

HEALTHY AGING, UNDERGRADUATE CERTIFICATE

For additional information, contact the program coordinator in the Center for Aging and Translational Research, catr@uwm.edu, (414) 229-7313.

Effective Spring 2023, the Healthy Aging certificate has suspended admission.

The Undergraduate Certificate in Healthy Aging is an interdisciplinary program housed in the Center for Aging and Translational Research. The certificate is designed for students:

1. To acquire basic foundational knowledge in the processes of aging, issues regarding aging, and the challenges of older adulthood.
2. To understand the interdisciplinary and integrative nature of gerontology.
3. To have practical experiences with older adults.

The certificate is open to all undergraduate students as well as non-degree seeking students with a bachelor's degree. Undergraduate students may earn the certificate in conjunction with any major. Those with a bachelor's degree may choose to complete the program to enhance their job performance or increase their marketability in the field of aging. Certificate completion will be posted on a student's official transcript and an official paper certificate will be sent to the student.

Effective Spring 2023, the Healthy Aging certificate has suspended admission.

Requirements

The student must maintain a 2.5 GPA for the 18 credits that meet certificate requirements.

The program consists of 18 credits including:

Code	Title	Credits
Core Curriculum		
SOC WRK 300	Aged to Perfection: Introduction to the Study of Aging	3
Select 6 credits from core curriculum courses in the following areas: ¹		6
Biological Aging		
Psychological Aging
