Do you want to be a force for change to improve community health for all? Are you interested in many disciplines, from biology and environmental sciences, to history and ethics, to social sciences and public policy? Then Public Health may be the major for you!

The BS in Public Health is an exciting new interdisciplinary program in the Zilber School (https://uwm.edu/publichealth). The program provides students with transferable knowledge, skills, and experiences – both in the classroom and in communities. Students learn to effectively, ethically, and creatively diagnose, analyze, and solve a range of public health problems across diverse social and cultural contexts. This new undergraduate degree program in public health gives students access to one of the nation’s top universities for research and community engagement, and to Wisconsin’s only accredited school dedicated to public health.

Job prospects for public health graduates are excellent. Trained public health professionals are essential to ensuring the health of communities and societies. In Wisconsin and nationally there is a shortage of skilled public health workers, and this shortage is projected to increase over time due to an aging public health workforce. Graduates will be equipped to enter public health and related careers in a wide variety of settings, including healthcare organizations, for-profit organizations, government agencies, non-profits, and academic institutions.

Our 120 credit program includes 39 credits of general education foundations coursework, 54 credits of Public Health major requirements, and 27 elective credits tailored to each student’s interests and career goals. The elective credits give all students the flexibility to combine their BS in Public Health degree with specialization in one of UW-Milwaukee’s many certificates (http://catalog.uwm.edu/programs/#filter=filter_46) or minors (http://catalog.uwm.edu/programs/#filter=filter_26&filter_19) of their choice.

Please email applyph@uwm.edu to learn more about the BS in Public Health degree.

For admissions information, see the Undergraduate Admission (https://catalog.uwm.edu/admission-costs/undergraduate-admission/#text) section of this catalog.

**Requirements**

Students must earn a minimum of 120 credits to complete the BS in Public Health degree.

Most of the University General Education Requirements (http://catalog.uwm.edu/policies/undergraduate-policies/#generaleducationcontext) are more than satisfied through the foundations coursework and the public health major requirements. All students should work with their public health advisor to ensure they meet all GER.

Most new freshmen are required to take placement exams in English and mathematics. Additional prerequisite coursework may be required as a result of these placement tests. Credit for prerequisite academic work may not count towards the BS in Public Health degree. Entering students are urged to take their placement exams when scheduled.

If, during the program, a student falls below these minimum GPA requirements, the student will be placed on academic probation. A student who remains on probation for more than two consecutive semesters will be dismissed from the major.

Students who earn a D+ or lower in any public health major course required for graduation (54 credits) must repeat the course and earn at least a C. Courses required for the BS in Public Health degree may be repeated only once. Students who twice earn a grade lower than these requirements will be dismissed from the public health major.

Students who are struggling in their courses for any reason are encouraged to access retention services available in the Zilber School of Public Health.

**Electives**

With the help of their academic advisor, students will select electives to complete the 120 total credits required for the degree. Electives are tailored to each student’s interests and career goals. Students may choose a related area of specialization outside of the Zilber School by completing any minor (http://catalog.uwm.edu/programs/#filter=filter_46) or interdisciplinary certificate (http://catalog.uwm.edu/programs/#filter=filter_26&filter_19) offered by UWM, typically comprised of 18-22 credits. In some cases, students may choose to study two related areas, or they may complement a certificate or minor with other courses of interest.

**Certificates or Minors**

Certificates of potential interest to public health students include, but are not limited to: Community Arts, Community Engagement Strategies, Community Leadership, Comparative Ethnic Studies, Cultures and Communities, Food Studies, Global Health, Healthy Aging, Lesbian, Gay, Bisexual, and Transgender (LGBT) Studies, Quantitative Social Data Analysis, Spanish for Health Professionals, Urban Planning, and Urban Studies.

Minors of potential interest to public health students include, but are not limited to: Community Engagement, Geographic Information Science, Geography, Global Studies, Health Care Administration, International Studies, Mathematics (Statistics), Nutritional Sciences, and Women’s and Gender Studies.

**Degree and Graduation Requirements**

A minimum of 120 semester credits is required to complete the BS in Public Health degree. A cumulative GPA of 2.25 or greater, including transferable credits and all credits earned at UWM, is required for graduation. Students must also maintain an average GPA of 2.5 in all public health major courses required for graduation (54 credits total).

If, during the program, a student falls below these minimum GPA requirements, the student will be placed on academic probation. A student who remains on probation for more than two consecutive semesters will be dismissed from the major.

Students who earn a D+ or lower in any public health major course required for graduation (54 credits) must repeat the course and earn at least a C. Courses required for the BS in Public Health degree may be repeated only once. Students who twice earn a grade lower than these requirements will be dismissed from the public health major.

Students who are struggling in their courses for any reason are encouraged to access retention services available in the Zilber School of Public Health.

Total Credits 120

*Course options for BSPH Foundations (p. 1)

**Core Competencies**
The B.S. in Public Health program has 15 core competencies designed to meet Council on Education for Public Health (CEPH) accreditation requirements. Graduates of the BS in Public Health program will be able to:

1. Explain the importance of respect for diverse values, beliefs, cultures, and the dignity of individuals and communities in public health practice;
2. Explain the history and philosophy of public health, including its core values, theories, concepts, and functions in society;
3. Collect and analyze public health data using fundamental quantitative and qualitative methods and instruments;
4. Locate and evaluate primary scientific literature and other information sources (e.g., media) to inform evidence-based public health approaches;
5. Outline evidence-based approaches—using data, assessment, and evaluation—to address public health problems;
6. Explain why and how public health professionals should ethically engage in interactions with study/program participants, community (partners and stakeholders), and others to address population health and health equity;
7. Develop advocacy strategies for multi-level social policies and interventions to promote population health;
8. Assess the advantages and disadvantages of health promotion interventions for specific populations;
9. Discuss ethical social, ecological, political, and community approaches to public health dilemmas;
10. Explain the natural history of human health and disease, their biological and environmental origins, distribution among populations, and strategies for their prevention, management, and control;
11. Explain the interrelationship between hazards in the natural and built environment, and human and population health;
12. Explain multilevel and ecosocial pathways through which social, economic, legal, and political structures and systems affect population health and health inequities across the lifecourse;
13. Interpret environmental, regulatory, legal, and economic structures, as well as their interactions, within communities and health systems from the perspective of social justice and human rights;
14. Apply fundamental concepts and features of public health interventions and programs, including their planning, implementation, assessment, and evaluation; and
15. Communicate public health evidence and concepts to diverse audiences using a variety of modalities and media.

**Admission to the School of Public Health**
Students who meet the standard University admission requirements are admissible to the School of Public Health. For undergraduate admission requirements, see the Admission (http://catalog.uwm.edu/admission-costs/undergraduate-admission) section of this catalog.

**Honors in the Zilber School of Public Health**

**Dean's Honor List**
GPA of 3.500 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

**Honors Degree and Honors Degree with Thesis**
Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (http://catalog.uwm.edu/opportunities-resources/honors-college) section of this site.

**Commencement Honors**
Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. In schools and colleges in which fewer than 15% of the traditional students have a 3.500 GPA, all-university honors will be awarded to approximately the top 15% of graduating students. A criterion GPA (not lower than 3.200) for this 15% will be calculated based on statistics from the previous comparable semester. Please note that for honors calculation, the GPA is not rounded and is truncated at the third decimal (e.g., 3.499).

**Final Honors**
Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.
