate Program Coordinator in the Department of Linguistics:

1. Adult/University-Level TESOL Undergraduate Certificate Program application form (available from the TESOL Certificate Program Coordinator);
2. Transcripts of all college-level academic work, with evidence of a GPA of 2.500 or better;
3. A statement of purpose; and
4. Two letters of recommendation from persons knowledgeable about the applicant’s recent academic and/or work experience.

Applicants who are not native speakers of English also should submit scores of least 550 on the TOEFL exam and 45 on the TSE.

The teaching practicum is completed at one of the institutions affiliated with the certificate program. The site of the internship may be chosen by the student, but it must be approved by the certificate program staff. The student is expected to complete between 60 and 80 hours of supervised teaching over a period of a semester. Students who previously have taken any of the required courses while enrolled as non-degree undergraduate students or students in other undergraduate programs at UWM may transfer the credits earned into the certificate program, so long as the courses have been taken within the last five years. Students who have taken comparable undergraduate-level courses at other institutions may be allowed to transfer in up to 6 credits of coursework, upon approval of the certificate program coordinator.

There is a time limit of three years from initial enrollment for completion of the certificate.

Students are required to complete the six courses (18 credits) plus teaching internship (3 credits) outlined below. All credits must be completed with a GPA of 3.0 or better.

Linguistics, BA
Linguistics is the scientific study of language. Students of linguistics do not necessarily seek fluency in a second or third language. Instead, they study the components that make up any given language - the syntax, the grammar, the regional differences, the slang, the pronunciations, the symbols, the changes over time, how people learn a language, and more.

At UWM, Linguistics students can opt for a broad linguistics major which will touch on all aspects of language development and learning. Or, students can choose an applied linguistics major which will focus more on using the principles of linguistics in a business setting such as in the classroom to help students learn a second language, in a social service agency that deals with illiteracy, or at a software company working on search engine optimization terms.

Many students find that acquiring advanced fluency in a second or third language beyond their native tongue is helpful for understanding the commonalities and differences between languages. However, no additional foreign language is required beyond the standard requirement for Letters & Science students - four years in high school of the same language or four semesters in college of the same language.

Requirements
Course of Study – Bachelor of Arts Degree
Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

University General Education Requirements (GER)

| Select 6 credits                               |
|         | Natural Sciences                            |
| Select 6 credits (at least two courses including one lab) | 6 |
|         | UWM Foreign Language Requirement            |
| Complete Foreign Language Requirement through: |
| Two years (high school) of a single foreign language |
| Two semesters (college) of a single foreign language |
| Or equivalent                                    |

| UWM Cultural Diversity Requirement | One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement |

College of Letters & Science Requirements
I. English Writing Requirement
Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning
To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 103</td>
<td>Contemporary Applications of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 105</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
</tbody>
</table>
III. Foreign Language Requirement
Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>

<td></td>
</tr>
<tr>
<td>SOCIOL 261</td>
<td>Introduction to Statistical Thinking in Sociology</td>
<td></td>
</tr>
</tbody>
</table>

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

IV. International Requirement
See Approved Courses for the L&S International Requirement (p. 1169) for course options.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Completed in one of the following ways: <strong>1</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above</td>
<td>9</td>
<td></td>
</tr>
<tr>
<td>Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Complete 9 credits in combination of the two options above.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

V. Breadth Requirement
Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

<td>Complete 12 credits of L&amp;S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *</td>
<td>12</td>
</tr>
<tr>
<td>Cultural Diversity</td>
<td>Complete 3 credits in a course with Cultural Diversity (CD) designation. <strong>2</strong></td>
<td>3</td>
</tr>
</tbody>
</table>

* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

VI. The Major
The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.
Research Requirement
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Linguistics Major Requirements

The undergraduate major in linguistics may be obtained by pursuing either the general major option or the applied major option. Students must complete at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM. The College of Letters and Science requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work. The College also requires students to complete a research experience in their major. Students will complete this requirement in the context of the following courses:

<table>

Letters & Science Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus' general education requirements and the College's degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising/) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Honors in the College of Letters and Science

Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Contact Information

Current Students contact Assistant Professor Anne Pycha, pycha@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

Linguistics, MA

Related Certificates

- Adult/University-Level TESOL Graduate Certificate (http://uwm.edu/graduateschool/adult-university-level-tesol-certificate)

Overview

The Department of Linguistics offers master’s and doctoral degrees and a graduate certificate in Adult/University-Level Teaching English to Speakers of Other Languages (TESOL).

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar's Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.
Admission
An applicant must meet Graduate School requirements (http://uwm.edu/graduateschool/admission) plus these departmental requirements to be considered for admission to the program:

1. Undergraduate major in linguistics or related field (e.g., languages, psychology, anthropology, philosophy).
2. Undergraduate grade point average of 3.0 (4.0 scale).
3. Three letters of recommendation to the Department’s Director of Graduate Studies from persons familiar with applicant’s academic ability and achievement.
4. A sample of academic writing.
5. Though not required, submission of scores on the Graduate Record Examination (http://uwm.edu/graduateschool/admission/#gre) may enhance the application.

Applicants may be admitted with course deficiencies provided that the deficiencies amount to no more than two courses.

The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree. Applicants should contact the Linguistics Department office for additional information and deadlines.

Major Professor as Advisor
The student must have a Major Professor to advise and supervise the student’s work as specified in Graduate School regulations. The director of graduate studies serves as an initial advisor. It is recommended that the student have a permanent advisor by the end of the second semester of enrollment.

Credits and Courses
Students admitted to the master’s program earn the degree by completing a minimum of 30 credits of graduate coursework, submitting a final project, and passing an oral examination on the final project. Students demonstrate a capacity for doctoral work and wish to earn a PhD at UWM are advised to proceed as rapidly as possible to doctoral status. No more than 30 credits earned at the master’s level may be included in the 54 credits required for the PhD.

The MA in Linguistics requires 30 graduate credits, including:

<table>

<td></td>
</tr>
</tbody>
</table>

Select 12 elective credits distributed among 400- to 800-level courses in linguistics and related fields as approved by the student’s major professor.

Total Credits 30

Students who completed any of the required courses as undergraduates will substitute another course selected in consultation with their major professor.

Final Project
A research paper or other project appropriate to the student’s professional goals, to be defended in an individualized oral examination.

- Final project. The project is a research paper on a topic chosen in consultation with the student’s advisor; for students specializing in Teaching ESL to Adult Learners, the project may take some other form as approved by the major professor.
- Oral examination. The oral examination, usually lasting an hour and a half, focuses on the final project but also covers other elements of the student’s program of study.

Regulations concerning final projects and oral examinations
1. Students should consult with their advisors before completing 24 credits in order to determine a final project. Ordinarily, this is a revised and expanded course or seminar paper of at least 30 pages. The project should demonstrate the student’s skills in research, analysis and argumentation. For students specializing in Teaching ESL to Adult Learners, the project may consist of documentation of the outcome of a pedagogical investigation undertaken during the student’s internship. The project serves both as a concluding effort at the master’s level and as an indication of the student’s potential for doctoral study.
2. In consultation with the student, the Director of Graduate Studies appoints an MA Examining Committee. At least two of the three members must be Linguistics Department faculty members. The MA Examining Committee administers the final Oral Examination.
3. The project must be submitted and the oral examination completed within one year after the completion of 24 credits. Students should remember that a maximum of 30 credits at the master’s level is applicable to the PhD 54 credit requirement.
4. Students who express intent to go on for the PhD are evaluated by the MA Examining Committee regarding their qualifications for further graduate study at the doctoral level. The Committee Chair puts the Committee’s recommendation in writing and places it in the student’s academic file.
5. Students who fail the oral examination may be required to revise their final project, retake the examination, or both. The oral examination may be retaken only once. Students must register for 1-3 credits when revising the final project after a failed examination; however, the additional credit(s) may not count toward the 30 credits required for the degree.

Time Limit
The student must complete all degree requirements within five years of initial enrollment.
Linguistics, MA: Teaching English to Speakers of Other Languages

Major Professor as Advisor
The student must have a Major Professor to advise and supervise the student's work as specified in Graduate School regulations. The director of graduate studies serves as an initial advisor. It is recommended that the student have a permanent advisor by the end of the second semester of enrollment.

Credits and Courses
Students admitted to the master's program earn the degree by completing a minimum of 30 credits of graduate coursework, submitting a final project, and passing an oral examination on the final project. Students who demonstrate a capacity for doctoral work and wish to earn a PhD at UWM are advised to proceed as rapidly as possible to doctoral study. No more than 30 credits earned at the master's level may be included in the 54 credits required for the PhD.

The MA in Linguistics requires 30 graduate credits, including:

### Core Areas of Linguistics

### Electives
Select 12 elective credits distributed among 400- to 800-level courses in linguistics and related fields as approved by the student's major professor.

| Total Credits | 30 |

Students who completed any of the required courses as undergraduates will substitute another course selected in consultation with their major professor.

Final Project
A research paper or other project appropriate to the student's professional goals, to be defended in an individualized oral examination.

- Final project. The project is a research paper on a topic chosen in consultation with the student's advisor; for students specializing in Teaching ESL to Adult Learners, the project may take some other form as approved by the major professor.
- Oral examination. The oral examination, usually lasting an hour and a half, focuses on the final project but also covers other elements of the student's program of study.

Regulations concerning final projects and oral examinations

1. Students should consult with their advisors before completing 24 credits in order to determine a final project. Ordinarily, this is a revised and expanded course or seminar paper of at least 30 pages. The project should demonstrate the student's skills in research, analysis and argumentation. For students specializing in Teaching ESL to Adult Learners, the project may consist of documentation of the outcome of a pedagogical investigation undertaken during the student's internship. The project serves both as a concluding effort at the master's level and as an indication of the student's potential for doctoral study.
2. In consultation with the student, the Director of Graduate Studies appoints an MA Examining Committee. At least two of the three members must be Linguistics Department faculty members. The MA Examining Committee administers the final Oral Examination.
3. The project must be submitted and the oral examination completed within one year after the completion of 24 credits. Students should remember that a maximum of 30 credits at the master's level is applicable to the PhD 54 credit requirement.
4. Students who express intent to go on for the PhD are evaluated by the MA Examining Committee regarding their qualifications for further graduate study at the doctoral level. The Committee Chair puts the Committee's recommendation in writing and places it in the student's academic file.
5. Students who fail the oral examination may be required to revise their final project, retake the examination, or both. The oral examination may be retaken only once. Students must register for 1-3 credits when revising the final project after a failed examination; however, the additional credit(s) may not count toward the 30 credits required for the degree.

**Time Limit**
The student must complete all degree requirements within five years of initial enrollment.

**TESOL Concentration Requirements**
Students may elect to complete a concentration in Teaching English to Speakers of Other Languages as part of their MA studies. The TESOL concentration requires that students complete the Linguistics, MA courses, and the TESOL Concentration courses as part of their electives:

<table>

</tbody>
</table>

**400- to 800-Level Electives**
Select 12 elective credits distributed among 400- to 800-level courses in linguistics and related fields as approved by the student's major professor.

**TESOL Concentration**
- LINGUIS/MALLT 708 Proseminar in Linguistics 3
- LINGUIS 410 Literacy, Grammar, and Methodologies in ESL Education 3
- ENGLISH/LINGUIS 565 Introduction to Adult/University Level TESOL 3
- ENGLISH/LINGUIS 569 Practicum in Adult/University TESOL 3
- LINGUIS 799 Independent Reading and Research for Master's Students (TESOL-related paper/project) 1-3

Total Credits 43-45

The TESOL concentration will be noted on the student's transcript.

**Linguistics, Minor**
Linguistics is the scientific study of language. Students of linguistics do not necessarily seek fluency in a second or third language. Instead, they study the components that make up any given language - the syntax, the grammar, the regional differences, the slang, the pronunciations, the symbols, the changes over time, how people learn a language, and more.

At UWM, Linguistics students can opt for a broad linguistics minor which will touch on all aspects of language development and learning. Or, students can choose an applied linguistics minor which will focus more on using the principles of linguistics in a business setting such as in the classroom to help students learn a second language, in a social service agency that deals with illiteracy, or at a software company working on search engine optimization terms.

Many students find that acquiring advanced fluency in a second or third language beyond their native tongue is helpful for understanding the commonalities and differences between languages. However, no additional foreign language is required beyond the standard requirement for Letters & Science majors: four years in high school of the same language or four semesters in college of the same language.

**Requirements**
Students must complete at least 9 upper-division (numbered 300 and above) credits in the minor in residence at UWM. The College requires that students attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including transfer work.

**General Linguistics Minor Option**

Select one of the following:

- LINGUIS 415 First Language Acquisition 3
- LINGUIS 460 Introduction to Phonology 3
- LINGUIS 464 Introduction to Syntax 3
- LINGUIS 468 Language in its Various Forms: 3

| Electives             |                                            |         |
| Select 9 credits 1    |                                            | 9       |
| Total Credits         |                                            | 15      |

1 Coursework in linguistics and related areas, selected from the approved electives list (see above) in consultation with an advisor in the Linguistics program. Students are encouraged to focus their electives in an area closely aligned with the study of linguistics, including various foreign languages, English, anthropology, philosophy, computer science, and education, among others.

**Applied Linguistics Minor Option**

- LINGUIS 464 Introduction to Syntax 3
- LINGUIS 468 Language in its Various Forms: 3

| Electives             |                                            |         |
| Select 9 credits 1    |                                            | 9       |
| Total Credits         |                                            | 15      |
In addition, students whose native language is not English must submit scores on the Test of English as a Foreign Language (TOEFL), or the equivalent. A score of at least 587 (TOEFL) is normally necessary for admission. The minimum score for the computer based TOEFL is 240, or 95 for the internet-based test (iBT).

Submission of Graduate Record Examination (GRE) results (http://uwm.edu/graduateschool/admission/#gre), though not required, is encouraged.

**Major Professor as Advisor**

The student must have a major professor to advise and supervise the student's work as specified in Graduate School regulations. The Director of Graduate Studies serves as an initial advisor.

**Credits and Courses**

The PhD program requires a minimum of 54 credits beyond the BA. The 54 credits are distributed as follows:

<table>

</table>

**General Restrictions**

Doctoral students may not count more than 9 credits in independent study toward the degree without the approval of the Director of Graduate Studies. No more than 18 credits may be counted in courses taken outside the Department of Linguistics.

**Advising**

Students are required to consult periodically with their Major Professor. The Major Professor helps the student to define an area of special interest within the concentration for the preliminary examination. The Major Professor also assists the student in the selection of appropriate coursework and may chair the Preliminary Examination Committee.
Foreign Language Requirement
All PhD candidates are required to demonstrate proficiency (reading knowledge) in a language other than English. The choice of language, and the means of demonstrating proficiency, must be approved by the student’s Major Professor in consultation with the Director of Graduate Study.

Residence
The student must meet minimum Graduate School residence requirements.

Doctoral Preliminary Examination
The doctoral preliminary examination consists of an oral defense of a major research paper submitted by the student typically after completing 39 to 45 credits toward the PhD degree. Though the scope of the examination, which usually lasts two hours, is open-ended, its focus is on the submitted research paper, which itself is intended to demonstrate the breadth and depth of a student's knowledge and the ability to conduct advanced research in one or more areas of study. The successfully-defended research paper should lead naturally to timely preparation of the dissertation proposal.

Students cannot take the preliminary examination if they have any incomplete or unreported grades or a GPA less than 3.0. The exam must be finished within one semester after all coursework is completed, excluding summer sessions. Students may receive from the Director of Graduate Studies a one semester extension for additional coursework. Students who do not complete the exam within this time frame will be considered to have failed the exam. The exam may be retaken only once, after making appropriate revisions to the research paper. Students who fail the preliminary examination may not proceed to the dissertation. The exam must be passed within five years of initial enrollment in the doctoral program.

Dissertation
The dissertation topic, together with a comprehensive prospectus, must be approved by the student's doctoral committee in a dissertation proposal hearing that should be held not later than the semester immediately following the preliminary examination. The dissertation proposal is typically, albeit not necessarily, a refinement and extension of the research paper defended in the oral preliminary examination. Though no specific length requirements are imposed on the dissertation itself, the Department considers 200 pages to be reasonable and representative.

Dissertation Defense
The completed dissertation is subject to an oral defense, to be arranged by the Major Professor in coordination with the Director of Graduate Study according to Graduate School regulations. A copy of the dissertation is kept in the Department office.

Time Limit
All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.
MATHEMATICAL SCIENCES

The Department of Mathematical Sciences at the University of Wisconsin-Milwaukee is home to an active community of teachers, scholars, undergraduates, and graduate students. In addition to most traditional areas of Pure and Applied Mathematics, the department contains all UWM programs in Actuarial Science and Atmospheric Science.

The department offers Bachelor's, Master's, and Doctoral studies in all of these areas, in addition to several interdisciplinary programs. Established in 1963, the PhD in Mathematics is the original doctoral program at UWM, founded by Dr. Morris Marden (http://uwm.edu/math/graduate/resources/history-of-our-graduate-program/morris-mardens-biography).

Mathematics is the principal language of modern science and technology. In such diverse areas as physics, engineering, economics, computer science, and biology, much of the subject matter is presented in mathematical terms. In addition, mathematical techniques are now being used in many areas which formerly were non-mathematical; for example, history, political science, psychology, and medicine.

Some students are drawn to mathematics because of the beauty they find in its structure and logic, others because it allows a deeper understanding of an allied area of study.

Actuarial science is the mathematical analysis of problems in economics, finance, and insurance. It requires knowledge of statistics, probability, and interest theory and how they relate to financial issues.

Atmospheric science is the study of short-term weather and long-term climate, involving both applied activities such as weather forecasting and analysis and fundamental research. It uses advanced methods in statistics and numerical modeling.

Students of the sciences, engineering, computer science, economics, and business often complete a significant number of mathematical sciences credits. These students are encouraged to take a mathematics major or minor, which adds an official recognition of important analytical skills valued by employers and graduate schools.

Students interested in teaching mathematics at the K-12 level should consult the School of Education section of this catalog.

Please also visit the departmental web page at http://uwm.edu/math/ and follow the links to the undergraduate program.

There are three curricular areas in the Department of Mathematical Sciences:

- Atmospheric Science (ATM SCI)
- Mathematics (MATH)
- Mathematical Statistics (MTHSTAT)

Undergraduate Studies - We offer three minors and five undergraduate degrees:

- Bachelor of Science Degrees: Mathematics; Atmospheric Science; Applied Mathematics and Computer Science (AMCS)
- Bachelor of Arts Degrees: Mathematics; Actuarial Science
- Minors: Mathematics; Actuarial Science; Atmospheric Science

Graduate Studies in Mathematical Sciences

The Department has a vibrant graduate program leading to both the Master of Science and Doctor of Philosophy degrees. In addition to the traditional areas within Mathematics and Statistics, our Department is home to U-WiMilwaukee’s academic programs in both Actuarial Science and Atmospheric Sciences. The department also offers a newly established dual degree in mathematics with Fachhochschule Aachen (Aachen University of Applied Sciences) in Germany. Students may prepare for careers in teaching at the secondary or college level and for careers in research in the academic, industrial, government, or business communities.

See below for detailed program information and requirements.

- Actuarial Science, BA (p. 1605)
- Actuarial Science, Minor (p. 1608)
- Applied Math and Computer Science, BS (College of Letters and Science, Department of Mathematics) (p. 1609)
- Atmospheric Science, BS (p. 1611)
- Atmospheric Science, Minor (p. 1615)
- Atmospheric Science, MS (p. 1615)
- Atmospheric Science, PhD (p. 1616)
- Mathematics, BA (p. 1618)
- Mathematics, BS (p. 1622)
- Mathematics, Minor (p. 1626)

- Mathematics, MS: Actuarial Science (p. 1628)
- Mathematics, MS: Foundations of Advanced Studies (p. 1629)
- Mathematics, MS: Industrial Mathematics (p. 1630)
- Mathematics, MS: Statistics (p. 1632)
- Mathematics, PhD (p. 1634)

Atmospheric Sciences Courses

ATM SCI 100 Survey of Meteorology
3 cr. Undergraduate.
Concepts and principles of meteorology; cyclones, fronts, thunderstorms, tornadoes, air pollution, and climate. Interpretation of weather maps, charts, and forecasts. 2 hrs lec; 2 hrs lab-dis.
Prerequisites: none.
Course Rules: Counts as repeat of 3 cr Atm Sci 100 taken for 4 cr.
General Education Requirements: NS+
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ATM SCI 106 Principles and Forecasting of the Weather
3 cr. Undergraduate.
What makes the weather, general circulation of the atmosphere, analysis of meteorological data and their use in predicting the weather.
Prerequisites: none.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule
ATM SCI 108 Rain and Snow
3 cr. Undergraduate.
Study of precipitation properties and processes in the atmosphere. Structure of precipitating systems ranging from small to large scale. Prerequisites: none.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

ATM SCI 109 Thunderstorms, Tornadoes and Hurricanes
3 cr. Undergraduate.
The study of basic processes that lead to dry and moist convection. Characteristic atmospheric structure and cloud microphysical processes that produce thunderstorms, tornadoes and hurricanes. Prerequisites: none.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

ATM SCI 110 The Origin, Composition, and Structure of the Planetary Atmospheres
3 cr. Undergraduate.
Origin of the solar system, its planets, and planetary atmospheres. Prerequisites: none.
General Education Requirements: NS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

ATM SCI 194 First-Year Seminar
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered. Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: NS
Last Taught: Fall 2016, Fall 2014, Fall 2012, Fall 2008.
Current Offerings: http://uwm.edu/schedule

ATM SCI 199 Independent Study
1-3 cr. Undergraduate.
For further information, consult dept chair. Prerequisites: 2.5 gpa; writ cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken to 6 cr max.
Last Taught: Fall 2013, Spring 2013, Spring 2006, Fall 2005.
Current Offerings: http://uwm.edu/schedule

ATM SCI 240 Introduction to Meteorology
3 cr. Undergraduate.
Quantitative approach to understanding fundamental concepts in meteorology. Radiation, heat balance of the atmosphere, thermodynamics, horizontal motion, general circulation, atmospheric observations, clouds, weather map analysis. Prerequisites: Physics 209(P) & 214(P); Math 232(C).
Course Rules: Not open for cr to students with Atm Sci 201.
Current Offerings: http://uwm.edu/schedule

ATM SCI 241 Advanced Introduction to Meteorology
1-3 cr. Undergraduate.
Hydrometeorology; radiation, energy balance; meteorological processes; climate; and atmospheric observations. Prerequisites: Physics 209(P); Math 232(C).
Course Rules: Not open for cr to students with Atm Sci 201.
Current Offerings: http://uwm.edu/schedule

ATM SCI 249 Internship in Atmospheric Sciences, Lower Division
1-6 cr. Undergraduate.
Application of basic knowledge of Atmospheric Sciences in business, organizational, educational, political or other appropriate setting. Prerequisites: soph st.; 2.50 gpa; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hrs in internship. May be retaken to 6 cr max.
Last Taught: Spring 2015, Fall 2013, Fall 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

ATM SCI 297 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l sem. Prerequisites: none; add’l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2013, Fall 1994, Fall 1992, Fall 1990.
Current Offerings: http://uwm.edu/schedule

ATM SCI 299 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared course work. Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

ATM SCI 300 Air-Pollution Meteorology
3 cr. Undergraduate/Graduate.
Pollutant sources and sinks, fundamental pollutant chemistry, monitoring techniques, averaging boundary layers and turbulence, diffusion theories, diffusion models, regional and global-scale pollution problems. Prerequisites: Atm Sci 201(P); Chem 102(P); stats course recom.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2017, Fall 2015, Fall 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

ATM SCI 301 Dynamic Meteorology I
3 cr. Undergraduate/Graduate.
The role of dynamics in atmospheric physics; equations of motion; symmetric circulation models; gravity waves; Rossby waves, quasi-geostrophy; introduction to instability of atmospheric flows. Prerequisites: jr st; Atm Sci 240(P); Math 233(P).
Last Taught: Fall 2016, Fall 2014, Fall 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule

ATM SCI 302 Dynamic Meteorology II
3 cr. Undergraduate/Graduate.
The role of dynamics in atmospheric physics; equations of motion; symmetric circulation models; gravity waves; Rossby waves, quasi-geostrophy; introduction to instability of atmospheric flows. Prerequisites: jr st; Atm Sci 240(P); Math 233(P).
Last Taught: Fall 2016, Fall 2014, Fall 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule

ATM SCI 303 Advanced Dynamics
3 cr. Undergraduate/Graduate.
Momentum equations of motion; hydrostatic approximation; dynamics of gravity waves; geostrophic wind; Rossby waves; quasigeostrophic approximation; atmospheric stability and instability. Prerequisites: jr st; Atm Sci 240(P); Math 232(C).
Course Rules: One cr earned for academic work based on 40 hrs in internship. May be retaken to 6 cr max.
Last Taught: Fall 2015, Fall 2013, Fall 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

ATM SCI 304 Advanced Dynamics
3 cr. Undergraduate/Graduate.
Momentum equations of motion; hydrostatic approximation; dynamics of gravity waves; geostrophic wind; Rossby waves; quasigeostrophic approximation; atmospheric stability and instability. Prerequisites: jr st; Atm Sci 240(P); Math 232(C).
Course Rules: Not open for cr to students with Atm Sci 201.
Last Taught: Fall 2015, Fall 2013, Fall 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule

ATM SCI 320 Advanced Meteorology
3 cr. Undergraduate.
Use of fundamental laws to analyze and solve meteorological problems; radiation, energy balance; clouds and their physical and energy relations. Prerequisites: Physics 209(P); Math 232(C).
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2015, Fall 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

ATM SCI 330 Air-Pollution Meteorology
3 cr. Undergraduate/Graduate.
Pollutant sources and sinks, fundamental pollutant chemistry, monitoring techniques, averaging boundary layers and turbulence, diffusion theories, diffusion models, regional and global-scale pollution problems. Prerequisites: Atm Sci 240(P); Chem 102(P); stats course recom.
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2017, Fall 2015, Fall 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

ATM SCI 340 Atmospheric Thermodynamics
3 cr. Undergraduate/Graduate.
Thermodynamics of the atmosphere; radiation, energy balance; clouds and their physical and energy relations. Prerequisites: Jr st; Math 232(P); Physics 209(P).
Course Rules: May be retaken w/chg in topic.
Last Taught: Fall 2015, Fall 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

ATM SCI 345 Advanced Meteorology
3 cr. Undergraduate.
Momentum equations of motion; hydrostatic approximation; dynamics of gravity waves; geostrophic wind; Rossby waves; quasigeostrophic approximation; atmospheric stability and instability. Prerequisites: jr st; Atm Sci 240(P); Math 233(P).
Last Taught: Fall 2016, Fall 2014, Fall 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule

ATM SCI 350 Atmospheric Thermodynamics
3 cr. Undergraduate/Graduate.
Radiant energy, sensible heat, and atmospheric thermodynamics; the gas laws; hydrostatic and psychrometric equations; dry and moist convection; clouds and their physical and energy relations. Optional field exercise. Prerequisites: Jr st; Physics 210(P); Math 232(P); Atm Sci 240(P).
Last Taught: Fall 2017, Fall 2015, Fall 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

ATM SCI 351 Dynamic Meteorology I
3 cr. Undergraduate/Graduate.
The role of dynamics in atmospheric physics; equations of motion; symmetric circulation models; gravity waves; Rossby waves, quasi-geostrophy; introduction to instability of atmospheric flows. Prerequisites: Jr st; Atm Sci 240(P); Math 233(P).
Last Taught: Fall 2016, Fall 2014, Fall 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule
ATM SCI 352 Dynamic Meteorology II
3 cr. Undergraduate/Graduate.
Circulation, vorticity, potential vorticity, shallow water equations: Poincare, Kelvin, and Rossby waves, energy and enstrophy, quasi-geostrophy for a stratified atmosphere; barotropic and baroclinic instability.
Prerequisites: jr st; Atm Sci 351(P); Math 234(P).
Current Offerings: http://uwm.edu/schedule

ATM SCI 360 Synoptic Meteorology I
4 cr. Undergraduate/Graduate.
Fundamental principles; synoptic-scale structure and dynamics; equivalent barotropic model; vertical motions; introduction to and application of quasi-geostrophic theory.
Prerequisites: jr st; Atm Sci 360(P).
Last Taught: Fall 2016, Fall 2014, Fall 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule

ATM SCI 361 Synoptic Meteorology II
4 cr. Undergraduate/Graduate.
Extension of quasi-geostrophic theory to Q-vectors; isentropic potential vorticity applied to mid-latitude weather systems; fronts and jets.
Prerequisites: jr st; Atm Sci 360(P).
Current Offerings: http://uwm.edu/schedule

ATM SCI 381 Honors Seminar
3 cr. Undergraduate.
Selected topics.
Prerequisites: soph st; Honors 200(P); cons Honors College dir.
Course Rules: May be retaken w/chg in topic to 9 cr max.
General Education Requirements: NS
Last Taught: Spring 2018, Fall 2007, Fall 1990, Fall 1989.
Current Offerings: http://uwm.edu/schedule

ATM SCI 405 Atmospheric Science for in-Service Teachers:
1-3 cr. Undergraduate/Graduate.
Basic, advanced or new topics in atmospheric sciences for in-service teachers.
Prerequisites: in-service teacher; add'l prereqs depending on topic.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

ATM SCI 460 Mesoscale Circulations
3 cr. Undergraduate/Graduate.
Theory, analysis and forecasting of mesoscale flows, including convective systems, polar lows, terrain and surface-forced flows, jet streams and hurricanes.
Prerequisites: jr st; Atm Sci 360(R) or cons instr.
Last Taught: Spring 2017, Spring 2015, Fall 2012, Fall 2009.
Current Offerings: http://uwm.edu/schedule

ATM SCI 464 Physical Meteorology: Cloud Physics
3 cr. Undergraduate/Graduate.
Formation of cloud droplets, droplet growth by condensation, formation of ice crystals, precipitation processes, weather radars, cloud models.
Prerequisites: jr st; Physics 210(P); Math 232(P); Atm Sci 350(P).
Current Offerings: http://uwm.edu/schedule

ATM SCI 470 Tropical Meteorology
3 cr. Undergraduate/Graduate.
Prerequisites: Atm Sci 351(P) or 360(P).
Current Offerings: http://uwm.edu/schedule

ATM SCI 480 The General Circulation and Climate Dynamics
3 cr. Undergraduate/Graduate.
Historical overview, the zonally symmetric circulation, momentum, heat and water budgets, stationary waves, the El Nino Southern oscillation, global warming, interpentadal variability in the North Atlantic.
Prerequisites: jr st; Atm Sci 351(P).
Current Offerings: http://uwm.edu/schedule

ATM SCI 497 Study Abroad:
1-12 cr. Undergraduate/Graduate.
Designed to enroll students in UWM sponsored program before course work level, content, and credits are determined and/or in specially prepared course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

ATM SCI 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

ATM SCI 500 Statistical Methods in Atmospheric Sciences
3 cr. Undergraduate/Graduate.
Mathematical and statistical tools applicable to the investigation of atmospheric problems; the nature and treatment of atmospheric data.
Prerequisites: jr st; Atm Sci 240(P) or 350(P), & Math 232(P) or cons instr.
Last Taught: Fall 2017, Fall 2015, Fall 2013, Fall 2009.
Current Offerings: http://uwm.edu/schedule

ATM SCI 505 Micrometeorology
3 cr. Undergraduate/Graduate.
Surface energy budget; radiation balance and heat transfer; boundary-layer profiles of wind, temperature and moisture; turbulence and boundary-layer fluxes; evapotranspiration; special topics.
Prerequisites: jr st; Atm Sci 351(P) & 330(P).
Last Taught: Fall 2016, Fall 2014, Fall 2012, Spring 2010.
Current Offerings: http://uwm.edu/schedule

ATM SCI 511 Seminar in Atmospheric Radiation and Remote Sensing
3 cr. Undergraduate/Graduate.
Basic laws of radiation, absorption and scattering, weather radar, retrieval of soundings, remote sensing and climate, weather satellites.
Prerequisites: jr st; Math 232(P); Atm Sci 350(P) & Physics 210(P).
Current Offerings: http://uwm.edu/schedule
ATM SCI 520 Advanced Dynamic Meteorology
3 cr. Undergraduate/Graduate.
Properties of atmospheric sound, gravity, Rossby waves. Baroclinic instability, cyclogenesis, frontalogenesis, and the general circulation. Introduction to numerical prediction.
Prerequisites: jr st; Math 234(P), Atm Sci 350(P) & 351(P) or equiv.
Current Offerings: http://uwm.edu/schedule

ATM SCI 599 Capstone Experience
1 cr. Undergraduate.
Student writes a paper under supervision of an advisor on an approved topic not covered in the student's regular course work.
Prerequisites: sr st; cons instr.
Course Rules: May be retaken w/chg in topic to 2 cr max.
Current Offerings: http://uwm.edu/schedule

ATM SCI 690 Seminar in Atmospheric Sciences: Intensive topical studies of currently active problem areas.
Prerequisites: jr st; cons instr.
Course Rules: May be retaken w/chg in topic to 9 cr max. Satisfies L&S Seminar req.
Current Offerings: http://uwm.edu/schedule

ATM SCI 695 Internship in Atmospheric Sciences, Upper Division
1-6 cr. Undergraduate.
Application of advanced principles of atmospheric sciences in a business, organizational, educational, political or other appropriate setting.
Prerequisites: jr st; 300-level or above course in atm sci; 3.0 gpa in the major; cons supervising faculty.
Course Rules: One cr earned for 40 hrs work. May be retaken to 6 cr max.
Last Taught: Fall 2017, Spring 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

ATM SCI 699 Advanced Independent Reading
1-3 cr. Undergraduate.
Independent meteorological study.
Prerequisites: jr st, 2.5 gpa, & writ cons instr, dept chair, & asst dean for SAS.
Course Rules: May be retaken w/chg in topic to 3 cr max.
Current Offerings: http://uwm.edu/schedule

ATM SCI 705 Air Pollution Modeling
3 cr. Graduate.
Prerequisites: grad st; cons instr.
Last Taught: Fall 2016, Fall 2014, Fall 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule

ATM SCI 711 Cloud Dynamics
3 cr. Graduate.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

ATM SCI 725 Remote Sensing of the Environment
3 cr. Graduate.
Remote sensing technology, data processing, and analysis in meteorology, with application to oceanography and geology. Radar and acoustic sounding. Erts, sms/goes, thermal scanner, conventional weather satellites.
Prerequisites: grad st in Physics, Math, Geog, Geo Sci, Engr, or Atm Sci.
Current Offerings: http://uwm.edu/schedule

ATM SCI 750 Nonlinear Time Series Analysis
3 cr. Graduate.
Phase space reconstruction; singular spectrum analysis; prediction; dimension estimation; application of nonlinear time series analysis techniques to selected data sets.
Prerequisites: grad st; cons instr.
Current Offerings: http://uwm.edu/schedule

ATM SCI 760 Advanced Cloud, Aerosol & Precipitation Principles, Processes & Interactions
4 cr. Graduate.
(3 hr lc, 2 hr la). Theoretical & experimental look at cloud & precipitation formation, interaction & dissipation microphysics & chemistry aerosol physics & chemistry & their application.
Prerequisites: grad st; Atm Sci 464(C) or cons instr.
Current Offerings: http://uwm.edu/schedule

ATM SCI 761 Advanced Synoptic/Mesoscale Meteorology
3 cr. Graduate.
Advanced analysis techniques for synoptic/mesoscale diagnoses, case studies of relevant circulation systems; role of planetary, synoptic, and mesoscale flows in system development.
Prerequisites: grad st; cons instr.
Last Taught: Fall 2017, Fall 2015, Fall 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

ATM SCI 788 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Current Offerings: http://uwm.edu/schedule

ATM SCI 943 Seminar: Hydrology
3 cr. Graduate.
Prerequisites: grad st.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule
Mathematical Sciences Courses

MATH 90 Basic Mathematics
0 cr. Undergraduate.
Arithmetic operations involving whole numbers, integers, positive and negative rational numbers; decimals, percents; ratio, proportion; radicals; descriptive statistics; units of measure; geometry; introduction to algebra.
Prerequisites: none.
Course Rules: Fee for 3 cr assessed; credits count toward credit load for Financial Aid and enrollment verification only. Not open to students eligible for math courses that carry graduation credit.
Current Offerings: http://uwm.edu/schedule

MATH 92 Mathematical Literacy for College Students I
0 cr. Undergraduate.
Introduction to numeracy, proportional reasoning, algebraic reasoning, and functions. Emphasis on developing conceptual and procedural tools that support the use of key mathematical concepts in context.
Prerequisites: none.
Course Rules: Fee for 3 cr assessed; counts as 3 cr toward cr load for Financial Aid & enrollment verification. Not recommended for students planning to take Calculus or Chem 100.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MATH 92 Foundations of Elementary Mathematics
0 cr. Undergraduate.
Arithmetic, geometry, and beginning algebra; develops mathematical reasoning, problem solving, and facility with basic mathematical objects and their relationships. Individualized instruction via adaptive learning software.
Prerequisites: none.
Course Rules: Fee for 6 cr assessed; credits count toward credit load for Financial Aid and enrollment verification only. Math 94 counts as repeat of Math 90 & 95.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MATH 94 Foundations of Elementary Mathematics
0 cr. Undergraduate.
Arithmetic, geometry, and beginning algebra; develops mathematical reasoning, problem solving, and facility with basic mathematical objects and their relationships. Individualized instruction via adaptive learning software.
Prerequisites: none.
Course Rules: Fee for 6 cr assessed; credits count toward credit load for Financial Aid and enrollment verification only. Math 94 counts as repeat of Math 90 & 95.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MATH 95 Essentials of Algebra
0 cr. Undergraduate.
Number systems; linear equations, inequalities; exponent notation, radicals; polynomials, operations, factoring, rational expressions; coordinate geometry; linear systems; quadratic equations.
Prerequisites: math placement level 10, which is earned by any of the following: (a) Level 10 on Math Placement Test; (b) grade of C or better in Math 090; or (c) grade of D in Math 094.
Course Rules: Fee for 3 cr assessed; credits count toward credit load for Financial Aid and enrollment verification only.
Last Taught: Fall 2017, Summer 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MATH 98 Algebraic Literacy I
0 cr. Undergraduate.
Arithmetic number systems; linear equations, inequalities; exponent notation, radicals; polynomials, operations, factoring, modeling; coordinate geometry; linear systems; quadratic equations. Fee for 3 cr assessed; counts as 3 cr toward credit load for Fin Aid & enrollment verification only.
Prerequisites: math placement level 10, which is earned by any of the following: (a) Level 10 on Math Placement Test; (b) grade of C or better in Math 090; or (c) grade of D in Math 094.
Current Offerings: http://uwm.edu/schedule

MATH 102 Mathematical Literacy for College Students II
3 cr. Undergraduate.
Continuation of Math 92, with an integrated approach to numeracy, proportional reasoning, algebraic reasoning, and functions.
Prerequisites: Grade of C or better in Math 92(P) or (C).
General Education Requirements: MTH
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MATH 103 Contemporary Applications of Mathematics
3 cr. Undergraduate.
Logical inference, probability and statistical inference, geometric growth, with selected topics such as linear programming, patterns, binary codes.
Prerequisites: ACT math subscore of 18 or higher or Math Placement Level 10, which is earned by any of the following: (a) Level 10 on Math Placement Test; (b) Grade of C or better in Math 090; or (c) Grade of D in Math 094.
Course Rules: Not recom for students planning to take Calculus or Chem 100.
General Education Requirements: MTH
Current Offerings: http://uwm.edu/schedule
MATH 105 Introduction to College Algebra
3 cr. Undergraduate.
Algebraic techniques with polynomials, rational expressions, equations and inequalities, exponential and logarithmic functions, rational exponents, systems of linear equations.
Prerequisites: Math Placement Level 20, which is earned by any of the following: (a) Level 20 or 26 on Math Placement Test; (b) Grade of C or better in Math 094, 095, or 098; or (c) ACT math subscore of 24 or higher.
Course Rules: Not open for cr to students who have cr in Math 108(ER).
General Education Requirements: MTH
Current Offerings: http://uwm.edu/schedule

MATH 108 Algebraic Literacy II
3 cr. Undergraduate.
Continuation of Math 98 in polynomials, equations, and inequalities; exponential, logarithmic, and periodic functions; rational expressions and exponents; and systems of linear equations.
Prerequisites: C or better Math 98.
Course Rules: Not open for credit for students who have cr in Math 105(ER).
General Education Requirements: MTH
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MATH 111 Introduction to Logic - Critical Reasoning
3 cr. Undergraduate.
Students learn a broad variety of fundamental logical methods - techniques used to identify, analyze, model, evaluate, and criticize different types of real-world reasoning.
Prerequisites: ACT math subscore of 18 or higher, or Math Placement Level at least 20, which is earned by any of the following: (a) Level 10 on Math Placement Test; (b) grade of C or better in Math 090; or (c) grade of D in Math 094.
Course Rules: Jointly offered w/ Philos 111; they count as repeats of one another.
General Education Requirements: HU
Current Offerings: http://uwm.edu/schedule

MATH 115 Precalculus
4 cr. Undergraduate.
Essential topics from college algebra and trigonometry for students intending to enroll in calculus.
Prerequisites: Math Placement Level 30, which is earned by any of the following: (a) Level 30, 35, or 36 on Math Placement Test; (b) grade of C or better in Math 105, 108, or 116; (c) score of 5 or higher on the IB Mathematical Studies - SL; (d) score of 3 or higher on the AP statistics exam; or (e) score of 63 or higher on the CLEP College Algebra Exam.
Course Rules: Repeats 2 cr of Math 116 & 2 cr of Math 117.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MATH 116 College Algebra
3 cr. Undergraduate.
Prerequisites: Math Placement Level 20, which is earned by any of the following: (a) Level 20 or 26 on Math Placement Test; (b) Grade of C or better in Math 094, 095, or 098; (c) ACT math subscore of 24 or higher.
Course Rules: 2 cr may be used to repeat 2 cr of Math 115.
Current Offerings: http://uwm.edu/schedule

MATH 117 Trigonometry
2 cr. Undergraduate.
Trigonometric functions; graphs, identities, equations, inequalities; inverse trigonometric functions; solutions of triangles with applications; complex numbers; polar coordinates.
Prerequisites: Math Placement Level 30, which is earned by any of the following: (a) Level 30, 35, or 36 on Math Placement Test; (b) grade of C or better in Math 105, 108, or 116; (c) score of 5 or higher on the IB Mathematical Studies - SL; (d) score of 3 or higher on the AP statistics exam; or (e) score of 63 or higher on the CLEP College Algebra Exam.
Course Rules: Repeats 2 cr of Math 115.
Current Offerings: http://uwm.edu/schedule

MATH 175 Mathematical Explorations for Elementary Teachers I
3 cr. Undergraduate.
Theory of arithmetic of whole numbers, fractions, and decimals. Introduction to algebra, estimation and problem-solving strategies.
Prerequisites: Registration in elementary, early childhood, or exceptional educ curriculum; either a grade of C or better in Math 102 or 103, or Math Placement Level at least 20, which is earned by any of the following: (a) Level 20 or 26 on Math Placement Test; (b) Grade of C or better in Math 094, 095, or 098; (c) ACT math subscore of 24 or higher.
General Education Requirements: MTH
Last Taught: Spring 2018, Spring 2017, Fall 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MATH 176 Mathematical Explorations for Elementary Teachers II
3 cr. Undergraduate.
A continuation of Math 175 in geometry, statistics, and probability. Grading system is S or U only. Students without Math 103, 106, or 175 may not register.
Prerequisites: grade of C or better in Math 175(P).
General Education Requirements: QLB
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MATH 194 First-Year Seminar:
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshmen. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule
MATH 199 Independent Study
1-3 cr. Undergraduate.
Regularly offered courses may not be taken as Independent Study.
Prerequisites: 2.5 gpa in all previous math courses; writ cons instr; dept chair & asst dean for SAS.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

MATH 205 Introductory Finite Mathematics
3 cr. Undergraduate.
Elements of mathematical logic, structures in sets; partitions and counting; probability theory, stochastic processes.
Prerequisites: math placement level 30, which is earned by any of the following: (a) Level 30, 35, or 36 on Math Placement Test; (b) grade of C or better in Math 105, 108, or 116; (c) score of 5 or higher on the IB Mathematical Studies - SL; (d) score of 3 or higher on the AP statistics exam; or (e) score of 63 or higher on the CLEP College Algebra Exam.
General Education Requirements: QLB, NS
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MATH 211 Survey in Calculus and Analytic Geometry
4 cr. Undergraduate.
A one-semester survey with applications to business administration, economics, and non-physical sciences. Topics include coordinate systems, equations of curves, limits, differentiation, integration, applications.
Prerequisites: Math Placement Level 30, which is earned by any of the following: (a) Level 30, 35, or 36 on Math Placement Test; (b) grade of C or better in Math 105, 108, or 116; (c) score of 5 or higher on the IB Mathematical Studies - SL; (d) score of 3 or higher on the AP statistics exam; or (e) score of 63 or higher on the CLEP College Algebra Exam.
Course Rules: May not be used as a prereq for Math 232. No cr for students with cr in Math 213, 221, or 231.
General Education Requirements: QLB, NS
Current Offerings: http://uwm.edu/schedule

MATH 213 Calculus with Life Sciences Applications
4 cr. Undergraduate.
Limits, derivatives, and graphs of algebraic, trigonometric, exponential, and logarithmic functions; antiderivatives, the definite integral, and the fundamental theorem of calculus, with applications.
Prerequisites: Math Placement Level 40, which is earned by any of the following: (a) Level 40 on Math Placement Test; (b) grade of C or better in Math 115; (c) grade of C or better in both Math 116 and Math 117; (d) grade of C or better in both Math 211 and Math 117; (e) grade of C or better in Math 116 and Level 36 on Math Placement Test; (f) grade of C or better in Math 211 and Level 36 on Math Placement Test; (g) grade of C or better in Math 117 and Level 35 on Math Placement Test; or (h) score of 61 or higher on the CLEP Precalculus Exam.
Course Rules: No cr for students with cr in Math 221 or 231.
General Education Requirements: NS, QLB
Last Taught: Spring 2018, Fall 2017.
Current Offerings: http://uwm.edu/schedule

MATH 215 Business Calculus
4 cr. Undergraduate.
Continuation of Math 211. Applications of differentiation, integration; infinite sequences and series; parametric equations, conic sections, and polar coordinates.
Prerequisites: grade of C or better in Math 213(P) or B or better in Math 232(P);
Cons instr or Honors College Director; Math Placement Level 45, earned by any of: (a) Level 45 Math Placement Test; (b) Level 45 Math Placement Test & ACT math subscore 30 or higher; (c) score of 4 or 5 on AP AB calculus exam; (d) score of 3 or higher on AP BC calculus exam; (e) score of 5 or higher on IB Mathematics HL; (f) grade of A- or better in Math 116 & 117; (g) grade of A- or better in Math 115.
Course Rules: Max 6 cr in combination of Math 221 & 222 may count toward Honors College requirements.
General Education Requirements: QLB, NS
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MATH 221 Honors Calculus I
5 cr. Undergraduate.
Calculus of functions of one and several variables; sequences, series, differentiation, integration; introduction to differential equations; vectors and vector functions; applications.
Prerequisites: cons instr or Honors College Director; Math Placement Level 45, earned by any of: (a) Level 45 Math Placement Test; (b) Level 40 Math Placement Test & ACT math subscore 30 or higher; (c) score of 4 or 5 on AP AB calculus exam; (d) score of 3 or higher on AP BC calculus exam; (e) score of 5 or higher on IB Mathematics HL; (f) grade of A- or better in Math 116 & 117; (g) grade of A- or better in Math 115.
Course Rules: Max 6 cr in combination of Math 221 & 222 may count toward Honors College requirements.
General Education Requirements: QLB, NS
Current Offerings: http://uwm.edu/schedule

MATH 222 Honors Calculus II
5 cr. Undergraduate.
Continuation of Math 221.
Prerequisites: C or better in Math 221(P) or B or better in Math 232(P); cons instr.
Course Rules: Max of 6 cr in combination of Math 221 & 222 may count toward Honors College reqs.
Current Offerings: http://uwm.edu/schedule

MATH 231 Calculus and Analytic Geometry I
4 cr. Undergraduate.
Limits, derivatives, and graphs of algebraic, trigonometric, exponential, and logarithmic functions; antiderivatives, the definite integral, and the fundamental theorem of calculus, with applications.
Prerequisites: Math Placement Level 40, which is earned by any of the following: (a) Level 40 on Math Placement Test; (b) grade of C or better in Math 115; (c) grade of C or better in both Math 116 and Math 117; (d) grade of C or better in both Math 211 and Math 117; (e) grade of C or better in Math 116 and Level 36 on Math Placement Test; (f) grade of C or better in Math 211 and Level 36 on Math Placement Test; (g) grade of C or better in Math 117 and Level 35 on Math Placement Test; or (h) score of 61 or higher on the CLEP Precalculus Exam.
Course Rules: No cr for students with cr in Math 213.
General Education Requirements: NS, QLB
Current Offerings: http://uwm.edu/schedule

MATH 232 Calculus and Analytic Geometry II
4 cr. Undergraduate.
Continuation of Math 231. Applications of integration, techniques of integration; infinite sequences and series; parametric equations, conic sections, and polar coordinates.
Prerequisites: grade of C or better in Math 231(P) or grade of B or better in Math 213(P).
Current Offerings: http://uwm.edu/schedule
MATH 233 Calculus and Analytic Geometry III
4 cr. Undergraduate.
Continuation of Math 232. Three-dimensional analytic geometry and vectors; partial derivatives; multiple integrals; vector calculus, with applications.
Prerequisites: grade of C or better in Math 232(P).
Course Rules: Counts as repeat of Math 229.
Current Offerings: http://uwm.edu/schedule

MATH 234 Linear Algebra and Differential Equations
4 cr. Undergraduate.
Elementary differential equations. Vectors; matrices; linear transformations; quadratic forms; eigenvalues; applications.
Prerequisites: grade of C or better in Math 232(P).
Current Offerings: http://uwm.edu/schedule

MATH 240 Matrices and Applications
3 cr. Undergraduate.
Vectors, vector spaces, systems of linear equations, matrices, determinants, linear transformations, diagonalization, eigenvalues, eigenvectors; selected topics from quadratic forms, difference equations, numerical methods, and applications.
Prerequisites: Grade at least C in a Math or MthStat course numbered 200 or higher OR Math Placement Level 40, earned by any of: Level 40 Math Placement Test; grade at least C in Math 115; grade at least C in Math 116 & 117; grade at least C in Math 211 & 117; grade at least C in Math 116 & Level 36 Math Placement Test; grade at least C in Math 211 & Level 36 Math Placement Test; grade at least C in Math 117 & Level 35 Math Placement Test; at least 61 on CLEP Precalculus exam.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MATH 276 Algebraic Structures for Elementary Education Majors
3 cr. Undergraduate.
Topics for K-8 teachers. Basic patterns and rules that govern number systems, geometric transformations, and manipulation of algebraic expressions.
Prerequisites: grade of C or better in Math 175(P) or cons instr.
Course Rules: Counts as repeat of Math 299 w/same topic.
Current Offerings: http://uwm.edu/schedule

MATH 277 Geometry for Elementary Education Majors
3 cr. Undergraduate.
Topics for K-8 teachers. Geometry as measuring tool-congruence, similarity, area, volume, and coordinates; geometry as axiomatic system-definitions, conjectures, proofs, counterexamples; rigid motions, symmetry.
Prerequisites: grade of C or better in Math 176(P) or cons instr.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MATH 278 Discrete Probability and Statistics for Elementary Education Majors
3 cr. Undergraduate.
Random experiments; histograms; sample spaces; equally likely outcomes for random experiments; permutations; combinations; binomial, geometric, hypergeometric distributions; expectation; conditional probabilities; max likelihood estimation & inference.
Prerequisites: grade of C or better in Math 176(P) or cons instr.
Course Rules: Math 278 and MthStat 278 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MATH 290 Topics in Mathematics:
3 cr. Undergraduate.
Specific topics and any additional prerequisites announced in Schedule of Classes each time course is offered.
Prerequisites: satisfaction of Quantitative Literacy Part A GER.
Course Rules: May be retaken w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

MATH 297 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored programs before course work level, content and credits are determined and/or in specially prepared program course work.
Prerequisites: acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

MATH 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l sem.
Prerequisites: none; add’l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule
MATH 305 Introduction to Mathematical and Computational Modeling
3 cr. Undergraduate/Graduate.
Construction and analysis of discrete and continuous mathematical models in applied, natural, and social sciences. Elements of programming, simulations, case studies from scientific literature.
Prerequisites: jr st; grade of C or better in Math 211(P) & one addl 200-level or higher Math or MthStat course, or grade of B or better in Math 213(P), or grade of C or better in Math 231(P), or cons instr.
Course Rules: Counts as repeat of Math 690(675) w/topic Adv Math Models with Apps.
Current Offerings: http://uwm.edu/schedule

MATH 311 Theory of Interest
4 cr. Undergraduate.
Prerequisites: grade of C or better in Math 232(P).
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MATH 313 Linear Programming and Optimization
3 cr. Undergraduate/Graduate.
Primal and dual formulations of linear programming problems; simplex and related methods of solution; algorithms for transportation; optimization.
Prerequisites: jr st; grade of C or better in Math/ElecEng 234(P) or Math 240(P); or grad st.
Last Taught: Fall 2016, Fall 2014, Fall 2013, Fall 2011.
Current Offerings: http://uwm.edu/schedule

MATH 315 Mathematical Programming and Optimization
3 cr. Undergraduate/Graduate.
Introduction to operations research. Network analysis; integer programming; game theory; nonlinear programming; dynamic programming.
Prerequisites: jr st, grade of C or better in either Math 234(P) or 240(P), & grade of C or better in either Math 211(P) or 233(P); or cons instr; or grad st.
Current Offerings: http://uwm.edu/schedule

MATH 318 Topics in Discrete Mathematics
3 cr. Undergraduate.
Number theory topics related to cryptography; discrete structures including graphs, partial orders, Latin squares and block designs; advanced counting techniques.
Prerequisites: a grade of C or better in CompSci 317(P) or Math 341(P).
Course Rules: Jointly offered with & count as repeat of CompSci 318.
Current Offerings: http://uwm.edu/schedule

MATH 320 Introduction to Differential Equations
3 cr. Undergraduate/Graduate.
Elementary types and systems of differential equations, series solutions, numerical methods, Laplace transforms, selected applications.
Prerequisites: jr st, grade of C or better in both Math 232(P) & 240(P), or grade of C or better in Math/ElecEng 234(P); or grad st.
Course Rules: No grad cr in Math Sci.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MATH 321 Vector Analysis
3 cr. Undergraduate/Graduate.
Topics selected from vector algebra; scalar and vector fields; line, surface, and volume integrals; theorems of Green, Gauss, and Stokes; vector differential calculus.
Prerequisites: jr st, grade of C or better in Math 233(P); or grad st.
Current Offerings: http://uwm.edu/schedule

MATH 322 Introduction to Partial Differential Equations
3 cr. Undergraduate/Graduate.
Partial differential equations of mathematical physics, boundary value problems in heat flow, vibrations, potentials, etc. Solved by Fourier series; Bessel functions and Legendre polynomials.
Prerequisites: jr st, Math 320(P), & grade of C or better in Math 233(P); or grad st.
Current Offerings: http://uwm.edu/schedule

MATH 341 Seminar: Introduction to the Language and Practice of Mathematics
3 cr. Undergraduate.
Facility with mathematical language and method of conjecture, proof and counter example, with emphasis on proofs. Topics: logic, sets, functions and others.
Prerequisites: Math Placement Level 40, which is earned by any of the following: (a) Level 40 on Math Placement Test; (b) grade of C or better in Math 115, (c) grade of C or better in both Math 116 and Math 117; (d) grade of C or better in both Math 211 and Math 117; (e) grade of C or better in Math 116 and Level 36 on Math Placement Test; (f) grade of C or better in Math 211 and Level 36 on Math Placement Test; (g) grade of C or better in Math 117 and Level 35 on Math Placement Test; or (h) score of 61 or higher on the CLEP Precalculus Exam.
Current Offerings: http://uwm.edu/schedule

MATH 345 Mathematics from a Historical Perspective:
3 cr. Undergraduate.
Topics from the development of mathematics, such as famous problems, mathematicians, calculating devices; chronological outlines. Significant reading and writing assignments.
Prerequisites: Grade of C or better in Math 232(P); satisfaction of OWC-A.
Course Rules: May be retaken w/chg in topic to 9 cr max. Add'l prereqs announced in SOC each offering.
General Education Requirements: OWCB
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

MATH 351 Introduction to Mathematical and Computational Modeling
3 cr. Undergraduate/Graduate.
Construction and analysis of discrete and continuous mathematical models in applied, natural, and social sciences. Elements of programming, simulations, case studies from scientific literature.
Prerequisites: jr st; Math 320(P), & grade of C or better in Math 233(P); or grad st.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

MATH 352 Linear Programming and Optimization
3 cr. Undergraduate/Graduate.
Primal and dual formulations of linear programming problems; simplex and related methods of solution; algorithms for transportation; optimization.
Prerequisites: jr st; grade of C or better in either Math 234(P) or 240(P), & grade of C or better in either Math 211(P) or 233(P); or cons instr; or grad st.
Current Offerings: http://uwm.edu/schedule

MATH 353 Introduction to Partial Differential Equations
3 cr. Undergraduate/Graduate.
Partial differential equations of mathematical physics, boundary value problems in heat flow, vibrations, potentials, etc. Solved by Fourier series; Bessel functions and Legendre polynomials.
Prerequisites: jr st, Math 320(P), & grade of C or better in Math 233(P); or grad st.
Current Offerings: http://uwm.edu/schedule

MATH 371 Introduction to Stochastic Models in Finance
3 cr. Undergraduate/Graduate.
Elementary modeling of financial instruments for students in mathematics, economics, business, etc. Statistical and stochastic tools leading to the Black-Scholes model. Real data parameter fitting.
Prerequisites: jr st & one of the following pairs: Econ 413(431)(P) & 506(P), Bus Adm 210(P) & 350(P), Bus Adm 701(P) & 702(P), or Math 234(P) & MthStat 361(P), or cons instr; or grad st.
Last Taught: Fall 2001, Fall 2000.
Current Offerings: http://uwm.edu/schedule

MATH 372 Introduction to Stochastic Processes
3 cr. Undergraduate/Graduate.
Introduction to stochastic processes, Markov chains, Markov processes in continuous time, Brownian motion, and related topics. Applications to finance, biology, and engineering.
Prerequisites: jr st; Math 320(P), & grade of C or better in Math 233(P); or grad st.
Current Offerings: http://uwm.edu/schedule

MATH 373 Introduction to the Black-Scholes Model
3 cr. Undergraduate/Graduate.
Development of the Black-Scholes model for pricing options and other financial derivatives. Applications to real-world financial instruments.
Prerequisites: jr st; Math 320(P), & grade of C or better in Math 233(P); or grad st.
Current Offerings: http://uwm.edu/schedule

MATH 374 Financial Mathematics
3 cr. Undergraduate/Graduate.
Elementary financial mathematics, including annuities, life insurance, and pensions. Applications to financial management.
Prerequisites: jr st; Math 320(P), & grade of C or better in Math 233(P); or grad st.
Current Offerings: http://uwm.edu/schedule

MATH 375 Financial Mathematics Models
3 cr. Undergraduate/Graduate.
Models with Apps.
Prerequisites: jr st, Math 320(P), & grade of C or better in either Math 234(P) or Math 240(P), & grade of C or better in Math/ElecEng 234(P) or Math 211(P) & one addl 200-level or higher Math or MthStat course, or cons instr; or grad st.
Current Offerings: http://uwm.edu/schedule

MATH 376 Financial Mathematics Models and Optimization
3 cr. Undergraduate/Graduate.
Elementary financial mathematics, including annuities, life insurance, and pensions. Applications to financial management.
Prerequisites: jr st; Math 320(P), & grade of C or better in either Math 234(P) or Math 240(P), or grade of C or better in Math/ElecEng 234(P) or Math 211(P) & one addl 200-level or higher Math or MthStat course, or cons instr; or grad st.
Current Offerings: http://uwm.edu/schedule

MATH 380 Introduction to Probability and Statistics
3 cr. Undergraduate.
Topics in probability and statistics, including random variables; discrete and continuous probability distributions; expectation; confidence intervals; and hypothesis testing.
Prerequisites: jr st; grade of C or better in Math 232(P); satisfaction of OWC-A.
Course Rules: May be retaken w/chg in topic to 9 cr max. Add'l prereqs announced in SOC each offering.
General Education Requirements: OWCB
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule
MATH 381 Honors Seminar
3 cr. Undergraduate.
Significant topics to illustrate to non-mathematicians the characteristic features of mathematical thought. Only H.S. algebra and geometry assumed.
Prerequisites: soph st; Honors 200(P); cons Honors College dir.
Course Rules: May be retaken w/chg in topic to 9 cr max. Not open for cr toward a major in Math.
General Education Requirements: NS
Last Taught: Fall 2015, Fall 2013, Spring 2011, Spring 2010.
Current Offerings: http://uwm.edu/schedule

MATH 405 Mathematical Models and Applications
3 cr. Undergraduate/Graduate.
Modeling techniques for analysis and decision-making in social and life sciences and industry. Deterministic and stochastic modeling. Topics may vary with instructors.
Prerequisites: jr st; one of: grade of C or better in Math 211(P), grade of B or better in Math 213(P), or grade of C or better in Math 231(P); & grade of C or better in either Math/ElecEng 234(P) or Math 240(P); or grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MATH 413 Introduction to Numerical Analysis
3 cr. Undergraduate/Graduate.
Root finding and solution of nonlinear systems; direct solution of linear systems; interpolation & approximation of functions; least squares; fast Fourier transform; quadrature.
Prerequisites: jr st, grade of C or better in Math 233(C), & grade of C or better in Math/ElecEng 234(C); or grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

MATH 415 Introduction to Scientific Computing
3 cr. Undergraduate/Graduate.
Nonlinear systems; iterative solution of linear systems; initial value problems in ordinary differential equations; boundary value problems in ordinary and partial differential equations.
Prerequisites: jr st, grade of C or better in Math 233(C), & grade of C or better in Math/ElecEng 234(C); or grad st.
Current Offerings: http://uwm.edu/schedule

MATH 453 Transformations in Geometry
3 cr. Undergraduate/Graduate.
Selected topics from vector geometry and geometric transformations such as the study of invariants and conics.
Prerequisites: jr st, grade of C or better in both Math 341(P) & Math 232(C); or grad st.
Current Offerings: http://uwm.edu/schedule

MATH 489 Internship in Mathematics, Upper Division
1-6 cr. Undergraduate.
Application of advanced principles of mathematics in a business, organizational, educational, governmental, or other appropriate setting.
Prerequisites: jr st; 6 cr 300-level or above in math or math stats; 2.5 gpa in the major; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hours in internship. May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

MATH 490 Topics in Mathematics
3 cr. Undergraduate.
Specific topics and any additional prerequisites announced in Schedule of Classes each time course is offered. May be retaken w/chg in topic to 9 cr max.
Prerequisites: jr st; grade of C or better in a Math or MthStat course at the 200 level or above; or grad st.
Current Offerings: http://uwm.edu/schedule

MATH 497 Study Abroad:
1-12 cr. Undergraduate.
Designed to enroll students in UWM sponsored programs before course work level, content and credits are determined and/or in specially prepared program course work.
Prerequisites: jr st; acceptance for Study Abroad Prog.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule
MATH 499 Ad Hoc
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: jr st; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: [link]

MATH 511 Symbolic Logic
3 cr. Undergraduate/Graduate.
First-order predicate calculus; formal properties of theoretical systems; chief results of modern mathematical logic; advanced topics such as completeness and computability.
Prerequisites: jr st & either Philos 212(P) or 6 cr in math at the 300-level or above.
Course Rules: CompSci 511, Math 511 & Philos 511 are jointly offered; they count as repeats of one another.
Last Taught: Spring 2017, Fall 2015, Fall 2013, Spring 2003.
Current Offerings: [link]

MATH 521 Advanced Calculus I
3 cr. Undergraduate/Graduate.
Fundamental notions of sets and functions; limits, continuity; Riemann integral, improper integral; infinite series; uniform convergence; power series; improper integrals with a parameter.
Prerequisites: jr st; grades of C or better in Math 232(P) & 341(P); or grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: [link]

MATH 522 Advanced Calculus II
3 cr. Undergraduate/Graduate.
Linear functions; differentiation of functions of several variables (implicit functions, Jacobians); change of variable in multiple integrals; integrals over curves, surfaces; Green, Gauss, Stokes theorems.
Prerequisites: jr st, Math 521(P), grade of C or better in Math 233(P), & grade of C or better in either Math 234(P) or 240(P); or grad st.
Current Offerings: [link]

MATH 531 Modern Algebra
3 cr. Undergraduate/Graduate.
Integers; groups; rings; fields; emphasis on proofs.
Prerequisites: jr st; grade of C or better in Math 341(P).
Current Offerings: [link]

MATH 535 Linear Algebra
3 cr. Undergraduate/Graduate.
Vector spaces; linear transformations and matrices; characteristic values and vectors; canonical forms; bilinear, quadratic, and Hermitian forms; selected applications.
Prerequisites: jr st, grade of C or better in either Math 234(P) or 240(P), & grade of C or better in Math 341(P); or grad st.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: [link]

MATH 537 Number Theory
3 cr. Undergraduate/Graduate.
Number theoretic functions; distribution of primes; Diophantine approximation; partitions; additive number theory; quadratic reciprocity.
Prerequisites: jr st, grade of C or better in both Math 232(P) & 341(P); or grad st.
Last Taught: Fall 2016, Fall 2014, Fall 2012, Fall 2010.
Current Offerings: [link]

MATH 551 Elementary Topology
3 cr. Undergraduate/Graduate.
General theory of point sets in Euclidean spaces, with emphasis on topology of two-dimensional and three-dimensional spaces; elementary notions of metric spaces; applications.
Prerequisites: jr st; grades of C or better in Math 233(P) & 341(P); or grad st.
Current Offerings: [link]

MATH 553 Differential Geometry
3 cr. Undergraduate/Graduate.
The theory of curves and surfaces by differential methods.
Prerequisites: jr st, grade of C or better in all of Math 233(P), 234(P) & 341(P); or grad st.
Last Taught: Spring 2018, Fall 2013, Fall 2011, Fall 2009.
Current Offerings: [link]

MATH 571 Introduction to Probability Models
3 cr. Undergraduate/Graduate.
Prerequisites: jr st; grade of C or better in Math 233(P); grade of C or better in Math/ElecEng 234(P) or in both Math 240(P) & 320(P); & one calculus-based course in statistics or probability at the 300 level or above; or grad st.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: [link]

MATH 575 High School Mathematics from an Advanced Viewpoint
3 cr. Undergraduate/Graduate.
Number systems; algebra of polynomials; theory of equations; functions; modeling; geometric measurement; geometric transformations; connections between advanced mathematics and high school topics.
Prerequisites: jr st, either Math 451(P) or 453(P), & either Math 431(P) or 531(P); or cons instr; or grad st.
Course Rules: Counts as repeat of Math 690(675) w/similar topic.
Current Offerings: [link]

MATH 581 Introduction to the Theory of Chaotic Dynamical Systems
3 cr. Undergraduate/Graduate.
Iterated mappings, one parameter families, attracting and repelling periodic orbits, topological transitivity, Sarkovski’s theorem, chaos, bifurcation theory, period doubling route to chaos, horseshoe maps, attractors.
Prerequisites: jr st & Math 521(P), 529(P) or 621(P), or cons instr; or grad st.
Current Offerings: [link]

</tbody>
</table>
MATH 701 Industrial Mathematics I  
3 cr. Graduate.  
Elementary functional analysis, wavelets, control theory. Use of mathematical software emphasized throughout.  
Prerequisites: grad st in nat sci discipline; Math 522(P) or 602(P) or 622(P).  
Last Taught: Fall 2017, Fall 2015, Fall 2013, Fall 2011.  
Current Offerings: http://uwm.edu/schedule

MATH 702 Industrial Mathematics II  
3 cr. Graduate.  
Optimal control theory, digital signal processing, image processing, linear programming, nonlinear optimization, artificial neural networks. Use of mathematical software emphasized throughout.  
Prerequisites: grad st in nat sci discipline; Math 701(P).  
Current Offerings: http://uwm.edu/schedule

MATH 703 Boundary Value Problems  
3 cr. Graduate.  
Prerequisites: grad st; Math 322(P) & 623(P).  
Current Offerings: http://uwm.edu/schedule

MATH 709 Differential Geometry  
3 cr. Graduate.  
The theory of curves, surfaces, and manifolds in modern terminology. Global results on closed surfaces, geodesics, differential forms and tensor calculus.Introduction to riemannian geometry.  
Prerequisites: grad st; Math 522(P) or 622(P).  
Last Taught: Fall 2007, Fall 2000.  
Current Offerings: http://uwm.edu/schedule

MATH 711 Theory of Functions of a Real Variable I  
3 cr. Graduate.  
Equivalence relations; cardinal and ordinal numbers; topology of real line; cantor and borel sets; lebesgue measure on real line; baire and measurable functions; lebesgue integral.  
Prerequisites: grad st; Math 522(P) & 551(P); or Math 622(P).  
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.  
Current Offerings: http://uwm.edu/schedule

MATH 712 Theory of Functions of a Real Variable II  
3 cr. Graduate.  
Lebesgue integration; modes of convergence; lp spaces; vitalli covering and lebesgue density theorems; dini derivates; differentiation; fundamental theorem of the lebesgue integral calculus; fubini's theorem.  
Prerequisites: grad st; Math 711(P).  
Current Offerings: http://uwm.edu/schedule

MATH 713 Theory of Functions of a Complex Variable I  
3 cr. Graduate.  
Complex numbers; linear transformations; elementary functions; conformal mapping; complex integration; infinite sequences; dirichlet problem; multivalued functions.  
Prerequisites: grad st; Math 522(P) or 621(P).  
Last Taught: Fall 2016, Fall 2014, Fall 2012, Fall 2010.  
Current Offerings: http://uwm.edu/schedule

MATH 714 Theory of Functions of a Complex Variable II  
3 cr. Graduate.  
Continuation of Math 713.  
Prerequisites: grad st; Math 713(P).  
Current Offerings: http://uwm.edu/schedule

MATH 715 Numerical Analysis  
3 cr. Graduate.  
Interpolation and approximation; differentiation and quadrature; numerical solution of ordinary differential equations; solution of linear and nonlinear algebraic equations.  
Prerequisites: grad st; Math 413(P); Math 521(P) or 621(P).  
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.  
Current Offerings: http://uwm.edu/schedule

MATH 716 Ordinary Differential Equations  
3 cr. Graduate.  
Existence and uniqueness theorems for systems of ode; qualitative properties of solutions, including stability and asymptotic behavior; general theory of linear systems; sturm-liouville problems.  
Prerequisites: grad st; Math 522(P) or 622(P).  
Last Taught: Fall 2017, Fall 2015, Fall 2013, Fall 2011.  
Current Offerings: http://uwm.edu/schedule

MATH 719 Partial Differential Equations  
3 cr. Graduate.  
First and second order equations; characteristics, cauchy problem; classical solutions of linear elliptic, parabolic and hyperbolic equations.  
Prerequisites: grad st; Math 522(P) or 622(P); math 320(P).  
Current Offerings: http://uwm.edu/schedule

MATH 721 Abstract Measure and Integration  
3 cr. Graduate.  
General theory of measures and integration; differentiation of set functions; relation to stochastic variables; atomic measures; haar measure and integral applications to probability theory.  
Prerequisites: grad st; Math 712(P).  
Current Offerings: http://uwm.edu/schedule

MATH 726 Introduction to Functional Analysis  
3 cr. Graduate.  
Basic notions of functional analysis in hilbert space will be introduced. The concepts will be illustrated by applications to elementary differential and integral equation problems.  
Prerequisites: grad st; Math 522(P) or 622(P).  
Last Taught: Fall 2016, Fall 2014, Fall 2012, Fall 2010.  
Current Offerings: http://uwm.edu/schedule

MATH 731 Abstract Algebra I  
3 cr. Graduate.  
Basic course which is prerequisite for all other 700-799 level courses in algebra; groups, rings, fields, galois theory, modules, and categories.  
Prerequisites: grad st; Math 632(P); cons instr.  
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.  
Current Offerings: http://uwm.edu/schedule
University of Wisconsin-Milwaukee

MATH 732 Abstract Algebra II
3 cr. Graduate.
Continuation of Math 731.
Prerequisites: grad st; Math 731(P).
Current Offerings: http://uwm.edu/schedule
MATH 735 Theory of Groups
3 cr. Graduate.
Topics selected from permutation groups; representations of groups and
algebras; group algebras; group characters; extension problems; simple
groups; solvable and nilpotent groups.
Prerequisites: grad st; Math 732(P).
Current Offerings: http://uwm.edu/schedule
MATH 736 Theory of Rings and Modules I
3 cr. Graduate.
Noetherian and artinian rings and modules; primitive, prime and simple
rings and ideals; radicals; localization; morita theory; construction and
study of special classes of rings.
Prerequisites: grad st; Math 732(P).
Last Taught: Fall 2005, Fall 1991, Fall 1988, Fall 1986.
Current Offerings: http://uwm.edu/schedule
MATH 737 Theory of Rings and Modules II
3 cr. Graduate.
Continuation of Math 736.
Prerequisites: grad st; Math 736(P) or cons instr.
Current Offerings: http://uwm.edu/schedule
MATH 751 Introductory Topology I
3 cr. Graduate.
Fundamental properties and examples of topological spaces and
continuous functions, including compactness, connectedness,
metrizability, completeness, product and quotient spaces,
homeomorphisms, embedding, extension, and euclidean spaces.
Prerequisites: grad st; Math 522(P) or 621(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule
MATH 752 Introductory Topology II
3 cr. Graduate.
Continuation of Math 751.
Prerequisites: grad st; Math 751(P).
Current Offerings: http://uwm.edu/schedule
MATH 753 Introduction to Algebraic Topology I
3 cr. Graduate.
Homology theory; complexes and simplicial homology theory; general
homology theories; cohomology rings; applications to manifolds, ﬁxed
point theorems, etc.
Prerequisites: grad st; Math 632(P); Math 551(P) or 751(P) or cons instr.
Last Taught: Fall 2016, Fall 2014, Fall 2012, Fall 2010.
Current Offerings: http://uwm.edu/schedule
MATH 754 Introduction to Algebraic Topology II
3 cr. Graduate.
Continuation of Math 753.
Prerequisites: grad st; Math 753(P).
Current Offerings: http://uwm.edu/schedule

1599

MATH 767 Statistical Methods for Engineers and Scientists
3 cr. Graduate.
Elementary baysian decision theory; prior posterior and predictive
distributions; posterior and pre-posterior analysis of two action decision
problems; concept of likelihood functions for binomial, poisson,
exponential and normal distributions; simple and multiple regression
analysis; introduction to autoregressive models.
Prerequisites: grad st; Math 362(P) or math 467(P).
Course Rules: Not open to students who have cr in ElecEng 767, which is
identical to Math 767.
Current Offerings: http://uwm.edu/schedule
MATH 768 Applied Stochastic Processes
3 cr. Graduate.
Concepts in queueing theory; exponential channels; applications of
markov chains to queueing problems; queue disciplines with priorities.
Prerequisites: grad st; Math 361(P) or math 467(P).
Course Rules: Not open to students who have cr in ElecEng 768, which is
identical to Math 768.
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule
MATH 771 Theory of Probability
3 cr. Graduate.
Measure-theoretic foundations; limit-law theorems; weak and strong
laws of large numbers; central limit problem; conditional expectations,
martingales; stochastic processes.
Prerequisites: grad st; Math 471(C) or 712(C).
Current Offerings: http://uwm.edu/schedule
MATH 781 Iterated Maps as Dynamical Systems
3 cr. Graduate.
Periodic, recurrent and non-wandering points, kneading theory, unstable
manifolds, unimodal mappings, turbulent and chaotic maps, symbolic
dynamics, structural stability, topological conjugacy, topological
dynamics.
Prerequisites: grad st; Math 711(P) or cons instr.
Last Taught: Fall 2000, Fall 1993, Fall 1992.
Current Offerings: http://uwm.edu/schedule
MATH 790 Master's Thesis
1-3 cr. Graduate.
Prerequisites: grad st; cons instr.
Course Rules: Cr count toward masters degree only if student completes
thesis option.
Current Offerings: http://uwm.edu/schedule
MATH 791 Master's Seminar
1-3 cr. Graduate.
Prerequisites: grad st; cons instr.
Course Rules: May not be taken for cr more than once.
Last Taught: Spring 2014, Fall 2013, Spring 2012, Fall 2011.
Current Offerings: http://uwm.edu/schedule


MATH 792 Industrial Internship
1-3 cr. Graduate.
Students earn credits for serving in an industrial internship that involves work of an advanced mathematical nature. They must prepare a report based on the internship.
Prerequisites: grad st; cons instr.
Course Rules: Retakable w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

MATH 793 Scientific Computational Laboratory:
1-2 cr. Graduate.
Prerequisites: grad st; Math 715(C).
Course Rules: Retakable w/chg in topic to 6 cr max.
Current Offerings: http://uwm.edu/schedule

MATH 799 Seminar in Mathematics:
1-3 cr. Graduate.
Specific topics and any additional prerequisites announced in Timetable each time course is offered.
Prerequisites: grad st & cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MATH 801 Topics in Applied Mathematics:
3 cr. Graduate.
Specific topics and any additional prerequisites will be announced in the Timetable each time the course is offered.
Prerequisites: grad st; cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Fall 2016, Spring 2015, Fall 2008, Fall 2006.
Current Offerings: http://uwm.edu/schedule

MATH 807 Group Theory and Its Applications to Physics
3 cr. Graduate.
Representations of discrete and continuous groups, including rotation groups, unitary groups and crystal point and space groups. Symmetries of elementary particles. Molecular orbitals, energy bands.
Prerequisites: grad st; Physics 532(P).
Course Rules: Counts as a repeat of Physics 807.
Last Taught: Spring 2018.
Current Offerings: http://uwm.edu/schedule

MATH 809 Topics in Differential Geometry:
1-3 cr. Graduate.
Specific topics and any additional prerequisites will be announced in the Timetable each time the course is offered. Topics may be selected from Riemannian geometry, minimal surfaces and surfaces of prescribed mean curvature, geometric partial differential equations, or related areas of geometry.
Prerequisites: grad st; cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

MATH 813 Numerical Solution of Ordinary Differential Equations
3 cr. Graduate.
Methods for initial value and boundary value problems; stiff equations, singular points and bifurcation.
Prerequisites: grad st; Math 715(P).
Last Taught: Fall 2001, Fall 1998, Fall 1987, Fall 1986.
Current Offerings: http://uwm.edu/schedule

MATH 814 Numerical Solution of Partial Differential Equations
3 cr. Graduate.
Finite difference and finite element methods for linear elliptic, parabolic and hyperbolic equations; nonlinear equations.
Prerequisites: grad st; Math 715(P).
Current Offerings: http://uwm.edu/schedule

MATH 815 Topics in Numerical Analysis:
3 cr. Graduate.
Prerequisites: grad st; Math 715(P).
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

MATH 816 Advanced Ordinary Differential Equations
3 cr. Graduate.
Existence and uniqueness theorems; singularity of solutions; oscillation and comparison theorems; poicare-bendixon theory.
Prerequisites: grad st; Math 716(P).
Current Offerings: http://uwm.edu/schedule

MATH 817 Advanced Ordinary Differential Equations II
3 cr. Graduate.
Continuation of Math 816; dynamical systems, bifurcation theory, topological methods.
Prerequisites: grad st; Math 816(P).
Current Offerings: http://uwm.edu/schedule

MATH 821 Advanced Topics in Real Analysis:
3 cr. Graduate.
Specific topics and any additional prerequisites will be announced in the Timetable each time the course is offered.
Prerequisites: grad st; Math 712(P).
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

MATH 825 Functional Analysis
3 cr. Graduate.
Basic theorems of b-spaces and f-spaces including the closed graph; Hahn-Banach and Banach-Steinhaus theorems; Banach algebras; generalized functions; spectral theory.
Prerequisites: grad st; Math 712(P).
Last Taught: Spring 2013, Fall 1998, Fall 1994, Fall 1993.
Current Offerings: http://uwm.edu/schedule
MATH 841 Advanced Topics in Algebra:
3 cr. Graduate.
Specific topics and any additional prerequisites will be announced in the Timetable each time the course is offered.
Prerequisites: grad st; Math 732(P); cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MATH 843 Homological Algebra I
3 cr. Graduate.
Modules; diagrams; categories; functors; complexes; cohomology; extensions; resolutions; injective and projective systems; graded modules; homological dimension; spectral sequences; derived functors.
Prerequisites: grad st; Math 731(P).
Last Taught: Fall 2015, Fall 2010, Fall 2002, Fall 1999.
Current Offerings: http://uwm.edu/schedule

MATH 844 Homological Algebra II
3 cr. Graduate.
Continuation of Math 843.
Prerequisites: grad st; Math 843(P).
Current Offerings: http://uwm.edu/schedule

MATH 851 Advanced Topics in Topology:
3 cr. Graduate.
Specific topics and any additional prerequisites will be announced in the Timetable each time the course is offered.
Prerequisites: grad st; Math 732(P); cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MATH 873 Advanced Topics in Probability:
3 cr. Graduate.
Specific topics and any additional prerequisites will be announced in the Timetable each time the course is offered.
Prerequisites: grad st; cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Last Taught: Spring 2018, Fall 2017, Fall 2016, Fall 2015.
Current Offerings: http://uwm.edu/schedule

MATH 881 Topics in Nonlinear Dynamics:
3 cr. Graduate.
Specific topics and any additional prerequisites will be announced in the Timetable each time the course is offered.
Prerequisites: grad st; Math 711(P); cons instr.
Course Rules: Retakable w/chg in topic to 9 cr max.
Current Offerings: http://uwm.edu/schedule

MATH 888 Candidate for Degree
0 cr. Graduate.
Available for graduate students who must meet minimum credit load requirement.
Prerequisites: grad st.
Course Rules: Fee for 1 cr assessed.
Last Taught: Summer 2017.
Current Offerings: http://uwm.edu/schedule

MATH 990 Reading and Research
1-6 cr. Graduate.
To be arranged with your instructor and department chair.
Prerequisites: grad st.
Course Rules: Retakable.
Current Offerings: http://uwm.edu/schedule

Mathematical Statistics Courses

MTHSTAT 194 First-Year Seminar:
3 cr. Undergraduate.
Specific topics are announced in the Schedule of Classes each time the class is offered.
Prerequisites: none.
Course Rules: Open only to freshman. Students may earn cr in just one L&S First-Year Sem (course numbers 192, 193, 194).
General Education Requirements: NS
Current Offerings: http://uwm.edu/schedule

MTHSTAT 199 Independent Study
1-3 cr. Undergraduate.
For further information, consult dept chair.
Prerequisites: 2.5 gpa; writ cons instr, dept chair & asst dean for SAS.
Course Rules: May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

MTHSTAT 215 Elementary Statistical Analysis
3 cr. Undergraduate.
Elementary probability theory; descriptive statistics; sampling distributions; basic problems of statistical inference including estimation; tests of statistical hypothesis in both one- and two- sample cases.
Prerequisites: satisfaction of Quantitative Literacy Part A GER.
General Education Requirements: QLB, NS
Current Offerings: http://uwm.edu/schedule

MTHSTAT 278 Discrete Probability and Statistics for Elementary Education Majors
3 cr. Undergraduate.
Random experiments; histograms; sample spaces; equally likely outcomes for random experiments; permutations; combinations; binomial, geometric, hypergeometric distributions; expectation; conditional probabilities; max likelihood estimation & inference.
Prerequisites: grade of C or better in Math 176(P) or cons instr.
Course Rules: Math 278 and MthStat 278 are jointly offered; they count as repeats of one another.
Last Taught: Fall 2016, Fall 2009, Fall 2008, Fall 2007.
Current Offerings: http://uwm.edu/schedule

MTHSTAT 299 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period.
Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add'l sem.
Prerequisites: none; add'l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Last Taught: Summer 2004.
Current Offerings: http://uwm.edu/schedule
MTHSTAT 361 Introduction to Mathematical Statistics I
3 cr. Undergraduate/Graduate.
Probability spaces; discrete and continuous, univariate and multivariate distributions; moments; independence, random sampling, sampling distributions; normal and related distributions; point and interval estimation.
Prerequisites: jr st; Math 233(P).
Course Rules: Not recom for grad students in math, or students not planning to take MthStat 362.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MTHSTAT 362 Introduction to Mathematical Statistics II
3 cr. Undergraduate/Graduate.
Testing statistical hypothesis; linear hypothesis; regression; analysis of variance and experimental designs; distribution-free methods; sequential methods.
Prerequisites: jr st; MthStat 361(P).
Course Rules: Not recom for grad students in math.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MTHSTAT 361 Introduction to Mathematical Statistics I
3 cr. Undergraduate/Graduate.
Probability spaces; discrete and continuous, univariate and multivariate distributions; moments; independence, random sampling, sampling distributions; normal and related distributions; point and interval estimation.
Prerequisites: jr st; Math 233(P).
Course Rules: Not recom for grad students in math, or students not planning to take MthStat 362.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MTHSTAT 362 Introduction to Mathematical Statistics II
3 cr. Undergraduate/Graduate.
Testing statistical hypothesis; linear hypothesis; regression; analysis of variance and experimental designs; distribution-free methods; sequential methods.
Prerequisites: jr st; MthStat 361(P).
Course Rules: Not recom for grad students in math.
Last Taught: Spring 2018, Fall 2017, Spring 2017, Fall 2016.
Current Offerings: http://uwm.edu/schedule

MTHSTAT 465 Introductory Mathematical Statistics for Social Sciences and Education
3 cr. Undergraduate/Graduate.
Probability distributions; parameter estimation and confidence intervals; hypothesis testing; applications.
Prerequisites: jr st; Math 211(P) or 232(P).
Course Rules: Not open for cr to students w/cr in MthStat 467, 362, or for grad cr in math. Not open for cr toward major in math except in School of Education.
Current Offerings: http://uwm.edu/schedule

MTHSTAT 467 Introductory Statistics for Physical Sciences and Engineering Students
3 cr. Undergraduate/Graduate.
Concepts of probability and statistics; probability distributions of engineering applications; sampling distributions; hypothesis testing, parameter estimation; experimental design; regression analysis.
Prerequisites: jr st; Math 233(P).
Course Rules: Not open for cr for Math majors or students with cr in MthStat 362 or 465.
Current Offerings: http://uwm.edu/schedule

MTHSTAT 469 Biostatistics
3 cr. Undergraduate/Graduate.
Simple distributions, estimation and hypothesis testing, simple regression, analysis of variance, nonparametric methods in biology. Demography and vital statistics and bioassay and clinical trials.
Prerequisites: jr st; an elementary stats course.
Course Rules: Not allowed as part of core curric for Math majors. Not open for cr to students with cr in MthStat 569 & not open for grad cr in Math.
Last Taught: Fall 1987, Fall 1986, Spring 1984.
Current Offerings: http://uwm.edu/schedule

MTHSTAT 489 Internship in Mathematical Statistics, Upper Division
1-6 cr. Undergraduate.
Application of advanced principles of mathematical statistics in a business, organizational, educational, governmental, or other appropriate setting.
Prerequisites: jr st; 6 cr 300-level or above in Math or MthStat; 2.5 gpa in the major; cons supervising faculty member.
Course Rules: One cr earned for academic work based on 40 hrs in internship. May be retaken to 6 cr max.
Current Offerings: http://uwm.edu/schedule

MTHSTAT 499 Ad Hoc:
1-6 cr. Undergraduate.
Course created expressly for offering in a specified enrollment period. Requires only dept & assoc dean approval. In exceptional circumstances, can be offered in one add’l sem.
Prerequisites: jr st; add’l prereqs may be assigned to specific topic.
Course Rules: May be retaken w/chg in topic.
Current Offerings: http://uwm.edu/schedule

MTHSTAT 562 Design of Experiments
3 cr. Undergraduate/Graduate.
Latin squares; incomplete block designs; factorial experiments; confounding; partial confounding; split-plot experiments; fractional replication.
Prerequisites: jr st; MthStat 362(P), Math 234(P) or 240(P).
Last Taught: Fall 2008, Fall 2006, Fall 2004, Fall 2002.
Current Offerings: http://uwm.edu/schedule

MTHSTAT 563 Regression Analysis
3 cr. Undergraduate/Graduate.
Straight line, polynomial and multiple regression; multiple and partial correlation; testing hypotheses in regression; residual analysis.
Prerequisites: jr st; MthStat 467(P) or 362(P).
Last Taught: Fall 2017, Fall 2016, Fall 2015, Fall 2014.
Current Offerings: http://uwm.edu/schedule

Actuarial Science, BA

Actuarial science is the quantitative analysis of risk. In addition to mathematics and statistics courses, students in actuarial science take classes in finance, economics and computer programming.

At many universities, actuarial sciences is housed in the business department. We believe that the most successful actuaries have an extensive foundation in mathematics and in the broader liberal arts, and therefore our program is housed in our Department of Mathematical Sciences.

While you will take several business classes, you will also be heavily exposed to the broader context in which risk exists in our lives. Through economics courses and other courses in the social sciences and humanities, you will see how actuarial science is not practiced in a vacuum but has real-life implications and impact on businesses, individuals, and communities as a whole.

Students interested in actuarial science should make every effort to prepare themselves in high school by taking four years of challenging math classes. Ideally, students will enter college ready to start in the first semester of calculus.

As students progress in our program, they begin to take the professional exams required of actuaries, making themselves more attractive job candidates. Our location in Milwaukee, the largest city in Wisconsin and home to many large and small companies, also gives our students easier access to internships and part-time jobs compared to smaller cities. If you are looking for more advanced training beyond the bachelor’s level, explore our Master’s of Science in Mathematical Sciences (http://uwm.edu/math/graduate/programs/ms-program). In this program, you can obtain graduate-level training in actuarial science.

Requirements

Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

College of Letters & Science Requirements

I. English Writing Requirement
Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning
To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 103</td>
<td>Contemporary Applications of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 105</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>
<td></td>
</tr>
<tr>
<td>ANTHRO 568</td>
<td>Introduction to Anthropological Statistics</td>
<td></td>
</tr>
<tr>
<td>ATM SCI 500</td>
<td>Statistical Methods in Atmospheric Sciences</td>
<td></td>
</tr>
<tr>
<td>BIO SCI 465</td>
<td>Biostatistics</td>
<td></td>
</tr>
<tr>
<td>ECON 210</td>
<td>Economic Statistics</td>
<td></td>
</tr>
<tr>
<td>GEOG 247</td>
<td>Quantitative Analysis in Geography</td>
<td></td>
</tr>
<tr>
<td>HIST 595</td>
<td>The Quantitative Analysis of Historical Data</td>
<td></td>
</tr>
<tr>
<td>MTHSTAT 215</td>
<td>Elementary Statistical Analysis</td>
<td></td>
</tr>
<tr>
<td>PHILOS 211</td>
<td>Elementary Logic</td>
<td></td>
</tr>
<tr>
<td>POL SCI 390</td>
<td>Political Data Analysis</td>
<td></td>
</tr>
<tr>
<td>POL SCI 392</td>
<td>Survey Research</td>
<td></td>
</tr>
<tr>
<td>PSYCH 210</td>
<td>Psychological Statistics</td>
<td></td>
</tr>
<tr>
<td>SOCIOL 261</td>
<td>Introduction to Statistical Thinking in Sociology</td>
<td></td>
</tr>
</tbody>
</table>

Note: This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

III. Foreign Language Requirement
Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)</td>
<td>0-18</td>
</tr>
<tr>
<td></td>
<td>Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)</td>
<td></td>
</tr>
</tbody>
</table>

IV. International Requirement
See Approved Courses for the L&S International Requirement (p. 1169) for course options.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Complete 9 credits in combination of the two options above</td>
<td></td>
</tr>
</tbody>
</table>

V. Breadth Requirement
Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+ designation, L&S students must complete the Breadth requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Arts</td>
<td></td>
<td>3</td>
</tr>
<tr>
<td>Humanities</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area.*

Social Sciences
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area.

Natural Sciences
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area.

Cultural Diversity
Complete 3 credits in a course with Cultural Diversity (CD) designation.**

* Students should check their course selections carefully with the list of approved L&S Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

VI. The Major
The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students complete in residence at UWM at least 15 upper-division (numbered 300 or above) credits in the major. The College of Letters & Science requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA in the major attempted at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Actuarial Science Major Requirements
Preparatory Curriculum
Students in all majors in the Department of Mathematical Sciences must complete MATH 231 (or MATH 213), MATH 232, and MATH 233 (or equivalent). MATH 221 and MATH 222 are equivalent to MATH 231, MATH 232, and MATH 233. Students majoring in actuarial science must have a GPA of at least 2.500 in these courses. All majors must take either MATH 234 or MATH 240, as well as a course in computer programming in a modern, high-level language (e.g., COMPSCI 151, COMPSCI 250, or COMPSCI 251). Actuarial science majors must complete additional preparatory curricula, as indicated below.

Capstone Experience
Students in all majors and major options in the Department of Mathematical Sciences must complete a Capstone Experience. The aim of the department’s capstone experience is to encourage independent learning. Students complete a research paper in the context of this course, which satisfies the L&S research requirement. For Actuarial Science majors, the capstone is MATH 599. Students must obtain consent of a professor to enroll in ATM SCI 599 or MATH 599.

Requirements
Students must complete the courses listed below, including at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM. The College of Letters & Science requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work.

**Total Credits**: 55

**Recommended Electives**

To achieve the best preparation for an actuarial career, students actively should pursue internship opportunities with insurance companies, consulting firms, and other organizations that require actuarial science knowledge. Once such an opportunity is secured, the student should enroll in MTHSTAT 489. Students also should take courses in communication (COMMUN 103, COMMUN 264) and expand their knowledge in economics (ECON 248, ECON 450). Note that ECON 248 satisfies the cultural diversity requirement.

**Letters & Science Advising**

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus' general education requirements and the College's degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

Students considering a major in the Department of Mathematical Sciences need to come to the department to declare their major and be assigned a faculty advisor. All courses selected for the major must be approved by the advisor, and students should check regularly with their advisors to plan their courses of study in a coherent and timely fashion.

**Honors in the Major**

Students in Actuarial Science who meet all of the following criteria can be awarded honors in the major upon graduation:

1. A 3.000 cumulative GPA in all UWM graded credits;
2. A 3.500 GPA over all UWM courses counting toward the Actuarial Science major;
3. A 3.500 GPA over all upper-division UWM courses counting toward the Actuarial Science major; and
4. The passing of at least three professional actuarial exams.

Students who believe they may qualify for honors in Actuarial Science should apply to the Mathematical Sciences Department during their last semester of study.

**Honors in the College of Letters and Science**

**Dean's Honor List**

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

**Commencement Honors**

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

**Contact Information**

Current Students contact Professor Yang Ho, hoy@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

http://uwm.edu/math/undergraduate/majors/actuarial-science/

**Actuarial Science, Minor**

Actuarial science is the quantitative analysis of risk. In addition to mathematics and statistics courses, students in actuarial science take classes in finance, economics and computer programming.

At many universities, actuarial sciences is housed in the business department. We believe that the most successful actuaries have an extensive foundation in mathematics and in the broader liberal arts, and
therefore our program is housed in our Department of Mathematical Sciences.

While you will take several business classes, you will also be heavily exposed to the broader context in which risk exists in our lives. Through economics courses and other courses in the social sciences and humanities, you will see how actuarial science is not practiced in a vacuum but has real-life implications and impact on businesses, individuals, and communities as a whole.

Students interested in actuarial science should make every effort to prepare themselves in high school by taking four years of challenging math classes. Ideally, students will enter college ready to start in the first semester of calculus.

As students progress in our program, they begin to take the professional exams required of actuaries, making themselves more attractive job candidates. Our location in Milwaukee, the largest city in Wisconsin and home to many large and small companies, also gives our students easier access to internships and part-time jobs compared to smaller cities. If you are looking for more advanced training beyond the bachelor’s level, explore our Master’s of Science in Mathematical Sciences (http://uwm.edu/math/graduate/programs/ms-program). In this program, you can obtain graduate-level training in actuarial science.

Requirements

Students must complete at least 9 upper-division (numbered 300 and above) credits for the minor in residence at UWM. The College of Letters & Science requires that students attain at least a 2.500 GPA on all credits attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work.

</tr>
</tbody>
</table>

**Total Credits** 17-20

1 Admission to the minor requires a minimum GPA of 2.500 in these courses or an equivalent course sequence. Students who have completed these courses with the required GPA may complete a formal declaration of minor at the department office. These courses do not count in the minor GPA.

2 BUS ADM 450 or ECON 301 & ECON 302 should be completed with a grade of B- or better.

**Contact Information**

Current Students contact Professor Yang Ho, hoy@uwm.edu
Prospective Students contact a Letters & Science Admissions Counselor at (414) 229-7711 or let-sci@uwm.edu

http://uwm.edu/math/undergraduate/majors/actuarial-science/

**Applied Math and Computer Science, BS (College of Letters and Science, Department of Mathematics)**

The Applied Mathematics and Computer Science (AMCS) program is a special degree program that blends courses from both the College of Letters & Science and the College of Engineering & Applied Science. It is a structured curriculum offering courses from both applied math and computer science so that students get the benefit of both majors without having to double major.

The job outlook for individuals with math majors is extremely favorable, as is the job outlook for computer science majors. A student with combined knowledge in both areas is likely to be in high demand on the job market.

Our program is highly technical in nature yet still retains elements of a classic liberal arts degree. Students take courses in the humanities, social sciences, and natural sciences on their way to a degree. Why? Because math and computer science are not applied in a world without humans. Regardless of the type of industry, the applications being worked on have impact and consequences for human beings. A broad world view of cultures, history, and society only leads to better decision-making in scientific careers, and strong communication skills only make our graduates even more attractive.

**Requirements**

**Applied Math and Computer Science Major Requirements**

Students who intend to complete the program in four years will need to begin taking mathematics in their first semester. Such students should have a University of Wisconsin-Milwaukee mathematics placement level of 30 (ready for precalculus) or better.

**Admission**

As soon as students realize their interest in the AMCS degree, they should consult with an AMCS advisor either in College of Engineering and Applied Science or College of Letters and Science, who assists in planning a program. Students may be given the AMCS classification at any point in their studies; however, they are not formally admitted to the major until their junior year. Admission to the junior year of the program requires a GPA of at least 2.500 in 8 credits of mathematics courses at or above the 200 level and 6 credits of computer science courses at or above the 200 level.

**Degree Requirements**

For the BS (AMCS) degree, 120 credits are required, of which 80 must be taken from the College of Letters and Science. Students must satisfy...
the general education requirements (GER) of the University. They must complete at least 6 credits each from humanities and social sciences, 3 credits from the arts, and 6 additional credits in any of these three areas or in foreign languages. Students also must take at least 8 credits of natural sciences outside of mathematics or mathematical statistics, including at least one laboratory course from biological sciences, chemistry, or physics. A cultural diversity course must be included among the humanities and social science courses selected.

An overall GPA of 2.000 on all coursework attempted at UWM is required for this degree. In addition, students must achieve a 2.000 GPA on all coursework attempted, including transfer work. A minimum 2.000 GPA must be earned on all 300-level and above courses taken to satisfy the advanced requirements. Students satisfy the residency requirement for the degree by completing at UWM both a minimum of 15 credits of the required advanced courses and one of the following:

- The last 30 credits;
- 45 of the last 60 credits;
- Any 90 credits.

Honors in the Degree

Students in AMCS who meet all of the following criteria can be awarded honors in the degree upon graduation:

1. A 3.000 cumulative GPA in all UWM graded credits;
2. A 3.500 GPA over all UWM courses attempted that count toward the AMCS degree;
3. A 3.500 GPA over all upper division UWM courses counting toward the AMCS degree;
4. A grade of B+ or better in one of: MATH 599, MATH 699, COMPSCI 595, or COMPSCI 699;
5. Completion of 3 credits in Mathematical Sciences (curricular areas MATH or MTHSTAT) or Computer Science in a course numbered 600 or higher that is different from MATH 699 and COMPSCI 699.

Honors in the College of Letters and Science

Dean's Honor List
GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Contact Information

Atmospheric Science, BS

Atmospheric Science is the study of short-term weather and long-term climate, involving activities such as weather forecasting, climate projections, air quality modeling, data analysis, and basic and applied research.

Some universities may call this major "Meteorology." We call it Atmospheric Science because our program is much broader than just weather forecasting. Students in our program will obtain a solid foundation in the mathematical modeling that forms the basis of analysis not just of tomorrow's expected weather but also long-term climate change, storm impact and predictability, pollution patterns and impact, and the consequences of weather to people and organizations.

While TV weather forecasters may be the most visible job outcome for an Atmospheric Science major, the fact is that there are a very limited number of these jobs nationally. Most majors work in other areas of the field such as research, government agencies such as NASA and NOAA, consulting firms, and schools. As more and more companies realize the impact weather can have on business operations, more job opportunities are opening in the private sector, and this is the sector with the greatest projected job growth.

Atmospheric Science students at UWM have a unique opportunity not found at any other university in the state. Our Innovative Weather program (http://innovativeweather.com) is hired by numerous businesses such as the Milwaukee Brewers and We Energies that need to make decisions based on the weather. Students work with these clients to provide customized forecasts and risk analysis. The Atmospheric Science major provides distinct tracks that help prepare students for careers in weather forecasting, natural hazard risk assessment, and data analytics, or for graduate study.

Requirements

Course of Study – Bachelor of Science Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated upper-level Natural Science. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they
entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

**College of Letters & Science Requirements**

**I. English Writing Requirement**

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond English 102 on the English Placement Test (EPT).

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:  

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 211</td>
<td>Survey in Calculus and Analytic Geometry</td>
<td>4</td>
</tr>
<tr>
<td>MATH 221</td>
<td>Honors Calculus I</td>
<td>5</td>
</tr>
<tr>
<td>MATH 231</td>
<td>Calculus and Analytic Geometry I</td>
<td>4</td>
</tr>
</tbody>
</table>

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 212, or Letters and Science statistics courses:  

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 or more credits in any 200-level or above Math course</td>
<td></td>
<td></td>
</tr>
<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>
<td></td>
</tr>
<tr>
<td>ANTHRO 568</td>

<td></td>
</tr>
<tr>
<td>GEOG 247</td>
<td>Quantitative Analysis in Geography</td>
<td></td>
</tr>
<tr>
<td>HIST 595</td>
<td>The Quantitative Analysis of Historical Data</td>
<td></td>
</tr>
<tr>
<td>MTHSTAT 215</td>
<td>Elementary Statistical Analysis</td>
<td></td>
</tr>
<tr>
<td>PHILOS 211</td>
<td>Elementary Logic</td>
<td></td>
</tr>
<tr>
<td>POL SCI 390</td>
<td>Political Data Analysis</td>
<td></td>
</tr>
<tr>
<td>POL SCI 392</td>
<td>Survey Research</td>
<td></td>
</tr>
<tr>
<td>PSYCH 210</td>
<td>Psychological Statistics</td>
<td></td>
</tr>
<tr>
<td>SOCIOL 261</td>
<td>Introduction to Statistical Thinking in Sociology</td>
<td></td>
</tr>
</tbody>
</table>

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

**III. Foreign Language Requirement**

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

**IV. International Requirement**

See Approved Courses for the L&S International Requirement (p. 1169) for course options.
Atmospheric Science (BS) Major Requirements

Preparatory Curriculum
Students in all majors in the Department of Mathematical Sciences must complete MATH 231 (or MATH 213), MATH 232, and MATH 233 (or equivalent). MATH 221 and MATH 222 are equivalent to MATH 231, MATH 232, and MATH 233. All majors must take either MATH 234 or MATH 240. Atmospheric science majors must complete additional preparatory curricula, as indicated below.

Capstone Experience
Students in all majors and major options in the Department of Mathematical Sciences must complete a "Capstone Experience." The aim of the department’s capstone experience is to encourage independent learning. Students complete a research paper in the context of this course, which satisfies the L&S research requirement. For Atmospheric Science majors, the capstone is ATM SCI 599. Students must obtain consent of a professor to enroll in ATM SCI 599.

Requirements
Students must complete at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM. The College of Letters & Science requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including any transfer work. The following courses are required for the atmospheric science major:

<table>
<thead>
<tr>

In Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (https://uwm.edu/letters-science/advising/contact-advising) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (https://uwmilwaukee.campus.eab.com) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email let-sci@uwm.edu.

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

**Honors in the Major**

Students in Atmospheric Sciences who meet all of the following criteria can be awarded honors in the major upon graduation:

1. A 3.000 cumulative GPA in all UWM graded credits;
2. A 3.500 GPA over all UWM courses counting toward the Atmospheric Sciences major;
3. A 3.000 cumulative GPA in all UWM graded credits;
4. Successful completion of at least two semesters of research and/or internship experiences. The research and internship experiences can include one or more of the Capstone Experience (ATM SCI 599), a directed independent study for credit (ATM SCI 699), an internship for credit (ATM SCI 695), the Atmospheric Sciences Study Abroad course (ATM SCI 297/ATM SCI 497), undergraduate research for compensation, and participation in the Innovative Weather program at the staff level. The staff level of Innovative Weather is the third level of participation, coming after a pre-internship (several weeks in one semester) and an internship (one semester at 5-10 hours per week). Staff positions are paid, and staff members typically work around 10 hours per week during the fall or spring semesters, more in the summer session.

Students who believe they may qualify for honors in Atmospheric Sciences should apply to the Mathematical Sciences Department during their last semester of study.

**Atmospheric Science Advising**

Students considering a major in Atmospheric Science need to come to the department to declare their major and be assigned a faculty advisor. All courses selected for the major must be approved by the advisor, and students should check regularly with their advisors to plan their courses of study in a coherent and timely fashion.

**Letters & Science Advising**

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus' general education requirements and the College's degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program
Honors in the College of Letters and Science

Dean's Honor List
GPA of 3.750 or above, earned on a full-time student’s GPA on 12 or more graded credits in a given semester.

Honors Degree and Honors Degree with Thesis
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 36) section of this site.

Commencement Honors
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

Final Honors
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

Atmospheric Science, Minor
Atmospheric Science is the study of short-term weather and long-term climate, involving activities such as weather forecasting, climate projections, air quality modeling, data analysis, and basic and applied research.

Some universities may call this field “Meteorology;” we call it Atmospheric Science because our program is much broader than just weather forecasting.

Atmospheric Science students at UWM have a unique opportunity not found at any other university in the state. Our Innovative Weather program (http://innovativeweather.com) is hired by numerous businesses such as the Milwaukee Brewers and We Energies that need to make decisions based on the weather. Students work with these clients to provide customized forecasts and risk analysis.

Requirements
The College of Letters and Science requires that students must complete at least 9 upper-division (numbered 300 and above) credits in the minor in residence at UWM, and students must attain at least a 2.500 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.500 GPA on all minor credits attempted, including any transfer work.

The minor consists of a minimum of 18 credits in atmospheric science, as follows.

Thesis

Prior to graduation, students, under the direction of a major professor and supervision of a three-member evaluation committee comprised of Atmospheric Science graduate faculty, must complete and orally defend an acceptable thesis. An acceptable thesis is defined as one representing an original contribution in the atmospheric science of sufficient caliber for publication in a peer-reviewed journal.

Time Limit

Entering full-time students without deficiencies are expected to complete all degree requirements within two years of first enrollment. All degree requirements must be completed within five years of first enrollment.

Atmospheric Science, PhD

The UWM Atmospheric Science Program, housed within the Department of Mathematical Sciences, is a group of scholars who engage in a wide array of distinguished, societally-relevant research currently supported by over $3 million in external funding. Their specializations include climate variability, cloud physics and numerical modeling, atmospheric dynamics, mesoscale and synoptic meteorology, air pollution meteorology, and data analytics. The Atmospheric Science graduate programs are focused on student-led research under the direction of one or more faculty advisors.

Over its twenty-plus years of existence, the program has a history of innovation in both education and research, with the Innovative Weather program and first-of-its-kind “Air Pollution and Ancient Cultures” faculty-led study abroad course being two representative examples of innovative educational opportunities. Students graduating from the program, have a long history of acquiring gainful employment with top-tier public and private sector institutions in Wisconsin and beyond.

Application Deadlines

If at any time you are unsure about a published date or deadline (http://uwm.edu/graduateschool/program-deadlines), call the Registrar’s Office at (414) 229-3800 or submit a contact form (http://uwm.edu/registrar/contact-us) online.

Admission

Students seeking admission to the Ph.D. in Atmospheric Science degree program must meet all UWM Graduate School requirements. An earned Master of Science degree is not a prerequisite for admission; however, it is expected that most applicants will have an earned master of science degree in atmospheric science or a closely-related discipline.

Entering students without an earned master of science degree should have a general background in both physics and mathematics, including calculus and ordinary differential equations. Students who lack this background may be admitted if the deficiencies amount to no more than two courses, and deficiencies must be made up within three enrolled semesters of graduate study.

Courses in Atmospheric Science that may be taken for graduate credit are ATM SCI 998 level or above; three credits of graduate coursework, at least half of which will be completed at the 700-level or above; typical Ph.D. student's curriculum will consist of twelve credits of formal coursework from other curricular areas. With the approval of their major professor, students may elect to supplement their formal Atmospheric Science coursework with advanced independent reading or professional development. It is expected that most students are expected to identify additional graduate courses that benefit their studies as specified in Graduate School regulations.

Credits and Courses

Students enrolled in the Ph.D. in Atmospheric Science program must complete a total of fifty-four (54) graduate credits beyond the bachelor’s degree with at least twenty-seven (27) earned in residence at UWM. Students receiving financial support from the Department of Mathematical Sciences must enroll in a minimum of fifteen (15) credits offered by the department during each academic year. As part of their 54 credits, students admitted directly to the Ph.D. program without an earned Master of Science in Atmospheric Science from UWM or elsewhere have fulfilled Master's degree/pre-doctoral coursework and Seminar on Topics in Atmospheric Sciences: ("Topics in Statistical Analysis and Interpretation of Geophysical Data Sets: Part II")

Preliminary Examination

To qualify for dissertator status, students must successfully pass a preliminary examination in Atmospheric Science, focusing on three sub-disciplines of the field, and complete a dissertation proposal hearing. With approval of their major professor, students may elect to substitute an area of mathematics for one of the three Atmospheric Science sub-disciplines on the preliminary examination. The preliminary examination must be attempted prior to the start of the third year of study, and students who fail the examination are permitted one retake. The preliminary examination and dissertation proposal hearing must both be completed no later than the end of the fourth year of study.

Dissertation

To receive the degree, students, under the direction of a major professor and supervision of a five-member evaluation committee, must complete and successfully defend a dissertation representing an original contribution to the field of sufficient caliber for publication in a peer-reviewed journal. The evaluation committee is to be comprised of four Atmospheric Science graduate faculty members and one member external to the program.

Time Limit

Entering full-time students with an earned Master of Science degree are expected to complete all degree requirements within three to four years of first enrollment. Entering full-time students without an earned Master
of Science degree are expected to complete all degree requirements within five to six years of first enrollment. All degree requirements must be completed within ten years of first enrollment, consistent with UWM’s campus-wide policy.

**Mathematics, BA**

Mathematics is the international language of science and technology. Much of the subject matter in engineering and the natural sciences, as well as some social sciences such as economics, is presented in mathematical terms. Mathematical and statistical techniques are vital in fields that usually are not considered mathematical, such as biology, psychology, and political science.

Some students come to mathematical sciences with the intention of teaching in high school or college or pursuing research in mathematics. Some are attracted to mathematics for its own sake, for the beauty, discipline, logic, and problem-solving challenges. Other students pursue mathematics in order to achieve deeper understanding in their own areas of study.

Many students assume that most math majors become teachers. While many do, there are many other opportunities for math majors. The United States National Security Agency is the largest employer of math majors in the country. Math majors will also be found at NASA; in engineering firms; at insurance and risk management firms; in robotics and computer science companies; at large and small corporations working in market research, data management and web management; at social media start ups and established firms like YouTube; and any place that needs to make decisions based on numerical facts.

At UWM, the Math major has been designed to be flexible so that students could complete their major requirements via courses that match their interests and goals. Many students should find it relatively easy to complete double majors in mathematics and another subject.

Most mathematics courses belong in one of the following four groups: applied mathematics, computational mathematics, pure mathematics, and statistics.

- Applied Mathematics is a discipline using mathematical analysis to solve problems coming from outside the field of mathematics.
- Computational mathematics is closely related to applied mathematics. It emphasizes techniques of scientific computing and other computational analysis.
- Pure mathematics emphasizes the theory and structure underlying all areas of mathematics.
- Statistics is a field of mathematics that provides strategies and tools for using data to gain insight into real-world and experimental problems.

Students of the sciences, engineering, computer science, economics, and business often complete a significant number of mathematical sciences credits. These students are encouraged to take a mathematics major or minor, which adds an official recognition of important analytical skills valued by employers and graduate schools.

Students interested in teaching mathematics at the K-12 level should examine the School of Education (p. 426) programs.

Some students with an interest in computer science, choose to enroll in the Applied Math and Computer Science (p. 1609) program. This program is ideal for the student who might have considered double majoring in both math and computer science; it combines applied math courses with computer science classes for you into one program.

**Requirements**

**Course of Study – Bachelor of Arts Degree**

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

**University General Education Requirements (GER)**

**Oral and Written Communication**

**Part A**

ENGLISH 102 College Writing and Research (or equivalent)

**Part B**

Course designated as OWC-B; may be completed through a major-specific course requirement

**Quantitative Literacy**

**Part A**

Select one of the following:

- MATH 103 Contemporary Applications of Mathematics
- MATH 105 Introduction to College Algebra
- MATH 108 Algebraic Literacy II
- Or equivalent course

**Part B**

Course designated as QL-B; may be completed through a major-specific course requirement

**Arts**

Select 3 credits

**Humanities**

Select 6 credits

**Social Sciences**

Select 6 credits

**Natural Sciences**

Select 6 credits (at least two courses including one lab)

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

- Two years (high school) of a single foreign language
- Two semesters (college) of a single foreign language
- Or equivalent

**UWM Cultural Diversity Requirement**
College of Letters & Science Requirements

I. English Writing Requirement

Students must satisfy the English Writing Requirement by completing ENGLISH 102 with a grade of C or higher or by placing beyond ENGLISH 102 on the English Placement Test (EPT).

Note: This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a Math Placement Level of at least 30 or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 102</td>
<td>Mathematical Literacy for College Students II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 103</td>

<td>3</td>
</tr>
<tr>
<td>MATH 105</td>
<td>Introduction to College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Algebraic Literacy II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Mathematical Explorations for Elementary Teachers I</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Complete one of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFRICOL 220</td>
<td>Introduction to Statistics in Africology</td>

</tr>
<tr>
<td>PSYCH 210</td>
<td>Psychological Statistics</td>
<td></td>
</tr>
<tr>
<td>SOCIOL 261</td>
<td>Introduction to Statistical Thinking in Sociology</td>
<td></td>
</tr>
</tbody>
</table>

Note: This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. The courses listed here will satisfy the QL-B requirement.

III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Complete 12 credits of L&S courses with Social Science Breadth designation; no more than 6 credits from a single subject area.

Complete 9 credits in combination of the two options above.

<table>
<thead>
<tr>
<th>Code</th>

<td></td>
</tr>
<tr>
<td>SOCIOL 261</td>
<td>Introduction to Statistical Thinking in Sociology</td>
<td></td>
</tr>
</tbody>
</table>

Note: This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.

Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.

Complete 9 credits in combination of the two options above.

IV. International Requirement

See Approved Courses for the L&S International Requirement (p. 1169) for course options.

V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+ ) designation, L&S students must complete the Breadth requirement.

Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area.

Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area.

Natural Sciences
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area.

Cultural Diversity
Complete 3 credits in a course with Cultural Diversity (CD) designation.

* Students should check their course selections carefully with the list of approved L&B Breadth Courses (p. 1178). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

** Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

VI. The Major
The College of Letters and Science requires that students attain at least a 2.5 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.5 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

Research Requirement
Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (p. 1174).

Mathematics Major Requirements
Preparatory Curriculum
Students in all majors in the Department of Mathematical Sciences must complete MATH 231 (or MATH 213), MATH 232, and MATH 233 (or equivalent). MATH 221 and MATH 222 are equivalent to MATH 231, MATH 232, and MATH 233. Students majoring in mathematics must have a GPA of at least 2.500 in these courses. All majors must take either MATH 234 or MATH 240, as well as a course in computer programming in a modern, high-level language (e.g., COMPSCI 151, COMPSCI 250, or COMPSCI 251). The department also recommends strongly one year of calculus-based physics.

Capstone Experience
Students in all majors and major options in the Department of Mathematical Sciences must complete a "Capstone Experience." The aim of the department’s capstone experience is to encourage independent learning. Students complete a research paper in the context of this course, which satisfies the L&S research requirement. Mathematics majors may choose either MATH 599 or MATH 575. Students must obtain consent of a professor to enroll in MATH 599.

Requirements
The following courses are required for the Mathematics major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 341</td>
<td>Seminar: Introduction to the Language and Practice of Mathematics</td>
<td>3</td>
</tr>
</tbody>
</table>

Select 24 credits in upper-division math courses (those numbered 300 and above, and in curricular areas MATH or MTHSTAT). Required among these 24 upper-division math credits are at least six credits in math courses numbered 500 and above, excluding MATH 591, MATH 599, MATH 699 or MTHSTAT 591.

Total Credits 27

Additional Requirements
- Note that MATH 381 and MTHSTAT 465 and MTHSTAT 467 are not open for credit in the Mathematics major.
- Students must complete at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM.
- The College requires that students attain at least a 2.500 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.500 GPA on all major credits attempted, including transfer work.

Recommendations
Mathematics courses fall naturally into the following groups (see below for individual courses):

1. Applied Mathematics
2. Computational Mathematics
3. Probability and Statistics
4. Pure Mathematics

For students planning to pursue graduate studies in mathematics, we recommend students take at least 36 cr upper division mathematics courses, with as many courses as possible from Pure Mathematics, Group 1. Many PhD programs require reading knowledge of French, German, or Russian.

For students planning to pursue graduate studies in statistics or economics, we recommend MATH 521, MATH 522, and as many as possible of MTHSTAT 361, MTHSTAT 362, and MTHSTAT 562-MTHSTAT 568.

For students seeking employment in statistics after the bachelor's degree, we recommend MTHSTAT 361, MTHSTAT 362, and as many as possible of MTHSTAT 562-MTHSTAT 568, as well as courses in computer programming (COMPSCI 250, COMPSCI 251, etc.).

For students seeking general non-academic employment after the bachelor's degree, we recommend courses from the Probability and Statistics group (including MTHSTAT 362), the Applied Mathematics group (including both modeling and differential equations), the Computational Mathematics group, Linear Algebra (MATH 535), and courses in computer programming (COMPSCI 240, COMPSCI 250, COMPSCI 251, etc.).

For students intending to become high school mathematics teachers, we recommend courses in algebra (MATH 431, MATH 531), geometry (MATH 451, MATH 453), linear algebra (MATH 535), numerical methods (MATH 413), advanced calculus (MATH 521, MATH 522), the math education capstone (MATH 575), and probability and statistics (MTHSTAT 361 & MTHSTAT 362).

For students pursuing a major in mathematics as a liberal art, for general logical and critical thinking skills, we recommend the Pure Mathematics courses.
