Time Limit

Students in the coordinated MPH/MSW degree program must complete all degree requirements within seven years of the first enrollment semester as a degree student.

Total Degree Credits Required:

(1) **With BSW: 34 cr.**

(2) **Without a BSW: 56cr.**

Total Credits for Coordinated Degree Program:

(1) **65 - 82 cr. (with BSW)**

(2) **87-104 cr. (non-BSW)**

The credits for the coordinated program would typically be completed in both programs at the same time, rather than one program after the other. A student not completing the requirements for the coordinated degree program would need to complete all requirements for an individual program in order to receive a degree.

Program Requirements

Students may elect to change advisor contingent upon the new advisor's appropriateness to the area of specialized concentration, the advisor's acceptance of additional advisees, and formal notification to the MSW specialist in the MSW program.
